31. Balance of tax overpaid, \$

32. Balance of tax due, \$

Next to Defense Activities Pamphlets are now busily engaged in preparing to file their income tax returns, but like the man in the picture above they are doing it with a smile, knowing that their money will be spent to whip the Axis. The deadline for filing is March 15.

Eyes Of Both Japs, Allies Turn Toward Seething India

Supt. Cryer Named Berger School Head

C. A. Cryer, who for the past nine years has been superintendent of schools at McLean, has been appointed superintendent of schools at Berger to succeed W. A. McIntosh who has been serving in that capacity for seven years.

The new superintendent will begin his duties on July 1, at which time McIntosh's contract expires. Supt. Cryer is one of the outstanding educators in the state. He has been active in the state education program, being a member of the executive board of the state teacher's association. During his nine years at McLean the McLean schools have advanced both scholastically and in their athletic program.

Supt. McIntosh is chairman of the District 1 executive committee. Supt. McIntosh made the following statement in regard to the change: "Seven years is long enough for one man to be superintendent of schools in Berger. This is more than twice as long as any other superintendent of schools has served in Berger."

"I do hope that the new administration may achieve wonderful success with the Berger public schools. My very best wishes go to the new superintendent of schools and to the school board in solving the many problems that must be solved for 1942-43 in the future."

Army Manufacturing Plant Announced by Worley's Office

Congressman Gene Worley's office in Washington today telephoned The News that a manufacturing plant to cost in excess of five million dollars had been located in Texas by army engineers.

Location of the plant is already generally known in this community, but it cannot be announced in a newspaper or over the radio under rules laid down by the war department which has announced that such information would jeopardize defense plants. Also the type of plant is generally known but can't be announced.

The huge government war contract is the first to be announced by Congressman Worley's office. Pampa machine shops are expected to benefit by reason of the plant being located in Texas in that they hope to obtain contracts.

WASHINGTON, March 10 (AP)—The war department announced formally today the following contract awards and construction authorization for production plants and army engineers.

Ratner Suggests Pipeline Changes

TOPEKA, March 10 (AP)—Harold I. Ickes, federal oil co-ordinator, had a suggestion today from Governor Payne Ratner to convert pipelines east of Chicago to transport refined petroleum instead of crude to ease the threatened oil shortages in the east.

The governor in a telegram said the plan would practically double overnight the gasoline and fuel oil deliveries from the mid-continent field because it takes approximately two barrels of crude to refine one barrel of the finished product. "If rationing goes into effect and the transportation bottleneck is not solved," said Ratner, "refineries in Kansas and other states will be unable to operate at full capacity to help meet America's needs."

"Unless gasoline and fuel oil are moved into the areas where shortages develop, then the whole industrial economy of our nation, based on the internal combustion engine, will be upset."

Prof. C. P. Thompson

Aggie Prof To Speak At C-C Banquet Here

A professor of animal husbandry and one of the outstanding humorists and after dinner speakers in the southwest describes Professor C. P. Thompson, above, professor of animal husbandry at Oklahoma A. & M. college at Stillwater, who will be the principal speaker at the Pampa Chamber of Commerce dinner Thursday night at 7 o'clock in the basement of the First Methodist church.

The dinner is being held at night to honor boys who entered baby beehives and hogs in the Gray County Junior Livestock Show last week. The dinner will be substituted for the regular monthly luncheon. Members of the Pampa Junior Chamber of Commerce will attend.

When a person thinks of a professor of animal husbandry he thinks of a man who talks of nothing but cows, pigs and other animals. But that is not Prof. Thompson. The 100 Pampa oilmen who heard him speak at the annual meeting of the Panhandle Producers and Royalty Owners association last year will be present to hear him talk again, according to Mel B. Davis who was president of the association at that time.

Prof. Thompson is not only one of the outstanding humorists in the southwest, he is a forceful speaker as well and when he says something serious it "hits his audience between the eyes."

Alaskan Highway To Be Completed In Year, Says Ickes

WASHINGTON, March 10 (AP)—Interior Secretary Ickes said today present plans call for completion "within one year" of the United States-Alaska highway.

"The road," he reported, "will be protected from the sea by alpine country unpassable for airplanes for at least fifty per cent of the time due to coastal fogs and storms. Along this route trucks and tanks could move easily and quickly in a continuous line between the United States and Alaska."

MANY TROOPS INJURED IN HEAD-ON TRAIN CRASH—Soldiers, civilians and a nurse lift a badly injured army recruit from a wrecked train to an ambulance, right, after a head-on crash between a troop train carrying 230 recruits and the Frisco's Will Rogers train, Granby, Mo. Three trainmen, four soldiers were killed and more than 40 soldiers and passengers injured. Wreckage of the trains is shown at left. Photo passed by army censor.

Dominion Status For India A Certainty

WAR BULLETINS

LONDON, March 10 (AP)—Assignment of Admiral Harold B. Stark to London as commanding officer of American warships in European waters caused speculation in naval circles today as to whether the United States might be planning to increase its naval strength across the Atlantic. These sources said they considered it obvious that an officer of such high rank as Admiral Stark would not be sent to London unless some new development of naval importance were in the offing.

WASHINGTON, March 10 (AP)—A Japanese light cruiser shelled the port of Cebu on the island of the same name in the Central Philippines, the war department reported today, but only slight damage was inflicted on the city.

LONDON, March 10 (AP)—RAF bombers set fires, some of them of "great size," in a heavy attack last night on the German industrial city of Essen, site of the Krupp munitions works, the air ministry reported today. It was the second successive night attack on Essen. Three British bombers were reported missing from operations which included attacks on other objectives in the war-important Ruhr valley.

26 Register For CPT School Here

Twenty-six registered yesterday for the proposed civilian pilot training course here. Earl Densmore, contractor, said that 50 or 60 applicants were needed. Applications can be made at the Chamber of Commerce office.

Mr. Densmore announced this morning that the men would be required to drill once a week. He also said that unless the town paid for five scholarships, at the rate of \$35 each, it would not open the school. Deadline for registration will be tomorrow night. Mr. Densmore will leave for Fort Worth Thursday to obtain authorization for the school and for the physical examinations.

Temperatures In Pampa

6 p. m. Monday	68
9 p. m. Monday	54
Midnight Monday	42
6 a. m. Tuesday	37
7 a. m. Today	39
8 a. m. Today	39
9 a. m. Today	37
10 a. m. Today	48
11 a. m. Today	52
12 Noon Today	61
1 p. m. Today	67
2 p. m. Today	69
Monday's maximum	68
Monday's minimum	27

To finish the course, students must complete 45 instead of 35 hours, as was required in the previous CAA schools here.

Under Mr. Densmore's contract with the government, he will receive around \$35 for each student and will furnish planes and instructors.

Japs Mapping Super-Drive On Bataan

Australia Keeps Watch For Nip Invasion Armada

Threats of a "revolt" by British-ruled India's 75,000 British troops further complicated the Allied effort in the Far Pacific war theater today as Japanese troops surged on toward the irascible oil fields and the fabulous riches of India.

Rangoon itself, the Burmese capital, was a city of fire-blackened ruins. On other fronts: 1. The battle for Java was apparently a closed chapter, with Japanese forces occupying Bandung, former Allied military headquarters, and presumably the big Soerabaya naval base.

Dutch army officers said it was believed the Japanese had landed 50,000 reinforcements on Java last Saturday and now had three divisions (perhaps 75,000 troops) near Soerabaya alone. Blacked-out communications held the extent of any fighting which might be continuing.

Aneta, the Dutch news agency, said N. E. I. officials were working out plans for continuing the struggle against Japan from outside the overrun Indies and declared "new machinery" for that purpose would soon be set up in "certain parts of the world."

2. In the Philippines, Japan's assignment of her most successful army commander to lead the campaign against Gen. Douglas MacArthur's heroic defenders indicated that a supreme attempt was forthcoming to wipe out American Filipino resistance on Bataan peninsula.

3. Australian planes kept sharp watch for the expected approach of a Japanese invasion armada toward Australia from New Guinea, where the enemy had already established two beachheads on the Australian-mandated island.

Home Nursing Class Will Start Tonight

Another Red Cross Home Nursing class will be started tonight at 7:30 o'clock at 501 East Foster avenue. There are six vacancies in the class.

Women desiring to take the course are asked to call Mrs. R. T. McNally, telephone 1992, by 7 o'clock tonight in order that she may enroll them in the class which will be taught by Mrs. Chet Henry. Classes will be held on Tuesday and Thursday nights.

I SAW . . .

Dr. H. L. Wilder and he said that he had 22 calls for the pups which were mentioned in this column yesterday. . . Maurice Heard has been reading his fan mail, stacks of it, with one eye since he got shot in the eye with a rabbit. The other eye is bandaged up. He was in the hospital several days. The story of Maurice's freak accident went out all over the country. He was injured when the backfire of a pump-hose engine blew a rabbit thru an exhaust pipe through which Maurice was looking. It happened the day before he planned to join the navy.

Good care eliminates wear. Let us lubricate your car regularly. Call Paul V. Clifford's Service, Ph. 1129.—Adv.

Look at your hat, everyone else does. Roberts, the Hat Man.—Adv.

Conference On Naval Strategy Scheduled

Wanna Whittle For Uncle Sam?

