### Cuba Is Reported Very Close to Diplomatic Break With Russians

HAVANA, Cuba (AP)—An early rupture in Cuban-Soviet relations was predicted today after the Cuban government handed two blistering notes to the Soviet embassy here.

The notes, made public last night, accused the Russians of "brazenly aggressive" propaganda and totalitarian methods.

"They said communism seeks destruction of 'the world democratic system' and bluntly added: 'This situation cannot persist.'"

President Carlos Prío Socarrás' government also rejected a Soviet protest about the sale here of carnival masks of Prime Minister Stalin's face.

The Cuban notes said there was no violation of law in such sales. They added that efforts of the Soviet legation "to apply the totalitarian repressive measures it suggests is unacceptable."

This was taken to mean that the legation had asked the Cuban government to ban sale of the masks.

Cuba formally protested recent statements by Communist leaders in various countries that Communist sympathies in these nations lie primarily with Russia.

"These statements were made to the notes said, 'in obedience' to orders from Moscow. They added such action by 'disloyal groups' is 'unacceptable' to democratic governments.

"There was no indication when the expected formal break in diplomatic relations might come. But a high authority said Cuba is 'sick of this unnatural, unwholesome relationship.'"

Soviet legation sources could not be reached immediately for comment.

### Local Couple Hurt in Crash

SALLISAW, OKLA. (AP)—Five Texas people were in a Fort Smith, Ark., hospital last night recovering from highway crash injuries. An Oklahoma man was also injured in the accident which occurred near here.

A. C. Rayburn, state trooper, identified them as:

Carl Hammer of Pampa, Tex., fractured ribs and back injury; his wife, internal injuries and multiple fractures; Lester Hathaway, Mobeetie, Tex., possible skull fracture; and Rev. John Freeman, Lubbock, Van Brounau, Dodson, Tex., and Ernest Markwell, Shawnee, Okla., all minor injuries.

They were all passengers in a car which overturned near here.

They were taken to St. Edward's Hospital at Fort Smith, about 30 miles southeast of here. Hospital attendants described the condition of Mrs. Hammer and Hathaway as "critical."

Trooper Rayburn said he did not know who was driving the auto, which was reported to have skidded and overturned on wet pavements.

Mr. and Mrs. Hammer live at the Columbian carbon black plant, and Hathaway is pastor of the Wells Street Church of Christ.

### Scout Leaders Finish Course In First Aid

Seventeen Girl Scout leaders and committee women received first aid certificates this morning at the completion of an 18-hour course.

The women have been attending sessions at the Girl Scout House from 9 to 11 a. m. daily since last Monday. Mrs. J. M. Fitzgerald instructed the course.

Receiving renewals or first aid certificates for the first time were Mmes. Franklin Baer, Harold Osborn, Fred Neslage, H. W. Beckertite, W. E. Moore, Clyde Batson, J. B. Caldwell, Tom Porter, Bill Lueddecke, W. L. Kratzmier, S. L. Mulanax, F. P. Hayes, Buri Lewler, C. D. Herring, E. A. McLennan, Noel Dalton and K. E. Thornton.

Beginning this afternoon the Scouters will devote their attention to the "Friendship Fair," which is to be held at 7 p. m. Saturday at the Junior High School Gym. The fair will commemorate the 37th birthday of the Girl Scout movement.

### HOUSE DEBATE CONTINUES ON BASIC SCIENCE BILL

AUSTIN (AP)—The House began debate all over again today on the basic science bill in a session that ended about 8 p. m. yesterday.

Opponents of the bill bombarded amendment after amendment for more than six hours yesterday. Backers withstood the siege and let only six amendments which made minor changes get by.

Still more amendments were on the speaker's desk when a motion to adjourn carried by one vote, 69-68.

The bill would set up a state board to examine and issue licenses to all practitioners of the healing arts. It is sponsored by the State Medical Association. Chiropractors have fought it tooth and nail.

The House had to dispose of Senate bills on the calendar first today, but those were few and minor. After their disposal, the basic science measure could come back up as unfinished business.

The House had begun to smell like fried chicken and hot coffee an hour before adjournment came. Members nibbled about eating snack lunches pages had gone after. Nerves were fraying.

Rep. H. A. (Salty) Hull of Fort Worth urged the House to adjourn.

"You're tired and I'm tired to a point that is silly," he said. "I like this bill but I object to a majority holding my feet to the fire."

Hull said that he objected to any agreement between Rep. Jack Ridgeway of San Antonio, one of the bill's backers, and the speaker that debate would be cut off if it did not pass.

"That was the crisis, because the Constitution forbids the state to spend more money than is in the treasury," he said. "If the state either has to cut down on projected appropriations, increase revenue with new taxes, or go on deficit financing, it can run in the red only by four-fifths vote of its members, and that has not happened since the Constitution was amended to put the state on a cash basis."

All that came about the announcement yesterday from Comptroller Robert S. Calvert that earlier revenue estimates were too rosy by \$22 million.

It left a gap of \$80 million between what Gov. Beauford H. Jester called "our means and our desires."

He said he had no inclination to dodge any responsibility to make helpful suggestions to the Legislature and promised he would do so soon after giving the measure the "careful and prayerful study."

Jester said the possibility that Legislature "will be forced to levy new taxes" cannot be overlooked.

Lieut. Gov. Allan Shivers said he still thought spending should (See FINANCIAL, Page 4)

### Financial Difficulties Face Texas

AUSTIN (AP)—The state of Texas today had more money in the bank than ever before in its history, but it was up against a financial crisis.

It had more money, but it was spending more money, but it also wanted to spend more money during the next two years than the experts said it would have to spend.

That was the crisis, because the Constitution forbids the state to spend more money than is in the treasury.

Comptroller Robert S. Calvert said that earlier revenue estimates were too rosy by \$22 million.

It left a gap of \$80 million between what Gov. Beauford H. Jester called "our means and our desires."

He said he had no inclination to dodge any responsibility to make helpful suggestions to the Legislature and promised he would do so soon after giving the measure the "careful and prayerful study."

Jester said the possibility that Legislature "will be forced to levy new taxes" cannot be overlooked.

Lieut. Gov. Allan Shivers said he still thought spending should (See FINANCIAL, Page 4)

### Hospital Work Is Progressing

Moving faster toward completion, the last concrete portions of the roof of Highland General Hospital were being poured this week, leaving only the 24 by 60 foot penthouse atop the building to be built.

C. J. Clarke, superintendent of construction, said today that the building would be started in a few days.

Clarke who is being transferred to Norman, Okla., tomorrow to build an addition to the football stadium there, said the metal window frames and glazing will be started in a few days.

Boyd Hughes, Oklahoma City, who has been on the job here for several weeks, will take over Clarke's post as superintendent of construction.

### Sen. Johnson Makes Maiden Senate Speech

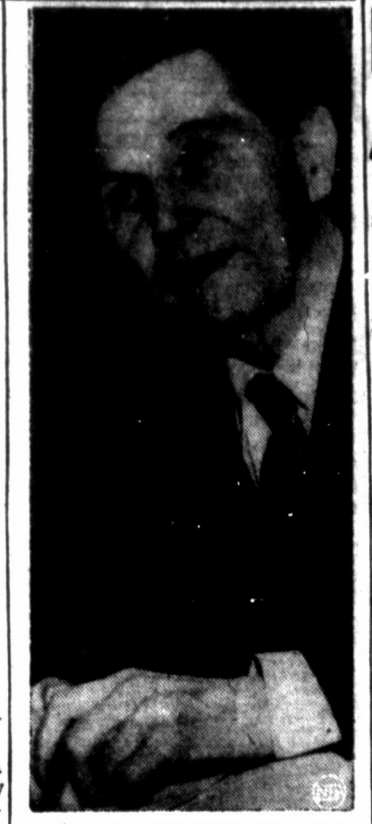

WASHINGTON (AP)—Texas' rangy junior senator, Lyndon B. Johnson, made his maiden speech in the Senate yesterday as part of the Southern filibuster.

Mrs. Johnson sat in the gallery while her husband delivered his emotional 7,800-word script opposing the move to limit debate.

Several Texas representatives came across the Capitol to hear Johnson. When he finished, Senator Connally was in the long line that formed to shake his hand.

**CONVERTIBLE ADDED**  
MOSCOW (AP)—The convertible top is being added to Russia's automobile selection, Pravda announced today.

Need lamps? Get them at Lewis Hardware Co.—adv.

SUCCEEDS BLOOM—Rep. John Kee, above, who automatically succeeds the late Sol Bloom as chairman of the House Foreign Affairs Committee, is shown in his Washington office. Representative Kee, who is 74 years old, is serving his ninth consecutive term in Congress. (NEA Telephoto.)

### Inquiry Into Vet's Burial Starts Today

THREE RIVERS, Tex. (AP)—A group of investigators from the State Legislature met here today in Felix Longoria's home town to find out who told the truth about the Latin-American soldier's reburial.

The investigation by five picked members of the House of Representatives will continue for several days. Rep. Cecil Storey of Longview, chairman of the committee, said.

"Looks like there will be a long line of witnesses," Storey said. "Yesterday he obtained the services of an interpreter from Cuero to help in questioning Latin American witnesses who do not speak English."

A court reporter with her shorthand transcribing machine is on hand to record the probe.

"I don't want this to be a long drawn out affair," Storey said, "but we are going to do every thing asked in the resolution that passed the House."

The resolution presented by Rep. J. F. Gray of Three Rivers said that settlement of the controversy will continue for several days. The committee has good relations among the people of South Texas and to our international relations."

Gray also is author of a bill to do away with the Texas Good Neighbor Commission. He alleged that the floor of the House on the commission made untruthful reports on the soldier's reburial. (See INQUIRY, Page 4)

### Road Wreck Injures One

Before the eyes of oncoming Highway Patrolmen yesterday a 1948 Chevrolet pickup truck careened across the Borger Highway, turned over and came to rest on its wheels. One of its occupants was seriously injured.

The truck, driven by G. L. Craddock, plant superintendent of the Skelly Gasoline Plant, was headed west about three miles west of Pampa when the driver attempted to pass another car. As Craddock came around the car, his left wheels hit the shoulder. He attempted to pull the truck back on the highway, but instead crossed the road and rolled over.

Mrs. G. L. Craddock, riding with her husband at the time, suffered back injuries and was taken to Worley Hospital by a Dusenkel-Carmichael ambulance. Mrs. Craddock suffered possible fractures of the back. Craddock was slightly shaken, but not admitted to the hospital.

At the time of the rollover, shortly before noon, State Highway Patrolmen, headed east on the Borger Highway, were less than a half mile away and they saw the truck career across the road and roll over.

### Texas Built Most Roads in Union

COLLEGE STATION (AP)—Texas has built more miles of paved road than any other state in the Union since the end of the war, said State Highway Engineer D. C. Greer.

Speaking before 371 city and state engineers Greer said, "This was done with an overhead cost of less than average in the United States and appreciably less than larger states as compared with Texas."

He said Texas has built 12,000 miles of paved highways and has under contract and financed 3,000 more. The paving includes highways and farm-to-market roads.

Also appearing on the program were Fred A. Wemple of Midland, new chairman of the State Highway Commission; H. J. Potts of Harlingen and A. F. Mitchell of Corsicana, new members of the commission; and Fred A. Knetsch, Seguin, a retiring commissioner.

### Seniors Present Play Tonight

Curtains will rise on "Home Sweet Homicide" promptly at 8 p. m. today, followed by two hours of suspense provided by the Senior Class.

This year's Senior Class play is different from the run-of-the-mill high school productions. The play, adapted from Craig Rice's novel, is directed by Miss Thelma Henslie, speech instructor.

Two skits from the play were presented at the High School assembly yesterday, including several characters. The first skit was taken from act one, scene one, while the second was a moonlight scene from act two.

### Days of Jesse James Recalled As Officers Unravel Account

WASHINGTON (AP)—Police reported a confession today from two suspects seized in the daring Martinsburg, W. Va., train robbery.

The two were trapped by police today in a Washington pawnshop near the White House. One was shot when he drew a pistol.

Police Lieut. John E. Winters, who said the pair confessed, named them as Luman Ramsdell, 23, Youngstown, Ohio, and George Llewellyn Ashton, 21, also of Youngstown.

Winters said Policeman Elwood Lomax fired when Ramsdell drew a revolver.

Ramsdell was taken to a hospital with a bullet wound in the stomach.

### 25 Percent Red Cross Fund Raised

After the second day of the Pampa Chapter's Red Cross drive for operating funds, \$2,257.80 had been raised with only three workers reporting.

Slightly more than one-fourth of the total is now in and other workers are expected to report today.

Today and tomorrow approximately 30 women from women's clubs and church organizations will begin soliciting the residential sections. Additional women workers are needed to work the many blocks in the residential area. Those who are willing to assist in the drive should notify the Red Cross office in the City Hall.

Sixty-six civic club members have volunteered their services in the business and industrial divisions of the drive.

Frank Wall, who is heading the week's Lefors' goal for 1949 is 1600 workers in Lefors who are going to help with the drive, which is being conducted this week. Lefors' goal for 1949 is \$300.

Of the 1,500 Red Cross chapters in the U. S., 46 had surpassed their drive goals by Friday. Many of the chapters began their drives March 1, immediately following the national kickoff broadcast.

Sixteen of the 36 Texas chapters had completed their drives successfully by Friday.

### One Killed and Two Injured in Wreck

DUMAS (AP)—One person was killed and two other injured in a car-truck accident near Hartley last night.

George Clinton, about 70, of Clayton, N.M., was killed instantly when his car was in collision with the truck.

Mrs. Ora E. Perky, 54, Dumas, and a grandson, George Donald Watkins, 15, both riding in the truck, were seriously injured.

The accident occurred on the highway near Hartley last night. The car was traveling west on the highway and was struck from behind by a truck. The car rolled over and caught fire.

The truck was driven by a driver whose name was not known. The driver was not injured.

The accident occurred on the highway near Hartley last night. The car was traveling west on the highway and was struck from behind by a truck. The car rolled over and caught fire.

The truck was driven by a driver whose name was not known. The driver was not injured.

### HST Democrats Bank Heavy On Filibuster-Breaking Rule

WASHINGTON (AP)—Democratic leaders trying to break a Southern filibuster bet heavily on an expected ruling by Vice President Barkley today that a two-thirds vote can gag Senate debate any time.

Lucas indicated strongly that even if the Senate supports Barkley's expected ruling on a debating limitation, the filibuster will be limited. He said he would be filing legislative measures to change the Senate rules may be dropped at this time.

That's how the filibuster started in a Southern attempt to block action on a resolution by Senators Hayden (D-Ariz.) and Wherry (R-Nebr.) to limit the number of hours of debate to curb debate.

But Lucas noted that if Barkley holds that two-thirds can do it now and is sustained by the Senate, it will have the same effect as the Hayden-Wherry resolution.

A ruling of this kind would let the administration take up civil control measures at any time with the guarantee that two-thirds of those voting could halt a filibuster.

Lucas indicated that he might recommend in such a turn of events that the Senate get busy now on legislative measures that have been piling up during the nine days that talk has stopped all action.

A housing bill is ready for the Senate. The House approved reciprocal trade agreements act may be ready next week. Tentative controls expire March 31. All of these have been impeding the Democratic leadership toward a show-down.

