Dixie Revolt Against HST Policy Gains

WASHINGTON —(AP)— Democratic leaders refused to show nervousness today about a rising Dixie revolt against the policies of President Truman.

They insisted that harsh words from Alabama, Mississippi and South Carolina are no sign there is going to be a sort of "second secession."

The solid South may continue to complain about anti-poll tax, anti-lynch and no-color-line talk from the White House, they conceded privately. But they said it still will go solidly Democratic.

At Columbia, S. C., 49 members of the South Carolina Legislature told the State Democratic Executive Committee yesterday affairs have reached the point where "we should reconsider our position in the national party."

They said the national organization has made a habit of granting concessions "to the sections of the country not in the bag," to those minority groups which often are the outspoken advocates of the very things flagrantly repugnant to our views.

In Washington, Mr. Truman himself headed the list of Democrats who seemed to think there is more smoke than fire in southern threats to veer away from his leadership.

Schuman Plan For France's Finance Wins

PARIS —(AP)— Both houses of France's Legislature approved today the government's bill with drawing all 5,000-franc notes from circulation.

The Finance Ministry announced that everyone holding the 5,000-franc notes will be repaid. The announcement said the operation was not an expropriation. An official source had indicated yesterday that some of the bills might be confiscated as a blow at the black market if holders could not explain their possession.

Premier Robert Schuman's dramatic money program cleared another hurdle when the council of the republic ratified by a vote of 167 to 126 the bill abolishing the 5,000-franc note as legal tender.

Another administration bill, to free the gold market, hopped a preliminary hurdle. The Assembly rejected the unfavorable recommendation of its own Finance Commission. The tally was 328 to 240.

Temperatures Rise In Cold-Beaten State

By The Associated Press
Sunshine and rising temperatures spread across weather-beaten Texas today.

The curtailment which the Lone Star Gas Company had ordered on industrial users and schools in the 333 Texas and Southern Oklahoma towns it served was lifted at 6:30 a. m.

The cold weather which hit the state a week ago, however, was hanging on stubbornly. Early today temperatures were still below the freezing mark throughout the state except for a 33-degree reading at Brownsville, El Paso and Salt Flat were the coldest with nine above zero.

The Lone Star Gas Company had ordered its curtailment Wednesday to insure plenty of gas for home consumption. Most of the schools in the area were closed. Company officials said no shortage of gas developed during the period although they had supplied a record 633,600,000 cubic feet of gas during the 24-hour period ending at 7 a. m. Wednesday.

At Austin, Gov. Beauford Jester announced yesterday the release of 3,000,000 gallons of butane gas from refineries and industrial users for domestic consumption.

All state roads were reported open but some were still dangerous because of ice.

Many schools which had been closed to help conserve heating fuel for homes were reopening Friday. Others were still closed.

The cold spell, longest in the history of Weather Bureau in many towns, had caused 16 deaths in the state as icy streets and highways sent cars skidding and crashing.

The forecast for the entire state was for partly cloudy and not quite so cold.

The temperature dipped to one below freezing at Laredo early today, but elsewhere in the Rio Grande Valley it hovered around or just above the freezing mark. The citrus crop was believed to have escaped severe damage.

However, tender vegetable crops in the Valley were reported damaged extensively.

The ice which coated portions of East Texas caused extensive damage to timber also. At Palestine, County Agent W. T. LaRue said he believed the damage would cost Anderson County owners \$2,000,000 during the next 20 years. He said that small trees bent over for a few days with ice will never grow into straight timber.

Temperatures at 6:30 a. m. today included: Amarillo 10; Lubbock and Guadalupe Pass 13; Childress and Fort Worth 15; Junction 16; Dallas 27; Laco, Austin and San Antonio 27; Tyler 28; Lubbock 28; Houston and Beaumont 29; Corpus Christi 30; Laredo 31; and Brownsville 32.

World Concerned Over Possibility of Violence

By The Associated Press
An assassin today killed Mohandas K. Gandhi. The Hindu leader, who fought British rule of India with fasts and civil disobedience and finally saw the subcontinent split into independent dominions, was shot down at prayer meeting in New Delhi. The assassin, described as a Hindu from Poona, was jailed.

Thousands of Indians wept. There was worldwide concern at the possibility of renewed violence between Moslems on the one side and Hindus and Sikhs on the other. Only two weeks ago the 78-year-old Gandhi had fasted for five days in an effort to ease the communal situation. He ended the fast on the promise of leaders to work for peace.

Police officials in New Delhi said Gandhi was slain "for political reason—because some person did not agree with his appeals against violence."

