

# 35 Vacationers Killed as Trains Collide in Canada

COUPLE SHOT TO DEATH—Nebraska State Patrolman R. H. Walter is shown as he examined the body, tentatively identified as R. L. May, II, who was killed with his wife seven miles west of Omaha. The Mays, of Alexandria, Va., had been robbed, shot in the head, and an attempt had been made to destroy their identification.

## Union Leaders Pledge Attack On Labor Act

**By the Associated Press.**  
Fighting words, marked organized labor's observance of its own holiday this year as leaders pledged in all-out battle to strike the Taft-Hartley Act from the statute books.

CIO President Philip Murray declared American workers are in a "fighting mood" and AFL President William Green asserted that "labor is rallying its forces to fight against oppression and depression."

Murray, speaking by radio from Kansas City, hammered at the economic consequences he foresaw. "I want to say," he emphasized, "that the nation is heading toward another depression—a depression that could easily make the last one appear to be only a minor economic setback."

"I am not saying that another depression is just around the corner," the CIO chief continued, "I am saying that the present trend of higher profits and smaller and smaller purchasing power must be halted and reversed if we are to avoid economic chaos in the future."

As for the fight he said is ahead, Murray pictured American working men and women as "determined that their unions will not be weakened."

"They are determined to change the anti-labor complexion of Congress," he went on. "They are determined to wipe the infamous Taft-Hartley Law from the statute book."

Green, addressing a Labor Day rally at Chicago's Soldier Field, pledged that the AFL's fight will be waged "not with ill-considered strikes, but with ballots, in the peaceful, democratic, and American way."

Green laid down this five-point program for 1948 as "worth fighting for":

1. Reduction of the cost of living to a more reasonable level."

## Truman Tells Conference U. S. Determined to Remain Strong

**QUITANDINHA, Brazil—(AP)—**President Truman said today the United States is "determined to remain strong" to back up a foreign policy based on a desire for permanent peace.

He told the Inter-American Defense Conference that this is in no way a threat because "no great nation has been more reluctant than ours to use armed force."

But, he said, "Our aversion to violence must not be misread as a lack of determination on our part to live up to the obligations of the United Nations Charter or as an invitation to others to take liberties with the foundations of international peace."

"Our military strength will be retained as evidence of the seriousness with which we view our obligations."

Nevertheless, Mr. Truman expressed confidence that current international disputes can be settled without armed conflict and said this pledge.

"The world may depend upon it that we shall continue to go far out of our way to avoid anything that would increase the tensions of international life."

Mr. Truman said the postwar era "has brought us bitter disappointment and deep concern."

"We find," he said, "that a number of nations are still subjected to a type of foreign domination which we fought to overcome. Many of the remaining peo-

ples of Europe and Asia live under the shadow of armed aggression."

And he asserted that European economic recovery has lagged because of "political fear and uncertainty in addition to the devastation caused by war."

He laid down a four-point American foreign policy under which he said the United States will pursue the quest for peace with no less persistence and no less determination "that was applied to the quest for military victory."

The four points:

1. Under the Marshall Plan, he said, America intends to do its best to provide economic help to those who are prepared to help them.

## Holidayers Perish As Blaze Rages

**DUGALD, Man.—(AP)—**At least 35 persons were killed last night in a collision of a vacationers' special train and a standing passenger express at the Dugald station, 20 miles east of Winnipeg.

Rescue crews clawed through the burned, twisted wreckage of the two trains in an effort to extricate the dead and injured. The west-bound vacation train smashed head-on into the express as the latter was discharging passengers.

Rescue workers toiling at the scene said this morning they had recovered 17 bodies from the charred wreckage of the special train, two cars of which burst into flame immediately after the collision.

Gaye Lewis, 61, of Transcona, Man., engineer of the Canadian National Railway's special which was bringing Labor Day holidayers home from the Lake of the Woods Resort, and Mrs. Albert Simpson of Winnipeg died en route to hospitals.

How many more might be buried in the charred wreckage of the coaches no one knew, but some of the estimates ran high. All the victims thus far were said to have been aboard the special.

The fifteen injured—all of whom had been aboard the resort train—were taken to the hospital at St. Bonifacius. With a few exceptions the passengers aboard the transcontinental train, bound from Vancouver to Toronto, escaped with nothing more than a shaking up.

The special was said to have been traveling at about 30 miles an hour when it crashed into the standing express shortly before 11 p.m. (EST). The second car of the 13 in the special burst into flame at once and fire quickly spread, first to the other coaches and then to a grain elevator standing beside the track at this small flag stop. Later it fanned over to oil storage tanks nearby.

Members of the few families which live in the vicinity of Dugald said the scene was a holocaust when they arrived. Flames were shooting 50 feet in the air, they said, the two locomotives were locked together and the baggage car of the transcontinental train had climbed part way up the tender.

A steel baggage coach on the special remained upright but behind it coaches were slung crazily along the right of way. The heat was so intense that early attempts at rescue work had to be abandoned until help arrived.

Amidst the wreckage, police and firemen and equipment raced to the scene from Transcona, 10 miles to the east.

## Army Garrison Joins in Revolt Against Mancheno

**GUAYAQUIL, Ecuador—(AP)—**The Army garrison of Guayaquil, Ecuador's leading port, joined the revolt against the regime of Col. Carlos Mancheno today, saying it no longer recognized him as the chief of the government.

Capt. Antonio Rivas Hidalgo has assumed command of the Guayaquil forces, the garrison announced in a statement.

Guayaquil is a Pacific port about 170 miles south of Quito, the capital.

In the region between, government troops supported by tanks and artillery were reported driving against anti-Mancheno forces. Mancheno's nine-day-old regime declared insurgent resistance was easing.

Last night the Ambato radio, broadcasting the first communique issued so far by insurgent headquarters, said rebel troops were battling Mancheno's forces in the vicinity of Ambato, a strategic rail town 60 miles south of Quito.

A radio broadcast from Ibarra, 60 miles northeast of Quito, said troops from Tulcan had arrived in Ibarra and were thrusting toward the capital. The troops, which had taken over to the side of the anti-Mancheno forces yesterday.

Troops in Guayaquil were reported to have made an abortive attempt to join the revolt but later reports said they still were under government control and that quiet prevailed throughout the city.

The latest Mancheno government communique said an attack was launched by government forces yesterday along a railway line about two miles from Socoban, with the aim of smashing "enemy" resistance. Socoban is about three miles northeast of Ambato.

Yesterday a government announcement quoted Commandant Luis Ernesto Villacis, chief of operations in the south, as saying that the insurgents had been defeated at Latacunga, Yumbo and Socoban. Yumbo is approximately 12 miles north of Ambato.

Mancheno, who seized control of the government in bloodless coup last week, abolished the constitution shortly after assuming power and

## U.N. Warned Against Division of Palestine

**LAKE SUCCESS, N.Y.—(AP)—**The United Nations was warned today that a partition of the Holy Land would "set Palestine and the Arab East on fire."

The warning sharply underlined a promised battle in the U.N. General Assembly which convenes in New York Sept. 16.

Emile Ghoury of the Palestine Arab Higher Committee declared in Jerusalem that his organization had "rejected" proposals by the U.N. Special Committee to divide Palestine into Arab and Jewish states and admit 150,000 Jewish immigrants during the next two years.

He said the Arabs "would use all means at their disposal" to combat the proposals and then released to press an Arab High Committee statement declaring that any attempt by the United Nations to carry out the recommendations would result in violence.

Ghoury had said earlier that if Great Britain tried to force partition "we will oppose it by force."

Arab spokesmen promised that the seven-state Arab League would fight the report in the General Assembly through its five U. N. members—Egypt, Iraq, Syria, Lebanon and Saudi Arabia.

Immediately after the U. N. Committee announced its proposals, both Arabs and Jews began drawing their battle lines for the Assembly fight which is expected to be the most heated yet.

Arab delegates were on their way here from the Middle East. Zurich, Switzerland, leaders of the World Zionist Organization were in conference mapping their strategy.

## 37 Texans Meet Violent Deaths During Holidays

**By the Associated Press.**  
Texas traffic fatalities during the long Labor Day weekend beginning Friday climbed to 22 today—the second highest state in the nation.

California with 23 traffic deaths was highest.

In all, 37 Texans died violently. Six drowned, three burned to death, three were shot to death, two were killed in a plane crash, and one died when a timber fell from a truck and struck him.

Three persons drowned in a boat accident last night on Buffalo Lake, 32 miles southwest of Amarillo. The dead were Miss Lola Bevers, 23, and Miss Jamie Arlene Bevers, sisters, and Francis Earle Steele, 19, of Amarillo.

Mrs. Rose Nell Wallace, 45, of Dallas, drowned while on a Labor Day picnic at Carrollton Dam spillway near Dallas. She went swimming with five other persons at the base of the spillway and, according to witnesses, was pulled under the water by an undercurrent.

Jesus Hernandez, 17, of El Paso, accidentally shot himself while hunting rabbits Monday and died two hours later in an El Paso hospital.

D. A. Vorgies, 19, Fort Worth, was fatally burned in a gasoline tank truck fire. The accident occurred near Baird when Vorgies attempted to blow air into the fuel lines of his truck. He was pronounced dead after being rushed by ambulance to a Dallas veterans hospital.

Two Midland residents, Roy Fred Douglas, 45, and Mrs. Nannie Mae Davis Russell, 31, were killed instantly about noon Monday when their car overturned three miles northwest of Brownfield. Highway Patrolmen who investigated the accident found Douglas apparently lost control of the car.

## Aleman Stresses Foot and Mouth Disease Problem

**MEXICO CITY—(AP)—**In his nine months report to the people yesterday, President Miguel Aleman listed disasters but said "none of these can compare in gravity with the spread of the foot and mouth disease in cattle."

"With the serenity of mind that we must apply to all things concerning the welfare of the nation, we Mexicans must realize how serious the problem is. It affects the entire country, therefore the entire country must rise up to it with honesty and decision."

"The measures of various kinds that the authorities are taking to eradicate this plague must be vigorously obeyed by all. Thoroughly aware of the unflinching determination of the government in this matter, our people must cooperate fully in this great effort."

Everyone knows the measures taken and the efforts made by the government for eradication of the disease. By virtue of an agreement signed with the United States valuable cooperation has been given which permits the campaign to be conducted intensively and with results that promise satisfaction. Up to date there have been killed and paid for 167,000 cattle valued at 20,000 pesos (\$1,000,000) and 200,000 pigs and sheep valued at 8,500,000 pesos (\$1,700,000).

Communal landowners and farmers affected have been given credits to buy farm machinery and so far they have been given 17,000 mules to replace slaughtered ones and also 200 tractors.

Rehabilitation plans are being made for each of the affected states. Further with the object of solving the problem of cattle surplus in the north of the country, because of the closing of the United States market, aid has been given to firms with refrigerating plants as well as those being constructed in this matter.

See **ALEMAN, Page 4**

## Contract Let for Laying Curb and Gutter for Paving

**W. R. Colville, Amarillo contractor, this morning was awarded the city's contract for laying the 8,000 feet of curb and gutter at \$1.15 per foot at a total cost of \$9,200. The city has the option of raising the project to 16,000 feet at the same price.**

Colville was named successful bidder after the bids of George W. Thompson, former city engineer, calling for a price of \$1.23 per foot or a total cost of \$10,640, and the bid of Benson McGann, Wichita Falls, bidding at \$1.30 a foot for a total of \$10,400, were read.

The city's recently purchased 600 feet of steel curb and gutter forms will be loaned to the contractor who will be responsible for any loss or damage to the forms incurred during the job.

J. H. Walsh Construction Co., Electra, was named successful bidder over the Parkman Construction Co., Pampa, for the removal and loading of cast iron pipe, fire hydrants, connections and valves from Camp Howze.

Two schedules were asked for on the bids. Schedule A called for the removal of the pipe, refilling ditches and loading into nearest freight cars to the camp. Schedule B called for the same work plus the transportation of the pipe and unloading it at Pampa. The contract allows for a three percent breakage in price of the removal. The city was informed the railroad company shipping the pipe will stand for breakage in transit.

Walsh's price on schedule A was \$9,640.40. The Parkman bid was \$11,148 for the same schedule. Prices given on the B schedules were: See **CONTRACT, Page 4**

## United States Firmly Rejects Russian Protest

**WASHINGTON—(AP)—**The United States has firmly rejected Russia's decision to step up the level of industry in their occupied zones of Germany.

