

Red Seizure Termed 'Dictatorship'

ANTI-LYNCH BILL CONFRONTS DIXIE REBELS

Issue Before Full House Group Today

WASHINGTON (AP)—Rebel Southern Democrats faced the prospect of defeat today in the opening skirmish of their battle in Congress against President Truman and his civil rights program.

The focal point of the engagement is an anti-lynching bill which the Republicans are pushing toward an early House vote.

The bill went before the full House Judiciary Committee today (9 a.m. CST) with the 3 to 2 backing of a subcommittee.

The Republicans hold a 13 to 12 edge in the full committee and of the Democratic members only four are party rebels.

The legislation would make it a federal crime to take part in or encourage a lynching. The maximum penalty on conviction would be ten years in prison and a \$20,000 fine.

Peace officers found guilty of negligence in allowing a prisoner suspected to be lynched could be fined \$5,000 and imprisoned five years.

Even the community in which a lynching occurred could be penalized through a requirement to pay the victim's dependents up to \$10,000.

Southern opposition to the measure has centered around the contention that it invades state rights. Furthermore, Dixie representatives cite a drop in the number of lynchings as evidence that they are eliminating the problem their own way.

Senate Republican leaders are speeding action on a companion measure.

A new point of contention arose meanwhile in the Senate Rules Committee.

Senator Dennis (D-Miss.) said that group had agreed to take up an anti-poll tax bill Friday. This also is part of the controversial Truman civil rights program.

In the past the Southerners have used the filibuster as their main weapon in fighting this and other measures dealing with the race question. However, a recent senate poll showed they no longer can count on the one-third-plus-one vote needed to block the debate-limiting rule called cloture.

Robbins Gets Life Sentence

CLINTON, Ark. (AP)—Lennie A. Robbins, described by the state as a "dashing roamer," has been convicted of murder in the poison death of his Texas "mail order" bride. His sentence was set at life imprisonment.

A jury composed mostly of farmers in this north Arkansas rural county returned a verdict yesterday after deliberating four hours in a tourist court. The trial lasted three days.

The portly, 40-year-old farmer received the verdict with composure. His attorneys did not say immediately whether they would appeal, but indicated they would.

After the verdict, Robbins was removed to the Faulkner County Jail at Conway for "safe keeping." Sheriff Jack Castleberry of Conway said he will be returned here for formal sentencing Friday. The state had sought the death penalty. The defense didn't deny that Robbins' bride of a week, the former Mrs. Sadie Sue Dudley, Abilene, Tex., died of poisoning, but contended it was self-administered. Robbins didn't testify.

The Robbins were married on Christmas Day at Abilene and came to Robbins' home at nearby Scotland, Ark., on New Year's Eve. She died a few hours later.

WARNS "SOUTH NOT IN BAG"—Gov. J. Strom Thurmond of South Carolina, center, announced for the rebellious Southern Governors meeting in Washington that "the present leadership of the Democratic Party will soon realize that the South is no longer in the bag." Thurmond, spokesman for the Dixie Governors who visited National Democratic Committee-man J. Howard McGrath, made the announcement after the visit.

Four Killed as B-29 Crashes; Eight Parachute to Safety

MERIDIAN (AP)—Four members of a 12-man crew were killed in the crash of a B-29 bomber near here last night.

The eight other crew members, including Col. Alan D. Clark of Fort Worth, 7th Bombardment Wing commander, parachuted through the rain and fog to safety.

One of a flight of 20 B-29s bound for a West Coast, the bomber crashed in flames shortly after taking off from Carswell Air Base at Fort Worth, Tex. Clark was commander of the flight.

Names of the four victims, who were found in or near the scene of the wreckage, have not been released.

Beades Clark, the men who bailed out were 1st Lt. Frank H. Riggs, Orange, Tex.; 1st Lt. Frank M. Worley, Fort Worth; Capt. William S. Kern, Pasadena, Calif.; Staff Sgt. D. W. Aslin, Fort Worth; Staff Sgt. William W. Weaver, Falmouth, Ky.; Capt. Julian F. Moffat, Berkeleyside, Miss.; and Lt. Col. Harry E. Goldsworth, Spokane, Wash.

"We were flying on instruments at 10,000 feet in a heavy rain and fog," Clark said.

He said the plane was burning as it fell.

The bomber crashed at 11:30 p. m. near the farm home of Oras Solberg.

Five hours after the bomber crashed, the Solberg's home it was still burning.

A search party and ambulances. See CRASH, Page 5

Better Not Send Chain Letters

Chain letters is chain letters—same old sizes and sevens.

There are the sentiments of Postmaster W. B. Weathered, who informed The News today that "they're at it again."

There's no money involved, but that seems to make no difference, according to the Postoffice Department. The latest is called the Tea Towel Club, and the medium is a postcard listing names, etc., etc.

Recipient is told on the card to strike off the top name and send that person a tea towel, and when "your name gets to the top you will receive 26 tea towels." Within three days each person is to make out six extra copies of the postcard chain message.

About 20 cards have been intercepted here, he said, after a card sent from Pampa was received at Oklahoma City and sent back here by that office.

Women are the "culprits," Weathered said. "You might tell them," he stated to The News, "that if they don't refrain from playing the game the inspector might pay each of them a visit."

Move by South Is Advocated

LUFKIN.—An independent Southern Democratic move was advocated by J. M. Collins, member of the State Executive Democratic Committee, and former Rep. Martin Dies.

They told The Daily News the death sentence declares the independence of President Truman and Northern Democratic Party leaders.

Two Sergeants Take Joyride in B-17

BALBOA, C. Z.—(AP)—Apparently it isn't very hard to fly a B-17.

Two American sergeants, accused of taking an unauthorized 1,700-mile joyride in a Flying Fortress across some of the roughest terrain in the world, said today they didn't have much trouble on their little jaunt, although neither had ever been at the controls before.

M-Sgt. Glen D. Woods of Muncie, Ind., and S-Sgt. Theodore S. Havens, Jr., of Washington, N. J., arrived at U. S. Caribbean Air Command headquarters last night from Caracas, Venezuela, where military authorities said they landed the B-17 Monday after a flight from the Galapagos Islands and across the Andes.

Both said they had observed pilots in flight and it looked pretty easy.

So, instead of servicing Galapagos one plane for a possible mercy flight at daybreak Monday, the two sergeants said they set off for greener pastures.

Woods said he handled the controls the whole way—just did everything he had seen pilots do. Up to 15,000 and 20,000 feet they took the bomber, headed for Waller Field on the island of Trinidad. Woods said he had planned to set down the plane and say: "Well, here we are." It didn't quite work out that way. With only 500 gallons of gasoline left, Woods sat down at Caracas.

Officers of the Caribbean Command said they were astounded that two untrained men could fly the four-engine plane over the Andes, but it didn't seem hard to Woods and Havens. Woods said he even made most of the flight on instruments because of thick weather.

Woods said he had a little trouble getting the big plane to land properly. He had to try four times before he got the air-speed down to a safe margin. Then he made a good landing, he said.

Last night Woods and Havens stayed here and took up residence in the guardhouse.

Man Treated For Wounds

Glenn Muir, Canadian cleaning and pressing shop operator, was treated last night at the Canadian Hospital for gunshot wounds in the legs, following an affray in a Canadian cafe.

State Liquor Board agents and Sheriff Cloyd of Hemphill County were at the scene, and were in Pampa this morning conferring with the District Attorney, but would make no statements on the shooting.

Reports this morning were in definite and the details of the shooting were not known, although reports indicated a number of people were involved in what nearly became mob action.

Muir underwent surgery at the Canadian Hospital last night, then was returned to his home, because of lack of hospital facilities, it is thought. Reports stated a pistol bullet had passed through one leg and lodged in the other leg near the knee.

REPORTS MADE ON FOREST FIRES

WASHINGTON (AP)—Forest fires in East Texas last fall were cited as good reason why there should be no reduction in government fire control and prevention operations.

Rep. Pickett (D-Tex.) told a House Appropriations Committee that the fires did \$1,000,000 in damage to timber alone on 25,121 acres in Liberty, Harris, Montgomery, San Jacinto and Walker counties. Nine hundred separate fires broke out in these counties between Sept. 22 and Oct. 3, 1947, he testified.

Pickett urged also that funds be provided to carry on research and promoted utilization of both the pine and hardwood forests of East Texas. Dr. Paul L. Boynton, president of Stephen F. Austin College at Nacogdoches, also appeared before the committee.

J. Lewis Mosher Dies in Hospital

J. Lewis Mosher, 75, 321 Crest, died at 9:10 a. m. today in a local hospital. He had been a resident of Pampa for the past six months.

Mr. Mosher, born on Feb. 25, 1872, in Minneapolis, Kans., was a retired employe of the Sinclair Refining Company at Coffeyville, Kans.

Surviving are three sons, W. J. and L. O. Mosher, Pampa; Otto S. Mosher, Dodge City, Kans.; five daughters, Mrs. B. J. Olson, Borger; Mrs. Vera Robinson, Galveston; Mrs. A. S. Hays, Coffeyville, Kans.; Mrs. E. F. Irons and Miss Martha Mosher, both of Wichita, Kans.

Funeral services will be held at 2 p. m. Friday from the Daniel Carmichael Funeral Home chapel with the Rev. Douglas Carver, pastor of the First Baptist Church officiating. Burial will be Saturday in Pegg's Okla.

We Heard...

Ray Salmon, president of Pampa Toastmasters, says the club would like to see a toastmasters club formed at McLean. The local group presented a program at a recent McLean Lions Club meeting.

U. S., Britain, France Join in Condemnation

WASHINGTON (AP)—The United States, Britain and France today jointly condemned as a "disguised dictatorship" of Communists the new government set up in Czechoslovakia.

In a declaration issued at the State Department here the three governments also said the Communists seized power through "a crisis artificially and deliberately instigated."

With an apparent reference to earlier Communist power grabs, such as in Hungary, the three Western powers charged that the crisis served as a cover for "the use of certain methods already tested in other places."

As a result, the statement said, Czechoslovakia has suffered "the suspension of the free exercise of parliamentary institutions and the establishment of a disguised dictatorship of a single party."