India's chief delegate to the United Nations called the assassination "the biggest disaster which has overtaken our di and Pakistan, her Moslem country." Issues between India and Pakistan are before the U. N. Security Council.

Prime Minister Attlee of Britain arranged a broadcast tonight, probably to appeal to India and Pakistan to put aside thoughts of violence. The countries remain as dominions of the British government, but to all intents are independent.

The news shocked London. A government official said almost anything might happen in India because of the shooting. The official, who spent many years in British service in India, said authorities there will have to move fast to keep the situation in hand.

"Thank God the assassin was not a Moslem, or at least certainly would break loose," he said. Habib Ibrahim Rahimullah, Moslem high commissioner in London for the Pakistan Government, called personally on Krishna Menon, Indian high commissioner, "to give him my personal condolences."

An India house official in London tackled a pile of white paper on the wall outside. It read: "Gandhi is dead."

Bareheaded Indian women in traditional saris, and turbaned bearded Sikhs wept as they read the note.

President Truman, grieved over the assassination, today was said to regard the Indian leader's death as "a tragic loss to the whole world."

Presidential Secretary Charles G. Ross thus described Mr. Truman's feelings upon hearing news of Gandhi's death.

Senator Barkley (Ky), Democratic leader, said: "I regard the assassination of Gandhi as a great international tragedy. Notwithstanding the great sorrow this will cause the world I sincerely hope it will not retard the peace of India and the world."

The frail and wizened little political and spiritual leader was the target of three bullets fired at close range at his prayer meeting on the lawn of the superb Birla residence, the estate of an Indian industrialist who long had supported Gandhi.

Police arrested the assassin immediately. They said only that he (See GANDHI, Page 8)

Grain Control Demand Puts GOP on Spot

WASHINGTON —(AP)— President Truman's demand for control of grain used by distillers put Congressional Republicans on a political hot spot today.

Some GOP members admitted privately that Mr. Truman has used their own anti-inflation law to maneuver them into a squeeze between the drys and the wets.

Their plight is this: Kentucky, thick with distilleries, is a doubtful state in this year's presidential election. The West—dry as a bone—has a lot of drys who don't think grain ought to go into whisky at any time.

The anti-inflation law passed at the 1947 special session gave the President power to parcel out grain for distilling until Jan. 31—tomorrow.

The Senate voted to extend this power to Feb. 29. But the House Banking Committee killed the bill Monday.

Under the anti-inflation law the distillers still get together with the Agriculture Department and agree to sell down on the market. Hence he asked how to split up what they do.

But President Truman told Congress yesterday this provision of the GOP law has flopped. The distillers haven't been able to direct the grain. Hence he asked Congress to extend his grain rationing authority until Oct. 31.

Otherwise the distillers will be free, after tomorrow, to go into the market and buy what grains they can find.

The distillers said the distillers shouldn't be allowed to do that. Controls are needed, he said, so that at least 500,000,000 bushels of wheat from the new crop may be exported to help feed Europe.

The distillers said that some exported grain is being made into whisky. They asked: Why not make it at home?

The Agriculture Department had an answer for that: Countries receiving American grain are not using it for whisky or beer. They may use some of their own for that purpose, an official said, but "this government does not feel it can interfere with the medical policies of those countries to the extent of telling them how they should use their own products."

These nations, he said, export much of the liquor they make to get U. S. dollars "to buy essential items for their people."

Tomorrow Is Last Day to Pay Poll Tax

By HENRY S. GORDON
Pampa News Staff
Doing anything special tomorrow?

If not, it's your last chance to pay that poll tax and be able to vote your choice of President of the United States, Governor of Texas, congressman, representative in the State Legislature, county commissioner, judge, sheriff and a raft of other offices that come up for election this year, plus any special elections that may be called.

Poll taxes paid yesterday ran a little over 400 and approximately 200 additional exemption certificates have been issued in the county tax office here. The McLean branch of the tax office reported 484 poll tax receipts made out by 11:45 this morning.

Deputy Assessor and Collector Jack Backus, who has been in the office since the beginning of the year, said that the poll tax payments still remained around the 5,000 mark or a little over. This estimated figure added to the McLean figure and the exemption certificates issued, approximately 700 now, run the county's total to about 1,184.

Even with this figure, the two tax offices, in the Court House and the city tax office in McLean, will remain open until midnight Saturday, or after if necessary, to take care of the last minute payers.

