

MILAN, Italy - (AP)— Customs Police said today they have seized 45,000 sets of false teeth smuggled into Italy from Germany.

SIX DIE IN CHURCH BLAST—Only the steeple and a portion of one wall remain standing after an explosion wrecked St. Mary's Catholic Church at Marlon, S. D., just before the start of Palm Sunday services. Six persons lost their lives and 50 others were injured in the blast. (Associated Press Photo)

Child Kidnaped for Ransom Say Parents

BEVERLY HILLS, Calif.— (AP)— Police Chief C. B. Anderson said today that a Beverly Hills dress shop owner reported that his five-year-old son was kidnaped and ransomed for \$33,000.

"However," said the chief, "there are discrepancies in the story."

Anderson identified the boy as Joey Goodman, son of Mr. and Mrs. Joe Goodman. He said Goodman told him that the boy was picked up by the alleged abductor on the pretext he was taking him to the Page Military Academy which he attends.

The chief added that when he questioned the child, he said that he recognized his abductor and that he had seen him talk with his father in his home.

Los Angeles Police and the FBI declined comment on the case. Goodman, who has an unlisted telephone number, is unavailable for comment. A reporter went to the house but found no one home.

The Los Angeles Examiner, which got out an extra on the story, related this account: On Sunday night, a man phoned the Goodman home and said:

"This is the Page Military Academy. We will be unable to pick up Joey in the station wagon but someone will be over there in a car. Have him ready at 8:15 a. m. (Monday)."

The parents sent the boy on out in the morning, when the car appeared and honked. At 11

Uniforms Are Issued Guard

The local National Guard unit has received uniforms for all its members. Capt. William J. Ragdale, commanding officer, announced at the unit's weekly drill period last night. He said that clothing would be issued to personnel as soon as it was sorted and supply records were completed.

Commenting on the growth of the organization, Ragdale said, "The unit is growing slowly but surely, and we hope to have twice our present strength by the time we leave for summer camp on June 5." He said, "The unit is basically a technical one and technically minded men are needed to operate the sensitive equipment, but men otherwise qualified for Guard service can apply for admission to many of the Army's specialized training schools."

Two of the unit's members are now attending schools at Camp Lee, Va.

Instruction last night was on the .30 caliber carbine and included "dry run" firing. Instructions for the weapons courses are Lt. John J. Connell, 333 Sunset Drive, and Cpl. Gordon Mitchell, 320 N. Wells.

Two more local men enlisted in the unit, Ragdale announced. They are Recruit Andrew J. Williams, 1213 S. Barnes, and Recruit Don Reed, 616 E. Albert. Anyone interested in service with Battery A, 474th FA Observation Battalion, may contact Cpl. A. C. Stowe, the unit's administrative assistant, at the Texas Employment Commission office.

Truman Calls for Pact Approval

HST Begins Fifth Year As President

WASHINGTON — (AP)— President Truman began his fifth year in office today, convinced that the world is moving slowly but surely along the road to enduring peace.

Four years after taking over the reins of a government which has engaged in two devastating world wars, he is known to feel that the goal is at last in sight.

It can be stated authoritatively that Mr. Truman thinks another two years will bring an assurance of peace.

The turning point, in his opinion, was when the United States made its crucial decision two years ago to aid Greece and Turkey against the threat of Communist envelopment.

Mr. Truman, who will be 65 next May 8, looked cheerful and well when photographers called in his office yesterday to make anniversary pictures.

He weighs 178 pounds, 11 more than he did when he was summoned to the White House April 12, 1945, to take the oath of office.

His physician, Brig. General Wallace H. Graham, thinks he's a bit "too fat." He is walking every morning before breakfast and taking regular swims in the White House pool in an effort to reduce his waistline.

Mr. Truman is celebrating his fourth anniversary as President by lunching with his colleagues on Capitol Hill at noon (CST).

It was four years ago today that he sat in the office of his old friend, Speaker Sam Rayburn, on a leisurely, story-telling afternoon.

He got a call from Stephen Early, a Roosevelt secretary, named a few days ago by Mr. Truman as undersecretary of defense—to hurry up to the White House.

Upon his arrival there, he was informed of Mr. Roosevelt's death in Georgia. That evening he was sworn in as President.

In almost everyone he saw he asked to "pray for me," and he told reporters that the great assignment was like having "the moon and all the stars" fall on him.

The President Truman of today is a far different man in some respects. He has more confidence and greater ease in the nation's biggest job.

At the same time, he has changed but little in many respects. In the intimacy of friends he speaks with the same quiet modesty that has been his trademark in the past.

Apple Blossom Festival Is Being Resumed

The annual Easter Sunday Apple Blossom Festival at Bruce Nurseries is being resumed this year for the first time since the war.

Speaker for the non-denominational services will be announced later this week, but there will be music and an open house at the nurseries west of Lefors beginning at 2 p. m.

Mr. and Mrs. Paul M. Bruce will be host and hostess and will conduct a tour through the nursery grounds. The extensive apple orchards and lilacs and other flowers are reported in full bloom now.

The nursery can be reached by turning right onto the first road south of the McClellan bridge south of Lefors and by following the signs that will be erected by Sunday.

Settlement Try

BATAVIA, Java. — (AP)— Dutch and Indonesian Republican representatives will meet with the United Nations commission here Thursday in an attempt to settle their differences.

Pampa Junior High Student Is Winner of County Spelling Bee

Beverly Williams, 14-year-old daughter of Mrs. C. R. Williams, came out the winner this morning in the Gray County Spelling Bee at the High School. The Bee is linked with the National Spelling Bee.

Beverly, an eighth grader at Pampa Junior High School, went through many eliminating contests in order to represent Junior High in the county Bee. Each home room held individual contests to determine home room winners. After home room contests had taken place a sixth, seventh and eighth grade winner competed for the representation of Junior High. Carol Joyce Paxton was sixth grade winner, Mary Kathryn Woolsey, seventh grade and Beverly Williams, eighth grade. After the last run-off Beverly was elected to represent the school.

Beverly's correct spelling of "hire" won her the opportunity to represent Gray County at the District Spelling Bee April 30. The district will be comprised of the Amareille-Globe-News April winners of 38 Panhandle counties. The winner of the district contest will be awarded an expense-paid trip to Washington, D. C., to enter the national finals.

The runner-up in the county contest was eighth grader Billy Herr, who attends the Holy Souls School. Other contestants were: Sylvia Bradford, 12, seventh grade, Lefors School; Betty Lou Hogsett, 10, eighth grade, McLean School; and Mary Ellen Bird, 12, sixth grade, Hopkins School.

Man Found in Home Shower Dying From Slashed Throat

Arline Ramsey Given, 51, of 305 N. Dwight, an employee of the Shell Oil Co., was found early this morning in the shower room of his apartment dying from a slashed throat.

He died as police and ambulance men from the Blackburn-Shaw-Sims Funeral Home pulled him from the shower to take him to a hospital.

Justice of the Peace D. R. Henry handed down a verdict of suicide late this morning following the inquest at the scene of the slaying.

City Police said Mr. Given was found fully clothed in a pool of blood in the shower. A two-inch blade pocket knife was found underneath his crumpled body.

Mrs. Ida Mae Given, his wife, told officers she got up at 6:30 to light the fires and warm the apartment. Mr. Given arose later, dressed and went to the bathroom to shave. She said she heard a slight noise shortly afterwards but thought nothing of it at the time until she found him dying in the shower.

Physicians that examined the body said his jugular vein and windpipe were severed.

An examination of the bathroom showed Mr. Given had finished shaving and put away his shaving equipment. The shaving brush was still wet.

A search of the premises by police failed to disclose a note or clue. A search of his pockets in the Blackburn-Shaw-Sims Funeral Home yielded no further information.

Police added Mr. Given drew

Taxation Question Flares Up Again in Texas Legislature

AUSTIN — (AP)— The question of taxation was ready to flare up again in the House today.

A proposed natural gas tax bill was sent back to the Revenue and Taxation Committee yesterday by a House vote of 69 to 68.

Reflecting this slowdown attitude, the Senate returned three major appropriation bills to the Finance Committee for possible trimming.

Members of the gas tax measure said last night in a bitter committee fight that a motion would be made in the House today to reconsider the vote by which Rep. C. S. McLellan's bill was recommended.

Only a simple majority would be needed to restore the bill to the House calendar today, they observed.

"Tonight we know we've got the votes in the House to pass this bill," Rep. Paul M. Wilson of Geneva, co-author of the feeder road tax proposal, told the committee.

Division over McLellan's bill was as close in committee as on the House floor. A motion by Rep. Dolph Briscoe of Uvalde to send the proposition to a favorable subcommittee for one week's study carried by 8-to-7 vote. Committee Chairman Joe I. King of Henderson cast the vote which broke a 7-7 tie.

Senate recommitment of bills providing money for state departments, colleges and eleemosynary institutions the next biennium came after a bitter afternoon struggle.

Senator Jim Taylor of Kerens, chairman of the Finance Committee, took the action as a mandate to cut the bills down nearer the level of available income.

Workers Needed In Fund Drive

The Gray County fund raising and educational campaign of the American Cancer Society still needs more volunteer workers. J. Ray Martin, chairman, said today.

"We now have 22 Pampans assisting with the drive," he said, "but we could use a few more."

E. E. Harrison of Pampa Glass and Paint Company is the latest recruit assisting with the drive. "When these 22 volunteer workers solicit your help," Martin said, "the only pay they receive is the knowledge they are doing a humanitarian deed."

Martin said that cancer is no respecter of persons and "when you contribute you may be helping yourself."

Treaty Text Released to U.S. Senate

WASHINGTON — (AP)— President Truman called on the Senate today to approve the North Atlantic Treaty as a means of preventing Russian communism from smashing the free nations of Western Europe as it has those in the East.

"The people of the North Atlantic community have seen solemn agreements, designed to assure peace and the rights of small nations broken one by one and the people of those nations deprived of freedom by terror and oppression," Mr. Truman declared in a message.

The President sent his message to the Senate along with the text of the treaty and a report on it by Secretary of State Acheson.

In his message, Mr. Truman said the treaty would be a long step "on the road to peace," that it was framed within the terms of the United Nations Charter and the American Constitution, and that it is "based on the realities of the situation we face today."

He made no reference in the message to an issue in which many senators have shown even more interest than the treaty itself—the issue of supplying American arms and military equipment to Western European members of the alliance.

An arms program possibly costing around \$1,250,000,000 is in preparation.

Some senators have been taking a stand that the Senate ought to know details of this plan—particularly what it is to cost—before a vote is taken on the treaty.

Since a vote is many weeks off, the Senate may yet receive those details before a decision on the treaty.

Mr. Truman did say that still other steps beyond the treaty must be taken to assure peace. "This treaty is only one step—although a long one—on the road to peace," the President declared. "No single action, no matter how significant, will achieve peace. We must continue to work patient."

(See TREATY, Page 2)

Cannibalism Story Told

BREMEN, Germany — (AP)— A German ship's steward calmly related in court today that he wantonly killed two young boys and he served some of the flesh of one of them to his unsuspecting family.

"I just had the urge to kill someone," Bodo Fries, 39, testified, his face impassive.

Fries is charged with murdering the two boys in 1945 and 1947. He is not charged with cannibalism as there is no such offense in German law.

The parents of both slain boys, Ernst Spenger, 12, and Wolfgang Windrat, nine, were in court to hear Fries tell of the crimes.

Spectators crammed the court and hundreds waited outside for the verdict, which was expected today.

Spectators gasped when Fries testified that at one time he was a cook for an American Army unit in Bremen.

