Years of Discord Have Embittered 2 Nations

Twenty thousand more troops embarked for Africa. That was Premier Mussolini's counter-movement following Ethiopia's

plea to the League of Nations for action in the crisis with Italy. The massed columns of troops with fixed bayoneted rifles

(top), is representative of the well trained thousands who will confront the Abyssinian natives in event of war.

2 Generations "Remember"

Here Is Background Of Approaching Conflict

(The prospect of war between Italy and Ethiopia is worrying governments the world over. This article discusses the background of the expected conflict, and the preparations for it.—Editor.)

By ANDRUE BERDING
ROME (AP)—The Italo-Ethiopian conflict has been brewing for more than two generations. It has been marked not only by one war and by scores of border battles but by fundamental differences of opinion and intense animosity. The world did not awake to the strained relations between the two countries until the serious frontier clash of Uakul last December, with its more than 100 dead and several hundred wounded. But Italy and Abyssinia have been on the worst of terms off and on since 1895, when 100,000 Ethiopians annihilated an Italian army of 17,000.

Quiet Reigned
That fatal battle of Adua resulted

Postal Workers Elect Officials At City Banquet

All officers were re-elected for another year when members of the Panhandle District, National Association of Postal Supervisors met here yesterday afternoon in a business session, which followed a dinner at the Eagle Buffet.

Officers returned were M. E. Dilday, Amarillo, president; Dewey Foster, Canyon, first vice-president; Homer Broadbent, Canadian, second vice-president; W. W. McDonald, Pampa, secretary-treasurer.

Those attending the luncheon were: C. H. Tyler, foreman clerk, and Mrs. Tyler, Amarillo; C. M. Tyler, assistant postmaster, and Mrs. Tyler, Amarillo; M. E. Dilday, superintendent of mails, Amarillo; Ralph E. Roush, superintendent of mails at North Amarillo station, and Mrs. Roush, Amarillo; H. H. Horne, foreman of carriers, and Mrs. Horne, Amarillo; Inspector and Mrs. O. A. Curry, Amarillo; N. M. Williams, assistant postmaster, Clewiston; Miss Pyle, Clewiston; W. W. McDonald, superintendent of mails, and Mrs. McDonald, Pampa; O. K. Gaylor, assistant postmaster, and Mrs. Gaylor, Pampa.

I Heard...

Mrs. S. Luedders of Skellytown looking for competition for her girls' playground ball team. Any girls' team in Pampa desiring to play the Skellytown team may get in touch with Mrs. Luedders by calling 9036F4.

By OTHER WRITERS
JOHN L. MCARTY in Dalhart, Texas—I don't want to be a joy killer, but maybe a friendly tip here will save somebody having to pay out cash to some game warden. It is a very serious violation of the game laws to shoot from a car on a Texas highway. These rabbits are really tempting, but we need all the money to stay here at home.

MACK STANTON in Clovis News-Journal—Well, I had a sort of field day yesterday. Summoned to be a witness in the Hamilton trial, I didn't know whether I was going to be put under a peace bond or jailed for cursing somebody. Far be it from me to discuss any question under judicial consideration, but I hope no precedent is established for 'talking people for cursing people.' If it becomes the established rule to talk people for a little piece of genteel swearing, then they might as well clean out a cell and get ready for a steady boarder.

LYMAN F. ROBBINS in Memphis Democrat—The war on accidents is a war on reckless, incompetent automobile driving.

MORRIS HIGLEY in Childress Index—Strange how this institution of marriage is always shaking on its foundations but never fails. It is like the end of the world—scheduled for tomorrow but tomorrow never comes.

J. C. PHILLIPS in Borger Herald—Fred Huff, business manager of the Phillips 66 baseball organization, has given members of the boys' club of the Y. P. O. permission to go to all local ball games free, when they are accompanied by an instructor.

CLYDE W. WARWICK in Canyon News—The largest crowd to ever visit the Palo Duro State park came during the past week. The park certainly made a most impressive appearance to the visitors. The creek was filled with water, just high enough so that cars could safely drive the crossings, but with lots of water sufficiently deep for bathing all along the creek. High praises for the park were sung by those who came and were impressed with the possibilities of the Palo Duro.

MARVIN JONES in Hereford Brand—We grow used to certain things and they seem common-places. A few practice causes comment. It is interesting to hear business men criticize the farmers for adjusting their production when they themselves have been practicing the same thing for years and take it for granted.

JOSEPH M. NOBLE in Canadian Record—Carl Hinton, secretary of

Il Duce Is Massing Great Army In Africa

(By The Associated Press)
Mussolini is taking no chances on failure as he builds up in Eastern Africa the greatest army ever sent to the Dark Continent, surpassing even those of his own heroes, Caesar and Napoleon.

More than 100,000 men have left Italian ports for Eritrea and Somaliland. Another 100,000 are about to follow and be there before the end of August, when it is believed hostilities with Ethiopia will begin. All military branches except cavalry have been sent out to Africa. The array of military equipment is the most amazing Africa may ever see.

Three hundred airplanes will be ready for service when the word is given. There are scores of tanks, hundreds of trucks, all branches of artillery, but especially mountain guns. There are even 100 "flame-throwers" who carry machines with a hose shooting a stream of fire 50 to 60 feet long.

All told, Italy will have five regular army divisions of 20,000 men each in Eastern Africa; five black-staff volunteer divisions of 12,000 men each; two and probably more native divisions of 20,000 each. And she will have about 40,000 Italian workmen who are military reservists and can be pressed into service.

By far the greatest number of these men are being concentrated in

YOUNG DEMOS OPPOSE EACH OTHER IN ROW OVER ELLIOTT

FORT WORTH, July 15 (AP)—Elliott Roosevelt, whose vice-presidency of the Texas Young Democrats was the subject of a seige recently by rebellious Dallas county members, will know tomorrow whether a sortie arranged by his friends will pull him out of the political frying pan.

The son of the president had a staunch defender in Raymond Buck, Fort Worth attorney and chairman of the state executive committee which will hear the rebels' case tomorrow. Buck not only said that no effort to unseat Roosevelt was anticipated, but that "on the contrary there likely will be some action taken on a resolution dealing properly with those who caused the dispute in Dallas."

Phil Overton, Dallas committee member, who organized the movement to unseat young Roosevelt, now a Fort Worth resident, answered Buck's statement:

"Certainly we still intend to go through with the effort to remove Roosevelt. Yes, we have strong hopes that the movement will be successful."

Overton, whose battle shout has been "Texas run by Texans and not a New Yorker," declined to detail his plans because "that might help them really think up some way to block us."

The Overton group brought the feeling against Roosevelt into the open two weeks ago, offering a resolu-

ROAD DESIGNATIONS VOIDED

Attorneys For Davis Indicate Self-Defense Plea

PICKING JURY TO TRY YOUTH FOR STABBING

SUSPENDED SENTENCE APPLICATION IN PROSPECT

Five jurors had been chosen by 2:30 o'clock this afternoon in the trial of Glen Earl Davis. They were Jack Cook, Bird Jones, W. S. Willis, Jim Collins, and J. R. Glass.

Trial of Glen Earl Davis, 18-year-old Pampa high school graduate, for the fatal stabbing of Kenneth Campbell last February 23, opened in 31st district court this morning.

Defense questioning of prospective jurors indicated a self-defense plea. An application for suspended sentence in event of conviction will be filed, Young Davis sat with his father. The slight but muscular youth, sun-tanned, bore the same stoical expression which has characterized his attitude since his arraignment. His attorneys are John Sturgeon and Walter Rogers. Rogers came here recently from Sherman to be associated with Mr. Sturgeon. Sherman White, county attorney, is assisting District Attorney Lewis Goodrich in the prosecution. Parents of the slain youth were sitting with State's attorneys this morning.

The first juror chosen was Jack Cooke, farmer of the McLean community and father of four small daughters.

Witnesses will include many students and friends of Davis and of the slain youth. Several school teachers will likely testify.

Tucker to Lead Young People in Anti-Booze Work

H. D. Tucker, director of religious education of First Methodist church, has received notice that he has been appointed as county director of the 31st senatorial district to lead young people in organizing for the campaign to keep Texas dry in the election on August 24.

This district includes 26 counties of the Panhandle. At a convention held at First Baptist church of Amarillo Wednesday of this week Mr. Tucker will be one of the speakers.

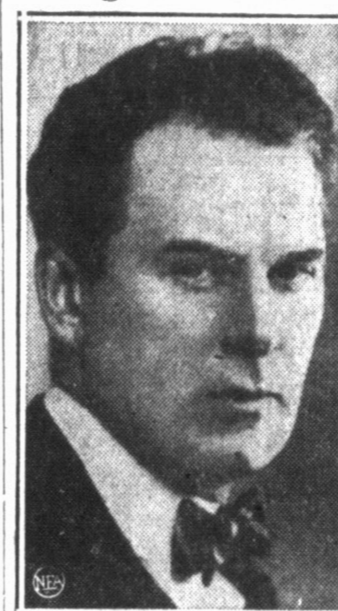

Several hundred persons, leaders for this campaign, will gather at the Amarillo convention Wednesday. Bishop Frank Smith of Houston and Dr. L. D. Young of Dallas will be the principal speakers for the evening meeting.

A large number from Pampa is expected to attend. James Todd Jr. is the chairman for Gray county.

Plans are under way for a rally to be held at Pampa during the next few days.

PAMPA'S SLAYER GIVES UP

Fights Death

With condition called precarious, Thomas Meighan (above), 56, fought for his life after a serious operation in New York. A throat obstruction that developed after pneumonia forced the noted film actor to hurry East from California to undergo the operation.

