The Law Stick **On Juveniles**

(From Amarillo News) LOS ANGELES -(Special)- Los Angeles County has a 10 o'clock turfew law, and juveniles are not allowed on the streets after that time. Sheriff Eugene Biscailuz says this law is working effec-

The procedure is quite simple. Cars of uniformed and plain clothes sheriff's officers patrol an area of 400 square miles. In this area are some of the most congested districts in the county; some of these districts have as many as 200 thousand residents. Parents are given to understand that they are responsible for their youngsters on the loose after 10

o'clock at night. Violations result in the parents themselves being cited and fined or given warning and suspended sentences. Parents can be thrown in jail, if such ac tion is deemed necessary.

The greatest hauls of young sters have been near drive-in beaneries, pool halls and late-run theaters. Paper Moves To New Home

MIDLAND — P)— The Midland Reporter-Telegram has moved into its new home, a modern plant built on the site of Midland's

first newspaper.

New equipment includes a 16page Duplex tubular press, capable
of printing 20,000 papers an hour.
The move was made without
missing an edition. The new plant is located at 221 North Main Street, the site where the Staked Plains began publication before the turn of the century.

the turn of the century.

James N. Allison is publisher of
the Reporter-Telegram. He purchased the paper in 1940 after
14 years with the Associated Press
in the Mid-west.

The new plant, started last sum-

mer, is of brick, steel and con-crete construction and fireproof fireproof throughout. It is one of the most modern newspaper buildings in the Southwest. The 50 by 140 foot structure was designed and built for newspaper efficiency. New furniture and equipment has been installed throughout the front offices.

The new press, which replaces an eight-page flatbed, is the latest type printing equipment available. It was received from the Duplex factory in Battle Creek, Mich., early in January, and other new equipment includes stereotyping equipment, a tubular plate router a May roller, a vacuum casting box, an additional linotype ma-chine, and other composing room

machinery.

Allison said a formal open house will be held at the new plant sometime in February.

"Everything possible has been done to make the plant the most complete and most modern in West Texas," the publisher said.

By GRACTE ALLEN
The scariest thing I've heard lately is a medical report from England about a man who had a cabbage sprouting from his head. A cabbage seed had lodged behind his eye and taken root there.

Seed, my own eye! That poor man had been thinking about food problems so long that mental suggestion set in and planted a specialize in beets or radishes to match my new lipstick. The seed idea is kind of fascinating, though Imagine, girls, planting a new hat seed on your head, irrigating it a bit, then going to bed and waking up with a brand new spring bonnet sprouting there. I can just hear our husbands complaining about the monthly seed bill!

"Jeeping" to Vacation-Land

Bound for sunny climes, these winter-time vacationers have solved the problem of towing their two-ton home-on-wheels. They're using the powerful four-wheel drive Jeep as the prime mover for their shiny trailer. When they settle down far from ice and snow their versatile tow car will serve as a sporty runabout.

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your druggist and sak for four ounces of liquid Barcentrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoonsful twice a day. That's all there is to it.

Do you feel bloated and miserable after every meal? If so, here is how you may rid yourself of this nervous distress. Thousands have found it the way to be well, cheerful and happy again.

Everytime food enters the atomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomach, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula to the world temperature on record is 58 degrees Centigrade (approximately 136 degrees Fahrenheit) registered at Azzizzia in Libya in September, 1922.

HAS ANYONE SEEN WADE DUNCAN?

The last verified report turned into the Classified Department was that Wade Duncan had headed north for the Missouri line. Wade is mad and he says the only thing for him to do is get out of town for a few days. It seems he can't get anyone to back him in his campaign for Sheriff so he's just going off and sulk for awhile. He told us that since he had received such a cold shoulder from the public he might just start of on his own campaigning as soon as he crosses the county line. You know that if Wade hadn't been so mercenary over trying to fit his office in with the Sheriff's office it might not have been so bad for him, but can you imagine a Sheriff busy in his many duties, perhaps even on the trail of an outlaw, having to be called back from duty to show a house, farm, etc. Lets all be good to poor old Wade when he gets back, give him a big welcome - - - and hope to goodness he gets all these foolish notions out of his head and just keeps on selling farms, ranches, houses, and cattle - - - Good News - - we know for sure that one of Wade's big deals is just about to be completed - - - just a small matter of 1.00 holding it up - - - that's the difference between Wade and the trans'er company that he has been bickering with for the last wo weeks - - - Hope that one of them will give in so that Wace can soon be in his new office and settle down to business.

Altho Wade is out of town his office is definitely open and in the same location, Duncan Building. Our good friend Jim Arndt is in charge of the business while Wade

"MM ARNDT, Realtor"

sounds good doesn't it? That word 'Realtor" has a distinctive sound like "Attorney-at-Law" "Steward" "Deacon" or "Connoisseur" at any rate it's our prediction Jim will make a good REALTOR. He'll stick to the business of selling properties and not get off on trading Pekineese puppies for refrigerators nor do we think he'll try his hand at politics—So you can call on Jim for your real estate needs - - - in a home, farm, ranch or business property.

Back in the summer Jim went to California as a representative for the Jaycees. We understand he tried Hollywood, also was hopeful of being selected "King for a Day" on Jack Bailey's Program. Having missed out on both, he came back to the old home town where he is really appreciated as an out-standing young business man. So for your information he's on the job in Wade's office.

FLASH! Here's a dog far from home. If you hear of 'Stormy" call 312.
