LAMESA — (P) — Two men have been charged with aggravated assault after School Principal Ray Culp was badly beaten at home here last Friday night. Earlier that day, Culp had whipped a son of one of the men as a matter of school discipline. County Attorney Vernon Adcock said the men charged were D. Taylor, a farmer, and Jack Aldridge, a trucker. Adcock said he charges were filed in County Judge R. W. Herndon's court Taylor was released on \$1,500 bond and Aldridge on \$1,000, Adcock said his investigation howed the following occurred: Culp struck Taylor's son five imes with a rubber hose after the boy ran through a second-floor hall in the school building shouting. The principal said he had previously disciplined the boy several times.

Friday night, two men appeared at the Culp home. One beat Culp severely while they were on the front porch. The other held Mrs. Culp when she attempted to go to her husband's aid.

Culp was treated at a local hospital for a badly cut forehead, bruises and three broken ribs. He had returned to his home today.

Here's the truth about diesel locomotives. Diesel locomotives are equipped with every modern device for maximum safety. They have automatic controls. They can be operated safely by one man. But two men-an engineer and a fireman-are now employed on a diesel road locomotive. Diesel locomotives-adopted by the railroads as one way of improving their service to you-have hauled millions of passengers in recent years with one of the best safety records in railroad history!

They have pulled millions of tons of freight millions of miles-also with one of the best safety records in railroad history!

Full Pay-No Work!

Leaders of the Brotherhood of Locomotive Engineers and the Brotherhood of Firemen and Enginemen are now demanding an extra engineer and an extra fireman on diesels, claiming the extra men are needed. But the facts prove these men are not needed. They would just be drawing full pay for doing no work.

The railroads are placing an ever-increasing number of diesels in serviceboth passenger and freight. These trains are

operated at speeds consistent with safety and good service - and on both counts their record tops all public transportation.

Feather-Bedding Is Against **Public Interest!**

If the ridiculous demands of these union leaders were granted, it would mean paying out millions in wages to men not needed in diesel locomotives.

The leaders of the Engineers' Union have threatened to call a strike to enforce their "feather-bedding" demands. Nevertheless the railroads are resisting-and will continue to resist-such "make-work" schemes which require payment for work not done-schemes which are contrary to HERE ARE THE FACTS!

1. The safety record of trains pulled by diesel locomotives is the best of all public transportation.

working conditions locomotive engineers and firemen have ever enjoyed: comfort, cleanliness, ease of operation, maximum safety.

at peak operating efficiency.

is equipped with the most modern safety appliances. 5. The diesel locomotive is the last word in railroad efficiency, safety and comfort.

2. Diesel locomotives provide the best 3. Diesel locomotives are maintained 4. The diesel is virtually automatic. I