BIG RESOURCES PLAN SCRAPPED IN WORKS DRIVE

Change Delays Drive To Spend Four Billions

WASHINGTON, July 15 (AP)—High officials said today that elaborate plans prepared by the national resources board—on which President Roosevelt originally based the \$4,000,000,000 work relief program—have been abandoned so far as the present jobs drive is concerned.

Lack of money and the need for speed in getting started toward the goal of 3,500,000 jobs were given as the chief reasons.

With Secretary Ickes as its chairman, the board submitted to Mr. Roosevelt last year a coordinated public works program to improve land, water and mineral resources. It suggested a permanent works program which might involve expenditure of \$125,000,000,000 in the next half century.

Explaining some of the delays in the present works program, one high official said today that it was not until May, after the work relief act had passed that any plans for spending huge appropriation existed except for those prepared by the board.

Earlier, when the senate demanded information on how the fund was to be divided, the administration based its classification entirely on the board's program, this official added.

He said that although the public works administration had collaborated in drawing up the program it had no plans of its own. Neither, he said, had the board's classification administration because neither Hopkins nor Ickes knew until two weeks after the work relief act was signed who would be in charge.

After Hopkins was given the principal role, it was said, he found that

MEMBER OF PROMINENT CITY FAMILY KILLED IN ACCIDENT

The body of Charles M. Shewmaker, 30, killed in a car accident near Amarillo late Saturday night, will probably be brought to Pampa this afternoon.

Shewmaker, a resident of Borger, but formerly of Pampa, was killed in a crash in which Chester M. Watson, Amarillo tire dealer was fatally hurt, and Miss Ruth Reddell of Amarillo, was critically injured. The fatal accident happened about 11:30 o'clock a mile west of the English airport on U. S. Highway 60.

According to Mr. and Mrs. Walter Kirkpatrick of Stinnett, eyewitnesses of the accident, the Watson truck passed them at a high rate of speed just before striking the Shewmaker car, being driven east out of Amarillo. Dust is believed to have obscured the vision of the drivers.

Watson was killed instantly and Shewmaker died in an ambulance

STATEMENT IS NOT MADE BY ACCUSED MAN

HIS ATTORNEY DOES ALL TALKING IN COURT

TULSA, Okla., July 15 (AP)—Garland Creekmore, 27, today pleaded innocent to murdering his love rival, Elmer Lemon, Pampa, Tex., at Broken Arrow a week ago.

Creekmore, who surrendered yesterday after being a fugitive since the time of the shooting, said nothing, permitting his attorney to do all the talking.

The farmer was denied bond and returned to jail. His preliminary hearing was set for next Monday.

The slaying took place at the Broken Arrow home of Miss Ora Benedict, fiancée of Lemon, an oil worker from Pampa, Texas. Creekmore allegedly called at the Benedict home where Lemon was spending the evening with his fiancée, called him to the yard, and wounded him fatally.

The young farmer was believed to have eluded searching parties by hiding in the Verdigris river bottoms.

When Creekmore surrendered, he was accompanied by a lawyer, who would not permit the accused man to make a statement.

Sitter Gusher Is Good for 200 Barrels an Hour

Excitement in the Panhandle oil field today was in Wheeler county, where the Mert Oil company topped big pay in its Sitter B-2 yesterday, after striking similar pay 30 feet high in its Sitter B-2 on Wednesday. The tests are in section 33, block 24, Wheeler county.

Pay in the No. 2 well was topped at 2,568 feet in the granite wash formation. A gas flow of about 15,000,000 cubic feet was encountered with the pay. A gas flow of approximately 60,000,000 cubic feet was caused off higher up.

A test of the new well cannot be made until storage and pipeline connections have been made. The test was shut in immediately after the first flow, which was estimated to be good for about 200 barrels an hour. The well is a direct offset to a very small well and 1,200 feet to the nearest big production, the Mert company's Sitter No. 1.

Topping the pay at 2,541 feet, or 33 feet higher than anticipated, the Mert company's B-2, flowed 500 barrels in one hour and 50 minutes before being shut in last Wednesday.

The Helena Oil company is drilling a test two locations from the Mert wells.

WOULD BAN FIREWORKS

BORGER, July 15 (AP)—Because 14 persons were injured by explosions here July 4, the Borger Junior chamber of commerce voted to ask city officials to ban the sale of fireworks on future holidays.

Mr. and Mrs. C. E. Ruddy and children visited friends in Borger yesterday.

Solid Gasoline

Non-explosive, slow burning, solid gasoline that eliminates the fire hazard for airplanes has been successfully demonstrated by its inventor, Dr. Adolph Prussin, after 16 years of research. Clyde Pangborn, noted flyer, is shown examining a can of the fuel after he had fired an inflammatory tracer bullet into it without causing an explosion at a demonstration in New York.

MOON MAY BE SEEN IN TOTAL ECLIPSE HERE

Shadow to Cover the Moon Completely at 10:09

By HOWARD W. BLAKESLEE, Associated Press Science Editor.
NEW YORK, July 15 (AP)—The entire United States has the main seat tonight for a total eclipse of the moon—the first for the whole country since 1927.

No one will have to stay up all night, and most folks won't have to be up even late to see this eclipse.

The curving edge of the earth's black shadow will cut into the side of the moon at 8:15 p. m. central standard time.

That is the moment when the moon touches a black cone, the earth's shadow, which extends about 860,000 miles out into space. The moon will enter this cone at a point about 226,000 miles out.

It will take the moon until 10:09 a. m. to pass completely into his black shadow cone. From the earth this will be seen as the earth's shadow, a round disc far bigger than the moon, moving across the lunar face until the moon is completely engulfed.

At 10:09 p. m. central standard time, the shadow will completely cover the moon. It will remain covered for an hour and 41 minutes, the time necessary to pass through the black cone.

The moon may, or may not, be completely invisible during the hour

See ECLIPSE, Page 8.

INCLUDES ALL TEMPORARILY MARKED ROADS

THOSE MAINTAINED BY STATE WILL BE EXCEPTED

AUSTIN, July 15 (AP)—The state highway commission today announced the cancellation of all temporary highway designations except those maintained by the state and roads under construction or on which plans are nearly completed. The action was taken to improve eligibility of the roads to participate in the federal works progress administration program.

The commission emphasized the cancellation would permit the counties to include dormant projects tentatively on the state highway system in their lateral road applications both to the works progress administration and the state highway department, if the counties deemed it desirable.

The federal program will be under direction of Harry P. Drought, with headquarters at San Antonio. Drought, the commission said, has called a conference of his division engineers for Wednesday in San Antonio to discuss the works program. The highway commission advised county officials to submit their projects jointly to the division supervisors and the highway department.

Cooperation of the highway department was tendered Drought and the county officials. The highway department will advise counties as to location and construction specifications of roads that ultimately may become a part of the state system. The commission estimated a minimum of \$3,000,000 would be available to the highway department

See ROADS, Page 8.

Sooner Killed By Car Driven By Miami Man

ENID, Okla., July 15 (AP)—W. L. Morgan, 35, Elk City, Okla., was fatally injured when he was struck by an automobile driven by Will O. O'Laughlin of Miami, Texas, at Meno, 18 miles west of Enid, Sunday afternoon. Major county officers absolved O'Laughlin of any blame.

I Saw...

Ennis Favors back from a vacation trip to Old Mexico and Erath county. He brought with him a collection of "jitter bugs" which may be seen in glass jars at The NEWS. The spiders include two Black Widows, the "king of spiders", a gray wood spider which destroyed a black widow in seconds flat, a stinging scorpion, all from Erath county, and a tarantula from Mexico.

John Bowers, Roney Morgan, Sam Fenberg, Dr. Brunow discussing the perversities of New Mexico and Colorado fish. Although the party caught all they wanted on a recent trip to Eagle Nest, N. Mex., and vicinity, the fish didn't bite "like they used to."

In the Santa Fe New Mexican, daily newspaper, where "Pampa, Texas has taken over" Eagle Nest, formerly Therna. The article mentions the ranches of Dr. M. C. Overton and W. M. Lewright. Dr. Overton is now building a house on his land there.

Can You Imagine!

SANTA CLAUS IN JULY!

EDITORIAL

DEPENDABILITY IS FIRST DEMAND OF AUTOISTS

Sit on a front porch beside a rural highway and watch the automobiles go zipping by, and you will get the idea that the American motorist asks for one thing, and only one, when he buys a car—speed.

Yet speed, as a matter of actual fact, seems to be the least valued quality an auto can possess, according to a recent survey of automobile owners.

This survey was conducted by the research staff of one group of manufacturers. It sent questionnaires to more than 1,000,000 motorists, asking them to list the general characteristics which they prized most highly in a new car.

Their replies are rather surprising. The thing the motorist wants most in his car, according to this survey, is the homely old quality of dependability. He likes to feel that the old bus will keep on running, month in and month out, and that he won't always be taking it to the service station for annoying and expensive repair jobs.

In second place came economy, which is, of course, allied to dependability; and next to these two qualities the motorists wanted safety—which also has something to do with dependability.

Next, in the order named, the motorists voted for comfort, appearance, ease of control, low first cost, smoothness, pick-up—and, last of all, speed.

The results of this questionnaire are more than a little instructive. They suggest, for instance, that the automobile industry is wise in edging away from the yearly change-of-model stunt; for the car's appearance, after all, ranked only fifth on the list, and the demand for dependability suggests that many a driver likes to hang on to a sturdy car regardless of minor changes in body styling.

