'Rollback' in Food Prices Also Sought

WASHINGTON, Jan. 19.—Bernard M. Baruch laid before senators today an 11-point program for "peace-waging" which includes a "rollback" in food prices, no wage raises and no tax cuts for two years.

Baruch was a witness before the Senate Foreign Relations Committee on the Marshall Plan for multi-billion dollar aid to Europe. He endorsed it, but told the senators:

"Dollars alone will not save Europe nor win the peace."

Negro Student Will Attempt to Enroll at OU

NORMAN, Okla.—(AP)—The only Negro ever to attempt to enroll in the University of Oklahoma since it was founded in 1892 was to try again today bolstered this time by a U. S. Supreme Court decision.

She is Mrs. Ada Lois Sipuel Fisher, 23, of Chickasha, Okla., a graduate of Langston University, the state's only institution of higher education for Negroes.

Denied admission when she first sought to enroll in the university's law school two years ago, she appealed unsuccessfully to the State District Court and State Supreme Court which upheld the state's laws requiring racial segregation in the schools.

The National Association for the Advancement of Colored People carried the case to the U. S. Supreme Court which last Monday ruled that the state must make "equal education facilities" available to Negroes as promptly as they are for white students.

The State Supreme Court Saturday directed the State Board of Regents to set up a separate law school "to afford to plaintiff and all others similarly situated an opportunity to commence the study of law at a state institution on the same basis as citizens of other groups are afforded such opportunities."

The State Supreme Court order, however, directed that the regents act in conformity "with the provisions of the constitution and statutes of this state requiring segregation of the races in the schools of this state."

Mrs. Fisher attended a meeting in Oklahoma City last night of state officials of the NAACP and Thurgood Marshall, attorney in the organization's New York office. After the meeting, she was announced she would attempt to enroll in the university law school today.

Dr. George L. Cross, president of the university, declined comment other than to emphasize that the three-day official registration period for the second semester does not begin until Jan. 26.

Members of the Board of Regents, meanwhile, were to meet in Oklahoma City today to consider the problem.

LAMB CHOPS ARE GOING UP—This gamboiling English lamb seems to be enjoying a spring in winter, but it isn't pulling the wool over anybody's eyes. Actually the picture symbolizes the high price of lamb and mutton. As usual, the sheepskin consumer gets fleeced. (Editor's Note: The caption writer got a lambasting for perpetrating the foregoing.)

Excess Profits Tax Called for by Baruch

WASHINGTON, Jan. 19.—Bernard Baruch proposed today to reorganize an excess profits tax on corporations, but he refused to go along with President Truman and Congress leaders who are plugging for an income tax cut.

Baruch opposed any tax reduction for two years. Mr. Truman wants a 340 income tax cut on taxpayers and each dependent, but only if Congress taxes corporation profits to make up the revenue loss.

Secretary of Commerce Harrison supported the President's position by warning that "our economy is in an inflationary situation and sound policy demands that the level of taxation be maintained."

Baruch, longtime adviser to government leaders, appeared before the Senate Foreign Relations Committee today to urge that the excess profits tax be restored at 50 percent of wartime levels, a different basis than Mr. Truman urged. He offered it as one point in a program for building peace.

Harrison testified before the House Ways and Means Committee which is considering income tax reduction proposals.

Opposition to "any material reduction in income tax rates" was expressed by the ways and means committee by the American Farm Bureau Federation President Allan B. Kline said in a statement that "a period of inflation" is not the time for such a move.

Harrison did not specifically refer to the President's excess profits tax suggestion in his opening statement to the committee, but he anticipated objections that such a tax would hamper investments in business expansion. He commented:

"Since business needs for investment are being reasonably met with an abundance of liquid means of financing by business, I do not believe it is meaningful to say that there is a shortage of savings to satisfy business needs."

Republicans weighed a billion dollar or more cutback in the \$5,600,000,000 tax slashing measure today as a bid to win Democratic votes and thereby nail down "vain profit" claims for the measure.

