

Keep Cool by Shedding Goidle, Goitie

NEW YORK (AP)— Shed that goidle, Goitie, and keep cool the way they do in Brooklyn.

For the 37th straight year, Dr. Charles F. Pabst, chief skin specialist at Greenpoint Hospital, issues his 10 ways to beat the heat.

He was inspired, he said, by yesterday's 98.7 temperature.

Here are Dr. Pabst's 10 hot weather rules:

1. Avoid exertion and strenuous exercise.
2. Wear thin, loose clothing.
3. "Girdles are an abomination in hot weather because they prevent large portions of the skin from

their function of cooling the body."

4. Drink eight or more glasses of water and put a pinch of salt in three of them. Tom Collins? We'll get to them later.
5. Get eight hours of sleep nightly.
6. Avoid worry and excitement. Don't argue with your husband, ladies.
7. Keep air circulating in your room and office. An electric fan helps the skin shed heat even if it doesn't lower room temperature.
8. Take cool — not cold baths often. Borrow an old Chinese trick and let cold water drip onto your wrists.

Very cooling, Dr. Pabst says.

9. Avoid direct rays of the sun, especially if you are a heliophile, a person whose skin reddens and burns but never tans. Dr. Pabst says he's one too.
10. Reduce calories in your diet. Cut down on fats and leave the candy alone. Try fruits and vegetables instead.
11. Now about that Tom Collins. Dr. Pabst says: "Remember, alcohol makes you more sensitive to sunstroke. If you drink, do it in the shade."
12. Okch, girls, grab a glass and let it relax under a tree that grows in Brooklyn.

House Passes Minimum Wage

VOL. 48—NO. 108 (18 PAGES) PAMPA, TEXAS, THURSDAY, AUGUST 11, 1949 Weekdays 5 Cents Sundays 10 Cents AP Leased Wire

Bill Would Make Low Pay 75 Cents Hour

WASHINGTON (AP)— The House passed today a bill to raise the national minimum wage from 40 cents an hour to 75, as asked by President Truman.

The measure went to the Senate, where a similar minimum wage bill is pending. The Senate has set the measure aside repeatedly for other legislation, however, and it is uncertain when the bill may be called up for debate there.

The House action was, in a sense, a victory for the administration. The bill carried the 75-cent minimum advocated by the President, Secretary of Labor Tobin, and representatives of major labor organizations.

However, it also carried substantially the revision of coverage pushed by a coalition of Republicans and Southern Democrats. The bill was introduced by Rep. Lucas (D-Texas).

Earlier the House had refused to wash out three days of heated debate on minimum wage legislation by sending the whole thing back to its Labor Committee for more study.

A motion to do that lost 243 to 41 on a standing vote.

While boosting the minimum, the bill also stands to take perhaps one million workers out from under its protection.

As introduced by Rep. Lucas the bill would have boosted the minimum from its present 40 cents an hour to 75 cents, with automatic adjustments — up or down — to cost of living trends, with a 50-cent floor.

As amended to give a flat boost to a 75-cent minimum, it got tentative approval twice yesterday — 211 to 140 on an unrecorded tally, and 225 to 181 on a roll call a few minutes later.

Two roll calls were possible today — one on a motion to send the whole subject back to the House Labor Committee for further study.

'Dim Lights' Say Police

City police were given orders this week to "crack down" severely on motorists who persist in driving with their lights on bright.

"Bright lights run drunken driving a close second in the seriousness of the accidents they cause," Assistant Police Chief J. O. Dumas said this morning.

"And our boys are definitely cracking down on drivers who refuse to dim their lights in traffic," he added.

Blanche Claire Trask, 11, of 210 Albeck, became Pampa's first traffic fatality of 1949 in an accident Sunday night that was indirectly caused by a driver refusing to dim his lights.

And a week ago Monday Marion Rogers Simms, 52, S. Ballard, was killed in a high-speed accident in Kansas that also was caused by an unidentified driver's bright lights.

Little Blanche Trask was struck by a car Sunday night as she was trying to cross S. Ballard, in front of her home, Ray Miller of the garage, who was driving west on his way back home, was partially blinded by the lights on an oncoming car. Miller flipped his lights but the other driver refused to dim his own.

About that time, Blanche found she couldn't make it across the street and darted back in the path of Miller's car. She died of her injuries early Monday morning.

Simms was working for the Santa Fe Railroad Signal Department in Kansas when he was involved in an accident a week ago Monday that caused the loss of his left forearm.

Relatives said that an approaching car refused to dim its lights, causing the driver of the car that Simms was riding in to miss a turn in the road near Harper, Kans. The car skidded on loose gravel and sideswiped a bridge.

Simms was taken to a hospital at Anthony, Kans.

Pampan Dies At Lubbock

Herman Augustus Blymiller, 73, who had been in the trucking business in Pampa for many years, died about 6 a. m. today in Lubbock.

Blymiller came to Pampa in 1926, and made his home at 1129 S. Wiley. He had been ill for some time but had apparently recovered enough to go to Lubbock for a visit. His death was unexpected.

He is survived by two daughters, Mrs. Marie Smith of Lubbock and Mrs. Helen Jones of Pampa; three sons, Harold of Mantou Springs, Colo., Hally of Lubbock, and a son of a camp; by a brother, Henry Blymiller of Butler, Pa., and by 17 grandchildren.

Funeral services to be conducted by the Duenkel-Carmichael Funeral Home, are pending.

Guaranteed Commercial Refrigeration Service by experienced service men. Bert A. Howell & Co., 119 N. Ward, Ph. 152, night phone 3994M and 3895W.—adv.

HARRIMAN BACKS FULL FOREIGN ARMS POLICY

Spending May Rob Posterity Says Hoover

PAJO ALTO, Calif. (AP)— The nation today had the sober warning of its only living former President that its spending policies, if unchecked, will rob posterity of its inheritance.

Former President Herbert Hoover, in a significant address, asserted last night that the United States "is disastrously driving down the back road to collectivism at top speed."

"We have not had a great socialization of property," he said, "but we are on the last mile to collectivism through governmental collection and spending of the savings of the people."

The country's President from 1929 to 1933 spoke before an estimated 10,000 persons in the beautiful grass-carpeted Laurence Frost Memorial Bowl of the Stanford University campus, virtually in the shadow of the Hoover Institute and Library on War, Revolution and Peace, founded in 1915.

The occasion was his 75th birthday celebration, sponsored by the university in tribute to its most famous son, a graduate of its first class in 1895.

In his talk, broadcast by the (See SPENDING, Page 6)

WASHINGTON (AP)— W. Averell Harriman, Marshall Plan ambassador to Western Europe, said today that the U.S. faces a "determined, ruthless and persistent" opponent in Russia, and urged full approval of the administration's \$1,450,000,000 foreign arms program.

"These forces must be met with equal determination and perseverance," he told the Senate Foreign Relations and Armed Services Committees. "We cannot relax with early success."

Harriman said that he has been "gravely concerned over the threat to freedom and peace" that is posed by Russia, and added:

"I am today convinced that through the actions we have taken and are proposing to take, the maintenance of peace and freedom is within our reach."

Harriman, who once was ambassador to Moscow, said it is his conviction that U.S. security "can be immeasurably increased" by arming the military forces of Western Europe.

"In looking at the world today, I feel that we need strong and vigorous partners of like mind and intention," Harriman said. "The North Atlantic Treaty gives us this association. They are vigorous people, but they need help in rebuilding their strength."

Harriman said there must be no delay in sending American arms and military equipment to the North Atlantic Pact nations. Backers of the arms program have been cheered by:

1. Word that Senator Taft (R-Ohio) won't lead a fight against it.

2. Strong support from the military chiefs.

Taft, chairman of the GOP Policy Committee, told a reporter he probably will vote against the plan of arming friendly nations. But he added he will not spearhead the opposition as he did against the North Atlantic Treaty. Taft came nowhere near winning his fight on the Pact but he gave it plenty of trouble.

The joint chiefs of staff—General Omar N. Bradley of the Army, Admiral Louis E. Denfeld of the Navy, and General Hoyt Vandenberg of the Air Force—added words of firm support yesterday. They gave closed-door reports to the Senate Foreign Relations and Armed Services committees and the House Foreign Affairs Committee. The committees are studying the President's arms program.

Chairman Connally (D-Texas) of the Senate Foreign Relations (See HARRIMAN, Page 6)

Air Force Expert Will Face Probers

WASHINGTON (AP)— An Air Force expert on the B-36 bomber was called in today for a round of questioning before the House Armed Services Committee.

The witness was Maj. Gen. Frederick H. Smith, Air Force requirements chief. For two days now he has traced uninterrupted the 8-year history of the long-raging super bomber.

Rep. Van Zandt (R-Pa) whose House speech last May touched off the Congressional inquiry, told a reporter in advance: "There are a lot of members who want to ask a lot of questions."

Chairman Vinson (D-Ga) restrained his fellow committeemen from assailing Smith with queries yesterday as he wound up a formal statement regarding the controversial airplane.

General Smith told the committee that decisions affecting the B-36 were made in the light of a combination of circumstances.

These included, he said, military requirements, the state of world affairs, the President's money program, and the problems of air-craft manufacturers.

He said the B-36 fell and rose (See AIR FORCE, Page 6)

Extortionist Would Blow Up Building

WACO (AP)— An extortionist threatened to blow up Waco's tallest building unless given \$6,300.

A. R. Wilson, chairman of the board of the Amicable Life Insurance Company, yesterday revealed he received a letter last week in which he was told to give \$6,300 or have the firm's 22-story building dynamited.

The letter was signed "a pal." It also threatened Wilson's wife and grandchildren unless he carried out orders.

The letter said the writer had \$300,000 in jewels hidden in Germany and wanted to borrow \$6,300 for a trip to Germany. Wilson would receive \$100,000 back in 90 days, the letter said.

Wilson said he followed the letter's instructions last Saturday, carried a paper sack to a downtown garage in Waco as directed and attempted to make contact.

A Negro shoe-store boy approached him, asked if his name was Miller, was told it was, and then took the sack which contained only paper. The boy then wandered down the street, apparently looking for a partner.

Officers followed the youth and finally picked him up. He told them a thin-faced, tall man had given him 50 cents to pick up the sack and deliver it to him at the city hall square.

Police presumed the man had caught on to the fact the boy was being followed.

Local FBI Agent Bill Buckler obtained the letter from Police Chief M. Burton and declined to release its entire text.

Child Guidance Address Slated

Dr. Samuel L. Watson, assistant professor of psychiatry at the Washington Medical School in St. Louis, will present an address at 7:30 p. m. Aug. 23 under the sponsorship of the local chapter of the Business and Professional Women's Club.

The address, entitled "Mental Hygiene and Child Guidance," will be given at the next regular meeting of B. P. W. and will be open to the public. Special invitations are being extended to the medical association and educators. Dr. Watson, a well-known lecturer, is the author of several books.

Dr. Watson, director of the Child Guidance Clinic at the school, is a brother-in-law of Mrs. W. F. Jordan, B-PW president.

Tuesday night's meeting of the organization was presided over by Mrs. Jordan. Watson, committee chairman, made reports on their activities.

Air Service For Pampa Is Planned

Pampa moved one step nearer toward air service today when the Central Airlines, Inc., purchased eight airplanes.

Purchases of eight new Beechcraft Bonanzas for the Central Airlines' three-state feeder airline for its system of air routes in Texas, Oklahoma and Kansas was announced today by the Associated Press.

The announcement, released by Beech Aircraft Corporation, said Central's president and general manager, Keith Kahle, now is working out schedules. He is setting up individual operations centers at each of the seven main terminals and 17 intermediate points serving the 26 major cities on the new route.

The company, with headquarters in Fort Worth, will fly daily schedules between Fort Worth, Dallas, Amarillo, Texas, Oklahoma City, Tulsa and Wichita.

The Gray County Commission Court made application to the Civil Aeronautics Administration recently for approval of federal funds to improve the northwest auxiliary Army air field, which has three 5,000-foot runways. The city has been given \$25,000 for the project. (See AIR SERVICE, Page 6)

Possession Suit Filed

A wrong styling given to the District Clerk's Office, entered on the records and picked up the same way by The News-Tribune's "Legal Records" column, showed a suit filed by W. A. Wallace vs. Bert A. Howell for debt.

Actually the suit should have been styled "suit for possession." The error was caught after it appeared in print and was also changed later on the District Clerk's docket.

Attorney Arthur Teed, representing Howell, said the suit was filed on a boat side by Howell to Wallace on which terms of payment were agreed to. Howell holding a note and chattel mortgage against the boat.

The payments were made up to a point, Teed added, and Howell later repossessed the boat. Wallace, in his petition, demanded he and Howell had a verbal agreement during the payment of the \$2,250 boat to P. L. Gifford to close out the payments on the boat. Howell, Teed said, denies this and will file a cross action to foreclose on the note and chattel mortgage.

When representatives of Atty. H. M. Hood, Berger, representing Wallace, filed the papers in the clerk's office they told Mary Lennox, deputy district clerk, it was a suit on debt. It was entered on the docket as such and picked up by The News-Tribune.

Senator's Daughter Takes Waitress Job

The daughter of Indiana's Senator, appeared as a waitress at this fashionable summer resort's biggest hotel, "for a lark," she said today.

Miss Patricia Capheart — she's attractive and 20 — said she wanted to find out what it was like to work as a waitress.

Polio Running Far Ahead of '48 Total

By The Associated Press

More than 3,000 new polio cases this month have boosted the nation's total for this year over 11,000.

An Associated Press survey through Aug. 9 showed that the number of cases in 1949 was running roughly 4,000 ahead of that for the same date in 1948.

Last year, with a total of 27,680 cases reported, was the second highest on record for polio incidence. The worst year was 1916 when more than 30,000 cases were counted.

Judged solely by case figures, the polio situation looks more alarming than it really is, health authorities pointed out. They said that a greater percentage of polio cases are recognized and reported each year, and that many of the added proportion are so mild they would have been diagnosed as a cold in the head a few years ago.

There was no accurate check on the number of deaths from the disease to date this year, but they were expected to run between six and nine percent of reported cases. This would mean about one fatality to more than 150,000 persons.

Most health officers reported the proportion of paralytic cases was no greater this year than formerly. The percentage of bulbar cases was reported under the usual ratio in most areas. Bulbar cases are those treated with iron lungs.

The Aug. 9 survey showed an increase of more than 1,700 cases in thirty days since an earlier nationwide check.

It showed eight states had reported more than 500 cases since the first of the year. They were Arkansas 577, California 626, Illinois 720, Michigan 569, Missouri 612, New York 1,110, Oklahoma 592, and Texas 1,339.

Other unusually high figures included Indiana 362, Minnesota 466 and Ohio 343.

Texas' health officer, George W. Cox, said the heavy polio incidence in his state continues baffling. This month and next are still expected to be the worst. Mexico has begun plans to bar U. S. polio victims and those who have been exposed to the disease from crossing the border.

In Arkansas, Dr. A. M. Washburn, chief of communicable diseases, said "the polio outbreak has reached its peak in Arkansas and is slackening off." Arkansas and Oklahoma were termed the two states most in need of help from the National Foundation for Infantile Paralysis by Dr. Hart Van Riper, medical director of the organization.

The Oklahoma Health Department said it is somewhat optimistic, with fewer new cases being reported.

Race Against Death Lost

HOUSTON (AP)— A 125-mile race against death was in vain as a 3-year-old youngster, whose family lives between Elgin and Taylor, died of polio today in the City-County Hospital.

The lad, David Baldee, had been rushed in an ambulance yesterday to an iron lung at the hospital.

His mother, Mrs. Tom Baldee, sat beside him, praying that the ambulance might make the hospital before little David, one of 12 children, died.

The tragedy of the Baldee family began last Saturday afternoon when a doctor diagnosed the lad's illness as tonsillitis, his mother said.

He was taken to a Hearne hospital yesterday where his ailment was diagnosed as polio.

The race to save David's life and win for him four miles outside Houston, where, according to Superintendent A. S. Reeves of the City-County Hospital, the ambulance's oxygen tanks gave out.

Escorted by Houston Police to the hospital, the ambulance strooked through traffic.

The child's father, a cotton picker, was applying for a job near Hearne while his son was being rushed to Houston.

