

Jaycees to Hear Senate Candidate

Representative Lyndon Johnson son of Johnson City, who entered the race for W. Lee O'Daniel's seat in the U. S. Senate last week, will be the principal speaker at the Junior Chamber of Commerce weekly luncheon meeting Tuesday noon in the Palm Room of the City Hall.

U. S. Blamed For No Arms Reductions

LONDON —(AP)—Tass, the official Russian news agency, presenting "the position of leading Soviet circles," blamed the United States last night for the United Nations' failure to control and reduce armaments.

The statement was made in a lengthy document detailing recent Russo-American exchanges over differences between the two countries. It was distributed in London by the Soviet Monitor.

Referring to the first of the 11 points in which the United States blamed the Soviet Union for failing to reach an agreement, Tass said:

"In reality, the decision of the United Nations General Assembly... on the necessity of speedier general reduction of armaments is not being put into practice, in the first place because the government of the United States has taken a position opposing this decision of the General Assembly."

"Contrary to this decision on a general reduction of armaments," Tass said, "the United States government is openly pursuing a policy of an ever-greater increase of its armaments and armed forces, assigning ever fresh billions of dollars for these purposes."

"It is understandable by everyone, however, that an agreement between the U.S.S.R. and the United States for implementing the decision on a general reduction of armaments would favor fulfillment of this extremely important task."

Repeating Russia's oft-proclaimed support of "unconditional prohibition of atomic weapons," Tass said the United States "for the past two years has rejected the proposal... and proposes so-called international control."

"It should, however, be clear to everyone that only the existence of a decision for prohibition of atomic weapons would give a means to establishment of international control, in order to insure real implementation of this decision."

JEWS FAIL IN ATTACK ON ZION GATE

Underground Tunnels Are Battlegrounds

AT ZION GATE in Jerusalem—(AP)—Waves of Jewish soldiers charged Arab Legion positions in the Zion Gate early Saturday but failed to reach their comrades hemmed into a corner of Jerusalem's old walled city.

The Legionnaires from Trans-Jordan and 600 troops of Israel fought at close quarters with grenades and tommyguns on a battleground lit by flares and a bright spring moon.

Several times the Jews swept up the walls on the south side of the old city only to be thrown back. Some of them attempted to climb over the wall over the top of an armored bus which was used like an ancient assault tower.

A Legion commander said the Jewish attack was inspired by a wireless SOS in which the hard-pressed Jewish garrison inside the walls appealed for help. He described the action as the fiercest in the five-day battle for Jerusalem.

After daylight the Legion's battle against the Jewish troops inside the walls was resumed. Dynamic snails again blasted weatherbeaten stone tenements packed around Beit Yaacov Synagogue, otherwise known as the Hurva (ruin). That synagogue is the chief remaining Jewish fortress inside the walls.

Giant holes gaped in all four walls of Tiferet Synagogue to the east where Jewish snipers had kept on firing even after the Legionnaires entered.

Heavy Arab firing also was heard in the Jewish districts of modern Jerusalem.

With Legionnaires before and behind them, the Jews inside the walls crept through underground passages and caverns to try to reach their maximum strength to bear against Arab attacks and to avoid bombardments. Many of the passages date from Roman times and are as much as 70 feet deep.

The Jewish garrison eventually might tunnel through the Turkish wall of the old city and attempt to withdraw under cover of Mount Zion to the safety of Jewish fortifications at Dominus.

Pampa News

Hughes Is Opposing New Housing Bill

"The nine billion dollar Taft-Elliender-Wagner public housing bill now pending in the House of Representatives at Washington, will cost Pampa at least \$1,240,000," R. G. (Dick) Hughes, local builder, warned yesterday.

Hughes has just returned from Washington where he testified before the House Committee on Banking and Currency.

Hughes pointed out that the bill would cost \$9,075,000,000 without counting contingent liabilities which might add a great deal more to this figure. He was particularly emphatic in pointing out, further, that \$6,400,000,000 of this would be federal taxpayers' contributions—subsidies—to rentals of public housing. This public housing, in itself, can take tax money away from the city, he warned.

"Disregarding the contingent liabilities which the people of the United States might have to assume under the indefinite commitments of the Taft-Elliender-Wagner housing bill," Hughes said, "everyone of the 145,000,000 men, women and children in the United States will have to pay \$62 in taxes for this bill alone. And, this is the very minimum. With our population of over 20,000 that means Pampa would have a Taft-Elliender-Wagner tax bill of at least \$1,240,000."

"I haven't tried," he added, "to calculate the amount which each federal taxpayer in the community pays over the wall over the top of an armored bus which was used like an ancient assault tower."

Further, Hughes observed, although all parts of the country are going to be asked to pay for the \$6,400,000,000-plus public housing program, only a few big cities will benefit from it if previous public housing patterns are followed.

"Why should we in Pampa, for instance, be asked to pay for housing for New York slums?" he asked. "Our own community, has problems of its own."

Over and above the taxes which residents of Pampa will have to pay, Hughes asserted, there will be tax losses to both the federal government and to the community involved, wherever public housing units are constructed.

The Democrats will pick an at-large delegation with eight votes in Illinois Thursday to complete a 60-vote unopposed group, and select a 16-vote delegation in Kansas Saturday.

U. S. Consul In Jerusalem Is Wounded

WASHINGTON —(AP)—Thomas C. Wasson, United States consul general at Jerusalem, and a member of his staff were wounded Saturday in the first major incident of the battle for the Holy City to involve Americans.

The top U. S. representative in Palestine, Wasson, 52, was wounded "gravely" by a sniper as he braved gunfire in the streets in trying to arrange a cease fire agreement between Arabs and Jews, the State Department reported.

This official account was given: A member of the three-man United Nations Security Council Truce Commission, Wasson was returning on foot from a meeting of the group at the French Consulate.

Just outside the American Consulate, a 30-caliber bullet passed from an unidentified sniper felled him.

After first aid treatment, he was taken in an armored ambulance to the Hadassah English Mission Hospital. Three doctors gave him better than an even chance to recover. The bullet passed through his right arm and chest.

Herbert M. Walker, member of a naval communications unit which maintains a radio link between Jerusalem and Washington, was hit by machine gun bullets near the Consulate General. Dispatches indicated this was a separate incident.

Walker, 27, is a Navy chief engineer. A native of Mountainburg, Ark., he lists his next of kin as a brother, L. C. Walker, of 208 S. Poydras St., Dallas, Texas.

A third member of the consulate staff, which numbers about 60, Thomas Gannon, a guard, meanwhile was reported out of danger from a wound received May 14. He was shot in the back.

The reports on Wasson came from William C. Burdett, Jr., 29, a vice consul who temporarily took over his chief's job. Secretary of State Marshall quickly responded with a message saying he was "deeply grieved" by the shooting and commending the entire staff for the "courageous and able manner" in which they were carrying out their duties in the midst of the battle.

Lower Retail Meat Prices Are Possible

By the Associated Press

The possibility of larger meat supplies at lower retail prices cheered housewives Saturday as city meat packers prepared for a return to work in meat plants throughout the nation Monday.

Sources in the meat packing industry said settlement of the 67-day-old strike against three of the "big four" meat packers Friday probably would result in a spurt of livestock receipts for two or three weeks. Bigger receipts, they said, probably will be reflected in lower retail prices.

The strike was ended against Swift, Armour and Cudahy on the basis of a nine-hour wage increase offer the CIO Packinghouse Workers Union previously rejected. The packinghouse workers had sought 29 cents.

However, the union said the strike against Wilson and Company's seven plants will continue. The union also had decided to rehire any strikers involved in alleged strike violence although the other packers agreed to submit this issue to arbitration.

Wilson countered Saturday with a challenge for the union to take back to work under Wilson workers under supervision of a government agency. The company said its workers were overwhelmingly in favor of returning to work but that the union had not submitted company proposals to them.

The union replied, accusing Wilson of "misrepresentation, half-truths and completely erroneous statements of fact."

Besides the Wilson strike, the union continued its work stoppage at scattered independent plants and at Swift, Cudahy, and Armour plants in Denver. The Denver local said it still had differences to settle with the companies.

Plans for Drafting Youths, 18, Junked

WASHINGTON —(AP)—All congressional plans for drafting 18-year-old youths were reported junked yesterday.

A member of the Senate Armed Services Committee said 12 of its 13 members have agreed to revise its selective service bill to strip out the section calling for one year of compulsory military training for 161,000 of the 18-year-olds.

The member asked not to be quoted by name.

Under the new proposal, 18-year-olds would be allowed to volunteer for one year of service. After that, they would have to serve four years as members of the National Guard or other reserve units with regular drill periods and summer training camps or cruises.

Men from 19 through 25 years old would be subject to drafting for two years.

Army, Navy and Air Force leaders have estimated that they will get 250,000 volunteers for the one-year training program, far more than the 161,000 who were to have been drafted.

House Speaker Martin (R-Mass.) last week announced that the House would not accept a new scheme for drafting 18-year-olds as provided in the Senate bill.

The new compromise still left unsettled a touchy question about racial segregation in the armed services.

Swim Pool Opens Soon

The Municipal Swimming Pool will open next Sunday for the summer season under the management of Mr. and Mrs. James W. Love, City Manager Steve Matthews announced yesterday.

The pool will be open daily from 8 a. m. to 7 p. m., and from 1 to 7 p. m. on Sundays. Anyone wishing to arrange for special parties during the time he was gainfully employed by the Schneider Hotel.

The charge was filed last week by L. P. Fort, manager of the local employment office.

A warrant was issued for Shelton, but the man, according to County Attorney Bruce Parker, returned to Pampa and visited the employment office where he was told to see the county attorney.

Parker said he told Shelton he would refund him the time to make the grand fund to the state or be prosecuted.

Life guards who have Red Cross life saving badges are needed to work at the pool, Love said yesterday.

Mrs. Love, the former Anna Belle Lard, has worked at the pool as guard several years, and assisted her mother in operating it last year. She has had her life saving certificate since 1937 and plans to teach swimming this summer if enough are interested.

Season ticket prices of \$6 for adults and \$4.50 for children under 16, and single admission prices of 35 cents for adults and 25 cents for children were announced. Cents and towels can be rented at the pool.

Both Parties Will Split At Parleys

By D. HAROLD OLIVER

WASHINGTON —(AP)—Texans, who do everything in a big way, will stage two three-ring political shows this week.

Both parties will hold conventions there Tuesday. Three factions will be whipping it up in each. The Democrats will name a 50-vote national convention delegation, the Republicans will pick a delegation of 33.

The odds seem to favor another Dixie job at President Truman's nomination at the Democratic meeting. The punch may lack the steam of those tossed by Alabama and South Carolina.

Senator Taft of Ohio is conceded a majority of the Republican delegation for first ballot purposes, but representatives of Gov. Thomas E. Dewey and Harold E. Stassen will be on hand looking after their interests.

With the Oregon primary out of the way, delegate-picking will slacken off this week. Republicans, aside from those in Texas, will name only 11 other delegates in North Dakota Monday.

The Democrats will pick an at-large delegation with eight votes in Illinois Thursday to complete a 60-vote unopposed group, and select a 16-vote delegation in Kansas Saturday.

By the end of the week, the (See PARTIES, Page 8)

BLAST TAKES TEN LIVES—Rescue workers carried out ten victims from the ruins of the Koppers Coke Co. laboratory in Kearney, N. J., after an explosion wrecked the building. Nine died in the building wreckage, and another died in a hospital. The blast was heard 20 miles away.

PAAF Sale Set Tuesday

The last of the war surplus personal property at the Pampa Airfield will be offered for sale from 10 to 11 a. m., after which announces the War Assets Administration.

The property to be offered consists of the following: 2 Lube oil clarifiers, Briggs Model MC-3; 480 Cartridges, Briggs D-220, for lube oil clarifiers; A ship metal former, tinners' slip roll, manufactured by Exoto.

Acquisition cost of the property totals more than \$6500. It will be offered on a "spot bid basis," and veterans will be given priority. All sales will be made in accordance with WAA standard terms and conditions covering spot bid sales.

The property will be available for inspection in building T-905 from 10 to 11 a. m., after which awards will be made to high bidders.

May 29 to Be Poppy Day

Next Saturday, May 29, has been designated as Poppy Day in Pampa, according to a proclamation signed yesterday by Mayor C. A. Huff.

The poppy sales are being conducted under the sponsorship of the American Legion Auxiliary, with Mrs. D. L. Lullier as chairman of the Poppy Sale Committee.

45 Boy Scouts to Receive Awards at Court of Honor

Forty-five Boy Scouts will receive awards at the Santa Fe Austin's Junior High School Art Class were Louise Goddard, who won the \$5 first prize, Jimmie Cash, who took the \$3 second prize, and Jackie Smart, winner of the third prize of \$2.

The winning posters have been sent to the National Auxiliary for judging and will be displayed later in downtown store windows.

John Young, of Troop 22 and 15-year-old son of Mr. and Mrs. J. B. Young, will receive the highest award possible for a Boy Scout, the Eagle Scout award. David Lamb of Troop 14 will be presented his Eagle Bronze Palm award.