Here is the text of the joint declaration:

"The governments of the United States, France and Great Britain have attentively followed the course of the events which have just taken place in Czechoslovakia and which place in jeopardy the very existence of the principles of liberty to which all democratic nations are attached.

"They note that by means of a crisis artificially and deliberately instigated the use of certain methods already tested in other places has permitted the suspension of the free exercise of parliamentary institutions and the establishment of a disguised dictatorship of a single party, under the cloak of a government of national union.

"They can but condemn a development the consequences of which can only be disastrous for the Czechoslovak people, who had proved once more in the midst of the sufferings of the Second World War their attachment to the cause of liberty."

Tidelands Case Favors State Side

WASHINGTON (AP)—Senator McCarran (D-Nev.) said today the federal government is about to admit it "has gone all too far" in claiming ownership of land under coastal waters.

McCarran asked Dion R. Holm, counsel of the San Francisco Public Utilities Commission, whether he would support a bill to relinquish any government claim on lands under inland waters.

Holm said such a bill would satisfy San Francisco, but that he could not support it because "a principle is involved" and that it would not be fair to the states.

McCarran said he has learned that the administration will offer a bill to give up any federal claim to ownership of land under bays, harbors and inland waters.

Such a measure would be "an admission on the part of the government that this has gone all too far" and would constitute "an effort to stymie" action by Congress, he added.

The exchange came at a Congressional hearing on a bill which would give the states clear cut ownership of the land and its resources under their coastal waters.

Holm urged that it be enacted. He said there is "some cloud" over the title of much of the land under San Francisco Bay, because of last year's Supreme Court decision holding that California does not own the land under its coastal waters.

This is true because much of the city is built on land which was once tideland but has been reclaimed, Holm said.

Holm said that while the government has made no claim to the land under San Francisco Bay, such a claim might logically follow the Supreme Court decision.

Nearly 50 state officials are waiting for a chance to tell why they favor the bill to give the states title to the tidelands.

Walter R. Johnson, attorney general of Nebraska, who is directing the testimony of state officials, said he has been besieged with requests for priority by men who want to return home.

Senator Moore (R-Okla.), presiding over the joint Senate and House Judiciary subcommittees, declined to speculate how long of a session would be required.

Matthews Is New Head of Rotary Club

City Manager Steve Matthews yesterday was named president of the Pampa Rotary Club at the weekly meeting held in the Palm Room, City Hall.

Directors named during the past two weeks of balloting for seven directors are: Tom Rose, Jr., Jack Sullivan, Ben Guill, R. V. Douglas Carver, Rev. Beauford Norris, George Scott and Floyd Watson.

In lieu of a program the club paid a farewell tribute to Scout Executive Hugo Olsen who leaves next week for Albuquerque, N. M. Olsen also thanked the Rotary Club for its cooperation with him and the Boy Scout movement in the past.

Former Rotary President Grover Heard told the club he wanted to express his thanks to Olsen for the good job he did as secretary while he (Heard) was club president.

Another farewell address was given by Junior Rotarian Bob McPherson who attended his last club meeting. He will be replaced by another Senior High School boy for the month of March at next week's meeting.

The embryo plans of a Rotary-sponsored civic event were discussed by Ben Guill. The plans are now in the formative stages, but promise to be something big and new for the city when completed. See MATTHEWS, Page 5

U. S., Britain, France Protesting

WASHINGTON (AP)—The United States, Britain and France today jointly condemned as a "disguised dictatorship" of Communists the new government set up in Czechoslovakia.

In a declaration issued at the State Department here the three governments also said the Communists seized power through "a crisis artificially and deliberately instigated."

With an apparent reference to earlier Communist power grabs, such as in Hungary, the three Western powers charged that the crisis served as a cover for "the use of certain methods already tested in other places."

As a result, the statement said, Czechoslovakia has suffered "the suspension of the free exercise of parliamentary institutions and the establishment of a disguised dictatorship of a single party."

Here is the text of the joint declaration:

"The governments of the United States, France and Great Britain have attentively followed the course of the events which have just taken place in Czechoslovakia and which place in jeopardy the very existence of the principles of liberty to which all democratic nations are attached.

"They note that by means of a crisis artificially and deliberately instigated the use of certain methods already tested in other places has permitted the suspension of the free exercise of parliamentary institutions and the establishment of a disguised dictatorship of a single party, under the cloak of a government of national union.

"They can but condemn a development the consequences of which can only be disastrous for the Czechoslovak people, who had proved once more in the midst of the sufferings of the Second World War their attachment to the cause of liberty."

Czechoslovak Red Coup Is Big Victory

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
Democratic little Czechoslovakia has gone the way of all countries upon which Bolshevism has managed to obtain a firm grip.

Czechoslovakia's greatest success is one of Moscow's absolute successes. As the London News Chronicle pointed out a few hours before the coup was achieved, if the Communists gained complete control in Czechoslovakia it would be their most important victory in Europe, because out of all their conquests the Czechs would be the first with an instinctive belief in western democratic freedom. Well, bolshevism reigns in freedom-loving Prague—at least for the time being.

President Benes, right hand to the late Dr. Thomas Masaryk who was father of the republic, finally was compelled to capitulate to Communist demands and turn the government over to Red control. As he took this tragic step the Presidential Palace was surrounded by hundreds of soldiers and police, armed with machineguns and under control of the Communist Ministry of the Interior. In order to enforce their demands the Reds had threatened a general strike.

This was followed swiftly by the chilling news from the U. S. Army at Frankfurt, Germany, that a heavily armed Czech guard had sealed Czechoslovakia's western frontier.

Security police were in complete control.

No Czechoslovak citizen was permitted to leave his country under any circumstance.

What could be going on behind that Iron Curtain? We have a right to speculate on that because of the liquidations and other

SUDDEN EXPOSURE—Mrs. and Mr. Richard Geha and their two children luckily were at a movie when a cattle truck's brakes failed and it crashed into the two-story building housing their apartment in St. Joseph, Mo. The front was torn off the building in exposing two rooms of the apartment. Cattle, spilled into the street from the truck, were corralled by police and spectators. No one was injured, including the truck driver.

Money Lending is on Decline

DALLAS (AP)—Only two of about 40 or 50 mortgage companies here are now lending money to finance building under the Federal Housing Administration's Title VI program, Donald McGregor, an official of a Dallas lending concern, said.

"The large insurance companies who buy Title VI loans from mortgage companies just want more interest than the four percent carried by Title VI," he said.

Aubrey M. Costa, president of the Dallas Mortgage Bankers Association, said investment houses preferred bonds to Title VI loans because they netted a higher return.

"Home mortgages would have to be handled at 3 1/2 to 4 percent above the current bond rate to make them attractive to investment houses," he said.

The Title VI program provides 90 percent government insurance on home loans and carries four percent interest rate.

Walls Have Ears, They Talk, Too!

AUSTIN — Walls not only have ears, they can talk. With a little practice anyone can "hear" them as well as the blind person who listens attentively to these echoes. Philip Worchei, University of Texas psychologist, explains in a forthcoming article in The American Journal of Psychology.

In tests with blindfolded students at Tulane University, before he joined the Texas staff in February, Worchei confirmed the fact that the auditory sense enables the blind to avoid running headlong into obstacles, and that this perception can be learned in 10 to 200 trials.

Students were led into the outer part of a room where a wall

Noted Division Is Seeking Recruits

The privilege of enlisting in the Army for service with the famous First Cavalry Division is currently stationed in the Far East Command has just been authorized, Master Sgt. Otis S. Cook, recruiter in charge of the station located at the Postoffice Building here, has announced.

This brings to six the total number of famous combat divisions stationed in Japan and Korea now open for enlistments. They are the 11th Airborne Division and the 6th, 7th, 24th and 25th Infantry Divisions and the 1st Cavalry. All six distinguished themselves during the Pacific campaigns of World War II.

"Young men who like to travel abroad may satisfy this ambition and embark on a rewarding career in the U. S. Army by enlisting for one of these units," Sgt. Cook said. "Previous military experience is not necessary. In addition to

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 16 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Industrialists To Hold Meet

DALLAS (AP)—A regional-wide series of meetings of southwestern industrialists, on the problem of inflation, taxation and fiscal policies, will be held in Texas and Louisiana during March, it was announced today by D. I. Johnston, regional vice president, National Association of Manufacturers.

Co-sponsored by state and local industrial organizations and committees of local businessmen, the series will include meetings at Dallas and Fort Worth on March 12, Houston on March 15, Shreveport on March 18 and New Orleans on March 19. Similar meetings are to be held in 20 key cities throughout the country in 1948.

India's population is estimated to be increasing by 10,000,000 a year.

Thermo-regulated roasted for uniform full flavor.

"I SAY IT'S THE BEST COFFEE IN TOWN"
TWO KINDS—DRIP AND PERCOLATOR

For Percolator or Pot

Schilling Coffee

ALSO IN GLASS

Read the other day where country folks and farmers spend more money, proportionately, on their homes than city dwellers do.

Doesn't seem hard to believe when you think it over. Take the folks in our town, for instance: They're home-loving people—who'd rather spend an evening by the fire with a mellow glass of beer than go out in search of entertainment or diversion.

So it's only natural they put more into what means most to them and to their children: their homes. They

may not have too much to spend—but it goes for those permanent, abiding comforts that make home a nicer place to be.

Walcott Expected To Assert Terms For Return Bout OK

CAMDEN, N. J.—(AP)—To the surprise of nobody, the return bout between heavyweight champion Joe Louis and Jersey Joe Walcott probably will be announced officially tonight.

The announcement that Walcott has agreed to the terms set down by the Twentieth Century Sporting Club is slated to be made at the presentation of the Police Gazette's "heavyweight championship belt" to Jersey Joe in a public ceremony at Convention Hall.

The Police Gazette considers that Jersey Joe whipped the champion in their first encounter last December and is reviving its custom of years ago in awarding a belt to the titleholder.

But when champion Joe and challenger Jersey Joe meet in the Yankee Stadium June 23 over the 16-round bout it'll be Louis that'll get the titleholder's share of the purse.