David was the fifth polio case recorded here yesterday.

Invitation To Bribery Is Charged

WASHINGTON (AP)— Senator Mundt (R-SD) heatedly charged today that a letter written by a War Assets Administration employe to James V. Hunt, in August, 1947, was a "blatant invitation to bribery or connivance of some kind."

Mundt, a member of the Senate Investigations Subcommittee, spoke out after a committee investigator had read the contents of a letter which he said was written by Clarence H. Oehler to Hunt.

Another letter told of Oehler obtaining for Hunt match covers with "White House" "H.H.V." and "H.S.T." printed on them.

Hunt, now a Washington business counselor, has been a prime figure in the committee's inquiry into activities of "five percenters"—individuals who seek out government contracts for others for a fee.

The committee investigation previously has developed that Hunt ordered books of match folders bearing the imprint "Swiped From Harry S. Truman." Hunt said then that he was acting at the request of the White House.

"H. H. V." are the initials of Maj. Gen. Harry H. Vaughan, President Truman's military aide, whose name has figured in the inquiry.

Francis D. Flanagan, committee investigator, said that Oehler was a warehouse specialist for the WAA in the Western area at the time he wrote letters to Hunt, formerly a 350-a-day consultant for WAA in Washington.

Oehler, now with the American Industrial Development Corporation of St. Louis, was in the room during Flanagan's testimony. He was to take the stand later.

The committee also planned to (See BRIBERY, Page 6)

Pampan's Father Dies Suddenly

N. N. Cummings of Ephrata, Wash., who has been visiting relatives here, died unexpectedly about 11:15 a. m. today in a local hospital.

He had been visiting his son, Arvid Cummings, and family at 1214 1/2 office, for the past month. Last week he went to visit other relatives near Austin and had stopped here to stay a few days with his son before leaving for Seattle.

The elder Cummings, who had been suffering from heart trouble, became seriously ill during the night and was taken to a local hospital by a Duenkel-Carmichael ambulance.

Both Cummings' son and grandson, George, are employes of The Pampa News.

Funeral arrangements have not been announced.

Rescues Baby Brother

Clarence Blair, Jr., ten-month-old baby brother, John, after rescuing the infant from the burning Blair home at Whitesboro, New York. (AP Wirephoto)

Blair was working for the Santa Fe Railroad Signal Department in Kansas when he was involved in an accident a week ago Monday that caused the loss of his left forearm.

Relatives said that an approaching car refused to dim its lights, causing the driver of the car that Simms was riding in to miss a turn in the road near Harper, Kans. The car skidded on loose gravel and sideswiped a bridge.

Simms was taken to a hospital at Anthony, Kans.

RUTLEDGE AFTER SENTENCING—Dr. Robert C. Rutledge, Jr., (left), of St. Louis, leaves the court room at Cedar Rapids, Iowa, after being sentenced to 70 years in prison. He was convicted May 28, second degree murder in the fatal stabbing of Byron C. Hattman, also of St. Louis, in a hotel room at Cedar Rapids last December. The defense contended that Hattman had pushed and seduced Dr. Rutledge's wife, Sydney, 22. Escorting Rutledge from the court room are Sheriff Jim Smith (center) and Deputy Sheriff Harlan Snyder. (AP Wirephoto)

Walls Tumble but Breakfast Goes on

WESTERLY, R. I. (AP)—Some of the walls came tumbling down but two unwanted tenants went on with breakfast.

Landlord William Staplin continued with the housewrecking which he said he started Tuesday in an attempt to evict William Cook, 70, and his son George, 41, first floor residents of the two-story house.

Staplin said the Cooks refused to move so he had to start tearing the house down around them.

Another Cook, Gordon, 44, joined in the refusal but was no longer in the holdout apartment. He was sent to county jail for 10 days after conviction of using abusive language.

Flora Is Expecting

SAN FRANCISCO (AP)—Flora is expecting.

Flora is an elephant aboard the American President Lines freighter President Taft four days out of Yokohama.

The vessel's skipper, Capt. W. S. Tyrrell, retreated into silence after message laconically that Flora's monumental labor was not far off.

The Taft is due here next Tuesday with a load of animals for the Los Angeles Zoo. There was every indication Flora would be a mama before then.

Now Many Wear FALSE TEETH

With More Comfort

FASTBETH, a pleasant alkaline (non-acid) product, makes teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTBETH on your teeth. No stinging, no pesty, no taste, no odor. Change FASTBETH at any drug store.

BEST ALL-ROUND COWBOY AT THE FIFTH ANNUAL SHOW—C. M. Coffee, Miami, looks a little bewildered at being chosen the best all-round cowboy for the second successive year of the Top o' Texas Rodeo. W. D. Price, president of the Top o' Texas Rodeo and Horse Show Association, Inc., is presenting him a \$35 Stetson, compliments of The Pampa Daily News. Goat Mayo, Petrolia, who furnished the stock for this year's show, looks on.

Actress Reported Resting Quietly

HOLLYWOOD (AP)—Loretta Young rested quietly early today after earlier fears that she might lose a baby she is carrying.

The movie star fainted yesterday on a movie set and was

carried to her dressing room by co-star Clark Gable.

Tom Lewis, her advertising executive husband, said that she is in her third month of pregnancy.

About 470 million lemons, the Tea Bureau reports, are used with iced tea every year.

Four of the big Elater fireflies of Mexico or Brazil can throw enough light by which a book can be read.

Mexican Indians wind big fireflies around their ankles for light on night journeys through forests.

Q—By what authority can the President of the United States call an extra session of Congress?

A—The Constitution provides for this. Article II, Section 3, says: "... he may, on extraordinary occasions, convene both Houses, or either of them."

Q—In what state did agricultural fairs originate?

A—The American agricultural fair was originated by Alkanah Watson, of Albany, N. Y., who induced the state legislature in 1819 to appropriate a sum of money annually for six years to encourage agricultural production.

Q—How many paintings of the Van Eyck brothers are in existence?

A—The number of their authentic paintings is 24. Of these only one can be definitely assigned to Hubert, the altar piece, Adoration of the Lambs, in Ghent Cathedral.

Q—Which of Dickens' novels contains the much-quoted phrase, "Barkis is willin'?"

A—Mr. Barkis is the bashful carrier in David Copperfield who marries Peggotty. He conveys his intentions to her by sending a message by David that "Barkis is willin'."

Q—How large is the 17-year locust?

A—The mature insect is less than an inch-and-a-half long. It is dark in color with red eyes and red wing-veins.

Q—Who was the last royal governor of New Jersey?

A—William Franklin, son of Benjamin Franklin. William bitterly opposed American independence and refused to follow his father in the move to make America an independent nation.

Q—After what is the National Masonic Memorial to George Washington modeled?

A—This memorial, located near Alexandria, Va., is modeled after the ancient lighthouse at Alexandria, Egypt. It is a landmark of the vicinity, and is 338 feet high.

Q—Do congressmen have passes on the railroads?

A—United States senators and representatives are not granted passes on railroads. The government allows them mileage for each session of Congress.

Q—What does the forget-me-not symbolize?

A—In poetry it stands for constancy. It was named from the last words of a knight who was drowned while procuring the flower for his lady, according to German legend.

Q—Where was Rudyard Kipling born?

A—Rudyard Kipling was born in Bombay, India, in 1865. He was educated in England. He married an American and lived for several years in Vermont before returning to Sussex, England.

Q—Who was the first person to sail around the world alone?

A—Capt. Joshua Slocum sailed the first ship to circumnavigate the globe with a one-man crew. He left Boston in a 36-foot sloop on April 24, 1895, and returned to Massachusetts on July 3, 1898.

Q—Of what nationality was Felix Mendelssohn?

A—The famous composer, Felix Mendelssohn-Bartholdy, was born in Hamburg, Germany, of Jewish parents. The name Bartholdy was added when the family adopted the Protestant faith.

Q—When did the United States export its first cotton?

A—The first cotton shipped from an American port was sent to England from Charleston, S. C., in 1784.

Q—Who is the author of the song "Joe Bowers"?

A—There are many stories concerning the origin of this old ballad, which was so intimately a part of the life of the soldiers and settlers in the early days in California. It has been credited to Mark Twain; to a minstrel, John Woodward; and to a man named English. It was a popular song with Western regiments during the Civil War.

Q—What is the natural home of the peacock?

A—The jungles of India and Ceylon are the natural home of the peacock, which has been known since the time of Solomon.

Almost 80 percent of all iced tea drinkers are said to use sugar with the drink.

POLIO-COPTER—Last year there wasn't a single case of polio in Springville, N. Y. This year there were six. To prevent any more, the town of 3000 hired a helicopter to cover its swamps, stagnant pools, backyards and river with an aerosol fog containing DDT. The fog, forced into mosquito-breeding places by the powerful downdraft of the copter's main rotor, killed off the town's mosquito and fly population, and, residents hope, any further polio.

Car Thief, Deputy Meet At Corner

CANADIAN — (Special) — The thief who stole Frank McMordie's car last week had a short ride. McMordie missed his 1949 Chevrolet at about 11 p. m. Friday from its parking place in front of the Davey Wright home on S. Main.

McMordie notified the sheriff's office and Deputy Sheriff Tom Newton had just had time to spread the alarm and head down the hill toward the highway to start his own search when he found himself staring at the missing auto that had stopped for the traffic light at Main and Second. The driver was itinerant farm worker V. E. Kendrick. Kendrick had apparently driven the car to the Carrie Killebrew place east of town to pick up his clothing. Newton said. He had been employed as a farm worker there.

He told the officers, however, that he had "found" the car at the Killebrew ranch. Kendrick had been stopped by a group of men from an oil well drilling crew whose own car had broken down. At their insistence, he brought them back to town, and he and Newton arrived at the traffic signal at about the same moment. Charges of car theft have been filed and Kendrick is being held in the Hampshire County Jail. His bond was set at \$2,500.

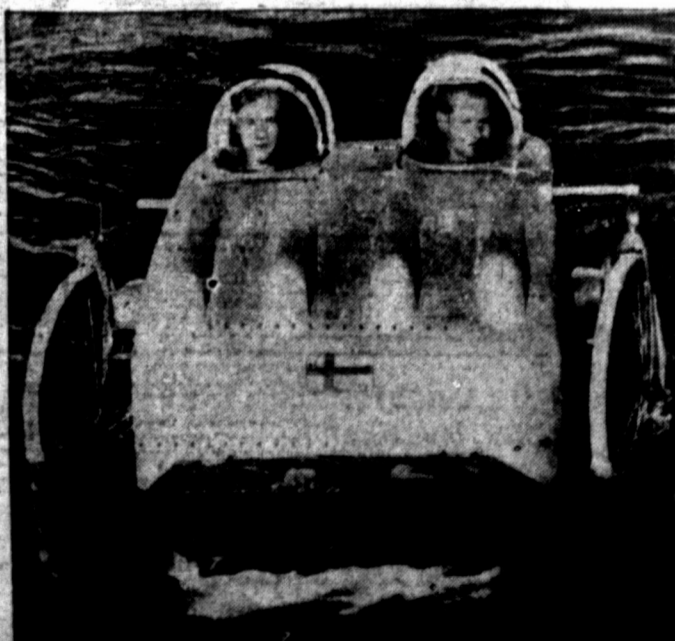

Reds Ask Condition In Austrian Treaty

LONDON — (AP) — Russia told the Western Powers to forget about property it removed from Austria — including 500 locomotives — in drafting the Austrian treaty of independence. Soviet Deputy Foreign Minister Georgi N. Zarubin informed representatives of the United States, Britain and France any consideration of Austrian movable property was outside their jurisdiction.

The Western delegates insisted however that both movable and immovable assets must be included in settling the question of war booty and reparations. Under the proposed treaty Russia will be paid 180 million dollars by Austria in place of certain physical reparations.

U.S. Delegate Samuel Reber told the conference his government would not agree to a treaty provision which did not include transport and other property removed from Austria.

RANCHER DIES
DALLAS — (AP) — E. R. Jameson, 66, veteran Amarillo rancher and real estate man, died in a hospital here yesterday after a long illness.

DOWN TO THE SEA IN CYCLES—Things move in cycles, they say, but so do people, as these two Finnish boys demonstrate. They crossed the Gulf of Bothnia, which separates Finland and Sweden, taking only 1,120,000 "cycle steps" on this self-made Swedish cycle. Here the boys, Matti Naranen, left, and Raimo Kable, had in Sweden after their 25-mile crossing.

Fertilizer Burns Aboard Docked Ship

GALVESTON — (AP) — A stubborn fertilizer fire burned for more than 24 hours aboard a steamship at a Galveston pier. Firemen from 12 Galveston fire stations and the city's fire boat fought the hard-to-reach blaze in the No. 2 hold of the SS Palmato.

Fire Chief William Henderson said the burning material was ammonium sulphate fertilizer. He said it is not explosive, unlike ammonium nitrate, the fertilizer which exploded and burned aboard two ships during the Texas City disaster in April of 1947. The blaze was discovered at 12:15 a. m. yesterday as the ship plowed through the Houston ship channel to the open sea. It was bound for Japan.

The ship put in here. Firemen had trouble reaching the blaze because a heavy load of other cargo was stowed over the fertilizer.

The fire was believed isolated late last night in the No. 2 hold. A cargo of cotton, loaded at Houston, and many hundred barrels of powdered milk were stowed over the fertilizer.

After the blaze was discovered, the ship's steam-smothering system was started. The fire was believed extinguished when the ship reached the roads in Galveston harbor.

The vessel docked at 7:30 a. m. to remove fire-damaged cargo. The fire was then found still burning.

No estimate of the damage to ship and cargo has been made. The State Marine Steamship Corp. owns the vessel.

Student Found Dead in Room

DALLAS — (AP) — A young University of Texas student was found dead on the floor of his parents' bedroom yesterday, a hose from an open gas jet inserted into the slit of an expensive diving mask covering his face.

Mr. and Mrs. Robert Douglass found their son Robert Douglass, Jr., 18. "It must have been an accident," Douglass said. "He was a swimming fan and was probably trying an experiment with the mask and it got away from him. The parents said their son had been in good spirits. No notes were found.

PREHISTORIC PITS

Remains of much of North America's prehistoric animal life have been recovered well preserved from the La Brea tar pits, Los Angeles, Calif.

Red Propaganda Capitalizes On Goofiness in American Life

By JAMES D. WHITE
AP Foreign News Analyst
Some of the giddier ideas abroad about America are being hopped up by Communist propagandists. Samples: a recent Moscow cartoon shows an American football game so violent that the referee operates in an armored car among players and fans armed with guns and clubs. A recent article in "Rude Pravo," the official Communist newspaper in Prague, Czechoslovakia, depicts America as a place where sitting on flagpoles is common. According to AP's Prague correspondent, Richard Kasichko, Rude Pravo's argument runs like this: America is so full of contradictions and frustrations that one out of thirty Americans blows his top and climbs a flagpole or does something equally odd to get away from it all. "Apparently," says Rude Pravo, "it is really hard for an average American today to keep his mental balance. Some of them—they are called pole-sitters—sit on high poles and try to keep their perch there as long as possible. Pictures are made of them and newspapers write front page stories about them."

Girl 'Sleeps' For Two Weeks

CHELTHENHAM, England — (AP) — Hypnotist Peter Casson put a group of people to sleep here July 28. He finally got the last one to wake up early Wednesday — by long distance phone from London. Anyway, that's what 19-year-old Joyce Dövery and her mother say. The family doctor agrees with them. Joyce went to sleep during a mass demonstration of Casson's powers at the town hall nearly two weeks ago. In a walking trance, she wandered away from the crowd. When Casson brought the rest back to their senses, she was on her way home, still in a dream. They say she collapsed at work. Then she went to a movie and passed out again. She took to swooning in the street when people spoke to her. The family doctor decided she was still in a hypnotic state. He put in a call for Casson, who by now was playing in a music hall in London. By phone from 120 miles away Casson told the girl

WITCHCRAFT PROTECTION

The burning of the yule log custom started in England and its purpose was to protect the home against witchcraft during the coming year. A "SHIP'S HUSBAND" attends to the repairs of a ship while it is in port and does all other necessary work preparatory to a voyage.

