By The Associated Press  
 Russia turned her gaze on Finland today, now that Czechoslovakia has been cemented in the Communist bloc.

## What Can We Expect Next From Russia?

By DEWITT MACKENZIE  
 AP Foreign Affairs Analyst  
 What can we expect Russia's next move to be, now that a future bolshevik government which is jointly condemned by America, Britain and France as a dictatorship? That's a mighty important question, though of course it's an academic one since probably not even Moscow itself could answer it definitely at this juncture. The Reds are opportunists and direct actionists who lash out when the striking looks good.

However, this seems to stand out clearly: We expect an approaching war, like the one which is the battle for Europe between totalitarian communism and democracy. The next few months are likely to tell the story of whether Russia is to be held along the line which she now occupies, or whether she is to fulfill her ambition to overrun Western Europe, thereby making herself mistress of the entire continent.

Russia has consolidated her Eastern European empire by taking over Czechoslovakia, Rumania, Bulgaria, Yugoslavia and Albania. To the east, Communists were busy in Manchuria and Northern Korea. From Russia came this comment in the Army newspaper Red Star: "Communism has broken through into the wide open spaces. Forward Bombs, even when atomic, never decided the outcome of war. War is decided by human beings."

## Lions Challenged By Kiwanis Club On Attendance

Kiwanian Charles Cook issued a challenge at the Lions Club luncheon yesterday as he told the group the Kiwanis Club wished to enter a contest in attendance percentage during March, losers and winners to have a joint luncheon the second Friday in April, the winners to dine off the fat of the land, the losers to eat beans.

## Cabot Slates Safety Meet

Personnel of several Pampa plants will be honored at a safety banquet Saturday night, as Cabot plant organizations from all over this area meet at the Herring Hotel in Amarillo.

In addition to awards made to carbon plants having worked through 1947 without a lost time injury, individual safety awards will be made to persons in the plants who have worked 10 years or more without a lost time injury. Other safety awards will be made.

Plants winning the safety award are Armstrong of Borger, Dixon of Guymon, Estes of Kermit, Fabricating Shop of Pampa, Gas Department of Pampa, Guymon, Kermit, Keystone of Kermit, Nash of Guymon, Schley of Afton, Schaefer of Skellytown, Walton of Kermit, Wickert and the special crew and technical crew.

Individuals in the Pampa District winning the 10-year safety award include W. E. Higgin, M. W. Lewis, Peter Marek, Dr. W. H. Lister, C. M. Martin, S. K. Tinsley, C. B. Lemons, E. M. Swindle, A. B. Turner, J. H. Taylor, R. L. Souter and C. J. Carter. Nine from the West Texas District will also receive the award.

Speakers will be Hugh Burdette, Ralph Bradley, Louis Cabot, A. E. Coopes, Herbert Maynard, R. G. Allen and Mrs. Ralph Bradley.

**DOUBLE TAKE**—Nine-month-old Jacob Stenger, from Crocus, Poland, has his little hands full trying to focus a picture of his big dad. Jacob, accompanied by his mother, arrived in New York on the liner Batouy on route to Montreal, Canada, to join his father.

Russia had pretty well stripped the little republic after winning two wars, in 1939-40 and 1941-44. Russia took away Karelia and the Petsamo (Pechenga) area, the naval base at Porkkala, all in the southwest Finland, and saddled the country with a \$300,000,000 reparations bill.

Tension and uncertainty spread in Finland. Paasikivi and his cabinet held lengthy conferences. Tired old President Eduard Beneš swore in the new Czechoslovak cabinet, loaded with Communists and fellow travelers. A friend said Beneš had told the Communist Premier Klement Gottwald "you're talking to me like Hitler" and that the Red cabinet could "have only evil results." Beneš was said to have accepted it reluctantly, fearing civil war.

The United States, Great Britain and France formally called the new government a "disguised dictatorship." They protested that the Communists "artificially and deliberately instigated" the cabinet crisis a week ago to seize power.

Virtually the same pattern had been carried out previously in Hungary, Poland, Rumania, Bulgaria, Yugoslavia and Albania. To the east, Communists were busy in Manchuria and Northern Korea.

From Russia came this comment in the Army newspaper Red Star: "Communism has broken through into the wide open spaces. Forward Bombs, even when atomic, never decided the outcome of war. War is decided by human beings."

The Moscow radio said Russia had sent notes to the three Western powers now conferring in London about Western Germany, asking that Czechoslovakia, Yugoslavia and Poland be allowed to participate.

