

# MANY FOOD PRICES AT YEAR'S HIGH, STILL SOARING

## Pampa News

VOL. 46, NO. 133 (8 Pages) PAMPA, TEXAS, FRIDAY, SEPTEMBER 5, 1947. Price 5 Cents AP Leased Wire

### New Traffic Code, Many Other Laws in Effect Today for Texans

AUSTIN—P—Texas added 123 new statutes to the law books at midnight last night. The collection of new laws includes measures placing new restrictions on labor, standardizing and modernizing traffic regulations, permitting voluntary pension plans for city employees, establishing a state university for Negroes, and liberalizing benefits under the Workmen's Compensation Act.

While many other laws became immediately effective when signed by Gov. Beauford H. Jester during and at the close of the 50th Legislature's regular session, the laws put in operation today had to wait 90 days after the end of the session.

#### Two Killed in Auto Accident East of Borger

BORGER—An auto accident, which occurred one-half mile east of Borger on State Highway 152 at approximately 9 o'clock last night, resulted in the death of two persons and the serious injury of another.

Mrs. Edith L. Parish, 23, of Borger, died in the North Plains Hospital here at approximately 10 o'clock last night as a result of injuries received in the crash. Her infant son, David Claude, died at 1:30 this morning.

Carl Parish, husband of Mrs. Parish, suffered two broken arms and severe lacerations to the forehead. The attending physician reported this morning that his condition was not critical.

Parish is employed as a mechanic at the Finger Motor Co. His wife was a teacher at the Spring Creek school for the past two years.

Sheriff Hugh Anderson of Hutchinson County, said early today that the Parish family was en route to Borger from Spring Creek school, when the 1939 Chevrolet sedan in which they were riding crashed into the rear of a loaded oil field truck, that was parked on the side of the highway.

Driver of the truck Vaden T. Evans of Guymon, Oklahoma, said that he had parked because of engine trouble. He was standing at the front of the vehicle when the auto smashed into its rear. He declared that he was thrown on his face in the gravel when the front of the truck was hurled against him by the impact of the crash. His wrist was broken at 9:52.

Anderson stated that apparently Parish attempted to swerve his auto and drove into the truck at about a 20 degree angle, doing heavy damage to the right front section of the car.

Evans told the officers that the light from another auto had, from all indications, blinded Parish. Evans, also, declared that the vehicle, property of a Pampa trucking firm, was marked with clearance lights.

Anderson asserted that the truck was not marked by flares. No charges have been filed in connection with the accident as yet.

Besides her husband, Mrs. Parish is survived by her mother Mrs. Mac Gupson, three sisters and two brothers, all of Plainview.

The bodies are at the Blackburn-Shaw-Brown Funeral Home here. Funeral arrangements are pending.

#### Legless Child Runs With Other Children

NEW ORLEANS—(AP)—Eight-year-old Marcus Speer returned to school today.

In an early morning ball game he ran almost as fast as the other kids—but they had feet and Marcus didn't. His "feet" were heavy cloth wrappings, bound tightly around his slim ankles.

Marcus lost both feet when he fell under a train in December.

#### Pampa Shrine Club Election Tonight

The annual election of officers of the Pampa Shrine Club will be held tonight at 8 o'clock in the American Legion, Hall J. R. Martin, president of the club, has urged all members to attend this important meeting.

A dutch lunch will be served following the meeting.

#### Aged Man Ready for 2nd Flying Lesson

BEAUMONT—(AP)—Seventy-one-year-old T. M. Brand of Beaumont was on his way today to realizing an ambition of many years to fly an airplane.

Brand took his first lesson today. After a 45-minute hop at 3,000 feet he said he was ready for lesson number two.

#### We Heard...

That Bobby Epps, Jimmy Campbell, and Lorry Porter, Pampa Boy Scouts who made the overseas trip to the world wide Scout jamboree have returned home with many interesting stories to tell. The boys were very tired from their journey and Bobby Epps was so engrossed in slumber when the train pulled into the Pampa depot that a search had to be conducted to find him.

This was because they either contained no emergency clause or did not gain the necessary two-thirds majority vote of the two houses to take immediate effect.

With the annual toll of deaths arising from traffic accidents, the Legislature approved a voluminous traffic code. It threw out antiquated laws, revised others, and added a few new regulations, attempting to conform with traffic codes of other states.

Director Homer Garrison of the Department of Public Safety has been issuing statements throughout the summer explaining most of the important regulations. He promised drivers a little more time to learn the law, but then he intends to knock down and make it rough on violators.

The 50th Legislature made no provision for labor mediation machinery. Its labor bills were designed to curtail strikes, picketing, and labor union power within industry.

Mass picketing is prohibited. The closed shop is outlawed. Strikes against the state or any of its political subdivisions are banned.

It is now illegal to picket public utilities with the intention of disrupting service to the public.

Responsibility for damage resulting from picketing or strikes, found in breach of contract with the unions. The check-off system is unlawful.

Labor is placed under the civil and penal anti-trust laws with regard to acts constituting conspiracies in restraint of trade.

Other laws include: — Allows oil companies to extend their leases indefinitely on unsold school lands, tidelands or areas in river beds or channels so long as there is production.