A note delivered to the Russian Embassy in Washington Friday said the United States government "feels justified in pursuing objectives which have been commonly agreed in making arrangements for the purpose with any other occupying power willing to work toward the common end."

The U. S. and Britain announced agreement last week to raise the industrial output of their economically merged zones to approximately the 1936 level.

Russia had vigorously protested this move, claiming it violated the Potsdam agreement which pledged the Big Four to treat Germany as a single economic unit.

The note said the Russian failure has "placed upon the United States a heavy financial burden in the occupation of Germany." It added: "The United States government is unable to accept the thesis that nothing can be done to alleviate the financial burden of the United States or to develop within the framework of the Berlin agreement the contribution of the Western zones of Germany to the economic reconstruction of Europe until the consent of the Soviet government has been obtained."

The note, signed by Undersecretary of State Robert A. Lovett, recalled that the American government has "sought persistently" for See **U. S. REJECTS, Page 4**

## Gray County Vets Swarm in Town to Cash Leave Bonds

**Pampa and Gray County veterans began gathering at the two local banks about 8 o'clock this morning ready to make that 9 a. m. opening-hour dash to cash their terminal leave bonds.**

At noon today, one bank estimated that it had cashed between 150 and 200 bonds in a total amount of about \$35,000. One of the banks was reported to have secured additional cash from a depository in Amarillo in order that every veteran can be served immediately.

Downtown streets are crowded and merchants are ready to accept any and all business.

By **The Associated Press.**  
Texas war veterans lined up at bank windows by the thousands today to cash their terminal leave bonds.

Some banks reported the crush so heavy that they were unable to handle the crowds.

In Fort Worth veterans were asked by bank officials to come back later.

The three national banks there were packed.

The situation was similar in Dallas where long lines formed 30 minutes before opening time.

## Pampa Ropers Down Miami Roping Club

A 16-man team composed of members of the Pampa Roping Club recently defeated the Miami Roping Club in a match by 20 seconds. It was announced this morning.

The local club will meet the Canadian Roping Club in a 10-man team match at Recreation Park tonight.

Plans have also been made to hold matches with the roping clubs of Canyon and Amarillo, Thursday and Sunday, respectively.

## Pampans Roast in 99-Degree Heat; Rest of State Swelters in Higher

Pampans yesterday roasted in a 99 degree heat, the third time this year that the mercury has reached the "99-can't-make-a-100 mark." The other two 99 days were July 4 and August 11.

As the sizzling sunrays pined through an almost cloudless sky in Pampa, other cities throughout the state and nation reported temperatures from 100 upwards. Highest was reported from Yuma, Ariz., where the mercury perched for the next reading of 115 degrees.

## Grade School Bus Students Report to Junior High School

All students enrolling in Pampa Schools for the first time, who will attend grades first to fifth and will travel to school by bus, have been asked to report to the Junior High School Auditorium tomorrow morning at 9 a. m.

Purpose of the meeting is to assign each student to the elementary school which he is to attend.

Bear front end alignment, complete brake service. Pampa Safety Lane, 511 S. Cuyler. Phone 101. (adv)

# Cardinals Take Twin Victory From Pirates to Stay in Race

## Missions Climb From Loop Cellar With Double Win

(By The Associated Press.)  
San Antonio, Sept. 2.—The Cardinals today took a double win from the Pirates to stay in the race for the National League pennant. The Cardinals won both games in a doubleheader at Pampa, Texas, today. In the first game, the Cardinals won 4-3 in 10 innings. In the second game, they won 6-4 in 9 innings. The Cardinals' record is now 42-37. The Pirates' record is 38-41.

The Cardinals' double win today was a significant boost for their pennant hopes. The team has been struggling recently, but this performance shows they are still capable of competing at a high level. The Pirates, on the other hand, have been unable to find their offensive rhythm.

## Cole Edges Houck in Top o' Texas Tourney

Billy Cole, Quana, lived up to pre-tourney predictions here yesterday evening, when he won a closely fought match from 17-year-old Billy Houck, Berger, 1 up in 18 holes, to win the Top o' Texas Golf Tournament at the Pampa Country Club.

Cole progressed to the finals by beating Pampa's ace, John Austin, 4 and 3, in the semi-finals yesterday morning. Houck, who is the son of Joe Houck, Berger Country Club pro, moved to the finals with a 4 and 2 win over O. E. Stewart, also a Berger.

Results in the other flights, one through six, were: Harry Wilbur, Canadian, beat Bill Sanders, Pampa, 1 up; Roy Ray, Pampa, beat R. A. Baker, Pampa, 3 and 1; B. B. Brooks, Berger, beat Grover Austin, St. Louis, 2 and 1; R. J. Holloway, Pampa, beat Cliff Hoffman, Shamrock, 1 up; J. S. Worley, Shamrock, beat M. H. Turner, Pampa, 1 up; and Wayne Wade, Pampa, beat Parks Brumley.

## Sports Round-Up

**BY HUGH FULLERTON, JR.**  
NEW YORK—(AP)—Okay, gang, get out of those fancy game uniforms and get those photographers off the field. It's time to start football practice. The attitude at West Point, where Army is preparing for its first season in three years minus B and D, is "We're still champions until we're beaten."

## Gorilla Football Team Workouts Start Today

Thirty candidates for the Gorilla football team were expected to report to recently hired Coach John Pond for their initial practice session this afternoon. With several returning lettermen and reinforcements coming up from the Pampa Junior High Reapers, the Gorillas should turn in a highly successful year.

## Kilgore Grabs Lead in Lone Star League

The Lone Star League had a new leader today, the Kilgore Drillers, having defeated the top team from Lumberton by sweeping a double-header. The Texans 14-2 and 4-2, the Drillers' eighth and last game of the season.

## Hubbers Win Second Straight Twin Bill

LUBBOCK.—The Lubbock Hubbers swept their second doubleheader in a row here last night, coping two for one with the Lamesa Lobos 7-5 and 10-6 before a Labor Day crowd of 4,300.

## SIDE GLANCES BY GALBRAITH

Long before there was an "iron curtain" in Europe there were "iron rugs." Dealers nicknamed certain types of Oriental rugs as "iron rugs" because of their great durability.

# White Hurls Oilers to Pair Of Triumphs Over Blue Hose

Pampa's Oilers pulled themselves out of a long losing streak, last night to beat the Abilene Blue Sox both games of a doubleheader at Oilier Park. They took the opener 10-3 and then hurried to win the nightcap 7-3.

Oiler hurler Foster White got credit for a double triumph. White was relieved by Dub Scott in the seventh inning of the nightcap, but his teammates were enjoying a four run lead at the time so the win was his. It was White's best home pitching performance of the year. In the two games, he struck out 11 men, walked only three.

In the opener, the Oilers enjoyed some sweet revenge when they blasted the Sox' hurler Zimtrovich for 16 hits, three of which were four baggers. Zimtrovich is the man who handed the Oilers a three hit, 14-0 whitewash at Abilene, only last week. Tom O'Connell, Grover Setz and Tony Rame collected the home runs.

The nightcap offered fans a much better game. Although the Oilers bounded ahead two runs in the first inning on two hits and a walk, Sox hurler Lorona, clamped down and allowed only one meek single throughout the next four frames.

## Southwest Conference Grid Teams Getting Ready for Tough Season

(By The Associated Press.)  
Gridiron hopefuls at the seven Southwest Conference Schools went back to the task of getting out the summer kinks today after opening their fall practice sessions in blistering heat yesterday.

## Clubs Fight for 4th in Big State

(By The Associated Press.)  
Texarkana, Greenville and Wichita Falls have clinched play-off spots in the Big State League but there's still a scrap going on for the fourth place.

## FINAL WHISTLE

Elh Marich, Georgia Sophomore, has a chance to become Georgia's first five-letter man. He hasn't tried track or swimming but coaches think he could letter easily in those sports.

## Hubbers Win Second Straight Twin Bill

LUBBOCK.—The Lubbock Hubbers swept their second doubleheader in a row here last night, coping two for one with the Lamesa Lobos 7-5 and 10-6 before a Labor Day crowd of 4,300.

## SIDE GLANCES BY GALBRAITH

Long before there was an "iron curtain" in Europe there were "iron rugs." Dealers nicknamed certain types of Oriental rugs as "iron rugs" because of their great durability.

# Football Funnies

Left halfback Skip Rowland literally carries the man for UCLA's ticket department which is in the throes of getting out the multitude of early applications.

# SPORTS SHOTS

**BY HAROLD V. RATLIFF**  
DALLAS—(AP)—Football this fall will have undergone a modicum of change but the average fan will scarcely notice it. About the only time he will think something new has been added will be on blocked tries for point after touchdown. But this occurs so seldom he may not see such an incident at all this season.

Under the change in the rules, the ball becomes dead when the kick for extra point is blocked or deflected. No man on the kicking team can run with the ball or pass it. Officials will whistle the ball dead as soon as it becomes apparent the kick has no chance to score.

Other changes will bring liberalization of the substitution rule whereby each team may send in a player while the ball is dead although time still is in, bars the so-called running shift, moves the ball in from the sidelines after out-of-bounds plays to one-third the width of the field instead of 15 yards as in the past, cuts the penalty on disqualification fouls from half the distance to the goal line to 15 yards although the offending player still will be removed, and makes penalties called on fouls committed while the ball is dead part of the succeeding play and not the preceding play.

The coach now can really run his team on the field if he so desires, by putting in a substitute after each play, he can control every play. In other words, the coach can send in his "specialists" to meet the occasion at hand whether it be a kick, pass, field goal or to plug a leak in the defense.

There were some other changes but none of particular note and not noticeable to the folks in the stands. Does the description fit you? # Texas Today

**By JACK RUTLEDGE**  
AP Staff Writer

The time may not be far off when farmers in need of moisture for their crops will turn rain on and off like they manipulate water faucets.

Rain making by dropping dry ice on cumulus clouds has been tested in Texas in widely separated areas—San Angelo, Amarillo, Dallas, Fort Worth, Del Rio, Eagle Pass, Lubbock, Wichita Falls.

And in many instances it has worked with amazing success. There have been a few failures, of course, but enough rains have resulted to prove that it isn't an accident.

The Ed Ritchey Flying Service of Fort Worth tried twice, got one rain, and although unwilling to guarantee results, will try to produce rain for anyone for \$50 per hour. The cost of the dry ice is five cents per pound.

James J. Vickers and Tom Hutchinson, Lubbock fliers, said they "seeded" a cold at 15,000 feet and caused rain. Other efforts there failed.

At Wichita Falls, Fire Chief Robert Totty of Sheppard Field and Municipal Airport Manager Jim Wright dumped 100 pounds of dry ice pellets into a promising cloud and produced a 45-minute down-pour. Another effort there failed when they tried to use carbon dioxide gas.

The San Angelo Aero Service co-operating with businessmen sprinkled 200 pounds of dry ice on cumulus clouds and produced two heavy localized showers. Rain amounted to about a quarter of an inch.

Man-made rain fell in the Eagle Pass area when young Tom Slick of Slick Airways and R. W. Brown, chief of the Slick Foundation of Applied Research tried the dry ice experiment. Brown says there is no doubt that the ice caused the rain.

Does Texas produce enough dry ice for commercial use if the plan becomes general? Yes, and no. O. A. Brightwell, manager of the Parker-Brown Company and Ray Addington, says the company's plant has a 24-ton daily capacity which barely meets commercial needs now, but that it will expand if necessary.

The Southern Alkali Corp., at Corpus Christi makes dry ice, and says the supply is "quite sufficient." It says it can convert to pellet form on short notice.

But even as experiments continue and farmers grow optimistic, that old devil "legal technicalities" raises its head.

For example, in Dallas Farm Editor Murray Cox of Radio Station WFSA went up with three pilots, Jim Camp, Julian Snyder, and Ray Addington and dumped 150 pounds of dry ice on the proper clouds. Nothing happened.

But 24 hours later came that 9.18 inch rain. An irate citizen whose home was damaged by the cloud-burst threatened to sue. Cox said his ice didn't cause the rain. Unless "it was delayed action dry ice."

"Further," he said, "to compensate, the next time it rains, I'll fly over and drop blotters on his house."

# MACKENZIE'S Column

**By DEWITT MACKENZIE**  
AP Foreign Affairs Analyst

The United Nations Special Committee on Palestine has presented divergent majority and minority recommendations regarding the method of dealing with the establishment of Jewish and Arab states, but among the important points on which the members of the committee are in agreement is that Britain should be relieved of its mandate as soon as practicable.