## Russia Asks Changes in Big 4 Plans

LONDON—(AP)—The Moscow Radio said today Russia wants the three western powers to let Czechoslovakia, Poland and Yugoslavia participate in planning the future of Germany.

She sent notes to the United States, Great Britain and France asking that they be permitted to sit in the broadcast reported.

The western powers have been in conference here since Monday on Western Germany. A delegation from Belgium, the Netherlands and Luxembourg—members of the Benelux Customs Union—joined the talks yesterday. Another meeting is scheduled today.

Foreign ministers of Czechoslovakia, Poland and Yugoslavia met in Prague Feb. 17 and 18 and then issued a declaration that any merger of Germany's western zones would violate the Potsdam and Yalta Agreements and encourage German militarism, "which may become the source of a new attack."

The Soviet notes, as quoted by the Moscow radio, said Russia shares the view of those three countries and "considers that satisfaction should be given the request of the mentioned states for consultation between the occupying powers in Germany and the governments of other United Nations on the German question."

The notes mentioned the Potsdam declaration. Poland, Czechoslovakia and Yugoslavia said they "are among those powers which are particularly interested in a solution of the German question in accordance with the interests of peace and the security of the peoples."

Before the three western powers met, the Soviet Union protested that their conference would violate the Potsdam provision for Big Four control of Germany. The U. S. and France replied that Russia herself had violated the agreement for economic unification of Germany.

**PUTTING ON DOG**—When Gov. R. Gregg Cherry of North Carolina snaps his fingers, "Jingles" not only comes running but turns a flip. "Jingles" is one of seven dogs used by the Raleigh, N. ## Republicans Look at Military Aid

WASHINGTON—(AP)—Two top Republicans proposed today that Congress lump military aid for Greece and Turkey with the \$275,000,000 Secretary of State Marshall asked for Greece and Turkey.

Senators Taft (Ohio) and Bridges (NH) told reporters they will suggest that some funds be found to help Chiang Kai-shek's government fight Communists with bullets when the Greek-Turkish proposal comes before the Senate.

Taft heads the Senate's Republican Policy Committee. Bridges is chairman of its Appropriations Committee which helps decide how wide to open the government's purse.

In letters to both houses, Marshall yesterday said it will be necessary to make an additional \$275,000,000 available to keep the pipelines to Greece and Turkey full of military supplies after April 1.

The cabinet officer coupled with his appeal the warning that the leaders of Russian expansion are counting on American weariness in helping "far off Mediterranean countries to let the Communists take over" by default.

Marshall's request for the new aid program was his first major action in the "cold war" with Russia since the Communists seized power in Czechoslovakia.

Actually, it had been decided to add additional military aid for Greece and Turkey before the Czech crisis developed.

But Marshall's letter to Congress conveyed an estimate of the basic issues involved in the whole range of Russian-American conflict in Europe insofar as American determination to carry on is concerned. He wrote:

"The totalitarian groups whose aggressive aims have thus far been frustrated by the continued existence of a free Greece and a free Turkey are convinced that time will play into their hands. Their leaders state with assurance that the United States will soon tire of giving aid to far off Mediterranean countries, and that eventually they will be able to take over by default."

"It is my belief, however, that the Congress and the American people are unwilling to abandon the Greek and Turkish people a time when a foundation is being laid which will enable them to stand their own ground without outside aid."

Marshall made no mention of China in his letter. The administration has asked Congress to vote \$570,000,000 for that country, but none of the money would go for military supplies.

Taft, however, said he can see no reason why China should not get as much help as Greece and Turkey.

Marshall gave no breakdown on the way the \$275,000,000 might be used. See GREENE, Page 8.

## County Fair Is Discussed

A delegation of women representing the Gray County Home Demonstration Council met with the Public Improvement Committee yesterday afternoon to make plans for a building at Recreation Park.

The ladies pointed out that there was no building suitable in the area to place the exhibits, and that interest among the Home Demonstration Council towards the establishing of a county fair is very high.

If such a building should be sought, it was the opinion of the group that it should be built to house many types of exhibitions and shows.

# Wanna News Lash Texas

# Tornadoes Lash Texas

By The Associated Press  
 Four tornadoes lashed Texas last night and early today, and a Denton County woman, pinned in her twisted-wrecked home, was burned alive.

Other tornadoes struck Ballinger and Woodson, in West Texas, and Itasca, 45 miles southwest of Dallas. Twenty-five homes were practically destroyed today at Woodson, 123 miles northeast of Ballinger and McBride's Cotton Gin and Master's Store were wrecked. No casualties were immediately reported.

About 2 a. m. a tornado partially wrecked the farm home of Mr. and Mrs. Sam Patterson near Bartonville Community in Denton County.

