HAPPY WAS THE DAY this 53-year-old Berlin father of 10 children found an old beech stump in the shadow of the Prussian victory monument in the bombed-out Tiergarten. It will yield his family enough heat for the whole winter, although it will take several days to reduce the tough old stump to firewood. Nevertheless, the comforting thought of warmth makes the German swing his axe happily.

INFLATION AND LOW WAGE scales, coupled with acute paper shortage in Japan, have sent many Japanese into the back alleys of Tokyo to scrounge for scrap paper to meet living costs. Eight pounds of old paper now bring the unprecedented price of 30 yen. While the average white-collar worker struggles along on the basic salary of 1800 yen per month, these "paper and rag" men earn approximately 10,000 yen for the scrap they collect in a single month.

EARLY DAWN is the time penniless and hungry Parisians go to the Central Market to scrounge up any and all waste for food. This bearded Frenchman considers himself lucky after finding the better part of a cabbage.

## Police Take Care of Child Left by Parents

Police kept watching the car. A blond, curly-haired little baby about two years old had been alone in the car for almost two hours last night, and she was crying because she was cold. The officers took her out of the car and turned her over to a lady from the welfare office, who warmed her and gave her milk. The parents, after they had come out of a show, found a note the police had left on the steering wheel, telling them where their child was.

### New Attempt Set To Settle Dispute

PORT WORTH—AP—New attempts to settle a wage dispute between the Southwestern Greyhound bus lines and its employees will start Jan. 21, it was announced after discussion was broken off yesterday. The company and representatives of the Amalgamated Association of Street, Electric Railway and Motor Coach Employees of America (AEM) met with two federal mediators yesterday in an attempt to settle differences. The union has requested an increase of 6.5 cents a mile for drivers and a 20 percent hike for terminal employees. The union secretary-treasurer of local division 212 of the union, said he couldn't get together on the wage scale. Paul W. Tibbets, president of the Southwestern Greyhound lines, said meetings with the mediators were postponed at the request of the union; the company was willing to continue the meeting.

## Woman Acquitted In Violence Case

WACO—AP—Mrs. Mary Adams was acquitted by a jury in 54th District Court last night in the first case tried in McLennan County under provisions of the O'Daniel Anti-Strike Violence Law. Mrs. Adams, an employe at the Southern Maud Bakery, was accused of using force and violence in an attempt to prevent Miss Myrtle Arnett from engaging in a lawful occupation during a strike with Mrs. Adams. Testimony in the trial began after Judge D. W. Bartlett upheld the constitutionality of the O'Daniel law. Bear front end alignment, complete brake service. Pampa Safety Lane. 511 S. ## Foreign Spending Main Target of GOP

### Republicans Set to Slash HST's Budget

WASHINGTON—AP—Republicans set out today to chop some \$5 billion out of President Truman's \$39,689,000,000 budget for the year starting July 1.

The foreign aid program appeared likely to be the main target of the money saving drive. A \$5 billion slash was the tentative goal set by Chairman Taber (R-N.Y.) pending a meeting of the Senate-House Budget Committee to go over details of the unprecedented peacetime spending estimate Mr. Truman sent to Congress yesterday.

While Taber declined to specify just what items most likely would be singled out for cuts, he noted that the President's estimate of actual foreign aid outlays during the year and his requests for funds to finance other projects not yet authorized by law will run well over \$5,000,000,000.

For example, he said the President wants half a billion dollars to finance universal military training legislation, which Congress has not enacted and which some of its top leaders expect it to put aside for at least another year.

Taber pointed out that while the Marshall Plan for European recovery contemplates a \$6,800,000,000 appropriation for the first 15 months, the budget says only \$4,000,000,000 of that sum will be spent during the 12 months starting July 1.

The New Yorker termed even that "too much." And, Taber added, "The President's proposals for huge outlays for education, social welfare and housing, just to mention a few, seem way out of line even if Congress does authorize these programs."

