## War Report Of President 'Encouraging'

WASHINGTON, June 25 (AP)—President Roosevelt and Prime Minister Churchill of Britain gave congressional leaders today a 40-minute review of "the world situation," touching on the British defeat in North Africa and the opening of a second front in Europe, and the legislators called the survey "very satisfactory and very encouraging."

Speaker Rayburn told reporters that the Libyan phase of the war was covered "in some detail" and that a second front was mentioned "incidentally." That subject, he added, "always comes up, of course."

Churchill's meeting with leaders from both Republican and Democratic ranks on Capitol Hill started off a round of conferences which set the day apart as one of the most important since the prime minister flew the Atlantic a week ago to confer with the president a second time.

The president and prime minister followed up the congressional conference with an appointment with the Pacific war council.

None of the legislative leaders would go into details of the conversations with the two United Nations leaders, Rayburn remarking that a great many of these were of a military nature.

The opening of a second battle front in Europe has been a subject of widespread speculation, speculation which has received official encouragement at the White House, in connection with the Churchill visit.

The ranks of the war council, which includes representatives of eight nations engaged in warfare

## Six Men In June 29 Draft Call Deferred

Deferment of six men from the June 29 call on Gray county was announced by the Gray County Selective Service board following the receipt of a telegram late yesterday afternoon by J. Watt Page, Austin, state director, who wired:

"You are directed to temporarily postpone induction of all registrants who, married prior to December 8, 1941, provided they have wives or children, or wives and children with whom they maintain a bonafide family relationship in their homes."

This order means that the Gray county quota of June 29 will be six short. Notice of their deferment was sent by the board office today to these six men:

Ray Milton Hubbard, Robert James Woodward, James William Bradley, Edwin Gale Phy, Robert Edgar Crouch, and James Byrd Smith.

C. H. Walker, member of the board, stressed the fact that this was only a temporary arrangement, as stated in the state director's telegram. Action of the selective service system was based on pending legislation, but it was not explained what this legislation was nor what it meant.

How the telegram received yesterday will affect the July 2 call in Gray had not been determined by the county board.

Mr. Walker said no married men with dependents had been sent into military service by the board from this county, although there were a few who had wives making their own living who were sent.

In Tom Greene county, the last

## State Wants USO Funds By Saturday

Tardiness in getting in reports on the United Service Organization campaign in the county brought an admonition today from Jack Hanna, USO chairman, that state headquarters wants money raised in the campaign in by Saturday.

"There's still a lot of money out that hasn't been reported. It's up to all of the leaders to see that the money is turned in so we can wind up this campaign now."

McLean's \$404 has been turned in and a few other donations have put the total raised to date up to \$4,233.68, or \$461.31 short of the county's \$4,800 quota.

## Vets Unable To Get Fireworks For Fourth

Entertainment features of Pampa's July the Fourth celebration have been of necessity canceled, it was announced today by members of the American Legion and Veterans of Foreign Wars, sponsors.

A giant fireworks display at Recreation park had been planned but this had to be canceled due to the fact that it was impossible to obtain any fireworks.

A parade of floats and decorated cars had also been planned but the committee was unable to buy decorations.

The Veterans will sponsor their regular dance on the evening of July 3 at the Southern club. The service men have sponsored a dance on the night before the Fourth for years.

Commanders L. R. Franks of the American Legion and Fred Pender of the VFW urged that all residents of the city and especially all business houses display the U. S. flag on the Fourth.

If you haven't got a flag get one now," it was said. "Flags of all sizes and prices can be ordered through Mrs. Chism at Murfee's."

The veterans group get all prof-

## Jap Eyesight Plenty Good And Courage Ample, Reports Mayor

(Editor's Note: What actually happened at Dutch Harbor? The dramatic eyewitness report of an American mind since the Jap planes attacked June 3, is supplied in eyewitness quotations for the first time in the following dispatch.)

SEATTLE, June 25 (AP)—In the first dramatic eyewitness report of what happened at Dutch Harbor, evacuees and seamen told upon arrival of a transport here how the Japanese air attack at 5:45 a. m. June 3 caught civilians by surprise and how the gallant gunners on their ship and ashore laid a deadly screen of anti-aircraft fire about the raiding planes.

## Even Cigaret Tax Raised In New Bill

By DONALD A. YOUNG WASHINGTON, June 25 (AP)—Taxes estimated to raise \$5,924,000,000 from corporations, individuals, and steeply-increased levies on such common luxuries as cigarettes were tentatively recommended to congress today by the House Ways and Means committee.

The committee turned the hundreds of pages of the measure over to drafting clerks but reserved the right to inspect it once more before sending it to the house finally for a week's debate beginning probably July 13.

Just a fraction over two-thirds of the \$7,700,000,000 which Secretary Morgenthau said was "the least" that congress should provide, the new taxes would offset only a small part of the vast war expenditures voted since Pearl Harbor and still would leave the treasury the task of borrowing at least \$39,000,000,000 in the

fiscal year that begins July 1. The bill—some of which still may be reversed—was completed last night after more than three and one-half months of consideration. It conceded that by the time it is approved by the senate, probably adopted finally by a joint senate-house conference committee, the effect of proposed excise taxes would be lost for most of this year.

The committee built its measures around \$5,000,000,000 in increases to be paid starting next year by corporations and individual tax payers. About \$2,291,000,000 of that would come from corporation excess profits rates raised from 60 per cent maximum to a flat 94 per cent rate, and from business normal and surtaxes boosted from 31 to 40 per cent.

But, on the theory that such high excess profits rates might drive many a corporation to the wall or

# Rommel Drives 60 Miles Into Egypt In Sweep Toward Suez

## Picture Darker At Sevastopol

By ROGER D. GREENE Associated Press War Editor Field Marshal Erwin Rommel's invasion armies have already plunged more than 60 miles into Egypt in a lightning sweep toward the Suez canal, British imperial headquarters acknowledged today, after British troops fell back in heavy all-day fighting yesterday.

Amid this grave setback, a warning to Adolf Hitler of an impending Allied "second front" in Europe came with the official announcement that a European theater of operations for U. S. armed forces has been formally established.

In itself, this does not mean that a new front has already been created.

The war department said Maj.-Gen. Dwight D. Eisenhower, recently assistant chief of staff in charge of the operations division, had been made commanding general.

Dispatches from London said Gen. Eisenhower had arrived in Britain and taken command of the European theater for American forces.

Dispatches from London said Gen. Eisenhower had arrived in Britain and taken command of the European theater for American forces.

In Egypt, the situation was apparently fast nearing a showdown.

A bulletin from Cairo headquarters said powerful Axis armored columns had driven southeast of Sidi Barrani, the farthest point of the Italian invasion in 1940, and implied that the invaders might have penetrated still deeper into the ancient land of the pharaohs.

The communique said the British troops defending the Egyptian frontier had withdrawn from the main border defenses on a 25-mile line extending from Salum, on the Mediterranean coast, to Sidi Omar.

"Our forces engaged the enemy all day yesterday and inflicted heavy losses on them," the British command said.

Simultaneously, the Italian high command announced that Axis forces had captured the key frontier citadels of Fort Capuzzo, Halfaya (Hellfire) pass and Salum, and then raced 50 miles inside Egypt to capture Sidi Barrani.

It was at bloody Halfaya pass, a rocky, easily-defended stronghold southeast of Salum, that the British had been expected possibly to make their main stand against Rommel's legions after the disaster at Tobruk.

Sidi Barrani, about 430 miles west of the Suez canal, had been in British hands since Dec. 11, 1940, when Italian troops who occupied the town three months earlier were put to flight by Gen. Sir Archibald P. Wavell's triumphant counter-offensive.

"The remaining resistance of the British eighth army has been overcome on the Libyan-Egyptian frontier," the Italian high command said.

"Axis forces continued in pursuit of the enemy, who is retiring to the east."

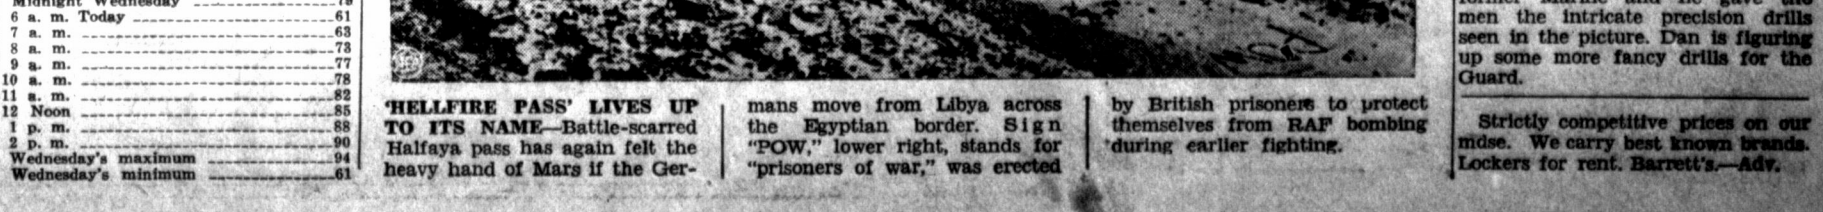

It was not clear immediately whether the British armies had executed a strategic voluntary withdrawal to stronger defense positions, as London military quarters had intimated might be done, or whether they had been thrown back by violent assault.

In any event, the threat to the green valley of the Nile and the vital Suez canal was not sharply outlined, and it remained to be seen whether Gen. Sir Auchinleck's battered forces, disorganized and weary from the Libyan desert cam-

pany move from Libya across the Egyptian border. Sign "POW," lower right, stands for "prisoners of war," was erected

by British prisoners to protect themselves from RAF bombing during earlier fighting.

Strictly competitive prices on our mids. We carry best known brands. Lockers for rent. Barrett's.—Adv.

'HELLFIRE PASS' LIVES UP TO ITS NAME—Battle-scarred Halfaya pass has again felt the heavy hand of Mars if the Ger-

mans move from Libya across the Egyptian border. Sign "POW," lower right, stands for "prisoners of war," was erected

## Censorship Code Revised

WASHINGTON, June 25 (AP)—The office of censorship today issued its first full revision of the code of wartime practices for the American press.

While in the main it retains the language of the original code issued Jan. 18, it has been expanded to close some loopholes, eliminate certain recurring questioning and relax a few restrictions.

Byron Price, director of censorship, discussed the new code with Washington newsmen late yesterday.

One of the new restrictions forbids "premature disclosure of diplomatic negotiations or conversations."

The requirements with respect to war production plants have been eased insofar as they concern publication of news for an entire state, but they have been tightened to cover information about new or secret designs, formulas or experiments.

The weather regulations were relaxed to permit publication of weather news for an entire state for 150 miles in any direction from the city of publication regardless of state lines. It also permits publication of the effect of weather conditions on sports events when used to describe condition of the grounds or as reason for postponement of matches.

This reference could be made to "muddy field," "wet grounds," or "game called because of weather."

The section dealing with identity, location or movement of ships has been broadened by use of the words "notes" rather than "American waters."

The code also contains suggestions for reporting air attacks on the United States, which were distributed separately some time ago.

Under "notes on rumors," the revision code says:

"The spread of rumors in such a way that they will be accepted as facts will render aid and comfort to the enemy. The same is true of enemy propaganda or material calculated by the enemy to bring about division among the United Nations."

## Priorities Clinic To Be Here Tomorrow

Supply men, manufacturers and retailers of the Panhandle have been invited to come to Pampa tomorrow for a "Priorities Clinic" to be conducted by W. H. Bovee of the War Production Board, Dallas.

Three meetings will be held in the chamber of commerce board room, one for manufacturers, one for supply men, and one for retailers affected by priorities.

Purpose of the meeting will be to give instructions on methods of procedure and provisions of WPB priorities system, including methods of making application for priority rating and filling out of necessary forms.

Mr. Bovee will arrive in Amarillo from Dallas at 8 o'clock. He will be met by President Crawford Atkinson of the Board of City Development and board members and brought to Pampa for the meetings.

Schedule: 11:00 a. m.—Manufacturers including machine shops, refrigerators and air-conditioning equipment, mill supplies, farm equipment, feed mills, ice manufacturers, electric motor works, builders supplies, chemical supplies, milk and food products, and any other manufacturer affected.

1:30 p. m.—Suppliers including hardware, automotive parts and equipment, electrical supplies, plumbing and heating supplies, boilers, building contractors, oil well supplies, wholesale and retail lumber materials, and other lines affected.

3:30 p. m.—Retailers affected by priorities including appliances, paints and supplies, tinners, welding, repair shops, tires and tubes, cleaners and dyers, automotive supplies, guns, purchasing agents and others not mentioned.

## Texan Heads Allied Forces In Europe

WASHINGTON, June 25 (AP)—Major General Dwight D. Eisenhower has arrived in London and taken command of the European theater for American forces, it was announced today by the war department, which defined a theater of operations as "an area where combat is in progress or will be."

Eisenhower, a native Texan and an armored force expert, went to his post in London from an assignment as chief of the operations division of the war department's general staff.