According to Wilbe Sparks, Lewisville, Texas, telephone operator, who later talked with Patterson, the husband managed to free himself and found that a timber was pinning one of his wife's arms. She was alive.

Patterson strained to remove the timber, but could not. He walked to the home of a neighbor, a mile away, for help.

When Patterson and the neighbors returned they found to their horror that the wreckage had caught fire.

Wind-driven flames prevented them reaching Mrs. Patterson, Miss Sparks said.

A mild cold front, passing eastward across the state, brought the tornadoes and a barrage of thunderstorms to the Panhandle and North and Central Texas.

Patterson told Miss Sparks that he believed that the embers of a fire in the home's wood-burning fireplace caused the blaze.

He said there was no sign of a fire when he started out for the home of the neighbor.

The Weather Bureau predicted the Trinity would reach a major flood stage of 40 feet at Dallas, the highest water since the 44-foot stage reached in the Spring of 1936.

Warnings were especially directed at Rosser, Texas, an unprotected community in the lowlands south of Dallas.

This morning, the swollen Trinity, out of its banks, reached 37.6 feet at Dallas, 10 feet above flood stage.

A tornado at Itasca damaged two buildings early today. Fire Marshal R. C. Holloway said the fronts of the Cozy Cafe and the Zeek Sweeney Building were pushed in.

Mr. and Mrs. Oran Basin, operators of the cafe, escaped injury. The tornado struck during a hard rain. To the west, about 160 miles, an earlier tornado hit Ballinger, destroying a hangar at Bruce Field and damaging six planes. The hangar, one of two, was estimated at \$100,000. No one was injured.

Taylor casts lot with Wallace. Sen. Glen H. Taylor (D-Ida.) left, who bolted the Democratic Party was welcomed into Wallace's third party by Henry Wallace himself in Washington. Taylor now available for the vice presidential nomination on the third party ticket, said the Democratic Party is heading toward suicide and he has gone with Wallace in a gallant fight for peace.

## Eyewitness Says Tornado Like Bomber

WOODSON—(AP)—R. Q. Whitmore, 32-year-old lumberman, today gave an eyewitness account of the tornado that injured three persons, destroyed about 25 homes and badly damaged 20 others in this community last night.

While the Red Cross rushed emergency aid to the homeless, Whitmore was interviewed by telephone by the Associated Press.

"I was in bed, about 10:30 last night," he said. "The rain was coming down so hard it seemed like all the water in the world was falling on Woodson. Then I heard a roar—it sounded like a big bomber—coming in low."

The roar kept on for several minutes. I jumped out of bed, ran to the front door and out into the street. I heard a lot of screaming and I saw wrecked houses up the street. My house, at the edge of the tornado, wasn't hurt. Up the street, houses were blown into the street and trees were down.

"Dan Masters' house was wrecked and he had to be gotten out of the wreckage. He had a badly cut head. William Peacock also was caught in the wreckage of his house and he had a lot of cuts and bruises. He was pulled out of the wreckage. Most of the other folks—folks—were blown down managed to get out by themselves."

Woodson, in Throckmorton County, is about 125 miles northeast of Ballinger. The population is about 600.

W. E. Henry of Dallas, a special field representative of the Red Cross, happened to be in the area. By telephone, he told the Associated Press today that the Red Cross was organizing its vicinity of Woodson at the time.

Deputy Sheriff Clint Word and Night Watchman C. O. Miller, who were across the street, heard the shot and came to the scene. Muir was treated at the Canadian Hospital and the bullet removed. His leg was placed in a cast.

Money said that he was recognized by Spruell, who came up to him and started using abusive language.

A report from Canadian stated Orla Currier, who was in a pebble ball net door, came up to the two men, as did Muir, who was also in the pool room. Muir, according to the report was shot a few seconds later.

## Democratic Party Shake-up Predicted

WASHINGTON—(AP)—A shakeup in the embattled Democratic Party after the presidential election was predicted today by Senator George (D-Ga.).

"Without passing on President Truman's chances in November, George said he believes Southern opponents of Mr. Truman's civil rights program are going to have a great deal to say about the future complexion of their party."

As he spoke Dixie Democrats fought a delaying action in Congress against enactment of the civil rights plan. But in the Southern States themselves, the drive to bar Mr. Truman's name on the official ballot gained momentum.

"I think that as a result of this 1948 campaign we will have a chance to reorganize the Democratic Party on a basis of sound economic and good government principles," the Georgia Senator told a reporter.

"I myself would be quite content to become a member of a minority party, so long as that party is based on sound principles. If it is, it will not remain the minority party for long."

