MARINES KILL OR CAPTURE ALL JAPS ON SIX ISLANDS

Reds Holding Off Fierce Thrusts Before Stalingrad

By RICHARD McMURRAY Associated Press War Editor

Russian soldiers holding stubbornly every bunker before Stalingrad appeared Sunday to be standing off fierce German thrusts at the Volga city while their Soviet comrades scored gains northwest of Moscow and their United Nations allies struck hard at the Axis on world fronts.

In the Far Pacific, United States marines were reported in firm possession of six islands in the Southwestern Solomons. The navy department in Washington said the marines had annihilated or captured the garrisons.

The Soviet midnight communique announced simply that there had been no material changes on any of the critical Russian fronts yesterday, indicating that the Red army was holding its own in the Stalingrad area, the present hot point of the German invasion of Russia.

The Russians announced that the Germans, regardless of losses, kept up attacks on positions northwest of Stalingrad, where the Germans declared in Berlin that the fighting was on a bunker-to-bunker scale.

"The enemy regardless of losses kept on attacking our positions," the communique said of the fighting in this area.

The Russians added the Germans kept on attacking regardless of heavy losses.

Two infantry companies were wiped out and 12 tanks destroyed in fierce engagements on the Kotelnikowski front, where the Germans are trying to drive from the southwest toward Stalingrad.

The Soviet offensive on the Kaulin front northwest of Moscow was said to have carried the Red banner across an unidentified river in the face of stubborn enemy resistance.

There, the Russians said, the Red army still is advancing.

South of Krasnodar, in the Northern Caucasus, the Russians said they had repelled two German attacks.

All the Russian action was in further concert with forces of the United Nations—with Allied bombers striking massive blows on the German home front and keeping the Japanese busy in case they were contemplating a stab in the Soviet back.

The Red army was counter-attacking on the Volga plains and stalling winds of German attempt to break through to the great industrial city and water artery. The Nazi speed in the Caucasus toward the Grozny oil fields and the Black sea ports was slowed.

The Soviet counter-offensive 130 miles northwest of Moscow over-ruled the German attempt to break through to the city in close combat. The Germans grimly told of heavy Russian counter-attacks everywhere from Finland to Stalingrad.

In Western Europe, the RAF and the U. S. Army Air Corps were reported to be attacking German positions in France and Belgium.

Damage was slight as far as could be determined at the moment, he said.

Preeport and Velasco are protected by 16-foot levees which served to keep out the 11 and 12 foot tides.

The coast guard said this estimate of the tide height was unofficial.

A gap in the levees on the Velasco harbor front, however, allowed the storm to push waters into the lowland sections.

Earlier the Houston weather bureau had reported the full force of the storm, with winds of more than 75 miles an hour, had hit Preeport.

A tropical hurricane played ominously off the Texas Gulf coast Saturday night, the weather bureau predicting its severe winds and dangerous tides would probably pass inland near Preeport during the night.

50 Tons Of Scrap Iron Already Given

A 50-ton pile of salvage metal was Gray county's initial response to the campaign for scrap iron to build tanks, planes and guns to keep the Japs and Nazis dying, as the second scrap metal campaign of the year reached its climax yesterday.

This total amount of scrap metal does not take into account all of the metal that was collected and sold to junk dealers, but represents scrap metal that was donated and put in the community pile in downtown Pampa.

A series of contests and a dance, all held at the junior high school gymnasium, ended the scrap metal rally last night.

This does not mean, however, that Gray county is going to quit gathering in scrap metal. This is only the beginning of a long campaign to keep America's steel mills rolling.

Farmers are still collecting metal, but no reports have been turned in to the county farm agents so that a list of farms 100 per cent cleared of all junk metal can be prepared.

Bell Clangs for Scrap With its bell ringing, the 40 and 8 box car of Pampa Vulture 953, traveled over downtown Pampa streets yesterday, collecting copper, bronze, and brass and other metals for the community pile, and advertising the scrap campaign.

The pile at the corner of Russell and Kingsmill, between the court house and the city hall, was off to a slow start Thursday, but gained momentum fast yesterday. Car after car brought in metal.

The pile at the corner of Russell and Kingsmill, between the court house and the city hall, was off to a slow start Thursday, but gained momentum fast yesterday. Car after car brought in metal.

Medal For Heroism Awarded Texan

WASHINGTON, Aug. 29 (AP)—The War Department announced today the award of the soldier's medal for heroism to 13 officers and enlisted men.

Among the awardees were: Corporal Bruno J. Ballarini, Virginia, Minn. and Corporal Jay Hinderliter, Oklahoma City, for rescuing three soldiers who had been incapacitated when a boat overturned in turbulent water near Monterey, Calif.

Private Willie A. Posey, Lufkin, Tex., for heroism in Alaska when he entered a burning room after explosion of an oil stove and salvaged a machine gun and tripod "undaunted by the knowledge the ammunition stored in the room might explode at any moment."

See STALINGRAD, Page 5

Hurricane Headed For Texas Coast

The brunt of a Gulf-born hurricane struck Preeport Saturday night and apparently was carrying its furious winds directly toward Houston to the north.

At 12:30 a. m. H. Bascom Simpson, Preeport newspaperman, reported winds of around 65 miles an hour had torn into the nearly-evacuated industrial town and was forcing water into the lower sections of neighboring Velasco.

By train and bus thousands of persons had departed Preeport before the storm hit, he said. Workers of the Dow Chemical and Magnesium plants there moved into the power plant for protection. The Dow plants closed down.

Simpson estimated some 15,000 persons had left the Velasco-Preeport area, some going by Missouri-Pacific relief train, others by busses sent to Rosenberg.

Damage was slight as far as could be determined at the moment, he said.

Preeport and Velasco are protected by 16-foot levees which served to keep out the 11 and 12 foot tides.

The coast guard said this estimate of the tide height was unofficial.

A gap in the levees on the Velasco harbor front, however, allowed the storm to push waters into the lowland sections.

Earlier the Houston weather bureau had reported the full force of the storm, with winds of more than 75 miles an hour, had hit Preeport.

A tropical hurricane played ominously off the Texas Gulf coast Saturday night, the weather bureau predicting its severe winds and dangerous tides would probably pass inland near Preeport during the night.

Cities along the coast rapidly took to sea. See HURRICANE, Page 8

No Fortresses Lost In Nuernberg Raid

By WES GALLAGHER

LONDON, Aug. 29 (AP)—American flying fortresses made their seventh raid on the Nazi-held continent today without suffering loss, following up the RAF's night attack with hundreds of bombers on Nuernberg carnival city of Nazidom, and Saarbruecken, sprawling industrial and railroad center.

The USA bombardiers, accompanied by fighters, loosed their loads over the German airbase at Wevelkheim, near Courtrai, Belgium. The raid was accompanied by diversionary sweeps of American fighters, and all planes returned safely to the full operation.

The British also were active today, making sharp attacks on Ostend and Lille. The RAF lost 30 bombers last night, and two bombers and a fighter failed to return today—but the damage to Hitler's war potential was considered a liberal dividend for the expenditures.

Nuernberg and Saarbruecken both have major war industries. When the raiders left, their big black wings were lighted by big fires at both cities. The daylight attacks were on docks at Ostend and power stations in the Lille-Lens area.

Nuernberg is specially dear to Hitler. He staged his Nazi party spectacles there in years of peace.

The bombing force of 300 to 600 planes centered its heaviest attack on that city, but the Air Ministry said the attack on Saarbruecken was "barely less strong."

Nuernberg had been bombed three times previously, but the latest blow undoubtedly was the hardest. The last raid there was Oct. 12, 1941. Saarbruecken was attacked twice before, the last time on July 19 this year.

The loss of 30 bombers last night raised to 60 the casualty list for two nights. Nuernberg was defended heavily and the perfect weather was an aid to the enemy interceptors.

BUY VICTORY STAMPS—One Nazi Sub Sunk, Another Surrenders

HAVANA, Aug. 29 (AP)—One German submarine was sunk and another captured after a battle with Allied sea and air forces off the coast of Cuba, Havana newspapers reported today.

There was no official confirmation of the story, which appeared under 8-column headlines, but publication of the information was authorized by the ministry of defense.

The published accounts, which came from correspondents in a Cuban port city, said the battle began when a submarine attacked and sank a merchant ship.

"Then," said the newspaper El Avance, "ships and planes attacked the marauding submarine with depth bombs and cannon fire and it was sunk rapidly."

See JAP FORCES, Page 5

71 Jap Planes Destroyed But U. S. Losses 'Small'

By JOHN M. HIGHTOWER

WASHINGTON, Aug. 29 (AP)—United States marines are now holding six islands in the vital Guadalcanal-Tulagi area of the southeastern Solomons, the navy announced tonight, and have smashed all Japanese attempts to land troops in an effort to drive them out.

Enemy units sent into the islands since the marines landed early August 7 with strong American naval and air forces in support have been either completely annihilated or captured, it was disclosed in a communique summarizing the results to date of the first American offensive of the war.

Another communique today reported successful aerial attacks against a squadron of four Japanese destroyers in the Jap-held territory north of the Guadalcanal-Tulagi sector. One large destroyer was sunk, another was badly damaged and probably sunk, and the third, a small destroyer, was damaged.

Jap Forces In Kwangtung In Flight

By SPENCER MOOSA

CHUNGKING, Aug. 29 (AP)—Japanese forces in Kwangtung province in south China are in flight before a new strong Chinese offensive 40 miles north of Canton, Chinese dispatches said tonight as the high command confirmed earlier reports that the valuable air bases at Chuhshien and Lishui in Chekiang province had been wrested from the invaders.

The Kwangtung offensive began Thursday with Chinese capture of Pakong, said the Central Chinese News agency. With the Chinese in hot pursuit, the Japanese since have fled from the towns of Kutungshan, Kweitung and Nangchangang and still are withdrawing southward along the Canton-Hankow railway, the agency said.

On the Chekiang-Kangsi front to north, the Chinese communique said Chuhshien and Lishui, both within easy air range of Japan, were recaptured Friday morning.

Central News said the Chinese also captured Sungyang, last important Japanese stronghold in southern Chekiang province, on Friday and that a general Japanese withdrawal northward appeared to be in progress from that area.

The Chinese communique, apparently based on earlier information, said the Japanese garrison at Sungyang was "facing annihilation."

Press dispatches said Changtun, five miles east of Chuhshien, also had fallen in the course of Chinese mop-up operations.

"The Tokyo radio mentioned the Japanese reverses for the first time, it was sunk rapidly."

See JAP FORCES, Page 5

Opening Of School Postponed One Day

Opening of Pampa schools will be postponed one day, until September 8, Supt. L. L. Sone announced yesterday. The change was made at the request of a number of merchants, who said they planned to close their places of business on Labor Day, September 7, and that students would be unable to make purchases on that day.

Supt. Sone and Winston Savage, principal of Junior high, issued statements regarding enrollment of all students.

Grade school pupils will enroll Tuesday but will not start classes until Wednesday. The same procedure will be carried out in Junior high. In the high school, sophomores will enroll Tuesday, seniors on Wednesday and juniors on Thursday, with classes beginning Friday.

Enrollment plans that should be read by every student and parent, follows:

There will be a general faculty meeting Monday morning, September 7, at 10 o'clock in the Junior high school auditorium. All teachers are expected to attend. Entrance requirements for children:

1. For children entering school in the first grade:

a. A birth certificate showing that they will be 6 before Sept. 1, 1942.

b. A certificate from family physician showing successful immunization against smallpox and diphtheria.

c. A summer round up blank fill-in.

War And The Top O' Texas

Vital Information

Meatless Days?

There may be meatless days this winter—but then again there may not be... The opinion in Washington is that it all depends on whether Secretary of Agriculture Wickard agrees to set a maximum price on live stock... Office of price administration is willing to take on the tremendous job of policing such a venture but must have the consent of agriculture before price ceilings can be set.

As matters now stand, the rising cost of live stock makes it a losing proposition for the small packers who must buy animals at high prices and sell meat under price ceilings.

To relieve pressure at the retail level which might be forced an increase in the prices that working men pay for their jumpers, overall, work shirts and other staple work clothing, Price Administrator Leon Henderson has issued a special regulation rolling back prices of these garments at the wholesale and manufacturing levels.

The WPB has appealed to all contractors in the fields of power plant construction and oil refinery and synthetic rubber plant construction to use, insofar as possible, only equipment of standard design.

Retail chain stores operating under a central purchasing and pricing policy have been authorized by OPA to continue this policy—after obtaining OPA approval—in the determination of maximum charges for any article or service covered by OPA regulations.

Scrap rubber collected in the president's recent whirlwind drive is now being moved to central receiving depots, and is being reclaimed plants at the rate of 200 cars every 24 hours, WPB says.

The formula for determining maximum prices for fabricated structural steel shapes, plates and bars and the service of fabricating these products when such services cannot be established under Section 2 of GMPR has been announced by OPA. The formula is contained in order No 61 under Section 3 (b) of GMPR, and becomes effective today.

The conservation division has announced plans for organizing a junior salvage corps which should play a big part in the war effort. The corps begins operations Oct. 5, when all schools will be open. Over 30,000,000 boys and girls of school age are eligible for admission to the corps, which will conduct a nation-wide, house-to-house canvass.

I HEARD . . .

Fire Chief Ben White groaning long and loud because three more of his firemen—Tommy Haggard, Kenneth Mullings and Stanley Gaston—are scheduled for army service next month. In all, the fire department has lost 12 men to the army and navy.

PAMPA GARAGE & STORAGE. Skelly Houders. Washing, Lubricating, 24 Hour Service. Storage and Repairs. Phone 979. 113 N. Frost.—Adv.

Your present battery may render satisfactory service now during the summer but what about next winter? You may not be able to buy a new battery then. Play safe, trade for a new Exide now. Your dealer can supply you.—Adv.

Allied Planes Strike Blows At Shipping

CAIRO, Egypt, Aug. 29 (AP)—United States medium bombers and British naval and RAF planes have struck hard blows at Axis supply shipping and centers where reinforcements were being assembled for a new battle expected soon, it was reported tonight.

The U. S. bombers, cooperating with British naval planes, bombed an Axis airport in the El Daba area last night.

RAF heavy and medium bombers at the same time smashed Axis shipping in Tobruk harbor, leaving at least two ships on fire and one or two others damaged.

The raid on Tobruk, one of the principal harbors of the Axis in North Africa was described as a large-scale attack. The whole water front was left ablaze and fires could be seen from Salum, 70 miles away. Some of the fires were near naval fuel installations.

Elsewhere British naval planes attacked enemy encampments, tank concentrations and motor transport in the battle area with considerable success, it was reported, while the navy hit German supply lines.

Land action was confined to harassing patrols, and it was significant that communiques again said enemy labor corps were being surprised and driven from their tasks. Field Marshal Erwin Rommel was still employing thousands of men to dig in security in the vicinity of El Alamein. It was positional warfare, with both sides strengthening trench and defense systems.

I SAW . . .

A letter from Pfc. Bobby Karr who is on maneuvers with thousands of troops in a California desert. In commenting upon Capt. R. M. Bellamy's description of the heat at Will Rogers Field at Oklahoma City ("hot as the hinges of hell"), Bobby, former Harvard football star, wrote: "I'd like to go to Oklahoma City to cool off." Mr. and Mrs. N. A. Hutchinson have received a letter from their son, Maurice, former Golden Gloves boxer, who recently landed in Great Britain. He enlisted in the army, May 8.

Prepare for high meat cost by filling a Vapo Locker at Barrett's now.—Adv.

'Come On, Let's Blow The Rats Out Of The Ocean'

Are you going to stand by while the Nazi and Jap rats kill men and set women and children adrift in lifeboats?

That's the challenge the U. S. navy is giving Gray county men, as Uncle Sam gets ready to start "dishing it out."

There's no more rigid age limits on navy enlistment. You can be 50 years old, the navy still wants you—just as it wants youths of 17.

Sure, there's opportunity to profit in the navy—from the good pay, food, quarters, uniforms—but what real American is thinking only of his own personal benefit?

Turn to page 2 of today's issue of The Pampa News and learn how you can do a man-sized job.

Mainly About Pampa And Her Neighbor Towns

Kenneth New and A. C. Cox, who joined the army air corps in April as flying cadets, have been ordered to report for active duty.

Marie Hetrick all-girl orchestra will play Sunday night, Lake McClellan.

WHITE DEER—Dr. E. Douglas Carver, pastor of the First Baptist church, Pampa, and former pastor at White Deer, was guest speaker at a "Ladies Night" meeting of the Brotherhood of the First Baptist church here, Friday night. His topic was "This Changing World." Rev. J. W. Hardin, pastor, and Biggs Horn, president of the Brotherhood, were in charge of the program, and B. H. Pendley played several piano selections. A buffet supper was served to 40 members and guests.

Spirella Corsetiere, Ph. 1956-J—Dean Monday, who joined the navy construction regiment three months ago, has been ordered to report for active duty. He will report at Dallas, and then will leave for Rhode Island where he will be stationed.