Whatever the decision on his \$5,000,000,000 goal, Taber said he (See BUDGET, Page 8)

### Puppy Will Be Given to Someone

Mrs. E. S. Vicars, 708 Buckler, says she has a curly, black and white puppy that someone may have. The dog, apparently about two months old, was left at the family home a few days ago, she said.

The puppy, a female, is believed to be at least part shepherd or collie. Her phone number is 1207.

### Soil Conservation Work Unit Office Slated for Pampa

Foreman Stubbs of Alameda, chairman of the board of supervisors of the Gray County Soil Conservation District, said this morning the U. S. Department of Agriculture had approved an application for a work unit office at Pampa. It is expected a staff of at least two and other assistance will be available in the near future.

The Gray County board of supervisors submitted application for the work unit last fall. The Department of Agriculture has agreed to furnish assistance in the county district and help carry on work here in November.

The local district will furnish any help it can give to farmers and ranchers of the county in soil and moisture conservation, including such activities as terracing, contour farming, grass seeding, changes in cropping plans, grazing management, construction of earth tanks and diversions, brush control on rangeland and irrigation installations.

The Gray County Board of Supervisors are Foreman Stubbs, chairman, H. H. Keashey, W. B. Jackson, Arlie Carpenter and Edwin Nelson.

### Trial in Murder at Panhandle Continued

Surrounded by officers and newsmen at Central Police Station, Beach admitted last night he had stabbed Sheila Ann after she resisted his advances. The slender 140-pound youth was arrested yesterday on a tip from Cleveland police while changing a tire at a Baltimore filling station. He had been employed here since last Saturday. Detective Captain Henry J. Kriss reported.

Beach, who said he spent five years in the Napanoch, N. Y., institution for Delinquent Delinquents, left Cleveland the day after the girl was killed. In his statement last night, Beach told police:

"She began to scream and I lost my head."

### Four Killed In Crash of Airlines Plane

WASHINGTON—AP—An Eastern Airlines plane with nine persons aboard crashed on the outskirts of Washington during a rainstorm early today, killing five and injuring four.

The plane, en route from Houston, Tex., to Boston, plowed into a grove of trees on the Maryland side of the Potomac River a few miles from the National Airport shortly after reporting it was coming in for a landing.

The twin-engine DC-3 was demolished, but there was no fire. Eastern Airlines said the cause had not been determined, adding that the pilot checked in with EAL by radio at 4:27 a. m. EST but failed to make contact with the airport control tower later as scheduled.

Rain, sleet, and muddy roads in the area hampered police and others in rescue work. The five dead were identified by the airlines as:

S. M. Warner of Clinton, S. C., who boarded at Greenville, S. C., for Washington.

W. A. Morehead of Clinton, Greenville for Boston.

L. A. Brandt (no address), Atlanta for Newark.

Capt. Paul Saitanis, pilot and Ralph E. Sanborne, Jr., co-pilot. The injured were identified at the hospital as:

Navy Capt. Lucian Moebus, 47, Maxwell Field, Ala., head injuries.

Peter L. Philos, 22, identified by EAL as flight attendant, Astoria, N. Y., head and leg injuries.

Eugene G. Stone, 24, Navy Point, Pensacola, Fla., head injuries.

Morris Maple, 24, 2nd and 3rd degree burns.

### Ben Guill Heads Red Cross Drive

Ben Guill was named Red Cross fund drive chairman at a board meeting here last night. Mrs. Mike Roche was appointed chairman of the community service to camps and hospitals. Other chairmen will be appointed at the annual meeting.

It was announced the annual meeting of the Red Cross would be held in the latter part of March or first of April, immediately following the fund drive.

All board members were present for the meeting last night. The present board will stay in until the annual meeting at which time the nominating committee will have selected nominations for the new board.

### CC Banquet Tonight At Sr. High School

The Chamber of Commerce membership banquet will be held tonight at 7:30 in the High School cafeteria—the Palm Room was erroneously listed as the location of the banquet in previous stories in The News. Senator Roberto de la Rosa of Mexico City will be the guest speaker. The last ticket for the annual affair was sold shortly before noon, the CC office announced.