Interested citizens and responsible officials all urged each eligible voter to pay his, or her, poll tax, or secure an exemption, and then vote when the election days come along. The voters of every county in the state, or other states, are facing a crucial point in the life of the nation with aid to Europe.

Biemiller to Head Venture

MIAMI, Fla. —(AP)— A former New Deal congressman from Milwaukee apparently had the inside track today for appointment as director of the AFL's biggest political venture — the \$1,500,000 "League for Political Education."

Andrew J. Biemiller, 41-year-old labor organizer-legislator, was reported to have won the approval of a subcommittee and his name will go before the 15-man Executive Council meeting here today.

Quick concurrence in the subcommittee's choice for the \$10,000 post was expected by several council members, who added that the league's full administrative committee of 25 would pass on the selection at its meeting here Feb. 4.

The Administrative Committee has been assigned the task of setting up the ambitious political program aimed at repeal of the Taft-Hartley act and defeat of its Congressional supporters.

The drive is to be financed with voluntary contributions which President William Green has figured at a minimum of \$1 figure from the approximately 7,300,000 AFL members.

March of Dimes Is Still Short of County's Goal

The Gray County 1948 Infantile Paralysis fund gained slightly yesterday and this morning, but still falls far short of the \$10,000 goal. Committee Chairman Jack Nimmo reported.

The gain was made by contributions of 68 additional persons sending their donations through the mail. The fund ends tomorrow morning.

Nimmo added, "The amount is expected to be bolstered by tonight when ten percent of the gross receipts from last night's wrestling matches are turned over by Vic Burnett of the Sportatorium."

In addition to that the committee has the coin collecting cards of the local school children and the net proceeds of the Dokey Dance at 9 o'clock tonight at the Terrace Grill and additional mail donations.

Following is the list of donors whose gifts arrived through the mails at campaign headquarters late yesterday and this morning:

Man Is Found Dead in Hotel

Claude Crowder, about 63, former man of the Santa Fe freight warehouse here, was found dead in a second floor bathroom of the Santa Fe Hotel at 7 a. m. today.

Police Captain E. J. Albers reported. Albers said the body was discovered by an employe of the hotel when she made the rounds of the bathrooms to light the gas heaters. He was found in a sitting position on a small dresser table apparently asleep. When Mr. Crowder didn't respond to the employe's calling, the management notified police and called the Clegg emergency ambulance.

Captain Albers, who investigated, said justice of the Peace D. R. Henry and Dr. Malcolm Brown were also summoned.

An examination of the body revealed no bruises, cuts, or other evidence of foul play and death was attributed to natural causes. Albers added that Mr. Crowder had been ill for some time and had a bad cough. It was believed by authorities he had gone to the bathroom to get a drink of water, fell a sudden attack and sat down on the dresser where he died.

His age was deduced by police from poll tax exemptions found on his person. The exemptions also showed he had been a resident of Gray County for approximately 34 years. He was associated with the Santa Fe Railroad Company for about 40 years.

A brother, Les Crowder, a retired railroadman, in Colorado City, Texas, was notified by wire this morning. Attendants at the Clegg Funeral Home were also attempting to get in touch with the brother for instructions on funeral arrangements.

Magnetic Control For Trains Found

LONDON —(AP)— While Britain was covered by the year's worst fog, early morning commuters aboard a train from Shoeburyness, at the mouth of the Thames, reached London on time, without a hitch.

Their train was guided by a new magnetic control device. Imperious to frost, the mechanism stops trains before they arrive at a danger signal by sounding a horn in the engine cab and slowly applying the brakes.

The new safety equipment has been fitted to 183 locomotives on the real lines from London to the east coast.

Lions Have Dinner Meeting Tonight

The Rev. Leon Hill of Amarillo, Baptist minister and noted humorist and after dinner speaker, will be guest speaker at the Lions birthday dinner and ladies' night, to be held tonight at 7:30 in the basement of the First Methodist Church.

The program, to honor Melvin Jones, founder of Lionism, will also be a part of the Lions membership activities.

H. M. Luna, chairman of the special arrangements committee, said games and stunts would play a heavy part in the program, with the lion ball twister being given a free hand.

J. C. Daniels' band will furnish dinner music.

The regular Thursday noon luncheon was postponed because of this special Friday night program.

Paul Hill Reported As Greatly Improved

County and City Juvenile Officer Paul Hill was reported as greatly improved but not out of the danger zone yet, by Mrs. Hill this morning.

Mrs. Hill added that the birth of Mr. Hill's grandson, Paul De Morris, son of Mr. and Mrs. Bill Morris, this city, made him very happy and "the nearly two year old infant" when he learned the eight pound infant was named for him.