Lucas noted that Barkley will be upheld by a favorable vote tomorrow on the ruling expected from the vice president were vigorously disputed from the camp of Southern Democrats.

A closure petition circulated yesterday by Lucas was signed by 17 Democrats and 16 Republicans.

### DANES SEEK INFORMATION ON TREATY

WASHINGTON (AP)—Danish Foreign Minister Gustav Rasmussen traveled here today for first-hand information on the North Atlantic security treaty. The answers he gets will help his government decide whether to sign up.

He is expected to confer with Secretary of State Acheson and other American officials during his brief visit. After this, diplomatic authorities believe, Denmark will formally align itself with the Atlantic pact powers.

Danish membership in the alliance is considered highly important. This is so not only because of Denmark's location in Western Europe, but also because that country holds the island of Greenland with its strategic bases guarding North Atlantic sea and air routes.

The American government has been anxious to retain the bases which military strategists consider essential to the defense of the Western Hemisphere. Under the new strategy of joint North American-Western European defense the bases gain additional importance because of the need to keep open oceanic transportation routes between the two continents.

This is true of several other island positions also. The republics of Iceland and the Azores, which belong to Portugal, have similar strategic importance. Authorities here hope that Iceland and Portugal also will become members of the North Atlantic security system.

Eight nations are now involved in the negotiations on the treaty. They are the United States, Britain, France, Belgium, The Netherlands, Luxembourg, Canada and Norway. If Denmark, Iceland and Portugal and Italy decide to join the total number will be 12.

Rasmussen has already declared his government's favorable attitude toward the alliance.

Acheson told a news conference yesterday that the treaty will make clear the determination (See DANES, Page 4)

### Oklahoman Dies In Hospital Here

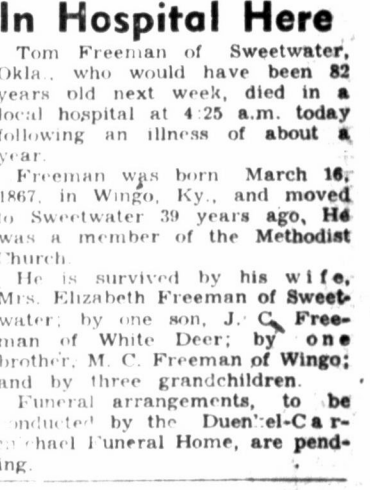

Tom Freeman of Sweetwater, Okla., who would have been 82 years old next week, died in a local hospital at 4:25 a. m. today following an illness of about a year.

Freeman was born March 16, 1867, in Wingo, Ky., and moved to Sweetwater 29 years ago. He was a member of the Methodist Church.

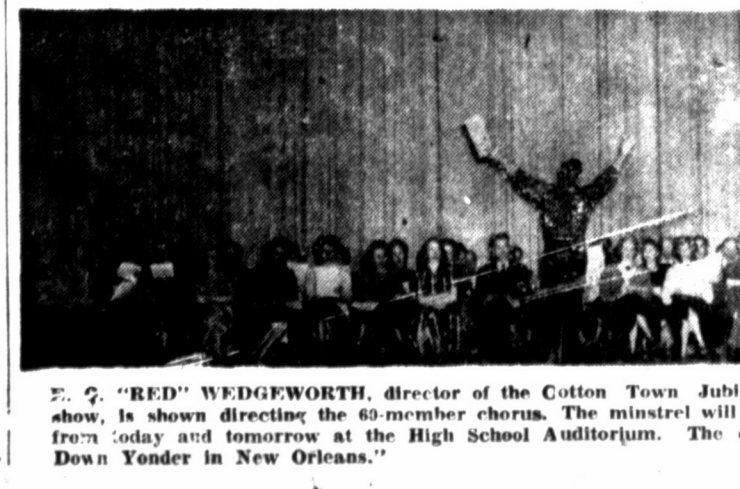

He is survived by his wife, Mrs. Elizabeth Freeman of Sweetwater, by one son, J. C. Freeman of White Deer; by one brother, M. C. Freeman of Wingo; and by three grandchildren.

Funeral arrangements, to be conducted by the Duen-el-Carran Funeral Home, are pending.

### Alben W. Barkley

Alben W. Barkley

E. C. "RED" WEDGEWORTH, director of the Cotton Town Jubilee, 1949 Lions Club minstrel show, is shown directing the 60-member chorus. The minstrel will be presented at 8 p. m. tonight and tomorrow at the High School Auditorium. The chorus will sound off to "Way Down Yonder in New Orleans."

This striking and dramatic picture of Red Cross disaster relief work was done by Joe Schlackler, noted American poster artist.

### Mainly About People

A son, James Morris, was born yesterday in Worley Hospital to Mr. and Mrs. James R. Brown, will be guest speaker. All members of the club are urged to attend. Parents are Mr. and Mrs. C. M. Carlock and Mrs. Grace Brown, all of Pampa.

Call meeting for all those interested in forming skect club at County Court Room 8 p. m. Tuesday, March 15. All apartments invited.

Joe Hodge, 501 E. Foster, who is a patient in Baylor Hospital, Dallas, is recuperating from a major operation performed Tuesday.

### Police Chief To Visit Laredo

MEXICO CITY —(AP)— Mexico City's police chief has accepted an invitation to visit Laredo, Texas, early in June.

William Prescott Allen, publisher of the Laredo Times, extended the invitation to General Othon Leon Lobato, Gen. Lobato accepted and set the date for June 4, Allen said.

Police and immigration officials from both sides of the border will be invited to meet the Mexican official.

Allen invited Gen. Lobato after a ceremony in which the publisher received a medal from the Mexican division of the "United American Journalists."

Efraim Hidalgo, president of the division, said the two-inch gold medal was given in recognition of Allen's efforts to improve relations between the two countries.

Previously Allen had received a shield as honorary chief of police of Mexico. He already had two Mexican government decorations—the Medal of Military Merit and the Order of the Aztec Eagle.

### 200 Lbs. Marihuana Found Near River

LAREDO —(AP)— Customs officials here last night were looking for the possible owners of two hundred pounds of marihuana.

The marihuana, in five burlap bags, was seized by the customs agency Monday morning, it said yesterday. It was found on a path leading to the Rio Grande about six miles north of here.

Efforts to improve relations between the two countries.

### Blast From Leaking Gas Wrecks Parsonage

FORT WORTH —(AP)— Leaking gas from a bathroom heater in the Arlington Methodist Church parsonage exploded at about 3 a. m. today, critically injuring Mrs. Clarence A. Sutton, 49, wife of the pastor.

The explosion blew out all the windows and tore the roof from the parsonage.

The Rev. Sutton's hands and feet were burned, and he was treated for shock at Harris. The Suttons' 13-year-old son, Franklin, was not injured.

Mr. Sutton formerly was president of Weatherford Junior College and pastor of the Mart Methodist Church. He left Mart to accept the call from Arlington.

### Texas Wool, Mohair Production Declines

AUSTIN —(AP)— Both wool and mohair production in Texas were down last year.

The United States Department of Agriculture reported that the 1948 wool clip, 744,565,300 pounds, 10 percent under 1947.

Mohair production was estimated at 15,810,000 pounds, 8 percent less than in the previous year.

### Grand Jury to Probe Horse Meat Sales

HOUSTON —(AP)— Grand jurors of Harris County will consider Friday the evidence in 26 cases of horse meat sales for human consumption here.

District Attorney W. C. Winborn received the evidence file of City Attorney Will Sears. They agreed the district attorney should handle prosecutions. The state law provides a heavier penalty than the city ordinance for convictions of horse meat sales for human consumption.

### Dallasite Observes 100th Anniversary

DALLAS —(AP)— Mrs. Margaret Stephenson Reedy's eyes had the sparkling bloom of a century plant today as she celebrated her 100th birthday anniversary.

She lives in Dallas with Daisy Reedy, her only surviving relative.

She and her husband lived in Tyler when it was a farm town. Her husband, the late Daniel Reedy, was state representative from Smith County from 1907 to 1913.

### Third Marriage No Better Than First

FORT WORTH —(AP)— There was no more charm in their third wedding than in the other two, Mrs. Viola Leith told Judge Walter Morris in 6th District Court, and she was promised a third divorce from Edwin Clarence Leith, city mechanic to whom she was first wed in 1920.

Their first divorce, in 1942, didn't "take," so they were remarried in 1945. That didn't work either, so they were divorced again in 1947.

Things happened faster then, and they were married for the third time that same year.

### Prowling 'Coon Bites Sleeping Couple

DALLAS —(AP)— A prowling raccoon invaded the bedroom of a couple here biting each of them several times before they could turn on a light switch and subdue the animal.

Mr. and Mrs. Roy Orr suffered bites on the feet and hands in the fray.

### Singer on Tour

DETROIT —(AP)— Mary Garden, 72, famed opera singer of another generation, is coming out of retirement to make a lecture tour.

The skeleton of the head in early adult life consists of 28 Washington, N.H., was the world's first—but the number is greater first; it was completed in 1869 in youth and smaller in old age.

**America's Oldest Handicraft**

The art of making fine glassware is the oldest industry in this country. Quality American glass is made entirely by hand. Each operation is performed by a skilled craftsman. The picture shows one of the final processes—putting on the delicate cut work which distinguishes much handmade American glass.

**INQUIRY**

(Continued From Page One)

The commission has denied this nation's first board of Felix Longoria when his body was shipped back to the United States from the Pacific in January. It was reported that the director of a Three Rivers funeral home "discouraged" the use of his chapel for funeral rites. Certain Latin-American groups charged race prejudice.

Longoria was killed in fighting on Luzon.

T. W. Kennedy, Jr., director of the funeral home, denied there were any grounds for charges of discrimination. He said he tried to discourage the use of his chapel in the belief that friction existed in Longoria's family.

After several delays Longoria was reburied Feb. 16 in Arlington National Cemetery.

Members of the House committee investigating the controversy are Storey, Rep. Tom Cheatham of Cuero, Rep. James Windham of Livingston, Rep. Frank Gilroy of Martin, Rep. Byron Tuley of Greenville. The group must report back to the House by March 15.

**FINANCIAL**

(Continued From Page One)

Shivers said he had always opposed more taxes except in cases of urgent necessity, but that he had never hesitated to vote for new taxes where the demands of the people upon their government justified expenditures.

The lieutenant governor did not think that natural resources alone should be called on to bear the burden of new taxes, if they have to be levied, but that they should be on a broader base. He suggested something like the omnibus tax bill passed in 1941 that raised taxes on oil, gas, sulfur and a lot of other things.

Shivers said the fund decision would be with the people. In reply to a question, he said he thought it might be a good idea for the Legislature to recess for a couple of weeks so members could find out what their constituents thought, first hand.

Speaker of the House Durwood Manford said he had not studied the situation enough to say whether or not new taxes would be needed. He said they could find out on weekends at home.

**DEBATE**

(Continued From Page One)

Attorney General Price Daniel said he needed to hire six assistants to help prepare the state's case against the federal suit claiming Texas tidelands. The U. S. Supreme Court hearing begins this month.

The Senate finance group heard requests for \$10 million for a state soil conservation program. A subcommittee was ordered to take the matter under consideration.

"Our top soil is washing away and unless immediate steps are taken, we're not going to have enough left to grow anything in 15 to 20 years," Senator W. A. Shofner of Temple, told his colleagues. He is author of the bill.

"At the present rate we're going in Texas, it will take forty years to get all the soil conservation work done that needs doing," said R. M. Boswell, Kennedy farmer and director of the State Conservation Association District Supervisors.

A bill creating a Sabine River Authority was approved by the House Conservation and Reclamation Committee. A companion measure is in friendly Senate subcommittee. The proposal would divide the present Sabine-Neches Conservation District into two districts for the respective river watersheds.

**DANES**

(Continued From Page One)

of the United States and the other member nations to exercise their inherent rights of individual and collective self defense against aggression from any quarter.

He said the text will be made public in the immediate future (other informants expect it will be early next week) and probably will be signed the first week in April.

**Mother Hears Daughter Die Over Telephone**

NEW YORK—(AP)—Two men and a woman died in a blast of gunfire last night while a mother 3,000 miles away listened by telephone to her daughter's dying screams for mercy.

Police said Emory Holt, 32, apparently suspicious of a love triangle, called his wife's mother in Hollywood, and said:

"I am sorry for what I am going to do."

With the telephone circuit still open, police said, he shot his attractive, brunette wife, Norma, 34, and David Whittaker, 32, an executive in the firm where she worked, then killed himself.

It was a call from the panic-stricken mother, Mrs. Elsie Thomas, that led police to the scene of the triple-shooting in Whittaker's 16th-floor apartment.

Neighbors at her Hollywood home said she told them she had pleaded with Holt not to carry out his threats, but he replied: "It's too late, mama."

**Seepage Threatens Salt Lake City Area**

SALT LAKE CITY—(AP)—Enter at your own risk" signs hung in business establishments in Salt Lake City's West Side today as the search continued for underground seepage of gasoline.

City and state inspectors combed the area seeking the source of the gasoline, which has collected in sewers and sumps over an area nine blocks long and four blocks wide.

**Minister Joining University School**

HOUSTON—(AP)—Dr. Paul W. Quillian is leaving the world's largest Methodist congregation here to join the faculty of Perkins School of Theology at Southern Methodist University.

Dr. Quillian has been pastor of the Houston First Methodist Church 13 years.

**16 SENTENCED TO DIE**

ATHENS—(AP)—Sixteen persons, including seven women, were sentenced to death today by military courts at Corinth and Larisa. They were accused of harboring and aiding Communist guerrillas.

**Tree Show Set Mar. 23**

PALESTINE, Tex.—(AP)—The Texas dogwood trails, most heavily attended wild flower show in the Southwest, opens here March 23. The free trails event, held in a 500-acre preserve of virgin timber three miles north of Palestine, drew over 100,000 people from throughout the United States last spring.

The trails will be open this year for a two-week period. A number of improvements have been made in Davey Dogwood

Park, where the trails are held, including scores of picnic tables and large parking areas to permit visitors to leave their automobiles for a closer view of the dogwood blossoms.

The dogwood itself will not be "up to par" this year, K. A. Anderson, president of Texas Dogwood Trails Association, said, "but there will still be a lot of blossoms for visitors to see."

Dogwood trees set buds in the fall for the next spring's bloom, he explained. "Last fall's drought dried up buds on many trees, but the thousands of dogwood trees in the park always assure a good showing."

### BETTER BOWLING

By HILLY SIXTY  
PROVEN STYLE: Breaking the extended arm up into a salute finish has been suggested for completing the delivery of a three-fingered ball with an arm-lift.

You can acquire consistent control with the three-fingered sphere only by: First, pushing the ball away from the body in order to insure through the entire arc, like a pendulum, to get the salute finish.

### Sports Round-Up

By HUGH FULLERTON, JR.  
NEW YORK — (AP) — You can't shed many tears for the Professional Golfers Association as its members can make off with that \$10,000 weekly "take" on the tournament circuit.

### Aggies Look for Better Year but Not the Title

By WELBUR MARTIN  
Associated Press Staff

"We could have a much better team next season and still not win any games," said Texas A&M football coach Harry Stiteler. He didn't mean the Aggies but was pointing out that Southwest Conference teams will have the most experienced teams in history — with one exception.