Opponents of the bill called it the "oil companies' old age pension." Proponents said it would mean more millions for the permanent school fund because the state will set the value for the lease extensions.

Extension of Coastal County Boundary Lines—Boundaries now go as far into the Gulf as the continental shelf. Coastal counties may reap the benefits of increased property taxes.

Adult Probation and Parole Law See TRAFFIC CODE, Page 8

#### Ramadier Wins Confidence Vote

PARIS—(AP)—Premier Paul Ramadier won a vote of confidence in the National Assembly today, but the white-bearded leader was considering resigning nevertheless, cabinet minister said.

The vote was 292 for the motion of confidence, and 243 against. However there were 60 abstentions. Associates said Ramadier had to decide whether the vote was enough to support his leadership in view of the country's economic troubles and imminent international negotiations.

The cabinet meeting was scheduled tonight.

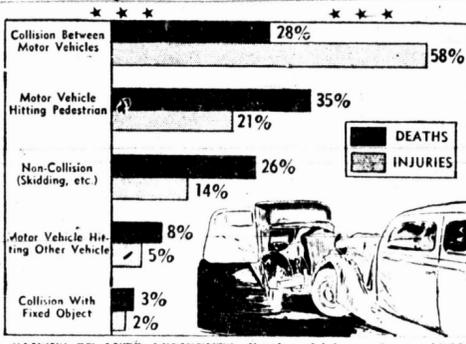

The Assembly, giving Ramadier his fifth expression of confidence since he became premier in January, approved the government's program of subsidies for the coal industry.

The confidence motion was tacked on to the coal issue.

The Communists and a sprinkling of Rightist and Centrist deputies formed the opposition to the measure, which authorized the government to grant 4,550,000,000 francs (\$38,500,000) in subsidies to hold down prices in the coal industry.

Although the threat of a government crisis was thus eased, labor still was agitating politically against the soaring cost of living.

See new DeLaval Magnetic Milkier now on display Lewis Hardware.

CAUSES OF AUTO ACCIDENTS—Careless driving and unavoidable auto accidents took a toll of 33,700 lives in the U. S. last year, 20 percent higher than 1945, and caused 1,200,000 non-fatal injuries. The chart is based on figures just released by National Safety Council and shows principal types of motor vehicle accidents and resulting deaths and injuries.

#### General Relates Deadly Drama of Monday Ambush

MEXICO CITY—(AP)—It was deadly drama when the crowd closed in to kill the eight strangers to death in the little Mexican village of Sanguito, near Ciudad Hidalgo.

There were the seven soldiers and the veterinarian in the jeep—arriving to inspect cattle in the hoof-mouth disease campaign. There were the cheers for them at first—false cheers. Then the soldiers saw the mob approaching, saw the fury in the faces and they knew what was to come.

There was drama and heroism as a dying captain ordered his innocent persons might be hit. Gen. Guzman Cardenas, commander of the 21st Military Zone told the story yesterday after an investigation of the Monday massacre—another in a series of incidents arising from the fact that some Mexican farmers have not understood the necessity for slaughtering cattle in the campaign against disease.

When the soldiers and the veterinarian drove into the village, the shouts and smiles on the faces of the people gave the visitors "false confidence," the General related.

They drove to the municipal palace and then the throng of infuriated villagers approached. The driver of the jeep threw the vehicle into reverse, attempting to escape. But another crowd was approaching from the opposite direction.

At the same time, another scientist reported no cures and only moderate effects at best from KR in mice in his experiments over a period of two years.

The apparent recoveries in some of the mice reported by William M. Malloff, PH.D. biochemist and research director of the Lovelace Research Foundation, New York, to the Fourth International Cancer Research Congress.

KR has been reported by Russian developers, Nina Klibeva and Gregor Koskin, who prepared it from organisms that cause a tropical disease, Chagas disease.

The Soviets have cautiously reported, but "no more of less successful" recoveries. From cancer among 60 persons treated with KR injections, said Theodore H. Haaschke, PH.D. microbiologist of the Institute for Cancer Research, Lankenau Hospital, Philadelphia.

It was Dr. Haaschke who reported the generally poor results with KR preparations made at Philadelphia.

Dr. Malloff said he has been making KR injections since last May, and "I intend using this method on three already-selected human cases about the end of October. The cases, of course, will be inoperable and in very advanced stages.

"KR has been reported that at least one person has been treated with KR in this country, but all scientists questioned here said they could not confirm the reports.

Even if there should be any degree of success, Dr. Malloff said, the preparation of KR is so difficult and the supply so small that "there is no likelihood of our working on other cases for a long time to come."

#### Want to Go Fishing? Try the Local Pub

HUNTINGTON, W. Va.—(AP)—Talk about the outfit that got away: This one wound up in a tavern. James M. Stark came home with a 12-pound catfish last night and hung it on the back porch. A few minutes later, the fish was gone.

"So you can't see straight," Stark called Police Sgt. James Farmakis. Ten minutes later Farmakis got a call from a bartender who asked, "What should I do with a big fish a couple of fellows left on my counter?"

"Don't let him get away," Farmakis replied and sent Stark around to the tavern to pick up his fish.

#### No Matter What the Program—Crows Flee

RED LODGE, Mont.—(AP)—Scarcely a day's eighteen winged pests on John Cornelio's farm so he started using R-23.

