(PRICE FIVE CENTS)

WORDS by O.E.H. Words are things

(Written in Mexico City, D. F.) MUSINGS OF various moments in and about Mexico City, D. F.—and the D. F. stands for Distrito Federal (federal district).

—Here for the Lions convention, we are impressed with the fact that the Mexico City club—largest in the world—knows its way about. Welcome signs and Lions emblems in every window, on street lamp standards, on taxicab windows, on monuments, in cafes, across narrow streets. Yessir, it seems that everybody knows "Los Leones" are coming. In fact, that they are here. You rub shoulders with clubmen from half a dozen countries and all the states.

—Police men, youngish, surprisingly efficient, numerous enough to fight a war. In twos and threes as well as singly, they are watchful, helpful. If they speak English, an American or British flag appears on their shoulder, the left one. They're smartly uniformed. Many ride motorcycles. We're to see them throughout the federal district. . . .

—Spending thousands of pesos, the Mexico Lions provide a free bull-fight (more of this later), trips about the city, a wonderful pageant with 2,000 Indians in costumes re-enacting their sun and moon worship at the huge pyramids of the Aztecs. There's a Texas night with the San Angelo cowboy band as a hit, and a California night, followed by balls at the swanky Foreign Club (a gambling paradise now closed by the government). . . .

—Memories: The old-fashioned man with the striped tie, the razor who was afraid to shave on the swaying Pullman. . . . A beggar asking a Fort Worth man to leave a bit of cognac in the glass for him. . . . Guides telling vendors that Los Leones are not to be cheated. Photographers with quick-finish pictures, while you wait—if you do. . . . A baby burro, gamboling in the mesquite, quite unaware that in a few months it will be in tune with the lazy speed, or lack of it, on the roads and trails. . . . Beautiful residences of soft red brick, stuccoed and white-washed. Rose gardens. . . . Fences ornate with iron work. . . . Firemen in gorgeous red and black uniforms standing beside fire engines of American make. . . . American Boy Scouts in uniform. Children on their way to school, lively and reckless as Americans. (By the way, they're Americans, too).

—Corn, the Indians' important contribution to the world, is the reliance of the Mexicans who are predominantly Indian or Indian-Spanish. . . . Corn growing on hillsides so steep that planters tie themselves with ropes to prevent falling. . . . Parks, statues of undraped and allegorical figures. . . . A tale of a mountain goat who dropped into a small mountain hotel, surveyed a group of Lions, and darted out. . . . Three crops a year. Remarkably even temperature. . . . Six months of rain, mostly at night. . . . Floating flowers, canoe rides among the flowers. Indian women selling beer, xylophone players on a flat-boat, selling music. . . . Young Mexican men stepping in front of children, ragged but eager, about to be photographed. . . . Welcome news that mosquitoes don't thrive here, flies relatively few. . . . Dial telephones in twenty feet. . . .

Witness Admits He Suggested Campaign That FDR Was Insane HOUSE VOTES DOWN DEATH SENTENCE

SENATE BARES 'WHISPERING' PLOT DETAILS

RAYBURN WILL PRESS FOR ENACTMENT OF DEATH SENTENCE

WASHINGTON, Aug. 1 (AP)—F. P. Cramer, New Jersey advertising man, told the senate lobby committee today he had suggested months ago that utilities companies start a whispering campaign that President Roosevelt was insane.

Meanwhile, the house rules committee received testimony from Bernard B. Robinson, Chicago utilities official, that he had paid Robert Smith, Washington lawyer, \$500 to teach him his way around Washington—how to use the congressional directory and the like. Robinson said he came to Washington, representing the Associated Gas & Electric company, to oppose the utilities bill.

Chairman Black of the senate committee recalled what he termed a recent "whispering campaign" that Mr. Roosevelt was in bad health. It was quickly drowned by widespread press denials from Washington.

President Roosevelt himself took cognizance of the campaign. "Didn't you suggest in March that a whispering campaign be started to convince the nation that the president was insane?" Black asked.

"I don't recall," Cramer, a middle-aged man with closely cropped hair, replied. "Didn't you suggest that a whispering campaign be started?"

"I suggested that as one of the matters that might be considered," Cramer replied in a low voice. "I was a small stockholder in the Electric Bond & Share company, testified he was 'annoyed and chagrined that I had any connection with it."

"Are you ashamed?" asked Senator Schwelb (D., Wash.). "Certainly."

See WITNESS, Page 6.

Suicide Hinted By Suspect In Bauer Slaying

Assails Nazis

With the view to determining if the U. S. would be justified in severing diplomatic relations with Germany, military Senator William H. King of Utah, above, made a fiery demand for investigation of alleged Nazi religious persecutions. "The Hitler government has oppressed Jews and Catholics, and has not discharged its proper obligations to the U. S.," he declared.

NATION'S DUCK HUNTERS WILL HAVE 30 DAYS Most Rigid Rules In History Announced By Darling

WASHINGTON, Aug. 1 (AP)—Outlining the "most rigid regulations in the history of American wild-fowl hunting," J. N. "Ding" Darling, chief of the biological survey, today said the nation's duck hunters will have 30 days of shooting this fall.

Darling said the regulations had been approved by the president, that he expected them to save 50 per cent of the increase in ducks this year.

Shooting over baited water or land will be prohibited. No live decoys can be used at any place. Zoning of states by seasons will be eliminated and the nation will be divided into two zones, northern and southern.

Shooting will be permitted only between 7 a. m. and 4 p. m. Possession of more than one day's bag limit, which was reduced from 12 to 10, will be illegal.

A three-shell limit on auto-loading and repeating shotguns will become effective. The season will open in northern states October 21 and close November 19. In southern states it will be from November 20 to December 19.

SECRETARY IS SILENT ABOUT TAX OPINIONS

WILL NOT TELL SENATE WHAT HE THINKS OF MEASURE

WASHINGTON, Aug. 1 (AP)—Secretary Morgenthau today declined to tell the senate finance committee whether the house tax bill disregards President Roosevelt's recommendations, but agreed the treasury would have to be satisfied with the measure the congress enacted.