"We here at A. and M. feel that we will be a better team than last year," he said. "At the same time, we realize no matter how much improved we will be, we will still have an inexperienced ball club playing against the most experienced that the conference has ever had in its history."

Stiteler will stick to the same formations he used last year in his first season as top man at Aggeland. The T, some double wing and the spread. He feels this will give him a varied offensive attack.

The Aggies have only 12 lettermen returning from last year and Stiteler says he has "no first team."

### Price Umpire Idea Grabbing Hold

DALLAS — (AP) — The six-league alliance formulated by Milton Price, president of the West Texas-New Mexico League, for development of umpires, is spreading into a national program.

Price has received inquiries from George Trautman, president of the Minor Leagues, indicating that he is considering using the plan for his organization and naming a supervisor of umpires in each area.

E. F. (Lefty) Craig, who has been supervisor of umpires for the six-league alliance—taking in the Big State, West Texas-New Mexico, East Texas, Sooner State, Longhorn and Evangeline Leagues — has been asked by Trautman to attend a conference of supervisors at Columbus, O., April 8 and 9.

The whole world is watching us (in Israel) to see what we shall choose for ourselves in ordering our lives, what shape we shall fashion our state.

—Dr. Chaim Weizmann, president of Israel.

### Big City Schools Start Tournament

HOUSTON — (AP) — Texas Schoolboy Basketball enters its final phase of the 1948-49 season today as eight Big City Conference teams complete preparations for the new circuit's first tournament.

With three state champions determined last week in Austin, the league's busy basketball calendar will conclude here Saturday night as the Big City boys determine their champion.

Six teams — district titlists and runnersup from Fort Worth, Dallas and San Antonio — arrive in town today in time for late afternoon workouts at the house.

By the time the visiting teams arrive, the Houston entries — champion Milby and second place San Jacinto — will have completed their last minute preparations.

### Four-Ball Golf Tourney Opens

MIAMI, Fla. — (AP) — The 24th annual International Four-Ball Golf Tournament opened today, and Sammy Sneed of White Sulphur Springs, W. Va., and Lloyd Mangrum of Chicago were ranked as the duo to beat.

The two were among thirty-two of the nation's top ranking professionals scheduled to tee off for the opening round over the 6,680-yard par 70 Miami Springs Course.

Dr. Cary Middlecoff of Memphis, Tenn., and Jim Ferrier of Chicago are defending champions.

### Polly Riley Advances In Golf Tournament

ST. AUGUSTINE, Fla. — (AP) — Pat O'Sullivan of Orange, Conn., was a surprise survivor going into today's semi-final round of the Florida East Coast Women's Golf Tournament.

She met Pat Devany of Grosse Ile, Mich., in one semi-final match, and Mrs. Maurice Glick of Baltimore faced Polly Riley of Fort Worth in the order.

Miss O'Sullivan Connecticut and Eastern champion, upset Mary Agnes Wall of Minominee, Mich., 1 up in 19 holes yesterday. Miss Riley defeated Carol Diringer of Tiffin, Ohio, 1 up.

### Want a Cotton Bowl Ticket for 1950?

DALLAS — (AP) — Nearly 3,000 options of proposed new Cotton Bowl seats are still available.

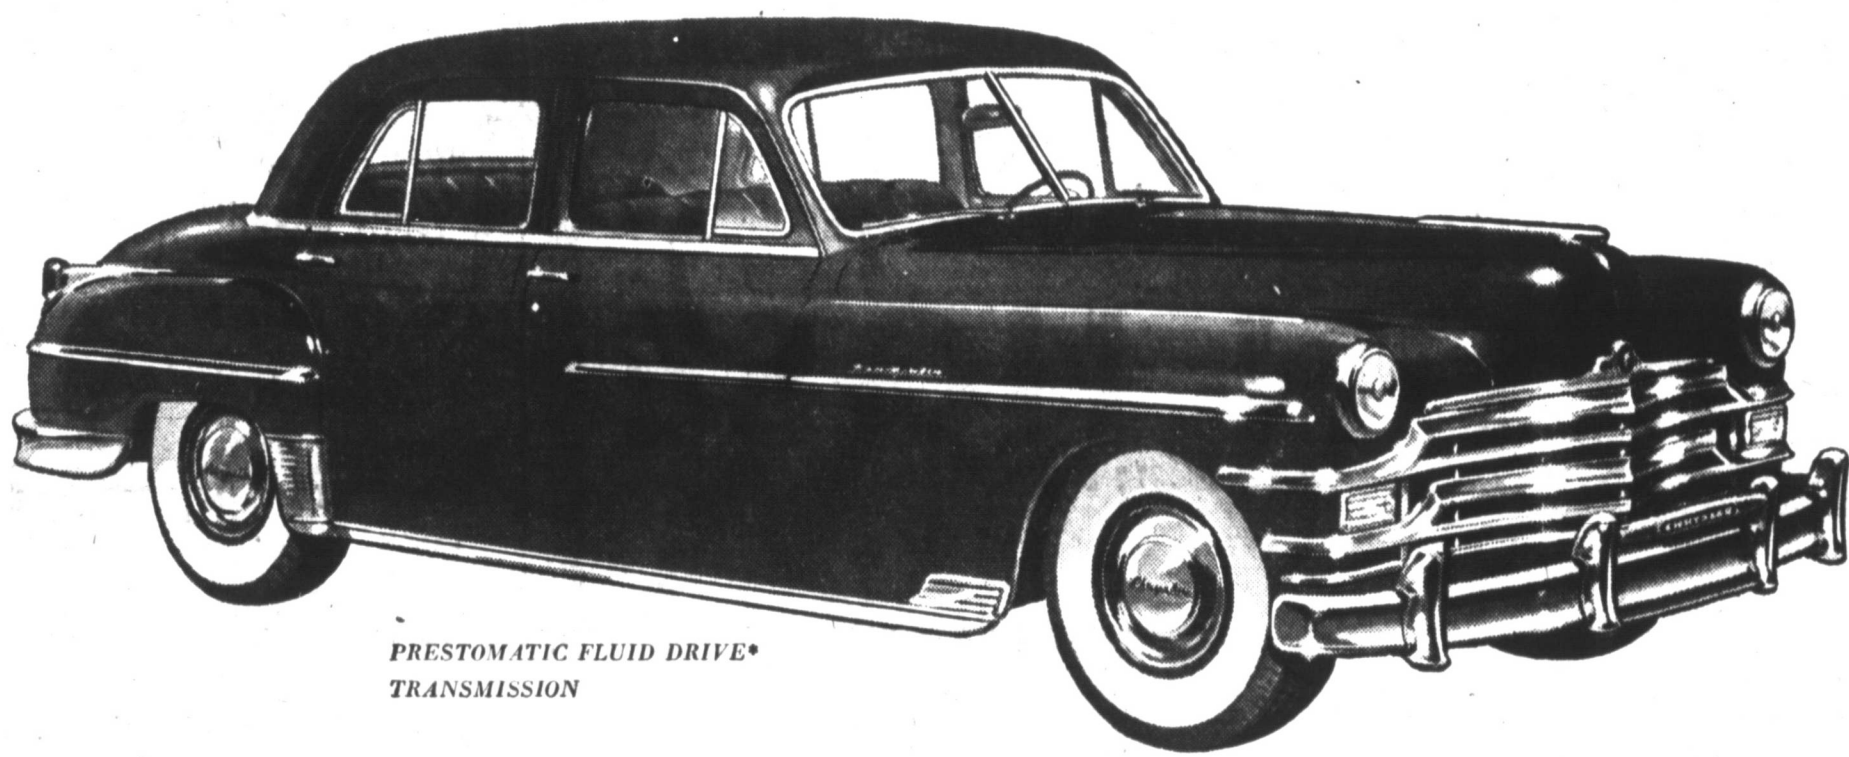

sold enough options to add 9,000 seats to the bowl, the Board of Directors said yesterday. The directors plan to build 7,758 seats. That leaves 2,758 still for sale at \$40 apiece.

### EAT PLENTY AND TAKE OFF UGLY FAT

### Paper Polls Students for College Name

AUSTIN — (AP) — The Prospector, student newspaper at the Texas College of Mines and Metallurgy at El Paso, is polling students to determine what name they favor for the college.

Tuesday the Senate State Affairs Committee approved a bill which would allow the school to change its name.

The Senate bill, proposed by Sen. Hill D. Hudson, Pecos, would name the school "The Texas College of Mines and Arts."

Many students, ex-students and people of El Paso voiced opposition to the proposed name.

The Prospector quoted Dr. W. H. Elkins, college president, as saying there is a chance the college may choose "University of Texas at El Paso" as a name if "legal difficulties which arose" can be solved.

C. D. Belding has suggested

"Texas Western University." Belding was chairman of last year's Sun Bowl Selection Committee.

The college as a branch of the University of Texas (at Austin) has never had an official name. It has been known variously as School of Mines and College of Mines.

Regents recently approved changing the school's name and the bill was introduced as a result.

The regents acted after receiving suggestions from the college's ex-students' association and a committee of the El Paso Chamber of Commerce.

Protests of the proposed name of "Texas State College of Mines and Arts" followed a news story on the new name carried in the El Paso Times.

### Oil Production Shows Decline

TULSA — (AP) — The nation's production of crude oil averaged 5,179,800 barrels daily during the week ended March 5, a loss of 181,950 barrels from the previous week, the Oil and Gas Journal reported. Texas accounted for most of the decrease, falling off 137,875 barrels daily to 2,183,075 as the result of additional cuts in the state's allowables.

Reduced allowables also cut into Oklahoma's production, which dropped 10,900 barrels to 405,750.

Other sizeable declines were reported in Louisiana, down 11,900 barrels to 483,950; Mississippi off 800 to 102,700; Illinois, scheduled flight operators at the final session of their three-day meeting here.

Tullis also discussed a bill now before the Texas Legislature, setting up license requirements for crop dusters because of damage done to farmers' crops by irresponsible operators. The Department of Agriculture can give operators expert advice on chemicals, he said.

1,400 to 177,000, and Wyoming, 1,850 to 122,100.

Increased production was reported in the eastern area, up 70 barrels to 42,800 barrels; Kansas, up 10,300 barrels to 286,900, and California, up 800 to 948,800. Arkansas was up to 82,500.

### Chemical Labs Have 'Man-Made' Frost to Aid Cotton Farmers

LOS ANGELES — (AP) — Out of chemical laboratories has come man-made "frost" to aid the cotton farmer.

Defoliant which cause the leaves to drop from the cotton plant, facilitating the harvest, were described to the National Cotton Council's eleventh annual meeting Monday by Elwood H. Smith, Casa Grande, Ariz., grower.

In many cotton growing areas the harvest is well along or completed by the time real frost can be expected to defoliate the plants, Smith said. Defoliation by chemicals enables machines to harvest a higher percentage of cotton with less leaf trash, considerably improving the grade of the lint cotton.

The chemical procedure also

reduces the amount of boll rot in wet years or in rank cotton, reduces the amount of plant area for late broods of boll weevil to prey upon and allows a higher percentage of total crop to be harvested at the first picking, Smith said. Other advantages he cited are the elimination of green leaf stain in mechanically harvested cotton, and prevention of army worm damage.

Irrigation, bring high yields to California fields, also is making "bale-to-the-acre" cotton a reality for farmers in other sections of the cotton belt, said Ransom E. Aldrich of Michigan City, Miss., chairman of the council's Production and Marketing Committee.

One fourth of the 2,000,000 cotton acres in the high plains of Texas was irrigated in 1948, and growers are putting down more wells. The yield on some of this land increased from 150 pounds to a bale (500 pounds) per acre, he said.

**Life a Zany Business for Secretary to Comedians**

**Flynn Races Mice Named After Stars**

By ERSKINE JOHNSON  
HOLLYWOOD — (NEA) — Errol Flynn's "coming out" party, I can report today, was a terrific success.

They were illuminated lotus buds floating in the swimming pool, roast pheasant on the buffet tables and all of Hollywood's foremost stars and fastest mice were there.

Yes, mice.

Racing mice Errol named after movie stars. They raced on a 20-foot track and people got hysterical betting on them from tips supplied by Smokey Flynn's Never Loses Green Sheet.

One mouse was named Tiger Lil (after Flynn's ex-wife Lili Damita). His tip on Tiger Lil was:

"Ran out when backed with smart money—mine!"

Now Errol is about to have another ex-wife, Nora Eddington, which is why, he told friends, he decided to give a party.

"It's my coming out party," he announced.

SWELL IN-LAWS  
Margie Eddington, the mother of his about-to-be ex-wife, helped Errol come out. (Hollywood is a confusing place.)

Errol's home is on a mountain top overlooking San Fernando Valley. There's a huge lawn out front with a swimming pool in the center. The lawn was carpeted with canvas and covered with a tent. The side overlooking the valley was "glassed" in with green cellophane. It was a crystal clear night with a full moon.

The valley was aglow and so were quite a few of Errol's guests. I never saw so many movie stars—or waiters.

Jack Benny and Mary came with the Ronald Colmans — in Ronnie's car. Jack's car just happened to have an almost empty tank. Pidgeon, Garson, Susan Peters, Ayres and Wynan, Selznick and Jennifer Jones, Gable, Temple, Raft, Joan Bennett—everybody was there.

Mrs. Robert Young gave me the funniest line of the evening. She turned to Bob and quite seriously said: "We haven't been out for so long everybody looks older."

The Youngs once tried to give a party under a tent at their San Fernando valley home. They weren't as lucky as Flynn. It rained all afternoon and finally, just before the first guests arrived, the tent just gave up and collapsed.

BUZZY BUZZER  
Errol buzzed around in a satin brocade evening jacket and, as far as I could see, had no lady fair on his mind. Of course, after a couple of hours, I couldn't see very far. When I thought I detected Mickey Rooney riding a mouse in the seventh race, my wife said it was time to go home.

Always a heavy plunger, I bet and lost exactly \$1 on the fifth race, asking for my mouse by number, as the official "programme" said. Not until after the race, did I discover I had bet on the only handicapped mouse there.

The illuminated lotus buds floating in the swimming pool fascinated me. They were made of lucite and took two months to build, a fellow named Nightingale told me. "Lighting by Nightingale" is his business.

"I handle all the big parties in Hollywood," he said. "I did a big garden party on New Year's Eve. At exactly 12 o'clock it snowed." "Too bad," I said. "No," he smiled. "I did it with trick lighting. Snow—rain—hall—I can do anything with lights."

**Architects Meet For 81st Convention**  
HOUSTON — (AP) — The Board of Directors of the American Institute of Architects meets here tomorrow in a session preliminary to the opening of the institute's 81st annual convention.

More than 1000 architects are expected here for the convention's sessions of March 16-18.

Four affiliated organizations will hold Houston meetings prior to the convention. They are the Association of Collegiate Schools of Architecture, and the National Council of Architectural Registration Boards, March 13-14; the National Architectural Accrediting Board, March 11-12, and the Board of Directors of the Producers' Council, March 14.

**North Atlantic Defense Pact Designed as Peace Insurance**

By DEWITT MACKENZIE  
AP Foreign Affairs Analyst  
The North Atlantic Alliance which finally has been approved in draft form by all parties, is generally described as a defensive pact — a back-handed way of putting a far more telling fact: It is designed to be a powerful instrument for the maintenance of peace.