Now the crows really flee, reports Cornelio, "No matter what the program is."

### HST Renews Pledge of America to U.N.

RIO DE JANEIRO—(AP)—President Truman today pledged anew the full backing of the United States to the United Nations and expressed confidence the problems of peace can be solved "with mutual good will and forbearance."

Speaking before a joint session of the Brazilian Congress in Tiradentes Palace, Mr. Truman also hailed as "splendid" the achievement of the recent Inter-American Conference in reaching agreement on defense of the Western Hemisphere.

Brazil and the United States, he said, must continue to cooperate with other countries of the hemisphere in the development of a strong and concerted force for the good of mankind."

Mr. Truman noted that the two nations have been "spared the wanton destruction and dislocation of war. He said he is certain they will continue to great trust on which depend the lives and liberty of so many millions of disillusioned and discouraged people."

The address was Mr. Truman's second on Brazilian soil this week. In his first, he told the Inter-American Conference Tuesday that the United States is determined to remain strong and fulfill obligations to the U. N. He also expressed belief that postwar disputes can be settled without armed conflict.

Continuing on that theme in his address to the Brazilian Congress, Mr. Truman turned the defense agreement as an illustration to the world that "right-thinking men can surmount their individual prejudices for the benefit of the world."

Asserting the "problems of peace still lie ahead of us" and are more difficult than we could have anticipated," Mr. Truman proclaimed anew the United States' determination that the United Nations must be made to succeed despite the difficulties that have so far beset its development.

"The United Nations is not a temporary expedient," Mr. Truman said. "It is a permanent partnership—a partnership among the peoples of the world for their common peace and common well-being."

The difficulties, that we have encountered in the early years in the life of the United Nations have not discouraged us.

"On the contrary they have increased our determination that it shall succeed.

When the United States is resolved to support the United Nations with all the resources at our command.

He declared that the achievement of the purpose of an effective U. S. organization "will take determined and unremitting toil and infinite patience."

Emphasizing the necessity for cooperation between the Western Hemisphere nations in helping war-ravaged areas, Mr. Truman said, "Our special lessons we have learned in recent generations is that we do not dwell alone. Destruction, suffering and confusion in other parts of the world confront us now as never before. Our national pride and our national security are now as never before spared the wanton destruction and dislocation suffered by many."

At one point the President recalled his recent exchange of correspondence with Pope Pius XII, explaining he had expressed to the Pope his desire "to do everything in my power to support and to contribute to a concert of all the forces striving for a new world order."

He was speaking in making that statement.

#### Even a Judge Can Lose His Dignity

Even a judge can get into his pants—literally as well as figuratively.

District Judge Lewis M. Goodrich, who presided over the trial of a man charged with a gross fire burning near his home in Shamrock, the jurist, having "ants in his pants" over the little blaze, ambulated over to watch.

Somewhere between his home and the fire the judge stepped into a red ant hill. The little creatures crawled up the judge's trousers legs, up his shirt sleeves and into his ears. Our national "dig in" for the night on the back of his neck.

He was still scratching this morning—four days after the attack.

#### Prominent Wheeler County Pioneer Dies

SHAMROCK, (Special)—John Henry Reeves, 86-year-old pioneer and pioneer of Wheeler County, died at 5 a.m. yesterday in the Shamrock General Hospital following an illness of about one year.

Mr. Reeves had lived in Wheeler County since 1908 and retired from farming in 1922. Survivors include his wife, Wilbur Bird of Ceres, Calif.; Raymond Clinton of Tuley, Herbert Napoleon of Hereford, John Everett of Shamrock; Gordon of Amarillo; one daughter, Mrs. Hazel Wadreck of Shamrock; 28 grandchildren, and 26 great-grandchildren.

Funeral services under the direction of Clay Funeral Home are to be held at 2:30 p.m. Friday, from the First Baptist Church with Rev. Luther Craven officiating and burial in the Shamrock Cemetery.

#### Know Your New Uniform Highway Traffic Code

"See. 50. It is unlawful for any person who is under the influence of any narcotic drug or who is under the influence of any other drug to a degree which renders him incapable of driving a vehicle, to drive a vehicle within this state. The fact that any person charged with a violation of this section is or has been entered to use such drug under the law of this state shall not constitute a defense against any charge of violating this section. Penalty upon conviction of violation in confinement in county jail for not less than 10 days nor more than two years, or by fine of not less than \$50 nor more than \$500, or by both such fine and imprisonment.

### Prices Steady On Vegetables, Fresh Fruits

CHICAGO—P—The nation's principal commodity markets cast lengthening shadows over family household budgets today in a dizzy whirl of rising prices.

With most staple foods at high peak for the year and certain to go still higher, the consumer was advised to adjust to substitutes, such as spaghetti, and to shop around for cheaper cuts of meat. Only fresh fruits and vegetables were holding at steady prices.

Some observers predicted that unless "consumer resistance" shows up in the market places eggs in New York will soar to \$1 a dozen, butter and meat \$1 a pound. Such grains as corn and oats sold in futures trading yesterday at new record high prices in the 99-year history of the Chicago Board of Trade.

Janus Krey, chairman of the American Meat Institute, said "a major catastrophe is striking this country and a hungry world because of the possible shortage in this year's corn production."