Local Group Off to Blaze Truck Trail

Most Pampans have been under the impression that trail blazing days in the Panhandle are over, but they changed their minds this morning when they saw 12 men leaving town in jeeps.

The men comprise a special committee, appointed by the Chamber of Commerce, to explore the possibilities of blazing a truck trail to and across the Canadian River.

Some of the men say a temporary crossing can be constructed across the river and others say no. The Truck Trail Blazing Committee will have the final say in the matter.

The men, dressed in khaki and carrying shovels and tow chains, left town bubbling over with enthusiasm. They decided if the job can be done, Pampans can do it.

The committee was headed by John O. Pitts and Jake Garman, co-chairmen, and composed of Ivy Duncan, Crawford Atkinson, Frank Carter, J. D. Wright, E. M. Keller, Murray Body, J. W. (Bill) Graham, R. L. Edmondson.

SEVEN HIGH

(Continued From Page 1)
crimes against Jews, but he still
had two counts remaining against
him.
The court's detailed judgment
painted a graphic picture of how
Germans in various positions
lent their official aid to the sys-
tematic mass murder of Jews.
The reading of the court's 833-
page verdict against 21 high of-
ficials and diplomats of the war-
time German government brings
three years of American war
crimes trials to their semi-final
stage.
The pronouncement of sen-
tences, which may range up to
the death penalty, is scheduled
for Thursday — the final step in
the last of the trials.
Eight convictions have been an-
nounced by the tribunal since it
started reading its judgment yes-
terday. It still is only part way
through the reading of four of
the seven separate counts against
the 21 defendants.

lem. If the State Highway De-

TREATY

(Continued From Page 1)
ly and carefully, advancing with
practical, realistic steps in the
light of circumstances and events
as they occur, building the struc-
ture of peace soundly and solidly."
The treaty was signed here by
12 nations on Monday of last week.
It pledges them to aid each other
in event that one of them is at-
tacked by an aggressor.
To become binding on the United
States, the treaty must receive
the Senate's ratification. That
means approval by a two-thirds
vote.

Administration leaders are con-
fident that the Senate will event-
ually ratify it, but a long debate
is expected once the treaty reach-
es the Senate floor.
The first step at the Capitol will
be to refer the treaty to the
Committee to hold hearings. The
hearings will give opportunity for
the backers and critics of the
treaty—outside of Congress — to
express their views.

Throughout Mr. Truman's appeal
for Senate approval of the pact ran
the theme that neither the United
States nor any other nation can
"achieve peace independently."
Mr. Truman said that this na-
tion has determined to do every-
thing possible to insure that peace
is maintained in the knowledge
that "we can not escape the great
responsibility that goes with our
great stature in the world."
It was for this reason, he con-
tinued, that the American people
accepted the United Nations Char-
ter in 1945 and have sought since
to make it "a more effective in-
strument."
He cited too, the European Re-
covery Program as a move "im-
portant to the prosperity and peace
of our country and the world."
His message went on:
"The North Atlantic Treaty is
further evidence of our determi-
nation to work for a peaceful world.
"It is in accord with the action
of the Senate last June when it
signified its approval of our coun-
try's associating itself in peace-
time with countries outside the
Western Hemisphere in collective
arrangements, within the frame-
work of the United Nations Char-
ter, designed to safeguard peace
and security."

**Concert Assn.
Organized at
Wellington**

WELLINGTON — A campaign
for membership in the newly
formed Wellington Concert As-
sociation will begin April 25 and
last through the 30th.

The non-profit organization will
operate similar to the Community
Concert Association in Pampa.
During the campaign a promise
will be made of at least three
concerts during the 1949-50 sea-
son, and more if the budget per-
mits. Artists will be chosen, after
the drive is completed, by the
group's Board of Directors.

Charles Thomas, representative
of the Pryor Concert Service of
Council Bluffs, Iowa, met with
a group of Wellington citizens
on April 1 to help organize the
association.

Charles Briley was elected
president; Miss Bonnie Willis,
vice president; Dick Wiley, treas-
urer and Miss Virginia Evans,
secretary.
The Board of Directors includes
Dr. and Mrs. C. B. Jones, Rev.
and Mrs. Noel Bryant, Virgil
Johnson, Miss Anna Lee Graham,
Mrs. John C. Harper, Rufus
Johnson, Harold Barnett, Dr. and
Mrs. E. W. Jones, Dr. J. M.

for the weed and brush control
clinic to be held at the Hemphill
County Airport next Saturday,
the group that everything is ready
when many types of spraying
equipment will be shown and dem-
onstrated.

Tom Abraham, chamber pres-
ident, stated that officials of the
Sinclair-Prairie Oil Company had
planned to attend the meeting but
circumstances beyond their control
had prevented. In discussing the
need for better roads to the new
oil field, it was stated that the
Sinclair people are partial to what
is known as the "river road" for
travel to the Lippell well, and
the company seems willing to as-
sume a part of the cost of improv-
ing that road. It was stated that
the road would be oiled with
waste oil from the new well, and
that the bridges would have to be
reinforced with heavier timbers.
The commerce group voted to push
this road work in every way poss-
ible.

The group had recently urged the
Southwestern Bell Telephone Com-
pany to extend its service lines to
the new hospital, and new apart-
ment areas in Canadian. The re-
quest was acknowledged in a letter
stating that the company had in the
last few months had taken so much
material and manpower that the
company is unable to comply with
the request at this time.

H. S. Wilbur, president of the
Hemphill County Hospital Board,
reported that he and H. M. Wood,
T. D. Higgins, and Buren Hender-
son had made an inspection trip to
Henrietta, Texas, where they saw
the Clay County Memorial Hospi-
tal, completed last year under a fed-
eral aid plan similar to the one
here. The board members feel that
information gained will avoid
possible costly alterations later.
The hospital is expected to be com-
pleted early in July.

TAXATION

(Continued From Page 1)
World War II veterans disabled
in combat.

The bill sets up a state vet-
erans land board to buy property
for resale to ex-servicemen of
World War II.
Approved by the same commit-
tee was Rep. John Crosthwait's
bill authorizing the state auditor
to audit the books of any political
subdivision, Penalty for refusal of
anyone to give information re-
quested by the auditor would be
a fine of \$100 to \$1,000.

The bill requires the auditor to
file his report with the commis-
sioners court in the county of
audit. Any comment on the report
by press or radio would be priv-
ileged against libel suit.

Commissioners courts and grand
juries could request the auditor
to make an audit at any time.
Crosthwait said his bill was
prompted by a Dallas County
case in which a shortage of funds
was discovered some time ago.
The committee sent to a sub-
group Senator G. C. Morris' bill
requiring drivers to be able to
show financial responsibility in
the event of an accident causing
death or injury or property dam-
age of \$200 or more.

DECISION

(Continued from Page 1)
road recently and saw no reason
why he should go out again. Com-
missioners Ernest Beck, Fred
Vanderberg and Bill Graham said
the road was not in their pre-
cincts and they didn't want to butt
into the affair that far.

Nelson asked the court why the
county was so interested in keeping
the road on its present route.
Judge Parker answered by saying
that no matter which way the
Court would go there would be
opposition since there is a split
among the landowners out there.

Earlier the Court approved pay-
ment of rights-of-way along High-
way 70 and 86 to the following:
W. F. Taylor, \$200 on Highway
70; M. A. Graham, \$200, on High-
way 70; and E. J. Windom, Sr.
and Jr., \$3,500 on Highway 86
Mrs. Anne Duke, home demon-
stration agent, in a quarterly re-
port to the Court, reported six ac-
tive home demonstration clubs in
the county with an approximate
total membership of 148.

A canvass of the April 2 school
board elections was made with
Court declaring trustees to Hop-
kins, Schaffer, Grandview, Back,
Laketon, elected, and three mem-
bers of the Letors Independent
School District elected as well as
the county board trustees from
Precincts 3 and 4.

Current bills were paid during
the morning session.

**Housing Needs
Are Discussed**

FORT WORTH — (AP) — The gov-
ernment will have to provide
housing for the ill-housed "one
third of a nation," Redding
Stevenson, from Little Rock, Ark.,
asserted here. He is a real estate
man and chairman of the Little
Rock Housing Authority.
He was addressing delegates to
the spring meeting yesterday of
the Southwest Regional Council
of the National Association of
Housing Officials.

**Workman Buried
In Roof Cavein**

SANTA MONICA, Calif. — (AP)
A 62-year-old workman —
his first day on the new job —
was buried alive under 300,000
pounds of freshly-poured concrete
in the collapse of the roof of a
five million gallon city reser-
voir.
The roof fell yesterday with a
thunderous roar, slightly in-
juring 14 other workmen. The
body of Robert Lacey, 62, of
nearby Venice, was dug out of
the debris after three hours of
frantic work by 80 men.

Have You Found the *Secret Ingredient*
in *Admiration Coffee*?

**30th
Anniversary
CELEBRATION**
3 Decades of Honest
Fulfillment

What can the *Secret Ingredient* be

Richness?

WIN BIG PRIZES
Everybody in the Southwest is on the
prowl! The treasure hunt continues.
Enthusiasm mounts! What, oh what is the Secret
Ingredient? Of course it's right before you but
we're not saying where! The mellow, heart-warm-
ing richness of Admiration could be the "ingre-
dient." So could the wonderful flavor, aroma, and
many other things. Admiration's richness gives
generous evidence of good, choice coffees, expertly
blended. It also gives evidence of oven-freshness,
full, uniform strength. Probably the best way to
find the "ingredient" is buy a pound yourself and
sample it. One sip will give you a thrilling expe-
rience — and perhaps THE clue!

Truth or Consequence
About Diamonds

QUESTION: "Who sells the cheapest diamonds?"
ANSWER: It seems that every dealer does, to read the ads. The fact is, by lowering the quality, the price is lowered. Beware of "bargain" diamonds—you still get what you pay for and no more.

QUESTION: "Are diamonds cheaper by the dozen?"
ANSWER: Diamond prices are standardized and controlled by the producers of the rough diamonds. They are bought in small parcels, and at so much a parcel regardless of quantity. They are sold by the cutter by the carat regardless of quantity.

QUESTION: "Why does the price of the same size diamond vary?"
ANSWER: Two diamonds which look just alike to the naked eye may be as different as night and day to the experienced diamond merchant. Even very slight deviations from certain standards greatly affect the price.

QUESTION: "Are diamonds really an investment?"
ANSWER: They are in one sense of the word. Their dividends are paid not in money but in pleasure—and no matter when or where, diamonds are still the most stable and portable form of exchange.

QUESTION: "Shall I buy the largest or the best stone I can afford?"
ANSWER: The price of good diamonds is by far the most stable—poorer qualities fluctuate from year to year. And it is an American heritage to want the best of anything.

QUESTION: "How can I be sure I'm getting what I pay for?"
ANSWER: Do Three Things: 1. Buy only from an established store of flawless reputation. 2. Buy only from a store who buys diamonds directly from the cutter. 3. Buy only from a store who KNOWS diamonds and tells you what you are getting.

Men's Chorus to Sing For Laymen's League

The Phillips' Men's Chorus will bring special music to the Laymen's League meeting at the First Christian Church at 7:30 p. m. today. The program will follow immediately after the dinner. Bill Taylor arranged for the guests, Mrs. John Gill, the former Miss Wanda Gordon of this city, accompanies the chorus. The league has secured a local man, Ed Weiss, to address them. All men of the church and their friends are invited to come. It will be a men's program for the men of Pampa.