Hey, all you whittlers, here's a chance for you to do something useful with your hobby. You can join the pupils in Pampa schools in building 200 model airplanes between now and May 29 for the navy bureau of aeronautics for use of military forces and civilian defense.

Accurate scale model aircraft have proved the most helpful training device for recognition of aircraft, range estimation and determination of cones of fire. For this reason the navy and army and civilian defense groups needs thousands of them.

UNCLE EF

It's easy enough to go around rapping "What's the matter with the British?" as had news comes in. But don't forget that England is now paying for time that was lost during a period when they talked about the "phony war" and failed to knockle down to business while arguing about wages and hours. Some of our home news has a terribly familiar ring at times.

I HEARD . . .

Recommends that every man and woman in this section attend the Pampa Chamber of Commerce dinner Thursday night at 7 o'clock in the basement of the First Methodist church when Prof. C. P. Thompson of Oklahoma A. & M. college, Stillwater, Okla., speaks. Prof. Thompson is one of the most humorous and yet inspirational speakers this corner has ever heard. He "lays his audiences in the aisles" with his jokes and while they're in that mood he "slaps them between the eyes" with a message they never forget. A number of Pampans drove 120 miles to hear him speak last year and they said they would have driven twice that far.

New Dates For Lions Minstrel Show Announced

New dates for the Lions club annual minstrel show were announced today as Monday and Tuesday, March 30 and 31.

D. L. Parker, publicity chairman for the show, said this afternoon that the change had to be made when it was learned that two of the show stars, Drs. Calvin Jones and Malcolm Brown, would be out of the city on the first dates.

This year's minstrel, directed and staged by Ken Bennett, will be different than any other Lions' show, Parker said, and will carry out a stirring patriotic and victory theme from beginning to end.

More elaborate and more spectacular than any previous home talent show, that's the way the advertised information describes the 1942 minstrel.

Arthur M. Teed, Pampa attorney and prominent civic worker, will be the interactor. Capt. Jack Smith of the Salvation Army will be one of the new end men.

Jap Atrocities In Hongkong Recounted

LONDON, March 10 (AP)—Foreign Secretary Anthony Eden charged in the house of commons today that the Japanese army in Hongkong had been guilty of wholesale atrocities in the occupied crown colony and declared that the Japanese emperor and government "were to blame."

Fifty British officers and men were bound hand and foot and then bayoneted to death following the capture of Hongkong; women, both European and Asiatic, were raped and murdered, and one whole Chinese district was declared a brothel without exception for the status of any of the inhabitants, Eden declared.

These happenings, previously reported to the government, were not made public until it had confirmation from reliable eyewitnesses recently escaped from the colony, Eden said.

Their testimony established the fact that the Japanese army at Hongkong perpetrated against their helpless military prisoners and civil population without distinction of race or color the same kind of barbarities which aroused the horror of the civilized world at the time of the Nanking massacre of 1937, Eden continued.

He referred to the Japanese capture of the former Chinese capital on Dec. 13, 1937.

Substantiated accounts at that time said a reign of terror existed for days, with thousands of women raped and murdered and other thousands of the inhabitants killed during the burning, looting and pillage of Nanking.

Japanese statements at the time

Monthly Social Entertains Members Of Euzelian Class

Euzelian class members of First Baptist church met Monday afternoon in the home of Mrs. H. M. Latta, 1309 Charles street, for a monthly social.

Mrs. Taylor Named Honoree At Bridal Shower In Miami

MIAMI, March 10—Mrs. Lee Taylor, who was formerly Miss Shirley Cantrell, was honored at a miscellaneous bridal shower recently in the home of Mrs. Dan Kivlehen.

for tea... or anytime—pinwheels the KARO way. You've dreamed about biscuits like these—tender pinwheels with luscious fruit and spice filling in every "curve"... They look complicated, but they're really easy to make. Treat the family to a batch tonight. PINWHEEL BISCUITS: 2 cups all-purpose flour, 3 tablespoons butter, 1/2 teaspoon baking powder, 1/2 cup KARO (blue label) tea-pan cinnamon, 1/4 cup shortening, 1/2 cup prunes, drained and chopped, 1/2 cup milk, 1/2 cup canned red cherries, drained and chopped. Sit flour with baking powder and salt. Cut in shortening. Add milk slowly, to form a soft dough. Roll out on a lightly floured board into a rectangle about 1/4 inch thick... Now cream butter until softened; add KARO, cinnamon, and mix until well combined. Stir in prunes and cherries. Spread dough with this mixture; roll up as for a jelly roll. Slice into 1/2-inch pieces, and place in a greased baking pan. Bake in hot oven (425 degrees F.) 15 to 20 minutes or until browned. Makes 1 1/2 dozen tea biscuit pinwheels.

Don't Forget MAXWELL HOUSE IS REALLY FRESH—ROASTER-FRESH Maxwell House is sealed, roaster-fresh, in the Vita-Fresh vacuum tin. No air can get in—so no flavor can get out! And today in that famous blue Maxwell House tin you get more flavor for your money because... There's more flavor in the Maxwell House blend—it's far richer in highland-grown, extra-flavor coffees. All the flavor is brought out by the special "Radiant Roast" process. No waiting—Maxwell House is already precisely ground for every method—Drip, Regular, Glass-Maker. To save money and save shopping trips—get the thrifty 2-pound tin. GOOD TO THE LAST DROP! A Product of General Foods

Mainly About People

Preliminary instruction in the use of infantry weapons is occupying the time of former residents of this city who reported this week to Camp Roberts for 12 weeks basic training.

Miss Frankie Lou Kechn had as her guest Monday afternoon and evening Ralph Daniels, a member of the cappella choir of Denton. Miss Kechn and Mr. Daniels attended school together at Tulla. Miss Kechn will be presented in solo dances tomorrow afternoon and evening at the cattlemen's convention in Amarillo.

Scheduled meeting of the Pampa school board yesterday afternoon had to be postponed because of failure of a quorum to attend. Two members of the board were serving on the grand jury and another on the draft board.

Heck Mosley was brought from Dallas to Pampa hospital yesterday. His condition is reported slightly improved.

Mrs. John Ray of Kingsmill was dismissed from Pampa hospital yesterday afternoon.

W. R. Barrett, seriously injured in a car wreck two weeks ago near Lubbock, is to be brought to his home at Phillips camp tomorrow.

Four Jap Carriers Sunk Or Damaged

WASHINGTON, March 10 (AP)—Four Japanese aircraft carriers have been sunk or damaged since the start of the war, navy figures showed today.

A communique issued late yesterday said American submarines last week had sunk or damaged six Japanese naval vessels, including one carrier on which two torpedos were scored. Previously the navy had reported sinking one carrier and probably sinking another, and the army had reported damaging a third.

At the start of the war Japan had from seven to nine fleet carriers and an undisclosed number of converted merchant carriers. The communique did not state which type had been hit in the newest attack.

Panhandle Honor Roll Totals 29

PANHANDLE, March 10—J. M. Knowles, principal of Panhandle High school, announced today that 29 students of the high school have been placed on the honor roll for the first six weeks of the second semester. They represent approximately one-sixth of the student body.

Marie Durrett led the seniors with an average of 97. Other seniors on the honor roll were: Jeanne Burrow, Blanche Detten, Johnny Pratt, and Laura Le Russ.

Ruth Robinson led the juniors with an average of 92.8. Other juniors were Opal Callham, Jeanne McDaniel, and Anne Perry.

Maudell Lemons had an average of 95 to lead the sophomores. Others were Gloria Cantrell, Alice Detten, Dorothy Evans, Theresa Fulton, Loraine Homen, Howard Ray Pruitt, Marvin Sparks, and Kathleen Whit-st.

Leader in the freshman class was Geneva Hinton with an average of 95.75. Helen Bonner, Earl Burum, Jay C. Disney, Beverly Locke, Rudine Manning, Peggy Pemberton, Robert Rorex, Ruel Robertson, Gene Scaggs, and Joyce Watkins were also on the roll.

Tough Guys Needed In High Office, Says Alf

KANSAS CITY, March 10 (AP)—Alf M. Landon thinks that what the country needs is some "tough guys in high office." "We need some tough guys in high office who have only one thought, one ideal, one single purpose, winning the war."

Landon said the Republican leader in a radio talk last night over the blue net work.

Ohio's 1939 fur yield amounted to 1,437,617 pelts, according to estimates.

Market Briefs

NEW YORK, March 10 (AP)—The stock market tried for specialized recoveries today but persistent unsatisfactory war news restricted buying support in many instances.

Coppers did fairly well from the start. Scattered rails, aircrafts, motors and specialties reacted on occasional news although advances here were in fractions and failed to hold in some instances. An assortment of foreign shares showed loss of 1 to about 4 points at the close.

Activity was nothing to write home about. Transfers were around 350,000 shares.

Women Will Have To Quit Housework To Make Munitions

WASHINGTON, March 10 (AP)—An official war inventory of the nation's human resources declared today that millions of women would have to be shifted from housework to munitions factories in the expansion of war industries.

The survey was made by the bureau of census. It contained no specific mention of proposals that American women be drafted into factories as women are in England, but asserted:

"The maximum movement into the male labor force can hardly exceed 2,000,000 men. A larger expansion of the total labor supply evidently can be achieved only by drawing millions of women into the labor force."