But he said he was "not interested" in any move to make him a "favorite son" candidate for the presidential nomination.

George's statement was taken as an indication of how a number of the Southern lawmakers in Congress look upon their fight with the present leadership of the Democratic Party.

Several of them said privately they don't care if Mr. Truman is beaten by a Republican in November. Many are looking to 1952 for a division of political sentiment along what they describe as conservative and liberal lines.

But none of them thought much of a proposal by Rep. Hoffman (R-Mich.) that the Republicans put up a candidate whose opposition to Mr. Truman's anti-lynching, anti-poll tax, anti-job discrimination and anti-Jim Crow proposals would make him acceptable to the South.

## Assault Charges Filed Against Liquor Officer

Charges of aggravated assault have been filed against Ray Reeves, state liquor control officer, and attorney against Glen Muir, Canadian pressing shop operator, following an altercation in Canadian Wednesday night, during which Muir was shot in the leg.

Muir was shot in the leg. It was learned from the district attorney's office here this morning. Charges of affray have been filed against several other persons in connection with the incident.

Glen Spruell, who works with Muir in the Tip-Top Cleaners, said he engaged Bill Money, state liquor control officer in conversation which subsequently became heated.

Spruell said that Money invited him outside of the City Cafe, where the conversation started, and a fist fight ensued. Reeves came to the scene as the two men started fighting.

Money said that he was recognized by Spruell, who came up to him and started using abusive language.

A report from Canadian stated Orla Currier, who was in a pebble ball net door, came up to the two men, as did Muir, who was also in the pool room. Muir, according to the report was shot a few seconds later.

# Return Title Bout Expected To Become Official Today

CAMDEN, N. J.—The return heavyweight title bout between champion Joe Louis and challenger Jersey Joe Walcott is scheduled to become official at 1 p. m. (Central Standard Time) today.

Jersey Joe, beaten in a split decision fight last December, announced last night that he had agreed to meet the Brown Bomber at the Yankee Stadium June 23 and would place his name on the contract in the offices of the Twentieth Century Sport Club in New York.

Louis, in England for a series of exhibition bouts, previously had affirmed a return engagement against the 34-year-old Camden, N. J., man who twice floored him in their previous engagement.

Under the terms announced by A. D. Malandra, Walcott's attorney, Jersey Joe will receive 20 percent of the net receipts and 22 1/2 percent of the movie rights. Walcott's advisory board, headed by Felix Boocchicchio, who has first call on his services, and manager Joe Webster, had been holding out for 30 percent. Louis will receive 40 percent of the gate and 30 percent of the movie income.

Walcott also consented to give Louis a return bout in the event he wins the title. If a third fight is necessary, they will split the purse on a 30-30 basis.

Acceptance by Walcott came at the presentation of the heavyweight "championship" belt to Jersey Joe by the Police Gazette before some 5,000 of his admirers at Convention Hall. The Police Gazette said it believed Walcott beat Louis in December and was rating him the champion.

"I have waited 17 years for this," said Walcott on receiving the belt. "I honestly believe I am champ. If ever I win a fight I won that one. I am willing and able to prove that this belt is not just for show. I believe I can lick Louis any place, any time and welcome another chance—even at terms dictated by Louis and Sol Strauss, promoter of the Twentieth Century."

"You can be sure that this time I will make my victory so decisive that we'll need no judges."

## Donelli Builds Boston Univ. To Give Irish Game in East

By HARRY GRAYSON  
NEW YORK—(NEA)—Aldo T. Donelli, the great builder, is doing one of his typical construction jobs at Boston University, says the Terriers will be ready for Notre Dame in 1949.

## Getz Downs Freeman on Main Event

Al Getz made his first step in regaining the Southwestern junior heavyweight title that he lost to Wayne Martin of Tulsa last week, when he out-roughed Ace Freeman of the Bronx, New York, in the best two out of three fall event at the Sportatorium last night.

Getz won the first fall in 10 minutes with a surt board hold, but Freeman came back to win the second in seven minutes with a series of flying head scissors and a body press. Freeman did not get to the 10-minute mark until he had removed an arm from Getz's head and a hand from his elbow, and was using to rub across his eyes and gave the Pittsburgher a little of his own medicine.

Coming out for the third fall Getz again had the wrap around his arm and refused to take it off, until Referee Mickey Barnes threatened to award the match to Freeman. After eight minutes of wrestling in this fall Getz won with a body press.

This was Freeman's first appearance in the local ring and proved to be one of the best wrestlers ever to appear here. He appeared to be a better wrestler than Getz, but was unable to cope with the victor's roughness and ungentlemanly brand of fighting.