Engagement Announced

WHEELER - (Special) - Mr. and Mrs. Emmett Creeley Rippey announce the engagement and approaching marriage of their daughter, Lena Merle, to Robert Louis Covington, son of Mrs. Mary Cecil Covington, Oklahoma City. The wedding ceremony will take place at 11:30 a. m. Wednesday, April 13, in the White Stone Chapel, Los Angeles, Calif.

Pansy Chair Set

5705

By MRS. ANNE CABOT
This unusual crocheted chair set of giant pansies in authentic colorings of the real flower, lend a gay and warm-hearted feeling to your living room. The set is quickly and easily made of a heavier-than-usual cotton. Pattern No. 5705 consists of complete crocheting instructions, stitch illustrations, material requirements, and finishing directions.
Send 20 cents in COINS, your name, address and the PATTERN NUMBER to ANNE CABOT (Pampa News), 1150 Ave. Americas, New York 19, N.Y.
NOTES FROM ANNE CABOT'S DIARY
During the recent National Hobby Week, there was a Press showing in New York. I am sure my needlework readers would have enjoyed. A well known Madison Avenue needlework shop introduced a complete line of needlepoint items for the home, beauty and travel. Designed by Mrs. Jolles, long known in art needlework circles as the "Empress of Needlepoint," every article was cleverly styled, practical and ever so lovely. Handbags of faile in box, clutch, feed bag and other interesting shapes had "windows" in which to insert needlepoint trimming. Small and large hat-boxes of plastic moire had appropriate needlepoint designs mounted on one side. Train kits for both men and women were needlepoint trimmed and lined with waterproof fabric. Telephone books, book ends, picture frames and many, many more lovely accessories certainly brought "a new look" to needlepoint.
Some kinds of fish can survive being frozen in ice, but the length of time they are frozen and the conditions under which the ice melts are important factors to survival.

TWO TOPS AT TWO
NEW YORK - (AP) - Sep Palin of Shelbyville, Ind., and H. H. (Doc) Parshall of Urbana, O., have driven more two-minute miles than any other drivers in sulky racing. Each has crashed the charmed circle 11 times.

AGE BEFORE BEAUTY
NEW YORK - (AP) - The New York Giants and Pittsburgh Pirates will open the season with the oldest infielders in the National League. Each team's inner defense totals 121 years. The Phillies have the youngest infield, totaling 106 years, two years less than Cincinnati's total.

Dr. Ima Barlow Is El Progreso Guest Speaker

Dr. Ima C. Barlow of the West Texas State College history department was guest speaker at El Progreso guest day tea at 2:30 p. m. today. Her topic was "American Democracy as a Factor in International Relations." Dr. Barlow received her doctorate from the University of Texas in 1938. She has been with the WTSC history department since 1930.

Citrus Prospects For Texas Poor

WASHINGTON - (AP) - Texas citrus prospects are poor because of the severe February freeze, the Agriculture Department said. Growing conditions in March were declared favorable for Texas and all other citrus states except Florida, which was hot and dry until heavy rains fell late in the month, the report said yesterday. The total orange production was estimated at 99 million boxes for the 1948-49 season, a 1,000 bushels compared to 12,427,000 bushels the year before. Orange fruit yield was set at 45,300,000 boxes, 27 percent lower than the previous season. Orange production for Texas was estimated at 3,500,000 boxes compared to 5,200,000 for the

Wheeler Study Club Meets

WHEELER - (Special) - The Wednesday Study Club met in the home of Mrs. W. L. Williams recently for its regular meeting and program on "Youth and Its Needs." Mrs. George Porter, program leader, discussed "Youth's Adjustment to Life." Mrs. Harold Nash discussed "A Youth Center to Serve All." Margaret Holdeman, president of the Wheeler youth organization, gave suggestions for the youth program through the summer months. Visitors present were Margaret Holdeman, and Mrs. B. M. Litton, Fred Farmer, Gordon Whitener, and R. G. Russ. Members present were: Mmes. J. W. Bar, T. M. Britt, R. Wm. Brown, R. J. Holt, L. C. Laffin, Jimmie Mitchener, Harold Nash, Floyd Pennington, George Porter, Max Wiley, Frank Wofford, Nelson Porter, R. D. Holt, M. McIlhenny, and the hostess, Mrs. Williams.

Mr. and Mrs. George Porter were hosts at a Forty-two party Saturday night. The following guests were present: Mr. and Mrs. W. O. Carick, Mr. and Mrs. Wade K. Frey, Mr. and Mrs. Barney Teague, and Mr. and Mrs. J. C. Howell. Mr. and Mrs. Robert Holt made a plane trip to Amarillo Thursday.

Members of the Wheeler chapter of the Order of Eastern Star who attended "Friendship Night" of the Miami chapter were: Mr. and Mrs. George Porter, Mmes. C. B. Kirk, W. E. Bowen, Tom Bowman, Bill Black, R. G. Russ, Fred Farmer, Lloyd Lee, J. I. Malloy and D. O. Beene.

Wheat Production Estimates Made

WASHINGTON - (AP) - The Agriculture Department estimates Texas winter wheat production at 99,100,000 bushels compared to 56,290,000 last year. Texas grain stocks on farms April 1 were estimated at 12,427,000 bushels compared to 12,427,000 bushels the year before. Oat stocks were 2,900,000 against 3,780,000. 1947-48 season. The Texas grapefruit yield was set at 12 million boxes against 23,200,000.

Higgins Clubs Hold Joint Meet

HIGGINS - (Special) - A joint meeting of the Magazine Club and the Littera Club was held Friday afternoon, April 8, at the home of Mr. and Mrs. R. B. Tyson. Mrs. C. H. Hyde was co-hostess. The guests were received in the living room, which was decorated with bowls of sweet peas, the Littera Club flower, and then adjourned to the rumpus room. Mrs. Landers, president of the Magazine Club, presided during the business session. Mrs. Joe Williams, delegate from the Littera Club, and Mrs. Clyde Patton, delegate from the Magazine Club, will give their convention reports at the next regular meeting of the respective clubs. Mrs. Patton reported that the Citizenship Program of the Magazine Club received first prize in the district. The highlight of the program was the film, "Texas Wild Flowers," shown by J. E. Pittman, associate landscape director of the State Highway Department. The movie projector was operated by Bill Tyson and Ronald Crouch, high school students, and Pittman made instructive comments during the showing of the film. Mrs. Patton completed the program by telling of the life of Grace Noell Crowell and gave some of her readings. A refreshment plate of brick ice cream decorated with a carnation, the Magazine Club flower, and cake and punch, was served to the following: Mmes. Roy Landers, Hollis Cortelou, Frank Ewing, C. H. Hyde, J. N. Millhollon, Alex Barton, C. G. Newcomer, C. R. Patton, E. B. Roberts, J. B. Weis, P. O. Boyd, A. M. Winsett, C. A. Slack, I. T. Huckabee, and Paul Trenfield, Magazine Club members; Mmes. J. A. Barton, Jesse Bussard, Wesley Collins, Elby Crites, Carl Goette, Bruce Graham, Royce Jones, Lee Maltberger, Franklin Peugh, R. B. Tyson, Joe Williams, Earl Wilbur, K. H. Yingling, members of the Littera Club. Mrs. Raymond Weis and Mrs. C. C. Fitzgerald were guests.

Buenos Aires, capital of Argentina, is a Spanish phrase whose literal meaning is "good air." A flea can move a weight hundreds of times heavier than itself.

Genevieve Adams To Move to Tulsa

Miss Genevieve Adams, minister of youth and Education for the First Christian Church, resigned at the recent board meeting of the church to take up duties in the First Christian Church, Tulsa, Okla. She will begin there on May 1. Miss Adams has been serving locally for the past 23 months. Direction of the Church School and the Youth Program were her main responsibilities. In addition to this she helped with the entire program of the church, especially while the church was without a pastor last summer. She is known throughout the districts of the Panhandle Christian Churches as one of the leaders of conference, camp, rallies, meets and conventions during the past two years. In her new job, Miss Adams will serve as Director of Christian Education in the second largest Christian Church in the Brotherhood. Dr. Hallie G. Gantz, who was reared and educated in Pampa, is minister of the church. He is the son of Mrs. Henry Hassell and the late J. G. Gantz. Dr. Gantz moved to Tulsa after serving in Lubbock for nine years.

Freighter Aground

LONG BEACH, Calif. - (AP) - High winds and a rough sea hampered efforts today to refloat the 15,000-ton freighter, Steel Chemist, aground on rocks off San Nicholas Island since Sunday.

TEXAS LADY LOSES 47 POUNDS

The following remarkable story shows conclusively that Barcontrate DOES take off fat. It contains nothing harmful. In fact, it contains ingredients that make you feel better. No starvation diet - no weakness - no hunger. Barcontrate, the original grapefruit juice recipe, takes off fat quickly, safely and you can eat plenty. Here is proof: Here is what Mrs. H. P. Bishop, Route 2, Stamford, Texas, wrote us: "I am very glad to endorse Barcontrate, so please accept my sincere thanks and appreciation for the great benefit I derived from its use. I not only lost weight, but also looked and felt better in every way. I had to have a very serious operation and was told that I must lose a lot of weight before the operation could be performed. I went on a diet and tried very hard to reduce, but wasn't losing much weight. I heard of Barcontrate. I began taking it and could soon tell the difference in the way I felt and the weight I was losing. I weighed 250 pounds when I started and I lost a total of 47 pounds and was able to undergo my operation. I can truthfully recommend it to others, since it did so much for me. At all druggists. If you are overweight and want to take off ugly fat, just go to your druggist and ask for four ounces of liquid Barcontrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoons twice a day. If the very first bottle doesn't show you the simple, safe way to take off weight, return the empty bottle for your money back."

ROGER THE LODGER

By Elizabeth R. Roberts

COPYRIGHT BY GREENBERG; PUBLISHER DISTRIBUTED BY NEA SERVICE, INC.

The characters in this story are completely fictitious. Likeness to anyone living or dead is purely coincidental. In contrast, the episodes are true, based upon antics which I viewed from a ring-side seat.

BACK in the horse-and-buggy days little girls were brought up not to speak to strangers, especially men. Mother began drumming this admonition into me when I was a very young child, and she never stopped as long as she lived. She must have had a premonition that talking to strangers, especially men, would lead to something. And it did.

Mother began cautioning me the first time I, a little girl in pigtails, was handed 10 cents for carfare and put on the crostown trolley to spend the day with cousins who lived too far for me to ride my bike to see them. "Don't speak to strangers, especially men," she said the last thing, that bright summer morning, without giving a reason, and I therefore promptly associated men with my dime.

Mother's advice was good, only it didn't go far enough. Where she fell down was in never cautioning me against speaking to strangers, especially men in uniform. If she had stressed that danger, I might never have fallen into the dubious occupation of running a rooming house.

It all began innocently enough. Great Falls has each winter a Community Concert series. Nothing so vulgar as tickets is sold; we subscribe to the course and are assigned regular seats with the result that after the first performance or two we all feel at home and amongst friends, seated in our usual seats and surrounded by the usual faces. At the third concert of our winter season, there were two strange faces sitting next to me—an Air Corps captain and his wife. The captain smiled agreeably, introduced himself, explained that the Websters, who usually occupied those seats, were out of town and had invited him and his wife, whom he now presented, to use their space. I mumbled introductions to my husband, conscious of the fact that with only his word for reference, Mother would still have counted Captain Homeless as a stranger. Subsequent events proved she would have been right.

"Mrs. Roberts," Captain Homeless said, "I understand you have a larger house than you are using. There was no tattle-tale gray on the faces of acquaintances sitting near us, and I'm sure that a newcomer to town had found out so quickly that Robbie and I had a whole house to ourselves."

