Semi Documentary Hits Hollywood

ali

ith

Jr.

M.S

dg.

By BOB THOMAS HOLLYWOOD —(P)— If I had to name the trend in Hollywood films for the new year, I would spin the compass, turn the wheel and point to the semi-documen-

In fact, I might even hazard a guess that this picture technique will have the same effect the movies that Ernest Hemingway did on American writing. I don't mean that all pic-tures will be semi-documentary. no more than all novels are Hemingway-like. But both influences contribute a new freshness and vitality.

All over town you can see the upswing in the semi-documentary (wish the darned thing had an easier handle!) Recently, three of them were previewed in the same week and each had a realism that makes studio-made films seem pale in comparison

that it will make a series of

The Red House

THE STORY: Junice Hilary, preity, efficient young nurse to popular and handsome society doctor Erle Holbrook, runs his office, for him. When little Betty Jane Coxe, the other nurse, suggests to apinsterish Hiss Willows, one of the doctor's two secreturies, that Miss Hilary might get married and leave, Miss Willows replies: "Miss Hilary will never leave. Not unless something unforeseen occurs! It's a pity, a terrible pity." Miss Willows knows how easy it is to idolise the fascinating doctor and put the "office" before everything clse. She knows, too, that the doctor will never divorce his beautiful, gadahout wife. Ben Archer, childhood friend of Janice, comes home after three years overseas. He is still in leve with Janice, although she has never given him any encouragement.

This week, MGM announced WHY, Miss Hilary, are you tat it will make a series of still here?" Dr. Holbrook stopped in surprise as Janice came

> from the utility room, wiping her hands on a paper towel. "I wanted to check over some supplies." Janice answered not get around to in the office. "Never seems time during the

"We have been setting a pace, haven't we?" His dark eyes smiled into hers. He had not continued in the direction of the outside door, although he had been heading for it with long strides as though eager to get away. That against the wall in the narrow parture almost as much to heart corridor, watching Janice as she wastebasket removed some papers from the desk, readjusted the Venetian blinds.

"Sometimes." the doctor said in a thoughtful tone, "I think I set too fast a pace. It's a wonder you put up with me. What you ought to do is make me slow down." "I've tried that a time or two." Janice returned lightly. "I haven't along that line." She locked the closet in which drugs were stored

gives you more miles per gallon!

The best way we know to offset higher gasoline prices is to drive a Kaiser or a Frazer. Their 100% postwar engineering provides economy beyond your fondest expectations! This boon to the thrift-minded is especially astonishing to people who previously owned prewar cars. They report that Kaisers and Frazers are giving them many more miles per gallon than they ever got before! And today that means a saving of not just cents, but dollars!

The reasons for such exceptional mileage are clear-cut. K-F chassis design is new. It takes every advantage of the accelerated technical advances made during the war years. For example, the horsepower-to-weight ratio is notably higher than in prewar design. The same is true of the compression ratio - the highest in any car on the road! And this means the most efficient use of costly fuel!

Vital and important as it is, greater economy is only one of the many advantages of fully postwar design you will find in the Kaiser and the Frazer. Come in and let us give you a demonstration. Discover all the exclusive new features you should not be without in your next car! You'll be glad!

READ WHAT TYPICAL K-F OWNERS SAY ABOUT ECONOMY

"Our new Kaiser has the more-expensivecar performance and styling and the less-expensive-car economy."-From a Hamilton, "I just finished a 4,000-mile trip in my

Frazer averaging above 20 miles per gallon at between 60 and 70 miles per hour."—From

"My Kaiser has performed beautifully in the mountains. On exact test it delivers over 18 miles per gallon on mountain driv-ing."—From a Greensburg, Pa., Manufacturer.

"I now have 13,024 miles on my Frazer. I have the nicest riding car I ever owned and as for economy — well, I get as high as 25 miles to the gallon with the over-drive!"— From an Ida Grove, Ia., Roal Sotate Man.

"Just returned from a 3,000-mile trip in my Kaiser and believe that for ease of operation, brilliant performance and riding com-fort, it has no equal. I get 19 miles per gallon."—From a Hommend, Ind., Businessman. "On a 4-day, 1212-mile trip around Lake Michigan, we averaged 18½ miles to the gallon . . . our new Kaiser is economical to operate and performs beautifully."—From a Chicago Office Worker.