The department spokesman who defined "theater of operations" explained that such a theater usually is divided into the combat or front line zone and the line of communications but added that "with air power so important there is little difference now between front and rear areas."

LONDON, June 25 (AP)—Major General Dwight D. Eisenhower, new commander of United States army forces in the European theater of operations, is believed to have assumed the task of working out details for an Allied invasion of the continent.

His arrival at London headquarters was announced simultaneously today here and in Washington.

Eisenhower was expected to start conferences soon with General Sir Alan Brooke, British chief of general staff, and other military chiefs, on the American and British armies for offensive action.

He had conferred with them in a previous visit to London which ended only early this month.

Eisenhower, who was in close contact with Lord Louis Mountbatten, chief of the British commandos, before leaving the United States, told of Mountbatten's praise for American divisions with about eight weeks' training.

WASHINGTON, June 25 (AP)—The war department announced today the formal establishment of an European theater of operations for United States forces with Maj. Gen. Dwight D. Eisenhower, a native Texan, as commanding general.

General Eisenhower, recently assistant chief of staff in charge of the operations division of the war department general staff, will have headquarters in London.

The brief announcement was made without reference to current speculation on the possibility of a second front in Europe.

Maj. Gen. James E. Chaney has been in command of American forces in the British Isles, and officials did not disclose his new status. Maj. Gen. Russell P. Hartle remains in command of American forces in Northern Ireland.

In a statement by General Eisenhower on his arrival in England, which the war department released, the new commander said "the formal establishment of an European theater is a logical step in coordinating the efforts of Great Britain and the United States."

"Six months ago the prime minister of Great Britain and the president of the United States heartened the people of the Unit-

## AVG Attacks Hankow, Sinks Four Vessels

By WILLIAM McGAFFIN CHUNGKING, June 25 (AP)—With a force of its fighting planes doubling as bombers, the American Volunteer Group today attacked Hankow, Japan's major inland base in occupied China, and sank one Japanese warship and three transports in the broad Yangtze there.

An AVG communique announced today that other vessels probably were damaged and military establishments were blown up on Tuesday in the Flying Tigers' debut over Hankow, which is in Huphe province, and is China's greatest interior city.

Coupled with this blow and others in which Chinese airmen also figured were reports that Chinese troops, long without adequate air support, had pushed the Japanese 12 miles back from recaptured Keki, in the long, harrowing battle for the Chekiang-Kiangsi railway.

This was reported to have widened the remaining Chinese-held gap on the important rail line to more than 60 miles in place of the bare 50 to which the defenders had been reduced by the eastward and westward drives of the enemy.

On Monday, the AVG definitely downed three Japanese fighters in a dogfight over Hongyuan, Hsian province, and may actually have got six, said the AVG communique.

The Hupeh and Hunan operations marked a broad extension of AVG operations in support of Chinese ground forces.

"The remaining resistance of the British eighth army has been overcome on the Libyan-Egyptian frontier," the Italian high command said.

"Axis forces continued in pursuit of the enemy, who is retiring to the east."

It was not clear immediately whether the British armies had executed a strategic voluntary withdrawal to stronger defense positions, as London military quarters had intimated might be done, or whether they had been thrown back by violent assault.

In any event, the threat to the green valley of the Nile and the vital Suez canal was not sharply outlined, and it remained to be seen whether Gen. Sir Auchinleck's battered forces, disorganized and weary from the Libyan desert cam-

pany move from Libya across the Egyptian border. Sign "POW," lower right, stands for "prisoners of war," was erected

by British prisoners to protect themselves from RAF bombing during earlier fighting.

## WAR BULLETINS

By EDWARD KENNEDY CAIRO, June 25 (AP)—Powerful Axis tank forces thrust more than 60 miles into Egypt today, forcing the British to fall back under a covering fire, but United States army fliers dealt the enemy a punishing blow with a second raid on the big supply base of Bengasi, 350 miles to the rear.

By HENRY C. CASSIDY MOSCOW, June 25 (AP)—The gigantic German offensive against Sevastopol is slackening somewhat, because of the great losses suffered by the attackers, Russian dispatches said today, but the battle still is violent against a severely outnumbered garrison of the Crimean port.

WASHINGTON, June 25 (AP)—The navy announced today that a medium sized Norwegian merchant vessel had been torpedoed several hundred miles off the Southeast coast of the United States and that survivors had been landed at an East coast port.

### Complete New Inventory Not Necessary

Pampa retailers don't need to take a complete new inventory to comply with the general maximum price regulation, Max McCullough, Dallas, regional office of price administration administrator, says letters received by the OPA indicated that some retailers had this impression.

Catalogues or similar printed merchandise lists supplied by wholesalers, manufacturers or trade organizations may be used by retailers in preparing the maximum price statements which every seller under the regulation must have by July 1.

To comply with the law, the retailer is to list each item covered by the regulation with proper identification, such as manufacturer's name, style, brand, size, etc., and to show the ceiling price. Sellers are not required to list the quantities of each item on hand.

In compiling the list of March prices, printed lists are acceptable as long as there is included, in one way or another, every item in stock that is covered by the general maximum price regulation. Where printed lists are used, it is the responsibility of the retailer to see to it that the prices shown in such lists are his own ceiling prices. Where catalogues are used containing prices which differ from the retailer's March prices, the retailer must strike these out and enter instead his ceiling prices.

### BUY VICTORY STAMPS SEVASTOPOL

(Continued from Page One)

... could stem the victory-flushed Axis legions.

... Dispatches from Cairo indicated that the British intended to make their main stand somewhere before Me-truh, railway 160 miles east of the Egyptian-Libyan frontier.

A Nazi communique said Axis columns were rolling forward "in quick pursuit of the beaten enemy."

With the battle of Egypt opened on an ominous note for Britain, Adolf Hitler's field headquarters asserted that Axis shock troops had knifed deeper into the fortifications of Sevastopol in "bitter forest and house-to-house fighting."

A Reuters (British news agency) dispatch from Stockholm said a strongly escorted convoy from Caucasus ports had landed two regiments of Soviet troops in the Southern Crimea, in attempt to relieve the Sevastopol garrison.

The dispatch said the Russian seaborne forces, landing in the face of violent fire from German coastal batteries, advanced at some points and cut behind the lines of the Nazi siege armies around Sevastopol.

It was the 21st day of furious assaults on the great Soviet Black sea naval base in the Crimea.

Soviet dispatches pictured Russian troops, including a German coastal battery, advanced at some points and cut behind the lines of the Nazi siege armies around Sevastopol.

On the Kharkov front, 400 miles north of Sevastopol, the German high command announced for the first time that Marshal Fedor Von Bock's armies had been on the offensive since June 22 "in order to wipe out groups of our enemy forces."

That was the lone Nazi comment. The Russians, who have acknowledged all along that the Germans were pressing a big new drive around Kharkov, said Von Bock's forces had dented Red army lines to some extent but only with "great losses in men and material."

Meanwhile, Prime Minister Churchill's government accepted a challenge by 21 critics who had asked parliament to condemn the "central direction of the war" as an aftermath of the Libyan defeat.

Sir Stafford Cripps, Churchill's deputy in the house of commons, said that a two-day debate would be held soon and that it was hoped Churchill himself, now in Washington conferring on win-the-war strategy with President Roosevelt, would speak on the grim turn of developments in the Mediterranean war theater.

At the same time, the Archbishop of York criticized the British government for "unnecessary concealment of bad news" declaring: "It is irritating and humiliating when the enemy tells us on the wireless what we are not told officially and more accurately until many hours have passed."

Dying the night's RAF bombers pounded the U-boat base at St. Nazaire, France, while German raiders in "fairly strong force" attacked the English industrial Midlands for the first time in six months.

The British said two towns were attacked with high-explosives and incendiaries. Berlin said the Nazi raiders bombed the industrial district of Birmingham.

A single Nazi plane also flew over London provoking a 10-minute burst of anti-aircraft fire, but no bombs were dropped and no alarm sounded. London has been free of heavy raids since the spring of 1941.

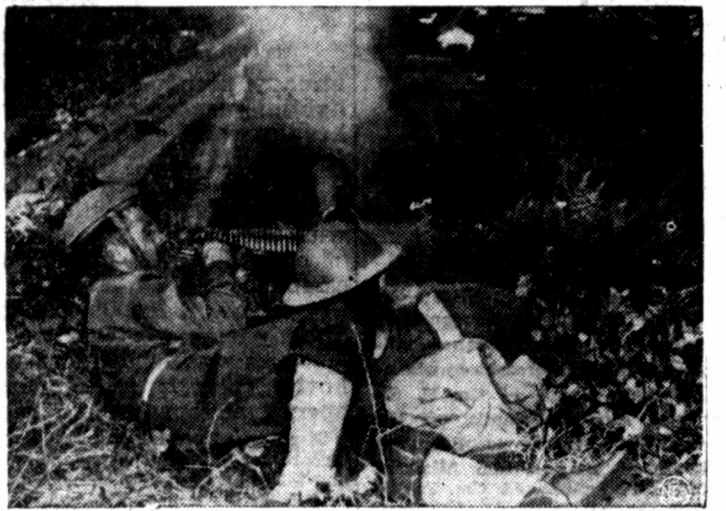

Parents delayed an operation. Ronny tripped and fell, cutting the membrane on a front tooth. Now he doesn't need the operation.

**BROTHERS FROM PAMPA** are fighting for their Uncle Sam. They are Gordon E. Mitchell, left, and William D. Mitchell, sons of Mr. and Mrs. L. N. Mitchell, 311 North LeFors street. Gordon, who is 23 years

old, volunteered in February of 1910. He has been stationed in Alaska since December of the same year. William, who is only 18 years old, volunteered in April of this year and is stationed at Camp Wolters, Texas.

**RUBBER IS VITAL TO** gun carriages. A 37 mm. gun, next arm above the machine gun shown above, needs 14 20-foot lengths of garden hose to supply reclaimed rubber for the rubber parts of a 37 mm. gun carriage. Five scrap tires also represent the supply needed for this one item. Get your rubber scrap in to your filling station now, and keep the guns writing "Remember Pearl Harbor" in bullets and shells.

### O'Daniel Joined 'Fifth Column Isolationist Gang,' Says Allred

(By The Associated Press)

Southeast Texas and the Rio Grande valley were the sites today of campaign speeches in the quickening senatorial race.

Senator W. Lee O'Daniel, candidate for re-election, and his traveling companion, gubernatorial candidate Hal Collins, were scheduled to appear at Edinburg, Brownsville and Harlingen.

Earl Moody, a rival senatorial aspirant, planned to speak at Jacksonville, Henderson and Nacogdoches. The itinerary of James V. Allred, who also seeks the place now occupied by O'Daniel, makes his first appearance Saturday at Huntsville, Madisonville, and Navasota.

Another phase of the political campaign is to come before the state supreme court this afternoon when arguments are heard for and against the contention of James E. Kilday that he is the only candidate who should be certified on the Democratic ballot for one of the two railroad commissioners subject to the July 25 primary election.

At Pahr-stre last night Moody declared in an address that he wanted to have a part in driving "cheap, clowning politics out of Texas and restoring it to the dignity it once had." He assailed what he described as the isolationist record of Senator O'Daniel.

O'Daniel told an audience at Corpus Christi the chief issue before the American people was not loss of the war but loss of democracy. He said the American working man had lost his right to work without paying tribute to what he termed "labor racketeers."

Allred in a talk at Beaumont declared the winning of the war is the most deadly obligation the nation has ever undertaken, and he charged the incumbent junior senator whom he did not mention by name, with having joined "the fifth column isolationist gang" which he asserted interfered with President Roosevelt's war efforts.

Normal world output of cotton is approximately five times that of wool, 140 times that of silk, 60 times that of rayon and nine times that of flax.

### Plans New Stand

The shooting occurred, the statement said, after Smith's 16-year-old daughter came home the night of April 12 and said Brummett had forced his attentions on her during a date at a canal bank near Mesa.

The girl took the stand for about five minutes to testify, amid tears and hysteria, that she fought with the youth before he overpowered her.

Brummett was a high school football star after moving to Mesa from Big Spring, Tex.

Dr. B. L. Neff of Mesa testified the girl had been confined to her bed for a week after her date with Brummett, and that she had been under treatment constantly since that time.

The case was expected to reach the jury today.

PHOENIX, Ariz., June 25 (AP)—A statement made by Victor F. Smith, 43-year-old proprietor of a store and tourist court at Mesa, relating how he killed Owen Brummett, 19, with a shotgun and pistol, was introduced by the prosecution yesterday at Smith's murder trial in superior court here.

### Truman Will Seek To Cut Down Army Expenditures

WASHINGTON, June 25 (AP)—A searching examination into the immediate need of a record-breaking \$42,820,000,000 army appropriation was reported under way by a senate committee today as Senator Truman (D-Mo.) announced he would seek to cut down any expenditures that did not appear to be fully justified at this time.