After reading a brief prepared statement to the committee warning against new expenditures outside the budget and expressing the hope the revenues from the tax bill would be applied against the deficit and the national debt, Morgenthau was asked his views on the house measure.

He consulted his advisers and then said it was not his duty to pass on it, that his views were those outlined in the president's message.

"As long as I'm secretary of the treasury, I'm not going to try to write tax bills," he asserted. Chairman Harrison (D-Mass.) observed he couldn't recall a secretary who refused to give his view on tax legislation.

"My views may differ from other secretaries," Morgenthau replied. "The treasury head was asked point blank by Harrison whether the house bill 'conforms' with recommendations of the president and the treasury."

"You place me in an embarrassing position," Morgenthau said, "when you ask me to analyze the bill before the house."

He pleaded that since he had been secretary he had sought "not to tell congress what the rates of any tax should be."

"To Go Along" Harrison said he was "willing to go along" with the president's wishes but emphasized there was a marked difference between the president's recommendations on corporation taxes and what the house ways and means committee wrote into the bill.

It is inconceivable," the committee chairman said, "that the president would make any recommendation without consulting the treasury."

Tokyo Pupils Study Air Raid Defense

"Gas!" "Enemy planes!" Those cries brought thousands of Tokyo primary school students tumbling from their classrooms wearing gas masks. Of course, Tokyo wasn't

actually being attacked from the air, defense drill staged by the army gave the capital a realistic foretaste of what to expect in event of war.

WOMAN PASTOR FACING HORSE THEFT DECLARES INNOCENCE

'It Takes More Than This Old World To Get Child Of God Down,' Says She.

MENARD, Aug. 1 (AP)—Mrs. Anabel Gatlin, 25-year-old blonde evangelist, prepared today to celebrate the anniversary of one of her church houses instead of worrying about charges of cattle, horse and washing machine theft that she faces.

She said a stone church building she erected at Ronelle was all paid for and was just one year old today. She added: "I got out just in time to attend the anniversary rally there today."

Mrs. Gatlin was released from jail at San Saba yesterday. She is at liberty under bonds of \$1,000 each on seven counts of cattle theft and one of theft of a washing machine. She also is under two bonds of \$1,500 each at Menard on two counts of horse theft.

"I'm not afraid of anything," she said. "It takes more than this old world to get a child of God down. The public ought to know there are 2 sides to every question. Religious prejudice is 's' the bottom of the trouble but I have a side that will clear me and my husband."

Her husband, Cecil Gatlin, was held here on charges of horse theft. "I wish you could take a picture of me today," the woman said, apparently in a happy mood, "so the people could see just how I look, so they could know that I am going into this thing with my head up."

See WOMAN, Page 6.

RAYBURN MOVE IS DEFEATED SECOND TIME

MAJORITY IS NOT AS LARGE AS FIRST TIME

WASHINGTON, Aug. 1 (AP)—After registering renewed opposition to the provision in the utilities bill for compulsory abolition of "unnecessary" holding companies, the house today authorized its conferees to insist that outsiders be excluded from the meetings with a committee of senators to adjust differences over the legislation.

WASHINGTON, Aug. 1 (AP)—Continuing its opposition to President Roosevelt's wishes, the house refused again today to accept the provision in the utility bill to abolish "unnecessary" holding companies. This action was taken in rejecting a motion by Chairman Rayburn of the interstate commerce committee to instruct house conferees on the legislation to agree to the section approved by the senate by a one-vote margin.

Rayburn said if his motion were rejected "we may not" complete action on the utility bill this session. Rep. Huddleston (D., Ala.) said the issue between the house and

See UTILITIES, Page 6.

Filipinos Fight Jobless Seamen On Houston Ship

HOUSTON, Aug. 1 (AP)—Violence broke out on the waterfront here today when members of the International Seamen's Union boarded the tanker Gertrude Kelllogg, with the idea of talking with the non-union crew and persuading them to leave the ship.

"The Gertrude Kelllogg is an American-owned ship using a crew of 20 Filipinos in charge of eight American officers," said Dickey. "The Filipinos are being paid the union scale of wages. There are about 300 unemployed union seamen in Houston."

It was only right that they should have jobs on American ships." Police Captain Roy T. Rogers reported that several shots were fired in the melee but that there were no major casualties. He said there were several bruised heads. One man suffered a laceration on his head and was taken to a hospital. He was released after the wound was treated.

Jury Suggests Enlargement Of The County Jail

In a brief final report, the Gray county grand jury has suggested that the county jail be enlarged. It was stated that an inspection of the jail revealed it to be crowded.

Briefly, the report cited that the jury had been in session 17 days, and returned 30 felony indictments, and examined 150 witnesses. Commendation of the work of District Attorney Lewis Goodrich, County Sherman White, bailiffs, and the court was expressed. Siler Faulkner signed the report as foreman.

I Saw . . . J. G. Noel pointing out on a large map the location of his new farm in the Medina irrigation district near San Antonio. He has a 20-acre lake on it. C. A. Clark, kept up late by the illness of his son, watering his lawn at midnight. A card from Stokes Green, who is visiting relatives at Montrose, Colo., and he said he felt just as fine as the eastern millionaires up there look as they loiter around in the shade.

I Heard . . .

That Newt Dilley had the girl in his office keep copies of the Pampa NEWS while he was away for a few days so that he could learn what happened to Dinny in the comic strip. Aleo Oop, Newt said that when he left town Dinny had just fallen in the cave and he sure wanted to know how he got out. Mrs. Charlie Duenkel calling neighbors while looking for Junior's black Cocker Spaniel pup, which has wandered away again. "Slick" McMurry, back from a fishing trip in Colorado, remarking that fish may be in schools but they sure were playing hooky or on a vacation while he was in the Conchos area.