Canadian Prime Minister Louis St. Laurent, whose country is one of the subscribers to the alliance, emphasized this point in a speech in Montreal the other day. He said:

"For my part, I am convinced that the surest and most practical way of assuring maintenance of peace is to bring about as soon as possible the union of nations friendly to peace."

Of course the ideal situation would be for all nations to be so peace-minded that war would be outlawed. However, we haven't reached that happy stage.

So the Atlantic Alliance is calculated to be peace insurance. Apropos of this U.S. Secretary of State Acheson told a news conference in Washington that the means for eliminating a sense of insecurity and thereby aiding recovery among the signatory nations. John M. Hightower, AP diplomatic reporter in Washington, interpreted this as meaning "that the Marshall Plan countries of Europe, having extraor-

inary assurance of United States military support, will feel less fear of war and great confidence in the future — a confidence necessary to economic progress."

The countries which thus far have participated in drafting the treaty are America, Canada, Britain, France, Belgium, The Netherlands, Norway and Luxembourg. Others who may join are Denmark, Iceland, Portugal and Italy. Sweden has been burning midnight oil in debating the momentous question of whether she should desert her traditional neutrality and follow the lead of her two Scandinavian colleagues, Norway and Denmark.

Naturally such an alliance, no matter how peacefully designed, must be expected to cause heartburnings in Eastern Europe. Thus it isn't surprising there should be a report that the powerful Cominform (Communist International Information Bureau) might be preparing to launch an alliance to match the North Atlantic pact.

**"Old at 40, 50, 60?" — Man, You're Crazy**

Forget your age. Thousands are peep at 20, 30, 40, 50, 60, 70, 80, 90, 100, and are still young. It's not your age that counts, it's your attitude. You can be as young as you want to be. You can be as old as you want to be. You can be as smart as you want to be. You can be as rich as you want to be. You can be as happy as you want to be. You can be as successful as you want to be. You can be as free as you want to be. You can be as powerful as you want to be. You can be as strong as you want to be. You can be as beautiful as you want to be. You can be as wise as you want to be. You can be as brave as you want to be. You can be as kind as you want to be. You can be as generous as you want to be. You can be as honest as you want to be. You can be as just as you want to be. You can be as fair as you want to be. You can be as good as you want to be. You can be as great as you want to be. You can be as perfect as you want to be. You can be as wonderful as you want to be. You can be as amazing as you want to be. You can be as incredible as you want to be. You can be as unbelievable as you want to be. You can be as extraordinary as you want to be. You can be as phenomenal as you want to be. You can be as exceptional as you want to be. You can be as outstanding as you want to be. You can be as remarkable as you want to be. You can be as impressive as you want to be. You can be as inspiring as you want to be. You can be as motivating as you want to be. You can be as empowering as you want to be. You can be as enabling as you want to be. You can be as liberating as you want to be. You can be as freeing as you want to be. You can be as releasing as you want to be. You can be as restoring as you want to be. You can be as rejuvenating as you want to be. You can be as refreshing as you want to be. You can be as revitalizing as you want to be. You can be as renewing as you want to be. You can be as restoring as you want to be. You can be as rejuvenating as you want to be. You can be as refreshing as you want to be. You can be as revitalizing as you want to be. You can be as renewing as you want to be.

**'Oil Mine' Operation Gigantic**

LOS ANGELES — (AP) — A gigantic "oil mine" operation in Colorado has multiplied America's petroleum reserves several fold.

This is disclosed by Boyd Morris of the U.S. Bureau of Mines division of synthetic fuels, who says an oil shale deposit near Rifle, Colo., eventually should become the largest mining operation in the world.

It has a potential of about 350 billion barrels of crude oil, he told the American Institute of Chemical Engineers Convention. That amounts to about 10 times the volume of all the oil from wells drilled so far in this country.

The project, already operating on a small scale, consists of mining the shale rock and trans-

forming the near-solid petroleum contents into crude oil.

Morris said giant caverns produced by the huge mining operations will be ideal to house underground industries in the event of atomic warfare. Morris added the U.S. Bureau of Mines is in charge of the undertaking, being sponsored by the Armed Services.

Eventually, he said, pipelines probably will be extended to the West Coast.

**Local Men Return From Conference**

Three local men, Wade Hampton, Leonard Doss and Frank O'Dell, have just returned from a Purina feed conference at Fort Worth, held for Texas and Oklahoma dealers.

L. C. Stevenson, St. Louis, southern region sales manager for the concern, presented an optimistic outlook for farmers in 1944.

## Research Finds Gold In Farming

HOUSTON—(AP)—How people have found unexpected gold mines in agriculture was being related here.

Scene was the annual conference of the Texas Chemurgic Council. The council is devoted to finding such treasures.

A typical example was told at one of the sessions. J. R. Fleming, Weatherford, pecan shelling plant owner, told the story.

His company, he said, is the only one in the nation turning out commercial pecan oil, a product prized by manufacturers of cosmetics. He said the oil has been found to be better for some cosmetics than olive oil.

And Fleming makes the oil out of the three percent of pecan meats that is unfit to package for eating.

Even his pecan hulls don't go to waste. Each week he extracts 100,000 pounds of tannin, which is left from Fleming's processes and makes a fine dust out of it.

H. W. Wittliff, Jr., of the Explosive manufacturers buy it.

## Time to Buy Seeds College Man Says

LUBBOCK—Now is the best time for farmers to buy or engage seed for planting next year's crop, Dr. A. J. Young, head of the plant industry department at Texas Technological college, advises.

By making arrangements now for next year's crops, farmers can be assured of a bigger selection and a chance at the best seed available, Dr. Young said.

Seed selection should be based on high quality, high germination rate and free from undesirable weed seed. There is time yet to be "choosy," he said.

Those farmers planning to sow their own seed should have germination tests made immediately so if their seed is not the most desirable, they will have time to make other arrangements.

Germination tests are made at the State Seed Laboratory at Austin, and at many of the grain exchanges in larger towns.

The Garter, Water and "Keel-scaled" snakes do not lay eggs.

Lufkin Pecan Shelling Company goes another step. He takes what is left from Fleming's processes and makes a fine dust out of it. Explosive manufacturers buy it.

Get Close to the Ground and Distribute Seeds Evenly in the Row.

## Seed Sowing "Know How" Brings Up Sturdy Plants

A question which every home gardener should answer before he sows a seed this spring is: How many seeds should he sow, for every plant he expects to grow?

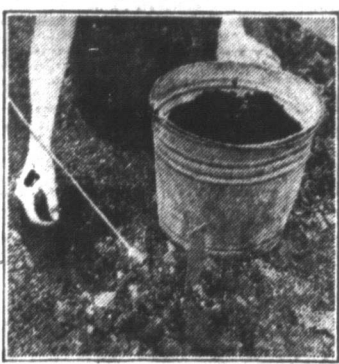

It is not uncommon for a hundred seeds to be sown in space sufficient for ten plants. This means a crop reduced by crowding, unless much work is expended on thinning out the excess plants.

There is good reason for sowing more seeds than will be allowed to grow; but when this is overdone, there is a waste of seed and work. Seeds that germinate slowly, such as carrots, parsley, and parsnips, should be sown more thickly than others because the seedlings are feeble, and the force of many acting together helps break the soil crust and bring the sprouts to the surface.

Liberty H. Bailey, dean of horticultural teachers, expresses this opinion: "Thinning is a process of selection, and the best are allowed to remain. It is evident the chances of securing the best are greater when the gardener leaves one plant out of ten, rather than one plant out of three."

But real selection is impossible if seeds are sown so thickly the roots of the tiny plants become entangled, and it is impossible to remove single plants, without disturbing neighbors. The thickest sowing therefore should allow each seed sufficient space to develop as an individual.

The surest way with small seeds

Cover seed only with porous soil; it's the best way to use humus from the compost pile.

is to take a few in the hand, and let them fall through the fingers into the drill which has been prepared. Get close to the ground, and with a little practice you can quickly acquire control so that the seeds will be evenly distributed, each sufficiently distant from the next to prevent entanglement.

Keep the seeds in line as well as you can. It helps to let the garden line which was used in making the drill remain in place until the seeds have been dropped.

It helps to mix the very small seeds with dry sand before you begin to sow, using two or three times as much sand as seed. This spreads the seeds out better.

## FARM NEWS

Top of Texas  
PAGE 8 Pampa News, Thursday, March 10, 1949

## Crop Outlook Appears Good

AUSTIN—(AP)—Texas' crop outlook was bright today under promise of spring.

The United States Department of Agriculture reported increased field activities following sufficient drying of soils after late February and early March rains.

Peaches were in full bloom in south and coastal counties and in pink bud in Central Texas. Some spring-planted oats and barley were up.

Wheat, winter oats and South Texas flax were all reported making good progress. Cornplanting and sweet potato seeding was active in South Texas and North east Texas respectively.

East Texas tomatoes were in good condition and the lower valley crop was showing improvement. Onions were in good condition in Laredo, Winter Garden and Eagle Pass districts but blight was bad in the Coastal Bend area.

The Lower Valley citrus trees were coming out of the freeze damage in better shape than had

been expected, especially the older trees. Leaf growth was heavy and some buds were beginning to bloom, USDA said.

Mark of February's hard freeze, however, still remained. Carrot tops were still in poor condition. The lettuce crop cutting was light and quality poor. Cabbage growth was very slow.

Good progress was reported in the replanting of Lower Rio Grande Valley crops of snap beans, sweet corn, tomatoes and squash. The potato crop had

## Foundation Advises Pig Earmarking

AUSTIN—(Special)—Farmers can increase their hog profits if they will adopt the practice of earmarking spring pig litters, the American Foundation for Animal Health reported today.

This practice involves placing an earmark on each sow and an identical ear mark on each of her pigs. Rewards of this practice were cited as follows:

"(1) Sows acting as carriers of disease from its parent sow."

"(2) Breeding stock for future pig crops can be selected more efficiently. Litters of healthy and thrifty pigs are permanently identified with their mothers by earmarking. Sows producing such litters may very well be selected again as breeders. Also, their female offspring may be the most promising choices as breeding gilts."

grown out of the freeze damage and beet tops were making fairly good growth.

A good moisture reserve was reported for all areas.

swine dysentery and other forms of swine enteritis may be singled out more readily, and then removed from the breeding herd. Veterinarians often note that an outbreak of enteritis first affects all the pigs in one litter, then spreads to other litters. In many such cases, the first litter appears to have acquired the disease from its parent sow.

The Devilfish or Giant Octopus is the largest mollusk.

## YOU'LL GO A LONG WAY

BEFORE YOU WILL FIND A BETTER ANSWER TO YOUR GRAIN STORAGE PROBLEMS

LET BIG CHIEF STEEL BUILDINGS TAKE CARE OF YOUR STORAGE PROBLEMS

This is the type of building the public has been asking for.

In one season, there is no reason why our Big Chief building should not pay for itself—then you can enjoy its use for years to come. Be sure of a place to store your grain. With most of the storage space in use present storage rates are higher.

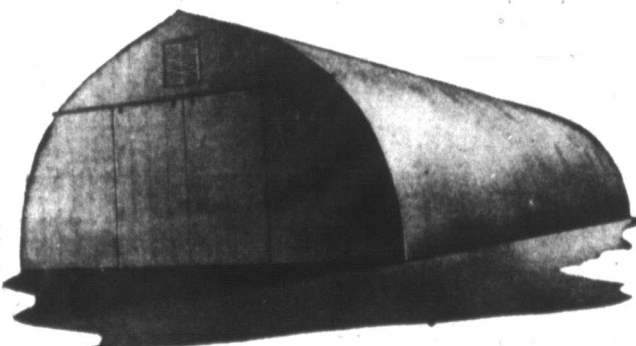

YOU CAN'T MAKE A MISTAKE ON PERMANENT LOW COST STORAGE SPACE WITH THE BIG CHIEF NEW IMPROVED STEEL BUILDING

## SAVE!

Because of the construction and strong design of Big Chief Buildings, no scaffolding is necessary for its erection. Crews are available for immediate erection, or the farmer may erect it himself if he so desires at added saving!

When the price of grain goes below government loans, you will save in many ways with a Big Chief Building.

There is a Big Chief Building for every agricultural and industrial need. Big Chief Buildings are obtainable in 20-foot, 30-foot, 40-foot and 50 foot widths, and in any length multiple of 4 feet.

This building is the strongest and cheapest structure of its kind on the market.

A BUILDING FOR EVERY PURPOSE ON THE FARM AND IN THE INDUSTRIAL FIELD

## Committee Spot Sought For Burleson

WASHINGTON (AP)—Texas congressmen worked quietly today for the appointment of one of their number to the House Foreign Affairs Committee.

They are pushing Rep. Burleson (D) to fill the vacancy created by the death of Chairman Bloom (D-NY). Rep. Kee (D-WV) moves up the committee seniority ladder to chairmanship.

Rep. Combs (D), the state's member of the Ways and Means Committee, which makes all other House Democratic committee assignments, told a reporter: "The Ways and Means Committee naturally has not yet taken up the matter. You may be sure, however, that I have been talking with different members and doing all I can to get Burleson appointed."

"I've very narrowly missed being appointed at the beginning of the present session, when 60 or more congressmen were candidates for the then few existing vacancies."

"Burleson is a capable man. The question is whether Texas can get a spot on the committee, competing with all other states for the limited number of assignments."

A former FBI agent, county judge and naval officer in World War II, Burleson is in his second term in the House. At present he is on the House Administration Committee.

## Bing Doesn't Even Bother To Decline

By ESKINE JOHNSON

HOLLYWOOD — (NEA) — Everyone stepped up and accepted his Gold Medal award from Photoplay Magazine except Bing Crosby. Bing, voted the most popular actor of the year, didn't show up.

This has been going on for some time. Bing has won the Gold Medal five consecutive years. For five years Photoplay has given a big formal dinner party at the Beverly Hills Hotel and dusted off a chair for the Crooner.

Once, at the second dinner, Bing did come. He even sang a couple of songs. But now he's missed three in a row. And this time, according to a Photoplay spokesman, he didn't even bother to decline the invitation.

George Jessel handed the gold medal to Bing's boss, Y. Frank Freeman, and said: "We'll give this to you just in case you see him sometime."

Ingrid Bergman accepted her medal and said: "Maybe one of these days I'll catch up with Bing."

DAILEY RATES  
There's a new respect for Dan Dailey around the Fox lot since that Academy "nomination." He's in fast company for a hooper and he's plenty flattered. Susan Peters is talking about doing a motion picture in Italy. Dennis O'Keefe will do "The Dark Page" for Eddie Small and then goes to England and a movie about the Berlin airlift, "Operation Vittles."

There's a story making the rounds that touches both on the value of publicity and the integrity of the studio economy waves. Here it is: Studio executives sign up a new personality and assign a press agent to get it in all the newspapers that he's a sensational discovery. The press agent does. The executives read the story and are so impressed they give the new star a raise. Then they fire the press agent.

Cornie Haines may be the singer on the Dean Martin-Jerry Lewis airshow. Nick Russo will produce a play by Craig Rice, "The Gallows Tree." Angela Lansbury may be the star. The Al Johnson minstrel show for television is beyond the talking stage. Plans now are for it to originate in New York.