The report said that 15,900,000 housewives between 18 and 44 years old represented the principal reserve from which additional war labor might be drawn.

"An enormous amount of manpower will be needed for replacing workers withdrawn into the armed forces and for expanding the output of war materials," it stated.

"Some of these needs can be met by utilizing the workers who are still unemployed, by lengthening working hours and by transferring workers from nonessential civilian industries."

"In the future, however, such measures will not be sufficient. As in World War I, millions of people who are not ordinarily workers must be drawn into the labor force."

Tyson Refuses To Resign Waco Job

WACO, March 10 (AP)—Paul Tyson, head coach of the Waco High Tigers whose contract was not renewed last night by the school board, said today he had been invited to resign but declined.

Tyson, who has been coached for 27 years, explained that if he resigned school authorities of the state would take it for granted that he was retiring from the profession.

Since the interscholastic league was organized in 1920, Tyson's teams have won more games and made a better percentage than any other school. His teams won state titles in 1921, 1922, 1925, 1926 and 1927.

Clyde Martin, assistant to Tyson, also was not re-elected. Principal G. M. Smith of Waco High school was given a regular faculty contract and Assistant Principal H. T. Torrance was offered the principalship.

Butcher "Trains 'em For Uncle Sam"

PATBOGUE, N. Y., March 10 (AP)—Butcher Lorenz Hendrickson dusted off his "Boy Wanted" sign again today and posted it next to one reading "We Train 'em For Uncle Sam."

"Seems that the army has been catching his butcher boys as fast as he hires them."

"They drafted my trusty boy John Carriota six weeks ago," the butcher said. "Yesterday they took Frank McIntyre just when I had him broken in good."

Shortly after Frank left, Hendrickson hired George Kalivas—and 20 minutes later George received notice to report for the army pre-induction examination.

Negro Teacher Blind For 35 Years Regaining Sight

DALLAS, March 10 (AP)—A 35-year-old negro school teacher who has been completely blind since June, 1907, is regaining her sight.

A physician, who asked to remain anonymous for ethical reasons, gave this report of the case:

The teacher's sight began falling intermittently in 1937 while she was teaching a small East Texas school. The condition grew worse gradually, and the woman became completely blind in June, following which some physicians said the case was hopeless.

The woman studied braille, but didn't despair of regaining her sight, she visited the Dallas physician nine months ago. He diagnosed her trouble as optic neuritis which had caused atrophy of the optic nerves.

TOP RANKING STUDENT at the Glendale (Calif.) Technical school was Private First Class Smith J. Meador, Jr. when he finished the course on February 1 of this year.

A RESIDENT OF LEFORS for the past 13 years, Private First Class J. D. Meredith, above, is now stationed at San Bernardino, Calif. He had lived in Lefors up to the time he enlisted at Amarillo on May 5, 1940.

THIS WEEK IN PAMPA THEATERS

CROWN: Last times today; "Dr. Jekyll and Mr. Hyde," Spencer Tracy, Lana Turner, Ingrid Bergman; Our Gang comedy; latest news; Wednesday and Thursday; "Swamp Woman," Ann Conn, Jack LaRue; Friday and Saturday; "Raiders of the West," with Bill Boyd; chapter 9, "The Iron Claw," latest news.

Oil Production Below 4,000,000

TULSA, March 10 (AP)—For the second time this year daily crude production fell below 4,000,000 barrels today. The Oil and Gas Journal said today the flow of the nation's wells dropped 55,235 to 3,960,200 for the week ended March 7.

Texas declined 42,000 to 1,478,450; East Texas, 200 to 368,000; Oklahoma, 1,700 to 392,000; California, 3,500 to 622,500; Louisiana, 2,085 to 350,015; and Michigan, 2,250 to 48,600.

Eastern fields increased 2,000 to 114,500; Illinois, 670 to 334,330; Kansas, 3,100 to 233,100, and the Rocky Mountain states, 1,700 to 113,580.

The United States, during the second quarter of 1940, imported 28,015,210 pounds of tung oil.

CHICAGO GRAIN

CHICAGO, March 10 (AP)—Realizing sales and drying up of demand forced grain futures to surrender much of the early sharp price gains today.

Failure of the president to make direct reference to pending farm legislation that would prohibit government sales of surplus wheat and corn less than parity prices was the chief reason for the early upturn.

Later, however, some traders expressed the opinion that the general import of his address left little doubt as to his position regarding present prices of farm commodities.

Wheat closed 1/2 to 3/4 cent higher than Monday's final levels. May \$1.25 3/4; July \$1.25; corn 3/4 to 1/2 up; May \$1.25; July \$1.25; oats unchanged to 1/4 up; soybeans 1/2 to 3/4 up; rye unchanged to 1/4 higher, and feed unchanged.

Committee Opposed To New Tax Bill

WASHINGTON, March 10 (AP)—House ways and means committee opposition to Secretary Morgenthau's new tax program became more widespread today that members began to predict that his goal of \$7,610,000,000 in new revenue would not be achieved.

They said that no one could yet tell whether the committee would accept the treasury secretary's principal recommendations for raising more than \$6,000,000,000 in greatly-increased individual and corporation taxes, but they said clear-cut opposition had developed to less important suggestions. Hearings on the program continued today.

Apparently there had been a considerable change of heart since the program was first presented, for then individual members of the committee indicated a generally favorable attitude toward the broad principles of the treasury's proposals.

It was learned, however, that President Roosevelt has been advised that overwhelming opposition already had developed to Morgenthau's renewed request that married persons be compelled to file joint income tax returns and that congress enact the practice of permitting oil well operators to deduct up to 27 1/2 per cent of their income annually as a "depletion allowance."

Morgenthau told the committee those two changes would yield \$380,000,000 in new revenue.

Two members said privately that preliminary indications were that "this cutting away" would lead to elimination of still other treasury recommendations with the result

President Warns Against Inflation

WASHINGTON, March 10 (AP)—Administration leaders in the house pointed today to a sober warning by President Roosevelt against inflation and profiteering as one good reason why the farm bloc should agree to abandon farm price restrictions in an agricultural appropriation bill.

"The President, in broadcasting a message last night on the ninth anniversary of the national farm program, made no direct reference to the current effort of farm state legislators to bar the sale of government-held farm surpluses at sub-parity prices.

"But if all prices keep on going up," he emphasized, "we shall have inflation of a very dangerous kind—we shall have such a steep rise in prices and the cost of living that the entire nation will be hurt."

"That would greatly increase the cost of the war and the national debt, hamper the drive for victory, and inevitably plunge everyone city workers and farmers alike into ruinous deflation later on."

Mr. Roosevelt has been outspoken in his objections to the surplus-at-parity restriction demanded by the farm bloc. He declared recently that such a concession would raise the nation's ending bill by a billion dollars a year. His earlier on the house floor, Rep. McCormack of Massachusetts, announced he would try to eliminate the restriction to

that the estimated yield of the new tax bill would be reduced sharply from original guesses.

Perry Weaver Back In Army Again

Perry J. Weaver is back in the army again. He enlisted two weeks ago and was called last Thursday. He went to Lubbock and from there to Fort Sill, Okla., according to word received yesterday by Mrs. Weaver.

Perry served as a machine gunner and machine gun instructor in 1923 and 1924, being honorably discharged with the rank of corporal. When the present crisis arose he decided to get back in harness. He came to Pampa in 1934 and was one of the owners of a service station and wholesale agency.

While in the army, the Pampa man received honors as an expert rifleman, expert pistol marksman and expert machine gunner.

Parity prices are computed levels at which farmers' real income, in terms of non-farm products, would equal their income in 1909-14.

BUY DEFENSE STAMPS. Newspapers in the United States consume 4,500,000 cords of pulpwood annually.

Wake Up America—It's Late (An Editorial Reprinted from The New York World Telegram). The nation needs to awaken to the full gravity of the peril that confronts it.

It needs to appreciate how badly we have been defeated in three months of war. It needs to understand that it is possible for the United Nations and the United States to lose this war and suffer the fate of France—and that this possibility may become a probability if the present tide does not change.

It needs to realize that there is grave chance of the Japanese pushing through India and the Germans driving through the near east, to join their armies and resources in an almost unbeatable combination.

It needs to get away, once and for all, from the comforting feeling that while we may lose at the start we are bound to win in the end.

Only when fully aware of existing perils will the United States do its utmost. Pray God that awareness will not come too late, as it did in France!

Production Director Donald Nelson appeals for vastly increased industrial output on a 24-hour, seven-day basis—168 hours a week. Maximum production, in short.

Can we get it? Not on the present basis—not under the psychology of recent years. Not until we quit thinking in terms of less work for more money.

Not while there is greater concern about overtime pay than overtime production. Not while farmer politicians are more interested in higher prices than raising more essentials.

Not while government bureaus—created to meet a depression emergency that is ended—continue to grab for themselves money needed for armaments.

Not while an army of federal agents clamors to promote and perpetuate activities that have no present need or value.

Not while congressmen try to put over useless canal and river schemes and take up the time of defense officials clamoring for factories and contracts as if war were a great gravy train.

Not while WPA, despite a shortage of labor, seeks to carry on projects which it doesn't have the men to perform or the need for performing.