OUR only son was in the Navy and our help was folding parajumpers at the Supply Depot. The war had brought two air bases, a weather station, and a supply depot to Great Falls. That practically doubled the population and, since building was frozen, created a full-begged housing shortage. I'd heard of new people in town ringing doorbells in their search for a place to live, but it hadn't worried me.

The captain continued: "I got leave of absence from my job and a spot commission. I don't mind telling you that trying to make both ends meet on a captain's pay isn't funny. The hotel costs more than I make. We've got to find other quarters. Could you let us have a room?"

"Oh, I'm terribly sorry," I said. "Not possibly." Feeling shabby at refusing and trying to make amends, for I knew what it was to be strictly against it for lodging, I tried to vindicate myself. "You see, I have no help. I run a canteen and work at the Sewing Room. One day each week I take a shift as nurses' aide in the hospital." I babbled on—he looked so interested. "What with one thing and another, my house is a mess. The silver never gets polished. The corners never get dust-

I saw the door thrown open to a tall figure in khaki, whose patent leather hair and little black mustache completely transcended his uniform.

ed. I'd feel mortified to have your wife see it." I included her with a smile. "Now if you were a lone man," I led with my chin, "that might be different. Men aren't observant, I've found. I signed off with a you-see-how-it-is look of resignation. Too late I realized I'd stepped on a verbal banana peel. Captain Homeless let me have my moment. Then he said, "I have just the right fellow for you, Mrs. Roberts. A sergeant. He's quite a gentleman, I think. He's living at the hotel, too, and thoroughly unable to afford it. It would be a Christian charity for you to take him in and I'd even forgive you for not taking us."

ROB, though he'd been turned in to this point, suddenly went off the air. I could not reach him with my frantic S O S; he was impervious to the pressure of my foot.

Driving home from the concert, I waited for Rob to open the subject of the roomer. When we were nearly to our corner and he hadn't said a word about it, I prodded him. A doctor once diagnosed me as a truck with a one-cylinder engine, which he found Rob to be as sleek as his convertible, ungiven to hard work, but with a wealth of power in reserve. Therefore I wasn't surprised when Rob said, "I think we're doing enough for the war effort. Being air raid warden is no cinch, and you're up to your ears in Red Cross activities. Besides," he added plaintively, "we gave Bill."

"No we didn't." He gave himself. "We couldn't have kept him out."

"We rode along in silence for another block or two. Then I tried again to clear with Sydney. "What do you think about renting a room?" I repeated. "I think you've been talking when you should have been listening. You've talked yourself into something, and you've set up to your ears in Red Cross activities. Besides," he added plaintively, "we gave Bill."

"No we didn't." He gave himself. "We couldn't have kept him out."

"Mrs. Roberts," Captain Homeless said, "I understand you have a larger house than you are using. There was no tattle-tale gray on the faces of acquaintances sitting near us, and I'm sure that a newcomer to town had found out so quickly that Robbie and I had a whole house to ourselves."

"Mrs. Roberts," Captain Homeless said, "I understand you have a larger house than you are using. There was no tattle-tale gray on the faces of acquaintances sitting near us, and I'm sure that a newcomer to town had found out so quickly that Robbie and I had a whole house to ourselves."

Truman Starts His Fifth Year Today

By JAMES MARLOW
WASHINGTON — (AP) — Four years ago today, April 12, Harry S. Truman became President when President Roosevelt died. What has he done in those four years, and what has happened to him, us, and the world?

When he moved into the White House, war with Germany was ending; Japan was still to be crushed with the atom bomb, an event that changed world history. The United Nations was created in the hope it might keep peace. And in his first few months in office, the United States had to be set spinning back into peacetime ways. It was done with jolts and jerks.

Wartime controls were ripped off, some too fast. Strikes sprouted, holding up peacetime goods. His own Democrats were in control of Congress but, spearheaded by the Republicans, they cut the legs from under OPA. It soon died. Prices shot through the roof. Mr. Truman had tried a honeymoon with Congress in his early days as President. But that ended in a bust and never has been patched up.

Voters, fed up with the Democrats, gave the Republicans control in 1946. It was Mr. Truman's worst defeat. He reversed that in 1948 with his own election, biggest surprise in American political history. And the Democrats won control of Congress again.

But Congress doesn't seem to be paying much attention to his wishes, at least for things at home. But meanwhile the skies have darkened beyond the shores. His hopes of getting along with Russia have gone down the drain. As he watched the Russians swallow Eastern Europe, his mood hardened. He set up the Truman doctrine: a policy of blocking Russia wherever it tries to make a thrust.

And now we've entered the Atlantic Pact with Western Europe to stop Russia with steel if need be. As Mr. Truman goes into his fifth year in the White House, only four years away from World War II, the air is full of talk of new war. Where we go, no one knows, not even Mr. Truman.

Rob wasn't. He looked at me in disgust. He said with overemphasis, as one speaks to a backward child or a foreigner learning English, "Get this: (a) It isn't our fault there is a housing shortage. (b) If those folks in Washington were half as smart as they think they are, we wouldn't have a housing shortage. (c) You're out of your head if you think I'll let you turn our house into a hotel. (d) Taxes and rationing I have to take, but roomers I don't. (e) It's a helluva note when a man's made to feel guilty because he occupies his own house."

Sensing how he felt, I considered the subject closed and myself safe from my inclinations, when a booming bass next day asked over the telephone if I were the Mrs. Roberts of whom Captain Homeless had spoken. I couldn't deny it. The voice said he was Sergeant Phillips.

"Oh!" I exclaimed. "I'm up to my elbows in cookie dough." I distinctly heard his snuff. "In an hour then?" "Yes, an hour should be all right."

"Roger," he barked in most clipped and military syllables. Full speed ahead I finished baking the cookies, changed out of the house dress, and was slipping powder on my red and perspiring face when the front door chimed rang. "I'll get it," Rob called. He and a fire horse had something in common in the matter of bells. As I descended the stairs, I saw the door thrown open to a tall figure in khaki, whose patent leather hair, sideburns, and little black mustache completely transcended his drab uniform. (To Be Continued)

Civil Service Exams Announced

The United States Civil Service Commission has announced examinations for landscape architect and for printing plant worker for filling positions in the federal service.

The positions to be filled from the landscape architect examination are located in various federal agencies in Washington, D. C., and throughout the United States. No written test will be given. To qualify, applicants must (a) have completed a four-year college course in landscape architecture or landscape design, or (b) have had 4 years technical experience in landscape architecture, or (c) have had any time-equivalent combination of (a) and (b). In addition, they must have had professional experience in landscape architecture, the amount depending on the grade for which application is made. Appropriate graduate study may be substituted for as much as two years of experience.

The printing plant worker examination will be used to fill skilled helper positions in the Bureau of Engraving and Printing and in the Government Printing Office. There are no experience requirements but applicants will be required to take a written test. Applications for the landscape architect examination will be accepted in the U. S. Civil Service Commission, Washington 25, D. C., until further notice; however, persons who wish to receive early consideration should apply not later than May 5, 1949. Persons applying for the printing plant worker examination must have their applications on file with the commission not later than April 28, 1949.

Further information and application forms may be secured from the commission's local secretary, C. W. Stowell, located at the

FOUR MAINE CHANCES
LOUISVILLE, Ky. —(AP)— Mains Chance Farm, winner of the 1947 Derby with Jet Pilot, has nominated four horses for the May 7 running. They are Mr. Busher, Irish Wit, Superb Command and The Post. The Post is a son of Penitence, 1944 Derby winner, while Mr. Busher was runner-up War Admiral, 1937 winner.

Coach Richard Lewis has an all-veteran tennis team at Cornell and the Ithaca racquet squad is favored to retain its title. Postoffice in Pampa, or from the commission's central office in Washington, D. C.

New Position Is Created for Baylor Manager

Dr. Roy J. McKnight, Baylor business manager, has been elevated to the newly-created position of financial vice president and comptroller of Baylor University.

The move is designed to give the three branches of the university at Waco, Dallas, and Houston more complete unity. Dr. McKnight will work closely with local boards of the three branches on financial questions. The Baylor Board of Trustees, meeting in annual session in Waco, April 6, voted the action on the recommendation of President William Richardson White. Dr. McKnight came to Baylor in 1944 as business manager from a similar position at Oklahoma Baptist University. Enrollment at Baylor then was 1800 students. The figure has now risen to 5100. University real estate holdings then were valued at \$3,100,000. The valuation has now reached \$7,225,000 — nearly a million dollars a year increase.

Mineral Society To Meet April 23

The State Mineral Society of Texas plans to have its annual rock and mineral show in the roof garden of the Plaza Hotel, San Antonio, April 23 and 24. The society is made up of persons all over the state who are interested in promoting a love of the outdoors, especially in the field of rocks and minerals. All science teachers in the public schools are invited to attend this show since the exhibits will be of inestimable value to science teachers.

Kremlin Convinced U. S. Firm in Stand

NEW YORK — The North Atlantic Pact has ended the Kremlin's hope of driving the U. S. out of Europe by trickery, according to Business Week. The magazine says that now Russia knows that the U. S. means business, and that the "cold purge" of Kremlin's high command reflects Russia's fear of war. The article notes the significance of the appointment of Alexander Vassilievsky as minister of war to succeed Marshal Bulganin. The new war minister is Russia's top general in contrast to his predecessor who is a civilian with little, if any, military know-how.

Creage Controls Are Predicted

DALLAS — (AP) — Cotton farmers can expect acreage controls by 1950, believes U. S. Rep. William R. Poage of Waco. He predicted the controls in an address before the Texas Cotton Growers Association convention here. Poage is a member of the House Agriculture Committee. Poage believes the controls will hit Texas farmers hard unless the government figures into the state allotment the 1,700,000 acres of maize and peanuts diverted from cotton in 1946. "Texas is entitled to that 1,700,000 acres," Poage said. H. P. Donigan of Whitewright, association president, said higher per acre yields of cotton was one way of compensating for acreage controls. Donigan said the state is lagging behind others on lint production.

Former Italian Colony May Become Moslem Kingdom

By DEWITT MACKENZIE AP Foreign Affairs Analyst Disposition of Italy's African colonies may see the birth of a new kingdom in the Mediterranean country of Cyrenaica under the Emir Sayid Mohammed Idris El Senussi, the princely personage who is regarded as both religious and temporal ruler by his people.

The question of the colonies is before the Political Committee of the United Nations General Assembly. The United States has proposed that Cyrenaica, which is the Eastern portion of Libya, be placed under British trusteeship. Other, and perhaps more significant, is that Cyrenaica is a powerful military base, dominating the main shipping route through the Mediterranean. America is mightily interested in that fact, too.

Back in December of '43, while Montgomery was in process of driving Rommel eastward across the desert, I visited Libya and later had a long talk in Cairo with the Emir Sayid, who is better known as the Grand Senussi. He told me he expected his people to receive their freedom, and while we didn't discuss his personal ambitions I have no doubt that he hoped to take his place as ruler. Certainly some prominent Senussi whom I met were working to that end.

I asked the Grand Senussi what he thought of dictator Mussolini's assumption of the title of "protector of Islam" in connection with Il Duce's great colonization scheme in Cyrenaica. The Emir laughed and replied: "It's the sort of thing which would only be done by a stupid person like Mussolini."

