British Troops Use Clubs in Emptying Last of Three Refugee Transports

HAMBURG, Germany—(AP)—British troops using clubs and fire hoses captured today the last of three transports which brought the Exodus 1947 Jews to Germany.

Some kicking, screaming Jews, their heads bloodied in 90 minutes of fighting aboard, were carried bodily from the transport, the Rumynede Park, after a seditious strike against landing.

An official British casualty report said 23 Jews, including 13 women, were injured and that 19 of them were hospitalized. An earlier report said three British soldiers were hospitalized with injuries.

The steel-helmeted troops undertook the forcible disembarkation of the Jews aboard the Rumynede Park after the passengers refused to disembark unless the passengers received two ultimatums to leave peacefully.

Many of the young Jewish men continued their resistance all the way down the gangplank and were dragged into the trains or vans.

The soldiers were met by a hail of tin cans and bottles when they went below, the correspondents reported, and small fights broke out at a number of points.

The first of the transports, the Ocean Vigor, was emptied yesterday of 1,486 refugees, with some violence attending the landings.

Among the first off were five aged women, who came teebly from the ship with the gentle assistance of British soldiers. One of the women was helped by a medical officer with a Red Cross armband.

Report Shows Europe Needs to Top Pre-War Production Level

Relieving an Acute Manpower Shortage

WASHINGTON—A secret government study concludes that Europe, to be self-supporting, must raise its production higher than the pre-war level and will require help to do so.

Top government researchers concerned with international economics, drafted the 30,000-word report in connection with the self-help plan for European recovery proposed by Secretary of State Marshall.

In Paris today, a Food and Agriculture Subcommittee of the Conference estimated some \$1,600,000,000 will be needed from the United States by these European nations in the next four years to spend abroad for food or the means to produce it.

The report is primarily a survey of what is the problem, rather than an attempt to propose solutions, but it reaches a number of conclusions. These are the major ones:

1. Cooperation "is the key to European recovery. This means cooperation in extending the bounds of trade in Europe, in equitable allocations of scarce materials and commodities so as most effectively to utilize and expand capacity, in lowering such barriers to trade as quotas, bilateral agreements, exchange restrictions, and tariffs."

2. It is not possible to revive the entire economy at once. The increased production "must start in such industries as textiles, coal, iron and food and the industries which lie back of them, and then spread as rapidly as possible to other industries."

3. Production must concentrate on the full utilization of existing capacity before long-range plans of development and expansion are undertaken.

4. The goals of production must be higher than pre-war. "The necessity for higher levels of output than before the war is the result of the fact that requirements for reconstruction are large; that exports must exceed pre-war levels to purchase the same volume of investments and shipping fleets; that populations have increased, except in France, so that there are more mouths to be fed, more babies to be clothed, more heads to be covered with roofs."

As for when the job will be complete, the report says this: "The reconstruction of Europe will not have been completed until the countries of Europe are self-sufficient."

WASHINGTON—THE TOWN THAT YOUR JACK BUILT

Docteur Goes on Trial Today for Ambush Slaying

NEW BRAUNFELS—(AP)—Dr. Lloyd I. Ross of San Antonio, described as "confident and in high spirits" by his jailer, goes on trial here today for the May 25 ambush slaying of a family of four.

Attorneys for the defense and the state have indicated they are ready to resume the trial, postponed last July 28 to enable defense attorneys to gather witnesses and testimony they said was needed to prove the Ohio-born young doctor insane.

First action will be to select a jury from the 72-man venire that has been called. Officials predict it will take two or three days "to name the jurors."

If difficulty is encountered in selecting 12 men from this venire, more will be called. Sheriff W. A. Scholl said.

Last minute preparations for the trial were completed during the weekend and yesterday. Saturday, two psychiatrists visited Dr. Ross in his third floor cell in the Comal County Jail.

Dr. Ross is charged with murder in the Sunday morning slaying on a lonely lane near here of William H. York, an investment broker who had been an intimate friend for years; York's wife, mother and son. He is also charged in the wounding of York's 13-year-old daughter, Ann, who escaped death by fleeing into underbrush.

The tragedy followed the loss of the young doctor's fortune, which he blamed on his long-time friend, York had taken bankruptcy following an investigation by the Securities and Exchange Commission.

Dr. Ross said he had lost about \$121,000 in all.

