CARRIER YORKTOWN SUNK AFTER BATTLE OF MIDWAY

THEY SEE EYE TO EYE ON THIS ONE

Pvt. Billy Conn and Sgt. Joe Louis agree and root for their variety as Eastern Army football team defeats New York Giants, 16-0, at Polo Grounds. It'll be a different story when soldiers fight for army relief at Yankee Stadium, Oct. 12.

Reds Yield Ground Before Stalingrad

By ROGER D. GREENE
Associated Press War Editor
Russia's armies yielded fresh ground at the bloody western front of Stalingrad today, but after 24 hours there was still no confirmation of a Nazi claim that German shock troops were fighting in the city's streets and had captured the main Stalingrad railway station.

Gray County In 'Inflated Rent' Defense Area

Acting to curb what it called "inflated rents," the Office of Price Administration today ordered 54 more defense-rental areas, including Gray, Carson and Hutchinson counties, brought under federal rent control Oct. 1.
All rentals for living quarters were frozen at the levels of March 1, 1942, except in Choteau, Okla., where the freeze date was Oct. 1, 1941.
The October areas are spread thru 27 states.
Two registrations will be held—one for houses, apartments, tenements, and similar dwellings; the other for hotels, rooming houses, boarding houses, trailer camps, tourist homes and cabins, auto camps and similar quarters. Dates will be announced locally and a rent advisory board set up.

Continued Rise Of Rio Grande Expected

BROWNSVILLE, Sept. 16 (AP)—The Rio Grande, having flooded 20,000 acres on both sides of the border, will start rising again tomorrow morning, the weather bureau predicted last night.
The river was stationary last night at 19.05 feet. A slow rise was forecast at Mercedes and Hidalgo. A third crest was reported forming at Laredo.
Two Mexicans were arrested by Mexican soldiers and held for investigation, Mayor Anton de Leon of Matamoros reported, upon being accused of attempting to open levees so as to flood 50 square miles.
Two hundred persons were isolated at Southport, 10 miles southeast of here, when private levees gave way yesterday.

Fuel Oil To Be Rationed In 30 States

By KARL BAUMAN
WASHINGTON, Sept. 16 (AP)—Fuel oil rationing—possibly 25 per cent below normal use—has been ordered in a vast 30-state area for the coming heating season.
In addition to the 17 Atlantic seaboard states in which gasoline is already rationed, supplies of fuel oil will be curtailed in these 13 Middle Western states:
Minnesota, Wisconsin, Illinois, Indiana, Michigan, Ohio, Missouri, Iowa, Kansas, Nebraska, North Dakota, South Dakota and Kentucky.

In an order last night authorizing fuel oil rationing, Chairman Donald M. Nelson of the War Production board said the shortage of oil "remains serious," despite shifts in transportation and conversions to coal.
"The fuel oil shortage, resulting as it does from a loss of (tanker) transportation, is a war burden that should be spread over the country as far as practicable," Nelson asserted. "The Middle Western states, although at present approximately in balance, are the nearest points from which fuel oil may be drawn, with a minimum of transportation facilities, to mitigate somewhat the Eastern shortage. This withdrawal of fuel oil from the Middle West necessitates rationing in that area."
Two additional states, Tennessee and Oklahoma, were considered for rationing, but passed over because of their small number of oil burners.

Under a coupon system to be set up by the Office of Price Administration rationing will vary in different regions. Details will not be announced until OPA has completed its plans.
—BY VICTORY BONDS—
Change In State Proration Plan To Be Discussed
By BRACK CURRY
AUSTIN, Sept. 16 (AP)—Concerned over proposed nation-wide gasoline rationing, Texas oil operators convene tomorrow for a state proration hearing to canvass the petroleum outlook for October and to consider a plan to fix allowances on a lease or production unit basis.
With current production running in excess of 1,400,000 barrels daily, nominations submitted to the railroad commission will reflect whether the industry foresees war demands sufficient to maintain the production quotas of the last few months or whether a period of readjustment involving sharply reduced state allowances must accompany rationing.
State officials predicted that the threat of universal gasoline rationing would exert a bearish effect on October nominations, hastening the trend toward substantially increased allowances for fields producing

low. The government has now started to help with the emergency scrap metal and rubber drive in Gray county. This is the drive announced by Donald M. Nelson, war production chief. Don Perrin who is handling the all-out scrap metal campaign in the county, started Monday and collected 10,000 pounds the first day. Trucks have been obtained to go after the scrap and crews are provided together with the necessary equipment to dismantle heavy machinery for salvage purposes.
The government will pay \$5 a ton for scrap metal and one-half cent per pound for scrap rubber. It will send trucks to the farms and ranches without cost to the farmer. The farmer can either sell or donate his scrap to the government. If sold he will receive a check by mail. The trucks are equipped with a portable cutting torch for dismantling any kind of heavy machinery.
Mr. Perrin stated, if you have scrap metal that you can't move—telephone Mr. Harding at 515 or Mr. Perrin at 2337-J, Pampa.

Bombed Vessel Hit By Jap Sub

WASHINGTON, Sept. 16 (AP)—The navy announced today that the United States aircraft carrier Yorktown had been sunk after the battle of Midway as a result of Japanese bombs and torpedo attacks.
Loss of the 19,900-ton carrier, with very few casualties, had been a well kept naval secret.
The department said that destruction of the ship apparently was not known to the enemy and that the knowledge was vitally linked to the operations which have been in progress in the South Pacific.

The Yorktown first was successfully attacked by enemy aircraft with bombs and torpedoes on the afternoon of June 4, after the battle of Midway—a great American victory—had reached its full fury.
The vessel, which had a normal complement of 85 planes and 2,072 men and was only five years old, was put out of action at that time.
Tugs and salvage vessels succeeded, however, in getting her under control and she was removed, slowly but surely from the battle zone.
Presumably the withdrawal was eastward toward Pearl Harbor. The navy said in its communique reporting the loss today that by the morning of June 6 the prospects of saving the great ship "appeared bright."
They had been slender at first for the vessel had listed heavily, and abandoned by her crew, was in imminent danger of capsizing.
But shortly after noon on June 6, an enemy submarine suddenly attacked the stricken carrier, scoring two torpedo hits amidship.
The sub put two more deadly torpedoes into the United States destroyer, which was escorting the Yorktown.
The Hammann, loss of which had been reported by the navy department on June 14, sank shortly after being hit and the condition of the Yorktown "became critical," the navy said.
Early next morning, June 7, the communique continued, "the Yorktown capsized and sank as the result of the cumulative damage from aircraft bombs and torpedoes on the fourth, and submarine torpedoes on the sixth."
Before the end came, however, the navy said the submarine which had delivered the fatal attack was hunted down by American destroyers in the Yorktown's escort and repeatedly attacked throughout the day.
The results of these depth charge assaults, the navy said, "indicated that the submarine was certainly damaged and possibly sunk."
As for casualties, the navy said they were few and had been included in the total personnel losses previously announced for the battle of Midway as 92 officers and 215 enlisted men.
The Yorktown and the Hammann were the only United States ships lost at Midway while the Japanese had at least 10, including four aircraft carriers, sunk and at least

Battle For Madagascar Nearing End

(By The Associated Press)
LONDON, Sept. 16—A new British landing on Madagascar has caused the surrender of remaining French forces in one northwest coast area, the British East Africa command announced today, as radio reports from the Vichy-controlled island, still lacking official confirmation, said its government was seeking terms with the British.
Governor General Armand Annet, the reports said, has asked for a cease firing order and terms to end the hostilities.
This was not mentioned in the British communique, which reported the invading troops proceeding steadily toward the island capital with more than half the distance covered.
Of the new landing, it said only:
"On the northwest coast, the pressure of our column moving down from Ambanja, combined with further successful landings from the sea in the Maromandia area further south, has resulted in the surrender of remaining French forces between those two places."
Maromandia is 35 miles south of Ambanja, northernmost of the British landings last week on the west coast of the island.
"The German broadcasts denied that Madagascar authorities had made overtures to the British. Vichy itself was silent."
There was no indication of the size of the new British landing.
Informed British sources said the

BLAST AXIS SUBMARINE

This photo was taken from a Hudson bomber of the RAF coastal command shows it has just dropped a bomb directly ahead of the Axis U-boat which is proceeding on the surface leaving a strong wake behind. These bombers are waging a ceaseless war on subs in the Atlantic clearing the lines for Allied ships. Photo passed by British censor. (NEA TELEPHOTO).

Japs Plan Big-Scale Attack On Solomons

WASHINGTON, Sept. 16 (AP)—Japan's expected grand-scale drive to recapture the Solomon islands and again point a dagger at the Australian lifeline appeared developing with do-or-die fury today.
Battled American forces were fighting back savagely and thus far successfully.
"Heavy fighting" had been in progress by land, sea and air since Saturday night and that while details were lacking "reports received to date indicate that the marines are maintaining their positions."
Creation of a new air command for the United States Pacific fleet

and a shift in command of the southwest Pacific Allied air forces indicated a tightening of grand strategy.
The changes in command gave weight to Admiral Chester W. Nimitz's warning:
"Do not for one minute assume that we have the Japanese on the run."
In decorating 25 officers and men at Pearl Harbor yesterday, the commander-in-chief of the Pacific fleet declared the Japanese were "dangerous antagonists, but, he added, "they have learned by now that we also are dangerous antagonists who are willing and know how to fight."
Despite counterattacks on Japanese bases to the north and northwest of the main American stronghold on Guadalcanal, island the navy reported the enemy was bringing pressure to bear with apparently increasing force, and had succeeded in landing small detachments of troops who tried vainly to recapture the Japanese-built airfield under

35 Civic Club Workers To Assist Salvation Army Drive For Funds

Four teams from Pampa civic clubs were lined up today and announced their readiness to launch Pampa's individual canvass next week to raise \$5,000 for the Salvation Army.

Thirty-five fund solicitors will start the ball rolling immediately after the annual drive kick-off breakfast to be held in Hotel Schneider next Wednesday morning.

Brig and Mrs. Lawrence Redgrove, of the Salvation Army public relations office at Dallas, arrived in Pampa yesterday to assist the Pampa board of directors for the Army in the campaign, General Chairman Arthur Teed said today.

Capt. Frank White, head of the local post, said today he had received favorable reports from the advance gifts committee, which is working this week. Industrial solicitations are in charge of George Berlin, of the Kiwanis club.

Here is the personnel of the teams which will conduct the individual

ROTTARY CLUB: Irvin Cole, R. L. Edmondson, Luther Pierson, Jack Sullivan, Tom Clayton, Vaughn Darnell, Tom Perkins, F. O. Gurley, and H. B. Landrum.

KIWANIS CLUB: Dan McGrew, Robert Westbrook, Malcolm Denson, R. B. Allen, Raeburn Thompson, B. M. Behrman, B. E. Altman, Morris Goldfine, Ollie Doaks, and C. F. Walton.

LIONS CLUB: Ewing Williams, D. M. Dickey, J. L. Lester, H. C. Wilson, Joe Schroedel, Bryant Caraway, Jim Saunders, and Vernon Hall.

JUNIOR CHAMBER OF COMMERCE: Bob Miller, Charles Lambs, Joe Key, Jack Johnson, George Lewis, Dr. N. L. Nichol, and Alvin Bell.

B. M. Baker school of Pampa was marked 100 per cent in the Salvation Army financial drive, and is the first school to go over the top in the campaign.

Tire Boards To Get Lot Tougher

SULPHUR SPRINGS, Sept. 16 (AP)—Mark McGee, Texas' OPA director, discussing the rubber shortage, said here that "these county boards may seem tough to you now, but they're going to get tougher and tougher. We simply don't have the rubber to supply the tire needs of those who are eligible."

McGee addressed a gathering of East Texas farmers, dairymen and businessmen yesterday. He outlined a plan to organize share-a-truck pools among East Texas agricultural industries. Later this plan was explained to members of the War Price and Rationing boards of 30 Northwest Texas counties by Joe Naughton, farmer and chairman of the Ellis county board.