The Senussi suffered cruelly as Mussolini drove them out from their coastal farms which had been built by their ancestors since the days when Cleopatra basked in the sun beside the blue waters which wash the Libyan shore. Mussolini put thousands of

They're All Proud Young Men

Young movie actor Bobby Hyatt, left, is right proud of the stunt he's doing because it demonstrates how completely he has won his nine-months battle with polio. Equally proud are the two 13-year-olds in the other picture, Raymond Besseque, left, and Chuck Lyons. They're showing off the batch of popovers they whipped up for May M. O'Hara, center. She's their school principal and was their guest at the Madison Square BOYS' Club in New York City.

dreds of worn dresses, suits and coats. The 12 national 4-H scholarships have been increased from \$200 to \$300 by Spool Cotton Educational Bureau, donor of all clothing achievement awards. State winners will receive an all-expense trip to the National 4-H Club Congress, while a gold filled medal of honor goes to county winners. The Cooperative Extension Service supervises the program. Texas named 20 county winners last year. Anna Peterson won Medina county and also state awards.

KNOW YOUR EGGS? Ever wanted an easy way to separate raw eggs from hard-boiled ones? Here's the way to do it, according to Cappel's Farmer. Spin the egg briskly on a saucer and stop it in the midst of the spinning. If the egg is hard-boiled, it will remain still when you release it, while the raw one starts spinning again of its own accord. When the shell of the raw egg is stopped, the liquid interior continues to revolve. This starts the egg spinning again.

ORDINANCE NO. 288 AN ORDINANCE AMENDING ORDINANCE NO. 267 AND APPROVED BY THE CITY OF PAMPA, TEXAS, ON THE 17TH DAY OF APRIL, 1949, REPEALING CERTAIN PORTIONS THEREOF AND DECLARING AN EMERGENCY TO BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF PAMPA:

Section No. 1
The last paragraph of Section No. 2 of ordinance No. 267, passed and approved by the city commission of the City of Pampa, on the 17th day of April, 1946, be hereby amended and substituted therefor so that hereafter the last paragraph of this section will read as follows, to-wit:
Section No. 11
When parking meter spaces are indicated by painted lines upon the surface of the streets in said parking meter zones, as herein provided, and when parking meters are installed adjacent to or adjoining said respective parking spaces, no vehicle shall remain parked within any of said spaces within the zone or upon any of the portions of the streets described in Section 23 of this ordinance for a longer continuous period than hereinafter set out for each zone at any time, between the hours of 9:00 A. M. and 6:00 P. M. on any day except Sundays and holidays officially designated by the City Commission of the City of Pampa, Texas.

Section No. 2
That all ordinances and parts of ordinances inconsistent or in conflict with any of the terms or provisions of this ordinance are hereby expressly repealed.
Section No. 7
That if any section or provision or part of this ordinance shall be adjudged invalid or unconstitutional by a Court of competent jurisdiction, such adjudication shall not affect the validity of any other section or part hereof nor so adjudged invalid or unconstitutional.

Section No. 8
The fact that Ordinance No. 267 is already operative and that the meters have been removed from certain sections, in other areas where it is necessary to control traffic and this ordinance needs to be immediately enforced in such areas, and that the public welfare needs be promptly protected in an emergency is hereby declared to exist and the rule requiring ordinances to be read on three separate days is hereby suspended and this ordinance shall take effect from and after its passage and approval and printing of the same.

PASSED AND APPROVED, this 21 day of March, 1949.
S/C. A. HUFF, Mayor.
R. E. Anderson, City Secretary.

Section No. 4
That Section Number XXIII of Ordinance No. 267, passed and approved by the city commission of the City of Pampa, on the 17th day of April, 1946, be hereby amended and the following be passed and substituted therefor so that hereafter this section will read as follows to-wit:

SECTION XXIII
That a parking meter zone is hereby designated and established in the City of Pampa, Texas. Said parking meter zones shall embrace the following streets located in the City of Pampa, Texas, and such streets shall be properly marked and proper parking meters shall be installed thereon, to-wit:

Zone A—
Cuyler Street from Atchison Avenue to Francis Avenue; South Side of Francis Avenue from Russell Street East to the alley between Cuyler and Ballard Streets; Kingsmill Avenue from Ballard Street to Russell Street and on the South Side of Kingsmill Avenue from Russell Street to Frost Street;
Foster Avenue from Ballard Street to Rust Street except the South Side of Foster Avenue from Ballard Street west to the alley between Ballard and Cuyler Streets; Foster Avenue from Frost Street to Summerville Street;
North Side of Atchison Avenue from Cuyler Street East to the alley between Cuyler Street and Ballard Street.

Zone B—
West Side of Ballard Street from Foster Avenue to Kingsmill Avenue; West Side of Russell Street from Foster Avenue to Kingsmill Avenue; North Side of Frost Street from Foster Avenue to Kingsmill Avenue; North Side of Foster Avenue from Russell Street to Frost Street; South Side of Kingsmill Avenue from Russell Street to Summerville Street and North Side of Kingsmill Avenue from Frost Street to Summerville Street.

In Zone A said meters shall be mechanically constructed so that they will allow twelve (12) minutes parking time; 2c will allow twenty-four (24) minutes parking time; 3c (pennies) will allow thirty-six (36) minutes parking time; 4c (pennies) will allow forty-eight (48) minutes parking time; 5c (pennies) or one five cent coin will allow sixty (60) minutes parking time.
In Zone B said meters shall be mechanically constructed so that one cent will allow twelve minutes parking time; two cents will allow twenty-four minutes parking time; three cents will allow thirty-six minutes parking time; four cents will allow forty-eight minutes parking time; five cents or one nickel or five cents coin will allow sixty minutes; six cents will allow seventy-two minutes; seven cents will allow eighty-four minutes parking time; eight cents will allow ninety-six minutes parking time and ten cents or two five cents coins will allow one hundred twenty minutes parking time.

of Pampa, on the 17th day of April, 1946, be hereby amended and substituted therefor so that hereafter this section will read as follows, to-wit:
SECTION XXII
That any person, firm or corporation who shall violate, or aid or abet another to violate any of the provisions of this ordinance shall, upon conviction be deemed guilty of an offense and shall be fined not less than \$10.00 nor more than One Hundred (\$100.00) Dollars. In the event any vehicle shall be found standing or parked in or upon any regularly designated parking meter space, or in or upon any street within the Parking Meter Zones established by ordinance 267 and/or this ordinance in violation of and contrary to any of the provisions of said ordinance, the owner shall be a nuisance per se and shall be removed by any police officer and taken to some place designated by the chief of police for such purpose, and there kept by such officer until application for its redemption in the manner provided by ordinance 267 and/or this ordinance, the owner or his duly authorized agent, who shall be entitled to the possession thereof upon payment to the City of Pampa of the sum of Two Dollars (\$2.00) together with all other costs of removal and storage that may have accrued hereon, in the event the vehicle impounded shall not be redeemed by its owner or his agent, within five (5) days, then such vehicle shall be sold for such penalty, charges and costs, in the manner provided by ordinances of the City of Pampa for the sale of impounded stock. No vehicle shall be so impounded until a written order to impound the same has been issued by the Chief of Police and counter-signed by the recorder of corporation court clerk.

Section No. 6
That all ordinances and parts of ordinances inconsistent or in conflict with any of the terms or provisions of this ordinance are hereby expressly repealed.
Section No. 7
That if any section or provision or part of this ordinance shall be adjudged invalid or unconstitutional by a Court of competent jurisdiction, such adjudication shall not affect the validity of any other section or part hereof nor so adjudged invalid or unconstitutional.

Section No. 8
The fact that Ordinance No. 267 is already operative and that the meters have been removed from certain sections, in other areas where it is necessary to control traffic and this ordinance needs to be immediately enforced in such areas, and that the public welfare needs be promptly protected in an emergency is hereby declared to exist and the rule requiring ordinances to be read on three separate days is hereby suspended and this ordinance shall take effect from and after its passage and approval and printing of the same.

PASSED AND APPROVED, this 21 day of March, 1949.
S/C. A. HUFF, Mayor.
R. E. Anderson, City Secretary.

Owner Fred W. Hooper's two-year-old horse, Dizzy, is named for Jerome Herman Dean, Hooper's golfing companion and a baseball immortal.

Spring Is Really Here

By HAL BOYLE NEW YORK (AP) — Ya-a-awww-w-w-w-n-mmm! I guess spring is really here. Spring fever is anyway. And the season of gentle melancholy and pleasant foolishness is upon us. It is a time of dreamy peace for the common man, as his mind and body prepare for the chemistry of summer. But it is also a time of growth. Ambitious leaders through all history have picked this season to unleash the armies they have built up through the winter. The ground has firmed for the martial foot.

But this year looks like another of the years the world treasures — a year of peace. No mighty armies are massed for attack. That we know of. Spring comes to the city in small surprises. Down where I live you can tell it best by the sudden increase of perambulators. The poor man on the Lower East Side may never hope to own a motor car. But he will go without a suit to see his new baby rides in the finest buggy in the neighborhood.

Across the East River a few buds burst open on the tree that grows in Brooklyn. And here in Manhattan you'd think the cold skyscrapers themselves would erupt in greenery — thrust out limbs and leaves to catch the warmth. And perhaps some day they will, and turn this stony wilderness into a green garden of the spirit.

There isn't much the average man does here to show how spring affects him. He dares a brighter necktie. He dawdles and day dandles more. And I think the doodling on his desk pad changes in a subtle way. But that would take a cryptographic Dr. Kinsey to interpret.

The girls, as always, are more demonstrative. Oh, the girls, the beautiful girls of New York. They break out in more colorful dresses. They plump in unexpected places. And it is only imagination that there is more of a waggle in their walk?

"Exclusive But Not Expensive"

4-H Clothing Program Shows Annual Increase

Nearly one-third of the 1,800,000 4-H Club members throughout the nation are expected to participate in the 1949 National 4-H Clothing Achievement program, according to the National Committee on Boys and Girls Club Work.

This prediction is based on the annual increase in enrollment during the last nine years. Texas reported 29,403 enrolled in the 1948 clothing program, and hopes to top that figure.

The economy of home sewing plus a plentiful supply of intriguing designs and fabrics will attract many more 4-H'ers to complete the 1949 clothing project. Not only are members taught to make new garments for a carefully-planned wardrobe, but they also learn to mend, alter and remake old ones. Many of the girls sew for the family as well as for themselves. They become adept at making hats, bags and other accessories. Demonstrations of sewing skills is encouraged by their 4-H Club leaders.

Examples of outstanding achievements are the 1,440 garments made by last year's 12 national clothing winners. In addition, these girls restyled hun-

Roundup Club Boxers Meet Stinnett Tonight

Start at 8 P.M.
At Sportatorium

The Roundup Club boxing team will enter the ring tonight against a Stinnett High School team that already holds a victory over the local club. The Roundups went down to defeat at Stinnett by an 8-7 score three weeks ago. Last Saturday night the local team defeated Wichita Falls, 9-3, for its first win of the year.

Fifteen bouts were fought at Stinnett, and it is anticipated that an equal number will be held here. The first fight will start promptly at 8 o'clock. Ring officials will be Jim Arndt and Homer Anderson.

The boys who will see action tonight will be selected from Kayo Riddle, Eddie Collum, Ronnie James, Edgar Pitchford, Merl Estes, Billy Ed Cooper, Don Fagan, Bob Wilhelm, Wayne McPherson, Keith Kelley, Jim Bennett, Jim Gillmore, Jim Claumack, Jim Holland, Jumbo Roberts, Leon Kelley, Bob Hinkley, Dick Murray, Jim Bowers and Paul Tollison.

Joint Fishing License Proposed for Texoma

OKLAHOMA CITY — (AP) — Joint Oklahoma-Texas fishing licenses for Lake Texoma are proposed by the Oklahoma Senate. Seventy percent of the big lake lies in Oklahoma, the rest in Texas. Numerous arrests have resulted among fishermen working both sides of the line.