In a move regarded in some quarters as the first serious congressional questioning of huge military appropriations, Truman told reporters he and other members were interested in determining the actual need of making available all of the amount in the house-approved bill—the largest cash outlay ever proposed before the legislative body.

"I want the army to have every cent that it needs," the Missouri senator said, "but we are going to examine into every phase of this thing and if they are building up a big back-log of appropriations that won't be used for months or even years, I am going to move to cut some of them down."

Conceding that a strong effort might be made in committee to whittle down the measure, Chairman Thomas (D-Okla.) said he had insisted that Gen. George C. Marshall, army chief of staff, appear before the group personally for a general justification of the appropriations.

—BY VICTORY BONDS

### Slaying Described In Phoenix Trial

PHOENIX, Ariz., June 25 (AP)—A statement made by Victor F. Smith, 43-year-old proprietor of a store and tourist court at Mesa, relating how he killed Owen Brummett, 19, with a shotgun and pistol, was introduced by the prosecution yesterday at Smith's murder trial in superior court here.

Parents delayed an operation. Ronny tripped and fell, cutting the membrane on a front tooth. Now he doesn't need the operation.

PHOENIX, Ariz., June 25 (AP)—A statement made by Victor F. Smith, 43-year-old proprietor of a store and tourist court at Mesa, relating how he killed Owen Brummett, 19, with a shotgun and pistol, was introduced by the prosecution yesterday at Smith's murder trial in superior court here.

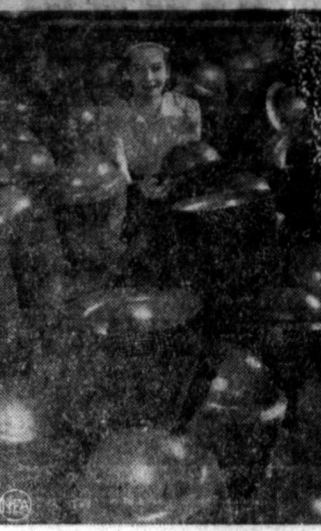

PHOENIX, Ariz., June 25 (AP)—A statement made by Victor F. Smith, 43-year-old proprietor of a store and tourist court at Mesa, relating how he killed Owen Brummett, 19, with a shotgun and pistol, was introduced by the prosecution yesterday at Smith's murder trial in superior court here.

### 19 Of 30 Texas Senators Have No Worries

(By The Associated Press)  
AUSTIN, June 25 (AP)—Nineteen of the 30 members of the Texas senate are not troubled with election worries this year.  
Normally, the senate has 11 members but the resignation of Senator Claude Isbell of Rockwall left one vacancy which will be filled in the July Democratic primary.  
Of 15 with terms expiring in January, seven have no opponents, one is retiring voluntarily, a vacancy exists in one district and six members have one or more opponents.  
Five of 16 holdover senators whose terms do not expire until January, 1945, are campaigning for state office and three are serving in the army.  
Voting for the lieutenant governorship with six other candidates are Senators Vernon Lemens of Waxahachie, John Lee Smith of Throckmorton and Harold Beck of Texarkana.  
Entered in the marathon for the unexpired railroad commission term are Senators Karl Lovelady of Meridian and Clem Fain of Livingston.  
Certain of re-election to four-year senatorial terms are these senators without opposition: William E. Stone, Galveston; Rogers Kelley, Edinburg; Rudolph Weiner, Seguin; Jesse Martin, Fort Worth; R. C. Lanning, Jacksboro; George Moffett, Chillicothe; Penrose Metcalfe, San Angelo.  
Senator W. C. Graves of Dallas must hurdle two home town opponents to win another term. J. H. Heckerson and former Senator Claud Westfield oppose him.  
Houston's Weaver Moore is opposed by Thad Scott and Lewis Dickson. Senator L. J. Sulak of La Grange has as opponents Harvey Betts of Hempstead, and Senator Allan Shivers of Port Arthur is facing former Senator W. R. Cousins of Beaumont.  
Against Senator Clay Cotten of Palestine is ranged Capt. Jim Taylor of Kerens. Senator Olan Van Zandt of Tioga has three opponents—Charles R. Jones of Bonham, J. P. Buck of Collinsville, and W. S. Moore of Gainesville.  
To fill the vacancy created by the resignation of Isbell, Rep. G. C. Morris of Greenville is unopposed.  
Rep. Walter Ferguson of Overton and Wardlaw Lane of Carthage are candidates to succeed Senator Joe Hill of Henderson, who is retiring at the end of his current term.  
Holdover senators are J. Alton York, Bryan; A. M. Aiken, Jr., Paris; Harold Beck, Texarkana; W. L. Winfield, Fort Stockton; Houghton Brownlee, Austin; T. C. Chadick, Mineola; Clem Fain, Livingston; Marshall Formby, McAdoo; Grady Hazlewood, Amarillo; Vernon Lemens, Waxahachie; Karl Lovelady, Meridian; Fred Mauritz, Ganado; Ben Ramsey, San Augustine; John Lee Smith, Throckmorton; J. Franklin Spears, San Antonio; Kyle Vick, Waco.  
Serving in the army are Senators Lemens, a lieutenant; Spears, a major; and Formby, a private.

Helmets by hundreds are examined by Canadian girl inspector.

### Negroes Can't Vote In Texas Primaries

Negroes are not eligible to vote in the Democratic primary elections in Texas, John V. Andrews, chairman of the Gray County Democratic Executive committee, announced today that he had been informed by E. B. Germany, Dallas, state Democratic chairman.  
This means that negroes in Gray county, along with negroes in other counties of the state, cannot vote for Democratic candidates in the party primaries of July 25 and August 22.

### Political Calendar

The Pampa News has been authorized to present the names of the following citizens as candidates for office, subject to the action of the Democratic voters, at their primary election Saturday, July 25, 1942.

### Newspaper Criticism Of Army Invited

DENVER, June 25 (AP)—American newspapers were invited by a war department spokesman today to make "intelligent, constructive criticism" of the United States Army.  
"We welcome it," Col. A. Robert Cinsburgh, aide to Undersecretary of War Robert Patterson, said in an address prepared for delivery at the ninth convention of the American Newspaper Guild.  
"In asking you to help protect our secrets," he said, "I make no plea that you soft-pedal criticism of the army. We make mistakes. Any organization as huge and as suddenly expanded as the war department is bound to make some."  
Cinsburgh asserted that the nation's newspapers, with only scattered exceptions, "are cooperating cheerfully and regarding the rules scrupulously" in the publication of war news.  
—BUY VICTORY BONDS—  
Cuba is to spend \$10 million for the development and diversification of agriculture, the department of commerce reports.

### Relieves NASAL IRRITATION

Due to Colds

When your nostrils become red, irritated, stuffy due to colds or dust, just insert a little Mentholatum in them. Note how quickly it soothes the irritated membranes and relieves the stuffiness. It will also check sneezing. After you have enjoyed Mentholatum's comforting relief you will never want to be without this gentle ointment. 30c and 60c sizes.

### MENTHOLATUM

### CHICKENS — TURKEYS

**STAR SULPHURIOUS COMPOUND**  
Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of egg production as they enter fowls in feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory.

### Market Briefs

NEW YORK, June 25 (AP)—Stock market buyers and sellers continue to operate warily today and leading issues held to a narrowly irregular course.  
The list got off to a hesitant start and, in the closing hour fractional price deviations either way were about a standoff. It was one of the slowest sessions in about two years.  
Among stocks, Boeing was given a fair-sized lift when directors voted a \$1 dividend, first payment for this company since the initial disbursement of 40 cents in December, 1937. Other lifters were only moderately responsive.  
An isolated pusher was U. S. Distributing preferred which got up more than 2 to a new top since 1931.  
In front at times were Chrysler, Consolidated Edison, N. Y. Central, Woolworth, Low Chemical, Johns-Manville, and U. S. Steel.  
Lagging most of the day were American Telephone, Santa Fe, Allied Chemical, Sears Roebuck, American Can, and Standard Oil (N. J.).

### BUY VICTORY BONDS

Shellac is one of the imported raw materials for which Germany has not yet been able to develop a satisfactory substitute, says the department of commerce.  
An "iron savings account" has been created in Germany in an endeavor to freeze increased income of individuals until after the war.  
—BUY VICTORY BONDS—  
Nearly Moved  
The British Houses of Parliament were about to be moved from the Thames river at one time. The Duke of Wellington, in 1840, protested the proposal and pointed out that the buildings could never be surrounded by a mob if they were situated on the river.  
—BUY VICTORY STAMPS—  
New Scotch Joke  
CHICAGO, June 25 (AP)—Hugh Robertson, a Scotsman, supplied blood for a transfusion needed by his son, Hugh, Jr., navy lieutenant, seriously ill in a Mississippi camp.  
On Father's Day he received from Lieutenant Robertson the following wire: "Best wishes and thanks for the extra pint of Scotch."

### Three Candidates File Race Expenses

Only three candidates for county and precinct offices had filed their first campaign expense reports today, first day of the five-day period set aside on the political calendar for this purpose, June 30 is the last day to file the first report, and the period July 13-17 is the time for the second report.  
Those filing reports today were County Clerk Charlie Thut, and Charles I. Hughes, Justice of the Peace of precinct 2, place 2, both candidates for re-election, and G. O. Carruth, candidate for county commissioner of precinct 1, LeFors. Biggest amount was spent by Mr. Thut, \$157, with Mr. Carruth second, \$48.00; Mr. Hughes, \$40.65. Newspaper advertising, cards, blot- ters, matches, and traveling expenses were items listed.  
—BUY VICTORY BONDS—  
The German labor situation has become particularly critical due to loss of men in battle and need for drawing replacements from the labor force, according to the department of commerce.  
—BUY VICTORY BONDS—  
Bureau of standards, department of commerce, has prepared instructions for efficient dead storage of automobiles. The circular is free.

# CLOVIS, EVEN WITHOUT SEITZ, HOLDS JINX OVER PAMPA

## Pampans Will Play Lubbock Nine Tonight

The Clovis Pioneers, even with Grover Seitz missing because of a 90-day suspension handed him by Judge Bramham for tangling with an umpire, held their jinx over the Pampa Oilers last night 6 to 5. The Oilers outbit the Pioneers 12 to 7 but Mohrlock's wildness and three errors spelled defeat for the Oilers.

Tonight the Oilers move to Lubbock for the first of two games. On Saturday and Sunday they'll play in Borger. They return home Monday night, but their opponent has not been announced.

In the absence of Seitz, Lou Frierson took charge of the Pioneers. He started Medlock but the Oilers chased him to the showers in the fifth. Lefty Wyatt took over and received credit for the win, his 15th straight this season. He won his 14th from the Oilers here Sunday afternoon.

Mohrlock, troubled with pleurisy, lost control and walked eight batters. He also whiffed eight of the Pioneers.

Joe Isaacs led the Oilers at the plate with three singles while Ray Surratt bagged a triple and single. Buckel also bagged a double and single.

PAMPA	AB	R	H	P	O	A

## Stewart Only Favorite Left In Tournament

SOUTH BEND, Ind., June 25 (AP)—Picking the next national intercollegiate golf champion is like playing the old blindfold game of pinning on the donkey's tail.

The field was cut from 64 to 16 players yesterday and Earl Stewart of Louisiana State, the defending champ, was virtually the only favorite left for today's 36-hole match play, which will shave the list to four semi-finalists.

Stewart is just one of the boys who makes college golf interesting. Chick Evans, the old master who is chairman of the N.C.A.A. golf committee, has found the collegians' secret.

"They swing with a freedom and abandon not found in the more experienced, more inhibited player," he observes. "They have not yet discovered the overwhelming difficulties of the putt, so they put boldly, just as they hit their other shots."

This pot-luck, bold sharpshooting is what makes the tournament unpredictable and closely contested. Yesterday nine matches went extra holes and five others were not settled until the 18th green.

Players to watch were such outsiders as Jim Teale of Minnesota, who shot an unofficial 67 in crushing the chances of Dick Haskell, the Northwestern ex-caddy who qualified with a 142; Dale Mores, of L.S.U., who fired three birdies in a row to win his match; John Stoltz and stylist Manuel de la Torre of Northwestern; and Midshipman David Paul of the U. S. Naval academy.

## Teen-Age Gang Takes Firm Grip On Western Open

CHICAGO, June 25 (AP)—The new women's golfing crop—the teen-age gang—has taken a firm grip on affairs in the Women's Western Open Golf championship, a 21-year-old Jeannette Cline is a better than fair example.

A vivacious miss of 18, whose passion is her sports program over a Bloomington, Ill., radio station, and whose business is tournament golf, Jeannette with the dark brown hair has taught her elders a thing or two about driving as she trots over the Elmhurst fairways.

Typical was her winning shot in the driving contest. She outdrove Mrs. Jim Ferrier, wife of Elmhurst's pro, by 72 yards. Jeannette can hit and she can chip and her putts are pat, which spells up to a pretty good game of golf.

