Crucial Battle Now Being Fought Along River Don

Nazis Mass Tank Force For Assault

Battle Of Egypt Becomes Largely A Waiting Game

By CLYDE A. FARNSWORTH Associated Press War Editor

The future course of the war in Russia, or more immediately, success or failure for Germany's greatest effort thus far this year, was being decided today on the banks of the upper Don with the enemy striving to exploit new river crossings where earlier bridgeheads had been crushed.

Remote but related developments were the crippling of Germany's mightiest battleship, the 35,000-ton Tirpitz, by a Russian submarine on the Arctic supply route to Russia, and a strong attack overnight by the RAF on a center of German naval power, Wilhelmshaven and nearby Wesermunde.

The German high command denied flatly that the Tirpitz had been either attacked or damaged, and spoke in resounding generalities of the battle of the Don.

Its communique referred to the partial success so far as a breach in the Russian front which had "shaken" the Russian line "over a breadth of more than 300 miles."

German and their Allies, said the communique, are on the move in the whole area, with fast-advancing formations in close pursuit of Russian troops said to be in disordered flight. Strong air forces were said to be hitting at the Russian columns by day and night.

On the other hand, the Berlin report added, Russian attacks to relieve the pressure along the Don were beaten down in four days of fierce fighting north and northwest of Orel.

The battle of Egypt had become largely a waiting game with both the British and the Axis forces near El Alamein trying to hold present positions, pending reinforcement necessary for a major move.

The British expected, however, a continuation of their counter-offensive by air with more successful bomb assaults on Marshal Rommel's German-Italian forces and the Axis claimed that the defenders of the El Alamein gateway to the Nile had been driven from important positions.

There was little to relieve the gravity of the situation in Russia. The Germans were reported to have massed 800 tanks on the west bank of the upper Don where, with the benefit of quantitative superiority, they sent light armored units, automatic infantry and shock troops across to new landing points on the east bank.

Flag Can Be Flown At Night During War

It's quite correct to fly the American flag at night, provided the nation is at war.

That's right, down in "Etiquette of the Stars and Stripes," issued by the national department of Americanism of the Veterans of Foreign Wars of the United States.

It was this rule, shown to Roy L. Coston by a woman who stopped at his filling station recently, that caused him to have the flag flying Monday night.

Inadvertently, it was stated in yesterday's issue that Mr. Coston had been asked by the woman why he was flying the flag at night. The correct version is that Mr. Coston was lowering the flag at sunset when the woman asked why he didn't fly it at night.

A check-up on the V.F.W. book showed Mr. Coston this was proper, as paragraph 28 reads: "The American flag may be kept flying all night when the country is at war; although army posts only fly the flag at night during battle."

Back on the pole at Mr. Coston's station late yesterday afternoon went the flag, after a call at the police station, where it had been taken late Monday night by Lt. Roy Webb, who had hauled it down under the impression that flying the flag at night was incorrect.

Deputy Charged In Slaying Of Army Lieutenant

SAN ANTONIO, July 9 (AP)—Deputy Sheriff Vernon Merritt of Banderita county has been charged with murder and released on \$2,500 bond in connection with the fatal shooting Sunday on a crowded Banderita street of Second Lieut. Charles A. Smith of Duncan field, Justice of the Peace Thomas Gray told the Evening News today.

The judge said the charge was filed in his court Wednesday by Sheriff W. H. Burns of Banderita county and bail was posted immediately.

Meanwhile civic organizations and individuals of the small town were appealing to Major General Richard Donovan, 8th corps area commander, to lift his "out-of-bounds" order of Wednesday which prevents army personnel from visiting the town.

General Donovan's order went out to all posts in this area as an investigation was being continued into the shooting.

Al Plummer, secretary of the

Air Base Building Contractors Here To Start Project

John Reinhardt of Oklahoma City, and E. G. Johnson of Norman, Okla., arrived in Pampa last night to make arrangements for construction of buildings at the Pampa advanced twin-engine flying school.

They are officials of the Reinhardt, Donovan, Johnson, Kraft, and Burns firm which will have charge of the building contract at the project.

Two other contractors have been busy for several weeks—Pool Brothers Construction co., of Shawnee, Okla., and the Austin Bridge company of Dallas.

Congratulations

Congressmen May Be Recalled From Duty

WASHINGTON, July 9 (AP)—Secretary of War Stimson said today his letter directing Senator Lodge (R-Mass.) to quit active army service as a major and return to the senate was "without official significance and was not intended to have" any such significance.

"It was a simple letter to a soldier who had performed his service creditably and was faced with two opportunities for service, in the senate and in the field," Stimson told his press conference, in response to a question.

"I followed a general directive and decided that he would be more useful in the senate."

Lodge recently returned from active army service in Egypt and is a candidate for re-nomination.

Presidential Secretary Stephen Early, emphasizing that he was not doing so as a result of Stimson's having written Lodge, gave reporters the text of a presidential directive to the army and navy now in effect which requires members of congress to go in inactive duty.

The directive says: "All members of the house and senate who are now serving in an active status will be placed on inactive duty, July 1, 1942, or immediately upon returning to the United States."

The directive originally made an exception for "those who wish to remain on active duty for the duration of the war," but this was rescinded the same day the original order was issued, June 17, at the suggestion, it was understood, of Stimson and Secretary of the Navy Knox.

One official who declined to be quoted by name noted that the effect of modification would be to compel congressmen or senators who are in the armed services and are up for re-election this fall to get out and run their campaign or resign from congress and stay in the army or navy.

Several house members, including some last heard from while at foreign stations, are in active service and it was not learned immediately how the new policy would affect them.

Two Days Left In Scrap Rubber Drive

There's just today and tomorrow left for Gray county residents to get in the scrap for Uncle Sam—the scrap rubber that may mean the difference between life and death for some men from the Panhandle, now serving in the Pacific, the Near East, Iceland of Northern Ireland.

With 275,000 pounds already collected, Gray county has done a good job of rubber scrap collecting, but over the nation the campaign has fallen short of expectations. Texas, as usual, was way up at the top in scrap rubber collections, but other states fell short.

For the nation as a whole, the collection is 334,293 tons.

GET IN THE SCRAP!

All who either sell or give scrap See SCRAP RUBBER, Page 7

Telephone Calls To Summon Pampans To Vote Tomorrow

Telephone buzzers will be a "call to arms" to Pampans tomorrow, as members of the committees of the chamber of commerce, summer clubs and individuals to do their patriotic duty and vote in the city bond election for the issuance of \$15,000 in bonds to drill three war-ter wells at the site of the Pampa advanced twin-engine flying school 11 miles east of the city.

Time of the election will be from 8 a. m. to 7 p. m., the place the city commission room in the city hall. Eligible to vote will be all Pampa owners of property, either automobiles, buildings, or stocks and fixtures, rendered by the owners or the city tax collector on the 1942 city tax rolls, with possession of either a poll tax receipt or an exemption certificate.

W. B. Weathered has contacted all women's organizations in the city and has suggested to them that they appoint one member of each to contact all other members in their respective organizations to exhort them to vote tomorrow.

Government Will Train 10,000 As War Technicians

By FRANCIS M. LEMAY WASHINGTON, July 9 (AP)—The government opened its purse today for loans to more than 10,000 college students—men and women—seeking technical or professional degrees in six specified fields, to make certain their education is completed in the shortest time possible and applied to the war effort.

Congress provided \$5,000,000 for this means of obtaining urgently needed persons trained in engineering, physics, chemistry, medicine (including veterinary), dentistry and pharmacy.

The United States Office of Education said the loans would be made to students needing assistance, who are registered in accelerated programs in degree-granting colleges and universities and whose technical or professional education in these fields can be completed within two years.

Students obtaining loans must agree in writing: 1. To participate, until otherwise directed by the chairman of the War Manpower commission, in accelerated programs of study in the authorized fields; and 2. To engage for the duration of the war in which the United States is now engaged, in such employment or service as may be assigned by officers or agencies des-

Merchants To Be Key Workers In War Bond Sales

The United States Treasury is asking the people of America to pitch in and help put over the biggest day's sale of war bonds and stamps on record—July 17, American Heroes Day.

Every city and town in the United States, backed up and sponsored by the local War Savings committees, are to be the key workers for American Heroes Day. Their publicity, their organization and their selling counters are to be the focal points for the big bond day.

Hollis Keys is chairman of the local committee in charge of American Heroes Day.

"This day," said Mr. Keys, "will furnish the occasion to the men in the fighting services the backing they deserve and need."

Ed Tracey, commander-elect of the Pampa post of the American Legion, said today the legion has accepted National Commander Lynn Stambaugh's invitation for the legion to get behind the American Heroes Day plans.

Plans for the Pampa observance will be announced Sunday, Chairman Keys said.

WAR BULLETINS

ANKARA, Turkey, July 9 (AP)—Foreign Minister Sakafoğlu Saracoglu was appointed premier of Turkey today by President Ismet Inonu to succeed the late Premier Refik Saydam.

VICHY, July 9 (AP)—The death penalty was decreed today for persons who set fire to crops as the Laval government sought to prevent repetition of acts which caused such widespread destruction last summer.

LONDON, July 9 (AP)—Official Polish sources reported today that the Nazis had killed the entire Jewish population of Hrubieszow, a town in southeastern Poland. They described the town as of from 15,000 to 20,000 inhabitants, of whom more than 5,000 were Jewish.

SABOTEURS GO ON TRIAL—Heavily guarded by army forces the closed vans containing the

eight German saboteurs move to the justice building in Wash-

ington, D. C., where they will go on trial before a military court.

SABOTEUR TRIAL WITNESS—Saboteur trial witness, Mrs. Gerda Melind, 24, Chicago, Ill., friend of Herbert Haupt, leaves the justice department in Wash-

ington, D. C., with Capt. W. G. Hummel, aide to Col. C. Dowell, defense counsel. The eight German saboteurs are on trial before a military court.

FDR To Keep Hands Off Congress Races

By DOUGLAS B. CORNELL WASHINGTON, July 9 (AP)—President Roosevelt, while reserving the right to dabble an experienced finger in politics in his own state, was reported today to have resisted firm efforts of numerous politicians to get him to take sides in feuds elsewhere.

He himself has remarked that this is war and politics are out. And one individual with access to accurate information asserted that the president had lived up to that declaration so far, although he has had

Fort Sill Deserter Wounded At Dallas

DALLAS, July 9 (AP)—A man identified by military police headquarters as E. A. Gayden, Jr., 26, allegedly AWOL from Fort Sill, Okla., was shot in the neck and critically wounded today in a fight with members of an arresting party.

Attendants at Parkland hospital said he had only a slight chance to recover.

Military authorities said they had been seeking the man for several weeks. An arresting party in charge of Cpl. T. R. Ward located him at a South Ervay street house today.

Army Housing Chief Visitor In Pampa

Lt. Col. Leonard M. Cowley, division real estate director of the U. S. Army engineers, of Dallas, was a visitor in Pampa yesterday.

He was accompanied to Pampa by W. I. Clifford of Amarillo, and while here checked with W. H. Garrett, project manager of the local U. S. real estate office.

Colonel Cowley visited briefly while here with Mayor Fred Thompson, and Crawford Atkinson, president of the Pampa Board of City Development and Chamber of Commerce.

A former newspaper editor, city planner, and real estate executive, Colonel Cowley has had a varied and interesting busy life.

He was full of praise of Pampa after a short trip around the city. Colonel Cowley is a former resident of Phoenix, Ariz., before being called to Dallas where he directs the handling of real estate for the U. S. Army engineers in Texas, Oklahoma, New Mexico, Colorado, Louisiana, and parts of Arkansas, Missouri, and Kansas.

Huff To Be New Rotary President

Pampa Rotarians will begin a new year tonight when new officers are installed at a ladies night banquet at 7:30 o'clock in the dining room of the Schneider hotel.

Awards will be presented to club members by Grover Heard, while the principal address will be given by Col. E. C. Black, commanding officer of the Amarillo air corps technical school.

Music on the program will be furnished by Beryl and Patsy Neal and Jack Andrews, and a vibraharp duet composed of the first two named.

Group singing will be led by Dan Gribbon. Travis Lively will deliver the invocation. Opening the program will be the speech of Mr. Rogers.

1942-43 officers and directors are: C. A. Huff, president; Walter E. Rogers, immediate past commander; Walter J. Daugherty, secretary-treasurer; Paul Carmichael, Ray Evans, President Huff, Joe Key, Farris Oden, Mark Vantine, Emmett Ellis, Walter Rogers, directors.

For 1941-42, the officers and directors were: Walter E. Rogers, president; Charlie Burton, immediate past president; Walter J. Daugherty, secretary-treasurer; Dr. Russell M. Bellamy, sergeant-at-arms; Glenn Mordy, C. A. Huff, Ernest Cabe, Emmett Ellis, Doyle Osborne, John Haynes, Walter E. Rogers, Travis Lively, directors.