Gorilla Fogg of Argentina successfully made his first appearance in the local ring by conquering Johnny Corlin in two consecutive falls. Corlin was disqualified in the first fall for using adhesive tape that was wrapped around his wrist and Fogg won the second fall with a one-leg crab.

**Golfers Agree Golf Needs Czar**  
ST. PETERSBURG, Fla.—(AP)—Three veterans of the fairways—Billy Burke, Denny Shute and Johnny Revolta—agree that "golf needs a czar."

The suggestion was made yesterday by the Carolina section of the Professional Golfers Association. The association plans to recommend formally to Ed Dudley, PGA president, that someone be hired "who will be strong enough to serve as the Judge Landis of golf."

MIAMI, Fla.—(AP)—The folks hereabouts who tell you that Citation will be the winner of "racing's triple crown" as well as tomorrow's Flamingo race will tell you that Warren Wright's Calumet Colors may finish 1-2-3 in the Kentucky Derby. Calumet has entered seven horses in the derby and they figure that Coaltown and Free America or Whirlwind could check Citation home at Churchill Downs.

Beau Dandy and two fillies, Bewitch and Whirlsome, and the others listed. Coaltown, which wasn't raced as a two-year-old because trainer Jimmy Jones said he was "winded," really was something to see yesterday. He won by 12 lengths under 122 pounds and equalled the track record for seven furlongs with Jockey Al Smdler hanging on hard all the way down the stretch to keep him from taking off.

MIAMI — Football fans hereabouts are steamed up trying to pick a coach to succeed Jack Harding as U. of Miami coach. Georgia Tech's Bobby Dodd was offered a five-year contract at \$15,000 per year, plus a \$20,000 house, but they didn't offer him the players, too. Hamp Pool, who coached the pro Seahawks for a while, would like the job and if he doesn't get it probably will apply at Miami Edison High School. Fred Coopers, ESPN's tournament manager, is due today for the Babe Zaharias-Sam Byrd-Louise Suggs-Al Bease-link golf exhibition Sunday, and the pros playing at St. Petersburg probably can hear him laughing clear across the state.

Besselink, a "local" college boy from New Jersey, probably would win the match if it was scored on a loud-shirt basis. free ad: handiest sports publication we've seen lately is "Miami Sport Scope," a booklet published by some local newspaper guys to give the winter visitors all the dope about the sports events and facilities here.

# Pennock and Traynor Voted Into Baseball's Hall of Fame

NEW YORK—(AP)—The late Herb Pennock and Harold (Pie) Traynor were voted into baseball's hall of fame today by the Baseball Writers Association. Their names will be enrolled in the Cooperstown (N. Y.) shrine alongside 48 others who were so honored in previous years.

Pennock, the great lefthanded pitcher who died Jan. 30 enroute to a National League meeting in New York, led the candidates with 94 votes. Traynor, Pittsburgh third baseman for 17 years, polled 93 votes. According to the rules, 75 percent of the votes cast or 91 votes were required for election. More than 360 writers were eligible to vote. A total of 121 votes were cast.

A total of 156 players received votes but many of them were ineligible. Either they were still active in 1947 or they already had been named.

Al Simmons, Philadelphia Athletics coach who hit .334 in a major league career dating from 1924 to 1944, followed Pennock and Traynor with 90 votes—51 short of election.

Pennock was one of the best lefthanded pitchers of all time. Formerly with the Yankees, Philadelphia A's and Boston Red Sox, he was routing out a fifth year as general manager of the Phillies when he died.

Over a 22-year span he won 235 big league games, including five without a defeat in world series competition.

Traynor, now a scout with the Pirates, broke into the majors with Pittsburgh in 1920 after starting at Portsmouth, Va. Shipped to Birmingham in 1921, he again finished the season with the Bucs and remained with them, as player manager and scout until 1943. Over that period his lifetime major league batting average was .230.

One of the better third basemen in the game over a span of 17 years, Traynor managed the Pirates from June, 1934 through 1939.

## Texas Invited To National Cage Tourney

DALLAS—(AP)—It was a foregone conclusion today that the University of Texas basketball team, while getting little of the glory will rake in some cash nevertheless.

The Longhorns were invited yesterday to play in the eleventh annual National Invitation Tournament at the McGraw Gymnasium in New York City on March 13, 14 and 15. This is a highly remunerative affair for the teams that compete.

Texas awaits permission from a majority of the Southwest Conference members before accepting the invitation. However, this is considered only a formality to play at New York after the Owls had finished in a tie for the title with Arkansas.