There is no suggestion that this is in the nature of a reproach to England. The problem is one which would have worried King Solomon himself. However, the committee report is recognition that the mandatory power is unable to deal successfully with the turbulent crisis in the Holy Land.

So far as England is concerned, the establishment of a Jewish National Home is no nearer achievement today than it was thirty years ago when it was promised by the Balfour Declaration. Indeed, the position has so deteriorated under the mandate that the very presence of the British in Palestine is a sorry aggravation, affecting relations between English and Jewish people the world over—affecting international relations in some cases, for that matter.

This being so, the probabilities are that the quickest alleviation of the crisis would be for the U. N. to take over the mandate and let John Bull step aside. There should be no difficulty about this, for there is a widespread desire in England to be rid of a stewardship which has become a mountainous burden.

It is interesting to find the newly created Dominion of India among the three calling for a federal set-up. The recent granting of independence to the great Indian sub-continent resulted in the establishment of two separate and sovereign dominions—India (preponderantly Hindu) and Pakistan (chiefly Moslem) which don't have even an economic union, and therefore must labor under a heavy handicap because of the division of resources. India wanted a federal government but Pakistan refused, on the grounds that the Hindus outnumber the Moslems three to one and that Pakistan therefore would be under Hindu domination in the legislature.

However, the two dominions will have to reach some sort of economic understanding or chaos will result. The same would be true if Palestine were divided into two wholly unrelated states—a fact upon which the Palestine committee agrees although the majority and minority reports differ as to the nature of the economic understanding needed.

Seek professional advice before having a garment redyed. Successful redyeing depends on type of fibre, weave, present color and general condition of the material. Unless all factors are right, discolorations may show up after dyeing just as prominently as before.

A new spun aluminum ice bucket with earthenware liner and cork gasket is also excellent for keeping hot foods hot and cold foods cold for several hours. It will be a welcome addition to the out-of-doors picnic or the buffet table.

Chamois skins should be washed on a windy day and the rinse water should contain a few soapflakes. Hang out in the wind to dry and the chamois will dry nice and soft.

**Lawyers to Honor Judge Joe Dooley At Special Dinner**

SHAMROCK (Special)—Hon. Joe Dooley, recently appointed U. S. District Judge of the Northern District of Texas, will be honored by the lawyers of this area with a dinner on Saturday, September 6. The affair will be held at the Amarillo Country Club, the program starting at 7 p.m.

Ever lawyer in the Amarillo and Lubbock Divisions of the Northern District of Texas will be sent personal invitations. Wives of the lawyers are not being invited because the club is not large enough to adequately serve that many.

Judge Dooley, for the time being, has been designated to hold court at Amarillo and Lubbock and to try a portion of the civil cases at Fort Worth.

Miss Eva Mae Hardin, former Carson County Health Nurse, was visiting friends in Panhandle last week. She recently received her bachelor of science degree at Vanderbilt University and will be an instructor in public health at the Baylor University Hospital in Dallas, this coming year.

Guests in the home of Mr. and Mrs. Mervin Beiderwell this past week have been her parents, Mr. and Mrs. S. T. Norsworthy, Crandall, Miss.; her sister, Mrs. Leonard Banston, husband and daughter, Martha, Laurel, Miss.; a brother, Roy Norsworthy, Grass Valley, Calif., and a cousin, Curtis Ivey, Amberst, Texas.

Mr. and Mrs. L. C. Stone of Ivanhoe, Texas, were guests last week in the home of Mr. and Mrs. Paul Kirk.

Mr. and Mrs. Johnny Brothers have returned from a several weeks' stay in Hot Springs, N. M.

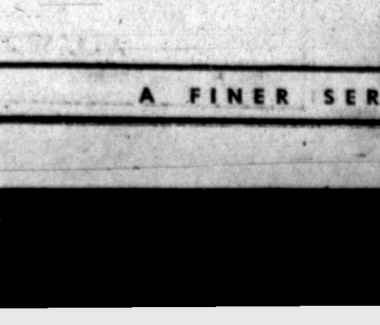

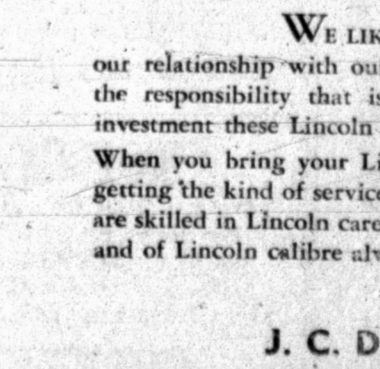

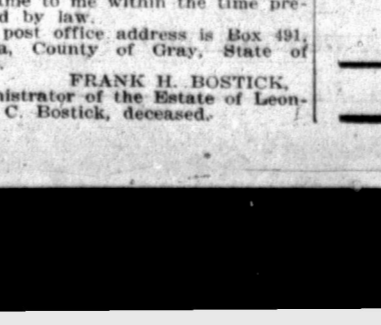

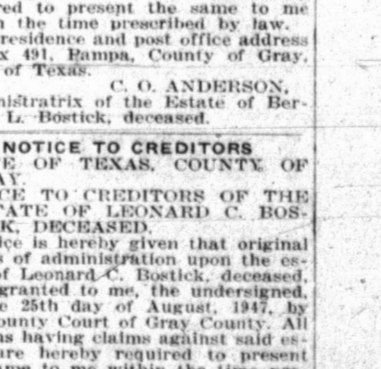

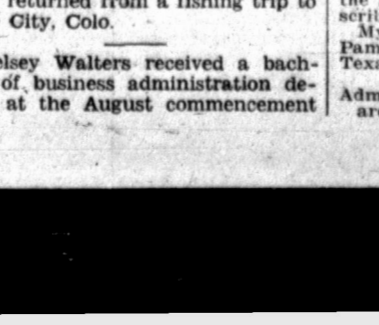

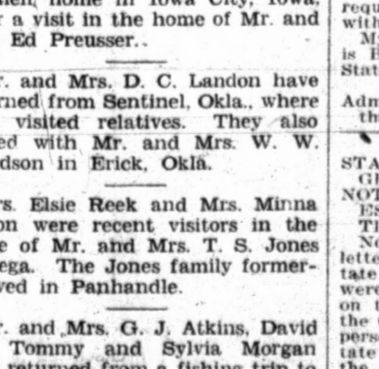

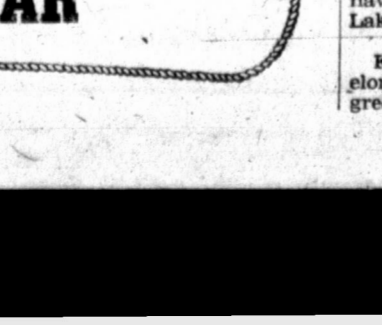

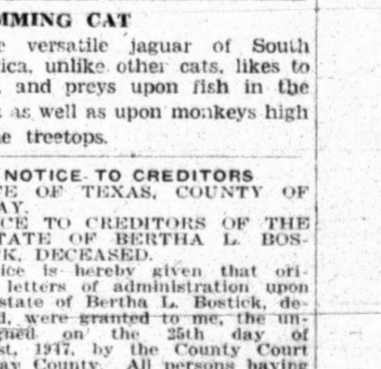

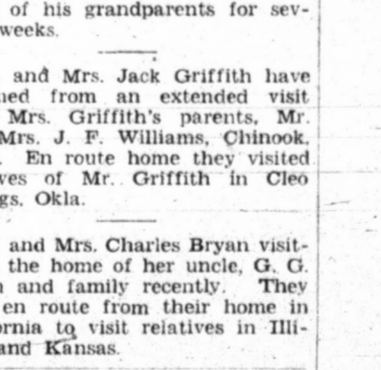

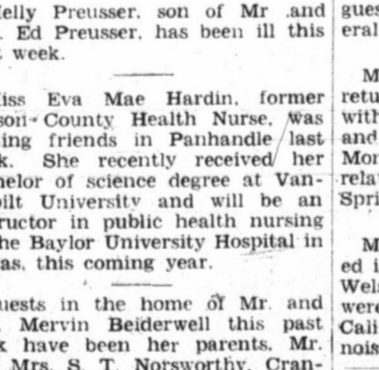

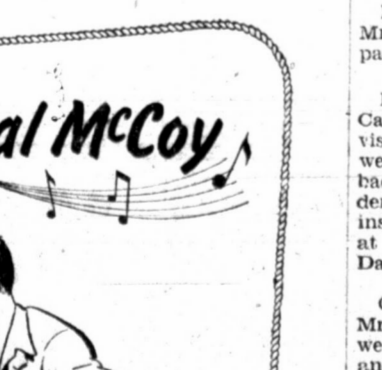

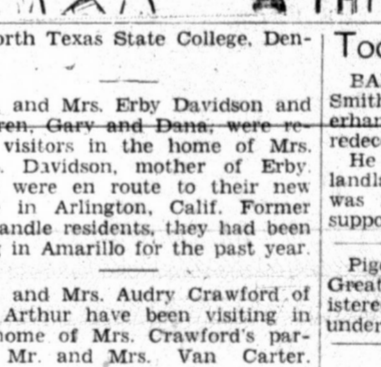

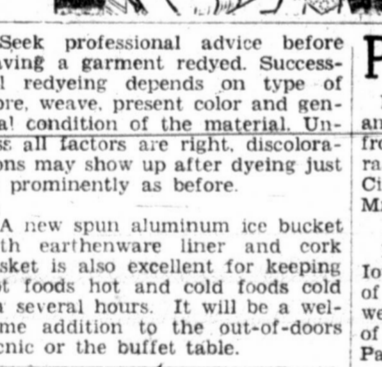

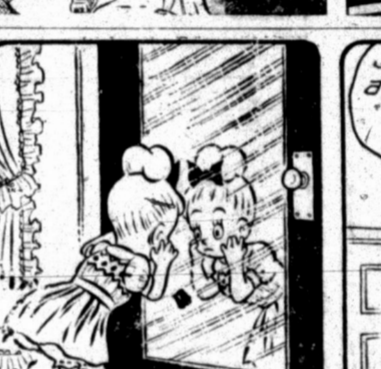

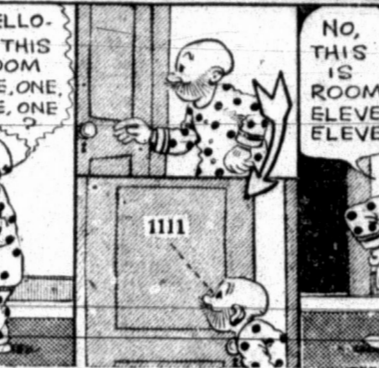

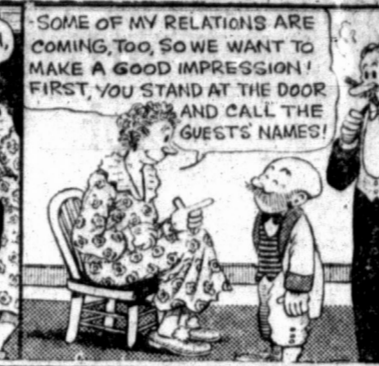

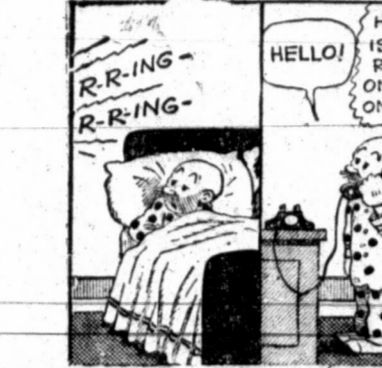

Mr. and Mrs. John Ruth and children, Jack and Judy, have returned to their home in Iowa City, Iowa, after a visit in the home of Mr. and Mrs. Ed Preusser.

Mr. and Mrs. D. C. Landon have returned from Sentinel, Okla., where they visited relatives. They also visited with Mr. and Mrs. W. Davidson in Erick, Okla.

Mrs. Elsie Reek and Mrs. Mirna Fulton were recent visitors in the home of Mr. and Mrs. T. S. Jones of Vega. The Jones family formerly lived in Panhandle.

Mr. and Mrs. G. J. Atkins, David and Tommy and Sylvia Morgan have returned from a fishing trip to Lake City, Colo.

Kelsey Walters received a bachelor of business administration degree at the August commencement

### Dry Run

Coached all the way down by an instructor using a loudspeaker, these British officers parachute for the first time in a practice jump from an old barrage balloon 700 feet in the air at Upper Heyford, England.