### Graham Bought Cotton After HST Criticism

WASHINGTON—AP—Brig. Gen. Wallace H. Graham testified today that he bought cotton—but not wheat—after President Truman's Oct. 7, 1947, criticism of commodity market speculators.

The President's personal physician told the Senate Appropriations Committee that he had made a profit of \$6,165.28 trading in commodities. He said he lost \$11,012.86 trading in stocks. So he had a net loss of \$4,847.61 on his trading of all kinds.

During a previous appearance before the committee Graham told it he sold out after the President publicly condemned commodity market "gamblers." This testimony later was challenged by former Gov. Harold E. Stassen of Minnesota, who said Graham did not get out of the market until after Stassen had inquired whether any White House personnel was engaging in such trading.

In a prepared statement he read to the committee today, Graham said that he "assumed that the criticism the President made was of the buying of wheat or grain and I thought of that as commodities."

"I did not think he criticized the buying of cotton, for instance, and when the broker recommended cotton, I, of course, said to go ahead," Graham said.

Speculative trading in commodities is entirely legal, but Mr. Truman contended that "gambling" was running up the price of grain. Some grain exchange men dispute that contention.

A compilation submitted by Graham showed that he had sold 100 bales of July cotton on Dec. 18. Another notation said "closed out against par 11.25," indicating that the purchase in question may have been made on Nov. 20.

Graham conceded today that his broker, Harry Brisker, had acted under his orders in making purchases. He said he (Graham), assumed "full responsibility" for the trading that had been done. Previously he had told the committee he had purchased a number of bales to make purchases a number of sales when the latter thought it was a good time to buy.

### State Board of Education Okays Action at Dallas

AUSTIN—(AP)—Expulsion of two students from the Dallas Public Schools for failure to meet vaccination requirements was upheld yesterday by the State Board of Education.

The board also approved teachers' pay schedules for Texas and Fort Davis after State Supt. L. A. Woods said the schedules had been adjusted to meet requirements of the minimum pay law.

William Walker of Dallas had appealed to the state board for reinstatement of his two sons, age 15 and 8, who have been out of school since Dec. 1. The boys were vaccinated at infancy, he stated in a letter to the board. The Dallas trustees' order, he objected, violates his "right to religious freedom."

The state board took action without comment. Woods noted that decisions have always upheld school districts in such matters.

Municipal and school bond purchases for the permanent school fund totaled \$1,847,500. Largest purchase was \$1,600,000 bonds at 7.5 percent interest issued by the Texas Independent School District, Harris County.

Charles W. Carroll, president of The Universal Bookbinding, Inc., of San Antonio, briefly answered criticisms made at the December meeting against the practice of rebinding state textbooks. Carroll said the state has saved approximately \$1,336,000 during the 20-year period it has had books rebounded. It is an economical proposition for the taxpayers, he said, and has been studied with favorable results by the Legislature on two occasions.

Since the December board meeting, Carroll said, the Universal Bookbinding Company has signed a \$50,000 contract with the State Board of Control for rebinding textbooks this year.

Representatives of the Investment Bankers Association asked the board for consideration of an agreement to facilitate negotiation of school bonds.

The problem now is to retrieve all three vehicles.

### Plans to Enter Eisenhower Slate In Primary Set

WASHINGTON—(AP)—The daring young men on the Eisenhower-for-President, the Pennsylvania Draft-Eisenhower League announced at Harrisburg that a slate of delegates will be entered for the retiring Army chief of staff.

Thus Pennsylvania, with 73 national convention votes, offers a possible second testing ground for those who think Dwight D. Eisenhower ought to be the Republican nominee and insist they intend to proceed along that line, come what may.

The fact that Eisenhower passed up a chance yesterday to kill off the suspicion in both major political camps that, if he isn't already a candidate, he is not slamming the door on the possibility.