Miss Cline never has won a major tournament and faces a difficult time in this one, especially in this afternoon's quarter-final match with Georgia's Dorothy Kirby of Atlanta.

Jeannette turned on the heat yesterday to defeat the 19-year-old Miss Brown of Texarkana, Ark., 1 up, by taking the 17th hole and fighting for a halve on the 18th.

Besides the Kirby-Cline match in the lower bracket, Dorothy Foster of Springfield, Ill., and former national champion Betty Jameson of San Antonio, Tex., were paired.

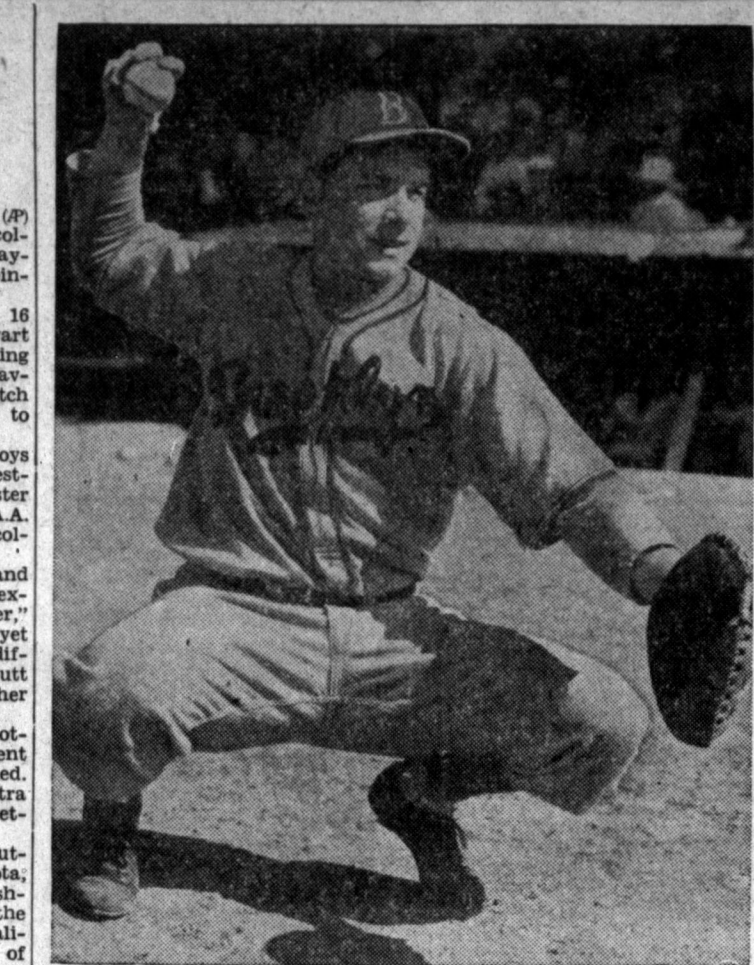

The upper bracket listed Marjorie Row of Detroit against Virginia Ingram of Winnetka, Ill., and Phyllis Otto of Atlantic, Ia., against Sallie Sessions of Muskegon, Mich.

## Soldier Kayos Self

ORLANDO, Fla., June 25 (AP)—Hitting too hard and too often, a soldier boxer handed himself a technical kayo here last night after falling flat on his face from his own swings four times and once catapulting through the ropes.

Private Bert Hammett, 194, was given the decision over the aggressive but wild-punching Private Art Boursee, 187, during a boxing tournament staged by the fighter command school of the Orlando air base.

Mickey Owen... all 'round star now.

## Missed Third Strike Forgotten, Owen Takes Place Among Stars

By HARRY GRAYSON  
NEA Service Sports Editor  
NEW YORK, June 25—What effect has that missed third strike in the series had on Mickey Owen's play?

Well, as long as they persist on putting it that way, the only possible answer is that the celebrated run to the dugout on what should have been the deciding out improved Arnold Malcolm Owen.

The Missouri cattle raiser made a tremendous hit when he offered no alibi, took all the blame when Hugh Casey's low and sweeping curve bounced off the heel of his glove.

"I muffed one. That's all," was all Owen had to say. But Owen returned this spring hustling harder than ever. Leo Durrocher doesn't like to explain that his catcher is 20 per cent better than he was in 1941.

"Mike is even smarter," explains Lippy Leo Durrocher. "Until this season he wasn't the slickest handler of pitchers that I've seen."

"Owen is far and away the finest catcher in the National League," beams Larry MacPhail.

FRISCH TRIED TO TEACH OWEN TO HIT RIGHT  
Owen is a big cat on bunts and throws well.

He lifted his batting average from .231 to .318 by learning to hit to right field.

"I tried to drill that knock into Owen when he worked under me with the Cardinals," asserts Frank Frisch of the Pirates. "He lacks the power to pull the ball to left field. He couldn't reach the fence, so too frequently was an easy out on hoppers to the shortstop. Now that he's hitting mostly to right, fly balls drop safely and liners go between the first and second basemen."

President MacPhail gave the St. Louis club \$35,000 and Gus Mancuso and a pitcher for Owen, and now reveals that the young man belonged to him in the first place.

In one of his economy waves, Sam Breadon let the last California hire professor, Charles E. Chapman, go as a scout. Chapman is the man who came up with Chick Hafey and Taylor Douthitt.

OWEN FIRST DODGER FIND OF PROFESSOR CHAPMAN  
MacPhail, then head of the Cincinnati organization, signed Chapman and the first recruit lined up by his new forager was Owen, then catching for Los Angeles High school.

But the Cardinals protested that they had the inside track on Owen because Professor Chapman's first reports on him went to their organization. Rather than provoke an argument, which he usually adores, MacPhail let the boy go to the Cardinals.

Mickey Owen has improved. Joe Medwick is his wicked old self with the willow. Pee Wee Reese has come on.

That is why the Dodgers are tougher this summer and why MacPhail is so eager to have them repeat.

Larry MacPhail solemnly believes that this edition of Dodgers can beat the Yankees in a world series. BUY VICTORY BONDS

Grasshopper And Army  
SAN ANTONIO, June 25 (AP)—Authorization to begin work on a Panhandle-wide program of grasshopper and army worm control has been issued to the Amarillo WPA district office, Stearns S. Tucker, deputy state administrator, announced here today.

Sponsored by Texas A. & M. college, the project will be operated through expenditures of \$128,144, of which WPA has provided \$10,937. BUY VICTORY BONDS

Four bus lines operating between New York and Washington have been ordered by the director of defense transportation to pool their services, stagger schedules, honor each other's tickets, and eliminate duplicating operations on certain routes. The order is based upon a voluntary plan submitted by the operators.

## SPORTS IN WARTIME

By HAROLD V. RATLIFF  
Associated Press Sports Editor  
Texas, once a stronghold of minor league baseball, is losing its grip. Not many years ago this state ranked second in the nation in support of professional teams. Two years ago five leagues were represented. Today there are only two and one of those is staggering under the load.

The Texas league should be able to finish the season and show an attendance increase but it has been having its troubles. Oklahoma City had to get financial help to meet the payroll.

The West Texas - New Mexico league was cut to six clubs the last time I looked. It's getting so when President Milton Price hears the telephone ring he prepares to work on another crisis.

Bill Serulock of the Beaumont Journal thinks Jack Zeller, general manager of the Detroit Tigers, should let the boys at his Beaumont farm in on his observations — at least one of them.

It seems Zeller was watching Merv Connors, the big Dallas first baseman. "He's easy to pitch to and if a pitcher can hit the right spot he won't even get a loud foul," opined Jack.

A week or so later Beaumont was playing in Dallas. Connors came to bat with the bases full. He blasted the ball over the fence and broke up the game. Then to show it wasn't an accident he hit another homer before calling it a night.

"Evidently," mused Bill, "Jack forgot to tell Shipper chunkers regarding Connors' weakness."

If Southern Methodist university has its way about it, the Corpus Christi Naval Air station will enjoy a successful football season.

To begin with S. M. U. scheduled a game with the fliers. Then the next thing the Dallas school did was to pave the way for NAS to get its own.

Matty Bell, veteran mentor of the Mustangs, now is in the naval reserve and we learn he's likely to be sent to Corpus Christi to tutor the footballers after his training course at Annapolis.

A Big Spring golfer made two birdies on one hole.

Matt Harrington let loose a lusty drive on No. 6. The ball rose about 30 feet then wham!—it smacked right into a bird.

The bird plummeted to the ground dead. Then Harrington went ahead and birdied the hole.

Texas produces more young golfers than any other state and two of them have come into prominence with a vim this season.

First there was 17-year-old Ray Kenny of Dallas who won the Texas amateur championship over a veteran fielder the Polly Riley, a Fort Worth 18-year-old who swept thru the women's West Texas tournament this week.

Polly is playing golf because her mother made her give up football! She was used to get in some lusty football games with the boys in the neighborhood until golfing friends of her mother suggested the girl be steered into the links game.

Now Polly likes golf better than football. She played in the Wichita Falls Junior Chamber of Commerce tournament but Dobbs wrote in to say there was an error and that he shot an 87 instead of a 77 on his last 18, thus he felt it necessary to turn down the honor of winning the flight.

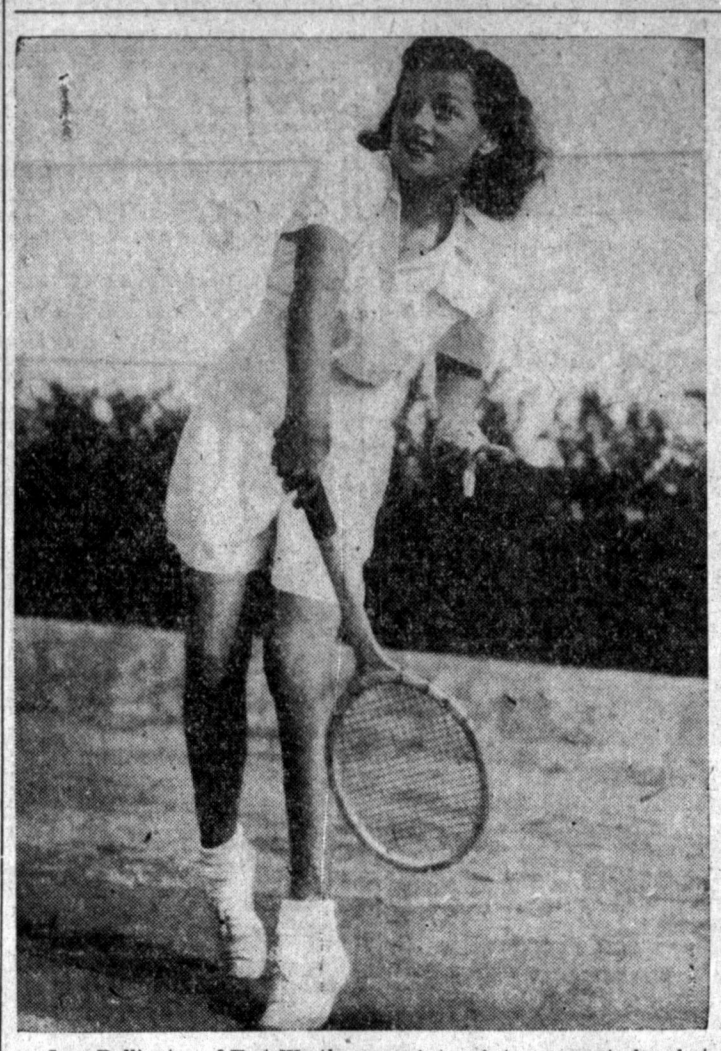

BUY VICTORY BONDS  
Contracts Let For Dalhart, Childress Air Force Schools  
DALLAS, June 25 (AP)—Construction contract awards totaling several million dollars for army projects in the Southwest were announced today by Col. S. L. Scott, Southwestern division engineer.

Construction which is scheduled to start at once will be under the supervision of the U. S. district engineer, Denison, Tex., and U. S. district engineer at Tulsa, Okla., Col. Scott said.

Awards to be supervised by the Denison district engineer include: P. & E. Construction company, Amarillo, sewer line at a manufacturing plant in Texas, over \$100,000.

Younger Engineering company, San Antonio, buildings at air force training schools at Altus and Frederick, Okla., and Childress, Tex., each less than \$500,000.

## Passeau And Walters Bid For Pitching Leadership

Jane Bullington of Fort Worth defended successfully her junior singles title by defeating Margaret Eby of Houston, 8-6, 6-2, in the finals of the Lone Star Women's tennis tournament played at Dallas' Brook Hollow Country club. She won the singles championship in last year's tournament. (Associated Press photo.)

By JUDSON BAILEY  
Associated Press Sports Writer  
Those two hardy perennials, Claude Passeau and William (Lucky Bucky) Walters, are bidding strongly for the pitching leadership of the National league again.

This year most of the attention in the senior circuit has been given to Mort Cooper of the St. Louis Cardinals, with his five shutouts, and Lefty Larry French of the Brooklyn Dodgers, with his unmarred record of six victories and an earned run average of less than one per nine innings, but Passeau and Walters made their claims heard anew last night with standout performances.