LOOKS AHEAD

NEW YORK — (AP) — Tom Longfield's 51st birthday and the new bowling season are being awaited with equal eagerness by the veteran kiegler. It will be Longfield's 47th consecutive season in the Equitable Life Assurance Co. league, although he has been retired a dozen years. In 1903, as a youngster of 34, Longfield joined Equitable employees in a bowling season and was high scorer. In the 47 years since, Tom missed just two kiegling seasons, both to engage in other sports. Three years ago he had high series of 620 as his team clinched the league crown. Medical experiments with malaria and yellow fever patients led to the first American patent for an ice-making machine.

Chip off the Cold Block Just Sideline for Welder

JOHN KRICH, daytime welder, becomes fancy iceman by night.

CLEVELAND (NEA) — John Krich's talent with a chisel is carving out a nice, cool job for himself. During the hot spells, he's the envy of all his friends, because he spends a lot of time in the ice house.

Even when the temperature sizzles up to the high 90s, Krich has to go to work wearing long underwear, two shirts, wool pants, overshoes, a fleecelined jacket and two pairs of gloves.

Working for a large ice company, Krich carves figures out of blocks of ice. They're used to decorate fancy tables for weddings, parties, conventions and the like.

It's only a sideline with him. His full time (and hotter) job is welding. But after dinner, he cools off by reporting to the ice

house with his special multi-pronged chisels.

With the temperature at a frigid 24, he chips away at 300-pound blocks of ice, fashioning birds and beasts and even an occasional bathing beauty.

He learned his art while working as a pastry cook a dozen years ago, then switched to carving ice instead of dough.

Thirteen Foodless Days Prove Fatal
PORTLAND, Ore. (AP) — Thirteen days without food while lost in a mountain wilderness proved fatal Tuesday night to 76-year-old John Harrison Tracy.

Rescuers found Tracy Monday, lying in a hut too feeble to move. He had disappeared July 26 on a search for gold.

'Party' Affiliation Helps Washington's New Hostess

FAVORITE PICTURE of herself is this one of Mrs. Gwendolyn Cafritz taken through a looking glass in her home recently.

By DOUGLAS LARSEN
WASHINGTON (NEA) — By unofficial action of Vice President Barkley, Gwendolyn Cafritz now becomes Washington's No. 1 hostess, succeeding Perle Mesta. This brings a third coveted local title to the fabulous Cafritz mansion. For years Morris Cafritz has been king of Washington's real estate men, while his wife has reigned as the best dressed woman in town.

It has become recent custom for the V.P. to designate the town's top hostess. He does it simply by showing up at all of her parties, having a whale of a big time, and recommending them to his best friends. That's how Mrs. Mesta got the nod from Vice President Truman. That's how Mrs. Cafritz quickly steps into the vacancy created by Mrs. Mesta's appointment as Minister to Luxembourg.

Barkley's selection of Gwendolyn Cafritz is a logical choice. And as one social arbiter puts it, "who but Gwendolyn has both the method and the money?"

Slim, black haired and dark

always seem to come back in style." How many dresses in her closet? "Heavens, I haven't the faintest idea," she says. Some that she wears currently are eight years old.

Evening dresses are her favorite. Most of them are original models which she buys in Paris. The famed dress designer, Schiaparelli, is one of her good friends. She plans to spend several weeks in Paris this summer buying her fall wardrobe.

Although her husband recently paid \$85,000 for a set of famous jewels for her, she manages to wear them without looking over-adornd.

Mr. Cafritz denies she ever feuded with Mrs. Mesta.

"I was once quoted as saying that Mrs. Mesta came to town with only a cook book and a telephone directory," she explains. "That is absolutely incorrect. I said those are the only books which she has ever read."

Those who have sampled the lavish entertainment of both Mrs. Mesta and Mrs. Cafritz are inclined to agree that Gwendolyn comes closest to the standard set by the greatest of all Washington hostesses, the former Evelyn Walsh McLean. The only one who ever was reported ored at one of her affairs was her husband, who sometimes seems singularly unimpressed with the dignitaries whom he found himself entertaining.

Born in Budapest, her father was Dr. Laszlo Detre, co-discoverer of the Wasserman test. Her first visit to the U. S. was in 1908. She met Morris in Washington on a later visit. He was the struggling, ambitious son of a local grocer.

Mrs. Cafritz's first venture in

to big-time Washington society came when her husband built their elegant home in the exclusive Foxhall Road district. It has more than 30 rooms, a built-in night club and an outdoor swimming pool in a huge, beautiful garden. She wisely hired a competent social secretary and began making good in spite of the usual jealous sniping.

But she sounds really sincere when she denies that she went out after her present title: "Actually I find it a little presumptuous even to suggest that I could become Washington's No. 1 hostess. There are so many others who should be considered before me; Mrs. Jo Davies and Mrs. Dwight Davis, for instance. I'm not sure I like even the idea."

CARROT'S YELLOW
The yellow color of a carrot is due to carotene. Most green plants retain carotene in their leaves, but some, like the carrot, transfer part of their carotene to their roots, and so become yellow vegetables.

'Mad Dog' Disease on Its Way Out

WASHINGTON (AP)—Public Health Service authorities say it's possible to eradicate rabies from the nation.

Rabies—pronounced "ray-bees"—occurs chiefly in dogs and such animals as the wolf, fox and coyote. But man may get it if a rabid animal bites him or if virus-infected saliva from such an animal gets into his body through a flesh wound of any kind.

The disease kills only 35 to 50 Americans each year, but it is considered a major public health problem for these reasons:

1. It's always fatal in man or beast—and its horrible agony makes it one of the most dreaded of human ailments.
2. Nearly a half-million Americans are bitten by dogs each year. Doctors require between 30,000 and 40,000 of them to take anti-rabies vaccine treatment because the dogs were at least suspected of having rabies.
3. The vaccine treatment—called the "Pasteur" treatment—is highly effective but expensive and time-consuming because daily injections are given for two or three weeks. Also, to one in 3,000 to 5,000 persons the vaccine is dangerous, causing a paralytic condition of the central nervous system. Death takes one

in three of the persons so affected.

3. While most prevalent among dogs, rabies also strikes cattle, horses, sheep, swine, goats and cats.

Public health authorities estimate that the annual loss to this country for human vaccine treatments and livestock losses exceeds \$5,000,000.

4. There are some indications that the disease has been on the increase in recent years. One factor may be migration of families during the war years, leaving dogs to shift for themselves in many cases.

Statistics compiled by the Bureau of Animal Industry of the U. S. Department of Agriculture show up-and-down totals for the past decade with a low of 7,163 in 1942 and a high of 10,540 in 1944.

Last year there were 6,810 cases in dogs; 599 in cattle, 34 in horses, 14 in sheep, 36 in swine, 278 in cats, five in goats, 819 in miscellaneous animals such as foxes and 13 in man. Throughout the decade human cases have totalled anywhere from 13 to 53.

But rabies experts say that as far as animals are concerned the statistics are based largely on cases confirmed by laboratory diagnosis. One expert contends there must be thousands of unreported cases.

Public Health Service veterinarians say that the means are at hand to control and even eradicate rabies but that up to now there has been a lack of uniformity in control activities. The officials recommend these broad measures for every community of the nation:

1. Annual vaccination of all dogs, designed to prevent the disease.
 2. Impounding and "humane" destruction of all stray and ownerless dogs.
 3. Registration and licensing of all dogs.
 4. Strict quarantining of all dogs in case of an outbreak of rabies in a community.
 5. Adequate trapping programs in case of rabies outbreaks in wild animals, such as foxes. (The U. S. Fish and Wildlife Service has been cooperating with the Health Service and Bureau of Animal Industry.)
- Here's how to recognize rabies in a dog:
- In the dog there are two forms: "furious rabies," the most common and "dumb rabies."
- In the early stages of the "furious" type, the dog may be more friendly than usual. Suddenly he becomes irritated, his barks become a peculiar howl, he begins to snap at real and imaginary objects, he eats sticks, stones, straw and dirt and becomes vicious.
- He may take to the road as much as 40 miles, attacking persons and animals in his path. Finally complete paralysis sets in, and the dog dies. The course of this form is about a week.
- In "dumb rabies" the early symptoms are sleeping and melancholy. Then, paralysis of the jaw, throat, voice and leg muscles sets in. The dog doesn't become irritable or vicious, but

A cluster of bananas is called a hand.

STARTING AGAIN—Believed to be the oldest displaced person to arrive in this country, Elizabeth Rugieniene, 96, enjoys a snack after landing in New York. She was accompanied by a daughter and son-in-law and will start her new life in West Branch, Mich.

MONK IS HOUSEHOLD HANDYMAN—Mickey the Monk helps out around his Queens Village, N. Y., home by washing the dishes. He's a pet and handyman for veteran jockey Johnny Taral and his wife.

A person can be infected by attempting to examine its throat. Death of the dog usually occurs in two to three days.

Public Health Service and other researchers are investigating the possibility of using a serum obtained from immunized rabbits

instead of the vaccine in human treatment. It is described as effectively protecting experimental animals against rabies and apparently producing no allergic reaction in the animals such as the vaccine produces in a few cases in humans.

Shamrock

SHAMROCK—(Special)—Dee Roy Beasley of Oklahoma City, Okla., was here recently because of the illness of his mother, Mrs. Bessie Beasley.

Mr. and Mrs. E. Brown Dugger of Hammond, Okla., were here recently for a visit with her parents, Mr. and Mrs. C. G. Cantrell, Sr., and other relatives. They were returning from a two-week vacation trip to Mexico City.

Mr. and Mrs. Edd Anthony of Riverside, Calif., are visiting Mr. and Mrs. Buddy Gregg. Mrs. Anthony is a daughter of Mrs. Gregg.

Mr. and Mrs. Amos Reeves and children visited her parents, Mr. and Mrs. J. O. Beel, in Longmont, Colo., and other relatives in Denver recently.

Mr. and Mrs. R. W. Shields had as their guest last week her uncle, George Gibson, of Wichita, Kansas.

Mr. and Mrs. Rex Taylor left last week for a vacation trip to Colorado Springs, and other Colorado points. They plan to visit in Wyoming before returning home.

Mr. and Mrs. Perry Site of

Dallas, spent last weekend with Mr. and Mrs. Buddy Gregg. They were enroute home from a trip to Creed, Colorado.

Mr. and Mrs. Bill Chandler and daughter, Bettie Jean, have returned from a trip to Central and South Texas.

Mrs. Marie Shaw of Amarillo was a guest recently of her sister, Mrs. A. J. Laycock.

Ann Leftwich of Childress visited last week with her grandmother, Mrs. H. P. Mundy.

Miss Johnnie Douglas, daughter of Mr. and Mrs. Bob Douglas, who taught in Pampa last year, is studying medical technology at Scott and White Hospital in Temple.

Britton Harris of Gladewater, was a guest in the home of his cousins, Mr. and Mrs. George L. Stanley, last week.

Mr. and Mrs. Bedford Harrison, Jr., of Houston are visiting his parents, Mr. and Mrs. C. B. Harrison. They will also visit her parents, Mr. and Mrs. Earl Kromer of Amarillo while on their vacation.

J. C. Pike, who has been here for the past month visiting his daughter, Mrs. Tom Smith, and family, and his son, Dan Pike, and family, returned to his home in Cleburne Sunday.

Attorney M. Reynolds, who was ill at his home last week, is reported to be greatly improved.

Most Scouts In District Go Camping

To date 246 Scouts of the 326 Scouts in the Santa Fe District have completed or will complete this month at least one week at camp, Paul Beisenherz, executive of the Adobe Walls Area Council, said.

There are 114 Santa Fe District Scouts camping in August, following the concession work at the fifth annual Top o' Texas Rodeo. "The Adobe Walls Area Council will rank high in the summer camp phase of the region's program this year," Beisenherz said.

"Council Scouts included in the week's camping include the boys who went to Camp Ki-O-Wah, Air Encampment at Randolph Field, Canadian Canoe trip and

in New Mexico and Colorado." Twenty-four Scouts of Troop 22, sponsored by the First Baptist Church, left Monday for Cabot Lodge in Colorado. The Scouts were accompanied by their Scoutmaster, Russell Cartwright, and O. F. Wilhelm. They will return Saturday.

There will be 39 Scouts of Troop 14 leaving Saturday for Cabot Lodge to spend a week. They will be accompanied by their Scoutmaster, John Schofield.

Meanwhile 12 Scouts of Troop 16, sponsored by the Lions Club, will leave tomorrow for a weekend at Monument Lake in Colorado. Also, 25 Scouts of Troop 88 will leave Sunday for a week's trip in Colorado. They will be accompanied by their Scoutmaster, Flaudie Gallman.

Passing through the Panama Canal from the Atlantic to the Pacific, one travels from west to east.

Committee said he is confident the Senate will approve the entire amount. It would be used for rearming the North Atlantic Pact nations in addition to Iran, Greece, Turkey, Korea and the Philippines.

One group of senators headed by Senator Vandenberg (R-Mich.) favor a stopgap program until the North Atlantic Defense Committee comes into being and recommends a defense plan for Western Europe.

This situation, senators said privately, has thrown the Michigan senator into opposition with his nephew, General Vandenberg.

General Vandenberg is reported to have told senators that he is opposed to any stop-gap measures. He backs Bradley and Denfeld in their arguments that the entire amount is needed to give Western Europe the necessary arms for defense.

Bradley testified yesterday that whatever defense plans are made, the arms will be needed for Europe's armies and delay could prove costly.

AIR FORCE

Continued from Page One

in favor in the opinion of Air Force leaders during its growth from the experimental to the production stage.

Smith said General George Kenney, chief of the Strategic Air Command in April of 1948, proposed relying on the new ship for refueling service and depending upon medium bombers for long-range operations.

Several months later, he went on, Kenney "reversed his previous opinion and agreed that continuation of the full (100) B-36 contract was the proper decision."

He said this was the result of comparison tests between a modified B-36 and other bombers.

FORD

Continued from Page One

to obtain justice by the use of the full economic power of our union if the Ford Motor Company continues in its refusal to meet the just demands of the Ford workers and their families," he added.

"Our position remains unchanged," John S. Bugas, Ford industrial relations director, said.

"We desire to reach an agreement which gives the best promise of providing the largest number of steady jobs to Ford employees. We believe that raising costs at this time would increase prices, reduce the volume of business, and result in layoffs for large numbers of workers."

"When union leaders call a strike, we hope Ford employees realize that it may be a long one."

About 1,000 members of AFL International Teamsters Union voted to strike in Chicago last night and not drive their trucks which service the 1,940 gasoline stations which supply the city.

Gas and oil will be furnished for essential uses only, union leaders said.

The drivers demand a wage raise of 12 cents an hour. They now get about \$1.77 an hour. H. E. Wood, union secretary-treasurer, told members last night the employers have offered but 7 1/2 cents.

Today also the expiration date of the contract between the CIO United Packing House Workers Union and major packers employing about 80,000 workers. The contract is being extended while negotiations for a new one continue.

BRIBERY

four major networks, he said: "My word is you, my fellow citizens, on this 75th birthday is this: the founding fathers dedicated the structure of our government to secure the blessings of liberty to ourselves and our posterity. We of this generation inherited this precious blessing. Yet as spendthrifts we on our way to rob posterity of its inheritance."

"The American people have solved many great crises in national life. The qualities of self-restraint, of integrity, of conscience and courage still live in our people. It is not too late to summon these qualities."