The child was born yesterday at the same hospital, Worley, where his grandfather is recuperating.

However, the juvenile officer still remains under oxygen. Mrs. Hill said she added that the oxygen may be cut for short spells some time today to see how he will do without it.

Mr. Hill suffered the attack at midnight Tuesday and remained in a coma until Wednesday afternoon.

Missing Air Force Plane Is Sighted

FRANKFURT, GERMANY —(AP)— U. S. Air Force Headquarters reported today the sighting of plane wreckage in the lower French Alps, and said another plane, presumably the DC-3, had crashed 20 miles east of the wreckage.

The first plane was believed to be a DC-3 transport which disappeared Tuesday while en route from France to Italy. It carried three American women and five children, dependents of U. S. soldiers in the Trieste area.

The wreckage of this twin-engine craft was sighted 12 miles northwest of Digne, France, the Air Force Headquarters at Wiesbaden reported.

One of the pilots in the search party said he had seen the second plane crash and explode. It appeared to him to be a Flying Fortress (B-17).

The Air Force announced the names of three of the crew members of the missing DC-3: Pilot-Lt. Earl E. Baskin of Florence, S. C.; Co-Pilot-Second Lt. Terrell M. Tressler of Dunn, N. C.; Crew Chief-Sgt. Donald L. Cimmers of Dumont, Iowa.

Their wives live near the Rhein-Main Airbase where the DC-3 was stationed. The name of a fourth crewman will be announced later.

Searchers said there appeared to be no life about the wreckage of the DC-3.

Ground crews started immediately for the wreck scene.

Dog's Alertness Saves Family Here

A dog's alertness this week saved a house and its entire occupants when its barking sounded the alarm of gas and fire in the wee-small hours of the morning.

The dog, "Toy," a toy bulldog, owned by Patrolman and Mrs. E. J. Brooks, awoke around three o'clock Wednesday morning with the fumes of escaping gas in his nose. The little pup jumped up, ran into the bedroom whining and barking. The noise awakened Mrs. Brooks and her three children.

Following the dog, they discovered the gas hose of the bathroom broken and a ten inch gas flame shooting toward the wall. Mrs. Brooks immediately turned off the gas snuffing out the flame and called the police station. The station radioed the car her husband was in on his early morning patrol. Back home Brooks found a lot of excitement and his family safe—thanks to Toy.

"We wouldn't take \$5,000 for that dog," Brooks said in relating the story to The News.

Shamrock Jaycees In Poll Tax Drive

SHAMROCK —(Special)— Shamrock Jaycees have taken orders for approximately 250 poll taxes in their "Pay Your Poll Tax" campaign. The deadline for paying is Saturday.

T. L. Daugherty, county tax assessor-collector, stated that 2,298 poll taxes had been paid up to yesterday noon in Wheeler County.

Mrs. Sarah Berry Dies at Home Here

Sarah Yliza Berry, 65, a pioneer resident of Stamford, Texas, and a resident of Pampa for the past few years died in a local hospital this morning of an extended illness.

Mrs. Berry had been living with her son A. E. Berry at 712 W. Buckler. She was a member of the First Baptist Church of Pampa.

Survivors include five daughters, Mrs. Arthur Weber, Bellevue, Ky.; Mrs. H. B. Adams, Morgan Hill, Calif.; Mrs. O. E. Rogers, Bell Gardens, Calif.; Mrs. J. C. Chapman, Stamford; and Mrs. J. C. Chapman, Leavenworth, Kan.

Four sons, Joe Vernon, Scott Gate, Calif.; H. A. Conroe, Texas; Minor Ablesse, Texas; and A. E. Raines, of Stamford and W. B. of Pampa.

Funeral arrangements are pending. However, burial will be beside the grave of Mrs. Berry's husband who died in Dec. 1933.

Duenkel - Carmichael Funeral Home is in charge of the funeral arrangements.

One Man Burned In Explosion

'Just How Far Has Joe Louis Slipped' Puzzles Boxing Fans

CHICAGO (AP)—"Just how far has Joe Louis slipped?" the big question that has been puzzling the boxing world for the past two months—remains as puzzling as ever today with this exception: The brown bomber, at the age of 33, is no longer the devastating bomber of old when he knocked out 22 in 25 title defenses over a 10-year span. Age is catching up to him very rapidly.

The world's heavyweight champion last night engaged in his first test with the gloves since his disputed split decision over Jersey Joe Walcott in New York last Dec. 5 by giving Bob Foxworth a one-sided boxing lesson in a four-round exhibition.