The chief of staff himself declined comment. But Maj. Gen. Floyd L. Parks, head of the Army Public Information Division, responded to reporters probing with this statement, issued through regular military channels: "General Eisenhower will make no statements with regard to the New Hampshire Primary. He has reiterated on many previous occasions that he wants nothing to do with politics. He has not changed his mind."

Politicians quickly noted that while the general might want to shun "politics" in the ordinary sense, he made no direct effort to discourage those who are going ahead admittedly without his consent, with moves to put him in the presidential race.

Senator Tobey (R-NH), a recent Eisenhower convert, made it plain that he looks on the general's omission as leaving the road open for a campaign to elect eight Eisenhower-pledged delegates in the March 9 primary in his state. "The general's statement will not stop the New Hampshire effort to draft him," Tobey said. "This is a sincere movement and will go ahead."

### 11 Hours Spent In Lifeboats Before Rescue

NEW YORK—AP—All 46 survivors who abandoned Army's flame-swept funeral transport Joseph V. Connolly were safe today aboard two other vessels after a dramatic rescue from lifeboats in which they had tossed for 11 hours in raging North Atlantic seas.

Rescue of the 46—the Connolly's 45 crewmen and its lone passenger—was completed last night after an all-day air and sea search for the survivors who abandoned their blazing ship in a northeast gale some 900 miles east of New York.

The half-frozen men were picked up by the Army transport Gen. R. E. Callan and the Black Diamond Line's Union Victory which sped to the scene after intercepting the stricken Connolly's call for help earlier in the day. Long-range Air Force planes from Kindley Field in Bermuda aided in the rescue.

The two ships reported all hands safely aboard with "minor burns and injuries among survivors."

The Gen. Callan, still standing by the Connolly late last night, messaged that the distressed vessel was ablaze "from stem to stern with constant eruptions from 40 to 80 feet."

An Army sea-going tug left New York harbor yesterday morning to attempt salvage operations that the tug would "not be able but the Callan's master radioed (See RESCUE, Page 8)

## The Present High Price of Ready-to-Wear Clothing Touches Off a Great Big Boom in Home Sewing

By KAY SHERWOOD  
NEA Staff Writer  
NEW YORK, (NEA).—The high cost of ready-to-wear clothing has touched off a skyrocketing boom in home sewing.

American women, caught between the high price of retail dresses and the "new look" fashions which outdate their wardrobes, are polishing up sewing skills to become their own dress-makers.

Piece goods sales in department stores are up 101 percent of the 1940 figure. One leading manufacturer of higher-priced quality woollens reports a 300 percent increase in piece good sales since 1940.

The buyer of piece goods and patterns in one of New York's largest department stores estimates individual sales are 25 to 30 percent higher than last year's.

Here's one of the reasons: "A printed rayon crepe dress selling in our store for \$19.95 can be duplicated at home for \$9.25," says the buyer. "A silk dress at \$79.50 can be home-sewn with similar fine fabric for \$18."

To conform to current fashions, women get plenty of help from pattern-makers. Basic dress patterns, a standby of home seamstresses, have been restyled. Pattern skirts have dropped from two to four inches. Fabric required to sew the average pattern has increased from three yards to three and a half yards.

Top-flight designers for the retail market have been induced by the pattern companies to turn their talents to pattern-making. This makes it possible for the home needle-woman to have high-styled clothes at a fraction of the retail cost.

### Miss Joyce Wardlow Is Married to Hammond T. McAdams

McLEAN—(Special)—Miss Joyce Wardlow, daughter of Mrs. Edith Wardlaw of McLean and John Wardlaw of Amarillo, became the bride of Hammond T. McAdams of Amarillo in a double-ring ceremony performed Saturday evening, Dec. 27, in the First Presbyterian Church of Amarillo.

Dr. Francis W. Pritchard read the wedding vows and the bride and groom were joined in the presence of a large number of guests.