Merchants Asked To Push War Bond Sales

With the Russian army being pushed into the shadow of Moscow and a similar crisis on all battle fronts, citizens of Pampa and Gray county should not hesitate to do the job at home in a big way.

Gray county has been issued a quota of \$164,300.00 in the war bond sale battle front.

A hurried check up with banks, the postoffice, the Securities Federal Saving and Loan association reveals that only \$28,512.00 of this total has been sold.

This is less than 20 per cent in spite of the fact that all retail merchants started the month off with a special drive July 1 in an effort to sell a maximum of war bonds and stamps.

The retail trade promotion committee of the Pampa Chamber of Commerce at a meeting late in June appealed to all merchants to stock up on defense stamps and to take orders for war bonds in order that a maximum might be sold.

More and more retailers are doing their part to call the sales effort to the attention of the buying public.

At a meeting yesterday, plans were made to renew this program. Sales people and cashiers will be urging customers to take their change in defense stamps throughout the month, or at least until the \$164,300.00 quota has been reached.

Time production of the province of Quebec, Canada, increased from 72,075 tons in 1939 to 106,852 tons in 1940.

Each worm eats, renews and aerates about five ounces of soil annually, according to estimates.

Market Briefs

NEW YORK, July 9 (AP)—The bull market in stocks maintained its rising stride at a moderate rate today despite the interference of considerable profit taking on Wednesday's bulge.

Many leaders stumbled at the start in exceptionally lively dealings but offerings were absorbed without any trouble and the advance was soon resumed. There was a little more ebbing in after-midday when the pace again slowed. Best gains running to around 2 points were reduced in most cases at the close.

Mildly persistent inflation psychology was thought to have inspired further demand for selected issues although numerous non-inflation stocks were equally favored as in the previous run-up. Outstanding stimulation from the war news was lacking.

Prominent on the early swing were Santa Fe, which touched a new high since 1935; General Motors, Chrysler, Goodyear, U. S. Rubber, J. I. Case, and U. S. Gypsum, at top levels for the year; U. S. Steel, Montgomery Ward, Douglas Aircraft, United Aircraft, Anaconda, American Can, Union Carbide, Eastman Kodak, Standard Oil (N. J.), and Pan American Airways.

Flood Receding From Town Of Three Rivers

SAN ANTONIO, July 9 (AP)—Three Rivers, where three South Texas streams converge, was given at least temporary relief from flood waters today, while more than 100 persons at Victoria were kept from their homes by the muddy Guadalupe river.

White water, from the Rio Nueces and Atascosa rivers, receded enough at Three Rivers for business to return to normal, the town was looking forward to the possibility of having to leave their homes again by the week-end.

Reports came from Tilden, 25 miles west of Three Rivers, that more water was coming down the Rio; and reports from Callahan, 11 miles southwest, said that the Nueces was sending down additional rain drainage.

Although Three Rivers residents looked for water to back up again into the town, it is not expected to be as deep as it was Tuesday night, when more than 400 residents sought the safety of nearby hills.

The Nueces river, which stood at 43.3 feet above normal Wednesday, had fallen to 40 feet today and was still receding. The Atascosa and Rio rivers also had fallen somewhat.

All the residents of Three Rivers proper had returned to their homes today but a few families were unable to go to their homes in a federal housing area.

Water was several inches up around business houses but not in them.

The Guadalupe stood at 29.6 feet at Victoria today and was rising slowly. It is not expected to go much higher, indicating the crest would pass there today.

Water stood from six inches to 14 inches in the lowland section, from which many families fled Wednesday night.

Sooner 'Miracle Man' Placed In Iron Lung

JAY, Okla., July 9 (AP)—An iron lung has replaced the friends who amazed physicians and kept Mason Williams alive for five and one-half months by constant artificial respiration.

Unable for a time to adapt himself to the lung, the 49-year-old school teacher, suffering from a paralyzing nerve disease, now can remain in it for six hours at a time. The friends have learned to operate the mechanical device.

Williams' survival of 22 weeks of constant artificial respiration was called a miracle by Dr. F. H. Terhaar of Los Angeles, physician employed by Bud Abbott and Lou Costello, movie comedians who supplied the iron lung.

"I can't understand how he stood up under it," Dr. Terhaar commented at Tulsa en route back to Los Angeles.

"Imagine yourself placed against a wall and having 250 pounds of pressure applied to your chest constantly for that length of time. A healthy person shouldn't be able to stand it, let alone one in his weakened condition."

At first, Williams was unable to stand the lung because of the radical change it caused in his breathing habits.

"The lung expands his chest and draws air into it. Artificial respiration compresses the chest and he had so much of it his chest was almost pressed flat.

"The lung has relieved him so much that he is able now to breathe for as long as two and one-half hours without help. When he overcomes the bad breathing habits he had established he should be comfortable."

His physician said there was no hope for Williams' recovery.

40 Candidates Report First Expenditures

A total of 40 candidates for precinct, county and district offices filed their first campaign expense reports with County Clerk Charlie Thut. Deadline for filing these reports was officially June 30, but some came in as late as Monday, July 6.

There has been no iron-clad enforcement of the rule on filing expense reports here, and the matter has been more or less voluntary in effect, although the filing of expense reports is listed on the political calendar.

Out of the reports filed, highest expense was that of Walter E. Rogers, candidate for district attorney, who reported an expenditure of \$297.58. Lowest expense was that of R. G. Holley, candidate for justice of the peace of precinct 1, LeFors, \$9.05.

Expenses were listed on the official report form, prepared by the office of the county clerk, as advertising, printing, travel, and miscellaneous.

Expenditures of candidates were reported:

For district clerk, Miriam Wilson, \$97.89; R. E. Gattlin, \$192; County judge, Sherman White, \$42.50; county attorney, Joe Gordon, \$145.50; C. E. Cary, \$64.40; Sheriff, Cal Rose, \$232.38; F. S. Brown, \$79.15; Jess Hatcher, \$147.35; Dan Cambren, \$179.85; C. E. Loveless, \$99.35; G. H. Kyle, \$98; Roy McMurray, \$84.

County treasurer, W. E. James, \$19.50; county tax assessor collector, F. E. Leech, \$100; county superintendent of schools, W. B. Weathered, \$55; county clerk, Charlie Thut, \$157.

No reports were filed by the following, listed by offices: Sheriff, Jeff Guthrie; county surveyor, Mark Denson; county commissioner 1, John Oldham; constable, precinct 1, LeFors, George Bailey, W. J. Clemmons; constable, precinct 2, Pampa, Jack Ross.

As the district attorney's race, a write-in, in which no names are printed on ballot, it is not required for such write-in candidates to file an expense report, although one was filed by Rogers. Aaron Sturgeon, the other candidate for this office, did not file a report.

Blackbird Saves Lives Of Family

LOS ANGELES, July 9 (AP)—A blackbird that fell from its nest a year ago and was rescued by Nelson Collard has paid Collard back several times over.

The back porch of Collard's home caught fire yesterday and the bird, now a household pet, flew from his kitchen perch into a bedroom and awakened Collard and his wife, alerting on her shoulder. They found the fire had started from a hot water heater.

"Boy, that bird's worth his weight in rubber," Collard ventured.

Modern blast furnaces are about 100 feet in height.

RE-ELECT BASCOM GILES

Commissioner of the General Land Office

HEAR HIM Friday 8:30 P. M.

Texas Quality Network WFAA-WBAP-WOAI-KPRC (Political Advertisement)

Duties Of TDG To Be Outlined

Mission of Company D, the Pampa unit of the Texas Defense Guard, along with the mission of other guard units over the state will be fitted into a broad pattern for the home defense of the nation, according to a directive from the war department to Adjutant General J. Watt Page.

Exactly what this broad pattern will be and what it means is not explained. There has been no reflection of the directive in any work of the local company in the past, although there has been increasing emphasis on scouting, patrolling, marksmanship, and guard duty.

Primary purpose of the Texas Defense Guard is to meet domestic emergencies and to assist military police and other units of the army in suppressing fifth column activity.

More recruits are being sought for the local company to fill in the gaps that may arise as men enlist or are drafted.

GRAY COUNTY *Salutes Our Heroes*

American
HEROES DAY!

Watch --- Read
The Pampa News
For Further Announcements On
American Heroes Day

Friday, July 17, has been set aside to honor the brave boys of Gray County who are fighting now on every battle front to protect our freedoms and the flag we live under. To these brave boys . . . to the heroes of all our wars, we, the people of Gray County dedicate **AMERICAN HEROES DAY**. We pledge that on this day we shall honor our heroes in the best possible way . . . by redoubling our own efforts to win the war . . . by buying U. S. War Bonds and Stamps in record-breaking numbers so that our boys will have the tools they need to finish the job.

Next Friday, July 17—American Heroes Day, let's show our boys in service a real parade—a never ending parade to the post offices, banks, and retail dealers throughout Gray County who are selling War Bonds and Stamps. Let's make this the greatest one-day sale of War Bonds and Stamps in history! Out there in the field, our soldiers need tanks and guns and planes. Don't fail them by giving "too little . . . too late." The time is short. Buy that extra Bond Friday, July 17 . . . no matter what else you have to give up. Let's show the world that the people of Gray County will give up anything—but Freedom! Buy a Bond today . . . an extra one next Friday . . . and then keep buying them every pay day till Victory brings our heroes home!

Help Him
Every \$3.00 you put into War Bonds buys 144 rifle bullets

Help Yourself
Every \$3.00 you put into War Bonds brings you back \$4.00

Railroads Set New Record In Troop Movements

CHICAGO, July 9 (AP)—In the first five months of 1942 the nation's railroads moved approximately as many troops as they did in the first 13 months of American participation in World War I.

Freight traffic in the same period was the highest on record for any five months.

This report on the tremendous volume of transportation was given today by Ralph E. Clark, Washington, an official of the Association of American Railroads in an address prepared for delivery before the Midwest shippers advisory board.

Clark said that through the end of May approximately 4,500,000 troops, not including those traveling on furlough, were carried by rail within the continental United States. This figure includes more than one ride a man. As the war progresses, Clark predicted, the carriers' job will become greater.

"We are told," he said, "that the army will reach four and a half million men by the end of the year, and this will mean from five to seven passenger movements for every man from the time of induction into service until departure from our shores for foreign duty."

Clark attributed the sharp climb in rail passenger business largely to troop movements and the diversion of highway travel to the railroads because of the rubber shortage and gasoline rationing.

Passenger business in the first four months of 1942 was 88 per cent greater than in the corresponding period of 1939 and 44 per cent above the same period of 1941.

In addition, he said, the railroads are doing "the greatest freight transportation job in their entire history."

BUY VICTORY BONDS

Nelson Streamlines War Production Board

WASHINGTON, July 9 (AP)—Donald M. Nelson realigned his production general staff today for better strategic direction of the flow of ore and ingots into America's factories, now retooled to grind out weapons and munitions for the raw materials to make them with.

He announced the appointment of two vice-chairmen of the War Production board and a director of general operations. These men, he said, would take much of the administrative load off his shoulders and leave him free to decide matters of policy.

At a press conference late yesterday Nelson explained that the top directing officials had been shifted because the board's main job now was speeding up the supply of raw materials.

The three new appointees were shifted from other WPB posts. They are:

William L. Batt—vice-chairman of the board to see that the general assistant and deputy; had been chairman of the board's requirements committee.

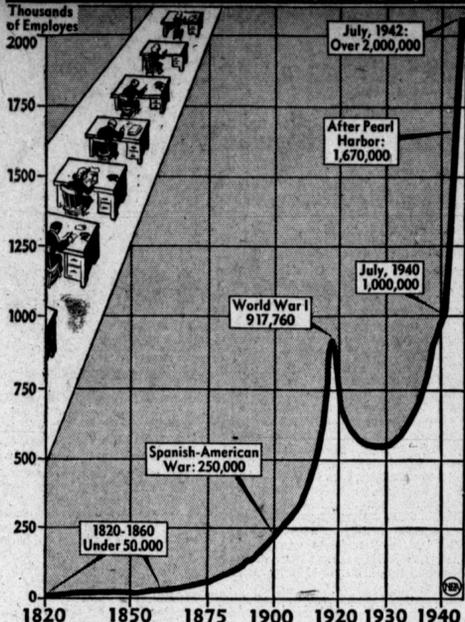

James S. Knowlson—vice chairman of the board with responsibility for determining the programs and Nelson's deputy on the combined production and resources board.

Amory Houghton—director general of operations, including supervision of the industry and material branches and the field organization.

GOVERNMENT EMPLOYES AND HOW THEY GREW

War brings an increase in the number of U. S. government employees as well as in the armed forces. Chart shows growth of the government's executive branch payroll since 1826 and big jump since World War II began in 1939.