Labor Law Wins First Test

Food Dollar Continues to Lose Worth

CHICAGO—(AP)—America's shrinking food dollar continued to drag through the winter again today, by a somewhat general advance in staple commodity prices.

For the fourth consecutive day, the Associated Press index of 35 wholesale commodities reached another new all-time high yesterday at 152.26, compared with the 1926 base year of 100.

The dairy industry, Pifer said, is going into the winter with an exceptionally low supply of butter and cream in storage and with two percent less milk cows than a year ago.

Butter climbed another cent a pound on the New York and Chicago markets yesterday, with eggs and corn. Moreover, the whole dairy outlook was far from a pretty picture as described by Russell Pifer, executive secretary of the American Bute Association.

The long delayed city paving program got another jolting delay this morning when the City Commission was told the shipment of 850 feet of steel curb and gutter forms has been delayed at the factory.

Equipment for Paving Program Of City Delayed

Two other pieces of heavy equipment that were promised to be delivered to the city late in August have also been factory delayed.

Retail Trade Group Will Meet Tomorrow

The Retail Trade Committee of the Chamber of Commerce will meet tomorrow morning at 10 o'clock in the Chamber of Commerce office in the City Hall.

Texas Judge Upholds Clause On Communists

FORT WORTH—(AP)—In the first such ruling on the Taft-Hartley law, Federal District Judge T. Whitfield Davidson yesterday upheld the requirement that labor unions file affidavits that their officers are not Communists.

The judge declared that the non-Communist provision is fully constitutional—legal, consistent and proper.

The ruling was made at a hearing held involving the Oil Workers International Union (CIO). He held that the CIO had not complied with the law, thus the OWIU did not have recourse to the NLRB.

Pittsburgh—P—The proud, five-decker excursion boat Island Queen exploded and was destroyed by fire at her Monongahela River dock today, causing casualties estimated unofficially from three to 60 dead.

The blast occurred just before passengers were to board the huge boat for an afternoon ride down the Monongahela River.

Jack O'Berry, a crewman said: "I was on the gangplank. There were 92 aboard."

There Always Are Two Sides To a Dispute

By DEWITT MACKENZIE AP Foreign Affairs Analyst

There always are two sides to a dispute—a truth worth remembering in Iraq. I knew there was an explosion and I was in the water.

Still the present week began with the Grimthorpe Colliery—origin of the strike—again vowing to continue, despite appeals by their Socialist government and union leaders to resume work.

The judge continued, "communism is recognized as not being a representative form of government in the Taft-Hartley law which requires filing of non-Communist affidavits."

The University's board of directors will meet here today to take action on faculty assignments and other matters pertinent to opening of the initial term.

TULSA, Okla.—(AP)—Crude oil production in the United States averaged 5,188,100 barrels daily during the week ended Sept. 6, an increase of 16,610 barrels over the previous week's output. A new all-time high for the nation, the Oil and Gas Journal reported today.

Noteworthy gains were registered in the following states: Texas, up 22,826 barrels to 2,228,575; a new 1946-47 high; Illinois, up 7,600 to 178,900; Oklahoma, up 3,050 to 266,360; New Mexico, 8,050 to 116,620; Louisiana, 2,125 to 439,525; Michigan, 1,695 to 40,400.

Greatest declines included: California, down 2,600 barrels to 923,300; Colorado, 2,870 to 44,240; the Eastern area, 2,100 to 62,000; Kansas, 19,000 to 284,750, and Wyoming, 2,510 to 118,700.

Mississippi declined from 100,000 to 99,250.

Chic, Simple Styling With Daily Care Accents Soft Beauty of Graying Hair

Gray-haired Eleanor Dakin, New York model, wears her hair in a simple pageboy bob which looks neat, smart and youthful.

**By ALICIA HART
NEA Staff Writer**

"I've never been tempted to dye my hair," says gray-haired Eleanor Dakin, top-notch New York model. Instead, she believes in giving nature a hand. The whitening nimbust that accents her sun-kissed skin and adds to her distinction as a model is proof that both nature and Eleanor know what they're doing.

She thinks the styling of gray should be smart but simple. Her page-boy bob is chosen for its youthful look and head-modifying neatness. Hair-length like Eleanor's lends itself to frequent trimming and thinning, which, if you have a white and dark mixture, allows for a more uniform blending.

Gray hair presents two problems: An inclination toward dryness, and a tendency to take on a yellowish tinge. Both problems can be licked with the right kind of care, says our model.