The decision will be made by the GOP high command at the House at a meeting tentatively set for tomorrow.

Even in advance of that strategy huddle, party chiefs are budgeted for shopping to begin on President Truman's \$59,700,000,000 budget.

Rep. Thayer (R-N.Y.), chairman of the 108-member Senate-House Legislative Budget Committee called a group of his GOP colleagues to an informal session today to begin work on a federal spending bill that has been variously forecast at between \$3,000,000,000, amount of Mr. Truman asked for in 12 months beginning July 1.

Health Inspector Ray Salmon said the 18 who enrolled attended regularly and a few others attended some of the later classes.

The same school had been conducted in Pampa the previous week by Breedlove when 45 certificates were issued.

Russians May Want to Take Over Berlin

BERLIN, (AP)—Russia is expected to sound off sharply against the new British-American bizonal occupation set in Western Germany when the Allied Control Council meets tomorrow, but officials of the two Western powers predicted an outright break would be averted.

These officials and German themselves wondered, however, whether the Russian occupation commander, Marshal Vasily Sokolovsky, would demand that the U. S., Britain and France pull out of Berlin, on the ground that the new bizonal set-up nullifies four-power agreements for control of Germany.

The council has not met since the London conference of foreign ministers broke up. Subsequently the Russians established their new joint governmental set-up in Western Germany, giving Germans more power in the government of the economically merged zones.

Suggestion that the Russians might try to take over sole control of Berlin has spread alarm among the 2,000,000 Germans living in Western occupied zones of the German capital.

However, none of the Western powers' officials here expects the Russians to make such a move to force them from Berlin. All see RUSSIANS, Page 3.

Kathleen Garrett of Bryan Is Married To John B. O'Keefe

PANHANDLE (Special)—Miss Kathleen Garrett, daughter of Mr. and Mrs. E. H. Garrett of Bryan, became the bride of John Baird O'Keefe, son of Mrs. Pauline O'Keefe and John O'Keefe of Panhandle at nine o'clock on Saturday night, Jan. 10 in the home of Rev. and Mrs. R. L. Brown of College Station. Rev. Brown, who is pastor of the College Station Baptist Church, officiated at the double-ring ceremony and Mrs. Brown played the nuptial music.
Vows were pledged in the living room, where seasonal decorations made a pretty setting.
The bride wore a black and white ensemble with black accessories. Her corsage was white orchids, frilled with pink maline.
Attending the bride as maid of honor was Miss Elaine Brown of Wellbore, who wore a brown ensemble and a pink carnation corsage. Jimmie Joe Weatherly of Panhandle was the best man.
Mrs. Garrett wore a dress of black crepe with green and silver sequin trimmings and black accessories. Mrs. O'Keefe wore a brown and white ensemble with harmonizing blouse and accessories of lizard.
For a wedding trip to Galveston and other southern Texas cities, Mrs. O'Keefe carried a Chinese kid coat, with her wedding ensemble.
The bride is a graduate of Stephen F. Austin High School at Bryan and received her B. S. degree from Sam Houston State Teachers' College in Huntsville. For the past two years she has taught public school music in Panhandle and Conroe.
The groom graduated from Panhandle High School and attended Wentworth Military Academy in Lexington, Mo. He served in the U. S. Navy in the Pacific area, and is now engaged in farming and stock raising near White Deer, where they will make their home.