Bicycles for Sale—Roy and Bob Bike Shop, 414 W. Browning.

WHITE DEER—Richard Pearson, son of Mrs. Jessie Pearson, has recently been promoted to staff sergeant in the 384th airbase squadron at Albuquerque, N. M. Sergeant Pearson enlisted about three years ago and received his preliminary training at Lowry field, Denver, and Kelly field, San Antonio.

Mrs. Mae Foreman Carr, bachelor of music degree, Kansas Wesleyan university, offers her regular course in Piano and Theory. She has held important positions on the faculties of five different colleges and has cooperated with artists of national repute. She has taught music in Pampa for the past 12 years. Studio located in Chevrolet Building.

ALANREED—Classes of the Alanreed schools were organized Wednesday, following the opening of the 1942-43 session, on Monday, Sept. 7. C. T. Howell heads the Alanreed school system.

Fuller Brushes, 415 W. Cook, Ph. 2156-J.

Two vagrants appeared before City Recorder C. E. McGrew yesterday. One was fined and the other was turned over to the county as a habitual vagrant.

ALANREED—Rev. Hugh Blaylock is conducting the Methodist meeting now in progress here. Services are held at 9 p. m. each day.

Roy Walrabenstein, former director of the Pampa high school band, is now a lieutenant colonel in the quartermaster general's department in Washington, D. C., according to word received here.

ALANREED—Miss Edith Earthman has been elected to teach at the Heald school, east of McLean, which opens Monday.

Jim King, 941 East Campbell street, reported to city police Friday night that a 600 x 16 Goodyear tire,

YOU'D WINK, TOO—Screen Actress Barbara Britton has landed at the marine base in Quantico, Va., and seems to have the situation well in hand. Pipe the grins and the big wink. Photo was made at premiere of "Wake Island," movie saga of the leathernecks.

tube and wheel had been stolen from his pickup.

Marriage licenses, the first issued here since August 15, two weeks ago, were granted Friday to Bryle Smithers and Billie Kay Coombes, and to Ernest Smartt and Miss Geneva Lee Nichols. On Saturday, a license was granted R. L. Mitchell and Mrs. Luella Wiggins, the 20th marriage license of the month issued from the office of County Clerk Charlie Thut.

Mr. and Mrs. Frank Hudgill received a telegram Friday night from their son, Sgt. Allen Hudgill, stating that he had landed at a port in Maine and that he expected to be home on furlough soon. He has been stationed in Greenland for the past 11 months.

CLARENDOON—The war department last week notified Mrs. Homer McElvaney that her brother, Staff Sgt. Franklin J. Trammell, 29, was missing in action and was assumed either dead or a prisoner of war. Sergeant Trammell was with an air squadron in Bataan when it fell April 9. No word has been received from him since that time.

Carl Adams, former teacher of music in Pampa schools, has arriv-

ed in Seattle, Wash., for special training in the air corps technical division. He completed a course at Sheppard field last Saturday.

PANHANDLE—Carson county will have a new sheriff, tax assessor and collector January 1 as the result of the primary election in which Clarence Williams of White Deer defeated T. B. Harris, incumbent, 892 to 698. Arthur G. Gripp nosed out Grover Ingram in the commissioner's race, 87 to 83.

Friends here received word from Mrs. John Bradley yesterday that Mr. Bradley is convalescing in Hines Veterans hospital, Hines, Ill., following a major operation. Mrs. Bradley said she expected to return home in time for the opening of school. She is a teacher at Sam Houston school.

CLARENDOON—First Lt. Lacy N. Bourland, son of Mac Bourland, and former Clarendon resident, is now at Miami, Fla., taking a six-weeks course in the army air forces.

Mrs. Irene Foran is convalescing in a local hospital following a major operation.

SHAMROCK—Students in all grades will begin registering in Shamrock schools at 9 o'clock tomorrow morning. Supt. W. O. Morrow has announced.

CLARENDOON—Clarendon post of the American Legion has received a request for any bugles that are available. The 359th infantry at Camp Barkley is seeking to organize a drum and bugle corps and has been unable to obtain bugles.

WHITE DEER—Winfield C. Powers, local postmaster, has been named victory bond and stamp sales chairman of Carson county.

PLAINVIEW—Claude Witten, graduate of Texas Technological college, Lubbock, and a son of Mr. and Mrs. E. F. Witten, with nearly 20 miles north of Plainview, has been employed as agriculture teacher at Plainview high school. New director of physical education at Wayland college, Plainview, is M. C. Brandon, who for the past four years has been head of the Plainview high school agricultural department, and whom Witten succeeds.

WELLINGTON—J. L. Beard, superintendent of the Wellington schools, has resigned that place to head the Childress schools, and Logan Cummings, former county superintendent, has been elected to take his place in Wellington. Mr. Cummings has been superintendent of the Afton schools for the past year. Before that he was county superintendent six years.

MIAMI—August term of 31st district court will open its second and final week tomorrow, with District Judge W. R. Owen presiding. Last Monday the grand jury convened, returned no indictments, and completed its business in 45 minutes.

BUY VICTORY BONDS—It is thought that kissing originated from the desire of men to know whether their wives and daughters had tasted wine.

BUY VICTORY STAMPS—Dr. Erik Ljungner, Swedish geologist, says South America office was buried under an ice cap.

BUY VICTORY BONDS—The East African short-headed frog swells up like a balloon to frighten its enemies.

No Reflection on Their Work

Favorite gag of the Dietrich twins, Harold, right, and Herman, is this mirror trick. Former soft-drink bottling firm employes now are mechanics at Randolph Field, Tex.

Allotments Will Be Mailed September 1

WASHINGTON, Aug. 29 (AP)—Checks for approximately 20,000 relatives and dependants of enlisted men in the army covering first pay-

ment under the dependants allowance act will be mailed Sept. 1, the War Department said today. Another 10,000 checks will be mailed Sept. 5.

ed in by their family physician and dentist. These blanks are available in each doctor's office.

2. For new students entering Pampa Public schools in any grade: a. Evidence of successful immunization against smallpox. Accepted as evidence:

1. A plain scar where vaccinated, or,

2. A certificate from family physician stating your child has natural immunity for smallpox.

Enrollment in Senior High—There will be a general assembly of all sophomore students in the high school auditorium at 9 o'clock Tuesday morning, September 8. General instructions and assistance will be given to them before they proceed with enrolling. On Wednesday morning, beginning at 9 o'clock, the seniors will enroll and on Thursday morning the juniors will enroll. Regular classes will begin on Friday morning.

Enrollment in Junior High—A new system for enrolling will be used in Pampa Junior High school this year, Principal Winston Savage announces. All students who were enrolled in any of the Pampa schools last year will enroll Tuesday morning, September 8, beginning at 9 o'clock. Students who are to enroll in the ninth grade are asked to meet in the junior high auditorium where they will receive instructions and assistance. Students expecting to enroll in the eighth grade will enter the building at the main south entrance. They will receive home room assignments as they enter. Seventh grade students will enter and receive assignments at the main east entrance. Sixth grade students will enter the building and receive assignments at the main northeast entrance. All students enrolling on

Queen of Club

Shapely Jean Curtis is one good reason for popularity of Beverly Hills, Calif., Copa Club pool.

Tuesday morning will not remain in school Tuesday afternoon.

Students who are entering Pampa Junior high school this year and who were not enrolled in any Pampa school last year will enroll Tuesday, September 8, beginning at 9 o'clock in the afternoon. All of these new students will enter the

main south entrance of the Junior high school building where they will be met by ushers and escorted to the proper place for enrollment. All students enrolling in Junior high school are asked to bring report cards from last year, book cards showing clear textbook records, and evidence indicating that the student has been successfully vaccinated for smallpox. These three items are absolutely necessary before a student may begin enrolling.

Enrollment in The Elementary Schools

All elementary school children will enroll on Tuesday. All new elementary students that ride the bus will come by the superintendent's office in the Junior high building to be assigned to a school.

Regular classes for all schools, except the high school, will begin on Wednesday morning. School will begin at 9 and dismiss at 4 o'clock.

On Tuesday morning the buses will run at such time as to reach school by 9:00 and will leave at 12. On Wednesday the buses will run at the regular time, leaving school at 4:15.

Cops And Robbers Play Comedy Chase

SALISBURY, Md., Aug. 29 (AP)—It was like a regular Keystone comedy cops-and-robbers chase for awhile.

State police spotted a \$10 robbery suspect and chased him full tilt through a cannery factory in full operation before catching him in a nearby field.

The police urged their quarry into one door of the waiting police car, he proceeded straight through the other, and the chase was on again.

The officers were badly wounded when they finally caught up.

Come on, you men 17 to 50 LET'S BLOW THE RATS OUT OF THE OCEAN!

Do you know what these men are doing? They're getting ready to fire an "ash-can" from the Y gun of a destroyer to knock the daylights out of a Nazi submarine. Those submarines that are coming right up to our shores to sink American tankers and kill American men. Are you going to let them get away with it? Not when we have enough red-blooded men firing enough of these "ash-cans." Come on, give us a hand! Enlist today!

DO THEY THINK we're going to stand by while they menace our free government, torpedo our ships, kill our men, set our women and children adrift in lifeboats?

Not as long as there are Americans who are ready to stand up and fight for their rights and their freedom!

We've taken plenty. Now we're ready to start dishing it out. We're getting the ships. We're getting the guns. We're getting the "ash-cans"—those deadly depth charges that can blow a sub clean out of the ocean.

What we need now is men. We need YOU! How about it? It's your war. And you know you're going to be in it sooner or later. Why not choose the Navy—now—while you still have the chance?

What the Navy offers you

In the Navy you can do a real man-size job for your country—and for yourself. You'll go places, do things, meet people. You'll lead a rugged outdoor life that will build you up physically. You'll help make history!

With Navy training you'll have the chance to become an expert in radio, aviation, electricity—dozens of top trades that fit you to do a better fighting job now... fit you for a better civilian job after the war is won.

You'll get good pay, quick promotion. Your first pay increase comes after approximately 2 months, upon completion of recruit training. By the end of your first enlistment you can be making up to \$138 a month, plus allowances. And that pay is all yours because your food, quarters, uniforms, dental and medical care are free.

Most important of all, you'll be doing a job you can be proud of. A job your family, your friends, your country can be proud of—the biggest job ever offered any American.

GET FREE BOOK TODAY!

If you're 17 to 50 and in normal health, your job is waiting for you right now. Take it today. Go to the nearest Navy Recruiting Station and ask for your free copy of the 48-page illustrated book, "Men Make the Navy." It gives you all the facts you need to decide—how to enlist... what to do... what you get... requirements... everything you want to know. Call, write or phone today for "Men Make the Navy."

FLLEDGE OF ALLEGIANCE—"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

Eagle Eyes

Returning to London after touring American war plants, Sir Norman Birkett gave a glowing account of this nation's astounding production pace. At Willow Run, he said, "I saw endless miles of machinery turning out a Liberators every hour."

Inventory Control Needed

Let's be critical. Let's be hard-boiled. But let's be fair. Donald Nelson has made mistakes. He has not obtained from the national industrial machine its full potentialities. He would be the first to concede that. It is doubtful, however, whether any man could have accomplished more under the circumstances.

Faith and Words

Words are only worth what you put into them, the power with which you back them. If there is one danger more insidious than another, in this war that Americans are engaged in, it is, as Wendell Willkie says, mistaking a word for the thing itself—taking democracy for granted.

The Nation's Press

WHAT LABOR TROUBLE?

(Chicago Tribune)

At a recent press conference the President was asked about labor trouble. What labor trouble? The President inquired. Where? Yes, a few wild-cat strikes had come to his attention. But, Mr. Roosevelt said, labor trouble didn't amount to much. He cited the percentage of work stoppages to total war production. It was, he thought, trifling.

Mr. Roosevelt still was not paying much attention to labor disturbances yesterday. He was paying considerable attention to reconciling management, which apparently cannot be overlooked as easily as recalcitrant labor. Invoking for the seventh time his power to take over a private industry, he directed the war department to seize and operate the S. A. Woods Machine company plant in South Boston, Mass.

The management of this plant had refused to acquiesce to a War Labor board order directing it to include maintenance of union membership and compulsory arbitration clauses in its contract with a CIO union. The company insisted it was entitled to test the power of the WLB to issue such orders in the courts. Dean Wayne Morse, who is supposed to represent the public on the WLB, replied shortly, "This is no time for dilatory tactics or resorts to legalistic strategies."

In Louisville, Ky., 11 plants of the Reynolds Metals company, which manufactures aluminum airplane parts, were subject to another CIO strike because a worker was discharged. The union said he was discharged for "no good reason." The company said he was fired for improperly soliciting CIO memberships during working hours.

In Louisville, Ky., 11 plants of the Reynolds Metals company, which manufactures aluminum airplane parts, were subject to another CIO strike because a worker was discharged. The union said he was discharged for "no good reason." The company said he was fired for improperly soliciting CIO memberships during working hours.

So far the WLB has shown that it can be tough and makes its orders stick on employers. Not so long ago it threatened to seize Inland Steel's plants if the company did not submit to maintenance of membership and a dues checkoff, and Inland submitted. Last Friday the navy, on Mr. Roosevelt's orders, seized the General Cable corporation at Bayonne, N. J., not because the owner had in any way offended, but because the AFE

Common Ground

By R. O. HOYLES

TESTING CONVICTIONS

I am indebted to Dr. Walter C. Buckner, pastor of the Methodist church in the city in which this is written, for the suggestion of the thoughts set forth here with one way of testing whether or not a man's convictions are in harmony with truth.

Doctor Buckner, in differentiating between opinions, whims, prejudices and real convictions of truth, said one of the ways of testing whether a man's convictions were real convictions in harmony with truth and light or mere prejudices was whether or not he got angry when his convictions were challenged—whether he defended them according to prescribed rules of conduct, or whether he paid no attention to common courtesies and practices of investigating the truth.

And that seems to me to be a very good test of whether a man really understands the truth or whether he is using himself as a norm of truth to satisfy his own egotism. If he is using himself as a norm of truth, rather than consistent mathematical impersonal truth, then when his convictions contradict each other, he is in an embarrassing position. He loses his standing with his fellowman. If he is only interested in keeping his standing rather than seeking the truth, he will use any method to keep the light from shining on his absurdities, contradictions and incompatible statements. He will even contend that he is too busy—he will make a statement and then not permit his statement to be interrogated. He will, in short, hit and run. Yes, it is a mighty good test whether or not a man's convictions are in harmony with truth.

Test your convictions by permitting them to be tested in every possible way. If one seeking the truth loses an argument and is convinced of his contradictions, he has learned something. Instead of being angry, he should be under great obligation to the individual who points out his contradictions. As truth never contradicts itself and always has a logical answer. We cannot be too careful in differentiating between prejudices, wishful thinking and convictions that are in harmony with eternal, mathematical truth.

"Ye shall know the truth and the truth shall make ye free."

DON'T BLAME PRIVATE ENTERPRISE

What everyone should realize when he has to get a sugar ration card or a gas ration card, or when he cannot get tires that he needs, or when he has to work longer than he should to get the things that he needs, is that private enterprise is not to blame for this condition. We cannot blame private enterprise when the government by their laws has taken away the rights of private citizens to freely exchange their services.

This government has done by the laws that retarded the growth of the most efficient producer. These laws are such as the graduated income tax law that retarded the growth of the efficient, the Clayton amendment that permitted labor groups to combine and exploit their fellow workers, the Federal Reserve act that the government failed to police, the Norris-LaGuardia act, the Wagner law, the minimum wage law, the Social Security law and the tariff laws.

All these laws make it practically impossible for private enterprise to produce what we need. So after all this abnormal interference, do not blame private enterprise.

We would have had inflation eventually and/or rationing cards whether or not we had the war if these discriminatory laws and practices were continued. The war only hastened it. "Blame your troubles, of course, on the politicians. Remember also that we as individuals helped elect the politicians. The politicians would not have gained this power had we not believed in these utopian short-cuts that violated the natural laws of production and distribution.

But the politicians instead of helping straighten out the confusion have showed no courage and have invariably been willing to sacrifice the good of the citizen in order to keep themselves temporarily in power.

Yes, our trouble comes largely from the socialistic government, not in any way from these business men who really advocate and believe in a laissez-faire free enterprise system. Had we operated under a laissez-faire free enterprise system, we would be having at least twice the standard of living we now are having. All history is evidence of this.

union went out on a wildcat strike in protest against another WLB order denying a wage increase and double pay for vacations. The unionists, now back at work, are urging that the government return the plant to its private management. The WLB unquestionably has demonstrated, with the President's assistance, that it can make management pass under the yoke. Can it provide the same demonstration in dealing with recalcitrant labor, or is the answer still that of the President: What labor trouble?

WHO WILL PLAN THE PLANNERS?