Not while CCC and NYA stretch greedy hands for funds to pamper young men who ought to be in the armed forces or the war plants.

Not while strikes hamper war production, despite a solemn promise that they would stop.

Common Ground

By R. C. HOILES. I speak the plain-word principle, I give the sign of democracy, by God! I will accept nothing which all cannot have their counterpart of on the same terms.

WALZ WHITMAN.

PRICE FREEZING AND STATUS QUO

Few people seem to realize what price fixing, or price freezing, really means. If prices are actually frozen, it means status quo. It means that every inequality, every bit of unfairness, in exchange prices will be continued.

On the other hand, if prices are going to be subject to bureaucrats appointed by the President, every case will have to be determined by some government investigator, snooper or bureaucrat. This will be very costly.

Price fixing is only a result of covetousness. People thinking the man who has wealth has a right to use this wealth in a manner that he believes will make him the happiest.

PENSION BILL PROVES INSINCERITY OF CONGRESS AND PRESIDENT

The fact that the Congress repealed the pension bill passed by Congress and signed by the President, is evidence that Congress and the President have no convictions; that they are governed entirely by expediency; that they pass laws and vote to promote themselves and keep themselves in power.

There is nothing more serious to a people than to have their Representatives make laws not for principles and to benefit all the people but to make laws with the primary purpose of keeping themselves in power.

WILL WE HOLD HAWAII?

Bucs Buck Up With The Brain And The Blimp

Griffith Refuses To Give Up Vernon, Young First Baseman

By JUDSON BAILEY
ORLANDO, Fla., March 10. (AP)—Trade winds fanned hot and cold around the camp of the Washington Senators today with the Detroit Tigers still hoping to promote a deal that would get some of their problem children off their hands.

President Clark Griffith of the Senators said emphatically that he would not agree to give up his promising young first baseman, Jim (Mickey) Vernon, and veteran Pitcher Emil (Dutch) Leonard for Detroit's Louis (Buck) Newson and Rudy York. It was announced here last night that Leonard had ended his holdout by signing a 1942 Senator contract.

But the "Old Fox" never has been hesitant about changing his mind and a little shuffling of some other aspects of the deal, like throwing in an extra player or a considerable cash consideration, might easily sway the transaction.

There also was talk today that the Senators might have something in common with the Yankees, who would find either Vernon or Leonard useful.

Griffith and Manager Bucky Harris say they won't give up Vernon, who batted 290 last year.

He has come along fast and the Senators believe he has a lustrous career ahead of him. But the Washington bosses are resigned to having a second division, probably a cellar ball club and might be persuaded to part with Vernon in spite of their protests.

York would give the Senators much-needed righthanded batting power and Newson might conceivably win as many games next season as Leonard. They are a couple of temperamental headaches for any manager and because of their prolonged resistance to salary slashes, the Tigers are making no secret of their efforts to put through a trade.

Detroit also has placed Catcher Billy Sullivan, another one of five holdouts, on the block.

Slow Death For Baseball Feared By Bob Allen

KNOXVILLE, Tenn., March 10 (AP)—A slow death for baseball—even in the major leagues if the war continues long enough—is feared by club owner who has devoted half a century to the game.

R. G. (Colonel) Bob Allen, nearing his 75th birthday and his 28th year as a Southern association club owner, recalled that all minor leagues except the International disbanded during the first World War. Then the president of the Knoxville club commented about the future of the game which he has followed actively since 1887.

"I'm afraid this war is likely to have a different effect. Instead of losing men all at once, we will be losing them by dribbles. If and when the manpower of the clubs is gone, baseball will have to suspend operations but I have an idea that it will take some time to do that."

"We have more clubs in operation and more players to be fed to clubs of higher classifications. The smaller minors will be the first to die a slow death and if the war lasts long enough, it will eventually reach the majors, I'm afraid."

By HARRY GRAYSON
NEA Service Sports Editor
Frank Frisch, considers Pittsburgh's pitching, catching and outfielding departments vastly improved.

But the Old Fordham Flash admits he has plenty to worry about in connection with the infield, especially on the left side.

Frank Frisch Babe Phelps

From the Pirate's San Bernardino, Calif., training base, Frisch declares that if he had Billy Cox, now in the army, at shortstop, the club would be a real pennant contender.

Cox, Interstate League batting champion, led that whet in his two-baggers and total bases in hitting in every game played by Harrisburg, Pa. He had a batting streak of 22 games hitting .368 for a batting crown in his second professional year—on All-Star team both seasons—marks a shortstop for high fame, especially when he can also field. Cox holds the league record for most assists by a shortstop.

The \$20,000 deal for Cox set a new high for purchase price in the three-year-old Inter League.

Onkie Franz hopes nothing happens to Billy Cox in the service.

FLYCATCHER ELLIOTT MAY PLAY THIRD BASE
Meanwhile, Frisch will start the

Al Lopez

light-hitting Alfred Walton Anderson at shortstop and is toying with the idea of making Outfielder Robert Irving Elliott a third baseman. He still has Jeep Handley for the latter job.

Eilbert Preston Fletcher and Frank William Gustine take care of first and second, respectively. James Charles Waddell backs up Elby Fletcher and Stu Martin is there to spell Gustine or replace him in the event that he is called in the draft. Other infielders are Pete Coscarart and Edgar Leip, who batted .281 for Albany.

In addition to Vincent Paul DiMaggio, Maurice Rene Van Robays,

Henry Gornicki Luke Hamlin

Edward Perry Stewart, Bob Elliott and Jimmy Waddell, Frisch has likely looking flycatchers in Culey Rikard, Johnny Barrett, Johnny Wrostek, and Frank Kain. Rikard batted .339 for Memphis, the speedy Barrett .313 for Hollywood, Wrostek .316 for New Orleans and Kain .295 for St. Paul.

ONE-HIT HANK GORNICKI GETS ANOTHER CHANCE
Brandy Al Lopez is no handicap to the pitchers and the senior is backed up this season by Blimp Phelps, who gives the outfit authority at the dash.

Frisch expects to get considerable pitching from Max Butcher, Lloyd Dietz, Luke Hamlin, Ken Reintzel, Bob Klingler, Johnny Lanning, Truett Sewell, Aldon Wilkie and Henry Gornicki.

The latter is the right-hander who was shipped to Rochester by the Cardinals early last season after letting the Phils down with one hit. Bill Clemensen, Dick Conger, and Nick Strincevich are coming along. Southpaw Joe Sullivan could be of some help. Ken Jungels, who had trials with Cleveland, is overdue.

If Frank Frisch can patch up the left side of his infield, Pittsburgh may cause as much trouble as last season, when the Pirates stirred up plenty before winding up in fourth place.

Famed Athletes Naval Air Cadets At Corpus Christi

CORPUS CHRISTI, March 10. (AP)—Rankin, Saggau, Stojkovich, Farrell, Jones—names that appear on the sports pages of the country's newspapers a few short months ago now are listed in the roster of cadets at the Corpus Christi naval air station.

They have traded the roar of the grandstand for that of an airplane engine, spiked shoes and shoulder pads for fur-lined boots and goggles, a varsity block letter for wings of gold.

From Purdue came Dave Rankin, All-America grid star and holder of the world's indoor record for the 60-yard low hurdles.

There's Bob Saggau, Notre Dame's All-America football player while at Ablene Christian college and for two years he was an all-conference basketball player.

Another immortal among Stanford athletes is Aviation Cadet Andrew L. Stojkovich of San Francisco. Stojkovich played varsity tennis for the Indians in 1937, 1938 and 1939.

Gerard Charbeneau of Detroit, Michigan, was quarterback on the University of Detroit football team for three years. Joseph Singer of Park Ridge, Illinois, was an all-conference football player while attending Coe college, Cedar Rapids, Iowa.

Now they're playing for bigger stakes than ever before. But, as one of the boys said, "We've always played to win—and this time is no exception, as our opponents will soon find out."

REVILLE

MASCOT—Some 6,000 odd Texas Aggies are in high spirits again because Reville, their black and white non-pedigreed mascot, has recovered from a severe illness.

For a time it was feared she would not recover. The Aggies adopted the pup 11 years ago after she was picked up on the highway, injured by an automobile.

Reville Recovers And Sun Shines Again On Aggeland

Today's War Analysis

By DeWITT MACKENZIE
Wide World War Analyst
The Japanese successes in Java and Burma have increased the threat to India to the point where one wonders whether the Allies are about to write another disastrous chapter headed "too late."

With the release of naval and air forces from the conquest of Java, the Nipponese may find themselves in a position to strike a quick blow at Hindustan. There is no definite indication thus far whether their strategy provides for such a move right now, but it is possible, and should it come it would find this great empire unprepared militarily, politically divided against itself and in a wrangle with England over the demand of British India for freedom.

Freedom is the price which the Nationalists ask for cooperation with England in the war. India needs every ounce of defensive strength and internal cohesion which can be mustered, and the British government a few days ago was reported to be ready to make concessions in an effort to avert a possible catastrophe to this brightest of the jewels in the imperial crown.

This was last week, and just as it appeared that something might be achieved, the government program was postponed because Conservatives in London and Delhi thought it was too advanced. Meanwhile the dynamic Sir Stafford Cripps, has been urging immediate action towards Indian independence, until today London tells us that it looks as though something would be done.