Pampa Due To Have District Relief Offices

Pampa is scheduled to become the district headquarters of the Texas Relief commission soon. George Briggs, B. C. D. manager, was authorized by the City of Pampa to offer the commission necessary facilities for establishment of an office to serve Gray, Donley, Collingsworth, Wheeler, Hemphill, Roberts, Hansford, Ochiltree, and Lipscomb counties. Office space, storage room, and transportation of surplus commodities must be found to meet the requirements of the new office. Details are lacking.

FROM 7 TO 25 MEN BELIEVED TO HAVE PERISHED IN TRAIN WRECK

WACO, Aug. 1 (AP)—The twisted, smoking wreckage of a derailed freight train gave up one charred body today and it was feared that anywhere from seven to 25 men—largely negroes—may have been crushed or burned to death in the wreck on the Missouri-Kansas-Texas line near Bruceville last night.

The unidentified body of one victim, apparently a negro, was removed from the debris and the crews clearing up the smashed, fire-blackened cars, continued to dig for other bodies.

Rescue workers, who pushed their search of the debris after finding the body, were hampered when another oil tank car caught fire. Much of the wreckage was too hot to handle. Railroad officials considered dynamiting the wreckage in an effort to speed up the search and clear the track.

C. P. Carlisle, 21, of Waco, who said he boarded the train at Ranger, declared today he saw at least 25 men in the cars which later piled up. He expressed the opinion all these were dead.

Railroad officials said 16 men were known to have been riding on a car loaded with stone. This car overturned, and the stone spilled over the wreckage. The one body recovered was from this car.

Dale Maedgen, of Bruceville, one of the first to reach the wreck last night, said he believed the death toll higher than seven. He told of hearing cries from a piled-up box car, which later burned with its cargo of transients.

See TRAIN WRECK, Page 6.

Road Runners To Play On Friday

The Pampa Road Runners will face their first opposition in the Denver Post baseball tournament tomorrow afternoon when they meet the team representing the Holsum Bread company of that city. The game will begin at 3 o'clock Denver time or 4 o'clock Pampa time.

GAS WASTE ACT GOES INTO EFFECT TODAY AS TWO SWEET GAS PLANTS ARE CLOSED

Until reports are received, the amount of gas being conserved will not be known. However, a huge amount of the fuel was being "popped off" up to midnight. A court attack upon the new sweet gas production order was made at San Antonio yesterday by the Henderson interests in Hutchinson county, but an injunction was denied by Federal Judge R. J. McMillan. It was alleged that the Henderson interests would permit resumption of operations. Use of residue for fuel and carbon black will be attempted in some cases.

See GAS ACT, Page 6.

Loan Deadline Extended Again

Deadline for crop loan applications on winter wheat will be extended indefinitely, Chas. I. Hughes of the Gray county committee was informed today.

### Pee-wees Leave For Canadian's Tourney Today

The Pee-wees expected to face stronger opposition at Canadian tomorrow and Saturday in the junior baseball tournament than they met yesterday when they defeated the Jackrabbits 11 to 4 at the Denver depot diamond.

The boys will leave this evening for Canadian. Some of the strongest teams in the Panhandle and western Oklahoma are entered. For two reasons, the boys are hoping that a delegation of Pampa fans will see the games Saturday afternoon and Saturday night. They want their encouragement and they want rides home. Transportation for the boys to the tournament has been arranged, and most of them will have rides home.

The Pee-wees fully expect to be in the finals. They are counting upon their pitching staff headed by Amos Reed and their snappy infield and outfield to win the trophy. Yesterday Reed struck out a dozen Jackrabbits and allowed only four hits. Other pitchers who will be available in a pinch are Richard Killgore, Claude Heiskell and Billy Morrow.

The lineup will probably be shifted in several places. With the assistance of "Coach" Busby, most of the boys were able to obtain uniforms.

The game yesterday promised to be close. The Pee-wees grabbed a 3 to 1 lead in the first inning, and held it until the fourth when the Jackrabbits rallied and ran in four scores for a two-run lead. At that juncture, Howard Buckingham, who tells the Pee-wees how to win, arrived and an orgy of base-stealing followed. Claude Heiskell even stole into home on a struck at ball. Reed, who had had trouble in adjusting his curves to battle the Jackrabbits, conferred with Buckingham and few reached first after that. Miller who started on the mound for the Jackrabbits was knocked off in the seventh, and his place was taken by Nicholson, who was the Rabbits' star hitter. Nicholson then allowed only one hit.

### PAMPA TOPICS OF OUR CITY

**Improving School.**  
Supt. M. L. H. Baze of the Brownfield schools, former head of the Hopkins schools of Gray county, was developed a WPA project for an expenditure of \$4,500 on 2,000 feet of sidewalk, 3,000 feet of curbing, around the campus, and certain building repairs. The Brownfield school is already noted for its beautiful campus.

**Leave for Contest.**  
Two Pampa beauties left at 1 p. m. today for Lubbock to compete in the semi-finals of the beauty contest being conducted by theaters of this section. They are Miss DeAnn Heiskell, "Miss Pampa", and Miss Joyce Smith, "Miss Gray County." The judging will be held on the evening of August 3. The winner will enter the finals at Roswell later.

**Cemetery Thieves.**  
Even a cemetery is not safe from the ravages of petty thieves. For the third time in a little more than a year, Pampa cemetery has been visited by thieves. The first time vases were stolen from graves. The second loss was several hundred feet of hose. The latest depredation was the entry of the office and store room from which clothing, gardening equipment and some silverware was taken. The door of the building was forced open, Sexton Ed Poran reported.

**Water Record.**  
Growing Pampa received little rain last month, hence the July water pumping reached the record total of 56,869,000 gallons. This was a daily total of 1,834,494 gallons. Part of this was used on city property, the swimming pool, boulevards, and lawns, and at the cemetery.