Bandera Declared "Out Of Bounds"

SAN ANTONIO, July 9 (AP)—Eighty corps area officers today continued investigating the fatal shooting Sunday at Bandera of Second Lieut. Charles A. Smith, Duncan Field officer, and declared the town, 48 miles northwest of San Antonio, out of bounds for military personnel.

Col. Paul C. Watkins, commander of Duncan Field, reported that an army board of officers absolved the lieutenant of any blame and held that he was acting in line of duty when shot.

BUY VICTORY BONDS

Banks Don't Miss Trick

CAMP WOLTERS, July 9 (AP)—Banks aren't missing a trick these days.

Two days after he had been paid, a Camp Wolters private received the following circular from his bank:

"The increased pay which has been voted to service men by congress should enable you to make regular monthly payments on your personal loan, so you won't have to worry about it later."

The bank had enclosed a return envelope with "free" stamped on the corner.

BUY VICTORY BONDS

Blind Women Give Blood

SAN ANTONIO, July 9 (AP)—Two blind women were among the first to contribute their blood to the American Red Cross donor service.

One of them, Mrs. Steve Crivelli, has a son in the navy.

The other was her sister-in-law, Miss Mary Crivelli.

BUY VICTORY BONDS

Yep, There's 'Gnus'

NEW YORK, July 9 (AP)—The father gnu finally got the news he's been asking of mother gnu for weeks—"any gnus today?"

Yes, there's a new gnu at the Bronx Zoo.

Canadian Legion Installs Officers

SPECIAL TO THE NEWS

CANADIAN, July 9—At the regular monthly meeting of Zybach-Owens Post American Legion here this week, the following officers were elected and installed:

Frank Cole, post commander; Uel D. Crosby, vice commander; Albert Berman, adjutant; James Poindexter, sergeant-at-arms. Rev. Crosby will also serve as chaplain.

Following the business session of the American Legion, legionnaires joined members of the ladies auxiliary in a supper and social hour.

The ladies auxiliary, American Legion, had elected the following officers, installation to be at the next meeting, at a session held in their room at the same time as the Legion meeting:

Mrs. E. H. Fort, president; Mrs. Mabel Teas (a past president), vice president; Sleta Jennings, secretary-treasurer.

BUY VICTORY BONDS

A small steam locomotive and four abandoned street cars are being operated in the Canary Islands to conserve gasoline, according to the Department of Commerce.

VICTORY COMES FIRST

Independence Day this year is a good time for all of us to put our patriotism into action. For Americans, every day is Independence Day—a time for making sure that the light of Liberty shall not be dimmed or extinguished, as it has been for so many millions of others who have been forced to live in the shadow of the swastika.

That shadow must never fall here—and will never fall, if every American does his part. For your independence, buy War Stamps and Bonds to the very limit of your powers—starting now!

Resolve now to put at least 10% of your dollar—dime out of every dollar—into Uncle Sam's war chest! Remember that you can have War Stamps delivered to your home, ready to give to your newspaper carrier boy. Fill out the order blank below without delay!

RIGHTS STILL IN 1-A

NEW YORK, July 9 (AP)—Ralph Ingersoll, 41-year-old editor and publisher of the newspaper PM, is being inducted into the army.

Less than 24 hours after the local draft board heard the case, Col. Arthur V. McDermott, New York York draft director, announced yesterday the board's decision not to defer the editor.

Beer was a popular beverage in Babylon 7,000 years before the birth of Christ.

John B. Campbell... his business is to make horse races close.

Tola Rose Evens Hirsh Score With Campbell And Whirlaway

By HARRY GRAYSON
NEA Service Sports Editor
NEW YORK, July 9—All things being equal every horse race should end in a dead heat.

That is the prime object of every handicapper and John B. Campbell, who matches them for the Jockey club, comes closer to succeeding than any other official.

While Jack Campbell's selected the nation's leading handicapper, trainers sometimes disagree with him, too.

There was the withdrawal of Mrs. Parker's Cornings' Attention from the Butler Handicap at Empire City, for example.

Max Hirsh believed Whirlaway was getting the best of it in the weights prior to the Brooklyn Handicap at Aqueduct in which Mr. Longell bet Swing and Sway by a length and a half, with Attention the same distance behind the Greenree speedster.

So when Campbell put two pounds on each in the Butler, Hirsh with pointed attention.

It must have been the source of great satisfaction to the famous trainer to have taken the \$22,800 front end with A. J. Sacketti's lightly-rubbed plater, Tola Rose, which was spotted 29 pounds by the stretch-burning Whirlaway.

JACK CAMPBELL MATCHES HORSE AGAINST HORSE

While all respect Campbell, who has been in racing for 37 years, not a few consider him a better handicapper than a racing secretary.

After a field has been selected in order to make the finish as close as possible. Many things can happen to upset the handicapper's dope.

A horse may get away under a point of a field as equal to 10 of a stake horse.

Campbell may pore for hours over a list for a cheap claiming affair and then make up a valuable stake race with hardly a glance.

Mack And Paul Win 9th Game In Softball League

All Star Baseball Games Raise \$230,000 For Funds

By JUDSON BAILEY
Associated Press Sports Staff
The major leagues enter the back stretch of their pennant race today without much to run for except the fun of running.

The double all-star shows, which raised \$100,000 for the baseball equipment fund for servicemen, \$70,000 for army and navy relief and sold \$60,000 in war savings stamps, marked the approximate halfway point in the schedule.

At the intermission the Brooklyn Dodgers were eight games in front of the St. Louis Cardinals in the National league and the world champion New York Yankees had a four-game advantage over the Boston Red Sox in the American.

This makes it apparent that there no longer is any argument about the eventual pennant winners in either major league and none of the baseball celebrities who gathered in New York and Cleveland for the all-star contests cared even to intimate that the Dodgers and Yankees could be headed.

Whatever chance there was of wlaying the Yanks vanished last week when the champions stumbled into Boston and vanquished the Red Sox in the first two games of a three-game series. This showed that even though Joe DiMaggio, Joe Gordon and Charley Keller have been in batting slumps of greater or lesser duration, and the Yankees' catching crew is depleted, they still are able to suppress all insurgents.

The Dodgers have had their own way virtually from the start of the season.

This situation leaves the other clubs in the big top to find whatever satisfaction they can in scrambling for places in the first division and the fans to turn their attention to the competition for individual honors.

Today's resumption of play in the majors carried the eastern clubs of the National league into the West and concentrated the American league firing in the East. Four of today's contests are night games.

Ward Favorite In Western Amateur

By RUSS NEWLAND
SPOKANE, Wash., July 9 (AP)—In or out of the army, Marvin "Bud" Ward is still the country's amateur kingly golfer and he set out to prove it today in the first round of match play in the Western Amateur championship.

The curly-haired corporal, stationed at Fort Wright here in the airforce, was paired off with Otto Rosand of this city and, barring nothing short of a tremendous upsurge, was expected to breeze through the opener of the "sudden death" competition.

Corporal Ward, national amateur title holder as well as winner of the Western last two years, bagged medal honors from a fast field with a 36-hole qualifying total of 141. He was back of the pace the first day with a 73 but breezed in with a fine 68 to overtake the front runners in yesterday's second round.

Although his pair of 34s shaded two strokes off par for the 36-36-72 course, Ward actually had to scramble at times to make it. The second low qualifier was Marsh Hammond, a Spokane entry who put together rounds of 72-71-43.

Rosand barely qualified, being one of three who played off a tie at 187 for the last two places in the championship fight.

The "name players" scattered throughout the two brackets all were expected to get by the opening match play round.

Bill Welch of Houston, Tex., national public links champion, drew Jack Welch of Tucuma, holder of this state's left-handed golf title. Welch qualified with 149 and Walters with 164.

Printing Delays Bicycle Rationing

FORT WORTH, July 9 (AP)—Rationing of bicycles has been postponed until such time as the printed application forms arrive from Washington, D. C., State OPA Director Mark McGee announced today, date set for the rationing to begin.

"Because of the great volume of work business the printing of the application forms has been delayed," McGee said. "We cannot set a new date as yet but just as soon as the forms arrive and can be distributed, bicycle rationing will get under way."

McGee said that only 25 per cent of the bicycles allotted to each state will be released during July and August. This will mean, he said, that Texas will release 1,484 bicycles during July.

International League Sports Writers Organize

BUFFALO, N. Y., July 9 (AP)—Baseball writers of the International league, who met before last night's all-star game and perfected an organization of their own, voted to assess each member a 25-cent war saving stamp every time he enters a press box.

Pampa's Bob Manning Is Just As Efficient

JACKSONVILLE, Fla., July 9 (AP)—An efficient groundskeeper at Jacksonville's South Atlantic baseball park has caused officials to get together on their blacked signals.

He cut the lights off promptly at 9:15 the other night as a fast ball left the pitcher's hand. The catcher later showed up with the ball in his mitt, but the crowd went home wondering over the batter's safety.

Now the blacked signals are on at 9:14 so as to halt play before complying with the army's blackout order along the Atlantic coast.

ANSWERS TO WAR QUIZ

Questions on Editorial Page
1. Insignia denotes member of rescue squad.
2. Brazier refers to refrigeration ship.
3. Brazzaville is capital of French Equatorial Africa.

Russian Sub Saves Convoy

MOSCOW, July 9 (AP)—Two well-armed torpedoes from a Russian submarine, which seriously damaged the battleship Tirpitz, Germany's newest and mightiest warship, saved an Allied convoy from her attack and let the merchantmen through to Russia intact, Soviet dispatches said today.

These reports said a German naval squadron in which three heavy cruisers and eight destroyers accompanied the Tirpitz, put out from shelter in Norwegian fjord several days ago aiming to intercept a large convoy carrying arms to Russia from the United States and Britain.

DEPUTY

chamber of commerce at Bandera, said his organization had dispatched a letter to 8th corps area officer asking that the bar be lifted.

Mainly About Pampa And Her Neighbor Towns

CLARENDON—Mrs. Leslie Pickering has been selected as one out of six in a training class to go to work in the Consolidated Aircraft factory at San Diego, Calif. Her job is riveting the wings of the B-24 bombers. Mrs. Pickering is the daughter of Mr. and Mrs. Jack Goldston of the Midway community.

Southern Club now open Saturday nights. Pinky Powell orchestra. Various types of beer served. Admission 45c per person.—Adv.

WHEELER—David Eaton, formerly of Guthrie, Okla., has started work here as administrative officer of Wheeler county's AAA program. Mr. and Mrs. Eaton and son have moved to the Cecil Richardson place on the highway in North Wheeler.

Pvt. Thurman D. Wheeler of Fort Leonard Wood, Mo., is spending a 10-day furlough with his wife at the Phillips Petroleum camp south of town.

CANYON—Two more names have been added to West Texas State's list of ex-student casualties. They are Roy A. Wetherbrook of Hereford, U. S. M. C., missing; and Alva Leroy Clary of Dalhart, seaman second class, missing in action. Wetherbrook attended college here in 1939-40; Clary, in autumn of 1938.

Mrs. Shelby Gault and sons, Bill and Don, of Flagstaff, Ariz., are visiting in the home of her parents, Mr. and Mrs. J. H. Jones, and sisters.

SPEARMAN—The J. I. Steele building here has been leased by the county to be used as a club room for the county home demonstration club.

Mrs. George E. Gray is visiting in Anaheim, Calif., where she will remain for the next six weeks. Mrs. Gray recently moved from Tulsa to Pampa to make her home with her daughter, Mrs. Bernard Organ.

DALHART—Funeral services were held here Friday for Larry Hughie, 1-year-old son of Mr. and Mrs. L. H. Campbell, who drowned in a tub filled with rinse water at the family home near Hartley. Artificial respiration was used but the child died about midnight in a Dumas hospital.

First August call for men for military service from Gray county will be made on August 8. This will be in addition to the draft calls of July 25 and July 28.

PERRYTON—O. G. Price, substitute mail carrier at the Perryton postoffice, has been transferred to full-time employment in the postoffice at Borger.

A marriage license was issued here Wednesday to Dale H. Hart and Virgie Mae Brooks.

BORGER—Golf is becoming a hunter's pastime here. Playing on the Huber links the other day, S. M. Clayton got a birdie on No. 5.

Hawaii Air Chief

Maj. Gen. Willis H. Hale is the new commander of the Seventh Air Force in charge of the Hawaiian area. He succeeds Maj. Gen. Clarence L. Tinker, shot down in the Midway victory.

Teeling off on No. 6 he smacked one far into the rough and got a rabbit, hitting the bunny right in the head.

In training as a bombardier at Sheppard field, Wichita Falls, is Harry Abbott, 18, son of Mr. and Mrs. George Abbott of South Gate, Calif., and grandson of Mr. and Mrs. F. C. Abbott, 200 N. Ward. Bombardier Abbott enlisted two weeks ago. He graduated from Pampa High school this spring, was a former employee of the State theater.