Passeau pitched a four-hitter for the Chicago Cubs to beat the Philadelphia Phils, 3-1, and attain his 11th victory, the most games any pitcher in the major leagues has won.

He has accounted for one-third of the victories the second-division Brungs have scored this season.

Walters, like Passeau, hasn't had much help from his teammates, with Cincinnati ranking last in the league in both batting and fielding, yet last night he scored his eighth career victory in a 2-1 win by holding the New York Giants to six hits over ten innings to lead the Reds to a 4-3 decision in a twilight tussle.

The Reds' triumph coincided with a double defeat for the St. Louis Cardinals to close the gap between second and third place to a single game.

The Redbirds were beaten 6-2 and 3-1 at Boston by the Braves yesterday as Jim Tobin and Rookie Willard Donovan turned in two nice pitching jobs.

In the American league the New York Yankees captured their second straight decision over the St. Louis Browns, 6-4, with Joe DiMaggio, Charley Keller and Tom Henrich each getting two hits.

Broadway Charley Wagner came up with his second 1-0 victory in a 1-0 win as the Boston Red Sox stopped the Detroit Tigers on his three-hit hurling.

Lefty Al Milnar, who has been struggling with little success all season, organized a five-hit 9-0 shutout of the Philadelphia Athletics for the Cleveland Indians.

John Humphries shut out the Washington Senators, 6-0, for the Chicago White Sox. Catcher Tom Turner assisted with a grand slam home run.

## Semi-Pro Baseball Has Marked Increase

WACO, June 25 (AP)—More than 100 teams in army camps, air fields and industrial plants have brought a marked increase for semi-pro baseball in Texas this year, A. H. Kirksey, state commissioner, said today.

Preparing for district tournaments to be held by July 19, Kirksey pointed out that the average small town now is not able to muster sufficient men because most of the men of baseball age are in the service, but that the service teams have more than offset this loss.

Only one district tournament has been arranged, that being at Abilene. Franchise rights will be granted to any newspaper or sports promoter in any other city to hold such tournaments with the district winner assured a place in the state meet.

The state tournament will be held at Waco July 23 to Aug. 9 with such fine teams as Sheppard field, Camp Barkeley, Camp Wolters, North American Aviation, Shipbuilders of Houston, Randolph field and Ellington field having already expressed a desire to enter.

## Barbers Nose Out Knights Of Pythias In 11-10 Duel

The Mack and Paul Barbers continued their undated way in the Pampa Softball league race yesterday by nosing out the Knights of Pythias, winners of four straight, 11 to 10. In the other game of the evening, Woodmen of the World outslugged the Clites Service Boosters, new team in the league, 22 to 12.

Schedule for this evening, at 6:30 o'clock, puts the Diamond Shop against the Jaycees at Recreation park and Phillips against Ideal Food Stores at Magnolia park.

Mack and Paul had to come from behind in their half of the seventh to win. Cannon started and Kenneth Mullings finished on the mound for the Barbers with Buckingham behind the plate. Stangel hurled for the lodgemen with Gee and Altman dividing the catching.

The Knights jumped on Cannon for six runs in the first inning but blew the game in the third and fifth with errors and erratic playing costing them. With the score tied in the last of the sixth, the barbers put across one run in the seventh on three hits. The Knights put men on second and third in their half of the seventh, but couldn't put the winning run across.

Sheehan went the distance to win for WOW and he helped his own cause with a home run. Revis was behind the plate. Halbig and Campbell hurled for the boosters with Leland receiving. Campbell and Murphy hit homers. Clites Service got only seven hits off Sheehan while the Woodmen got 15 hits.

## 12,688 Fans At Fort Worth See Buffs Beat Cats

(By The Associated Press)  
A crowd of 12,688 Fort Worth fans, gathered for a good-will party, saw the Hecston Buffs take apart the home team 8-6 last night and pull up to within one game of the second-place Shreveport Sports.

The Buffs lost no time in getting underway, scoring six tallies in the first inning, thereby presumably turning some of the good will to a little sour. Leaving nothing to chance, Houston pushed over the other two runs in the second, letting the Cats break along behind in a futile effort to overcome the huge lead.

Shreveport meanwhile was taking a 4-2 shelling at the hands of the Indians in a final game of a series at Oklahoma City. The Rebels lost 3-1 to the San Antonio Missions at Dallas. The Beaumont at Tulsa game was postponed.

Oklahoma City achieved its victory before a booster night crowd of 6,000. The Indians scored two runs in the third and two more in the fifth, the latter tallies being driven in by Catcher Danny Doyle with a two-bagger. The Sports sent one man home in the first and got their only other run in the eighth.

Starting Pitcher H. K. Perry's wildness led to the Dallas defeat. He walked batters in the first and second innings, giving San Antonio a run in each frame. The Missions got another run in the fifth, although they didn't need it. The Rebels scored their lone tally in the first.

### Nation's Gasoline Stocks Decline

NEW YORK, June 25 (AP)—Gasoline stocks in the United States declined another 2,147,000 barrels in the week ended June 20, the fourteenth weekly decline, the American Petroleum Institute announced today.

The total at the end of the period was 89,847,000 barrels, compared with 91,994,000 in the preceding week and 90,874,000 barrels in the same week a year ago.

Total gasoline production declined 462,000 barrels to 9,927,000. Production the preceding week was 10,389,000 barrels.

Crude oil production, however, increased 20,450 barrels to a total of 3,720,800 barrels, compared with 3,867,800 barrels a year ago.

The report showing daily average crude oil production (in barrels) included:

- Week ended June 20, with changes from previous week:
- Oklahoma 337,600 inc. 1,950.
- Kansas 279,850 inc. 100.
- Panhandle Texas 88,400 inc. 1,100.
- North Texas 144,000 dec. 5,400.
- West Texas 204,850 inc. 50.
- East Central Texas 93,950 inc. 6,350.
- East Texas 362,750 inc. 150.
- Southwest Texas 143,550 inc. 12,800.
- Coastal Texas 243,100 dec. 850.
- Total Texas 1,280,700 inc. 14,200.
- Louisiana 307,850 dec. 800.
- Arkansas 73,800 inc. 100.

### Police Records Used In Checking Tire Applications

HOUSTON, June 25. (AP)—Past sins against their tires are arising to haunt Harris county motorists who apply to the ration board for certificates for new tires. W. T. Boyd, head of the tire section of the ration board, said today.

The names of all applicants are being checked against police traffic court records, Boyd announced, and those with a record of convictions for speeding and reckless driving—driving practices that burn up tires—will receive a flat "no!" from the ration board.

Even if the applicant technically has no convictions, but has been charged, or has charges pending that have not yet been tried, the ration board will require a full explanation before it issues any certificate for tire replacements, Boyd said.

### Connally's Son May Be Named U. S. Judge

WASHINGTON, June 25 (AP)—Mention of Ben Connally, son of Texas Senator Tom Connally, as a possible choice for the South Texas federal judgeship vacancy, was made in congressional circles today.

The vacancy came up when James V. Allred resigned to enter the United States senatorial race in Texas.

A lieutenant in the air corps and on active duty at a Texas flying field, the younger Connally until his recent induction into the armed service was a Houston attorney.

The Federal Bureau of Investigation has been making a quiet study in Houston to determine his fitness for the post, according to information received by several Texas congressmen from an unusually reliable source. Such a study is routine before the president sends any name to the senate for confirmation as a judge.

Whether the fact that the senator is on active duty in the air corps would affect the situation was not known, but some congressmen observed that in view of the recent leave of absence of Associate Justice Frank Murphy from the supreme court to go into military service, the president in all probability could sanction the reverse procedure.

Other names mentioned as possible for the judgeship include Texas State Highway Commissioner Robert Lee Bobbit of Laredo and San Antonio, and Douglas McGregor, United States district attorney at Houston.

### War Petroleum Council Urged By Secretary Ickes

WASHINGTON, June 25 (AP)—Creation of a \$500,000,000 war petroleum corporation was urged today by Secretary of the Interior Ickes to prevent "probably unnecessary" stringent rationing orders and perhaps actual shortages of petroleum or some of its products for direct military use.

He told the house banking committee that, under the terms of the legislation, the corporation would be charged with the specific duty of causing:

1. The delivery of petroleum and petroleum products into shortage areas to meet military and essential civilian demands.
2. The expansion and most efficient use of petroleum transportation facilities.
3. The production of the necessary amounts of the specific petroleum products required for the war program and to meet essential civilian demands.
4. The maintenance of adequate reserves of petroleum or such petroleum products as are of strategic importance in quality or as to location.

BUY VICTORY BONDS—Cocoa Shortage Looms WASHINGTON, June 25 (AP)—The government cut down again today on the amount of chocolate available to satisfy America's war time sweet tooth.

Attempting to spread out dwindling supplies of cocoa beans and make current supplies last until mid-1943, the war production board ordered the quota of beans which may be processed each quarter cut to 60 per cent of last year's figure. Previously, the quota was 70 per cent.

### Mainly About Pampa And Her Neighbor Towns

If you have items of interest from Pampa or any town or community in the Panhandle please phone 666 in Pampa or drop a card or letter to the State Editor, The Pampa News.

Roosevelt street, entertained the Presbyterian Auxiliary at her home this afternoon. The program was in charge of Mrs. R. E. Garrett.

**ROY AND BOB BIKE SHOP.** Dependable repairs. 414 W. Browning.—Adv.

**BORGER.** Mrs. Floyd Hatfield of Venezuela has arrived for two months in the states and now is visiting with her parents, Mr. and Mrs. Roscoe Richards of Borger. She will visit other Texas cities and return to Borger before going back to South America.

**WANTED.** White woman for general housework for couple. Call 353.—Adv.

**WHEELER.** The Rev. and Mrs. Wayne Cook are in Dallas where the Rev. Cook is attending the Texas pastors school at Southern Methodist university.

Jack H. Allen, 520 Southwest 3rd street, both of Perryton, have arrived at Fort Knox, Ky., where they have been assigned to the 8th armored division.

**ARCHER PULLINGIN,** city editor of The Pampa News, was the principal speaker at the Pampa Rotary club's luncheon at noon yesterday. His subject was "Are We Complacent?"

Attendance at the luncheon was 34. O. V. Koen, former president of the Graham club, was received as a new member. Two accordion solos, the "Caisson Song," and a Spanish number, were played by Sue Edwards. John Caylor of Canadian was a guest.

**BOND OF HAROLD FAGIN,** marine held in county jail on a charge of forgery, was set at \$2,000 yesterday in the court of D. R. Henry, justice of the peace.

**MR. AND MRS. HORACE MCBEE** and daughter, Bonnie Nell, returned Wednesday evening after visiting with their son and brother, Lawrence, a cadet in the United States air corps at Jones Field near Boham. Also they visited with relatives at Gainesville and Bellevue and with Mr. and Mrs. J. J. Crutchfield, who are in a Wichita Falls hospital.

### Congress Gives Leon Henderson Only Half Of Funds Requested

WASHINGTON, June 25. (AP)—Congressional critics of Leon Henderson squared off today for a body blow at the federal price administration's pocketbook.

Appropriations subcommittee action in cutting in half Henderson's money request for next year's operations of the OPA, economy bloc leaders said the cut was not enough. They promised a fight on the floor for further reductions.

The subcommittee approved \$95,000,000, a reduction of \$66,000,000 from the amount recommended by the budget bureau and \$105,000,000 less than Henderson asked for the fiscal year starting July 1.

### Three R-Day Places Set Up For County

Registration of Gray county males between the ages of 18 and 20 will be held at three places in the county between 7 a. m. and 9 p. m. on Tuesday, June 30.

Private automobiles are not eligible for ration of tires and tubes in Cuba unless owned by physicians, says the department of commerce.

**Merchants Uncertain Regarding Bond Sale**

A month ago the Pampa Chamber of Commerce received a telegram from a representative of the Washington bureau handling the sale of war bonds and stamps asking if Pampa merchants would join other merchants of the nation in setting aside 15 minutes on July 1 for the sale of war bonds and stamps. The retail sales committee answered the wire stating that Pampa merchants would cooperate. That is the last that has been heard of the plan.

The Chamber of Commerce has received no further word as to how the sale is to be conducted. The office of the Gray County War Bond committee has never been notified of the sale. The credit association knows nothing about the plan.

Pampa merchants are at a loss to know what to do. The telegram asked that merchants make no sales between 12 o'clock noon and 12:15 p. m., excepting of war bonds and stamps. Pampa merchants are ready and willing to sell the bonds and stamps provided they are instructed regarding procedure.

**Without Painful Backache**

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passage with smarting and burning sometimes shows they are something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

ance of the Fourth, Commanders Franks and Fender issued the following statement:

"Although scarcity of materials which have in the past been used to put on Fourth celebrations will put a crimp in Pampa's Fourth, we would like to call attention of the public to an idea advanced earlier in the year by the junior chamber of commerce.