A school for theater managers just opened in New York. Roy Rowland wonders if a student will be taken to the woodshed if he comes home with a report card showing only 70 in popcorn and 85 in candy bars.

No worries about type casting for character actor John Hoyt. In rapid succession he's played a fanatical Nazi, a horse trainer, a psychiatrist and now a giddy companion to an opera star in "Everybody's Doing It."

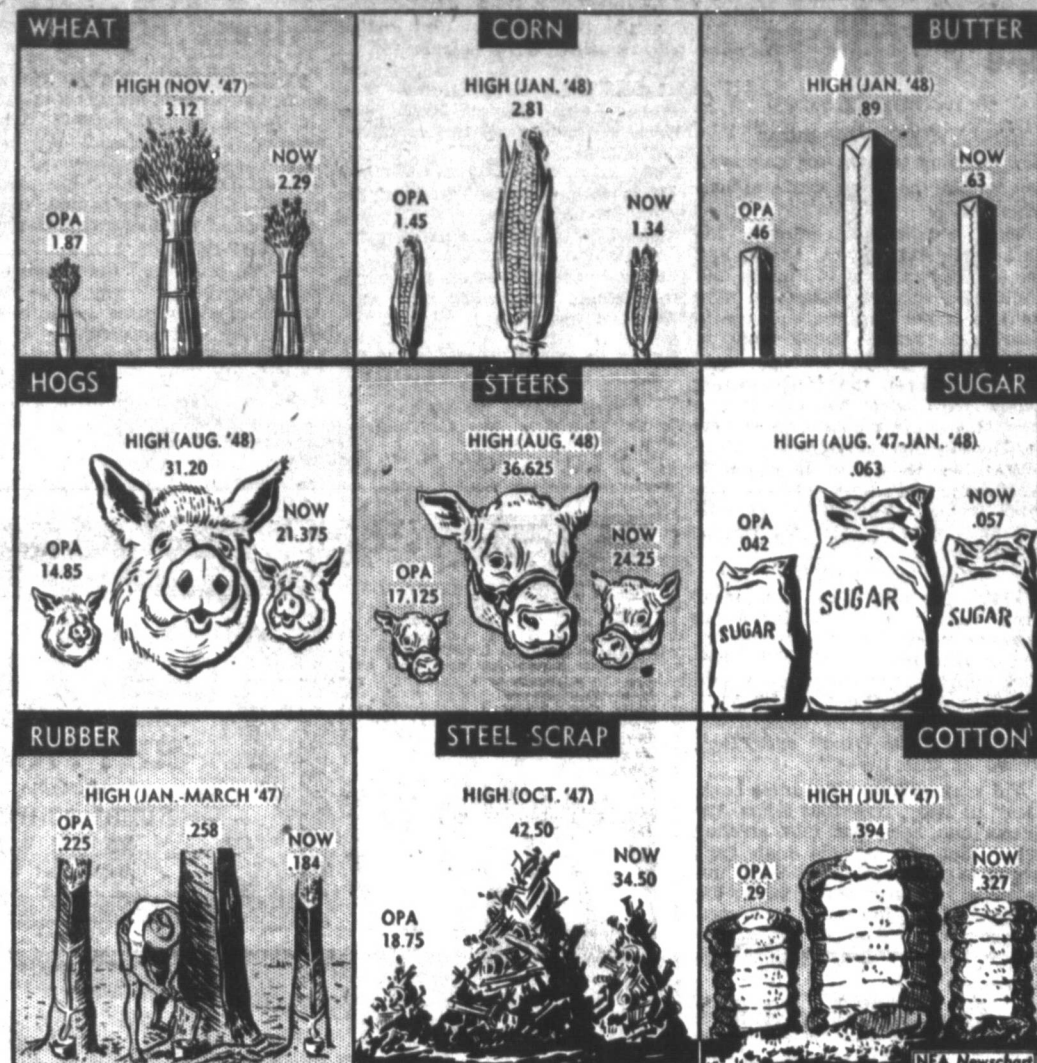

INTRODUCING...  
One of the chief complaints against Hollywood is the lack of new faces on the screen. Exhibitors and public both claim the producers use the same old faces over and over and make little effort to find new talent.

Things may be changing. Five unknowns are being introduced in five new films. In fact, the words "And Introducing" are used in the ads and in the screen billing. The five are:  
Peter Miles in "The Red Pony"; Betsy Drake in "Every Girl Should Be Married"; Patricia Neal in "John Loves Mary"; Harry Carey, Jr., in "Three Godfathers"; and Beatrice Pearson in "Force of Evil."

Day of hundreds of gorgeous femmes flocking to Hollywood for film breaks seems to be over. Ben Bard complains that he can't even find glamor types for his drama school by offering free tuition. Most of the other drama schools here are in the same boat. Every studio is plotting out-of-town trips for stars on the theory that personal appearances will stimulate business.

GIRAUD GETS MEDAL  
LION, France (AP)—France's highest military decoration, the Military (Military Medal), was awarded to Gen. Henri Giraud, wartime commander in chief of the Free French armies.

## Some Prices Are Now Below OPA Levels

A comparison between the last OPA prices and present spot primary market prices shows that some commodities—such as rubber and corn in the chart above—have fallen below OPA levels. The new chart compares the OPA prices with the present prices and the highest each of nine commodities reached. Some other items, notably metals like zinc, copper and lead, are still at their highest mark. Data are from the Bureau of Labor Statistics.

Los Angeles officials estimate in that city's area in 1939 and there were 1,500 industrial plants, 9,000 such plants in 1949.

## Stronger State Drug Law Sought

AUSTIN (AP)—State health officials last night asked for a food, drug and cosmetic law "with teeth in it." Several persons objected that the proposed legislation might bite innocent people.

The Senate Public Health Committee ordered a subcommittee to rework the bill and report back in two weeks.

Dr. Howard Granberry of Austin, chairman of the State Board of Health, said manufacturers and distributors violate the present state law without worry because penalties are so light.

The proposed new act would allow a maximum penalty of one year imprisonment in the county jail, or a \$1,000 fine, or both, on first violation of regulations designed to insure purity of composition and informative, true and safe labeling of products.

Maximum penalty for a second violation would be three years imprisonment, or a \$10,000 fine, or both.

Hugo Swan of Dallas, representing the Dairy Products Institute of Texas, said those were extreme penalties to place on a man who might innocently violate the law.

E. W. Morrison of Denton, representing several Texas millers,

In Pampa at Cretey Drug

with Pat Moreland, executive secretary of the State Restaurant Association of Texas, agreed with Swan that the bill should require proof of "willful" violation or gross negligence before court conviction could be secured.

J. F. Lakey, director of the State Health Department, urged food and drugs bureau of the

## Shift in Draft System Approved

WASHINGTON (AP)—The Hoover Commission plans to recommend to Congress that the Selective Service system be moved into the Labor Department, it was learned today.

Persons familiar with the reorganization plans said privately that the commission also will propose that the United States Employment Service be restored to labor.

If these and other recommendations are not changed and Congress approves them, the now feeble Labor Department would regain much prestige. In any war emergency, it would have the key responsibility for meeting military draft calls as well as recruiting and placing civilians in essential industry.

Former President Herbert Hoover, chairman of the commission, reportedly agreed with a majority of his 11 colleagues that the Labor Department should be rebuilt. It was stripped almost to a skeleton by the Republican 80th Congress.

The shift of Selective Service apparently won the commission's support on the ground that problems of military manpower should be coordinated with problems of the civilian labor supply.

## Program of Cub Scouting Is Discussed

The Cub Scouting advancement program was discussed yesterday at the first session of the den mothers' training course, held in the Commission Room, City Hall.

Paul Eisele, council executive, outlined the Cub Scouting program and suggested many activities that may be provided in the program.

The training course will be held from 10 to 11 a.m. each Wednesday for the next three weeks. The topic for next session will be centered around den program planning.

Attending the meeting were Mrs. R. A. Irwin, Paul H. Rice, Pack 18; Herman Gantz, R. D. Goodnight, Pack 4; Ray Gibson, Cecil R. Middleton, Pack 22; and D. C. Paulsen, H. M. McWaters, W. Calvin Jones, Pack 14.

Meanwhile, two additional Cub packs are being organized in the First Methodist and First Baptist Churches. Both churches now have Cub, Boy Scout and Senior Scout troops.

Also, the McCullough Methodist Church is organizing a Cub den, which will be affiliated with Pack 22, sponsored by Horace Mann School.

## Court Clears Dallas Teacher

DALLAS (AP)—Miss Nellie Goughly, Dallas school teacher, went back to her classroom today with a court decision clearing her of charges of harsh punishment of students alleged in a lawsuit.

District Judge W. L. Thornton refused yesterday to issue an injunction against the teacher. Twenty-two parents of pupils at Lanier School had sought the injunction.

He said he "had no right to suspect" Miss Goughly would violate a recent ruling by the Dallas Board of Education forbidding corporal punishment by teachers other than principals.

"In view of the board's new rule and the testimony presented here," the judge said, "I must conclude that the anxieties and fears of the parents are not justified."

Judge Thornton said there was no evidence in the case that a wrong "will be committed."

The parents brought the suit after the teacher had punished a pupil, Edward Ray Shores, 15, with a paddle Jan. 24.

Market Briefs

NEW YORK, March 9 (AP)—The stock market wound up a steady day with losses of fractions to a point of no return.

Largest declines—some running to more than a point—were posted in the first hour's trading. Buying perked up a bit then and many issues made a partial or full recovery but the market generally remained in lower ground.

Business amounted to one of the smallest totals of the year. Turnover was at the rate of around 600,000 shares for the full session, which would compare with yesterday's 340,000.

Lower prices were paid most of the day for Chrysler, Montgomery Ward, Caterpillar Tractor, Kennecott Copper, Phelps Dodge, Westinghouse Electric, Santa Fe, Great Northern, Preferred and Warner Bros.

Moving ahead were Schenley, General Electric, Nickel Plate, Skelly Oil, and Standard Oil (N.J.)

Deaf students from Gallaudet College, Washington, D. C., hope their contributions of blood through the Red Cross blood program will help save a life. Red Cross regional blood centers now serve more than 525 hospitals.

Bergen Seeks Gag Writers

By BOB THOMAS

HOLLYWOOD—(AP)—Edgar Bergen is going to hunt for gag writers within the ivied walls of universities.

The ventriloquist, enjoying his short-term retirement, is heading for a vacation jaunt to Florida and Cuba. When he returns, he says he'll tour the nation's colleges in search of bright young men to help write his air show.

Bergen hopes the fresh writing talent will bring his program a new slant. He realizes he will be in tough company next fall on CBS, since he will follow Jack Benny and Amos 'n' Andy and precede Red Skelton. Bergen has indicated he'll aim toward the realm of fantasy.

Victor Mature, who is a great press agent for Viv Mature, was showing a letter he received from Paramount Boss Henry Ginsberg. The bigwig said early comments about "Samson and Delilah" have only been equaled by those about "Gone With the Wind" and "Best Years of Our Lives."

Vic may still do "Paradise Lost, 1949" in Italy, now that Dana Andrews has been put into another role. But the muscle man isn't eager to work. He has three unreleased pictures and feels the public can get too much of a good thing.

Women Greatest Factor Against Private Flying

FORT WORTH (AP)—Women probably present the greatest single factor against private flying by men, J. B. Hartrant of Washington, general manager of the Aircraft Owners and Pilots Association, told non-scheduled flight operators of the Southwest in their annual conference.

"We're studying the problem, trying to find out why it is that one out of every three single pilots stop flying after marriage," Hartrant reported.

"Naturally, the economic element has a lot to do with it, and to some extent, possibly, the lurking fear of some women against flying. You'd be surprised, though, the evidence we're piling up which shows that women are opposed to flying mainly because of the lack of facilities at private airports—"

Legal Publications

THE STATE OF TEXAS To the Sheriff of any Constable of Gray County, Greeting: W. J. Ulrich, Guardian of the Estate of Alice Jean Ulrich, a minor having filed in our County Court his Final Account of the condition of the Estate of Said Alice Jean Ulrich, numbered 919 on the Probate Docket of Gray County, together with an application to be discharged from said Guardianship.

YOU ARE HEREBY COMANDED, That by publication of this Writ for ten days in a Newspaper printed in the County of Gray, you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on Monday, the 14th day of March 1949 at the Court House of said County, in Pampa, Texas, when said Account and Application will be acted upon by said Court.

Given under my hand and seal of said Court, at my office in the City of Pampa, this 3rd day of March, A. D. 1949.  
CHARLIE THUT, County Clerk, County Court, Gray County, Texas.  
By: Roberta Appleton, Deputy.

Air Force General To Speak at Denton

DENTON (AP)—Maj. Gen. Roger M. Ramey, commander of the Eighth Air Force at Fort Worth, will be principal speaker for dedication of a new student union building at North Texas State College March 31, when NTSC celebrates its 50th anniversary as a state institution.

Ramey, an ex-student of the college, will speak at 11 a. m. on the North Texas Day program, which will also include speeches by President W. J. McConnell of NTSC and representatives of the board of regents, ex-student and student organizations.  
Germany developed a process for softening leather by refrigeration.

## Tigers Return Trainer's Enthusiasm by Biting Him

By HAL BOYLE  
NORTH MIAMI, Fla. — (AP) — There is a man here who has spent most of his life trying to get inside the heads of wild tigers — to understand them better.

And at the least a dozen tigers in the last 24 years have obliged him by trying to get him into their leads — a bite at a time.

"But they were not looking for better understanding," smiled

Capt. Roman Proske wryly. "They were looking for nourishment."

Proske, 50, breeds and raises tigers and lions at his North Miami zoo here. He sells them to zoos or trains them for circus acts. For two decades he has been internationally recognized in his field.

The captain, a short, chunky, kindly man, holds an honorary membership in the Association for the Prevention of Cruelty to Animals. It was granted him because he trains his tigers without guns, prods or other pain or fear-evoking devices. He uses only a light whip.

"It is not courage that counts in wild animal training," he said. "Those with courage alone simply don't survive."

"You have to think in terms of the animal to stay alive. You have to understand him. You have to teach him to have confidence in you — confidence that you don't want to hurt him."

Proske understands tigers so well that he holds no grudges against that twelve that have tried to make a meal of him. People who live in an arena of death become either neurotic or philosophic. And danger has made Proske a philosopher.

"I can love tigers," he said, "but tigers can never become tame and love people. To them a man is something to try to avoid or something to try to eat."

One day the trainer has a headache or an upset stomach, says Proske. He isn't up to par physically, and the big cats sense it instantly. If he glances away or turns his back — one pounces and grabs him.

"But how can I be mad at the tiger because he tried to eat me?" asked Proske. "After all I shouldn't be in a cage with tigers, and tigers don't belong in a cage either. We both have no business there."

But only one ever embarrassed him in public. During an act in Havana a tiger made a swipe at him — and tore off his trousers.

"Luckily," said Proske, "I was wearing shorts."

## Russia Said At War With Religion, God

LUFKIN — (AP) — Stalin and his missionaries are "at war against religion and God," Martin Dies, former Texas congressman, said here. He was speaking at a meeting which resulted in a petition asking trial of Russia and her satellites for "the high crime of religious persecution and bigotry."

