The sheriff said a federal warrant charges Brown with unlawful flight to avoid prosecution. Identification officers said the fingerprints of a Henry Jones who was serving a 90-day sentence for theft matched those of the man

wanted in Texas. Sheriff Cal Boies of Maricopa County here said the prisoner, admitted identity as Brown but denied knowledge of the shotgun slaying of Mrs. Moore.

Enlistee May Chart Course

Men enlisting in the U.S. Army Air Force with the intentions of attending a particular school can now determine, before enlisting, if they will be accepted for training in that school, Master Sgt. D. A. Brown, officer in charge of the Pampa Recruiting Office, said today.

Under this plan, recently set up by the USAF, a man will have the opportunity to chose his vocation while still a civilian, and have assurance of his de sired assignment.

After the prospective enlistee decides which school, or vocational training, he wants, the local reoffice sends a letter to the Air Force, asking that the man be sent to his desired school after completion of his basic

Other means of applying for specialist training are also in force. An enlistee may take an examination or apply for technical training after being trans-ferred to an Air Force installa-

"Whichever means is used." Brown said, "any qualified young man today is assured of technical training in a school of his choice, Army or Air Force, and the training he receives is the best obtainable."

Love Grass Planted In Suspension Mix

Three Dalhart men have discovered a way of sowing the elusive love grass seed, the Southwestern Crop and Stock magazine reports.

The men, Ed Prichard, Jr., O. V Hartshorn, and Dick Peck, use a mixture of 74 percent cracked or ground grain sorghum, 8 percent cottonseed meal, and 18 percent love grass seed. The drill can be adjusted to plant at the desired speed with this ratio.

Love grass seed has to be mixed in a suspension for ordinary planting, since the seeds are so tiny and slippery that they cannot be handled in the ordinary man

Goodall Round Robin Tourney back from the Kentucky Derby the race was over.

The only ones who love the Goodall Round Robin Golf Tournament which starts here today are the fans.

The players, themselves, of whom there always are 16 habit-ually grumble that the event is unfair, and the only thing that makes most of them play in it is money in king-size quantities. The U. S. Golf Association considers it a hybrid-neither match

nor medal play-and not a true test of golfing superiority. The fans, though, love it be-cause the event brings together the world's brightest golf stars in clusters.

In one of the four foursomes scheduled to start going off in the opening round at 12:30 (EST) are Bobby Locke, Henry Cotton, Jimmy Demaret and Ben Hogan, a quartet of the greatest shot-makers of the modern era. In no other tournament could

the customer hope to watch such a group in action all at once. And, furthermore, see each of them playing against each of his

The scoring is on a "plus" and minus" basis, with each player's total accumulating through the final round on Sunday. For in stance, if Locke should shoot a 70 today and Cotton, Demaret and Hogan each did no better than 72, Locke would start the second round standing "plus," having picked up two strokes on each of the three others. Cotton, Demaret and Hogan each would stand 'minus 2"

The lineups are scrambled and in the end each of the 16 players will have matched shots personal ly with each of his 15 opponents.

36 means a new kind of washday for you!

. vou've never used anything like it!

TIDE is the kind of miracle that could happen only in this age of science. Discovered as a result of wartime research, Tide does what's never been done before-washes clothes cleaner than any soap, yet leaves colors brighter! The minute you put Tide in water, you'll know it's a completely NEW product! Tide suds billow up thick and fast-even in hardest water! And those wonder suds look different ... feel different from any soap you've ever used!

ONLY Tide DOES ALL FOUR!

1. Washes clothes cleaner!

Yes, cleaner than any soap made! Even grimy overalls come cleaner with Tide! Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well! Tide leaves no film itself . . . removes soap film left by former washings! That's why Tide washes cleaner!

2. Actually brightens colors!

By removing cloudy soap film, as well as the ordinary dirt, Tide makes soap-dulled, faded-looking colors perk up like magic! Yes, Tide is really safe for dainty washable colors!

3. Never "yellows" white things

Tide is a whizz for keeping all your white things sparkling white, week after week! Tide can't turn them yellow, to matter how often they're washed or how long they're stered!

Gives more suds— Prove it in your dishpan!

Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts grease like magic . . . washes dishes cleaner than any soap! No scum in the water! No greasy ring round the pan! No cloudy film on dishes and glasses! That's why they rinse and dry so sparkling clear-even with-

The Boston Red Sox' \$375,000 deals for Junior Stephens, Jack Kramer and Ellis Kinder tinally begin to look like good business. Red Sox fans had their misgivings when wins failed to follow the cash outlay. Up to five days ago, neither Kramer nor Kinder had thrown a ball for Boston. Stephens, the boy who was supposed to knock holes in Fenway Park's leftfield wall, was hitting a sorry .200. Events of the last few days have served to change that picture. Kramer won himself a ball.

Sour Food Taste

Here's How You May Help, Whether You Eat 500 Pounds or 2000 Pounds of Food

In a Year

Tou can't feel cheerful, be happy and sleep well, if your stomach is always upest. As age advances the "old stomach" needs more help. The reason is this:

Everytime food enters the stomach a vital gastric fuice must flow normally to break-up certain food particles; else the food may ferment, Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent ishoratory tests on human stomachs, have by positive proof shown that SSE Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due, to the SSS Tonic formula which contains very special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemis—so with a good flow of this gastric digestive juice, plus rich redoses of sods and other alkalisers to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped, fillions of bottle sold. Get a bottle of SSS Tonic from your drug store today.