And they indicate, furthermore, that the great mass of auto drivers is not speed-crazy. Looking at the whizzing cars on a through highway might make one feel that everyone in America is intent on shaving seconds from his traveling time; but apparently the speed-bugs are only a small minority of the motoring public.

In fact, the questionnaire indicates that most motorists are pretty sensible when they come to buy cars. Now if there were only some way of putting some sense into that small minority that likes speed, speed and then more speed, we might reach a millennium in which all motorists were as dependable as their automobiles—B. C.

240 NEW DOCTORS

DALLAS, July 15 (AP)—Issuances of 240 licenses to practice medicine was authorized by the State Board of Medical Examiners here yesterday. The board authorized licenses for 187 recent graduates of Texas medical schools, and granted 53 more to doctors who received licenses in other states.

DeMolay Called

Pampa Chapter Order of DeMolay will hold a special called meeting tonight at eight o'clock for the purpose of planning for future degrees and a celebration to be held when the chapter's charter is secured. Master Councilor Charles Frazer has asked that all members be present.

CAPITOL CHATTER

BY CHARLES E. SIMONS

AUSTIN, July 12 (AP)—One of Governor Allred's chief concerns is the betterment of the condition of prison inmates.

When Governor Allred took office he announced that only worthy convicts would receive executive clemency. Influence of friends and relatives or wealth were to play no part in the release of those convicted of violating the state's laws.

All pardon applications were referred to the state board of pardons and paroles and the governor told all applicants they first must have their cases reviewed by this group before they would be considered. He has adhered faithfully to this policy.

In a further effort to improve conditions at the penitentiary, and to relieve the congestion resulting from crowding too many prisoners into too little available space, he instructed the pardon board to make investigations of all cases deemed by prison authorities as eligible and worthy of clemency. This has had a further salutary result.

Now the governor would like to see his pardon policy broadened to a point where the state would keep in active contact with the prisoner after he has left the penitentiary. Governor Allred has proposed that luncheon clubs in each county establish a committee to which convicts would be required to report regularly to the committee and account for his activities.

Allred believes the failure of the state to check up on its paroled convicts is the most glaring weakness in the present system and that if paroled prisoners were given some guiding influence they would more quickly return to a useful place. It has been pointed out that many states maintain a staff of officers whose only duty is to make periodic checks on prisoners to determine if they are conducting themselves properly and are living in surroundings and among associates helpful to their rehabilitation.

OUT OUR WAY

THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON—Most Republican leaders are resigned to an endurance contest which must end before the air can be cleared for further party plans.

This contest, they feel, is between—Ex-President Herbert Hoover's hopes that events and party sentiment will create a chance for his renomination next year.

The overwhelming feeling among Republicans that it would be bad medicine to renominate Mr. Hoover under any conceivable circumstances.

Mr. Hoover's wistfulness, as analyzed by various other leaders, is perfectly understandable and even excites the sympathy of many Republicans, who agree with him that he had a raw deal from fate, was vilified by his opponents, and, if he had been re-elected, would have led the country to a higher level of recovery than it has reached under Roosevelt.

But hardly anyone believes that the opposition to Mr. Hoover's nomination won't far outlast the ex-president's hopes.

A feeling that this will take too long and that the sooner Mr. Hoover and the country are set right about it, the better it will be for the party, is responsible for the desire of a few senators to persuade Hoover to declare publicly that he isn't a candidate.

Otherwise, Republicans are chiefly discussing the relative merits of Senator Vandenberg of Michigan, Col. Frank Knox of Chicago, Senator Dickinson of Iowa and—a recent development—Senator Steiwer of Oregon.

Although they assure one another and all who will listen that Roosevelt's prestige has been declining very rapidly, they're still less than optimistic of the party's chances next year.

By and large, they're waiting for something to turn up, meanwhile admitting that gradually improving business conditions and the "five-billion dollar work-relief campaign fund" are very serious obstacles to G. O. P. victory.

Young People Of District Attend Methodist Meeting

WELLINGTON GIRL IS NAMED LEADER FOR NEXT YEAR

A Methodist young people's meeting began for the Clarendon district when about 45 young people arrived in Pampa Saturday evening.

The opening affair of the conference was a buffet supper and lawn party at the J. M. Saunders home south of the city. A play, "The One Thing Needful," was presented by Anna Margaret Tucker, Leona Hurst, and Josephine Lane. They played the roles of Martha, Rachel, and Mary.

Sunday's activities began with a worship service led by Beulah Mae White of Wellington. Various committee meetings were held after the early morning services.

The business session began at 2 o'clock. The group elected Beulah Mae White district director to succeed Roscoe Trostle. Memphis was selected for the next meeting, place of this district, to be held in October.

The Rev. Lance Webb conducted the final consecration service Sunday afternoon at the church. The meeting closed when the entire group visited the Christian Endeavor Sunday evening.

Mrs. Gaston Poole, chairman of the arrangements of the conference, wishes to express her appreciation to families who showed their hospitality to the visitors.

Those on the welcoming committee from the district school department were Opal Kretz, Marjorie Saums, Georgia Mae Rogers, James Foster, J. G. McConnell, and Bash Barrow.

Begins Third Year as Minister

E. C. McKenzie, pictured here, yesterday began his third year as minister of Francis Avenue Church of Christ. During his ministry the church has grown, with 286 additions to membership. The congregation has remodeled and enlarged the church building, and added a Sunday school annex with eight classrooms and modern equipment. At present the church plant ranks among the best of Churches of Christ in the Panhandle. The remodeled auditorium has a seating capacity of 436, and Bible school facilities for more than 400. The pastor's home has also been repaired and a room added. These improvements represent an investment of about \$7,000. Mr. McKenzie left this morning for a five-week evangelistic campaign in East Texas, then will return to resume his work here for another year. In his absence Evangelist Roy L. Ruckman of Hammon, Okla., will occupy the Francis Avenue pulpit.

MINISTERS GO TO DUTIES AT OTHER PLACES

TWO WILL SERVE IN REVIVALS, ONE IN CAMP

After conducting services in their pulpits here yesterday, three ministers are leaving the first of this week for duties in revivals and a young people's camp. The Rev. L. Burney Shell, Presbyterian minister, will go tomorrow to Ceta Canyon to act as dean at a conference for intermediates of this district. He expects to return Thursday, when this conference will end, and to take several young people back to the canyon for a week's camp beginning that day.

E. C. McKenzie, minister of Francis Avenue Church of Christ, left this morning for East Texas, to be engaged in evangelistic work for five weeks. He returned to Spur today, but will again be with his congregation next Sunday.

Church events for next week include the monthly Men's Brotherhood dinner at First Baptist church Friday at 7 p. m.

Sunday school attendance reports showed 490 at First Methodist church, 115 at First Presbyterian, 189 at the Francis Avenue church, 635 at First Baptist, 115 at Amarado Baptist, and 103 in First Baptist training classes.

Brown Shirt Girls Browning

In spite of appearances, this is not a vacation-in-the-country picture. The three young women are members of the women's labor corps in Germany, and were enrolled under the compulsory labor law recently promulgated. Their checked gingham sunback rompers, happy smiles and relaxed attitudes indicate that the Nazi chieftains have not arranged a too strenuous work program for them.

TWENTY MORE CABINS WILL BE BUILT AT PALO DURO GROUNDS

CANYON, July 15.—The National Park service has approved the construction of 20 more cabins in the Palo Duro park and work has started with Supt. Louis J. Bryan making a test cabin to determine the cost. The first cabins will be of stone, located west of the lodge on the same ledge of rock as the lodge occupies. As soon as the first cabin is completed, the 19 additional cabins will be constructed.

The Park Lodge building, which has had no work done toward its completion for some time, will have a hardwood floor laid in its dining room as the result of many requests for the lodge as a place of amusement.

All phases of work at the park has progressed well during the past few weeks, and it has been stated that the Palo Duro has more approvals through the office of the National Park service than any five combined parks in this division.

Several projects are now under way at the park. The four stone cabins at Cow camp have been supplied with temporary furniture. Permanent furniture of cedar is now under construction. Water lines are being run to the cabins. The springs on the north side of the canyon that furnish this supply are being developed to capacity. Geologists from Amarillo are making extensive surveys of the potential water supplies in the canyon.

The advisory committee has set a price for the use of the lodge for parties and entertainments. The charge will be \$7.50 for day, and \$12.50 for night entertainments.

The four cabins at Cow camp have been enjoyed by a number of campers during the last two weeks. A charge of \$1.50 per day, or \$10 per week has been set on the cabins.

'Mother' Lauded

Memories of the tiny group organized in Portland, Me., by her pastor-husband in 1881 must have stirred within Mrs. Francis E. "Mother" Clark, above, widow of the founder of Christian Endeavor, when she gazed on thousands of youthful delegates honoring her at their 35th annual convention in Philadelphia. In half a century, the organization's membership has grown from 50 to 4000,000.

Tenth Birthday of Boy Is Celebrated With Recent Party

A surprise party was given to Harold Cobb on his tenth birthday Wednesday afternoon, when Mrs. W. E. Cobb entertained a group of his friends. She was assisted by Mrs. J. V. Graves and Miss Helen Draper. Two prizes were offered during the party.

Dramatic Dots For Play Suit

For Country or the Beach Quickly Made!

BY ELLEN WORTH

The practical playsuit patterned for today is the ideal thing for active sports and for camp wear.

It favors the tailored shirtwaist lines, with that little girl air about it, that you'll love.

The suit, buttoning from neck to hem, makes it especially easy to slip into. Generous plaited insets at the sides, lend plenty of freedom to the detachable skirt.