Louis is due to collect 40 percent of the purse, Walcott 20 percent. Jersey Joe's advisors have been holding out for 30 percent out of the movie rights. But the announcement tonight is likely to reveal that Walcott will receive much closer to 20 percent than 30 of the movie income.

Longhorns Nip Baylor 32-29

By The Associated Press

Little Al Madsen gave his University of Texas mates their revenge over Baylor. His three points in the last 30 seconds of play last night spoiled the Bears' perfect Southwest Conference basketball record, 32-29.

A packed house of 9,000 persons saw the Longhorns make up to some extent for the licking handed them by Baylor two weeks ago. But the result had little meaning in the conference race. Baylor has already clinched the title.

Madsen broke through the Baylor defense to sink a one-handed shot. Then added a free throw for good measure.

The defeat was the first for Baylor in 11 conference starts.

The victory was Texas' seventh against three defeats and kept them in the running for second place.

Baylor jumped into an early lead. But the Longhorns started to click late in the second half and held a 21-15 lead at the intermission.

Playing cautious ball in the second half, both teams slowed considerably.

A field goal by James Owen tied the score at 29-all, then Madsen broke loose.

About one-half of the irrigated land in the world is in India.

Reapers Fall To Phillips In Final Game

The Pampa Junior High Reapers wrote their 1947-48 basketball season yesterday afternoon when they succumbed to a last half rally of the Phillips Junior High quintet, 18-15 in the local gymnasium.

After both teams had basketed five points in the initial quarter, the Reapers then allowed the Phillips club exactly nothing in the second quarter and led 8-5 at the end of the half. The Phillips club then came to life and scored three fast field goals in the third quarter while allowing the Pampans one and then hooped three more goals from the floor while the Reapers were only able to garner two.

Failure to hit their last minute tip shots probably cost the Reapers the game as they repeatedly stole the ball from the Phillips and raced down the court only to miss an easy lay-up shot.

The Pampa five were never thought completely out of the game until Phillips guard Robert Lusk sank a long shot in the final moments to give the victors a five point 18-13 lead. Ronnie Samples then sank a shot from mid-court in a last attempt as the locals completed their scoring.

Reaper center Tony Jones tied with Phillips' center D. E. Wilson for scoring laurels as both boys accounted for eight points apiece. Guard Ronnie Samples of the Pampa team followed these two in the scoring with five counters.

The high-scoring Elmer Wilson of the Reapers witnessed one of his very few "off" days and failed to tally in the contest.

In the first game of the afternoon, the Reaper B team mauled the Phillips B team, 18-4.

The Phillips club was not allowed to score during the first three quarters while the Reapers "B" piled up a 14-0 lead in these three periods.

Marvin Bond, Reaper center, proved his versatility by scoring 14 points and getting the largest majority of all rebounds.

Gift Endowment Goes To Lutherans

AUSTIN—(AP)—A gift endowment of \$75,000 has been presented to the Texas District of the Lutheran Church by Mr. and Mrs. John Hirsch of Wichita Falls.

The money will be used to construct a new library building at the Lutheran Concordia College of Austin, the Rev. George Beto, business manager, said.

Teams From Every Area on SWC's Intersectional Slate

By The Associated Press

Twenty-one intersectional games are among the 47 scheduled by Southwest Conference football teams for the next campaign.

Teams from every area, West Coast to the East, are included in the slate.

Oklahoma and Louisiana state will meet three Southwest Conference teams and Tulsa will play two.

The composite schedule of the conference:

Sept. 18—Texas Christian vs Kansas at Kansas City (night), Texas vs Louisiana State at Austin, Arkansas vs Abilene Christian College at Little Rock, Texas A and M vs Villanova at Philadelphia.

Sept. 25—Texas Christian vs Oklahoma A and M at Oklahoma City (night), Texas vs North Carolina at Chapel Hill, N. C., Arkansas vs East Texas State at Fayetteville, Baylor vs Tulsa at Waco, Southern Methodist vs Pittsburgh at Pittsburgh, Texas A and M vs Texas Tech at San Antonio (night), Rice vs Sam Houston (night).

Oct. 2—Arkansas vs. Texas Christian at Fort Worth (night), Texas vs New Mexico at Austin, Baylor vs Mississippi State at Memphis, Southern Methodist vs Texas Tech at Dallas, Texas A and M vs Oklahoma at Norman, Rice vs Louisiana State at Houston (night).

Oct. 9—Texas Christian vs Indiana at Bloomington, Texas vs Oklahoma at Dallas, Arkansas vs Baylor at Fayetteville, Southern Methodist vs Missouri at Columbia, Mo., Texas A and M vs Louisiana State at Baton Rouge (night), Rice vs Southern California at Los Angeles.

Oct. 16—Texas Christian vs Texas A and M at College Station, Texas vs Arkansas at Austin, Baylor vs Texas Tech at Waco, Southern Methodist vs Rice at Houston (night).

Oct. 23—Texas Christian vs Oklahoma at Fort Worth (night), Texas vs Rice at Houston, Baylor vs Texas A and M at Waco, Southern Methodist vs Santa Clara at Dallas.

Oct. 30—Texas Christian vs Baylor at Fort Worth (night), Texas vs Southern Methodist at Austin, Arkansas vs Texas A and M at College Station, Rice vs Texas Tech at Lubbock.

Nov. 6—Texas vs Baylor at Waco, Arkansas vs Rice at Little Rock, Southern Methodist vs Texas at Fort Worth, Arkansas vs Southern Methodist at Fayetteville, Baylor vs Tulane at New Orleans, Texas A and M vs Rice at College Station.

Nov. 20—Texas Christian vs Rice at Houston, Baylor vs Southern Methodist at Dallas.

Nov. 22—Arkansas vs Tulsa at Little Rock.

Nov. 25—Texas vs Texas A and M at Austin.

Nov. 27—Texas Christian vs Southern Methodist at Dallas, Baylor vs Rice at Houston.

Nov. 29—Arkansas vs William and Mary at Little Rock.

Six Teams Yet To Be Named For State Meet

By The Associated Press

Harington has joined Denton in the class AA high school basketball state tournament next week in Austin and the other six places to be decided by Saturday night.

The Dist. 16-AA champion defeated Thomas Jefferson, San Antonio (15), 26-23, last night to win the bi-district series, two games to one.

Abilene (3) and Bowie, El Paso (4), open their bi-district series tonight in El Paso while two other playoffs continue.

Crozier Tech, Dallas (8) and Polly, Fort Worth (7), play their second game in Dallas and Texarkana (12) and Lufkin (12) meet again in Texarkana. Crozier Tech and Lufkin have one victory apiece.

Tomorrow night, second games will be played between:

Amarillo (1)—Graham (2) at Brownwood (9)—Temple (10) at Brownwood.

Milby, Houston (13)—Baytown at Houston.

Amarillo, Temple and Baytown won series openers.

Regional champions in class A and B are also scheduled to be decided by week's end with winners going to the state meet in Austin.

Throckmorton and Coleman will decide the Region 2, class A, champion tonight in Brownwood. Throckmorton (6) defeated Hamilton (7), 44-29 and Coleman (8) beat McCarney (6), 37-23 last night.

The lineup of other class A regions is:

Region 1, at Canyon, Friday and Saturday—Canyon, Dimmitt, Memphis, Perryton, Ralls, Spur, Leveland and Sudan.

Region 3—Olney vs. Nocona at Wichita Falls Thursday, Diamond Hill (Fort Worth) at Gatesville Thursday.

Region 4, at Greenville, Saturday—Garland, Plano, Athens and Mt. Vernon.

Region 5, at Gladewater, Friday and Saturday—Hooks, Arp, East Mountain (Glimmer) and Huntington.

Region 6, at Texas City, Saturday—Huntsville, Humble, Texas City and Wharton.

Region 7, at San Antonio, Saturday—Brenham, Cameron, San Marcos and South San Antonio.

Region 8, at Alice, Saturday—Uvalde, Victoria, Sinton and Mercedes.

In class B the regional tournaments will be as follows:

Region 1, at Lubbock, Friday and Saturday—Stratford, Follett, Claude, Carey, Kress, Spade, Shallowater, Girard, Whiteface, Dawson (Welch) and Farwell.

NCAA Champ To Be Decided March 23 in NY

CHICAGO—(AP)—The National Collegiate Athletic Association's basketball championship will be decided March 23 in New York after completion of the Eastern and Western playoffs; Arthur (Dutch) Lonborg, chairman of the NCAA tournament committee, announced today.

Lonborg, Northwestern University coach, said the Western playoffs, will be held March 19-20 in Kansas City, Mo. The Eastern playoffs will be staged in New York March 18-20.

The winner and runner-ups of the NCAA tournament will move into the final Olympic basketball tryouts at New York, which began March 27.

Moly Cross and Kentucky already have been named to represent district 1 and district 2 respectively.

The six other NCAA berths will be decided mainly on the finishes in the various conferences. Baylor already has captured the Southwest Conference title and is expected to be invited.

St. Petersburg Open Golf Meet Begins Today

ST. PETERSBURG, Fla.—(AP)—The \$10,000 St. Petersburg 72-hole Open Golf Tournament started off as a wide open affair today.

Several of the better known golfers turned in some neat scores yesterday on the par 72 Lakewood course. Bobby Locke, the South African shooter, had a 69 together with Eric Monti of Santa Monica, Calif.

The biggest event of yesterday's pre-tourney, however, was the shooting by Ski Alexander, young Durham, N. C. pro.

Alexander set a new PGA record on the course when he used 18 putts on an 18-hole round. George Schneider, PGA tournament chairman, said it set a new world record for low putts.

The former Duke University golf captain three-putted one green, but chipped into the cup on two other holes. He had 35 one-putt greens. He turned in a 96 card.

Well, It Was There

Iowa state forward Ray Wehde snags the ball from the arms of surprised Pleasant Smith of Missouri as the Cyclones edged the Tigers out of first place at Columbia, 48-47, and again took command of the Big Seven race.

Sports Round-Up

By HUGH FULLERTON, JR.

MIAMI, Fla.—(AP)—The sport that really seems to be coming along in this town which showed remarkable lack of interest in a world championship fight appears to be polo.