One Scout, Bob Hulse, of Troop 22 will be awarded his Life Scout pin. Five boys will become Star Scouts. They are James Taylor, Troop 4, Jerry Colley, Explorer Troop 80 and Lenny Carlton and Gilbert Berry, both of Troop 80.

Six Troop 22 boys receiving their first class awards are James Lunsford, J. C. Forsman, Danny O'Brien, Bill McPherson, Pat Mitchell and Dickie Maples.

Second Class awards will go to ten boys from Troop 22, Jimmy Calhoun of Troop 80 and Darrell Bozarth of Troop 4. The 10 boys from First Baptist Church's Troop are Leonard Flippin, DeWey Cud-

ney, Homer Sherer, James Holmes, Bobby Schiffman, Barton Lockhart, Gladly Brown, James Luedcke, Sam Anderson and Pat Mitchell. Russell Cartwright, Scoutmaster of Troop 22 will open the ceremonies and George S. "Pinky" Vineyard will serve as chairman of the court.

Dr. H. L. Wilder will present 66 merit badges to 20 Scouts. Ten boys from Troop 22 receiving badges are Dickie Maples, Pat Mitchell, John Young, John Allford, Ed Langford, Bob McPherson, Bobby Allford, David Cartwright, Bob Hulse and Bill McPherson.

Four boys from Troop 14 earning merit badges are Jim Campbell, Bill Loving, John Friar and David Lamb. Charles Gates, Gilbert Berry and Lenny Carlton of Troop 80 also will be presented merit badges, as will James Lee Taylor, Troop 4, Ed Ward, Prince, Troop 20 and Jerry Colley, Explorer Troop 80.

Following the awards Paul Beismann, executive of A. D. & B. Walls Area Council, will discuss summer camp plans and explain the new requirements for Scout advancement.

Unemployment Pay Refund Demanded

George W. Shelton was given until Friday, May 28, to repay the Texas State Employment Commission \$312 he obtained through unemployment compensation payments during the time he was gainfully employed by the Schneider Hotel.

The charge was filed last week by L. P. Fort, manager of the local employment office.

A warrant was issued for Shelton, but the man, according to County Attorney Bruce Parker, returned to Pampa and visited the employment office where he was told to see the county attorney.

Parker said he told Shelton he would refund him the time to make the grand fund to the state or be prosecuted.

Life guards who have Red Cross life saving badges are needed to work at the pool, Love said yesterday.

Mrs. Love, the former Anna Belle Lard, has worked at the pool as guard several years, and assisted her mother in operating it last year. She has had her life saving certificate since 1937 and plans to teach swimming this summer if enough are interested.

Season ticket prices of \$6 for adults and \$4.50 for children under 16, and single admission prices of 35 cents for adults and 25 cents for children were announced. Cents and towels can be rented at the pool.

THE DRILLER'S LOG

By KEN BENNETT

Murray Body, secretary for the API, informs this column that there will be a regular monthly meeting to be held at 8 p.m. Thursday at the Palm Room in Pampa. This is a meeting of interest to all oil men of the area and you are urged to attend.

Theme of the talks will be "The oil producers number one problem in the Panhandle." There will be several speakers. From Harvey Longren, Texas Company engineer, of Pampa, will talk on "Paraffin." Frank Lite, Phillips Company engineer, will have as his subject "Various methods of removing paraffin from tubing and lead lines." Max Harrison, Kewanee Oil and Gas engineer, will talk on "Results of acidizing to relieve congested pay zones." There will be other entertainment and a local Barbershop group will sing. Refreshments will be served following the meeting.

The oil show in Tulsa was the big news all through the week. Every person who attended the show that yours truly has had the chance to talk with was tremendously impressed with this year's exposition. All are agreed that it was the biggest and most enlightening of all the Tulsa shows, which is acknowledged as the world's largest. I am very thankful to E. F. Kennedy, Standford for the Sunday issue, May 16, of the Tulsa World, which was dedicated to the exposition. For any of those unfortunate, such as myself, who were unable to attend the show, this issue is a very interesting and informative. It has many articles of interest, and from it you can get a fair glimpse

of what the Oil Show is all about and why it is growing in importance each year.

Naturally it would be impossible to list the complete roster of those attending from this area, but here are a few of them. From Magnolia, J. L. Brown, gasoline department, S. B. Crosby, and H. A. Hanks. From Shell Oil Co., E. A. Thoes, Reuel Casey, Allen Say, and G. M. Walker. From Sinclair, K. E. Thornton. From Cities Service, C. P. Conover, W. L. Bossa, E. H. Edgerton, and L. E. Cool. From Skelly, Mr. and Mrs. John Rush, Mr. and Mrs. E. J. Haslam, Mr. and Mrs. P. E. Stephenson, Helen Scott, L. Barrett, Tom Ingram, J. M. Crawford, Claude Coffey, Clarence Lasher, G. I. Harkrader, Denver Allen, Clinton Dehis, Bob Farley, Ralph DePee, Melvin Turner, Joe Edwards, and Ray McKee. From Texas Company, Dan G. Libb, an engineer, of Pampa, will talk on "Paraffin." Frank Lite, Phillips Company engineer, will have as his subject "Various methods of removing paraffin from tubing and lead lines." Max Harrison, Kewanee Oil and Gas engineer, will talk on "Results of acidizing to relieve congested pay zones." There will be other entertainment and a local Barbershop group will sing. Refreshments will be served following the meeting.

Speaking of new things exhibited at the Tulsa Oil show, I was reminded of this bit of news submitted by Howard W. Blakelee, Associated Press science editor. This is one of the many new inventions shown at the oil show. Here is Blakelee's story: "The 'Rabbit' is a steel jumping jack that takes off from the bottom of an oil well, is going to give the motorist much of his gasoline in the future. The Rabbit is a new kind of oil well pump, exhibited at the International Petroleum Exposition. It has been perfected after several years work by the National Supply Co., of Pittsburgh. The Hughes Tool Co. of Houston and the Taylor Instrument Co. of Rochester, N. Y. Much of the nation's oil has to be pumped. More and more of it is at the bottom of wells getting too deep for the usual pumps. Wells now go down three miles with four miles in prospect and the Rabbit is expected to be able to go to any depth. This mechanical animal is a steel cylinder, with a hole down the center and right through the bottom. As seen in a big glass model at the exposition, the Rabbit drops down a pipe, which has a larger pipe all around it. As he goes down, the Rabbit's bottom is closed and the force of his landing opens this closure. Oil flows up through the Rabbit, pouring out of his head. It fills the pipe with quite a slug. In a real oil well, this slug is from one to six barrels. The bottom valve closes and then this automaton suddenly starts upward, with no visible explanation. He leaps with about the speed of a scared jack-rabbit and this gave him his name. He keeps going up, at a fair automobile rate of speed, pushing the oil to the top of the well. The invisible motive force is gas. This is pumped under pressure down the pipe enclosing the Rabbit's runway. It is timed to flow underneath his seat when his bottom valve closes. The gas pressure chases him to the top. The timing controls are automatic and were made by the Taylor Company. The Rabbit comes down by gravity, and fast. But there is enough gas in the tube to cushion his landing against damage. The pushing gas is caught at the top and used endlessly. The gas is naturally present in the well, not enough to raise oil, is also used to boost the Rabbit. One Rabbit well is producing

at work after spending her vacation in Los Angeles, Calif., visiting her sister.

City Servicing. Mrs. E. H. Eaton has returned from Carnegie, Okla. where she attended the funeral of her father, William Turner, who had been ill for several months. Bob Griffin, in the production office at Bartlesville, Okla., has been spending several days in Pampa. The Pampa camp had two girl graduates this year. Jackie Wilson from Pampa High School, and Coralea Coble from the Eighth Grade. Patty Williams, daughter of Mr. and Mrs. C. H. Williams, was also one of the High School graduates.

Be sure to read Max Skelton's article on this same page. Max has evidently been attending the big tour of the tideland drilling operations recently conducted by Humble Oil, and his stories on the results of these tideland wells should be of interest to every person connected with the oil industry.

Speaking of new things exhibited at the Tulsa Oil show, I was reminded of this bit of news submitted by Howard W. Blakelee, Associated Press science editor. This is one of the many new inventions shown at the oil show. Here is Blakelee's story: "The 'Rabbit' is a steel jumping jack that takes off from the bottom of an oil well, is going to give the motorist much of his gasoline in the future. Twelve New Notices of Intent to Drill Filed With Commission

Twelve notices of intent to drill were filed at the local Oil and Gas Office of the State Railroad Commission during the past week, officials reported yesterday.

Activity for the past week as far as filings were concerned was pretty well scattered. Gray County, reporting three new filings, led the field. Hutchinson, Moore and Wheeler counties each reported two new filings. One new location was listed for Deaf Smith, Hansford and Sherman counties. The same report listed one well to be deepened in Gray County and one in Hutchinson County.

INTENTS TO DRILL

Deaf Smith County—Humble Oil and Refining Company, V. Stambaugh, et al. No. 1. Capitol Land Leagues Survey, 660' from S and E lines NW-4 Sec. 20, T3N, R1E, 38 miles W of Hereford.

Gray County—Sinclair Prairie Oil Company, Phebe A. Vorey No. 6, 1 1/2 GN Survey, 330' from W and 160' from N lines NE-4 Sec. 43, Bk. 3, 6 miles SE of Pampa. Gibson Oil Corporation, Johnnie Hines No. 3, I & GN Survey, 915' from N and 330' from E lines S-2 of S-2 Sec. 136, Bk. 3, 3 miles S of Pampa. The Texas Company, E. Key No. 6, B & B Survey, 330' from S and 1850' from E lines Sec. 1, 5 miles E of Lefors.

U. S. 4-Hers to Go Overseas

WASHINGTON—(AP)—Seventeen present or former 4-H Club members from 17 states have been selected to take part in an International Farm Youth Exchange project this summer.

They will go to seven European nations and youths from the cooperating countries will send some to the United States.

The Department of Agriculture Extension Service said the 17 chosen were nominated by state extension officials.

The party will sail from New York June 17 on the Marine Jumper for Plymouth, England.

Going to the Netherlands: Roy Elmore Hranicky, 20, Orange Grove, Tex., who is a student at Texas College of Arts and Industries.

Aborigines of America are called Indians because Columbus and his men thought they had circled the globe and reached India.

A periscope consists of a revolving prism which reflects horizontal light rays down a vertical tube.

Skelton Reviews Texas Oil News

By MAX B. SKELTON
GRAND ISLE, La. (AP)—Gulf Coast tideland oil operations are beginning to assume massive proportions.

Expensive drilling platforms now dot the horizon along the Louisiana Coast and indications are that by fall there may be 50 or more rigs in operation.

Oil companies, despite the prolonged controversy over federal or state ownership of the submerged lands, are making rapid strides toward producing oil from open, unprotected waters of the gulf.

The latest developments include: The first commercial oil producer in deepwater, Kerr-McGee's Discovery Well 10.5 miles off Terrebonne Parish on May 4 began flowing regularly at rates as high as 600 barrels daily. The well is in water 17 feet deep.

Magnolia Petroleum on May 13 said its well eight miles off Coon Point showed 1,027,000 cubic feet of gas daily, with a trace of distillate, when tests were made with perforations at 7268 feet. Other tests now are in progress.

Humble Oil and Refining Company on May 18 announced that its first tideland project, 7.5 miles of Grand Isle, topped salt at 7607 feet and found an oil sand at 7094-7104 feet. The company also said five rigs will be in operation off the Louisiana Coast by fall.

A second Kerr-McGee project on May 14 had reached depth of 12,600 feet and had encountered several minor oil and gas showings.

Texas-Louisiana oil explorations on coastal land have centered around salt deposits in many areas and companies leading current tideland explorations hope to find a similar number of salt domes in the ocean bed immediately adjoining the two states.

Five such tideland salt domes have been confirmed to date.

J. Ben Carsey, assistant chief geologist for Humble, last week said recent geophysical information indicates the Continental Shelf adjacent to Louisiana may not have as many domes as the adjoining land area.

He reported, however, that the survey indicates there are 19 "topographic features" or hills on the ocean bed within 3.5 miles of the Louisiana coastline, 51 within 10.5 miles and 245 within 31.4 miles.

Carsey said any attempt to estimate the ultimate production from the Continental Shelf by applying the known production of adjacent land areas would be to assume that a similar number of structures would be found in the gulf.

By such an assumption, he said, the present 5-cent gasoline tax, the Continental Shelf along Texas and Louisiana might be expected to hold 4 to 5 billion barrels of oil within the 31.4 mile zone, 40 million barrels within the 10.5 mile zone, and 300 million barrels within the 3.5 mile zone.

Louisiana. The new administration, headed by Governor Earl K. Long, has introduced legislative bills designed to increase the state gasoline tax from seven to nine cents per gallon, boost the crude oil tax from a 6 to 11 cent range to 13 to 20 cents, and double taxes on most other natural resources except sulphur.

GERMAN PRISONERS
KUTNO, Poland.—(AP)—Soviet Russia is sending thousands of prisoners of war back to Germany. Railway freight cars, loaded with German soldiers in dirty, tattered green uniforms, are almost daily being transported through this railroad center, halfway between Warsaw and Posen.