Foxworth, 24-year-old, 5-foot-11, St. Louis, Ill., aspirant to the light heavyweight championship, had won 16 out of 18 bouts, 14 by knockouts. However, he offered no line on Louis since he had never met him before. He was out-weighted by 43 pounds, lacked height and weight to match Louis' was outclassed and obviously scared stiff.

Louis won every round easily although the Illinois State Athletic Commission would not permit a decision. The tired Foxworth was always in retreat, aiming to keep out of danger.

Louis said he weighed 220 pounds. He certainly looked it. There were tiny rolls of fat rippling over his mid-section, but he plodded in from the opening gong and delivered his punches like lightning flashes. He didn't move fast, but his hands did. They wore the big 16-ounce gloves.

Foxworth, who weighed only 177, said Louis possessed the fastest pair of hands he had ever seen.

Tonight at 8 o'clock in the Junior High School Gym two basketball teams undefeated in conference play, one with a season record of 20 wins and four losses will tangle for the undisputed leadership of the District 1-AA Conference race when Pampa's undefeated Harvester cage squad, coached by Clifton McNeely, battles the Amarillo Golden Sandstorm, led by T. G. Hull.

The Harvesters who now hold one of the longest consecutive win records in school boy cage history will not only be facing what might be their roughest competition of the year but will be playing their most important game thus far this season as the leadership of the district race goes to the winner of tonight's battle.

Both teams have recorded four conference wins. All of these wins are over the other four teams in the conference, Plainville, Lubbock, Borger, and Brownfield. Neither team will hold a height advantage over the other, as both the Sandies and the Harvester starting line-ups average one inch less than six feet.

In twenty games the Harvesters have averaged 47 points while the Sandies in the same number of game have averaged 45 points. The Harvesters have held their opponents to an average of 32 points, the Sandies 41.

A play-by-play account of tonight's game will be heard over radio station KPND beginning at 8:15.

Pampa starting line-up: Miller and Davis, forwards; King, center; Hernandez and Lafoon, guards.

Amarillo starting line-up: Sharp and Wilson, forwards; Sharp, center; Watson and Ellis, guards.

Because I predict Pampa is no reason why the Sandies, if they win, will stage a major upset. The biggest advantage one can see for the local Green and Gold is the fact that they will be playing on their home court.

And don't forget the Harvesters will have to play the Sandies next month in Amarillo.

Winter Olympics Open Admist Hockey Feud

ST. MORITZ, Switzerland (AP)—The fifth winter olympic opened in this majestic Alpine valley today under the shadow of a bitter United States hockey controversy that left the status of the sport in doubt.

The dispute over whether Olympic hockey will be played remained unresolved as crack athletes from 28 nations marched in the colorful opening parade.

Barely an hour after the ceremonies, the N. B. amateur Hockey Association team led to Switzerland 5-4, in what had been billed as the first event of the olympics but angry feuding persisted over whether it really was an olympic game.

The International Olympic Committee earlier had voted 18 to 10 to bar both the AHA and the U. S. Olympic Committee hockey squads from the competition. But the Swiss organizing committee insisted the AHA team should play.

The AHA team did not march with American athletes in the parade.

The rival U. S. Olympic Committee team—ruled out of the games now by agreement of all sides—joined the olympic contestants in marching from the nearby hotel to the stadium, but they didn't carry sticks.

The Swiss hockey team played out of the column—presumably out of sympathy for the AHA squad. The AHA players arrived at the stadium in uniform and with full equipment.

Bull Weevil Is Honored by Town

ENTERPRISE, Ala.—This year, in 1918, this little town was on the comeback trail after being nearly ruined by failure of the cotton crop because of the Bull Weevil. The following year, in 1919, the town was so much more prosperous than it had ever been before that it erected a monument to the Bull Weevil which abandoned one-crop farming.

The town still observes an annual day of rejoicing because of the advent of the weevil. Peanuts have been chosen as the cash crop and crop rotation and conservation and balanced agriculture give promise of continued prosperity.

Fortunately, the neighbor knew English—at least enough to explain to Kornfeld that though "gift" means poison in German it means "present" in English.

Five to Box in Semi-Finals Tonight; Cooper Wins by KO

By BILL BEHRMAN

Boxers of the Pampa district took a firm hold on the Regional Golden Gloves Tournament in Amarillo by winning five out of five matches scheduled for the local team in last night's quarter-final and semi-final bouts.