The difference, of course, is in the promotion. All the things that happened in running the Willie Pep-Humberto Sierra bout probably never will be told, but we can guarantee that they shouldn't happen to a Northerner in one of the Miami Beach boat-trips.

On the other hand, the guys who stage the indoor-outdoor polo matches in the Orange Bowl seem genuinely interested in promoting interest in the game. They put out elaborate programs, bring in the best players and run the thing in big league style.

As a result they've averaged around 4,800 attendance over two years, hit close to 10,000 sometimes and hope to win the intercollegiate championship with the Texas-reared U. of Miami team.

COUNT OFF

Clarence (Kay) Kantrowitz, promoter of the recent title fight here, claims it's true. . . . When he walked into the Orange Bowl for the big affair, a gateman refused to let him through. . . . "But I'm Kantrowitz, the promoter," growled the guardian of the portal. "You're the tenth Kantowitz who has tried to get in here tonight." . . . P. S.: He probably was the only gate crusher who didn't make it.

THE SAFE COURSE

Dick Culler, the Boston Braves infielder, has been officiating a few basketball games near his North Carolina home. . . . But after being caught in the middle of a couple of rubarbs among the fans, Dick quit refereeing. . . . "I'm in the sporting goods business here and I can't afford to lose any friends," he explained.

Double Main Event Slated On Tonite's Wrestling Card

Tonight's double-main event at the Sportatorium should prove to local wrestling fans one of the best matched cards ever to appear in the local ring, when Southwestern junior heavyweight champion Al Getz meets Ace Freeman of the Bronx, New York, and Johnny Corlin of Tampa, Fla., tangles with Gorilla Poggi of Argentina, on the companion feature.

Freeman and Poggi are both newcomers to the local ring, but Getz and Corlin have proven their prowess in the local ring.

Freeman, however, will not be a complete stranger to ardent Pampa wrestling fans as he made many appearances here and in Amarillo during the days of Dutch Mantell.

Poggi is of Italian and Spanish descent. He went to sea in the Argentine merchant navy at 11 years old as a cabin boy. He rose to be a second engineer before he quit combing ports from Madagascar to Murmansk and from Casa Blanca to Calcutta.

This furry gladiator wrestles rough because his methods are those he learned in brawls in Capetown, Port Said, Panama, and Singapore.

Poggi has wrestled more world champions than probably anyone yet to appear in the local ring. Jack Reynolds, Hugh Nichols, LeRoy McGuirk (when LeRoy was the 175-lb. king), Wild Red Berry, Danny McShain, and Joe Banaski, are but a few of the champions Poggi has met.

Getz has appeared in the local ring twice, winning both matches. Corlin has made many appearances here both as a referee and as a wrestler.

Mickey Barnes of Amarillo will referee the bouts. The first match will begin at 8:15.

Wilkinson Is in Line for Yale's Coaching Job

NEW HAVEN, Conn.—(AP)—The latest candidate reported as having the "inside track" for the vacant football coaching job at Yale is Charles (Bud) Wilkinson, coach at Oklahoma University.

At Oklahoma City, Dr. George L. Cross, O. U. president, said last night.

"It is my understanding that Bud has been offered the job," The Daily Oklahoman was more specific. It said an unnamed member of the Yale alumni board had told Wilkinson:

"If you want the job, it's yours, he will recommend you to the school and the recommendation will be accepted."

Edwin F. Blair, chairman of the Yale graduate football committee, declined to confirm or deny that the sooner coach had been offered the post left vacant by Howie Odell's departure for the University of Washington, said Blair.

The Daily Oklahoman said Wilkinson had been offered a five-year contract with "many concessions." The coach himself did not deny the report, but said he planned no trip East to confer with Yale officials.

Adams Bows Out Of GG Tourney

CHICAGO—(AP)—The last Texas champion in the National Golden Gloves Boxing Tournament bowed out last night.

Earl Wenbourne of Sioux City, Ia., won over Tom Adams of Fort Worth when the referee stopped the fight in the third round after a deep gash had been cut on Adams' cheek.

The Texas light-heavyweight ahead on points at the time, protested referee's decision to stop the fight and was given a tremendous ovation when he left the ring.

SMU Wins Meet

DALLAS—(AP)—Southern Methodist University defeated the Dallas Athletic Club, 41-34, yesterday in a dual swimming meet in which five pool marks were smashed.

There are 240 pounds difference between a long and a short ton.

On Adams' cheek.

The Texas light-heavyweight ahead on points at the time, protested referee's decision to stop the fight and was given a tremendous ovation when he left the ring.

Rain Delays Dog Trials

GRAND JUNCTION, Tenn.—(AP)—The rain-delayed National Bird Dog Championship Field Trials tried again here today.

articular day when Betty had forced herself to take wollen eyelids to the of-Dr. Holbrook had wished it had to face Janice, was which Miss Willows recog- in its beginning, as an in with, everyone except lings her? Eyes all red en, voice kind of wavery, the boy friend, no doubt, Miss Willows decided, eep their private lives in a business office. brook came in shortly through the back door nd sometimes Miss Hil- From his own office he ginal, which indicated wanted Miss Willows to im. Janice—er, Miss Hilary ret?" the doctor asked as he reached him. Willows glanced at him.

doesn't seem right just how Mrs. McRae gone and no one replacing her, but I have to go, and immediately. That's why I was so late. I stopped to see about reservations. I got them for day after tomorrow. I know this will seem hasty to you, but I'm telling you because I know I can count on you to back me up when I tell Dr. Holbrook."
"Back you up?" Miss Willows asked.
"YES," Janice said. She gave Miss Willows one of her warm smiles. "I want you to assure Dr. Holbrook that the office can get along without me. You see—something like a shawl crossed Janice's candid eyes—"I promised I'd go for at least a month."
"Then you are coming back?" Janice gave Miss Willows a startled look.
"—why, yes, so far as I know," Miss Willows reached across the desk to give one of Janice's hands a quick, firm pressure. "Don't worry," she said. "The office can get along well enough. After all, Betty Jane has been here long enough now to handle nearly anything that might come up. And I will promise to do more than my part."
It was just then that the outside door flew open. And at the same moment, several other doors also opened, but less dramatically.
Betty Jane opened a door from the room where she had been closeted with Miss Susie Fox; the door to the doctor's inner office was opened and Dr. Holbrook himself stood there in a last-minute polite leave-taking of Mrs. Smythe-Smith.
Miss Willows jumped up to stand behind her desk. And Janice turned around.
A man stood at the outer door, an unshaven, disheveled, wild-looking sort of person. He held a shiny revolver in his right hand.
(To Be Continued)

HARD AT IT—The picture above was snapped at a recent rehearsal of the Pampa Lions Club minstrel which will be presented at the Junior High School Auditorium. The scene, a casual shot, shows (in center) Ken Bennett at the piano; Art Teed, who will be known respectfully as Mistuh Interlocutor; and the director, Red Wedgewood, all working out a little "snag" in the routine. They promise to have the "trouble" ironed out by March 4-5, when the two-night show will be presented.

Texas Fruit Goes To California

AUSTIN (AP)—California's closed door to Texas citrus fruit has been opened.

Agriculture Commissioner J. E. McDonald in California said that officials there have been satisfied with annual surveys showing Texas citrus to have been free of canker for the past three years. Texas citrus fruits have been banned from movement into California previously because of canker. McDonald said he would set up machinery on his return here whereby Texas citrus may move into California under permit.

BALANCED BREAKFAST

3-MINUTE OATS

Two more patients arrived. Then Mrs. Downey went out to get a bite of belated breakfast before she returned to see the doctor. Miss Fox was disposed of, and Mrs. Smythe-Smith had already entered the inner sanctum, when Janice finally appeared.
"I'm sorry I'm so late," she said to Miss Willows. Like Betty Jane, she did not sound sorry. But Miss Willows did not object. Janice might be having her personal problems, as Miss Willows was well aware, but she kept them resolutely to herself.
However, to Miss Willows' surprise, Janice said now, "Miss Willows, I want to tell you something—rather personal."
Miss Willows nodded. She had learned that people often told more if you asked less.
"I am going away," Janice said. "I have to go away. I know it

by oils, rails, motors, steels and rubbers transfers expanded on the upturn to around \$50,000 shares. Although most issues closed well under the day's best, gains of fractions to more than a point were in the majority.
Better climbers included Skelly Oil, Mission Corp., Pacific Western Oil, Amerada Petroleum, Warren Petroleum (after withdrawal of a proposed offering of preferred stock), Chrysler, U. S. Steel, Goodrich, Firestone, Dow Chemical, Deere, Owens Illinois and Transcontinental and Western Air. On the offside were Eastern Air Lines, Du Pont and Cerrro De Pasco.
Rails benefited from additional favorable earnings and dividend news. Support for many issues was provided by short covering and professional bidding for quick-turn profit in a technical rally.
Carrier bonds were steady.

CHICAGO GRAIN

CHICAGO, Feb. 25 (AP)—Grains didn't get far in either direction on the board of trade today. But the undertone remained firm and cereals were ahead for small gains most of the session. Corn displayed more strength than either wheat or oats. Large cash and elevator houses bought wheat at one time, sending prices ahead a couple of cents. There was also some support from traders on the ground that "crop scares" may shortly appear. Most of the demand for corn came from commission houses. Wheat closed 1/4-1/2 higher, May \$2.28 1/2, corn was 1/2-3/4 higher, May \$1.15 1/2, oats were 1/2 lower to 3/4 higher, May \$1.08 1/2, and active soybeans contracts were up 1/2 cents the daily limit, March \$3.42.

Legal Publication

No. 2574
STATE OF TEXAS:
TO: P. T. McNamara, if living, and if dead, his heirs, their heirs and legal representatives; C. V. Hendren, if living, and if dead, his heirs, their heirs and legal representatives; Horace Tucker, if living, and if dead, his heirs, their heirs and legal representatives; and Robert Horn, if living, and if dead, his heirs, their heirs and legal representatives.

GREETING:
You are commanded to appear and answer the Plaintiff's petition at or before 10 o'clock A. M. the first Monday after the expiration of Forty-two (42) days from the date of issuance of this citation, the same being Monday, the 22nd day of March, A. D. 1948, before the honorable District Court of Gray County, Texas, at the courthouse of said County, in Pampa, Texas.