Railway employees estimated as many as 2,000 prisoners comprise each transport. The Germans are being taken to the Soviet zone in Germany.

The Gobi Desert is in Mongolia, China.

Statistical records: Oil producers and refiners set two industry records for the week ending May 15 and came close to breaking another.

Crude production was placed at 5,422,600 barrels daily, 7200 barrels more than the previous high record set for the week ending April 2.

Refiners processed crude at the rate of 5,640,000 barrels daily, an increase of 3,000 barrels over the previous mark established the week of January 3.

Gasoline production was within 22,000 barrels of a new mark, with a total production of 17,141,000 barrels for the week.

Gasoline stocks, however, continued to decline, dropping to 108,385,000 barrels, as compared with 109,813,000 for the previous week and 99,041,000 for the same week last year.

Wyoming—Pure Oil Company, in announcing a new well in Wind River Valley, 38 miles west of Casper, made claim to the world's deepest oil producer. The well came in at a depth of 14,300 feet, flowing 1413 barrels of 44 gravity through a 3-4 inch choke in 41 hours.

Illinois—A publication of the Illinois Petroleum Marketers Association says long-range highway projects under consideration indicate bills will be introduced into the next legislature to increase

Jops Plan Statue To Faithful Dog

TOKYO —(AP)— Dog lovers have arranged for a new statue of Hachiko, Japan's most famous dog.

Hachiko became famous in the 20s. Each night he met his master at the busy Shibuya Railway Station here. When the master died, Hachiko did not under-

stand. Nightly he met the commuter trains for 11 years looking for his master. After he died in 1934, a statue was raised by commuters to his memory. They grew accustomed going to meet "in front of Hachiko."

Lady Godiva rode naked through the streets of Coventry to protest onerous taxes on her husband's subjects.

This Is an Electron at Work

The bright marks on the photograph plate reproduced above are the first definite tracks of an electron ever recorded. The electrons, which make up atoms, sped through a special photographic emulsion, striking grains of silver and thus making a traceable path. X-rays, shot through a lead filter, started the electrons flying. This picture, greatly enlarged, was made at the Eastman Kodak laboratories in Rochester, N. Y.

Texas Cities Seek Way to Ease Their Growing Pains

AUSTIN —(P)— Ease for their growing pains is sought by Texas cities in a series of regional meetings over the state.

No matter what is said or done at the eight regional meetings of city officials arranged by the executive committee of the league, the final decision will have to be made by the Legislature.

Many cities—such as Austin—have already tackled the problem with tax reevaluation programs that are bringing more revenue from levies on real property. Many cities are doing all they can to seek out and add to their tax rolls personal property which previously had not been taxed, although it was taxable.

But they feel that isn't the entire answer. Most city governments feel the Legislature should provide additional sources of revenue above and beyond real or personal property. The demands the cities will make on the legislature will probably be made known at the annual meeting of the league in El Paso Oct. 4-5-6.

This state is now more urban than it is rural in population. That gives the cities more political weight than they once had, and chances are good they will throw that weight around considerably when the Legislature meets next January in regular session.

The trouble is, the cities have grown fast, demands for municipal services have increased rapidly, but income has not kept up with outgo. Naturally, the purchasing power of the city government's dollar has shrunk and it

Work Begins on Grapevine Dam

DALLAS —(P)— Two miles northeast of Grapevine men and great machines work night and day, moving earth to form Grapevine Dam across the valley of Denton Creek.

When completed, the federal reservoir, built partly with Dallas and Park Cities funds, will furnish 135,000 acre feet of water storage for metropolitan Dallas, besides providing flood control as a key part of the upper Trinity system.

The dam for the \$12,000,000 lake already is taking shape.

The dam started from the north abutment and is gradually moving across the valley.

In golf, a hole made in one stroke less par is called a birdie.

Excelsior Springs, Mo., May 22—So successful has a specialized system proven for treating rheumatism and arthritis that an amazing new book will be sent free to any reader of this paper who will write for it.

The book entitled "Rheumatism," fully explains why drugs and medicines give only temporary relief and fail to remove the causes of the trouble.

The Ball Clinic, Excelsior Springs, Mo., has perfected a specialized system of treatment for rheumatism and arthritis combined with the world famous mineral waters

has to pay its employees more to keep them from starving to death.

The League of Municipalities, in announcing the regional meetings, urged city officials to bring their state senators, representatives and candidates for the Legislature. They want to show them first hand what the needs of the cities are.

In locating the regional meetings, the league tried to make them as accessible as possible. The host cities were chosen on the basis of the number of cities within approximately 100 miles, plus highway facilities.

The Panhandle meeting will be held at Amarillo May 31.

Garden Clubs Are Sowing 'Peace Seeds' Abroad

By KAY SHERWOOD
NEA Staff Correspondent
NEW YORK—(NEA)—Home-grown fresh vegetables will add their healthy weight to the dinner tables of Europe this summer, thanks to American gardeners.

Through the "Seeds of Peace" project of the National Council of State Garden Clubs, 70,000 kits of vegetable seeds have been shipped to Germany, France, Italy, Greece, Austria and the Benelux countries.

Each kit contains 13 packages of different vegetable seeds and is designed to supply a family of five with fresh stuffs for four months. Also included in the kit is a package of flower seeds so that gardens will be pretty as well as practical. Simple planting instructions written in the native languages are tucked into each kit.

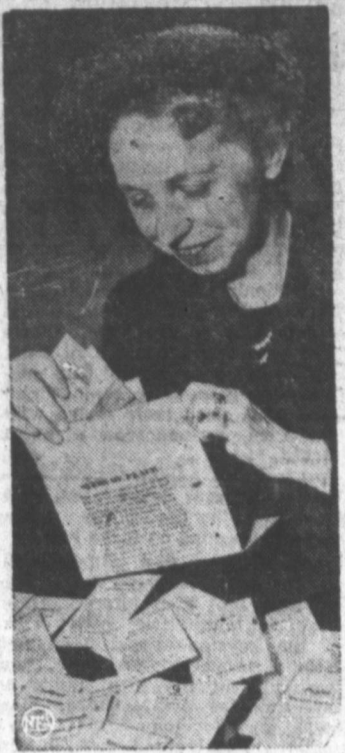

First claim on the seeds, which were shipped and distributed through the Church World Service, was given to persons who have no other means of eking out limited food rations. Already gardens are sprouting near schools, orphanages, displaced persons camps, and in the back yards of city dwellers.

Mrs. Lewis M. Hull, of Boston, N. J., president of the National Council of State Garden Clubs, terms the project an "overwhelming success."

"The cooperation of American gardeners has been wonderful," she says. "Garden clubs in every state contributed money to buy the seeds. A committee of horticulture experts worked out the list of vegetables which would grow in European soil and would also please the palates of the people."

"A large seed company packaged the kits at cost, and all the seeds have been shipped for this summer. The future of the project will be determined at the National Garden Club convention in Lexington, Ky., this month."

"However," says Mrs. Hull, "I think it is safe to predict that 'Seeds of Peace' will be continued as long as the need exists."

Local Girls to Attend Camps

Three Girl Scout camps will be attended by Pampa girls this summer, says Mrs. K. E. Thornton, executive of the local Girl Scout Association.

Girls in Troop 25, whose leaders are Mrs. O. L. Statton and Mrs. Roy Guthrie, will attend Camp Sullivan its opening day, tomorrow. Other Pampa troops plan to attend the camp later in the summer. They will stay at the camp from one to three nights.

Troop 2 girls under the leadership of Mrs. Noel Dalton are going to Camp Sullivan this week where they plan to make a log book so the Pampa troops can insert the most interesting happenings of the camp. After the camp closes a narrative report will be taken from the log book and presented at Girl Scout meetings.

Six intermediate Scouts are planning to attend Camp Kiwanis in Amarillo from June 6 to June 17. They are: Katherine Mathieu, Marilyn Fitzgerald, Lou Ann Brooks, Carole Hughes, Janell Ewing and Donna Conley.

Ann McNamara, Senior Scout, will be the assistant unit leader at Camp Elza Sellgman in Albuquerque. She will leave Pampa June 20 to receive camp training instruction before taking her seven-week job in Albuquerque.

John Branson In Recital

John Branson, son of Mr. and Mrs. Guilford F. Branson, 701 N. Somerville, will be presented in recital at the First Methodist Church here at 7:30 p. m., May 30. It was announced yesterday.

Branson, who last year, completed a two-year course in piano at Sherwood College of Music, Chicago, is at this time at Tulsa U. studying music under Mrs. Helen Ringo, who, with her husband, heads the department there.

He was presented in junior piano recital at Tulsa U. on May 13. He has played before local groups on various occasions during visits here with his parents.

5 Divorces Are Granted

Five divorces were granted Friday in 31st District Court by Judge Lewis M. Goodrich, all of the plaintiffs charging cruelty in their petitions.

Betty Jane McCall Black was divorced from William E. Black. They were married in June, 1946 and separated in April, 1948.

Estelene Thornburg was granted a divorce from Ellis M. Thornburg. The plaintiff's petition declared they were married in December, 1934 and separated in March, 1948.

Pearl E. Lea was divorced from Walter W. Lea after being separated from her husband in February, 1948. They were married in January, 1945.

Jessie McCluskey was granted a divorce from R. V. McCluskey after less than a year of married life. The couple was married in November, 1947 and separated in February, 1948.

Marion R. Weidler was divorced from Harold C. Weidler following 20 years of married life. They were married in October, 1927 and separated in October, 1947.

White Hurts Oilers to Win Over Clovis

Lady Golfers Retain Curtis Cup for U.S.

BIRKDALE, England —(AP)—America's links queens retained the big silver Curtis Cup Saturday by defeating the best women golfers that England, Scotland and Ireland could offer.

The visitors triumphed in four of the six singles that made up yesterday's program and halved a fifth despite rain and wind. That lifted their score to 6 1/2 to 2 1/2, equalling the widest margin of victory in the competition that started in 1922.

The U. S. women never have been defeated in Curtis Cup play. In addition to the Curtis Cup, the U. S. now holds the Walker Cup, involving male amateurs; the Ryder Cup, for male professionals; and the British Women's Amateur Title. The British Open Title stayed on this side of the Atlantic last year by a single stroke.

Yesterday the United States' forces won two of the three four-some matches and here is how they added to their totals today:

Grace Lenczyk of Newington, Conn., defeated Jacqueline Gordon, England's foremost woman player, 5 and 3.

Jean Donald of Gullane, Scotland, upset Dorothy Kirby, the Atlanta radio announcer, 2 up.

Mrs. Estelle Lawson Page of Chapel Hill, N. C., defeated Mrs. A. M. Holm of Scotland, 3 and 2.

Louise Suggs of Atlanta, U. S., won against Phylomena Garvey, Irish queen.

Folly Riley, Fort Worth insurance representative, repeated her Florida victory of last winter over Green Ruttle, 3 and 2.

Dorothy Kieley, California flying instructor, mastered Mrs. Zara Bolton, 2 and 1.

Mrs. Bolton was a last-minute substitute for Mrs. Diana Fishwick Critchely, who became ill during the night.

Tigers Have Good Athletic Season

McLEAN —(Special)—Starting off the football season under three coaches, Sanders, Shaver, and McCarty, the Tigers had a fairly good season, winning four and losing five.

Under McCarty Tiger basketball boys team started out slowly to wind up second in the district tournament, losing only to Memphis. The girls also were slow in getting started and finally wound up second in their district tournament losing only to Friona.

This was the Tigers' first year in several years to have a boxing team. When the district tournament came around Vineyard and Andrews managed to take the titles in their weight.

Baseball was also started this year with the Tigers fielding a willing but inexperienced team. The district schedule was divided into halves with the Tigers winning three out of five in the first and losing four and winning none in last half.

Dickson Hits, Pitches Cards To 6 to 4 Win

BOSTON —(AP)—Although slammed for three home runs Murray Dickson Saturday pitched and helped the National League leading St. Louis Cardinals to a 6-4 victory over the Boston Braves before 11,443 fans.

The Cards got off to a two run lead in the first inning on one hit, Nippy Jones' single, which followed three walks issued by Boston starter and loser Johnny Sain, and an error by Bill Salkeld.

Tommy Holmes clouted his fourth homer of the season in the third inning to bring the Braves, who had scored once in the second, into a 2-2 tie.

That deadlock lasted until the seventh when Dickson doubled to left field and scored on Red Schoendienst' right field bingle.

Geoff Heath powdered his fifth homer of the year in the ninth and Salkeld hit his first in the same inning for the Braves' final tallies.

St. Louis 200 090 400—6
Boston 011 090 002—4

Bearden Wins 3rd Straight For Indians

CLEVELAND —(AP)—Rookie Southpaw Gene Bearden won his third straight game Saturday for the league-leading Cleveland Indians, shutting out the Boston Red Sox 7 to 0 on six hits before a ladies' day crowd of 28,997.

The Indians unleashed a 13-hit barrage, including Eddie Robinson's sixth home run of the year.