"My Frazer is the finest car I could have bought at any price. The easy, comfortable ride — at any speed — is in my opinion the outstanding feature. Economy and performance are unbelievable. I get 19 miles per gallon with speeds up to 70 m.p.h." — From a Brookville, Pa., Insurance Executive. m a Brookville, Pa., Insurance Executive.

"Everybody knows the Kaiser is economical. No matter what speed you travel it still does 24 miles per gallon on the highways."-From e Winnipeg, Man., Funeral Director.

'On a recent 2,780-mile trip through Canada I averaged 26.6 miles to the gallon. I have owned and operated many different makes of cars but never until I bought my Frazer have I owned a car that was so economical. -Front a Cranston, R. I., Physician.

President Hartley, of New Jersey, the co-Harding's rascal, whom I came author of the Tait-Hartley to know well, was too honest emancipation law, remarked, with ever to have called the sports elfin delicacy, the other day, that are being asked for the first time to Washington and exhort them been exceedingly lax in its preparwriters of the eastern metropolis he thought the department had

to contribute to the light of medical science against heart disease. The campaign is being conducted by the American Heart Association, a group made up largely of specialists in diseases of the heart and bood vessels.

The association's program is as broad as its appeal. It aims at expanding research, professional education, public education and community service. One particularly important aim, it seems to us, is to establish a greater number of local heart associations. The eventual goal is a local association in every sizable city and rural area.

These local groups would have access to new knowledge and new activities developed by the American Heart Association. Ideally—and it may be hoped, eventually—the millions of "heart cases" to near to cases in the professional to near the process of the case against Jimmy Petrillo in Chicago.

The campaign is being conducted by the American be heart association. (continued)

Under the heading of "Fantasies and Famines" Mr. Weaver, the author, has the following to say:

"Among the learned philosophers age old problem has been to determine just who (or what) is in control or should be in control of living persons.

"From Plato to Spengler, the big question has been to identify the Authority-and turn over to it all the problems of the human race.

"Down through centuries of time. every conceivable form of Authority has been tried but each has failed for the simple reasons that:

"Only an individual human being can generate human energy. "Only an individual human be ing can control the energy that

generates,
"The lack of understanding of these simple, basic truths has for over 6,000 years, stagnated human progress and kept the vast majority of people underfed underclothed embroiled in wars, and dying from famine and pestilence. "Foundation of Faith

"In the following chapters we

Beware Coughs from common colds

That Hang On
Creomulsion relieves promptly because it goes right to the seat of the
trouble to help loosen and expel
germ laden phlegm, and aid nature
to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the un-derstanding you must like the way it quickly allays the cough or you are

CREOMULSION

Betudy the above drawing for a few minsutes. Notice particularly how the bile
flows from the liver into and out of the
gail-bladder and thence into the small
intestine where it mixes with the partity
digested flod just below the atomach.
Bile is a necessary adjunct to proper digestion. It absence from the intestines
inevitably causes putrefaction and fermentation.

ural action; you have constipation,
gas, putrefaction and self-poisoning
("intestinal toxacemia" or racture gastritis" as many doctors call it).

HOW TO GET RELIEF
You can relieve this condition,
usually overnight, by taking Calotabs
at bedtime and drinking water freely
next day.

MATURE'S DANGER SIGNALS

When your stomach, liver, and gall bladder have been upset by improper eating for drinking, or when they are not working well because retained and putrefying food matter in your intestines is poisoning your entire body, you, sogner or later, begin to feel some of the following symptoms:

Your breath may become unpleasant (halitosis). Your tongue coated, a rections. At your druggists,

bad taste in your mouth, your coffee (and tobacco) lose their natural flavor, your food does not agree with you; you may have heartburn, gas and dizzy spelis, you may be troubled with belching; at night the gas in your bowels may press upon your bladder making you get up frequently, thus breaking into your sleep.

In the morning you are timed instead of refreshed. Gradually your health is impaired.

NEW YORK STOCKS

health is impaired.

Your complexion may become sallow or bilious; dark rings may appear under your eyes, you may feel lazy, dull and irritable or blue and melancholic. You may have frequent colds (catarrh) or dull head-ache; your bowels stop their free, full and natural action; you have constipation, gas, putrefaction and self-poisoning ("intestinal toxaemia" or "acute gastritis" as many doctors call it).

next day.