The Plaintiff's petition was filed in said suit on the 23rd day of February, A. D. 1948, the file number of said suit being Number 1. The names of the Plaintiff in said suit are J. S. Morse and wife, M. E. Morse, and the names of the Defendants are R. A. Nipper, Fred Glass, Standard Oil and Gas Company, a corporation, Danciger Oil and Refining Company of Texas, a corporation, S. J. Benckenstein, Vinton Petroleum Company, a corporation, P. T. McNamara, if living, and if dead, his heirs, their heirs and legal representatives; C. V. Hendren, if living, and if dead, his heirs, their heirs and legal representatives; Horace Tucker, if living, and if dead, his heirs, their heirs and legal representatives; and Robert Horn, if living, and if dead, his heirs, their heirs and legal representatives.

Plaintiffs sue for the cancellation of an oil and gas lease covering the South One-Half (S 1/2) of the Southwest Quarter (SW 1/4) of Section Six (26), H & G N Ry. Co. Survey, Gray County, Texas, alleged to have been assigned to the Plaintiff by instrument dated June 16, 1926, the lease to A. E. Free, Jr., for oil and gas exploration and development purposes, the SW 1/4 of said Section No. 26, H & G N Ry. Co. Survey, Gray County, Texas, containing 160 acres of land, more or less, that said A. E. Free, Jr. thereafter assigned said oil and gas lease to the Midwest Exploration Company, a Colorado corporation, that said Midwest Exploration Company assigned said oil and gas lease to the Standard Oil and Gas Company, so far as it covered the S 1/2 of said SW 1/4 of said Section No. 26, H & G N Ry. Co. Survey, Gray County, Texas, containing 80 acres of land, more or less, that said Standard Oil and Gas Company, by instrument dated April 1, 1932, assigned said lease to R. A. Nipper, so far as it covered said 80 acre tract, reserving to the grantor and assigning certain oil payments out of the oil and gas produced from said tract, that R. A. Nipper, by instrument dated October 1, 1931, entered into an agreement with P. T. McNamara, in consideration of the furnishing of tools and the drilling of a well on said 80 acre tract by said P. T. McNamara, to assign to said R. A. Nipper and P. T. McNamara assigned to Fred Glass, C. V. Hendren, Horace Tucker and Robert Horn, in consideration of labor to be performed by them in drilling said well, each a fractional interest in said lease, so far as it covered said 80 acre tract.

That the actual and real consideration moving to the Plaintiff for said original oil and gas lease given by them to said A. E. Free, Jr. was the exploration and development of said leased premises, for the discovery of oil and gas thereon, and upon discovery, the production and saving of same in and from the tract, and the receipt of royalties from such production, as provided in said lease, that the estate and title to said 80 acre tract, as well as the lease and his assigns, remained vested in said lease and his assigns, only so long as said leased premises were used for the purposes of said lease, as above stated, that upon the assignment of the S 1/2 of said SW 1/4 to said R. A. Nipper, and his associates and assigns, to explore and develop said leased premises, and upon their failure to do so, said 80 acre tract, the estate and title conveyed by said original lease instrument thereupon terminated, as to said 80 acre tract, and likewise, upon the abandonment of the use of said 80 acre tract for the purposes of said oil and gas lease contract, as above stated, the estate and title to said tract thereupon terminated, and full and complete fee title thereupon reverted to and vested in Plaintiff, who still own said tract of land.

That said R. A. Nipper, his associates and assigns, drilled a well on said 80 acre tract during the year 1932, which well proved to be a dry hole, and thereupon said well was closed down and said R. A. Nipper, his associates and assigns, ceased to further explore or develop said 80 acre tract, but on the contrary they, and all the Defendants above named, have wholly abandoned said 80 acre tract, and by reason of such abandonment, all rights in said lease and estate in and to said 80 acre tract has terminated as to all said leaseholders.

That the Defendants, Danciger Oil and Refining Company of Texas, S. J. Benckenstein, Vinton Petroleum Company, each own an interest in the minerals in and under said 80 acre tract, as evidenced by said royalty and mineral deeds heretofore executed by Plaintiff, and of record in the Deed Records of Gray County, Texas, which royalty or mineral conveyances were executed subject to the above oil and gas lease executed by Plaintiff to said A. E. Free, Jr. with

If Russians Possess Bomb Secret, They Can't Build Bombs

NEW YORK — Hanson W. Baldwin, military analyst, writing in the March issue of Mechanix Illustrated Magazine, offers an answer to the question, "Has Russia the Atom Bomb?" Mr. Baldwin, a graduate of the U. S. Naval Academy, reports that the Russians undoubtedly do have the secret of the bomb but it does not mean that Russia has been able to build a bomb. In his opinion they have not produced an atomic bomb up to the present time—but they will.

"There is no real scientific secret to the atomic bomb. There has been no such secret since before the war, certainly none since Hiroshima proved the theory practical. Therefore Molotov's statement that Russia 'knows the secret' is a simple propaganda device.

There are, however, a great many technical and engineering and production secrets—hundreds of them. Even the relatively simple Hanford plutonium plant required in its construction the services of hundreds of subcontractors. This one plant required a

cross section of American industry and devices hitherto unknown to man. Production 'know-how,' industrial genius and technical and mechanical ability are not an American monopoly. But no other nation possesses these attributes to the same extent that we do. Industrially, Russia is still a backward nation compared to us."

Analyst Baldwin concludes: "There are other factors which limit Russia's atomic capabilities. One is power. Most of the world's great power plants are in North America. Another is availability of raw materials, particularly uranium. Russia has enough to produce a small number of bombs, but her limited stockpile of uranium ore is inadequate for any large number. By far the greater part of the world's known sources of uranium—including the rich resources of the Belgian Congo—are available to us, but not to

TECH IMPROVEMENTS
LUBBOCK—(P)—Texas Technological College directors have approved spending of more than \$300,000 for enlargement of facilities and new construction at the school.

Russia. All these things mean to our keenest observers that Russia does not have a bomb today."

Church Women Observe World Day of Prayer

Members of the Pampa Council of Church Women gathered in the Church of the Brethren last Friday morning and prayed, "Grant, O Lord that the rule of Love may come to replace the rule of force in the world."

Over the world people of 51 nations have joined in a similar plea.

The morning prayer was patterned on the Lord's Prayer with alternating interpolations by a leader and audience in unison.

The program followed the responsive pattern through the prayer in which singing was interspersed.

This joining of minds and hearts and souls started in 1920 when the women of Canada united with the women of the United States in a Lenten Day of prayer for missions.

In 1927 the observance became known as the World Day of Prayer, the women of many colors and creeds taking upon themselves the responsibility of once a year, asking God's blessing upon people everywhere.

Since that time there has been an increasing number of women and churches taking part in the observance.

Mrs. Walter Purviance was in charge of program arrangements.

During the short business meeting which followed the program the group voted to send Mrs. C. T. Hightower, the president, to the State Conference which convenes in Dallas March 2, 3 and 4.

Sue Broxson Is Party Honoree

A birthday party was given in the home of Mr. and Mrs. Jack Broxson, 737 S. Barnes, last Saturday, honoring their daughter, Sue, on her twelfth birthday.

Games were played throughout the evening and pictures were made. At the close of the evening, refreshments of ice cream and cake were served to the honoree and Norma Lee Qualls, Dorothy Mackey, Ruby Mae Shelton, Wanda Fordyce, Gwen Addins, and Gay Stone.

Baby's Wardrobe Need Not be Large

A few sensible clothing purchases will enable the new baby to be well-dressed according to Beulah France in Capper's Farmer.

"Babies grow fast," she points out in an article in the March issue, "so don't get too many things. Resist buying the lovely long petticoats and dresses. These will come from relatives and friends."

What does it take to outfit the newborn? The story recommends each of sleeveless cotton shirts, long-sleeved shirts, nightgowns and kimonos. For diapers, better have a dozen. Other items needed for a complete wardrobe, says the story, are 6 knitted wool sweaters, 3 lightweight blankets and 6 flannel blankets.

Dresses and petticoats will be among the gifts but if you want to make dresses use a kimono sleeve pattern and decorate the dress with fancy stitches. Leave off lace at the neck—it is irritating.

The Woman's Page

Oleta Snell Is Honored at Tea

Mrs. V. L. Hobbs and her daughter Elise were hostesses last Saturday afternoon from three to five-thirty at a mother-daughter tea. The affair which carried out the George Washington theme honored Miss Oleta Snell, a missionary to Chile who is now on furlough after five years of foreign service. Members of two Sunday school classes and their teachers, Mrs. Tom Rose and Mrs. George Snell participated in the courtesy.

Introductions were facilitated by the use of red hatchet-shaped name cards pinned on each guest. The tea table was covered with white linen and centered with a low arrangement of red carnations.

Refreshments consisted of hatchet-shaped open face sandwiches and white mints and hot spiced fruit tea. Mrs. J. V. Young presided at the tea service.

Miss Snell, who is a sister to Dr. George Snell, has made two public appearances since she arrived in Pampa. She spoke at the First Baptist Church last Sunday morning and again at the Men's Brotherhood dinner meeting.

LEFT OVER ROAST

Savory toppings on those traditional meat pies can make yesterday's leftover roast taste like a gourmet's treat. To accent the flavor of the meat, add to the biscuit topping 12 teaspoons caraway seed or celery seed or 1/2 cup of finely grated cheese. Another unusual topping is cornbread batter swooshed over the top of the meat pie and baked for 35 minutes, or until bread is browned.

STORMY WEATHER COOKS

When bad weather keeps the children indoors, a simple cooking lesson will help pass the time. Even a very young child can frost graham crackers, for instance, with a new packaged instant frosting. All that's needed to put a tempting coat of vanilla, chocolate or strawberry on the cracker is a package of the prepared mix stirred into hot tap water.

Baking soda will rust stains from enameled cooking utensils. To banish the stain, sprinkle soda on a damp dishcloth and rub the spot until it disappears.

Gray County HD Club Members Hold Two Meetings

Members of the Gray County Home Demonstration Clubs gathered Friday in the City Club Rooms for a buffet luncheon.