CLARENDON—In the fifth selective service registration, 116 were listed in Donley county, of whom 94 were of Clarendon, 22 of Hedley, and 11 transient. Total of all registrations in Donley, including the fifth, is 2,247.

A guest of Misses Ruth and Mattie Lee Clay has been June Cope of Follett.

British Cargo Ship Sunk By Submarine

(By The Associated Press)
An armed British cargo ship, whose sinking was disclosed today by the navy, managed to fire one shot at random before torpedoes and shells from an unseen enemy submarine sent her to the bottom of the Atlantic off the northern coast of South America, survivors said.

The medium-sized ship staggered through heavy seas for 25 miles after the torpedoing before she was finally sunk by shell-fire. Thirty-six British airmen were saved and four were killed.

This sinking and three reported yesterday brought to 348 the unofficial Associated Press tabulation of united and neutral nations' ship losses in the Western Atlantic since Dec. 7.

The ship losses announced yesterday were Canadian, Dutch and Latvian vessels. And the survivors of the Latvian ship said their skipper was abducted by the German submarine that sank their vessel.

Besides carrying off their captain on learning he could speak German, the 34 crewmen said, the U-boat commander also picked up and kept prisoner a Spanish seaman who had leaped overboard during the attack, June 29. No lives were lost in the sinking.

The entire 37-man crew of the Dutch victim also was saved after the vessel was torpedoed in the Caribbean May 12, but in the sinking of the Canadian ship off the northern coast of South America a month ago

This Isn't Just a Lot of Noise

San Francisco air raid warden, in gas mask and tin hat, spins oversized New Year's Eve noisemaker to warn of danger during simulated raid and gas attack.

13 of the crew of 21 were killed when their craft was ripped in two and sunk in less than a minute by a torpedo.

Denison Dam Workers Clear Cemetery Site

DENISON, July 9 (AP)—Sentiment has taken the place of speed and efficiency in at least one objective of the usually-hard, matter-of-fact army engineers—the removal of 2,499 graves from the inundated area of the Denison dam.

Denison district army engineers have issued the "go slow" orders to contractors on the grave removals.

They've issued other stringent regulations that govern the removal of the graves to ten government cemeteries. The regulations are a part of the contract.

The contractors must re-inter all bodies by sundown of the day they are uncovered. Both old and new graves must be re-filled the same day. No unauthorized persons shall come within 100 feet of the scene of operations and the contractor shall keep the curious away.

Another paragraph in the regulations prohibits profane language by employees.

"What's The News, Today?" Queries Coke Of Newsmen

By BRACK CURRY
Associated Press Staff
"What's the news today?"
With this query, drawn in the deliberate, relaxed manner of Coke R. Stevenson, the chief executive of Texas, opens his daily press conference with the corps of capitol correspondents.

For the 30 minutes of verbal jousting, of banter and serious discussion that follow, Mr. and Mrs. Stevenson learn of the throbbing activities of their wartime state government, of how Texas' integrate war program is coupled to the streamlined American war special now churning along the route to Axis destruction.

Promptly at 9:30 each morning the correspondents converge upon the press room where Governor Stevenson supervises the multitudinous activities of a commonwealth of 6,000,000 persons.

"Coke," as the governor is familiarly known around the capitol, greets the correspondents by their first names inside a small, high-ceilinged office tucked away on the second floor of the huge red-granite state capitol.

With a broad sweep of his huge, weathered hand, the governor waves the assembled correspondents to a row of chairs facing his document-littered desk.

As much at ease as when astride a palomino on his Texas ranch, the governor lounges in a red-leather-backed chair, flanked by huge windows jutting into the red-carpeted floor to the ceiling.

"What's the news?" repeats Governor Stevenson, peering at the correspondents from eyebrows which almost obscure keen, gray eyes.

The query sets things rolling. A correspondent asks if Texas has a civilian evacuation program, for use "just in case the Japs or Germans should bomb one of our cities of military establishments?"

"Why, we've mapped plans for evacuation of civilians along the entire coastal region of Texas for a distance of 100 miles inland," the governor quickly replies, reaching for his elongated pipe and hazel tobacco pouch.

"We've got a chart that shows we could put the entire city of Houston into the hills around Kerrville in case of a bombing attack," he muses.

Texas, the governor explains, has the most complete charts and maps of evacuation of any state in the union. Agencies of the state government have been working for a period of months on general plans for the evacuation of the civilian population in case of enemy action following the preliminary outline of a program submitted by the Office of Civilian Defense.

Seven state agencies have combined forces to develop such a program and are ready to proceed with the completion of it upon instructions from the proper federal officials.

The governor pauses as the correspondents, relaxed, smoking, switch their queries from politics to states' rights to current naval battles to the newest joke and back again to politics.

The third finger of his left hand is firmly arched around the black stem of his pipe, jutting from the right corner of his mouth.

The correspondents momentarily banter among themselves while Stevenson, keenly observant of the conversational trends, listens in suave silence, surrounded by pictures of prize-winning pinto ponies dotting the cream-tinted walls.

With the somber splendor of the chief executive's office is blended a touch of Stevenson's beloved rustic cattle country. On the chief executive's desk are two jet-black statues of the horses which roam the plains around his home town of Junction, a Civil War sword captured from a Confederate officer and returned to the governor by the chief executive of Ohio, two plaques of Will Rogers, a covered wagon plaque, and framed copies of the morning and evening prayer by Pierre Bernard Hill.

A questioner asks about the right of the state to cede jurisdiction over lands to the federal government for wartime uses.

"We already have that right under an old state law," the governor instantly replies.

"We could deed them the state capitol grounds if they needed them," he adds. "There hasn't been any controversy between the federal government and us when they need Texas land for wartime uses."

Stevenson draws on his pipe and inhales with careful precision, stroking the thin, dark wisp of hair dotting his high forehead. "Dark" is the way the governor described his hair to his draft board.

Now, slipping on black-rimmed spectacles, he grasps a huge book from his desk in both tanned hands and slowly reads the state law in question in its entirety.

Old Age Assistance Payments \$3,505,163

AUSTIN, July 9 (AP)—Old age assistance payments to 176,413 aged persons will total \$3,505,163 in July. The State Department of Public Welfare announced today that grants range from \$5 to \$30 with the July average grant \$19.87. Total disbursements will be an increase of \$56,643 over funds distributed in June. July rolls gained 1,495 over the June rolls.

This month a total of 17,442 families with 36,340 dependent children will receive \$338,226 payments averaging \$20.54 per family, or an increase of 2,282 recipients and \$45,681 in cost of the program over the previous month.

A total of \$75,703 will be distributed to 3,295 blind persons in average grants of \$22.98 this month. This is a net increase of 149 blind recipients over June.

Direct personal taxes in the United States in 1941 totaled about four billion dollars, the Department of Commerce reports.

Expanded Medical Program Studied By Texas Regents

AUSTIN, July 9 (AP)—University of Texas regents are studying a six-point recommendation by President Homer P. Rainey for an expanded program of medical education, research and public service. The president's proposals, made public as he left on a tour to interview men under consideration for appointment as vice-president in charge of the program, included:

- Expansion of the medical branch at Galveston.
- Enlargement of the college of nursing at Galveston.
- Establishment of a state school of dentistry through acceptance of an offer by the Texas Dental College of Houston to donate its facilities to the state.
- Inclusion of the university's present college of pharmacy in the general program.
- Development of a cancer research project and hospital authorized by the legislature which appropriated \$500,000 and supported also by the

Anderson Foundation with a \$500,000 grant. Increased activity in public health and preventive medicine. The president recommended that details of the general plan be worked out by medical experts and that the question of location of units be decided by impartial citizens, including medical educators. Labeling the proposal "The state of Texas plan for medical education," Dr. Rainey said that he had been studying medical education in Texas for three years and that it was his belief the plan would at least approach Texas' present medical needs.

"It is a program we are able to finance in Texas," he added. BUY VICTORY BONDS
Texan With RCAF Killed In Action
OTTAWA, July 9 (AP)—A casualty list released by the Royal Canadian Air Force reported that Sgt. Eddie Hester Brown, whose father, J. M. L. Brown lives at (2501 Gregg street) Big Spring, Texas, was killed on active service overseas.

The forthcoming apple crop of Nova Scotia will total more than two million barrels, or double last year's, the Department of Commerce says. BUY VICTORY BONDS

Peace Is Theme At Programs Given By Methodist WSCS

To study the theme, "Peace," Woman's Society of Christian Service of First Methodist church met in circles Monday afternoon.

Mrs. H. H. Boynton, W.S.C.S. president, suggested that each circle send convalescent cards to the pastor, the Rev. E. B. Bowen, who is ill in St. Paul's hospital at Dallas.

Eight members of circle one met with Mrs. Walter Daugherty when Mrs. Maude Hall was a visitor. Knitting for Red Cross was taught by Mrs. Daugherty after which Mrs. W. Purviance gave a devotional on "Thinking for God in Trouble."

Circle two met in the home of Mrs. C. E. Boswell, 1031 East Browning, next Monday to continue knitting work.

Circle three met in the home of Mrs. Carson, eight members were present. Mrs. W. R. Campbell conducted a brief business session and Mrs. Grist, study chairman, reviewed the book, "The Seed and the Soil," by Richard Terrell. Mrs. H. P. Barnhart dismissed with prayer. The group will meet with Mrs. W. A. Hutchinson at Shell camp next Monday.

Circle four met in the home of Mrs. John Hessey with 14 members present. After Mrs. Sherman White presented the devotional, Mrs. S. A. Cousins, Mrs. W. R. Frazee, and Mrs. J. C. McWilliams read papers on "Peace." The circle will meet with Mrs. Chester Thompson next Monday at 810 North Gray street.

A meeting of circle five was conducted in the church parlor with Mrs. W. G. Crowson as hostess to six members and four guests, Mrs. Clarence Coffin, Mrs. Harold Wright, Mrs. A. H. Brewer, and Mrs. Ramon Eversole of Granfield, Okla. Mrs. Coffin, from circle seven, reviewed the book, "The Seed and the Soil." Mrs. Jewel Nance concluded with the devotional followed by prayer. The group will meet with Mrs. Fred Cary next Monday.

Circle six met in the home of Mrs. W. D. Waters with nine members from circle six present and three members from the visiting circle seven. Mrs. Clyde Brownlee gave the devotional from The Upper Room preceding a discussion of "Builder of a New World" by Mrs. George Walstad. Mr. who presented the meditation from The Methodist Woman. Mrs. Brownlee read an appropriate poem and concluded with prayer. The circle will meet with Mrs. W. H. McBride, 417 South Barnes, next Monday.

Knights of Pythias To Have Ice Cream Social This Evening

Knights of Pythias lodge will hold an ice cream social tonight serving homemade ice cream and cake to the lodge members, their wives, and guests.

The KPs will play the Diamond Shop in the first softball game this evening and then will go to the ice cream supper.

Proceeds will go to purchase softball equipment.

The social will be held in the lodge hall in the Wynne-Merten building and will begin at 8 o'clock.

Outstanding accounts created by the purchase of automobiles will probably be reduced as much as 80 per cent this year due to decreased new financing, says the Department of Commerce.

Two of the most vital factors in the economic growth of a town are taxes and transportation, says a small town manual just issued by the Department of Commerce. The manual is free.

Overnight Camping Trip Planned By Scouts For August

When Girl Scouts of troop five met in the home of Elizabeth Roberts, plans were made for an overnight camping trip to the new Girl Scout camp site near LePors in August.

Punch and cookies were served to Dorace and Juanita Caldwell, Nita Rose McCarty, Juanita Osborn, Elizabeth Roberts, Nancy Ruth, Yoder Joyce Wanner and Miss Pearl Garden and Mrs. D. A. Caldwell, sponsors.

Local Garden Club Meeting To Precede Brunch On Friday

Replacing the regular early morning coffee, brunch will be served following the regular meeting of Pampa Garden club in the city club rooms Friday morning at 9:15 o'clock.

Each member is asked to contribute by taking some vegetable for the combination salad and sugar or for iced tea.

A review of the types of flower arrangements studied thus far this year will be the basis for the program. In addition to the workshop demonstration, each member will assist in arranging the flowers at her own table at which brunch will be served. Members are to take flowers for this arrangement.

The plans of the committee are that the meeting will be dismissed promptly at 11 o'clock.

Slumber Party To Be Week-End Event For Kit Kat Klub

Planning a slumber party to be held in the home of Shirley Sone Saturday night, members of Kit Kat Klub met with Betty Jo Holt Tuesday evening.

The entire club will attend the morning worship services at First Presbyterian church Sunday.

Refreshments were served following the discussion to Misses Mary Curley, Margaret Burton, Colleen Chisholm, Shirley Sone, Jerry Nell Stinson, Janice Wheatley, and Kathryn Homer.