About 100 Lufkin citizens attended the meeting and drafted a petition. Copies were sent to President Truman, Vice President Barkley, Secretary of State Dean Acheson and Texas congressmen and senators.

The citizens asked that "a copy be sent to the United Nations as a petition urging the immediate trial of Russia, Bulgaria, Hungary and other satellite countries for the high crime of religious persecution and bigotry."

The Lufkin Junior Chamber of Commerce sponsored the meeting. Dies is a former chairman of the House Un-American Activities Committee.

ONCE TOO CRITICAL  
CAGAYAN, Mindinao — (AP) — Guest Cristobal Baillo criticized the cooking at Host Tomas Rosallo's birthday party.

Rosallo, police said, became so incensed over the criticism that he killed Baillo with a butcher knife.

# UNCLE SAM SAYS IT'S SO!

**FOR A LOWER BASKET COST ON ALL YOUR FOOD NEEDS SHOP McCARTT'S SUPER MARKET**

From the Oklahoma City Times February 2, 1949  
WASHINGTON, Feb. 2 — (AP) — The United States Department of Agriculture issued a food marketing report Wednesday which took sharply to task those who criticize farmers, food processors and distributors. . . . An average family has been paying, it said, only 21% of its income for the same quantity of representative foods for which it had to spend 25% before the war.

"Big Super-Markets, with their self-service systems, were credited with having done more than any recent development in the food industry to lower marketing costs."

"On the whole, retailing was said to represent about 25% of every dollar spent for food."

McCarrt's wholesale affiliations guarantees you lower purchase cost. This advantage coupled with the lower operating cost of their large SUPER MARKETS, produces economies that are passed on to you in the form of lower prices on all your food needs. As a direct result, you save from 8% to 10% under the 25% quoted here.

### Junior Meets Are Nice for Canapes

Make the canape tray substantial with ripe olives, cheese and baby meat spreads.

By GAYNOR MADDOX  
NEA Staff Writer

Buffet and party service is making popular gains with the discovery that guests like to sink their teeth into something substantial, even at informals. So don't be surprised if you find

yourself eating and liking sandwiches made from some of the versatile new baby meats. Livened with curry, lemon, mayonnaise or Worcestershire, they fit smoothly into celery stalks or stuffed eggs. TANGY VEAL CANAPES (Makes 3-4 cup)

Three tablespoons grated cheese, Italian style, 1-4 cup butter or fortified margarine, 1 can (3 1-2 ounces) junior veal, 1 tablespoon minced onion, 1 tablespoon finely chopped green pepper or pimiento, 1 teaspoon lemon juice.

Add cheese gradually to softened butter or margarine. Mix until smooth and well blended. Add chopped veal, onion, pepper or pimiento and lemon juice. Mix in well. Spread on bread, toast or crisp crackers.

**DEVILED EGGS**  
Curried beef is truly good in stuffed eggs. Remove yolks from 2 hard-cooked eggs; mash well. Combine with meat mixture; blend well. Stuff egg whites generously and garnish with minced parsley or chives. (Curry addicts may want to step up the curry powder).

**SMALL ROLL CANAPES**  
Trim crusts from thin slices of very fresh bread. Spread each slice with favorite filling and roll up like jelly roll. Cut each roll in half. Serve plain or garnished. Or brush lightly with melted butter and brown in hot oven (400 degrees F.) 5 to 10 minutes. **CURRIED BEEF SPREAD** (Yield: 2-3 cup)

Three tablespoons mayonnaise, 1-4 teaspoon curry powder, 1 can (3 1-2 ounce) junior beef, 1-2 teaspoon salt, black pepper, to taste.

Mix mayonnaise, curry powder and chopped beef until smooth and well blended. Add seasonings. Spread generously on bread rounds.

### King George VI Will Undergo Leg Operation

LONDON — (AP) — King George VI will be operated on—probably within a week—to get more blood flowing into his endangered right foot.

Six doctors in an announcement from Buckingham Palace said the operation will be "at an early date." Court correspondents said they understood that meant next week and the surgery probably would be done at the palace.

This was the first official word that the ailing 63-year-old King would undergo surgery for the arterial condition that was made public last Nov. 23.

His majesty cancelled all engagements and public ceremonies to rest quietly.

This complete rest and a series of treatments led to what the doctors called "satisfactory recovery" in the left leg and prevented the gangrene which it was at first feared might set in.

### MEETING HELD

The regular meeting of Assembly No. 64, Order of the Rainbow for Girls, was held Monday night in the Masonic Hall.

### Texas Prison System Changes Get Underway

HUNTSVILLE — (AP) — General Manager O. B. Ellis is losing no time in placing into operation his "Ellis Plan" for complete reorganization of the Texas Prison System.

New directives for improving the discipline of the system's inmates and boosting agricultural output became effective Wednesday.

Ellis said Governor Beauford Jester's Monday signing of the

\$4,196,075 "Ellis Plan" appropriation bill means: "A lot of people are going to expect results today. I want results today."

At a meeting of farm wardens and other key personnel Ellis ordered:

1. A 40 percent increase in the system's agriculture acreage — including 4,000 additional acres of cotton, 2,800 for truck gardens, 2,000 for corn, and 200 for Irish potatoes.
2. An intensive campaign to deliver a knockout punch to the dope peddling racket within the system.

Ellis said his main projects dining halls.

### Hard Liquor Legal After 69 Dry Years

TOPEKA, Kans. — (AP) — You can take a drink of hard liquor—legally—in Kansas today. The Sunflower State topped off 69 years of prohibition by putting through a state liquor control law. The Governor signed the measure Tuesday.

for the current year will be raising a \$1 million cotton crop on 10,000 acres as compared to a \$400,000 crop on 6,000 acres last year, and doubling of the pork production for use in the system's dining halls.

## Merten HD Club Has Luncheon

Merten Home Demonstration Club met Tuesday for an all-day special meeting and covered dish luncheon in the home of Mrs. Frank Bailey.

Work projects included making dress forms and giving home permanents. Many members also brought sewing.

After the luncheon, pictures were made of the group and of the work projects. Those present were: Mmes. C. L. Cudney and ReDon, A. M. Nash, V. Smith, C. A. Jones, A. Swafford, V. S. Day and Linda, D. A. Rife, Clyde Edmondson, W. E. Coop and H. H. Threalt.

The next meeting will be held March 15 in the home of Mrs. D. A. Rife.

## Mrs. Mason Is Hostess to Club

Mrs. Lester Mason had charge of the business session when the Fireman's Auxiliary met Friday afternoon in the home of Mrs. Tom Haggard, 533 Davis.

After the meeting, refreshments were served to: Mmes. Lewis Bowers, E. N. Pierce, Charles Winbone, Emmitt Hunt, Robert Burns, Elmer Darnell, Albert Fuller, Ernest Winborne, Roy Prescott and guests, Mrs. J. W. Stamps, Brenda Fuller and Harlan Prescott.

Mrs. Mason will be hostess March 17 in her home, 530 E. Browning. Secret pals will exchange gifts.

## Sub Debs Plan Dance Saturday

The Decoration Committee for the Shipwreck dance, sponsored by the Sub Deb Club, was appointed Tuesday when the members met in the home of Lela Ward.

The dance will be held in the Palm Room, City Hall, Saturday. It will begin at 8 p. m. and is open only to the Sub Debs and their dates.

Twenty members of the club as a group attended the First Baptist Church's morning service Sunday. They were accompanied by their sponsor, Mrs. Skeet Roberts.

The next meeting of the club will be 7 p. m. Tuesday in the home of Joan Bennett.

Attending Tuesday's meeting were Merdella Roberts, Carol Sloan, Phyllis Scheig, Ann Berner, Peggy Hukill, Joan Stroup, Donna Conley, Mary Ellen Hawkins, Delores McAdams, Mary Jean Patton, Ottolene Patton, Pam Thornton, Betty Howard, Jean Hendricks, Virginia Jones, Sammy Frierson, Zula Brown, Junice Ann Fahle, Betty Joyce Scott, Pat Price, former member, who now lives at Nashville, Tenn., and Lela Ward.

## Calvary Baptist WMU Circles Meet

Calvary Baptist WMU circles met Monday morning for executive and business meetings and a Royal Service program.

Mrs. Bert Mitchell, president, directed the meeting. In the morning session, Mrs. E. M. Boyd opened the meeting with prayer. Others participating in the first session were Mrs. Bill Lovinger, Mrs. B. F. Walker and Mrs. Andrew Fisher.

Kathleen Mallory and Blanche Groves served lunch after which Mrs. George Moore presided over the afternoon Royal Service program. Other participants were Mrs. H. W. Smart, Mrs. E. B. Brown, Mrs. B. F. Walker, Mrs. J. B. Coker, Mrs. Vivian Baker, Mrs. J. M. Hill, Mrs. Roy Aree, Mrs. Burner, Evans, Mrs. D. L. Prichard, Mrs. R. O. Clements, Mrs. A. N. Hunt and Mrs. Collins Webb.

The closing prayer was led by the Rev. Collins Webb, pastor. Others present were Mrs. Clyde Prince, Mrs. D. M. Newton, Mrs. Haught, Mrs. Ben Cates, Mrs. Jack Robertson, Mrs. Leon Hinton, Mrs. H. C. Burnett and four children.

## 'Yard Care' Is 4-D Club Topic

LEFORS — (Special) — "Routine Care of Yards" was the topic when the Lefors Home Demonstration Club met on Monday afternoon in the home of Mrs. A. D. Baker.

Mrs. Mary Anne Duke, county home demonstration agent, spoke on the right ways to care for yards. She said it is time to prune roses and late blooming shrubs but not to prune spring blooming plants until after they bloom. She said "chloroform" is an outstanding insecticide for killing all types of pests but that it must be used with proper caution in a vegetable garden. She also demonstrated the right way to trim rose bushes.

Mrs. Larry Rider, yard demonstrator, showed the members landscape plans she had made for her yard. She gave a ten-minute demonstration on equipment needed for yard care. She named spraying fork, dust spray for getting under the leaves of plants, small weeder and the small hand garden tools. She also mentioned the rake and the water spray.

Mrs. Jack Prather gave the council report and told of the 35 mm camera the council had bought and will be available for club use in home demonstration work.

Mrs. A. T. Cobb and Mrs. D. T. Priel were appointed to serve as 4-H sponsors with Mrs. Curt Butler.

Mrs. Cobb, recreation leader, led the group in an Irish game. Mrs. Cobb reminded members of the St. Patrick's party on Friday night at the Coltexo Community Hall. Refreshments were served to those mentioned and to Mesdames Jennie White, A. H. Brewer, B. D.

## The Social Calendar

## Kentucky Places Two on AP All-American Squad

NEW YORK (AP) — Two players from the South, and one each from the East, Midwest and Rocky mountains make up the 1949 Associated Press All-American basketball team.

This geographically representative quintet contrasts sharply with the 1948 five which was dominated completely by the Midwest. Last year four cagers from the midlands were on the first team. Kentucky's NCAA champions and the nation's No. 1 team, contributed the two players from the South. Alex Groza and Ralph Beard, Ed Macauley, of St. Louis, is the Midwest representative. Tony Lavelli, of Yale, represents the East and Vince Boryla, of Denver, the Rocky Mountains.

Beard and Macauley are leaders from the 1948 team. Key players from the East are Kevin O'Shea, of Notre Dame, and Jim McIntyre, of Minnesota, selected on the 1948 first team, only made the third team in this year's voting by 409 sports writers and broadcasters throughout the nation.

Groza and Lavelli, seniors like Beard and Macauley, each moved up a notch from the 1948 second team.

Wah-Wah Jones, another member of the Kentucky team and the U. S. Olympic squad, was named on the second team along with Dwight Edlemann, of Lincoln; Bob Harris, of St. Louis; and Ernie Vandeweghe, of Georgia.

Ernie Vandeweghe, Georgia star, topped a third team which

## Arkansas and Arizona Win

DALLAS (AP) — Arkansas and Arizona, who were picked to take the count in the first round, meet tonight for the right to represent District 6 in the National Collegiate Athletic Association Basketball Tournament at Kansas City.

It was a night for the underdogs to howl as Arkansas trounced a nemesis, Rice, 50-34, and Arizona upset Baylor 55-47.

Rice was a heavy favorite, having beaten Arkansas twice during the season Baylor, which wound up in a tie with Rice and Arkansas for the Southwest Conference championship, was the general favorite to trim Arizona, title team of the Border Conference.

Both games were rough with a total of 34 fouls in the Arkansas-Rice tussle and 38 in the Arizona-Baylor engagement. Bob Ambler, Arkansas center, was put out of the game before it was five minutes old for hitting Bob Foley, Rice guard.

Only once was Rice ahead. That was a brief period midway of the first half. Ken Kearns, all-Southwest Conference guard, paced the Arkansas attack with 15 points. By Mike Schumchik, Arkansas guard, did a great job of guarding Ball Tom, Rice's high-scoring center, and also got in some grand work under the basket taking the rebounds.

Little Leon Elbins rammed in 25 points, scoring from all angles, to give Arizona its upset triumph over Baylor. The Bears were ahead only once, also, and it was in the first half. After the intermission the Wildcats were out front all the way except when the score was once tied.

A crowd of 3,700 turned out to see the two games at the recreation building.

Tonight's game will be at 8 o'clock and the winner will go to Kansas City March 18 and 19 for the Western Regional NCAA Tournament at Kansas City.

Radioactive carbon-14 loses half its radiating power in 5,000 years.

also includes Dick Schnitker, of Ohio State; Meyer Skoog, of Minnesota; and O'Shea and McIntyre.

Thirty-five others earned honorable mention.

## 6-Man Tag Match Feature Attraction Friday Night

### Golfers Form a Golfing League

Tuesday afternoon, at Amarillo, the Panhandle Men's Amateur Golf Association was formed by members and club professionals of five clubs in the Panhandle. A sixth club, Lubbock, is a member, but had no representative present. The five clubs in attendance were the Pampa Country Club, Ross Rogers Country Club of Amarillo, Plainview Country Club, Phillips Country Club, and the Huber course at Borger.

The purpose of the league is to establish an active team competition among the courses in the area, with a floating trophy as the prize. The teams will meet once a month, on a Sunday, at one of the member clubs courses. The play will be handicapped play, with the home club pro handicapping his players.

The months at which the tournament will be held at the various courses are: April at Ross Rogers, June at Phillips, July at Lubbock, August at Pampa, September at Huber and October at Plainview. Minimum green fees will be established by the Rules and Bylaws committee which will meet later this month. Members of the committee are John Austin, Pampa; Joe Houck, Huber; Chuck Keim, Ross Rogers; and H. L. Bradley, Pampa.

Officers elected to head the association were H. L. Bradley, amateur at Ross Rogers, president; Gene Mitchell, Plainview professional, secretary-treasurer; Joe Houck, Huber professional, tournament chairman.

In addition, each professional selected one amateur as club director. Johnny Austin named Russell Holloway as his choice; Joe Witt was named at Ross Rogers; Jack Garrett, Top o' Texas Invitational champion, at Plainview; Guthrie O'Neal at Phillips; and Frank Elmore at Borger. Johnny Austin also made ar-

rangements with the Amarillo Country Club professional, George Aulbach, to have both a high school and junior high school golf team ready to meet Amarillo teams here the 18th of this month. This will be the first active team golf competition of the season here.