Mrs. O. G. Smith was in charge of arrangements. The food was served from a lace covered table centered with spring flowers. After the luncheon Mrs. A. B. Walls gave a book review on "Miracle of the Bells."

About sixty-five women participated in the luncheon. The monthly council meeting of the Gray County Home Demonstration Clubs was held in the county demonstration agent's office last Monday.

Miss Ann Hastings directed a recreational game. Mrs. D. E. Bump, county chairman of the Texas Home Demonstration Association, urged all clubs to have their nominees at the March meeting as election of delegates to the district meeting is to be held at that time.

The district meeting will take place on April 30 in Perryton.

Increase for Vets Granted Only to Full Time Students

WASHINGTON (AP)—Higher living allowances for veterans in school will be granted only to full time students, the Veterans Administration has said.

Part-time students, on-the-job trainees and others, are not entitled to raises provided in a bill signed by President Truman last Saturday, VA attorneys said.

The new subsistence payments are \$75 a month for a veteran without dependents, \$105 with one dependent, and \$120 with more than one dependent.

The rates become effective April 1, and will be paid for the first time in checks mailed on or after May 1.

Andrew Johnson is the only American president against whom impeachment charges have been brought.

Carroll Lamb Has Birthday Party

Carroll Lamb, daughter of Mr. and Mrs. L. C. Lamb, 404 Lefors St., was honored with a party in her home on Feb. 18, which was her tenth birthday.

Pictures were taken of the group and games were played. After the honoree opened her gifts her guests sang "Happy Birthday."

Favorites were varied colored out cups filled with mints. Cake and ice cream were served to the honoree and her guests, Beverly Lamb, Diana and Billie Ripple, Emmett and Melton Salzman, Marie McPherson, Lynn Miller, Lee Ledrick, Janis Kretzmeier, Lynn and Jay Fowell, Jancis Silcott, Harold Hammett, Myra Higginbotham, Patty Claunch, Donald Pendergrass, Ted Swindle and Melvin Romine.

Patsy Sue Taylor Honored on Birthday

Miss Patsy Sue Taylor celebrated her eleventh birthday Saturday, Feb. 21, at her home at 1111 S. Nelson.

Games were played and prizes awarded after which the birthday cake and ice cream were served to Linda Watson, Margie Roundtree, Maxine Lou Taylor, Mary Ann Langford, Geraldine Parker, Donna Washington, Clara Mae Washington, Peggy Allen, and Sandra Nation.

Mrs. W. B. Taylor was assisted by Mrs. Donald Taylor in the direction of games and the serving of refreshments.

Trade Winds are those blowing continually towards the thermal equator and deflected westward by the rotation of the earth.

Holy Souls Church

There will be special services at Holy Souls Church during Lent. SUNDAY MASSES: 8, 10, 11 a. m.

WEEKDAYS: 6:45 and 8 a. m. MIRACULOUS MEDAL NOVENA: Every Sunday night at 7:30. LENTEN DEVOTIONS: Sunday evenings - 7:30.

Wednesday evenings - 7:30. Stations of the Cross - Fridays: 2:45 p. m. and again at 7:30 p. m. Two series of sermons will be preached during the Lenten season. The Sunday night series—"The Passion and Death of the Redeemer of the World"—will be preached by the Rev. O. W. Meyer, C. M.

The Wednesday night series—"God's Law of Obedience"—will be preached by the Rev. Francis Kunz, C. M. All services open to the public.

People started eating tomatoes about 1850. Prior to that time they were believed to be poisonous.

CHANGE of LIFE?

Are you going through the functional "middle age" period peculiar to women (38 to 52 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what doctors call a stomachic tonic effect!

Know Your STUFF

ABOUT STERLING: The bride starting her collection of silver will get what she pays for. In sterling the price depends upon pattern and thickness.

Very thin sterling is apt to be a bargain of dubious value. Sterling, it must be remembered, can be rolled as thin as tissue paper. While it is still sterling, it may be extremely fragile.

To make the sterling that she buys give full value, the bride is urged by experts to put it into daily use—a practice which most women with fine pieces are reluctant to adopt.

Keeping it put away for company use, however, only encourages tarnish. Handling not only retards tarnish, but enhances luster and patina.

Even nicks and scratches on silver are desirable. No connoisseur praises silver until it begins to boast millions of tiny surface scratches. Silversmiths say that they'd welcome a machine that could duplicate these scratches which not only enhance beauty of pieces but give them a much more wearable surface.

MIGHTY FAST Relief For RHEUMATIC ACHES-PAINS

Sore, Stiff Muscles. When you're suffering from rheumatic, lumbago or neuritic pains from stiff lame muscles—rub an Musterole for fast, long-lasting relief.

Musterole offers all the advantages of a warming, stimulating mustard plaster yet is so much easier to apply—just rub it on. Musterole instantly starts to relieve aching soreness and helps break up the painful surface congestion. In 3 strengths. At all drug stores.

Salt in Hog Feed Helps Save Corn

If you're fattening hogs on legume pasture, and feeding protein and a mineral mixture, is salt necessary?

Yes, says C. M. Vestal, swine specialist at Purdue University. Last summer he found that feeding two-thirds of an ounce of salt a day reduced the corn needed nearly a bushel for each 100 pounds gain. The pigs getting the free-choice salt gained one-third a pound a day faster and also used less supplement and mineral.

Vestal also tried fattening hogs on alfalfa with corn and supplement, but no mineral or salt. They gained only two-thirds as fast as the pigs fed both salt and mineral, at a 30 percent higher cost.

Other Purdue experiments, says Farm Journal, show that salt requirements of hogs are less when they receive animal protein—tankage, meat and bone scraps, and so on. Nevertheless, it's good feed-saving business to have salt fed at all times. They'll eat what they want, and make you more money.

Stock, Crop Organizations Aid Agricultural Outlook

By LOUIS FRANKIE
Extension Editor
Texas A. & M.

There are a number of livestock and crop associations in Texas. No one can say for sure just how much they are going to improve agriculture, but it's safe bet that it's considerable.

Many of these associations cut across breed and regional lines, as do the swine breeders', cattle-men's, sheep and goat raisers' and rice growers' groups.

As an example of how these associations work—here lately people have started to worry about the reputation of Texas and Oklahoma wheat. It seems that some of the hard red winter wheat that farmers are planting is of poor milling and baking quality.

The situation got so bad last year that certain shippers refused to bid on wheat shipped from some Texas points; others penalized Texas wheat by buying it at a discount and all markets discriminated against the varieties known to be of poor milling quality.

For the matter of low milling quality is purely a matter of variety.

The worst offenders are Chiefkan, Red Chief and Early Blackhull. The yields of these varieties are not better than others of top milling quality; farmers who plant them do so mainly because the Early Blackhull reaches maturity 12-15 days ahead of most other types and because Chiefkan does not shatter or lodge—"go down," as they say in the Panhandle.

Wheat, Comanche, Pawnee, Tenmarq, Turkey, Triumph, Wichita, Cheyenne and Standard Blackhull are all tested, proved varieties of high milling character. The Texas Agricultural Experiment Station will be right in there with Chiefkan, Red Chief and Early Blackhull in the matter of yield and that all of them have one or more points—in addition to milling and baking—to recommend

them.

Wheat, for instance, a cross developed at the Denton substation and tested at Bushland has good straw, high yield, drought resistance, good test weight and a very high resistance to leaf rust.

Yet last year it was estimated that 18 percent of the South Plains' and 21 percent of the North Plains' acreage was seeded to Chiefkan, Red Chief or Early Blackhull. Acreages of these varieties in some counties ran as high as 60 percent.

Such organizations as the Panhandle Feed and Grain Dealers Association and the Texas-Oklahoma Wheat Improvement Association—the latter sponsored by elevators, dealers and millers—have been working on the deal. But it remained for Ochiltree county farmers and grain dealers to bring the program home.

Ochiltree and Hansford counties, in most years, vie with each other for the honor of producing Texas' largest wheat crop.

Last year Ochiltree county people got together and formed a wheat improvement association. One of the first things the group did was to print and distribute 4,000 copies of an attractive, 18-page leaflet setting forth the case against poor milling and baking varieties.

Check up and you'll find that only 5 percent of Ochiltree county's 1947 acreage was planted to Chiefkan, Red Chief and Early Blackhull—about the best record in the state.

As a result of the wheat improvement association's campaign, that figure has been cut to about 1 percent of the wheat planted in 1948 harvest in Ochiltree county; Hansford county is right in there with about the same percentage.

It seemed to me that some of the counties which plant up to half of their acreage to poor milling varieties would be the ones that would be putting on this sort of a campaign, and I asked the county agent at Perryton, H. G. Wills, why Ochiltree county farmers were so concerned.

"We stand or fall on the reputation of Texas wheat in general," he said. "And wheat is big business with us. We have 380,000 acres in cultivation, and around 540,000 of that is in wheat."

"Our people figured that as one of the biggest—we like to come right out and claim it—all-wheat producing areas in the country, it was up to us to clean our own slate first and then we'd be in a position to talk with farmers in other sections about what they ought to do."

"It's our hope that this movement will spread over the entire wheat belt. In the past, Texas wheat has been known as high protein, high quality wheat that the market wanted, and we hope to help it regain and hold that reputation."

The Ochiltree County Wheat Improvement Association is a good example of what Texas farmers

Euclid, a mathematician of Alexandria in the 4th century B. C., compiled the first systematic treatise on geometry which is still in use.

Advocates Changes in Farm Policy

The physical aspects of the Federal Government's soil conservation plan must be divorced from its social implications.

Milton S. Eisenhower, president of Kansas State College, advocates this amendment to our farm policy in an article in the March issue of Country Gentleman titled, "Our National Program for Soil Conservation Needs a Change."

Eisenhower emphasizes the urgency of our need in this statement: "For each Federal dollar spent in the name of conservation during the past dozen years the United States has had a return of about ten cents in actual reduction of soil and fertility losses."