The Senate yesterday proposed a uniform season license to cost \$5. Oklahoma could fish their side of Lake Texoma for the \$1.25 state license, however.

Pampa News, Tuesday, April 12, 1949 PAGE 7

WARREN'S WARM UP

QUESTION: What team won the first West Texas-New Mexico League championship?

FROM THE DUGOUT: The addition of Ken Peacock should help solve the outfield problems for Grover Seitz. Up until the present time he has been limping through the games with an outfield composed of pitchers and catchers, with the exception of Dave Teyema, who holds down the leftfield post.

Peacock is a youngster whose home is in Fort Worth. He comes from a hallplaying family, all of whom were and are good athletes around Fort Worth. Peacock played with Sweetwater last season and led the league in home runs.

That will leave one outer garden post still vacant. There is a possibility that Homer Matney, who saw action with the Oilers during the 1941 season, and last year played with Mobile and Fort Worth, may soon be filling that spot. He has requested his release from the Fort Worth club, a Brooklyn farm team. He has a shotgun arm, one of the finest that has ever been in this league, and can hit with the best of them. He has indicated that he wants to play with Pampa once again, and if he can get his release he will probably be with Pampa.

Pete Graham, rookie outfielder who has been working out with the club for the past two weeks, was let go yesterday. At the pace that Ed Brawley is setting around the third base bag it is doubtful anyone is going to out him from the job. His fielding has been excellent, but his hitting has been spotty. But after only a week of practice there is still time for him to get his eyes on the ball.

The way things are shaping up now it would appear that the Oilers are going to put up a good battle for the championship. The big question will be the mound staff, and how many of the new pitchers are going to turn into winners. Buster Hall, who has been expected to do a lot of pitching this year, hurt his arm in the game against Weatherford last weekend, and when he will be ready to go again is unknown. It may be just a matter of days, and it may be longer than that.

But one thing is certain. The team will be hustling all of the time, all of the way. Grover Seitz will see to that.

ANSWER: The first championship in the history of the West Texas-New Mexico League was captured by Wink in 1937. They won the regular season play and also won the four-club playoff.

DOTS AND DASHES: Yesterday was a perfect pitcher's day. A strong wind was blowing in from left centerfield that pushed a lot of long fly balls up into the air for easy catches—Chuck Novotney, who holds down the initial sack for the Oilers, has a brother who is apparently going to stick as third string catcher for the Chicago Cubs this season.

The Cubs, incidentally, are helping Paul Dean out with several players. Paul said that they have no definite working agreement, but that the Chicagoans are just helping him out. Brother Dick ended his fabulous pitching career with the Chicago team owned by chewing gum millionaire P. K. Wrigley.

The Pampa Roundup Club for Boys received another donation from the same Amarillo family who sent the first donation to the club. Thank you. The club will fight Stinnett High School tonight at 8 o'clock. Charley Ridgeway, second sacker for the Oilers, received an unexpected shower at the wrestling matches Friday night. One of the fans didn't approve of his cheering for one of the teams, and doused him with a cupful of water. Ridgeway hit nine foul balls out of the park yesterday afternoon in his second appearance at the plate before finally bouncing out from second to first.

Dr. Webb Retires As Wildlife Head

BROWNWOOD — (AP) — Dr. Frederick H. Weston of San Antonio yesterday was installed as president of the Texas Wildlife Federation.

He was elected Sunday night to succeed Dr. Roy A. Webb of Pampa.

Other officers elected were: Louis Bonner, Houston; Dave W. Brittain, Amarillo; Si Perkins, Brownwood; Melvin C. Joy, Bryan; and John Cadwallader, Fort Worth, regional vice president.

Conrad Fath, Austin, will continue as executive secretary. The election by the board of directors came at the end of the first annual three-day Sportsman's Competition. The board decided to make the event an annual affair. This competition included various hunting and fishing events.

The board recommended support of a bill by state Rep. Deno A. Tufares of Wichita Falls to set up a nine-man Game, Fish and Oyster Commission to replace the present six-man commission.

Oilers Suffer First Loss of Year

Paul Dean's Boys Win 6-5 Battle

The Pampa Oilers ran into their first defeat of the season yesterday afternoon at the hands of the Clovis Pioneers, owned and managed by Paul "Datny" Dean. It was a game of errors, errors on both teams. And it was through these miscues that most of the runs were scored.

The next game for the Oilers will be tomorrow afternoon at 2 o'clock, when the locals will play host to the Vernon Dusters, whom the Oilers downed 11-2 Sunday at Vernon. Then the Oilers take to the road, Friday at Clovis, Saturday at Lubbock and Sunday at Borger. They return home to play Amarillo Monday, in what will probably be a night game, and then open the season here on April 20 against the Borger Gassers.

Yesterday's scoring started in the third inning. Remo, Clovis pitcher, was safe when a high bouncer went through Richardson. The next man, Sinovich, walked. Nichols forced Remo at third, but a sharp single scored Sinovich and Nichols. Nichols came to third, from where he scored on a long fly. The Pioneers scored twice more in the next inning on a base on balls and a home run by George Mathews.

The Oilers tallied once in the fourth on a base on balls to Teyema, who advanced to third while the leftfielder dropped a fly ball from the bat of Jerry Squires. Fedunjak rolled a sharp bouncer through short scoring Teyema.

Clovis scored again in the fifth on a double by Nichols and a dropped fly ball by Parker. In the sixth the Oilers scored four times to knot the count at 5-5. Brawley opened with a walk. Squires singled to left and Fedunjak singled to left to score Brawley. Then both men scored on a triple to deep leftcenter by Hubbard. Hubbard then scored the tying run on a wild pitch.

The winning run for Clovis came in the seventh. With one down, Moore was safe on an error by Velozquez. He moved to third on a sharp single to right by Novotney and scored while Novotney was being forced at second.

Ken Peacock, optioned from Shreveport, was expected to join the team today. The addition of this fine, hard hitting outfielder should help solve the outfield problem for Manager Grover Seitz.

Women's State Bowling Meet Reaches Finish

EL PASO — (AP) — Grace Baskin of San Antonio is the "state champion bowler" and Oma Lee Elliott of Denison is another star of the Women's State Bowling Tournament. The tournament ended here last night.

Elliott was among the three leaders in three divisions of play. She scored 583 in singles in the final round to win second place in this division. She and Bonnie Kennedy of Denison teamed to score 1,009 doubles and win third place in that division. Elliott won the all-events division with a total of 1,585.

Baskin's 1,754, bowled the first weekend of the 10-day tournament, won for her the Class A all-events. She won Class A singles with 606 and with Iris Peters of San Antonio rolled 1,072 to win Class A doubles.

The first three places in various divisions were:

Class B — J. M. Huber Co., Borger, 2334; Hilton Hotels, El Paso, 2225; Comal Nylons, New Braunfels, 2209.

Class C — Pasadena Boosters, Pasadena, 2261; Popular Dry Goods, El Paso, 2205; American Life and Casualty, Dallas, 2188.

Class D — Billie Thurman and Nadine Griffin, Lamesa, 893; Josephine Varela and Beryl Osborne, El Paso, 878; Speck Holliday and Ethel Hodges, Monahans, 874.

Singles: Class B — Rhoda Del Curto, Austin, 698; Oma Lee Elliott, Denison, 553; Henrietta Lewis, El Paso, 541.

Class D — Robbie Evans, El Paso, 484; Bernice Roche, El Paso, 483; Bernice Carson, Monahans, 475.

All events: Class B — Oma Lee Elliott, Denison, 1585; Ruth Baker, Austin, 1539; Gretchen Ratliff, Fort Worth.

Class C — Frances Flowers, Hobbs, 1482; Billie Smith, Borger, 1462; Lora Williams, El Paso, 1419.

Associated Press Writer Picks Boston Red Sox and Brooklyn Dodgers to Win

Expect Six-Team Race In National League

By JACK HAND
ATLANTA, Ga. (AP) — The National League race figures to be a wide open six-team battle with the Brooklyn Dodgers having the best chance to win the pennant.

Only Philadelphia and Cincinnati appear out of it. All the others, including the Chicago Cubs, last in 1948, rate a tumble. Pittsburgh, the big surprise of last year may well nip the Dodgers.

Here's the way the finish looks, to the writer, in advance of the opener:

1. Brooklyn
2. Pittsburgh
3. Boston
4. St. Louis
5. Chicago
6. New York
7. Philadelphia
8. Cincinnati

Despite their third place finish, behind the Champion Boston Braves and St. Louis Cardinals, it looks like the Dodgers for the pennant.

Brooklyn has no sure 20-game winner like Boston's Johnny Sain but in Ralph Branca and Rex Barney, they have a pair who could be tops. Manager Burt Shotton's pitching with Joe Hatton, Preacher Roe, Harry Taylor and young Carl Erskine to back up the Branca-Barney combination, rates with the best. Perhaps St. Louis has a little more class but its pitching staff is strictly southpaw.

Bill Meyer may be cooking up the surprise of the year for Pittsburgh. He made the experts look bad last year by leading the underrated Pirates into fourth place. Off season deals for pitchers Murry Dickson, Hugh Casey and Bob Muncie strengthened the club. Meyer says the improvement is 25 percent.

Picking last year's pennant winner for third place is risky business. Manager Billy Shatzkin won't have the same club that won in '48 with the addition of Pete Reiser, veteran Dodger.

For the Braves it's still Sain and Warren Spain as the one-two pitching punch. Vern Bickford, Bill Voiselle and possibly young Walter Johnson, a bonus kid who has been hit hard this spring, round out the staff of starters.

One again, St. Louis has the best regular lineup in the league but may be too many days when the aging regulars won't be in there. It's a good club that is getting old and weak in reserves.

Sul Ross Wins First In Collegiate Rodeo

SAN FRANCISCO — (AP) — Led by all-around grand champion Harley May, Sul Ross State College of Alpine, Tex., won the championship at the first National Intercollegiate Rodeo last night. Sul Ross accumulated 545 points to nose out California Polytechnic College, with 500 points.

The final team standings were: Sul Ross 545, Cal Poly 500, University of Wyoming 235, New Mexico A&M 215, University of New Mexico 190.

The 1949 Hambletonian trotting classic at Goshen, N.Y., Aug. 10, will be worth approximately \$67,000 — an increase of \$7,000 over last year.

The Poughkeepsie Regatta will be staged on June 25 this year.

BETTER BOWLING

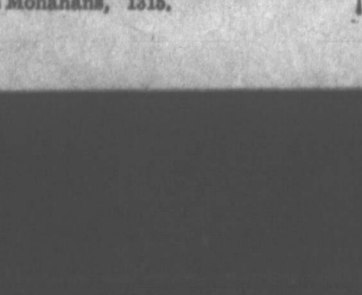

LOOKS EASY: Most of the time you can sell people on an idea if it will save them a lot of work. In bowling the idea is: make things easier with "swinging action" and build up your score in a hurry.

This "swinging action" should give you a feeling of total ease, and to get that feeling it is necessary that the arm be totally relaxed at the top of the backswing. The secret? Grip the ball loosely. You see, tightening the grip will tense the muscles and result in forcing the downswing. The ball should drop of its own weight into the downward-forward arc.

Forcing the ball in the downswing will lead to trouble — poor control. On the other hand, a tight grip will pick up its own momentum and will be consistent, so that it can be easily timed with footwork to pass the left leg in perfect timing.

In the illustration you can see the form you're shooting for: The head, shoulders and hips are in perfect balance, with the weight of the body being taken over by the left leg in its slide to the line. The ball is swinging past the right hip with the arm relaxed in the point-getting "swinging through" finish.