"The Jaycees, in cooperation with the Legion, the VFW, and the Ministerial Alliance, planned to sponsor an 'Independence Day of Faith' on July 4. Due to conditions beyond our control we were unable to produce this celebration as we originally planned.

"However, the idea is one of the greatest that has ever been suggested here, and we would like to call upon the people of Pampa to observe the Fourth as an 'Independence Day of Faith' in their hearts. There will be no parade and no fireworks, because it will be impossible to obtain them, but Pampans can dedicate their Fourth to the faith in the Divine guidance of America to the faith in the ideals of our American democracy that abides in our armed forces, in our

### Fort Clark Negro Troops Protested

AUSTIN, June 25 (AP)—Governor Coke R. Stevenson revealed today that residents of Brackettville had protested the war department's assignment of 1,500 negro troops to Fort Clark, which is near the Southwest Texas town.

The governor added he planned to forward the protest to the war department and in the interest of harmony ask that the assignment order be rescinded.

Fort Clark, a cavalry post, is in Kinney county. Brackettville has a population of approximately 2,600.

The governor said the protest was the first of its kind he had received.

# Family Men And Key War Workers To Be Called Last By Draft Boards

WASHINGTON, June 25. (AP)—Family men and key war workers will be the last to be called to the colors by local draft boards under new orders sent out today.

Draft headquarters announced four categories to govern the order under which men will be called up on the basis of dependency, leaving married men with children as the last to be inducted, but emphasizing that they could count upon no permanent deferment.

Meanwhile Paul V. McNutt, war manpower commissioner, changed his previous work-or-fight orders to give men with essential skills a chance to find jobs in vital war industries before being taken into the army. Previously selective service boards had been asked only to defer essential workers who actually had key jobs.

The draft headquarters ruling was in line with the bill President Roosevelt signed yesterday granting allowances for soldiers' dependents. The ruling established general groups to be inducted in the following order:

"Category 1. Registrants otherwise qualified for military service who have no bona-fide financial dependents.

"Category 2. Registrants otherwise qualified for military service who have financial dependents other than wives or children mentioned in categories 3 or 4.

"Category 3. Registrants otherwise qualified for military service who have wives with whom they are maintaining a bona-fide family relationship in their homes and who were married prior to Dec. 8, 1941, and at a time when induction was not imminent.

"Category 4. Registrants otherwise qualified for military service who have wives and children or children alone, with whom they maintain a bona-fide family relationship in their homes who were married prior to Dec. 8, 1941, at a time when induction was not imminent."

When a local draft board runs out of men in the first category it will dip into the next one and so on.

Other aspects of the draft headquarters orders are explained in the following questions and answers:

Q. Will it be compulsory for local draft boards to classify their registrants into the four categories and call up men for service in this order?

A. Selective service headquarters said it was the "expressed intent of congress" under the new law and insofar as practical should be followed.

Q. Will a married man who is now subject to induction be reclassified according to the new categories?

A. The directive is not retroactive but local boards were advised that "in order to give immediate effect to the general intent of congress, registrants should be selected for induction according to the four categories it outlines." Officials said that in many cases the directive probably would have no effect on men now in process of induction who might have been in a deferred category if the action had been taken by congress earlier.

Q. Is it possible for a married man to be placed in the first category?

A. Yes, if the wife is not dependent upon him. She might work and have a salary large enough to support herself or she might have sufficient independent income. The wife's dependency is the vital issue.

Q. Will some married men be called ahead of others?

A. Yes. Local draft boards must fill their calls for men on time and it may be necessary for some of them to dip into the lower categories before others. One board may not call men registered with another.

Q. When married men and married men with children expect to be called?

A. That depends upon the reserves of men their local boards may have in the first two categories and the ultimate manpower requirement for the war effort.

Q. What about provisions for financial assistance to dependents in the new law?

A. This depends upon the status of dependency. The law provides

# Miss Beryl Tignor And Lieut. W. L. Carss Wed At Mather Field Wednesday

The marriage of Miss Beryl Tignor, daughter of Mr. and Mrs. C. A. Tignor, and Lieut. Walter L. Carss, Jr., was solemnized at 10:30 o'clock Wednesday morning in an impressive ceremony at Mather Field, California.

The bride was attractive in a beige tailored suit with a pink blouse and beige and brown accessories.

Attending her sister as maid of honor was Miss Margaret Tignor of Pampa. With a beige suit she wore a blue blouse and matching accessories.

Lieut. J. B. Commander of Atlanta, Georgia, served as best man. Among those attending the ceremony was Mrs. Walter L. Carss, Sr., mother of the bridegroom, of Houston.

The bride, who is the daughter of a pioneer Pampa family, was graduated from Pampa High school, where she was a member of the National Honor society, debate team, and band. She received a B. A. degree in English from the University of Texas in 1941, and has been employed at the Cabot company of Dallas.

Cadet Carss, who is the son of Mr. and Mrs. Walter L. Carss, Sr., of Houston, also attended the University of Texas. He is in the United States air corps at Mather Field. On the day preceding the wedding, Lieut. Carss received his commission as a second lieutenant.

**GAY PINAFORE**

8204

She's all dressed up in a button-down-the-back pinafore—a proud little girl looking her best on a summer day! Short puffed sleeves and a full gathered skirt, perkily banded with ric-rac give this dress its unusual charm. It is practical, too, for it opens out flat for ironing and has its own pair of matching panties! A grand young fashion to make at once for your little girl's summer wardrobe.

Pattern No. 8204 is designed for 1, 2, 3, 4, and 5 years. Size 2 pinafore takes 1 1/4 yards 35-inch material; panties, 3/4 yard. 3 yards bias fold, 2 yards edging to trim.

For this attractive pattern, send 15c in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Send for the summer Fashion Book—It is crammed with clever ideas for all your sewing needs. All sizes from 1 to 52.

Pattern, 15c; Pattern Book, 15c; One Pattern and Pattern Book, ordered together, 35c. Enclose 1 cent postage for each pattern.

**Mothers Want Army "Secret" For Making Their Sons Neat**

The American housewife is ready to take lessons from Uncle Sam.

She wants to know the secret formula whereby he takes a darling son, used to being waited on and throwing his things around, and turns him into a neat, tidy guy who can reach out in the dark and put his hand on anything he owns.

She has read that at Camp Blanding, Fla., Uncle Sam has put his soldiers into new cabanatype huts where the boy who used to spread out over a seven-room house now lives comfortably in a space seven feet square.

The reason the American housewife is so interested is because she hasn't had any luck at all in her efforts to do practically the same thing.

Specifically, she would like Uncle Sam to teach her how he:

Trains his soldiers to hang up their clothes instead of walking out

of them and leaving them strewn on the floor . . . gets the men to bring their guns in when drilling is over instead of having to be reminded that it looks like rain and they had better go out and bring 'em in . . . keeps them from spreading out so that they have possessions all over camp . . . teaches them to have a place for everything and to keep it there instead of yelling, "Where is that d— shoe brush?"

Young Mrs. America-to-be marries the same young man that Uncle Sam has fallen for. But while mothers can't seem to get him trained to live neatly in an average-size house, even though they spend twenty-five years trying, Uncle Sam manages the job in a few short weeks. Can't wives be taught Uncle Sam's system—or is it a military secret?

Back To Work

The manpower shortage which close observers have been predicting, is here. Now that plant conversion displacements have passed their peak, we are coming squarely up against the need for finding workers among those millions who do not really want to work.

There has been a labor bottleneck of sorts, for months. This was in the skilled trades which form the cornerstones of most production—men performing key tasks without which the unskilled workmen would be useless.

The pinch now at hand goes further than the matter of trained workers. It involves industry's ability to obtain enough employes of any sort, skilled or common laborers, to carry on the expansion we still have to make in war production.

The National Industrial Conference board's survey of employment and unemployment as of April shows only a million and three quarters theoretically available for hiring. Theoretically, because that number includes hundreds of thousands who have worked, who want to work, who need the income, but who would get in everybody's way if they had jobs, and would do more harm than good.

Two years ago we had slightly more than nine millions classified as unemployed. The war has put eight and a quarter millions onto payrolls, including those who went into the armed forces. Meanwhile normal increases added almost a million to the labor reservoir.

So today—or to be exact, two months ago, since we always are behind in the compilation of such studies—there were only 1,753,000 men and women who were theoretically available for employment, of whom 1,151,000 were on the rolls of the WPA, the OCC or the NYA, exclusive of the latter's student beneficiaries.

The army wants at least a couple of millions more this year. The navy and the marines will take many. Agriculture needs a couple of millions. Factories which have been retooling and converting from civilian to war production, would like to replenish their personnel. New plants, built or building to make arms and munitions, need workmen.

Obviously the less than two millions in the ranks of the unemployed couldn't supply all these needs. And that is only the immediate problem. If the war goes on, and Uncle Sam has to call out a second five million on top of his 1942 quota—

The moral is obvious. We've passed out of the era of depression and unemployment. We've reached the point where we must reinforce such personnel as is freed by priorities tragedies with oldersters, the physically handicapped, youths, women who don't really want to work but can.

It is the jobseekers' paradise. So why the WPA, the OCC, the NYA, created to relieve the effects of unemployment?

Rubber Scrap

It is vital that the public, from factory owner to smallest householder, co-operate fully and promptly with President Roosevelt's scrap rubber salvage drive.

Estimates as to the quantity of recoverable rubber range from a conservative and believable half million tons to the apparently fantastic guess of 10 million tons—500 pounds a person. If whatever exists is to be utilized now, while we need it most, we must measure the supply accurately at once. Only by complete public co-operation can this be done. But the public should keep firmly in mind that this rubber is not for tires for pleasure driving. We need it to win the war.

BUY VICTORY BONDS

Tragic Accord

Tokyo, ever sensitive to Anglo-American welfare, is sympathetic about our "tragic error" in promising a second front in Europe against Hitler.

We appreciate Nippon's thoughtfulness, but we can assure Emperor Hirohito's foreign office that we did not commit ourselves without canvassing the possibilities. Also, we might point out that we could rely more upon Japanese omniscience if we did not remember how Jimmy Doolittle's raid on Tokyo interrupted a broadcast assuring the little brown men that Americans never could bomb them.

BUY VICTORY BONDS

Small Business

On the basis of partial returns from a survey, government experts do not believe that small business will be injured so seriously, by the shift to a total war economy, as had been feared. Philip D. Reed, chief of the WPE's bureau of industry branch, estimates that only 24,000 of our 184,000 manufacturing plants will be forced out of business by Oct. 1.

That is comforting, by contrast with the pessimistic prediction that 120,000 factories would be forced to close down. Yet the economic destruction of 24,000 businesses, with an annual turnover of four billion dollars, is no minor tragedy.

Negroes Have Chance To Become Officers

Gray county negro men, like negro men from other counties of Texas, have an opportunity to become commissioned officers in the United States army, under the volunteer candidate program recently authorized by the secretary of war.

Any negro registrant having at least a high school education, or its equivalent, who can meet the requirements of a 3-A registrant and is otherwise eligible for military service may make application through his local board to volunteer for officer candidate training.

Next steps are the physical test,

Common Ground

"I speak the plain-word primer. I give the sign of democracy. By God! I will accept nothing which cannot have their counterpart on the same terms." WALT WHITMAN

APPRENTICES AND UNFAIR LABOR PRACTICE

The trial examiner of the National Labor Relations Board in an unfair labor practice case, in which the writer is interested, contends that it is not bargaining in good faith, or in other words it is unfair labor practice, for an employer to insist on unlimited apprentices. The examiner contends that the printers cannot make a contract giving unlimited apprentices because the printers' union has rules against it.

But the Labor Board examiner does not seem to recognize the fact that if the printers made this rule, they can unmake the rule; nor that the printers union laws are not the laws of our government. If the people of the United States are obliged to make contracts only on the terms, laws or rules set down by some international labor union then the Rules or laws of the labor union become the law of the land instead of the natural rights of all men as the Constitution intended to establish. This is an absurdity.

If limiting the apprentices is to public interest, then the whole Constitution of the United States is not to public interest. This is true because limiting apprentices, in reality, is a combination that takes away the inherent rights of some men to exchange their property or their services on equal terms. If it is fair or good public policy to permit one international union to determine the number of apprentices that may be permitted to learn the trade then it must be fair to permit all unions to limit apprentices. But this would be establishing the caste system in this country and would make some workers in our country untouchables.

Limiting apprentices is a device to limit memberships in the union. And to limit memberships into unions, is to make serfs and slaves of those excluded. It not only hurts those excluded but it hurts the excluders. It does this because it prevents workers from learning to do the work the consumers want done, as shown by the higher prices they are offering for the product of the trade the journeymen would restrict learners in. It also keeps the less efficient on complicated machines. Production is thus greatly reduced. This eventually lowers the real wages which the union members themselves can receive.

Limiting membership by the crafty method of limiting apprentices in unions so as to make it possible for those admitted to get more than those excluded so discourages those excluded that they give up trying to support themselves; this results in great unemployment; and when unemployment is due to no fault of the individual unemployed, then it becomes the moral obligation of those who caused the unemployment to support the unemployed.