If you are pursuing a tan, as Eleanor is, keep your head covered when you go in the sun. The sun has a way of heightening a yellow tinge in gray hair.

Shampoo your hair often to emphasize clean shimmer. Use bluing to heighten whiteness.

Announcements

Members of the general council of the First Christian Church will meet at the church Wednesday at 2:30. The executive board will meet at 1:30. Group 2 will be hostesses.

The program, "College Students in Fair World," will be presented by college students of the church with Miss Jeannine Conyers in charge.

Horace Mann P-TA will meet Thursday afternoon at 2:30 in the school auditorium. Rev. David Binkley will bring the devotional and Mrs. R. E. Watkins, music teacher of Horace Mann, will sing a solo. Huelyn Laycock will speak on "Aims and Objectives of P-TA."

Shower Is Given For Doris Moore

Honoring Miss Doris Moore, bride-elect of Odes Shelly, a bridal shower was given in the home of her mother, Mrs. J. R. Moore, 500 N. Doyle, Friday afternoon. Other hostesses were Mrs. J. O. Hollar and Mrs. Charles E. Clark, sisters of the honoree.

The lace covered refreshment table was centered with a bouquet of pink and white gladioli, and baskets of garden flowers were arranged at vantage points throughout the receiving rooms.

Vauccelle Moore recorded names in the guest register. Cookies and punch were served at the refreshment hour.

Those present or sending gifts were Mesdames Lillian McKee, Howard Hulsey, C. W. Lawrence, J. A. Green, Artie Shaw, Nancy Holmes, Callie Palmer, Mary Lou Wade, Tom Eckerd, Lula Purdy, R. W. Ragsdale, N. L. Welton, Morris Enloe, Don Cole, Irvin Cole, C. H. Mundy, L. V. Hollar, and Ray Francis.

Mesdames Lloyd Davidson, Adeline Hulsey, Oscar Huff, De Lea Vicens, W. L. Parker, H. M. Coday, E. Savage, Dorothy Moore, C. E. Cary, C. W. Masters, R. J. Sallor, Lewis, Eva Porter, S. M. Jones, Flora Ehrig, Robert Sullivan, Blair Townsend, J. S. Wynne, Cloud, and Donna Fraser.

Misses Louella Goodwin, Velesta Bagwell, Leona Parker, Maureen Jones, Irene Sallor, Phyllis Parker, Glenda Davison, Muriel Clark, and Shirley Davison.

Paula Rae Lowe Feted On Sixth Birthday

Paula Rae Lowe was given a party Thursday afternoon at the home of her grandmother, Mrs. O. E. Stephens, 214 N. Gray. The party, which was held to celebrate Paula Rae's sixth birthday, was given by her mother, Mrs. Ray Lowe.

The children received singing jarrats as favors. Games were played before Paula Rae opened her gifts.

Decorated angel food cake, ice cream, and fruit punch were served to Stephen Earl Lewis, Sandra Sullens, Bobbie Lee and Lynda Kay Andis, Gary and Cathy Owens, Mary Ann, Shirley, and Dee Wright, Jimmie Kay and Mary Ann Mack, and the honoree.

Date Bait

By SUE BURNETT

Certain to be your danceable dress of the season, this clever date frock is created to enhance a young figure with its unusual trim at neckline and one hip, its hand-drawn waist. Pattern No. 8126 is for sizes 11, 12, 13, 14, 16 and 18. Size 12, 3 1/4 yards of 35 or 39-inch; 3/8 yards for contrasting bands.

For this pattern send 25 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett (Pampa News), 1150 Ave. Americas, New York 19, N. Y.

Send an additional twenty-five cents for a copy of the Fall and Winter FASHION. It's filled with smart, wearable styles, the latest fashion news, special features. Free pattern printed in book.

Big engines... long trains

mean lower cost to you!

But union leaders want "half-trains" - double crews!

Big locomotives are built to do a big job in the big country which is America—a big job in peacetime as in wartime. They are built to pull long trains.

Long freight trains can handle more goods at less cost—to you—than short trains.

Long trains mean fewer trains—fewer chances for accidents—fewer interruptions to traffic.

But a few railroad union leaders oppose long trains—among their current 44 demands for changes in rules is one limiting the length of freight trains to 57 average cars. Why do they demand this?

For "safety," they say. But is it? Government figures show definitely that long trains mean greater safety to railroad employees and public alike.