### Man Enters Plea of Guilty at Long Last

After lengthy consideration, Willis R. Bell entered a plea of guilty to charges of driving while intoxicated, before County Judge Sherman White, this morning.

Bell was arrested by City Police in the 100 block on South Hobart at 8:45 p. m. yesterday, after his car was in collision with one driven by Boyd Stevens.

Bell indicated at the trial that he intended to pay for the damages to Stevens' car.

In their accident report, officers said that Bell had crossed "well over the center line and hit Stevens' car."

When the hearing began Bell had trouble deciding whether or not he was actually under the influence of alcohol. Once he remembered, "I wasn't really drunk. This beer they make nowadays isn't as strong as that they used to make."

**Sue White Washateria.** Pick-up and delivery. Open from 6:30 a. m. to 7 p. m. Phone 2580.

**Miss Martha Clik** has returned to Los Angeles after spending the summer here as guest of her aunt, Mrs. Ross Byars and Mr. Byars.

Mr. and Mrs. Clifford Coleman

### GETTING UP NIGHTS GETTING YOU DOWN?

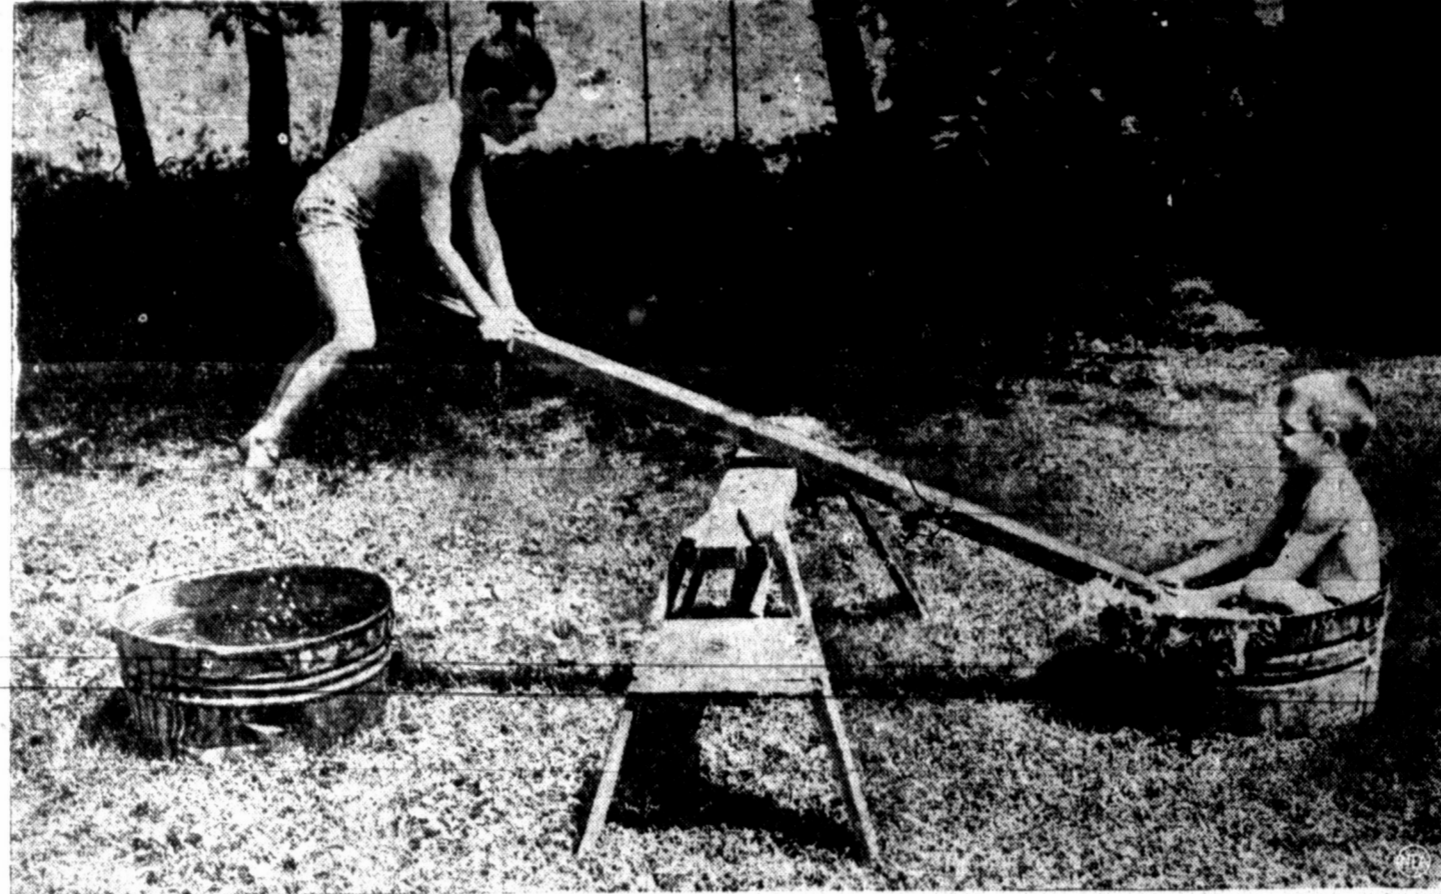

Here's good news for you folks who have to get up at night to pass water, have backache, too, because of minor functional kidney disorders.

Three generations ago, a famous doctor developed a medicine for this very trouble. Now millions have used it, often with amazing, fast, effective results. The medicine is Dr. Kilmer's Swamp-Root, made of 16 herbs, roots, vegetables, and balsams—truly nature's own way to relief.

Instantly you take it, it starts to work. Rubbing out kidneys... increases the flow of urine, helping to relieve excess acidity... so irritated bladder gets a good soaking, too. Caution: Take as directed. You'll say it's marvelous.

For free trial supply, write Dept. E, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or get full-sized bottle of Swamp-Root today at your druggist.

### Teeter-Dunker Is a Heat-Beater Treat

"Cooler below" was the forecast for Wally Loewe, 6, and his 4-year-old brother Donnie, after they rigged up this homemade water-cooled "teeter-dunker" in the back yard of their Westlake, Ohio, home.

and children of Skellytown have returned home after visiting relatives in Owensville, Ind.

**Wanted—Man between 17 and 45** for doorman. Apply LaNora Theatre.

Mr. and Mrs. E. Crawford, Mrs. Elza Morgan and Mrs. Ira Noble of Skellytown attended the Kekekah Circle meeting in Amarillo last Tuesday evening.

### Labor Act

(Continued From Page 1) price-fixing monopolies "crushed" and inflation halted.

2. Measures to maintain full year-round employment at "decent" wages.

3. A housing program "which will encourage and speed up the construction of millions of new and comfortable homes."

4. An increase in the present 40-cent an hour minimum wage in interstate industry.

5. A broadened social security system.

Murray, too, listed five things he said are wanted by the great mass of working men and women who have become convinced that they are being squeezed economically and pushed around politically.

"They want better homes, better working conditions, improved medical care, adequate educational facilities and real opportunities for advancement," the CIO leader said, adding:

"And these things they shall have if they will use their full economic and political strength wisely."

### Wage Increase

(Continued From Page 1) shared fully in the nation's expanding prosperity, and there has been a measurable increase in their productivity.

Witnesses for the railroads contended the workers were paid equitably, that granting the demands would be financially unsound and that revenues were not keeping pace with increased operating costs, which include payrolls.

At one session of the hearing, L. W. Horning of New York, vice president of the New York Central System, estimated a 20 cent increase would hike payrolls by \$566,000,000 a year.

### U. S. Rejects

(Continued From Page 1) two years to reach agreements with Russia and France and Britain to carry out the Potsdam decision.

France participated in the London talks, which Russia protested but did not join in raising industrial output in its zone. Britain and the United States agreed to discuss French requests for greater coal exports from Germany in Berlin as possible.

The London conference promised that although industrial production will be increased in the British-American zone this plan "should not result in priority loans given to the rehabilitation of Germany over that of the Democratic countries of Europe."

The American reply to Russia said that the "main objectives" of the Potsdam agreement, to eliminate German war potentials and to develop peaceful industry and agriculture, are being observed in the British-American accord on industrial output.

### Revolt

(Continued From Page 1) declared in effect the 1906 charter, which gave him virtual dictatorial powers.

The counter-revolutionaries have demanded a return to the constitutional government.

Manchero is reported to have mobilized 2,000 troops from garrisons at Quito and the Province of Imbabura for action against the counter-revolutionaries.

The insurgents were said to be under the command of Col. Angel Baquero Davila. Davila served as defense minister in the exile government of Dr. Mariano Suarez Veintimilla, whom Manchero has accused of being the political leader of the revolt.

### OUR BOARDING HOUSE... with... MAJOR HOOPLE

### OUT OUR WAY BY J. K. WILLIAMS

### Contract

(Continued From Page 1) Walsh, \$13,487 and Parkoven, \$15,663.27.

City Manager Steve Matthews told the Commission that sewer extension ditching is expected to be resumed next week when the Parkoven Construction Company's new 16 foot ditcher, now in transit, arrives. A lighted machine used the other week broke down and had to be returned. The new one was ordered and has been shipped.

Plans for the City Commission to attend the Texas League of Municipalities conference at Fort Worth on September 22, 23, and 24 were started and will be completed later.

The Commission this afternoon will finish budget estimates for the 1947-48 fiscal year and study the estimated income. The city's new safety program is also being discussed by the Commission.

### New Member Added to Auto Company Here

Paul Brown, former employe of the U. S. Treasury Department, has joined the sales department personnel of Culberson Chevrolet Co., it was announced today.

Brown, who for the past two years has worked out of Fort Worth as an internal revenue agent lives with his wife and two sons at 1109 North Starkweather.

Sauerkraut juice is an invigorating first course at dinner. Serve it straight or with a dash of lemon juice.

### SPECIAL NOTICE

### Truman

(Continued From Page 1) selves and each other." He added that the United States is prepared to do everything it can "within safe limits, that will be helpful and effective."

2. Fidelity to the United Nations. "We shall not forget our obligations under the charter, nor shall we permit others to forget theirs."

3. In carrying out its obligations to achieve world stability and peace, the United States is determined "to remain strong."

4. The problems of countries in the Western Hemisphere are different in nature from those of Europe and cannot be relieved by the same means, but "will be approached with the utmost good faith and with increased vigor in the coming period."

Mr. Truman's address highlighted the closing session of the conference at which delegates have hammered out an unprecedented defense pact binding the Americas to joint action in case of armed attack on any peaceable nation in the hemisphere.

Signing of the treaty by the 19 participating nations, in President Truman's presence, was arranged for this afternoon in Rio de Janeiro's Itamaraty Palace, home of the Brazilian foreign ministry.

Also on the President's schedule was a luncheon aboard the battleship Missouri in Guanabara Bay, 45 miles from here, for the ranking members of the delegations to the conference.

### Palestine

(Continued From Page 1) might comply with the recommendations.

The 11-nation U. N. Special Committee on Palestine unanimously recommended Holy Land independence from Britain's 25-year-old mandate "at the earliest practicable date."

A seven-member majority urged partition of Palestine into Arab and Jewish nations and an international city of Jerusalem and admission of 150,000 Jews into the Jewish territory during the two-year transition period.

A three-member minority for a federal Arab-Jewish state and entry of Jews up to the "absorptive capacity" of the Jewish portion during a transition period of up to three years.

More tomatoes were canned as juice last year than were packed in any other way. The pack totalled 29 million cases.

### Miss Peps V May Lose Speed Reign

DETROIT—(AP)—The 1947 speed boat reign of Danny Foster's Miss Peps V may be broken at least temporarily, today as Dan Arena's Notre Dame and Ernie Wilson's Miss Canada III, both averaging better than 73 miles an hour for the first half of the Silver Cup race, carried an almost unsurmountable lead over the Gold Cup champion into the second and last 45-mile Silver Cup heat on the Detroit River.

Poster, after whipping Guy Lombardo's Temp VI to take both the 1947 Gold Cup on Jamaica Bay, L. I., and the National Sweepstakes Regatta at Red Bank, N. J., missed the starting time for the first half of the Silver Cup event here Saturday and never was a contender as he finished fourth, the last survivor of an eight-boat field.

### NEW CALIFORNIA PIPELINES

WASHINGTON—(AP)—The El Paso, Texas, Natural Gas Co. is asking the Federal Power Commission for permission to spend \$55,395,840 on new pipelines to send California an extra 200,000,000 cubic feet of natural gas daily.

