FINEST CIGARETTE LABORA

## America's largest cigarette research laboratory is your guarantee that Luckies are a finer cigarette!

TOU SEE HERE the largest and most complete I laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies-from before the tobacco is bought until the finished cigarette reaches you-comes under the laboratory's watchful eye. Literally hundreds of precision tests are conducted daily to make certain that the Lucky Strike you smoke is a finer, milder, more enjoyable cigarette. As you read this,

a constant stream of tobacco . . . samples from every tobacco-growing area... is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

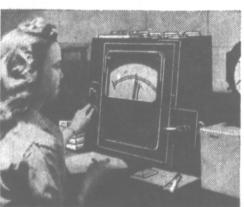

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer, lighter, milder tobacco. This fine tobacco-together with scientifically controlled manufacturing methods - is your assurance that there is no finer cigarette in the world today than Lucky Strike!

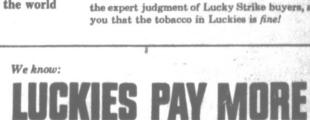

Testing tobacco. Samples from every tobaccogrowing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure

MCKENNEY America's Card Authority Written for NEA Service I saw a gadget the other day that a mathematician had worked out evhereby you would push a lot of little indicators for the number of aces and kings, also the length of your suit and it would tell you what to bid. Then your partner would take his gadget, push it around, and it would give him the responses. Well I pushed the thing around on a half-dozen hands, but I found out that when I got through, the robot bridge player was a failure. I think Alfred P. Sheinwold in an article entitled "Practical Bridge," which he wrote for the why bridge will never become a April issue of the Bridge World, gives an excellent example of mathematical or mechanical game. It is an intellectual pastime. It

Up to this point the de-elarer had had no problem, but now he was worried about East having four clubs to the ten spot. In order to get a count on the hand he took two rounds of spades. He found out that West had five spades. Therefore, he must have had four diamonds, probably five, so he could easily have held a singleton club. Declarer led a small club from dummy and finessed his nine spot. West won with the ten spot and down went a safe contract five tricks simply because West did not give up.

HERE'S a friendly reminder that your summer vacation plans are not complete until you've arranged for your favorite newspaper to be forwarded every day you are away. THIS summer there's so much happening at home and abroad that you'll WANT to read all about it, day after day, in your OWN family newspaper.

We will gladly mail your copy each day to wherever you spend your vacation, if you'll simply give your carrier the address and dates you'll be gone. Or, phone or mail them to our Circulation Department! Either way, you'll be sure to enjoy all the latest news from around the world, as well as the family's favorite comics, columnists, cartoons and other newspaper features, just as you do at home every day.

P. S .- If you prefer, your carrier-boy will earefully save ALL copies while you are away, and deliver them the day you return. Tell him which vacation news service you prefer, before you go.

Now I'm Going Back To High School!

When I saw lights burning in the High School auditorium last night, looked in to see what went on. About twenty people were listening to Buzz Ellis, the electrician, talk about television.

I slipped into a back seat and asked Hap Thomas wha' was up. Hap told me it was the new Self-Improvement Club. I stayed to listen-and learned a lot. Buzz really knows his stuff.

Turns out this club meets every Friday night. Each member gives a talk on the subject he knows most about. I joined on the spot because

learning new things is one of my favorite hobbies.

From where I sit, it's willingness to learn from the other person that makes Americans tolerant towards so many different viewpoints and tastes in things. Just because Busk Ellis goes for chocolate malteds, while I prefer a mellow glass of beer, doesn't mean I'm right and he's wrong. Incidentally, next week I'm going to talk on how to run a