Looking to be in top form Eugene Cooper, four-time Amarillo champion and winner of the 160-lb. golden gloves title in the Pampa district meet, made short order of Joe Stevens of West Texas State College by flooring Stevens for the count in the first round of the 147-lb. golden gloves quarter-final bout. This was Cooper's 32nd consecutive victory; his second tournament fight; winning both knockouts.

Kenneth Davis of Clarendon, fighting with the Pampa team, slugged his way into the finals of the 112-lb. golden gloves division by scoring a knockout over Eddie Davis, of Amarillo, early in the first round. The Amarillo Davis was 1948 112-lb. golden gloves regional champion, while Kenneth Davis held the title of 1948 112-lb. high school division champion.

In tournament fighting, Pampa district boxers have won 10 out of 11 fights. Nine of these have been either by KO's or TKO's. The only case where a local boxer has been victorious by a decision was last night when Buster Kelly of Pampa beat Teddy Livesay of Lockney into submission in the third round, and as the bell rang Livesay was on the floor, and the referee had reached the count of nine. Kelly will meet Charles Haggerton of Amarillo in the finals of the 118-lb. high school division tomorrow night.

Ray Don Brower scored a TKO in the second round over Tolbert Burch of Amarillo in the 147-lb. high school division and will meet Billy Duncan in the semi-finals of this weight division tonight.

Carroll "Comanche" Martin, 128-lb. champion of the Pampa district tournament, reached the finals of the Amarillo meet without lifting a glove when Eugene Huffines of Buna Vista defaulted in favor of Martin. Martin won the 1947 defending championship in this weight, J. R. Vaughan of Amarillo, Saturday night.

Cooper will be out for his 33rd consecutive win tonight when he meets Pat McCarthy of Amarillo in a 112-lb. high school division semi-final bout. Ray won his opening round bout over John Stewart by a KO in one minute of the second round. McCarthy won by a decision.

Francis Hunt, popular Pampa High School senior, will meet J. N. Bramlett of Amarillo in a 160-lb. high school division semi-final bout tonight. Hunt won his way into the semi-finals by a round knockout over T. B. Burnett of Amarillo. Bramlett won his way into tonight's bout by decisions over Jack Hall of Amarillo and Jack Salice of Amarillo.

The other Pampa district boxer to appear on tonight's card will be Raymond Jeffries of Lefors. Jeffries will meet Dickie Brown of Amarillo in the golden gloves heavyweight division semi-finals.

Six Army Footballers Turn to Basketball

WEST POINT, N. Y.—(AP)—Five members of Army's 1947 football team have turned to basketball. They include Ed Jim Rawers of Bergholtz, O., who is captain of the quintet; Backs Arnold Calista of Donora, Pa., and Gus Daniels of Vineland, N. J.; Guard Frank "Burrhead" Bowersville, Ky., and Center Bill Yeoman of Glendale, Ariz.

Henry (Hank) Folsberg, Dallas, member of the 1946 eleven who ran out of football eligibility last fall, is another footballer who has turned to the cage sport.

Mother, Daughter Wreck All-Time Pin Record in Spokane

SPOKANE (NEA)—Bowling at the Garden Lanes, Mrs. Lillian Jarvis, owner of the Bolero Lanes, set an all-time high league record for women in Spokane with games of 245, 208 and 216 for 669. Rolling at the same establishment, her 4-year-old daughter, Mary, came within four pins of her mother's brilliant start with 190, 229 and 206 for 625. The previous mark was held by Francis Webb—a 600 series manufactured in 1934 at the Temple Drives.

Sports Round-Up

BY HUGH FULLERTON, JR. NEW YORK (AP)—When Jack Baer, Oklahoma U. baseball coach rounded up his 1948 squad (in the snow) Wednesday, he found only two regulars from his 1947 team which won the district NCAA title. Outfielder Rudy Rufer had just signed with the Phillies, for a reported \$10,000 bonus, and Pitcher Jack Venable and Hal Cumberland and Second-Baseman Jimmy Mitchell had previously signed with other major league clubs. That's a good ad for Baer's coaching, but mighty tough on the Sooners.

ONE-MINUTE SPORTS PAGE

Jimmy Cooper, all-Southern prep back from Richmond Academy (Augusta, Ga.) who signed a Georgia grant-in-aid last fall, has turned up at South Carolina U. and you should hear the moans.

The Border Conference has organized a baseball championship tournament to be played at Tuscon in May. Jack Slaco, the Texas automobile dealer who doubles as a football official and triples in rube-rubs, has been getting a big play as a speaker since he started blasting football evils.