The local wrestling fans will be in for an exciting night of action tomorrow at the Sportatorium. Promoter Vic Burnett will offer, as the feature attraction, a six-man tag match, the roughest and wildest event in the wrestling world. This sort of an attraction has been banned in many states because of its furious action which is so fast the referee (or referees) is unable to keep up with it.

Participants in this big battle will be on team number one, Dory Funk, Alex Kasaboski and Olan Boynton. Team two will be composed of Buck Weaver, Balk Estes and Billy Sandow. It will be a welcome home to several of these boys who haven't been here in a long time. Funk, who has been absent for a couple of months from local wrestling circles, gave that wiry Canadian, Monte LaDue, a going over in Amarillo last week with fists, radio microphones and chairs. Fans can come down and thank him for the favor he did.

As further entertainment for the fans, Weaver and Boynton will do a thirty-minute stint in the semi-windup and Funk and Estes are slated for a 15-minute opening preliminary event.

How many referees will be used has not been determined, but Burnett said he would probably use one, as it will make the tag match faster and wilder. The opening bout will start at 8:15.

Radioactive Iodine-131, which is being tried for treatment of cancer of the thyroid gland, loses half its radiating power in eight days.

regiments with the Amarillo Country Club professional, George Aulbach, to have both a high school and junior high school golf team ready to meet Amarillo teams here the 18th of this month. This will be the first active team golf competition of the season here.

## Roundup Club Boxers Slug Way to 4 Victories at Plainview Mitt Tourney

The Roundup Club for Boys threw the leather around madly last night at the Plainview boxing tournament, scoring four wins in five fights. Three of the victories were before one minute of the first round had elapsed. The four victories put the team ahead on points for the team trophy.

In the first fight of the evening, James Claunch KO'd Bill Chapman in 60 seconds of the first round with a hard right. This fight was in the 135-pound class.

In the 126-pound class, Barton Lockhart hit buddy Mayfield, Olton, with two lefts and three hard rights to score a TKO after only 33 seconds of the first round had passed.

In another 126-pound bout, Jim Bill Windsor scored the fastest victory of the night as he TKO'd Jimmy Bain, Plainview, in only 23 seconds of the first round. Windsor used his usual flurry at the bell to gain the victory.

The only Pampa boy to lose his match last night was Charlie Smith in the 135-pound class. This was one of the fastest and closest fights of the night. The decision could have gone either way, but Smith lost it to Jimmy Olds, Plainview.

The fifth Pampa boy to fight last night was Paul Tollison, who earned a decision over Glen Williams, Plainview, in the 135-pound class. Tollison is one of the most vastly improved boxers on the team as a result of his nightly workouts at the Roundup Club headquarters, at the Sportatorium.

Tonight's schedule: 112-pound class: Jimmie Bennett vs. Jerry Jones, Sudan. 118-pound class: James Claunch vs. Glen Looney, Plainview. 126-pound class: Barton Lockhart vs. Richard York, Wichita Falls. 126-pound class: Jim Bill Windsor vs. Berry Howard, Wichita Falls. 135-pound class: Paul Tollison vs. Ken Hamilton, Amarillo.

The only Pampa boxer who will not have seen action after tonight's matches will be Leon Kelley who is scheduled for his first fight tomorrow night.

A team match with Lakeview has been arranged by the Roundup Club for next Tuesday night at the Sportatorium. This will be the first fight card here in a long while, and a chance for the local boxing fans to see the improvement in the boys since they started their daily workouts at the Sportatorium.

### Tech Enters Semi-Finals

KANSAS CITY (AP) — Hamline University's Pied Pipers emerged as a slight favorite today to win the NAB title, mainly because of center Verne Mikkelsen and forward Hal Haskins.

Mikkelsen, a 6-foot 7-inch scoring marvel, and Haskins, 6-2, each is making his third start in a National Association of Intercollegiate Basketball Tournament. They will lead the St. Paul, Minn., team against Texas Tech at 9:05 p.m. (CST) in the feature of tonight's four-game quarter-final card.

Mikkelsen, used sparingly as Hamline last Indiana Central of Indianapolis, 83-66, in second round play yesterday, still scored 13 points.

Haskins poured in 12 field goals and 5 free throws for 29 points.

Texas Tech, which has plenty of height in its own lineup, advanced to the quarter finals by beating North Dakota University, 62-57.

Beloit (Wis.) College, Hamline's outstanding rival in the upper bracket, will take on the surprisingly strong Eastern Illinois College, of Charleston, tonight.

Regis College of Denver, one of the taller teams in the meet, beat St. Thomas of St. Paul, 53-52, last night and will play the Northwestern Louisiana State Demons of Natchitoches. Northwestern eliminated Brigham Young University, 59-57, yesterday.

The rugged Emporia (Kas.) State Hornets meet Indiana State of Terre Haute, in tonight's final game.

**WARREN'S WARM UP**

By Warren Messer—News Sports Editor

**QUESTION:** In what sports besides football did Knute Rockne actively participate?

**GOLF LEAGUE:** The establishment Tuesday of the Panhandle Men's Amateur Golf Association is another step in creating and maintaining golf interest in Pampa as well as establishing friendships between Panhandle communities. Most of these cities are already brought together through high school competition and West Texas-New Mexico League baseball.

Such a golf league as this will allow any and all golfers to participate. You don't have to be a par-amasher to play, because all members will be handicapped and the men shooting the best rounds on that day, with their handicap, will be the ones selected to represent their club. No one will be playing under pressure because they won't know until they finish whether or not they will be on the team.

The number of members to represent each club will be determined when the Rules and By-laws Committee holds its meeting later this month. But it will probably be about eight of the best handicapped scores of the day.

A floating trophy award will be passed around each month to the team winning the last match, and will remain in its possession until another team is able to knock it off the throne.

The Pampa Country Club course is shaping up rapidly into fine playing condition. The sprinklers were turned on all day Tuesday, giving the greens and tees-off a fine mid-season color. New bridges have been built to replace the old ones which were washed away during the winter season.

And Warmup will vouch for the fact that the roughs are just as rough and the gullies just as muddy at the bottom as ever! He's been in them.

**ANSWER:** Knute Rockne won letters in track as well as football at Notre Dame and later coached the Irish track team. Before he got to Notre Dame, he ran a 2:02 half mile and pole vaulted 12 feet 4 inches, and AAU indoor record, for Central YMCA of Chicago. Rock also did a little amateur boxing. But he got that broken nose as a kid sandlot baseball catcher.

**DOTS AND DASHES:** Texas A&M next season will meet five teams that won New Year's bowl games. The Aggies meet Southern Methodist, Texas, Baylor and Villanova at home and encounter Oklahoma on the road.

Southern California had no less than \$500,000 in the bank from football ticket sales before last season opened. The Trojans are so enthused about bonuses such as this that they will be happy to renew their series with Notre Dame, particularly since speculation has the Irish willing to play in Los Angeles both in 1950 and 1951. The Chicago Stags are the youngest team in the Professional Basketball Association of America.

Average age of the team is 23.2 years per man. The defending champion Baltimore Bullets have the oldest age average, 28.3 proving that experience pays. Gorgeous George, the wrestler whose curly locks are "not platinum blond, not honey blond, but Lana Turner blond," paid \$750 for an ermine trimmed robe he wears into the wrestling ring.

Bo McMillin, Detroit Lion's football coach, always insists he is 38 years old no matter who asks his age or when the query is given. On Bo's birthday several weeks ago, however, some colleagues who had worked with him during the 14 years he coached at Indiana, wired: "Congratulations on your 39th birthday. Surely you feel one year older after a season in the National Professional League." James Kelteris, Philadelphia Eagle tackle, weighed in at 291 pounds for his first workout with the National League eleven. "I'm just a shadow of my old self," Jim told amazed newspapermen, mired when the Rules and By-laws Committee holds its meeting later this month. But it will probably be about eight of the best handicapped scores of the day.

are selling several thousand seats formerly booked as "reserved" as box seats for the 1949 season. Although priced a \$1 per copy, 35,000 programs were sold at the Rose Bowl game last New Year's Day. When Connie Mack gives up the reins of the A's, signed Jimmy Dykes as coach of the Athletics, he declared: "Now that Jimmy's back with me, he's not going to leave our organization—ever!" Jimmy was a star third baseman for Connie nearly twenty years ago. Now maybe Mr Mack is grooming him as his successor when he gives up the reins of the A's. Dykes had several unhappy managerial years with the Chicago White Sox.

In Hollywood

By ERSKINE JOHNSON

HOLLYWOOD (NEA) — Hollywood's biggest story that may crack any day is the rumored decision of Warner Brothers to corner the films-for-television market via an outlay of \$15,000,000.

It's all hush-hush with straight denials to anything and everything. Several big stage-like buildings are going up on Jack Warner's ranch near Calabasas, Calif.

Frank Arthur's divorce suit against Frank Ross was a surprise to everyone in Hollywood. Including Frank Ross. Despite the long separation, a reconciliation was expected.

Note from an extra: "Thanks for the kind words about the guys and gals in the extra ranks. But I believe we're more conscious of the hurt in our hearts than we are of the ache in our feet."

Director Eddie Buzzell is predicting a new career as a comedian for Esther Williams when "Neptune's Daughter" hits the screens.

Recording record: Dinah Shore's records sold 3,000,000 copies last month. At 5 cents a record, that's \$150,000 for Dinah.

Hollywood hears that Madeleine Carroll and her husband are talking about a reconciliation with the recent divorcee of her ex-husband, Vincent Price.

Revised version of Hedy Lamarr's "Ecstasy" will be launched with 3,000 feet of new film and a new title, "Rhapsody of Love."

Finnegan to Ed Gardner: "I think I'll solve the housing shortage by inventing people who don't live in houses."

Gardner: "They've been invented already—they're called veterans."

YOUNG TEXAN HONORED WASHINGTON (AP) — Robert Angstein, 16, Galveston, Texas, is winner of 1400 science scholarship in the science talent search sponsored by Westinghouse.

FUNNY BUSINESS by HERSHBERGER

"I brought it along to liven up the opera a bit!"

For Whom The Bells Toll?

National Whirligig

news behind the news

By RAY TUCKER

WASHINGTON — The same Republican farmers who deserted Governor Thomas E. Dewey to support Harry S. Truman now hold the President responsible for the 1949 break in the prices of their major products.

The farmers maintain that President Truman's concern over the prospect of higher food prices is the root of their current economic difficulties. In his campaign and post-election fixation on the danger of inflation, they declare that he has deliberately made them the major victims of his deflationary program by knocking the bottom out of their markets.

They submit facts and figures to support their complaint that key federal agencies — the State Department, the European Recovery Administration, the Army and the Commodity Credit Corporation — have sacrificed the American farmer on the altar of an expanding and ultra-benevolent foreign policy.

According to their theory, which is also shared by many manufacturers squeezed out of the foreign market through the government's give-away philosophy the State Department dictates all purchases for foreign accounts under the Marshall Plan, and ECA-er Paul G. Hoffman is only a glorified salesman.

Current production of fats has increased by one-and-a-half billion pounds beyond prewar production. There is no shortage of this commodity over here, but it is critically scarce in every European country.

A spokesman for General Luitpold D. Clum, our general in Germany, informed Secretary Brannan as follows: "There is a terrific demand for fats here. It is a crisis condition. We will take all you can give us."

But Export-Import blocked shipments until the domestic price fell below 1946 figures a few weeks ago. The restrictions have at last been lifted, but too late to repair the damage, according to producers.

MEATS — The Army has been an even more grievous offender than the State Department.

WHEAT — Administrator Hoffman's ECA also gripes the farmers. Their private inquiries at Washington, however, convince them that he cannot make a move without first getting an okay from the White House and the State Department.

ECA has fed its foreign beneficiaries with 120 million bushels of wheat bought in Canada at a time when American wheat was tumbling in price. And the Commodity Credit Corporation picked the first week in February to curtail its corn purchases by 93 percent, leading to the heavy drop in prices for all grains on February 4.

It is true that Commodity Credit still takes wheat surpluses at the 90 percent parity figure, but even this support does not provide full protection for the farmers. As CCC piles up a heavy accumulation of surpluses, Agriculture clamps acreage allotments and marketing quotas on producers. And an overhanging surplus knocks down parity payments so that growers get from fifty to sixty cents less a bushel for their major crop.

TOP O' TEXAS NEWS

Shamrock

SHAMROCK — (Special) — Mrs. John Rushing was complimented with a pink and blue shower at the home of Mrs. Aubrey Dekle last Thursday afternoon...

The Islands of the Pacific were discussed last week at the home of Mrs. Temple Watkins when she was hostess to the Athenaeum Club.

Mrs. Horace Conner, recent bride, was honored with a miscellaneous shower at the home of Mrs. Olive Wachsmeyer in the Lone Mound Community last week...

"Behind The Footlights" was the title of a program given at the home of Mrs. F. T. Boston when a group of 150 guests and members of the Times Club at her home last Thursday.

Mrs. Fred Holmes presided, "Lynn Fontaine; Katherine Cornell, 1898," was given by Mrs. T. H. Sonnenburg.

Mrs. C. R. Rowley read a cutting from the play "Allen Corn," by Sidney Howard, in which Katherine Cornell appeared.

SKELLYTOWN — (Special) — Mrs. Clifford Coleman was hostess to the Skellytown Home Demonstration Club in her home last week.

The subject of the program was mending. It was announced the next meeting, to be held on Mar. 18, will be on the subject of clothing fitting and finishing — to be demonstrated by the agent, Miss Charlotte Tompkins.

GOAT — Thus, as the farmers see it, the administration has made them the goat of its anti-inflation drive. And they will suffer even more intensely from the new taxes demanded by President Truman to stave off further inflation and to finance welfare projects which give them few direct benefits.

Whereas prices for their production have fallen four percent, the cost of things they buy has dropped only one percent. That three percent discrepancy can mean the difference between good times and bad times on the farm.

Virginia Lee Pope was honored Saturday with a birthday party by her mother, Mrs. G. A. Pope, at the family home, Virginia Lee is 10 years old. Ice cream, jello, and cherry cake were served by Ann Kramer, Margaret West, Jean West, Janet Russell, Sherry and Gary Osborne, Howard Farley, Judy Rhodes, Calvin Badonko, Carolyn Horner, Nancy Grant, Larry Osborne and Claudine McCoy as guests.

QUICKIES By Ken Reynolds

"Say! I think I'll get my wife some flowers too! — how much extra does the florist that uses News Want Ads charge for the bee?"

Incentive Is Not Entirely Lost

"The nation's workers are putting more elbow grease into their jobs these days. That is how the Wall Street Journal sums up the result of its countrywide survey of industry. In mining, lumbering and manufacturing, both light and heavy, employers report that individual efficiency and productivity are approaching the prewar level, and in some cases have attained it.

Various reasons are advanced: greater selectivity in hiring is now possible, more experienced workers are back to their old jobs; new workers are becoming seasoned; fear of layoffs and cutbacks is spurring workers to greater effort. Better machinery, better employee relations, and incentive systems are also mentioned as stimulants to higher production.