**Band to Panhandle.**  
The municipal summer band directed by Winston Savage will go to Panhandle Saturday evening to give a concert in the city's bandstand there. Arrangements are being made by the Pampa B. C. D. Excellent progress has been made by the summer band. A good quality of music is being used.

**Return On Indictment.**  
Return has been made on the indictment of August Doble, charged with assault upon a girl under 18 years of age last December 10. Doble is in jail here.

**Hear Arch Hurley.**  
Mr. and Mrs. G. C. Malone, accompanied by Porter Malone of Amarillo, drove to Tucuman, N. M., yesterday to hear Arch Hurley speak. Mr. Hurley received a tumultuous reception upon his return from Washington where he worked to have the Conchas dam built. Porter Malone is renewing acquaintances here today.

**Hit By Golf Ball.**  
Calvert Clark, son of Mr. and Mrs. C. A. Clark, was struck on the head by a golf ball yesterday afternoon but received no permanent injury, it is believed. The ball apparently struck the child a glancing blow. He was rendered unconscious for some time. He was able to be out playing this morning. The ball was being driven from the rough by his father and struck the child when he ran up a small hill to see where the ball was going.

Bob Thompson returned yesterday from a 10-day visit with his parents and other relatives near Nacogdoches.

Mr. and Mrs. Charles Dean of 623 N. Somerville have had as their

### International Issue in Anti-Nazi Disorder

The anti-Nazi rioting that attended the sailing of the S. S. Bremen from New York, when a group of alleged communists ripped the Nazi Swastika banner

from the mast of the great liner, threatened to develop international complications as the German press demanded satisfaction. The difficulty of keeping the crowd in check is evident in the above action picture, which shows how the police were outnumbered during a disorder in connection with the Bremen incident.

guest the past two weeks Miss Viola Rueppel of St. Louis, Mo. Mrs. Dean resided in St. Louis before her recent marriage.

Mrs. Duce Balthorpe is confined to her home by illness.

R. M. Ivy is undergoing medical treatment at Pampa-Jarratt hospital.

Miss Margaret Buckler is a patient in Pampa-Jarratt hospital.

John Shannon underwent an appendectomy at Pampa-Jarratt hospital yesterday afternoon. His condition this morning was satisfactory.

Mrs. Newt Dilley is convalescing from a serious illness in a Herington, Kan., hospital. She is expected to return to Pampa within the next two weeks.

**HUMBLE TO BROADCAST**  
FORT WORTH, Aug. 1 (AP)—The Southwest conference has closed a contract with the Humble Oil company whereby the latter has an option on the radio broadcasting rights for all football games played within the conference this fall. It has been announced by Dr. E. W. McDiarmid, president of the conference. The individual schools will receive the money paid for the rights, and if Humble chooses not to broadcast a game it will be open for other advertisers and stations.

### Finals In Golf Tourney To Be Played Sunday

Grover Austin Will Meet Flenniken In Match

Several matches in the City Open golf tournament over the Country club course, not played Sunday, have been staged during the week with disastrous results to several favorites. The finals in the championship flight on next Sunday will see Grover Austin Jr., pitted again Bill Flenniken over 36 holes.

Semi-final and final rounds in the other flights will also be played Sunday, 18 holes in the morning with the final 18 holes in the afternoon.

Matches played during the week follow:  
Mack Graham defeated Clyde Pattee, 5 and 3, in the second round of play in the first flight.  
Lynn Boyd won from Bert Curry, 2 and 1, in the second round of play in the third flight.

**REPORTS ON TRIP**  
A report on the Lions International convention at Mexico City was given the local club this noon by C. E. Hinkle, president of the club and delegate to the meeting. Expansion of Lionism into additional foreign countries this year was cited as the goal of the organization now.

NEWS Want Ads are effective.

### Russia Attacks Germany, Japan, Italy As Warlike

MOSCOW, Aug. 1 (AP)—An appeal to workers to rise in arms against governments that wage "imperialistic" war was published by Pravda, communist organ, on behalf of the seventh communist international today as speakers hurled further accusations against Germany, Japan, and Italy.

"The comintern (international) calls on all toilers and friends of peace to form a united peoples front to be ready to change imperialistic war if it starts into civil war," the official party organ asserted.

The newspaper asserted that fascists cannot be "already charged and the first shots of a new war may be heard any moment."

The United States embassy, meanwhile, denied reports that a protest has been made to the Soviet government over developments at the communist congress where AMG Koyeian, delegate called for the comintern's support in the event that Pacific coast longshoremen again go on strike.

Ambassador William C. Bullitt was watching the congress carefully, it was said, but has made no move in the nature of a protest.

Pravda accused Germany of plotting aggression against Soviet Russia and endeavored to show that the reich had a close understanding with Japan, which the newspaper said "is using China as the basis for anti-Soviet adventures."

"If Italy launches war on Ethiopia, the consequences may easily spread to Europe," contributed the Moscow Daily News.

Mrs. James Todd Jr. returned yesterday from Avar, Okla., where she visited relatives. Emma Boone Todd will remain in Avar until school opens.

### Fat Man Reduces 53 Pounds--Oh Boy!

Don't be stubborn, you big fat men—throw off your fat before your fat throws you into the gutter. Do as S. J. Lanier of Lawtelle, Calif., did. Read this letter:

"I have used two reducing belts to no benefit but since using Kruschen Salts each morning in my coffee I have taken off 7 lbs. in a week and am not anything I like. I weighed 240 lbs. 6 months ago and now I weigh 190 lbs."

Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats, potatoes and sweets—now you know the safe way to lose unsightly fat.

For a trifling sum you can get a bottle of Kruschen Salts that lasts 4 weeks at Richards Drug Co., Inc., Fatheree Drug Co., or any drugstore in the world—but be sure and get Kruschen—your health comes first.

# Rayburn Outlines New Move To Enact 'Death Sentence'

### Conferees Would Be Instructed To Accept It

WASHINGTON, Aug. 1 (AP)—The acid controversy over utility holding companies took a swift, new turn today as Roosevelt forces were reported to be lining up their strength for another attempt to enact the bill calling for mandatory dissolution of certain holding firms.