DOTS ALL, BROTHERS

Gil Dadds will be shooting for his 20th consecutive indoor mile triumph in the Wanamaker Mile at tomorrow's Millrose Games. Hialeah racing fans are getting worked up over a "grudge" race between Armed and Assault in the \$20,000 Widener Feb. 21. One side contends Assault wasn't fit and ready for their match race last year and the other claims Armed isn't getting the credit due to him.

Position Declared Open by Merit Council

AUSTIN—The Merit System Council, which serves as a "clearing house" for positions in the Texas Employment Commission and State Department of Public Welfare, will hold open competitive examinations on February 28, for a number of positions now open in both agencies, according to Charles S. Gardner, director of the council.

Positions to be filled by the Department of Public Welfare consist of field worker, child welfare worker, and senior child welfare worker, junior stenographer, and key punch operator. Openings existing in the Texas Employment Commission are for interviewers, claims examiners, technical draftsman, clerk-typists, stenographers, and clerks. Qualification for these positions vary from high school graduation to college work and experience requirements.

Gardner pointed out that application to take an examination must be made on an official application blank, which may be obtained by writing the Merit System Council, 808 Tribuna Building, Austin, Texas, or from the Employment Commission and Department of Public Welfare local offices located throughout the state.

Catastrophes Have

Big Year in 1947

NEW YORK, N. Y. — More lives were lost in catastrophic accidents in 1947 than in any peace-time year in more than a decade, according to the statisticians of the Metropolitan Life Insurance Company. Last year, the 125 accidents which took five or more lives were responsible for more than 2,100 deaths in the United States, or about 700 more than in 1946.

The higher disaster toll in 1947 was due mainly to large increases in the number of deaths from fires and explosions, civilian air transportation accidents, and natural disasters — tornadoes, floods, and hurricanes. Natural disasters accounted for one sixth of the deaths in catastrophic accidents, whereas mishaps due to human causes were responsible for five sixths of the total.

The annual rainfall of the earth has been estimated at 30,000 cubic miles.

Know Your STUFF

About Wool. If you're in doubt about garments that claim to be "all wool," there are identification tests for wool that will prove the validity of the boast. Giving the burning match test to a few fibers is one way to determine the presence of wool. For this test, pull a few loose threads from the seam edge of a garment—if possible, from both lengthwise and crosswise directions. Twist lengthwise threads into one strand; crosswise threads into another and test separately. Ignite one strand. If the strand is wool, it will burn slowly and have the acrid odor of burning hair. The ash will be crisp and will tend to curl up in a ball.

Amarilloan Heads Cancer Society

HOUSTON.—(Special) Reflection of L. M. Gunderson, Amarillo insurance man, to the board of directors of the American Cancer Society, Texas Division, has been announced by Frank C. Smith, president.
Gunderson, district manager of the Great Southern Life Insurance Company, will serve his second year in that position, representing the cancer society's third district and serving as its chairman for this area. The Texas organization is made up of 15 districts, based on those of the State Medical Association.
As director for 1948, Gunderson will lead ACS activities in Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Cochran, Collingworth, Cottle, Crosby, Dallam, Deaf Smith, Donley, Floyd, Foard, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hockley, Hutchinson, Lamb, Lipscomb, Lubbock, Moore, Motley, Ochiltree, Oldham, Packer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler counties.
The American Cancer Society is a national organization for the control of America's number two killer. It has a three-fold program for conquering cancer—through education, service, and research.
With headquarters in Houston, the Texas Division is organizing to tell the state that much cancer can be cured if caught in time. Texas is spent in support of tumor clinics, which catch cancer in early, curable stages. Nine of these clinics already are functioning in the state with ACS funds, and more are being established.

Student of Alford Takes Over Choir

PLAINVIEW.—A 20-year-old student of Wayland College is now leading the huge college choir that has attracted state-wide attention by several recent concert tours.
Ervant Tolbert, a sophomore music major from Fort Worth, has moved from the tenor section of the choir to the leader's podium, where he is conducting the 85-voice group in the absence of Dallas Alford, who headed the Music Department. Alford was killed in a three-car traffic accident a few weeks ago.
A long-time friend of Alford, Tolbert met the director at Polytechnic Baptist church six years ago where Alford was music director. He has studied under Dr. Hemphill at the Fort Worth Seminary, Floyd Acosta at T. W. C., and Alford.