Following the exchange of vows Mrs. Elise Gipson, organist, played a recital of nuptial selections and the traditional wedding marches were used.

The bride, entering on the arm of her father, wore a royal blue tailored suit, and a gray feather hat and her accessories were black.

She carried a white Bible topped with white roses tied with white satin streamers. She carried a 50-year old French point lace handkerchief which was gift from the bridegroom's grandmother.

As matron of honor, Mrs. William Carpenter of McLean, wore a brown suit complimented with brown accessories. J. M. Anon Jones of Durango, Okla. was best man. The ushers were Kenneth Wardlaw and William Carpenter.

Following the ceremony a reception was given at the home of the bridegroom's parents. The table was covered with a linen damask cloth and centered with a bowl of white chrysanthemums and a four-tiered wedding cake.

Mrs. C. E. Lane presided at the silver to the music of Mrs. Harold Edw. Lane.

For her wedding trip Mrs. McAdams wore a blue three-piece suit. The couple are establishing their home at 2115-B Washington, Amarillo.

Mrs. McAdams is a graduate of McLean High School. She is attending Amarillo College and is employed by Southwestern Bell Telephone Company. Mr. McAdams is a graduate of Amarillo High School and he served four years in the European theatre of World War. At the present time he is attending West Texas State College and is employed at the Rialto theatre.

### Can't Sit! PIN-WORMS CAUSE FIDGETING AND THAT AWFUL ITCH

One of the warning signs of Pin-Worms is a nagging rectal itch which often causes fidgeting and broken sleep, and may lead to even more serious distress.

It is no longer necessary to put up with the trouble caused by Pin-Worms, because science has at last found a way to lick these stubborn pests easily and safely.

Get JAYNE'S P-W at the first sign of Pin-Worms. P-W is a medically sound treatment based on an officially recognized drug element which has proved very effective in dealing with this ugly infection. The small P-W tablets act in a special way to destroy Pin-Worms. P-W means Pin-Worm relief!

### Decrease in Texas Orange Crop Seen

WASHINGTON—(AP)—A decrease in the orange crop for 1947-48 is predicted Saturday by the Agriculture Department, which expects the yield to be five percent below last season's record.

A forecast of 5,500,000 boxes, made for Texas, putting it third behind California and Florida.

Texas' grapefruit crop was forecast at 24,000,000 boxes.

What are you doing to get me a telephone?

Here's the answer, Lady...

Everything we can think of, and as fast as we can—that's what we're doing to get telephones to those waiting. And it's getting results. In the Southwest we're now putting in 12,000 new telephones a week.

Getting a telephone to someone waiting is more than connecting wires to a group of terminals and setting up the account on our books.

Today the telephone system is carrying a full load, like a rush-hour bus.

**We're Building**

So in some places we must put up a new building or make the present one bigger, to house new equipment. That job is well along, with 85 buildings or additions finished or under way.

Western Electric Company, the Bell System manufacturing unit, rented 26 extra factories last year to get space quickly. They delivered more equipment than in any year in a 77-year history. As a result, 2 1/2 times as many telephones

were added by the Bell System as in 1941, the previous high year.

When equipment arrives it must be fitted into the existing telephone system. Additional wire and cable are fanned out from the telephone exchange to the places where new telephones are going in.

**New Voice Highways**

In the last two years we've placed a sizable amount of these new voice highways—something like 700,000 miles of wire in cable.

When the additional central office and cable facilities are ready for service, the new telephones can be connected.

It isn't a simple job, you see. It can't be done in haste, but it is being done as swiftly as complexity allows. Fifty thousand telephone people in the Southwest—an all-time high—are hard at work supplying service and extending it. We appreciate your patience and understanding.

## Texans, Though in Minority Party, Hold Strong Places in the Congress

By **TEX EASLEY**

WASHINGTON (AP)—Although they are minority members, Texans in Congress will not be without influence in the new session. There's an air of confidence about them which may be a hangover from the long spell in which they dominated the scene, from 1930 to 1946.