Baylor already has won the conference title and Texas will finish in a tie with Arkansas for second place in the two teams win their remaining games. Baylor expects to be picked as the district 6 representative in the NCAA Western Regional Tournament at Kansas City. Permission of the conference is not necessary to play in this tournament.

James H. Stewart, executive secretary of the conference, yesterday wrote all members of the circuit asking if they would allow Texas to play at New York. All answers are expected to be in ball golf matches really will be international this year. Bobby Locke of South Africa and Norman Von Nida of Australia will be in the field and two South Americans, Roberto di Vincenzo, Martin Pease and Henry Bertolino are available for the spots.

Ben Hogan and Jimmy Demaret will be shooting for their third straight four-ball title. It might have been four except for a mixup one year when Hogan was teamed with Gene Sarazen. Ben and Gene won the four-ball and Jimmy was behind the eight-ball. Hogan's new book, "Power Golf" is scheduled for publication March 31. Bob Hamilton, recent winner of the New Orleans open, is the No. 1 horse racing fan among the pro golfers. No matter what tournament is scheduled the Kentucky Derby. He already has "picked" Citation as the winner at the time, Bob never misses ner. . . gosh, what originality.

### Neatness Is Key to Right and Wrong Styling for Gray Hair

Contrast these two pictures to learn the secret of a flattering hair-do for the gray-haired woman. When the model trades the untidy hair-do, right, for the sleeker styling, left, she looks years younger.

Don't allow blowsy hair to add unfair years to your appearance. This is particularly apt to happen if your hair is gray. The coiffure at the left is the styling idea of New York hair-dresser de Leo to control troublesome hair. He says this coiffure will resist stray or tendencies to fly apart because it is styled for sleekness, is securely anchored to the head with pins and combs, and is lacquered to stay put. with most women, says de Leo, is that they never use enough pins. Nor tuck combs either, he claims. There are four used in the coiffure shown—one large and one small comb tucked into hair in the back at each side of the back parting. Lacquer was generously sprayed into this coiffure as well as over it to keep it sleek. Use plenty of lacquer, urges de Leo. It will give shape and body to your hair as well as keep the coiffure outlined neat.

### Know Your STUFF

About Refrigerators. Shopping around for a new refrigerator? Before deciding whether to buy an electric, gas kerosene or ice refrigerator compare operating costs as well as the purchase price of different types.

According to home economists of the U. S. Department of Agriculture, tests show that a six cubic foot refrigerator will use a month's average of 30 kilowatt hours electricity, 15 gallons of kerosene, 1000 cubic feet of natural gas, 1300 cubic feet of manufactured gas, or 700 pounds of ice.

By multiplying these amounts by the local cost per unit, you'll have an approximate idea of how much it will cost to operate each type. Larger sized refrigerators or those with frozen-food compartments will add to a monthly bill.

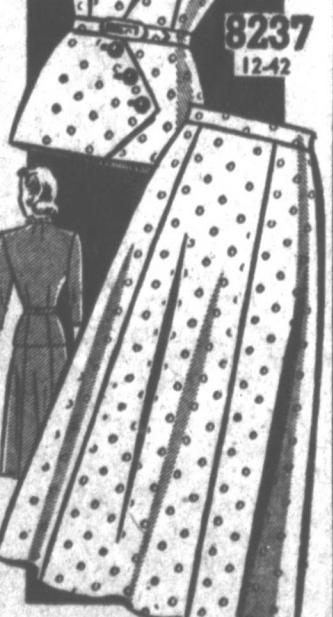

Maintenance is another expense which will add to the cost of operation. Ask dealers for information about the average expense of maintaining the models they sell. As an additional check, talk with friends who have had experience with the different varieties.

## Mrs. Leslie Dorsey Is Shower Honoree

Mrs. Leslie Dorsey, the former Roberta Smith, was honored with a bridal shower last Tuesday at the home of Mrs. Floyd Cokrell, 508 N. Wynn. Mrs. Jack Cokrell of Shamrock was co-hostess.

Guests were ushered, as they arrived, into the living where they signed the guest register. The decorations were carried out in the bride's chosen colors of blue and white.

Games were played with prizes going to Mrs. Jean Jackson and Mrs. Hattie Caldwell, who in turn passed them on to the guest of honor.

After the gifts were presented to the honoree, refreshments of punch and cake and mints were served. About thirty friends of the honoree participated in the shower.

This Knutson bill should be entitled "A Bill to Reduce Taxes and Borrow Money." If it means anything it means the United States government would be in the red.