Next Tuesday evening at 7 o'clock the club will meet in the home of Bobby Lou Posey.

Bridal Shower Given As Courtesy To Mrs. McCluney This Week

Special To The NEWS

SKELLYTOWN, July 9—Mrs. Roy McCluney, the former Miss Willie Lea Freeman, daughter of Mr. and Mrs. W. E. Freeman of Skellytown, was honored at a bridal shower Tuesday afternoon in the home of Mrs. Elsie Summers of Skellytown with Mrs. Ben Collins, Miss Grace Moss and Mr. Allen Black a co-hostesses.

Various games were played with the prizes being presented to the honoree. A patriotic motif was carried out in refreshments and decorations. The two-tiered bride's cake was cut and served with punch by the bride's mother, Mrs. W. E. Freeman.

The following guests were present: Mesdames W. E. Freeman, Clint Freeman, George Cash, sister-in-law and grandmother respectively of the honoree, Ike Delong, Ada Braxton, A. C. Carroll, Ed Harmon, I. P. Simmons, Lynn Wall, L. U. Collins, C. D. Tiffany, G. E. Groniger, H. P. Casaway and Lewis Collins.

Gifts were sent by Mesdames T. L. Allison, Frank Uyekoff, R. G. Brister, Ike Hughes, Olen Statton, Sam Green, C. S. Tiffany, John Collins, Bill Fulton and Miss Maude Lee Greer.

Youngster Feted At Birthday Party

Special To The NEWS

SKELLYTOWN, July 9—Mr. and Mrs. T. C. Cofer entertained with a party at their home recently in honor of their daughter's seventh birthday.

The afternoon was spent in playing various games directed by Mrs. Cofer. The little guests also were entertained with several accordion numbers by the honoree, at the conclusion of which refreshments of ice cream, cake and pop were served with whistles as favors.

The birthday gifts were opened and inspected by the group. Those present were the honoree, Clay Lynn Tiffany, Beverly Ann Roe, Donald Ray Carpenter, Barbara Jean Hughes, Jerry Sloan, Gerald Thompson, Celia Payne Thompson, Billie Wade Cofer, Betty Jane Murray, Roberta Nicholson, Bobbie Wood, Pylis Wall, Elbert Cannon and the hosts.

Gifts were sent by Erma Lee Morris, Alvin Smart and Ruth Kraus.

Miss Pinson And Howard Moore Wed In Duncan

Announcement has been made of the marriage of Miss Vina Lou Pinson, daughter of Mr. and Mrs. S. J. Pinson of Duncan, Okla., and Howard Moore, son of Mr. and Mrs. W. E. Moore of White Deer.

The marriage was solemnized on June 20 in the parlors of the First Baptist church at Duncan, with the Rev. W. A. Carleton, pastor, reading the vows for the single ring nuptial service.

Attending the couple were Miss Frances Williams and Jack Pinson, Jr., brother of the bride. Nuptial music was played by Mrs. Virgil Mott.

The bride wore a frock of blue Taplo sheer crepe with white accessories. Her corsage was of pink roses and lilies of the valley and she carried a white Bible marked with a shower of lilac flowers.

Only immediate relatives and a few close friends were present.

Mrs. Moore, who is a graduate of Duncan High school, was employed in the offices of the AAA at Duncan until her marriage.

Mr. Moore attended White Deer High school and is now employed by the Tom Rose Motor company here, where they will make their home.

Mrs. Kelley Lists Vegetables To Be Planted In July

"Plant these semi-hardy vegetables in July and early August," Mrs. Julia E. Kelley, county home demonstration agent stated, "to withstand light frost": Carrots, cabbage, turnips, broccoli, beets, Swiss chard, kohlrabi, Danvers half long, Charleston wakenfield, shogoin, green sprouting, Detroit dark red, and Lucullus.

Plant these hardy vegetables in early August in Gray county to withstand heavy frost: Collards, kale, onions, rape, rutabagas, shallots, shallots, Louisiana sweet, dwarf curled, white Bermuda, Sandwich isle, shallots, and long standing bloomsdale.

Help the seed get started. In purchasing seed for the fall garden, it is advisable to secure one-fourth more seed for this planting than for the spring garden. The germination of seed at this season is poor, consequently the extra quantity of seed will ordinarily be necessary to secure a good stand.

Seed with a hard seed coat, such as spinach, should be soaked in warm water over night before planting. It is also a good plan to press the seed around the hole at time of planting by tamping with a hoe or even walking on the row after the seeds are covered.

"Irish potatoes can be made to come up more readily by covering the potatoes with damp sacks or straw for several days until they have sprouted, then cut into seed pieces and plant," Mrs. Kelley added.

Bible Study Taught At First Baptist WMS Weekly Hour

With Mrs. Ewing Leech teaching the Bible study from Second Kings through Solomon, members of Woman's Missionary society of First Baptist church met Wednesday morning for a weekly session in the church.

Prayers opening the meeting were given by Mrs. E. B. Boyd, Ruth Allen, John Evans, and Leech. The entire group joined in singing "Just When I Need Him Most."

All circles with the exception of four and seven will meet at the church next Wednesday morning at 9:30 o'clock.

Mrs. B. A. Davis will meet with boys between the ages of nine and 13 at 10:30 o'clock Wednesday morning for R. A. programs.

Members of circle two met in the city park yesterday afternoon with Mrs. D. H. Coffey as hostess. After Mrs. Ernest Fletcher taught the Bible lesson, refreshments of ice cream and cookies were served to six members. The group will meet again at the park next Wednesday afternoon at 4 o'clock.

At the meeting of circle four in the home of Mrs. C. D. Miller, Mrs. Mary Binford led in prayer preceding the lesson taught by Mrs. L. M. Salmon. This circle will meet at the church next week with other members of the society.

The Social Calendar

FRIDAY

Pampa Garden club will meet in the city club rooms at 9:15 o'clock. Brunch will replace the regular morning coffee.

Wayside Home Demonstration Club will meet in the home of Mrs. L. R. Taylor at 2:30 o'clock.

Girl Scouts of troop five will have a swimming party between 6 and 8 o'clock at the municipal pool.

LaRosa Hubs and LaRosa sorority members will go bicycling after which they will meet at the LaRosa theater at 8:15 o'clock to attend a dance.

SATURDAY

Kit Kat Klub will have a slumber party in the home of Shirley Sone.

LaRosa Hubs and LaRosa sorority members will bowl and will attend the midnight preview at the theater.

SUNDAY

Kit Kat Klub will attend First Presbyterian church in a group.

LaRosa Hubs and LaRosa sorority will attend First Baptist church in a group at 7:45 o'clock, after which they will meet in the home of Buddy Simmons.

Philippine Islands Subject Of Speech To Canadian Club

Special To The NEWS
CANADIAN, July 9.—Rotarians attended their regular weekly meeting Tuesday 100 per cent and enjoyed a special program.

Mrs. Temple Miner, niece of H. M. Petree of this county, recently returned from the Philippines where her husband is in active service with the U. S. navy, was a guest speaker and told many interesting things about the islands. Her home has been in Hawaii for seven years. After a few weeks here, Mrs. Miner will go to Kansas City for the duration.

Mr. and Mrs. H. M. Petree and Mrs. E. J. Petree were guests.

Dean Glazner, highway patrolman, was present and gave some valuable information relative to highway safety and traffic regulations.

This was Bassett Bryant's first meeting for his term of office as president of the Canadian Rotary club.

Next Tuesday Rotarians will entertain more than a score of men to leave for army service this month.

USO Arranges 'Texas Night' At Fort Sill

Special To The NEWS
FORT SILL, Okla., July 9.—Texans in service at Fort Sill are going to tell the world what they think of Texas at a "Texas Night" celebration to be held at the Lawton-Fort Sill USO club the night of Wednesday, July 29.

The occasion will be the eighth in a series of "State Nights" held here and Texans, in true Texas style, already have lined up the biggest State Night committee and promise the "biggest night of all."

Capt. V. G. Young of Midland and Tech. Sgt. W. P. Fox of Dallas have been named co-chairmen. An all-Texas program is being planned and a committee is looking into the possibility of a chuckwagon barbecue feed to top off the celebration.

There are more officers in the field artillery replacement training center from Texas than from any other state. The party will be for Texas enlisted men, officers and nurses.

Telegrams and letters of greeting from mayors, civic and patriotic groups, fraternal and labor organizations and individuals, to be read during the program, are sought.

During previous "state nights" the people back home have showered gifts of all kinds and descriptions, candy, cookies, cigars and the like, on the soldiers from their home state in service here.

Greetings may be sent to "Texas Night committee," USO club, 4th and B streets, Lawton, Okla.

Souvenirs of Texas will be distributed and dancing will follow the formal program.

"It took gas rationing and the tire shortage to bring it back, but the town must have looked about like this when our parents were young—and wouldn't they love it?"

Texas Farmers Need Help Now, McDonald Says

AUSTIN, July 9 (AP)—Commissioner of Agriculture J. E. McDonald today called upon Texas women, children and older men "to go into the fields and gather the crops to feed our fighting men."

Returning from a survey of farm labor conditions in the state with selective service officials, McDonald asserted:

"We must have a balanced economy to win this war—we must produce food and fiber as well as guns and bullets and fighting men."

The commissioner in an interview termed the farm labor shortage "acute" and held little hope for alleviation of the shortage through importation of Mexican labor, stating that he had been unable over a period of several months to induce Latin-Americans to cross the Rio Grande for farm work.

"Strictness of Mexican emigration laws would hamper this movement," he explained, "and even if the borders were open, Mexico's entry into the war has brought a great call for labor in that country."

"Men are needed for the army and for industry. Mexico is now more prosperous than it has been in many years and labor may also become a problem there."

McDonald cited the tire shortage and possible nation-wide gasoline rationing as greater deterrents to transportation of labor.

"The farmer has shown a magnificent response to the president's appeal for more food and fiber with which to fight the war," the commissioner said. "His efforts must now be wasted for lack of harvest hands."

To facilitate procurement of labor for Texas farms, McDonald urged each community to establish a registration center where patriotic Texans might offer their services to meet the labor emergency. There, he said, would constitute a labor pool from which farmers might draw when the need arose.

The need for crop cultivation in Switzerland has necessitated a reduction in livestock, according to the Department of Commerce.

RAF Blasts Nazi Submarine Bases

LONDON, July 9 (AP)—A strong force of Royal Air force bombers attacked Wilhelmshaven, German naval base and submarine building center, last night, their first attack on Germany since the night of July 2, the air ministry announced today.

Four bombers were missing, it added.

(The Germans said Wilhelmshaven and Wesermunde, port at the mouth of the Weser river 20 miles east of Wilhelmshaven, were bombed. They reported three of the invading aircraft were shot down.)

Fighter command aircraft at the same time attacked enemy air-dromes and other objectives in occupied France. The air ministry said they intercepted and destroyed two German bombers.

The raid on Germany followed five nights of bad weather. The only other raid there this month was the July 2 attack on Bremen.

Allred Presents Sing-Song As A Campaign Feature

(By The Associated Press)
 Senatorial candidate James V. Allred last night introduced a 30-minute patriotic and religious sing-song into his campaign.

Allred today appears at Hillsboro and Athens; Senator W. Lee O'Daniel at Vernon, Seymour and Wichita Falls, and Dan Moody at Cooper, Sulphur Springs and Greenville.

The Rev. Dan Grieder of Austin last night led a 30-minute community sing at Cleburne prior to Allred's speech.

"I pledge 100 per cent support to President Roosevelt, and if we had followed his leadership and advice we would not be in the war and those yellow Japs would not have dared attack us at Pearl Harbor,"

Allred said.

"If our present senator had lined up with our commander-in-chief and not with Wheeler, Nye and Johnson of California, I would not be in this race as a candidate opposing isolationists and obstructionists," he declared.

Moody spoke at Paris and urged his hearers to "ask the parents of the boys who died at the second Alamo—on Bataan and Corregidor—if Mr. O'Daniel is right when he says this war is not a fit subject to discuss in this campaign."

"With the information he has now he says he doesn't regret his vote on the selective service act, and I take that to mean he would do the same thing now."

California Governor Orders 40-Mile Speed
 SACRAMENTO, Calif., July 9 (AP)—Members of the California highway patrol will stop all vehicles traveling in excess of 40 miles per hour and report the names of drivers to headquarters under instructions issued by Governor Olson today.

Olson wrote James M. Carter, state director of motor vehicles, that many motorists continue to ignore the recommended speed limit. Unless controlled, he said, they will be without the use of their cars and will turn to other means of transportation already over-burdened.

In normal cases where motorists stay within the legal speed limit of 55 miles per hour on the highways, they cannot be cited by patrol officers, but the governor urged instead that they warn the drivers "they are violating their patriotic duty by wantonly wasting precious rubber."