This is not surprising news. The sellers-market honeymoon is drawing to a close for employers as well as employees. High costs and easing demand are calling for general tightening up. Supply has caught up with demand in the labor market, too. There is now competition for jobs as well as for markets.

But this news, though not surprising, may arouse indignation in some quarters. It will be argued that there must be no insecurity of employment. It should be the goal of our business community and, if necessary, of our government, that everyone who wants to work has a chance to work and a chance for advancement. That is as much to the interest of the manager as the worker.

But that should not mean that unions or government becomes so protective as to put no premium on zeal and ability. It should be no excuse for featherbedding. For security without effort leads to stagnation.

That may seem like an old, fogeyish argument. But America's industrial pre-eminence is due in no small part to the fact that there has been a close relationship between a worker's industry and his reward. That relationship has not always been unclouded by prejudice and discrimination.

Many barriers to fair-dealing and opportunity for the worker have been removed in the past few years. Some of the gains were made in the unnatural business conditions of wartime. Since the two did not naturally separate themselves, it is not surprising that some of the newer members of labor force got the idea that the acquisition of new rights and the discarding of old responsibilities were part of the same pattern.

It is heartening to see that the American people are beginning to show an unwillingness to stand by and see destroyed the one thing that has made America what it is. That one thing is — incentive.

The work-day has been shortened, and the pay has been increased, but the basic relationship of responsibility to reward should not be forgotten.

Four French kings were born in the old Chateau of Fontainebleau, still standing near Paris.

What's Going On...by Upton Close

What is going on in China? Are victorious Communist leaders organizing the resources of the world's fourth largest nation and the people of its second most populous (after India) to join Moscow's crusade to conquer the world for the Marxist bosses? The answer is "No." Have no such scare. China remains China, a mess, and no danger to anyone outside save through tempting them to come in.

But of China north of the Yangtze River. To accomplish this, Mao and Dju had to take in a lot of heads of other bandit gangs, potential rivals. Under all these guerrilla leaders are tens of thousands of soldiers with little discipline, in it for "rice" and loot. There has been little to loot. North China has been ravished too often. But to every soldier, victory and loot — or at least pay — are synonymous.

Now these motley troops under a half-dozen big commanders and scores of little ones, surround Nanking, the empty capital. Chiang Kai-shek pulled a trick of Chinese wisdom by shipping the government's gold and silver stocks to Formosa and himself flying out to the hills south of the Yangtze River.

Thus no one of the rival leaders around Chiang's empty capital can reach him to accept his surrender — becoming thereby the legal successor to the headship of the Chinese government and as such technically in command over his collaborators. And what's even more effective, none of them can get their hands on any gold or silver to pay his troops, or bribe his subordinates or his rivals, or back a new paper currency to start economy and government to moving again!

While the snakes thus watch the empty birchwood with more and more hunger in their gaunt eyes, and their troops grow more and more restless, Moscow looks on with cannibalistic eyes.

Twice, now, Moscow's agents in China have tried to grab off the whole country — and as a result have lost everything. Once Japan when they stopped helping, and instead tried to dominate Chiang Kai-shek himself, only to have him get the jump on them and drive out their agent Borodin. This was in 1927. The earlier time when Moscow tried to buddy up to Sun Yat-sen and his northern rivals at the same time, and in consequence lost both.

So this time it looks as if Stalin's policy was: "Never mind Chinese or Communists. Bite off as much of China as we can and hold it."

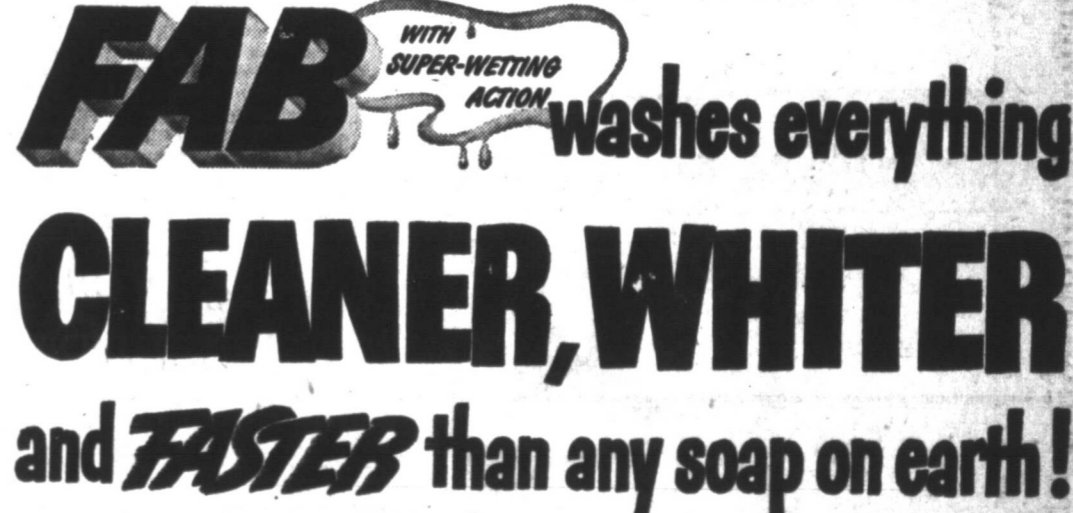

When twenty-five years ago Chinese disciples of communism were beginning their hypocritical propaganda in China, Mao and Dju appeared to the peasants a smart cookie named Li Li-san said to heck with peasants, organize the workers. He made a lot of labor trouble around Shanghai, and got many workers and police shot. Mao and Dju pushed him out, and Moscow called him to home base for "indocination."

But while Mao and Dju dance around the Nanking birchwood, Li is back in Manchuria. With Moscow backing, Manchuria, he says, must be a separate nation, and become a member of the Union of Soviet Socialist Republics instead of part of China!

Chiang Kai-shek finally joined by us, fought the Japs to the ruin of both Japan and China. He then gave Manchuria to Japan. But now good Communists Mao and Dju (both Moscow-trained and Marx-loyal) must give it to Russia or find themselves damned by their own "church" and in worse shape than Tito. Manchuria is the only "paying" part of China.

So cheer up about Chinese Communists conquering the Pacific and then America! China is a feather-bed which has never failed in 4000 years of history to smother to death those who fall into it. Watch out for American 'socialists' conquering America! They are far more dangerous to us than Chinese Communists.

Colgate-Palmolive-Peet's Fabulous Washing Discovery

FAB washes everything CLEANER, WHITER and FASTER than any soap on earth!

Yes, in hardest water, FAB washes all family wash faster, cleaner, whiter and brighter than any soap ever made!

Cleans even grimmest overalls cleaner faster than soap! When you wash FAB with Super-Wetting Action penetrates materials faster and more thoroughly, pushes dirt out! And FAB is up to twice as economical as soap in hard water. No soap suds with FAB!

FABulous SUDS IN HARDEST WATER! You can use half as much FAB as soap in hardest water...and get a tub or washer full of rich, thick, dirt-bustin' SUDS.

WASHES WORK CLOTHES CLEANER THAN ANY SOAP! FAB with Super-Wetting Action instantly penetrates materials; pushes dirt out! Even children's play clothes get cleaner by "graying" soap suds!

For all family wash and dishes

### Stewart to Act Newsmen

By BOB THOMAS

HOLLYWOOD — (AP) — James Stewart, the movie makers' idea of a newspaperman, has his pad and pencil out again.

The long drink of water from Indiana, Pa., is playing a reporter of sorts in "Operation Malaya" and he admits he is sticking his lengthy neck out. Newsmen are a touchy tribe, you know.

"I don't blame them," he told me. "And after all, they were portrayed so long as gin-slugging, lazy characters with hats on the backs of their heads and cigarettes dripping from their mouths."

Jimmy said he doesn't know why he is so often chosen to play reporters, but he doesn't mind it at all. "Newspapermen

are such complex characters, they're a challenge to play," he remarked.

The only hazard is risking the wrath of newspapermen by movie boners. His last news job, "Call Northside 777," had a whooper. Reporter Stewart slipped some paper into the typewriter and put a headline on the story before he wrote it. (Reporters don't write heads on metropolitan papers.)

"That was put into the picture by the insert department after we finished it," Jimmy related.

The director, Henry Hathaway, said he would give his right arm up to here if he could have the shot out of the picture.

Jimmy said many newsmen commented sourly on that inaccuracy. (The typewritten copy was single-spaced, too!) There were also fears about the luxury of the reporter's apartment.

The actor started his film career in 1935 as a reporter in "Murder Man." Besides "Northside," he has also legged it in "Next Time We Love" and "The Philadelphia Story," for which he snagged an Academy award. He admits he was only a quasi-reporter in the latter, working for a newsmagazine.

Small victims of a tornado tell their story to a Red Cross disaster worker in a temporary shelter where they are being cared for by hundreds of others whose homes were destroyed by the storm.

### Traffic Safety Campaign Will Be Expanded

HOUSTON — (AP) — Texas' 1948 traffic safety campaign will be carried to the cross-roads of every county in the state, the president of the Texas Safety Association said here.

Charles A. Miller, Houston, in a presidential report before the opening session of the Tenth annual Texas Safety Conference, said "what we want is a united public will for action in every community."

The association president said a new low in the state's mileage death rate was established last year.

"The 1947 rate of traffic fatalities had prevailed in 1948," he said, "last year's traffic deaths would have reached a spectacular new high of 2218. Instead, 145 lives were saved. The economic loss was \$5,818,000 less than it would have been at the 1947 rate; 12,180 accidents were prevented, and 4205 injuries prevented."

### Merger Said Not Practical for Navy

DALLAS — (AP) — The attractiveness of the word "merger" is misleading, Rear Admiral R. F. Whitehead, chief of Naval Air Reserve training, said in an interview here.

The naval official believes it

would be impractical to merge the Navy Air Force and the Air Force.

"Just as in government, each department has separate values and duties, so it is with armed forces. One branch of the services can't take an island without help of the others."

### Brazos, Angelina Dam Funds Sought

WASHINGTON — (AP) — Five Texans have asked Congress for funds for flood control dams on the Brazos and Angelina Rivers.

Texas Reps. Pickett and Combs, Democrats, asked a House appropriations subcommittee for \$300,000 for advanced planning of the McGee Bend Dam project on the Repe. Teague and Poage, both Texas Democrats, and Fred Husbands, manager of the Waco Chamber of Commerce, asked the subcommittee for \$14 million for work in the year starting July 1 on Whitney Dam on the Brazos amount.

### Texas to Get 29 Displaced Persons

WASHINGTON — (AP) — The Army Transport General Sturgis is due to dock at New Orleans March 14 with 843 displaced persons from Europe.

Louisiana is listed as the destination of 251 of those aboard.

Destinations of others include Texas 29.

### Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Get your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give better relief and will help the 16 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

### Swallows at San Juan May Be Short

SAN FERNANDO, Calif. — (AP) — The swallows will come to San Juan Capistrano Mission on St. Joseph's Day, March 19, as always but they may be 2,000 short in number.

Police Lt. Christ Pfaff said that an advance scouting party of the birds landed here and took up abode—at the San Fernando jail farm.

### Leaves From a Correspondent's Life Note Book

By GEORGE TUCKER  
 NEW YORK —(AP)—Max Gordon is not a man for small talk. "Nothing older than yesterday is worth talking about," he said. Now Max Gordon is a famous theatrical producer. He is a man of the world. Statesmen on both sides of the ocean are his confidants. Twice he survived nervous breakdowns. Once the stock market wiped him out. With his background, Max ought to be able to charm the

birds out of the trees if he wished. He has everything a great conversationalist needs—years of rich experience, friends of distinction. But he doesn't go in much for idle conversation. He volunteers nothing. Max was born in the slums of the East Side and his father was a pants presser. He began in burlesque, booked acts for vaudeville, and finally became an independent producer in 1930. Since then his judgment has backed between 60 and 70 shows, among them "Roberta," "Design for Living," "His Master's Voice," "The Shining Hour," "The Great Waltz," "Jubilee," "The Women," "Abe Lincoln in Illinois," "Dods-worth," "My Sister Eileen," and "Born Yesterday." So I went to see him the other day and asked him to talk about himself.

"What's there to say?" "Oh, come now, nobody could put on that many plays without having things happen!" "They've been written." "Didn't you once try to get Walter Huston to play 'Dods-worth'?" "Didn't they say he was in Washington? Didn't you ransack the hotels, looking for him?" "And after you had failed, didn't you run into Huston out riding?" "Didn't you close the deal on horse-back?" "Yes." "What happened?" "Just what you said happened." Gordon is a sturdy, compact man, with owl eyes. They are wide open as he stares at you. He has a framed message from Winston Churchill on the wall, and a picture of Bernard Baruch. He also has two telephones on his desk, and when they ring he sits there quietly, a receiver at each ear, until the calls are com-

### New Labor Law Still A Long Way Away, Writer Asserts

By JAMES MARLOW  
 WASHINGTON — (AP) — We're still quite a distance from having a new labor law. We may not have one for a couple of months. And no one at this minute can predict what it will look like. But by this time maybe you're confused on the whole subject because so much already has been said and written about it. So here's a review on what's happened and what lies ahead. In 1935 the Democrat, then in control of Congress, passed the Wagner Labor Act. Labor liked it. Employer didn't. Came 1947 when the Republicans controlled Congress. They passed the support of labor, which was sore at the Republicans, then the Democrats promised to wipe out the Taft-Hartley Act and restore the old Wagner Act if they won. They won. After this new, 81st Congress opened up in January, President Truman's Democratic advisers offered a bill to knock out Taft-Hartley and bring back the Wagner Act. As soon as the bill was introduced it went to the Senate and House labor committees. Almost at once the Senate committee began hearings. These lasted for weeks. And on Friday the committee approved the Democrats' labor bill, unchanged. This was easy to do. The Democrats outnumber the Republicans on the committee, 8 to 5. Monday the House Labor Committee, where Democrats outnumber the Republicans, 16 to 9, began hearings on the bill. The result there probably will be the same as in the Senate committee. Then both houses have to vote. But the bill may be changed on the floor of both houses before it is passed. Then he hangs up. This happened while I was there, but he changed the routine. He said, "Okay, I'll meet you in ten minutes." He swung his chair around to me. "This has been going on twenty minutes. How long will it last? I'm hungry." "The casual luncheon that would have provided Alexander Woolcott with four Sunday night broadcasts didn't either, did it, Mr. Gordon?" "It begins to look as if no luncheon is going to happen to me." But it did. I hope Max got a good one. With plenty of talking serum sprinkled in his coffee.

### Harris County Barge Ticketed for Parking

HOUSTON — (AP) — The Harris County Commissioners Court has something in common with many harringtons — an overtime parking ticket.

The U. S. engineers, in a letter yesterday, told the court a barge left in Cedar Bayou is a menace to navigation. In their request to move the barge, engineers outlined a list of penalties ranging from fines to incarceration for those careless with floating equipment. Commissioners decided to move the barge. It had been used as a ferry until lack of traffic led to its retirement last year.

**PRIESTS CONVICTED**  
 BUDAPEST — (AP) — Two Roman Catholic priests were convicted and imprisoned today, one of them on charges linked with the case of Josef Cardinal Mindszenty. The peacock is a native of India where it is held in great reverence by the Hindus.