Rep. Sam Rayburn (D) of Texas.

### Take Off Ugly Fat With Grape Fruit Juice Recipe

It's simple. It's amazing. How quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of pure Grapefruit Juice. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible rounds and leashes of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bulky disappears—how much better you feel. Here alive, youthful appearing and active.

Power—One of Man's Great Malefactors

A recent issue of the Amarillo News-Globe carried an editorial discussing that old bogey-man, prejudice. It said "and it would seem that the causes of most of the world's ills can be boiled down to one word—prejudice."

The little prejudices we meet from day to day... But, for the thoughts we have today, we would add another phrase. We say "It would seem that the causes of most of the world's ills can be boiled down to one word—prejudice, activated in force."

About this force, we are thinking principally, at this time, of the sad news from democratic Czechoslovakia—or it was democratic, until the Communists two or three days ago took it over. What we are getting at is that the world still suffers the terrible affliction of force—or power; and, though the world's people have the benefit of hundreds of philosophers and just plain, everyday sages, we fail to see the message they have left us.

Thieves Take Money And Leave Narcotics

SAN ANTONIO.—(AP)—Thieves who took a small safe from the M. & S. Hospital here last week left more than \$500 in narcotics, but stole \$300 in cash.

TAFT-HARTLEY LAW—NO. 3 by Peter Edson

(This is the third of a series of dispatches on the first six months of the Taft-Hartley Law.) WASHINGTON.—(NEA)—Biggest difference between the old Wagner and the new Taft-Hartley Acts is that the government is now authorized to go to court and file petitions for injunctions to restrain labor or management from carrying out what the law defines as unfair labor practices.

In the first five months of experience under the Taft-Hartley Law, only 106 charges were made which might have necessitated the filing of petitions for court injunctions. The general counsel's office actually filed only 11.

Fair Enough by Westbrook Pegler

The New York Times and the New York World Tribune gave me a fair trial. In their professional and editorial opinions, in their recent coverage of the report in the death in India of Prof. Nicholas Roerich, it is just as well they did. It is time to unmask anyway.

Roerich was a painter of debatable distinction. He was also a tourist of Asiatic parts, if not indeed, an explorer. There is no doubt that he either was or seriously engaged in the futuristic and mysterious politics of the Far East, that he was persona grata in Moscow under the Communists and that some of his American devotees went nuts for a while and regarded him as God Almighty.

It is undeniable and undeniable that Henry Wallace, a cabinet member with access to deeply confidential knowledge of matters affecting foreign commerce and exchange, also associated with this crazy congress of fools and sharpers, Wallace also admired Roerich. Whether his admiration was sane or imbecilic, like the queer neuroses of many others in the circle, we do not accurately know.

Roerich was a citizen of Russia, and thus a Soviet subject, and Moscow would not have let him go gallivanting until the Kremlin was confident that he was a loyal Bolshevik. He and some of his disciples carried on a queer, pig-latinque discussion about a project to make Roerich "leader" or "master," whether dictator, king or what we do not know.

It would be an accommodation if Henry Wallace would deny any of this or deny his association with Roerich, Horch and others in the cult. He would contribute to the public understanding of his character and his honesty if he would take some notice of the sheaf of idiotic letters addressed to Roerich and others in a hand indistinguishable from his own in the eye of some experts, if only to deny that he wrote them.

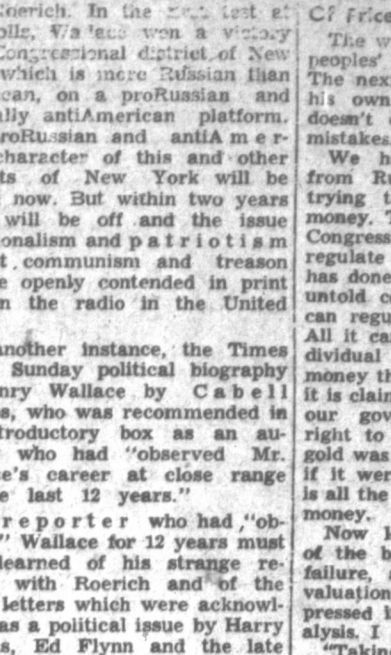

It would be an accommodation if Mrs. Joe Barnes in a press statement would take some notice of the sheaf of idiotic letters addressed to Roerich and others in a hand indistinguishable from his own in the eye of some experts, if only to deny that he wrote them.

Common Ground by R. C. Hoiles

Roerich's Example of Futility of Price Control... The wise man learns from other peoples' experiences and mistakes. The next wisest man learns from his own mistakes. The nitwit doesn't even learn from his own mistakes.