While gaily dotted pique—strawberry pink on lighter pink ground—made the model pictured, there are numberless other smart and inexpensive schemes for this easily made playsuit.

Style No. 964 is designed for sizes 12, 14, 16 and 18 years. Size 16 requires 4 1/2 yards of 39-inch material for the entire outfit.

Summer Fashion Book contains many more smart, cool vacation clothes.

Price of BOOK 10 cents.

Price of PATTERN 15 cents in stamps or coin (COIN is preferred). Wrap coin carefully.

Pattern Mail Address: N. Y. Pattern Bureau (your newspaper name) Mohawk Bldg., 21st Street at Fifth Avenue, New York City.

The winners were Jerry Alexander and Nita Rose McCarty. Ice cream and cake were served the following youngsters: Leonard Hall, Nita Rose and Orma Jean McCarty, Rhinie Bell Williams, Jean Clay, Frank Gonsaulis, Jerry Alexander, James D. Cobb Jr., Ray Thompson, and Jim Hamlett.

Walmsley Still Refuses to Quit New Orleans Job

NEW ORLEANS, July 15 (AP)—Mayor T. Semmes Walmsley's deserting political organization caused today to decide whether it would follow Senator Huey P. Long's wishes and circulate petitions for Walmsley's removal by the legislature.

Most of Walmsley's leaders "surrendered" Friday to Long.

The mayor spoke for an hour over the radio last night, blaming the city's financial difficulties on Long and reasserting his intention never to "compromise or surrender." Long previously had asserted Walmsley must "get out."

The mayor said, "with his controlled legislature and his controlled tax commission, by taking away revenues on the one hand and making the time of collection of what revenues are left us uncertain," had made it impossible for the city to borrow money.

"The city's treasury was exhausted today with payment to employees of 50 per cent of salaries for the first half of July, the first payments since June 1. Workers in a number of city departments are being paid by the FERA."

"Does Senator Long care about what happens here in the city of New Orleans?" Walmsley asked. "You know he does not and I know he does not. His sole interest is power, power, power."

He said Long sought control of the old regular organization to bring him badly needed additional political support in the gubernatorial and senatorial campaign next January.

BETHANY CLASS PICNIC Members in service will be special guests of First Baptist Bethany class at a picnic tomorrow evening. Families of members will also be entertained. The picnic will be at Central park at 6:45, and each woman is to bring a lunch.

SISTER MARY'S KITCHEN

By MARY E. DAGUE NEA Service Staff Writer

How long since you've taken a kitchen check-up? And by that I don't mean just a tabulation of dishes and pots and pans and canned goods—though I mean that, too. To have the right tools and accessories is important, whatever your job.

But do you ever stop to figure out just how long each kitchen task takes you and whether you could save precious time for the garden and the front porch if you did it an easier, better way? I know women in these modern days who still think they are committing a crime when they take the easiest way and spare themselves a little. I suppose it's our stern New England conscience, which seems not to depend very much upon locality.

Time Saving Rules Here are a few rules I have found a help:

Never stand to do a task if you can sit. Don't keep things you need every day on high shelves so that it's a strain to get at them. In hot weather, use as many ready prepared foods as possible. Lay out everything you want for a job before you begin it. Keep the things that are used for special operations close together.

There are many modern culinary short cuts that our grandmother wouldn't have taken, but is that any reason we shouldn't? For instance, I use cracker crumbs for thickening stews, soups and chowders, that used to be thickened with a more laboriously made flour paste.

In fact, I use crackers for all sorts of emergencies. They are so handy, always on the shelf and always ready.

Crackers make dainty sandwiches. Sardine and anchovy pastes, cream cheese with pimento, butts, mustard and tomato catsup, highly flavored grated cheese worked into creamed butter—these are a few combinations that are good.

Spreads for Sweet Crackers For slightly sweetened crackers use a mixture of cream cheese and preserves or jam. Chopped dates and raisins combined with peanut butter make a good sweet filling. Chopped nuts added to marmalade is another delectable combination. And, of course, you know

Tomorrow's Menu BREAKFAST: Chilled apple sauce, cereal cooked with dates, cream, crisp toast, milk, coffee. LUNCHEON: Corn fritters, maple syrup, watermelon, cup cakes, milk, tea. DINNER: Broiled lamb chops, scalloped potatoes, buttered carrots, Boston head lettuce and cucumber salad, fresh fruits, crackers and cheese, coffee, milk.

about the cracker's uses with cheese. For the convenience of serving cheese, by the way, try sugar toner or a cheese scoop. It's a good idea to pour a tablespoon of beer or ale or wine into Edam cheese after each meal.

Meeting Called For Pre-School Mothers by P-TA

Mothers of 6-year-olds in the Woodrow Wilson school district, whose children will start to school there in the fall, are asked to meet Tuesday afternoon at 4 o'clock.

Mrs. Frank Shotwell, president of Woodrow Wilson Parent-Teacher association for the coming term, has called the meeting. She hopes to meet every mother of prospective first-graders in her district.

Surprise Party Is Given on Birthday For C. A. Forsythe

Mrs. C. A. Forsythe entertained with a surprise birthday party for Mr. Forsythe Wednesday evening. Guests enjoyed an informal evening and presented gifts to the honoree.

A huge birthday cake was served with lemonade and ice cream to Messrs. and Mrs. A. R. Eldridge, F. M. Brooks, Homer Johnson, F. H. Paronto, and Forsythe; Mrs. J. W. Brown, R. S. Walker, Mary Horner, Anna E. Forsythe, W. H. Palmer, Joe Brown and daughter; Miss Bula Lee Johnson.

Montgomery Ward To Hold Cooking School in City

A cooking and canning school will be conducted at Montgomery Ward from Wednesday through Friday with classes each day at 3 p. m., which will be open to the public. It was announced today by F. C. Nelson, store manager.

Instruction in the preparation of all types of food with special attention given to the use of the pressure cooker, will be given by a demonstrator. Local women's clubs and organizations have been invited to attend in groups.

"The importance which is attached to this school may be easily appreciated when it is realized that more than 2,000,000 pressure cookers are in use in this country and that the United States department of agriculture recommends them as the only safe method for canning all non-acid vegetables, meats, fowls, and fish. With the great number of these cookers in the homes, Ward's feel that expert instructions should be given to the public so that they may obtain the best results."

The reason the department of agriculture endorses the use of pressure cookers, according to Mr. Nelson, is because high temperature and steam pressure effectively kill disease breeding germs. All commercially canned foods are canned under pressure.

A number of gifts will be given at the school daily.

BANQUET WILL HONOR CENTRAL BAPTIST YWA

SPONSORING GROUP TO BE HOSTESSES TONIGHT

Young Women of Central Baptist church who have recently organized an auxiliary to the Missionary union will be entertained by older women of the church this evening, with a banquet at the church.

The Young Women's Auxiliary was formed this summer, sponsored by the Missionary union. Members and several guests will be present for the dinner this evening, a meeting that will launch the new organization's work. Added members are to be enrolled soon.

The program today will start with an invocation by Mrs. G. C. Clark, president of the Missionary union, and a welcome address by Miss Edith Auldridge, president of the auxiliary.

Jean Lively will play accordion solos and Gerald Brown piano solos, then the principal address by Rev. John O. Scott, minister, will be heard.

Recipe of Pampa Woman Endorsed

Mrs. C. A. Stewart of Pampa has just been awarded a certificate of recipe endorsement by Better Homes and Gardens for her recipe, "Jelled Pineapple and Carrot Salad."

This certificate is given by Better Homes and Gardens to distinguish recipes which show the best kitchen tests for dependability, excellence of taste, and family usefulness.

In awarding these certificates, it is the magazine's aim to provide proper recognition for the creative work done by women in their own kitchens, and also to raise the standard of accuracy and dependability of recipes as a whole.

Mrs. Stewart's endorsed recipe follows: Jelled Pineapple and Carrot Salad. 1 package lemon gelatine. 1 cup drained crushed pineapple. 1 cup hot water. 1 cup grated raw carrots. 1 cup pineapple juice. 1 tablespoon vinegar. 1/2 teaspoon salt.

Dissolve the gelatine in the hot water. Add the pineapple juice, vinegar and salt. Chill until slightly thickened and add the pineapple and carrots. Turn into a large mold or individual molds as desired and chill until firm. Serve with mayonnaise if desired.

Lawn Party Will Replace Regular Meeting of Troop

A lawn party at the home of Neta Edwards, 845 E. Kingsmill, will be given for Girl Scouts of troop six Tuesday evening at 7 o'clock. This will replace the regular weekly meeting Thursday.

Plans for the party were made at last Thursday morning's meeting. Mr. and Mrs. L. M. Hayhurst of Kellerville are the parents of a son, born yesterday afternoon at Pampa-Jarratt hospital.

CLUB BOARD CALLED

BRYAN, July 15 (AP)—Mrs. Volney Win Taylor of Brownsville, president of Texas federation of women's clubs, has called a meeting of the executive committee at federation headquarters in Austin, July 18 at 10 a. m. Reports of standing committees will be received, including permanent headquarters, triennial convention, legislative, finance and others.

Six Persons Die In Netherlands Air Liner Crash

AMSTERDAM, July 15 (AP)—Authorities ordered a rigid investigation today into the series of disasters to The Netherlands' air liners after Sunday's tragedy in which six persons were killed at the Schiphol aerodrome.

The giant American-made Fokker plane which crashed into a dyke and burst into flames yesterday soon after taking off for Hamburg was the third "flying hotel" of The Netherlands wrecked in little more than six months.