Assailing new federal and state proposals for spending taxes, he said:

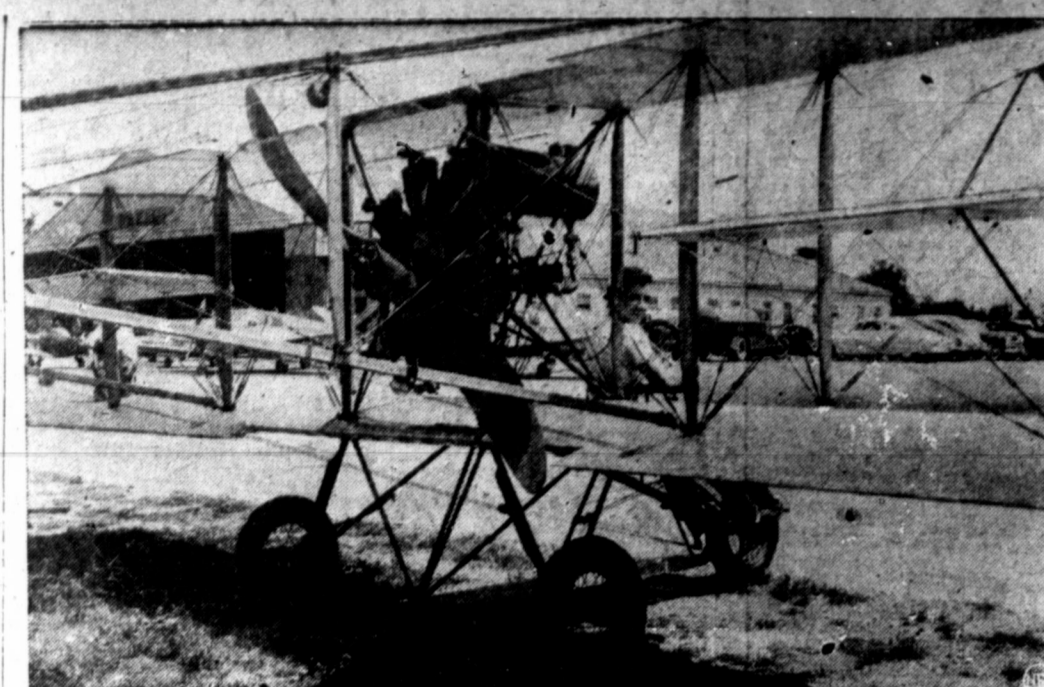

"Along this road of spending, the government either takes over which is socialism, or dictates institutional and economic life, which is fascism."

Hoover said "Mr. Average Working Citizen" now must work 61 days a year to support local, state and federal government. Proposed additional government spending would take another 20 days' work, he said.

He estimated the cost of all government to the average family exclusive of federal debt service, had jumped from \$200 to \$1,300 a year in the last 20 years, and that this might go to \$1,900 with debt service and new proposed expenditures.

"The Dons Have Best Year" SAN FRANCISCO — (NEA) — The University of San Francisco's conquest of the National Collegiate tennis title completed the finest athletic year in the school's 94-year history.

The Dons' basketball quintet won the National Invitation Tournament crown at Madison Square Garden over highly-favored Kentucky and St. Louis. The soccer team took first place in the Northern California Intercollegiate Conference, the rifle squad the Pacific Coast Intercollegiate title.

THE CAA OKAYED THIS ONE—At Cleveland, O., airport, flight instructor Joe Smith prepares for a test hop in a replica of Lincoln Beachey's 1915 model biplane. The plane was built by mechanic Bert Dudek in his basement. CAA inspectors granted Dudek a registration certificate for the craft.

Q—Are dogs susceptible to polio?

A—Dogs are not susceptible to polio. At times a dog may show symptoms like those suffered by victims of polio.

The dogs with such symptoms are apparently victims of hives—the same kind of hives from which we humans suffer.

Q—Is the President of the United States required to make a yearly economic report to Congress?

A—The President is required by the Employment Act of 1946 to make an economic report to Congress at least once a year.

Q—Does Bermuda still prohibit the use of automobiles on the islands?

A—Once autoless, the island now permits the use of cars. The law permits the operation of private cars and taxis with a speed limit of 15 miles an hour in the city and 20 miles in the country areas. The importation of secondhand cars is forbidden.

Q—Where does Mocha coffee come from?

A—Mocha coffee comes from Arabia and takes its name from the city of Mocha, a great export center for coffee.

Q—Where is the largest study collection of birds in the world?

A—The American Museum of Natural History, New York, with over 750,000 specimens.

Q—What was the Bedford Flag?

A—The Bedford Flag, which waved over the "embattled farmers" at Concord, April 19, 1775, is preserved in the Public Library of Bedford, Mass. A metal arm extends from a cloud, the hand clasping a sword. A scroll bears the motto, "Vince aut Morire." The three disks are supposed to represent cannon balls.

Q—At what age do orange trees bear fruit?

A—Trees usually bear at about the age of three years, producing one crop per year. The limit of the age of an orange tree is not known.

Q—When was the Halifax disaster?

A—The explosion and fire at Halifax, Nova Scotia, occurred Dec. 6, 1917, when an ammunition ship collided with another vessel. Approximately 1,500 people were killed.

Q—Who first had the title of Prime Minister of England?

A—The title of Prime Minister of England was first used of Sir Robert Walpole, who was in office from 1721 to 1742. He practically created the Prime Ministry and the Cabinet of England although the title was not recognized by law until the early 20th century.

Q—What do the tusks of an elephant weigh as much as 200 pounds.

Q—At what hour did George Washington die?

A—Washington died at exactly 10:20 p.m. Dec. 14, 1799. At the moment of his death Dr. Dick cut the cord that held the pendulum of the clock on the mantel.

Q—Who first referred to the press as the "fourth estate"?

A—This term was applied to the press by Thomas Macaulay about 1828 to indicate that in his opinion it ranked in importance equally with the three estates of the realm, the Lords Spiritual, Lords Temporal and Commons.

Q—Where are the Fortunate Isles?

A—Fortunate Isles is the ancient name for the Canary Islands, which in the ancient world were vaguely known, although the Carthaginians undoubtedly visited them. They were rediscovered by the Arabs in the 13th century.

Q—Who founded Elton College?

A—Elton, a public school in England, was founded in 1440 by Henry VI, and built about 1441. Originally for poor children, the school now enrolls pupils at birth, to enter when they are between 12 and 14.

WAGE

ther consideration and another on final passage.

Administration leaders were passing out the advice to vote against sending it back to committee, and then to vote for passage.

On the roll call yesterday, 143 republicans and 82 Democrats voted for the Lucas bill, as amended. Against it were 168 Democrats, 12 Republicans, and the lone American Laborer, Rep. Marcantonio of New York.

Secretary of Labor Maurice Tobin, who was in the House office building when the Lucas bill was approved, said he was pleased with the 75-cent figure

but "disappointed with the numbers that will be taken out from under coverage."

Lucas' bill differs from the administration's bill in two major respects. First, it would not give the wage-hour administrator any authority to fix rules and regulations for administration of the law. Second, it would apply to workers engaged in production for interstate commerce only if they are "indispensable" to such production.

Labor committee staff members estimated the latter provision would exempt slightly over a million workers now covered by the law. The law, passed in 1938, protects approximately 20 million employees involved in interstate commerce.

Bubonic Plague Is Reported

SANTA FE, N.M. — (AP) — Illness of two New Mexico residents was found to be bubonic plague. Only 21 other cases have been listed in the United States during the last 25 years.

The diagnosis was reported by Dr. Vernon Link of the Western contagious disease control center in San Francisco.

It told a news conference that modern drugs apparently have achieved a smashing victory over the ancient, flea-borne disease. Treatment, he said, has brought dramatic improvement in both cases.

The victims are a 10-year-old boy treated at Taos and a 37-year-old man in the Veterans Hospital at Albuquerque. They are residents of two widely separated villages in Northern New Mexico.

150 Speed Experts Arrive in Akron

AKRON, Ohio — (AP) — Juvenile speed experts from all over the country began arriving today for the 12th running of the all-America Soapbox Derby. It will be held Sunday at Derby Downs, near here.

One hundred and fifty local champions are entered. Fourteen new cities are sending local champions this year. They include, Laredo, Texas.

Jerry Doggett, Pampa's 1949 champion, is in Akron with J. L. Swindle, managing editor of The Pampa News, one of the local Derby sponsors. Doggett's parents, Mr. and Mrs. J. G. Doggett, 915 N. Somerville, have made plans to be in Akron for the races Sunday.

FILIPINOS TO LEAVE

MANILA — (AP) — The Philippine Foreign Office tonight ordered the immediate evacuation by ship of all Filipino nationals and dependents of its consular staffs in Canton and the port of Amoy.

High Pin Scores Many

MILWAUKEE — (NEA) — American Bowling Congress high-score awards for 1948-49 exceed those of the previous season.

The greatest increase was in the number of 299 games, with 111 approved as against 78. There were 173 perfect games, three more than last year. A total of 82 bowlers rolled 298 games, 10 more than a year ago.

Grid Coaches Named

CORPUS CHRISTI — (AP) — Harold R. (Red) Drew, head football coach at the University of Alabama and W. T. (Will) Walls, grid mentor of the University of Corpus Christi, were selected to coach the rival East-West squads in the National High School All-Star Football Game here Aug. 27.

Practice sessions open Aug. 20.

DIRE PLANS

BUFFALO — (AP) — Tom Rocky of the Buffalo club in the American Hockey League is an undertaker in the off-season, but before his teammates discovered it they got quite a scare. Rocky drove up to the Buffalo training camp in a hearse he uses in his business. The squad was sure hockey was quite that rugged a game.

The first U. S. ice making machines were invented in 1850.

Wingless Chickens Flop; 'Fly by Night,' Says Prof

PURELY FOR EATING are these wingless chickens—a rooster and hen—developed by Peter Bauman of Des Moines. He claims the wingless birds will make better eating, but some people contradict him.

OMAHA, Neb. — (NEA) — Wingless chickens are stirring up a lot of excitement these days, following the announcement of their breeding by a Des Moines, Iowa, veterinarian, but around here wingless chickens get the bird.

First, there's nothing new about them. As far back as 1924, people were successfully developing a wingless strain. In the second place, they turned out to be less meaty than the normal be-winged variety.

Records show that in 1924 W. L. Frank of Sherman, Texas, developed a wingless chicken. He called it a Kiwi, after a wingless New Zealand bird. He even started a Kiwi Club of America, but not much came of it.

Just 20 years ago, in July, 1929, NEA Service carried a story about Dr. R. T. Renwald, an Omaha veterinarian. His interest in wingless chickens was entirely scientific, although he did prophesy that "within five years" wingless poultry would be as common as the normal strain.

Further, he said the wingless ones laid more eggs and, consequently, he foresaw a great deal of eggs falling to around 10 cents a dozen.

His theory that the wingless hens would be eggier was based on the knowledge that ordinary hens have an idle period of about 15 weeks when their wing feathers moult. No wings, no feathers, no moulting, no idle period, he figured.

His wingless hens did lay up to 315 eggs a year, which is better than normal. But after the experiment, he turned his breeding records and notes over to a graduate genetics student who wanted the information for a master's thesis.

In 1934, a wingless rooster was born as a freak of nature in Rose

Hill, Ky. Scientists of Princeton University got hold of the bird, and watched it develop. They concluded, after X-rays and psychological tests, that it was a pleasant creature, but would be useless in the pot.

The breast muscles of birds, which are the largest source of white meat, are their wing pullers. Since "Wingless," as the erudite Princetonians called the freak, had no wings, he needed no wing muscles. Hence, "Wingless" was also breastless. All he had to offer for dinner were drumsticks, back and neck.

The current wingless breeder, veterinarian Peter Bauman of Des Moines, claims the grounded chickens would develop tremendous, luscious drumsticks, since they do so much walking.

Not so, answers Frank E. Muschel, chairman of the poultry department at the University of Nebraska.

"Take away the wings and soon you will be getting wingless runts," he says.

He thinks that, without wings, the chicken is liable to become thin and lean. He, like the Princeton poultry profs., knows that the wing muscles are what make the breasts so thick and tender.

Of course all the pro and con clucking about white meat and drumsticks ignores one large segment of Americans—those who like wings.

As for Dr. Renwald, he's as mildly amazed at the new excitement as he was over all the publicity he got back in 1929. And he's still eating chickens with wings.

In Norway a man often takes the name of the land he buys or his wife is she happens to be the oldest child in her family.

Glazier

GLAZIER —(Special)— Donna Hazlett is spending the week with Peggy Ramp near Gem.

Mrs. Esther Matterson of Waynoka, Okla., spent Sunday night with her brother, E. R. Howard, and family.

Sharon Gross is spending the week with her aunt, Mr. and Mrs. Olin Wilson, and family of Canadian.

Mrs. Lura Bullis, Willie, and Elmo Clark of Canadian visited Mr. and Mrs. Homer Jamison Sunday afternoon before leaving for a vacation in Colorado.

Bill McCortney of Enid, Okla., visited Dave Beebe and children over the weekend.

Pauline Hand of Canadian spent Tuesday night with Margaret Wright.

Mr. and Mrs. E. R. Howard, Bobby, Mary Ann, and Violet were in Wellington Tuesday.

Mrs. Leroy Price spent the weekend with her parents, Mr. and Mrs. R. N. Fox of Lipscomb.

Leroy Price was entered in the calf roping contest at the Booker rodeo Friday.

Mr. and Mrs. J. M. Conley visited friends in Shattuck Saturday night.

Mrs. R. H. Tipton of Borger spent the weekend with her son, Tom Tipton, and family.

Man Rolls Out of Window to His Death

NEW YORK — (AP) — Samuel Goppleberg, 24, one of the millions suffering from New York's heat wave, moved his bed over near a window last night to get a bit of air.

His shrieks woke the neighbors at 4 a. m. (EST) today.

Rolling over in his sleep, he fell out the window to death in a rear yard five floors below.

Read The News Classified Ads

'LUCKY' WINNERS—Albert Birnbaum and his wife, Edna, consider the problems they inherited when a 50-cent raffle ticket won them a \$16,000 house. The problems are: the house is located on a lot in New York City; it must be moved; moving costs will run \$1800; the Birnbaums have no lot, and they didn't need a house in the first place.

Every Congressman Wants To Get Into the 'Bill Act'

By JAMES MARLOW

WASHINGTON — (AP) — Congressman Mervyn Dymally says home and tells the folks:

"Why, sure, Congress passed a housing bill for the low-income people. Now I think Congress ought to do it for you moderate income folks."

"In fact, I introduced a bill in Congress to do just that. I'll show you. Here's a copy of the very bill with my name on it."

Sure enough. There it is. Just as he said. But maybe he forgets to tell them how he came to get his name on the bill in the first place. For instance:

Last May a congressman introduced a housing bill for moderate-income families. A couple of months later along came another congressman who, for some reason, wanted his own name on the bill so, without changing a word in the bill itself, he scratched out the name of the first congressman and wrote in his own name in ink.

Then the bill was sent down to the government printer where new copies of the same bill were made except that now the second congressman's name was on it.

He may go home later and tell the folks about the bill, and himself. Or, maybe he had another reason for doing what he did.

There's a lot of that done. In the House there's a rule that only one member's name can appear on a bill.

Just to show how much support that particular bill has, a whole gang of other congressmen may have the same bill reprinted with their name on it.

All this costs the taxpayers money, of course, since it's the government printer who does the printing, and the cost of printing a bill depends upon the number of pages.

For instance, the idea of a world federation has a lot of support in the House.

About 103 bills—all identical but bearing in each case the name of a different congressman—were introduced to back up world federation.

In the Senate there's no rule like that of the House. There any number of senators all can have their names lumped together on one bill.

And a congressman's name on a bill doesn't mean he had anything to do with writing it. The job may have been done for him

U. S. Airmen Adopt Good Conduct Code

LONDON — (AP) — U. S. airmen in England made public today a voluntary good conduct code whose theme is "Don't let's be beastly to the British."

It advises the GI's to swear off griping about British food, talking too much, playing the black markets and boasting about America.

Here's another big reason why THERE IS NO FINER CIGARETTE IN THE WORLD TODAY THAN LUCKY STRIKE

America's finest cigarette laboratory assures you that—

1. Lucky Strike always means fine tobacco!
2. Lucky Strike is always a finer cigarette!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

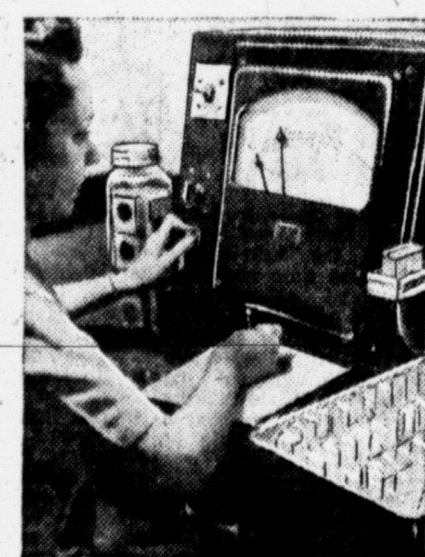

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

As you read this, a constant stream of tobacco samples from every tobacco-growing area... is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

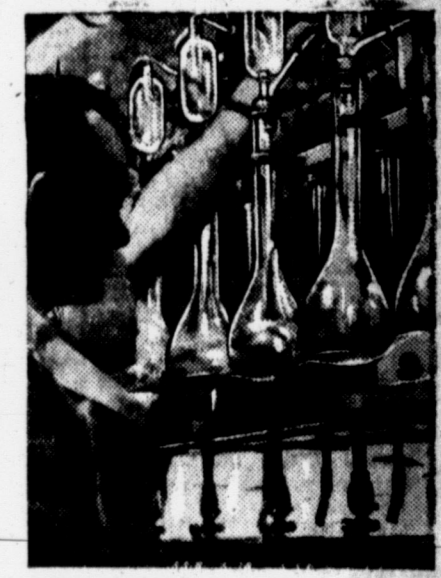

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette in the world today than Lucky Strike!