(Topeka Daily Capital)

Packing houses are making new daily high records for meat animals slaughtered. The supply of cattle and hogs never has been so high, corn is making a bumper crop, yet there is something radically wrong with the planning for getting meat to the consumers in certain sections. Secretary Wickard even suggests that embargoes on shipments may have to be imposed to some marketing points—lest the packing houses become glutted with more animals than they are able to process properly.

Some years ago when the present crop of national planners went to work they promised a program that would provide food for all Americans. There never has been real shortages of production, the slaughter of little pigs and drouth stricken cattle came near depleting the breeding stock in the middle west. At present there is an abundance of all domestic foods, in pork, for instance, an increase of 25 per cent over last year.

There are ample grounds for the suspicion being voiced in some quarters that the so-called national planners are concerned mainly with regimentation of the producers, and not sufficiently alert to the interests of the consumers. Perhaps the New York Sun hits the keynote of the whole situation with the question, "Who will plan the planners?"

BY VICTORY STAMPS
PASTE THIS IN YOUR HAT
(New York Times)

If inflation comes it will not be the corporations that will be reduced to misery and privation. It will be the workers whose high wages will buy less and less the higher and higher they go.

MILESTONES

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, Aug. 29.—Behind the screen: One prominent movie-maker who has been impressively commissioned by the army got into his uniform the other day and motored to a local airport to meet a group of high-ranking officers. A couple of studio underlings stood by to watch their big boss render a snappy salute to his military superiors.

It didn't happen that way, though. When the visitors arrived the movie executive merely beamed at them and chirped, "Hi, fellas!"

The studios have been squabbling for film titles containing the term "Commandos," and all the producers were caught flat-footed when news of the Allied raid at Dieppe told of the participation of "Rangers" from America. Some of the Commando pictures now in preparation will be retitled, and scripts are being revised.

NASTY NAME
Martin Greene has a name for people who wear ties: "Saboteur-ties." . . . A friend telephoned Marie Wilson at 2 a. m. and apologized for disturbing her. She said, "Oh, that's all right. I had to get out of bed to answer the phone, anyway." . . . An actor at RKO is named Adonis DeMilo.

After eight scripts had been written on Kipling's "Kim," Metro decided to shelve it because of the sour situation in India. Mickey Rooney, who had been slated to star in it, goes into "The Human Comedy," which William Saroyan has described as the greatest story ever written for the screen. Saroyan is, of course, the author.

Love vs. business: After Alan Ladd married his agent, Sue Carol, she sold his contract to another talent peddler, Lynn Bari and her agent, Walter Kane, have separated after three years of marriage. But he'll continue to manage her career and will collect 10 per cent of her salary. . . . Phil Terry was tested by Paramount for a romantic leading role several weeks ago but was turned down because executives decided he simply wasn't the romantic type. Next day he married Joan Crawford.

SOME HAM!
The biggest ham in Hollywood has been hired to play a scene with Paulette Goddard in "The Crystal Ball." He's Truebyte, and 800-pound hog. . . . Campaigners in the war bond drive are persuading 500 movie workers to hike their weekly investment from 10 to 20 per cent of their salaries. . . . Motion pictures are making huge profits in the face of heavily boosted taxes. Paramount netted \$5,823,000 in six months, with nearly as much more going for taxes.

New chapter in the success story of George Montgomery—the salary of the young man from Montana jumped, under a new contract, from \$350 to \$1,250 a week. . . . Red Skelton was revived from that "nervous breakdown" by a revision in his contract with Metro. . . . Director Rouben Mamoulian, an old flame of Greta Garbo, now is advising her on stories and studio offers. The wan Swede is slyer than ever since the disastrous flop of her dual-role comedy.

BY VICTORY STAMPS
So They Say

British planes may be superior for British purposes, but American planes are unexcelled for American purposes, such as long range, accurate flying and high-level, precision, daylight bombing.

—GLENN L. MARTIN, U. S. plane builder.

News Behind The News

The National Whirligig

By ALBERT N. LEMAN

COBWEBS: Nation-wide primaries generally have been greeted by yawns from an uninterested electorate. New Yorkers, however, anticipated the Dewey-Bennett gubernatorial contest will cause more than one "hot time in the old town" before the polls close in November. P. D. R. may not interfere in local affairs again by such a skillful manager as James A. Farley is bound to crash into the headlines with his candidate. The return of Willkie from his Russian pilgrimage is likely to inject last minute excitement. And Thomas E. Dewey is not the kind one can hide under a bushel.

Even the Democrats admit that the former prosecutor is an ace campaigner. Such talent can be of special value in troubled times when the inarticulate citizen likes to hear his own gripes expressed in blistering wisecracks. Rock-ribbed partisans are not swept off their feet by phrases, but independents, who cast the deciding ballots, are attracted by grade A spellbinding.

Almost before the cheers of the Saratoga Springs convention died away, Dewey dazzled politicians in both parties by a few adroit passes. He removed himself from the 1944 presidential race. He supported Mr. Roosevelt "in all measures to win the war" with the scarcely noticed proviso that "helpful criticism" might be forthcoming. He has been type-cast as a gang-buster. Instead of discarding his old role he capitalized it by promising to "house-clean the cobwebs" at Albany. A similar issue raised him to the district attorney's office. Insiders are watching to see whether it still is a live shell or only a dud.

CHILLY: Hidden in a locked pigeonhole of Rommel's field desk is an important document called "Alexander Plan," so named for the great Grecian conqueror who led his victorious armies into the Middle East and Egypt. It outlines in modern terminology the same assault on the British in the cobwebbed seals any day and start his drive past the Qattara Depression into the fertile plains of Cleopatra's homeland.

United States soldiers, Tommies and colonials have many nightmares to disturb their sleep. They learn that the Axis hosts are constantly reinforced by air-borne troops from Italy and Greece carried by huge Junker 52 transport planes. Terrific heat might have hampered the Germans but unfortunately for the Allies this is a freak summer. Noons are no hotter than those of New York in August and nights are chilly enough to require two blankets.

The defense positions forced upon General Alexander's infantry are located in a waste that tries men's nerves to the limit of endurance. The most vicious flies in the world are found in this particular spot. Swarms of mosquitoes make life unbearable. The worst feature about the pests is that they are disease carrying. Camps can utilize netting and squirt guns but no such comforts are available to unprotected sentinels.

DRAGONS: On the Pacific the U-boat campaign is going better for us than on the Atlantic. Against Japan OUR undersea craft are the aggressors, with enemy naval vessels and merchantmen the prey. It is estimated that a third of Nippon's tonnage has already gone to the bottom. This is a particularly valuable achievement because the island empire, unlike Germany, is dependent on ocean-borne traffic for communications.

While the only active Nazi force requiring transportation by sea is in North Africa, across the short course only overnight from Sicily to Tripoli, every Japanese military expedition is fighting on that territory that necessitates conveyance by water. The nearest is in China, more than a full day's run by fast steamer from the nearest Japanese embarkation point, and the farthest is the Solomon Islands, a week's journey at a minimum. The closest approach to American bases is the Aleutian islands, where Japanese are slowly but steadily going down.

With their shipping heavily taxed in holding a zigzag line eight thousand miles long, and with their construction capacity estimated at only one-tenth of ours, the Japanese are in a difficult situation. But there is the disadvantage for us of having no near-by land from which to operate, except on the outposts of the system of defense, the Aleutians and the Solomons. Only our long range subs can be sent to lurk among the thousands of islands nearer Japan. But continually closer to the coast of China are coming the American "Dragons of the Sky," to threaten Japanese supply routes.

RAIDS: The government's policy of keeping the war away from our shores has taken the army and navy across the seven seas to all the other five continents. Britain's "far-flung" empire has been exceeded and now it is also the American flag upon which "the sun never sets."

In order that the enemy may not know the numbers of none of our contingents abroad are made public but we are told that the largest group is in the British Isles, being trained there for the second front, and the next largest is in Australia helping to prevent a Japanese invasion. Elsewhere, from the Arctic almost to the Antarctic, or men are stationed, and around the world.

In South America they are in Brazil and Dutch Guiana; in Africa, in Eritrea and Egypt; in Asia, in Iran, Iraq, Syria, India and China; in the South Seas, on New Zealand and New Caledonia; and in Europe have participated in raids into France and landed convoys at Murmansk. They have already entered forty or more positions.

The vanguard as a rule is the air force—as notably at Cairo and Chungking. When forced landings are made, as in the Solomons, the first assault is generally by the U. S. marines—who are extensively instructed and equipped for such disembarkations. These two units are harassing the enemy and breaking the way for the formidable armies that are being transported steadily and successfully across both oceans for the big smash yet to come.

Mother—Well, yes, in a way. His father is not so cute but much more of a rascal.

Manpower, Heat Gas, Lumber Health Situation

By PETER EDSON

Office of the Petroleum Coordinator for War, titularly headed by Secretary of the Interior Harold I. Ickes, has another plan cooking to change normal refinery practice in the eastern states. The government needs to increase the production of fuel oil while reducing the production of gasoline and so, possibly, make unnecessary the rationing of fuel oil in this area during the coming winter.

Refineries normally operate to get as high a yield of gasoline as they possibly can, simply because the demand for gasoline is greater and the price is higher.

Average for the eastern states last year was a production of 38 per cent gasoline and 23 per cent fuel oil from the crude run through their stills.

What the OPEC experts now propose is to make approximately 20 per cent change in those figures, so that refineries would get from their crude 30 per cent gasoline and 31 per cent fuel oil. If all the refineries in the eastern seaboard states should make this change, however, they would lose about \$30 million dollars in the gross sales value of their products.

What the petroleum industry would like is either a shift in ceiling prices paid by consumers, reducing the price of gasoline to make it less profitable, and less gasoline to be sold at 16 cents a gallon (without taxes) and still make the same amount of money.

If this idea can be sold to the Office of Price Administration, watch for an alternative proposal that the government subsidize the refineries so they could still refine more fuel oil to sell for around 7 cents a gallon and less gasoline to be sold at 16 cents a gallon.

MANPOWER
Detroit will probably get the second of the War Manpower Commission's war production joint labor-management committees to handle labor supply problems. First of these local committees was set up in Baltimore Aug. 1, as a trial balloon.

Experience gained in Baltimore will be passed along to the Detroit office, which should get going before Sept. 1. After that, watch for a number of other WMC area offices to be organized, all charged with the responsibility and almost impossible job of trying to solve manpower supply and demand problems by voluntary agreements among employers and labor unions.

TIRES
Next campaign idea being worked on is the proposal that all-car owners sell to the government all their automobiles after five years. Average carrying on the one spare would not be touched, but all the fancy jobs carrying two spares would have to surrender one, plus all spare or worn casings held in the garage for emergency.

HEALTH
A number of states have petitioned the Civilian Conservation Corps, now being liquidated, for transfer of one or more camps to use as hospitals for women with venereal disease. This idea has received little publicity except in localities where such segregation centers have been established. But so successful have the first camps been that other states want to follow the pattern.

LUMBER—
Possible shortage of plywood has been the enemy in the past, so hard that campaigns are now being planned—including movie shorts and posters to tack on trees—in an effort to persuade lumbermen to stay on the jobs in the logging camps and sawmills, instead of quitting to take jobs in shipyards.

The problem is particularly acute in the northwest, which produces 45 per cent of the nation's lumber in big, spectacular operations. Patriotic lumbermen have felt they would be doing their country more good in the shipyards and unpatriotic ones feel that they stand a better chance of dodging the draft if they work on ships.

Local selective service boards have added somewhat to this confusion by refusing to grant occupational deferment to lumberjacks. Educating the lumbermen and the draft boards is the job which army and War Production board face now. Fact they wish to emphasize is that, without lumber, there won't be any ships.

WAVES
Navy insists there is the significance to be attached to the fact that one of the companies being considered for a contract to make uniforms for the lady-sailor WAVES is a leading manufacturer of bathing suits.

MOVIE
Office of War Information has taken over and is still plugging the character of Junius B. Chucklehead, conceived back in the Office of Emergency Management public relation days as the unpatriotic embodiment of American who won't save rubber, won't collect scrap, does spread false rumors. Latest effort is to get W. C. Fields to play the character in a series of movie shorts.

SIDE GLANCES

By GALBRAITH

"You men can't seem to keep your eyes off women in uniform, but what I'd like to know is why so many of them laugh."

British Air Raid On Nuernburg Physical Blow At Heart Of Nazidom

By ERNEST G. FISCHER Associated Press Staff
(Editor's Note: The writer, a member of the Texas staff of the Associated Press, returned this summer after two years in Germany.)
The British air raid on Nuernburg Saturday was a blow at the heart of Nazidom.
That is true, physically, if not spiritually. The ancient city was the scene of the annual Nazi rallies, which were suspended at the outbreak of the war.

STALINGRAD

(Continued from page 1)

American flying fortresses intensified their attacks. The fortresses raided a German air field in Belgium at Wevelghem and returned from their seventh assault without loss. The RAF by day attacked Ostend and Lille and the night before had assaulted Nuernberg and Saarbruecken with hundreds of bombers, setting great fires in war factories.

Flying from bases captured from Japanese in the Solomon islands, U. S. patrol and dive bombers sank one and probably two destroyers, and set another afire. It raised the Japanese casualties in the continuing action to 15 ships sunk or damaged including a battleship, two carriers, four cruisers and three destroyers.

The navy department's announcement summarized the results of landing operations in the Solomons and said the position of the American units was well enough established to give details.

The marines were in firm control of the islands of Guadalcanal, which has airfield facilities; Tulagi, which is a magnificent harbor; and the adjacent islands of Gavutu, Tananogoe, Makambo and Florida.

The Chinese made startling new successes against Hitler's Oriental partner, capturing Chuihsien and Lushui in Chekiang province, with their air bases close enough for bombing Japan. They also had the Japanese running in Kwangtung province within 40 miles of Canton.

The Japanese coyly announced "a readjustment of their battlefield to secure a more militarily advantageous position" in an attempt to save face. In view of Chinese admissions, however, that their own military prowess was not altogether to be credited with their advances it worked out new plans.

At the southeastern tip of New Guinea another group of Japanese invaders was fought by the Australians and a small number of U. S. ground troops on the swampy ground on the north side of Milne Bay. The result was inconclusive.

Only the Egyptian battlefront—expected momentarily to erupt in violent fighting—was quiet. In the Mediterranean, however, British submarines sank a large tanker and torpedoed a supply vessel. The field of decision, however, was

AIR VIEW OF DIEPPE RAID - Remarkable photo taken from RAF plane during the fierce engagement at Dieppe, August 19, shows a big fire burning near the beach.

Major Decorated For Not 'Having Sense Enough'

SPOKANE, Wash., Aug. 29 (AP)—Major Fred T. Crimmins, Jr., of Ft. Worth, Texas, who was bombed at Clark Field, in Java, on Bataan and on a wallowing inter-island steamer off Mindanao, observed today he got the Distinguished Service cross "for not having sense enough to stay where I was safe."

Major Crimmins, now a squadron commander at Geiger Field, explained in an interview that he and other veterans of the Pacific war had returned to instruct the new army because:

"I was as green as any of these kids when I was over there. I learned the hard way. There is no reason why they should."

The major won his citation for his cool work under fire at Clark Field on America's first day of war. In the face of enemy fire, said the citation, he went into a hangar and wheeled his bomber onto the field. He was unable to get it into the air, but remained with the ship until it was fired by incendiary bullets. He was wounded several times by

machine gun bullets and shrapnel. After a short time on Bataan he went to Mindanao to train an infantry company and was bombed en route. The Japanese dropped six bombs at the steamer, he said, adding: "They didn't hit it, but they scared us to death."

Transferred to Java in January, he took part in the battle of Macassar Straits. He was evacuated from Java in its final days to Broome, Australia, and even there was bombed and strafed.

"I saw American soldiers and officers in combat and they're not lacking in anything," the major said. "When they meet the enemy on anywhere near equal grounds they're better than we are."

WASHINGTON AND TOBACCO Like many women of her time, George Washington's mother puffed on a pipe, according to many writers. Her son abhorred the "weed" even though he was a tobacco planter, and made a wry face when customer compelled him to take a weak pipe-of-peace with the Indians.

DANCE CURE The tarantella dance was originated in Italy as a cure for persons who had been bitten by tarantulas. The victim was supposed to rid himself of the poison by dancing until exhausted.

SCRAP IRON

(Continued from Page 1)

car was driven up to the pile and Pampans unloaded articles they wished to donate. This was in addition to the great loads brought in by trucks. Jack Stephens of Groom, who brought in the astounding total of 18 tons of scrap metal in the campaign this spring, wasn't satisfied to call it quits with that, and even though the amount wasn't as great this time, he added 750 pounds, or nearly half a ton, to the current drive.

There was no close tally kept of those who donated metal to the pile yesterday, but a partial list shows that 35 persons had made donations up to late Saturday afternoon.

Two Give 6,000 Pounds From a record kept at the chamber of commerce office, Fred Randall is shown as the donor of the greatest amount, 3,000 pounds, but he was tied by J. W. Crisler, who also gave 3,000 pounds.