The charred wreckage of the great four-motored ship was sealed. Not even officials of the air line were permitted to approach.

A post mortem disclosed that the six victims—including two English passengers whose curiosity to inspect the operating mechanism led to their being trapped in the pilot's compartment—died before the flames reached them.

Thirteen other passengers and one member of the crew escaped through a small rear door, which burst open in the crash.

The dead, trapped behind a jammed door forward in the cabin, besides the two English passengers named Newman and Hodson, were four crewmen—Pilot Silverstein, Wireless Operator Niebor, and Mechanics Brom and Van Dyk.

U. S. Purchase of Forest Land Is Opposed by Dies

WASHINGTON, July 15 (AP)—The forest service's plan to purchase more than 1,000,000 acres of waste timber land in east and southeast Texas drew a vigorous protest today from Representatives Dies (D-Tex.) and Patton (D-Tex.).

They complained to Secretary Wallace that sale of this land would cause such a reduction in tax rolls of 11 counties as to embarrass them seriously. They said that while they approved of the program in general, they thought the administration should reimburse those territories for lost taxable values.

"I am opposed to this government purchase unless they reimburse the affected counties for the money they will have lost," Dies said.

"Road and school districts down there are hard pressed for taxes and unless some equitable agreement can be reached whereby the government will assist in payment of these taxes, I don't know what is going to happen to the people of those counties," Patton said.

Wallace told these two Texans recently the land involved constituted only about 6 per cent of the total taxable rolls and a long-time program of improvement would more than offset the temporary disadvantages.

The department of agriculture has contracted for the purchase of more than 600,000 acres of this timber land and contemplates the purchase of some 800,000 acres more.

'Sleepless' Man Dies in Ireland

KINSDALE, Irish Free State, July 15 (AP)—Katie MacCarthy, 76, a baker who baked all night and hunted all day, died today.

When he was a young man, MacCarthy decided that people lost too much time sleeping. So he gradually cut down on his own sleeping until he said he was able to forego slumber entirely.

He boasted that he slept less in 50 years than the average man does in six months. As to how he did it, he always declined to say.

NEWS Want Ads are effective.

DEMO LEADERS AND EDR HAVE SECRET OUTING

ICKES AND TYDINGS ON GOOD TERMS AT ISLAND CLUB

WASHINGTON, July 15 (AP)—Back from a week-end of fishing and shooting with President Roosevelt, democratic leaders faced the weather for truly formidable proportions today.

They sought to hasten congressional action on a weighty list of controversial subjects. Although they still were mentioning August 15 as a desirable date for adjournment, they did not seem to be in a half-hearted way. Most of them believed the session would go considerably beyond that.

If any plans laden with significance for 1936 for the present legislative fight were discussed during the cutting at the Jefferson Island club in Chesapeake Bay, all the leaders were mum about it today.

They insisted that it was an outing—just that and nothing more. Mr. Roosevelt returned by motor from Annapolis, where he had disembarked from the government yacht Sequoia. He had a new coat of tan and he waved his hat jovially at a crowd near the dock.

Also returning with a party that included Vice President Garner and many other democratic leaders was Postmaster General Farley, who had to get ready for a swing across the country starting today.

As he closed his desk, Farley still insisted that his trip to the west coast and the Hawaiian islands is "strictly a vacation." Mrs. Farley and Ambassador O'Connell, his executive assistant, are going with him.

The week-end was reported to have restored harmony between two men who have been writing pungent letters to each other over the Virgin Islands investigation. A democrat who was on the cutting said Secretary Ickes and Senator Tydings (D., Md.) spent much time together, "laughing and joking."

Last week Ickes assailed Tydings' methods in conducting the inquiry, and Tydings requested him in effect, to attend to his own business.

Besides the Roosevelt tax program, which has yet to be drafted into bill form in the face of vehement opposition by industrial and business leaders, congress faces final action on these matters, among others:

The utilities bill, the social security bill, the amendments designed to broaden the AAA and clinch its constitutionality, the omnibus banking bill, the resolution aimed to prevent suits for recovery of damages alleged to have been suffered by the government's abrogation of the "gold clause" in its securities; the Guffey coal regulation bill. Some of these have been passed by both houses of congress, and are in conference, but on none of them has the fighting yet finished.

Hollywood Sights And Sounds

BY ROBBIN COONS

HOLLYWOOD.—The success of an old star and the entry of a new luminary distinguished the parade of new films.

The old favorite is Greta Garbo, whose "Anna Karenina" was well received in preview. The newcomer, from whom much was expected because of advance enthusiasm over her work, is conceded to have delivered admirably. She is Luise Rainer, and the picture is "Escapade."

"Anna Karenina" is Garbo's second interpretation of the Tolstoy heroine. In silent form she played the role opposite John Gilbert in a film called "Love." Her lover this time is Frederic March. The new picture is directed by Clarence Brown, successful with Garbo before in "Flesh and the Devil," "A Woman of Affairs," and other pictures. He it was who piloted the star through her first talkie, "Anna Christie." But until this one "Romance" had marked the end of their association.

Some Fault Found

Although some fault is found with the new version, some feeling of adaptation should have stressed more pointedly the inevitability of the love affair of Anna and Vronsky, generally the local critics have called "Karenina" Garbo's best film in a long time. The supporting cast includes notably young Freddie Bartholomew, and Basil Rathbone as Anna's husband.

Luise Rainer, small Viennese brunette, is co-starred—at his own insistence—with William Powell. "Escapade" is a Hollywood version of a foreign-made picture, "Masquerade." It is complicated froth about a philandering artist of many loves who loses his heart to an unsophisticated innocent. Previewers considered Rainer the main factor of distinction.

Myrna Loy was to have played the role, but walked out for a vacation, necessitating a substitute. Miss Rainer, untutored in film technique and in English, stepped in—and she is likely to gain a large following without trouble. Her role calls for champagne lightning in comedy and for heavy emotional acting, both of which she achieves. Frank Morgan, Mady Christians, Virginia Bruce and Reginald Owen are featured in support.

"The Broadway Gondolier" tells the tribulations of a New York singing taxi-driver who goes to Italy only to be "discovered" and returned to the metropolis as a broadcasting sensation. Dick Powell is the boy, Joan Blondell the girl, and Adolphe Menjou the boy's Italian tutor. The hoax results naturally in trouble, with sometimes hilarious results. Louise Fazenda as sponsor of the "Flagenheim Cheese Hour" is an important contributor, and one of the highlights of the picture is the "theme song" of the cheese, in which the current popular cinema custom of satirizing other advertising reaches a new high.

Summer Sweethearts

Chapter 43

A brassy sun wheeled across a moiten sky. Here and there were clumps of mesquite and sagebrush. But there was not one single living thing in sight save the tall, slim girl in riding things who stumbled across that dreary desert.

It seemed to Katharine she had been walking for hours. The wrist watch strapped to her slender wrist told her it was half-past 11. Any moment now, she told herself gallantly, she might see the car and the tent and the little group of civilized human beings she had left behind. Any moment... meantime she must keep on going. To stop meant madness.

If she only had a single drink of water! Just half a glass... a quarter of a glass to quench the thirst that already tortured her. She thought of the mountain stream in which she had carelessly bathed yesterday morning, thinking nothing of the largesse flowing over the golden rocks. She thought of mounds of sherbet, pale green, lemon yellow served at dinner parties. She thought of ice, tinkling in a tall glass.

Her head whirled, dwelling on these things. Better to think of something else.

She sang songs, lightly, until her cracked throat rebelled. She was dead tired now but still she stumbled on, the harsh sand drifting above the tops of her jodhpur boots. Once she tore at the top button of her pongee shirt and released it as if better to breathe.

Frank Millard would find her; or Dirk. They both knew this country like a book. They would laugh at this adventure later on. Or would they? She remembered reading the story of a man and woman lost in the desert. They had been middle-aged lovers. The man had left her heart medicine at home so a note to appear handicapped to his bride; the woman had not worn her spectacles for the same reason. And so both had perished, one because of his seizure, the other because she could not see to lead them out of their trouble.

Ah, but Katharine was young and strong! She shuddered, remembering the story. That could not happen to her. Death was something far away and unreal, not to be faced just now.

She saw a far-away speck in the sky and whirled, her heart in her mouth, thinking it might be a plane and that she might signal it. But it was only a great bird—there were other birds in its wake—wheeling and circling. Buzzards!

Horror—horror! It tore at her throat. The sense of it, closing in on her, made her shiver as with ague.

Five minutes—had it only been five minutes since she glanced at her watch dial last. It seemed hours—years!

A sagebrush root tore at her ankle. She stumbled, fell. Rising again, she realized that she had hurt her ankle cruelly. Not a sprain, perhaps, but nearly so. She stumbled on.

There was no pity in the aching sky, no living thing in all the world to pity her. Only the burning and heat and silence, and far-off, the birds wheeling and swooping.

There were no planes to be had nearer than Claymore, Hilda Hillard told Michael lifelessly. Fifty miles back, the way they had come. Even then it was not certain. It was an emergency landing field.

"Will you come with me, so that I shan't lose the way?" Michael demanded.

Evelyn Vincent stepped forward. Of course Hilda must go. It was their only chance.

Michael winced at the words,

though a giant hand squeezed his heart.

"Want to go on, brother?"

"That was the pilot speaking. The fat, amiable pilot who had a date that night back in his home town and wanted to keep it.

"I'll make it worth your while to keep going."

"Oh, that's okay, brother."