War Industries Need 12 Million Workers
 AUSTIN, July 9 (AP)—Forty thousand women supervisors and foremen will be needed in war industries in the next 18 months, predicts the regional director of the U. S. office of education's engineering, science and management war training courses.

Director W. R. Woolrich, University of Texas engineering dean, cites a need for 12,000,000 additional workers in war industries in the next year and a half and asserts these jobs must be filled by women or by men above military age.

Sailor Repays Red Cross
 LOS ANGELES, July 9 (AP)—Mel Van Keuren, 20, a sailor who was wounded by shrapnel and severely burned at Pearl Harbor, walked into a Red Cross plasma bank and donated a pint of blood.

"My life was saved by the Red Cross at Pearl Harbor. I want to show my appreciation," he said. He added that his life was saved by eight transfusions from a blood bank. "I'll give back pint for pint."

Hats behind the Headlines

There's more behind the headlines than meets the eye.

Hats, for instance. These hats belong to reporters attending the President's press conference each Tuesday and Friday at the White House.

Nowhere else in the world would a heap of hats be such a symbol. For nowhere else in the world is the news of a nation's capital covered as it is in Washington. And it is in Washington that The Associated Press has the world's largest local news and photo staff

under a single directing head.

This is the staff that serves your newspaper and 1,400 other AP members. AP alone provides full coverage of state and federal activities throughout the country. And AP, together with its great associate service, Wide World, has a corps of experts assigned exclusively to the interpretation of Washington news. Look for their bylines daily.

You can depend on the men who wear the hats behind the headlines!

What About China?

The leaders and thinkers of China have two principal aims today. The first, of course, is to beat Japan. Until that has been accomplished, nothing else can matter.

There is nothing theoretical or abstract about this second goal. China isn't social climbing at our expense. She is only asking that we make good on some of the nice things we are saying about democracy and about the rights of all peoples to make their own governmental mistakes in their own ways.

Specifically, China wants to know what we are going to do about extraterritoriality and exclusion. Extraterritoriality is the multisyllabic name for that privilege, which all western nations have claimed and exercised, of establishing on Chinese soil little domains of our own, in which the Chinese had no more rights than in Tasmania.

It is as though, in the Chinatown of San Francisco or New York, territories had been set aside over which the United States relinquished all control. Chinese soldiers would guard them; Chinese courts would function; our police could not touch criminals in those Chinatowns.

Needless to say, neither we nor the British, the French or the Germans would consider granting China such rights. Why, then, should we expect the Chinese to feel happy when we, through superior military might, have enforced such an ignominious bargain upon China?

Exclusion is the antithesis of extraterritoriality. While we force China to admit any occidental at his will, and waive all control over him while on selected Chinese soil, we forbid Chinese to enter the United States at all - except temporarily, under drastic control - or to become citizens under any circumstances.

This rankles almost as much as extraterritoriality. But the argument here is less clean cut. There are important economic angles. The great difficulty springs from oriental ability and willingness to work for a few cents a day, to live on rice and water, and thereby to compete for jobs on a basis that no American should be expected to consider.

With the kindest of feeling toward Chinese, and all gratitude and admiration for the splendid fight they are making, there is a question whether we should make any sweeping promises about exclusion.

But we can proclaim to the world, at once, that after we have helped chase the Japs we shall pull out our troops and renounce forever any claim to extraterritoriality in China.

Workers Needed

For want of about 150 workers, the farmers of Sheridan county, Wyoming, are considering plowing up a thousand acres of sugar beets from which 36,000 sacks of sugar could be made.

The nearby Clearmont area needs 250 workers to avert a similar danger. Business men are rallying to save the situation. Montana is negotiating with Washington to bring interested Japanese-Americans from California to thin sugar beet fields there.

Meanwhile more than a million persons are being supported on WPA, CCC and NYA rolls.

The Nation's Press

THEOLOGICAL VENOM (Los Angeles Examiner - By Benjamin de Casseres) "The world is my country. All mankind are my brethren. To do good is my religion. I believe in one God and no more."

That is what Thomas Paine wrote in "The Rights of Man." Now, it is hard to believe that in the year 1942 in a large American city, a city that was the birthplace of our ideals of tolerance and liberty, a statue of Paine should be barred from our park on the preposterous ground that his writings indicated that he was an atheist.

That city is Philadelphia. It is the Fairmount Park Commission that has barred Paine's statue. All the more absurd is this decision when it is remembered that Thomas Paine, like William Penn, the founder of Philadelphia, was an English Quaker and that Philadelphia is known as the Quaker City.

The mistaken idea that Paine - whose pen did more than Jefferson's or Washington's to give us our independence - was an atheist arises from his "The Age of Reason." In this book, Paine the Quaker deist (a deist is one who believes in the existence of one infinite and eternal being) pointed out certain errors of fact in the Bible. He believed the Bible to be the work of highly gifted men, and not the work of a deity. This view is today held by some Christian sects, among them the Unitarians and many Congregationalists. We have had at least four Presidents who were deists, who were not strict adherents of the doctrine of the divine origin of the biblical stories - Washington, Jefferson, Taft and Coolidge.

Paine suffered from theological venom because he was religiously - as he was politically - too far ahead of his time. The great services that he rendered Washington and the Continental Army were blacked-out in the minds (?) of many people because he refused to believe that Jonah lived in the belly of a whale or that Moses wrote that the place of his own burial is "unknown unto this day."

This continuous smearing of Paine's memory as an "atheist" when he was in reality a believer in a universal creative being smacks of medievalism at its worst.

TRANSPORE BY AIR

Announcement that the army has organized a world-wide system of air transport coincides with news that the ferrying command, which is to be absorbed in the new organization, flew a complete hospital into Nome, Alaska, in a period of 36 hours.

Other air transport operations have been equally spectacular. Vital materials needed in Australia were set down there in two and one-half days after the call reached this country. Air transport operating at least part of the way delivered shells to Gen. MacArthur during the defense of Bataan, Jergs and small tractors are

By E. G. BOLES "I speak the pass-word primal, I give the sign of democracy. By God I will accept nothing which cannot have their counterpart on the same terms."

A MILLION SNOOPERS NEEDED

Price Administrator Leon Henderson told the Senate Appropriation committee he could not control prices, rents, rationing with 34,576 employees.

Certainly that is true. It would take a million employees and then he could not do it. The administration is coming to be exactly like those complained of in the Declaration of Independence. If we would substitute "the present administration" for the "King of England," the following from the Declaration of Independence would describe what is taking place. I quote:

"He has erected a multitude of new offices and sent swarms of officers to harass our people and eat up our substance."

These federal employees that Henderson wants, whether there be 34,000 or a million, produce no new wealth, but they must be fed and clothed at the expense of private workers producing wealth.

And all this wanting more and more snoopers is for one reason - that the administration does not want to do the one thing that would stop inflation; that is, put a tax on consumption. This would not make the head of the administration shine as he likes to shine before the people. But the administration knows no rules as to how wealth is produced and distributed. He would have the people believe that there is some magical way, if Congress will only give them enough snoopers, so that the workers will not need to pay for this war and his waste.

If there was ever a time when we should have a universal sales tax or consumption tax, it is now when more workers are getting more wages than they ever received before. There is no excuse except one, that they should not pay to the government in proportion to what they consume. That one excuse, but not admitted, is the administration wants to delay as long as possible the day of awakening, when people will be deprived of the necessities of life because of the wastefulness and the mismanagement of the government.

Yes, Henderson, you will need a million snoopers and then you will not be able to interfere with God's law that more cannot be consumed than is produced.

NOTHING BUT UTTER DARKNESS

What those people who are opposed to free enterprise, or the way of life our founding fathers attempted to establish, fail to realize is that when they discard the rule that all men are equally free to pursue happiness on the same terms, they have gone into utter darkness.

Not a single one of those who oppose laissez faire, or the capitalistic, or free enterprise system have any rules by which society can function.

So, since they have no rules, the government must be a personal government - a government just like a dictator, changeable at the will of a dictator or the bare majority.

And that is what is meant when the people talk about a government of men rather than a government of laws and rules.

These men, in short, have discarded God and His laws. They are in utter darkness.

And, of course, we are paying a penalty for having listened to these people who oppose the free enterprise system. Invariably these people think we have tried the free enterprise system, or laissez faire. They point to the failures of not trying laissez faire and condemn laissez faire.

Yes, they are in utter darkness. And, as we have so often been told, "Where there is no vision, the people perish."

already being carried long distances by air, and when the new four-motored cargo planes now in production are placed in operation, field guns and light tanks may become ordinary cargo.

Those who only look into the past may doubt that aircraft can ever compete with ships in transoceanic freight carrying. They need to be reminded that only 20 years ago it was a novelty for planes to carry mail by short hops across the country. Within the intervening period aircraft apparently reached their ultimate development. Air transport has the advantages of speed and ability to carry cargo or passengers to any destination on land or water. It labors at present under the disadvantage of being much more expensive and of lacking the cargo space of a ship.

But the limits on the development of planes cannot even be guessed. Their speed, range, and size have increased every year since the Wrights' machine went aloft at Kitty Hawk in 1903. Military and naval men resisted every one who preached the effectiveness of the plane until the lessons could no longer be overlooked. It may be the same way in commerce.

WOULD WE HAVE AN AMERICAN GOEBBELS?

Sen. Guffey of Pennsylvania declares that congress will not and should not tolerate criticism that "evidences a design to undermine public confidence in representative government."

But who would say whether certain criticism of congress evidenced a design to undermine public confidence in representative government? Some of the government to make this decision. Apparently to be safe a newspaper would have to submit its criticism in advance to a Washington Joe Goebbels in order to find whether it "evidenced design" to undermine public confidence in representative government.

And what about criticism of congress and the administration coming, not from the public press, but from inside congress? Sen. Guffey trod softly on that delicate ground, declaring that he meant no reflection on "sincere isolationist-congressmen who have loyally and patriotically supported the war effort" since Pearl Harbor. But suppose some sincere isolationist or pacifist in congress had kept on opposing war after Pearl Harbor. What would Sen. Guffey do? Let him talk, or fit him with a muzzle of "loyalty."

A FAVORED CLASS

Labor unions are among the biggest businesses in the United States. Their total income from initiation fees and monthly dues, reaches an astronomical figure.

These unions, however, are very different in certain vital respects from other enterprises. They are not subject to regulation. They do not have to register with the government or make periodic financial statements. Their take is not subject to taxation.

Spokesmen for labor have bitterly fought the mildest proposals for requiring the unions to register with government, and to publish public statements of their financial standing, as required of other business. The unions demand special privileges not accorded other business. They want to remain a favored class.

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, July 9 - Notes from a day on the sets: To Metro, to see Hey Lamarr in her sarong for "White Cargo." But she had called, pleading illness, and Director Richard Thorpe was shooting incidental scenes. Walter Pidgeon and Frank Morgan, with a couple of strapping lads, were transferring the fever-ridden Dick Carlson to a stretcher and the ship. In idle minutes Morgan talked about the ranch he just bought - "a place," he said, "to flee to when Hollywood finds me out."

Most of Hollywood's thin people, thin kids and scrawny dogs seemed to have assembled in a hill-billy locale for "The Man on American's Conscience." Deals with the life and hard times of President Andrew Johnson. Germ-jittery Director William Dieterle, in white gloves, was rehearsing three ex-Confederate soldiers in a chicken-stealing incident. Prop men would release some chickens, the actors would lurch after them, and Dieterle would exclaim, "No, no - in your movements I want hunger! You are starving! Again, please." And the prop men would pursue the hens.

SHE'S SCRIPT-SHY

Chatted a minute with Marjorie Main, who's by way of becoming the screen's top character actress. "This time, she's a stringy-haired mountain woman. Doesn't know much about the picture, though. 'I never read a script,' she said. 'It spoils the preview for me if I know the story.'"

Sonja Henie was skating at 20th-Fox, doing a tango with Eugene Turner. A man told me Director Bruce Humphreys had been impatient with the progress of the skating numbers, but he isn't now. He made a remark about skating being easy, and some of the company dared him to get on the ice. He did, tried a fast turn, lit on his head and was hauled off to a hospital for X-raying. A slight concussion, and compound embarrassment.

FORGOT ZEE EENGLEESE

Watched Carmen Miranda in a long scene with John Payne. Later, talking off stage, I realized that she had been parroting her lines, because she still uses an interpreter in conversation. She explained that during her show in New York, she had spoken only Portuguese with her bandmen, so she forgot zee Eengleese. I said she'd better make 'em all learn zee Eengleese, and she said no, they just study zee moosica.

Found Humphrey Bogart being the tough American proprietor of a gambling casino in "Casablanca." When Bogart was starting on the Broadway stage he went gambling with some wealthy people. Being in their party he was allowed to lose a lot more than he had with him. "When I got home, though, there was a man from the Joint waiting for the dough," he said. "Sitting down in the cold, gray dawn and writing a check for \$750 of my \$800 bank account was the best lesson I ever had. I've never gambled since."