Amounts of scrap metal ranging from 50 to 790 pounds were turned in by: Mr. and Mrs. Fritz Waechter and Jimmie Jordan, William Jackson, W. H. Peters, Marian Parks, J. C. Farrington, J. A. Banks, Mrs. Jewel Barclay, Mrs. Ada Arnold, C. O. West, Clinton Henry, Floyd Mitchell, E. G. Frasher, F. A. Huddell, White Deer Land company, L. B. Cole, Lee Harrah, Dr. W. Purviance, Motor Supply company, J. H. Jones, W. H. McKel, W. C. Haven, Mrs. Mary Fleming, Clyde Fatheree, M. F. Roche, U. U. Hiel, R. H. Munday, W. R. Frazee.

Many persons simply drove up to the salvage pile and turned in what material they had transported in their cars, without asking for any receipt, so the list above is naturally incomplete.

More Junk Sought Articles in the salvage pile included: Beds and bedsprings, motors, windmills, tanks, radiators, display racks, pipe, smoking stand, electric light fixtures, tubing, ploats, cream cans, wagons, machine gun, steel rope, medals, kitchen stools, baby cars, armatures, drill, stoves, copper wire. Garnet Reeves, executive director of the Pampa Civilian Defense

council, said an effort would be made to move the junk tomorrow, and that persons who had later junk to contribute should contact the chamber of commerce.

Led by E. B. Tracey and Fred Pender, commanders respectively of the American Legion and Veterans of Foreign Wars, a crew of workers was kept busy all day long yesterday gathering in the scrap metal. The workers included M. F. and Joe Roche, Dan E. Williams, J. R. Martin, E. G. Lawrence, Jack Wilson, Glenn T. Hackney, Wayne Maddox, Irvin Cole, L. R. Franks, O. K. Gaylor.

Brass, copper, and bronze articles were sought by the two veterans organizations for the service men's entertainment fund. All of the money derived from the sale of these metals, as well as from the scrap iron and steel donated, will go into that fund.

Houston And Waco Teams In Finals Of Softball Meet WACO, Aug. 29 (AP)—The Cameron Idealers of Waco and the Wyatt Metal and Boiler Works of Houston advanced to the finals of the Texas Amateur Athletic federation's softball tournament today.

The Waco team defeated American Liberty Pipeline of Dallas 3-1 in the morning and Shurtiff Optical of Fort Worth 9-4 in the afternoon. Fort Worth had defeated C. & E. Sporting Goods of Austin 5-2 for a semi-final berth.

In the top bracket Dow Chemical of Freeport eliminated J. W. Franco of Corpus Christi 3-2 to get in the semi-finals while Wyatt whipped Swift of San Antonio 7-2. Wyatt then stopped Swift 4-2.

BUY VICTORY BONDS Deacon Shem Drowne of Boston was the first professional artist in America of whom there is record.

in Russia where the Germans were spending thousands of men and hundreds of tanks, planes and guns every day in determined assaults to crush the Russian army and gain their objectives before the cruel Russian winter descends. Everywhere the Russian armies were intact, hitting back hard and showing new strength. North and south of Stalingrad the Russians were striking at exposed German flanks, and the enemy hurriedly brought up two new divisions to fill the appalling gaps.

Some German units were encircled west of the city and to the southwest in the Koteinkovski sector. The Russians said they had forced the enemy on the defensive. A gasoline shortage was said to have stalled 300 German tanks on the Don front, and Soviet planes took a toll of the dry machines.

Embattled Cossacks south of Krastnodar were reported holding the Germans away from Novorossisk and Tagpass on the Black sea and inflicting severe losses in the Caucasus mountains. There was no further report of German gains toward the Grozny oil fields where armored trains had entered the battle, destroying tanks and Rumania for heavy clothes for troops.

The resilient Chinese, pressing their amazing counter offensive in their sixth year of war with Japan, claimed 40,000 casualties had been inflicted in their three and a half months campaign in the Kalgung and Kiangsi provinces in East China. More than 200 miles of the Chekiang-Kiangsi railway which the Japanese loudly proclaimed as part of a Shanghai-to-Singapore route now has been wrested from the little men of the islands.

Chinese bombers raided Tonkin in puppetized French Indo-China. Vichy dispatches reported. The huge fires set by the RAF at Nuernberg must have given pause to Adolf Hitler. There, his Nazi party had held its great pageants. More important it housed many vast war industries. The British lost 30 bombers—a heavy price, but they said immense damage was done. The whole pattern of the RAF raids by night and the U. S. bombings by day made it clear to the Allies that they had at Hitler's Achilles his rail-ways and communications.

Overburdened and inadequately equipped even in peace time, the strain of the war on the rails had been terrific. Now the disrupting intervention of the RAF and USAAP has added another heavy burden to German war transport. Disrupting the transportation arteries is a real and present help to Russia, because it slows the flow of supplies to the eastern front where communication lines are long and tenuous. It paves the way for the opening of a second front, because only by rail can Hitler transfer enough troops and materiel from the east to the west to meet British and American invaders when they swarm over the beaches of Dieppe or some other continental town.

Crutchfield Rites To Be Held Monday Funeral services for Frank Hartwell Crutchfield, 37, will be conducted at 11 o'clock tomorrow morning in the chapel of the Duenkel-Carmichael Funeral home with the Rev. I. E. Walker, pastor of First Methodist church, Seagraves, officiating. Burial will be in Fairview cemetery.

Survivors are two daughters, Dorothea and Betty Lou Crutchfield, both of Las Vegas, N. M.; his parents, Mr. and Mrs. J. J. Crutchfield, Pampa, three sisters, Mrs. John Stueder, and Miss Georgia Crutchfield, both of Pampa, and Mrs. Dennis Barnard, Hereford; and one brother, J. Roy Crutchfield, Hereford.

Pallbearers will be Biggs Horn, D. B. Burns, Clayton Powers and Whitley Moore of Hereford, and Deer, John Pitts and John Hankins, both of Pampa.

Mr. Crutchfield was born at Plimmors but lived most of his life in the White Deer community. Crutchfield, according to Record Clerk E. Moore of Hereford, died in central prison farm hospital at Sugarland Friday night as a result of injuries suffered that afternoon when he was struck by a hammer by a fellow convict.

OKLAHOMAN NAMED ASSISTANT HARVESTER FOOTBALL COACH

George Scott Half Indian From Salisaw

The Pampa Harvester football team has an assistant coach. He is George Scott of Stigler, Okla., who will handle the backfield for Head Coach Buck Prejean. Scott will be here for opening practice Tuesday morning at 9 o'clock.

The new coach, who is half Choctaw Indian, coached at Salisaw, Okla., last season. He had a contract to coach at Hugo this fall but was given his release to come to Pampa. Scott was an outstanding football and track star at Stigler, Okla. He received football and track scholarships to attend Michigan university but his playing career was cut short in his sophomore year when he suffered a knee injury. Operations failed to cure the injury. Scott later attended Louisiana university at Baton Rouge. He is working on his masters degree at Oklahoma A. & M. college at Stillwater during the summer months.

After suffering his football injury, Scott decided to become a trainer and he was trainer at Tulsa university and at Oklahoma A. & M. college.

The harvesters will work out twice daily until school classes begin September 11.

Captain Prejean has issued a call for every boy eligible for football to be at the high school gymnasium promptly at 9 o'clock Tuesday morning.

—BUY VICTORY BONDS—

New Scale Of Green Fees Set

New scale of green fees at the Pampa Country club were set at a meeting Friday afternoon. Green fees on Saturdays, Sundays and holidays will be 75 cents. Green fees on week days will be 50 cents.

Play on the new grass greens will begin today and a new record number of players is expected. Ten new grass greens have been installed at the club. They are not in the best of condition but it takes time to have perfect grass greens.

Besides the 10 grass greens, a practice putting green has been installed and a practice area is being designated. Golfers who pay green fees will be allowed to use the practice area free of charge but golfers who do not pay the green fees will be charged 25 cents for each practice session.

Tea markers have been placed on all tee boxes and golfers are asked to stand behind the markers, which will be moved from time to time so that the grass will not be worn off the tee boxes in spots.

Formal opening of the grass greens will not be until later in the month, Frank Baker, new pro, said yesterday. He is planning a gala opening.

Joe Hauser has been around since 1918, but still takes cut for Sheboygan Indians.

Joe Hauser Still Hitting Home Runs Although 42

By DWIGHT PELKIN
 NEA Special Correspondent
 SHEBOYGAN, Wis., Aug. 28.—Joe Hauser is still hitting home runs at 42.

User Choe Hauser manufactured more home runs in one season than any man in the long history of baseball, including George Herman Ruth. He belted 63 in the International league in 1930 and 69 in the American Association in '33.

Nine years have elapsed since Hauser powered his 69 circuit clouts for Minneapolis, but he continues to play first base, scooping low throws and raking in wild heaves that go with Class D baseball and cloaking an occasional fence-rider.

Hauser carries the trimness of the finest of the 18 and 20-year-old youngsters he guides as manager of the Sheboygan club. His knees are patched and scarred from operations that doomed his major league career and finally ended his brilliant run in Double A. His hair is just a little thin on top, but he has the bulk, strength and stamina of a well-conditioned recruit.

Hauser was a rookie way back in '18, when another war stalked sports. BOTH KNEES SNAP UNDER JOE HAUSER.

Although it shall never know the Hall of Fame at Cooperstown, his name undoubtedly will survive those of many big leaguers. He'll always have a sort of special niche in baseball.

Had it not been for a tristic knee

injury, the name of Joe Hauser might now be of the same stature as that of Babe Ruth. A split right kneecap stopped Hauser in '25 as he was about to start his fourth season with the Philadelphia Athletics. Surgeons strung together the broken bones with silver wire. Young Hauser was out for the campaign, after his 27 home runs the year before were second only to Bambino Ruth's 42.

Hauser tried again in '26, but the leg lacked the strength to brace him at the plate. The season was a dismal one. It was to the minors then for Joe Hauser.

Something snapped in Hauser's leg while he was with Minneapolis in May of '34. They patched him up again, but before July was ripped from the calendar he was in the hospital with a broken left knee and fractured wrist.

SLUGGER HAUSER IS SUCCESS AS MANAGER
 Yet he is still going strong as one of the biggest drawing cards in Class D ball and his heavy bat and voluble tongue do not detract from his back's office magnetism. He looks ferocious to fans when he turns on an umpire, but to friends and folks who know him he's just a colorful old warhorse who loves the game and wouldn't know what to do without it.

With his attractive wife, who rarely misses a home game with her scorecard, Hauser makes his home in Sheboygan, where he has a sporting goods store.

Last year Hauser piloted his Indians to the Wisconsin State league play-off championship when Green Bay, home of the mighty professional football Packers, forfeited the series after winning the season title. The year Hauser's team is once more waging a one-two battle with Green Bay. Hauser was selected as manager of the league All-Stars in July, and they wallopped the leading Bluejays, 11-3.

Hauser belted 11 home runs in 1941, made almost half of his 67 hits good for extra bases, hit 288 in 77 engagements. He has nine home runs in 50 skimmishes this trip, is batting in the 300s.

User Choe Hauser would be a suitable testimonial for Toast Crunches or Wheat Pops. —BUY VICTORY BONDS—

Bob Clark To Coach Irish At Shamrock

Bob Clark, equally well known as a football coach and a magician, will return to his old love—football coaching—this fall. After an absence of one year from the game, Clark will become coach of the Shamrock Irishmen of District 3A Tuesday.

Coach Clark will need no introduction to the district. He started his career as a coach at Wheeler High school in 1934, where in 1936 he was the conference champion. From Wheeler he went to Erick, Okla., where he stayed for one year. Then he moved to Sayre, Okla., where he spent three years, winning conference championships in 1939 and 1940. That record shows three conference championships in seven years, which is a good record in any game.

For the past year Coach Clark has been connected with the United Carbon company at Sayre, Okla. In addition to his ability as a football coach, Clark is also an outstanding boxing coach and Shamrock is scheduled to stage a comeback in high school boxing circles. He has also coached track and field and basketball.

Coach Clark succeeds Thurman Lee Jones who resigned as Shamrock coach to accept a position at White Deer. Later he resigned that position to play football with the Brooklyn Dodgers this fall.

Shamrock's schedule will open on September 11, with a non-conference tilt with Wichita Dyer on Denvery field. The first conference game will be with Lakeview on the local gridiron on September 18. The Irish will invade the Lefors field on October 2, October 9 and 16 are open.

October 22 will see the Irish and Clarendon Bronchos clash at Clarendon, October 30, the Irish will be in Memphis, on November 6, the Wheeler Mustangs will be here for their annual clash with the Irish. Wichita Dyer will host the Irish on November 13, and on November 20, the McLean Tigers will play the Irish a visit. —BUY VICTORY BONDS—

In The American

INDIANS SCALP YANKEES
 NEW YORK, Aug. 29 (AP)—Roy (Storvo) Weatherly, batted yesterday for weak hitting, returned to the Cleveland lineup today and staged a one-man batting show while leading the Indians to a 5-1 victory over the New York Yankees in the final appearance of the Tribe here this season.

Weatherly, who had been in the lineup since last season, had four hits, including the fourth-inning run, and provided the Indians with their margin of victory.

The defeat sealed the Yankees' lead in the American league pennant race to seven for Chicago's Boston Red Sox, who defeated Chicago.

The Indians did all their damage against a six-man pitching staff.

WAGNER WINS 12TH
 BOSTON, Aug. 29 (AP)—Charley Wagner won his 12th game of the season today as the Boston Red Sox took advantage of a two-man pitching staff by defeating the Detroit Tigers 4-1 here this afternoon. Wagner, double play; Kolloway to Appling to Kolloway; Pecky to Doerr to Wagner. Double plays: Croucher to Stolen; Croucher to Sullivan; Croucher to Pecky; Croucher to Sullivan; Croucher to Pecky.

NEWSOM BEATS BRIDGES
 WASHINGTON, Aug. 29 (AP)—Washington evened a two-game series by defeating the Detroit Tigers 4-1 here this afternoon. Newsom was the winning pitcher while Tommy Bridges led Detroit.

CHAMBERS LOSER
 TULSA, Okla., Aug. 29 (AP)—Tulsa's Cliff Chambers pitched a four-hit game in the first of two games with the Houston pitcher won, 1 to 0, thanks to Eddie Kaskas' first inning double that scored Nick Verban.

Mitchell Disciple
 HEADS FLYING AREA
 FORT WORTH, Aug. 29 (AP)—A fighting colonel, trained in Texas and tutored in the night of air power by no less than the late Gen. Billy Mitchell, is the new commanding officer of the second air service area command, it was announced at headquarters here today.

He is Col. James A. Mollison, commander of a young veteran who will know about flying almost from the beginning.

He succeeds Col. George W. Polk, Jr., who goes to the west coast as commanding officer of a large air depot and supply base.

Colonel Mollison came to Fort Worth from Hickam Field and Pearl Harbor, where he served two and a half years and was in on the events which took place on the morning of Dec. 7. He was chief of staff to the late Maj. Gen. C. L. Tinkler, who lost his life in the battle of Midway.

Whirlaway Wins Again
 CAMDEN, N. J., Aug. 29 (AP)—Whirlaway, wonder horse of the turf, increased his earnings to approximately \$468,000 today by winning the \$100,000 Trenton handicap at Garden State Park before a crowd of 18,000.

Passing Game In Prospect At Wichita

WICHITA FALLS, Aug. 29 (AP)—True to Southwest tradition, a wide open passing game is in prospect for the high school all-star Oil Bowl game here Tuesday night.

Leo (Dutch) Meyer of Texas Christian and Frank Kimbrough of Baylor—coaches of the north and west Texas teams respectively—have drilled their stars extensively on the overhead attack and promise to shoot the works.

Assisting Meyer is Ted Jefferies, coach of the 1941 state high school champion Wichita Falls Coyotes, and helping Kimbrough is Eck Curtis, successful mentor of the Breckenridge Buckaroos, perennial power of the tough Oil Belt.

Spearhead of Meyer's north attack are Burl Troy, clever tesser from Paris, and Troy Stewart, all-state receiver from Wichita Falls. Kimbrough has three good passers—Marion Flanagan, of Sweetwater, Roy Smith of Mart and Pete Stout of Throckmorton.

Tentative lineups for the game follow:
 North: Ends, Willford Mason, Planview; and Buck Ridley, Erick; center—Jack Vaughan, Mineral Wells, and ROLAND PHILLIPS, Pampa; Guards—Franklin Butler, Lubbock, and Gus Gallagher, Breckenridge; Center—Rohdy Naylor, Lubbock; left halfback—Mike Mason, Planview; right half—Milner Thorne, Lubbock; fullback—Pete Stout, Throckmorton, and tailback, Marion Flanagan, Sweetwater.

