What To Do For That Sluggish, Down-and-Out Feeling

Remember the time when you could eat like a horse, bubbled-over with energy, felt happy as a lark? Was it not because you liked to eat—didn't know what indigestion was, felt strong as an ox? As age advances the "old stormach and the ever-changing blood" need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of timy red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistatibe to infection and disease.

To get real relief you must keep up your blood strength Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemis. This is due to the SSS Tonie formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energise your body with rich, red-blood, Start on SSS Tonic now.

Do we find a driller who agrees? NO, not one! It isn't very easy to find anyone who says all milk is alike either . . . at least, not after they've tasted Plains.

There's as much difference between the way drilling tools are dressed as there is in the way milk is processed. Plains Creamery takes utmost care in pasteurizing and bottling milk so that Plains will have a flavor far superior to any other milk.

Plains is available at your favorite grocer's or from the Plains routeman. Other Plains Protected Dairy Products are Plains Butter. Plains Cottage Cheese, and Plains Buttermilk.