In anticipation of further advancing prices for the grain, one Chicago broker reported that wheat producers were withholding some of their 1947 crop from market channels.

The Midwest drought which sharply curtailed corn crop prospects was an important factor in meat prices but in virtually all other commodity exchanges the trend was sharply upward, including cocoa, sugar, hides, cotton, cottonseed oil and coffee. Some of these already were at record high quotations.

Butter was selling at 87 cents a pound retail in New York where Eugene Schulz, city market commissioner, predicted it would climb further because of short supplies. He said "only slight consumer resistance" against the high prices had appeared there.

Eggs for delivery in October and butter for delivery in November and January delivery at 73.60 cents, one Chicago broker reported. The trend was sharply upward, including cocoa, sugar, hides, cotton, cottonseed oil and coffee. Some of these already were at record high quotations.

Wheat, at \$2.65 a bushel for September delivery was at a peak for this time of year but well under last winter's high of \$3.18. The record high price of \$3.25 was paid in 1917.

### No Definite Price Set on Gas at Well

By KEN BENNETT News Oil Editor

Royalty owners and other interested persons who attended the first meeting of the Railroad Commission at Amarillo yesterday relative to the setting of a "going" price at the well-head for sweet gas to be used in the manufacture of carbon black, were of the opinion today that the price would run from \$4.25 to \$4.50 per thousand cubic feet, and at a pressurable base of 16.4 pounds per square inch absolute.

A number of persons from this area were present at the meeting at the Herring Hotel. No definite established price is expected from the Commissioners for a few days.

Commissioners Bill Murray and Col. Ernest O. Thompson were present, the third commissioner, Olin Culbertson, having been absent due to illness.

It was also requested at the hearing that the Commission convert the price and pressure base to a measure of 14.65 pounds per square inch absolute.

This meeting, which is required to be held at various periods of the year by the new statute, was held in three parts. The first part was held to establish a variance between Hamford and Hamford Counties was to be considered a part of the Hugoton gas field of the Panhandle area.

There was no final decision given on this by the Commission but the majority of the attending officials indicated those counties would become a part of the Hugoton field. There was no opposition to this at the meeting.

Part two of the session was to consider whether it was desirable, practical, and feasible to prorate gas in the Panhandle fields, considering it as one proration area. This matter was also referred by the Commission to the Attorney General.

The third matter discussed was the determination of the gas price.

It was developed at the meeting that gas was being sold in the Panhandle area at a variance of from 1 1/2 cents per M. to 6 cents per M. under pressure bands of 16.4 to at low as 13 pounds, and royalty rates being paid up to as high as 1 cent per M. It developed, also, that some companies in the area, although restricted to less than 2 cents per M. by the FPC are still paying on a royalty basis of 4 1/2 cents per M.

The Commission announced that the next meeting would be in this area within the next 30 to 40 days.

Among those attending yesterday's hearing from Pampa were Luther Pierson, Hugh Burdette, Gene Green, Ed Dunnigan, Jake Galloway, Fred Neeley, Lee Fry, D. E. Williams, Sherman White and Joe Gaylin.

### O'Daniel Has No Comment on Fact Son Seeking Post

FORT WORTH—(AP)—Sen. W. Lee O'Daniel had no comment today on the application of his son, Pat, for permanent postmaster at Fort Worth.

The Civil Service Commission at Washington announced yesterday that young O'Daniel is one of 19 applicants for the job.

The postmastership comes under Civil Service and applicants will be interviewed by a Civil Service examiner. Then the Civil Service Commission will submit to the President a list of the three top eligibles for the job. The President will make the appointment but the senator from state usually has a "voice" in the selection of the postmaster for his home town. Senator O'Daniel is from Fort Worth.

Also an applicant for the job is Edwin McKee. The Senator's appointment to the temporary job of postmaster.

In a radio broadcast at Fort Worth last night, Senator O'Daniel kept mum as to whether he will seek reelection in the campaign of 1948.

"I have already made up my mind what I am going to do but I am not going to give these politicians the satisfaction of appeasing their curiosity," O'Daniel said. He added: "There is not enough money in the hands of this political clique that runs politics in Texas, reinforced by the communistic Left Wingers and labor racketeers, to defeat me for a second term if I run."

Texas Junior Senator said the "clamoring" among government circles over communism is "an attempt to whitewash their own communistic activities. They may own a few little clerks and stenographers but they are not the ones that have wrought the real destruction of the government."

"The blame for that, he added, falls on the 'communistic and socialist' legislation that has been enacted.

### Teachers Banquet Set September 25

# Oilers Defeat Gold Hose 3-1 Behind Dub Scott's Hurling

## Sports Round-Up

**By HUGH FULLERTON, JR.**  
NEW YORK—The other day (Barclay) B. Schroeder, who may have been bidding farewell to the time tennis in that strange Davis Cup tussle with Don Falis, pointed out that there aren't very many good youngsters coming along to replace him and Jake Kramer on the Davis Cup team. When we speak of kids we don't mean little things that you do. Ted explained, "I don't mean Tom Egan, who is 26, or Bob Falkenburg, who is 27. I'm thinking of a few years ago when a lot of down-of-the-hill players were also seen in the first tier in the California senior rankings. There's Herbie Flam, but I'm afraid he will be restricted by his style. From here, it doesn't look too tough for the next year or two with Brown, probably Gar Maboy, Pakenburg, Eddie Motion, Vic Serra, and Jim Clark still around. Egan and Motion, Haddy, Beltrami, Hutch, Slaw, Dick Montague, and Herbie, Tony Traber, Ed Buckley, Jerry De Witt, and Paine Gonzales will be ready for international play of course, only three of these youngsters are California. My view of the Davis Cup character was talking about DISCOVERY.