The same company already has under construction another project costing \$53,800,000 to deliver 605,000,000 cubic feet of gas daily to California distributors.

The new project, reported Wednesday by the Power Commission, would include a 438-mile, 26-inch loop line increasing by 100,000,000 cubic feet a day the capacity of a previously authorized line from Lea County, New Mexico, to the Colorado River near Blythe, Calif.

Also proposed is a 470-mile, 26-inch line from San Juan County, New Mexico, to the California-Arizona border near Needles, Calif. This, too, would have a daily capacity of 100,000,000 cubic feet.

Don't feel that you are doing the sick friend a kindness by taking the children along when calling on her. They are much more apt to make her nervous than to cheer her up in her weakened condition. Let the children play outside while you make a short call.

### Leave Bonds

(Continued From Page 1) dent of the First National Bank, estimated a minimum of 50 to 60 percent of the bonds held by Midland veterans would be cashed.

Austin's two largest banks reported continuous lines before four windows where usually one window is able to handle early morning business. Officials said a few of the veterans opened accounts but in a majority of cases they were taking cash.

Two of Austin's largest department stores noticed a slight increase in business, particularly household furnishings.

Long lines formed before Waco's three banks. A number of veterans said they would use the money in buying homes.

### Train Crash

(Continued From Page 1) the west, and from Winnipeg. They said they could see the red glare of the flames while six miles away.

The engineer of the transcontinental train reportedly jumped to safety.

Some oil storage tanks exploded, shooting flames hundreds of feet in the air.

Luggage, canoes and trappings of vacationists were scattered over the tracks.

Firemen pumped streams of water on the blazing railway coaches from a ditch adjacent to the right of way.

Many of the survivors, some of them suffering injuries, worked heroically with the rescue crews to reach those trapped in the wreckage. They led many persons to safety before they were beaten back by the intense heat.

W. R. Devenish, vice president, Western Region, of the Canadian National Railways, said the vacationers' special, which consisted of two baggage cars, nine coaches and two parlor cars, collided with the passenger train while the latter was discharging passengers at Dugald. The passenger train was bound from Vancouver for Toronto.

The locomotives were locked together. The cab of the special was crushed like an accordion.

### Graveside Services Set Today for Infant

Graveside services were to be held today at 2 p. m. for the infant son of Mr. and Mrs. Theodore Ranson, who died at 4 p. m. yesterday in a local hospital. Rev. Reeves, pastor of the Caldonia Baptist Church, will officiate.

Surviving are his parents; one brother, Michael; one sister, Barbara Ann; and grandparents, Mr. and Mrs. Johnson of Dallas.

Burial in Fairview Cemetery was under the direction of Clegg Funeral Home.

Coached all the way down by an instructor using a loudspeaker, these British officers parachute for the first time in a practice jump from an old barrage balloon 700 feet in the air at Upper Heyford, England.

### Man Enters Plea of Guilty at Long Last

After lengthy consideration, Willis R. Bell entered a plea of guilty to charges of driving while intoxicated, before County Judge Sherman White, this morning.

Bell was arrested by City Police in the 100 block on South Hobart at 8:45 p. m. yesterday, after his car was in collision with one driven by Boyd Stevens.

Bell indicated at the trial that he intended to pay for the damages to Stevens' car.

In their accident report, officers said that Bell had crossed "well over the center line and hit Stevens' car."

When the hearing began Bell had trouble deciding whether or not he was actually under the influence of alcohol. Once he reminded, "I wasn't really drunk. This beer they make nowadays isn't as strong as that they used to make."

**GETTING UP NIGHTS GETTING YOU DOWN?**

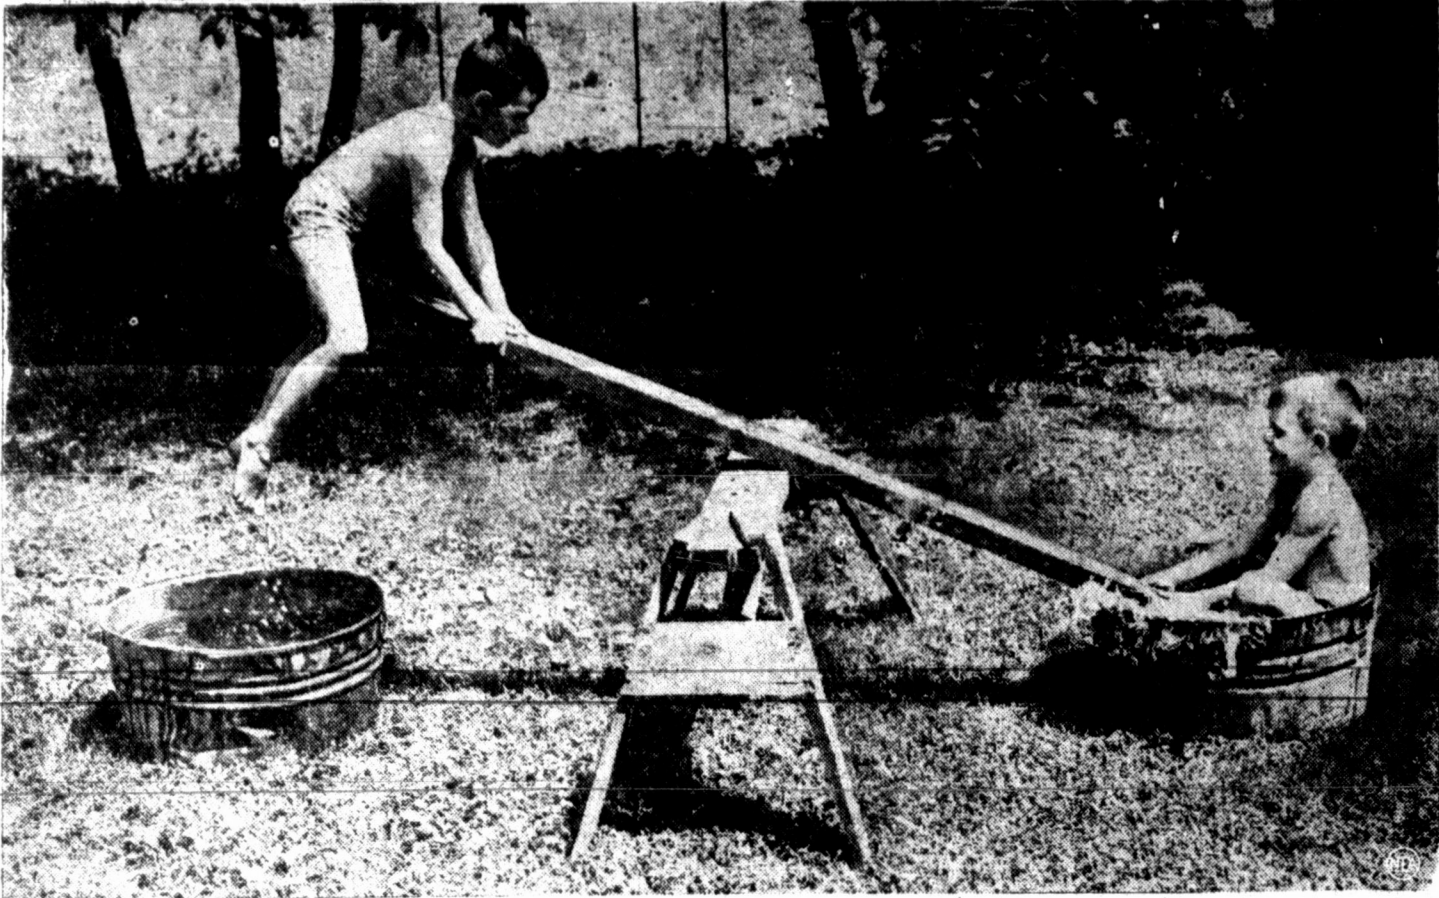

Here's good news for you folks who have to get up at night to pass water, have backache, too, because of minor functional kidney disorders.

Three generations ago, a famous doctor developed a medicine for this very trouble. Now millions have used it, often with amazingly fast, effective results. The medicine is Dr. Kilmor's Swamp-Root, made of 16 herbs, roots, vegetables, and balsams—truly nature's own way to relief.

Instantly you take it, it starts to work flushing out kidneys... increases the flow of urine, helping to relieve excess acidity... so irritated bladder gets a good flushing out, too. Caution: Take as directed. You'll say it's marvelous.

For free trial supply, write Dept. E, Kilmor & Co., Inc., Box 1255, Stamford, Conn. Or get full-sized bottle of Swamp-Root today at your druggist.

### Teeter-Dunker Is a Heat-Beater Treat

"Cooler below" was the forecast for Wally Loewe, 6, and his 4-year-old brother Donnie, after they rigged up this homemade water-cooled "teeter-dunker" in the back yard of their Westlake, Ohio, home.

and children of Skellytown have returned home after visiting relatives in Owensville, Ind.

**Wanted—Man between 17 and 45** for doorman. Apply LaNora Theatre.

**Mr. and Mrs. E. Crawford, Mrs. Elza Morgan and Mrs. Ira Noble of Skellytown attended the Lebekah Circle meeting in Amarillo last Tuesday evening.**

### Labor Act

(Continued from Page 1) price-fixing monopolies "crushed" and inflation halted.

2. Measures to maintain full, year-round employment at "decent" wages.

3. A housing program "which will encourage and speed up the construction of millions of new and comfortable homes."

4. An increase in the present 40-cent an hour minimum wage in interstate industry.

5. A broadened social security system.

Murray, too, listed five things he said are wanted by "the great mass of working men and women who have become convinced that they are being squeezed economically and pushed around politically."

"They want better homes, better working conditions, improved medical care, adequate educational facilities and real opportunities for advancement," the CIO leader said, adding:

"And these things they shall have if they will use their full economic and political strength wisely."

### Wage Increase

(Continued from Page 1) shared fully in the nation's expanding prosperity, and there has been a measurable increase in their production.

Witnesses for the railroads contended the workers were paid equitably, that granting the demands would be financially unsound and that revenues were not keeping pace with increased operating costs, which include payrolls.

At one session of the hearing, L. W. Horning of New York, vice president of the New York Central System, estimated a 20 cent increase would hike payrolls by \$566,000,000 a year.

### U. S. Rejects

(Continued from Page 1) two years to reach agreements with Russia and France and Britain to carry out the Potsdam decision.

France participated in the London talks against which Russia protested but did not join in raising industrial output in its zone. Britain and the United States agreed to discuss French requests for greater coal exports from Germany in Berlin as soon as possible.

The London conference promised that although industrial production will be increased in the British-American zone this plan "should not result in priority being given to the rehabilitation of Germany over that of the Democratic countries of Europe."

The American reply to Russia said that the "main objectives" of the Potsdam agreement, to eliminate German war potentials and to develop peaceful industry and agriculture, are being observed in the British-American accord on industrial levels.

### Revolt

(Continued from Page 1) declared in effect the 1906 charter, which gave him virtual dictatorial powers.

The counter-revolutionaries have demanded a return to the constitutional government.

Mancheno is reported to have mobilized 2,000 troops from garrisons at Quito and the Province of Imbabura for action against the counter-revolutionaries.

The insurgents were said to be under the command of Col. Angel Baquero Davila. Davila served as defense minister in the exile government of Dr. Mariano Suarez Veintimilla, whom Mancheno has accused of being the political leader of the revolt.

### OUR BOARDING HOUSE... with... MAJOR HOOPLE

### OUT OUR WAY BY J. K. WILLIAMS

### Contract

(Continued from Page 1) Walsh, \$13,487 and Parkoven, \$15,683.27.

City Manager Steve Matthews told the Commission that sewer extension ditching is expected to be resumed next week when the Parkoven Construction Company's new 16 foot ditcher, now in transit, arrives. A lighted machine used the other week broke down and had to be returned. The new one was ordered and has been shipped.

Plans for the City Commission to attend the Texas League of Municipalities conference at Fort Worth on September 22, 23, and 24 were started and will be completed later.

The Commission this afternoon will finish budget estimates for the 1947-48 fiscal year, and study the estimated income. The city's new safety program is also being discussed by the Commission.

### New Member Added to Auto Company Here

Paul Brown, former employe of the U. S. Treasury Department, has joined the sales department personnel of Culberson Chevrolet Co., it was announced today.

Brown, who for the past two years has worked out of Fort Worth as an internal revenue agent lives with his wife and two sons at 1109 North Starkweather.