Then, if safety is not the real reason—what is the reason behind this demand? It is to make more jobs which are not needed—to get more pay! This "made work" would be sheer waste. Think of big, modern locomotives using only half their power.

For this waste, you—the public—would have to pay. Higher costs mean a lower standard of living for everybody. Nobody wants that!

Here's the record...

In the quarter century...1921-1946...

- Average length of freight trains has gone up... 39%
- Average speed of freight trains has gone up... 39%
- The rate of injuries to railroad employees has gone down... 60%
- Average wages paid railroad workers have gone up... 84%
- Price of railroad materials and supplies has gone up... 58%
- Railroad taxes have gone up... 76%
- But the average charge by railroads for hauling a ton of freight one mile has gone down... 23%

When the Bureaucrat
Is in the Saddle

The American idea of government
being a servant rather than a
master of the people cannot be
fully appreciated until one has been
forced to approach a public official
as a public agency in an attitude
of supplication. Immediately the
position of private citizen and public
servant undergoes a chilling re-
versal, particularly if the matter
involves the economic welfare of
the private citizen.

Texas Today

By JACK RUTLEDGE

The case of the missing brindle
kitten, worthy of Perry Mason or
at least Snuffy Smith, has several
San Angelo porters badly worried.
The animal is described as a small
orange-colored kitten with a Dr.
Jekyll and Mr. Hyde complex. It
hangs out at the McBurnett Build-
ing, and Night Porter Fred Williams
wishes it would pick some other
spot, like the Empire State Build-
ing.

SENATORING AIN'T EASY

(Peter Edson is on vacation)
WASHINGTON—(NEA)—Just
about the only senator you see regu-
larly around the Capitol these hot
recess days is Sen. Sheridan
Downey of California.
He'll show you a good reason why
he is forsaking traditional work-
ing hours of his own state for steamy
Washington—a desk piled high with
work. If you can drag him away from
his dictating or reading, he'll
tell you in no uncertain terms just
how much work there is in being a
senator. But he wouldn't have it
otherwise.

NATIONAL WHIRLIGIG
news behind the news

WASHINGTON
By RAY TUCKER
PROSPERITY—Prosperity looms
of twenty billion dollars or more to
Europe under the Marshall plan
may reflect the Truman adminis-
tration on a way of prosperity stimu-
lated by government-financed for-
eign trade. Political economists
around the White House do not
emphasize this phase of the pro-
posed deal, but it figures in their
calculations.

DECLINES—The importance of
this artificial stimulus, both economi-
cally and politically, is shown in
recent declines in business opera-
tions. Retail and industrial inven-
tories and production totals have
been dropping steadily in the last
few months. Due to dollar shortages
abroad and exhaustion of past loans
to foreign countries, their purchas-
es over here have been falling off.

ISSUE—Republicans' realization
of the politico-economic effect of
the aid-to-Europe program lies be-
hind the dispatch of a special com-
mittee (the Eaton-Horner group)
to the continent to investigate the
actual need for so much money.

PROFIT—Although the sixteen-
nation conference at Paris has not
yet produced a blueprint of Europe's
needs and resources, Secretary Wil-
son's committee has listed the main
items that are expected to top the
foreign countries' principal require-
ments. It is based largely on a study of the main ex-
ports during the first six months
of 1947.

NEEDS—Electrical, industrial and
agricultural machinery, \$1,100,000,
000, or ten percent; textiles, \$750,
000,000, or eleven percent; auto-
mobiles and parts, \$550,000,000,
eight percent of passenger car output
and twenty-two percent of trucks;
iron and steel, \$500,000,000, or twelve
percent; food, mostly wheat, \$450,000,
000, or five percent.

BOOM—Incidentally, these transac-
tions do not take into considera-
tion cash-on-the-line exports to
Europe, which are expected that pur-
chases of these types of goods will
be increased heavily. Other things,
which Europe needs but cannot af-
ford at the present time are coal,
oil, railroad rolling stock, building
material of all kinds, and many
varieties of foods.