The game was a scoreless mound duel between Bearden and Boston's Jack Kramer until the fourth inning when Big Eddie Robinson put the Indians ahead by counting a home run with Larry Doby on base.

The Indians counted another run in the sixth when Doby beat out on Vern Stephens' wild throw. Manager Lou Boudreau singled him home.

Kramer retired for a pinch-hitter after six innings. His replacement, Harry Dorish, was treated rudely by the Tribesmen, who belted him for a single tally in the seventh and three in the eighth.

The win gave the Indians two out of three in the series with the Red Sox.

Boston 000 000 000—0
Cleveland 000 201 13X—7

Big Sixth Gives Oilers 10 to 6 Win

An eight run sixth inning gave the Pampa Oilers the necessary margin to hand the Berger Gassers a 10 to 6 drubbing Friday, night at Oiler park.

This gave the Oilers three wins out of four games. Gasser series and moved them three full games ahead of the pack in the West Texas-New Mexico League standings.

Howard Bass, Eldorado, Okla., high school coach, limited the Gassers to 10 hits, four of them coming in the last two innings. He struck out eight, walked three. This was Bass' second win of the season. He has lost two.

The Gassers jumped Bass for two runs in the first, when Verdun Gilchrist walked and then stole second. Carnett doubled to score the Gasser second baseman, Tommy Fox's double scored Carnett before Dobb retired the side.

Tony Range's triple followed by Fortin's fly to center counted one for the local team in the second.

But the Gassers came back in the third for one more on Carnett's second double and a single by Fox.

Singles by Bartholomew, Riley, and Range marked one for the Oilers in the third.

Hugh King, the Gassers' 19-year-old righthanded moundsman, then held the Oilers hitless in the next two frames.

But came the sixth. The first man to face King in the sixth, Joe Fortin clouted his first Oiler Park home run over the left field wall. Fortin has been with the Oilers since 1946.

King retired the next two batters to face him, after which the fireworks began. And before Relief Hurler Jack Marcum could put out the fire a total of eight Oiler runs on eight hits had been scored.

Of the eight sixth inning hits, six were good for extra bases. They included Fortin's homer, and circuit clouts by Range and Jack Riley, and doubles by Harriman, Bartholomew, and Samek.

Griffin Ruled Ineligible by 1-AA Group

White set the Pioneers down in order for the first three innings before Chuck Novotney and Wiley Moore broke his spell with two singles.

White's teammates jumped on Pioneer hurling ace Mel Kramer for two hits and three runs in the first inning as Tony Range connected for his fourth home run of the current season with Jack Riley parked on second. In the second frame, Kramer again ran into trouble with the Oilers getting three more runs on three hits.

The Pioneers first tallied in the fourth inning when Moore and Novotney got their hits and R. C. Otey committed two costly errors at the Keystone sack. John Fortin's Pioneers got their final two runs in the fifth inning on three singles by McGuire, Macnado, and Novotney.

The Oilers tallied two in the fifth on two hits, one in the sixth on three hits, and one in the eighth on one safe base blow.

Three of the Pioneer plate crossings were unearned as the Oilers committed three errors.

The Oilers tallied two in the fifth on two hits, one in the sixth on three hits, and one in the eighth on one safe base blow.

Games Scheduled For McLean Nine

McLEAN —(Special)—The baseball team schedule for McLean's baseball team in the newly organized league has been worked out, and the local nine will have a home game every other Sunday afternoon starting at 2:30 o'clock.

Bill Bailey, new manager of the team, announced this week.

The team met Kelson Sunday afternoon, May 16, and dropped the game by a score of 9-6.

The schedule for McLean is as follows:

May 23: McLean at Wheeler
May 30: Allison at McLean
June 6: McLean at Miami
June 13: Briscoe at McLean
June 20: McLean at Sweetwater
June 27: Shamrock at McLean
July 4: All-Star Game
July 11: McLean at Kelson
July 18: Wheeler at McLean
July 25: McLean at Allison

TGA Championship Captured by White

SAN ANTONIO, Tex. —(AP)—Mrs. Betty Mims White of Dallas captured the 1948 Women's Texas Golf Association championship Saturday defeating Mrs. Leonard Keating of Houston, the defending champion, 3 and 1 in the 36 hole finals at the Oak Hills Country Club.

Though failing to display the sub-par form that put her in the finals the Dallas golfer wrote a brilliant finish to the week-long scramble over the rolling 5,903 yard layout by holing out a 35 foot chip shot on the 35th hole.

August 1: Miami at McLean
August 8: McLean at Briscoe
August 15: Sweetwater at McLean
August 22: McLean at Shamrock

BROOKLYN —(AP)—With Kirby Higbe holding his former Brooklyn mates to four hits and fanning eight, the Pittsburgh Pirates downed the Dodgers 3-1 yesterday to extend the Brooks' losing streak to seven straight. Dixie Walker and Stan Rokj, who along with Higbe were members of the Dodgers last year, drove in the winning runs.

Pittsburgh 110 010 000—3
Brooklyn 010 000 000—1

PHILADELPHIA —(AP)—The Cincinnati Reds rocked four Philadelphia pitchers for 15 hits Saturday to win their first game of the season from the Phillies, 9 to 2. The Reds shelled the Phils' \$60,000 bonus rookie, Curt Simmons, for six runs in two and a third inning to hand him his fourth defeat against only one victory.

Cincinnati 204 012 000—9
Philadelphia 000 200 000—2

ST. LOUIS —(AP)—With Gerry Priddy driving in three of the runs, the St. Louis Browns downed the Washington Senators 4-2 yesterday for their third straight triumph. Ed Pellagrini's home run accounted for the other Browns' marker. The contest drew only 2,993 fans.

Washington 000 002 000—2
St. Louis 000 030 10X—4

Irish Are Champs With 13-2 Victory

SHAMROCK —(Special)—Coach Scott McCall's Irishmen won the District 2-A baseball championship Monday afternoon, defeating the White Deer nine, 13 to 2, in a play-off contest played on the local diamond.

The Irishmen won the first half of the league play. The White Deer club took the second half honors without losing a game.

The play-off game here Monday afternoon decided the championship of the six-team league.

Shamrock's team improved steadily throughout the season, stacking up seven league wins against three losses and defeating Samnorwood in two non-league tilts.

Teams in the league are White Deer, Canadian, McLean, Memphis, Wellington and Shamrock. Shamrock's season record follows:

Shamrock 14, McLean 15; Shamrock 12, White Deer 7; Shamrock 14, Canadian 8; Shamrock 16, Memphis 6; Shamrock 8, Wellington 0; Shamrock 35, McLean 10; Shamrock 11, White Deer 12; Shamrock 16, Canadian 6; Shamrock 18, Memphis 10; Shamrock 7, Wellington 8; Shamrock 13, White Deer 2.

Three Hurlers Shine in TL Performances

By the Associated Press

Pitching seems to be catching up with hitting in Texas League play.

James Avrea, Paul Hinrichs and Pete Bryant all turned in sterling performances Friday night as the Texas League standings were straightened to one team for each place.

Fort Worth's pace-setting Cats were beaten for the second time in as many nights when Tulsa blanked them, 6-0. Dallas hopped on the Oklahoma City Indians, 12-1. San Antonio downed Beaumont, 8-7, and second place Houston, tied with last place Shreveport. The Sports won the opener, 10-4 and Houston the nightcap, 4-0.

San Antonio took over second place completely on the results and Tulsa stayed fourth by a half-game margin over Dallas.

Avrea held the Cats to three hits for the Oilers' first shutout of the year. Charles Kress drove in five of Tulsa's runs with two home runs.

Another home run beat Beaumont, George Corona's seventh of the year coming in the last of the ninth to give San Antonio the decision. It was the Missions' fifth straight victory over Beaumont this year.

Hinrichs kept a perfect won-loss record in notching his third win for Dallas. He held the Indians to six hits as his mates collected ten for an easy win. He did not allow an earned run.

Bryant turned in a two-hit performance as Houston bounced back to blank Shreveport in the second game of the twin bill. The Duffins concentrated their four runs in the fourth. In the opener, Shreveport called its own shots.

An early armed ship of the American navy, the Monitor, was called "a cheese box on a raft."

THERE'S a big day coming soon—the day when you get your diploma. At your graduation exercises you'll hear two things mentioned often—the *opportunities* and the *obligations* of manhood. Those aren't just words. They deserve the serious thinking of every high school graduate.

As an American citizen your opportunities are greater than in any other country on earth. And for that very reason you have an obligation to defend America and its freedoms—to make this way of life secure.

By enlisting in the Army or Air Force after graduation you will be discharging your debt to your country. At the same time you can take advantage of one of the finest opportunities ever offered a young man.

of the four courses you have selected, and a place will be reserved for you in that course. Then you enlist for 3, 4 or 5 years, and after passing the physical and mental examinations and completing basic training you will be guaranteed training in your chosen field.

The Air Force offers a similar opportunity in its Aviation Career Plan, giving you a pre-enlistment choice of 3 among the more than 40 USAF Specialist Schools. There is no better way to get a start in the great and growing field of aviation.

Either plan gives you good pay, excellent training and a splendid chance for advancement in a real career. You can get full information, including lists of available Specialist Schools and Technical Courses, at your nearest Army and Air Force Recruiting Station.

CHOOSE YOUR FIELD OF SPECIAL TRAINING BEFORE YOU ENLIST!

If you are 18 to 34 (17 with parents' consent) and a high school graduate, you can select your course of training in the Army or the Air Force before enlisting.

Under the Army Technical School Plan you can specify two different courses that appeal to you in each of two fields. The Army will check to make sure there is an opening in one.

Feminine Team Organized

Pampa will have a ladies softball team! Yes, after much discussion and arrangements, final plans have been made for the organization of a ladies softball team in this city.

The team will consist of local women who are interested in organizing a team—preferably married ones. Eight ladies have already signed the roster but more players are needed.

Several surrounding cities have organized teams and have been searching for games. With the organization of a local team comes the promise of competition and lots of entertainment.

All ladies who are interested

New Jersey Irish

SOUTH BEND, Ind.—(AP)—The Notre Dame football team will have its first meeting this afternoon at 4 at the ball park by Sam Houston School.

The team will consist of local women who are interested in organizing a team—preferably married ones. Eight ladies have already signed the roster but more players are needed.

Oley's Hitting Leads Oilers For Fourth Consecutive Week

For the fourth consecutive week, R. C. Oley, diminutive second sacker for the Pampa Oilers, paced the Oiler hitting with a hefty .453.

The slugging keystone baseman is spending his third season with Grover Seitz's Oilers and is leading the Oilers in runs scored, hits, triples, home runs, runs batted in, and is tied for the team lead in doubles. Joltin' Joe Fortin, Oiler rightfielder, follows Oley in the Oiler batting averages and is tied with him in the two base hit department. Fortin, Range and Riley all have connected for three circuit wallopers while Oley has collected four such blows.

The lethal southpaw hurler, Avon Driggers, recently notched his seventh consecutive win to lead the Oiler pitchers as well as the league. Driggers' nearest competitor for this league leading position is another left-hander, Clayton Fries of Burger, who has six wins, but was knocked out of the box by the Oilers in a recent engagement of the two teams.

	AB	R	H	2B	3B	HR	RBI	BA

Lights Still Not Ready; Fourteen Games Scheduled

Fourteen more softball games are scheduled for this week in the Industrial League with all games slated to be played either at Skelly or at Phillips since the lights are not ready at Lions Club Park.

This afternoon at Lions Park will find Master Cleaners pitted against Furr Food and Ideal Food going against the Pampa News. Both contests are to start at 2:30.

In a seven inning contest last Friday night Cabot slugged out a 13-9 win over a good Humble nine and in two other games last week Magnolia whipped Texas Elf 11-7 and then lost to Skelly, 13-12.

Speedy Foster, League secretary and statistician, has recently stated that the teams are not turning in the results of their games. After every game, the winning team is to turn in the results to Foster, so that an accurate standings record can be compiled. If the results are not turned in the game will not be credited with a win.

Some member of each team in the league is asked to report to Lions Park this afternoon at 1:00 with a brush and help paint the newly erected light poles.

Below are the standings of the games that have been turned in to Foster, and the schedule for the remainder of the week.

Team	W	L	Pct.	GB
Jaycees	1	0	.000	0
Phillips	1	0	.000	0

Suits Filed

The following suit in divorce was filed during the week-end in the office of District Clerk D. Patterson:

Georgia Lula Lee Wilson versus Bill M. Wilson.

Date Changes In Wrestling Eliminations

The weekly wrestling matches at Promoter Vic Burnett's Sportorium have been changed from Thursday to Friday nights, Burnett announced yesterday.

In the bouts this Friday, the winners of last week's matches, Sammy Cohen and Dr. Gil Knutson, will meet in the main event, and Billy Hickson and Walter Stratton will be matched for the semi-final.

Cohen, of New York City, won over Cowboy Ace Abbott in 31 minutes of his scheduled hour match last week, and Knutson defeated Jack Wentworth of Toronto, Canada, in 46 minutes.