Gasoline rationing to conserve rubber will probably come in Texas soon, but it needs another name, "because we would be fools indeed if we tried to convince anyone in that state that gasoline is a scarce commodity here," Max L. McCullough, Dallas regional OPA administrator, declared.

"For us it will be mileage rationing," he added.

The OPA officials suggested that dairymen eliminate duplicating, competing routes and pool their hauling facilities, and that farmers, lumbermen, truckers and gasoline haulers follow suit.

Milk haulers of East Texas will cooperate in the plan, Bryan Blaylock, representing dairymen of the area, asserted.

Stalingrad Would Be Industrial Liability In Hands Of Germans

By ERNEST G. FISCHER Associated Press Staff

Editor's Note: These observations, by an Associated Press staff man who returned from Germany to Texas this summer, are based on a trip to the eastern front less than a year ago.

If Stalingrad falls in Hitler's hands, the city will be a military asset but an industrial liability.

From personal observations in these cities, here is what usually is done under Stalin's scorched-earth policy.

- 1. Gas, water and electric plants are wrecked or vital hard-to-replace parts are removed.
2. Equipment in telephone exchanges and in main telegraph offices is wrecked or removed.
3. Portable industrial machinery is carried away. Heavy machinery is wrecked or vital hard-to-replace parts are removed.
4. Technicians and skilled laborers capable of operating those plants go with the evacuating army.
5. Grain elevators and other food stores are burned.
6. Oil supplies go up in smoke.
7. River and rail transportation are paralyzed by sinking boats and destroying terminals.
8. Public records are burned or taken away.
9. Public buildings are left intact, frequently mined to blow up the instant the invading force seeks to occupy the structures.
10. Add to that the damage done by shells and bombs—wrecked and burned buildings, demolished bridges, broken water mains, cut-off communications and power lines—during the course of the siege.

The net result in the midst of havoc wrought by water, fire and explosives, is a scorched and depopulated city. Kiev lost about a third of her population, according to German officers with the army of occupation there. Many of them fled to villages, to farms and to the forests.

The most humorous and the most pathetic remark I heard a German officer make in Kiev was "When we marched in women threw flowers at us and children followed us, begging for bread."

When public records, removed, the puppet city administration set up by the conquerors does not know where to begin. There is confusion and chaos, hunger and disease. The entire city is a charity case—with no charity at hand.

War sweeps on and the city drops out of the news. Kiev with her trump-stepped churches, Nikolaijev, once a great shipbuilding center, and Odessa, frequently pictured as the opening in the Ukraine's horizon of opportunity, are faint memories now.

Germany looking toward that area for relief from their own economic troubles have been warned not to expect anything this year. Maybe next year. Goering has told them they are to scrape together small stores of grain which might have escaped war's holocaust. The next step was to get the bakery shops back in operation. Resuming electric service, of course, was a long, tedious procedure.

And those were only faint beginnings in attempts to revive cities which had fallen after suffering probably considerably less than Stalingrad already has endured in the current siege.

One of the first jobs the Germans undertook in conquered Russian cities was to scrape together small stores of grain which might have escaped war's holocaust. The next step was to get the bakery shops back in operation. Resuming electric service, of course, was a long, tedious procedure.

Factory shipments of aircraft, ships and railroad equipment more than tripled during the first half of this year compared with the same period of 1941. The Department of Commerce reports.

The word "Commando" refers only to military units and not to the individual soldier.

Police Chief Ray Dudley said that 150 bicycles had been reported stolen during the year to date. The bicycles taken recently have been taken during school hours. During the summer there were numerous cases of bicycles taken from the municipal swimming pool.

Technically, there may be some doubt as to bicycles being "stolen," as the chief said boys had simply got hold of the bicycles, used them for whatever trips they wanted to make, and the bicycles have been found where the "joy rider" left them.

But technical or not, the "taking" of bicycles other than by the owner, is one practice the chief aims to see stopped.

Cotton Belt Farmers Open Second Front

By RICHARD G. MASSOCK
WASHINGTON, Sept. 16 (AP)—State agricultural officials from the cotton belt opened a second front today on a resolution that would reverse a President Roosevelt's anti-inflation program.

The senate agricultural committee called a special meeting to hear a group of state agriculture commissioners from the southern states express their sentiments toward the pending price control bill and its probable effect on farm prices.

At the same time, representatives of both farmers and organized labor were on hand to give their views to the senate banking committee, which is conducting a formal hearing on a resolution that would empower the president to stabilize prices at parity or the highest market price thus far in 1942.

Senator Thomas (D-Okla.) said he understood the cotton belt group would offer two resolutions to the agriculture committee. One would give the president broad powers to the president by congress. The other would ask that suitable wage controls be linked with any control of farm prices.

"They don't want the farmer to be sacrificed for labor," Thomas said.

Members of the farm bloc in congress have proposed that the cost of hired hands be included in the computation of parity in farm prices, which means the equivalent of an index figure that represents a favorable past purchasing power. Farm labor costs are disregarded in the present parity estimates.

Wages would be considered in the future under a farm bloc stabilization bill by Rep. Steagall (D-Ala.) which comes up for a hearing before a house committee today. Secretary of Agriculture Wickard, as well as Price Administrator Leon Henderson, in their appearance yesterday, supported President Roosevelt's request of Sept. 7 that the parity basis remain as it is.

The president himself meanwhile adopted a hands-off policy for the time being, telling reporters at his press conference yesterday that he preferred to let congress work the problem out by itself.

The farmer's representatives were expected to endorse another provision of the Steagall bill that the government maintain full parity in farm prices through crop loans and purchases. The representatives were Edward A. O'Neal, president of the American Farm Bureau federation, and Albert Goss, master of the National Grange. M. W. Thatcher, legislative representative of the National Farmers union, is to be heard tomorrow.

Fear Of FBI Causes Man To Surrender

HOUSTON, Sept. 16 (AP)—Fear of the F. B. I. caused Frank Rodgers, 22, charged before Justice W. C. Ragan with slaying John Philopena, 37, on June 23, to surrender to Beeville officers yesterday, according to Detectives Frank Murray and Manual Crespo, who brought Rodgers back from Beeville.

"Rodgers did not seem to be worried about the murder charge, but he had heard that his draft board had reclassified him and said he was afraid the F. B. I. would get him," said Murray.

Philopena was shot in his own place, Johnny's cafe.

Henderson Cites Necessity Of Price Stabilization Now

WASHINGTON, Sept. 16 (AP)—Price Administrator Leon Henderson told the senate banking committee today that stabilization of farm prices, and wages and salaries, was immediately necessary to avert the "disaster" of inflation, "as deadly as a bomb and as treacherous as the Japanese."

The danger of such extreme inflationary increases in the cost of living as to jeopardize our entire war program is at hand, Henderson declared in a statement.

He appeared to urge quick action on a resolution by Chairman Wagner (D-N.Y.) and Senator Brown (D-Mich.) which would direct President Roosevelt to stabilize wages, salaries and prices at the general level of last August 15.

Citing steep increases in the prices of certain uncontrolled food products during recent months, Henderson said the government's efforts to control the cost of living have been inadequate.

"We have come to the point," he said, "where the uncontrolled items are forcing the whole cost of living upward."

Political Calendar Reaches Climax

(By The Associated Press)

Primary day balloting of the two major parties in five states, a Democratic state nominating convention in a sixth and a run-off in another, virtually completes today (Tuesday) the selection of contestants for the November general elections.

Maine observed election day yesterday with Republicans scoring a political slam in all major offices by capturing the governorship, three seats in the house of representatives and one in the senate.

The voters returned Governor Sewall and Senator Wallace H. White, Jr., to office by majorities of better than two to one over Democratic opponents. Sewall defeated George W. Latta, Jr., and White won from Fulton J. Redman, Jr.

The pre-election political calendar reached a climax today with primaries in Massachusetts, New Hampshire, New Jersey, Michigan and Wisconsin, the Democratic state nominating convention in Connecticut, and a primary run-off in Mississippi between former Senator James O. Eastland and Senator James Doxy.

Rhode Island will hold state conventions and Louisiana will conduct some run offs of congressional primaries later to complete the balloting before election day.

Australian Patrols Whip Japs In Guinea

SOMEWHERE IN NEW GUINEA, Sept. 14 (Delayed) (AP)—Australian patrols in the towering Owen Stanley mountains appeared today to have virtually eliminated the Japanese, but delayed reports showed that the enemy probably has concentrated considerable force for the push that carried him over the peaks toward Port Moresby.

Information available here suggested that the Japanese have several thousand troops engaged in the drive, with more than half of them between their base at Buna and Efofoli, only about 40 miles from the Port Moresby outpost.

Youth Admits Kidnaping And Killing Sisters

BEDFORD CENTER, N. Y., Sept. 16 (AP)—As casual as a slipper, a 17-year-old laborer stood near a huge reservoir early today and showed police where he tossed the body of one of the two young sisters he confessed he kidnaped, raped and killed.

"Over there," said black-haired Edward Haight, directing police to a creek in New York City's Kensico reservoir system, "that's it."

He was expressionless when he pulled out the body of Helen Lynch, 8, as stolid as when he confessed earlier, with a smile on his lips, that he had strangled the child, who her sister, Margaret, 7, in a nearby woods.

Police booked him on murder and kidnaping charges after he told of events beginning when he picked the children up in a stolen station wagon Monday night near their home here and drove four miles out of town.

"Then I stopped the car and tied them both up with a rope," Police Chief Frank Mallette said Haight told him. "I put a handkerchief in Margaret's mouth to keep her from screaming."

The police chief said Haight related these details:

He attempted to rape Margaret, but as the child tried to fight him off, he mutilated her with a large hunting knife; then he strangled her. He placed the body in the car alongside her gagged sister and drove back to town where he stopped in front of a store, went in and bought a package of razor blades.

He drove north a mile and tossed the body in a creek. Frightened children found it there yesterday, floating face up.

From there he drove to the top of an incline overlooking the reservoir, took Helen from the car and raped her, then placed her under the car and drove the machine over her. He mutilated the body and threw it into eight feet of water.

Police said Haight was traced after complaints from women he accosted and was found to be carrying gasoline rationing coupons issued for the stolen station wagon.

Food Stamps To Be Issued Through Mail

Issuance of blue and orange food stamps in Gray county will be on a "mail-order" basis after October 1, as the result of an order passed by the county commissioners at their regular meeting this week.

Under the new plan, the cost of issuing food stamps will be reduced from \$135 a month to \$45 a month, and the food stamp office, opened here in May, 1941 with J. E. Yoder as supervisor will be discontinued.

From a central stamp purchasing agency in Amarillo the Surplus Marketing administration will send out forms to buyers certified by the county case worker who will fill out the forms, send them to Amarillo, and receive their stamps by mail.

Gray is one of the 26 counties that has adapted the new plan, which was the idea originated two years ago by W. Coffee, Jr., Silverton county judge of Briscoe county, who did not like the expense involved in administering the food stamp plan in sparsely-settled counties.

Another salient angle on the new plan here is the drop of the number of families eligible for the stamps. On July 1 the number in Gray county was 319, on August 1, 274, and on the first of this month, 220, a decrease of 99 families in a two-month period.

Compulsory School Attendance Hearing Held This Morning

Seeking to cut down violation of state laws providing for compulsory attendance of children in schools, a hearing was held in county court this morning, with children ranging in age from 12 to 15 with their parents, appearing before County Judge Sherman White.

This was not a prosecution nor was any charge made, but was an effort to enforce the law.

Some of the children had been in school less than 10 days during the last term. One boy had been in school only 40 days during the session.

There were seven parents in all, with their children, appearing at the preliminary hearing.

Jaycees Purchase \$500 In War Bonds

Keeping up almost the same pace as the record of army enlistments, at the local station, the Pampa Junior Chamber of Commerce has increased its membership from 19 to 42 in two-weeks time. It was announced today by Charlie Lamka.