Sauerkraut juice is an invigorating first course at dinner. Serve it straight or with a dash of lemon juice.

### Truman

(Continued from Page 1) selves and each other." He added that the United States is prepared to do everything it can "within safe limits, that will be helpful and effective."

2. Fidelity to the United Nations. "We shall not forget our obligations under the charter, nor shall we permit others to forget theirs."

3. In carrying out its obligations to achieve world stability and peace, the United States is determined "to remain strong."

4. The problems of countries in the Western Hemisphere are different in nature from those of Europe and cannot be relieved by the same means, but "will be approached with the utmost good faith and with increased vigor in the coming period."

Mr. Truman's address highlighted the closing session of the conference at which delegates have hammered out an unprecedented defense pact binding the Americas to joint action in case of armed attack on any peaceable nation in the hemisphere.

Signing of the treaty by the 19 participating nations, in President Truman's presence, was arranged for this afternoon in Rio de Janeiro's Itamaraty Palace, home of the Brazilian foreign ministry.

Also on the President's schedule was a luncheon aboard the battleship Missouri in Guanabara Bay, 45 miles from here, for the ranking members of the delegations to the conference.

### Palestine

(Continued from Page 1) might comply with the recommendations.

The 11-nation U. N. Special Committee on Palestine unanimously recommended Holy Land independence from Britain's 28-year-old mandate "at the earliest practicable date."

A seven-member majority urged partition of Palestine into Arab and Jewish nations and an international city of Jerusalem and admission of 150,000 Jews into the Jewish territory during the two-year transition period.

A three-member minority for a federal Arab-Jewish state and entry of Jews up to the "absorptive capacity" of the Jewish portion during a transition period of up to three years.

More tomatoes were canned as juice last year than were packed in any other way. The pack totalled 29 million cases.

**Miss Peps V May Lose Speed Reign**  
DETROIT—(AP)—The 1947 speed boat reign of Danny Foster's Miss Peps V may be broken at least temporarily today as Dan Arena's Notre Dame and Ernie Wilson's Miss Canada III, both averaging better than 73 miles an hour for the first half of the Silver Cup race, carried an almost unsurmountable lead over the Gold Cup champion into the second and last 45-mile Silver Cup heat on the Detroit River.

Foster, after whipping Guy Lombardo's Temp VI to take both the 1947 Gold Cup on Jamaica Bay, L. I., and the National Sweepstakes Regatta at Red Bank, N. J., misjudged the starting time for the first half of the Silver Cup event here Saturday and never was a contender as he finished fourth, the last survivor of an eight-boat field.

The new project, reported Wednesday by the Power Commission, would include a 438-mile, 26-inch loop line increasing by 100,000,000 cubic feet a day the capacity of a previously authorized line from Lea County, New Mexico, to the Colorado River near Blythe Calif.

Also proposed is a 470-mile, 26-inch line from San Juan County, New Mexico, to the California-Arizona border near Needles, Calif. This, too, would have a daily capacity of 100,000,000 cubic feet.

Don't feel that you are doing the sick friend a kindness by taking the children along when calling on her. They are much more apt to make her nervous than to cheer her up in her weakened condition. Let the children play outside while you make a short call.

### Leave Bonds

(Continued from Page 1) dent of the First National Bank, estimated a minimum of 50 to 60 percent of the bonds held by Midland veterans would be cashed.

Austin's two largest banks reported continuous lines before four windows where usually one window business. Officials said a few of the veterans opened accounts but in a majority of cases they were taking cash.

Two of Austin's largest department stores noticed a slight increase in business, particularly household furnishings.

Long lines formed before Waco's three banks. A number of veterans said they would use the money in buying homes.

### Train Crash

(Continued from Page 1) the west, and from Winnipeg. They said they could see the red glare of the flames while six miles away.

The engineer of the transcontinental train reportedly jumped to safety.

Some oil storage tanks exploded, shooting flames hundreds of feet in the air.

Luggage, canoes and trappings of vacationists were scattered over the tracks.

Firemen pumped streams of water on the blazing railroad cars from a ditch adjacent to the right of way.

Many of the survivors, some of them suffering injuries, worked heroically with the rescue crews to reach those trapped in the wreckage. They led many persons to safety before they were beaten back by the intense heat.

W. R. Devenish, vice president, Western Region, of the Canadian National Railways, said the vacationers' special, which consisted of two baggage cars, nine coaches and two parlor cars, collided with the passenger train while the latter was discharging passengers at Dugald. The passenger train was bound from Vancouver for Toronto.

The locomotives were locked together. The cab of the special was crushed like an accordion.

### Graveside Services Set Today for Infant

Graveside services were to be held today at 2 p. m. for the infant son of Mr. and Mrs. Theodore Reagan, who died at 4 p. m. yesterday in a local hospital. Rev. Reeves, pastor of the Caldonia Baptist Church, will officiate.

Surviving are his parents; one brother, Michael; one sister, Barbara Ann; and grandparents, Mr. and Mrs. Johnson of Dallas.

Burial in Fairview Cemetery was under the direction of Clegg Funeral Home.

Betty Lou Schulkey, Richard Collier Are United in Double-Ring Ceremony

The marriage of Miss Betty Lou Schulkey and Richard Collier was solemnized in an impressive ceremony at 4:30 o'clock Sunday afternoon in the First Baptist Church. Rev. E. Douglas Carver, pastor, read the double ring ceremony.

Baskets of white gladioli at either side of tall white Cathedral tapers in seven-branched candelabra against an altar background of greenery formed the setting for the exchange of vows.

Mrs. Virgil Mott played a prelude of nuptial selections and preceding the ceremony, Mr. Mott sang "I Love You Truly." (Carrie Jacobs Bond) and "Always" (Irvin Berlin). The traditional wedding marches were played for the professional and recessional and Mrs. Mott played "Traumer" (Schumann) during the ceremony.

Mrs. Bob Triplehorn, sister of the bride, was matron-of-honor. She wore a street length dress of French blue silk with a halo hat of gold net trimmed with tiny blue velvet bows. She carried a nosegay of white flower petals encircled with baby's breath tied with pale blue satin ribbon.

Miss Sybil Pierson and Miss Doris Culbertson lighted the candles. They wore identical dresses of Persian blue fashioned with short sleeves, high necklines, and draped skirts. They each wore corsages of split white carnations imbedded in powder blue net.

The bride's mother wore a white mesh dress with black accessories and a corsage of blue camellias. The bride, who was given in marriage by her brother-in-law, Bob Triplehorn, wore a white silk street length dress, styled with short sleeves and draped skirt gathered and caught in a bow at the back. Her only jewelry was a double strand of pearls. She wore a shoulder length veil of white which was held in place by a coronet of tiny seed pearls. She carried a white prayer book topped with white roses surrounded by stephanotis and tied with blue satin streamers.

Joe Robinson of Pittsburgh, Penn., served the best man and usher, were Wayne Roby and Joe Cargile. Following the ceremony a reception was held in the home of Mrs. Triplehorn. Baskets of white gladioli decorated the entertaining rooms. The bride's table was covered with a lovely Madeira cloth. Tapers burned in silver candelabra and the bride's and matron-of-honor's bouquets served as centerpieces.

Mrs. James Fooker presided at the table assisted by Miss Culbertson. Miss Pierson registered guests in the bride's book. Later Mr. and Mrs. Collier left on a wedding trip to New Mexico, after which the couple will be at home at 2428 30th in Lubbock. For travel, Mrs. Collier wore a two-piece navy suit trimmed with red leather collar and cuffs and a white blouse. Her accessories were navy and red, and she wore a white rose corsage.

Mrs. Collier, daughter of Mrs. Maude Schulkey, was graduated from Pampa High School where she took part in several activities including the A Cappella Choir, Senior play, youth council, Sub Deb Social Club, and Spanish Club. Later she attended Texas Tech.

The bridegroom, son of Mr. and Mrs. J. D. Collier of Lubbock, was graduated from Lubbock High School. After three years of service in the Army, he is now a student in Texas Tech where he is majoring in engineering. He is a member of the Silver-Keys Fraternity.

Out-of-town guests at the wedding included Mr. and Mrs. Kirby Williams, and Miss Wynne Williams, Chillicothe. Mrs. D'May Williams, Vernon; Mr. and Mrs. Jim McCuskey, Panhandle; Mr. J. D. Collier, Bobby and Carolyn Collier, Lubbock; Mr. W. L. Gowen, Austin; and Dick Stowers, Kansas City, Mo.

Refreshments of fruit punch and cookies were served to Mesdames Wilford B. McLeod, Hestyn Laycock, Oliver Allison, T. N. Scott, Scotty Rockwell, Gertrude Watkins, Chester Burk, A. J. Kirkham, O. W. Pre-witt, Norman Carr and Emory Noblett.

Misses Katie Zachary, Jamie Eaton, Eric Seargent, Mary Reeve, Beulah Hommond, Hester Branham, Francis McCue, Mary Call, and Myra Millard.

Prepare Entrance Before Door Opens For Impression of Poise and Grace

By ALICIA HART NEA Staff Writer

Making an entrance is an art worth mastering. Actresses think so and they work hard at it.

Trainers of models who devote whole class-periods to entrance-making think so, too. They realize the importance of first impressions. And they know that the way a woman enters a room will tell many things about her to those who are meeting her for the first time.

Before you turn the doorknob, you should begin making your entrance, says Helen Fraser, director of the Barizon School of Modeling. By that she means putting clothes in order; making ready with a smile or a pleasant expression.

Important points she stresses is entering a room with "presence" but without fanfare. Pausing at the door after entering is a good idea, she says. It gives you a chance to look around, get your bearings, even pick an objective.

Walking leisurely—not rushing—to a chosen spot in a room is necessary if you want to give an impression of poise, according to Miss Fraser. If you approach a person, she tells you to stop before you get too near. As she puts it: "You don't want to overpower your victim."

An approach, says Miss Fraser, is less overpowering if you stop with your weight resting on your back foot.

Dr. C. Oscar Johnson Speaks at Convention

Dr. C. Oscar Johnson, pastor of the Third Baptist Church in East St. Louis, voiced a plea of world-wide fellowship and a program of mutual aid and comfort, when he addressed approximately 1,200 representatives of Panhandle Baptists Churches in Amarillo at the First Baptist Church Monday morning. Dr. Johnson is president of the Baptist World Alliance and representative of 15 million Baptist covering the entire globe.

Dr. Johnson, who has recently returned from the Baptist World Alliance meeting at Copenhagen, told of the hunger and spiritual needs that the world is undergoing.

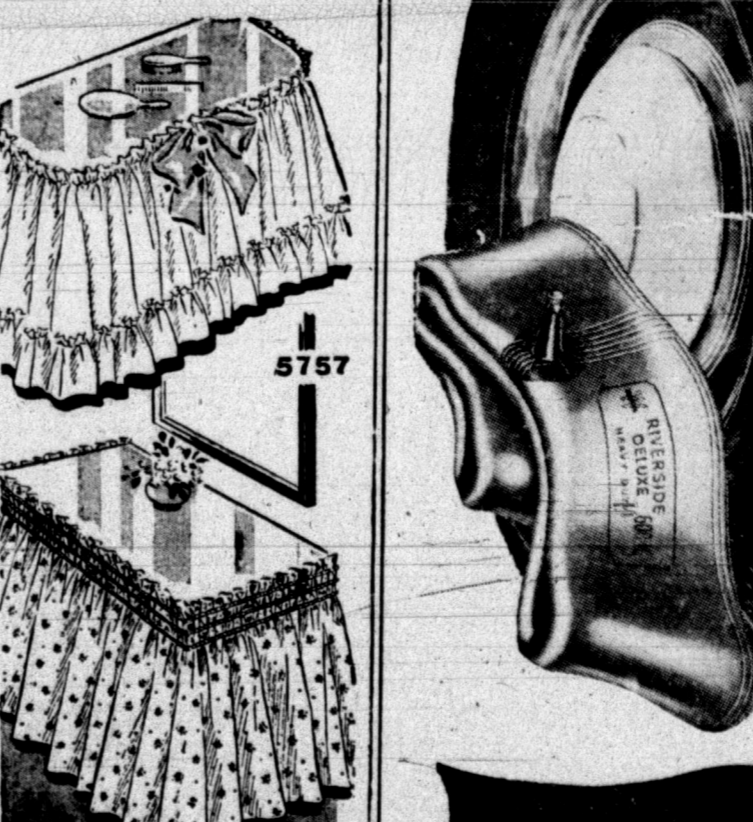

Dr. E. L. Carnet, pastor of the Travis Avenue Baptist Church in Fort Worth, had charge of the song service. R. Virgil Mott, Pampa, directed music for the evening Brotherhood Rally. His accompanist was Mrs. Frank Turpen, also of Pampa.