Everything's under control! Lucky Strike scientists supervise intricate tests daily to guarantee that the weight, size, density and firmness of your Lucky Strike are always right. Such details are rigidly controlled to guarantee you a truly finer cigarette.

Luckies stays fresh. After Lucky Strike cigarettes have been made and then packaged, they must be tightly sealed to remain fresh. Here you see the cellophane seal being tested for air-tightness. Such instruments are in use at every plant.

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine.

We know: **LUCKIES PAY MORE** for fine tobacco (millions of dollars more than official parity price)

We are convinced: **LUCKIES PAY MORE** for cigarette research

So, for your own real deep-down smoking enjoyment **Smoke a Lucky!**

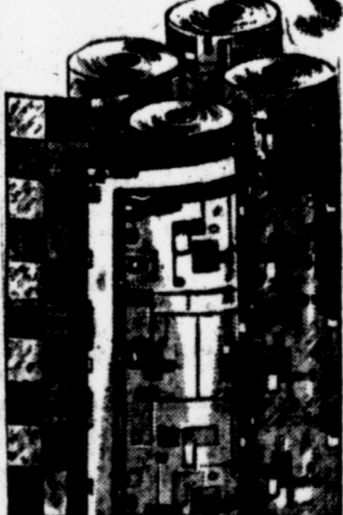

Luckies' fine tobacco and constant research give you a finer cigarette. **PROVE THIS TO YOURSELF BUY A CARTON TODAY!**

Charles Defeats Gus Lesnevich in Seven Rounds of Heavyweight Championship Bout

NEW YORK (AP)—Ezzard Charles has sold himself to New York as the best of a poor lot of heavyweights.

The lean Cincinnati Negro still lacks New York state recognition as world heavyweight champion but he rules the 47 states under the N.E.A. Most of the 15,000 sweltering fans who saw him make Gus Lesnevich surrender at the end of seven rounds last night at Yankee Stadium, seem willing to accept him. The next move is to Eddie Fagan, president of the State Athletic Commission.

Maybe it's best to hold off until 28-year-old Charles meets the winner of the oft-postponed and still vague Bruce Woodcock-Lee Svaldo "title" fight in London. That's what Eagan plans to do. But for all practical purposes, Charles is the champ.

The doubting Thomases who still hold out are looking for another Joe Louis. Brother, there just ain't another Joe Louis around. You might as well get used to Ezzard, for he may be with you for a long, long time.

It is hard to criticize Charles for his performance in stopping Lesnevich. Certainly, he was hit and hurt when durable Gus shot his bolt in his only flurry of the fight in the sixth round. But Charles fought back gamely under fire. At the end of the next round, Gus' manager, Joe Velia, asked referee Ruby Goldstein to stop it.

The International Boxing Club, promoting its first New York fight since buying out Mike Jacobs, must have dropped a bundle on the show which grossed only \$75,832 plus \$17,500 for radio rights.

Lesnevich took such a slashing around the eyes that he fell well before his last fight.

The fight went just as it figured. With Charles absorbing early punishment but opening the old scar tissue around Gus' eyes.

Charles met Lesnevich's first round rush with a sustained attack that made Gus' knuckles bleed. It was the same story in the next three rounds until the fifth when Gus landed a stiff right hand.

The battered 34-year-old former light heavyweight king reeled from his corner at the start of the sixth and shook up the champ with a stiff right to the head. Charles seemed to wilt under pressure and slowed down but he had Gus missing badly at the bell.

The fighters suffered from the intense heat of the hottest day of New York's hottest summer. Most everybody, including the judges, had Charles out front 6-1 in rounds at the end. Charles weighed 180, Lesnevich 182.

LAMESA (AP)—The Lamesa Lobos snapped a three-game losing streak here last night before 1,521 fans, coming from behind with a five-run rally in the seventh to defeat the Albuquerque Dukes 6 to 3.

Jack Gutierrez posted his 13th victory of the season and his fourth straight, scattering nine Duke safeties effectively, striking out seven and walking three. All the Albuquerque runs were unearned.

Nino Barnise was tagged with the 13th setback before Tom Breisinger replaced him in the seventh. Albuquerque played the game under protest from the bottom of the seventh.

The Lobos staged their winning rally in that frame on only two hits, coupled with a pair of walks, a sacrifice and two Duke miscues. Plut umpire Welch waved Melillo home from third when Gyselman's throw from the outfield got by catcher Jipj Fischali. Duke Manager Hershel Martin protested at this point, saying that a misinterpretation of the ground rules allowed Melillo to score.

Duke Dawson was carried from the field on a stretcher when a foul drive off Melillo's bat in the third sailed into the Duke bullpen, struck the back of the catcher, fracturing his skull, according to Dr. J. H. Zee.

Also hospitalized here is Duke shortstop Frank Olive, who was given a spinal test to determine whether or not he had polio. He became ill on the trip from Albuquerque. The doctor moved Olive definitely has polio. He has not developed any paralysis yet but is acutely ill, suffering from headaches, vomiting, and stiff neck. It is "bulbar" type. He will probably be moved to a polio center today. He became ill Tuesday night and played with a headache. He came on trip and entered Lamesa Hospital.

Louis Still Favorite With Fight Folks

NEW YORK (AP)—Joe Louis watched his hand-picked successor defend the heavyweight title for the first time and then declared that he has no plans to come out of retirement.

Still moving with a panther-like grace, the retired champ drew the biggest hand of the night as he walked around the ring last night before the Ezzard Charles-Gus Lesnevich battle at Yankee Stadium.

Thirty-three states had prohibition before the 18th Amendment was adopted.

Shirley May Takes Day off for Birthday

DOVER, Eng. (AP)—Shirley May France took the day off today for her 17th birthday.

Because she is so well along in her training to swim the English Channel, coach Harry Bondakian abandoned a long workout. She may take a short dip later in the day.

Presents and telegrams rolled in for the girl from Somerset, Mass., from the time she arose at 6 o'clock.

"But I don't feel any different at all," said Shirley May. "I just wish the weather would get better so I could swim the channel and go home."

Oilers Defeat Gassers in Opener 11-8; Parker Wins 17th; Hits 19th Homer

George Matthews to Face John Wood in Final

Roy Parker hung up his seventeenth win of the season last night, with both his arm and his bat. He outpitched Jack Venable, Borger's ace righthander, and then capped the victory off by hitting his nineteenth home run of the season in the sixth inning to break an 8-8 tie.

Tonight the Oilers get a look at the Gassers' ace southpaw, George Matthews, whose record since joining the Borgans is 2 wins against 3 defeats. For the Oilers it is expected to be a new righthander, Johnny Wood, who is to report to the club today. He comes well-recommended both as a pitcher and as a hitting outfielder.

Last night's victory moved the Oilers into sole possession of sixth place, and a step closer to the Amarillo Gold Sox, who were defeated by the Abilene Blue Sox.

It was a slam bang affair from the first inning. A single by Harper and a double by Matney put the Oilers into a one-run lead in the first.

But the Gassers scored three unearned runs in the third, two on errors and a wild pitch to take a short-lived 3-1 lead.

In the last of the third the Oilers tallied four times. With one away, Matney walked. Parker popped to the shortstop for the one hit, two errors and a wild pitch to take a short-lived 3-1 lead.

The locals added two more in the fourth on a double by Harper, a walk to Velasquez, an error by Sears on a peg into centerfield and a single by Parker that scored both runners.

The visitors picked up two runs in the fifth on home runs Verdon Gilchrist hit first of the year and Gordon Nell his first in the opening inning.

Martin's third straight hit, singles by Harper and Velasquez gave the Oilers another run in the fifth.

But in the top of the sixth the Gassers tied the count at 3-3. Venable opened with a leg hit and went to second when Butler walked. Gilchrist singled to load the sacks. Free hit into a double play from Parker to Martin to Richardson to make it two out and men on second and third.

But old Nellie came in through again with a blooper, single into leftfield scoring Butler. Nellie moving to second on the hit to the plate. Carnett then hit a Texas leaguer into leftfield scoring both Gilchrist and Nellie to lead 5-3.

Then Parker personally put the Oilers ahead with his home run over the leftfield fence in the last of the inning. To protect that lead he pitched hitless ball the final three innings, though Virgil Richardson gave him a three-run working margin with an eighth inning home run with Matney on base.

SPORTS

Yankees Use Big Inning and Ace Fireman, Joe Page, to Top Bosox

BOSTON (AP)—New York scored three runs in the sixth yesterday and went on to edge Boston 3-2.

The victory, credited to lefty Ed Lopat who was replaced in the eighth by Joe Page, extended the league leader's margin over Boston to 6 1/2 games.

Lopat gave only four hits. The Sox used two doubles for their first run in the opening inning.

The last hit off the Yankee starter was Vern Stephens' 28th home run in the sixth.

In their winning rally before 32,237 fans, the Yankees hopped on Joe Dobson for five hits and all their runs.

The payoff blow was a two-run single which Hank Bauer lined sharply off the wall in left with the bases full.

Dom DiMaggio doubled to the wall in center to start Boston's first. He scored on Ted Williams' two-bagger to center.

Blue Sox Win Sloppy Game From Amarillo

ABILENE (AP)—The Blue Sox took a long lead, staved off a ninth-inning rally and defeated Amarillo's Gold Sox 15-10 in a series opener here last night.

Abilene moved off against lefty Bob German for eight hits, took advantage of five bobbles to score ten runs by halftime, worked on Milton Ralat for eight more hits and five more runs in the closing frames.

Heavy hitting by Abilene's Bobby Fernandez, Dan Concepcion and Rene Vega, playing outfield, accounted for most of the damage by the Blue Sox. Vega hit a two-run homer, his first of the season, in the seventh.

It was a slow, sloppy game played by road-weary teams before one of the larger crowds of the season—some 2500—at the Abilene park. Both clubs had driven all night after late games in Amarillo and Clovis.

Homers Give Pioneers 4-2 Win Over Hubbs

LUBBOCK (AP)—Two wind-blown home runs in the eighth inning last night gave the Clovis Pioneers a 4 to 2 victory over the Lubbock Hubbs in the first of a two-game series.

I. B. Palmer and George Mendoza slammed the circuit clouts, each with no one on base and with a strong tail wind blowing, to give the visitors the victory.

It was a pitcher's battle for the first seven innings, with the Hubbs spotting the Pioneers two runs in the first and then tying it up in the fifth.

A strong wind suddenly sprang up and the Clovis half of the eighth and lasted during the Pioneers turn at bat. Both balls hit out of the park normally would have been easy outs.

Court Gives Lanier Suit Early Priority

NEW YORK (AP)—The \$2,500,000 anti-trust suits of Max Lanier and Fred Martin against organized baseball were given the same federal court priority Wednesday as Danny Gardella's \$300,000 damage action.

Federal Judge William Bondy placed the cases at the top of the November calendar. If he had not taken the action there might have been a delay until late in 1950.

All suits are based on the banishment imposed for playing in the National League in 1946. Commissioner A. B. Chandler recently lifted his five year ban, and Lanier and Martin are back with the Cardinals. Gardella has refused to apply for reinstatement with the New York Giants.

The suits are being watched closely by organized baseball since they challenge the legality of the reserve clause, which makes players virtually the property of baseball clubs to be sold, traded, or dismissed.

Organized baseball has contended that if it were not for the reserve clause baseball would collapse since a few rich clubs could buy up all the stars and destroy big league competition.

The U. S. amateur gold championship will be held at the Oak Hill Country Club, Pittsford, N. Y., near Rochester, Aug. 29 to Sept. 3.

For 39 Years Wife Keeps Husband From Seeing, Hearing Game

LOS ANGELES — (AP) — At last Howard Oldfield, 58, can go to a ball game. For the last 39 years, he charged Wednesday in winning a divorce from Charlotte Oldfield, 59, his wife had refused to let him see a game. She wouldn't even let him listen to ball games on the radio, he said, until his children installed a set for him in the garage. "Every day for the last 39 years my wife has picked a quarrel with me about it," he said. "I just don't think I have the strength to go on."

High School All-Stars Gather at Corpus

CORPUS CHRISTI — (AP) — Youthful football stars from over the nation start moving into Corpus Christi next week for the first annual National High School All-American Game. It will be played in Bucanier Stadium, the local high school athletic plant, the night of Aug. 27. Harold R. (Red) Drew, coach of Alabama, and Willie Walls, coach of the University of Corpus Christi, will tutor the squads. Drew's will take in 22 boys from East of the Mississippi River. Walls' crew will be 22 from West of that stream. Mose Simms, football chairman of the Wigan Wiseman of Oklahoma City, is promoting the game. He reported today that the advance ticket sale indicated the stadium would be filled. Bucanier Stadium seats 13,000.

WARREN'S WARMUP

By Warren Hulse—News Sports Editor

QUESTION: What famous pitcher holds the record for the most games won in his rookie year in the majors?

TOMORROW NIGHT THE 1949 football season gets its official national unveiling with the annual College All-Star Football Game in Soldier's Field in Chicago. This will be the 15th showing of one of the most colorful and spectacular of all sporting events in the nation. Opposing the team of college all-stars will be the Philadelphia Eagles, champions of the National Professional Football League.

For the benefit of the local fans, this game will be broadcast over Radio Station KPDD, 1240 on your dial, starting at 7:30. The game is another of the spectacular national sporting contests originated and conducted by the sports department of the Chicago Tribune. The Trib also introduced the All-Star Baseball Game and the Golden Glove Parade of Champions and International Golden Gloves. Proceeds from all of these events are donated to charitable organizations throughout the country. Head coach of the College All-Stars will be one of the South-West's greatest and youngest football mentors, Bud Wilkinson of Oklahoma. Wilkinson will have a top-notch staff aiding him in the coaching chores, head grid coach from leading colleges throughout the nation.

ALL-STAR NOTES: Football coaches are watching carefully the showing of Bud Wilkinson's split formation which the All-Stars will use. Many think it will be the successor to the currently popular T with a man in motion. One prominent coach says: "Wilkinson is far ahead of the field in this new offense, but within a couple of years it will be widely used." Steve Van Buren, the Eagles' great halfback, signed a three-year contract calling for 10 games a season. Then the NFL went on a ten-game schedule but Steve didn't make even a mild beef. "It's the mediocre players who are the hardest to deal with," said a spokesman from the Eagles' front office. George Petrovich, Texas tackle with the All-Stars, won the 1947 Southwest Conference shutout championship with a toss of 47 feet 5.3 inches. Wilkinson is counting heavily upon the speed of Clyde "Smackover" Scott of Arkansas and Harper Davis of Mississippi to bring victory. Terry Brennan, great Notre Dame halfback, will close out his football career with the All-Star Game. He has decided against playing pro ball. A large share of the ticket request for the game came from Oklahoma, which is a fine tribute to the popularity of Bud Wilkinson. There will be at least 1,000 spectators in the stands from the Tulsa-Oklahoma City-Norman areas. The anticipated crowd for the game is about 102,000. Five members of Italian extraction on the Eagles' squad cast a solid vote

Skelly Oils Win Second Half Play

Skelly Oil won the second half play in the Industrial Softball League last night to make them victorious in the both halves of play this year. Last night they were forced to forfeit to General Atlas, however, as they failed to have enough men present to make up a full team.