Scoop Lattimer, the Greenville, S. C. Sage, reports: "After 37 years of sports writing, I found what I've been looking for—a granddaddy-grandson batter, in baseball. Addison Boston, 46, is the father and the 17-year-old grandson, Tyler Robinson, Jr., is the son of the father. Tyler Robinson, Jr., is a catcher of the Chicago, S. C. team of the Dutch Fork semi-pro league. Both players used to play for Granddaddy Boston's team, but he got a Major League contract. He pitched a full year before he was traded to the Boston Red Sox. Wonder if Scott can't locate a grandson to bat for him? DAD'S THERE'S ALWAYS A REASON.

With the Texas-Oklahoma football game a sell-out five weeks in advance and stadium already booked over the 100,000 mark, Oklahoma Press wants to return to a four-day game arrangement. "The financial benefit of the game is enormous," says P. S. The Press was closed hotel room in Dallas.

**AMARILLO**—Pampa's Oilers defeated the Gold Sox 3-1 last night in the opener of a two-game series, but Amarillo fans couldn't feel very unhappy about it.

Ledy Longman, who has been slayed because of illness, was dusted off and given his first start since Aug. 22 as an unexpected experiment, held the Oilers to four separate singles, struck out 10 and walked only two. From the standpoint of prospects for the Shaughnessy playoff next week it was the most encouraging development possible. It was evident that Ledy will be ready, and that means the Sox will have a chance after all.

Ledy should have had a shutout. The Oilers got a couple of off him in the third on a pass, two errors and a single. He let Ben Gregory first batter to save him, get away. Then Vince Lottner still bothered by an injured finger, made a bad throw to put Dick Samok on and followed with a misplay on Dub Scott, the Pampa pitcher. Ledy filled the bases. R. C. Oley followed with a single to right center for the two runs, after which Tom O'Connell announced a lick double play. Decker to O'Krie to Bauman.

O'Connell's single in the sixth was scored and in the seventh after issuing his other pass to Al Johnston, Ledy was punched for a bat-breaking single by Samok, but fanned Scott and Oley fired for the third out.

**THE FACT THAT THE BOYS ARE HITTING AND HITTING HARD, WITH VERY LITTLE COMPLAINTING, SHOULD BE GOOD NEWS WITHIN ITSELF.** As hot as the weather has been recently, a boy has got to be plenty sold on the idea of playing football to continue the unburned training program. Morale is high in the Harvester camp, and we believe it is justified.

Before we go any further, we'll pick the Harvesters to win the district this year. There, we finally get the courage to put it down in print. Believe us, it requires courage, this early in the year. Our Harvesters are dead sure of it, if the Harvesters do not win the district this year, the team or teams that eliminate them will play much better ball than they displayed last season.

**INCIDENTALLY, THE BEST DISTRICT TEAM WE SAW PLAY LAST SEASON, WAS THE HARD HITTING BULLDOG BUILDERS AGAINST THE HARVESTERS. THEY HAD EVERYTHING A HIGH SCHOOL FOOTBALL TEAM COULD WANT, LED BY EXCELLENT LINE AND DOWN-FIELD BLOCKING, THE BULLDOGS FLEET BACKS, PARTICULARLY MILOE PRICE, PACKED A SCORING PUNCH, AND THEIR DEFENSIVE PLAY WAS NEAR FLAWLESS.**

They didn't win the district and we won't alibi for them. We don't think anyone has to alibi for them. Decker, who was at the time the leading high school ground gainer in the state. But, this is another year.

**MAJOR LEAGUE LEADERS**  
By The Associated Press

**NATIONAL LEAGUE**

Batting: Walker, Philadelphia 355;	Boyer, Brooklyn, 323;
Home runs: Sizem, New York 44;	River, Pittsburgh 41;
Pitching: Janss, New York 17-4;	Clay, Blackwell, Cincinnati 21-6.

**AMERICAN LEAGUE**

Batting: Williams, Boston 338;	Mitchell, Cleveland 323;
Home runs: Williams, Boston 27;	Alford, Cleveland 23;
Pitching: Shea, New York 12-4;	Tracy, Cincinnati, Detroit 10-4.

**Child Killed Under Wheels of Big Truck**  
MIDLAND—The wheels of a two-ton dairy truck on his father's farm crushed Temple Houston Harris, 15-months-old son of Mr. and Mrs. V. B. Harris, to death near here yesterday. The child was playing behind the truck when it backed out of a barn.

Try cleaning spinach in warm water. Use two pails of water. Lift the spinach from the righthand pan to the one on the left.