The matches Friday will be the third in a series of elimination bouts. The winner of the series will meet Wayne Martin of Tulsa, Oklahoma, Junior Heavyweight Champion, in a title match at the Sportorium June 4.

Stratton, of Youngstown, Ohio, who holds several world and American weight lifting records, is reputed to be one of the strongest men in American wrestling. On the other hand, Hickson, his opponent Friday, held the Lightweight Championship of New Mexico.

Since Cohen has just begun wrestling in the Panhandle, he made his first appearance in the local ring last week. He is no stranger to Texas, however, because he operated a health club in Dallas for several years.

Stymie Wins Belmont Park's Added Handicap

NEW YORK—(AP)—Stymie, world champion money winner, won his first race of 1948 at Belmont Park Saturday as he took the \$25,000 Added Handicap for the second straight year. Colossal was second and Rippey third.

Stymie, owned by Mrs. Ethel D. Jacobs, ran the mile in 1:36 4-5 and rewarded his followers with \$12,200, \$9 and \$5.60.

He outdistanced F. W. Hooper's Colossal by half a length.

The victory yesterday was worth \$21,200 for the winner, boosting Stymie's all-time winning total to \$844,760.

Three Pace Way Into PGA Quarter Finals

By HUGH FULERTON, JR.

ST. LOUIS—(AP)—A trio of slammers paced by one of the longest hitters of them all, Chick Harbert of Northville, Mich., led the way into the quarter finals of the 30th Professional Golfers Association championship yesterday as most of the tournament hot shots came successfully through the third round.

Harbert turned in an amazing performance as he ousted the medalist, Skip Alexander of Lexington, N. C., by an 11 and 10 margin. He shot a ten-under par 61 for his morning round and finished the 26 holes twelve under par.

Not far behind him Sammy Snead, the White Sulphur Springs, W. Va., clogger and Johnny Bulla of Phoenix, Ariz., both of them noted for their long hitting, turned in decisive victories.

Snead whipped Leland Gibson of Kansas City, 5 and 3, and Bulla routed Ky Laffoon of St. Andrews, Ill., 6 and 5.

Other survivors of the 36-hole third round matches over the par 71, 6,467 yard Norwood Hills Country Club course were Claude Harmon of Mamaroneck, N. Y., Mike Turnesa of White Plains, N. Y., Ben Hogan of Hershey, Pa., Jimmy Demaret of Ojai, Calif., and George Fazio of Conshohocken, Pa.

Hogan had to stand off the day's greatest comeback to conquer 46-year-old Gene Sarazen, 1-up.

Sarazen was five down after 24 holes and just missed a birdie that would have squared the match on the final hole.

Fazio won by the same margin over Ed (Porky) Oliver of Kenmore, Wash. Demaret turned back National Open Champion Lew Worsham of Oakmont, Pa., 3 and 2. Turnesa beat Al Smith of Winston-Salem, N. C., also 3 and 2, and Harmon, winner of the Augusta Masters Tournament this year, beat Henry Ransom of Ravinia, Ill., 2 and 1.

Today's matches will send Harbert against Hogan, Demaret against Fazio, Snead against Harmon and Bulla against Turnesa.

Texas' All-Around Diamond Ability Wins SWC Title

DALLAS—(AP)—Fancy fielding and hits when men were on base provided Texas with the all-around strength that meant a Southwest Conference championship in baseball, averages released by Secretary James H. Stewart for the season show.

The Longhorns, who lost only one game, fielded for .965 making only 19 errors in 14 games. They hit .284 as a club with 101 runs being driven in. Baylor, which led in batting with .297, was third in fielding with .845. Texas A and M was second in that department with .954.

Jim Busby of Texas Christian led in batting with .509 on 27 hits in 33 times at the plate. Murry Wall of Texas, a pitcher, actually had the top average—

Ole Miss Grid Star Is Star Student, Too

UNIVERSITY, Miss.—(AP)—In 27 courses, Everett Harper, of Moss Point, Miss., regular right end last season on Mississippi's conference championship eleven and a senior law student, has collected 18 A's. He recently was named to receive the Phi Delta Phi legal award which goes annually "to the senior whose character, scholarship, personality and general ability best exemplify the attributes of the successful lawyer."

Harper went to bat only seven times.

Bobby Layne and Charley Gorin of Texas led the pitchers with six and four wins respectively. Neither suffered a loss.

In fielding it was Clifford Lindloff of A and M who averaged .988 in 15 games. Lindloff made one error.

The Importance of "Stepping Down"

Here is the story of a new principle of design that has rocked the industry and given Hudson unique beauty not possible in any other type of car.

THE recessed floor in the new Hudson—now widely known as the "step-down" feature—is the talk of the automobile world. And rightly so! This interesting development is the key to a new kind of motor-car beauty never before obtainable.

People everywhere are attracted by Hudson's low, streamlined silhouette and free-flowing lines.

Only Hudson, because of its exclusive recessed floor that you step down onto, is able to offer streamlined, low-built beauty without asking you to give up interior head room.

Let's take a frank look at the motor-car designer's problem. Since streamlining an automobile reduces available head room for rear-seat passengers, to achieve a low silhouette and maintain adequate head room, both floor and seats must be lowered to compensate for the lowered roof. The recessed floor is a necessity.

But it is difficult to lower floors and seats, because in all cars, except Hudson, they are built on top of a frame. Only Hudson has a new, all steel Monobilt body-and-frame, part of which is a rugged base structure that permits lowering floors and seats down within the frame. The sketches below illustrate this design problem and show how Hudson's recessed floor provides a low, streamlined silhouette, yet preserves head room.

NEW HUDSON

Here is the low, low, gracefully streamlined Hudson—only five feet from ground to top. You can see how the streamlined roof curves sharply over the rear-seat portion of the car, as compared to the other types of roof lines shown in sketches to the left. But Hudson floors are recessed down within the frame, seats are lowered, so you get more than ample head room.

THE "step-down" principle requires years of engineering work, the development of new production techniques and equipment, and millions of dollars of highly specialized new plant investment. Perhaps this explains why Hudson alone offers this vital new design principle today.

You'll probably expect the motor car that is the talk of the nation to offer you even more than beauty and comfort. And it does! Your nearby Hudson dealer will show you The Importance of "Stepping Down"—also its results in riding and driving ease, performance and safety. Hudson Motor Car Company, Detroit 14.

This time it's Hudson

HOUSING

(Continued from Page 1)

of more than \$3,000 in local taxes of such communities as may receive public housing from the government.
"America has a record to be proud of in the housing field," Hughes said. "No country has built more houses since the war than our building industry. The Soviet Union and Great Britain for example, have socialized home construction—the ultimate goal of public housing. Taking the permanent housing completed since the war by American private builders as 100 percent and relating the percentages to total population in the three countries, the Soviet completions equal 28 percent; the British, 38 percent."
Hughes continued, "This certainly shows that we do not need bureaucratic government public housing. Right now we have about 40,000,000 occupied dwelling units in this country. That compares with something more than 39,000,000 in April, 1947, according to the Census Bureau. The building industry added 900,000 units since then to give us today's 40,000,000. Let alone, it can do the job. The proposed 500,000 public housing units are not needed and will, if they are authorized, tend to upset the apple cart."

This would be so, Hughes argued, because huge government orders would cut into already tight material and labor markets and rob private builders of needed supplies and labor to go ahead at their present record-breaking pace. The result would be, he said, to spur inflation through increasing building costs by intensified competition for available labor and supplies; to throw a monkey-

2 Physicists Suspended

OAK RIDGE, Tenn. (AP)—The suspension of two physicists from access to restricted atomic files brought the assertion from other atomic scientists here that continued accusations against their loyalty will make it more difficult to get scientists to work for the government.

An official for the Atomic Energy Commission has announced that the two physicists had been suspended pending a check on their loyalty status.
In Washington, an AEC official said the investigation of the two "involves character and associations" together with the regular loyalty check made on all employees of the Atomic Commission. Chairman Hickenlooper (R-Iowa) of the joint Congressional Atomic Energy Commission said he wanted a report on the investigations.

The atomic scientists in their statement said that aside from making it increasingly difficult to enlist the services of scientists on government projects, the accusations and inquiries into their loyalty have left them "seriously demoralized."

Most of the accusations, the scientists said, were trivial, and the accusations against the two physicists were based on unsubstantiated rumors.
The scientists said they were wrenched into the drive to supply suitable private homes for Veterans; to cripple many private builders; and, finally, to put segment of the American economy on the road to socialism. England, he said, had started with public housing and traveled that road. And, he added, it seems highly inconsistent for the United States to start on the road when it has just started a \$5,000,000,000 fight against the "ism's" through the Marshall Plan.

PARTIES

(Continued from Page 1)

Republicans will have chosen 906 of their 1,094 delegates. The Democrats will have named delegates with 899 votes in their 1,234-vote convention.

The Texas picture, at the weekend shaped up this way:
Democrats: they are divided three ways. Four years ago there was a pro-Roosevelt and an anti-Roosevelt delegation. Both were seated at the national convention and given a half vote for each delegate. On the only roll call Roosevelt got 36 votes to 12 for Senator Byrd of Virginia.

This time there is:
1—A pro-Truman group urging a delegation instructed outright for the President and his civil rights program.
2—A middle-of-the-road state rights program.
3—A group opposing the President and the civil rights proposals. They are urging an instructed delegation. They are given the edge, but only after a hard fight.

Some Alabama and South Carolina Democrats are talking of placing the general's name before the national convention early, in the hope of starting a bandwagon movement.

The Republican fight in the Lone Star State appears to be chiefly a Taft-Dewey struggle, with Stassen working for second-choice strength.
R. B. Creager, GOP national committeeman and a Taft supporter from way back, apparently has the situation under control for the Ohioan. But other camps say there will be a contest.

The Taft forces claim up to 28 of the 33 delegates and say Dewey and Stassen will divide the rest.

Herbert Brownell, former national chairman, will represent Dewey at the convention as an observer. Daniel C. Gailey, Minnesota manufacturer and national chairman of Citizens for Stassen will be there looking after Stassen's interests.

Jester Considers Convicts' Behavior

AUSTIN—(AP)—Convicts who behave while serving their sentences have a better chance of receiving early clemency than do the ones who cause trouble, Gov. Beauford H. Jester said.

Jester said he is giving the break to the convict who has the better record in prison in cases where two men are recommended for clemency at the same time—"all other factors being about equal."
The Governor believed his policy to be in line with the ideas of O. B. Ellis, new manager of the prison system.

Jester would not comment on why the Board of Pardons and Paroles would recommend a prisoner with a bad behavior record for clemency.

Come in and see for yourself the beauty and convenience features of this **new 1948 TAPPAN Gas Range**

It's completely new—completely new features. Years ahead in design. It is the most completely modern range you can buy today and it will be modern for years to come. It's big—it's beautiful... the range you'll be proud to own.

Before you buy any range let us give you a complete demonstration of this new **TAPPAN Gas Range**

Texas Furniture Company

You knew the moment you saw it—this was your car. New, all-new, every inch and pound of it. A big, brawny frame under a sweeping, curved-arch silhouette. Longer, wider, lower—with a road-hugging look that beckoned you to get in and go! When you saw it, you said "This is it! This ALL-NEW 1949 Mercury is for me!"

You heard the proud, soft-spoken, 8-cylinder, V-type engine murmuring gently. You'd heard that sound before. Where? In cars far beyond your budget's reach. But here it was in an engine designed and built exclusively for Mercury... and in a choice of superb body styles, including Mercury's all-new Six-passenger Coupe and Six-passenger Convertible.

You held the wheel easily, because Mercury didn't "wind-wander," didn't "over-steer." Its sure-footed balance and down-to-earth roadability let you hold all roads securely. Its new, bigger, super-balloon tires let you skim over the bumps without a tremor.

You sat in a wide, "comfort-zone" seat that shaped itself to you—above all-new, road-smoothing spring suspension. You filled the car with a controlled flow of fresh, filtered air from the leakproof "Fingertip Weather Control." This was the comfort you wanted in your car. This was Mercury.

You touched the brake pedal—just a slight touch—and Mercury's new super-brakes brought you gliding to a swift, sure stop. It was then you knew for sure that Mercury had made an all-new car—from top to tires—for you! Your car had finally come along. It was Mercury!

Not a "new model"...the **All-New MERCURY**

QUALITY HOME FURNISHINGS

Medical Auxiliary Plans to Continue Immunization Clinic

The Gray-Wheeler Medical Auxiliary met May 18 at 7:30 in the home of Mrs. Oscar Huff, 1116 Christine. A lovely dinner was served twenty members by the hostess, Mrs. Huff, her two daughters, Misses Ruth and Helen Huff, and the co-hostesses, Mrs. W. F. Furrance and Mrs. H. L. Wilder.

After dinner there was a short business meeting at which time the incoming officers were installed. Plans for the immunization clinic to be continued through this summer were completed. Mrs. J. M. Key is chairman of this committee.

The auxiliary was invited to hold its first fall meeting with the members in Borger.

