## Search Is On For Historical Brands

1978 4-H Gold Star Winners--GLYNDA BURKETT and TRAVIS RINEHART

## Gold Star Winners

LUBBOCK - - Outstanding youths from 20 South Plains counties held the spotlight during, November at the annual 4-H Gold Star Banquet.

Forty boys and girls received the highest county award offered in the 4-H club program--the Gold Star Award--at the program in the Coronado High School Cafeteria. And with it, each received the acclaim of parents, fellow 4-H'ers, government officials, Extension leaders and other community leaders.

Twelve member-owned electric cooperatives serving Extension District 2 were hosts for the event. The 4-H program in Texas is directed by The Texas Agricultural Extension Service.

Honored from Borden County were Glenda Burkett, daughter of Mr. and Mrs. Jim Burkett of Plains community,

and Travis Rinehart, son of Mr. and Mrs. Ed Rinehart of Gail.

The award recipients were encouraged by J. B. Wheeler of Plainview to continue to capitalize on their opportunities for education. Wheeler is president and chairman of the board of the Hale County State Bank.

"This is fun time, but it also is a formative time that will go with you the rest of your lives," Wheeler told the youths.

He said they had the best start possible, coming from agricultural communities with friendly neighbors, and from families with loving and devoted parents. Wheeler noted that retiring U. S. Rep. George Mahon with lives of service to their fellowman.

COLLEGE STATION--The search continues throughout Texas for outstanding cattle brands to include in another chapter of their history by "burning 'em in" Texas A&M University's "branded stairway".

L.A. Maddox, chairman of the unique branding project, said that some 3,000 brands, or more, are expected to be imprinted on the 254 "county oak panels" in the University's new \$9.5 million Robert J. Kleberg Animal and Food Sciences Center.

"County Extension agents are working with their local beef cattle committees to select eight brands per county, and with historical societies to select other brands for the panels," Maddox, Texas Agricultural Extension Service beef cattle specialist, said.

"We now have slightly more than 500 burned in."

There are some 200,000 brands recorded in Texas and on file with the Texas and Southwestern Cattle Raisers Association in Fort Worth. This is the state's most complete record.

The "branding" was an idea of Dr. O.D. Butler, for many years head of Texas A&M's Animal Science Department and now associate vice president for agriculture and renewable resources. He said that not only are cattle brands a rich part of Texas livestock history but a prized possession of ranchers in identification of their cattle.

"We felt that the branding ceremonies would bring about a closer tie-in between cattlemen and our animal science

facilities on campus as well as with research and educational work throughout Texas," Butler said.

Application of the brands was initiated last June during a meeting of directors of the Texas and Southwestern Cattle Raisers Association. J.R. Anderson of Gail, Texas burned the Muleshoe brand on the Borden County panel at this time. Officials of other livestock groups also are being invited for a "burning party."

Maddox said that branding ceremonies also will be conducted by Extension district groups until "all panels are branded." This probably will be about next April 2-3 when the annual Texas Animal Agriculture Conference is staged at Texas A&M.

## Citizens Urged To Attend

Citizens of Gail and the surrounding area are invited to attend an informal meeting and training program conducted by leaders of the Beautify Texas Council (BTC).

The meeting begins at 1 p.m. on Tuesday, December 12, at the Garden & Arts Center, 4215 University, in Lubbock. Coordinator of the meeting is Latrelle (Mrs. Rodney) Joy, District Governor of the Beautify Texas Council for the Lubbock area.

Leading the discussion will be the president to the statewide Beautify Texas Council, George McKinney of Dallas. "This will not be a meeting to discuss what YOU should be doing...it is to discuss what WE could be doing to further our organization's cause of a cleaner, more beautiful state," he reported.

The Beautify Texas Council a statewide, totally-volunteer, nonprofit organization conducts a statewide awards program--the "Governor's Community Achievement Awards"--to stimulate cleanups and beautification programs at the grass-roots. Thousands of Texans and hundreds of Texas communities--from the smallest to the largest in population size--have participated in the awards program, with cleaner cities and towns in Texas as a result.

For more information on the December 12 area meeting in Lubbock or future activities and programs of the Beautify Texas Council, citizens are urged to contact BTC District Governor Latrelle Joy, 3321 55th Street, Lubbock, or telephone the Beautify Texas Council via the toll-free Watts line: 1-800-252-9642.