**Benjamin's Congressman Sam Fawcett** has long been a dominant force as speaker, but as minority leader he has less broil to keep all the Democrats in line, and a solid minority is a potent body.

Texans don't manage committees now, but from force of habit they take leading roles in questioning witnesses. Many are old-timers and recognized authorities on certain subjects. This explains why Republican chairmen yield frequently to them.

Speaking of committee positions, the death of Rep. Drewry (D-Va) automatically moves Rep. Lyndon Johnson of the Austin District up a notch and into third spot among Democrats on the important House Armed Services Committee. Rep. Vinson of Georgia and Rep. Brooks of Louisiana precede him.

This situation probably will be one of the factors Johnson will weigh in deciding whether to run next summer for Senate. Johnson's O'Daniel's seat. Should he remain in the House and the Democrats regain control of it, Johnson in a few years might be chairman of the committee.

**San Antonio's Rep. Paul Kilday** is immediately behind Johnson in seniority among Democrats on the armed services group.

Incidentally, Senator O'Daniel still refuses to give the professional politicians the satisfaction of knowing whether he will seek reelection. The senator's aides say "you can be sure he knows he will win if he enters the race."

Getting back to the committee posts of Texans in the House, several others are near the top among Democrats, and considering the age and other circumstances of colleagues ahead of them in seniority, might expect to be chairmen in a few years if they remain and if the Democrats get another chance at the controls on Capitol Hill.

This group includes Rep. George Mahon of Lubbock, fourth on ap-

## 24 Blocks Curb, Gutter Are Laid

Concrete layers have completed 24 blocks of curb and gutter in the city's paving program and city engineering men are still staking out additional lines for curbs and gutters.

Delivery of the cement for mixing the sidewalk is not expected to be made before April, shortly before the asphalt laying portion of the program is scheduled to start.

City Engineer Dick Pepp estimated this morning a least 90 complete blocks of paved streets will be finished before 1948 becomes "last year."

Meanwhile, the new water well on N. Hobart was brought to approximately 600 gallons a minute with sand eradication in the water still the main problem. Parts for the collapsed shaft of Well 2 on the south side have been on order for several weeks, but have not arrived.

In addition to the present water supply the future water supply survey has located two pools, both outside the city limits, and samples have been sent to Austin for purity tests. However, these pools are at such distance from the city limits, are almost prohibitive at present. This survey is merely the beginning of the city's planned water supply hunt. Pepp added, "there is water in large quantities all around the city, but the sand eradication in pumping operations will be the biggest problem besides the softness of the water."

Work on the Talley Addition sewer extension and the outfall line, from the addition to the disposal plant, is scheduled to get under way late today or early tomorrow, the engineering department disclosed. Completion of those lines will leave the city with a full coverage of sewer lines with the exception of line repairs and additions along Hobart.

## Classes to Continue in Sales Training

Continued discussions in sales training will take place Wednesday and Friday nights in the Chamber of Commerce office in the City Hall, in connection with the C of C sponsored Retail Training Clinic. Classes will begin each evening at 7:30.

The clinic, under the direction of Miss Gertrude Prince, training specialist of the University of Texas, will offer seven different courses throughout the period of instruction.

Classes for "Selling Today," a practical course in the techniques of successful selling were organized at the first meeting last night and others desiring to engage in this topic of discussion may do so by enrolling at the Wednesday night meeting.

Dates, times, and places of additional courses will be announced later through The Pampa News.

## Today's Birthday

Dr. Francis Everett Townsend, born Jan. 13, 1867, originated the "Townsend Plan," one of the controversial outgrowths of the depression. The physician proposed a business transaction to pay high pensions to old people provided they spent the money. Some observers credit the disputes over the plan with hastening passage of social security. Dr. Townsend was born in Fairbury, Ill.