Others attending from Pampa were Rev. E. Douglas Carver, Mr. and Mrs. Johnny Vollmert, Mr. and Mrs. Floyd Yeager, Mrs. Ed Anderson, Mrs. C. L. McKinney, Mr. and Mrs. C. A. Scott, Perry Gaut, Mrs. Rufe Jordan, Mrs. B. Mitchell, and Mrs. G. R. Riggs.

For Guest Rooms

By MRS. ANNE CABOT A new, crisp-looking, frilled skirt on the old dressing table—or on an old table re-done to form the basis of a dressing table, is guaranteed to dress up the guest room in a most feminine fashion! Use dotted net, scrim, seersucker, flowered chambray, organdy, rayon crepe, chintz or a pastel cotton and have your cover either frilly or tailored, according to your fancy. Instructions will give a number of different ways of styling as well as how to make a dressing table in a corner by installing triangular shelves and then adding a filled skirt. All so simple and inexpensive to do it seems a shame not to have one! To obtain complete instructions on How To Make A Dressing Table and Skirt (Pattern No. 5757) send 15 cents in coin plus one cent postage, your name, address and the pattern number to Anne Cabot, Pampa News, 1150 Ave. Americas, New York 19, N. Y.

Traveling Dinner Given Sub-Deb Club Rushees

Sub Deb rushees were special guests when the Sub Deb Club entertained with a traveling dinner Sunday evening. Fruit cocktails were served on the lawn of the home of Neida Davis, 905 N. Somerville.

A garden salad was served at the home of Merdella Roberts, 721 N. Somerville, and the main course, a spaghetti dinner, was served at 809 N. Gray, with Margie and Dorothy Dixon sharing hostess duties. Iced watermelon was served on the back lawn of Phyllis Scheig's home, 1428 N. Russell, as the desert.

At the last stop, the newly elected president, Margie Dixon, thanked the rushees for their cooperation during the series of rushing events. Rushees attending were Jo Anne Bennett, Jan Sanders, Nancy Patterson, Janet Walters, Mary Ellen Hawkins, Jean Cornelius, Ann Sidwell, Barbara Scruggs, and Betty Howard.

Members were Margie Dixon, president; Johnny Sue Hart, vice president; Barbara Carlson, Merdella Roberts, Dorothy Dixon, Neida Davis, Anita Lane, Betty Joyce Scott, Lois Ward, Margaret Price, Junice Ann Fahie, June Myatt, Carol Culbertson, Barbara Ward, Phyllis Scheig, Pat Price, Ida Ruth Taylor, Patsy Brannon, Leona Nickl, Carol Sloan, Gerlie Lake, Nickl Fraser, and Joan Stroup.

Buffet Supper Held In McLennan Home

Mrs. E. A. McLennan has hosted to her Sophomore Girls Sunday School Class of the First Methodist Church Saturday evening when they had a buffet supper. Following the supper the group attended a movie. Those attending included Misses Eulaine Henderson, Betty Boswell, Betty Ann Wells, Barbara Radloff, Cornelia Cornelius, Bernice Homer, Joyce Harrah, Mary Joyce Mobley, Joan Stroup and Mary Lou Neath of Houston.

A nut loaf may be used occasionally as the main course at dinner.

## THE AMPHIBIOUS COMMUNISTS

An AFL longshoremen's strike, in which sailors of the CIO National Maritime Union joined, prevented the liner America from sailing from New York last week. It inconvenienced 938 passengers. It dealt another blow at American shipping which, at best, is having a hard time competing with the British trans-Atlantic luxury ships.

These were not the most serious results of the strike, however. The most noteworthy thing about this strike was the revelation of how easily a few men could and might contrive to tie up a vital element of our national defense.

The strike began as a wildcat revolt of about a tenth of New York's 20,000 longshoremen against a contract which International Longshoremen's Association officials had negotiated with the shipowners. Apparently there also were some union politics mixed up with the walkout.

Then the America's NMU walked out in sympathy. The sympathy was a rather new emotion, since the I.L.A. and the NMU have been at each other's throats for years. The crew was led off by Joseph Stack, an able seaman aboard the America, a member of the NMU's powerful left-wing group and, until recently, a vice president of the union.

Some of the NMU "sympathizers" circulated among the longshoremen pickets, distributing leaflets and Communist literature. They got a rude, rough reception from the AFL dockhands. But still the sympathy strike continued, although the longshoremen's walkout was none of the NMU's affair, why?

It seems likely that the whole performance was a test of strength, or perhaps a rehearsal. It is no secret that one important Communist goal is to get at least one member on the crew of every ocean-going American ship. Since the party until recently filled a large majority of the union's offices, and since it controls the union's system of assigning sailors to American vessels, it would not be surprising if that goal were already achieved.

There are two excellent reasons why the Communists have pursued that goal with such tireless vigor. A party member who sails to foreign ports is a handy messenger.

Also, such a crew member would be needed to handle strikes or sabotage or mutiny in the event of serious trouble between the United States and Russia. It is obvious that a few Communists aboard each of our ocean-going vessels could do a tremendous amount of damage to the country in an emergency.

Joseph Curran, the NMU president, turned on the Communists a few months ago after a long honeymoonish existence with his Red fellow members. But the Communists are not giving up without a struggle. That struggle will probably reach a climax at the NMU convention in late September.

## NATIONAL WHIRLIGIG

WASHINGTON  
By RAY TUCKER

**MEAT**—Beef, lamb and pork will become a glut on the retail market within the next few months with a price drop on the most expensive cuts of approximately ten percent.

But the gleeful consumers will pay for their September-December feasts next spring and summer, and for an indefinite number of months thereafter, in the form of the highest meat costs in the nation's history.

That is the private information which Chicago and Kansas City packers have slipped to Department of Agriculture experts, but which the federal agents have not yet seen fit to pass on to the public. They apparently fear a run on the bovine bank by customers wealthy enough to own deep freeze containers during the period of low prices and plentiful supply.

**CORN** The explanation for this feast-and-famine phenomenon is the shortage of corn, which is the principal feed for animals headed for the butcher's block. Blistering droughts in the corn belt have led to official reports of one of the shortest crops in recent years, and the product is selling for approximately \$2.50 a bushel on the Chicago pits.

When the cost of corn is low, the farmer feeds it to his animals, and earns his profit from the additional meat and fats which it adds to his stock. But when the price soars to present levels, it is more profitable for him to sell it to refiners and manufacturers of various corn products.

He acts upon a mathematical ratio, which determines whether he shall dispose of his grain in the form of meat or in some other way. The current ratio is adverse to meat production.

As a result, the smart livestock producer will fatten his cattle, hogs and his lambs to the slaughterhouse within the next few months. He will make a killing on the present high prices. He will not fatten them during the winter, and ship them to market next year. Then will come an unprecedented famine, black markets and exorbitant prices.

**MACARTHUR** The MacArthur-for-President boom will get under way in serious shape early in 1948, when the Republican House of Representatives will adopt a resolution asking him to return to Washington to address two bodies of Congress. In private messages to the resolution's sponsors, the hero

**MOPSY** by Gladys Parker  
SINCE ITS A FLESH-EATING PLANT, BOOBY, I FIGURE IT NEEDS A BLOOD TRANSFUSION.

## ELECTION APPROACHING ... by Upton Close

We are suddenly witnessing an attack by the attorney general in a score of hand-picked big business goiters for allegedly violating the anti-trust laws.

Specific charges are "conspiracy to fix prices."

At the same time we are witnessing the all-out attack by political union leaders on the Taft-Hartley labor bill, these attackers often joining in the attack on business to make it appear that not high wages but excessive profits are responsible for our present inflationary prices.

There is a relationship between these two attacks which may not have met the eye of some readers. You find the give-away in the frequent meeting of union bosses of the Republicans who backed the Taft-Hartley measure—these political unionists saying little if anything about the fact that many a Democrat also supported that measure.

In short, a presidential election is in the offing and there is a mutual attraction between the old New Deal strategists and their old friends and supporters, the big unionists. And the strategists are trotting out their 1933 weapons: The old hate-business theme is being brought out again—on disregard of the damage which may be done to our economy if the union bosses decide to effect slow-downs to make prices spiral still more.

This is not said in defense of monopolies. On the contrary, it is a natural enemy of all monopolies, whether of business or of labor. If there is collusion in restraint of trade let's break it up.

But break up all monopolies, including the really tough ones, which have long been out in the open with their collusion, the monopoly dictatorship over music, the iron-fisted rule of the coal mines, the long-time arbitrary monopoly over the printing trades (meaning the International Typographical Union, which dictates its own terms to management and its own underlings). Break up the CIO which recently, at the threat of its entire nation-wide force against a single firm.

Why is it that the President of the United States, through his attorney general, just now, as an election approaches, happens to think about the alleged monopolies of business? Why has he been so derelict in his duty these two and a half years as to permit such criminal practices as Clark charged to go unchallenged?

Why is it that the heir-apparent to the 1948 Democratic nomination is so conscience-stricken about the monopolies of business while he still buddies up to Lee Pressman, Communist voice of the Communist dominated labor monopoly, the CIO? Why did Truman veto the Taft-Hartley Bill if he is against monopolies?

The answer is not hard to find. I am reminded of Ben Franklin's answer when somebody asked him the difference between orthodoxy and heterodoxy. Said Franklin, "Orthodoxy is my doxy; Heterodoxy is your doxy."

By playing bull with his doxy and throwing sneer at our doxy Truman will likely keep Wallace out of the 1948 race and will probably hold many CIO votes.

Put he will lose some CIO votes because of this kind of politics. And there is a great many Americans in this or in any other union. The sneer tactics worked almost to the extent of throwing us into a dictatorship of what the New Dealers imagined to be a proletariat during the deep depression.

Was not Harry Truman on a far wiser political trail some time back when his native Missouri earthiness began to creep out and he fired Morgenthau and got rid of the union's good many controls and fired (and fired Wallace and got rid of) the good many controls and fired (and fired) Rooseveltman leave his elbow and reluctantly permitted Ben Cohen to quit the State Dept.

Has taken Henry Wallace's scare far too seriously. By playing the cheap political game he learned in the dark alleys of Pendergast, donald, etc.—which in America is measured by self-reliance rather than the immediate size of your bank account.

His one chance to win in 1948 is to completely reverse his present trend of trying to revive the class hatred and business hatred of early New Deal days.

## In Hollywood

By ERSKINE JOHNSON  
Hollywood Correspondent  
(Johnson on KFDN Monday thru Friday, 2 p.m.)

**HOLLYWOOD**—(NEA)—They say Jimmy Stewart is a forgotten man. I'd like to argue about it, but the box-office facts on his last picture—"It's a Wonderful Life"—makes that "forgotten" business hold water.

It was a good picture. It had comedy, heartwarming, good entertainment and a lot of good supporting players around Jimmy. But now that it has played all around the country, they added up the shekels on paper and Jimmy's agents said: "Sorry, Jimmy, you've forgotten you. You'll have to start all over again."

That's the reason, as I told you the other day, why Jimmy's playing the lead role in the Broadway play, "Harvey." He is out to win a new fan following, get all the publicity he can get.

That's not all of the campaign, either. The name and face of this Hollywood bachelor will be seen on billboards and in your favorite magazines in a host of advertising tie-ups. It's another way to get your popularity back.

**THE ART OF COMING BACK**  
There are a number of steps in a come-back, all carefully worked out by the Hollywood agents who handle the stars. Another one Jimmy will try will be playing in a western picture to capture the juvenile audience.

But Jimmy Stewart is not the only one. He was out of the picture for almost five years while he served with the AAF, and that five-year figure is the limit, according to the boys who know.

## Common Ground

By R. C. HOILES

An Interesting and Informative Book

I have just finished reading "The Red Prussian" with the subtitle "The Life and Legend of Karl Marx." It was written by Leopold Schwarzschild.

One of the reasons the book is so extremely interesting is that Mr. Schwarzschild read all the available correspondence between Marx and R. Engels. Robert Engels was the son of a wealthy man and he financed Marx for years. Karl Marx was in reality a beggar and a pauper.

The book certainly shows Karl Marx to be a most contemptible man. He was a man who loved power and wanted to dominate and run the lives of other people. He was a jealous, covetous man, any man who showed any inclination of leadership in the International Council or the General Council of which Marx was associated, he invariably tried to

kill or destroy in the same manner. He would write any irresponsible statements about any potential leader.