There was silence for a while, during which Michael's eyes raked the countryside spread below him. A barren, hellish waste, he told himself. A cruel land. Then he gasped.

"Good God — I think — look there!" He handed over the field glasses. The pilot nodded.

"Think so—yes."

It was a huddled figure they saw ahead on the desert floor. Khaki-colored clothes. A bright scarf.

Wilbur made a beautiful landing. Michael never knew afterward how he got out of the plane. He remembered stumbling as he ran, and he remembered hearing the soft, hurried breathing of the little man who followed him.

"Got her, brother?"

Michael nodded. He had Katharine's head in his arms. Now he was lifting her, carrying her gently as though she were infinitely fragile. She was unconscious—she was breathing! She was alive, thank God!

Her poor, pretty lips were swollen. Her face was stained and streaked. There was a scratch across one cheek. They had her in the plane now, Michael holding her close.

"Guess she had a bad time of it, huh?"

The fat little man turned his ship back toward Claymore. There was a doctor there, he said.

They put her to bed in the house of the woman whose husband was in charge of the flying field. A bare ranch house, but the linen was clean and the little bare room had a shade at the window. The doctor came, a shabby man in baggy clothes, and Michael waited in an agony as Mrs. Darrah and the physician disappeared within.

"Guess I'll be pushing off, brother," Wilbur said. Michael said, "Wait a minute." With hands that shook a little, he fumbled for his wallet.

The pilot shook his head, as though regretfully. "Sorry, brother, but I can't take it. 'Twouldn't be right. I've got a girl myself."

"She's my wife," Michael said.

"No fooling? Well, congratulations, brother."

"You think she's going to be all right?"

"Why, sure. She'll be right as rain. See if she isn't."

Michael swung the man's hand. Whatever happened, he could never thank this man. Some day, perhaps, he could try.

10,000 DIE IN HAN RIVER FLOOD WATERS

DIKE GIVES WAY AND WALL OF WATER ADVANCES

HANKOW, China, July 15 (AP)—It was estimated today that 10,000 persons had perished when the flood waters of the Han river surged thru a dike near Hanyang and overwhelmed a large area of the thickly populated countryside.

Members of a Chinese motorboat crew who saw the bursting of the dike while crossing the river brought back a vivid eyewitness account of the disaster.

"It was a horrible sight," one of them said. "A wall of water literally leaped through the breach, sweeping everything before it—houses, livestock and humans.

"The survivors must have been pitifully few for the people were taken utterly by surprise and had no time to seek safety."

Two-thirds of Hanyang itself, adjacent to Hankow, was estimated to be under water. The remainder of the city is situated on hills to which much of the populace fled while the water boiled and eddied about their homes.

The Han river flood has far outstripped in severity the previous ravages of this river, the district—which survived the disasters of 1870 and 1931—lying shattered by the seething torrents.

The water mark of the Yangtze river at Hankow dropped slightly late today but this city, too, was menaced with the dikes already weakened by the pounding waters.

A further rise however, was predicted. The roaring stream has ripped a section ten feet deep and one-third of a mile long from the Changkung dike, principal bulwark protecting the city.

Authorities ordered thousands of coolies and refugees from other cities to work on repairs for the dike and the entire military garrison was summoned to the scene.

Other thousands of workers began building a secondary defense behind the weakened section of the dike.

Reports from Chungking, a city in Szechwan province, said additional rains there caused the river to rise

Texan Guzzles 2 Quarts Beer In 22 Seconds

BALLINGER, July 15 (AP) — Joe Malish, big Czechoslovakian farmer from Rowena, claimed the world's beer guzzling championship tonight after downing half a gallon in 22-5 seconds in a public exhibition here. More than 500 persons witnessed the feat and numerous persons in the crowd held their own watches which checked with the official stopwatch.

Malish offered to meet Floyd Verette of Milwaukee in a contest for the title Verette claimed two weeks ago after gulping half a gallon in 34 seconds.

Malish is not only fast with his beer but persistent. In a local beer parlor last Saturday the 207-pound farmer did away with three gallons in two hours.

Frankie Parker Wins Net Trophy

SPRING LAKE, N. J., July 15 (AP)—The Clifford Hemphill bowl was stacked today among the trophies of Frankie Parker, and another adversary was avenged.

The Lawrenceville, N. J., star defeated Charles Harris of West Palm Beach, Fla., yesterday to gain his third and final leg on the trophy in the Bathing and Tennis club invitation tournament.

He also squared the count with Harris, who defeated him in the Kentucky state championship two weeks ago. Parker won 8-6, 6-4, 6-0.

After 20 minutes rest, Parker came back to the courts with J. Gilbert Hall of South Orange, N. J., to win the doubles final from Hal Surface Jr. of Kansas City and Wilbur Hess of Fort Worth, Texas, 6-3, 3-6, 6-2, 6-4.

USED-CAR DEALERS SAY "PLYMOUTH STANDS UP BEST"

Survey Checks "Trade-in" Values of "All Three"

Critical, Impartial Judges of Used Cars agree Plymouth Sells Quicker and brings Best Prices

USED-CAR DEALERS can tell you what's built into cars... they know how cars stand up. And here's their side of the story... as we dug it up in 50 cities from coast to coast:

"Used Plymouths command top prices... and readiest sale... of all the low-priced cars. They show finer engineering and construction... they stand up better.

"We can never get enough Plymouths to meet demand... first owners hang on to them."

Used-car buyers want Plymouth's great safety features; genuine hydraulic brakes and all-steel body. An all-steel body is always strong. Hydraulic brakes, no matter how old, are self-equalizing.

That certainly indicates the outstanding value built into the 1935 Plymouth... the greatest Plymouth we have ever built.

Drive "All Three." Find out what a thrill-

Only Plymouth has All Four

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile does not flow freely, your food does not digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

Engineer Hired To Push LeFors Water Works Bid

LEFORS, July 15.—Joe E. Ward, successor to Montgomery and Ward, consulting engineers of Wichita Falls, and the city council of LeFors, have entered into a contract which provides for the services of Mr. Ward in the promotion of the city water works system and the sanitary sewer system.

Mr. Ward's former partner in business, Julian Montgomery, was called into engineering service for the United States government, thus automatically dissolving their firm, and Mr. Ward is well known for successfully engineering government financed projects.

Mr. Ward's services are to be of a dual nature; first, he is to make a plat of the town of LeFors indicating the location of each house. Blueprints will be made of this plat and used by Mr. Ward in making application to government officials for PWA funds for this project. Engineers will be here next week to begin this work. Then, if he is successful in obtaining the askings he will be employed as acting engineer in the installation of the city water works system and the sanitary sewer system.

So far not a single project in which Mr. Ward was acting as consulting engineer has failed to receive government aid. He has recently succeeded in securing government aid on a \$55,000 water works project at Dodsonville, a small town in Collingsworth county, which has less than one-half as many consumers as LeFors has signed up to use city water, 226 in number. He has just completed a water works project at Olney, Texas.

The city council will likely know within 60 days what consideration the project has received by PWA officials, and if favorable, works will begin at once.—LeFors News.

**DO NOT PAY CASH . . . OR ISSUE A CHECK . . . IN ADVANCE TO STRANGERS
— ON AN ORDER WARNS CHIEF OF POLICE**

**Do NOT
Pay Cash
In Advance
To Strangers**

WARNS

**To Housewives and
Citizens of Pampa**

THIS IS A WARNING

To beware of strangers posing as solicitors, salesmen or inspectors. Strangers seeking admittance to premises as salesmen, solicitors or inspectors should not be admitted until their credentials have been checked up and verified thru dependable local persons or local institutions.

IN MANY CASES

Strangers without reliable credentials are "reporters" for professional criminals and according to police records, lack of caution on the part of the householders in admitting such strangers oftentimes results in costly property losses and bitter experiences.

**If You Are
Suspicious, Phone
The Police at Once
No. 555**

**Do Not Pay Cash in
Advance**

To strangers on any merchandise. In many cases and from experiences reported to police department the customer has never received anything for the cash advanced. Nor has any refund been made of the initial cash deposit.

**Do Not Cash Checks
For Strangers**

Or issue a check as down payment on an order to a stranger—as in a number of cases these checks have been altered and later cashed by a third and innocent party.

**It's Better To Be Safe
Than Sorry!**

Be sure you know who the stranger is at your door before granting admittance to your home.

High Pressure

Free gift artists have been working the residence district of Pampa of late selling all kinds of merchandise, offering "something free" as a means to get into the home. In most cases there is nothing free to be given away.

One Need Not Be Afraid

Of offending the honest solicitors, salesmen or inspectors living here or representing local firms. They have their credentials with them and welcome such investigation—that is why they are required to carry credentials. Protect yourself. **ASK FOR CREDENTIALS SHOWING THEIR IDENTITY.**

**S. A. HURST,
Chief of Police
Pampa, Texas**

Here are **FACTS** about prices

On Lingerie Actually Quoted By Peddlers

	These are prices Paid by a Master Peddler to a Manufacturer of Lingerie	You Pay	Peddler Gets Cash DEPOSIT	Branch Manager Gets	Master Peddler Gets the Difference	On His Investment Of
Vest	\$.96	\$2.00	\$.35	\$.20	\$1.45	\$.96
Bloomer	2.25	4.50	1.00	.35	3.15	2.25
Chemise	2.25	5.00	1.00	.40	3.60	2.25
Gown	3.00	7.50	1.25	.62	5.63	3.00
Princess Slip	4.00	8.00	1.50	.65	5.85	4.00

The NET Amount as received by the Master Peddler shows a Higher Per Centage of PROFIT—or "Mark Up" than the average Merchant would think of asking for merchandise of similar or better values.