The Jaycees are aiming toward the 100 mark in members and will celebrate their membership campaign with a stag party on Tuesday night, September 29. George Duval is chairman, Alvin Bell, George Lewis and John Monroe members of the committee arranging the party.

At the organization's regular weekly luncheon at noon yesterday, the Jaycees voted to purchase \$500 worth of Victory bonds.

A committee was named to work in the Salvation Army financial campaign which will open its drive proper after the kick-off breakfast on Wednesday morning, September 23.

On Friday night, Jaycee directors will take part in a directors meeting program to be broadcast in the "Town Forum" of Radio Station KPDD.

Entertainment at the luncheon Tuesday was provided in the singing of Willa Dean Ellis, accompanied on the piano by Miss Helen Martin. Pampa schools music supervisor.

Boy Charged In Alleged Burglary Of Buckler Home

A 17-year-old boy is being held in county jail in alleged connection with the taking of a quantity of jewelry from the home of Mr. and Mrs. C. P. Buckler, 410 Buckler street, Monday afternoon. The boy has been charged with burglary in a complaint filed in justice court.

Arrest of the youth was the result of the tearing down of a \$200 platinum ring and its sale for 25 cents to a local pawnshop, according to county officers. The proprietor notified officers.

Deputy Sheriff James Barrett arrested the youth, who had the rest of the loot in his pocket when apprehended, according to the officer. A 10-year-old boy, who allegedly was the companion of the older and the one who sold the ring was arrested by Deputy Sheriff Roy Pearce. No charges were filed against the younger boy and he was released. The two were arrested yesterday afternoon.

Entrance to the Buckler residence was through the back door which had been left unlocked. A pearl ring and several other pieces of Eastern Star pins, were among the articles taken, officers say.

Jeffers Named New Rubber Czar

By WILLIAM NEEDHAM
WASHINGTON, Sept. 16 (AP)—William M. "Bill" Jeffers, bald, stocky, 66-year-old railroader declared last night, as Production Chief Donald M. Nelson announced Jeffers had been picked for what Nelson called "one of the toughest" jobs in the war program.

Charged with reorganizing, consolidating and administering the government's efforts to alleviate the rubber shortage, Jeffers is expected to become, in effect, complete boss over the Rubber Reserve Agency and all other government agencies in matters affecting the rubber program.

"I am placing Mr. Jeffers in this post with the approval of the president," Nelson declared. "and I am delegating to him all my authority. From this point on, any problem connected with rubber is a matter for Mr. Jeffers' decision, and I know he will do this job."

Indicating he intended to use the authority given him, Jeffers declared he would do "whatever is necessary to carry out the assignment."

"We do not need talk—we need action," he said.

Farmer Gives Scrap To Defense Guard

A farmer was the first contributor to the scrap metal campaign for the benefit of Company D, Texas Defense Guard.

R. E. Johnson, whose farm is located one mile south of Pampa, yesterday donated 1,450 pounds of scrap metal, including bolts and brass to the salvage pile started on W. Kingsmill street, between the city hall and the court house.

Sgt. C. A. Vaughn and Preston Kromer brought the metal in. Although pleased with the opening of the drive, Sergeant Kromer, who is chairman of the company's salvage committee, last night at the company's drill stressed the need of each member bringing in 200 pounds.

He pointed out that numerous persons had huge collections of scrap metal they wanted to donate—but had no way of getting it in. One person who wants to contribute to the collection is Ben Lockhart. He has 2 tons ready to turn in if some one will pick it up.

Proceeds from the sale of the salvage metal will go to pay the cost of an all-day maneuver planned for the company next month.

All America Knows Budweiser... but Few Know This

FROM GLACIERS TO GLIDERS

Thousands of retailers of ice cream and frozen foods are using equipment made by our Refrigeration Division—a manufacturing activity which was developed from our years of experience in making ice in glacier-like quantities needed for the brewing of Budweiser.

This equipment is helping to keep America's foods fresher and more nutritious. Today, however, orders for ice cream and food cabinets will have to wait, for this Division is working all-out on glider wing and fuselage assemblies for our Army Air Forces.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX—Our plant is one of the world's largest sources for manufacturers of pharmaceutical and food products.

VITAMIN D—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

BAKER'S YEAST—We are one of America's biggest suppliers of standard and enriched yeasts and malt syrup used to make bread.

CORN SYRUP—many millions of pounds annually for America's candy industry.

SYRUPS—for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH—for food, textile, paper and other industries—millions of pounds annually.

VITAMINS FOR LIVESTOCK—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

DIESEL ENGINES—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

Budweiser

ANHEUSER-BUSCH, SAINT LOUIS

BURKBURNETT AND HARVESTERS TO OPEN FOOTBALL SEASON

Last Year's Reserves To Start Game

First 1942 opponent for the Pampa Harvesters football team will be the Burk Burnett Bulldogs who will be here Friday night. The Harvesters and Bulldogs opened the 1941 season here with the Harvesters taking a 19 to 7 decision from the Bulldogs.

It will be an unknown Bulldog team that will face the Harvesters at 8:30 o'clock Friday night. No word has been received here as to the number of returning lettermen or the team prospects for this year.

"Burkburnett has always been tough and we're expecting plenty of trouble," Coach Buck Prejan declared today.

Coach Prejan was also wondering if Garrett, running-passing quarterback for the Bulldogs, will be here this year. It was Garrett and Bowman, big fullback, that gave the Harvesters all their trouble last season.

Ten of the 11 Harvesters who are scheduled to get the starting call played against the Bulldogs last year—as reserves. But it was the reserves, especially the backfield, that looked impressive against the Bulldogs.

Arthur, who will be at tailback Friday night, romped 39 yards for one Harvesters touchdown while Arnold, end, caught a long pass for another. The third touchdown went to Jack Waters of the first string.

Biggest battle for starting positions on the team will be at tackle. Coach Prejan predicted today, Bob Edson, Flint Berlin and Richard Bynum had been working for the jobs but yesterday Orval Rake appeared in uniform to make it a four-way race. All four are big boys.

Starters at the other positions are fairly well set although changes are possible. The team went through a tough scrimmage yesterday afternoon, the last before the big opening game.

"They are looking better," was the remark of Coach Prejan and his assistant, Coach George Scott who had been in the city.

Officials for the game will be J. H. Duncan of LeFors and Bill Anderson and Bob Curry of Pampa.

BY VICTORY BONDS

Consideration should be given to the fact that the Bulldogs are a team of last year's reserves. This is a team that has been in the game for a long time and has a good record. The Harvesters are a team that has been in the game for a long time and has a good record. The game is expected to be a close one.

BY VICTORY BONDS

The game is expected to be a close one. The Harvesters are a team that has been in the game for a long time and has a good record. The Bulldogs are a team that has been in the game for a long time and has a good record. The game is expected to be a close one.

Sports Roundup

BY HUGH FULLERTON, JR.

WIDE WORLD Sports Columnist

NEW YORK, Sept. 16—Frank Frisch, whose Pirates may be the ones to knock Brooklyn clear out of the pennant race, figures the Dodgers still have a good chance if one hitter can get hot enough to bring the rest of the club to a boil.

By apparently the only place the Dodgers are hot is under Larry MacPhail's collar.

Canada's green light (with reservations) for pro hockey gives you an idea what to expect in baseball next year.

By the time players eligible for military service and those useful in the war effort have been eliminated, the teams likely to be made up of creaky-kneed old timers and very young, inexperienced kids.

But don't look for much minor league hockey—except that played by major league teams.

Sportsmenton

When Mike Jacobs took over fight promoting at Madison Square garden five years ago, come October, the first scrap he arranged was between Hank Armstrong and Pecky Sarron for the featherweight title. Next week's Chalky Wright-Lulu Constantino bout will be the first 125-pound championship fight in the garden since then—which might be Mike's way of saying: "This is where I came in."

After the Minnesota varsity had scored two touchdowns on three plays against the third-stringers, Scrub End Dick Burk hollered: "Come on gang, let's set a record this time. Let's stop 'em."

Today's Guest Star

Wilbur Adams, Sacramento (Calif.) Bee: "Football favorites turn out about as well as brides' biscuits. Some rise, some fall and all contain innumerable mysteries."

Service Dept.

If Lieut. Elmer Salter, ex-Auburn drummer, fails to pry himself loose from three jobs at the Bainbridge (Ga.) basic flying school for the opening Auburn game against Chattanooga it will break a streak of 139 consecutive games he has built up since 1928.

Cardinals Hike Lead To Two Games Over Dodgers

By JUDSON BAILEY
Associated Press Sports Writer

The dogfight in the National League became a two-ring circus again today as the Brooklyn Dodgers took up the chase of the St. Louis Cardinals after two days of idleness during which the Redbirds managed to entrench themselves in first place by two full games.

The layoff which the schedule handed the Dodgers at this critical stage provided at least a temporary

profit for the Cards because it gave them a working margin for their battle down the stretch. But there was a possibility that the open dates might favor Brooklyn in the long run.

This was because the fiercely fought series in Philadelphia took so much out of the Cardinals that they appeared groggy yesterday even though they dragged down a 3-2 victory over the Phils in 14 innings with the veteran St. Johnsr hurling all the way for the losers.

The Dodgers have now had time to

relax before taking on the Pittsburgh Pirates today and tomorrow at Ebbets field. If they are able to snap out of their five-game losing streak with a strong front against the Pirates, then the layoff will have proved beneficial.

Besides the Cardinals' contest the only other major league game yesterday brought together the Boston Red Sox and Chicago White Sox in the American league, but weather halted play in the fourth inning, forcing cancellation of the game. Chicago was leading 4-3 at the time.

Tough Schedule May Hit Missouri Tigers In Race

BY VICTORY BONDS

BIG SIX PREVIEW

FAVORED: Oklahoma.

RUNNER-UP: Missouri.

LONG-SHOT: Nebraska.

ALL-AMERICA NOMINEES:

Ends—Bert Eckern, Missouri; Dub Lamb, Oklahoma; Jim Watkins, Kansas State; Jack Hazen, Nebraska; tackles—Bill Bargar, Iowa State; Vic Schleich, Nebraska; Ed Hodges, Missouri; guards—Clare Moreford, Oklahoma; Don Selbold, Iowa State; center—Clare Edgington, Iowa State; backs—Ray Evans, Kansas; Bill Campbell, Oklahoma; Dale Bradley and Allen Zikmund, Nebraska; Royal Lohry, Iowa State; Don Reece and Bob Steuber, Missouri; Mike Zelezak, Kansas State.

NEW COACHES: Ward Haylett, Kansas State; Glenn Presnell, Nebraska.

BY RED GRANGE

The Original Man-in-Motion

COLUMBIA, Mo. Sept. 14—Football idleness in this neck of the woods believe Don Faurot's Missouri Tigers have another Big Six championship wrapped and ready for delivery.

Yet the situation is ripe for surprises, and this correspondent believes Dewey (Shorter) Luster is cooking one up at Oklahoma.

Here's why: Missouri plays road games against Nebraska and Oklahoma this fall, and the Tigers never have won a title the year they played these tough foes away from home.

Missouri has lost all of the crackerjack 1941 first team, which faced Fordham in the Sugar Bowl at New Orleans, except end Bert Eckern and guard Mike Fitzgerald.

Coach Faurot is on the hot seat with Nebraska, Oklahoma and

the Iowa naval pre-flight school is "bottle ball"—a form of basketball played with as many men as you want on each side and several basketballs in action at once.

The only rule restricts forwards, centers and guards to their own zones to prevent traffic jams.

Dodgers And Army All Stars Ready

BALTIMORE, Sept. 16 (AP)—The Eastern army all-stars, about as rough, tough and ready an outfit as ever tore up a gridiron, tapered off with skill practice today before meeting the Brooklyn Dodgers in the second of three games for army emergency relief.

While the all-stars brushed up on the technique of blasting the Dodgers in tonight's contest at Municipal stadium, the Brooklyn pro squad arrived in town and ran through limbering up exercises.