Marx was always wanting war. It gave him a chance to muscle his way into "Capital." He prepared the manuscript in rough form for two other volumes of "Capital." In the first volume he started with the premise that value was equal to the amount of labor which this premise could not be defended. His 800 page book was built on unsound premises—premises that he could not defend in open debate. He would never debate and stick to the subject; he would never answer questions. Of course he could not because his premises were unsound. It makes no difference how many hours of work is put into drilling an oil well. If the oil well is dry even if \$50,000 were expended in the drilling it wouldn't make the well worth \$50,000.

One of the parts of this book that interested me was how Marx and Engels were some of the leaders of the Federal Council of Churches of Christ in America, with labor leaders and with compulsory educators. Marx, like all of these people, would not stand up to answer questions. Marx wouldn't test his theories in open debate. He had a very good reason. He could not defend them. Neither can the leaders of labor unions or the leaders of the Federal Council of Churches of Christ in America who are advocating state socialism, nor compulsory educators defend their position.

Marx's second and third volumes were never published during his lifetime. Marx could never get them quite finished. His third volume contradicted his first.

Marx died in bitterness and loneliness. A couple of his daughters committed suicide. His old age was exactly what he was entitled to. He was lonely and had no real friends but only accomplices. He reaped exactly what he sowed.

## Gracie Reports

By GRACIE ALLEN

Speaking as an early pioneer American woman—I was one of the first bobby-soxers to squeal at Sinatra—there are certainly times when I would like to throw a banana peel under the marching feet of progress.

I'm upset and depressed this morning because I read where some of our nation's leaders have come up with a plastic saddle that may do away with the old-fashioned squawking saddle the cowboy heroes ride.

Progress, I don't mind so much. I just don't like to see our brave drive hot-rod cars and wear harlequin sun glasses and that modern desperadoes take vitamin pills and buy shoes with built-in rubber heels, but don't destroy the musical saddle! Let Cassidy continue to squeal along.

WELCOME, INSPECTOR! STEP RIGHT IN, GENTLEMEN!  
IN THE DAY SEASON, ENJOY ALL VERY PROPER. I FIGURED YOU WOULD COME LEGALLY EQUIPPED THIS TIME. WELL, LOOK AROUND.

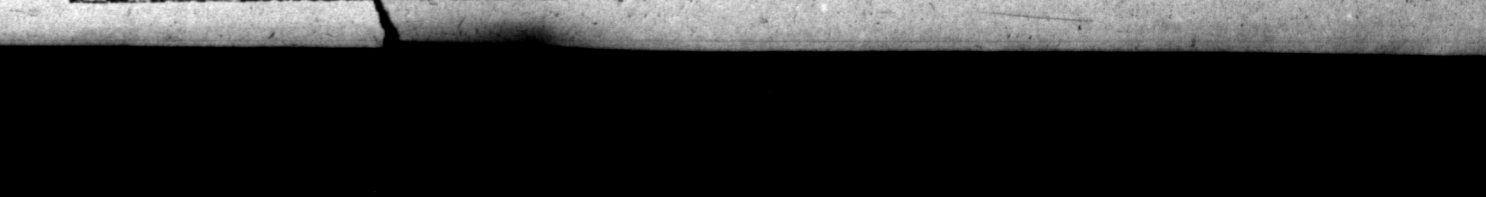

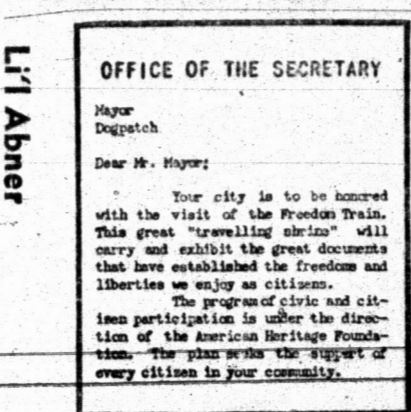

IF YOU GET HOT COME OUT ON THE ROOF, I'M FEELING SO FRIENDLY TOWARD YOU GENTLEMEN TODAY THAT I MADE UP SOME JULEPS, ESPECIALLY FOR YOU, MY JULEPS ARE VERY GOOD.

THAT NEW GIRL CERTAINLY DOES HAVE A NERVE.  
SHE WANTED TO KNOW IF I'D LEND HER A NOVEL BY ELSIE GUSHMORE.

DON'T SEE WHY YOU'RE SO WALKED UP ABOUT THAT YOU HAVE HALF A DOZEN OF THEM COUNTING THE ONE YOU JUST BOUGHT.

WELL, YES, BUT SHE HAS A LOT OF CRUST & PIG-SME THAT I READ SUCH ICKY STUFF!

IT IS TOO EARLY TO PASS A FINAL JUDGEMENT ON THE UNITED NATIONS. BUT WHY ATTEMPT TO HIDE THE DELUSION WHICH TWO YEARS HAVE BROUGHT US? — Paul-Henri Spaak, Belgian Premier.

### Big Brothers Plan Activities for Fall

CANADIAN (Special)—Election of officers was the first business taken up by the Big Brothers Club here at last week's meeting. John Wilkinson was elected president to succeed R. L. Durham; H. L. (Red) Owens succeeds Ober Lee Mitchell as vice president, and Bob Ward is the new secretary-treasurer to succeed Carl Peoples.

The Wildcats coach, Wesley Cox, was introduced and given assurance that the Big Brothers do not interfere with coaching but will adhere strictly to the objective of set forth on the membership cards. Those objectives are:

1. To render assistance to the school in administration of its athletic program.
  2. To foster a spirit of good sportsmanship in our athletic teams.
  3. To encourage our boys toward right attitudes and clean living through the sports program.
- Among other projects in line with their objectives, the Big Brothers are making a serious effort to outfit at least 22 Pee-Wees for football training. The thought being that better Pee Wees will grow into better Wildcats.

### Street Lights for Skellytown Sought

SKELLYTOWN (Special)—A committee of five including Ed Morgan, L. P. Hand, Howard Patton, Frank Carpenter, and Carl Young was elected to inquire about the cost and other problems of installing street lights in Skellytown, when a group of approximately forty citizens met at the Skellytown School last week.

Another meeting will be held soon to hear the report of the committee and to discuss organizing a civic club.

**YES—USED FATS Are Still Needed**

says CLEMENTINE PADDLEFORD, Food Editor of This Week

Here's the answer to you women who are wondering if you should still save used fats! Secretary of Agriculture Clinton P. Anderson says, "It is still necessary to conserve every pound of fat, since the over-all fat supply situation is little better now than it was last year." You see, many things we use require industrial fats or their products, and there aren't enough fats in the world to go around, as yet. So every pound we women of America can save will help. Please... keep up the good work until we've got this situation really licked.

American Fat Salvage Committee, Inc.

### Leaves From a Correspondent's Life Note Book

(Editor's Note: A few days ago Hal Boyle, writing on the distinguishing characteristics of New York's own peculiar variety of heat wave, spoke of an English summer as something that usually occurs "the third Wednesday in July." Here is an amended report from a fellow writer in London, who begs to differ and offers convincing evidence.)

By ED CREAGH  
(For Hal Boyle)

LONDON (P)—I here to disagree with Hal Boyle on anything, except maybe the question who'll set up the next chocolate mallet, but when he says as he did in that column that we don't have hot summers in England—

Hal, things have changed since you shook the chinking mud of this island from your number eleven time wiper as you say. When summer would deal its one morning in July pose for photographs and freeze her little kneecaps off by supper time. But no more, Hal, as if the open refrigerator door times have changed.

Since Aug. 7, there has not been one day that the big old sun hasn't come scorching through the London haze and the country mist, browning the fields, browning off the people, sunburning noses, drying up fish, frying eggs—eggs? What am I saying? We haven't had a fresh egg since whitsunday, seems like.

Hot? Being a man not given to exaggeration, Hal, you wouldn't believe me if I told you the White Cliffs of Dover have to be treated with amlan lotion every evening and that beads of perspiration the size of marbles, come down the forehead of Abraham Lincoln's statue in Parliament Square.

Hot? It's gospel truth, Boyle, that otherwise respectable Englishmen have gone so far as to shed their jackets right to broad daylight, even when they didn't intend to fight. Gad, sir, are all our standards deserting us?

Londoners, unlike the New Yorkers you wrote about, don't open the windows and strip down to the al-toge-ther. It isn't done, old boy. It would embarrass the daylights out of London Bobbies and they have enough to fret about, poor devils, in those thick hot helmets of theirs.

Of course I write as one of that under privileged handful mired in London the last two weeks in August while the millions who haven't had their brains baked out are at the seashore with the icy surf trickling over them.

They won't believe, any more than you will, Hal, that the fog and drizzle of the London summer have evaporated for good. They're having a wonderful time "picturing" the rest of us clustered around a cold radiator, sneezing, shivering, cursing softly.

And don't kid yourself, Boyle—by next week we probably will be!

### Open Examination Is Slated to Fill Postmaster's Job

SHAMROCK (Special)—An open competitive examination to fill the vacancy in the position of postmaster at the post office at Mobeetie was announced last week by the United States Civil Service Commission.

In order to be eligible for the examination, an applicant must be a citizen of, or owe allegiance to, the United States; must have actually resided within the delivery of the post office for which the examination is held, or within the town of Mobeetie, for at least one year immediately preceding the date fixed for the close of receipt of application. The applicant must be in good physical condition, and must be within the prescribed age limits. The competition is open to both men and women.

The Civil Service Commission will certify the names of the highest three-qualified eligibles to the Postmaster General who shall thereupon submit the name of the eligible selected to the president for nomination. Confirmation by the Senate is the final action.

Full information and application forms may be obtained at the post office for which the examination is held, or from the United States Civil Service Commission, Washington 25, D. C. Applications must be on file in the office of the Commission in Washington, not later than the date specified at the head of the examination announcement.

Fry parsnip slices until they're golden brown. Cook, peel, and core them, before frying.

### Guy Hill Will Be Secretary-Manager Shamrock Chamber

SHAMROCK (Special)—Guy Hill, who recently returned to Shamrock from California has been employed as secretary-manager of the Shamrock Chamber of Commerce to succeed Bob Clark, it was announced last week.

Hill, who helped organize the Chamber of Commerce in Shamrock in the '20's and served as its first secretary, will take over duties of the office September 1. Clark, who has been manager since February 1, 1946, resigned to take charge of the physical education department of the Odessa school system.

The new secretary-manager is well known in Shamrock and will take over the office with the full backing of scores of business men and citizens who worked with him at the Chamber of Commerce office during his 12-year tenure. He resigned in 1935 to enter private business and has made his home away from here until six months ago when he and Mrs. Hill returned to their farm east of Shamrock.

### Expressing Regret at Losing Clark's Services, Board of Directors Said They Considered Themselves Fortunate in Securing Hill as His Successor.

MAY HAVE COMPANY  
Even if you know it is harmless, it is dangerous to fool with any water snake; there is likely a water moccasin swimming beside it.

Gas Shortage Likely  
WASHINGTON (P)—Max Ball, director of the Interior Department's Oil and Gas division, told a reporter Thursday that the winter liquid fuel situation "looks very tough."

Ball said fuel oil shortages caused primarily by a lack of steel for additional refineries, tank cars, tank trucks and ralling equipment

will be most critical in the Midwest. Ball said there is a possibility that some Midwest factories may be idle and some homes may be cold for lack of oil this winter. He made his statements on the 86th anniversary of commercial oil production in the United States.

The 1946-47 lemon crop is slightly larger than that of a year ago.

ANNIVERSARY SALE - MONTGOMERY

# Montgomery Ward

## 75<sup>th</sup> Anniversary Sale

CELEBRATING 75 YEARS OF MONEY-SAVING PRICES

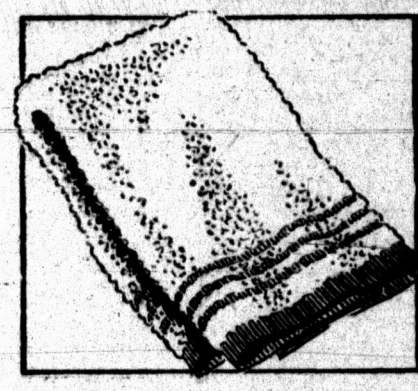

ANNIVERSARY SALE - MONTGOMERY

SALE! REG. 1.98 SLIP