My dictionary defines "Conservative" with a capital "C" thus: "In Great Britain, belonging to or characteristic of the party opposed to radical reform measures." In England they refer to the rock-ribbed variety of Conservatives as "Die-hard Tories", and the Die-hard Tories call Sir Stafford Cripps a Radical. So there you have it.

Now there are mountainous obstacles to be overcome in establishing an all-Indian government, and one of the most pressing is the demand of the Moslem league that there be two separate autonomous states—Mohammedan and Hindu. I have spent months in Hindustan studying the problems and know how great they are. I dare say that Gandhi, spiritual leader of the Nationalists, with whom I have set cross-legged on the floor and discussed Indian affairs, would admit that it will be long before his people have learned the lesson of self-government.

But I should expect the little Mahatma to remind me that the Tories of the reign of wrong-headed George III said the damned Yankee colonialists couldn't handle a government of their own. And I should expect him to say that no people ever learned to govern without actual experience in governing. However, they tell us comparisons are invidious, and it's not suggested that there is much similarity between our colonial status and that of India.

Jawaharlal Nehru, political head of the Nationalists, is pleading for the formation of a provisional government, responsive to the people. A provisional status would appear to give some leeway for rectifying mistakes, such as are bound to occur. Apparently the English advocates of dominion status think that the Moslems could be fitted into this scheme of things some day.

Meantime Washington has revealed plans for developing the great industrial resources of India and

COLLEGE STATION, March, 10 (AP)—Reville is O. K. again, thank you, and the sun shines once more on Aggeland.

She's the only female enrolled as a student at Texas A. and M. but never will get a degree.

Reville is a black and white non-pedigreed dog. She's the college mascot and there are 6,000 Aggies who would fight if so much as a hair of her body were harmed.

Around the first of the year they despaired of her life. Reville was in a hospital with a cold. She was 11 years old and her resistance was bound to be low.

But the dog snapped out of it and today misses no meal formations. Reville came to the campus when four Aggies, on the way from Navasota one night, ran over a small puppy. They stopped to see if it had been killed, found the puppy standing up and wagging its tail.

They carried the dog to the college where she immediately showed a dislike for reville so they named her that.

A waiter started to throw her out of the mess hall and was nearly thrown out himself.

Reville eats where and when she feels like it and if she gets into a bunk at one of the dormitories, tradition rules that the owner of the bunk shall sleep on the floor or elsewhere.

She makes all the official corps trips and on one of them was the cause of a conductor almost being thrown off the train. Reville had taken a seat and the conductor ordered her put off of it. Immediately he was grabbed and was about to be shoved off the platform when cooler heads intervened. Reville kept her seat.

Each year some ex-student donates a dollar to the Red Cross in her name. At present she is a member of the San Angelo chapter.

making that country a vast supply base for United Nations forces. It is proposed to send an American mission to India soon to help establish this project. That is a logical and essential move, for India is the strategic barrier between Hitler and his ally of the Rising Sun, but it would be a link between the Axis forces if it were to fall into Japan's greedy hands.

So England's problem is whether to try to keep British India within the empire by granting the people dominion status despite the undoubted difficulties of self-government, or whether to deny them this freedom on the grounds that they aren't ready for it, and thereby perhaps hand the Indian empire to the Mikado on a golden platter studded with India's own rubies.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.
Wide World Sports Columnist
NEW YORK, March 10—The Metropolitan Basketball tournament, competing for talent with the N. C. A. A., may not get the best college teams here, but it's doing right well with colorful individuals.

Already lined up are Rhode Island's Steve Modlewski, who has scored 1,714 points in four seasons. Price Brookfield of West Texas, with 1,649, and Bob Gerber, who rang up 467 for Toledo this year.

We'd like to see that Tucker boy from Oklahoma and Comedian Bones McKinney of North Carolina State added to the list.

Merv Shea, the Tigers' coach, has won all sorts of prizes playing golf this spring but Mrs. Shea isn't satisfied. "Look," she said one day, "don't they ever put up mink coats as prizes?"

They Wuz Robbed
We can't give names and dates on this one, but some of the college boxing coaches claim it happened. . . . Seems there was a small college that specialized in fisticuffing. . . . One season is came up with a good team led by a heavyweight who looked like a cinch to win the National Intercollegiate title. . . . But he never did. An unscrupulous rival dug up the rule that each fighter had to sign his entry blank—and the heavyweight couldn't write.

One-Minute Sports Page
Trainer John Gaver says he had no idea of entering The Rhymer in the Widener handicap until he learned Eddie Arado was free, then he decided to take a "shot at the moon." . . . The Japanese submarine that shelled the California coast recently, fired Head Coach Stanley Williamson of Santa Barbara Junior college right into the navy. The school decided to drop all athletics so Stanley got a commission in the naval reserve. Father Flanagan reports that every one of his Boy's Town kids plans to register to play baseball March 30 when National Semi-Pro Baseball congress holds its national registration day. . . . Ward Lambert, Purdue's basketball coach, gets a free dinner tonight for having been able to survive 25 seasons of Big Ten basketball.

Today's Guest Star
John P. Carmichael, Chicago Daily News: "Joe Louis knocks out Abe Simon. . . . Lem Franklin knocks out Simon. . . . Bob Pastor, who lost twice to Louis, knocks out Franklin. . . . So Louis and Simon fight again for the championship. . . . Try that on your baby grand!"

Sportpourri
Jimmy Dykes the man with the big cigar, decided to do his spring training by smoking only a pipe. And the first day in camp he mislaid the pipe. . . . Another basketball record is claimed for Robert Edwards, Shoals (Ind.) high school guard. He trused a pass the full length of a 75-foot court and saw it bounce off the backboard for a field goal. . . . Maybe Oklahoma knows now how Kansas State felt about Gerald Tucker. It's reported that Leo Pressley, 225-pound freshman tackle, has quit the Sooners to go to Tulsa U. . . . Wallace Wade, the Duke grid coach, may go back into the army as a major. He was a captain during the last war. . . . Louisville should have a well-managed bath club this year. Manager Bill Burwell will have two ex-managers of other clubs, Red Kress and Lee Riley, working for him.

Petroleum Supply Division Created

WASHINGTON, March 10 (AP)—A new division of petroleum supply was created today in the Office of Petroleum Co-ordination with Robert Lee Minckler of Glendale, Calif., the director.

Petroleum Co-ordinator Ickes said the division would co-ordinate action "on the many complicated and overlapping petroleum supply problems in a manner that will assure the availability of the required kinds of products at the right time and the right place, in quantities which, so far as possible, will meet demands."

"This division," the announcement added, "will be fully informed as to the military and civilian requirements for petroleum products and the sources and availability of supplies. The division will be responsible for determination of the character and extent of changes in production, transportation, refining, and marketing activities which affect quantity, character, and location of supplies."

Minckler, a native of Minnesota, has been connected since 1924 with the General Petroleum corporation of California.

Farmer Concocts Material That Looks Like Rubber

SALISBURY, Md., March 10 (AP)—Homer Pilkinton, 44-year-old farmer, has concocted a material that looks, feels and acts like rubber and sent samples to the national inventors council to determine whether it might be of value in the war effort.

Pilkinton, who studied chemistry at Heidelberg university, Germany, said the base of the synthetic rubber was an ordinary plant, the name of which he did not disclose. He obtained one sample that was spongy and another that was firm.

No natural rubber was used in its preparation, he said. He mixed chemicals with the plant, experimented in his kitchen and prepared the material on his cookstove at a cost estimated at less than 15 cents a pound.

The bombardier directs the pilot of the bomber by an inter-communicating telephone system just prior to dropping bombs. He tells him either to fly straight, left or right, depending on where the target is and how it lines up with the bomb sight.

HOLDOUT ROMPS—Red Ruffing, veteran New York Yankee right-hander, keeps in shape with Philadelphia Athletics at Anaheim, Calif., until contract difficulties with world champions are straightened out.

Texans At War

DALLAS, March 10 (AP)—Helping motorists get the fullest and longest use of their cars is the aim of oil marketers who in a meeting here agreed to use newspaper advertising. Space already contracted for in a campaign to promote better care of automobiles and tires.

The meeting was called by George C. Gibbons, district advertising chairman for the Petroleum Industry War Council.

DALLAS, March 10 (AP)—Emphasis was placed on the role colleges can play in the war at a meeting of Methodist educational institutions' representatives here.

The Texas division of the National Association of Methodist Colleges was organized, with Dean E. B. Hawk of Southern Methodist university as president; C. E. Peoples, president of Lon Morris college, vice president; W. B. McDaniel, dean of McMurry college, secretary-treasurer; and Law Sone, president of Texas Wesleyan college publicity director.

ABILENE, March 10 (AP)—If Jarrod Kimbrough, great Aggie fullback of 1939 and 1940, passes his physical examination he will be sent to Camp Roberts, Calif., as a second lieutenant of infantry.

Kimbrough reported at Camp Bartley yesterday after being ordered to duty. He weighed 200 pounds and seemed fit.

GLADEWATER, March 10 (AP)—A federal promise has been given that a plentiful supply of crude will be given a 310,000,000 high octane gasoline and synthetic rubber plant if the government decides to locate it in this area. Manager J. O. Newberry and President Loyce Phillips of the Chamber of Commerce declared.