Little leaked out of the army camp except the word that the upwards of 50,000 fans expected to fill the stadium might anticipate that the Dodgers would furnish tougher opposition than the New York Giants who fell before the all-stars by a 16-0 score last Saturday in New York.

Kansas State, with both coaching staff and personnel badly shot by war and enlistments, will be directed by track coach Ward Haylett, who replaces Hobbs Adams, now in the navy.

In Mike Zelezak, Haylett has one of the fine backs of the sector, a 175-pound, elusive runner who can really move. Jim Watkins is a sticky-fingered wingman.

Tulsa, which lost 27 veterans, nevertheless is a prohibitive favorite in the Missouri Valley conference. Henry Frnka has a glittered backfield in Glenn and Bob Dobbs, Cal Purdin and Dewey Erickson.

Creighton is the only club conceded a chance of stopping the Hurricanes. Maurice Palrang's sophomores of last year have a season of experience and will again use the C formation, a variation of the T.

Oklahoma A and M, with wrestler Loyd Arms a terror at tackle, and Drake are the other contenders.

Bewildered And Shocked, Dodgers Resume Battle

By GAYLE TALBOT
NEW YORK, Sept. 16 (AP)—A thing so strange and baffling that it almost defies description has happened to the once-dominant Brooklyn Dodgers in the closing stages of the National league race.

They look tired and bewildered and the fight seems to have gone out of them in the face of the Cardinals' remorseless drive.

The reason, a member of the Dodger family explained weakly, is that it is somehow numbing to see a thing slip away day after day and feel powerless to prevent it. After a time you begin to feel dazed, he said.

"I remember the night we started our last Western trip," he quavered. "We had the pennant won. We even celebrated to the extent of a tub of beer on the train, because it was a Sunday and we were passing through Pennsylvania, which is dry on Sunday."

"Not that anybody over-drank. How is a whole team going to break training on one tub of beer? But, I mean, that's the way we felt. World Series, here we come! Sure, we were in a little hitting slump, but we had a seven and a half game lead over the Cardinals, so what did a little slump amount to?"

"It still can't believe it's happened. Even when they cut us down to a three or four-game lead we kept thinking any day now we'll get started again. But we didn't. Seem like something like this is happening every break goes against you."

He said, finally, that he hadn't had more than an hour's sleep the night before and didn't anticipate any better luck on the night in question. He looked terrible.

All the Dodgers look more or less the same. Manager Leo Durocher is subdued and President Larry MacPhail virtually has conceded the pennant to the Cardinals. After the two games Cincinnati won at Ebbets field last Sunday, Secretary John H. Donald said, morosely, that he believed that had done it. It was as though a catastrophe that had long been dreaded finally had happened and there was nothing further to worry about.

BY VICTORY BONDS

Lookabaugh Figures Most Clubs Operate From Single Wing

STILLWATER, Sept. 16 (AP)—Each fall there is excited babble about the wonder coach or that miracle man, but all this football flappoodle fails to impress Jim Lookabaugh, Oklahoma A. and M. college coach.

"It's just the same as it's always been," maintains the coach, that counts.

"Last fall I saw a lot of fine teams in action, and during the winter I saw motion pictures of most of the others. And we've got just about what everyone else has got."

Lookabaugh believes that about 90 percent of all college teams operate from the single wing formation although one might never suspect it from the exotic names printed on the formations by the publicity departments.

"If you don't think it's the material that makes a championship ball club, look at what happened when Clark Shaughnessy went to Stanford," says Jim. "He took the same T formation he had been using at Chicago university, and losing with it by 60-0 on good days and by 60-0 on bad, and came up with a winner."

BY VICTORY BONDS

Field May Make Longhorn Followers Forget Jack Crain

AUSTIN, Sept. 15 (AP)—When they talk about a field day at the University of Texas this fall, it won't mean that the sports year is knocked silly and they're holding a track meet.

It'll just mean that a 190-pound junior tailback from Mission who understudied Jack Crain last season has been running wild again, and that he's been doing some more of that criss-cross running that marked Crain's three years in the Southwest conference.

Jackie Field of Mission—"the hump of the grapefruit," he is noted on the Texas football questionnaire—is five feet 11 inches of up and going backfielder who takes off at a moment's notice and stops only after prolonged efforts on the part of the opposition.

Not all of Field's running has been developed in molehills. He was a member of Clyde Littlefield's sprint relay team last season.

Field is a physical education major in the university and has applied for admittance to the marine corps reserve.

BY VICTORY BONDS

Fort Worth And Shreveport Tied

(By The Associated Press)

FORT WORTH, Sept. 16 (AP)—Fort Worth and Shreveport tonight will decide which team will meet Beaumont for the Texas league championship.

The Cats and Sports are tied at three games all in the Shaughnessy playoffs after Hank Oana tossed Fort Worth to a victory last night, 1 to 0.

Last night's contest was a masterful pitching battle between Oana and Doyle Lade, who retired for a pinch hitter in the eighth after allowing four hits, the same number allotted to the Sports by Oana.

Loughran Enlists As Buck Private

PHILADELPHIA, Sept. 16 (AP)—Smiling Tommy Loughran, boxing's retired undefeated light heavyweight champion, joins Uncle Sam's marines as a buck private today—and if on some distant battlefield he encounters Nazi soldier Max Schmeling, the Philly phantom won't be displeased at all.

The lanky, 39-year-old champ disclosed his enlistment plan last night and commented, "I'd like to, I'd like to," when asked if he wanted to meet up with the German heavyweight, now a paratrooper reported injured in Crete.

Back in 1941, soon after Tommy turned heavyweight, he challenged the former heavyweight titleholder. But Schmeling, aware of Loughran's speed and skill, refused to fight.

Things Look Good Down Southern Methodist Way

By HAROLD V. RATLIFF

DALLAS, Sept. 16 (AP)—The boys were discussing the point that while Southern Methodist University might be a pain in the neck to the favorites in the Southwest conference football race Jimmy Stewart might get one in his trying to coach and watch the cash register at the same time.

Why, said one of the fellows, Jimmy's neck would need to be on hinges with him glancing at what his boys were doing on the field then looking up into the stands to keep an accurate account of the crowd.

All this banter came about when Stewart, who already was business manager of Athletics, was called in to take over the head coach job after Matty Bell joined the navy.

Seriously speaking, Stewart is under a handicap in his maiden appearance as a Southwest conference football coach. The first time he worked with the squad was this fall.

But the Mustang mentor is not downhearted.

"I never saw a bunch of boys take coaching better than that

count of one early in the first round, but the 10-stanza scrap was close enough that Referee Joe Sedley even saw it Mauriello's way, although the two judges thought otherwise and the crowd expressed little disagreement.

Afterwards Mauriello, who at 180½ was a 2-3 betting underdog with few takers, said he thought he could beat Bevins in the Gotham return match decreed in the pre-fight agreement, while Bevins naturally disagreed.

Atkins Needs Games For Sept. 18 And 25

Special To The NEWS
PANHANDLE, Sept. 16—Coach Jack Atkins of the Panhandle

Panthers has 11 boys from last season reporting for play this season. Nineteen new players are working hard to earn a position on the squad.
The first two scheduled games of the season, with Claude and Tulla, have been cancelled by the

other schools, and Coach Atkins is looking for opponents for the 18th and 25th of September. The schedule for the remainder of the season is:
Oct. 2, Canadian, conference, there.
Oct. 9, Hereford, here.

Oct. 16, McLean, there.
Oct. 23, Shamrock, there.
Oct. 30, Phillips, conference, here.
Nov. 6, White Deer, conference, there.
Nov. 13, Perryton, conference, here.

The Panthers have only one coach this year. Assistant Coach Bill Hancock resigned last week to accept the job of head coach of Trachte High school.
Squad members are: Wilford Boyles, back, third year; Marvin Arnold, tackle, first year; J. T. Broadway, end, third year; Earl

Burum, tackle, first year; Bill Cunningham, end, first year; Bill Dickerson, center, second year; John Franklin, back, first year; Wilbur Earl, tackle, second year; Jay Hawley, center, second year; Gabe Herndon, back, second year; Joe Herndon, tackle, first year; Joe Bill Little, guard, second year; Jim

Long, tackle, first year; Hubert Marvel, back, first year; Frank Daniel, tackle, first year; John O'Keefe, end, second year; Howard Ray Pruitt, back, second year; Leroy Roberts, guard, first year; H. B. Skelton, back, first year; Frank Stephenson, guard, second year; Dickie Stephen, tackle, first

A. C. Towe, guard, first year; Mar-year; Kenneth Sterling, back, first year; Billy Ray Snyder, guard, first year; Sammy Smith, end, first year; tin Vance, guard, first year; Dick Waldron, end, first year; Lloyd Waldron, end, first year; Jim Walker, back, first year; Bill Wig-ham, guard, second year.

WARDS HAVE THE RIGHT WORK SHOE FOR YOU!

THEY'RE BUILT FOR TOUGH JOBS! THEY'RE TESTED FOR WEAR!

DO YOU WORK OUTDOORS?
Wear weather-proof work shoes! Rain rolls off their oil-tanned hide. Storm welts keep feet dry. These are our best BLUE BAND quality!
3.98

DO YOU WORK ON A FARM?
Wear farm-proof work shoes! The leather is double-tanned to resist the rotting effect of soil acids. Good GREEN BAND quality.
2.49

DO YOU HANDLE HEAVY LOADS?
Don't risk broken toes! Wear safety shoes—with hidden steel toe cap that withstands 2000 lbs. (a ton) of pressure! Tough tire-cord soles!
3.49

ARE YOU HARD ON SOLES?
Wear our famous No. 8930. It has double leather soles to give you double the wear! Storm welts keep out rain! Better RED BAND quality.
3.49

DO YOU SCUFF YOUR TOES?
Wear this scout style work shoe. A double layer of leather at the toes gives extra protection against wear. Good GREEN BAND quality.
1.98

THESE WORK CLOTHES WILL GIVE YOU EXTRA WEAR

WARDS CASH SAVER PANTS 2.49
Yes—dress pants style with work pants strength! That's why Cash Savers give you more for your money. Seats are lined for extra wear. Tool-proofed pockets. Cotton with rayon, 99% shrinkproof!

SALE! MEN'S LEATHER JACKETS 8.95
They're regularly \$8.98, these handsome cossack jackets in smooth capeskin or supple suede. With handy zipper front and zipper breast pocket. 2 side muff pockets. Fully lined. Cut for action!

SANFORIZED WORK SHIRTS 98¢
Be comfortable on the job! Wards low-priced Homesteader shirt is cut full... no binding or pulling! Wash it all you like—it won't shrink over 1%. In rugged cotton covert or chambray.

HERRINGBONE SHIRT AND PANTS SET—PRICED LOW 2.98

This matching work outfit is great for looks and swell for comfort! The shirt is of strong cotton jean, with pearl button front and tris dress collar that can be worn open or closed. The trousers are of long-wearing drill in a matching herringbone weave. Both are Sanforized—shrunk for lasting good fit—can't shrink over 1%. Full sizes give you freedom of action!

MEN'S SUEDE CLOTH SHIRT 1.19
Let 'er blow—this warm shirt is wind resistant. It can take hard wear, too—it's strongly built, reinforced at strain points. Washable cotton suede cloth in full, roomy sizes!

HOMESTEADER OVERALLS FOR REAL TOUGH WEAR! 1.29

Wash them all you want—they won't lose their comfortable, roomy fit! For Homesteaders are 99% shrinkproof. You'll like Homesteaders' roomy sizes and sturdy construction, too. Bartacked at strain points, with riveted-on metal buttons, rip-proof seams. And here's a conservation tip: two pairs worn alternately last over twice as long as one worn constantly!

SPLIT PIGSKIN WORK GLOVES 79¢
No wonder it's our best selling leather work glove! This all-purpose pigskin is soft—yet tough! The chamois-like skin won't stiffen after wetting. In the popular band-top style!