General Carlos P. Romulo, born Jan. 14, 1901, was the last man evacuated from Bataan to Corregidor. Publisher of several Filipino newspapers, he had been drafted by General MacArthur to handle defense public relations. Now he is resident Philippines Commissioner in the United States and United Nations delegate. He once swore eternal enmity to Americans when his grandfather was tortured by U. S. soldiers. Now he advocates friendship.

## BUDGET

(Continued from Page 1)

"I wouldn't be satisfied with anything less than a cut of \$4,500,000,000. Republican leaders are determined to ram the rate pass and income tax reduction bill this year that may trim by more than \$5,000,000,000 the \$44,477,000,000 in revenues estimated by Mr. Truman for the next fiscal year.

Although the new budget exceeds by nearly \$2,000,000,000 the anticipated government outlay for the current fiscal year, Mr. Truman told Congress it was tailored to "rigid standards of operating economy" and is necessary to cope with the needs of an existing international and domestic requirements."

## Testimony Opens in Trial for Assault

FORT WORTH (AP)—The trial of Constable O. M. Myer on an indictment of assault with intent to rape reaches the testimony stage today.

Selection of a jury was completed late yesterday in Criminal District Court No. 1. Judge Willis McGregor is presiding.

Rosa Lee Hart, 32-year-old waitress, was the complainant in the indictment, one of six returned against Myer by the Tarrant County Grand Jury last Dec. 9. Miss Hart is the complainant in three of the cases.

The other counts allege false imprisonment and aggravated assault.

## Texas Today

By **CLAYTON HICKERSON**

Without doubt the most powerful member of the Texas delegation in Congress and some say the most powerful Democrat in Washington including the present occupant of the White House, is Sam Rayburn of Bonham.

Rayburn, the war-time speaker, is now minority leader, a position that gives him responsibility for his party's views and measures on the floor of the House.

Long to be remembered is the view from the gallery when the voting in the House gets close, tough and tight. As the vote is counted and droned by the clerk, the Democratic side of the floor gathers around the Bonham bachelor like sheep around the bell-wether when the blizzard comes in.

Although Rayburn himself would be the last to admit it, those closest to him in Washington believe that he should now be in the White House. And they wonder what conditions generally would be if Rayburn were the Chief instead of Truman.

The men blame the fact that Rayburn had to come back to Texas in 1944 to make a campaign to retain his seat for keeping him out of the big job. "If it hadn't been for that," they say bitterly, "Sam could have tended to his knitting in Washington headquarters and at the convention. Instead he had to make a campaign."

It's more or less a truism in Washington that if you want something and get the help of Rayburn it will be accomplished. People he has recommended dot almost every agency in Washington.

But it is doubtful that even with all his power Rayburn is the most popular member of the Texas delegation. Many members resent his strict party politics, and it seems some of them resent even his power with the national administration.

All the Texas delegation kicked in when he was presented a limousine last year, but not without at least a bit of joking on the part of some who made the \$25 per member gifts.

Some think Rayburn should retire from the seat he has held for nearly 36 years, others believe he wants to step down into private life, but pressure from the White House will keep him running.

## Methodist Ministers Meeting at Dallas

DALLAS (AP)—More than 100 Methodist ministers yesterday opened a four-day conference here and heard two of their number describe personal work and personalized preaching as the key to a successful revival.

The conference is designed to help Methodist ministers in this region plan their evangelistic campaigns.

Dr. Harry Denman of Nashville, Tenn., and Dr. Dayton C. Bryson of Houston, emphasized the personal touch in evangelistic campaigns.

## Food Handling Classes Are Held at McLean

Food establishments in the McLean area today started their second classes of food handling under instruction of C. R. Breedlove, state Health Department instructor, and will continue for the remainder of the week.

Ray Salgon, city and county health inspector, was unable to give a registration figure this morning, but added he would have the number late this afternoon or early tomorrow.

He said only a few had shown up for the opening sessions yesterday, but added he expected more to enroll this morning.

The course is the same as was given Pampa food handlers last week when 48 persons were given certificates.