Texas Today

By CLAYTON HICKERSON
Associated Press Staff
Texas' 21 House members and two senators in Congress, like those from other states, receive \$12,800 per year in salary. This was increased from \$10,000 annually in 1946 by the 79th Congress.
At the same time the Congress voted itself a tax-free \$2,900 expense account. Also voted by the 79th Congress was a retirement plan for congressmen which gives them a substantial life income if they leave the government service after several years on the job.
To meet increased living costs and to free congressmen from financial worries for the important national work they do, voters at home accepted the expenditures with little or no objection.
Congressmen are also furnished high well-staffed offices with furniture, heat, ice, water, telephones, typewriters, and all office material even to expensive duplicating machines and dictaphones.
Some items like dictating machines and duplicators are not furnished by the property custodian. They can be bought on the congressman's stationery account, paid for by taxpayers. If, when the member leaves office, he wants to take home material bought in the stationery room, it is free to do so.
Some members buy Christmas presents on their stationery accounts. They can get fine gold desk sets, expensive fountain pens, and even blankets or books here.
Congressmen get free use of the mails and telegraph service as long as the use is deemed "official business." Senators have free use of long distance telephones, air mail and special delivery stamps are distributed to members by the disbursing offices.
Some congressmen cash their stamps.
Ten cents per mile is paid congressmen to and from their homes each session. They vote themselves a month every year.
Texans, like members from other states, have been known to call on the Army or Navy when they want a fast trip home. The armed services, with important military bills pending in Congress, try to accommodate the legislators with planes.
There will be more flying trips home in 1948 with elections facing all the representatives and one-third of the senators.
There have been instances of kick-backs and salary refunds from office personnel or patronage employees. In recent years such practices became an election issue in Texas.
Radio enables some to cash in on their jobs through honorariums for appearances on network programs.
A congressman has been known to scalp football tickets which he purchases through the office. Race track duets have gone the same way. An Oklahoma congressman, since defeated, sold real estate and used automobiles from his office. He said he made more in real estate than he did as a congressman.

Humor Enters in Jury Examination

Jury examination in the trial of S. C. Couch vs. William Paul Hugg et al progressed rapidly this morning, being slowed only by courtroom laughter at the reply of one of the prospective jurors.
Asked by the examining attorney if he knew any of the attorneys in the case, the man replied, "Only the man there without any hair."
"You mean Aaron Sturgeon?" the attorney asked. "Would his absence of hair influence your decision if you were chosen as a juror?"
The plaintiff's petition alleges that his car was in collision with that of the defendant near Mesquite March 13, 1943, and that as a result the plaintiff received certain injuries.
From all appearances, the main question which will be brought before the jury is whether or not William Paul Hugg was acting as the agent of the owner of the defendant's vehicle at the time the accident is said to have occurred.

Registration of Voters Increasing

BATON ROUGE, La.—(AP)—With only six days remaining before Louisiana nominates a new Governor, candidates in the race had something to ponder Thursday—the sudden upsurge in registration.
Wade O. Martin, Jr., secretary of state, estimated that 900,000 voters had registered for voting in the Jan. 20 Democratic primary—a jump of about 182,000 over the number registered four years ago.
Candidates for governorship include former Gov. Earl K. Long, former Gov. Sam H. Jones, Rep. Jimmie H. Morrison, and Judge Robert F. Kennon.
The Council of Foreign Ministers is not truly democratic because it is inclined to pay only lip service to the opinion of smaller nations.
Herbert V. Ewart, Australian Foreign Affairs Minister.
The ruler of the Orissa State of Stampur, India, has banned the utterance of the name of Mahatma Gandhi there, penalty being six months' imprisonment or a fine of 80 rupees.

"These measures, put into effect promptly, can boost production sufficiently to convert the whole Marshall Plan and still break the present inflationary cycle almost immediately, cancel part of the national debt, while laying the groundwork for orderly tax reduction in the future."
Baruch sided with President Truman in the dispute which is developing between the administration and some Republican Congressional leaders over how the Marshall aid program should be administered.
"Full operating powers to a single competent administrator" who would be subject to the President and secretary of state on matters affecting foreign policy.
That is the administration plan. Some Republicans have suggested an agency, directed by a eight-member board, to handle the program.

December Retail Sales In State Set Record

AUSTIN (AP)—Retail sales in Texas reached a record-breaking, \$225,000,000 in December, The University of Texas Bureau of Business Research estimated Wednesday on the basis of preliminary reports.
However, retail sales did not increase enough in dollars to offset spiraling prices, the bureau report said. In terms of merchandise and smaller volume was turned in 1947—than in 1946.
The December sales total was 29 percent greater than November's and 19 percent greater than that of December, 1946.