Eisenhower points out in the article that the weakness of our present policy has taught us the necessity of establishing separate organs for executing the physical and social factors of a conservation program. Devotion to the physical aspects is stressed. As for the social factors, Eisenhower advises: "If a farm-income program again becomes necessary, payments to farmers should be made openly and exclusively as income payments."

The pressing importance of the problem at this juncture of our fact that the House Agricultural Committee is now considering what our long-time farm policies should be, and laws soon to be enacted are likely to be with us for many years.

The article states that Eisenhower is convinced we cannot expect better results in our conservation program unless Congress refashions the present legislation which authorizes public conservation services. According to him, "It is obvious that at least part of our public conservation policy was unwisely conceived."

About the impending legislation, he says: "If these new laws are not consistent with the requirements of farmers and the nation alike for a progressive rebuilding of our badly damaged basic resources, we shall face a disaster sooner than we suspect."

Farm Bureau to Hold Hearing on Water Controls

The Texas Farm Bureau Federation will sponsor a water hearing to discuss the desirability of underground water control legislation, Hammond said. The meeting will begin at 10 a. m. in the City Auditorium.

W. R. Tison of Meadow, state Farm Bureau director of the Plains area, will be host for the hearing. Farm Bureau Directors Joe M. Hatton of Amarillo and C. H. DeVaney of Coahoma will be co-chairmen, with Hatton presiding during the morning session and DeVaney at the afternoon session.

The meeting is expected to draw a large attendance of farmers from all sections of the state. State legislators and representatives from other interested groups will be invited, and water engineers and geologists have been invited to furnish information on the surface and underground water situation in the state.

In explaining the purpose of the hearing, Hammond said: "In the last session of the legislature there was an effort made to pass legislation to regulate the use of underground water. The measure failed of passage because there was insufficient information to determine what legislation, if any, should be enacted. Therefore, the board of directors of the Texas Farm Bureau believe it advisable to sponsor a hearing to seek information as to the available supply of surface and underground water, with an eye to making the best possible use of the water supply to meet the approval of the present and potential water users."

Veterans Hospital Slated for Marlin

WASHINGTON—(AP)—Bids probably will be asked within the next two weeks to build a veterans hospital at Marlin, Texas. Rep. Perry at the afternoon session announced that President Truman had approved the Smith-Allen tract as a site, said construction division officials at the veterans agency had told him they would set a date for bids as soon as official papers signed by the President reached them.

They estimated that two weeks, or perhaps less, would be needed for routine handling of such papers, Perry added. He said they already have a detailed plan of the 200-bed project.

They estimated that two weeks, or perhaps less, would be needed for routine handling of such papers, Perry added. He said they already have a detailed plan of the 200-bed project.

Business Students Getting Practice
AUSTIN—(AP)—Twenty-five business administration students at the University of Texas are learning the problems of air transportation by doing laboratory work in an airlines company office.

One of the nation's first cooperative college-industry air transportation programs, the students will sell tickets, handle reservations, load baggage, study weather reports, and learn other jobs connected with operation of the airline's Austin traffic and operations departments.

The course was originated by Jerry W. Martin, Business Administration College professor.

FROM TABLE TO FLOOR
The word "carpet" until the 19th century, meant any cover made of a thick material, and especially a table cover, according to the Encyclopedia Britannica.

Hi Ho! Hi Ho! It's Off to Plant They Go!

With rakes over their shoulders, eight English school boys herald the first promise of spring by heading for their school garden. These children, all under 10, have already built an ornamental pond in their school garden in Willesborough, England. Now, under the guidance of their teacher, they're going to plant a regular garden.

Carson Winners Named at Groom Livestock Show

PANHANDLE—(Special)—Cash prizes totaling \$428 were awarded Carson County members of 4-H Clubs and Chapters of the Future Farmers of America at the annual Carson County Junior Livestock Show held in Groom Saturday.

Winners were as follows:
Lightweight calves—Curtis Whalley, Groom, first; Douglas Coffee, White Deer, second; and Donald Kotars, Groom, third.
Heavyweight calves—Ernie Bell Berry, White Deer, first; David Carroll, Panhandle, second; and Bobbie Woods, Groom, third.
Champion calf, Ernie Bell Perry, Fair of Calves, Ernie Bell Perry, first; Curtis Whalley, second; and Bobbie Woods, third.
Lightweight pigs—Wayne Howard, White Deer, first; Leroy Thornberg, White Deer, second; and Edward Koetting, Groom, third.
Heavyweight pigs—Wayne Howard, first, second and third.
Champion pig—Wayne Howard.
Mutton and Crossbreed—Leroy Thornberg, first, second and third.
Champion lamb—Leroy Thornberg, third.

Air National Guard To Hold Meeting

SAN ANTONIO—(AP)—More than 300 officers of the Air National Guard from 48 states, Hawaii, Puerto Rico and Washington, D. C., will gather at Brooks Air Force Base here Wednesday for the opening of a three-day first guard post-war air indoctrination school.

Brig. Gen. H. A. Johnson, commanding the 10th Air Force, Brooks Field, who will act as host, said the purpose of the session will be to discuss problems of organization, administration, training and mission of the Air National Guard.

Cornelius Vanderbilt Whitney, assistant secretary of air, will address the group of civilian components of the airforces.

Policyholder List Increase Reported

NEW YORK—New high marks in the number of policyholders, the amount of life insurance in force and payments to policyholders were attained by the Metropolitan Life Insurance Company in 1947, Frederick H. Ecker, chairman of the board, and Leroy A. Lincoln, president of the company, announced Thursday (February 12th), at the Metropolitan's annual statement was filed with the New York State Insurance Department.

The number of policyholders at the end of 1947 was 32,384,000, and the amount of life insurance that they held was \$37,256,604,715, together with accident and health insurance for a principal sum benefit of \$2,500,399,501 and a weekly indemnity of \$40,223,901.

Payments to policyholders last year amounted to \$671,927,603 and marked the 16th successive year in which these payments have exceeded a half-billion dollars. Payments were made at the average rate of \$6,373.82 a minute of each business day. Of the total payments, which included death claims, disability benefits, matured endowments, annuity payments, dividends, and cash surrender values, the largest amount \$272,742,443, went to ordinary policyholders; while industrial policyholders received \$246,061,989; group policyholders (exclusive of accident and health), \$102,505,828; and accident and health policyholders \$50,617,845.

New Kind Wheat May Boost Crop

A new wheat developed at the North Carolina Experiment Station looks like a production booster. Known only by number as yet (8450), it has topped all standard varieties in tests, according to Farm Journal.

8450 is a three-way cross of Frondoso (a Brazilian rust-resistant variety), Coker's Redhart, and Noll. It is stiff-strawed, and resists rust and nematodes. Some seed was available for fall planting, more will be ready this year.

Fair Enough... by Westbrook Pegler

No fair-minded bigot of the tolerance movement could ask me to submit to further imposition, indeed persecution, without the privilege of a little reaction.

England, Proving Ground of Ideas

England was the first great power to establish representative government. The tradition of individual liberty which has come to its fullest flowering in the United States had its roots in British soil.

Every present-day report from London tells of increasing restrictions, more and more regimentation of the people, more and more coercion by the Labor party to advance its program.

That is what always happens when people surrender freedom in exchange for dubious promises of economic security. Any form of totalitarianism economics whether it be socialist, communist or fascist—must inevitably pursue the same policies.

SO THEY SAY

A bright smile has compensated for many a vocal flaw in a concert. —Gladys Swarthout, singer.

The only leadership we want to give the world is moral leadership. We must have our own hands clean if we try it. —Secretary of Labor Schwelienbach.

You can be sure, until her differential of strength becomes such as to lead her to think she might win quickly, Russia won't start any war deliberately. —Gen. Dwight D. Eisenhower, U. S. Army, Ret.

One way to create another all-out world conflict would be to invite all nations to compete in the Olympics. —Gene Tunney, former heavyweight champion discussing what he terms pro-sportsmanship at the winter Olympics.

King Richard I was popularly known as Richard the Lion Hearted.

TAFT-HARTLEY NO. 2 by Peter Edson

This is the second of a series of dispatches on the first six months of the Taft-Hartley law.

Common Ground

By R. C. HOLES

Answering Defender of Tax-Supported Education (continued) Here is the final part of the letter of Norman W. Enfield of Colorado Springs, Colorado calling me a jackass for opposing tax-supported education.

12. "Can it be that you resent the opportunity afforded by tax supported schools for the 'common herd' to become educated, and logically, therefore, some might be called, too? Or did you arrive at your conclusion that tax supported schools and robbery were one and the same thing?"

13. "Let me say in conclusion, as in the beginning, that I am not literary in talent and inclination, but if I am unable to answer your charges sufficiently, I know a man who can call an editor!"

14. "Let me say in conclusion, as in the beginning, that I am not literary in talent and inclination, but if I am unable to answer your charges sufficiently, I know a man who can call an editor!"

15. "Let me say in conclusion, as in the beginning, that I am not literary in talent and inclination, but if I am unable to answer your charges sufficiently, I know a man who can call an editor!"

16. "Let me say in conclusion, as in the beginning, that I am not literary in talent and inclination, but if I am unable to answer your charges sufficiently, I know a man who can call an editor!"

17. "Let me say in conclusion, as in the beginning, that I am not literary in talent and inclination, but if I am unable to answer your charges sufficiently, I know a man who can call an editor!"

18. "Let me say in conclusion, as in the beginning, that I am not literary in talent and inclination, but if I am unable to answer your charges sufficiently, I know a man who can call an editor!"

Powerful Stuff!

NATIONAL WHIRLIGIG news behind the news

By RAY TUCKER WASHINGTON — President Truman's original plan to vest control of the Federal Reserve System in the power of conservative bankers has been balked by the refusal of Mariner S. Eccles to resign from the central board, despite his demotion from the chairmanship to the vice-chairmanship.

RESponsible — The Eccles group is now convinced that a P. G. Glenn and a powerful West Coast banker was largely responsible for his downfall. He has had a grudge against the chairman ever since the latter sponsored the measure for abolition of bank holding companies, which would close the integration of the financial and industrial empire ruled by A. P.