# Brooks Whip Giants 2-0; Lombardi Hurls

**The WAY it LOOKS to Bob Bray**

In spite of the sweltering heat Coach Tom Tipps and Aubra Nooncaster have been running their Harvesters grid hopefuls through some rough and rugged workouts. Harvesters are generally started with an hour of skill practice after which the boys go out on the field and execute the plays they have learned. If work is any indicator of a good club the Harvesters will have an outstanding year. There is no soft peddling at workouts.

The fact that the boys are hitting and hitting hard, with very little complaining, should be good news within itself. As hot as the weather has been recently, a boy has got to be plenty sold on the idea of playing football to continue the unburned training program. Morale is high in the Harvester camp, and we believe it is justified.

Before we go any further, we'll pick the Harvesters to win the district this year. There, we finally get the courage to put it down in print. Believe us, it requires courage, this early in the year. Our Harvesters are dead sure of it, if the Harvesters do not win the district this year, the team or teams that eliminate them will play much better ball than they displayed last season.

**Back of the subject of this little discussion—least this year, Coach Tipps has what a reasonably sure will be a potent model "T" running attack. It will be built around three boys, who were regulars last year, but will be strengthened a lot by at least three capable runners. Charlie Laffoon, Jimmy Wilson and Carl "Red" Maves, will play the one, two and four positions, as they did in '46, provided, of course, they can stave off competition.**

Darrell Conklin and Harbord Cox, are fighting it out for the number three slot. The backfield will be reinforced by several other able underclassmen, any of whom may play quite a lot of ball before the season is far advanced.

**Just how far and how often these backs go will, of course, depend on the blocking of Coach Nooncaster's rugged line. At the risk of leaving you in the air a day or two we'll go into their capabilities a little later.**

**Bobby Riggs Studying Kramer's Tennis Style**

NEW YORK—(AP)—One of the most attentive observers at the National Tennis Championships starting today at Forest Hills will be an ornery-looking little gamester with a crumpled hat named Bobby Riggs, who is the accepted world professional champion.

Bobby knows that, sometime during the coming winter, he is going to find himself locking horns night after night with big Jack Kramer, the young amateur genius, in a long series of money matches, and he is very busy trying to figure out what makes Kramer's game the devastating thing it is.

He was an eagle-eyed spectator all last weekend as Kramer and his partner, Ted Schroeder, gave the Australians a beating in the Davis Cup. It is a cinch he will miss little of Kramer's activities during the next 10 days.

**Softball Tournament Will Start Tomorrow**

FORT WORTH—(AP)—Six of the strongest women's softball teams in the Southwest, each a champion in regular season play, tangle here Saturday and Sunday in the ASA Regional Tournament with the winner advancing to national tournament competition.

It's a double elimination affair, attracting three Texas teams and one each from Oklahoma, Arkansas and Louisiana.

Dallas Chick Store, the Texas champs, tangles with Hamburger Bar, Metropolitan Houston winners, in Saturday's initial tilt.

The 1:30 p.m. engagement pits Teague Used Cars, Fort Worth's top team, against state champion aggregation from Arkansas.

Cook extra bacon or ham to mix with cottage cheese. Mix bits of the meat with the cheese and spread on bread.

# Tulsa Oilers Move to Third With 6-3 Triumph Over Rebs

By the Associated Press  
Fortunately for Dallas the Texas League season ends in just three days and Shreveport picked an opportune time—for the Rebels—to go into a tailspin.

At the rate Dallas now is traveling—inreverse—the Rebels wouldn't have made the play-offs.

It's getting so Dallas fans have to look in the records to recall when the Rebs last won a game.

Last night they dropped another to Tulsa, 6-3. It not only plummeted the Rebels into fourth place but moved Tulsa into third.

The play-off bracket already has been determined and except for appearances Dallas doesn't have to worry about losing right now.

Last night Houston increased its lead to a game and a half over Port Worth for first place as the Buffs licked San Antonio 4-2 while Port Worth was dividing a doubleheader with Oklahoma City, losing the first 2-1 but taking the nightcap 5-2.

Beaumont beat Shreveport 9-3 as the two managers took over pitching duties. Goldie Holt of Beaumont bested Sully Parker of Shreveport, hurling a five-hitter, while Parker was hammered for 15. Now Goldie may be embarrassed when the fans want to know how come Goldie hasn't been pitching all the time, pointing out that if he had maybe Beaumont wouldn't be tied for the bottom with San Antonio.

Tulsa made it six straight triumphs over Dallas, scoring all its runs in the eighth inning by batting around. Barney White started the rally with a single and he also got the last hit of the spurge.

Clarence Beers, the league's leading pitcher, hung up his twenty-fourth victory by taming San Antonio. John Hernandez furnished the batting fireworks for the Buffs with a homer and two singles.

Preacher Dorsett tagged his fifteenth pitching victory by turning back for Worth in the opener while Eddie Chandler kept Oklahoma virtually helpless in the second game.

Tonight Dallas moves to the Oklahoma City, Fort Worth to Tulsa, San Antonio to Shreveport and Beaumont to Houston to close out the league race.

**Battle Still Hot for 4th Spot in Big State**

By the Associated Press  
The battle for fourth place in the Big State League maintained the status quo last night as both of the hot contenders lost their games. Paris falling before Austin 11-7 and Sherman-Denison dropping one to Gainesville 10-7.

Paris thus stayed four and one-half games ahead of Sherman-Denison but they have 10 and 11 games to play respectively.