And to fit in with this path-of-least-resistance form, the grip should be simple too: Just like picking up a suitcase. The thumb is toward the body and the fingers are on the outside (right) of the ball. Make bowling easy and your score will improve.

FARM NEWS

Pampa News, Tuesday, April 12, 1949 PAGE 3

Plant onion sets an inch apart, and thin out to four inches to grow mature onions. Pull excess plants when small for table use.

That Magic Onion Flavor Easily Grown in Gardens

Onions lack vitamin C and are low in calories, yet their close cousins are considered indispensable the world around because of their fragrance, but their flavor.

This flavor can be produced by some of the cousins in a form which may be more acceptable to you than in the onion. Chives, for example, are milder, much less odorous, and especially good in salads and cottage cheese. Leeks are preferred by the British for flavoring cooked dishes. And you must know about garlic, of which you can grow a year's supply in about one foot of garden row planted to garlic sets.

But the first harvest an amateur can reap from his home garden is green onions, from onion sets. Top sets, produced by some perennial varieties instead of seeds, may be planted in the fall, and will produce green onions before the ground can be worked in the spring. Bottom sets, which are really dwarf onions, checked in growth by crowding in the row, may be planted in the spring as soon as the ground is prepared, and will grow green onions of table size in three weeks.

The smaller sets, sown an inch deep, will produce mature onions in two months, much quicker than you can grow them from seed. Use the larger sets for green onions, and plant them deeper, as much as

Better Seeds for Better Crops

To ensure bigger crops for a hungry world, the United Nations Food and Agriculture Organization (FAO) is now sending hybrid seed corn to 19 countries in Europe and the Near East. In Italy, for example, hybrid corn gives up to 50 percent better yields than older types. Here members of FAO's agricultural division pack hybrid seed for other countries suffering from food shortages.

Help Farmers Help Selves Is Duty of County Workers

STEPHENVILLE — (Special)—The purpose of county agricultural and home demonstration agents' work is to help farm and ranch people help themselves rather than do things for them, Dr. Ide P. Trotter, director of the Texas Extension Service, told members of the Texas A&M College System Board of Directors at a meeting here.

Dr. Trotter's report is one of a series being made to the board by the various divisions of the institution.

The Extension Service is the third part of A&M's agricultural education program, the director said. The others are resident instruction and research. Teaching came first and provided trained farm leaders and research workers. Research determines facts to teach. The Extension Service takes these facts to the farmers.

Around the turn of the century institutes based on the Chautauque idea were developed to take information to rural communities, he said. The demonstration plan on which the organization now operates was first used by Dr. Seaman A. Knapp, an agent of the U. S. Department of Agriculture, on the farm of Walter C. Porter near Terrell in 1903.

The following year Dr. Knapp set up headquarters in Houston and employed agents who set up demonstrations in improved farming practices. Smith county in 1906 employed the first county agent in the United States. The first boys' club—the 4-H Club work of today—to be organized by a county agent was formed in Jack county in 1908. Texas' first home demonstration agent was appointed in Milam County in 1912.

USDA Forecasts Winter's Wheat Crop 2nd Largest

WASHINGTON —(AP)—The Agriculture Department yesterday forecast this year's winter wheat crop at 1,619,886,000 bushels, which would be the second largest of record.

This estimate compares with last year's crop of 990,088,000 bushels, the previous record of 1,088,048,000 in 1947, and with the ten-year (1937-46) average of 888,606,000 bushels.

It is 54,878,000 bushels which the department said last December was likely on the basis of the indented planted acreage and weather and moisture conditions prevailing at that time.

No forecast was made on spring wheat production inasmuch as it is not all planted yet. However, should the spring wheat crop equal last year's harvest of about 300 million bushels, the total wheat production would be 1,919,886,000 bushels.

This total crop would compare with last year's 1,288,408,000 bushels, the record of 1,367,198,000 in 1947 and with the ten-year average of 942,823,000.

The department estimated that 8.5 percent of the acreage sown

Cotton Program To Be Held at McLean Apr. 13

A meeting of interest to cotton farmers will be held at 2 p. m. tomorrow at the Avalon Theater in McLean, Ralph Thomas, Gray County agent, said.

Fred T. Elliott, cotton work specialist, and F. E. Lichte, cotton ginning specialist of Texas A&M Extension Service, will attend and discuss problems in production, marketing and ginning of cotton. Slides relative to the use of fertilizer, insect control methods, tillage and mechanical harvesting will be shown.

Conservation Plan Started on Roberts County Farmstead

Paul Caylor recently has completed a conservation plan on his ranch, it was announced from the Roberts County Soil Conservation District.

On the cultivated land he plans to use crop residue management, which will leave most of the straw on top of the ground. Advantages of using crop residue management are that it provides effective protection against wind erosion, will catch and hold snow, will help prevent water erosion, will reduce the baking and cracking of the surface soil and will provide a firmer and better seed bed.

Caylor will construct terraces on his land that has a slope of more than one percent. Grassed outlets will be prepared before the terraces are built. Also, he plans to plant a wind break to protect his land. The location will be cultivated this summer and trees ordered. Next winter they will be set out in rows 15 to 20 feet apart.

On his range land he plans to defer one of his two pastures until after the frost, which will allow his better grasses to mature and seed every other year. By keeping better climax grasses he will have a smaller proportion of weeds in his pasture. He will be able to produce more feed and cut down run off water and soil losses with this greater production of grass.

As a final measure to his conservation plan, he plans to repair a stock pond which will be valuable for stock water and erosion control.

Texas Farmers Up In Arms as Result of Bill

WACO — Farmers of Texas are up in arms as a result of the crippling amendment tacked on to the McLellan rural road bill by House members when they voted to cut the tax rate from one cent per 1,000 cubic feet of gas to three-fourths of a cent, Walter Hammond, president of the Texas Farm Bureau Federation, said.

Legislators who voted for this rate reduction are voting against the McLellan bill and against the farmers of this state, Hammond charged, because their action dilutes the bill and cuts down on the number of miles of road that can be built from the revenue derived from the natural gas tax levy.

Some of our legislators are favoring the out-of-state multi-million dollar industries instead of remaining loyal to the folks back home who sent them to the legislature, the federation president further charged.

Hammond said opponents of the McLellan Bill, which is sponsored by the Texas Farm Bureau Federation, are saying they are not voting against the farmers when they vote against the McLellan bill, but contend that the rural road have been taken care of in the Colson bill, which has already passed the House and Senate. Hammond declares that the Colson bill is totally inadequate to take care of the rural road needs for the farmers of this state. The Colson bill is dependent upon appropriations from the general fund and will build only two miles more road per county each year than has been built in the past.

More than a thousand farm bureau members recently were in Austin to see the committee on revenue and taxation vote out the McLellan Bill favorably. If it is necessary for the farmers to make another trip to Austin to let the legislators know their views, they can show up again in increased numbers, Hammond concluded.

meeting. McMillen suggested farmers investigate these subjects, discussed at the meeting:

1. The possibility of growing more aromatic, Turkish-type tobacco, recently introduced in the South. He said it provides greater profits than ordinary tobacco.
2. The possibility of growing more sweet potatoes and reducing costs for producing them. He said more machines can be used.
3. New hybrid trees that might

produce pulp for paper mills four times as fast as some trees now used for pulp. Scientists said more than 200 million acres of Southern lands, suitable for farm crops, appear capable of raising new hybrid pines. The possibilities of growing okra for industrial oils and peanuts, alfalfa and soybeans for a widened range of uses.

HOW MODERN MIRACLE OF DESIGN MAKES THE NEW DODGE DIFFERENT!

Different! LONGER on the inside ... SHORTER outside!

Different! WIDER on the inside ... NARROWER outside!

Different! HIGHER on the inside ... LOWER outside!

WHO SAYS all cars are alike? Just look at the new Dodge, the car that dares to be different! Different in the sleek lines that flow from true functional styling. Different inside—and out!

Inside, this new Dodge is bigger three ways—longer, wider, higher! But outside it is actually shorter, narrower, lower. No bulky lines to balk you when parking or garaging your new Dodge. Here is a miracle of design that puts your comfort first. Wide opening doors that make it easy to get in and out . . . inside all the head room, leg room, elbow room you could ask for.

Topping all, is the flashing performance of the famous Dodge "Get-Away" Engine . . . the velvety smoothness of Dodge All-Fluid Drive.

Before you decide on any car, see how much more Dodge gives for your money today!

Martin & Turner Insurance Agency Beginning 6th Year

Bean Precision Visualizer Is Featured at Lewis Motor

LEWIS MOTOR COMPANY, 211 N. Ballard, is the Studebaker car and truck home in Pampa. It is owned and operated by Wesley Lewis.

Lewis Motors, 211 N. Ballard, features John Bean Visualizer service. The company's employees really do a fine job when it comes to aligning those wheels on the car. They use the electric eye method that is found only in the most precision instruments. The visualizer puts the results on a screen so the public can see just what they are paying for.

Several '49ers (Studebaker trucks) are now on display at Lewis Motors. The company has been owned by Wesley Lewis for the past three years.

These new trucks are brand new in design, in performance, in handling ease and in riding comfort. Exceptional gasoline savings give a special distinction to the heavy-duty model trucks in the 1949 super line.

MADE IN PAMPA
Golden Loaf Bread
BAKED FRESH DAILY

Partnership Has Every Type Insurance And Offers Comprehensive Coverage

'MaryAnns' Featured at Pampa Bake

"MaryAnns," better known as shortcakes, are the specialty featured at Pampa Baking Company this week, Frank Rapstine, owner, said.

Generally about the second week in April each year Pampans begin remembering how luscious strawberry and peach shortcakes taste, especially if the fruit is nice and fresh and the shortcake is light and tasty.

Roy Bond, Pampa Baking Company's shop foreman, bakes the delicious "MaryAnns," assisted by Cecil Rainey and Mrs. Boyd Sponge cake dough is used in "MaryAnns," accounting for the light, fluffy base for the strawberry shortcakes.

Many housewives already have discovered the dessert of deserts and are serving shortcakes. With fruits in the market, the housewives who haven't purchased Pampa Baking Company's "MaryAnns," haven't yet discovered the way to serve a meal that's tops in taste.

Besides finishing the meal with shortcake, smart housewives will include tasty bread in the main source of the meal. That crunchy, luscious distinctive Golden Loaf French bread—that delicious Golden Loaf raisin bread that nourishing Golden Loaf white and wholewheat bread—any or all added to the meal put it into the successful category.

94 Is Number For Pampans To Remember

Whether or not the sun shines—whether or not the wind blows—whether or not mother nature does something else to dampen the spirits of Pampans, Peg's cabs are always ready upon call.

C. M. Whittle, better known as "Peg" has served Pampans for 17 years through his cab service. Knowing this changing Panhandle weather Peg has a supply of auto accessories at the cab company to fit any favorable or unfavorable weather need.

There are 12 cabs to be found at 207 N. Frost, the home of Peg's Cab Company. Also, 14 drivers are employed by Peg to provide that speedier, more dependable service that has long been linked with the name, "Peg's Cab Company."

Four new special built Chevrolet taxis recently have been added to the company and by this time most Pampans have noticed the good-looking cabs and have called upon their services.

Most of the cabs are two-way radio controlled, which is particularly responsible for the speedier service one receives by phoning 94.

Other equipment in the shop includes a Bendix two-way land station with eight mobile units. On order is a new telephone switchboard, which will assure even speedier telephone service to the many Pampans who call upon the service of the company.

Special services provided by the company include a phone call when desired, which has helped the company acquire the name of the "town alarm clock," a bit of information out of the city and rural directories at any time and messenger service for the phone company on long distance calls.