**This Peddler Shows You
Pretty Pictures of Garments---**

and a small sample of material "from which they are made."

She Does NOT Tell You that in some instances This Master Peddler Organization *Jobs It's Entire Line* from some Manufacturer---who is making similar lines for other "direct from Mills-to-Consumer-Organizations." This Peddler shows you pictures "of a factory"---and HOW this factory makes the garments---but she does NOT tell you the firm she represents operates out of two-three-or-four-rooms in some downtown office building.

NOW---What About The Guarantee?

Which is such a Big Talking Point in the Peddler's sales propaganda.

Have You Ever Tried To Secure A New Garment Free?

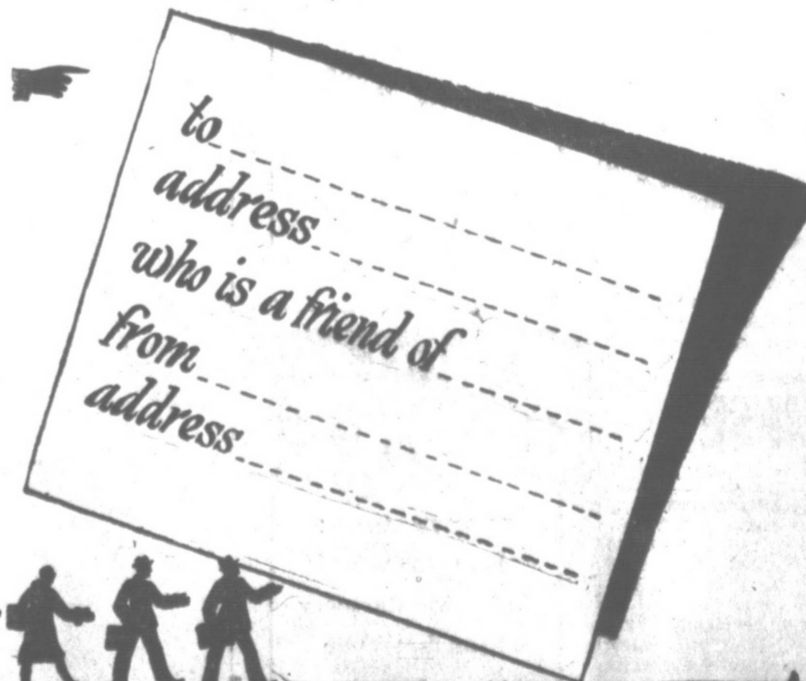

DID YOU GET IT???

Have You Been Requested By Peddlers to fill out Recommendation Cards

with the names of some of your acquaintances? Thru this means of introduction this Peddler hopes to inflict his products on your *unsuspecting friends*---who due to your "Say So" would give him an audience. Did You Ever Stop to THINK---What Peddler will give this card to your friend?---and how, thru this card, he will represent you??

REMEMBER you are participating in this Peddler NUISANCE every time you fill out one of these very inoffensive appearing Recommendation Cards.

Besides **ARE YOU SURE** your friends wish to be bothered by These Door Bell Ringers?

**Do Not Confuse Representatives of Local Firms with "Itinerant Peddlers."
Ask for Identification of Those Calling at Your Home**

Transients To Be Sent Back To Home Towns

Texas transients no longer will be referred to the federal bureau at Amarillo, but will be sent back to the counties where they are certified for relief. Out-of-state transients will be referred to the Amarillo bureau, as usual.

The local relief office cannot aid state transients who refuse to return to their home counties, according to a ruling received by Mrs. W. H. Davis, Gray county relief administrator.

Citizens are advised that feeding of transients encourages persons to come here and exist by begging until they have been here long enough to be eligible for relief. This trend places a hardship on the larger towns and cities, where many indigents think the government will longest have resources.

Life of the Gray county relief office is now of uncertain duration. Forms now being received have duplicate copies—for the relief office, employment office, and Works Progress administration. Whether WPA will replace the first two is not yet known.

The federal government in making the huge current appropriations is seeking to discontinue relief offices as fast as possible. In some states the commissioners' courts are being given responsibility for caring for unemployables.

IL DUCE

(Continued from page 1)

Eritrea. It is from this colony on the Red Sea that military sources say the advance into Ethiopia will be made.

Proposed Advance
They reveal that the expedition is to be composed of two columns, one entering Abyssinia in the traditional way, passing through Adua, to the right on the map, where in 1896 the Ethiopians annihilated an Italian army of 17,000 men and the other entering farther west at Tesenep. The columns would converge before reaching Addis Ababa.

These sources say that there is to be no advance from Somaliland, instead the Italians will defend the line of forts they have constructed close to the wells along the disputed Abyssinian-Somaliland frontier. An advance from Somaliland would be more difficult than one from Eritrea, owing to an unhealthy, malarial desert to be crossed. And Eritrea, being 1,750 miles closer to Italy, can be more easily furnished with soldiers.

Italian military authorities, in pouring tens of thousands of men into these colonies, have been faced with and have overcome tremendous difficulties. One was that of transport, similar in distance to that of the United States in the world war. Eritrea is 3,250 miles from Italy, Somaliland 5,000.

The Health Problem
A second was that of living quarters when the troops arrived in the colonies. Barracks had to be erected and various services, such as commissary, provided for from scratch.

A third was the problem of health. The lowland of Eritrea and practically all of Somaliland are dangerous for white men. Hundreds of men already have been sent back to Italy suffering from tropical ailments, but a numerous and well organized sanitary corps has kept the percentage of illness to a low figure.

A fourth was the question of water. There was at first a dearth of water. Some was brought out in ships all the way from Italy. Filtering plants were built to remove the salt from seawater, wells dug and aqueducts constructed.

A fifth was the problem of communications. Hundreds of miles of concrete roads have been constructed. A broad highway from the port of Massaua to Asmara, and from there two highways to the Ethiopian border will be ready by fall. The height of modernization reached by the preparations is shown by the fact that streamlined motor-driven cars capable of 80 miles an hour now are running on the railway.

ROADS

(Continued from page 1)

from a recently approved federal appropriation for secondary roads. "The commission is endeavoring to work out a plan that will enable counties to obtain the full benefits from the federal program," Chairman Harry Hines said. He said the commission would attempt to group its regular federal aid and the emergency highway construction grants the state maintenance program to obtain an efficient procedure.

The commission pointed out that scores of temporary designations were not being maintained by the states and that if improved with federal works progress funds could be re-instated and maintained by the department.

ECLIPSE

(Continued from page 1)

and 41 minutes. Sometimes it is faintly seen as a dark, copper colored disc, reflecting red rays of the sun, which bend around the edges of the earth so far that they fall on the darkened moon.

If it happens to be cloudy along much of the edge, the rays filtering around are sufficient and the copper ghost does not appear.

At 11:50 p. m. central standard time, the moon begins to creep out from the shadow, and in an hour is free again.

Fern Procansang of Miami was admitted to Pampa-Jarratt hospital this morning.

PAMPA

TOPIC OF OUR CITY

Visited in Mexico
Mr. and Mrs. Ennis G. Favors have returned from a trip to Monterrey, Mexico, and beyond. They were accompanied by County Attorney and Mrs. W. C. McDonald of Coke county. The party had started to Mexico City, D. F., but were forced to stop at a river where seasonal rains had washed out a bridge. The improvised ferry was big enough to carry burros and carts, but not automobiles safely.

Check Received
County Agent Ralph Thomas has received about 350 checks for Gray county cotton farmers, share-croppers, and landlords, totaling \$8,853.28. This is the last payment on Bankhead exemption certificates, which were pooled and sold east of the Mississippi river where cotton crops were larger. A total of \$28,082.20 had been previously received. The system amounts to crop insurance. About 70 per cent of the certificates surrendered were sold. The remainder will be either returned to cotton growers or placed in a new government pool.

Shower Falls Sunday
Rainfall amounting to 21 of an inch fell in Pampa Sunday afternoon. The day was mostly cloudy and cooler in the afternoon.

School Tax Values
Oil values in the Pampa Independent school district were being discussed by the board of equalization and company representatives today. Thos. Y. Pickett, special assessor is assisting. The board is composed of Siler Faulkner, R. Earl O'Keefe and Mack Graham. Mr. Graham was out of the city today.

Vandals, Vandals, Vandals
Pampa has, without a doubt, some of the most destructive, and thoughtless citizens in the country, in the belief of postal officials. An effort to beautify Pampa's new \$180,000 postoffice has been made. Thoughtless persons insist on walking across the wet lawn, leaving deep footprints, or picking buds and leaves off the hedge and shrubs. Postmaster D. E. Cecil has almost decided to hire a guard and prosecute every person caught destroying or damaging property. The latest damage was last night.

Attending School
Fire Chief and Mrs. Clyde Gold and Tom Eckerd left yesterday for Bryan where Chief Gold and Fireman Eckerd will attend the annual firemen's school. Both men will take courses of instruction and examinations before returning next week.

Credit Head Here
Charles T. Lux, manager of the Retail Merchants Association of Texas, is here from Austin today, and was a guest of directors of the newly organized Pampa Credit Association at lunch.

Personals
Mr. and Mrs. W. F. Dubbs spent Sunday visiting in Clarendon. Bert Stevens was admitted to Pampa-Jarratt hospital yesterday for treatment of ivy poisoning. Mr. and Mrs. A. F. Smith of Amarillo former Pampa residents, were Pampa visitors yesterday.