They called a meeting of East Texas refiners here tomorrow to discuss the project. Refiners must submit specifications for the plant and determine whether East Texas crude is suitable for high octane gasoline.

Thompson Happy Over Ickes Ruling On Gas Rationing
AUSTIN, March 10 (AP)—Chairman Ernest O. Thompson of the Texas Railroad Commission today expressed gratification that Federal Oil Coordinator Harold L. Ickes had suggested gasoline not be rationed in areas where oil production was plentiful.

"I'm happy to learn the coordinator does not favor making rationing nation-wide," Thompson asserted. "It would work a hardship to clamp down on sales in regions where production was plentiful. I cannot see that it would serve any purpose."

The chairman of Texas' state oil regulating agency had expressed the same conviction last week when Ickes previously ordered rationing might be nation-wide.

Russia Claims One-Sided Edge In Air Fighting

(By The Associated Press)
Soviet Russia claimed a one-sided edge today in aerial fighting on her western front and British royal air force squadrons pounded targets within Germany overnight in a pre-spring bombing offensive.

Essen, site of the Krupp Munitions works, was under fire for the second night in a row.

In addition to attacks upon Germany proper, objectives along the Nazi-occupied French channel coast were raided, British said.

Heavy British guns, emplaced along the Strait of Dover fired at intervals in the night, apparently at German shipping, and shore watchers saw a flare and heavy explosions lighting up the French coast between Boulogne and Calais, where the RAP has often struck in force.

The Soviet information bureau said 388 German planes had been destroyed, in the air or on the ground, in the week of March 1-7, against Soviet losses of 65.

Red army troops continued their advances yesterday, smashing German resistance and occupying a number of additional villages and towns, the bureau said. It gave no details.

Admiral Ernest J. King, trained in surface, submarine and aerial warfare and already commander in chief of the United States fleet, assumed supreme command of all U. S. naval operations in taking over duties heretofore assigned to Admiral Harold R. Stark as chief of naval operations.

Secretary Knox announced the consolidation of authority last night. Admiral Stark was given the newly created post of "Commander, U. S. naval forces operating in European waters" and he will have headquarters in London.

Political Calendar

The Pampa News has been authorized to present the names of the following citizens as candidates for office, subject to the action of the Democratic voters, at their primary election Saturday, July 25, 1942.

"Oh, those sandbags! The children were playing bomb defense—but really you should be more alert in wartime."

"More milk, more eggs, more pork" is the food-for-defense appeal being made to American farmers by the U. S. Department of Agriculture. Farmers are responding unitesly, the Department says, and are turning huge quantities of feed from the AAA Ever-Normal Granary into energy-giving foods. Milk production is highest on record; egg production is higher than in any year except 1930; extra numbers of brood sows are being held over for fall farrowing. Nevertheless, the Department declares, even additional increases in these products must be made to supply the growing home demand and the emergency needs of Great Britain.

George Berlin To Make Opening Speech At Spring API Meeting

George Berlin of Pampa, district chairman of the American Petroleum Institute, will make the opening speech of the spring meeting of the Mid-Continent district, division of production, to be held March 26-27 at the Mayo hotel in Tulsa.

With H. F. Beardmore, Tulsa, Mr. Berlin will preside at the morning session to be held in Mayo's dining room.

"All-Out Cooperation to Win the War" is the slogan of the spring meeting. In addition to papers on drilling and production problems, the part of the oil industry can perform in winning the war will be discussed by competent officials and leaders in the industry.

"A Win the War" dinner Friday night in the Mayo's Crystal ballroom will conclude the program. It will be held at 7 p. m. March 27, and the guest speaker will be Dr. E. DeGolyer, director of conservation, office of the petroleum coordinator, Washington, D. C.

There will be inspirational music. Women are cordially invited to attend as well as institute members. Those planning to attend the meeting should make hotel reservations direct.

The complete program of the meeting:
Mayo Hotel, Tulsa, Thursday, March 26.
8 a. m.—Breakfast meeting for presiding officers, speakers, French room, mezzanine floor.
9:30 a. m.—Registration. Headquarters in hotel, Open on Wednesday afternoon, March 25. A fee of \$1.50 will be charged to cover incidental costs of meeting and copies of papers.

10 a. m.—Morning session, Junior ballroom. George Berlin, Skelly Oil company, Pampa, and H. F. Beardmore, Amerado Petroleum corporation, Tulsa, presiding.
Opening remarks by District Chairman Berlin; reports from Mid-Continent district chapters; discussion, "Salt Water Disposal Systems," H. H. Elliston, Sinclair Prairie Oil company, Tulsa.

"Use of API Specifications in Standardization of Oil Well Pumps," B. L. Remick, Gulf Oil corporation, Tulsa, discussion, announcements.
12:15 p. m.—District chapter officers' luncheon, French room.
2 p. m.—Afternoon session, Junior ballroom, J. S. Montgomery, Phillips Petroleum company, Bartlesville, Okla., and R. P. Moscrip, Shell Oil Co., Inc., Wichita, Kas., presiding.

"Economic Technology of the Water Drive," Harry M. Ryder, Ryder-Scott company, Bradford, Pa., discussion.
"Pressure Maintenance—K. M. A. Field," William H. Rouzer, K. M. A. Engineering association, Wichita Falls, discussion.
"Pressure Maintenance—South Burbank Field," speaker to be announced.

Answers to War Quiz
Questions on Editorial Page
1. You'd know he'd won it for heralding an involving actual conflict with the enemy. It's the American Soldier's Medal, bestowed for that type of heroism.

2. Continental United States is larger by 52,208 square miles. Australia has 2,974,581 square miles and continental United States 3,026,789 square miles.

3. An island, chief of the Hawaiian group, Honolulu and Pearl Harbor are both on this strategically vital island.

4. "Anchors Aweigh" usually is associated with navy and "From the Halls of Montezuma" with marines.

5. Best selling popular piece of last 20 years is "St. Louis Blues."

6. Reports of the theft and forgeries were received by officers who immediately had a description of the man broadcast. He was traced to his home at Roaring Springs, to Quannah and then to Wellington.

7. The grand jury is now in session and Screws will appear before that body of men today or tomorrow, it was said.

8. "Three Bs" of classical music are Beethoven, Bach, and Brahms.

9. Benny Goodman is known as "king of swing."

10. "Anchors Aweigh" usually is associated with navy and "From the Halls of Montezuma" with marines.

11. Best selling popular piece of last 20 years is "St. Louis Blues."

12. Reports of the theft and forgeries were received by officers who immediately had a description of the man broadcast. He was traced to his home at Roaring Springs, to Quannah and then to Wellington.

13. The grand jury is now in session and Screws will appear before that body of men today or tomorrow, it was said.

14. "Three Bs" of classical music are Beethoven, Bach, and Brahms.

15. Benny Goodman is known as "king of swing."

16. "Anchors Aweigh" usually is associated with navy and "From the Halls of Montezuma" with marines.

17. Best selling popular piece of last 20 years is "St. Louis Blues."

18. Reports of the theft and forgeries were received by officers who immediately had a description of the man broadcast. He was traced to his home at Roaring Springs, to Quannah and then to Wellington.

19. The grand jury is now in session and Screws will appear before that body of men today or tomorrow, it was said.

Soldier Held On Two Burglary And Car Theft Charges

Officers of the sheriff's department returned from Wellington last night bringing with them Charles Screws, charged here with theft of an automobile and on two charges of forgery. Screws, AWOL from his army post, was arrested in Wellington last Thursday but it was not learned here until Sunday that he had been apprehended.

Screws was charged in connection with the theft of an automobile from Cliff Rutherford here on the night of February 24, and in connection with the passing of forged checks at the Star Barber Shop and the Cen-

tral Tire Works. Reports of the theft and forgeries were received by officers who immediately had a description of the man broadcast. He was traced to his home at Roaring Springs, to Quannah and then to Wellington.

The grand jury is now in session and Screws will appear before that body of men today or tomorrow, it was said.

SERIAL STORY

KINGS ROW

BY HENRY BELLAMANN

PARRIS OUGHT TO KNOW

CHAPTER XXIV

DR. GORDON sat in his living room with a tray before him. He ate slowly, almost absentmindedly. The door opened so slowly and so silently that he did not notice Louise's entrance.

"Father!" Louise spoke in a curious flat, colorless voice. "What's the matter?"

"I—I heard about Drake McHugh."

"Um." The doctor turned his attention to his food.

"I stood it as long as I could, then I went down to the—railroad."

"That will do, Louise. It was most unbecoming of you to go about parading your feelings—whatever they happen to be."

"Father!" Louise stared stony-faced at Dr. Gordon.

The girl shook now so violently she could scarcely stand.

"You monster!"

"Louise!"

"You fend!"

Dr. Gordon arose, laid his napkin on the table, and with the utmost deliberation struck her.

"I'll let the world know what you are, if it's the only thing I ever do in this world. Tomorrow—tomorrow—I'll tell everyone. I know what you are. I know all about you—and your operations!"

Dr. Gordon took her by both arms. "You are going to bed—at once."

"I will tell. I will tell. I will tell— Louise began a sort of singsong chant that rose suddenly to a shriek.

Dr. Gordon struck her again, a sharp, stinging slap that cut her screams short.