WARDS "MECHANIC" SOCKS 19¢
The work sock men everywhere prefer because it wears so long! No wonder! Heels and toes are twice as heavy as the rest! Good, absorbent cotton. Seamless feet. In regular or short lengths.

"101" BANDTOP OVERALLS 1.19
They'll help you do a man-sized job! 101's are famous for long wear—for sturdy construction. Notice the extra strong main seams, the riveted-on buttons. Full cut—and 99% shrinkproof!

LEATHER PALM WORK GLOVES 35¢
Here's a fine Ward value! Striped canvas backs with split cowhide leather palm for longer wear. Knit wrist for snug fit! Continuous thumb... Lock-stitched seams that won't rip!

CATALOG ORDER SERVICE—Thousands of items not displayed in our store are available quickly through our Catalog Department. Let us show you our big Fall catalog. Save on all your needs at Wards.

Inside Story Of The Kaiser Brush-Off

By PETER EDSON
NEA Service Correspondent
WASHINGTON, Sept. 16—The way the record now stands, and according to the statement of Under Secretary of War Robert P. Patterson, when Henry J. Kaiser was in Washington early in August the army discussed with him the possibility of his building C-46 Curtiss Commando cargo planes.

It was publicly stated in some places that the army had actually offered Kaiser a contract to build Commandos, but that Kaiser turned it down. People who were defending Kaiser said that he did this because the Curtiss company already had this plane in production, and it would be much easier and much more sensible to expand these facilities than it would be for Kaiser to go out and build a new plant. People criticizing Kaiser said that his refusal of a contract to build C-46s was an indication of the man's inability to produce.

ARMY NEVER GAVE HIM A CONTRACT

As a matter of fact the army never offered Kaiser a contract to build Commandos or any other type of plane. It never even gave Kaiser a letter of intent to build planes. All that Henry J. Kaiser has to show as a result of several conferences with top men in the army is a personal letter from Under Secretary Patterson, suggesting that Kaiser go to Buffalo and look over the Curtiss C-46 plant, then come back to Washington with proposal as to what he might do.

In the words of Lieut. General Henry H. Arnold, chief of the army air forces, when he was asked about the Kaiser contract at a press conference: "Don't get me wrong on that—the next move is up to Kaiser."

This, then, is the record of the army procurement services in giving aid and assistance to one of the most brilliant builders in the United States when he came to Washington offering to increase the production of cargo planes which the army needs desperately by the hundreds.

It is the army which ultimately must give Kaiser whatever contract he is able to get, not WPB. The army is supposed to know what it wants, so the right to let contracts has been left with the army's procurement services.

FULL STORY MAY NEVER BE KNOWN

Air force procurement, for example, supposedly has its experts who know plane production and can supervise that production in the government-owned plants now manufacturing aircraft.

Yet the record of the army procurement services in the Kaiser case thus far has been that the army has not only given Kaiser no assistance in his efforts—it has actually put obstacles in his way, apparently discouraging him deliberately.

The full story of the Kaiser dealings with the army up to September 1 may never be revealed, but the parts of the story that are known

Henry J. Kaiser

Key personalities in the opening skirmishes of Henry J. Kaiser's battle to build cargo planes are pictured above.

make one of the less inspiring chapters of the whole sad book of war production mistakes.

If Kaiser has made any mistakes at all in his dealings on cargo planes, they are perhaps as much psychological as anything else. One services didn't give commitments behind his proposals before giving his ideas to the army brass hats. He has suffered for that.

Kaiser first gave out his ideas in a public speech at a launching ceremony in one of his shipyards. He brought his ideas to Washington, arriving on July 30. His first day in town, he appeared before two senate investigating committees, spoke at a Press Club luncheon, held at a press conference.

The next day he saw Donald Nelson, made a second appearance before a senate committee, and was scheduled to have luncheon with Eugene Meyer, publisher of the Washington Post, at Meyer's office. All that morning Under Secretary of War Patterson had tried to reach Kaiser, and he finally did get to him by crashing the Meyer luncheon.

THEY GOT NOWHERE—VERY QUICKLY

Kaiser was then taken to the war department and in a conference there, he thought he was given to understand that he would be given a contract to build C-46 Commandos. Kaiser and his staff were amazed at the speed with which they thought they were getting results. Kaiser was willing to build any type of plane wanted, and he presumably left the war department thinking that next morning he was to receive a letter of intent to build Commandos. When the letter was received, however, it wasn't any legal or binding letter of intent at all, but the personal letter from Secretary Patterson, suggesting Kaiser shuffle off to Buffalo and then come back and tell them what he could do. It was a considerable let-down.

What determined the change in policy it would of course be impossible to guess, but it was only the beginning of the brush-off which Mr. Kaiser was to receive from the army later. Kaiser invited General Arnold to lunch at Kaiser's suite in the Shoreham hotel a day or so later, but on the day of the luncheon the general shifted the scene of battle to the Army-Navy club and he brought along two other lieutenants general, Leslie J. McNair of the ground forces and Brehon Somervell of the S. O. S.

And this trio of three-star whisk broom men, in the public dining room, proceeded to do a brushoff job on Mr. Kaiser's ambitious which other people dining there that day declared got pretty dusty and loud. Kaiser, in effect, was practically told that he couldn't build the planes. It was pointed out that Henry Ford, production genius that he was on automobiles, was behind on his bomber program at Willow Run. Kaiser countered with the information that he outproduced Ford on magnesium. Kaiser was then asked if he thought he was better than Ford.

Kaiser was given to understand, finally, that even if he did find new

sources of nickel and other steel alloy metals and brought them into production for his airplane program. The shortages of those metals were so great that they would have to be confiscated for armor plate and cannon.

And when Kaiser was trapped into declaring that he thought any now undeveloped sources of metals he brought into production of his cargo plane program should be allocated to that plane program instead of to the production of more cannon and more ships to haul the cannon and be sunk, he was bluntly accused of being willing to sabotage the war effort.

This was pretty tough stuff to take but Kaiser was supposed to have come right back and accepted the challenge. There is one characteristic which everyone who has dealt with Kaiser gives him credit for, and that is his ability to keep his wits about him even when angered. In this case, he simply countered with the proposal that if they wanted to confiscate any new material production resources which he might develop, it would be all right with him—provided they would announce publicly that they were seizing his plants and diverting his materials.

The luncheon broke up when Kaiser, a far bigger man than any of the three generals, went over to Somervell, put his arms around him and lifted him off his feet, telling him how much he admired his ability, telling him also that he was in for a battle.

In this whole story of the dealings of the government with Henry J. Kaiser on cargo planes, there is only one bright chapter. Giving credit where credit is due, it goes to Honest Harold Ickes, secretary of the interior, who has turned over to Kaiser's men all the facilities of the Bureau of Mines and the U. S. Geological survey in an effort to help locate ore deposits that will yield the metals Kaiser needs for his program—nickel and chrome particularly right now.

ICKES KNEW KAISER'S METTLE

Ickes' support of Kaiser goes back a number of years, though the two men have met only half a dozen times. It was Kaiser who has built Boulder and Bonnevill dams, and it was Kaiser who helped Ickes break the monopoly prices on Portland cement. Ickes knows the caliber of the man and consequently when Ickes first heard of the Kaiser proposals, he didn't wait for Kaiser to come to him. Instead, Ickes sent word to Kaiser to say what he wanted and take it.

Since then the Department of Interior men have been working right with the Kaiser organization in Washington and in the field, giving them every possible cooperation.

Contrast that with the cooperation Kaiser got from the navy. The navy needs transport planes, too, and Kaiser's original proposal was to build the navy's experimental Martin Mars flying boat.

Kaiser had one session with the navy, Admiral John H. Towers, chief of the Bureau of Aeronautics, coming to Kaiser's hotel suite in Washington. All Kaiser is supposed to get out of that session is a lot of complaints about how he was upsetting all the navy's plans.

Here the army had its transport plane program and the navy had its program, and here was Kaiser proposing something else. If that plan went through they would have to train more pilots and where were they going to get them, and so on.

Witchcraft Blamed In Navajo Killing

FARMINGTON, N. M., Sept. 16 (AP)—The slaying of two members of a Navajo Indian family and wounding of a third was traced today to the killer's belief in witchcraft.

Sheriff Andy Andrew said the slayer was 32-year-old Custer's son-in-law, a Navajo, and that he had killed himself after shooting the others because he believed they had cast a fatal spell on three of his children.

approved and accepted. In connection with these two letters, it is important to note that they came from WPB and not from the army and navy. Even though the services didn't give commitments to Kaiser, though it is their function to do so, WPB did.

Nelson gets credit for that, and if Kaiser does get contracts from army and navy after his forthcoming visit to Washington, much of that credit will be Nelson's too. If it had not been for Nelson, Kaiser would be counted out of the cargo plane program right now.

Strike Of Health Employes Effects Fort Crockett

GALVESTON, Sept. 16 (AP)—Concern over garbage accumulations resulting from a 13-day strike of city health and street department employes was expressed yesterday by the commanding officer at Fort Crockett in a letter to the city council.

Col. Franklin Kemble, the commander, declared in the letter that "such a condition may have a decided effect upon the health of all members of this command."

The city is seeking bids from private contractors to dispose of the garbage with city equipment.

—BUY VICTORY STAMPS—
The apple crop of Canada this year may reach a maximum of 12,000,000 bushels compared with 10,500,000 bushels in 1941, according to the Department of Commerce.

The Potawatami Indians of Wisconsin believe there is an old woman up in the moon making a basket.

Army Gets "Boot," Sailors Cast-Off

DALLAS, Sept. 16 (AP)—Boot's wayward disposition has resulted in his transfer from the navy to the army.

The 130-pound Great Dane mascot at the naval reserve aviation base near here had run of the training center until he went AWOL the other night.

Next morning in a nearby pasture a sheep was found dead. Boot was suspected but given another chance. He was caught in a second murderous act, however, and court-martialed. "Get rid of Boot," read the verdict.

Now Boot, through Dogs for Defense, inc., is being trained for army sentry duty.

A Man's A Man At 18

Lt. Col. Marvin B. Durrette, district recruiting and induction officer at Lubbock, Texas, stated today that in view of the possibility that all young men may soon be in uniform, it is believed that the earlier a man gets into the service, the better his chances for promotion.

We do not believe a boy should quit high school for any purpose. But if he is 18 or 19, and has graduated, or has quit for some other reason, then it seems to us that he is a man in a man's world—and one that recognizes that a man of 18 is better able to fight in this war than an old timer.

You can enlist at once and pick out any one of the eight combat branches in which you wish to serve. After you pass 20, you will no longer have such a choice.

The army offers you the privilege and honor of serving your country now when you are needed. More than that "the U. S. army builds men" is no idle slogan. It's a solid fact. The army is in reality one of the world's greatest industrial colleges.

You'll find the army ready to help you learn; for the greater skill you have, the better soldier you will be. Men 18 and 19 can now win commissions in the army, and if you show that you have intelligence and qualities of leadership, you will have your chance to attend an Officer Candidate school.

Army recruiting stations are located at Amarillo, Plainview, Pampa, Big Spring, El Paso, Fort Bliss, Lubbock, Odessa and Sweetwater.

The Nation's Press

WE NEED A NEW CABINET

The appointment of a super-super coordinator of economic matters is expected. In Washington it is believed the President will present his plan in a message to congress on Monday and in a radio address to the people on Monday evening.

Mr. Roosevelt, so it is said, hopes that by relieving himself of the burden of economic management he can devote more of his time to directing the conduct of the war.

Washington has become so widespread that Mr. Roosevelt feels that he must do something. On similar occasions in the recent past he replaced the council of defense with the OPM and the OPM with the WFB. Other creations were the War Labor Board, the Office of Price Administration, and a host of miscellaneous authorities, coordinators, and agencies, the very names of which are now forgotten, the many of them are still functioning and their pay rolls are growing from week to week.