Mr. and Mrs. Harry Mayfield of New York City are guests this week of her sisters Miss Jewel Binford and Mrs. M. P. Downs. Mrs. Mayfield is the former Miss Ruth Binford of Pampa.

Mrs. Lois Hinton, employe in the district clerk's office, visited relatives in McLean Sunday.

Governor Asked To Espouse Dry Cause on Stump

DALLAS, July 15 (AP)—Texas dries assailed liquor last night in a rally here, and announced that they would ask Governor Alfred to go on the stump for them.

As an aid in the fight against a proposed constitutional amendment that would legalize liquor in Texas, Dr. L. N. D. Wells, Dallas, said: "We hope our good governor will lend his voice to our cause and we will ask him to make two or three speeches to help us in our cause."

Former Governor Pat M. Neff will make speeches for the dry cause, Dr. Wells said. Bishop H. A. Boaz, Fort Worth; Dr. George W. Truett, president of the World Baptist Alliance, Dallas, and Bishop A. Frank Smith will visit some of the larger Texas cities this week. It was announced in an effort to rally the public to the dry campaign.

RESOURCES

(Continued from page 1)

two difficulties would prevent carrying out the national resources board program.

1. Much of the work it proposed, in particular for rivers and harbors, erosion control, and highway construction, would be in sparsely settled areas where the relief load is light. It also would require several years to complete. This would leave little for projects in large cities where the destitute are concentrated, or for the 750,000 or more white collar workers.

2. The resources board program called for a large expenditure on materials—how much was never disclosed, but certainly more than the \$1,500,000,000 to be spent on materials under the revised program.

As a result, it was said, a halt was called after Mr. Roosevelt had allotted about \$1,000,000,000. It was decided that the works progress administration would spend about \$2,000,000,000 on projects calling for comparatively small expenses for materials.

Emphasizing the value of rivers and harbors improvements, the resources board quoted an estimate by army engineers that \$8,000,000,000 could be spent profitably on such work. Mr. Roosevelt has allotted \$97,000,000—meaning that activity in this line will be considerably less than at any time in recent years.

Hopkins is reported to have advised against any further extensive projects because of their high material cost.

MEXICAN LAWYERS HIT
LOS ANGELES, July 15 (AP)—Definite action to curb "Mexican divorce lawyers" was among the things to be considered by the annual convention of the American Bar association opening today. More than 2,400 delegates were here for the gathering.

MARKET BRIEFS

NEW YORK, July 15 (AP)—Heavy industry issues, backward for some time, came to the front in today's stock market. Quiet buying lifted the steels, rails and equipments substantially. The close was firm. Transfers approximated 900,000 shares.

DISCORD
(Continued from page 1)

in Italy's temporary abandonment of her desire to advance into Abyssinia. A period of quiet followed that lasted until 1911. Within that interval the Anglo-French-Italian treaty of 1906 was signed giving each country certain spheres of influence in Ethiopia and guaranteeing the independence of that nation.

There also was signed, in 1908, a treaty between Italy and Ethiopia whereunder the two countries were to delimit the frontiers between Ethiopia and Italy's two colonies in Eastern Africa, Eritrea and Italian Somaliland, always a source of controversy. The delimitation was begun in 1911 by a mixed commission but stopped after only a short strip of frontier in Somaliland had been agreed upon. The Italians laid the treaty down to the lack of good will on the part of the Ethiopians.

In 1911 began the series of border incidents that have continued up to today. Each maintains that these have been caused by tribes from the other's territory dashing across the border to capture natives for slavery and livestock for food.

The Treaty of 1925
In 1925 came an Italo-English treaty whereunder Italy guaranteed England the zone of influence around Lake Tsana, headwaters of the Nile, and England guaranteed Italy the right to construct a railroad connecting Eritrea and Somaliland and running to the west of Addis Ababa.

Italy and Ethiopia signed in 1928 a treaty of friendship from which Mussolini hoped great things. The treaty promised Italy the right to economic penetration in Ethiopia. It promised Ethiopia the right to use the port of Assab in southern Eritrea as a free port. Italy and Ethiopia were to construct jointly an automobile road between Assab and Dessie, Abyssinia.

Treaty Collapsed
The treaty would have given each country what it wanted most—Italy, economic domination in Ethiopia; Ethiopia, an outlet to the Red Sea—but like all Italo-Abyssinian agreements it broke down. The road was

GRAIN TABLE
Wheat: High 82 1/2, Low 82, Close 82 1/2
Sept 83 1/2, 80 1/2, 82 1/2-3/4

cans 24, local 23 1/2; fresh graded firsts cans 23 1/2, local 22 1/2; current receipts 22 1/2; storage packed firsts and extras 24 1/2.

NEW ORLEANS COTTON
NEW ORLEANS, July 15 (AP)—Dull and featureless price movements characterized the morning's dealings. On occasional purchases July worked up another 3 points to 12.00 and October advanced to 11.68, but little interest was shown in the market as a whole.

A report that cotton purchases would be included in Russia's \$30,000,000 orders from this country was passed by without attracting any market attention.

A bright spot was furnished by advices from cloth markets that business during the past week was more active than in previous periods.

The market was a trading affair during the morning, with a very thin range existing.

LATE NEWS

COLUMBUS, Miss., July 15 (AU)
—Two young negro farmers, Bert Moore and Dooley Morton, each about 25 years of age, were lynched today eight miles south of Columbus by a mob of angry white citizens who wrested the prisoners from Deputy Sheriff Parker Harris, of Lowndes county and hanged them to a giant oak tree. The negroes were arrested Sunday morning after two alleged attempted attacks on a white woman, the wife of an Arkansas lumber man, who resided about a mile from Zion negro church, the site of the double lynching.

SAN ANTONIO, July 15 (AP)
—Instructions to oppose any move to oust Elliot Roosevelt, son of the president, from his post as first vice-president of the Young Democratic club of Texas, have been given O. A. McCracken, Jr., who will represent Bexar county at an executive meeting to be held in Fort Worth Tuesday. McCracken is third vice-president of the state organization.

CINCINNATI, July 15 (AP)
—The sixth district United States circuit court of appeals held today the federal government has no power to condemn "land" for use in public housing projects.

TWA PLANE STOP
A Transcontinental Western Air tri-motor plane stopped at the local emergency field early yesterday afternoon for the second time in two days. The plane landed here Saturday while officials inspected the field. The plane and men were from Albuquerque, N. M., and were on an emergency landing filed familiarization tour. Occupants of the plane were M. O. Bowers, Joe Bartless, and R. J. Beck.

never built; Assab never was used as a free port by the Ethiopians.

The collapse of the treaty of 1928 has been cited as one of the main causes of the present conflict. Instead of getting economic penetration in Ethiopia, Italy saw herself ever more excluded as Halle Belassie turned to other markets for export and import. Since Ethiopia is the hinterland of the two East African colonies, these possessions were without a feeding ground. And they cannot prosper by themselves.

Japan Enters Scene
Another cause is the Italian advance to the wells marking the present informal boundary between Somaliland and Ethiopia. Italy has had possession of them now for six years. But Halle Belassie maintains they are in his territory. It is along this line that the serious border incidents have occurred. Uvalah is one of these important wells.

A third cause is the growing Japanese commercial success in Ethiopia. Italy feels that if she takes no action now her chance will soon be lost forever.

Lattimore Quits Bench; Says Pay Not Sufficient

FORT WORTH, July 15 (AP)—Judge Hal S. Lattimore today tendered his resignation as associate justice of the second court of appeals here because he considered the salary inadequate to provide for his family and his future.

Previously Governor James V. Allred had announced that Lattimore would be succeeded by District Judge P. A. Martin of Wichita Falls, who ran unsuccessfully in 1934 for the place now held by Associate Justice Marvin H. Brown.

The term will expire in the summer of 1935. Judge Martin must seek re-election in the summer of 1935.

Lattimore mailed his resignation from Houston. He declared that the judiciary of Texas is among the poorest paid in the union, and charged this fact is a "blot on the name of the greatest state."

He explained that his 12 years on the bench had been happy, that he loved the work but felt he owed a duty to his family—a duty he had been compelled to neglect in the service of Texas.

In conclusion he expressed the hope that his statement would "find judgment with those to whom citizenship is a responsibility and will call them to the defense of those who hold great power and yet, strangely enough can not defend themselves—the judiciary of Texas."

Building Permits Total \$141,832

Building permit in Pampa for the first six months of this year totaled numbered 120 and aggregated expenditures of \$141,832.

These permits included repairs. There were in addition 85 moving permits.

CHICAGO GRAIN

CHICAGO, July 15 (AP)—Cautiously sympathizing with extreme jumps of respectively 5 and 4 cents a bushel at Kansas City and Minneapolis, wheat prices in Chicago today scored gains of barely over 3 cents.

Disappointing harvest yields were the accepted Chicago version of Kansas City wheat market strength, and black rust reports were held largely to explain the action of wheat prices at Minneapolis, relative drabness of the Chicago wheat market was apparently related to prospective increased receipts of new wheat in areas adjacent to Chicago.

Wheat closed nervous, 1 1/2-2 1/2 above Saturday's finish, Sept. 82 1/2-3/4, corn 1/4-1/2 up, Sept. 75 1/2-3/4, oats 1/2 cent advanced, and provisions unchanged to a rise of 10 cents.

Chesterfield... the cigarette that's MILDER
Chesterfield... the cigarette that TASTES BETTER

Chesterfields... that's about all we smoke down in this neck of the woods

Chesterfields are mild—mild but not flat. That's one reason why. And they have plenty of taste—without being harsh. That's another reason why. Everybody knows They Satisfy—just about all any cigarette can do.