"Louise—this is enough of your willful tantrum now. If you persist, there is one thing I shall have to do—"

He waited. She stared at him, half listening, then suddenly alert.

"What?" she whispered.

"If you utter one more word of the kind of nonsense I've heard from you I shall—commit you to the insane asylum."

Louise backed away. "You wouldn't dare!"

"I have only to call Dr. Nolan on that telephone there in the hall, and have you in a cell—behind bars—in one hour. Now, can you get that through your head?"

Louise swallowed hard.

"I—I'll go," she said.

"That's better. And stay in your room until I say you can come out."

Louise nodded her head like a small child who only half understands what is being said. She backed toward the door.

FOR three days Randy scarcely slept. She felt that she dared not leave Drake. She knew that she had to be with him when he found out what had happened.

Randy set her foot on the first step, and paused. She stood for several minutes leaning her head against the door frame. It was then that the dreadful sound came from that upper room.

She tore up the narrow staircase and flung the door open.

"Drake!"

Drake's eyes were rolling and his face worked violently as if the very bone structure had been shattered. Randy saw with a sick horror that his hands were groping frantically under the blankets.

She almost leapt across the room and seized his hands. "Drake! Drake!"

"Randy—where—where's the rest of me?" His voice rose to a sharp wail.

"Hush, Drake. I'm here with you. You'll get well, now."

He held her to her shoulders. Little by little he quieted.

"It was that accident?"

"Yes, Drake. But don't try to talk about it yet. You'll get well now."

His grasp loosened. She looked fearfully at him. He was quieter now. Very slowly he turned his face to the wall.

RANDY turned away from the window where she had been standing. The frost-rimmed squares of glass gave a distorted vision of the still cold day. She felt that her mind was like that wavy glass. She had no true pictures of anything.

She went into the kitchen. Her father had come in and had taken off his shoes to warm his feet at the oven door.

"Going somewhere, Randy?"

"Yes, I've got to get out for a while."

"Is Drake asleep?"

"I don't know. The nurse is up there."

"How long is she going to stay?"

"Dr. Gordon said Drake wouldn't have to have her after next Monday."

"How's he going to make out then?"

The sound of her father's words cleared something in Randy's brain. Her face cleared, too. The quivering uncertainty disappeared. A simple resolution replaced it.

"What's the matter, Randy? Change your mind?"

"Yes. I don't need to go out now."

"What's that?"

"I said I don't need to go now."

I know now." She spoke the last phrase half to herself.

"What is it, daughter? What's on your mind?"

"I didn't know what to do. I know now what I'm going to do."

Mr. Monaghan kept his eyes down. He didn't want her to see how much he pitied her.

Mr. Monaghan stood up. His gaunt, bony figure towered above her. His shaggy white hair almost touched the low kitchen ceiling.

"Randy, you want to keep Drake here, don't you?"

Very slowly her eyes filled with tears. Very slowly her hand relaxed. She did not make a sound but let herself sway and lean against her father's breast as he reached out and put his arms around her.

"Come on, now, and set down. How we going to fix it up, you reckon?"

She shook her head. She was not able to speak.

They sat in silence for a time. Then Mr. Monaghan spoke.

"Now you listen to me, daughter."

"All right."

"I never said anything to you about Drake when he began coming around here. I—I just didn't know what to think. I feel awful bad that everything's turned out this way, but we got to take everything as it comes. Now, like I asked you a while ago, how we going to fix this up?"

"I guess I know what you mean. I'm going to marry Drake."

"Is that the way you want to do it?"

"I've got to convince him, some way. I'll think it out."

"Now look here. There's one thing. There's just me. So this house is yours, anyhow. I saved a little money. Ain't any of us going to starve."

"I'll think of something. First of all, I'm going to send a cable to Parris Mitchell. There's been enough of this foolishness."

"You ought to let Mitchell know, I think."

Randy dressed again and went out. It was horribly cold, but she scarcely noticed it. She was excited, and terrified, too. How Drake could be managed was the real question. He'd be mad, no doubt, about letting Parris know, but she was certain that she should.

She wrote carefully, crossing out words, and finally rewrote the whole message. It was a succinct but full account of the loss of Drake's money, and the accident. She bit the eraser in the pencil for a moment or two, and added: "I must keep him with me somehow."

Association Checks

White Deer School

Special To The NEWS

WHITE DEER, March 10—Seven representatives of schools in the Pampa area will be in White Deer today, Wednesday, and Thursday to conduct a high school check-up required by the Southern Association of Secondary Schools and Colleges.

Dr. A. M. Meyer, professor of education at West Texas State University, will head the committee. Other members will be R. A. Selby, curriculum supervisor of the Amarillo schools; Knox Kinard, superintendent of schools in Hereford; Miss Frances Munson, librarian of the Pampa High school; Rex Reeves, superintendent at LeFlore; and Carl Clift, deputy state supervisor. The seventh member of the committee has not yet been named.

With the assistance of Arthur Mayberry, a representative of the major oil companies and an expert in school administration, the local faculty has been making its own check-up since early fall. Committees have been at work in each department and each teacher has made a statement of the aims and objectives of his department and evaluated not only the curriculum, but his own instructional methods and personal qualifications. This visiting committee will observe all phases of the school and check with the faculty as to its accomplishments in the light of the objectives set up. Every school that is a member of the Southern association must have such a check-up before 1944 and each five years thereafter. White Deer has had a high rating in the association for a number of years and is looking forward to this check-up as a means of further improvement.

Sixteen Enrol In Farm Mechanics At White Deer School

Special To The NEWS

WHITE DEER, March 10—Sixteen men and women are enrolled in the auto and farm mechanics course now in progress at the vocational agriculture building of the White Deer High school.

E. E. Crawford is instructor in the course, which is being offered by the United States government in order that citizens may learn something about caring for motors and machinery. The government realizes that many mechanics may be doing more important defense work; therefore, all citizens should try to master some of the fundamentals of motor work so that they may at least solve their own emergency motor problems.

The class has met five nights a week for the past four weeks and will continue five weeks more.

Recently the group overhauled an International tractor by changing the block, putting in new sleeves, rpd, bearings, and other parts. They have also repaired car doors, lined wheels, put in new spindles, bushings, and brake linings, and studied

other practical jobs that an automobile driver might need to know.

They are now overhauling a late model Chevrolet and will be working on other models later.

Enrolled are Berry Barnes, Ronald Davis, Miss Dona Newton, Elton

Beene, Mrs. Ovie Tipton, Doc Harvey, O. L. Taylor, Miss Dorothy Wittit, Mrs. Hallie Martin, Virginia Martin, Mrs. Artie Morrow, Leon Osborne, W. E. Moore, Miss Ruth Shelton, Wilmer Waggoner, and Mrs. Florence Lassiter.

FUNNY BUSINESS

HOLD EVERYTHING

ATROCITIES

(Continued from Page 1)
described the disorders as a "mopping up" operation.

LONDON, March 10. (AP)—An official British spokesman declared today that 50 British officers and men were bound hand and foot and then bayoneted to death during Japanese atrocities at Hongkong after that crown colony was captured. He charged that women, both Asiatic and European, were raped and murdered and one entire Chinese district was designated as a brothel, regardless of the status of the residents.

All survivors of the Hongkong garrison were herded into a camp of brick huts, without doors, windows, light or sanitation, he said. The dead had to be buried in a corner of the camp. No drugs or medical facilities were supplied, he declared.

CONFERENCE

(Continued from Page 1)
order an investigation to determine whether legislation was needed to produce closer coordination of army, navy and air corps.

Stark's new post, it was said, will be comparable to that held by Admiral William S. Sims, World War commander of U. S. naval forces overseas. For the present, however, Vice-Admiral Royal E. Ingersoll will continue as commander of the Atlantic fleet, King's old command. In London Stark will succeed Vice-

Admiral Robert L. Ghormley, who has been on duty in England as a special naval observer since August, 1940. A special staff was set up in the navy department to administer the duties which King took over from Stark, and this staff, like General Marshall's streamlined counterpart, will share responsibility in mapping the offensive operations which both army and navy chiefs have forecast.

UNCLE SAM

(Continued from Page 1)
part of the program is in charge of Bob Carter, Carroll Killbrow, Dick Taplinger, Winston Savage, L. I. Sone, Doyle Osborne, Phil Gruber, Herman Jones and Miss Roy Riley.

Forty-five students have organized a class to work on the models but more workers are needed, Mr. Carter said today. The scale model builder may know little about aeronautics but should be able to read drawings, should know materials and should be familiar with the use of tools.

3 Highways Out Of Pampa To Be Topped

Bids for a seal coat, or re-topping material, to be placed on three highways leading out of Pampa will be received by the state highway department on March 25, according to word received here today. In all, \$3,200,000 of new road building will be submitted to construction bids.

In Gray county the work will be for seal coat on State Highway 273 (the Pampa-McLean) road) from a point 6.5 miles south of Pampa to McLean; on State Highway 152 (Pampa to Wheeler) from a point six miles east of Pampa for a distance of 8.5 miles; and on State Highway 18 (Pampa to Clarendon) from the Pampa city limits south for 6.5 miles.

Also included was: Hall—Seal coat and mixed in place bituminous concrete pavement on highways 18 and 86 from Turkey to 1.5 mile northeast; from Modley county line to Turkey and from Briscoe county line to Turkey.

