In New Type of Home Construction

Industry engineered homes, which embody a new concept of home construction based on partial standardization of design, should reduce materially the cost of new housing without sacrifice of quality, according to Henry H. Willins, secretary of the National Oak Flooring Manufacturers' Association.

Most of the high quality build.

Most of the high quality building materials which have enjoyed a preferred status in the past can be utilized in houses built in accordance with the new plan, willins says. Oak flooring, for example, may be used as efficiently in such houses as in the conventional kind, he explains.

What, to do for woman's oldest problem, functional monthly pain? Many a girl and woman has found the answer in CAR-DUT'S 2-way help. You see, CARDUI may make things lots easier for you in either of twe ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional periodic pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help wild up resistance for the trying days to certain times', get CARDUI today.

More and more calls from more and more telephones have taxed the capacity of switchboards and operators alike during these days of equipment shortages. Even so, most calls at most times go through promptly.

If, at times, you do not hear "Number, please?" immediately, it's because hundreds of other people are calling at the same time and operators are doing their best to answer each call in turn. This is especially true during the busiest hours of the day-midmorning and early evening.

We're putting in more equipment as fast as we can get it. Our aim is to eliminate delays and answer every call promptly.