In the other game played in the league, McCartha whitewashed Cities Service, 12 to 0. Cooper and Abbott was the battery for the winners, Wilde and Bedenbender for the losers.

The final standings for the second half play follow:

Team	W	L
Skelly Oils	6	2
K. P. Lodge	5	3
General Atlas	4	4
Cities Service	3	5
McCartha Grocers	2	6

The first four teams will participate in the playoffs. Skelly will meet Cities Service and K. P. Lodge will play General Atlas in the best two-out-of-three series. Plans will be made for the playoffs in a league meeting to be held tomorrow night in the City Court Room at the Police Station. The meeting will start at 8 o'clock.

Braves Make Hits Count to Top Giants

NEW YORK — (AP) — The Boston Braves collected only five hits off three Giant pitchers yesterday but they bunched the blows to win 4-1. Elbie Fletcher drove home two runs and scored one on a triple and double.

Eagles Snap Losing Streak at Eight

Dallas snapped an eight-game losing streak last night, but the Eagles' bid to bounce back into the first division of the Texas League fell flat.

Oklahoma City rallied for five runs in the top of the ninth to edge Houston, 6-3, and stay a half-game ahead of Dallas, victor over Beaumont, 11-5.

In other games, Shreveport nudged league-leading Fort Worth, 6-5, and Jake Jones battled San Antonio to an 8-7 victory over Tulsa.

The Eagles touched three Beaumont pitchers for ten hits, one a three-run homer by new stopper Bill Perry and another by Stip Serena.

Four singles and a couple of errors helped Oklahoma City score the five big runs and erase the lead Houston had built on three runs in the first inning.

Fort Worth rallied in the ninth inning, but fell shy. Shreveport's winning run came on Moe Santomaro's second double, in the seventh inning.

Fort Worth Manager Bobby Bragan and pitcher Chris Van Cuyk argued long and long with umpire Milt Steingraef over a ball-and-strike call in the seventh. They were thumped out of the game.

Oklahoma City 100 000 005-6 12 0 Houston 200 000 000-3 7 5 Tulsa 100 000 001-7 8 0 Beaumont 200 000 011-8 0 2

Senators Edge A's On Grand-Slam Homer

WASHINGTON — (AP) — Sherry Robertson's grand-slam homer and six double-plays enabled Washington to edge the Philadelphia Athletics, 8-7, last night. The Senators compiled a 7-0 lead and staggered to victory after the A's rallied for six runs in the sixth inning.

Philadelphia's lead was short-lived. Robertson's grand slam in the eighth inning gave the Senators a 7-0 lead. The Athletics rallied for six runs in the sixth inning.

Mangrum, Sam Snead in Lead

CHICAGO — (AP) — Lloyd Mangrum and Sam Snead, currently golf's hottest to turney rivals, continue their sniping today in the first round of Tam O'Shanter's feature event — the \$35,000 "world championship."

They head a list of 66 pros shooting for a \$10,000 winner's purse in 72-hole medal play which winds up Sunday.

Mangrum and Snead stole the show in the Tam, All-American pro meet which ended Tuesday. Mangrum repeated as champion with a 72-hole total of 276-12 under par. Snead missed a three-foot putt on the last hole to take second with 277.

The pro field today includes the year's 20 leading money winners and 46 others who had a respectable finish in the All-American tournament. In addition to Snead and Mangrum, there are plenty of other sharpshooters who will bear down on the banana. They include Jimmy Demaret, Chick Harbert, Johnny

NCAA to Review Case Of Sanity Coders

CHICAGO — (AP) — Troubleshoters of the National Collegiate Athletic Association this weekend will culminate corrective spadework on two ranking problems, NCAA "sanity code" violations and the rash of post-season football bowl games.

The NCAA's Constitutional Compliance Committee will meet Friday and Saturday to review the status of 16 known code violators; 11 schools classified as doubtful; and 12 members who promised to mend policies after previous warning.

The committee has declined to identify violators of the code. Palmer, Middlecoff and the rest of the play-for-pay headlines.

Babe Ruth Honored

INDIANAPOLIS — (AP) — The American Legion will award its distinguished service medal to Babe Ruth posthumously.

Henry H. Dudley, national adjutant, announced Wednesday the award would be made to Mrs. Ruth at the Legion's convention Aug. 29-Sept. 1 in Philadelphia. The medal was in recognition of Ruth's outstanding service to the nationwide Legion baseball program, Dudley asserted. For two years prior to his death last Aug. 16, Ruth was a consultant to the Legion on its baseball training activities.

SCHOOL and Newspaper ROUTE Work Together to Fit Him for a Successful Career!

WHEN your newspaperboy graduates from high school, he will be unusually well equipped for advancement in whatever line of work or study he may pursue. For TWO great educational forces—the public school and the daily newspaper—have joined hands to give him the best possible preparation for success. As a result, he has the benefit of BOTH practical schooling and actual business experience.

His spare-time newspaper route is the ideal supplement to classroom studies because it enables him to put many lessons to immediate use. This combination of route work and schooling gives him a well-balanced knowledge of both business theory and practice—makes him better able to absorb and apply the things he learns!

Important, too, is the money he makes and saves from his newspaper route efforts—it comes in mighty handy for school books, sports, hobbies and the good times every teen-ager craves! Often such savings enable an ambitious boy to COMPLETE high school and GO ON to the college of his choice.

Spare Time Route Work Adds a Big "PLUS" to a Boy's Education!

Fade THOSE WEATHERED BROWN SPOTS
New Kind of Hand Cream Specially Made to do it!
\$1.50 PLUS 30c TAX

ESOTERICA is that marvelous new kind of hand cream for fading those brown spots that make your hands look old. Also fades other surface blemishes and roughness in a way no ordinary hand cream or lotion can. Leaves hands whiter, clearer, younger looking quickly—often within the first few days. While ESOTERICA looks and feels like the finest non-greasy vanishing hand cream, it has an added clearing action. Produced in a laboratory that has studied the effect of cosmetics on skin pigments for 25 years. Thousands gladly paid \$5.00 for ESOTERICA. Now in quantity production, it can be sold for \$1.50. If you want clearer, whiter-looking hands, get ESOTERICA. Money back if the first jar does not bring desired results.

AND STILL GOING STRONG—In Dayton, Ohio, folks will show you what may be the oldest mechanical refrigerators in continuous operation. The one pictured at left has been running without letup for 27 years. Its mate is a close runner-up, having started freezing in 1924. Ordinary refrigerators only work part time, going on and off in cycles. Engineers figure that in comparison with ordinary refrigerators, these oldest have run the equivalent of 108 and 100 years, respectively.

Lover's Lane Hero On His Honeymoon

LOS ANGELES —(AP)—"Sonny" Ivers is honeymooning today with the girl who helped him overcome and kill a "lover's lane" gunman.

Away Ivers, 19, left Good Samaritan Hospital Tuesday, five weeks after his jaw was splintered by a bullet from the gun of William Brock, 18.

Brock shot Ivers after he came upon them in a parked car in the Baldwin Hills district July 1. Ivers grappled with him and Brock dropped the gun. Ivers' companion, now his bride, picked up the pistol and handed it to Sonny, who shot Brock four times.

A coroner's jury ruled it was justifiable homicide and praised Ivers as a hero.

JUST RELAXING—Mickey the Monk relaxes with a beer after a hard day's work at the home of his owners, Mr. and Mrs. Johnny Taral of Queens Village, N. Y. Mickey likes to sit by the window and make wolfish noises at pretty girls passing by.

ALL "APPLES"
Apples, oranges, peaches and pomegranates were referred to by the ancient Romans as "apples." They distinguished the fruits by the names of the countries where they were grown.

Records show that George Washington bought \$200 worth of ice cream in 1790.

"Sitch in Time" PRESCRIPTIONS

Chicago Faces Gasoline Famine

CHICAGO —(AP)—A possible gasoline famine faced the nation's second largest city today as drivers of trucks carrying gas to filling stations went on strike.

The strike was voted unanimously last night at a 10-minute meeting of 1,000 members of Local 705 of the AFL International Teamsters Union. They decided because of a wage dispute not to wheel their tank rigs to hit 1,440 gas stations that supply the city.

H. E. Wood, secretary-treasurer of the local, said that arrangements had been made to supply gasoline and oil for essential purposes.

Union officials estimated the city's gas stations would run dry in three days.

SERVICE TO RESUME
BERLIN —(AP)—Telephone service between France and the American, British and French sectors of Berlin will resume Aug. 22, for the first time since the war, the U.S. military government announced today.

Americans reports the Tea Bureau, use about 23 million pounds of a tea a year for iced

U.N.'s Human Kindness Helps Tea Time for Nicole

By DAVID S. BOYER
PARIS —(NEA)—Half past four is the big hour for the little girls who live behind the massive metal doors of the orphanage on the left bank of the Seine.

For it is then that the United Nations comes to call, every day in the week. Half past four is milk time. And with the daily bowl of milk comes thick slabs of margarine on bread, and sometimes sugar and chocolate, too.

Between sips and grins, eight-year-old Nicole Dubossq can tell you the story. People all over the world, she says, send the milk and chocolate and margarine to help make her and her war-orphaned playmates strong and happy.

"It's as if we had mummies and daddies everywhere," as she puts it.

Nicole's adopted parents are people of more than 80 countries who contribute their dollars, pounds, francs and other currency to the greatest program of child aid ever undertaken. Since it was voted unanimously into being in December, 1946, by the U. N. General Assembly, the United Nations International Children's Emergency Fund has spent more than \$200,000,000.

In Europe today, more than 5,000,000 children receive a UNICEF supplementary meal comparable to the one eaten by Nicole. In countries surrounding Palestine, more than 500,000 Arab youngsters, many of them homeless refugees, are poured daily milk rations from jerry cans. During cold desert nights, they sleep under UNICEF blankets.

In addition to meals and blankets, UNICEF ships to unfortunate children in Europe and the Middle East and China such articles as shoe leather, cotton for diapers, wool for clothing, cod liver oil and tuberculosis vaccine.

Nearly 5,000,000 children throughout the world have been vaccinated against tuberculosis, in a campaign conducted jointly by UNICEF, Scandinavian Red Cross societies and the World Health Organization. Tens of millions have been tested for the disease.

The U. S. has been godfather to UNICEF from the beginning, matching with \$2.57 every dollar contributed by other countries.

People as well as countries have done their share. Among the millions collected in the worldwide UN Children's Appeal came four dollars from the pockets of every man, woman and child in Iceland, a contribution far and

away in advance of all others. Because recipient countries pay expenses of distribution within their own borders and because UNICEF works in enormous quantities, one dollar will buy a glass of milk for 10 children every day for a week. Twelve European countries, many of them contributors to UNICEF themselves, receive aid. All but five of them are Iron Curtain countries.

CAMPAIGN STEPPED UP
ATHENS —(AP)—The Greek army stepped up its campaign against Communist-led guerrillas today by storming the rebel stronghold in the Vitsi triangle near the Albanian and Yugoslav borders.

During 198 at least one resident on every sixth American farm had an accident involving one day or more lost from regular activities.

Greeks to Get 49 Navy Bombers

ATHENS —(AP)—Forty-nine U. S. Navy dive bombers will be turned over to the Greek air force in a few days, Lieut. Gen. James A. Van Fleet, chief of the U. S. Military Mission, announced Wednesday.

Two of the planes, known as Hell Divers, were delivered several weeks ago and U. S. Navy pilots have been secretly training Greek fliers in their use at Larissa.

Worthwhiles Meet With Mrs. Vaught For Regular Fete

Mrs. B. M. Vaught was hostess to the Worthwhile Home Demonstration Club in her home recently.

Roll call was answered by "A Point I've Learned About My State Or National Representative". Mrs. Ora Wagner presented a talk on fair exhibits and then reported on the council activities.

Legislative Committee Recommendations for T.H.D.A. was read by Mrs. Roy Tinsley.

Mrs. J. M. Harbison was in charge of the recreation, which was "Slogans We Hear and Read."

Mrs. Ray Robertson, president, conducted the business meeting at which time it was voted to have a picnic, today. All members and their families are invited. It was announced, and it will be in the City Park.

The T.H.D.A. meeting will be held tomorrow in Mrs. Mary Anne Duke's office at 10 a. m.

Those present were: Misses A. C. Crawford, Paul Chambers, Harold Cockburn, John A. King, W. E. Hinton, Ray Robertson and daughter, W. B. Turner, and those mentioned above.

Woman's PAGE

Helene Madeira Attends Convention Of Dancer's International Members

Mrs. Helene Madeira, local dancing instructor, is attending the Dancer's International Convention in Hollywood this week.

While at the convention, Mrs. Madeira has been taught the latest dance steps by guest star instructors: Ginger Rogers, Gene Kelley, and Fred Astaire. Another instructor is the famous Jose Casino, Spanish dancer and uncle of Rita Hayworth.

Mrs. Madeira passed the entrance examinations in tap, ballroom, ballet, and aerobics, it was reported.

She has been made a charter member of the Dancer's International group.

The teachers, representing the entire nation, have been guests in famous Hollywood places. Mrs. Madeira was interviewed over Tom Brennan's "Breakfast in Hollywood." The group saw "Ballet Symphonies Under the Stars" at the Hollywood Bowl and visited the famous Palladium.

Over the weekend, the group went to Catalina Island and on Monday, to Earl Carroll's theatre restaurant.

Mrs. Madeira will return to Pampa the latter part of this week.

Bounce and Beauty Offered In New "Dated" Tumblers

"Bounce" tumblers now carry the date of manufacture as a means of checking their durability. The "9" at left indicates 1949, the "3" signifies the glass was made in the third quarter.

Heat-Treated water tumblers are now offered in gay colors—yellow, red, or green combined with white. The designs, applied by special process, will not wear or wash off.

Many household utensils and table accessories are constantly being improved to withstand hard day-to-day usage. Look for them when you shop; their durability spells pocketbook economy.

For example, drinking tumblers are being offered that will outlast ordinary ones three to five times. Heat-Treated "bounce" tumblers will stand up under rough treatment, can be plunged from cold into hot water without damage, and have a safeguard of hardened glass that is guaranteed against chipping.

To prove their durability, the maker etches the date of manufacture on the bottom of each glass. Thus the housewife can

determine just how much service she is getting from these long-lived glasses.

Another feature came about because so many women asked for it. Permanent decorations in gay kitchen colors—they won't wash or wear off—are now being applied to the "bounce" water tumbler. The design is "Lucky Clover," offering shamrocks in red, yellow, or green combined with white. The pattern is appropriate for kitchen, bathroom, porch, and playroom—areas where glasses get hard usage.

The decorated nine-ounce water glasses also have corrugated sides to provide a firm grip—an added safety factor in homes where there are children.

Mrs. W. L. Payton Recent Honoree at Pink 'n' Blue Fete

SKELLYTOWN — (Special) — Mrs. W. L. Payton of Dimmitt was honored with a pink and blue shower in the home of Mrs. P. E. Stephenson Sunday afternoon in Skellytown.

Co-hostesses for the occasion were: Misses Claude Gray, L. Barrett, Russell Veal, and Stephenson.

Mrs. Payton is the daughter of Mr. and Mrs. J. A. Ingram of the Schafer Camp.

Those participating were: Misses Fred Powell, R. C. Heaton, J. C. Laney, Joe Wedge, W. L. Davidson, T. A. Ingram, R. E. McAllister, Claude Gray, Helen Scott, John Tush, George D. Moss, Fred Genett, Ed Harman, Vernon Werth, Ray Carr, Louie Karlin, L. Richards, J. M. Chapin, Lloyd Well, R. C. Agee, Ben Wesner, and Misses Colleen Laney and Lora Dale Wells.

Four Couples Return From Colorado Trip

HIGGINS — (Special) — Two Canadian couples and two couples from Higgins recently returned from a ten-day vacation in Colorado Springs.

They are: Mr. and Mrs. Earl L. Wilbur and Mr. and Mrs. C. H. Hyde; Higgins and Mr. and Mrs. Russell Carver and Mr. and Mrs. Harry Wilbur, Jr., of Canadian.

While there, Mr. Harry Wilbur and Mr. Carver entered the Open Golf Tournament at the Patty Jewett Memorial Golf Club. Mr. Carver was awarded a leather golf bag for winning the championship in his flight.