The B. G. Gordon Home Is Scene of Bridal Shower

The home of Mrs. B. G. Gordon, 429 Hill St., was the scene of a miscellaneous shower complimenting Miss Phyllis Ann Parker, bride-elect of Raymond Perkins, Friday evening, Jan. 23.
Co-hostesses for the occasion were Mesdames Hulda Smith, Corinne Bell, Larry Parsley, Emmett Gee, Tom Eckard, Gene Horton and John Gill.
Corsages of white carnations were presented to the bride's mother, Mrs. W. L. Parker, and the bridegroom's mother, Mrs. Earl Perkins. The honoree's corsage was of yellow jonquils and scaccia. The bride-elect's chosen colors of blue and yellow were carried out in the table and room decorations. The refreshment table was covered with a lace cloth over blue. The centerpiece consisted of jonquils and iris flanked with double crystal candlesticks holding yellow and blue tapers. The favors were blue umbrellas, tied with yellow ribbon and bearing the inscription, "Raymond and Phyllis Ann, January 28th." Cake decorated with yellow and blue rosebuds, and coffee from a silver service, was served by Mrs. Parsley and Mrs. Gill.
Background music was provided throughout the evening by Miss Dorothy Meers, who played the violin accompanied by Miss Charlotte Ann Allison.
About ninety ladies participated in the shower.

Unlighted Streets Rapped in Analysis

CLEVELAND, O. — A total of 78 percent of all traffic accidents after dark occur on unlighted streets, according to the analysis of 3,762 fatal accidents reported for 12 months by 18 states.
This analysis, made by the Street and Traffic Safety Lighting Bureau, shows that 2,922 of the 3,762 fatal accidents were reported under the heading, "Darkness—street not lighted."
Applied nationally, this indicates that 18,000 of 1947's 35,000 traffic deaths occurred on streets without artificial lighting, according to the Bureau.

Close Shave Upholds Town's Hospitality

COPENHAGEN.—(AP)—A stranger in the Danish town of Aarhus was asked to leave a restaurant because he needed a shave. All the barber shops had closed and he had no razor with him. Hungry and desperate, he turned in a fire alarm.
The firemen overlooked his false alarm when he explained his predicament, took him back to the station with them and gave him a shave.
In his finer state he was admitted to the restaurant.
Any New Yorkers who didn't understand what a good old-fashioned snowstorm was, finally got the drift. Five and six-footers!

"Decorating With Wallpaper" Is Topic Presented to Club

The Twentieth Century Forum Club met Tuesday afternoon in the home of Mrs. Arthur Teed, 619 N. Somerville.
Following the nominating committee new officers were elected. They are president, Mrs. J. E. McCrery; vice president, Mrs. Gene Fathree; secretary-reporter, Mrs. Aubrey Steele; treasurer, Mrs. Biggs Horn; parliamentarian, Mrs. A. P. Rossman; representative to Council of Clubs, Mrs. M. F. Overton, Jr.
The program topic, "Decorating with Wallpaper" was discussed by Mrs. Dick Hughes and Mrs. Biggs Horn.
Mrs. Hughes told the history of wallpaper, relating how a French king in the Fifteenth Century commissioned his favorite artist to paint his tapestries on paper instead of cloth. This wallpaper was introduced into the United States it was frowned upon by the Puritans as being too "frivolous" and was called a Tory luxury. Wallpaper was first printed in this country about 1736.
Mrs. Horn emphasized the idea that wallpaper is for happiness, too. When selecting paper a person's reaction to it should be considered as important as the paper's relation to the color scheme. Unusual and interesting uses of wallpaper in decorating were demonstrated.
After the program refreshments were served to fourteen members.
It was announced that the next meeting will be held with Mrs. Aubrey Steele, 1334 N. Charles.

WE, THE WOMEN

By RUTH MILLETT
NEA Staff Writer
The harried housewife is usually a woman who doesn't set a high enough value on her own time and energy.
She will do her marketing at several grocery stores in order to save a few pennies—which, as likely as not, will go for some extravagance—never bothering to figure out what her small saving costs in time and effort.
She'll turn the house upside down getting ready for even the smallest party, when actually a rested, relaxed hostess has a lot more to do with a party's success than freshly laundered curtains. She'll do her own laundry and heavy cleaning, in order to save money, to keep up with the Joneses.
She'll accept any invitation that comes along, even from people she doesn't particularly like.
And it's the same with clubs and organizations. She'll sit through meetings that bore her to death just because her time means nothing to her.
KNOWS VALUE
Study the housewife who runs her household easily, who finds time for the things she wants to do and the friends she really enjoys, and you'll find a woman who knows the value of her own time.
She manages her life well, because she occasionally stops to ask herself, about time- and energy-consuming activities and routines, "Are they worth it?"