Some leaders indicated this effort to turn a defeat into a victory probably would be made before the house recessed tonight.

They said Rep. Rayburn (D., Texas), leader in the house fight for the dissolution decree, would offer a motion to instruct house conferees to accept the senate provisions calling for abolition of utility holding firms branded "unnecessary."

After the senate passed this provision weeks ago, the house rejected it by a majority of 70. Later the same chamber, by a margin of 411, declined to substitute the whole senate bill for the house measure, carrying a milder clause giving the securities commission discretionary authority to break up holding companies.

The controversy then was sent to conference between members from house and senate, but they have been unable even to confer because Rep. Eddleton (D., Ala.) and two other house conferees have objected to senators' insistence on taking Ben Cohen, administration aide, into the meetings.

The administration forces were counting on disclosures by congressional lobby investigators to help them gain votes. These included evidence that power representatives sent fake telegrams to congressmen in an anti-utility bill campaign in which more than \$1,000,000 was spent.

Meanwhile the senate lobby committee is tentatively planning to make a tour of southern states next week for "first hand" evidence of the way in which utility companies fought the Roosevelt bill.

Committee members said they were considering the trip to follow up "leads" in Asheville, North Carolina; Memphis, Tenn.; Columbia, S. C., and possibly other towns.

The committee's inquiry into the Associated Gas & Electric system was suspended today, pending the finding of H. C. Hopson, called the dominant figure in the system. Its program depended upon the location of another New York utility head.

Soon the committee probably will call officials of the Electric Bond & Share company, which its agents have been studying for several days. Investigators also have been into the files of the Edison Electric Institute.

The house rules committee gathered today to resume its lobby inquiry. Yesterday the house investigators reported that a witness, E. V. Sellers, was missing, but later Sellers, accompanied by newspaper men and said he had been in and around his hotel room, his office here and capital hill all day. He was the man who testified last week about contacts between Rep. Patton (D., Texas) and officials of a Texas utility.

### SILENT MILK DELIVERIES GUARD LONDON'S SLEEP

LONDON (AP)—Milk delivery in the early morning hours has been made painless for London's millions of sleepers.

First the delivery trucks were silenced by a regulation making rubber tires obligatory, and now the bottles have been made sound-proof even when they're bounced.

The new containers are made of vegetable pulp, are weatherproof and won't break if dropped.

The latest postage stamps from Iran (Persia) are inscribed "Postes Francaises," instead of "Postes Persanes" as formerly.

## LOCATION MADE FOR A WELL THIRTY MILES FROM LAREDO

LAREDO, Aug. 1 (AP)—Development work to determine whether oil production is possible within thirty miles of Laredo is in progress in the northwest part of Webb county on the Hard Jeffries ranch.

A location was made 6,750 feet from the east line and 1,170 feet from the south line of section 1,453 of Webb county by W. H. Verner, trustee No. 1 Jeffries, the test spudded in and surface casing set July 23.

Contract was made to drill 1,500 feet with cable tools, after which it is planned to put in a rotary rig and continue to 4,000 feet, or the Navarro sand. Dr. Victor Ziegler, former instructor of geology in the Colorado School of Mines, worked out the area and made the first location.

Many thousand acres of lands in northwest Webb county, including several large ranches, are under lease by the interests represented by Verner. Several tests will be drilled on the lease.

Contrary to belief that there is no oil production west of Highway No. 2 between Laredo and San Antonio, the Amerasia Oil Corp., and other concerns are developing an oil field in Frio county, 60 miles north of the test on the Jeffries ranch. The very thick sands found in the Mount Selman formation in the Loposa field of Zapata county, southeast of Laredo, has caused interest to extend west in the country north of Laredo and it is expected much development work will be done in the next few months in the northwest portion of Webb county.

## 55 RUSSIANS KILLED AS U-BOAT GOES TO BOTTOM AFTER CRASH

MOSCOW, Aug. 1 (AP)—The Soviet government turned its resources today to the raising of the bulk of the sunken war-time submarine B-3, which became a death trap for 55 Russian officers, seamen, and cadets.

## Seattle Views 'Most Modern Ship'

The world's most modern vessel is the claim made for this striking-looking craft, pictured from the air with Seattle's soaring skyline as an effective background. The motor ferry Kalakala is the first large fully streamlined vessel ever built, say its designers. It is 276 feet long and provides speedy service on Puget Sound between Seattle and Bremerton, Wash.

## READY MADE WIFE

BY CORALIE STANTON

Chapter 10  
NEW JOB

The morning after Rex Moore and his wife dined with him, Mark Albery discovered that young Mrs. Moore had come back to work, and sent a message to ask her to come to his office.

"I said you were to stay away until you were settled," he told her in the smooth, automatic voice that went with his Oriental type.

"I am quite settled, thank you, Mr. Albery. It was easily done yesterday. Everything in the flat is so convenient and so beautiful. You have been so very kind to us."

"No, at all. I wanted your husband near by. He and I have some very important plans to make. And the flat was empty. I took it for my young cousin when he came into the business, but he has gone over to the United States for six months. You are more than welcome, Mrs. Moore."

He was thinking that she did not look as happy as she ought to. Last night at dinner, he had thought how beautiful she was. But very quiet, of course, it must have been a great shock to her. And, though joy doesn't kill, it may frighten a sensitive nature.

Rex Moore had not understood at all. He could make no contact with him. The young man seemed entirely withdrawn; his eyes, his words, his very self. He evidently would not speak of his experience after his crash.

To his wife he seemed abrupt, though friendly—so friendly as to be almost artificial. But, alone with Albery, he was full of plans, bursting with energy and ambition. And what a hard bargain he had driven for his exclusive services! The fellow had seemed to think of nothing but the money. Not a bit like Rex Moore of the old days.

"All aboard the submarine perished," said the official statement. The government announced that 10,000 rubles would be granted to the family of each victim and that pensions would be paid.