BOOM—Incidentally, these transac-
tions do not take into considera-
tion cash-on-the-line exports to
Europe, which are expected that pur-
chases of these types of goods will
be increased heavily. Other things,
which Europe needs but cannot af-
ford at the present time are coal,
oil, railroad rolling stock, building
material of all kinds, and many
varieties of foods.

study. The result is having to take
the words of the other senators, or
much legislation.
"I hope I generally can vote
right," he says.
About 90 percent of the legisla-
tion which is passed by the Senate,
on which he serves, is on the Con-
stitution Calendar, where the word
of the committee members who re-
commended the legislation has to be
taken. And he further points out
that a full committee's recommen-
dation of a bill was probably based on
the recommendation of a subcom-
mittee of three or four members.
That's the only practical way the
tremendous amount of legislation
can be handled.

Gracie Reports

By GRACIE ALLEN
I remember my father saying what
a great help it was for a boy who
wanted to become President to be
born in a log cabin, but after
watching Presi-
dent Truman tear
around the world,
I'd say the best
training for a presi-
dential candi-
date would be to
have him born in
a trailer.

I'll bet all this
traveling is a
subtle scheme of
his to end war. He probably plans
to go to all the foreign countries
and make himself so popular that
everybody will name their babies
after him. Then, when the new
generation of men grows up, they'd
feel pretty silly fighting each other
if they were all named after him.

workers needed. If it did, it
would stop the growth of that
industry and make the product
continue to be scarce. Again
there is no reason why the work-
ers in the new industry should
receive more than workers in
other industries receive for the
same skill. This is nothing but
socialism whether the Federal
Council of Churches denies it or
not. No one can defend it in open
debate. He would convince him-
self of being like all socialists, a
law unto himself.

Kaiser Is Asking Scale-Down of Steel Plant Debt

WASHINGTON—Henry J. Kaiser said yesterday he has asked the Reconstruction Finance Corp. for a \$34,510,000 scale-down of his debt on his Fontana, Calif., steel plant. He was turned down last month when he asked an \$85,000,000 cut.

The West Coast industrialist told a news conference that he wants to double Fontana's capacity and plans to raise \$30,000,000 privately to do so if RFC agrees to a "revaluation" of the plant and a cut in his debt.

The Fontana plant was built during the war with RFC financing. RFC's present loan claims total about \$105,000,000 of an original \$123,305,000.

The government's turnaround of the West on its previous proposal for the refinancing of Fontana leaves me at present with no alternative but to charge high prices for steel," Kaiser said in a statement prepared for his news conference.

Kaiser reiterated that the government has sold its war-built Geneva, Utah steel plant to the United States Steel Corporation for 29 cents of the dollar, but demands that Fontana labor on under the competitive handicap of 100 cents on the dollar.

The government owned Geneva outright while Kaiser built Fontana, borrowing from the government. But Kaiser termed this difference "technical" and asserted "the fact is the government built both plants at necessarily wasteful wartime cost ... to win the war."

Dispute

(Continued From Page 1)
able to the owners.

It was a bad show. It was so bad, in fact, that the general strike of 1926 throughout Britain—the world's first general strike—was the outgrowth of a protracted walk-out of miners throughout the country for better wages and working conditions. The rest of labor joined them.

That brings us up to the Grimthorpe miners. They're striking, as I get it, largely because they are still living mentally in those harsh days. In refusing to mine an additional two feet of coal each shift they are fearful of losing advantages which they have gained, completely overlooking that they now are working for their own labor government, which has nationalized the mines. They haven't become oriented towards changing conditions.

The miners obviously are wrong. Virtually all the rest of British labor says they are wrong, and it must be so. It now remains for labor leaders and the labor government to convince the mine workers of the error of their ways.

Explosion

(Continued From Page 1)
"Golden Triangle" business section.

Thirty to forty persons were seen in the water at one time. An undetermined number of injured were hospitalized.

William C. Morton, 21, of Cincinnati, an apprentice engineer, expressed belief the explosion occurred in the engine room.

The towboat "Charles T. Campbell" of the Mississippi Barge Line rescued 10 men from the Monongahela River.

The Island Queen came here a few days ago from Cincinnati, where she operated at an amusement park.

Melvin Stanley, Associated Press, traffic bureau chief at Pittsburgh, who arrived at the scene a few minutes after the blast, said:

"The Island Queen is one solid mass of red flames from the water to the top of the boat. The heat is terrific."

Fire apparatus from downtown stations rushed to the site. Water was played on the flames from fireboats.

The blast occurred before several hundred excursionists were to board the ship for an afternoon ride past the Pittsburgh "Point" and down the Ohio River to suburban Sewickley.