Besides those mentioned, the following were present: Mesdames D. B. Pearson, Jr., of Perryton, H. E. Nicholson, Sr., and H. E. Nicholson, Jr., of Wheeler, W. G. Stevens, W. W. Brooks and Dan Hampton of Borger; C. H. Ashby, M. C. Overton, E. S. Williams, M. H. Wyatt, W. C. Jones, P. A. Gates, C. E. High, K. W. Pieratt, J. H. Kelly and Frank Kelly.

MARMALADE ROLLS
Marmalade rolls are simple to make for Sunday tea. Remove the seeds from thin slices of fresh bread; spread each slice with soft butter, then with marmalade. Roll up diagonally and fasten with toothpicks before toasting under the broiler.

Thirty-two Pupils To Play in Recital

Miss Emmaline Rohde will present the following students in a recital, May 24, at the Assembly of God Church, 500 South Cuyler:

Annette Altman, Darwin Bauman, Paul Bauman, Paula Burch, Joe Burch, Sandra Burch, James Brock, Mary Brummett, Melba Jo Borton.

Micky Joe Caldwell, Patricia Caldwell, Sharron Sue Griffiths, Martha Hulsey, Wanda Hill, James Hinkley, Doris Ann Lovelace, Robbie Ladyman, H. D. Ladyman, Nita Jo Massengale, Olean Miller, Jeanette Patton, Celia Miller.

June Richey, Ann Huff, Shirley Riley, Mary Reed, Sheridan Sikes, Patricia Stroup, Billy Thornton, Gay Vanderburg, Nancy Williams, Helen Yager.

The public is invited to this recital which will begin at 7:15 p. m.

Green cabbage is delicious when crusts from thin slices of fresh with a cheese sauce. It may be made into a satisfying luncheon dish by adding strips of crispy cooked bacon.

Gerrymandering in dividing territory into voting districts so as to give an unfair advantage to a particular political party.

Guests at the wedding from out of town were the bride's parents and Mrs. Kelley Jones and children, Ronnie and Jerry, of Oklahoma City.

Major Lyons Honored With Birthday Picnic

The ladies of the Salvation Army Home League enjoyed a picnic at Lake McClellan recently. In connection with the picnic they celebrated Major Bernice Lyons' birthday, singing the "Happy Birthday" song and presenting her with gifts which they brought to the picnic.

Others attending were Mesdames Blanch Jenkins, Martha Sutterfield, Pauline Sutton and D. B. Love and Misses Lenora Mae Love and Dorothy Jean Batson.

Mrs. Edwards Is Honored at Shower

Mrs. Eric Edwards was honored recently at a pink and blue shower given by the Bethany Class of the Central Baptist Church. The affair was held in the church basement and Mrs. W. L. Ayers played Brahms' "Lullaby" as the honoree entered the room.

A carnation corsage was presented to Mrs. Edwards and refreshments of sherbet and cake were served after the gifts were opened.

About forty ladies participated in the shower.

MELBA TOAST
Melba toast may be made from leftover bread; it should be cut in thin slices, spread out on a baking sheet and toasted in a slow (300 degree F.) oven for 15 to 20 minutes.

Numismatics is the science dealing with coins and medals.

Miss Macina Is Shower Honoree

SHAMROCK—(Special)—Miss Helen Ruth Macina, popular bride-elect of John Cullers, whose wedding will be solemnized June 12, at the Lutheran Church in Pampa, was complimented with a tea and miscellaneous shower Friday evening, May 24, at the home of Mrs. John Hrcniar, Jr. Co-hostesses with Mrs. Hrcniar were Miss Louise Risian, Mrs. Dusan Paken, Miss Helen Hrcniar, and Mrs. Edward Pakan.

The receiving line was made up of Mrs. John Hrcniar, Jr., the honoree, her mother, Mrs. Paul Macina, and the mother of the bridegroom-to-be, Mrs. W. F. Settle.

Lovely decorations featured an arrangement of roses in the living room and Dutch iris and fern in the dining room. The bride's table, with a cover of lace, was centered with a charming bride doll standing on a reflector beneath a blue and white parasol, which was suspended from the chandelier with silver cords. Tiny packages were hung by silver threads from the edge of the parasol, and in blue letters, "Helen and John" was inscribed on the underside of the beautiful umbrella. Table appointments were of crystal with a punch bowl at each end of the table. Miss Helen Hrcniar and Miss Dorothy Mertel poured. Mrs. Edward Pakan and Miss Anna Mertel assisted with serving.

Mrs. Dusan Pakan presided in the gift room where many attractive gifts were displayed.

During the receiving hours recorded music was played by Miss Louise Risian.

Vacation Bible School Announced
Major Bernice Lyons, the commanding officer of the Salvation Army announces that the Salvation Army Vacation Bible School will begin Monday, May 24 and will continue through June 4.

The time is from 9 thru 11 a. m. daily.

There will be Bible lessons, craft classes and recreation periods for boys and girls of all ages and all boys and girls are invited to attend. The Salvation Army Home is located at 612 East Albert St.

American Legion Auxiliary Plans For Decoration Day

The American Legion Auxiliary held its regular meeting at the City Club Rooms Friday, at which time final plans were made for the annual poppy sale to be held in Pampa Saturday, May 29.

Mrs. M. F. Roche reported on arranging the wreaths which will be used to decorate all veterans graves in the local cemetery on Decoration Day by the American Legion Auxiliary and The Veterans of Foreign Wars Auxiliary.

Mrs. Roy Hall announced Mrs. L. C. McMurtry's annual recital would be held in the Senior High School Auditorium at 8 p. m. May 28. This recital is sponsored by the auxiliary.

Christian Science

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 23.

The Golden Text is: "What agreement hath the temple of God with idols? for ye are the temple of the living God" (II Corinthians 6:16).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "My soul longeth, yea, even fainteth for the courts of the Lord: my heart and my flesh crieth out for the living God" (Psalms 84:3).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Soul is the substance, Life, and intelligence of man, which is individualized, but not in matter" (page 477).

Trousseau Time

This is the season of wedding gifts when hurried shoppers hunt gift shops and struggle to find something "different."

One of the safest bets, for the undecided giver, is a gift of bedlinens or blankets—for no bride ever had too many of the Available on the market just now is a plentiful supply of fine bedlinens, in various weaves and colors, very little above pre-war levels.

One enterprising company (Chatham) has evolved a gift idea to make the selection simpler. The shopper simply buys a blanket gift certificate at her favorite store and this is sent to the bride, containing swatches of all colors of the blankets. The recipient may then select her favorite color at her leisure, notify the shop, and the life-size blanket will be sent to her.

The trend is toward clear pastel colors in blankets, the range in the gift box being pink, white, azure, peach, turquoise, stone gray, lemon yellow and sand beige.

When cream is to be whipped for a dessert topping allow 2 to 3 tablespoons of sugar and 24 to 1 teaspoon of vanilla for one cup of cream.

ASPARGUS SOUP

If fresh asparagus is peeled before daytime wear and are especially of the asparagus that are cut off may be used to make a cream soup.

The first two ironclad ships to participate in a naval engagement, in American history, were the Monitor and the Merrimac.

Don Quixote was written by Miguel de Cervantes.

Bentley's

Wedding

(Continued from page 9)
 Miss Elizabeth Homer of Denton, Texas, registered the guests. Mrs. Chester Thompson played piano selections during the evening.
 The bride and bridegroom left following the reception for a trip through New Mexico and Colorado. After June first they will be at home in McAlester, Oklahoma.
 The bride wore for going away an off-white suit with sable-mix accessories. Her flowers were white Starlight roses.
 Among the out-of-town guests,

other than the wedding party were Mrs. W. W. Church, McAlester, Oklahoma, grandmother of the bride; Miss Ethel Homer, Denton, Texas; Mrs. Wilbur Smith, Oklahoma City; Mr. and Mrs. S. J. Griffin, Chickasha, Oklahoma; Mr. and Mrs. Cecil D. Home, and David Homer, Haldon, Oklahoma, Mr. and Mrs. A. B. Soper, Oklahoma City, and Mrs. Robert, Oklahoma City.
 We're fools if we appropriate money for steak to go to Great Britain if they are going to use it for engines that are being sent to Russia.
 —Sen. Styles Bridges (R) of New Hampshire.

In the old days, the warm fragrance of freshly baked bread was a part of every home kitchen. To have that familiar aroma floating from your kitchen today bake a pan of corn meal rolls. Their delicate tenderness and good corn flavor will delight the family and remind them of the "good old days".

Corn Meal Rolls
 1 package compressed or fast granular yeast
 1/2 cup lukewarm water
 1 cup enriched corn meal
 1/2 cup milk
 1/2 cup fat
 1/2 cup sugar
 1 teaspoon salt
 2 beaten eggs
 4 cups sifted enriched flour

1. Soften yeast in lukewarm water.
2. Place corn meal, milk, fat, sugar and salt in the top of double boiler; bring to boil over direct heat, stirring constantly; place over boiling water and cook 10 minutes, stirring frequently. Cool to lukewarm (80°F.).
3. Add beaten eggs and half of the flour; add softened yeast, mixing well.
4. Add enough flour to make soft dough. Turn out on lightly floured board and knead until smooth and elastic.
5. Round dough into ball, place in greased bowl, cover and let rise until double in bulk. Punch down. Cover and let rest 10 minutes.
6. Shape dough into small balls. Dip each ball into melted fat; place three balls in each cup of greased muffin pans. Let rise until double in bulk.
7. Bake in a moderately hot oven (400°F.) 20 to 25 minutes. Makes 2 1/2 dozen clover leaf rolls.

German War Brides Comment on American Women's Cooking

BERLIN (AP)—Many Germans are getting the idea that people in America don't know or care how to cook. They just heat up canned foods. And life and movement in America are "so fast it makes your head swim."
 They are getting the "straight dope" in letters from daughters and sisters who have married American soldiers and gone to the U. S. to live.
 Letters from German brides in America recently have been printed in newspapers here. News about how they are getting along, whether they find American people friendly and life as rich and pleasant as they had expected is important here.

The answers to these questions are more than a matter of satisfying the curiosity of relatives left behind in Germany. The reactions of the German brides are, believe it or not, a substantial issue in the non-stop propaganda war here between Russia and the western powers.
 Recently some Russian-controlled newspapers, which love to print anything anti-American, published what they claimed were reports from German brides who complained they were disillusioned about the U. S. by the "unfriendly treatment" they received there from their in-laws and neighbors and wanted to return to their beaten-up homeland.

In rebuttal of these reports, which it labeled "sensationally fictitious," the British-licensed newspaper "Social Democrat" collected some letters received from German brides in America who reported they never had it so

good. The "Social Democrat" served that official figures showed divorce among the German-American couples were only two percent, but that its letters revealed "more than official figures can, how these newly-baked Mrs. are faring in the new world."
 The former Anneliese Lauterbach, 27, who now lives in Dallas, Tex., said of her stay in New York that "trips from one section to another of this unimaginably large city seem like a world trip" and that the subway cars went so fast she became seasick. She observed that "nobody seems to do any cooking—you get your food out of cans."

The same observation about cooking came from the former Helene Grossman, 28, who now lives with her husband on a farm at Hughes, Arkansas. "It isn't laziness," she wrote, "but only comes naturally because all you have to do is heat the food." She also observed from Arkansas that "you have no idea about the speed with which people in this country move."
 A former Nuremberg bank clerk wrote that she undertook the voyage to the U. S. with apprehension that she would encounter unfriendliness but that Americans

she met on shipboard put her at ease and her in-laws welcomed her "heartily." Living in Ohio, she wrote: "The people here have a beautiful life. They get up early, eat well and wear lovely clothes. I'm very happy."
 Even Suzi Evans, 29-year-old former secretary now married to an American farmer in Roseboro, N. C., found things marvelous.

Case of Mistaken Identity May Face Man Now in Prison

PHILADELPHIA (AP)—A case of mistaken identity may free 35-year-old Howard Smith from Holmsburg prison. Smith has served two years on larceny charge. But Wednesday, Mrs. Areda Woodward faced him in police court and said: "I am sorry but I made a mistake when I identified you as one of the men who took my money." It was on the identification of Mrs. Woodward that Smith and Edward Bryant were convicted of tickling the woman out of \$112 in a confidence game. Smith denied the charges but received no support from Bryant. Before Bryant's recent death in prison he gave Smith the nickname and description of his accomplice. The police permitted Smith to search the records but he found no trace of the man. Last month in Holmsburg prison, Smith spotted 42-year-old Foy Faison in the exercise yard. Faison was serving time on a separate

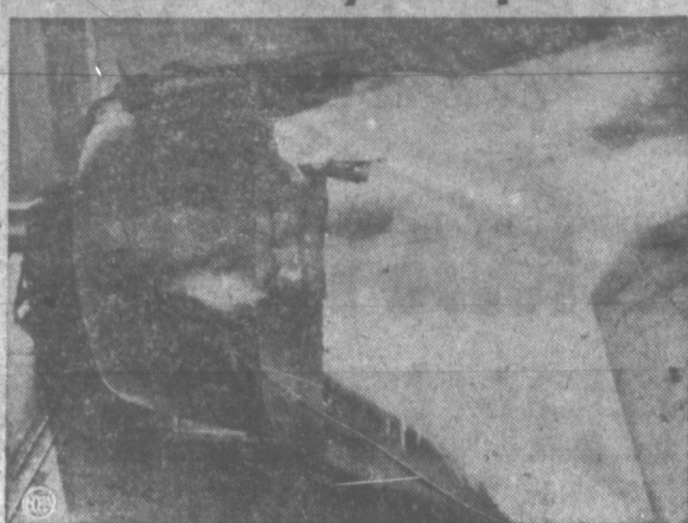

Mustering-Out Pay Is Still Available

WASHINGTON (AP)—World War II veterans now have until February 3, 1950 to apply for their mustering-out pay. President Truman signed into law a bill extending the deadline to that date. The former law expired Feb. 3, 1946. Veterans are eligible for \$100 if they served less than 90 days and did not leave the United States, \$200 if they served over 90 days but were not outside the country, and \$300 if they were overseas.