# Plan To Curb Inflation

by PHYLLIS SCHLAFLY

Congressman Robert K. Dornan, R-Calif., has come up with the best idea yet for curbing inflation. He is introducing a bill to tie the salaries of congressmen and high federal officials inversely to the rate of inflation.

Dornan's plan is to reduce the salaries of congressmen and high government officials by the same percentage that inflation shoots prices upward. Thus, if inflation in 1979 is 10 percent, each congressman's and federal official's salary would be reduced by 10 percent.

This is the healthiest idea in years because it puts sanctions on those responsible for inflation and provides a direct monetary incentive to mend their ways. The main cause of inflation is deficit spending proposed by the executive branch and then voted by Congress.

Dornan's bill would apply to all members of Congress and to top appointed federal officials except the president, vice president and federal judges whose salaries are constitutionally protected against reduction.

Dornan's bill would not apply to civil service employees. In other words, most of the top decision-making officials of our government, the ones responsible for inflation, would be affected.

Under the present system, federal officials and congressmen have a monetary incentive to continue inflation. An escalator clause raises government salaries when the consumer price index goes up. Federal tax receipts climb even faster than prices during inflation because we are all shoved into a higher tax bracket. Dornan's bill would repeal the escalator clause.

Other parts of the bill are still to be worked out. One provision under consideration is to allow a congressional pay raise in the fourth year if there is no significant inflation for three years.

Also, in order to have a realistic chance of passage by his colleagues, Dornan's bill will probably specify a floor below which congressional salaries cannot fall, such as \$42,500. The present salary of a congressman is \$57,500.

With such personal incentive provided by the Dornan bill, Congress could be expected to eliminate at least some of the tens of billions of dollars in direct and indirect foreign and domestic giveaways that are the principal cause of inflation.

It is time that we hold accountable those in the administration and in Congress who make the decisions and who prepare and approve the budgets that perpetuate those

giveaways.

This bill is just the latest of Congressman Dornan's constructive ideas that go to the heart of an issue and dramatize the problem in ways that make an impact. When President Carter proposed an instant voter registration plan to allow anyone to vote without registration simply by presenting an I.D. card, Dornan proved how easy it is for anyone to secure phony identification (and thus cast fraudulent votes). He showed up at the Capitol with several phony I.D. cards for himself and his fellow congressmen.

When President Carter, last year, planned to allow the sale of our best super computer, the Cyber 76, to the Soviet Union, Dornan energetically collected the signatures of 315 congressmen and brought them personally to the White House. Mr. Carter stopped the sale in the last inch of time.

Congressman Dornan, who was a fighter pilot with the first supersonic Air Force Wing, is a helicopter pilot and a commercial pilot and has piloted the B-1, our best Air Force bomber. He made a gallant fight to prevent the administration's cancellation of the B-1.

Dornan lost that fight and the Carter administration cancelled it without getting any concession whatsoever from the Soviets. The Russians not only did not cancel any weapons whatsoever, but they continue building new weapons at a rapid rate. As time goes on and the Soviets continue their strategic buildup, more and more people are coming to the conclusion that Dornan was right and Carter was wrong.

# Your County Agent Says by Randy Upshaw

The cold, wet weather during early November had hindered field activity in Borden County. This first taste of winter has also prevented producers from soil sampling their fields and obtaining fertilizer recommendations from a soil test. Now is the time to sample fields before other operations such as a cotton harvesting and tillage keep you busy, the County Extension Agent, Randy Upshaw said.

"Four good reasons now exist that indicate a good crop fertility program for 1979 is important," the county agent notes.

First, our rainfall picture is more encouraging than last fall's. Comparing this September, October and November's rainfall against the long-term average and the rainfall received last year, suggests that a better soil profile moisture should exist. During the September, October, and November period, the long-term average at Lubbock indicates that 5.2 inches are usually received. Last year, during this period, only 2.5 inches were measured. However, during this 75-day period 4.9 inches were measured at Lubbock and many are as have reported up to 9 inches.

Secondly, due to the soil tests done fine jobs represent many of our dryland producers did not fertilize. The picture appears more favorable this year. If you are intending to fertilize. The picture appears more favorable this year. If you are intending to fertilize;

it makes sense to first determine what plant nutrients are available and what is needed.

Third, nitrogen is one of the essential elements required throughout the High Plains for cotton a producer never knows what to expect with soil nitrogen.

Fourth, a considerable savings in fertilizer can result from applying fertilizer based upon soil test recommendations. For example:

"Here are some tips that will help you obtain better results from your soil analysis," says Randy Upshaw.