Seven cadets, eight officers, and 40 seamen were on the list of victims of the disaster made public today. Commander Alexander Goldnoff was in charge of the submarine.

The Russian fleet has been engaged for weeks in war maneuvers, and the Soviet announced recently the fleet was being increased in size to offset additions to Germany's Baltic fleet.

## TAX CHECKUP WILL BE MADE IN NEW DRIVE

### 5 MILLIONS ALLOTTED TO TIGHTEN UP ON COLLECTIONS

WASHINGTON, Aug. 1 (AP)—President Roosevelt today allotted \$5,112,125 of work relief funds to the treasury department for a three-fold drive to tighten up on tax collection.

Included would be an intensive check-up on income tax returns of the "little fellow" and a drive against "evasions" of liquor taxes.

White collar jobs will be employed in the work. Officials said they hoped the studies would bring increased tax revenues.

The largest allotment was \$2,448,290 for a survey of delinquent taxes and "nuisance" tax collections in 20 large cities. The bureau of internal revenue also received \$1,577,894 to check in extra collections, returns, and \$1,086,941 for a nation-wide study of retail liquor tax evasions.

Two other white collar projects also received funds, the census bureau getting allotments of \$1,804,948 for an alphabetical index of the 1930 census, and \$283,000 to determine any improvement in retail trade during the past two years.

Commenting on the income tax check-up, treasury officials said that in recent years revenue agents have been able to examine only 350,000 of the 700,000 returns sent them for study. Those examined have been returns of larger taxpayers. Now the small taxpayer will be checked. About 1,000 people will be employed on the new job.

Insisting that the liquor tax check-up would not mean pay for check in extra collections, officials said sample surveys in 10 large cities had shown "extensive evasions," while "certain stores were being used as outlets for bootleg liquor." The inquiry will be made in 90 cities of more than 100,000 population. Work will be necessary in dry states because of beer, malt, and medicinal liquor sales, officials added.

like a vague premonition of evil, as she went back to her own office for the last time. That evening, when she left work, she collected the last of her personal belongings from her little flat, telling the landlady that she would come in now and then to see that everything was all right.

The good woman was naturally excited and bursting with curiosity, which Laurie could not satisfy. It had been enough to say that her husband, the famous airman, had come back from the dead, and that they were moving temporarily into another flat, as hers was not large enough when her sister home. But was keeping it on as it was for the remainder of her lease.

She halted a taxi and was driven to the new flat in Chelsea, not on the Embankment, but in a pleasant side street, with trees on either side, and with a view of the river from a bay window in the big front living room.

Monday, Moore and Laurie began their strange life together.

## A PREMIUM ON IGNORANCE

An old legal fallacy that knowledge of a crime disqualifies a person from being a fair and impartial juror is the basis for an Angleton, Texas district judge's decision to cite several Houston newspaper men in contempt of court.

The newsmen were instructed not to print testimony in the murder trial of Clyde Thompson, East Texas "thrill slayer." The theory of the judge was that since two more companion cases were to be tried, printing of the testimony in the first case would make it impossible to obtain a jury in succeeding cases.

The newspaper men rightly challenged the right of the judge to control printing of the proceedings in his court. Angleton citizens had the right to go into the courtroom and hear the procedure. Readers of Houston newspapers, who could not make a trip to Angleton to enjoy the same privileges, have the right to expect the papers to carry the testimony.

The issues in this particular case were not in themselves very important. The importance of the precedent which would have been set, however, was huge. If a good judge can suppress news on a good pretext, a bad judge can suppress news for other reasons. So many are the present-day assaults on freedom of the press that every step toward suppression must be combated.

We do not question the good intention of Judge M. S. Munson. We do believe that he was wrong and that the higher courts will so hold if the case is pressed and appealed. In this day of instant communication, it is a legal and social folly to continue seeking jurors who have not read the details of a big case.

It would be more logical to demand that newspapers not print news of a crime until the facts were produced in court, on the theory that witnesses questioned by reporters are not under oath. The people, thus deprived of news to which they were entitled, would instantly protest. But the news the Houston men wished to print was only that spoken under oath from the trial itself. The readers would hear the same facts which the jurymen heard.

If a dastardly crime is committed and the facts are made known, it is folly to seek jurors who are too ignorant to have formed any "opinions." If competent jurors are chosen they will decide on the basis of evidence heard in court and instructions given by the judge. A competent juror is not one who locks his mind after reading the morning's newspaper. Neither is he likely to be competent who is so detached from the conduct of his fellows that he reads no newspapers at all.

An opinion of a juror is not necessarily his decision. To assume that it is a reflection upon our citizens and upon the jury system.

# CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, July 25. (AP)—State Senator Clint Small of Amarillo, attending the important gas conservation hearing here recently, was warm in his praise of a group of college men who helped the railroad commission gather data on the Panhandle gas situation.

"You should have seen those boys work," he said. "Those youngsters didn't know anything but to do the job right and how they did it!"

About 20 honor students at the University of Texas and the Agricultural and Mechanical college were given temporary jobs about the time their schools' long sessions closed. The idea was to help both the students and the commission.

It was one of the biggest jobs ever undertaken by the commission, most of the persons attending the hearing and viewing the results of the work agreed.

# OUT OUR WAY

# THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON—With the entire world launching into a headlong naval race, the background views of the president of the United States on naval affairs are always interesting and important.

That is why official Washington is more than ordinarily absorbed in a government publication which has just appeared and which has circulated but sparingly. It is called "Naval Documents Related to the Quasi-War Between the United States and France, 1797-1798."

The story is interesting. Back in 1793, some 22 years ago, Franklin D. Roosevelt was assistant secretary of the navy under Wilson. In that capacity, he found himself prowling about in the neglected attic of the old State, War, and Navy building, where almost anything might be found.

He found old wooden cupboards under the eaves, filled with envelopes marked "Captain's Letters." Interested as he always has been in naval history (he is one of the important private collectors of naval historical documents), he wanted them published so the dog-eared, fading letters should not be lost.