What Makes Wallace Run?

Some weeks ago, Henry A. Wallace said that if he had to choose between Mr. Truman and Mr. Taft for President, he would take the Ohio senator. That off-hand remark may point to the reason for Mr. Wallace's unreasonable announcement of his willingness to be President of the United States.

His election is most unlikely, of course, and he knows it. There isn't a chance that he can carry even one state. He has no national party. His only organized support comes from the Progressive Citizens of America and the American Labor Party—both split by his candidacies and, in all likelihood, the Communist Party.

Yet Mr. Wallace is going to run. And since he is something of a practical politician as well as an "idealist," he knows that all he can hope for is to swing the vote in three or four key states. Neither he nor anyone else can say whether he will be able to do it.

But a good guess is that the self-appointed leader of the unborn third party hopes to swing them to the GOP and that the GOP candidate will be Mr. Taft. The reasons behind this guess may do the senator a disservice. That is not intended. Yet the record cannot be ignored.

Of all the Republican aspirants, Mr. Taft is least enthusiastic about the Marshall Plan. He doubts that we can afford anything like what the administration is asking for European aid. He is inclined to let Europe work out her own salvation.

Mr. Wallace is bitterly opposed to the Marshall Plan or any other large-scale American aid to western Europe. He seems completely indifferent to western Europe's political fate or physical well-being. Apart from the pure Communist Party line, he has only one solution of the whole difficulty: The United States must disarm and stop opposing Russia.

We took the first provocative step, Mr. Wallace still insists. We have made Russia suspicious and belligerent. We are to blame for the few minor retaliations by Russia that Mr. Wallace will admit. If we only let Russia have her own way everything will be all right.

Mr. Taft doesn't hold these views. But it is entirely possible that Mr. Wallace is banking on a sharply reduced European aid program if Mr. Taft should be elected.

On domestic policy the two men are at opposite poles. Mr. Taft wants a minimum of government control. Mr. Wallace is a champion of planned economy. The former vice president has said more than once that this is capitalism's last chance, and that we must show Russia that our system is better than theirs.

We don't think that Henry Wallace is a revolutionist. We doubt that he would gain from the severe depression that he prophesies. Yet his dim view of the American capitalist system is also a matter of record.

• SO THEY SAY

The President told me over the phone my boss was resigning, and that he was appointing me Postmaster General. And then I fell off the chair. I'm still pinching myself.

—Jesse M. Donaldson, new Postmaster General.

It is the duty of government to expose the fallacy that high wages precede high prices, and the untruth that labor's record is unworthy or unethical.

—Edward H. Weaver, secretary, Treasurer, Kentucky State Federation of Labor.

GOOSE-STEPPING THIS YEAR?

It appears that Soviet Russia is now intensifying its campaign to take Germany into the Red camp. Few things could be more important to the success of world revolution. Few things could be more alarming to Western peoples.

The agents of the building unions will present the statement of these well-known truths with letters to the Vox Pop threatening the paper with nameless horrors.

However, I personally, never did pay them any heed and editors nowadays hold them in no higher respect than so many retired brigadiers, ministers or high school principals.

The fact is recognized that the building unions are a blight on the social and moral life of the country, a burden on the earnings of all the people and a siphon in the economic bloodstream.

By their extortions in the guise of wages and working rules they have been more responsible for the shortage of housing than any other factor including even the amoral suburban corruption of the dealers in materials.

This has produced the period of crowding and strain far beyond any reasonable necessity. The penalties will yet be paid on the gallows by irritated workers who shall have taken toll of their lives and others in close quarters made spiritually intolerable by the odors of cabbage, laundry and pipe smoke.

Twenty-five years from now, barns begotten in squalor, interlocked by barbed boards from Ossining to Folsom, will falter dumbly that they look to the wretched streets from ratty flats in Yorkville or Ederwater and drifted from fruit-stand pilfering to narcotics, tax evasion and homicide.