Before leaving Colorado, the party was joined by Mr. and Mrs. Charles Douglas and son, Stanley, of Canadian.

Sunday School Class Gives Couple Party

CANADIAN — (Special) — The Loyal Gleaners Sunday School Class of the First Christian Church honored Mr. and Mrs. Carl Peoples with a covered dish supper in the home of Mr. and Mrs. Walter Burnett Monday evening.

Mr. Peoples has been superintendent of the Sunday school for several years. They are moving to Oklahoma.

Those attending were: Messrs. and Misses Laurin Hardage, Mike Reagan and Nedra, Gordon Miller, Carl Zybach, Walter Burnett, and the honored guests.

PESTS AND PLUMBING

Chef's inspection of plumbing in the basement and upstairs will afford an excellent opportunity of determining the presence or absence of insect pests which frequently breed in the cellar, bathroom or kitchen.

CURTAIN UNIFORMITY

Kitchen curtains or shades should be washable and should conform as closely as possible to those in the remainder of the house to achieve uniformity in appearance from the outside.

HOME AQUARIUM TIP

Snails are a worthwhile addition to fish tanks or globes as they clean algae from the glass. They can be variegated—red, gray or purple, and they require little or no care.

REMOVE PENCIL MARKS

Pencil marks are usually removed while washing. If the marks don't come out, rub suds into the fabric and wash again in warm water followed by a cold rinse.

A NEAT TRICK... IF

To tighten a cane chair seat, turn the chair upside down and place a wet towel on the underside. After half an hour remove the towel, but leave the chair in the same position until the cane is dry.

COOKED—NOT RAW

Cooked fish is not harmful in the diet of dogs and cats. However, a sustained diet of raw fish causes paralysis.

BODY BUILDING MATERIAL

Protein is primarily a body building material.

Easy Edgings

5967

By MRS. ANNE CABOT

Four delightful ways to pretty-up lingerie or handkerchiefs. Two are made of fascinating hairpin lace and measure 1-1/2 and 1-1/4 inches respectively and are perfectly lovely finishes for lingerie, collars and cuffs and blouses. Crochet the wheel or double scallop edging to give glamour to otherwise plain handkerchiefs. Perfect pick-up work that will come in mighty handy when gift-giving season rolls around.

Pattern No. 5967 consists of complete step-by-step directions for hairpin lace making and directions for edgings illustrated, material requirements and finishing instructions.

Send 20 cents in COINS, your name, address and the PATTERNS NUMBER to ANNE CABOT (Pampa News), 1150 A.ve. Americas, New York 19, N.Y.

GOOD BAKING HINT

When greasing baking pans, use 100 percent fats and oils because they form a continuous film and contain little or no protein as do oleo and butter. Neither do they contain salt which causes baking to stick to the pan.

A Lady's Choice

Screen actress Jeff Donnell, like most modern misses who have a storage problem, chooses a cedar chest as an integral part of her household. Ideal for safe storage of valuable woollens and linens, it also serves as a functional piece of furniture in her home. Miss Donnell selected her cedar chest after seeing it demonstrated at the "Hope Chest House" in Westdale, a Los Angeles suburb.

The Care And Feeding of Baby Sitters

1. Play safe and leave a list of emergency telephone numbers.
2. As host, offer amply supply of sandwiches and cold Coke.
3. Be sure the child realizes it will be safe while you're gone.

Apply care and understanding when dealing with baby sitters. Your social life may depend on it.

Good neighborly relations may also be at stake. Without doubt, this trusted guardian of your offspring for a few evening hours is a neighbor's teenager. Yours is the temporary role of diplomat, host, and foster parent the minute she enters your home.

Here are a few helpful rules:

Choose a reliable sitter—for the sake of your child's safety and for your own peace of mind.

Give plenty of advance notice or you may have to do the sitting. Remember, sitters have a social life too.

Treat the sitter as a guest and she'll want to come back. She's also a growing, hungry child; sandwiches, some cookies and an ample supply of Coke should make a hit.

Provide a radio or phonograph, books and magazines. Sitting is lonely work after the children are asleep.

Welcome a chum to sit with your sitter but put your foot down on parties. Double the refreshment quota; also make sure the radio's volume control is kept low.

Leave emergency telephone numbers—the home you're visiting, the theater, the police, fire department, the doctor and the next-door neighbor.

Tell the sitter where to find essentials for your offspring's comfort, welfare, and what to do if there's a crying/spell. Point out vital light switches on the stairs and in the children's room.

Be certain that the children make friends with the sitter; that they understand they'll be safe and secure without you.

Set an hour for your home-coming and try to make it. If you can't, then telephone. The sitter's mother won't worry if she knows the score.

Don't forget that baby sitting is night work. If you're later than you anticipated, arrange for overtime bonus. It's insurance against canceled social engagements in the future.

And make sure that the sitter gets home safely. You are as responsible for her safety as she is for your children's.

Lipscomb

LIPSCOMB (Special)—Mr. and Mrs. Geo. Stabel and family, Mrs. LeRoy Price, LeRoy Koch and Leo Schneider were Sunday dinner guests in the home of Mr. and Mrs. R. N. Fox and family.

Mrs. R. J. Koch and Ray were in Lipscomb Tuesday.

Mrs. Andrew Longhofer and family attended the funeral of Eual Lemley at Canadian Monday afternoon.

Miss Mary Lynne Webb is home on vacation for two weeks.

Mr. and Mrs. Gilbert Hill and family left Friday morning for a trip to New Mexico.

Mr. and Mrs. W. B. Turner and sons left Monday on their vacation.

Gus Koch is the new janitor at the Courthouse.

Mr. and Mrs. Ed Schneider, Mrs. John Peil, Mrs. R. N. Fox and Mrs. John Allen papered Mrs. Henry Stabel's house Monday and Tuesday.

The Lipscomb Union Church is conducting a week of special meetings with the Rev. and Mrs. Campbell of Dallas.

Many people of Lipscomb attended the celebration at Booker last weekend.

White fir lumber is non-resinous, fine textured and odorless when dry.

SHE HAS A NAME FOR IT—"I call it sculpture," says artist Jannette Sherman, 24, of Detroit, as she explains to befuddled visitors to the Modern Art Exposition in Paris the symbolism of her decorative work. She explains, "It has in it the feeling of the sky, the sea, the mountains," and believes it contains all the forms used in sculpture.

Professor Finds Indians Had Some Traveling Salesmen Too

AUSTIN — An early Texas Indian who was a first-rate traveling salesman and gossip was instrumental in spreading the culture of his people throughout the state in the 17th Century, a University of Texas archaeologist says.

Juan Sabiata was the Jumano tribe chieftain who once explained a delay in his arrival at camp with, "I went out of my way to get some interesting news," says Dr. J. C. Kelley.

In a special study of Texas Indians, Dr. Kelley has discovered repeatedly the influence of this one Indian. A shrewd fellow, Juan Sabiata once made up a story about the appearance of a miraculous cross in the sky, related it to Spanish missionaries in El Paso and persuaded them to organize an expedition to Indians in another part of the state.

They did and learned later that his interest was not in the souls of the Indian tribe but in getting safe passage through Apache country. He wanted to get through to the other side for more gossip and trading.

Because of his annual trips east and west across the state, he came in contact with both French and Spanish explorers when they entered the state. Through his frequent movements, he transported ideas and customs of his own people all over the state, Kelley explains.

Someone Will Get Race Horse

Someone will get a race horse, formerly owned by the late George Dyer, at 8 p.m. tomorrow in front of the American Legion-VFW Hall.

The VFW Auxiliary will be on hand tomorrow night to serve ice cream, cake and coffee to anyone who comes into the hall. The horse will be displayed in the downtown section of Pampa from 11 a.m. tomorrow until it is presented to its new owner.

The amount of energy you use, not the hot weather, determines the amount of food you need in the summertime.

Eminent Professor Goes to University

HOUSTON — Dr. F. William Sunderman, a leading figure in the American medical field, has become clinical research director and Clinical Pathology Department head at the University of Texas' M. D. Anderson Hospital for Cancer Research here.

Also he has been named professor of experimental medicine and clinical pathology of the University's Postgraduate School of Medicine, Dr. R. Lee Clark, vice president and dean, announced.

Dr. Sunderman came to Houston from Cleveland, Ohio, where he was head of the Cleveland Clinic Foundation's Clinical Pathology Department.

Active in numerous medical organizations, Dr. Sunderman has been affiliated with various educational and governmental institutions, including the University of Pennsylvania and Temple University Medical Schools. He is vice president of the American Board of Pathology.

For his World War II services, Dr. Sunderman received the Naval Ordnance Development award and a War Department and Navy Department citation.

Free Men Have An Interest

THE Catholic Church and totalitarian communism are locked in bitter struggle throughout the world.

The answer is that communism cannot limit itself to the purely practical realm. It fans out into the spiritual sphere and seeks to supplant or destroy the regular religious authority.

Catholic leaders therefore see their historic guardianship over the spiritual life of millions of Europeans — not to mention others — threatened with extinction.

The Vatican has tried for a long time to arrive at an ideological compromise which would allow Catholicism and communism to live side by side.

Why do Communists in the predominantly Catholic European countries feel it necessary to engage so stubborn a foe?

The answer is, of course, that a dictatorship like communism can brook no opposition whatsoever.

Above all, Communists are bent upon maintaining themselves in power wherever they enjoy it.

IT SHOULD be evident immediately that the Catholic Church is the toughest possible center of resistance to communism in Eastern Europe.

Washington by Peter Edson

WASHINGTON — (NEA) — Unification has finally arrived. Army, Navy and Air Force personnel will wear the same kind of underwear.

WEST VIRGINIA Sen. Matthew Neely, who can shake his head harder, wave his arms more wildly and quote more poetry than any other old-fashioned orator in Congress, told this one.

"J. P. Morgan once became interested in a witty tramp and told him that if he would come to the Morgan banking office every Monday morning, he would be given \$5.

"The tramp, overwhelmed by disappointment and despair, said: 'I suppose I have to submit to this highway robbery. But please tell Mr. Morgan I hope that he will not marry off any more of his daughters at my expense.'"

"RECOVERY IS PROBLEM MARSHALL PLAN troubles now before the U. S. Congress and the heads of European governments do to break down the fact that recovery has been faster than anticipated.

"Some American experts are inclined to believe that the solution to the new problem lie largely in what the European countries themselves do to break down their own trade barriers, reform their currency and foreign exchange arrangements, modernize their own industrial methods and lower their costs of production so as to sell in the competitive

Ignoring a Few Rules Can Make Motorist a Statistic

By BRUCE BLOSSAT

The National Safety Council reports traffic fatalities for the first six months of 1949 are the lowest in U. S. history for the number of miles traveled.

The Council has done a magnificent job, of course, in keeping Americans constantly alert to the danger of motor travel on increasingly burdened streets and highways.

There is something brutally grim about the Council's accuracy in forecasting highway fatalities on big holiday weekends.

DEATH will come to drivers who have passed road tests and are licensed to drive. It will strike everywhere, but most heavily in the country's big clusters of population like New York and Chicago.

It is abundantly evident now that mere warnings plus the simple road tests prescribed by most states on the highways.

First, present-day driving has become an increasingly explosive factor—the speed and maneuverability of modern cars, the inadequacy of most motorists on which they travel, and the consequent continuing menace that an unstable driver can bring to judgment will turn any normal traffic stream into a shambler of death in an instant.

SECOND, if the driver wants the best chance of averting a possibly fatal crash, he must recognize the explosive situation by acting seriously and responsibly when he is behind the wheel.

Third, the driver must not at any time assume that his fellow motorists is attending to business when he is driving on a highway.

The U. S. government supposedly acquired the nickname of "Uncle Sam" in 1812, when a citizen of Troy, N. Y., asking what the initials "U. S." on a carton stood for, was told they represented Uncle Sam, meaning a certain Samuel Wilson, a canteen village character.

Communists somehow fail to marshal the strength they need to achieve full success in this effort.

Success Secrets

By ELMER WHEELER

Any editor worth his salt would promptly turn down a story with a plot taken from the career of Walter Knott, it would be "implausible."

With his young wife, Walter Knott's home, situated in the Mojave Desert at Pomona, California.

Next they worked a vegetable farm on "shares." Several years of back-breaking labor resulted in a small savings account, which they used to rent 10 acres of land near Buena Park, California.

In 1934 they began serving chicken dinners with the pie and coffee. Today Knott has over 300 employees. He serves around 8,000 chicken dinners every Sunday, and better than 5,000 on weekdays.

"Thousands of people ask me, 'What is the secret of success?' says Mr. Knott. 'The question is difficult to answer, for so many factors enter into it. Our feeling is that by work and effort we have just gotten started and we hope to embark upon new buildings, new equipment and more entertainment and service for our customers. Personally, I know that what we have accomplished is due to teamwork, and the hard work and enthusiastic service by our family of loyal employees.'"

Gracie Says

By GRACIE ALLEN

NEW YORK — Spent most of the day with George at a bank where he got his travelers' checks. He finally decided to take along a hundred dollars worth, which he explained was just in case of emergency and was not any reason for me to go overboard.

George said that English money is different from ours, so he would have to change our dollars into pounds. Maybe if I can persuade him that it will reduce his waistline, he can take a few pounds off of him.

George said the English are suffering from a dollar shortage caused by the war (in my case it was marriage), so whenever they find an American dollar roaming around they latch onto it and won't let go.

STILL PLENTY OF PLANES ENDORSEMENT OF THE 48-group Air Force plan budget by Secretary Stuart Symington and Gen. Hoyt Vandenberg doesn't mean that the 70-group idea has been abandoned.

HOW THEY COMPARE BATTING AVERAGE OF THE 81st Congress Senate below the record of the 80th Congress last year, when July 1 tabulations were made.

Public bills enacted into law... Private bills enacted into law... Total measures passed by Senate... Total measures passed by House.

Last year the 80th Congress polished off its business by June 29 and adjourned to attend the Philadelphia political conventions. President Truman called it "the worst" Congress, summoned it back for special session.

Some American experts are inclined to believe that the solution to the new problem lie largely in what the European countries themselves do to break down their own trade barriers, reform their currency and foreign exchange arrangements, modernize their own industrial methods and lower their costs of production so as to sell in the competitive

LIBERTY

By F. A. HARPER

A Member of the Staff of Foundation for Economic Education

INSTALLMENT X

Government, as previously discussed, is a repressive force. Within its scope, it prescribes patterns of conduct whereby the citizen is forbidden from doing certain things.

The first recorded laws under government, for instance, were to be an evil. The exercise of human capacity for independent judgment, free choice and action is curbed by government.

In the acts of government, a singleness of conduct is attempted which by its very nature defies the law of variation.

The result of an expansion of governmental action beyond that defined as the objective of government in a liberal society is to bring about a singleness of conduct in liberty.

A minor shooting war is on between Romanian Communist troops and organized partisans in the mountainous regions.

Should not expect that these skirmishes are "Battles of Lexington," opening full scale revolution with the prospect of success.

OUTBREAKS SPONTANEOUS These outbreaks are to be understood in our appraisal of resistance to Moscow.

Explosions of this nature are common in a summer in Soviet satellite states of Hungary, local "lynching parties" attack Russian troops.

It must be kept in mind that these are local pots boiling over. They are spontaneous without plan or permanence.

These rebels belong to a proscribed class, such as former Allied war veterans, outlawed political parties or national groups.

For government to issue permits for the rule of variation is a rather questionable claim to authority.

These guerrillas, well-armed and with weapons hidden after the war, have taken over field fortifications built in the mountains by the Nazis to check the western drive of the Russian army.

The Russian have been trying to draft Lithuanian youth into the Soviet military forces but so far have conscripted only ten percent of the quota.

A government cannot rescind universal laws by enacting contradictory laws or administrative decrees.

These guerrillas, well-armed and with weapons hidden after the war, have taken over field fortifications built in the mountains by the Nazis to check the western drive of the Russian army.

It's Hot Enough for Us

By GORDON MARTIN

There's an urgent summer problem which sometimes is hard to beat, if a man's to keep himself from going crazy with the heat.

You would like to bust him on the snoot, but like as not you'll say: "It's plenty hot enough for me."

It was an empire built on laughs, custard-cop, bathing beauties and a still unchallenged production record of 700 comedies in a row.