The two league leaders won, Texarkana licking Waco 9-7 and Greenville beating third-place Wichita Falls 7-3.

Lon Ferguson homered in the eighth to bring in two runs and break a 7-7 tie in the Texarkana-Waco game.

Ed Wiesler pitched a five-hitter until the ninth as Greenville's Majors took Wichita Falls to camp. Gainesville won a battle of homers over Sherman-Denison in ten innings, Phipp's two-run circuit smash being the pay-off punch.

Austin blasted four hits for four runs in the ninth to beat Paris with Steve Carter's double driving in two.

Tonight Austin again will be at Paris, Waco at Texarkana, Gainesville at Sherman-Denison and Wichita Falls at Greenville.

# Bank Clerk Swims English Channel

DOVER—(AP)—A swarthy, 35-year-old Peruvian bank clerk, Daniel Carpio, became the first South American to swim the English Channel after whipping the treacherous tides in a 14 hour and 46 minute effort.

His time was considerably short of the record of 30 hours and 45 minutes set by Venecias Szocok of Bohemia in 1926, but high waves and a three-knot current forced him to follow a route 42 miles long to cross the 19-mile wide straits.

Argon, a gas obtained from air, is used in electric light bulbs.

**SUNDAY SCHOOL LESSON**

**THE USE AND ABUSE OF WEALTH**  
Scripture: Proverbs 11:24-27 16:8; Ecclesiastes 5:10-11; James 5:1-6.  
BY WILLIAM E. GILROY, D. D.

On a smaller scale, and in a more primitive way, the Israelites of old were confronted with all the problems of character and conduct and their effect upon relationships in society, that vex and perplex the more highly organized nations of modern life.

Next to the problem of the abolition of war and the establishment of peace, and by no means unassociated with that deeper problem, are the problems of labor—keeping people working under fair conditions and with good living standards—and of wealth—keeping the power of great wealth under control in relation to the rights and interests of all.

So many problems in these spheres remain unsolved that we are apt to fail to realize the great progress, both in relation to labor and in relation to wealth, that has been made within the memory of many now living. It is not so long since labor was regarded as a "commodity" to be bought, like any other commodity, in the cheapest market, under a competition for jobs that in times of unemployment was bitterly keen. Then came the recognition that labor was a human commodity, of blood, flesh, and spirit, with families housed in homes—or hovels—and the demand for a "living wage" became so insistent that by now references to a standard of living is a stressed factor in wage negotiations and contracts.

Similar progress has been made in enforcing recognition of the relationships and responsibilities of wealth. In the days when labor was a "commodity," wealth was largely immune from governmental control and from any sense of responsibility. The prevalent conception was that a man's wealth was his own, to do with as he pleased. Today we recognize not only that wealth has social obligations, but that society itself is a basic factor in the acquisition, protection, and

## Salvation Army Will Have School Program

In connection with the Rally Day, Sunday, Sept. 7, 1947 The Salvation Army is conducting "Back to School" program in both the Sunday School and the Young People's meeting in the evening.

A prize will be given to everyone attending either of the services, and a special award will be given to the person bringing the most with them.

The Sunday School will commence at 9:45, the Morning Holiness Meeting at 11:00, the Young People's Legion at 7:00 p. m. and the Evening Salvation Meeting at 8:00 p. m.

Announcements by Major Bernice Lyons, and Lieut. Betty Williams.

Some years ago I wrote an editorial under the title, "Mr. Ford Too Rich?" Mr. Ford, of course, was taken as symbolic of the man who through invention, production and distribution makes a great contribution to society, and to whom society owes a great debt. But my point was that with the great organization called "society," which he could never have organized himself, the distribution would have been impossible. Actually "Mr. Ford" owed a great debt to society than society owed to him. It is considerations of this sort that constitute the basis and justification for, income taxes.

From a Christian standpoint the obligations of wealth are more simple and direct. What a Christian has is not his own, but is held in stewardship, subject to the will of God. That is the ideal set forth in the New Testament, and the true Christian the more nearly will he attain it in the practical use of what he possesses.

The Latin word "as," a unit of weight, is the source of our "ace," used in connection with playing cards or dice.

There are about 15 pounds of air above every square inch of the earth's surface.

## Women in the Church

Miss Violeta Cavallero, of Montevideo, Uruguay, a Methodist minister and one of the few South American women trained in a theological seminary (Union Theological, Buenos Aires), is now a post-graduate student at Scarriff College, Nashville, Tenn. At the end of her schooling she will become head of the Bible Department of Crandon Institute of the Methodist Church in Montevideo.

"The thought and efforts devoted to China by the humanitarian-minded of other countries is a truly welcome expression of friendship by the people for another," said Madam Chiang Kai-shek, wife of China's governmental head, upon learning of the plans of the American Mission to Lepers to combat that disease in her country. "The importance of the project lies not only in rendering assistance to unfortunate victims but more in prevention," she said. "What the Mission is doing is more than a project—it is launching a movement for the prevention of leprosy. Through the establishment of lay training centers by the medical departments of three Chinese universities, it aims to train village leaders, such as pastors, teachers, nurses, and other social workers; in

the basic principles for discovering and helping early leprosy cases, especially in children."