Prior to taking small samples scrape the litter from the surface, then use a spade, soil auger or soil sampling tube. To use a sharp shooter dig a V-shaped hole and take

a 1.2 inch slice of soil from the smooth side of the hole. Repeat in 10 to 15 different places.

Place subsamples in a clean container (plastic bucket, paper sack, etc.), mix thoroughly, and take out approximately 1 pint for the composite sample.

"To aid in the interpretation of the soil test and in making recommendations, fill in Form D-575, 'Soil Sample Information Sheet for Field Crops', as completely as possible and submit with your samples". "Each soil sample should be marked with your name and sample number, which should correspond with the information furnished on the information sheet. Mark the analysis desired and include the proper fee. The information sheets are at my office or the Soil Testing Laboratory in Lubbock".

## Around Town

Lorene Jones is home from Clovis after visiting with Jeanelene and James Hodge also Jimmy, Cheryl, Shanna and Jarrod in their newhome. Jerry spent some time with them also. He now lives in Earth, Texas.

L. D. Smith, father of Barbara York, is doing very well after heart surgery. He received a triple by-pass in the Methodist Hospital in Lubbock. He expects to go home by the 8th or 9th of December.

It was good to see Maurice Dorwood during his brief visit in Gail. Maurice who now lives in Clifton, Texas was in the county attending to business.

We are happy to hear that Fran Bennett had a good report following a series of medical tests.

It is also good news that Pauline Clark is home from the hospital and is having a speedy recovery.

Alvin Smith is in the Garza County Hospital in Post undergoing tests. We hope everything comes back normal.

# Under New Management

The Gail Playskool, formerly managed by Sandra Evans now has a new name and a new face.

The playskool is now known as the "Farmer -n- the Dell" with Mrs. Dianne Farmer as the new manager.

Dianne would like to welcome everyone to come by and visit. She wants to remind all you mothers who need a day off once-in-awhile to bring the kids to the "Farmer -n- the Dell" it would be fun for them and good for you.

Dianne would also like to remind everyone that she is going to continue the pre-school day on Friday's. This is a good opportunity for your child to learn and to play with other children.

We would like to wish Dianne luck in her new business.

'Tis the season to be jolly and boy do I have something for which to be jolly. I just arrived home Saturday night from New Agents' Phase I training at Texas A & M. I'm full of ideas and ready to put them to work.

First, I'll need your help. I would like to start a mailing list of all interested homemakers in the county. The purpose of the mailing list will be to assist me in sending helpful homemaking hints and ideas to those interested. The newsletter will be sent several times during the year. I am working on a Christmas newsletter. If you are interested, please mail the form below or call 852-4201. Be sure and tell your friends and neighbors about the opportunity. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion or national origin.

### 4-H

## Showmanship Clinic

Registration for the clinic will begin at 10:00 a.m. on Saturday, Dec. 9, 1978. The clinic will be held at the Texas Tech Agricultural Pavilion on Indiana Avenue, west of the University.

There will be one class taught on each of barrows, lambs, and steers. The 4-H'ers may pick two of the three classes and attend one session in the morning from 10:30 until 12:00 and the other session will be taught from 1:00 until 2:30 in the afternoon. The classes will be taught by collegiate 4-H club members, using experience gained from their years of showing livestock in 4-H. Each class will cover the main points of show-ring showmanship -- the 4-H'er handling himself and his animal. There will be time before the end of each class for specific questions from the audience.

There will be a \$2.00 per person minimum donation to the Collegiate 4-H Club. This will go into the club fund to assist with travel expenses of club members as they travel to counties, districts, and state events to assist in 4-H work and activities and to promote Texas Tech University and the Collegiate 4-H Club.

If you are interested in attending this clinic please contact the Extension office in Gail, Phone 856-4201.

# need money?

### WHO DOESN'T NEED MONEY?

Ever heard that old cliché? Unfortunately, the people that really need money don't have the money to secure a loan of the type they need, nor do they know where to go to get that much needed financing.

### FINDING MONEY — THAT'S OUR BUSINESS

Worldwide Finance Exchange have the sources and we will share them with you for only pennies each. You can finance almost any venture, expand your business, or lease now and purchase later for as little as one dollar, buy that piece of real estate you've had your eye on, or just secure financing for whatever you have in mind, even that new idea you have. Our sources are proven and have the money available now.

LISTED BELOW ARE JUST A FEW MAJOR FIELDS MONEY IS AVAILABLE FOR