These new agencies accomplish nothing except temporarily to quiet criticism. In a few weeks it becomes apparent that the only change is one of name and that the same old confusion, resulting from divided authority and muddled purpose is still with us. There is no reason to expect better of the newest proposal.

The President's passion for improvisation has blinded him to the obvious remedy lying within our accustomed way of conducting the government's business. The President doesn't need to invent an administrative structure. He has one at hand in the cabinet. It is largely because his department heads are unequal in their responsibilities that he has had to create administrative agencies to do their work for them.

What is needed is a complete shakeup of the cabinet. Its members should each possess the intelligence, the special knowledge, and the executive competence to handle a big job. Obviously most of them do not measure up to their responsibilities and, therefore, the President has been obliged to create new administrative agencies to do their work for them.

A new super-super agency will not remedy matters, and may make them worse. What is needed is a simplification of the organization and it is unlikely that any better scheme can be found than that with which the American people are familiar. If the President will put competent men in the cabinet and delegate authority to them much of the needless confusion within the government and between the government and the people will automatically disappear and the prospects of a speedy victory will be greatly enhanced.

Common Ground

"I speak the pass-word primal. I give the sign of democracy. By God! I will accept nothing which I cannot have their counterpart of on the same terms."

DOES ROOSEVELT'S RECORD JUSTIFY DICTATORIAL POWER?

Roosevelt wants complete authority to regulate prices. This means ration cards. Ration cards mean that the government can distribute production without any regard whatsoever to whether the man produces what he gets or not.

Does Roosevelt's dilly dallying rubber tire production policy justify more dictatorial power? Does Roosevelt's record before the war, in increasing our debt and his failures to enact laws so that people could have full employment, justify dictatorial power?

Does Roosevelt's gold policy, that has brought \$20,000,000,000 worth of gold and put it in our vaults in Kentucky, justify dictatorial power? Does the labor required to pay for this gold help defeat the Axis powers? Does this gold reduce the number of deaths we will have in the war to lick the Axis?

Does Roosevelt's silver policy, still paying people to produce silver that we cannot use even in the war, justify him having dictatorial power?

Does Roosevelt's labor policy, permitting labor racketeers to exploit a billion a year from men for the right to work and turning over a half a million to his campaign justify dictatorial power?

Does Roosevelt's policy of paying farmers not to produce justify him having dictatorial power? Does Roosevelt's policy of requiring men to receive time and a half for over eight hours a day and double time for holiday, whether we are working on war production or not, justify dictatorial power?

Does Roosevelt's increase in government workers, aside from the army, before the war, when he promised to reduce government employees, justify additional dictatorial power?

Does Roosevelt's increasing the cost of government and debts over and above the war cost justify dictatorial power?

Is there anything in Roosevelt's record that would indicate he has used the talents he has been given to shorten the war and save life and property? If there is anything he has done that justifies granting him dictatorial power, I cannot think of it.

TOO ABSURD TO BE A REALITY

It is an old statement that truth is stranger than fiction. But when people start to change from free enterprise, or the capitalist system, to state socialism, some very absurd, ridiculous and confusing laws are passed.

For example, under the present laws, if an entrepreneur is more efficient than his competitor and builds us airplanes that help win the war and save a lot of the lives of our boys and billions of dollars, we have decided that these men must run all the risks of losing their capital and besides can have their profits for their service confiscated; that they cannot even sue the government to recover them without the government's voluntary consent.

On the other hand, if a man opens a lot of saloons and debauches the citizenry and makes a lot of profit, the government cannot tax him any more on his profits than it does any other private business not engaged in war contracts.

O, consistency thou art a jewel!

We had better wake up as to what we are doing, if we do not want to completely discard our American way of life under which man's economic welfare improved faster than any other place in all the world.

ANOTHER CONCESSION TO THE SILVER BLOC (St. Louis Post-Dispatch)

The problem of providing silver for industrial uses has now been partly solved, but the silver bloc has not had to yield one iota of its special privileges.

Industry has been barred from using domestic silver because the treasury buys all of it at the subsidy price of 71 cents an ounce, fixed by congress in 1934, a price about twice the metal's actual value. The store of silver is set aside by law for monetary backing, but far more has been accumulated than is necessary for this purpose.

Industry has depended on foreign silver, but this also was cut off when the government fixed a ceiling price of 35 cents an ounce, a figure so low that it discouraged Mexican mine operators. Silver is needed in many industries and a substitute for scarce metals. In the civilian field the extensive jewelry and tableware industry was threatened with ruin by the restrictions. The logical procedure, of course, would be to release some of the enormous hoard of this metal stored away in the treasury, but for more than a year congress would never stand for that, war or no war.

The solution announced by the state department is another concession to this bloc. The ceiling price on imported silver is raised to 45 cents an ounce, which means that this country now will subsidize Mexican mining interests, in addition to the existing subsidy for domestic producers. The higher ceiling means increases in the cost of war and civilian goods using silver, and so is inflationary.

Meanwhile, the greater part of the treasury's 110,000 ton store of the metal is lying idle in the vaults. More silver is being mined by man power that could just as well be doing necessary work. Even in wartime the silver bloc is powerful enough to maintain a policy of favoritism that was indefensible even in time of peace.

SUBMARINE DETECTORS

(Chicago Tribune)

A famous radio inventor, Benjamin Franklin Miessner, has offered to the navy a plan for detecting the presence of enemy submarines off our coasts. As described in the August number of Radio Retailing Today, the plan consists of placing small radio transmitters sealed in buoys and anchored at intervals of a few miles along the coasts. A submerged microphone would pick up sub sounds and the transmitter would forward to headquarters what was picked up by the radio ears. Mr. Miessner says that the direction and distance of marauders could be determined by the location of the buoy transmitting the loudest sounds. Sub chasers could be promptly dispatched to the right locations. He says that the problem is not difficult and the solution is not costly. A few hundred transmitters costing \$100 each could, in his opinion, afford a great deal of protection.

Mr. Miessner is no amateur nor crank. He is a radio expert with more than 100 inventions to his credit, on which he has collected more than a million dollars in royalties. He is a pioneer in the development of radio for aircraft, and was the navy's chief engineer in this field. The ordinary citizen will hope that Mr. Miessner has the answer to a difficult problem and that the admirals do not exclude it from consideration because it comes from a man outside of the service.

THEY DID

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, Sept. 16—A movie producer meets a rival: "Hell, Joe. Haven't seen you around lately; where're you?—Oh, sure, I've been pretty busy, too. But I did manage to catch the preview of your new picture. It was absolutely terrific. Joe, a very interesting job all around; a great little picture. The audience seemed to like it, too."

"I suppose the sales department made you use that title. 'Mary on the Lam' sounded kind of corny. But the picture as a whole was swell, Joe."

"I think you did a great job with those love scenes considering how badly they were written and how old-fashioned the direction was. And the story—you must be good if you can make people swallow those in-the-groove yarns. We had a story much like yours over at our studio and I'll bet 20 writers batted it around trying to give it something."

COMES SYMPATHY

"Believe me, I know what you were up against. Of course it's possible to save a bum story with a great performance or two. If you'd made that same picture with Helen six or seven years ago when she could really act, it might have been different. —Oh, I'm not saying she wasn't all right, Joe. It's just that she seems to have lost so much of what she had when she first came out from New York. After all, Helen's no ingenue now. I'd hate to put a sympathy vote on her. —You know who I thought gave the best performance in your picture? Jack. Yeah, I really mean it; he's such a complete ham that the part just fitted him perfectly. Of course, putting in a ham like that is a sympathetic part is dangerous, and there were spots where the part was a little puzzling the way Jack played it."

"How'd you get along with Lester? —That's swell. He's really a nice guy. Joe, I couldn't have kept up with the parade, but he tries hard."

PIPING IT ON

"Personally, I wouldn't let Lester direct traffic on a one-way street, but—Oh, and who photographed that picture for you, Joe?—I didn't catch it on the credit lists. Harry? No wonder Helen looked like the breaking up of a hard winter. —Well, your picture will make a lot of money, Joe. It couldn't have cost much. I was guessing about \$150,000. —No kidding, Joe? It did? Five hundred grand! Production costs sure are going up. —I've got a conference, Joe. Come over and have lunch some day. Congratulations again on your picture, Joe; I really enjoyed it. So long."

Office Cat...

THINK THIS OVER—

"Work faithfully eight hours a day And don't worry... Then in time you may become The Boss And work 12 hours a day. And have All The Worry!"

Junior—My Uncle Larry's got exclamation rheumatism.

Senior—You mean inflammatory rheumatism, don't you?

Junior—Nope, I mean exclamation—every time he tries to move he yells and curses.

Abraham Lincoln once said: "If you intend to go to work, there is no better place than right where you are... If you do not intend to go to work, you cannot get along anywhere... Squirming and crawling about from place to place can do you no good."

News Behind The News The National Whirligig

By RAY TUCKER

POWER: No Presidential speech or action ever before antagonized this dominantly Democratic congress so deeply as F.D.R.'s oratorical attempt to blame the legislators for the steady increase in the cost of living. Key men who have enjoyed Mr. Roosevelt's confidence retort that he himself is responsible for the failure he lays at their door. And they are opening their private files to prove their political point.

When the house banking and currency committee canvassed the question in secret session, Secretary Claude A. Wickard and Price Administrator Leon Henderson advocated the 110 farm parity scheme which the chief executive now assails. Although he did so without protest, he signed the bill containing the steady increase in the cost of living. He is now opening his private files to prove their political point.

When the male guests had retired to the library after coffee, Colonel March trotted out a box of extra special cheroots and handed them first to Jack Dempsey's lucky conqueror, Gene Simps and secondly to the other guests. "What are those things in that box?" he asked.

"Why," responded the lovable commissioner, "those are cigars. And let me tell you something—I never learn to enjoy life until I began to smoke."

WHIFF: Gene Tunney, the literary and military purist who used to be a pug (but don't mention that historical feat when the Shakespearian student is within earshot had dinner recently with the grand old man of the federal trade commission, Colonel Charles H. March of Litchfield, Minnesota.

When the male guests had retired to the library after coffee, Colonel March trotted out a box of extra special cheroots and handed them first to Jack Dempsey's lucky conqueror, Gene Simps and secondly to the other guests. "What are those things in that box?" he asked.

"Why," responded the lovable commissioner, "those are cigars. And let me tell you something—I never learn to enjoy life until I began to smoke."

The colonel is over seventy and he took his first whiff two years ago. But he could puff for a man of fifty. So Gene may be all wrong.

MASTER: That Wendell Willkie will be the next secretary of state is the firm belief of observers close to the situation. This prospect is the key which explains the Hoosier's mysterious global travels. The jaunt is much more than a good will mission. It is intended by Mr. Roosevelt to study the "postgraduate college education" in world affairs and personalities for the leader slated to take elderly Cordell Hull's job.

The selection by the President of his former personal, as well as partisan, enemy is considered by insiders to be an indication that F.D.R. thinks the struggle is going badly. Otherwise it would not be characteristic of him to elevate a potential rival as his right-hand man and emissary. Other leaders reason that Mr. Roosevelt deliberately is grooming Mr. Willkie for the White House in case he himself should pass out of the picture. They hold that the chief executive is convinced that the erstwhile G.O.P. standard-bearer is the one big figure in either party whose views on foreign policy are the nearest to his own and, since the struggle will not be ended by 1944, W. W.—strange as it seems—is the choice to carry on.

Under United States law the secretary ranks next to the vice president in order of succession. Any official outstanding in the post especially if he were to run on a "win the war" or coalition ticket. Should Willkie on his trip mollify suspicious Stalin and then fly to India as the head man's designated arbitrator and break the Gandhi impasse, his stock would soar. And the President would be credited with a master stroke of political genius.

LEAVES: The boys and girls may cool off—they frequently do—but even good party men are preparing for a showdown with the President. The resent what they call his effort to "alibi" himself and also his forcing a deadline (October first) for repeal of the 110 parity figure.