Nine Injured When Gas Tank Explodes

NEW YORK, July 9 (AP) - Nine of 17 persons killed by chlorine gas when a supposedly empty tank exploded still were in Roosevelt hospital today.

The tank exploded yesterday afternoon outside the Columbia university college of pharmacy on West 68th street. The college had donated four tanks - the other three really were empty - to the scrap metal drive. All the tanks were relics of World War I.

Today's War Analysis

By DEWITT MACKENZIE

Wide World War Analyst Hitler is taking advantage of the absence of a second front in Europe to press his assault against the Russian front, says the Communist organ Pravda in Moscow, but the paper squares its shoulders and adds stoutly that "every month we are receiving more material and arms from England and the United States."

There we have on thumb-nail the elements of the Allied problem in this white-hot crisis upon which hangs our fate. A second front would represent military might in action. Undeviated war materiel represents military might in the potential - in convoys on submarine-infested seas, or struggling over bomb-torn roads to try to reach the battle-front.

Can we hold the enemy until we can turn our potential striking-power into actual force? That's the crux of our problem, and it isn't new. We've known all along that we had to tread the valley of dangers this summer.

As this column remarked yesterday, it strikes me that if the pressure on the Russians becomes greater than they can withstand and it already is very serious - the Allies may be impelled to take a chance and attempt invasion of the continent to establish a second front. Hitler must be stopped.

Pending the translation of requests for supplies into offensive action, the movement of supplies to hard-pressed Russia is vital. If the Reds had all the equipment they need they would be wiping their boots on Hitler's flying cat-in-tails right now. But they haven't got it, and their chief is capitalizing this weakness.

Herr Hitler is employing a double-barreled strategy, one barrel being aimed at severance of the Soviet's essential sources of supplies, and the other at getting fresh supplies for himself. That's a shrewd scheme, for it's calculated to hamstring the Bolsheviks even if the invaders don't succeed in breaking through to the Caucasus and Middle East and winning the war this year. This would relieve the pressure on Hitler's eastern front and enable him to get set for the opening of that second Allied front which must come sooner or later.

Both Russia's main gateways to the outside world are blocked. Hitler holds the European front and Japan keeps the Allies away from Siberia. That pretty well isolates the Soviet except for the Arctic ports of Murmansk and Archangel and the route via the Persian gulf, and all these lines are most difficult of operation.

The Arctic route represents the shortest haul for America and Britain, but their convoys have to run a terrible gauntlet of attack from both air and sea, as witness the latest battle in which the Nazis claim to have sunk 22 out of 38 ships in a "British-American" convoy - claim not confirmed elsewhere.

Despite these dangers, however, Uncle Sam and John Bull keep on rushing supplies - risking lives, cargo boats and warships - without stint in their effort to aid their Russian ally.

10 Killed, 22 Injured In Car-Trolley Crash

NORRISTOWN, Pa., July 9 (AP) - Ten persons were killed and 22 injured in the head-on crash of a crowded interurban passenger car and a freight trolley yesterday on a curve three and one-half miles north of here.

WAR QUIZ

1. "Is the wearer of this insignia a member of the civilian defense volunteer fireman, gas decontamination squad, or rescue squad?"

2. When an American sailor speaks of an "Arctic boat," does he mean one plying between Iceland and America, a refrigerator ship, or one commanded by a cold officer?

3. Uncle Sam recently stationed a consul at Brazzaville, thereby getting the goat of Vichy France. Where and what is Brazzaville? Answers on Classified Page

Short War Predicted

By Kentucky's May

WASHINGTON, July 9 (AP) - Predicting the war would end "probably in 1942 and unquestionably in 1943," Chairman May (D-Ky.) of the House Military Affairs committee said today there would be no need for the army to induct married men or youths in the 18- and 19-year group.

The information on which he based the prediction, the Kentuckian told reporters, was "a military secret," obtained since the recent apparent Russian reverses.

Best estimates based on recent registration of 18- and 19-year-old boys, May said, showed there were approximately 3,125,000 in this group.

"With that many men yet to be utilized, and figuring 1,000,000 of them will become 20 years of age each year and subject to induction, it will not be necessary to provide for the induction of anyone under 20," he said, adding:

"It is a safe estimate to say this group will net the service, after reductions for all purposes, approximately 2,000,000 fighting men in the next two years, which is more than the army needs."

May expressed the view an army of 5,000,000 was all the nation needed. The army has said it hoped to have 4,000,000 men under arms by the end of this year.

"With what we have now and the reserve power becoming available each year," May explained, "the army's manpower can be met without resorting to the extremely young men or men who are married."

"The enemy soon will be so busy abroad coping with the men we now have there and will be there shortly that he will be unable to give us any invasion worry, and there will be no need for a large 'home army'."

Brett Decorates 23 Officers, Men

GENERAL MACARTHUR'S HEADQUARTERS - Australia, July 9 (AP) - Lt. Gen. George H. Brett, commander of Allied air forces in the southwest Pacific, awarded decorations to 23 officers and men of the United States air corps and two Australians yesterday at an advanced operational base. They included:

Distinguished service cross - First Lt. James B. Moorehead, Washington, Okla.

Distinguished flying cross and oak leaf clusters - Major Hervey Whitfield, Dallas, Tex.

Silver star - Capt. N. H. Blanton, Shawnee, Okla.; Second Lt. Alan J. Reynolds, Seminole, Okla.

Purple heart - First Lt. Charles C. Hill, Fort Worth, Tex.; Second Lt. Wilson A. Chapman, Quitaque, Tex.

Behind The News In Washington

By PETER EDSON

Sugar bag instead of sandbag fortifications are now being erected for an all-out post-war between beet sugar interests on the one hand and cane sugar interests on the other, and the opposing lobbyists are staking out their alliances and battle lines in Washington. Conflict apparently will stem from the increasing wartime reliance the country is having to place on beet sugar. Cane sugar interests are afraid that when the war is over the beet sugar lobbyists will be able to sell congress a bill of goods with an argument to run about like this:

"Before the war, domestic beet sugar production was restricted to protect the cane sugar interests of Hawaii, the Philippines, Puerto Rico, Cuba and the West Indies, and Latin America generally. All right, the war came along, shipping was shut and you had to ration supplies. Also, you had to step up beet sugar production. Why not get smart and prevent a crisis of that kind developing again? Why not shut out all this imported sugar and develop the home industry, put idle hands to work, or reduce the acreage now producing too much cotton, corn and wheat, develop the domestic beet sugar industry as an outlet for post-war employment? In short, why not write yourself an insurance against any possible sugar shortages?"

This is an old line, but it is not without its saccharine political appeal. The cane sugar lobby recognizes the potency of the argument, and is scared. And when the so-called sugar trust lobby in Washington is scared, the war's coming, it has been damned and branded, from the White House and department of agriculture on down, as the most malicious and pernicious of all lobbies, so the coming struggle between the beet and the cane should be intra-industrial strife at its competitive top.

One factor that will lend support to the cause of the cane sugar people is the theory of the international new dealers and free traders that in this post-war period, the world, there must be no international trade barriers and the world's goods must be equitably divided and supplied so that every producer country and every consumer country can do business. Applying those principles to the beet sugar industry means that the Philippines, Hawaii and Cuba, built largely on sugarcane producing economy, should be given every opportunity to develop their Number One industry to the fullest extent. And the selfish interests of the cane sugar people may have to take a back seat to that. All this will add political fuel to the coming feud.

Just how much more important is the role of beet sugar can be gauged by U. S. consumption and production figures. In 1941, beet sugar production was approximately 1.7 million tons, or 25 per cent of the 6.7 million ton total. For 1942, the estimates are that beet sugar will furnish two million tons, or 46 per cent of the 4.3 million ton total.

This 4.3 million tons estimated U. S. consumption is a little more than half of the production that would be available for U. S. consumption if there were no war, if there were no shipping problem, if there were no stocks to be shipped abroad by Lend-Lease.

West Indies ports are bulging with raw sugar waiting for boats and sugar people all over the western hemisphere are sitting up nights, trying to plan ways to increase shipments. Ships aren't running to the usual refinery ports of Baltimore, Boston, New York and Philadelphia. Instead, there are quick trips from the West Indies to Florida ports. But every shipment of raw sugar dumped at a southern port means approximately one 60-car freight trainload to be hauled north, and that's a strain on the country's already straining transportation system. Also, rehauling twice, and costly rail transportation, has to be added to the price of sugar per pound.

SUGAR BY BARGE

U. S. maritime commission has come forward with one experimental effort which may help in shipping sugar. This is the award of a contract for 30 wooden barges, 80 feet long, capable of carrying 1,000 tons of sugar from Cuba to U. S. ports. Towed by ocean-going tugs, these barges can make one turnaround trip a week. The whole fleet might thus carry 30,000 tons of sugar a week or up to 15 million tons a year, which would help.

Tactically, the barges offer a good risk. They are of shallow draft, and torpedoes might sink under them. They are poor targets for shelling, for though they move slowly, they could easily radio their positions on these short trips and summon bombing planes that would be death on any submarine that would make a surface attack. If sunk - well, loss of a wooden barge and 1,000 tons of sugar isn't like the loss of a Liberty ship and 10,000 tons of sugar.

War production board and office of defense transportation have their eyes on these barges, too, and if it is more important that something else be hauled on inland or other waterways, the sugar won't move.

Shorts Approved In Egypt

CAIRO, July 9 (AP) - Shorts were approved today at working garb for employees of the Egyptian ministry of social affairs - but the ministry of commerce workers had no such luck.

Commerce Minister Mahmoud Soliman said he considered them undignified.

TEX'S TOPICS

By Tex DeWeese

ELIGIBLE Pampans will go to the polls tomorrow to cast their votes in favor of a \$15,000 bond issue to pay the city's portion of the cost of three water wells at Uncle Sam's air force installation east of town.

You notice we say they'll vote "in favor" of the issue. . . . That statement is made because we believe there will not be ten votes cast against the issue, unless by mistake.

That's what we think of the patriotism of Pampans. . . . While this issue is expected to carry unanimously tomorrow, the important thing about it all is the size of the vote. . . . Mayor Fred Thompson and the other members of the city commission who called the election hope that the vote will be large so that army officers and others connected with the school will see, too, that Pampa really is behind the project, a vital link in the nation's war effort. . . . So, if you are eligible - go out and vote for the bond issue tomorrow!

KPDN is going "all-out" for the July political candidates in what Manager Herman Krieger describes as a Radio Political Extra on Friday, July 24, the day before the first primary election. . . . The station will carry the candidates' messages all through the day and until sign-off time at 10 o'clock that night. . . . Incidentally, The Pampa News and KPDN have just about completed their plans for election night coverage for the newspaper and radio station. . . . The returns will be broadcast via KPDN from the editorial rooms of The Pampa News.

The lives of relatives, friends, neighbors - even of stranger Americans one never has met - make up too high a price to pay for the pleasure of gossiping. . . . Loose talk may continue for weeks without the slightest concrete damage. Then a bit of gossip, no more important seeming and just as innocently meant, may give the Germans or the Japs a tipoff that can result in the sinking of a ship, the death of brave men, the defeat of an important military or naval venture. . . . All of us know this. We intend to be discrete. But we love, most of us, to seem important. We dole on knowing inside stuff, and knowing that we know, by telling it. Usually we stop to consider who it is to whom we are telling our just supposed war secrets. But often we haven't the slightest idea who may be listening in. . . . In California, whose citizenry has been more damagingly conscious from the beginning than are the residents of most areas, the Monterey Peninsula folk have done an outstandingly good job at controlling this sort of dangerous gossip.

Their slogan, apt if not genteel, is Zip Your Lip. . . . The campaign, brain child of the Fort Ord public relations officer, was inspired because soldiers in their casual gossiping downtown were keeping the entire peninsula informed about everything that happened at the fort. . . . Newspapers, civic groups, radio stations, chambers of commerce, the mayors of Monterey and Salinas, whose citizens have been more damagingly conscious from the beginning than are the residents of most areas, the Monterey Peninsula folk have done an outstandingly good job at controlling this sort of dangerous gossip.

"SPILLING inside dope" has ceased to be the mark of a "big shot." Instead, it's the mark of a "small fish" in the "big pond" of the Monterey Peninsula has become very bad form, an indication of ignorance or dangerous exhibitionism. . . . There is an ancient Zip Your Lip campaign for Pampa. . . . What the Monterey Peninsula did, we could do just as well. . . . How about an organized effort right here to silence chatterboxes (the Australian term - gossip is an international vice) and make sure that we shall not contribute to any Axis triumphs, however small, through loose talk?