West: Ends—Raymond Smith, Olney, and Troy Stewart, Wichita Falls; tackles—J. E. Goodson, Electric, and J. R. Wilde, Graham; guards—Floyd Lewis, Masonic, and Joe Meissner, Wichita Falls; center—Pete Pruitt, Corsica; quarterback, Burl Batey, Paris; fullback, Gordy Brown, Masonic; halfback, Louis Burris, Masonic Home; right half, Stanley Williamson, Wichita Falls. —BUY VICTORY BONDS—

Plans Being Made For Texas Golden Gloves Tourney
 FORT WORTH, Aug. 29 (AP)—Plans are being made for the seventh annual Texas Golden Gloves amateur boxing tournament.

Barring unexpected developments, the tournament will be held in Fort Worth between Feb. 10 and 15, 1943. District tournaments throughout the state may be held any time prior to Feb. 4, at the discretion of the individual district directors.

The decision to carry on with the popular mid-winter event was made only after sponsors from all parts of the state expressed the opinion that boxing and the training work being done is now more than ever before one of the foremost physical requirements for young men. Most of the district directors want the tournament continued; believe it can be made successful in spite of handicaps.

In the matter of civilian competition the number of entries will be smaller and the contestants will be younger and less experienced. But the armed forces based in the state will probably contribute considerable talent.

High schools and colleges will be encouraged to take a more active role.

If it develops there is a necessity for it, two divisions may be created for contestants in the state tournament—one for service men and one for civilians.

The Star-Telegram will continue to sponsor the state event and districts will be under the management of either newspapers, civic organizations, schools, or military posts, all of which will operate on a non-profit basis. —BUY VICTORY BONDS—

Class B Bowlers Meet And Organize
 Class B bowlers and sponsors will meet at 8 o'clock tomorrow night in the city courtroom in the basement of the city hall to organize a class B league and to elect officers.

The meeting is being called by Bill Loving, president of the Pampa City Bowling Association which will sponsor all leagues that will roll off the Pampa Bowl, re-opened yesterday with eight alleys.

The Class A league, with six teams, was organized Wednesday of last week. It is hoped that an eight team Class B league can be organized. Only expenses for sponsors will be the purchase of shirts for players on which the sponsor may have his firm name placed. —BUY VICTORY BONDS—

Whirlaway Wins Again
 CAMDEN, N. J., Aug. 29 (AP)—Whirlaway, wonder horse of the turf, increased his earnings to approximately \$468,000 today by winning the \$100,000 Trenton handicap at Garden State Park before a crowd of 18,000.

Pythians And Jewelers To Clash In Final Round

The Knights of Pythias and the Jewelers will meet in the final round of the Pampa Softball league Shaughnessy playoff, the first game to be played at 3 o'clock this afternoon at Magnolia diamond. The Jewelers won the right to meet the Pythians by defeating Phillips 14 to 9 in the deciding game of their series Friday night. The Knights defeated the Mack and Paul Barbers earlier in the week.

Sharp went the distance for the Jewelers despite the fact he gave a pint of blood for a transfusion Friday morning. Manager Frank Leader of the Jewelers knew nothing about the transfusion until late in the game. He tried to make Sharp leave the game but he refused and finished on the hill although wobbling.

Arrington and Laycock worked for the oilmen, Laycock relieving in the fourth inning.

The Jewelers jumped into a commanding lead but saw it nearly disappear in the fourth when the oilmen scored six runs. After that Sharp had things his own way. The Jewelers scored three in the first inning, two in the second, and added five in the third. Most of the runs were scored as the result of errors.

Tidwell led the Jewelers at the plate with a home run and a single, followed by Sharp, Tilley and Mitchell with two singles each. Laycock, who started at second base for Phillips, bagged three hits on his three trips to the plate.

Phillips defeated the Jewelers twice during the league play and once in the playoff. They scored more runs against the Jewelers Friday night than any other team in the league was able to do during the season when the Jewelers won 21 games and lost three.

A pitcher's dual is in prospect for this afternoon's game when Stanzell of the Knights and Grover Barkell of the Jewelers tangle. No admission will be charged. The second game will be played Monday night at 7 o'clock. The two teams will battle until one has four victories.

Score by innings Friday night:
 Phillips 0-0-0-0-0-0-0-0-1-1-1
 Jewelers 0-0-1-1-1-1-2-1-2-1-2
 Batteries: Phillips, Arrington, Laycock (4) and Meyer; Jewelers, Sharp and Mangell.

101,100 See Bears Swamp Collegians

CHICAGO, Ill., Aug. 29.—The power-scoring Chicago Bears champions of professional football the past two years, swamped the collegiate all-stars 21 to 0 before a record-breaking throng of 101,100 in Soldier field Friday night, thus upholding their reputation of never losing a game in four appearances in this annual pre-season classic.

The Bears with superior strength, trickier passing and a stone-wall defense, rammed over touchdowns in each of the first three periods and barely missed in the fourth when a pass was intercepted by Tom Farris of Wisconsin behind the goal line.

The all-stars, coached by the 62-year-old Bob Zuppke, showed absolutely no scoring punch. They made four thrusts, one in the first period on a sparkling 90-yard run behind Notre Dame's Steve Juzwik, two in the third and another in the fourth. Everytime they got in the scoring range, however, their offensive fizzled out for lack of a pile-driving runner or an accurate passer.

Receipts for the game were \$306,250, of which approximately \$100,000 will be turned over to the war relief funds.

mission will be charged. The second game will be played Monday night at 7 o'clock. The two teams will battle until one has four victories.

CUBS DOWN DODGERS
CHICAGO, Aug. 29 (AP)—Brooklyn's lead in the National League pennant scramble was cut to four games today when the Chicago Cubs rallied in the ninth inning to turn back the Dodgers, 4-3, as the second-place St. Louis Cardinals whipped the Philadelphia Phillies.

With two out in the last half of the ninth, Stan Hack broke up the game with a single that scored Lenzie Murelio with the winning run and eliminated a three-hit uprising which brought the Cubs from behind.

BROOKLYN..... 300 000 000—3
CHICAGO..... 100 010 002—4

Children's Game in England

"Removing the Body After an Air Raid" is the name of this game played by England's children. Picture, passed by British censor, was made at one of 41 children's projects operated by the Foster Parents' Plan for War Children.

Bombs Pepper St. Malo

Day raiding RAF Douglas bombers blast harbor installations at St. Malo, France, starting many fires. (Passed by censors.)

SIX ISLANDS

(Continued from Page 1)

tralla and may eventually serve as a could control supply lines to Aus-jumping off place for further American offensive action, the marines captured large quantities of ammunition and supplies, and equipment which the enemy had been using in development of a major naval base.

Concurrent with the release of the communique, the navy issued the first account of actual fighting ever supplied by the marines' new corps of combat reporters, this eye-witness story being written by Second Lt. H. Merrill, 27, of Washington. He reported that when the initial surprise attack on the Tulagi sector opened with a naval bombardment, "to the Japs on Guadalcanal and Tulagi it must have seemed that hell had broken loose."

In another release, Maj. Gen. A. Vandergrift, commanding the marine forces in the area, stated that American casualties "while severe, were less than at first believed and by no means disproportionate to the results achieved."

The navy also released the message issued to his troops by Col. Leroy P. Hunt, 50, of Kinston, N. C., who commanded combat group A which was the first to land on Guadalcanal.

Hunt told his men that "we are meeting a tough and wily opponent, but he is not sufficiently tough or wily to overcome us because we are marines."

"Our country expects nothing but victory from us and it shall have just that," the colonel declared. "The word failure shall not even be considered in our vocabulary."

The communique related that the American naval transport and screening forces approached the Tulagi-Guadalcanal area the night of August 6-7 in clear weather and unopposed. The action was begun in the early morning hours of August 7 with carrier-based aircraft and naval guns giving strong support to the landing parties.

As the navy had previously reported, the initial attack was a complete surprise and 18 Japanese seaplanes and a small schooner were caught in the harbor and sunk.

"Our carrier-based planes covered the entire operation," it was stated, "dive bombing shore batteries, supply stations and centers of enemy resistance while maintaining an alert against possible enemy air attacks."

Beachheads were "soon established," the navy continued, and while varying degrees of resistance were encountered, the marines by nightfall had established a strong beachhead on Guadalcanal and had captured most of Tulagi, all of Gavutu and one position on Florida Island. During the night and next morning they crossed a causeway from Gavutu and otherwise advanced on the island of Tanambo which was taken against strong opposition.

Meanwhile, the navy said, the army's long-range bombers, some from the command of General MacArthur and others under Vice Admiral Robert Lee Ghormley, south Pacific naval chief, were covering a vast area to the north and west of the Solomons and heavily attacked ships and air bases in the enemy-held New Britain, New Guinea and northwestern Solomon areas.

The first enemy counterattack developed about 3:20 p. m. August 7 when 25 heavy bombers roared over the marine and naval units. The enemy failed to score any hits and lost two aircraft to the anti-aircraft fire of the naval vessels. Two other planes were damaged.

About 40 minutes later ten enemy dive bombers attacked the American ships and damaged one destroyer while losing two planes to anti-aircraft fire. The damaging of this destroyer had previously been announced.

In summarizing the gains made August 7, the navy said, "Our operations resulted in heavy loss to the enemy in both men and aircraft, loss of control of all vital positions in the Guadalcanal-Tulagi area and the loss of large quantities and supplies when positions were surrendered."

That night and next morning, while the marines were continuing their attacks and enemy ground forces were counterattacking, supplies and equipment were being rapidly unloaded from ships and sent ashore for the strengthening of positions.

At noon August 8 the enemy made the third heavy air assault, sending over at least 40 torpedo

Massive Mascot

"Rock," giant mascot of Third Army Military Police battalion, on maneuvers in Louisiana, surveys domain from atop jeep. (U. S. Signal Corps photo from NEA.)

planes to attack the American naval units in the harbor. One destroyer and a transport which had been unloaded were hit, but the enemy lost 12 planes to ships anti-aircraft and carrier-based fighters and two more to the fire of shore batteries.

Including those 12 planes, the navy said that during the August 7 and 8 air actions "our carrier-based aircraft and anti-aircraft batteries, in addition to dive bombing enemy shore batteries and supply centers, shot down 47 enemy planes of different types."

By sundown August 8 the American position on Guadalcanal had been expanded and the Japanese airfield had been captured, and resistance on Tulagi, Gavutu and Tanambo had been overcome. The enemy made an attempt

by sea to smash the offensive the night of August 8-9, sending in a force of surface vessels to assault the transports and cargo ships which were still unloading. The American supporting warships intercepted the attacking forces, however, and put them into retreat. Both sides suffered damage but the navy gave no details of this.

"By nightfall August 9 unloading operations had been completed and our transports and cargo ships left the area," the communique said.

Latest reports from General Douglas MacArthur's headquarters in Australia told of American medium bombers with Australian fighter escorts strongly supporting Allied troops battling Japanese units which had an uncertain foothold in the swampy Milne bay region of southeastern

New Guinea. The aerial attack on the Japanese destroyers occurred Thursday and indicated the progress made by American forces in moves to sever the enemy's supply lines to outposts nearest the Tulagi-Guadalcanal area. The communique indicated that Guadalcanal island, since its occupation by the marines, had been developed as a base both for the patrol planes which spotted the Japanese warships and for the Douglas dive bombers which hammered home the attack.

There were four destroyers in the squadron. The navy said they "appeared to be loaded with supplies and equipment" for enemy patrols near the eastern end of Santa Isabel island, which is about 25 miles northwest of Guadalcanal.

The official account gave these results of the attack:

One small destroyer was hit, crippled and set afire by the patrol bombers.

One larger destroyer was hit by bombs from Douglas dive bombers and shortly afterward blew up and sank.

Another large destroyer was severely damaged by the dive bombers and probably sank.

The fourth destroyer apparently got away.

Navy reports covering the Solomons campaign have listed total enemy loss of 69 planes in the last three weeks.

Fuzzled troop train porter wonders how he'll get 40 winks.

HURRICANE

(Continued from Page 1)
 measures against the prospective blow, evacuating persons and livestock from danger areas and boarding up buildings.

A 9:15 advisory from the Houston weather bureau said:
 "Severe tropical storm apparently central 7:30 p. m. (CWT) latitude 28, longitude 95, moving north-northwestward or northward, attended by winds of hurricane force near center and by gales over a wide area.

Indications are center of storm will pass inland near Freeport during the night with dangerous high tides and winds of hurricane force north of Port O'Connor to Vermilion parish, La.

"Dangerous gales will extend inland 150 to 200 miles to the west of Galveston and north of Fort Arthur and over southwestern Louisiana."

Freeport is about 50 miles directly south of Houston. At 7:30 p. m. a 45-mile-an-hour wind was blowing there while the barometer stood at 29.52.

At Palacios southwest down the coastline the wind was 31 miles an hour and the barometer 29.53.

In Port Arthur, where an unofficial barometric reading was given at 29.65, winds blew at 36 miles an hour. The tide there was at six feet.

The Houston Post said it was advised that Camp Hulon near Palacios had been evacuated in anticipation of the storm.

Strong gusty winds estimated at 35 miles an hour, brought in rain squalls at Galveston. The tide was high there, the surf was running heavy and the beach was inundated.

ARMY OUTNUMBERS NAVY
 BY five to one in this picture, even though only four soldiers are shown. Mr. and Mrs. A. B. Griffin of Wheeler have five sons in the army. They are, left

to right, Joe B. Ben, Jeff, and Tony. No picture was available of the other son, Bill. The sailor is Doyle Parker, a nephew of the Griffin brothers, and son of Mrs. Gene Tucker. All of the six have lived in Pampa and worked here. Sister of the Griffin boys

and mother of Doyle Parker is Mrs. Gene Tucker, who resides at 863 S. Barton, Pampa. Joe B. is in Camp Edwards, Mass.; Ben and Jeff were recalled to the army before the war started. Ben is at Camp Bowie, Jeff

at Fort Bliss, but is now on maneuvers. Tony is in New Jersey. Three of the boys are due to go overseas soon. Bill was inducted into the service six months ago and is stationed at Fort Warren, Wyo. He attended school at Wheeler, and formerly worked

as a mechanic here for Tom Rose Ford. Doyle is one of the five out of 115 men who passed into a qualifying test and is going to machinists school at Chicago. He enlisted in the navy June 7 of this year.

Downtown show windows were boarded up.

The Houston defense guard stood by subject to call by the Harris county sheriff's department.

From Orange came a coast guard warning that all ships in the area be securely moored.

The 9:15 p. m. weather bureau advisory added that low exposed places should be evacuated on the upper Texas and west Louisiana coast.

"Hurricane warnings are displayed from Vermilion parish, La., to Corpus Christi and storm warnings south of Corpus Christi to Brownsville and east of Vermilion parish to Mobile, Ala.," it said.

Earlier tonight weather bureau advisories said the storm seemingly would strike in the Galveston bay area.

Corpus Christi prepared for severe winds around midnight. Tides were up slightly and light rain fell along with the gusty winds.

The naval air station there took precautions and the civilian defense corps was mobilized and ready to handle evacuation of beach sections.

School buildings were prepared as refuge centers. The causeway was closed and the ferry from Port Aransas to Aransas Pass ceased operations.

Unofficial reports from Palacios were that the barometer there had been dropping rapidly within the past few hours.

Army camps and flying fields through the area were taking extreme precautions to meet the expected fury.

From Ellington Field all training and tactical airplanes were flown to other points of safety during the afternoon.

At Camp Hulon, a prime danger point if the hurricane holds its indicated course, the public relations officer said that thousands of men were being moved out.

Although no men were being evacuated from Camp Wallace on the Galveston county mainland or Fort Crockett on Galveston Island, all precautions were being taken against winds of full hurricane force.

Along the Galveston bayshore at La Porte, Seabrook, Morgans Point and elsewhere small boats were hauled or sailed to places of safety and summer homes were boarded up.

Market Briefs

By BERNARD S. O'HARA
NEW YORK, Aug. 29 (AP)—The stock market today stepped out of a generally unsatisfactory week with scattered favorites clinging to modest advances and many leaders failing to get anywhere.

The Associated Press average of 60 issues was unchanged at 36.8 and on the week showed a net decline of 4 of a point. Trade volume was 37,400 shares compared with 180,410 a week ago.

New tops for the year and as far back as 1937 were posted for senior stocks of American and Foreign Power, Amstar, Standard Oil of Cal., Indian Refining, Standard Oil of Ind., and Continental Motors.

In the advancing section were Union Pacific, Electric Power and Light 6 per cent preferred, Chrysler, Bethlehem, Texas Co., Standard Oil (N. J.), Douglas Aircraft, United Aircraft, Boeing, U. S. Gypsum, Sears Roebuck, and American Smelting.

Others included U. S. Steel, Santa Fe, N. Y. Central, Southern Railway, Great Northern, Chesapeake and Ohio, American Can, U. S. Rubber, Kennecott, American Telephone, Western Union, and Caterpillar Tractor.