The house banking and currency committee, where any action must originate, has an agricultural bloc majority headed by able and stubborn Henry B. Steagall (D. Alabama). It may grant F.D.R.'s demand, but it will undoubtedly couple any crackdown on farmers with a stiff provision for preventing further wage raises under the formula promulgated by the war labor board and approved by Mr. Roosevelt. Legislators will be reluctant to leave to the White House the task of fixing industrial pay at a specific level, for the chief executive has failed to keep promises along that line in the past. They face practical difficulties in deciding what agency or individual should administer this authority because they distrust Mr. Henderson, have no use for Madame Perkins and distrust W.L.B. Chairman William H. Davis. And they have no desire to clothe F.D.R. with more power. They probably will wind up by creating a board of three who must be confirmed by the senate.

The President also castigated congress for its delay in passing a revenue bill. To that criticism only standing personalities on Capitol Hill—and they ought to know—say the measure would be on its way to the statute books now had it not been for treasury indecision. Every time the ways and means committee was prepared to act, Mr. Morgenthau's aides rushed forward with new and unworkable schemes. The members were willing to speed a separate law holding excise levies, but the downturners objected. As a result, it is estimated the government lost two million dollars a day in income during the last two months.

ARMY RESENTMENT

Chief difference between Army Administrative and Army Specialist is that the newly formed schools will pluck their candidates from the ranks, while the Specialist Corps was supposed to haul in from civilian life such men whose experience in the army was not sufficient for promotion, but whose age and/or physical qualifications entirely immunized them from selective service. It is likely that men from both outfits will be working side by side.

However, the suspicion that Army never cottoned to the idea of the Specialist Corps; that there was a somewhat natural service resentment toward taking a civilian, arming him in uniform, and handing him a rank that often topped men who had made Army their peacetime career. Many were the pitfalls that gapped before the Specialist Corps, and thick was the red tape.

Specialist Corps' public relations sag today in the general voice that "We are releasing a number of men to Army duty every day, and beyond that point we do not care to talk." This is something of a far cry from the earlier days of the corps, when public relations was anxious to tell all.

At any rate, there has been no noticeable flood of Specialist Corpsmen into desk jobs, and no staggering exodus of men from the ranks of officers to field assignments. Hence the newly formed schools, while not a duplication of Specialist Corps, might well be designed to displace the civilian outfit. One of Army's peculiarities is that it likes to have regular Army men doing Army work.

EXPECT MORE SCHOOLS

Selection for admission to the administrative schools will parallel selection for regular officer training. After a man has completed his basic training, he can apply along regular channels for a crack at the school. If his education, civilian training or experience qualifies him, he will be placed in one of two second lieutenant's bars.

Of course, opportunity is necessarily limited at the moment, since size of the A.E.F. that is not revealed in the official dispatches. They explain that the War Department recently conferred with contractors and union delegates and thereafter switched the entire building trades of Great Britain to the biggest construction program in English history. From now until winter they are to devote practically their entire time to the erection of port facilities, camps, air fields and barracks solely for the United States army.

Public and private work has been stopped. Twenty-eight thousand carpenters, masons and plumbers were to be called in the latest "draft," have been deferred until after October, unique revolutionary feature to hasten the accomplishment is that, as the task is spread around and leaves pools of unemployed skill help, these craftsmen will be called in at lower classification or as laborers but they will be paid the same wages as their former high ratings. Even the British armed forces and government services are being drafted. Those who were artisans in civilian life in order to speed the campaign.

One of General Eisenhower's departments wanted a special headquarters and used it. Within two days to complete. Scaffolders, painters, electricians and others hustled in twelve-hour shifts. They even tore out steel from the Palace of Westminster and used it. Within nine days the job was finished and on the tenth the Yanks were open for business.

Army's 2-Bs Get Their Chance To Become Officers

By ROBERT RUARK

You poor guys who aren't healthy enough to be officers, but who qualify for limited service, but who draft, are now permitted a slight recess for loud whoops and the clicking of heels. Because Army has just flashed a bright ray of hope, aimed directly at the 2-B selective service classification.

Until very recently, no matter how much valuable experience and intelligence might seethe in one bulging cranium, if the owner's eyes didn't measure up to officer standards he was out of luck so far as an eventual commission was concerned.

Selective service, however, wasn't so squeamish. Draft boards snapped up all weak-eye one, tabbed them "Limited Service" and he was in the Army. Although Joe Astigmatism might have been Einstein's uncle, mentally, a sergeantcy was his ceiling, and a not-so-glorified clerkship was his fate for the duration.

But Army has just established three officer training schools, shaped especially for the limited service draftee. There the fellows who are not physically qualified for combat, but who are not sufficiently lame, halt or blind for 4-F, can go to school and come out as commissioned officers, headed for administrative jobs. They will work as post adjutants, personnel officers, and likely will see eventually into non-combat jobs in all the various service classifications.

Products of these schools—which, by the way, are to start classes Oct. 1 at Grinnell College, Florida University and North Dakota Agricultural College—will be designated as "branch immaterial" officers, which is to say they belong to no specified section of the Army, but are available for duty in an administrative field which does not call for high technical knowledge.

The idea, of course, is to uproot a lot of seat-polishing officers who are fit for active duty, and to replace them with men who can polish the seats just as well, but who wouldn't be at home behind a machine gun emplacement. And the new program would seem to indicate that Army isn't taking too kindly to the Army Specialist Corps, which was organized for the same purpose—releasing line officers for field duty.

ARMY RESENTMENT

Chief difference between Army Administrative and Army Specialist is that the newly formed schools will pluck their candidates from the ranks, while the Specialist Corps was supposed to haul in from civilian life such men whose experience in the army was not sufficient for promotion, but whose age and/or physical qualifications entirely immunized them from selective service. It is likely that men from both outfits will be working side by side.

However, the suspicion that Army never cottoned to the idea of the Specialist Corps; that there was a somewhat natural service resentment toward taking a civilian, arming him in uniform, and handing him a rank that often topped men who had made Army their peacetime career. SERIAL STORY OF BRIGHTNESS GONE

BY HOLLY WATTERSON

COPYRIGHT, 1942, NEA SERVICE, INC.

THE STORY: When Candace Beck falls in love with her cousin Peter, her medical school friend, Martin Corby, Peter realizes that he loves Candace—and is jealous. Peter craves an excuse to leave early for a summer hospital job, taking Martin with him the morning after he leaves. Later, Martin calls at the house of Bruce, Candace's father, and tells him that he and Candace are engaged. There he and Candace tell each other of their love and plan for marriage when Martin has finished medical school.

with how she had been keeping herself occupied.

Then Bruce said, "Which college is it to be this fall?"

Candace smiled; her face lighted happily. "I've been dying for a chance to tell you both," she confided. "I go into training at Merymount Hospital next week."

"You what?" Belle questioned sharply.

Her tone erased Candace's smile. She repeated carefully, "I'm going into training, I'm going to be a nurse."

"Oh, you are," Belle said, smiling. "How romantic! How too, too charming! So there's to be a glorified scullery maid in the family! How delightful." She dropped her eyes, and her face grew pale.

"Get that insane idea out of your head at once," she ordered.

Out of sight, under cover of the tablecloth, Candace clasped her hands tightly together to still her trembling. "I haven't the slightest intention of doing that," she said.

Bruce said, "I'll manage this, Belle."

She whirled on him. "May I point out to you," she remarked, her tone dripping scorn, "that under the circumstances you can scarcely claim to be able to manage anything? I'll manage this—and I prefer," she added sharply, "to do it alone."

Candace turned her back so as not to see Bruce's ignominious retreat from the room. What the trouble between them was she couldn't guess, but she was hot with shame for him at Belle's treatment and her indignation lashed her into a fury that made her forget some of her own fear.

Belle had lighted a cigaret and was inhaling deeply and then exhaling the smoke in angry gusts. "It's a simple reversion to type, I suppose," she said. "Peasants don't mind doing things like that. And your father was a peasant. With a gift of music, but a peasant for all that. Did it ever occur to you," she demanded, "in your zeal to do things that are expected of you, that something might be expected of you for all I've done for you?"

Candace said miserably, "Of course, Aunt Belle, I owe you a lot, I know. But—"

"But what? But you're just like your mother in that, that's the answer, not an ounce of gratitude in your whole make-up. I should have known. I wasted my whole youth doing without things so that she could have them. But when she had a chance to marry well so that she could make all that up to me, did she do it? No! No; instead she

DOMESTIC TEMPEST

CHAPTER VI

BELLE came home unexpectedly the end of July.

The circumstances of her return had an ominous air. Bruce was with her and they had with them, beside Belle's ever-present personal maid, the servant couple from the apartment in town. Candace saw neither of them that night or the next day, but whenever she passed through the halls she could hear their voices: Bruce's low and, it seemed, pleading; Belle's not infrequently ragged, though she heard Belle sobbing angrily.

She saw Bruce alone for an instant the next evening before dinner. It had been weeks only since she'd seen him, but she was shocked by the change in him, he looked so tired and so almost old. She said lightly, "It's been a tough summer in town, hasn't it, Uncle Bruce?"

He sighed. "Plenty tough," he agreed.

"You shouldn't have stayed there all the time," she said.

Candace saw his expression change—he stood straighter, as though he had snapped to attention, and his face took on the harassed expression that the servants invariably wore during one of Belle's not infrequent rages, and she knew that Belle had entered the room behind her. She thought indignantly, she treats him as though he were her servant too. She turned slowly, her chin unconsciously lifting, and allowed Belle to advance without making any move toward her.

"You've grown older," she said.

Candace laughed. "It's a habit we all have," she agreed.

Belle looked almost apoplectic at that; but Candace's tone had been pleasant and there was nothing in her expression to indicate malice, and after a tense instant Belle apparently decided to let the remark go.

"THE conversation during dinner degenerated, in their combined efforts to keep the peace, into almost childish prattle between herself and Bruce, having to do

fell in love, 'romantically' in love like any cheap little servant girl, with her violin teacher and ran off and married him—"

Remembered bitterness threatened for an instant to choke her; she brought herself up sharply. "You might at least have consulted me about your plans. Why didn't you?"

Candace said honestly "It never once occurred to me that you'd be at all interested, or care what I did."

"I don't care, really," Belle admitted brutally. "My only real interest is in getting you off my hands as satisfactorily as possible, in a way that will reflect no discredit on me—and that will be permanent." She narrowed her eyes, peering at Candace through the smoke of her cigaret. "I'm going to be unpleasantly frank," she said. "You have not a penny to your name but what I choose to give you; you haven't an extraordinary brain; you have nothing at all but a certain youthful prettiness. If you take my advice, you'll go off to a good college while it's still possible, and you'll take every opportunity to meet eligible men, to make a good marriage for safety. If—"

A thought struck her and she paused speculatively. "It's possible, that in your quiet way you've been ahead of me all this time. It's possible there's already a man in the picture. Are you?" she demanded, "in love with Peter?"

Peter! It was as though Belle had accused her of being in love with a brother; Candace's face flamed.

Belle took the blush as confirmation. "I thought so," she said. "That explains the nursing notion. I suspected something of the sort a long time ago—"

Candace said quickly, "Aunt Belle, stop! It isn't Peter. Peter has nothing to do with it, he doesn't even know—"

"Then," Belle said slowly, after a long pause, "I'll finish what I was saying. If you can't manage matrimony, which is the safest career for any woman, you'll have to earn your living. But it will have to be in some dignified field. You'll promise that or my help stops right now.—Well, what have you to say?"

Candace said quietly, "I'm going into training, of course."

Belle crushed out her latest cigaret with an air of finality. "In that case, there's nothing more to be said. Except that, since you do have them, but when she had a chance to marry well so that she could make all that up to me, did she do it? No! No; instead she

Year At Texas U. Costs Only \$315

Special To The News.

AUSTIN, Sept. 16—It will take some ready cash to register at the University of Texas this fall, but the prospective student need not have nightmares about having to pay fees heavy enough to keep the school in operation.