Smokestacks and a upper deck started caving in as the flames devoured the wooden structure.

Nickolas Sorg, a Western Union messenger who was three blocks from the blast, said:

"I picked me up and threw me down on the street."

Funeral Held Today For Blaze Victim

SHAMROCK—(Special)—Funeral services for C. E. Williams, Shamrock, who died yesterday of burns suffered from the house in which he was staying, caught fire, were held from the Lela Methodist Church today.

Burial was in Shamrock with the Womack Funeral Home in charge of arrangements.

Humphrey's peak, extinct volcano in the San Francisco mountains, is the highest point in Arizona. It rises to a height of 12,611 feet.

Food Dollar

(Continued From Page 1)
City commissioner of markets, gave these comparative retail prices there on a few food items:

Porterhouse steak, \$1 a pound, up 31 cents over a year ago; bacon, 79 cents a pound, up nine cents over a year ago; butter 87 cents, up 8 cents since September; large eggs 87 cents a dozen, up 10 cents; chuck steak 59 cents a pound, up four cents; chopped beef 49 cents, up 10 cents; veal cutlets 95 cents, up 20 cents; leg of lamb 65 cents, up six cents.

Slaying

(Continued From Page 1)
many letters from England, the Sheriff said.

There have not been as many visitors to his cell as before the first trial. This was because visiting hours have been curtailed, Sheriff Scholl said.

The doctor's attractive young wife has continued to visit him each Friday during visiting hours. Frequently she has brought their 13-year-old daughter, Mary Ann, a friend of little Ann York, also 13, who was wounded in the ambush slaying.

The trial is held in the half-century-old rough stone Comal County Courthouse on the town square. Across the square, beyond the bandstand, a movie is playing a film entitled "A Likely Story."

Judge J. R. Fuchs will preside in the second floor District Court Room, which was packed to capacity last July. Over half of the audience was composed of women.

District Attorney J. Lee Ditter, assisted by County Attorney A. J. Lockett, will handle the prosecution. Defense attorneys are Fred L. Blumdel of Lockhart, Julius H. Schleyer and Raymond Bartram of New Braunfels, and Leonard Brown of San Antonio.

The early September weather is warm and sultry following a heavy shower yesterday.

A large crowd is predicted to attend the trial, which may drag out over two weeks, officials say. However, New Braunfels is not unduly excited—the principals are San Antonio residents, formerly from Ohio and Pennsylvania. The doctor was born in Delroy, Ohio. The Yorks are from Scranton, Pa.

Report

no longer require special aid in the form of relief or loans to maintain a level of imports required for their sustenance."

The report found that by-and-large Western Europe is making a quicker postwar comeback than Russia and her seven satellite nations.

Sweet Tooth

Before World War II, the average American consumed more than 100 pounds of sugar annually, compared with 29 pounds per capita for the world as a whole.

Prison Record

Our federal penitentiaries, reformatories, prison camps, hospitals, and jails now contain approximately 14,750 inmates, the largest number of federal prisoners on record.

New Chairman State Health Board Named

AUSTIN—Dr. Howard Granbury of Austin today is the new chairman of the State Board of Health.

He was named at yesterday's sessions, which also elected Dr. O. B. Kiel of Wichita Falls, vice-chairman and Pat Cavanaugh of San Antonio, secretary.

The board also has tentatively approved a tentative statewide hospital construction program entailing a possible expenditure of \$72,000,000.

A survey of present facilities, said Dr. Geo. W. Cox, state health officer, indicates a definite need for 14,000 general hospital beds, 80 health unit buildings and 141 auxiliary unit offices.

A joint meeting of the State Board of Health and the State Advisory Council of Hospital and Public Health Survey and Construction will be held in the Health Department building at 9 a. m. Sept. 15 to discuss the hospital plans. A public hearing will be held on the same subject on that date at 2 p. m. in the House of Representatives chamber.

Solon Says 'Feeder' Airlines Are Justified

WASHINGTON—(AP)—Senator Hayden (D-Ariz.) said yesterday that a \$72,600,000 federal investment in Southwestern airfields justifies authorizing "feeder" airlines in Arizona and New Mexico.

Such action, he urged, would be "sound public economy" as a guarantee of the future air defense of the nation.

Testifying before the Civil Aeronautics Board, Hayden said the Army, which built the air fields, does not now have funds to maintain them.

The only existing sources of funds to maintain the fields, Hayden said,