EXPERT — Had the White House been able to force Mr. Eccles out, and had Mr. Truman not permitted his personal feelings to influence him in the matter of the Stryker reappointment, the President would have filled these prospective vacancies with men of the McCabe type. There would then have been a third place to fill because of the death of Ronald Ransom of Georgia and that also would have fallen to a less politically explosive figure than Mr. Eccles.

SIDES — Although Mr. Giannini is normally regarded as a Republican, he plays both sides of the political street in the manner of all far-sighted financiers. He has plans for further expansion, but they must wait until he assures himself that he can kill the antitrust holding measure.

EVIDENCE — California and Washington, with their thirty-three electoral votes, are danger spots for the Democrats, in view of Henry Wallace's reported strength in those areas. In fact, the western commonwealth where the Giannini tentacles extend, are also a battleground. So, the Eccles camp was a peace offering to the latter's ancient enemy.

Lambkin Needs a Lullaby, Mother! AUSTIN (AP) — Tune up your vocal chords, mother, lambkin needs a lullaby. Robert August Tampe of San Marcos, in his dissertation for a University of Texas doctor of philosophy degree, claims that music can play an important part in developing a pre-school child's character and in forming his personality.

Shamrock

SHAMROCK — (Special) — Harrel's Garage and Body Shop moved this week to larger quarters. It is now at 1015 North Madden Street. Harrel's Garage now occupies the Adams building which was formerly occupied by the Clay Transfer Company.

Mrs. Roy Holmes left last weekend for San Francisco, from which point she will sail for Guam to join her husband, Lieut. (jg) Holmes, who is stationed there with the Medical Division. She was accompanied to the West Coast by her mother, Mrs. Dennis Glenn, and his mother-in-law Mrs. E. F. Holmes.

Forty members and guest of the Men's Sunday School Class of the First Methodist Church attended the Fellowship Supper held in the church basement, Monday night, J. B. Clark addressed the group on the subject of 'Christian Citizenship.' A string trio composed of Glenn Reeves, Willard Harrel, and Bill Jack Thompson furnished a musical program.

Mr. and Mrs. Tom V. Elzey of Perryton, will be in Shamrock Thursday, March 4, to address the students on the subject of mental hygiene.

A general assembly program at 10 a. m., Mr. Elzey will discuss the opportunity of 'Making One's Life Count Great in Service.' Mrs. Elzey will address the women on 'The Story of Life.'

Miss Mary Jean Durham presented about 20 of her piano students in a recital at the High School Studio Sunday afternoon. The recital was unusual in that it was informal and students gave constructive criticisms of other students' work.

Mr. and Mrs. C. D. Franz have moved to Gatesville, Texas, where they will make their future home. Mr. Franz recently purchased a residence and some acreage a mile from Gatesville. Franz sold his real estate business to Bob Douglas and will engage in the same business in his new place of residence.

Mr. and Mrs. R. D. Purnell are opening a nursery in Shamrock at 414 South Wall Street. They have already unloaded a truck load of evergreens, fruit trees and rose bushes.

THE PRICE DROP (The Wall Street Journal) It is too early to tell whether the recent (and temporary) market reaction or whether we are, as many economists believe, 'over the hump' of price inflation. Probably no sound assessment can be made for another week or so.

THE NATION'S PRESS (The Wall Street Journal) It is too early to tell whether the recent (and temporary) market reaction or whether we are, as many economists believe, 'over the hump' of price inflation. Probably no sound assessment can be made for another week or so.

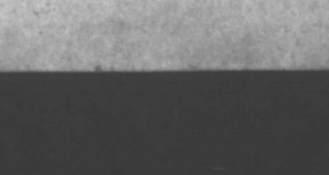

How times change department: Fifteen years ago, Ed Wynn was famous from coast to coast as the carefree, carelessly introduced himself with the line: 'Maybe you don't remember me, but I'm Keenan Wynn's fainer.'

Dallas Man Is Not Very Proud... He was able to hold himself in the rope saddle as he lowered him to the ground. Clardy was treated for deep burns on his hands, legs and chest.

Foreign crops have shown mixed in Europe, too, harvest prospects seem brighter than ever. In fact, the recent special Congressional election in New York City.

FUNNY BUSINESS

BY HERSHBERGER

In Hollywood

HOLLYWOOD — (NEA) — The late John Barrymore's 14-year-old son, Jack (by his marriage to Dolores Costello), probably will follow in his father's acting footsteps. But says MGM, not until he is 18 or so. He has the famous Barrymore profile and a dolores taller than John. Dolores' present husband, Dr. John Dravrinik, is the medico who officiated at Jack's birth.

Clark Gable is back in town after basking out that stub leg in Tucson, Ariz. He's still walking with a limp, and his next film, 'Angel's Flight,' won't go into production for another two months. Joan Crawford is being paged to replace Helen Hayes in the Broadway hit, 'Happy Birthday,' when Helen leaves the show in a few weeks.

Gruesome business department

Hollywood realtors are listing the house where Bugs Siegel was murdered at \$165,000. The multiple listing guide adds: 'Includes the couch on which Bugs was sitting when he was killed.'

UNSCREAMING ENGLISH

English movie fans are not screaming for Hollywood movies, as Hollywood would like Americans to believe. 'That's nonsense,' said Lilli Palmer. 'The only ones screaming about the Hollywood film shortage in England are the British film producers. They can't make enough pictures to fill the theaters and the theaters are closing.'

Biochemistry Plant at Texas U.

COLLEGE STATION — (AP)—Dr. Ralph T. Holman, internationally recognized authority in the field of biochemistry, has joined the staff of Texas A. & M. College. He will direct the building of a Tiselius apparatus, first of its kind in the country, for research in the chemical composition of vegetable and animal fats.

After spending a year of post-doctorate study in the Department of the Medical Nobel Institute in Stockholm, Sweden, Holman worked four months with Professor Arne Tiselius at the Physical Chemical Institute, Uppsala, Sweden.

Here he became familiar with the new apparatus developed by the Swedish scientist which enables the researcher to break fatty substances down into their component fatty acids of as nearly a pure state as is possible. By this method it is possible to make a reasonably accurate analysis of the composition of a given fat compound. Such information would be extremely valuable to manufacturers of soaps, shortening, and other fat compounds.

A graduate of the Agriculture Biochemistry Division of the University of Minnesota, Holman took his Masters Degree at Rutgers and returned to Minnesota for his doctorate. After spending two years as an instructor at the University of Minnesota Medical School, he took his study in Sweden as a fellow of the National Research Council.

How Many Wear FALSE TEETH

With Little Worry
Don't talk, laugh or sneeze without fear of insecure false teeth dropping, slipping, wobbling. FASTEETH holds plates firm and more comfortably. This pleasant power has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's ALKALINE (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Palette-able Dish

Marge Mahoney, of Chicago, poses on an oversized painter's palette for one of the arty acts of the Chicago Artists Guild's annual Green Moth Ball masquerade.

Student Leaders To Visit A & M

COLLEGE STATION — (AP)—Outstanding student leaders from Texas High Schools will visit Texas A. & M. College on Sports Day, March 13, under a plan set up by officers of hometown clubs.

Editors of yearbooks and newspapers, presidents of student governments, and others showing unusual qualities of initiative and leadership will be invited. Elms said, the idea is to acquaint outstanding high school students with A. & M. so they might come here to college and provide superior leadership in publication and student government posts.

The youngest age at which one may be married in the U. S. is 16 years for men and 12 for women.

Community Health Plan Instituted

AUSTIN — (AP)—A grass roots community and school health program built from the bottom up instead of from the top down is beginning to take shape in many Texas counties.

The plan was suggested at a midwinter meeting of county school superintendents here. Scores of county superintendents pledged themselves to go home and adopt plans similar to those now operating in 13 counties. The 13 counties are Jasper, Wise, Denton, Dallas, Hockley, Wichita, Mason, Galveston, Hays, Travis, Fort Bend, Harris, and Williamson.

The general idea of the program is to bring about better coordination of existing agencies in the fields of health and education to provide a working program in each local community and school. The plan sets up no new machinery—its object is to utilize that which already is set up, but get it in motion from the bottom instead of the top.

Dr. L. D. Haskew, dean of the College of Education at the University of Texas, reminded the county superintendents that the citizens of Texas "live on the local level."

"Programs of this sort must therefore start on the local level," Haskew said. "Nothing is going to be done toward achieving general good health until it is done locally. The approach must be from the bottom, not the top." He and State Department of Education and Health speakers noted that programs of this kind usually are sparked from some central state agency, often without getting anything done. They hoped the new approach would get more done.

The county superintendents were reminded that the legal responsibility for health services rests with county boards of health and education, and it should be retained by them. The plan they adopted calls for recommendations that a county health coordinator be employed. He would be a person of teaching experience plus health education training. The superintendents also agreed to go home and start setting up school health councils with advisory powers to work with the coordinators. All officials and unofficial agencies interested in and responsible for school and community health would be asked to take part in the activities of these councils. Some of their functions would be:

To hold regular meetings to plan programs and hear progress reports if any; stimulate local schools and communities to start health programs; explain the need for establishment of county health units; encourage nearby teacher training institutions to give help on in-service training in health education.

The plan also calls for establishment in every school of the state, regardless of size, a school health council. Its job would be to get faculty support and interest on such vital school health problems as light, heat, ventilation, proper seating arrangement, sanitation of school buildings and grounds. It would be concerned with nutrition and school lunch programs, setting up of cumulative individual health records, provision of school medical examinations with follow-up programs.

Most of all, the whole idea behind the plan is to get each individual in each community of the state interested in public health, starting with himself, his home situation, the school situation, and finally the county situation. The backers of the plan insist it is just a matter of education: when the people in both rural and urban communities understand its importance, they will go to work and raise health standards on a statewide basis.

Navy Asks More Oil Land Reserve

WASHINGTON — (AP)—The Navy asked Congress Thursday to approve a temporary addition of 5,800 more acres to the Elk Hills Naval Oil Reserve in California. Commander W. G. Greenman, director of naval petroleum reserves, presented the request to a House committee. He said the extension is needed to allow the Navy to explore lands adjacent to the present 45,000-acre reserve in the San Joaquin Valley. The Navy believes wells drilled outside the reserve might drain oil pools under Elk Hills land.