A year ago, Congress authorized their publication. Don't worry—anyone who gets a copy has to pay for it—it's not a congressional franking matter.

The book is just out. It's full of salty details of the outfitting and handling of the ships which made the American navy, and which in FDR's preface "were closely associated with the country's pioneer settlement and expansion, with the winning of its independence, and with its subsequent security in very precarious times."

But down among all the rubble of official correspondence about rat-traps and speaking trumpets, all of which is sprinkled with the salty language of the men who commanded at sea, lies one curious letter, in the collection discovered and sponsored by F. D. R. himself. Chucklers all over Washington are chuckling about it.

To Secretary James McHenry from Alexander Hamilton:

... in so delicate a case... my opinion is that no doubtful authority ought to be exercised by the president... If not, and he is left at the foot of the Constitution, as I understand to be the case, I am not ready to say that he has any other power merely to employ the ships as convoys with authority to repel force by force (but not by capture)

"No doubtful authority ought to be exercised by the president, but as different opinions as to his power have been expressed in the House of Representatives, and no special power has been given by the law, it will be expedient for him, and his duty, and the true policy of the conjecture, to come forward by a message to the two houses of Congress declaring that 'so far and no farther' he feels himself confident of his authority to go... having no desire to exceed the constitutional limits.

"This of course will remove all clouds as to what the president will do—will gain him credit for frankness and an unwillingness to sheathe (sic) the Constitution—and will return upon Congress the question in a shape which cannot be eluded.

"Yrs. truly,  
A. Hamilton."

### RICH CONVICTS WOULD PAY FOR DAILY RATIONS

#### Michigan Moves To Makes Inmates Pay Board Bill

LANSING, Mich., Aug. 1. (AP)—Michigan's 10,000 prison inmates—purple gangsters, "con-men," killers, and swindlers—are going to have to pay for their daily rations in the "big house."

Nest eggs they laid away outside the gray walls against the day when they might be freed again, will be ferreted out by the state, and a portion taken for their daily board bill. Auditor General John O'Hara fired the first shot in Michigan's experiment to force prisoners to pay for their food as well as for their crimes, when he filed a claim in Flint, Mich., against the estate of Balfe McDonald, youthful matricide, for \$464 at the rate of 70 cents a day.

He came into an estate of \$250,000 after the death of his wealthy widowed mother, Mrs. Grace B. McDonald.

The legislature empowered O'Hara to seek the appointment of guardians for prisoners' estates and then follow with a claim for board. Even soldiers who have saved bonuses and pensions while in prison, are not exempt.

Young McDonald probably is the wealthiest prisoner in a Michigan penal institution according to O'Hara.

"It is surprising how much money some of the prisoners have outside," said O'Hara.

"As soon as we started to put the law into operation, many of them tried to shift their finances out of the state. Some wanted to send their money to Canada. One man had \$1,500 he tried to send to relatives in Georgia."

Questionnaires now in the hands of all prisoners are calculated to reveal what wealth they have, if any.

Fred "Killer" Burke and some of the purple gangsters held at the branch prison in Marquette, are reported by officials there to have considerable money in safety outside the institution.

O'Hara said he estimated that 25 per cent of the prison population had enough private means to pay their board bills and they will be dunned for 70 cents a day unless the law is invalidated in a court test.

### Work Program For Palo Duro Park Outlined

CANYON, Aug. 1. (AP)—A program of work, including 21 projects, has been outlined for Palo Duro state park by Herbert Maier, regional director of the national park service.

The program would require about two years for completion. Maier said he did not know how long the federal government would continue the development of state parks.

"I have always maintained that the Palo Duro has the finest state park possibilities in Texas," he said after a recent inspection.

Objectives outlined by Maier included:

Twenty cabins on the canyon rim; bathing facilities at Cow camp cabins; 100 picnic tables opposite the cabins; camp ground section; water and toilet facilities for picnic area; completion of park entrance walls, office and building and storage tank; disposal tank for lodge and nearby cabins; clean-out games in dam to remove silt which collects after heavy rains.

Bridges of low-water concrete crossings at seven points; an additional 11,000-gallon water storage tank for Cow camp; barriers along present road to prohibit promiscuous driving on by-roads; store and concession building at Cow camp; small amphitheater near Cow camp and possibly a large one near the rim; small community center building; corrals and barns for saddle horses; improving appearance of lodge; providing adequate parking space nearby; garage; service house; restoration of Goodnight dugout; and improving horse trails.

No Cage for This Canary

OKLAHOMA CITY. (AP)—A sprightly canary, pet of George Arnold, has the run of the house. One of his favorite pastimes is sitting on George's head while the youth works at his desk.

A shortage of Bartlett pears is anticipated this year by Pacific coast farmers.

### Britain's Loss—Our Gain

Starred in British films, while her husband, Franz Steininger, was winning fame for his NRA tune, "Marching Along Together," Greta Natzler is on her way to Hollywood to play in musical comedy films. She's shown smiling here greeting to New York pier crowds on her arrival.

### INCOME TAX IS "OLD STUFF" TO BRITONS, WHO PAY MORE THAN FOLK IN UNITED STATES

BY DON JOSEPH  
NEW YORK, Aug. 1. (AP)—The American income tax payer, groaning under the prospect of new government demands on his pocketbook, may pause to shed a tear for his English cousin who has been paying a much heavier tax for a longer period.

Whereas the first income tax was levied in the United States in 1913, as far back as 1884 in England W. S. Gilbert had his king come on the stage in the operetta "Princess Ida," and sing:

"I know everybody's income and what everybody earns;  
"And I certainly compare it with the income tax returns."  
And then go on to complain:

"But to benefit humanity however much I plan,  
"Yet everybody says I'm such a disagreeable man!  
"And I can't think why!"

Similar complaints may be heard some day in American musical comedies, although the English still still seem to have a greater cause for objection.