The few new quarters which have slowly risen since the war actually are the first appreciable additions to our general domicile since 1933, when the Roosevelt depression made permanent the cyclical Hoover slump.

They were so long a building, however, that the blue sink and laundry tub had given way to pink and the pink to yellow by the time the first occupants got in. These lucky nesters naturally were a select selection, as the new copy-deck idiom has it.

They were chosen because they were colored or not more than one generation removed from Pinar or Puerto Rico, had produced receipts for at least 10 paid admissions to the shrine at Hyde Park or belonged to the PAC of the CIO.

The required rent is only a fraction of the actual cost, the rest being concealed in subsidies borne by the people, including, but not limited to, the obdurate ignoramus who laid the brick and got the outlandish wages. The late in housing has been going on since 1929 and we are now almost two decades in arrears in a nation where dilapidation is fast owing to the rapacity of the artless contractors and speculators which makes for filmy building in the first place.

A 20-year-old house is still in the shakedown phase in Europe, barring war. But in the United States it is obsolete and crumbles with a few years of lewd love-lyrics of adolescents written in imperishable chalk and well on its way to the slums.

As Mr. Gwinn reported for the record, the unions run up the cost of building artificially and unnecessarily and without the slightest eventual benefit to the employees who draw this pay. To be sure, there is an illusion of wealth in an envelope holding \$149.88 including arbitrary overtime, featherbedding and, in many cases, portal-to-portal and mileage pay. But the internal rev-

olution and Communist, but under the U. S. flag. We have let one of our most minded New Deal appointees, Earl J. Carroll, famous Columbia lawyer, is so incensed at the spectacle and so alarmed at the driving Germany toward the east of Russia, that he is leading the Nuernberg to rush back and warn the United States.

"The United States is losing more face at Nuernberg than anywhere else," he told an INS correspondent. "The Nuernberg trials are farcical and an instrument of Communist policy. The accused men at Nuernberg were denied any semblance of a fair trial."

"Legions of prosecutors work with the zeal of fanatics to create a case against the accused. Every available document was seized from these same zealots. And any documents favorable to the defense mysteriously disappeared."

This is the face our pro-Communist, eye-for-an-eye and tooth-for-a-tooth representatives at Nuernberg present to Germany as the face of America. This is how we democratize and Christianize the people we have conquered, the people we now need for an ally against the Red threat.

The bulk of German POWs is in Russia, approximately 801,000. About 780,000 more are in Poland, Czechoslovakia, Yugoslavia and in western European countries.

It is estimated that Russia holds more than 800,000 Japanese troops. One rumor is that a Manchurian Japanese Army is kept intact for later use against Chinese Nationalists.

THE HIGH PRICE OF LAND

has about driven me away from home. I thought when I sold my land here and in Kansas for a good profit last year that I was smart and the buyers were dumb, but the dumb fellow lives at our house. So there is no use crying over spilled milk, the only thing to do is try to get more milk. Well—I started looking around for a fellow who thought he was smart and wanted to sell some good land at a bargain. And I found it! I have bought 2400 acres up in southeast Wyoming and northeast Colorado and I sure would like for some Texas folks to go up there too so I won't be so lonesome.

This is a sandy 600 acre about as level as a floor. This is a well improved place, has three irrigation wells each with 900 gallons per minute capacity, two equipped with electricity and in operation. All you have to do is flip a switch and here comes the water. There is 300 acres of irrigated wheat, and 60 acres of alfalfa. All in cultivation and only four miles from town. All crops go. Price is \$100 per acre. Wheat on land nearby made 32 bushels per acre last year.

Also have an 1100 acre valley farm, well improved. It has some irrigation. A 1500 gallon well was brought in about a half mile up the valley from this place last week. All of this farm is good land. Price is \$37.50 per acre. Eight miles from town. Reason for selling, the owner is too old to continue farming. I have looked these two places over and I think they are worth the money.

Let but not least - - - A section of grass land that can all be farmed with the exception of one acre in one corner. This has a good fence and windmill. Price \$21.50 per acre.