Tires in continuous runs generate such heat that in some cases the temperature runs as high as 12 degrees below the boiling point. Heat and oxidation are unrelenting enemies of rubber.

Prices Of Pork Products Frozen

WASHINGTON, March 10. (AP)—The government temporarily froze wholesale prices of 90 per cent of the nation's pork products, including ham and bacon, today at the highest levels prevailing between March 3 and March 7.

The ceiling, effective March 23, applies to dressed hogs and wholesale pork cuts, and Price Administrator Leon Henderson declared it was expected "to help importantly in holding down the cost of living."

Last year, consumers spent more than \$2,000,000,000 for pork and other hog products. Neither farmers nor retail outlets are covered directly by the emergency price schedule but Henderson asserted both would feel its effects. When prices are fixed on dressed hogs or pork cuts, prices which the packer may pay for farmers' hogs automatically are limited.

Taft Asks Truce On Feuds Over Social Legislation

WASHINGTON, March 10. (AP)—Senator Taft (R-Ohio) proposed today that Democrats and Republicans agree to a truce under which controversies over existing or proposed social legislation could be eliminated for the duration of the war.

Declaring that the military effort ought not to be used as an excuse either to seek new social changes or to repeal major measures of this nature already enacted, Taft said he thought both parties would do well to concentrate on attempts to increase the efficiency of the war production program.

The Ohio senator said his suggestion for a political truce on these domestic issues was prompted by reports that Attorney General Francis Biddle recently had urged a gathering of administration supporters to do their best to prevent the junking of New Deal social legislation during the war.

Sugar Hoarders Can Be Sent To Prison

AUSTIN, March 10. (AP)—Asserting rationing booklets, when issued, would cover other possible items besides sugar, State Rationing Administrator Mark McGee has pointed out hoarders could be fined up to \$10,000 or sent to the penitentiary for 10 years. He added no civilian rationing date had been set as yet.

JAPS MAPPING

(Continued from Page 1)
the Moslems by three to one.

British military quarters virtually conceded the loss of the entire southern tip of Burma from Rangoon to the Bay of Bengal, but declared that British imperial troops would fight on in central Burma "side by side with our Chinese Allies."

British forces isolated in the Pegu sector, 40 miles north of Rangoon, were reported slashing their way through Japanese lines to the main imperial army, which, in turn, drove through enemy columns astride the Rangoon-Frome road after "heavy fighting."

Prome lies 90 miles northwest of Rangoon. British withdrawal from all of southern Burma was indicated as British demolition squads wrecked public utilities at Bassein, city 90 miles northwest of Rangoon, and American engineers also prepared to smash to great Irrawaddy oil fields 300 miles northwest of Rangoon.

RAF pilots reported that smoke blackened the skies to a height of 15,000 feet over Rangoon as flames roared through the city's vital areas and British troops withdrew to the north. With the 10-day-old battle of Java all but ended, speculation arose on Japan's next move: invasion of Australia or India, or both?

Japanese imperial headquarters spoke of the "brilliant military results" of the campaign to date and listed 79,999 United Nations' soldiers as slain even before the fall of Singapore.

It said the Japanese had sunk or damaged 767 Allied vessels, had captured another 194, and had destroyed 1,161 airplanes. The Netherlands East Indies were lost as an Allied stronghold, although Dutch authorities in London insist that defense remnants were still fighting in the mountain fastnesses of Java.

Already operating 3,500 miles south of Tokyo, the invaders of Java are relatively close to the north Australian coast and preparatory bombing has rattled ports of the Commonwealth and adjacent New Guinea.

Lieut.-Gen. Hubertus Van Mook of the Netherlands East Indies estimated they totaled eight divisions—perhaps as many as 200,000 men under Japanese tables of organization. Australian planes scouted concentrations of Japanese shipping in the New Guinea area; Australian anti-aircraft drove off a raiding plane which appeared over Port Moresby.

Loss of Rangoon, capital and supply port, and a Japanese flanking action north of Pegu further endangered British defense of Burma and India's frontier to the west. London circles regarded proffer of dominion status to India to encourage full participation of her millions in the war effort as a virtual certainty.

The problem was when to make it effective. The British cabinet, however, apparently was veering toward the idea of giving India dominion status immediately, rather than gradually or after the war, London reported.

Japanese imperial headquarters said yesterday that "with the fall of Rangoon, the main objective of Japanese operations on the Burma front has been attained," but the British indicated they expected a continued offensive.

Still there was no sign of an all-out assault. Gen. MacArthur's daily war bulletin said a Japanese light cruiser shelled the port of Cebu, 250 miles southeast of Manila, inflicting only slight damage.

"There was no ground or air activity in Bataan," the communique added. Sea-borne Japanese forces made a third landing on New Guinea today, and enemy bombers blasted anew at Port Moresby, New Guinea, only 280 miles from the Australian mainland. It was the 10th attack there.

Hundreds Refused To Make Deductions

WASHINGTON, March 10. (AP)—Treasury officials said today hundreds of persons who filed income tax returns in the last few days refused to take any deductions because they wanted to pay more taxes to help win the war.

Officially, however, the treasury approves of everyone taking his legal deductions, since they were devised in the first place to equalize the tax burden. Many citizens send money when their returns show that they don't owe any taxes. A \$20 contribution arrived in Seattle along with a non-taxable return last week from a man living along the Arctic circle in Alaska.

Oil Situation 'Very Acute,' Says Ickes

WASHINGTON, March 10. (AP)—Petroleum Coordinator Ickes today described the oil situation in the east as "very acute," indicating that measures might be taken immediately to curtail consumption in this populous area. An informed source said the coordinator might institute a program of limited supplies for filling stations and night closings of the stations, the method used last summer and fall to cut eastern gasoline consumption.

Speculation was current that the gasoline supplies for filling stations might be reduced 25 per cent, and the stations in turn would limit their deliveries to motorists, allowing a specified number of gallons for each purchaser.

Allied Troops May Occupy Madagascar

LONDON, March 10. (AP)—Unofficial quarters discussed the possibility today that Allied troops might soon move to occupy the Vichy-controlled island of Madagascar in the western part of the Indian ocean, close to Africa's east coast and in a strategic position to control Allied supply lines.

They pointed out that since the fall of Singapore the importance of Madagascar has been doubted, and that such an Allied move might have to be made to forestall Japanese occupation of the island.

They emphasized, too, the fact that a Japanese mission is reported to have been in Madagascar for the past six weeks, negotiating for naval and air bases.

One informed but unofficial source said occupation of the island was imperative because the Axis already is in possession of one naval base in the South Indian ocean, on Vichy-owned Kerguelen island (desolation land) southeast of Capetown. "I am positive the Japanese were refueling German raiders there early in 1941," he declared. "I know Kerguelen well and any other mariner who has been there will verify that it has a series of well-sheltered harbors."

Madagascar is the fourth largest

island in the world and France's largest insular possession. It came under French rule in 1896. Its extreme length of 960 miles, if superimposed on the United States, would extend from Chicago to Dallas, Tex. Its area of 228,500 square miles is exceeded by only three other islands, Greenland, New Guinea and Borneo.

Japs Make Third Landing On Guinea

CANBERRA, Australia, March 10. (AP)—The Japanese made a third landing on New Guinea today, enlarging the forces they are marshaling there for what Australians are convinced is an imminent attempt to invade this continent.

The landing was at Finschhafen, where there is a small airfield and a harbor which can accommodate moderate-sized vessels. The strength of the new landing force was not stated.

It is 60 miles west of Lae which, with Salamaua, were the sites of two previous Japanese landings. These and repeated Japanese air bombardments of Port Moresby—another air raid there today was the tenth—have banished any doubt among officials that Australia will be overlooked by the Japanese temporarily in favor of a drive into India.

Australia's air force, strengthened by the return from other fronts of

battle-proven fliers to defend their homeland, has been ordered to take the offensive against the gathering enemy strength at the commonwealth's doorstep.

Mrs. Johnson To Be Buried Tomorrow

Funeral services for Mrs. Ida Johnson, 96, will be conducted at 10 o'clock tomorrow morning in the chapel of the Dukenel-Carmichael Funeral home by the Rev. Bracy Greer, pastor of the Assembly of God church. Burial will be in Fairview cemetery.

Mrs. Johnson died in an Amarillo hospital Sunday after an illness of 18 years. Mrs. Johnson is survived by a daughter, Mrs. Gertrude Spears of Los Angeles, Cal., who arrived in Pampa yesterday afternoon.

Jap Families To Be Kept Intact

SAN FRANCISCO, March 10. (AP)—Army authorities, planning

to start the forced evacuation of Japanese from West Coast military areas possibly within 10 days, renewed pledges today that families would be kept intact, and there would be no sudden mass removals. Lieutenant General J. L. DeWitt, commander of the western defense command, said that within a day or two the government would disclose definite plans for protecting property rights and crops of evacuees.

Marshall Funeral

MCKINNEY, March 10. (AP)—Graveside services will be held today for Howard C. Marshall, head of the Associated Press bureau at Austin, who died Sunday. The services at Pecan Grove cemetery will be conducted by the Rev. Earl J. Patton, pastor of the First Methodist church.