Official estimates of the total cost of a year in the university, including room and board, books, official fees, and laundry, run as low as \$315 annually.

Tuition for Texas residents is \$25 per semester. Out-of-state students must pay more, in accordance with the fees charged by their home state universities against Texas students. An additional \$7 general property deposit is required of all students at registration time covering library fines and breakage charges which may accumulate during the year. This fee is refundable at the close of the school year.

Mrs. McNally, are: Mrs. H. E. Schwartz, staging committee chairman; Mrs. Fred Roberts, publicity chairman; Mrs. H. M. Luna, judging committee chairman; Mrs. Dan Williams, hospital-ity committee chairman; Mrs. Paul Taber, junior exhibit committee, chairman.

Outline of the nine sections in which the show is divided will be contained in a story to be published in tomorrow's issue of The Pampa News.

Alexander the Great forbade his soldiers to wear beards, to avoid an advantage to the enemy in hand-to-hand fighting.

El Paso-Chihuahua Road To Be Opened

EL PASO, Sept. 16 (AP)—Texas is represented officially today by Acting Lieutenant Governor H. L. Winfield at a Mexican Independence day celebration at Chihuahua, Mexico.

He was aboard a special train which left last night, carrying 300 persons to the Mexican city.

Governor John E. Miles of New Mexico is driving to Chihuahua, as were Reuben Williams and R. L. Bobbitt, Texas highway commissioners. The celebration will include the opening of the El Paso-Chihuahua highway.

Chairman Announces General Rules For Victory Garden Show

General rules governing the exhibits show, sponsored by the Pampa Garden club, to be held September 25-26 in the red brick school building on the junior high school campus, were announced today by Mrs. R. T. McNally, harvest show chairman.

All entries in the canned fruits and vegetables must be made between the hours of 2 and 6 o'clock Thursday afternoon, September 24.

All entries of fresh fruits and vegetables must be made not later than 10 o'clock Friday morning, September 25.

All entries in flowers and arrangements and all other classes must be completed not later than 11 a. m. Friday, September 25.

No exhibit can be moved without the consent of the committee until the end of the show.

Entries not conforming to the rule of the schedule will be disqualified.

Specimen cut flowers must be shown in containers by the committee.

Exhibitors' containers should have names and addresses written on adhesive tape and pasted on the bottom. Committee is not responsible for exhibitors' property.

When possible, label specimen exhibits.

Exhibitors can make only one entry in each class.

No one will be admitted to the show room during the judging.

First, second, third and honorable mention seals will be awarded in each class.

The show is one of similar shows over the nation, and proceeds from the sale of tickets go to army and navy relief. It will be the first time a show of this kind has ever been held in Pampa.

Officials of the show, other than

FUNNY BUSINESS

"But capturing prisoners in today's maneuvers was not for keeps!"

Dive-Bombers Give Germans Their Advantage

BY HENRY C. CASSIDY

MOSCOW, Sept. 16 (AP)—The indomitable defenders of Stalingrad, under a grinding assault by land and air, wavered slightly but held their lines firm today, the 23rd since the German besiegers lunged at the Volga city with every weapon at their command.

The Soviet command acknowledged that heavy concentrations of Nazi tanks and infantry, preceded by large air forces, had inched ahead slightly in a narrow sector on the west of Stalingrad's defense wing.

Other advices said the gain probably was no more than a few hundred yards, but that defiant red armies apparently were intact. It was the only change reported in 12 hours.

The Germans' dive-bombing was some of the heaviest of the war, and Red Star, attributing most of the enemy successes to its air might, conceded the gravity of Stalingrad's plight because of mass bombing raids.

But Russia definitely felt the first bite of winter in Moscow, the inhabitants donned overcoats because of the coldest autumn day so far. Virtually the same weather prevailed at Stalingrad.

The Germans, without specifying, reported gaining "considerable additional ground" at Stalingrad and acknowledged that the Red army was attacking in force at Voronezh and Rzhev, likely anchors of a Nazi winter line.

South of Voronezh, about midway between Stalingrad and Moscow, Red Star said Russian forces had recaptured three heights and had repulsed five enemy attacks in one sector, defeating two Hungarian regiments, two German battalions and wrecking 20 tanks.

A new Russian crossing of the Don in this region also was reported.

Red navy sailors and marines without specifying, reported capturing "considerable additional ground" at Stalingrad and acknowledged that the Red army was attacking in force at Voronezh and Rzhev, likely anchors of a Nazi winter line.

South of Voronezh, about midway between Stalingrad and Moscow, Red Star said Russian forces had recaptured three heights and had repulsed five enemy attacks in one sector, defeating two Hungarian regiments, two German battalions and wrecking 20 tanks.

The curfew bell is supposed to have been introduced into England by William the Conqueror; the object was to warn the public to put out their lights and fires at eight o'clock in the evening.

It isn't TABOO any more for girls to know these truths

Some girls take CARDUI, as directed, three days before "their time" to help relieve periodic pain due only to functional causes. Others take it as a tonic to stimulate appetite and aid digestion by increasing the flow of gastric juices, thus helping build up strength for those demanding days to come. A 62-year record says CARDUI may help. Try it, won't you?

KILT OR TROUSERS—TAKE YOUR CHOICE—Wooly-like winter lotions, important fall-winter 1942 fashion trend, make the warm-looking clothes pictured here, and these five garments are apt candidates for any campus or weekend wardrobe.

The well made, slim slacks suit, shown at left, is composed of cotton canvas plaid trousers, cotton covert jacket lined with the same plaid, covert waistcoat. All are good companions to either of the two pieces which form the second costume, shown at right: tailored shirt, and slim culottes which look like a skirt.

Miss Ina Jo White And James York Marry In Dallas

Special To The News. SHAMROCK, Sept. 16—A recent wedding of interest to Shamrock and vicinity was that of Miss Ina Jo White, daughter of M. J. White of Oakland, Calif., and James A. York, son of Mr. and Mrs. W. A. York, of Dallas.

Nuptial vows were spoken Wednesday evening at 9:30, in the home of the bride groom's brother, Mr. and Mrs. D. M. York, with the pastor of the Missionary Baptist church, of Dallas officiating.

Attending the ceremony were Mr. and Mrs. D. M. York, Mr. and Mrs. J. M. York and son, Bill York, Jr. The bride wore a black chiffon dress with white accessories and a corsage of gardenias.

Mrs. York, who was a student in the Shamrock High school, before going to Dallas, has been attending the Crozier Technical school for the past year.

The bride groom was reared in Dallas and has been attending Crozier Technical school for the past two years.

Mr. and Mrs. York will make their home in Dallas.

Women's Society of Christian Service of First Methodist church will meet in circles at 2:30 o'clock.

Demonstration On Storage Of Fruit, Vegetables Given

Coltux Home Demonstration club met recently with the president, Mrs. J. H. Romines, in charge. After a short business session, a demonstration on proper storage of fruit and vegetables was given by Mrs. Julia E. Kelley.

Mrs. Kelley pointed out that green tomatoes can be harvested and stored for a month or longer. The vines should be pulled and hung with tops down in a well ventilated room or garage where they will keep cool but will not freeze. There should be just enough moisture in the room to prevent shriveling. In planning storage the following points must be taken into account if the fruits are expected to keep their fine flavor and food value.

"Sanitary conditions are necessary for the retention of quality. Disinfect the room to kill rot spores. Use a spray made with one pint of formaldehyde in 15 gallons of water; let dry well before storing products.

"Only good quality products should be stored, those that are firm, well matured, properly cured and free from spots and bruises.

"The stage of maturity of each product needs to be considered for storage. Late maturing vegetables are generally best for storage."

Mrs. Kelley concluded. Members present were Mrs. J. L. Lockard, Mrs. Melvin Roberts, Mrs. J. H. Romines, Mrs. Welch, Mrs. Willis, and Mrs. Larry Rider.

The next meeting of the club will be in the home of Mrs. J. H. Romines on Sept. 25 from 2 till 4 o'clock. The public is invited to attend this meeting when food for victory will be emphasized. A demonstration of casseroles will be conducted by club members.

Layette Shower Given As Courtesy To Mrs. Bailey

Mrs. Pete Bailey was honored at a layette shower in the home of Mrs. N. L. Welton recently. Hostesses were Mrs. C. R. Welton, Mrs. Bill Tidwell, and Mrs. N. L. Welton. Games were conducted after which gifts were opened.

Pink and white cake and ice cream were served to Meses, Joe Mullins, W. A. Carter, C. Z. Holliman, R. D. Berryman, L. C. Blanton, L. E. Wilson, Kenneth Bond, Artie Salter, Dud Baggerman, Bill Tidwell, N. L. Welton, C. R. Welton; Miss Betty Sue Mullins, Miss Patty Welton, Miss Halliman, and the honoree.

Gifts were sent by Meses, Lela Nicholson, Holly Gray, J. W. Piersall, Roger Pace, Bush Haggard, John Haggard, Alvin Bell, C. Bennett, and Miss Bertha Baggerman.

India's total area is 1,567,000 square miles.

THE REV. B. A. NORRIS, above, pastor of First Christian church, will give the devotional at the first meeting of Horace Mann Parent-Teacher association to be held Thursday afternoon at 2 o'clock in the school auditorium. The main topic for discussion will be "Preparedness." Group singing will be led by Miss Marion Reichling. New mothers in the school will be recognized and officers and teachers are to be introduced.

Mrs. Kelley Speaks At Westside Home Demonstration Club

Westside Home Demonstration club met recently in the home of Margaret Taylor with Mrs. Julia Kelley in charge of the program.

In the demonstration, Mrs. Kelley gave instructions on how to store vegetables for winter use. The first thing to be considered is to have plenty of ventilation, and yet guard against freezing.

"In planning how to care for vegetables and fruit we must utilize what facilities we have. In using a cellar one can be sure to have it well ventilated by putting two small pipes through the roof to within a foot or so of the floor, then in opposite end have one ventilator, thus circulating fresh air through the cellar. All shelves should be slatted instead of being built solid to allow circulation of air around stored vegetables," she stated.

Mrs. Kelley also gave instructions on how to hill up vegetables to prevent freezing during winter months. Here care must be taken to have ventilation yet prevent freezing.

"The use of the double walled pantry off the kitchen is the ideal storage place, and is handy to use without climbing stairs with heavy loads. This must also be well ventilated by venting through the roof."

Refreshments were served to Meses, Kit Autry, Minor Langford, Russell Cartwright, Julia Kelley, Eugene E. N. Franklin, and Margaret Taylor.

CHILD'S FROCK

8260

2-6 yrs.

A fashion scoop for the two-to-sizes is this clever little dirndl frock, cut just like big sister's dirndl. The bodice opens to the waistline, so it is easy to get into. The skirt has flouncing, pretty fullness, graceful for the chubby or slim, small figure.

Pattern No. 8260 is in sizes 2, 3, 4, 5 and 6 years. Side 3 years, with short sleeves, requires 2 3/8 yards 35 or 39-inch material, 1/4 yard contrast for collar and cuffs.

For this attractive pattern, send 15c in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Study the Fashion Book for home sewing inspiration. Styles in it are for children and adults, sizes 1 to 32. Order your copy today, 15c. A catalogue may be ordered with a 15c pattern for 25c plus 1c for postage.

That Extra Something!

... You can spot it every time

IT TAKES special skill to make a thing good. It takes skill to make Coca-Cola—the skill that comes from a lifetime of practice. There's a finished art that goes into its making.

In Coca-Cola there's a special blend of wholesome flavor-essences which merges all the ingredients of Coca-Cola into the taste that makes Coca-Cola so uniquely refreshing. No one can duplicate it.

Ice-cold Coca-Cola is more than just thirst-quenching,—it is refreshing. The drink that goes into refreshing energy. The drink whose quality sets it apart in delicious goodness.

* * *

War-time limits the supply of Coca-Cola. Those times when you cannot get it, remember: Coke, being first choice, sells out first. Ask for it each time. No matter how short the supply, the quality of Coca-Cola carries on.