Limiting Apprentices Form of Caste System Limiting apprentices, as in the practice of the typographical union and most A. F. of L. unions and as is sanctioned by the government agent, is a form of a caste system. Workers then can only advance with the consent of those above them in the line of work. It is in reality dictatorship of the worst kind.

It is easy to see that limiting membership in a union is unAmerican, but limiting apprentices is more unAmerican because of its subtleness. It confuses people. They do not see that limiting apprentices is for the sole purpose on the part of the unions of limiting membership in the unions.

If values and wages are not to be established by a free market, that is by unlimited apprentices and unlimited membership, where ALL workers and not just part of the workers have their God given right to do any job they are capable of doing, then values must be established by some other method. But if they are to be established by the state, by what impersonal universal rule are the agents of the state to use in determining values; that is, wages and the number of people permitted to establish wages?

This is a question the examiner cannot answer. Nor can anyone else.

Thus, the only alternative to permitting unlimited apprentices, that is unlimited membership in unions the trial examiner of the labor board, or any one else would have, would be arbitrary, dictatorial decisions made without taking into consideration the inherent, God given rights of all the workers. But to do this is to practice what Hitler advocates. There are no impersonal universal rules or principles to go by in determining the number of apprentices except the arbitrary dictatorial will of some human being. In short we simply have a society, or a government, if the government endorses limiting apprentices, that is of men rather than a government operated by impersonal, eternal, neutral laws, principles and rules.

Of course, he could not admit that he was arbitrarily doing it but in reality that is the only alternative he has, if he does not recognize the rights of unlimited apprentices and membership to help establish values.

Thus, to limit apprentices and have the government be a party to it, is disregarding the fundamental principle that all people must be equally free before the law and before God. A principle on which this government has more nearly operated than any other country in all history.

To contend that an employer who refuses to limit apprentices is guilty of unfair labor practice is to contend that the dictator way of life is preferable to the American way of life.

The typographical union, or any union that insists on limiting apprentices, is guilty of failure to bargain in good faith, and thus guilty of unfair labor practice, rather than the employer who refuses to consent to limiting apprentices.

reporting to a designated army reception center, qualification examination. All expenses incident to travel to and from the centers and the negro's home must be borne by the applicant.

"Following the qualification examination by the army, the registrant returns to his home, regardless of whether or not he has been found qualified as a volunteer officer candidate, and his papers are forwarded to his local board through state selective service headquarters.

If the registrant has been rejected for officer candidate training, his application to volunteer is denied by his local board and he is retained in Class 3-A. If he has been found acceptable, he is placed in Class 1-A and notified when to report to this

local board for induction.

"Such registrants volunteer and accepted for officer candidate training will be given basic training in the ranks to determine their potential prospects for commissions. At the end of the basic training period any not recommended for an officer candidate school may request release from duty and may return to his home, and will not again be subject to call for active duty unless registrants having similar dependency claims are being inducted into military service."

The average of basic and officer candidate training is from six to nine months, during which time the registrant receives the same rate of pay as a private inducted into the army, unless his rate of pay is in-

THE OTHER SPHINX

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, June 25—A man from Washington, Film Co-ordinator Nelson Poynter, has been telling Hollywood lately that there is too much flag waving and not nearly enough thoughtful explanation of our war ideology on the screen.

There are intangible factors in the world struggle which must be brought to life, he says, "or this war will not make sense." Poynter has criticized Movietown for paying too much attention to thrilling aspects of fighting, and too little to showing why we are fighting. His department also wants these questions answered on the screen: "What is the nature of our enemies? How can we better understand our allies? How can each individual help the fight? What must we give up to win? Who are the men in our fighting forces?"

It is felt that air forces are being glorified in movies to the extent of neglecting other branches of the service. And Poynter wants Hollywood "to give us a 'Mrs. Miniver' of Russia and of China, making clear our common interest with the Russians and the Chinese in this war."

IS THAT SO?

All these ideas are dandy, but a little late. If Hollywood has any eyes, the question it would have replied sharply to Poynter's criticisms that it's way ahead of him. China, its people and their stake in the war are being given attention by several producers. Metro is preparing Pearl Buck's "Dragon Seed," and RKO has cast her "China Sky," dealing with American doctors and nurses in China today. At 20th-Fox, Ben Hecht has started his own story, "China Girl." In August, United Artists will release "The Battle of China." And Republic's "Flying Tigers" has a good deal to say and show about American-Chinese friendship and understanding.

The spirit of the Russian people will be explained in Metro's "Scorched Earth," about guerrilla fighters. "The Sons of the Red Army" is another big feature on the schedule. United Artists is about to release a remarkable documentary action film made by 30 Soviet cameramen during the winter's counter-offensive.

NOT TO MENTION—A play for our neglected allies. Also, in 20th-Fox's filming of "The Moon is Down," Scenarist-Producer Nunnally Johnson is adding fierce and active patriotism to the Norwegian story so negatively conceived by John Steinbeck.

The civilian war effort? Well, there's Pare Lorentz's "Name, Age, and Occupation," mostly filmed in actual factories. A eulogy of air raid wardens is being prepared at 20th-Fox under the title of "310 Three Smart Girls Join Up," will deal with different fields of service for American women. Paramount is reading "College Goes to War." Leo McCarey's "Once Upon a Moonbeam" is a story designed to wake up Americans.

There are numerous pictures about land and sea forces, and the neglected merchant marine is the subject of two big-scale films.

So They Say

We shall not cease fighting until the day of victory shall dawn. —HARRY WOODBURN CHASE, chancellor New York university.

Mere superiority of war production is not enough. It is not certain we will win, but I think we will. —WALTER NASH, New Zealand minister to the United States.

Increased by reason of his promotion during the training period.

People You Know

By Archer Fullingim

Sailors enjoy the most simple pleasures when they come into port from the Pacific battlefield. "Things that we take for granted mean everything to them. Thus pens Jack Stroup who is in the navy and who has a wife and child in Pampa: "... I ate almost seven dollars worth of chow yesterday. It was my first liberty in about two months, and I made the best of it. 'Boy I ate until I was about to pop. Three regular steak dinners, three-fourths of an apple pie. Two quarts of milk and ice cream and malts and things I haven't eaten since I left home. Boy it was the first time I've been full since Xmas day's dinner. I couldn't even sleep last night. I hurt so. Boy was it swell. I'm sure growing. I've got an inch and a half taller (5 feet 11 inches) and weigh 155 pounds. I was black as a nigger from sun tan but I got in a cold climate and lost most of my tan."

If you want to do somebody a good turn write a letter to Bill Bell whose address is Pvt. Bill Bell, 407 T. S. Squadron, Barracks 265, Sheppard Field, Tex. He isn't asking for letters but he wrote his guardian, Mickey Conley, that he hasn't received a single letter since he arrived there. Bill is the boy who didn't have anybody to sign for him, he being only 18, and he got Mickey to sign his papers. Bill writes her that he has been "working hard, and don't mean to fail that which I have begun. I'm doing my best to become a flying cadet. This is a hard but great place."

Walter Daugherty is the champion heckler of the Rotary club, in a friendly vein of course, and no matter who is present he is always served his dessert before anybody else. Except one time, and that was when Dr. Charles Barker, the noted speaker was guest. At that time the waitress served Walter first as usual, and Dr. Barker politely took it away from him and ate it, and then, complains Mr. Daugherty, he got up and called "me a Kansas Republican and took me as his text. If I was a very disconcerting day."

A new member of the Rotary club is O. B. Koen who has taken over Fletcher's. Mr. Koen was school principal at Graham where he was also president of the Rotary club. The Graham newspaper really gave him a send-off.

And speaking of send-offs. It's going to be hard to do justice to the Rev. C. Gordon Bayless who will leave Pampa shortly. So if any of you want to write any tributes to him to be published in this column, go to it, and don't spare the horses.

Yesteryear

In The News

Ten Years Ago Today Pampa's first bonus marchers were to leave for Washington the next morning. They were Sgt. Jim Logan, D. C. Fornsheff, Noah Millard, and Peril Klesow. Money to defray their trip was raised by subscription among the business men and ex-service men.

Five Years Ago Today Mrs. Martha Cree, 84, mother of George and O. R. Cree, and of Mrs. E. L. Hoover and Mrs. Mollie Hunter, all of Pampa, died at her home in Woodfield, Ohio.

HIGH LIFE And low life in The BIG City

By Stella Halit

"It must be nice to work in a bookshop, because you meet so many authors," people are always saying, but any bookshop worker will tell you that meeting authors is a doubtful pleasure. Meeting readers, solvent readers that is, brings more joy.

Some authors are delightful and high in this list is the English poet, W. H. Auden. He is a most unassuming young man, all blonde, who looks as though he had slept in the park. His tweeds are light and wrinkled, his hair in disarray. But his get-up is no pose; he just dresses neatly and is shy and reserved. He knows exactly what he thinks and he knows exactly where he's going. Some authors are forever trying to secure books they wrote ten years ago and which are now out of print. Not so Auden. He is thinking what he will write next year or ten years from now. There is something about his personality that makes bookselling seem a privileged profession. Everyone is glad to see Auden.

His collaborator in several books, Christopher Isherwood, is extremely quiet. He has a low voice, dresses neatly and is shy and reserved. It is difficult to associate him with his "Goodbye to Berlin."

Authors never look as you think they might. Take Henry Miller. In the book trade you know many of his books are banned. They were published privately in Paris. Respectable booksellers can only look at you if you ask for Tropic of Cancer and Tropic of Capricorn. But Henry Miller is no Casanova. He sets himself down comfortably and looks like a prosperous Kansas farmer. And Sumner's Maughan has no cynical conversation. He is a small man who dresses with care. His manner is engaging and he is considerate of other people. He stammers a little.

Authors do not have much time to spend at bookshops. They work more consistently than you'd suppose. They often combine authorship with lecturing or teaching.

Office Cat . . .

Randolph—What is the greatest water power known to man? Frederick—Women's tears.

Hocus—A college professor says the sum of the parts is greater than the whole. Focus—He must have tried to olives back in a bottle.

Pupil—I just completed a correspondence course in singing. Teacher—Well, some lessons must have been lost in the mail.

"I understand your daughter is going to be married," a man said to his neighbor. She seems rather young. Do you think she is ready for the battle of life? "She really ought to be," the father said. "She's been in five engagements already."

Corzine—If you don't quit nagging at me for a new fur piece you're going to bring out the animal in me!

Bertie—Swell, I'd like a piece of skunk fur!

Mother—Now honeybunch, eat up your rice, like a good boy.

Honeybunch—I don't like rice.

Mother—Well, just pretend you like it.

Honeybunch—No, I'll just pretend to eat it.

Behind The News In Washington

By PETER EDSON

All the shoutin' of the angry mob from Texas against compulsory national-wide gasoline rationing— All the congressional shootin' at Gas Fixer Leon Henderson and his request for 100,000 investigators—

All the rural moanin' low of the farm bloc to maintain 110 per cent parity and to get more synthetic rubber made from grain—

All the delay, linger, and wait in getting the new tax bill whipped together—

All the enthusiasm for increasing the pay of soldiers and sailors and giving their dependents at home bigger and better allowances—

All the interest of the dyes in trying to protect the boys in the services from the temptations and evils of strong drink—

Add them all together and they spell out just one thing—this is congressional election year.

Congressmen are jittery as steers stampeding in a storm. Let the wind change and they'll take off on a tangent in any or every direction. And this mid-summer madness won't be over till the votes are hurysied in November and the boys know whether they'll be coming back to Washington or whether they'll have to register with the United States Employment Service.

There are those who still believe this public forum or against 'em on gas and rubber and price fixing and taxes and soldiers' pay is all to the good. The theory is that this discussion is the open-faced, card-on-the-table, nothing-up-the-sleeve method of arriving at conclusions and the ultimate truth.

BLOODY BATTLE GROUNDS

Under this theory, nothing that congress ever proposed was worth saving, everything that congress ever approved was okay. That applies to the card and the pensions-for-congressmen issues, too, on the basis that congress had to be for these things to bring out the fact that the country was against them, and so cause their defeat.

If this theory of government is true, then every issue must be a battle ground, fought over till both sides reel punchdrunk and bloody from the field, but with right dignity triumphant, no matter which side wins.

This solution of state questions is disconcerting enough to some folks in peace times, but definitely disruptive in time of war, when the nation should all be united in the great big happy family settling their problems in a calm, cool, and collected manner bespeaking greater efficiency than even a totalitarian ideologist could dream up for the post-Utopian heaven of a super-race. The congressional confusion as of today therefore bemoaned by hard-boiled generals and administrators who point skinny fingers of scorn at the bickering of the solons who are thus marked as primarily responsible for slowing up the war effort.