P. S. - Secret Operative No. 17, who is now in Washington, reports to me that Gene Worley and all the other congressmen in the armed forces have been ordered home, but it still is a secret. . . . After hearing that, got out the crystal ball, took a peep - and, sure enough, that's right. . . . When last heard about Mr. Worley was somewhere in Australia. . . . But, look for this other news soon.

So They Say

So far as we have been able to ascertain, the average American retailer is making an honest effort to adjust his pricing practices to the demands of this war economy.

DAVID GINSBURG, general counsel, OPA.

The U. S. A. would be doomed to an era of decadence if we do not take our front rank position in the inevitable world of the air.

HUGH FENWICK, president of Vultee Aircraft, Inc.

It's not smart to chisel. DONALD HENDERSON, price administrator.

We will not only feed ourselves very well, but also the United Nations.

M. CLIFFORD TOWNSEND, agriculture, conservation and adjustment administrator.

Demobilize as you mobilize. Don't let the soldiers and sailors out of service until you can place them in jobs.

MAJ.-GEN. LEWIS B. HERSHEY, selective service director.

SERIAL STORY MURDER IN FERRY COMMAND BY A. W. O'BRIEN

THE STORY: Lemoy Statler has been hanged in Newfound-land for the murder of two men. But Statler was a spy as well as a murderer, and Clyde Dawson of the Canadian Intelligence Department must find Statler's confederates in a fifth-column operation against the R. A. F. Bomber Ferry Command. All he has to go on is a snapshot of a girl who looks like a famous movie actress and a cryptic note about a broken "reunion date," which the hanged man gave him just before the execution.

DISCOVERIES CHAPTER II

AFTERWARDS Clyde Dawson wondered what prompted him to attend the formal inquest that followed the hanging. There was no apparent need for him as a member of the Canadian Intelligence Department to attend—in fact, he had plenty of reason not to go because in the pre-execution period he had developed a sincere liking for the condemned Lemoy Statler.

"This Statler fella hurt his heel on a bit of plaster and caused what he called a bone bruise," one of the guards declared. "He asked me to get him a bit of steak about the size of his heel—said it was the only way to fix it!"

That afternoon while having lunch at the Newfoundland Hotel, Dawson was paged for a telephone call. It was the undertaker he had hired.

Rose, formerly with some Illinois college—an all-round athlete and a topnotch instructor. Within an hour, Rose was in the chief jailer's office. Dawson seated him at the desk and explained the purpose of his request: "If you aren't squeamish, sergeant, there's a job to be done here and I believe you are probably the only man in Newfoundland qualified to do it. . . ."

"Yes, yes, what is it?" cut in Dawson.

"Well, sir, in the heel of the dead man's right shoe between the sock and the flesh, was a piece of beefsteak." "A piece of beefsteak?" exclaimed Dawson. "Was anything hidden in it?"

"Nothing that I could find. It was just a good piece of sirloin cut to the exact shape of his heel. Of course, it might be poisoned or . . ."

"Perfectly true, Mr. Dawson. I have met many doctors who didn't know that trick." "Fine! Now, sergeant, here is the job. Could you examine that body and give me any hint of what particular sport or sports he played in—judging solely from signs of any old injuries that may still be evident?"

State Highways Not To Be Repaired Now

AUSTIN, July 9 (AP)—Chug holes and breaks in the vast 26,000-mile Texas highway system will go un-mended for the duration of the war except where mileage is essential to the war effort.

Supreme Court Fails To Review Appeal By City Of Beaumont

AUSTIN, July 9 (AP)—The supreme court's refusal today to review litigation originating in Beaumont left standing a civil appeals court decision upholding validity of a section of the omnibus tax law permitting cities to charge utilities a rental equal to two per cent of gross receipts.

Weather Man Gives Texas Farmers Break

AUSTIN, July 9 (AP)—Favorable conditions for carrying on farm work and for progress of crops were most of the week ended July 5, the U. S. Department of Agriculture and the Texas Agricultural Extension service reported today.

Harvesting of small grains was interrupted temporarily by showers in parts of the Northwest, but the moisture was welcome for growing crops. Another full week of work was possible in most of North and East Texas and crops were improved as a result of cultivation and the fair weather.

Rains over most of the South and southwestern half of the state were beneficial to corn, feed crops, peanuts and to range pastures, though some upper coastal counties were too wet. Soil moisture, both surface and subsoil, appears to have been improved on the whole.

WPRB, OPA, And Politics Don't Mix

WPRB, OPA, and politics don't mix. That was the verdict contained in a circular letter, a copy of which was received here, sent from the office for emergency management in Fort Worth to all war price and rationing boards in the state.

Politics is out for the duration for all members and employees of boards. Mark McGee, state administrator, declares: "Either give up politics for the duration of your wartime service on these boards or resign membership on a board, if you feel it is your first duty to make a political campaign."

Half Of County Tax Rolls Reach Austin

AUSTIN, July 9 (AP)—On file in the state comptroller's office today were tax assessment rolls from less than half of Texas' 254 counties.

The rolls are directed by law to be delivered to the comptroller by July 15 so calculations can be made upon which the state automatic tax board can set the state ad valorem tax rate.

Half Of Nothing Equals What?

LOS ANGELES, July 9 (AP)—What, asked Paul Barksdale D'Orr, is half of nothing?

D'Orr, California director of the office of price administration, was peering into an empty envelope. The letter from Washington stated the July and August bike rationing quota was enclosed.

It looked therefore, D'Orr decided, as if the bike quota was "nothing." Then D'Orr picked up another envelope. It instructed him to halve the previous quota.

State Highways Not To Be Repaired Now

Wilson Drug, Harvester Drug

the German-American bund "out of business" were held in high ball today as the FBI announced that all those concerned were now in federal custody.

The last of 26 named in indictments charging conspiracy to evade the selective service act, conspiracy to counsel bund members to resist service in the U. S. armed forces or conspiracy to conceal bund membership in alien registration, was arrested at New Haven, Conn., last night. He was Wilbur V. Keegan, counsel for the bund until last January with offices at Teaneck, N. J.

East To Have Plenty Of Gasoline By End Of Year, Parten Declares

WASHINGTON, July 9 (AP)—Delivery of sufficient oil to the gasoline-rationed east coast by the end of this year to meet its daily requirements was forecast today by J. R. Parten, director of transportation in the petroleum coordinator's office.

Chairman Bailey (D.-N. C.) of the senate commerce committee made public Parten's report after the committee had approved, 11 to 3, a measure authorizing expenditures of \$93,000,000 to construct a barge canal across Florida, a pipeline across the same state, another pipeline from Mississippi to the east coast and to enlarge the gulf intercoastal waterway.

Estimating overland movement of oil to the east coast of 954,000 barrels daily on June 20, Parten wrote

WHY BE FAT? Its Easy To Reduce

You can lose ugly pounds and have a more slender, graceful figure. No laxatives. No pills. No exercise. With this AYDS plan you don't cut out any meals, starches, potatoes, meats or butter, you simply eat them down. It's easy when you enjoy your delicious (vitamin fortified) AYDS before each meal. Absolutely harmless. GIANT 12-oz. 30-day supply only \$2.25. Money back if you don't get results. Just phone 606, Wilson Drug.

the committee that a pipeline arrangement and construction program now underway would add approximately 275,000 barrels a day to the east's supply when all projects were completed later in the year.

He estimated that deliveries by tankers would reach 200,000 barrels daily, boosting total potential deliveries to 1,429,000 barrels.

East coast requirements this year have averaged 1,367,000 barrels daily, he said, forecasting the possibility of a \$2,000 daily surplus in deliveries.

Parten listed these other projects to be undertaken: Reversal of Tuscaraora pipeline and installation of additional equipment to increase 40,000 barrels daily movement of crude from Texas to Chicago and increase movement 25,000 barrels daily eastward. Increase 40,000 barrels; completion Nov. 15.

Construction of 60,000-barrel line from Beaumont, Texas, to Baton Rouge, La., to connect with Plantation pipeline and extension of latter from Greensboro, N. C., to near Norfolk. Increase 60,000 barrels, completion Nov. 15.

Construction of 10,000-barrel line from Fostoria, Ohio, connecting with system at Akron, Ohio. Increase 10,000 barrels, completion Sept. 30.

Reversal of Keystone-Atlantic gasoline line and increase in movement through Socony-Vacuum line from Buffalo, N. Y., to feed Sun pipeline going south. Increase 10,000 barrels, completion Aug. 1.

Reversal and extension of line from Port Arthur, Tex., to Eldorado, Ark.; reversal of 8-inch line between Shreveport, La., and Port Arthur; construction of 150-mile 10-inch line from Eldorado, Ark., to Helena, Ark. Increase 50,000 barrels, completion Nov. 1.

Reversal of 12-inch line between East Texas and Houston for delivery of 60,000 barrels daily of refined products from Houston to the East Texas field. Construction of 12-inch pipeline from East Texas to Paducah, Ky. Increase 60,000 barrels, completion Dec. 31.

Gulf-Intercoastal waterway movement by wooden barge from Texas ports to Panama City, Fla., for delivery of 50,000 barrels daily of residual fuel oil, transported by tanker to Norfolk. Increase 50,000 barrels daily.

Steel barge movement of 35,000 barrels daily from Texas ports to Port St. Joe, Fla., by existing barge equipment and transportation across Florida by proposed 8-inch line under consideration by the reconstruction finance corporation. Increase 35,000 barrels, completion Oct. 31.

The pipeline-barge canal legislation, already passed by the house, will be taken up by the senate a week from today by agreement. Senator Vandenberg (R.-Mich.) said. He and Chairman Bailey, along with Senator Burton (R.-Ohio) voted against the bill.

U. S. Using Planes To Ship Munitions To Australian Front

MELBOURNE, July 9 (AP)—The United States army air transport service was disclosed today to have flown 5,000,000 miles in the past five months to rush vital equipment and personnel to strategic points on the Australian front.

This is a service where things often must be done in a hurry. Yet only one plane has been lost, that by accident.

In one instance, it was called on to transport a complete artillery battery—men, guns, equipment and ammunition—to a vital area hundreds of miles away. The haul involved 500,000 pounds.

It was finished in a fraction of the time that overland transport would have taken. The planes landed the battery in small balanced units with guns and ammunition ready for instant action.

When the United States and Filipino forces were hard-pressed on Bataan, the service flew a transport to the Philippines with quinine and other medical supplies.

Week by week the air freighters are carrying personnel, ammunition, plane parts and other equipment thousands of miles to points where they are urgently needed.

Three Charged With Making False Claims

HOUSTON, July 9 (AP)—James Andrew Henson, Herbert F. Elmer and Chester K. Flagg are charged with conspiracy and making false claims to the government in a federal grand jury indictment returned yesterday.

"Some" of the defendants in the indictment said, made rudder stock shafts for the United States maritime commission under a contract the commission had with the Oil Center Tool company; that each of the shafts was stamped and engraved with a bearing number and that "others" of the defendants prepared certificates setting out the chemical and physical properties of the metal in the cast.

The indictment alleged that the number on some of the shafts were removed and others substituted and false heat numbers were placed on them, and certificates were made out which were false because the shafts did not contain the chemical and physical properties set out.

The indictment charged the certificates were to be presented to the maritime commission to induce it to believe that the shafts actually contained the correct properties.

Decline In Gasoline And Oil Continues

NEW YORK, July 9 (AP)—Further declines in United States stores of gasoline and heavy fuel oil were reported today by the American Petroleum Institute for the week ended July 4.

Stocks of finished and unfinished gasoline at the end of the week totaled 87,014,000 barrels, down 1,382,000 from a revised total of 88,396,000 the previous week.

Residual fuel oil supplies were down 401,000 barrels at 76,903,000, while stored gas, oil and distillates (light fuels) rose 669,000 barrels to a total of 33,520,000.

Crude oil production averaged 3,297,150 barrels daily for the week, a drop of 422,300 barrels from the average of the week before. Refineries operated at 75.8 per cent of capacity, indicating a crude run averaging 3,551,000 barrels daily compared with 76.5 per cent and 3,581,000 barrels in the previous week. Gasoline production for the week was estimated at 10,959,000 barrels compared with 10,713,000 barrels the week before.

Leave It To The Army

CAMP RUCKER, Ala., July 9 (AP)—The G.I. twins, identical in appearance, often puzzled opponents of the University of Missouri—but they never achieved really monumental confusion until they came here together as second lieutenants. Their colonel finally solved the problem. He transferred one twin to another battalion.

Kunze Pleads Innocent Today To Espionage Charge

HARTFORD, Conn., July 9 (AP)—Gerhard Wilhelm Kunze, 36-year-

old chief of the former German-American bund, pleaded innocent today to a charge of espionage.

He was arraigned in federal court before Judge J. Joseph Smith and held in default of \$50,000 bail.

Kunze, who was brought back

from Mexico City over the week-end, was held in similar bail in New York City yesterday on a charge of conspiring to violate the selective service act.