Now Hollywood is getting around to honoring the old boy, who is almost 70, short on cash and long on memories.

Paramount will film "The Mack Sennett Story."

Eagle Lion will soon release "Down Memory Lane," clips from Sennett's best comedies and considerable new footage in which the white-haired film pioneer plays himself.

"I've been looking for you everywhere," he lied. "There's a pile of money to be made in these new moving pictures and with \$2500 I could make four pictures and we'd be on our way to a fortune."

"You're crazy," said the bookie. "You owe us \$100 and you want \$2500 more."

"I must have been a good salesman," said Sennett, "because they came through with the money."

Sennett, Mabel Normand, Fred Mace and Ford Sterling took a train for California. They got off at the Santa Fe station and started toward the center of town in an automobile.

"We soon found our way blocked by a Shrine parade. Within 10 minutes we'd bought a doll that looked like a baby and cried when squeezed. I told Mabel: 'You wait on the curb with the doll until our car comes close. We'll start the camera and then you run out and accuse one of the marching Shriners of not providing for his baby. Ford and Fred will come up and help you.'"

"We got a piece of cardboard and printed PRESS on it and hung it over the windshield of our car. Then we covered up the camera with my coat."

"Mabel did as I told her and it was even better than I had hoped because the man's wife was marching with him and she got pretty excited. The cops came up and were funnier than our actors. When they discovered the hoax, Mabel and the boys got back in the car and we drove away, fast."

Next day Sennett rented a small store building and made a brief beginning and a brief end for the "movie" he had taken 10 minutes after his arrival in Los Angeles. His bookie partners were delighted. The picture sold read-

Persons who have no hearing, the truly deaf, are in the minority. The majority of persons with varying degrees of deafness can be helped through one of the many hearing devices that are now available.

If a hearing aid is recommended, follow the physician's advice on the type most suited for the specific degree of deafness. The physician will also have the information on price range of the devices. They need not be outrageously expensive. There will be some adjustment, of course, in becoming accustomed to such an aid, as there is in getting used to glasses.

I thought it was about time somebody did something about housing the guy who makes \$50 a week. The building industry told me it couldn't be done, so I created these jobs for myself. Federal Housing Expediter, Tighe Woods, after having a house built to sell for \$6750.

We must decide to what degree we want peace on earth and then make up our minds to sacrifice enough of our personal comfort and pleasure to pay the necessary price to attain that goal.

Lions International President: Walter C. Fisher.

IN HOLLYWOOD

BY ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — (NEA) — Forty years ago an ex-boilermaker named Mack Sennett became the backbone of the two Polish resistance branches which still function.

It was an empire built on laughs, custard-cop, bathing beauties and a still unchallenged production record of 700 comedies in a row.

Now Hollywood is getting around to honoring the old boy, who is almost 70, short on cash and long on memories.

Paramount will film "The Mack Sennett Story."

Eagle Lion will soon release "Down Memory Lane," clips from Sennett's best comedies and considerable new footage in which the white-haired film pioneer plays himself.

"I've been looking for you everywhere," he lied. "There's a pile of money to be made in these new moving pictures and with \$2500 I could make four pictures and we'd be on our way to a fortune."

"You're crazy," said the bookie. "You owe us \$100 and you want \$2500 more."

"I must have been a good salesman," said Sennett, "because they came through with the money."

Sennett, Mabel Normand, Fred Mace and Ford Sterling took a train for California. They got off at the Santa Fe station and started toward the center of town in an automobile.

"We soon found our way blocked by a Shrine parade. Within 10 minutes we'd bought a doll that looked like a baby and cried when squeezed. I told Mabel: 'You wait on the curb with the doll until our car comes close. We'll start the camera and then you run out and accuse one of the marching Shriners of not providing for his baby. "How many fishes must I break before you'll buy that automatic dish washer in the News Want Ads?"

John Maragon Tells Story Of His Climb

WASHINGTON — (AP) — How did John F. Maragon climb from shoe shine boy to a man about Washington and favor-doer to people about Washington? He told his own story. For nearly three hours, the 55-year-old one-time Greek immigrant chartered for reporters the course of his sometimes hectic, sometimes fabulous career.

The yarn smacks of Horatio Alger—but only to a point—as Maragon tells it.

In his lawyer's office, he unfolded his story. It was the week-to-year account from \$6 a week 13-year-old Kansas City boot black to his present role in Congress' probe of "five-percenters."

His words were well-chosen. His Greek accent was always as apparent as his grammar was correct.

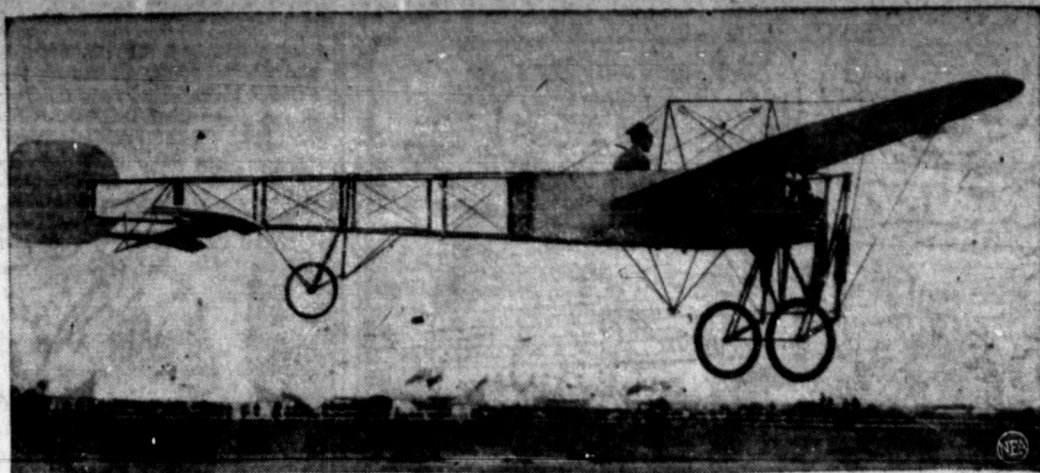

Maragon listed a sheet of senators and congressmen, past and present, as his friends. He talked of Sir Thomas Lipton, the British tea tycoon. Even Kaiser Wilhelm was brought in.

And Maj. Gen. Harry H. Vaughan? A "very close friend," was Maragon's description of the presidential military aide.

"To retain a good friend," he went on to say, "three things are necessary. You must be honest, loyal and not use them."

Maragon stated that he had closely followed this creed in all three respects so far as Vaughan is concerned.

Yes, he said, he knew well

OLD-TIMER TAKES TO THE AIR—A replica of the Bleriot cross-Channel plane of 1909 takes to the air at Birmingham, England. This veteran was seen by crowds at the King's Cup air race.

many, many high officials. But then his attorney, Myron G. Ehrlich, asked:

"Have you ever accepted any money for doing anybody a favor in any government department?"

"I have not," Maragon answered.

Then he went into his service as a G-man. He told of a job overseas as an interpreter for an official government mission to Greece.

But never, Maragon said, did he make big money. Never did he become wealthy—the missing ingredient to make his career a rags-to-riches saga.

"I don't even know where I'm going to get the money to pay this man here," he said pointing to his attorney.

Maragon said things started looking up for him in Washington during prohibition days. As he put it, he "took the rap" for a senator about to be arrested because the lawmaker's suitcase was dripping bootlegged gin.

It was the grateful and still States.

unidentified—but now deceased—senator who later got Maragon appointed a G-man in the days before J. Edgar Hoover took charge of the FBI, Maragon related. The job paid \$7 a day plus expenses.

"What's your job now, John," reporters asked him.

He said he is a "publishers' representative." The company, a Chicago concern, is soon to put out a "Who's Who of the Republican and Democratic Parties," Maragon said.

He denied reports that he once had a special White House pass. It was to operate the banana business that he and two friends opened a bank account in San Antonio, he said. The Senate committee investigating "five percenters" activities last week looked into this fact of Maragon's affairs.

There are an estimated 300,000 miles of city streets in the United States.

Optometry Is Meeting Subject

Dr. J. L. Chase, Pampa optometrist, gave Rotary members a brief history of optometry and the development of the modern visual aids at a Rotary meeting, yesterday. The Rotarians held their weekly luncheon meeting in the Palm Room of the City Hall.

Each new member of the organization is required to give a discussion, or classification talk, concerning his profession before formally being admitted to the Rotary Club.

The other half of the program was devoted to group singing led by Virgil Mott.

Rotary directors met following the regular meeting.

A mild winter in 1890 caused a world-wide shortage of natural ice and stimulated development of ice making machines.

'Evil Spirit' Cast Out From 14-Year-Old Boy

WASHINGTON — (AP) — An "evil spirit" which a Washington couple said "possessed" their 14-year-old son now appears to have been cast out.

This information was relayed to the Society for Parapsychology by a Washington clergyman who said the family had obtained for the boy "the ritual of exorcism" from clergymen of different faiths.

The minister told the society that mysterious noises, creeping furniture and violent rocking of the boy's bed were observed by the family beginning last January.

He said he took the boy to his home where he witnessed these "phenomena."

The mattress on the boy's bed "vibrated." He was then placed in a chair. The chair crept back against a wall and "when it couldn't move any further, it started to tip slowly, with a slow motion."

Then the boy was placed on a blanket in the middle of the floor. The boy and the bedding slowly moved under the beds and there was no evidence of the boy's body moving.

Then last March the boy's father took him for a visit to a Midwestern city. This was shortly after he told his parents that "mysterious writing" appeared on his chest saying "No school," his parents said.

During the visit, Roman Catholic priests were asked to see

him. They placed a statue of St. Michael in his room. Afterwards he said he had seen "a vision of St. Michael chasing the Devil away."

Clergymen of different faiths called in later gave the exorcism rituals, the minister reported, and the strange goings-on stopped.

The name of the boy was not given and the society stipulated that the clergyman who gave the report was not to be identified.

The society president, Richard C. Darnell, said the society was interested in the case because parapsychology "is a borderline science concerned with extra-sensory perception (such as clairvoyance and mental telepathy) and other para-normal (unusual) phenomena."

He told a reporter that the events described regarding the boy can so far "not be explained in terms of physical or physiological phenomena."

"They fall within the classification covered by the technical term 'poltergeist'—meaning 'noisy ghost,'" he said. But he added quickly:

"I do not mean to imply that these things are of necessity caused by a ghost, possibly or otherwise."

The 1935 height record of 72.395 feet set by Capt. Albert Stevens and Orville Anderson in a balloon was still higher than any other man had flown in 1949.

MR. BUSHIER RETIRES
NEW YORK — (AP) — Mr. Bushier, Maine Chance Farm's winner of the National Stallion Stakes and the Arlington Park Futurity last year, is to be retired to stud. A bowed tendon and throat trouble ended the horse's career after he won three of four starts for \$83,878.

Mr. Bushier brought \$50,000 as a weanling from Mrs. Elizabeth N. Graham.

BOXERS POPULAR
SANTA CLARA, Calif. — (AP) — Student bodies at Santa Clara, and cross-town San Jose State, have elected heavyweight boxers as student body presidents. Pat Walsh is president at Santa Clara and Don Shafer won the honor at state.

There are nearly 7,000 ice making plants in the United States.

From where I sit... by Joe Marsh

Specs And I See Eye To Eye

Asked Specs Allen to go hunting last week. Known him all my life, so I wasn't surprised when he showed up with no gun. Specs doesn't like to kill anything.

Couldn't ask for a better hunting companion, though. We tramp around the woods, and whenever the dogs flush a bird, I blaze away while Specs just watches.

Told him once I was surprised he went along... feeling the way he does about shooting anything. "Well, Joe," he says, "you do what you think is right and I'll stick to what I think is right. I've no call to dislike you for not seeing something the way I see it."

From where I sit, open-mindedness is a wonderful quality. There are plenty of things Specs admires that I don't care for. Like his fondness for buttermilk. I'd rather have a glass of beer anytime... but Specs Allen and I don't let little differences get in the way of something big like friendship.

Joe Marsh

DR. MICK CHECKS THE SNIFFLES—Helpful Mickey gives a hand to Mrs. Johnny Tatal of Queens Village, N. Y., in the little matter of blowing her nose. In addition, the monkey helps around the house by doing the dishes and throwing pebbles at trespassers.

Phillips Plant To Be Reopened

BARTLESVILLE, Okla. — (AP) — A plant at Phillips, Texas, idled since the war, will be reopened on or about Aug. 15 for the manufacture of an anti-knock gasoline ingredient, the Phillips Petroleum Co. disclosed Wednesday.

The plant was constructed for making high quality aviation gasoline. It has been modernized during the shutdown.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent urinary passages with stinging and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give speedy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Both High and Low Blood Pressure

Successfully treated by taking **BOAZ TABLETS** three times a day. No dieting or restrictions of any kind. Symptoms; headache, dizziness, pain in back of head and neck, irregular heart action and cramping in legs . . . and many others.

ON SALE AT **Modern Pharmacy** 115 W. Kingsmill

FOR SCOTT'S SPOT?—Guy G. Gabrielson, New Jersey national committeeman, is said to be a likely choice to succeed Rep. Hugh Scott, Jr., of Pennsylvania, as chairman of the Republican National Committee. Reportedly acceptable to major party factions, Gabrielson, like Barkis, has indicated he's "willing."

Mobeetie

MOBEETIE —(Special)— Jimmy Coward visited last week in Shamrock.

Mr. and Mrs. E. W. Wheeler of Lefors were Mobeetie visitors Sunday.

Weekend visitors in the Jno. Tschirhart home were M-Sgt. Fred Robertson of Fort Riley, Kans., Mr. and Mrs. Burk Tschirhart of Amarillo, M-Sgt. and Mrs. P. T. Heck of Honolulu, and Patty Bolin and Jim Pepin of Pampa.

Ted Leonard will play guard on the West team in the state all-star basketball game at Big Spring Aug. 13.

Shamrock

SHAMROCK —(Special)— Mr. and Mrs. Billie Cantrell and sons; Mr. and Mrs. Billie Hetty and children; Mr. and Mrs. Kid Henderson and son; and Mr. and Mrs. Amos Reeves and children, have returned from a vacation trip to New Mexico, Colorado and Kansas.

HE'S NO CUB—Dan Chapman, 87, of Cornwall, England, claims to be the oldest Boy Scout in the world. He started a troop a year after the scouts were first founded in 1908. Still going strong, Chapman talks over scouting experiences with a young friend, 9-year-old Michael Rowe of the Wolf Cubs. Chapman is entitled to 40 service stars, but has trouble getting them all on his shirt.

ROOM FOR THE WHOLE FAMILY—Taking a family of six on a vacation with only a modest income is always a problem everywhere. But Lars Georg Swerin, a farm worker in Soderby, Sweden, found the solution. He furnished his tandem bicycle with two front seats and two back seats. Here Swerin, his wife Wiran and their four young children, load up for their holiday trip.

Bureau Reverses Stand on Rivers

WASHINGTON — (AP) — The Budget Bureau has reversed its previous stand and now favors a bill authorizing a survey of the Red, White and Arkansas rivers, if a few changes are made.

The announcement was made by Sen. Kerr (D-Okla.), one of the authors of the bill.

Previously, the bureau had said such a bill would be undesirable, and Kerr appealed to the President.

The bill would set up a 13-man commission to study flood control, soil conservation and related problems in the river basins.

A group of Louisianians have opposed the measure because they say a survey has already been made along Red River and another would delay work already underway.

The bureau wants only five men from government departments to form the commission. Kerr also included one each from the eight states affected—Colorado, New Mexico, Oklahoma, Kansas, Missouri, Arkansas, Texas and Louisiana.

INDUCED SALES

Early poets and orators recited their works in public in order to induce their hearers to buy written copies of them, according to the Encyclopedia Britannica.

Barkley Denies Marriage Rumor

ST. LOUIS —(AP)— Vice President Barkley and Mrs. Carleton S. Hadley have denied reports they will be married in Paducah, Ky., this weekend.

Mrs. Hadley also said Tuesday night there was nothing to another rumor that they planned to be married in St. Louis the following Sunday.

Barkley made his denial in Washington.

The vice president has stopped here twice in two weeks to see Mrs. Hadley.

Mrs. Hadley's husband, a railroad attorney, died four years ago.