CONFUSED CONGRESS

The criticism has made the congressmen at the most school-girlishly sensitive and nervous, and this upsetting influence plus the psychological handicap of the election-year jitters, have made this wartime 77th congress seem more inefficient than most. The representatives in particular stand confused, afraid to go home for fear they'll be looked upon as shirking their war duties in Washington, afraid not to go home for fear they'll not understand how their constituents feel.

The question arises as to whether all this concern is justified. Four months from now, on election day, will it make any difference how congressmen voted on X cards or congressional pensions or any of the other public issues now so much in the public eye? If the war news in late October is good, the congressmen can all wave a flag, say, "Look what we did!" and be swept triumphantly back into Washington for another two years.

On the other hand, if New York has been token-bombed, the Aleutians occupied, Midway lost, and the second front sent reeling back on its heels—then politicians in office might as well look for a cyclone cellar or a nice soft job in a powder mill. How they voted in

WASHINGTON WHELP

War production officials assure there will be an adequate supply of rubber sealing rings for home canners. Restrictions have been lifted on fluorescent lighting fixtures consuming less than 30 watts.

Rubies, sapphires, emeralds, natural pearls, and diamonds of more than one carat are exempt from price regulation. . . . Tire tread wear out twice as fast at 90 degrees as at 60 degrees. . . . Baby carriage manufacture is to be permitted at the usual rate, but with only a fifth as much metal as heretofore and the only metals to be used are iron, steel, gold, and aluminum. . . . Price ceilings on synthetic rubber and 100-octane gasoline have been removed to encourage their production. . . . The brain and spinal column of animals slaughtered for food provide a new source of vitamins for poultry feed, substituting for fish livers. . . . U. SERIAL STORY

SPECIAL INVESTIGATOR

BY BLANCHE ROBERTS

Copyright, 1942, NEA Service, Inc.

THE STORY: Judith Kingsley is secretary to the president of an airplane factory. Her employer is sending her to the factory's west coast branch to investigate a "leak" in the organization. Boarding a westbound plane Judith sees Tom Burke, whom she loves and with whom she has quarreled. Tom is also bound for the west coast factory with plans for a new bomber. Before the plane leaves Judith sees two men "checking Tom lately."

Judith was lighting a cigaret, when a hand was put to her elbow and she was pushed toward the plane.

CHAPTER II  
"COMFORTABLE?" inquired the air hostess, bending over Judith and smiling pleasantly. "Oh, yes," she answered cheerfully, even though she felt depressed at the moment.

The pretty girl turned to the man across the aisle and repeated her questions. Judith started at the sound of his voice. He spoke with a heavy accent, gruffly, as if he resented being bothered. When the hostess passed on, he looked at Judith. She smiled, and for a moment it seemed he would not return her greeting. Then he grinned, breaking the stern expression of his face. But his eyes did not smile, only his mouth. Judith had heard of cold-blooded people and now, she was sure, she had met one.

"You like flying?" he asked, and his voice made her think of someone with a mouth full of mush.

"I think it is the only way to travel," she answered. She decided if the man thought she was easy to talk to, then she would not be taking too great a risk in speaking to Burke later and warning him to watch out for this fellow.

After a moment the man in the seat in front of her craned his neck to look at her. She tried the same winsome smile on him and it worked.

"Everybody on this plane will believe I am an easy pick-up," she told herself. "But so much the better." She instantly averted her eyes and looked out the window.

"Please continue to be indifferent, but listen to me," she whispered as the other two men took places at the far end of the counter by the door.

Burke half turned his head and stared at her serious face. There was inquiry in the lift of his brows and disturbing sparks in his eyes that made her heart beat unevenly. He toyed with the glass of water before him while he asked from the corner of his mouth:

"Why are you here, Judith?"  
"On business—not following you," she said curtly.

"Oh!" The way he said the word was maddening.  
"You're horrid, Tom," she said, her cheeks burning. "Mr. Watson is sending me to the coast to check on the office force there. But that's beside the point. I'm sure one or both of those men at the end of the counter are interested in you or the plans of that bomber. I thought you might like to know."

But he did not bother to glance she indicated.  
"One sits behind you and the other across the aisle."  
"Between bites of food he said, 'Thanks for the warning, darling. I more than appreciate your interest.' There was a twinkle in his eyes that infuriated her.

"I don't want anything to happen to the plans," she said sweetly.  
He deliberately turned and grinned at her. He was so much better looking when she smiled. She gave her stool a spin and slid to the floor. Without a backward glance she walked to the cashier, paid her check and left the cafe, red head in the air.

She paused outside the ship to have a smoke in the crisp evening air. She was just lighting it when a hand was put to her elbow and the cigaret taken from her mouth. Before she realized what was happening, she was pushed

runway without a bounce, taxied back to the buildings and rolled to a stop. Judith was the first passenger off. But she lingered nearby to give Tom Burke an opportunity to reach the cat first. She followed him in and sat down at the counter next to his stool.

"Please continue to be indifferent, but listen to me," she whispered as the other two men took places at the far end of the counter by the door.

Burke half turned his head and stared at her serious face. There was inquiry in the lift of his brows and disturbing sparks in his eyes that made her heart beat unevenly. He toyed with the glass of water before him while he asked from the corner of his mouth:

"Why are you here, Judith?"  
"On business—not following you," she said curtly.

"Oh!" The way he said the word was maddening.  
"You're horrid, Tom," she said, her cheeks burning. "Mr. Watson is sending me to the coast to check on the office force there. But that's beside the point. I'm sure one or both of those men at the end of the counter are interested in you or the plans of that bomber. I thought you might like to know."

But he did not bother to glance she indicated.  
"One sits behind you and the other across the aisle."  
"Between bites of food he said, 'Thanks for the warning, darling. I more than appreciate your interest.' There was a twinkle in his eyes that infuriated her.

"I don't want anything to happen to the plans," she said sweetly.  
He deliberately turned and grinned at her. He was so much better looking when she smiled. She gave her stool a spin and slid to the floor. Without a backward glance she walked to the cashier, paid her check and left the cafe, red head in the air.

She paused outside the ship to have a smoke in the crisp evening air. She was just lighting it when a hand was put to her elbow and the cigaret taken from her mouth. Before she realized what was happening, she was pushed

into the cabin of the plane. "Just what do you know about the plans and who told you? It was a secret." Tom's voice was low and his hand was warm and firm on her arm.

"Mr. Watson told me. He thinks there is a leak in the company and I'm on my way to investigate the office force at the factory." She looked squarely into his face, chin up. "Something tells me the foreigner knows you have the plans."

"Well, don't worry your beautiful little head, honey," he told her, and his own head bent towards hers.

She stepped back instantly. "I am merely minding my job," she said cuttingly and sat down. "Then I'll ignore you."

Burke moved on to his place, but turned and looked back at her before he sat down. Their gaze met and held until Judith pulled her eyes away.

"Oh," she breathed to herself angrily. "He knows I don't hate him and he's trying to make me admit it. Well, I can be just as stubborn as Tom Burke."

She picked up her purse to repair her make-up.

"You are a fast eater, young lady," she looked up quickly to see the heavy-set man pausing by her chair. "Or maybe you were not hungry."

"I can eat when there is no flying to be done," she replied pleasantly.

"Or a young man to flirt with?" he grinned knowingly. "He won't flirt with me," she remarked and pouted her lips. She spoke loudly and her voice reached Tom Burke. He turned and scowled at them both, playing his role well. "See what I mean?"

The large man nodded with an understanding wink and sat down. The other passengers took their places, and in a moment the voice of the hostess came to Judith's ears from outside. There was curious concern in the tone.

"Changing co-pilots? What happened to Bill?"  
Judith did not hear the answer but she turned to see the two flyers come through the door and make their way to the control room up front. As they passed her an uneasy feeling swept over her like a warning.

Amarillo Rushes Line To Air School

FORT WORTH, June 25 (AP)—The regional federal works agency office here yesterday announced approval at Washington of a \$355,000 project to lay ten miles of 20-inch water main from Amarillo to the nearby air mechanics school and said the project was handled faster than any other that has passed through the office here.

Word of approval and allocation of federal funds for the project was received from FWA Director Philip B. Fleming, in Washington.

But pending approval, bids were opened here Saturday and the low bidder, who will be awarded the contract late today, was Williams & Whittle, of Dallas, at a figure of \$350,896.

The FWA office reported the city of Amarillo, also on the jump, already had purchased the necessary pipe and that it was already "strung" on the site, obviating priority delays.

Work is scheduled to start Monday and completion date has been fixed for July 15.

Women Must Now Say 'Yes Mam'

DES MOINES, Iowa, June 25 (AP)—I'll probably be "Yes, Mam," "No, Mam," and "right away, Mam," in the women's army.

Obviously, the "sir" which every buck private and junior officer learns to use in addressing a superior officer is hardly suitable for the women's army auxiliary corps.

Officials at the WAAC officers training school here said today "mam" probably will be the substitute.

Until the first WAAC officers are commissioned, they will be addressed as "Miss Second-So" and "Mrs. Second-So," as the case will be.

### Today's War Analysis

By DeWitt MacKenzie  
Wide World War Analyst

The weight and ferocity of the new Nazi attack against the Russians in the Kharkov sector indicate that Hitler finally is settling down in earnest to the bloody business of trying to crack the Red line in this gateway to the golden Caucasus.

The master gangster's previous assault in this zone more than a fortnight ago apparently was to improve his positions in preparation for a major offensive. Just how much he achieved hasn't yet been made clear, although he did force the Russian line back in places. This fresh drive, now in its fourth day, may be the real thing.

Judging from reports the battle thus far has in effect been a triumph for Red Marshal Timoshenko's fighting devils. The Germans have denied the Soviet line in the Donets Basin, but appear to have done so at a terrific cost in life and material. Naturally the attacker's losses are far heavier than those of the defense—something like three to one under normal circumstances and heaven only knows what in the present instance.

Thus so long as the Bolsheviks can prevent a break-through they are making long strides towards victory even though they remain on the defensive. This is so because Hitler is now suffering damage which he no longer can repair. He already has under arms about all the physically fit men he can call, without bringing the very young or those beyond their prime. Further—and this is important—he has passed the peak of his war production and cannot increase his output. He is facing the down grade.

Can the Russians continue to hold the Nazis and keep them from breaking through to the resources of the Caucasus and Middle East? That's on the knees of the gods, but the indications are that while Hitler still possesses vast power he isn't as strong as he was a year ago when he recklessly assaulted the Reds.

If sacrifice of German youth could turn the trick, the Nazi all highest would succeed. The only regard a German commander has for the lives of his soldiers relates to the number he can afford to throw away. Life in itself means nothing; the objective is everything. That's militarism, the result of a brutal training which starts with babyhood.

Down in the Crimea there is perhaps even more sanguinary fighting as the Nazis press their siege of the great Red naval base of Sevastopol. Berlin this morning reported that Axis troops had penetrated deeper into the Russian defenses and that street fighting was proceeding. I should say that the position of Sevastopol is critical.

#### Seven Texans To Return From Japan

WASHINGTON, June 25 (AP)—The names of seven Texans were included in a list of 629 Americans which the state department announced were scheduled to return from Japanese-held territory under exchange agreements made through Swiss authorities.

They are to return on a Swedish motor ship which is carrying Japanese diplomats and nationals to Portuguese West Africa in the first step of the exchange. It was expected this group, with United States diplomatic officials, would be repatriated within 60 days.

The list included W. R. Atway of Dallas, from Hongkong; from Korea, Mary Dodson of Austin; from Japan, Dr. Lardner Moore whose wife and children are at Sherman; from Hongkong, W. R. Burnside of San Antonio; C. J. Livingston of Sherman, and T. C. Westbrook of Torenna, and from Thailand, Robert Perry Abel of Dalworth.

Dr. Moore has been a missionary in Japan for 15 years and his parents were missionaries there for a decade. He was graduated from Austin college; was born in Japan, but is an American citizen.

Livingston, also an Austin college graduate, has represented The Texas company and other oil companies in China for the last ten years. His wife and children reside at Sherman.

Mary Dodson, a Presbyterian missionary in Korea for more than 20 years, last visited her home in Austin in 1938. Her sisters, Mattie and Sarah, live at Austin. A brother, William, lives at Burnet.

#### Three Escape From George West Jail

GEORGE WEST, June 25. (AP)—A search was underway today for Newton Perry (Pete) Baird, 25, of Fort Bend county, and two other prisoners who escaped yesterday from the Live Oak county jail.

Baird, brought here from the state penitentiary on a felony theft charge, was held here before his return to the state prison. He had just been sentenced in Live Oak county. Sheriff Albert Smith said two men from Beville, held on forgery charges, escaped with Baird.

Baird was under concurrent sentences of ten years for felony, theft and burglary at Corpus Christi, and in Montgomery, Victoria, and Fort Bend counties, in addition to Live Oak.

The blackland prairies are the most intensely cultivated farmlands in Texas. Principal crops are cotton, corn, oats, grain, sweet sorghums, and wheat.

The Lower Rio Grande valley of Texas, known also as the magic valley and the Rio Grande delta, has 300,000 acres devoted to the production of citrus fruits and grain vegetables.