Now let's look at Russia. One of the best explanations of their failure, as admitted by the devaluation of their money, is expressed in a magazine called Analysis. I quote from it: "Taking the announcement as a whole, it is a tacit admission of the futility of attempting to abolish the market."

The Little Savages

NATIONAL WHIRLIGIG news behind the news

WASHINGTON.—The not so modest Marshall Plan has now burgeoned from an economic blossom with sixteen petals into a political and military hedge encircling Russia, with Uncle Sam as the head gardener and keeper.

Those present included: Mmes. O. T. Gordon, J. E. Lowry, A. N. Moore, J. C. Mox, Cecil Seago, J. W. Stauffer, T. E. Trostle, and Misses Willena Gordon and May Ruth Stauffer.

WAR—Greece provides the pattern which reveals how the United States has become the key unit in an Anglo-British, anti-Russian alliance of military power such as the world has never witnessed.

INVESTMENT—This politico-military involvement was inevitable as soon as we began to expend billions in the Middle East, the Mediterranean, Western Europe and the Orient.

SPHERES—Although the pact has not been written or sent to the Senate for ratification, Washington has agreed with London on the establishment of four offensive-defensive spheres.

Eight Businesses Fail During Month... AUSTIN.—(AP)—Eight Texas businesses failed last month, four times as many as in the same month in 1947, according to Dun and Bradstreet figures sent to the University of Texas Bureau of Business Research.

California, the court denied an injunction which would have compelled the union to accept a shop contract without the closed shop provision. In the Amazon Cotton Mills decision just handed down at Salisbury, N. C., the court held that the employer must bargain until the NLRB says that the employer is not guilty of an unfair labor practice by refusing to bargain.

Office Nurse

By Adelaide Humphries... "MERCIFUL heavens!" Miss Willows gasped. The doctor's office, in all her long years of loyal service, had never been held up before.

"Oh!" Betty Jane groaned and caught hold of her patient, but it was the young nurse, and not the patient, who crumpled to the floor in a dead faint.

"What do you want to see me about?" Janice asked. She spoke in the same cool, courteous tone. She even took another step toward him, perhaps to show him that she was not afraid, and so make him come to his senses.

"Don't anyone move," the man said, as a holdup man should. Only this one did not look at anyone except Janice Hilary. As a matter of fact, everyone in the room, or in the doorways leading to the room, was looking at Janice.

"What do you want?" Her voice sounded perfectly natural. She might have been addressing a patient who had just entered the office.

"You know what I want," the man said in a menacing growl, taking a step toward her.

"But she is no longer with us," Janice said. Her tone now was the reasonable, reassuring one a nurse would use with a patient who had gotten out of hand.

MISS WILLOWS thought, Janice is behaving foolishly—and bravely. She also thought that it would be better if it were the doctor who was taking command of the situation, even if his office nurse did usually run everything.

"Just this!" The two short words were followed by two staccato shots. The man turned and disappeared through the doorway with a dramatic flourish as he had entered.

## NEED Right LIGHT

No child should be asked to do school work at home with insufficient or too powerful lighting. To make studying easier, to protect the precious eyes of your children, make sure that they have proper light.

It costs absolutely nothing to have a Southwestern Public Service lighting specialist check the lighting in your home, and it may insure not only better school grades, but the future vision of your children. Call or write for a lighting check TODAY.

## Market Briets

**WALL STREET**  
NEW YORK, Feb. 26—(AP)—A few stock leaders contested an offside shift in today's market, with mild success but many issues willed under exceptionally light pressure.

From the start, declines were among the slowest of the past year. While modest plus marks remained at a point or so predominant, "Laid-off" for the five hours tapered to around 500,000 shares.

The buoyant side of Wednesday ran out of steam. Bulls were more or less indifferent. Most steels and motors were in the losing column.

Aided by pleasing dividends and earnings were Lackawanna Railroad, on the first payment since 1931; American Rolling Mill, Packard, Anaconda, Pullman, Steel, Union Pacific and Santa Fe.

In the retreating division most of the time were American Distilling (at a year's low), U. S. Steel, Bethlehem Steel, Youngstown Sheet, Deere, Electric Power and Light, Philip Dodge, Eastman's Kodak, Owens-Illinois, Texas Co., Standard Oil (N.J.), Great Northern Railway, Southern Pacific and Illinois Central.

For more important, however, the Communist strategy, apparent control of Italy and France before contemplating trying to gain the Marshall Plan becomes effective, thereby rendering it unworkable. This would tend to make the rest of Western Europe vulnerable to Red aggression.