County Prison Agent Charles M. Gibbs said Smith raised such a racket they took both of them to City Hall. There Mrs. Woodward identified Faison as the man who had tricked her.

Fending trial of Faison, both men were returned to prison but Gibbs said: "We're going to take steps immediately to have Smith freed. It is clearly a case of mistaken identity."

CAA Cooks Airplanes For New Safety Recipes

TO SEE WHAT happens when an airplane engine catches fire in the air, the CAA puts on this blazing show in its Technical Development Center laboratories at Indianapolis.

INDIANAPOLIS, Ind. (NEA)—"Try it and see" is the motto of the Technical Development Center operated by the Civil Aeronautics Administration.

CAA technicians shoot the carcasses of freshly-killed chickens at a real airplane windshield at speeds equal to an airplane's cruising speed.

They take a section of a wing and a real engine and set them afire under exact flight conditions.

To develop a fuel tank that will not rupture and burst into flame in a crash landing, they put tanks on a catapult and hurl them against a concrete wall while high-speed cameras grind to record the things the human eye can't see.

As a result, all new transport planes are being equipped with a windshield made of layers of glass and plastic which will withstand collision with a four-pound bird at normal cruising speeds.

It is believed that bird collisions have caused several major unexplained air accidents.

Several developments have resulted from the fire tests. CAA experts found that a fluid, developed by the Navy for use in hydraulic lines, will not burn when sprayed through a hot electric arc. They kept a section of a flexible hose at white heat for 10 hours, and determined that it could then safely be put back in a plane for service.

The fire tests discovered a coating for fabric-covered planes which will produce the taut surface required, but which will resist direct flame from an engine fire for the several minutes required to put out the fire. Standard testing methods for fire detectors and extinguishing agents were developed.

Mysterious fires in aircraft are always under study by CAA engineers at the Center. As a re-

Blind Student Meets Prisoner

HUNTSVILLE (AP)—Alfred Johnson, blind Hardin-Sims University student, Thursday met Joseph Lee Sautler, doomed convict who is to give Johnson his eyes.

The meeting was held in the Death House at the main unit of the prison system and lasted 20 minutes.

Johnson was accompanied by Mr. and Mrs. James M. Shelton and Alfred Toombs of Abilene, who conducted a short religious testimonial service at which time Sautler prayed for the success of the forthcoming operation.

Sautler on bended knee stated

that he held no malice towards anyone and asked God to have mercy on his soul.

Sautler told the group of the countless letters of praise he had received from people all over the nation and further said that it was then he realized that he must accept Jesus as his Savior. This came about, said Sautler, one night recently when he could not sleep. Taking the Book of John, he read to himself and thought of the letters he had received and from then on, he rested peacefully and felt better than any time since his arrival in the Death House, he declared.

In the conversation with Sautler, Johnson told how he lost his sight and Sautler assured Johnson that everything would be all right. Sautler said "go ahead and have the operation and God bless you."

The meeting closed with a religious song by Mr. and Mrs.

With Arabs in control of water pumping stations in Jerusalem, water failures are a cause of great anxiety in the Jewish sections of the Holy City. Here, a shopkeeper purchases a supply of water from a street vendor. (Photo by NEA-Acme staff correspondent David S. Boyer.)

CLEAN CORNERS

To clean out of the way corners and cracks in the kitchen, use the vacuum cleaner attachment with the smallest nozzle.

Sometimes this will draw out crumbs and dirt which will be difficult to remove in any other way.

State Department Answers Each of Stalin's Problems

WASHINGTON—(AP)—Premier Josef Stalin has listed 11 major problems he thinks this country and Russia can sit down and talk about.

For the benefit of collectors comment has said in effect: "Wait a minute. Not so fast. They're not new problems. They're old ones. Let's look at the record on each one."

Henry Wallace, third party presidential candidate, in an open letter to Stalin had listed a number of problems which he said should be a starting point for American-Russian peace talks.

Stalin chose 11 problems from the Wallace list and, in a public reply, said yes, indeed, they would be good starting points.

Below are the 11 Stalin-Wallace points. Following each is the State Department's explanation.

1. Human rights—The United Nations has been considering this since 1946. Result: zero.
2. International control of atomic weapons—The U. S. offered U. N. a plan. Russia didn't agree, offered ideas of its own. The U. S. blames Russia for blocking a solution.
3. Reaching a German peace settlement—The U. S. blames Russia for blocking this.
4. Reaching a Japanese peace settlement—No real peace talks on Japan have begun. The U. S. wanted the talks handled one way, Russia another, China another. Eight nations mixed up in the Japanese peace talks agreed with the U. S. Result: zero.
5. Getting troops (meaning U. S. troops) out of China—There are no Russian troops in China but there are about 5,500 American soldiers, sailors and Marines there. Why? The Chinese government requested them.
6. Getting troops (U. S. and Russian) out of Korea—The U. N. had a plan for getting both nations' troops out. Russia has blocked this by refusing to cooperate.
7. Respecting other nations' rights and not interfering in their internal business—(The State Department is vague on this. It says the facts are too well-known to be repeated.)
8. It's wrong to set up military bases in member countries of the U. N.—

Swedish Pioneer Stamp Is Issued

A blue five-cent Swedish Pioneer Centennial commemorative stamp will go on sale at the Pampa Postoffice June 5, Postmaster W. E. Weathered announces.

Starting at the Chicago Postoffice June 4, the stamp is to commemorate the 100 anniversary of the Swedish pioneers coming to the Middle West.

The central design of the stamp depicts a Swedish pioneer moving westward in a covered wagon. Twelve stars representing the 12 Midwestern states settled by the Swedes are arranged in two vertical rows. In dark gothic across the top of the stamp is written "Swedish Pioneer Centennial", and the dates 1848 and 1948 appear at the bottom.

Stamp collectors desiring first-day cancellations may send a limited number of addressed envelopes to Postmaster, Chicago, Ill., endorsed "First-Day Covers," and postal notes or money order remittance to cover the cost of the stamps to be affixed. Postage stamps and personal checks will not be accepted as payment for philatelic use, the commemorative stamp will be available at the Philatelic Agency Postoffice department, Washington 25, D. C., on and after June 7. First-day covers are not furnished by this agency.

Measuring .84 by 1.41 inches, the stamp will be issued in 50 sheet subjects. Printing of 75,000,000 of the Swedish stamps has been authorized.

Kiwanians Hear Varied Program

Two local vocalists and a sportsman were presented as the program at Friday's meeting of the Pampa Kiwanis Club.

Misses Pat Price and Helen Blocker, each sang two numbers for the group. They were accompanied at the piano by Ken Bennett, who introduced each.

John Studer, local attorney and sportsman, discussed fishing equipment, presenting various types of fishing rods.

The program, arranged by the House Reception and Special Activities Committee, was introduced by Milton Hill, Kiwanian.

Rex Proves to Be Small Town Dog After All

PARIS, Ill.—(AP)—Rex, the Paris bus riding canine, is just a small town dog after all.

He has been riding buses in this city of 8,000 for years. This week, however, he accompanied his master on a 25-mile automobile trip to Terre Haute, Ind. There he jumped from the car

and became lost in the city of 88,000.

A Terre Haute resident noted that the license was issued at Paris. He telephoned the Paris city clerk, learned the name of the dog's owner, and returned him home.

SECOND HAND CATCH

OGALLALA, Neb.—(AP)—George Hoover of Ogallala says he wouldn't tell this fish story except that he had two witnesses. He had snagged a 21-inch rainbow trout. But it was a second hand catch.

The trout previously had been hooked by someone else. The broken leader still hung from the fish's mouth. Hoover's hook had caught in the eyelet of one of the sinkers on the broken leader. The fish was alive but its scrapiness was gone when Hoover reeled him in.

The Freedom We Lack in America

The recent violence at South St. Paul, Minn., differentiates union activity from the Soviet political philosophy only in manner of degrees...

Several hundred men invaded the Cudahy meat plant, smashed machinery and abducted 30 non-strikers...

John W. Scoville, independent consulting economist and an authority on small stature on labor-management issues...

Many believe that labor unions are necessary to increase real wages of employees...

We must show the workingmen that if they can organize a monopoly, other groups can do the same...

The challenge of 1948 is whether the universal longing of mankind for peace and freedom shall prevail or whether it is to be flouted and betrayed...

FIGHT AHEAD

WASHINGTON (NEA)—Republican senators concerned may not like this but a GOP letter sent out in Ohio to solicit campaign contributions stressed the angle that there would be a "fight ahead" to elect a Republican majority in the Senate next November...

The honor of pulling the worst pun in this session of Congress probably goes to Sen. R. L. B. Flanders of Vermont. It was inspired by GOP Sen. Harry Cain of Oregon, who has caused his party's leadership all kinds of trouble over new housing legislation...

Fair Enough

by Westbrook Pegler

The call on the National Guard to suppress violent insurrection at packing plants in Minnesota is an infernal salute to an obscure cop named Dahlin...

The CIO has been an incorrigible enemy of the people of the United States ever since it was organized under conditions exactly like the anarchy recently enacted in Minnesota and Kansas City, Kans.

When the CIO's goons blockaded the Minnesota packing plants, Governor Youngdahl gave them their political cue to make merry with the addition of a physical strikebreaker...

Now, in all such CIO disorders, the nonstriking workers are not strikebreakers but Americans, admirable for the moment as physical strikebreaker...

Violence followed the sneering remark of Stassen's governor about "scabs" Sheriff and the police, no better than politicians who appeal to mobs for campaign funds...

The next day the police dispersed a mob. The boss goons, always aloof from a actual risk, tried to reorganize the rioters from headquarters across the street...

But it is a monumental task to get people to realize that liberty is desirable, and that our economic affairs should be based on voluntary agreements rather than on force...

Josephus Daniels was the U. S. Secretary of Navy during World War I.

Texas Today

By WILLIAM C. BARNARD Associated Press Staff

No Chamber of Commerce ever touted a town so expertly as the Madisonville Sidewalk Cattlemen's Association has pluggd Madisonville, Tex.

Operating strictly with ideas, the association has consistently drawn national attention to the quiet, pleasant, undistinguished county seat of Madison County in east-central Texas.

Current project of the association is to bring to Texas the out-of-state war veteran who hates the Lone Star State most—and change his mind. Winner of a national contest and chosen as Texas Hater No. 1, Ray P. Halloran of Cincinnati, Ohio, landed at Houston Thursday...

This is typical of what the cowboy association tries to do. Get a newsworthy idea and back it up with money.

President of the group since it was organized in 1939, Dr. J. B. Heath told us: "We started the association to provide a little humor to combat the tension of war nerves."

On many occasions the association has threatened boot-wearing, duck-cattle-leas celebrities with a duck-cattle-leas horse through should they venture to Madison County. It should be stated, however, that the extreme penalty, so far, has been to make the culprit buy drinks for everyone within yelling distance...

H. B. Fox, former Madisonville newspaperman and now a resident of Granger, helps provide the cattlemen with ideas. Once a little girl in Boston couldn't find a pair of riding boots for a school party...

Leaders of the armed service have failed miserably to provide an integrated program for the defense of this country. The military has taken advantage of Congress in an election year to seek excessive appropriations.

MOPSY by Gladys Parker

YOU ATE AN ANT? HERE, QUICK, TAKE SOME OF THIS ANT POISON!

Committee is showing signs of wanting to drop its investigation of Dr. Edward U. Condon, director of the U. S. Bureau of Standards. The committee originally charged Condon with being the weakest link in atomic security...

Common Ground

By R. C. HOLLES

Very few people realize how confused the heads of our universities are. Rose Wilder Lane recently reviewed the book "Total War and the Constitution" by Professor Edward S. Corwin...

Now, W. C. Mullenders of Los Angeles calls her attention to some of the things that Dr. Corwin has advocated in other books. This leads Rose Wilder Lane to express her opinion of American universities in her National Economic Council book review...

Of course American universities never have been wholly American. Originally colonial European, they remained European in thought and spirit. In liaison with European universities, which were and are the artisan-wells of socialism...

It is less noticed that, in the same general sense, American universities are unwholly American. Mentally European, with few exceptions American scholars are wholly ignorant of their own country's unique meaning in philosophy and in history...