Unchanged to up minor fractions in the curb were Creole Petroleum, United Light and Power preferred, Electric Bond and Share, and Glen Alden Coal. Buffalo, Niagra and Eastern Power preferred, an odd-lot issue, dropped 8 points 3/4. Essler were American Cyanamid "B," and Carrier Corp.

CHICAGO GRAIN
CHICAGO, Aug. 29 (AP)—The wheat market took another lurch toward recovery today with gains of about a cent a bushel that lifted quotations more than 2 cents above the week's lows to the best levels in a month.

Renewed buying attributed to commercial dealers, mills and traders operating through commission houses accomplished the upturn in the face of only light hedging sales in connection with the new spring crop movement.

Wheat closed 3/8 cent higher than yesterday, September, 1.24 1/2; corn 1/8 cent higher, September 83 1/2; December 86 1/2; oats unchanged to 1/4 off; soybeans 1/4 down, and rye 1/2 higher.

Heroism Of Navy Physicians Praised In FDR Address
WASHINGTON, Aug. 29 (AP)—A century of heroism by navy doctors forms the background for the address President Roosevelt will deliver Monday in dedicating a new naval medical center at nearby Bethesda, Md., in commemoration of the 100th birthday of the establishment of the navy's Bureau of Medicine and Surgery, the department recalled tonight some of the heroic services of its physicians.

But the naval doctors themselves, from Dutch Harbor to Balboa, from naval stations in the South Pacific to the sick bays of warships churning the North Atlantic, took no time out to celebrate.

Mr. Roosevelt, whose speech will be heard in many parts of the world, may well recall some of the feats of heroism by naval doctors which abound in American naval archives.

It was a naval medical officer—Dr. Richard C. Edgar—to whom Captain Lawrence spoke the words destined to become the motto of the service: "Don't give up the ship." Mortally wounded in the engagement with the Sargamo, the commander of the Chesapeake directed Dr. Edgar to relay the order to the officer in charge of the deck.

Jake Wilson Will Coach At Beaumont

BEAUMONT, Aug. 29 (AP)—Jake Wilson, former Baylor university football and baseball star, has been added to the coaching staff at Beaumont High school, school officials announced today.

Ranked as one of the Southwest conference's greatest backfield stars during his playing career, Wilson comes to Beaumont from Seguin, Texas, where he coached the last two seasons. Prior to that time, he was coach at Allen academy at Bryan.

O'Daniel Must File Radio Expenses, Germany Announces

DALLAS, Aug. 29 (AP)—Chairman E. B. Germany said today he would recommend to the State Democratic Executive committee at its meeting Sept. 7 that all state candidates be requested to submit complete expense accounts.

He said he would ask the committee to recommend to the party convention Sept. 8 that candidates in Democratic primaries file sworn statements of all known campaign expenditures.

"These accounts should show not only money spent by candidates and campaign managers, but also the money they knew was spent in the candidate's behalf," Germany said.

"When a candidate uses the radio, he knows that some one paid for the radio time."

Germany supported James V. Allred in the recent primaries which nominated W. Lee O'Daniel for the senate. In previous elections he favored O'Daniel.

In expense statements filed with the secretary of state by O'Daniel he has not listed money spent for radio, which he used extensively. The final expense statement must be filed by Sept. 1.

Candidates for the senatorial nomination are limited to \$10,000 expenses.

Germany will retire as state chairman at the executive meeting Sept. 7.

JUST BETWEEN US GIRLS

By JOHNNIE DAVIS

It is not the work but the worry
That makes the world grow old;
That numbers the years of its children
Ere half their story is told;
That weakens their faith in heaven.
The wisdom of God's great plan.
Ah! 'tis not the work but the worry
That breaks the heart of man!

Day after tomorrow will mark the entrance of September... "Season of mists and mellow fruitfulness"—that was the poet's phrase for autumn, whose first brisk winds and colored paintbrush are at work among the leaves long before summer makes her final bow... Among the happiest signs of approaching autumn's presence in our midst are the appearance of early fall fruits, pears, apples, and purple grapes... Labor Day... Beginning of school... Renewed activity of clubs and P. T. A.'s... Twentieth Century breakfast... President's reception... Football games... Cooking school... New fall clothes.

When Business and Professional Women's club put out its welcome mat to the new business women in town last week, a buffet dinner of fried chicken, salads, and ice cream was served... So that the girls employed by the defense agencies here and the new teachers might become acquainted, informal stunts featured the evening's entertainment... One of the most attractive club members at the event was Leora Kiarad wearing a white slack suit and white shoes with a bright red jerkin, anklets, and a matching flower in her hair... When standing side by side, Leora and Pauline Bruton looked very patriotic since Pauline wore navy slacks with a white blouse and navy vest... A personable sister-in-law duo at the B. P. W. affair was Maxine and Horlene Rose, whose husbands, Rex and Tom, Jr., are in Uncle Sam's armed forces... Another club member, Vada Olson, has gone to Rhode Island to visit her husband, Leonard, who is in the navy... B. P. W. President Lillian McNutt's husband, Everett, left last week for the navy... Husbands of two more members, Letha Northup and Natha Patterson, are service men, too.

What started out to be a victory garden for Mrs. Raymond Harrah and Mrs. Don Hurst has turned out to be a truck farm with Mr. Harrah's assistance... Mrs. Harrah and Mrs. Hurst have put up 125 cans and used vegetable all summer from the garden on which they have concentrated at the Harrah farm... Neither family has had to buy any vegetables during these months.

Congratulations this week to Mary Lynn and N. F. Maddux, Jr., whose first anniversary is today; to Katherine and Gaston Harbor, who will observe their second anniversary on Monday; and to Frances and Harold McMurray who will have their second anniversary on Tuesday... Last Saturday, August 22, was the fifteenth wedding anniversary of Betty and Ralph Danbar... Mrs. Chas. and Henry celebrated her birthday last Sunday when she received a wrist watch from her husband.

Among those who have moved to Pampa in the past few months are Mr. and Mrs. W. B. Herr, 919 Charles street... Mrs. Herr and children recently went to Las Cruces, New Mexico, where they visited with relatives... One of Mrs. Herr's brothers is mechanic and another is instructor at the Border Line Flying Service of Las Cruces, where this writer's brother is an instructor, also.

Most of us think we could do much better if we only had the opportunity we don't realize we have.

After five weeks in California, Sallie Cahill, girl scout director, has returned to supervise local girl scout activities... Miss Cahill visited for 10 days in Los Angeles and attended Girl Scout Camp Chaparral at Santa Cruz, for two weeks... Pampa Scouts will benefit from the many new ideas which Miss Cahill received at camp.

A former Pampa, Doris Gee, has been appointed junior instructor for the Link trainers at the naval air station at Corpus Christi... Doris is the daughter of Mr. and Mrs. Ernest Gee... She formerly attended Pampa schools and West Texas State college at Canyon.

Mr. and Mrs. B. W. Rose and Bonnie Lea have returned from Eagle Nest, New Mexico, where they have spent the summer at their cabin... Also back in town following summer vacations are Ursula McCarty, school health nurse, and Madge Rusk, junior high teacher.

Beatrice Hunt, who formerly lived in Pampa, is being featured on the radio program, "Feminine Touch," given on alternate Fridays at 1:30 o'clock Mountain War Time over the Albuquerque station... Miss Hunt is head of the cosmetic departments and cosmetic buyer for three Albuquerque drug stores... She is a sister of Sammy and Floyd Turner and Mrs. W. L. Casey of Pampa, and Mrs. Lemoyne Browning of Albuquerque, the former Birdie Bell Turner.

When schools open for the fall term, the 'teen age crowd can hardly wait for an opportunity when they can get together and tell each other of their summer experiences and hold a jam session... The younger set loses no time in getting back into the "swim," so you will probably find the bunch descending upon your home en masse the first or at the latest—second day of the semester.

In the excitement of observing her seventh birthday, Carolyn Donham walked into a door and received one black eye... Nevertheless, she celebrated the occasion at a party given by her mother, Mrs. Verna Donham, on the lawn where candy sticks were hanging from the trees... Her pretty birthday cake was chocolate with yellow candles.

Picnics are never so pleasant and never so memorable as they are toward the end of the picnic season. Happy occasions the whole summer long, they have a special charm when the first brisk winds of fall set appetites to humming... Then the lure of the open fire—the steaming pot of coffee—bacon broiling on a stick—are sufficient to win over the most ardent stay-at-home diner... Even if the picnic fire is no farther from home than one's own outdoor hearthstone or neighboring park, those who love the outdoors—and who savor good food—will be picnicking until the first snow flies... There's no limit to the kind and variety of food which is at its best cooked outdoor style... Potatoes and sweet corn—both baked in their outer coverings so conveniently provided by nature—are never so mellow as when they're baked in live coals... And no picnic would be quite complete without those American perennials—hamburger and "hot dogs"... In the back yards at the homes of Mrs. Alta Stanard, Mr. and Mrs. Frank Lard, and Mr. and Mrs. E. A. Shackleton are fireplaces and ovens suitable for outdoor picnics.

At Brooks Field, Texas, not only the cadets enjoy soft drinks... A burro named Rose, mascot of the field, prefers soda pop, too... It is reported that she picks up the bottle from the ground, throws back her head, and drinks like a man.

Highlighting one of the most beautiful lawns in town are the orchid perennial phlox blooming at the home of Mr. and Mrs. I. B. Hughes.

Before this war is over there is sure to emerge a victory model woman as well as victory model commodities of all sorts... The victory model woman as described by Ruth Milliet, won't look glamorous in the pre-war meaning of the word... She'll be a neat, well-turned-out job but there won't be much material or effort wasted on trimmings... You won't run into her at afternoon bridge parties or at women's clubs that dabble in culture... You will be apt to find her in a defense plant, a laboratory, a government office, a kitchen that isn't just a place to open cans, or a WAAC or WAVES training camp... You will recognize her without any trouble, for she will be doing her job skillfully and with little waste motion... Her man may be thousands of miles away from her, but you won't find her feeling sorry for herself... Whatever her financial or social group, she won't be worrying about keeping up with the Joneses... If she does any bragging it will be about economizing, canning, or learning a new skill... You won't hear her complain charmingly that she simply can't do this or that... She'll know how to take care of the details of living and make decisions like an efficient executive... Never will you hear her make slighting remarks about women who are tackling hard, difficult jobs... For she will be a new-style woman herself... But she won't be hard, and she won't glory in the fact that she can get along without a man at her side... The victory model woman will be essentially feminine... She'll just be the average American woman who gives up luxury, time-wasting activities and all pretense of helplessness and dependency, to become a mite capable, independent worker for victory... and you may be a fifth columnist, to boot!

Some people seem to think that if you don't believe one American and you may be a fifth columnist, to boot!

Shower Given By Hostess Quintet For Mrs. Boshen

Complimenting Mrs. Robert Boshen, a layette shower was given in the home of Mrs. Dave Pope with Mrs. R. F. Dirksen, Mrs. Dick Walker, Mrs. Clinton Henry, and Mrs. Clyde Fatheree as joint hostesses.

Entertainment arranged by Mrs. E. J. O'Brien included two readings by Mrs. Dudley Steele and piano numbers played by Mrs. H. A. Yoder during the tea hour.

After an appropriate contest was conducted, a baby bed was presented to Mrs. Boshen from the Woman's Auxiliary of First Presbyterian church.

A floral arrangement flanked by miniature storks centered the table at which Mrs. W. Carl Jones poured punch. Favors of tiny pink and blue baby carriages were given as favors to each guest.

Mrs. Fred Roberts presided at the registry. Attending were Mrs. T. D. Hobart, F. C. Ledrick, C. Herbert Walker, Dave Pope, S. D. Stennis, Glenn G. Mordy, E. P. Larsh, T. W. Sweatman, Kester June, H. A. Yoder, Mackie Greer, E. M. Donnel, J. E. Corson, W. Carl Jones, Earl J. O'Brien, Clyde Fatheree.

Misses. Bob Mullen, R. F. Dirksen, Dick Walker, Jim White, Charles I. Hughes, E. W. Voss, N. Dudley Steele, Dan Williams, W. S. Dixon, J. M. Nation, R. F. Kuhn, B. F. Bulls, S. H. Chumchetter of Kermit, George F. Prael, Bill Heesok.

Misses. Dillard Motley, Francis Hullik R. H. Nensiel, A. Melkie, W. A. Mills, Bruce Pratt, Brent Blonkvist, W. P. Purpance, J. C. Richey, Paul A. Smith, Earl C. Casey, F. E. Shryock, Sr., W. D. Kelley, Harry E. Lyman, E. L. Biglerstarr, R. A. Ross, K. W. Bunch, Clinton Henry, and Misses Bernice Larsh and May F. Blair.

Table Service And Meal Planning Topic Of Liberty HD Club

Special To The NEWS

SHAMROCK, AUG. 29—"Table service and meal planning" was the demonstration given by Miss Lucile Cline, county home demonstration agent, at the all-day meeting of Liberty Home Demonstration club in the home of Mrs. Kate Stokes recently.

It was found that meals for a day must be balanced to satisfy the health needs of the body. In giving points on etiquette Miss Cline said neither the hostess should never rise from the table during the meal if preventable, but rather teach a son or daughter to run errands. Pleasant conversation should be carried on at the table, thus aiding in proper functioning of digestive organs.

In giving a demonstration of table etiquette, Miss Cline shows the proper method of setting the table, placing the food and manner of serving it. The following were selected to sit at the table as a family: Mrs. Cline, hostess; Mrs. Buster Stokes, host; Mrs. Harry Lester, of Fort Smith, Ark. woman guest; Mrs. Luther Petty, man guest; Miss Zora Idabel Petty, daughter; and Mrs. Floyd Lively, son.

The club's selection of dinner menus showed that it pays to grow food at home, for there was one of the higher income diets consisting of fried chicken, mashed potatoes, cream gravy, salad (tomato, lettuce and cucumber), green peas, hot whole wheat rolls, demonstrated by Mrs. Olen Davis, butter, iced tea, peaches and cream with a syrup cake, donated by Mrs. Buster Stokes.

During the business session plans for the encampment were made and request for material desired for year book for the coming year.

Those present in addition to those mentioned above were Mrs. C. A. Myatt, H. M. Roth, archdeacon, and the following children: Evelyn Cinson, Betty Lou Roth, Dorothy Sue Davis, Norma Lee and Keith Myatt, Bula Mae, Minnie and Sue Lively; Bernice Lee, Kenneth and Gene Stokes.

Next meeting will be at the school house September 2, with a lesson on "Etiquette and Conduct."

Texas Club Women Launch Drive For Collection Of Old Silk And Rayon Hose To Be Used In Gunpowder Bags

AUSTIN, Aug. 30—At long last, women's old silk hose and rayon, too, are in demand by the War Production Board for use in the war effort and the Texas Federation of Women's Clubs will launch immediately a drive for their collection.

Federation, announced plans for the stocking drive yesterday from her office at the TFWC headquarters building here.

Last summer, the editor of a trade publication, "Knit Goods Weekly of New York," proposed that women of the United States contribute their worn silk hosiery to the government for the making of gunpowder bags needed by the army. Silk leaves no shrapnel when a gun is discharged. The trade magazine's proposed plan aroused interest in many parts of the country and Mrs. William A. Bacon of Dallas, chairman of industry for the Texas Federation of Women's Clubs, announced immediately that the Federation would collect discarded hosiery and ship it to mills for "back winding." Techni-

THIS FULL-LENGTH CASUAL COAT for autumn is royal blue monotone, all-wool. Significant details are the four slash pockets, the hand-knitted hobnail-textured cuffs, collar, and detachable hood.

VERA MAXWELL DESIGN—ED THIS very youthful 24-hour coat for fall and winter, 1942. It's chinchilla with navy velvet collar and ten buttons in double-breasted closing. The classic casual, raglan-shouldered balmacaan here, with just the faintest dare, is smart when thrown hastily over formal dinner dress or slacks as well as over a stadium costume.

The Social Calendar

MONDAY

Sub Deb club will have a slumber party in the home of Miss Martha Pierson following a skating at 8 o'clock.

Methodist Youth Activities Week To Open Monday

The First Methodist church will sponsor Youth Activities Week beginning Monday evening at 7:30, and running through Thursday evening, September 3. This will be a time of special opportunity for worship, study, work, fellowship, sharing and fun for the youth and their friends in the church and community.

Miss LaVerne Savage of Wheeler, district youth director of the Methodist church, will direct the activities. Miss Savage has just returned from the youth conference held at Mt. Sequoyah. She will be assisted in class work by C. W. Andrews, Mrs. Carlton Nance, and Mrs. E. B. Bowen.

Programs will begin at 7:30 and close at 9:30 p. m.

O'clock in the Masonic hall. Kit Kat Club will have a back-to-school dance.

Dorcas class of Central Baptist church will meet in the home of Mrs. Harry Dean.

A back-to-school dance will be given by the Sub Deb club.

NEXT SUNDAY

Sub Deb club will attend the First Baptist church.