Reporting that as many as fifty new local "councils of church women" per month have been organized recently on a community-wide basis across the nation, Mrs. Ruth Mougey Worrell, executive of the United Council of Church women, 150 Fifth avenue, New York City, makes this comment concerning them: "These councils are not just church women's clubs. They are women from the various churches in their communities who are determined that Christian principles shall be put into action in solving the tremendous problems they see about them. They realize women cannot take an apathetic attitude on such vital matters as the atomic bomb, the United Nations, famine, segregation, the breakdown in family life, and war or peace. They do not have to talk about unity or brotherhood because they are going to experience it as they reach across all barriers of race and class and creed, and create a new pattern of living that is in keeping with God's will."

McALLEN.—(AP)—The Hidalgo County Health Unit reported that a mass tuberculosis survey here in July showed 43 positive cases out of 3,362 persons tested.

## Rev. Rudolph Q. Harvey Closes Graham Revival

Rev. Rudolph Q. Harvey, pastor of the Central Baptist Church, has returned to Pampa after completing a successful revival at the First Baptist Church, Graham. The revival services were opened August 18 and the final service was delivered Sunday night.

Rev. Dallas Lee, pastor of the Graham church, announces that during this successful revival his church had the greatest number of additions to the church, conversions, and the largest crowds they had ever experienced. There were approximately 1200 persons in attendance the last night of service. The Sunday School attendance record was broken Sunday morning with 659 persons attending classes. The previous high had been 535.

McALLEN.—(AP)—The Hidalgo County Health Unit reported that a mass tuberculosis survey here in July showed 43 positive cases out of 3,362 persons tested.

## Christian Science Services Sunday

"Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 7.

The Golden Text is: "God said, let us make man in our image, after our likeness" (Genesis 1:26). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "This people have I formed for myself: they shall shew forth my praise" (Isaiah 43:21). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Immortal man was and is God's image or idea, even the infinite Mind, and immortal man is co-existent and coeternal with that Mind" (page 336).

McALLEN.—(AP)—The Hidalgo County Health Unit reported that a mass tuberculosis survey here in July showed 43 positive cases out of 3,362 persons tested.

**GRANDPA'S FULL OF PEP**  
*Now He's Found Fast Help From Getting Up Nights*

Here's good news for you folks who have to get up at night to pass water, have backache, too, because of minor functional kidney disorders.  
Three generations ago, a famous doctor developed a medicine for this very trouble. Now millions have used it, often with amazingly fast, effective results. The medicine is Dr. Kilmer's Swamp-Root, made of 16 herbs, roots, vegetables, and balsams—truly nature's own way to relief. Instantly you take it, it starts to work flushing out kidneys... increases the flow of urine, helping to relieve excess acidity... so irritated bladder gets a good flushing out, too. Caution: Take as directed. You'll say it's marvelous.  
For free trial supply, write Dept. E, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

there is agreement between us upon the fundamental principles of justice and equity, we can face our common problems with an assurance of agreement upon the ways and means of solving those problems."  
He continued:  
"The recent war again gave convincing proof of our friendship. The mutual trust and confidence that

exists between us manifested itself at an early date in the immediate response of your government to our need for air bases and for supplies of strategic materials."  
"When both our countries were attacked, our people fought side by side until victory was attained."  
"The bravery of your fighting men, against an experienced and resourceful enemy, cemented our

comradeship and gave us another reason to feel a deep sense of pride in our friendship."  
"The memory of those days of struggle and sacrifice together will always be a sacred bond between us."  
Mr. Truman said the problems of peace will require the closest collaboration between us. But I am confident that we can solve them with

mutual good will and forbearance. "The one essential is that we maintain our common ideals and our common principles of morality and justice."  
"A good rule in buying floor coverings is to purchase the best that you can afford. Many types of hand-made Oriental rugs cost little more than machine-made imitations.

**Annual Meeting of 36th Division Opens**  
SAN ANTONIO (AP)—The 36th Division Association opens its annual meeting here today with an attendance of 1,200 to 1,500 expected. Registrations are scheduled today, business sessions tomorrow, and a memorial service will be held at

11:30 a. m. Sunday morning. Major Gen. John E. Dahlquist, wartime commander of the Division, and Lt. Gen. Lucian K. Truscott, corps commander under whom the Division served in Italy, will speak at business sessions tomorrow and Sunday. Officers will be elected tomorrow.

(Continued from Page 1)  
Cerrill and Samuel Patino, Zaragoza Campos, fearfully wounded, somehow managed to escape and give the alarm. He died later. The six bodies were scattered over a 100-foot radius from the jeep. Some farmers in the moon mounted their horses and the beasts trampled the bodies. One farmer noticed the sightless eyes of dead Captain Macias were still open. The farmer jumped off his horse, whipped out a knife, cut out the eyes of the captain.  
"Now you... he yelled, "you can't see who killed you."  
The bodies were despoiled, the general said.  
When Zaragoza Campos notified his military post of the slaying, the town was surrounded by federal troops. In three hours, the 40 arrests had been made.  
Women of the military post, the general told newspapermen, begged him to turn the ringleaders over to them for five minutes.  
The 40 prisoners are being held at Ciudad Hidalgo and have been placed at the disposition of the judge of the Morelia district.