Not only is the per capita tax burden greater in England (\$88.11 in 1934) than in the United States (\$74.37), but the British government, with its years of experience, seems to collect its revenues with a firmer hand.

Nearly twice as many field men in England as in America. In 1934, the report to the joint congressional committee on internal revenue taxation noted that there were 22,589 members in the personnel of the British revenue service, while the United States was employing 11,524.

The British income tax collector is also the possessor of wider powers than the American, and whereas American taxpayer are allowed a three-year period within which claims for refunds may be made and another two years may be spent by them in the courts, the disgruntled Britisher must file his appeal within 21 days.

While an English married man with three children, deriving an income of 50,000 pounds, or \$250,000 from investment, may have to pay \$133,620 in income and surtaxes, an American in the same situation today would have as his limit an income tax of \$9,840, and a surtax of \$105,502, or a total tax of \$115,342.

Incomes of \$1,500 Hit  
In both estate and income taxes the British tax gatherer's fist hits lower in the body economic than that of his American confrere. A married Briton starts handing part of his earnings over to the government when his salary reaches \$1,500 a year.

A married American waits until he is raised to \$2,500 before he starts making these federal contributions. Americans may die without thinking of the tax collector unless their estates are going to net over \$50,000. When an Englishman dies, the government lays a levying hand on his earthly possessions if they represent \$500 or more.

American and British estate tax levies compare as follows:

Net Estate U. S. British  
\$2,500 None \$25  
\$5,000 None \$100  
\$25,000 None \$750  
\$50,000 None \$2,000  
\$100,000 \$1,500 \$8,000  
\$500,000 \$59,100 \$25,000  
\$1,000,000 \$109,100 \$240,000  
\$10,000,000 \$4,387,000 \$4,500,000  
\$100,000,000 \$8,386,600 \$50,000,000

American and British income tax levies for married men with no dependents compare as follows:

Net Income U. S. British  
\$1,000 None None

### Amarillo Chosen As Road Meeting Place For 1936

RATON, N. M., Aug. 1. (AP)—Plans to rush the closing of improved gaps on the Colorado-to-Gulf highway were formulated by delegates from three states at a recent meeting here.

About 150 representatives of cities on the route from Denver to Dallas, heard highway officials of Texas, New Mexico, and Colorado offer encouragement for a highway improvement program.

Allen Wikoff of Raton and Clayton was elected president of the Colorado-to-Gulf Highway association, succeeding John L. McCarty of Dalhart. Ira K. Young of Pueblo was named vice president for Colorado, and A. L. Chase of Clarendon was re-elected vice president for Texas. Ralph Faxon of Raton was chosen secretary.

Amarillo was selected as the site for the next meeting, which will be in March, 1936.

Chairman John Oden of the New Mexico highway commission said an engineering crew would start work within three weeks on the only unpaved gap on the highway in New Mexico, a 40-mile strip south of Raton.

Texas gaps would be paved by next summer under plans outlined by W. J. Van London of Amarillo, state highway engineer.

All of the highway is paved in Colorado, but commissioners W. J. Mathis and A. W. Marksheffel announced plans for widening certain sections.

### 2,000 Italian Soldiers Leave For East Africa

ROME, Aug. 1. (AP)—More than 2,000 soldiers and workmen embarked at Naples today for Massaua, to plunge into the whirl of activity which Italy's dispute with Ethiopia has produced at that one-time sleepy Eritrean port.

The steamship, Vimanale, sailed for East Africa with 750 troops and 463 laborers, the steamship, Romolo, with 700 soldiers and 153 workmen. Both vessels were to pick up additional troops at Messina, Sicily.

Squadron General Giuseppe Valle, undersecretary for air, also intended to fly to Massaua today to observe the progress made in assembling Italy's aerial strength at its East African colony.

The colony of Eritrea has been turned upside down by 200,000 men preparing for gigantic struggle, if necessary, in neighboring Ethiopia.

A long report which has just reached here said 40 ships now may line up along the docks for unloading of their cargoes of men and war materials.

The University of Kentucky will erect two new buildings at a total cost of \$500,000. If plans for a PWA loan are successful.

THEODORE ROOSEVELT was the first president of the United States to leave the legal boundaries of his country while in office, to visit another country. In 1906 he sailed to the Panama Canal Zone and visited the city of Panama.

### ICKES ORDERS AIDES TO SELL PWA TO NATION

#### Meetings To Be Held In 22 Cities By Five Men

WASHINGTON, Aug. 1. (AP)—Secretary Ickes borrowed a navy plane today and sent out five of his most trusted lieutenants in a final attempt to sell the country on more PWA projects.

Headed by Col. Horatio B. Hackett, assistant PWA administrator, and former West Point football star the party scheduled Columbus, Ohio as its first stop en route to the west coast and back via the northwest.

Also making the trip on which meetings in 22 cities are scheduled was E. K. Burell, Ickes administrative assistant; Phillip Benton, head of the PWA finance division; Edward H. Foley Jr., chief counsel, and M. W. Straus, press agent.

Officials said that in addition to inspecting the \$1,800,000,000 of projects now under construction with money appropriated prior to the \$4,000,000,000 works fund they intended to confer with state directors of the new "miniature PWA" in an attempt to speed up filing of applications.

Easier terms offered by Harry L. Hopkins' works progress administration, as well as the inability of many cities to offer adequate collateral had held back applications.

President Roosevelt yesterday brought the total allotted on PWA projects to \$94,000,000 by providing \$2,585,714 as grants on 29 projects, while the work relief advisory committee recommended allotment of \$8,831,288 for 122 more projects.

The largest item in the \$370,056,258 slate recommended was \$200,000,000 for the civilian conservation corps. This is the only work relief agency that has supplied any substantial number of jobs so far. Some saw, however, signs that officials hope the long-delayed jobs program soon would get under way. They based this belief on the fact the allotment has recommended only \$95,000,000 for the so-called dole, or direct relief, in August.