So long as people can discuss both sides of a question that comes up-whether it concerns short skirts versus long, beer compared

with cider, or the larger issues of party versus party — we're sure of the individual liberty that has made this country great.

For it isn't differences of opinion that matter. The important thing is tolerance for differences of opinion - whether they affect the right of an individual to vote, to speak his mind, or enjoy a glass of beer. They're all parts of the freedom that we cherish!

bined with a cup of hot coffee Renew the family's interest in Bell HD Club Has Young People Have Called Meeting

During the recreation several games were played with Mrs. David Collis winning the prize. Roll call was answered by each member naming a problem that she needs to simplify.

Mrs. Joe Keel and Mrs. Emmett Osborne were appointed in charge of the decorations for the guest tea to be held, May 5, at N. Russell with Mrs. David Collis as hostess, assisted by Mrs. Lloyd Collis and Mrs. Tom Anderwald.

During the program each mem-ber discussed a problem, such as dish washing, sewing, ironing, pre-paring meals, and other household tasks. Steps were given as the task was being done at present and a simplified way was discussed. Some suggestions offered to make tasks easier are to use bottle with a sprinkler to moisten cloths for ironing, to sit to iron, and have everything convenient so the ironer will not have to leave ironing board during the time required to iron. It was suggested that a clothes basket on a stand on rollers is excellent to take clothes along the line and to bring them in for folding. An apron with large pockets is convenient to carry household cleaning attachments, dust rags, etc. along with the one doing the housecleaning.

The important thing was that people must be willing to accept new ideas and suggestions but most of all they should use them so as to develop a new and better habit of doing the household tasks.

Refreshments of cookies and lemonade were served to one guest, Mrs. George Sietz of White Deer, and eight members and seven children.

The members of the Bell Club and their friends and families enjoyed a party at the Bell School House April 1 with Mr. and Mrs. T. H. Kelley and Mr. and Mrs. Lloyd Collis serving as host committee.

The adults played "42" with Emmett Osborne winning high score and Mrs. Joe Keel taking ow score. The children played various games. Refreshments of ice cream

cookies and coffee were served to thirty-five people including Mr. and Mrs. Winford Swain and daughter as guests.

About Washable Prints. There's a way to make sure that the washable print dress which you buy will not lose its vari-colored brilliance when it is laundered. Simply look for a seaf which guarantees good washtub behavior.

When fabric colors run or fade in the laundering process, the unpendable factors are the dyes The badly-behaving dyes are what the textile industry calls "fugitives." The bright tints in a washable print fabric which won't run or fade owe their staying powers

Against the Againsters Because this column and this newspaper oppose so many of the Nicholas Roerich, the Russian time to get to Moscow. It was acts of the government or the subdivisions of the government or groups seeking to get class legislation to protect them in an unearned monopoly, some people are inclined to think that we are against most everything. When, however, it is analyzed as to what this column is against, it will be found that it is only against those people who are against respecting human initiative. And since two negatives make a positive we are thus for everything that does not interfere with human initiative. In fact those people whom we

ruffle the wrong way by being against what they are for are the real people who are the againsters. They do not respect human initiative. Therefore they are the real persons who are the againsters. Now let's look at some of the things that a man who respects human initiative has to be against in order to be for human rights and be consistent. He has to be against any man or group of men or any state owning any fraction of any individual. The man who is for tariffs is the man who is against men freely exchanging goods and services. The prohibitionist who tries to pass a law to keep people from having a right to drink what they want are the people who are against respecting that the majority has a right by way of the state to force people to pay for an educational system think will destroy the country are the people who are against respecting human initiative. These are the people who are against and not the man who is against the againsters. If this is not true, then the Ten Commandments and the Declaration of Independence are against. great moral guides are not against but for the rights of the individual.

THE STORY: Patience Mond, primly brought up by two fanden aunts, is in love with Paul Taylor, whom her aunts have forbidden her to see because they have never been properly introduced. Charlotte, Patience's twin sister whom she has not seen since childhood, is a stage star rehearsing a show in London. She invites Patience up to spend a day with her, dresses her smartly from her own wardrobe. They are to lunch with Roger Dickson, popular actor and Charlotte's boylriend. Charlotte jokingly begs Patience to the Roger away from her. At the inst minute Charlotte has to inneh with Dwight Breeden, movie producer, and Patience is left to meet Roger alone. Roger is lennemed by the miley young girl, suggests they meet again, holds her hand at the theater.

Convicted Man Denied New Trial

AUSTIN -(AP)- The Court of riminal Appeals Wednesday overuled Riley McCaine's motion for ehearing of a case in which he eccived the death sentence on onviction of murdering Elnora

Collins of Houston.

McCaine renewed his argument that trial of the case should have been held in Harris instead of Jefferson County.

The nude body of the murdered

voman was found, partly burned, n a wooded thicket near Beaumont Oct. 3, 1945. McCaine was arrested in Seattle, Wash., in April. 1947.