BUY VICTORY BONDS

You don't have to soil and roughen your hands when working in the garden or doing other dirty jobs. A graceless cream, which forms an invisible glove, keeps the skin clean and soft. It can be removed, along with the dirt, by using soap and water.

Formal Tea Introduces New Sigma Tau Group

A presentation tea was given Thursday afternoon by Sigma Tau sorority in the home of Miss Jenny Lind Myatt when officers and sponsors formed the receiving line. New pledges were presented following the serving of refreshments.

For the occasion, the rooms were decorated with gladioli, roses, and pom pom mums. Each member wore a corsage of gardenias.

Observing a patriotic motif, red, white, and blue star sandwiches and mints were served with a flag-shaped cake. Punch was poured by Miss Tolene Davis at a table centered with a floral arrangement and tall white candles.

Throughout the afternoon and evening, musical numbers were played by Miss Ernestine Holmes. Miss Holmes played Mood Indigo, One Dozen Roses, Santa Lucia, El Vira, Come Back to Sorrento, Tea for Two, Atmosphere, Solitude, Maria Marie, Tango of the Roses, and other selections on the accordion. Miss Shirley Cook also played selections on the accordion. Miss Mary Frances Denmon sang Don't Let Julia Fool You.

Registering in the guest book were Misses James B. Massa, E. E. Shelhamer, Oscar Hinger, Kermit Lawson, H. B. Taylor, Aaron Denman; Misses Joella Shelton, Doris Jean Caldwell, Tolene Davis, Mary Frances Denman, Martha Pierson, Betty Ann Culbertson, Elaine Carlson, Anita Andrews, Gretchen Bruton, Esther Mullinax, Frances Crocker, Doris Alexander, Evelyn Kidwell, Imogene Keller, Ailene Eaton, Louise Baxter, Dorothea Keller, Imogene Sperry, Kathryn Homer, Helen Alexander, Shirley Sone, Mary Gurley, Ernestine Holmes, Shirley Cook, Mollie Kennedy, Ada Simmons, and Marjorie Gillis.

Mrs. George Berlin, sponsor, and Misses Juanita Caldwell, Willadean Ellis, Lela Pearl Baldwin, Jenny Lind Myatt, Doris Taylor, Thelma and Velma Osborn, Sarah Florence Parker, Dorothy Stone, Mary Frances Yeager, Vontell Alexander, Dora Jean Phillips, Evelyn Barnes, Helen Dudley, Fern Simmons, Willette Stark, and Virginia Lee West.

The Sigma Tau sorority is a chapter of a club in Clovis, New Mexico, formed during the summer. Colors are black and white, and the flower is gardenia. A constitution written and discussed by all members has been approved by the sponsor, and the business session is carried on strictly by parliamentary procedure. Besides being a social club, the group plans to help in Red Cross work.

Miss Maxine Jones Named Honoree At Farewell Luncheon

Mrs. I. E. Byars entertained Pollyanna class of First Baptist church with a farewell luncheon honoring Miss Maxine Jones, who is moving to McPherson, Kansas.

After lunch, handkerchiefs were presented to the honoree by the group.

Attending were Misses Martha Brummett, Willa Dean Ellis, Eugenia Phelps, Dorothy Stone, the honoree, and the hostess.

V Notes RED CROSS VOLUNTEERS

By MRS. FRED ROBERTS
Some new and interesting services for volunteers are being started by the local chapter. These include a staff assistance corps, a hospital and recreation corps and a surgical dressings program.

The volunteer who aspires to be a staff assistant should have at least some of the following qualifications: be a person with ability to meet the public, who can do general office work, typing, filing, man a reception desk, handle telephone service, etc. A 10-hour staff assistance course with probation work in the office is required as training. This course is planned to familiarize the volunteer with all phases of the Red Cross activities that she may be more valuable as a volunteer worker and to understand all the services that she may be able to intelligently pick the field in which she prefers to work.

The hospital and recreation corps is made up of women of 20 and upwards who are citizens of the United States. The training for this service is a 5-hour lecture course and a probation period in a hospital. This service is designed to help maintain

morale through friendly service and recreation for convalescent patients. There is to be an army hospital at the bomber school and we plan to be ready if called upon. Women making up the corps are known as Gray Ladies. There is a glorious work whether civilian of military hospitals but remember before they can be certified they must attend 15 to 20 lectures, serve a probation period for practical experience and then be willing to give at least 50 hours of service annually.

We have just received our first quota for surgical dressings. Mrs. C. P. Buckler is chairman of surgical dressings with Mrs. W. Purviance as co-chairman.

Mrs. P. I. Reppert and Mrs. J. Frank Triplett, who are area supervisors for surgical dressings, recently conducted a surgical dressings institute for the Panhandle chapters here in Pampa. As each chapter was allowed to have only two persons trained at this institute, Pampa was represented by Mrs. Buckler and Mrs. Purviance. They in turn will train local women to make dressings.

The quota that we have is a very large one but we know Pampa women will respond generously with their time and talent that the dressings may be finished on time.

The making of surgical dressings is interesting and clean work. These dressings are made to army specifications and must be exactly right. All dressings must be made in the

surgical dressings room and under supervision. Certain rules as to work room procedure and practice have grown out of past years experience of Red Cross chapters making surgical dressings and these have become a part of the requirements for chapters who are just accepting quotas. These plans are set up for us so that we may produce dressings that are up to specifications and do it efficiently. With this in mind everyone making surgical dressings will be given some training.

Nationally an estimated 1,500,000 women will be busy engaged in production of surgical dressings—each volunteer giving four hours' service per week.

Since the scope of the services being rendered by the Pampa chapter has become so much more extensive, every Pampa woman will want to take part in some service during the coming months. In fact the chapter expects every woman in the chapter to help because only this can the program be carried out.

If you are interested in one of the new services, call the chairman of volunteer services, Mrs. Frank Culbertson, or the Red Cross office. Let us start September off right—with everyone in her place doing something definite in the Red Cross program.

We expect to ship all finished garments, next Tuesday, September 1. We have not made a large shipment in over two months and it is very necessary that as many things as possible be included. The army helmets and turtle-neck sweaters are especially needed. If you have an article which has been out longer than a month and can't be finished this week, won't you return it to the production room in order that someone may finish it for you?

Mrs. Roy Bourland and Mrs. W. G. Kinzer, who are in charge of knitting, are asking that all sweaters for civilian relief that are overdue be finished and turned in so that other garments may be issued from left-over yarn.

There are 112 children's blouses cut and ready to be sewed. These are in sizes 6, 8, 10, and 12 years. The model in this size was made up by Mrs. J. L. McCrary.

Mrs. Joe Casperson made the blouse of the week Mrs. Casperson is an example to all of us as she has been making four blouses a week. Each time she comes to the production room she brings four completed ones and takes four more to make. To date she has completed 31 blouses. Can anyone else equal that?

Mrs. W. R. Campbell in charge of cutting has changed from Wednesday afternoon to Friday, Mrs. L. L. Some will be in charge of cutting on Wednesday afternoons.

Mrs. Charlie Thut reports that 47 women gave a total of 101½ hours of volunteer service in the production room and that 42 women turned in finished garments which totaled 783 hours of service.

Salads Prepared At Meeting Of China Flat H. D. Meeting

Special To THE NEWS
SHAMROCK, Aug. 29—Miss Lucille Chance met with members and their families of the China Flat Demonstration club in the home of Mrs. T. H. Morgan.

Miss Chance gave a demonstration on preparing salad and serving, and a talk on dinner table etiquette.

"Remember when our grandparents were seated at the table Grandfather asked the blessing and served the plates?" Miss Chance asked.

She told that the family should be in a happy mood while eating, and should eat foods that are required for building strong bodies for a strong nation. Miss Chance asked the group to try to live up to the Texas food standard, and closed her remarks with "I believe in a Christian nation and family prayer."

These present were Mrs. Theilma Burk of Los Angeles, Mr. and Mrs. J. T. Reynolds and son, Mr. and Mrs. Roy Scrivener, Mr. and Mrs. J. T. Purky and children, Mr. and Mrs. W. E. Sheeag, Robert and Luella Sheeag, Mrs. Morrison and daughters, Katie and Grace, Mr. and Mrs. Paul Morgan, Mr. and Mrs. Earl Sheeag, Mrs. M. L. Eubank, Mrs. Sullivan, J. D. Maloy and the hostess.

Miss Pierson To Be Hostess At Sub Deb Club Slumber Party

Following a skating party Monday night at 8 o'clock, members of Sub Deb club will go to the home of Miss Martha Pierson for a slumber party, which originally was planned for last week.

The next regular meeting of the club will be held Thursday evening at 7:30 o'clock in the home of Miss Esther June Mullinax.

In place of the weekly meeting last Thursday the club attended the tea given by Sigma Tau sorority.

Advisory Board Of Rainbow Girls To Meet On Monday

A meeting of the advisory board of the Order of Rainbow for Girls will be held Monday afternoon at 3 o'clock in the home of Mrs. W. C. deCordova.

Mrs. Buri Graham is chairman of the board.

Every member is asked to be present because of the important business to be discussed.

Jumper And Blouse

Getting little sister ready for school? Here's a style both you and she will agree on for the new wardrobe. She'll like it for its dashing originality—the suspender topped skirt with its contrasting shirt will please her immensely—and you'll like it for its practicality. The blouse buttons down the back, may be made with either of two necklines.

Pattern No. 8248 is in sizes 6, 8, 10, 12, and 14 years. Size 8 years jumper takes 1½ yards 35 or 39-inch material, short sleeve blouse, 1½ yards.

For this attractive pattern, send 15c in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive Chicago, Ill.

Plan your sewing to make the most of your time and your budget! Select all the patterns for your needs in the fall Fashion Book, our latest catalogue of styles. 15c per copy, or it may be ordered with a 15c pattern for 25c plus 1c for postage.

HERE'S A WRAP AT WINTER. The expansive greatcoat, outstanding 1942 - and - after mode, is smartly exemplified in this wool knitted fleece. It is worn over evening clothes and for sports, as shown here. The

cable-stitched wool sports sweater is new, too, especially the V neck. Sports watch is gold with suede band, and the silver dog-head label pin carries a barrel of "mad money." Gray woolen slacks complete the outfit.

Come-As-You-Are Breakfast Given For Two Classes

A Come-As-You-Are breakfast in the home of Mrs. Don Egerton entertained the two 15-year-old classes of First Baptist church Friday morning.

Attending were Anna Lois Alford, Margaret Davis, Katherine Robinson, June Payne, Maureen Riley, Barbara Crossman, Mildren McCrate, Doratha Keller, Marjorie Brummett, Helen Crowley, Mary Jean Evans, Mrs. J. C. Vollmert, Mrs. John Evans, Mrs. T. D. Alford, and Mrs. Don Egerton.

Fifth Birthday Of Barbara Ann Boring Observed At Party

Barbara Ann Boring's fifth birthday was celebrated Friday afternoon with a party at the home of her parents, Mr. and Mrs. J. M. Boring.

Games were played and prizes were won by Doris Graham and Carolyn Sue Dodds.

Refreshments of birthday cake, punch and candy were served to Carolyn Sue Dodds, Doris Graham, Marlene Swafford, Fluoretta Russell, Joe Bell, Douglass Threatt, Don Duane Goldsmith, Billie Bell, and the honoree.

GLORIFYING YOURSELF

By ALICIA HART

Some of the top stars of stage and screen have faces so homely—well, homely enough to be funny.

It takes a sense of humor, and a rare one, to make your fortune out of that sort of face. And either you're born funny or you take years to acquire a quick sense of comedy— . . . even a sense of humor. However, there is one quality the comedienne have that any woman can acquire pretty quickly. That's — a charming voice.

A girl can speak pleasantly even though her natural pitch is high. Her tone must be full. In order to get that, she needs to make her breathing-apparatus work properly. That is what produces the full tone.

BREATHING EXERCISES WILL IMPROVE VOICE
So if you want a pleasing voice, begin with breathing exercises. Check your breathing habits. Press palms against your ribs, under arms, and take a breath. Feel your sides

pressing against palms? That's correct! If you do not feel your chest expanding sideways as you inhale, try it in reverse. With hands on ribs, press in and exhale, deeply, and push ribs in. Then, inhale and let the chest expand sideways. Repeat this a dozen times daily. In a short time you'll breathe without giving it a thought.

Diction is important, too. Ask yourself whether you slur your words and rattle on. If you do, notice the irritating effect of the habit. And try to correct it—consciously, first. With practice, clear pleasant speech will come naturally, too.

One easy step in voice-training is to read aloud to yourself for ten to thirty minutes a day. One season's work on your voice may get the job of the date you have been longing for.

Government Clamps Strict Regulations On Taxi Industry

WASHINGTON, Aug. 29 (AP)—The government clamped strict regulations on the taxi-cab industry today in an order to save tires, gasoline and vehicles.

In an order estimated to affect at least 80,000 vehicles, the Office of Defense Transportation practically froze the industry in the hands of present operators, and put new sharp restraints on their operations.

The order, effective September 1, forbids cruising for the purpose of picking up passengers; prohibits a driver using his cab for social or recreational purposes, and prohibits the making of commercial deliveries of property.

Other prohibitions include a maximum speed limit of 40 miles an hour, or any lower maximum limit in the jurisdiction in which the cab is operated; trips more than ten miles beyond the corporate limits of the municipality in which the trip originated; trips more than 25 miles from the point of origin to the point of destination; and operating a cab without distinctly marking it as such.

ZOOMING TO DOOM . . . and back . . . for the sake of the flyers of the future! Glenn Ford and Evelyn Keyes watch Pat O'Brien testing a plane to bomb the Axis in this fateful scene from Columbia's new aviation film, "Flight Lieutenant," now at the Rex theater.

Worley Confers With Rayburn In Bonham

Special To The News
SHAMROCK, Aug. 29—Still under navy department orders, Congressman Eugene Worley had a hurried visit with his mother in Shamrock Sunday and left for Bonham for a brief stop with his wife and week-old son enroute to Washington where he will report to the office of Secretary of Navy Frank Knox.

Worley, who holds the rank of lieutenant commander in the naval reserve, will be relieved from active duty and placed on the reserved list immediately upon reporting to superior officers at the nation's capitol, according to a directive issued by President Roosevelt last June, calling all members of the house and senate in the armed service back to their congressional duties.

The congressman expressed regret that navy department orders precluded a visit with his friends but said he would return to the district for an extended visit "in about three weeks or as soon as I am relieved of my navy duties."

Worley arrived in Shamrock Saturday night from San Diego where he had been sent from Pearl Harbor. He was based at Sydney, Australia, when the directive was signed.

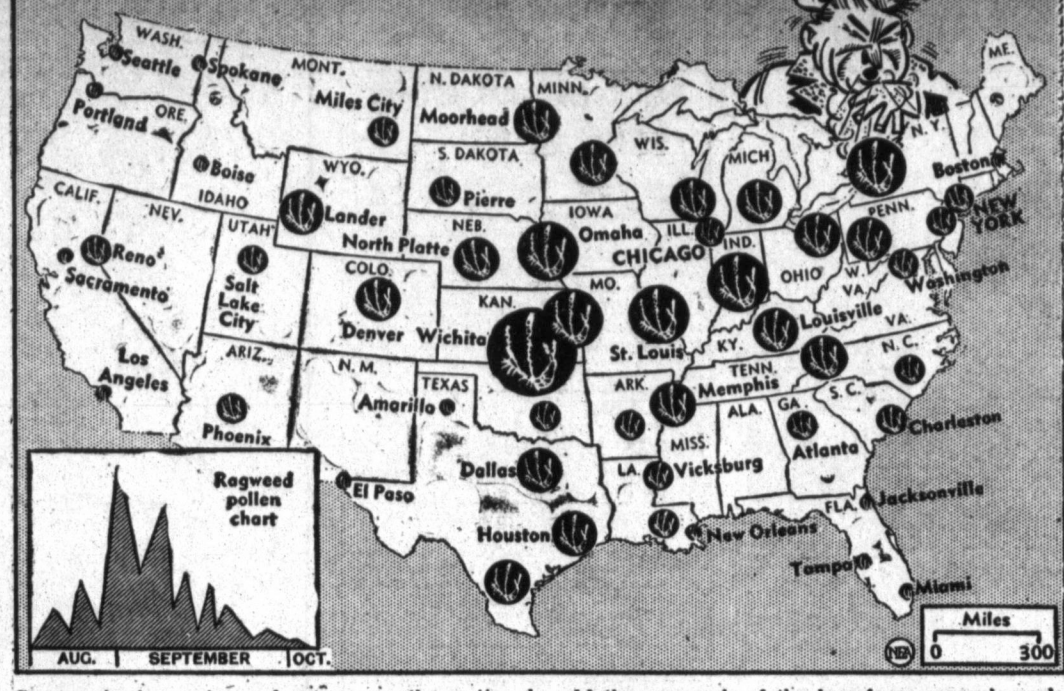

Constrained from discussing his experiences for military reasons, Worley did reveal he conferred at length with high army and navy officers, including General Douglas MacArthur. He said his experience in the Pacific would be of considerable benefit to him as a member of congress in helping shape America's future course in the war program.