J. RAY MARTIN, MRS. J. M. TURNER AND MISS VERDA ELKINS are shown as they appear every day of the week at the Martin & Turner Insurance Agency, 107 N. Frost.

By JIM McCLUSKEY
Public Relations Editor

"It has always been our ambition," J. R. Martin said "to offer our clients the most modern and comprehensive coverage in the American markets."

The Martin & Turner insurance agency, 107 N. Frost, beginning its sixth year of existence, has many types of insurance that are tops.

Hail insurance on wheat is now obtainable at the agency. Both Martin and Mrs. Turner urge local farmers to get this hail insurance early in order to be entirely protected.

This year the agency offers a well-rounded polio policy that also covers seven other serious diseases. They are spinal meningitis, diphtheria, scarlet fever, smallpox, leukemia, encephalitis and tetanus. The policy pays up to \$5,000 in treatment for each person covered.

"Our polio insurance is within the reach of every family," Martin said. "Every family should own a polio policy in order to have financial assistance the polio policy offers."

Other services provided by the polio policy are: hospital services, room, board, attendants, apparatus, medicines; medical services—MD or osteopath; nursing service—registered nurses, three a day; ambulance service—\$25 each hospital confinement; iron lung or similar mechanical apparatus; blood transfusions—all usual and customary charges; drugs and medicines—pays all drug and medicine bills; transportation—railroad or aircraft to hospital for patient and one attendant; braces and crutches—as needed.

Another policy stressed this time of the year by the agency is individual comprehensive personal liability. Many unusual occurrences are covered by this policy. Some of the accidents provided for are against the insured's daughter who spills acid on a fellow student at school, against the insured's baby who breaks the cook's glasses and against the insured's son who damages the claimants auto with a nail.

Automobile and personal liability insurance can be combined with small additional cost. This policy will take care of all legal liability on the premises as well as on the car.

Other specialties of the Martin & Turner Insurance Agency include fire and casualty insurance, bonds and loans. The agency represents only stock companies, so Pampans may rest assured of putting their money into a good investment when dealing with this agency.

Martin and Mrs. Turner have spent many hours with customers explaining in detail the provisions of their various types of insurance.

At the present time Martin is serving as chairman of Gray County's phase of the American Cancer Society's drive. He has served in this same capacity for the past three years.

"Fundamentally, life insurance furnishes a man with protection for his family in case of his death," Martin said. "The premium he pays for it are used in building up and maintaining the strength of the nation."

The enterprise is all carried out within the framework of state and federal laws protecting individual policyholders and the companies themselves.

Versatility Tradition at Thompson's

Allied Paint, Florman, Charm and Imperial Wallpaper, Wall-Tex, all types of floor coverings, mirrors and glass are handled by Thompson Glass and Paint Company, 219 N. Ballard.

That time of the year is here again—many Pampans have more energy than they know what to do with—and there are many things that could be done around the house.

In the first place—nearly every home in Pampa could use a paint job either on the inside or out. Allied Paint for the furniture to the tractor is handled at Thompson's. Allie Spar is acid resisting, porcelain is just what one needs for furniture, implement enamel is super for both inside and out, Dense-Kote is tops over Kalsomine, Floor-Kote dries overnight and Zynolite is the very best for floors.

The 1948 Charm and Florman wallpaper patterns have been received at the company and a wide variety of patterns are available for every room in the house. Also in the Imperial patterns there is promise of brighter and lovelier rooms. The authentic styling will give walls new and lasting charm.

Approximately 36 of the 200 Wall-Tex patterns are carried at Thompson's. Formerly Wall-Tex was used primarily in bathrooms and kitchens. Now, however, the company has patterns for every room in the house which is certainly an advantage to mothers who have tiny children running about the house.

Owners of H & M Service Invite Their Friends In

H & M Service Station, 301 W. Foster, now has a colorful sign in front of it marking it as one of the most modern stations in Pampa.

During the past week Lloyd Hamilton and Dean Monday, owners, have been up to par with paint brushes and paint. The interior of the station is now white, trimmed in gray.

The conveniently located service station, located from the fire station, features Mobilgas, Mobil batteries, Mobil tires and tubes, Seiberling tires and tubes and all sorts of auto accessories.

The company also offers the special services of changing oil, fixing flats, car cleaning, lubricating, and car washing. Hamilton and Monday just opened the station last week. The site was formerly occupied by Hall & Pinson Tire Company.

Hamilton has lived in Pampa since 1928 and served in the Navy for 38 months. Monday, who has lived in Pampa since 1931, also served in the Navy. Hamilton and Monday handle all leading brands of oil, so regardless of the brand one is accustomed to, he can find it and have it efficiently put into his car at the H & M.

The two men invite Pampans to stop in at their new station and see the special services they offer. Further, the courteous treatment customers receive while having their cars serviced at the station is enough to make the customers feel inclined to call again.

Monday lives at 220 N. Nelson with his wife, Nelda, and son, Ronnie. Hamilton resides at 1032 E. Fisher with his wife, Evelyn V., and his two sons, Lloyd, Jr., and Frank Graham.

Richard Drug on Kingsmill Handles All Drug Store Needs

ONLY A FEW of the many items stocked at Richard Drug are shown in the above photo. The drug has five fully equipped departments that are able to take care of everyone's drug store needs.

Five major departments are found at Richard Drug, 107 W. Kingsmill, within which many items are kept stocked that may be found nowhere else in Pampa.

Joe Tooley, now half-owner of the drug, keeps many rare drug store needs on hand as good-will products. Some items are needed only occasionally and by few persons; however, Joe keeps them stocked to take care of these rare occasions.

Richard Drug, for the past 25 years, has ably served Pampans. It has built up quite a following among the townspeople, not only for dependable and courteous service, but also for its large stock.

The five major departments also for its large stock, include cosmetics, patent medicines and trusses.

Especially featured in the cosmetic department are Elmo, Lucien LeLong, Tussy and Dorothy Gray products. Besides these nationally known brands, many other cosmetics of a general line are carried. Everything a woman needs in the cosmetic line may be purchased at Richard's. Many shades of lipstick, finger-nail polishes, rouges, powders, mascaras, eyebrow pencils and face creams are kept on display.

Photographers, both amateur and professional, already know well that Richard Drug is the place to get supplies, have their pictures developed and be informed about various phases of photography. Items stocked there include enlargers, chemicals, still and movie cameras, film, projectors, dark room supplies and all most everything else one could use in photography.

A general line of medicines is kept on hand at the drug so that any doctor's prescription may be quickly and efficiently filled in the prescription department. Besides the large line of medicines, a good stock of sickroom and hospital supplies are found there.

Fifty-five U.S. athletes will oppose a Scandinavian track and field team in a dual meet at Oslo, Norway, on July 27, 28 and 29.

Exposure—Any Direction You Want

This novel garage in Miami, Fla., has southern exposure—also northern, eastern and western. The four-deck building is completely wall-less and constructed on a still-like arrangement. It can accommodate 620 cars under cover and 150 on its roof.

Why The Catholic Church Says "INVESTIGATE!"

Probably not more than a handful of people hate the Catholic Church as it really is.

But many have heard anti-Catholic calumnies from sources they have been taught to respect, and have come to fear and suspect the Church as it has been falsely represented to them.

It is hardly reasonable to believe that 25 millions of Americans would remain in the Catholic Church if the rumors circulated against the Church are true. Nor would thousands of others become Catholics every year if they believed such things—without acquiring into the facts.

That is why the Catholic Church says again and again to people everywhere: "Investigate! Investigate!"

The Church makes this appeal not merely to settle an argument, nor primarily to win the good-will of the non-Catholic people, although this is a hoped-for result.

Its more important aim is to invite people to inquire into Christ's truth as taught and preserved by the Catholic Church down through the centuries. For no man, seeking the salvation of his own soul, can conscientiously discount the Catholic claim to be Christ's Church on the basis of mere rumor and slander when the truth is so readily at hand.

The Catholic Church therefore

invites you to inquire into its teaching and practices... to find out for yourself if what you believe about the Church is true or false.

Learn for yourself, for instance, if it is true that Catholics give divine worship to Mary, the Mother of Christ... or if this is not just another calumny. If you have been led to believe that Catholics worship idols and statues... buy and sell the divine worship of the Mass... are opposed to the religious freedom granted all religions by our Bill of Rights, then you have been deceived and misled.

If you have harbored these or any other false beliefs about the Catholic Church and its teachings... and if, above all, such misunderstanding has kept you from examining the Catholic claim to be the Church established by Christ Himself... you owe it to yourself in good conscience to seek the truth.

We shall be glad to send you free on request, a booklet dealing with the points mentioned here and many others... including the attitude of the Church toward Birth Control... secret societies... the salvation of non-Catholics... why Catholic priests are called "Father"... the Inquisition and the alleged goings-on behind convent walls.

Write today... ask for your copy of Pamphlet No. 7—KC.

Cure Found for Undulant Fever

WASHINGTON — (AP) — Medicine has two new and quicker-acting drug weapons against undulant fever, a group of scientists reported today.

Undulant fever, or brucellosis, the disease caused by drinking raw milk from cattle infected with "bang's disease" — or from handling raw meat from infected cattle or hogs.
The scientists said either streptomycin or chloromycetin — two of the newest "wonder drugs" — can overcome the acute stage of the disease within 72 hours.

Calumet Farm has won two of the last five Kentucky Derbies, and also has gained two seconds and a third.

ASTHMA

SUFFERERS FIND CURE FOR MISERY DUE TO ASTHMA ATTACKS. RUSHED HERE! New hope for relief from asthma paroxysms is seen today in reports of success with a palliative formula which acts to relieve congestion. Men and women who formerly suffered with dread coughing, choking, wheezing asthma attacks, find of blessed relief after using it. PROMETIN costs \$3, but considering results, this is not expensive, amounts to only a few pennies per dose. (Caution—use only as directed.) PROMETIN is sold with strict money-back guarantee by Berry's Pharmacy - Mail Orders Filled

Folger's Coffee
Mountain Grown
Extra Flavor
-for any and every occasion!

"I Like Mine Light!" For a light cup of coffee and yet not a weak drink—you need a coffee with real intensity of flavor. Folger's is such a coffee. So extra rich in flavor it holds up in a light brew!

"I Like Mine Strong!" No tricks will put flavor into coffee that Nature didn't grow there—men prefer Folger's because it has real depth of flavor—makes a wonderfully vigorous cup of coffee.

This is the Coffee with the Extra Rich Flavor!

In the faraway mountains of the Tropical Americas—nature combines the magic of brilliant sunshine—abundant rainfall—and remarkably fertile volcanic-ash soil to produce coffee with an amazing intensity of flavor. For ninety-nine years Folger has pioneered the blending and roasting of these special kinds of coffees. The individuality of the Folger Flavor

is a triumph of selection, blending and processing of truly quality coffees... no other coffee flavor is quite like it. Yes, Folger's is a truly distinctive coffee flavor. It has a keen, winery tang... is rich... vigorous... with a completeness that is most enjoyable. No other coffee is quite like it! Try Folger's; discover how wonderful a cup of coffee can be!

Choose from three grinds: REGULAR, DRIP and FINE GRIND

FLAVOR
SO EXTRA RICH YOU ARE URGED TO TRY USING 1/4 LESS THAN WITH LESSER FLAVORED BRANDS!

FOLGER'S COFFEE
THERE'S A MOUNTAIN OF FLAVOR IN EVERY SPOONFUL

"Relaxing? Long trips are a breeze!"

THAT'S WHAT OWNERS SAY ABOUT THIS ROAD-PROVEN NEW 1949 MERCURY!