Incidentally, neither the military author nor his adviser has approached the Internal Revenue Bureau on the matter, but it is generally understood that the new president of Columbia University transaction will arrange the lesser amount...

The requisite for taking advantage of this loophole in the law—a loophole which Congress is making wider year by year under the pressure of powerful voting groups—is that Gen. Eisenhower must make a "perfect and outright sale" of his literary property to the publisher...

The seemingly unfair feature of the deal is that only an Eisenhower or a man of similar reputation in an American language can now publisher without getting a payoff of \$500,000, for instance, to an unknown writer because he would have no assurance of selling enough copies to make a profit on his investment...

PRECEDENT The most famous precedent for the Eisenhower arrangement involved Rafael Sabatini, the author of his thrilling works as "Mare Nostrum," "Blood and Sand" and "Scaramouch"...

FUNNY BUSINESS

BY HERSHBERGER

THE groom ordered it put on secretly—a sort of 'I give up sign'!

The Route is Clearly Marked

NATIONAL WHIRLIGIG

news behind the news

WASHINGTON — Gen. Eisenhower will violate no law if he carries out his reported plan of paying a 25 per cent capital gains tax instead of a 75 per cent income tax on the \$500,000 which he expects to receive for his biography and war memoirs...

Accomplished In the picture, Top Hat, were the following songs: Top Hat, White Tie and Tails; Cheek to Cheek; I'm Fancy Free; Isn't This a Lovely Day?; The Piccolino.

BREACH Congressional widening of the capital gains breach in the tax laws may provoke a movement to close this means of escape, if the provision for payment of taxes is extended by the legislators, it will mean that a heavier tax burden will be placed on individuals.

THEY came out into the busy street and turned idly away from the crowd before the theater, wandering down the Place de l'Opera.

The Innocent Impostor

By Renee Shann

"Of course she did. But we're not driving through the Bois in the moon-light to talk about Charlotte. I want to forget her."

"You are. But it's all right. You see, I want to forget Paul. That makes it quit. Roger glanced over at the night porter. 'I wonder if he's really asleep. The devil, I don't care if he isn't. He caught her to him and kissed her. 'Sleep well, darling.'"

"That's fair enough." He kissed her again. "I know what we'll do. 'Get in, he said, holding open the door for her. She sat back in her corner. The taxi was open, though its hood shielded them from being seen by people in the street. A soft breeze blew her hair back from her forehead."

TOP O' TEXAS NEWS

Shamrock McLean

SHAMROCK (Special)—The Senior Class of the Shamrock High School was honored with a reception Wednesday evening at the home of Mr. and Mrs. Wade Atkinson.

At a meeting of the Order of Eastern Star Tuesday at the Masonic Hall, the following officers were elected: Mrs. Frankie Weatherly, worthy matron; L. E. DePew, worthy patron; Mrs. Era Jo Henderson, associate matron; Ernest Henderson, associate patron; Mrs. Ruby Adams, conductress; Mrs. Lela Kersh, secretary; Mrs. Lillie Aldous treasurer; and Mrs. Katherine Harbour, associate conductress.

At a meeting of the Order of Eastern Star Tuesday at the Masonic Hall, the following officers were elected: Mrs. Frankie Weatherly, worthy matron; L. E. DePew, worthy patron; Mrs. Era Jo Henderson, associate matron; Ernest Henderson, associate patron; Mrs. Ruby Adams, conductress; Mrs. Lela Kersh, secretary; Mrs. Lillie Aldous treasurer; and Mrs. Katherine Harbour, associate conductress.

Commencement exercises for the Shamrock High School will be held at the High School gymnasium, Thursday evening, at 8 o'clock.

Dr. S. H. Condon, head of the government department, West Texas State College, Canyon, will deliver the address.

The following honor students for 1947-48 were announced: Glenn Fern Scott, First Grade; Jimmy Grey, Second; Wilma Jo Thompson, Third; Forrest Thompson, Fourth; Duane Jeter, Fifth; Pauline Baker, Sixth; and Morris Shaffer, seventh.

DAWN was breaking over the horizon when eventually they returned to the hotel. They lingered on the terrace of the Hotel Quatre watching the lights twinkling over Paris. Then they found a slowly back again to the Rue Piquette. They had supper and they danced and they said: "We'll do this again tomorrow and the night after. In fact, every night we were playing. The next day up till they said good night. And then they came back to earth. They looked at each other. The night porter dozed deeply in his little cubby hole.

The Innocent Impostor

By Renee Shann

"You are. But it's all right. You see, I want to forget Paul. That makes it quit. Roger glanced over at the night porter. 'I wonder if he's really asleep. The devil, I don't care if he isn't. He caught her to him and kissed her. 'Sleep well, darling.'"

"That's fair enough." He kissed her again. "I know what we'll do. 'Get in, he said, holding open the door for her. She sat back in her corner. The taxi was open, though its hood shielded them from being seen by people in the street. A soft breeze blew her hair back from her forehead."

Argument Is Due Again

WASHINGTON (AP)—The proposal to build a super-size aircraft carrier may reopen an Air Force-Navy argument supposed to have been quieted by high command agreement two months ago.

Some high Air Force officials take a dim view of the Navy's plan — backed by President Truman and Secretary of Defense

MEN! GET PEP

Do you want to feel young again? Why feel old at 40, 50 or 60? Enjoy youthful pleasures again. If added years have slowed down your vitality, just go to your druggist and ask for Orlon stimulating tablets. Many men are obtaining remarkable results with this amazing formula.

Forrestal — to construct a 85,000-ton, flush-deck carrier from which long range planes could be launched. But what form the Air Force opposition may assume is not yet clear.

The nub of the developing controversy is this:

The Air Force contends that the assignment of missions worked out at the high command conferences with Forrestal at Key West, Fla., in March specified two things:

1. The primary function of the Air Force is strategic air warfare (defined as the destruction of factories, sources of raw material, rail and highway systems and other things making up an enemy's war-making capacity).
2. The Navy's primary air function is support of a "naval campaign" (defined as an operation or series of operations by ships,

planes and marines to gain, extend or maintain control of the sea).

Despite this, the Air Force maintains that a carrier of the size planned — with an unobstructed flight deck more than 1,000 feet long — undoubtedly would be used to launch big planes, possibly carrying atomic missiles as well as conventional bomb loads, to strike at strategic targets.

This, the Air Force feels, would result in the Navy's encroaching on its assigned duty.

A strong America demands a partnership of capital, management and labor... a partnership in teamwork of government and business... working together for the common good.

—Earl O. Shreve, president, U. S. Chamber of Commerce.

JERRY'S TIRE SHOP
LONDON (AP)—Jerry, the goat has inside knowledge of plans to improve the children's corner at the London zoo. F. A. Stengelhofen, zoo architect, had his plans for improvement all laid — but he laid them on a seal Jerry, already disgraced for sabotaging Britain's paper drive, digested the plans thoroughly.

Get Welcome Relief From Stomach Gas, Sour Food Taste

Do you feel bloated and miserable after every meal? If so, here is how you may rid yourself of this nervous distress. Thousands have found it the way to be well, cheerful and happy again.

Everytime food enters the stomach, vital gastric juices must flow normally to break-up certain food particles; else the food may ferment, sour food, acid indigestion and gas frequently cause a morbid, louchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice plus the blood you should eat better, sleep better, feel better, work better, play better.

Avoid purchasing "over-the-counter" doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is 888 Tonic to help you digest food for body strength and repair. Don't wait. Join the host of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps Build Sturdy Health.

O'le Wade is gone again—and Jim is the Real Estate Wheel

But this time he's gone on business instead of fishing—He got a letter from a lady in Missouri that brought tears to his eyes, Bless his sympathetic soul. Now this lady wrote that she was a Texas gal; that through circumstances beyond her control, had been forced to move to a farm in Missouri and had worked hard improving this place until it was a real good 120 acre farm—but that after all her hard work their new four room house burned down and all of her heart went with it—the tear drops on the letter at this point is what broke O'le Wade down—So after four years of hard work she had given up and wanted to return to dear old Texas. Well sir, Wade just packed up his clothes and family and took off to Missouri on this errand of mercy—and, believe it or not, this place is just a few miles from that famous fishing spot "The Lake of the Ozarks" and Wade was so intent on helping this lady that he didn't even take a fishing pole.

JIMS PLEDGE:

Since Wade has gone off on this worthwhile mission I have decided to work extra hard and sell enough stuff while he's gone to pay him for his trouble and expense on this long trip—So all of you red blooded Texas men that believe in protecting our womanhood and are in the market for a good house, farm, ranch, lot, or most anything get in touch with me and I know that we can make a deal of some kind.

Here's some of the things that I am going to try and sell while Wade is gone—

Four room modern home, living room, bedroom, kitchen, and built-in back porch. There is a small basement that is excellent for storage and a tool shed built on to the back of the house for all of the garden tools—and you will have plenty of tools because this place has one of the prettiest yards in Pampa—Now the ole boy that owns this place will not sell to just anyone—the person that buys this place will have to want a nice little home—pretty flowers and lawn, this fellow has already turned down more than we are asking for this place because he didn't think that the buyer would take care of this place. This is a corner lot 50x140 feet and is an pavement, and the place is just newly painted. So if you are interested in a home and not just a house call me for an appointment because this is the only way that we will show this place. Oh yes, the price is only \$4850.00.

Here's a real buy—Six rooms, bath and basement—Two large bedrooms, living room, dining room and large kitchen. There is a laundry room on the back of the house. It has a single car garage and fenced in back yard that is new. The living room and dining room is carpeted and goes with the house, there are 2 floor furnaces well located to give plenty of heat to the house. This house will carry a good loan.

The Roy Burns house is priced right to sell now—We will take \$11,000 and close the deal right now—So some of you people that want a house on the Hill get in touch with me.

- Five room and bath on Francis Street . . . \$8500.00
- Four room modern and extra lot on Francis . . \$5250.00
- New four room modern on Barnes . . . \$4750.00
- Army barracks of all sizes and types 675.00 to \$2950.00
- Six lots in Talley Addition . . . \$950.00
- Corner lot on North Nelson . . . \$950.00

I could go on all day listing things but Mrs. Stroup and Mrs. Codlin are taking turns calling me wanting this ad in before the deadline, whatever that is—it looks like as much as the Pampa News makes out of an ad this size they could hold the presses or what ever the newspaper term is for it until we columnists finish our masterpieces. —Sooop as we newspaper men say this is 30 until next week.

When you read this go to Church and you will feel better the rest of the day.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK—(AP)—To heck with push button war. I'm for a push button peace. It'll be more fun.
 Now take these new fangled guided missiles—the buzz bomb and rockets. Every big country has its scientist straining their gray matter plus trying to figure out ways to make them more deadly.
 These trained electric boomerangs do promise to take a lot of exercise and hardship out of war. The top brass in all lands, the generals who reign in a swivel chair, the admirals whose deck is a desk, can push buttons all day in their offices and still get home for the cocktail hour.
 The only combat equipment needed by the men who pushed the buttons would be thumb guards to save wear and tear on their pinkies.
 Guided missiles are gadgets with a real peacetime future. Here are a few suggestions offhand:
 First they must be made small enough to fit into a pocket and equipped with a radio telephone device.
 Cowboys then would be independent of saddle sores. They could press a button and lie in their

hunks and read Western story magazines. While the faithful little guided missile zoomed out to round up the cattle in the south 40-mile pasture.
 A housewife could send them out to shoot away strange dogs, peddlers and annoying bill collectors. She wouldn't have to miss her favorite soap opera by going out to look for "junior." Any guided missile worth its fuel would not only go and find the rascal—it would butt him in the rear until he came home.
 These loyal mechanisms also could be used to call taxis on a rainy day, to protect banks against robbers, fight burglars and trail and photograph errant husbands.
 Of course there might be abuses at first. City wolves could sit at their windows and send the innocent mistle out to whistle at pretty girls. The boss could have them wing around the office checking up on the hired help. A Dodger fan might break up a critical baseball game by sending a missile out to snag a ninth inning flyball.
SLOWNESS BUILT IN
WORCESTER, Mass.—(AP)—Officials of Providence, R. I., are taking no chances on speed instincts of their bus drivers. A contract for 112 new electric trolley coaches under construction here by the Pullman-Standard Company specifies a speed limit of 30 miles an hour. Special windings on the motors will cut the speed from the usual 40 m.p.h. to the new limit.
 John Bull is the English prototype of Uncle Sam.

Jeanne Anderson Is TSCW Graduate

Jeanne Anderson, daughter of City Secretary and Mrs. R. E. Anderson, 1328 Garland, will graduate May 31 from Texas State College for Women at Denton.
 Miss Anderson, a speech major, has been active in college dramatics. Her last appearance as an actress was in a student presentation of "The Women," about two weeks ago. She is a member of the Philomathia Club and of the Collegiate Player's Guild.
 Mr. and Mrs. Anderson will leave for Denton next Saturday to attend the commencement exercises.

El Dorado was the fabulous city of gold which early Spanish explorers sought in South America.
 William Pitt "the younger" became prime minister of England at the age of 24.