Worley telephoned friends from Bonham Tuesday night that Mrs. Worley and son were getting along fine and planned to return home as soon as possible. Mrs. Worley is at the home of her parents, Mr. and Mrs. Morgan C. Spivy.

While in Bonham, Congressman Worley conferred with Sam Rayburn, speaker of the house. Mr. Rayburn lives at Bonham.

HAY FEVER: THE WHY AND WHERE OF A NATION'S SNEEZES

Sneezes in increasing volume across the nation herald the approach of the hay fever season's peak. Map shows areas hardest hit by the allergy; with size of circles denoting intensity of weed pollen grains in the air. Ragweed is principal offender in eastern states, while chenopod, amaranth, ragweed and sage pollen tickle noses. Ragweed pollen count in average hay fever city shows time when sneezing is at its high mark.

Emergency War Tax To Reach All

By JACK BELL
WASHINGTON, Aug. 29 (AP)—An emergency war tax designed to reach practically every individual who makes an income, no matter how small, was reported under consideration tonight by treasury and congressional officials.

Details of the plan were not ready for publication but there were reports that the senate finance committee would be asked next week to increase by at least \$1,500,000,000 the \$8,137,000,000 which would be taken from individuals in taxes under terms of the new revenue bill already approved by the house.

Conjecture centered around a form of gross income tax, possibly levied at the source, which would tap a field of \$36,000,000,000 in annual income which some committee members contend would not be reached by the bill as it stands.

There was some indication also that a system of post-war savings for individuals through bond purchases might be combined with the proposed new levy.

The breadth of the field in which additional taxes could be imposed was indicated by estimates that only 27,000,000 of 54,000,000 persons who receive income annually would be subject to regular levies under the house-approved bill.

The treasury was understood to have suggested a somewhat similar gross income tax on corporations to replace the capital stock and declared value excess profits levies which the committee voted out of the bill yesterday for an estimated revenue loss of \$75,000,000.

As outlined previously by Chairman George (D-Ga.), this would embody the assessment of a small percentage tax against the gross receipts of a business, after certain specified deductions for labor and materials cost.

Several committee members said it appeared obvious to them that unless the treasury proposed some alternative, there was going to be an almost overwhelming demand for enactment of a sales tax.

Gandhi Movement Of Disobedience Reported Spreading

By FRESTON GROVER
NEW DELHI, Aug. 29 (AP)—Mohandas K. Gandhi's movement of civil disobedience appears to be spreading underground after three weeks of surface demonstrations in which disorders, suppressed in India's big cities, continued to boil in the villages.

From underground channels has been distributed a secret set of instructions to Gandhi's followers to concentrate their shut-down activities on the "first 20 cities" of India, declaring that "our activities should see that the climax of the movement, both in rural and urban India, is reached four weeks from now."

A government communique today reported six Indians killed and 38 injured when officers fired into a disorderly crowd around a police station in Patna province. But such incidents were not being duplicated in the cities this week-end.

An indication that authorities were less concerned about possible violence in the cities was seen in the fact Gandhi's son Devdas, managing editor of the Hindustan Times, was freed by a magistrate who heard charges that the younger Gandhi had violated defense regulations.

Farmers To Discuss Legislation Tuesday

Legislation affecting farmers and farm prices, twin interests of farmers, will be topics discussed when a sub-district meeting of the Texas Farm Bureau federation is held at 2:30 o'clock Tuesday afternoon in the county court room.

Armstrong, Carson, Gray and Roberts counties will be represented at the meeting at which W. M. Deck of Perryton, vice-president of the state association and district director, will be in charge.

On the program will be J. Walter Hammond, president of the Texas Farm Bureau federation, and E. G. Arnold, southern regional organizer.

Boyd Reeves of McLean is president and E. A. Shackleton of Pampa is secretary of the Gray County Farm Bureau federation. The county unit has a membership of 76.

TEXANS IN Washington

By L. T. EASLEY
WASHINGTON, Aug. 29 (AP)—One of the few Texans here not connected with the government is Hope Ridings Miller, society editor of the Washington Post. She comes from Sherman.

Just returned here from a visit to her native state, Mrs. Miller gave Washington newspaper readers her word picture of the attitude of Texans toward the war.

She devoted a column to conversations she had had with persons back down home, and quoted a Texas father who had lost two sons in the war and has two others still serving in the armed forces as saying that people in Washington had to forget personal ambitions if we were to win the war.

Then expressing her own views, Mrs. Miller continued:

"I must say many persons in and around these parts could learn a lesson in patriotism from those Texans, who are willing to make any sacrifice to help win this war."

She commented on the air corps training at Perrin field and said that her home town of Sherman was "as bustling a center of wartime activity as I've seen in a long time." Then she told of the whole-hearted support of Texans for President Roosevelt, and of their great pride in Admiral Nimitz and General Eisenhower and Speaker Sam Rayburn.

"There's a strong feeling that the dam, now being constructed over Red river, should be called the Rayburn dam because the House Speaker was the outstanding force in helping to obtain a government appropriation for it," observed the transplanted Texas woman.

"That project, incidentally, is about the only thing besides the war that North Texans will talk about. They'll tell you it's to be the greatest earth-filled dam in the world, that it's to be completed in a couple of more years, and that it will create a lake with a 1,300-mile shoreline."

The government has ordered manufacture of 4,000,000 cotton bale coverings, made of cotton, to be made available to growers at \$1.10 each. That is the prevailing price on jute covers. While shipping problem practically cutting off jute sources in India, use of cotton for wrapping becomes necessary. Growers will receive a seven-pound gross weight allowance on all bales using the cotton coverings.

Eleven East Texas girls have solved the housing problem here in a manner to make them envied by most of the newcomers in Washington.

They joined in to rent a big, five-bedroom house in a fashionable part of town, for \$175 a month. They do their own cooking, and have a spacious living room to entertain guests. Unlike most of the tens of thousands of girls who have streamed into Washington in recent months and are forced to exist in stuffy, cramped quarters of apartment houses, these girls lounge "in their own home" and live somewhat as they had in Texas.

Two of the girls are from Henderson, the other nine from Longview. They're all from 17 to 21 years of age.

The girls from Henderson, cousins, are Dorothy Spence, typist with the Federal Bureau of Investigation; and Edith White, stenographer at the Maritime commission.

The Longview girls are Winifred Robb, War Department supervisor; Myrtle May Francisco, stenographer, Foreign and Domestic commerce; Helen Joy Francisco, stenographer, Civil Air Patrol; Nora Lee Francisco, typist, Office of Price administration; sisters, Evelyn Marjorie Keller, stenographer, War Department; Jean Houston, stenographer, War Department; Wanda Stewart, clerk-typist, OPA; Mary Jane Leslie, typist, Washington Cathedral; Billie Jean Robb, typist, OPA.

The girls take turns doing the shopping, cooking, dishwashing. Each pays \$5 every two weeks for groceries. Overstuffed chairs and davenport came with some of the furniture the landlord threw in with the rent.

Two of the girls are blondes, eight brunettes and one a redhead. Despite the fact that Washington is overcrowded with girls, their telephone keeps busy with calls for dates.

Not one of the girls smokes or drinks. They explain that the girls

Allred Increases Vote In Panhandle In Second Primary

Judge James V. Allred increased his vote in the 26 Panhandle-Plains counties by 4,161 votes from the time of the primary to the run-off while Senator W. Lee O'Daniel lost 161 votes in the same period.

In the primary Judge Allred led in seven of the Plains counties while in the run-off he carried 13. O'Daniel led in 19 of the 26 counties in the primary with a majority in 14 of them. In the run-off, he carried 13. Despite the white heat intensity of the run-off campaign, over 1,000 more votes were cast in the primary than in the run-off. The first race drew a total of 39,143. Of this, O'Daniel received 19,265; Allred 14,734, and Dan Moody, 5,144.

In the run-off, the 26 counties gave O'Daniel 19,104 votes and Allred 18,895.

WTSC To Provide 90 Army Officers

CANYON, Aug. 29—Wanted: 90 young men to take college training to prepare them to become officers in the armed forces of Uncle Sam.

The war department has given West Texas State a quota of 90 men under the college procurement plan. The military services have launched this plan to provide a source of well trained fighting officers. The first step the male student takes is to enroll at West Texas State on September 22.

Soon afterward representatives of the several military branches will come in a group to explain the careers open in these services. Some what later a recruiting party will arrive to enlist college men in the branches they have chosen. The enlisted reserve corps of the college will remain here for two or more years, or until called. They will be regularly enlisted men but with deferred service to permit them to take courses required by their service branches.

The eligible men, 17 to 26 years of age, are being urged, as a patriotic duty, to go to college and enlist in a military branch so they can prepare to become officers in today's highly mechanized and technically efficient services. The War Department wishes to enlist 90 men through West Texas State this fall. There is a shortage of trained men for officer material.

Enlisted reserves must do good college work, or failing, they will be called to immediate duty. Theirs is an opportunity to prepare for greater service while, at the same time, they get training which will be useful in peacetime. The office of the Dean of Men is coordinating the college procurement program.

NOT ENOUGH FIREMEN
HILLSBORO, Aug. 29 (AP)—Volunteer firemen here are taking turns about in sleeping at the fire station.

There are eight beds in the fire department's bedroom. Now, after various departures for military service, only three beds are occupied—not enough men to answer a night fire-alarm.

So some of the volunteer firefighters have volunteered to sleep in the fire station at city hall.

In their home towns just don't. Their main complaint is that the men here aren't tall enough. Texans just generally are taller, they declared . . . and a few have high-heeled boots throwing in for good measure.

But notwithstanding all that, they say they like Washington and enjoy their work.

SERIAL STORY WHEN A GIRL MARRIES

BY RENE RYERSON MART

COPYRIGHT, 1942, NEA SERVICE, INC.

THE STORY: While her family is away at a lake resort, Enid Shroyer, stenographer, has taken a furnished apartment for a secret vacation of her own.

GOOD NEIGHBORS

CHAPTER VIII

ENID couldn't decide whether she was glad or sorry about what she had learned, as she undressed for bed. If Dr. Holliday was a divorced man, he was a free man. And yet—the feeling was so hazy that she had difficulty analyzing it—a divorce somehow tarnished him in her mind.

It was Wednesday evening about 9 when her doorbell rang. When she answered it, there stood the doctor. He grinned at her amiably.

"It's too beastly hot to stay in here tonight. I saw your light."

Enid looked down at her paint-smudged smock. She'd been working all day, she hadn't even been out for a breath of air. "I'd be glad to," she said shyly, "if you don't mind waiting until I dress."

"Of course not," he told her. "Just ring my bell when you're ready."

She fairly flew into her clothes. A black wool dress cut out expensively, simple lines—she shivered when she thought how much she had paid for it, the jacket of her white linen suit, the white sandals and a pair of hose so sheer you couldn't believe they were there.

Her reward was the look Dr. Holliday gave her when he joined her in the hall, a look of admiration and acceptance.

"He really thinks I belong to his class," Enid thought as she settled beside him in the convertible. "I wonder how he'd act if he knew I was a \$20-a-week stenographer off on a binge?" But she couldn't feel

sorry for the deception at the moment.

DR. HOLLIDAY took the river road. He had the top down on the car and above them the stars shone big and luminous, and were reflected in the still dark reaches of the river. As they drew near the Club Del Rio they could hear the dance music. Enid remembered the last night she had been there with Tom, the night they had run into Grace Dingline and Norma Senton from the office.

Dr. Holliday motioned for service to a pert waitress who had just brought a tray to the next car. "What will you have?" he asked Enid.

She smiled. "You must be a mind reader. I just remembered that I hadn't had any supper."

"Why didn't you tell me? We'll go inside and order a steak."

"No. A sandwich is all I want. It's rather silly, isn't it, to forget meals?"

He gave her order to the waiting girl and turned back to her. "If I'm not being impertinent—what made you forget?"

"Oh, I was busy painting."

"That's right. You told me you were a fashion artist. By the way, have you landed a job yet?"

Enid shook her head. "No—I'm not having much luck."

"He considered for a moment. "I might be able to help you. Sam Thornton, head of the advertising department at Lilley's, is a good friend of mine. Would you like a letter to him?"

"Would I?" Enid echoed fervently.

"I'll write one when we get back," he promised. The band glided into a hot rendition of "Blues in the Night." The doctor hummed it lightly under his breath. Impulsively he turned to her. "Let's dance, this one."

"Oh—I don't dance well."

"All the more reason to dance with me," he said cheerily. "I'm not a professional either."

He was not to be put off with casual excuses, Enid saw. Rather helplessly she let him help her out of the car and lead her around to the front entrance of the dance pavilion. He bought a strip of dance tickets, and they went down the shallow steps to the dance floor.

Dr. Holliday, as he had freely admitted, wasn't a good dancer. He seemed to know only one step and it kept them turning around and around, but there was no place to go on the crowded dance floor anyway. Enid gradually grew tense. There wasn't much chance of anyone she knew spotting her in such a crowd, either. It was their second time around

the floor that she saw Tom and Phil. They were seated at a table on the terrace, drinking beer and watching the dancers. She stopped abruptly and her stomach went cold. Dr. Holliday looked down at her.

"What's the matter?"

She pulled at his arm. "I feel faint. Let's get out—here." She didn't know how white her face was.

HE guided her to the steps and up. He didn't release her arm until she was seated in the car. "Feel better now?" he asked anxiously.

She nodded her head. "Yes, I am."

"I'm guessing it was going too long without eating—and then dancing."

"I was enjoying it," he said simply.

"I was too," she said quickly, "until—"

"Until what?"

She floundered. "Oh, nothing."

She could feel his keen glance on her face in the semi-darkness. But they were half way back to town before his warm chuckle broke the silence.

"What are you laughing at?" Enid asked in a small voice.

He chuckled again. "I'd give a lot to know who it was you saw that made you want to leave so suddenly."

She tried to be dignified. "I didn't see anybody. I told you I felt faint." Her voice trailed miserably. He didn't believe her. That was the worst of lying. You started with one little deception, and that made another and another one necessary. If she wasn't posing as a stranger in the town she wouldn't have to deny having seen someone she knew at the Del Rio.

"You haven't got a husband mislaid somewhere, have you?" the doctor asked with a sudden change of voice.

"Of course not." This time she didn't have to feign indignation.

"I'm sorry," he apologized. "About that letter to Sam Thornton, I'll write it tonight and leave it in your mail box when I go out in the morning. You can get it when you get up."

"Thanks a lot, Dr. Holliday. It's kind of you to bother."

"No bother," he insisted, grinning, and then, teasingly, "Not Doctor Holliday, please. It's 'Hank' to my friends."

She tried to say, "Thank you, then, Hank," lightly, but her tongue stumbled and suddenly her eyes brimmed with tears. She turned and ran blindly into the building before he could say a word.

(To Be Continued)

Defense Guard Asks For More Drill Recruits

There's plenty of room for recruits in the local company of the Texas Defense Guard and applicants are asked to make their applications and get all preliminary details attended to in advance, so they can report ready for their next drill period when a new recruit detachment will be formed.

First Lt. Dan E. Williams Saturday said that three recruits had followed this procedure and would be on hand ready to join the company at its next drill at 7 o'clock Tuesday night at the high school.

Applications for enlistment will be received by Captain E. J. Dunigan, Jr., First Lieutenant Williams, or by Sgt. Roy Kay, company clerk.

Volunteers and the draft have kept up a steady drain on the company, but the unit is up to full strength nearly all the time. However, it is certain more men will be needed as draft calls continue.

Benefits of the training received are immediately reflected in the comments of former members now in the armed forces have made.

One member wrote back from the camp that he certainly regretted not getting in the company sooner as even what he had learned in the short time he had been with Pampa's P. D. had been a big help to him.

A man who was with the company ever since it started back in January, 1941, enlisted in the marines.

When his officers learned he had been in the Texas Defense Guard, they cut two weeks off the eight-week training period.

Promotions, also, have come to men who have served in Texas' own army. Sgt. Herbert Vaeth, who enlisted several months ago, was sent to Lubbock, hence to Fort Sill, and to Sheppard Field, Dallas, and has been promoted to corporal.

He is now serving with the 2nd The Texas Defense Guard is no "make-believe" outfit, but a trained militia that knows what it is doing, where it is going, and why. Drill is exactly the same as that of the U. S. infantry, but with extra emphasis on the fundamental drill, but also are taught how to build tank traps, extended order, guard duty.

Local members were encouraged here Saturday with the news that the U. S. senate has authorized legislation authorizing the war department to spend \$15,000,000 to buy clothing, arms, and ammunition for state guards.

If the bill passes the house, Texas will get a big part of the sum, as the Texas Defense Guard, with 16,000 men, is the largest state militia organization in the U. S.
