

# Foreign Ministers Meet to Discuss 'Marshall Plan'

## No Indication of Red Attitude Seen

PARIS—AP—Foreign ministers of Russia, Great Britain and France started consideration today of an European economic recovery program linked with American aid. There was no official indication of the Russian attitude toward the "Marshall plan" but the British and French have welcomed the proposal of U. S. Secretary of State Marshall.

Authoritative U. S. and British sources in London said the United States and Britain had reached the "broad conclusion" that the aid program should be operated outside the United Nations framework. A French cabinet spokesman said last week, however, that the projected European economic commission would work "within" the framework of the United Nations commission of Europe established earlier at Geneva, with the U. N. Commission a planning board and the new commission an operational and functional organization.

## Commission to Advertise for Bids on Paving

The City Commission yesterday afternoon in special session, authorized City Manager Steve Matthews to advertise for bids on 11 blocks of street paving after one additional block was brought to the project.

The bids are to be opened July 14. The decision to advertise for bids came after City Engineer Dick Pepin said he had estimated the city could do the job for approximately \$28-145, or \$2.25 per foot for each property owner. Pepin added that this was his estimate, but did not know what a contractor would ask for the job.

Pepin also asked for alternate bids on the paving base for both caiche or soil cement adding that the latter is more expensive, but is the more durable. Pepin also estimated that it would take the city until July 14 at least to purchase enough material, equipment and men together to go into the paving business itself.

George Casey, assistant city secretary, told the Commission he had contacted several property owners for the 600 block of N. Nelson and there had finally agreed to go along on the project. The addition of this block into the project brought the number from 10 to 11 blocks yesterday afternoon.

## Annual XIT Reunion Set for July 24-26

DALHART—Except for a memorial service speaker, all major program planks for the 11th Annual XIT Reunion in Dalhart July 24-26 are ready, according to Chairman Allyn Finch of the General XIT Committee.

The Memorial Service Thursday night, July 24, at 8 p. m. will pay tribute to all pioneers who helped build the Old West and lay foundations for the new. It will be in the First Baptist church auditorium, largest in town, with other churches cooperating. Finch has told Memorial Chairman A. C. Hallmark to get the very best speaker available.

## Panhandle Lodge Installs Officers

PANHANDLE (Special)—In spite of inclement weather, over 50 members and guests were present for the public installation of officers of Carson Lodge 1187, A. F. & A. M. on Tuesday evening.

With Past Master W. E. Dart as installing master and M. B. Welch as installing secretary, the following were installed: Elmer Padgett, worshipful master; Jack Atkins senior warden; Richard Orr, junior warden; O. R. Beddingfield, treasurer; E. H. Smith, secretary; J. H. Carney, chaplain; Arthur Stephenson, senior deacon; Ralph Metcalf, junior deacon; Laverne Edwards, senior steward; Harold Knapp, junior steward and Victor Held, tier.

The Rev. W. E. Fisher, pastor of the First Methodist Church, gave the Invocation and Benediction; W. E. Dart gave a short talk on the "Meaning of Masonry to the Uninitiated." The talks were given by the incoming and outgoing officers and several guests.

Members of the lodge hospitality committee served pies, furnished by the members of the Eastern Star, ice cream and coffee to those present.

## Nation Going Out of Coal Business

### CIO Is Drafting Program Relative To Labor Law

WASHINGTON—AP—Leaders of 6,000,000 CIO members, cautioned by President Truman along with all labor and management to live up to the new Taft-Hartley law, gathered today to draft a program of contest or compliance.

CIO president Philip Murray convened his 51-member executive board to hear an up-to-the-minute size-up of the new statute as compiled by the labor organization's entire legal staff. Attorneys for each of the 49 CIO unions met here yesterday with general counsel Lee Pressman.

Both the AFL and the CIO have rejected the idea of general protest strikes although AFL president William Green told reporters yesterday that unions throughout the nation were urging him to call one to last "until the act is repealed."

Instead, Green called a meeting here July 9 of the heads of the AFL's 105 unions, to go over the law and determine a program of policy—the same type of session fixed for today by Murray and the CIO.

President Truman made his appeal for compliance by employers and unions in a formal statement at his news conference late yesterday. He called upon both labor and management "to exercise patience and moderation in accommodating themselves to the changes made necessary by the act."

"In accordance with the constitutional processes of our government," he said, "we just all respect its provisions."

Truman formally pledged that he would see that the act was enforced. He said he would see that the act was enforced.

Truman formally pledged that he would see that the act was enforced. He said he would see that the act was enforced.

### China Will Receive Surplus Ammunition

WASHINGTON—AP—The United States has agreed to turn over to China 130,000,000 rounds of surplus rifle ammunition for weapons of Generalissimo Chiang Kai-shek's troops.

State Department officials also told reporters that the Nanking government has been authorized to purchase other military supplies from American private manufacturers.

On the question of economic aid for the hard-pressed Nationalist government, the Export-Import Bank announced it will consider lending money to China for specific projects.

William C. Martin, bank chairman, said a contract of \$50,000,000 in funds for China will be allowed to expire June 30. However, the new promise of aid for specific projects leaves the door open for Chinese borrowing, either by government agencies, or private enterprises.

Inability of China to settle its internal troubles and the resulting civil war reported largely responsible for its failure to haul down any loans out of the funds which were earmarked 14 months ago.

The rifle ammunition the United States proposes to turn over is a special 7.92 centimeter size made to fit the German-design so-called "generalissimo" rifle used by the Nationalist government.

Some was shipped as far as India but only a small quantity got to the Himalayan "hump" before V-J day.

Well posted officials said that coincidentally with the Communists' drive in Manchuria and North China, Nanking representatives have been making urgent overtures for weapons, military equipment—from both American Army and Navy surplus stocks and from commercial manufacturers.

If the pleas are heeded diplomatic authorities expect the answer to be made known in an early China aid policy decision by President Truman and Secretary of State Marshall.

Dr. S. C. Wang, chief of the Chinese supply mission in the United States, has declined comment but military experts say that ammunition is the most urgent current need of Generalissimo Chiang Kai-shek's forces.

At a time when Nanking officials have been charging—without conviction—that Russia has supplied the Communists with ample arms, the ammunition supplies of Nationalist troops have been severely rationed.

Small arms and some artillery ammunition is obtainable on short notice from American commercial arms plants, as are aircraft of many types. But officials said quick delivery on such weapons as machine guns, rifles and artillery could be had only from wartime Army and Navy stocks which might be declared surplus.

While the United States since V-J Day has supplied limited quantities of arms to friendly countries in Europe, China has received none since Marshall halted all deliveries last year before he abandoned his attempt to close the breach between the Nationalist government and the Communists.

There has been no formal embargo however, and no statutory block stands in the way of resuming shipments if the Nationalist control board receives an official administration green light to grant export permits.

### Truman Appeals For Compliance With Measure

PITTSBURGH—AP—With nearly two-thirds of the nation's miners on strike and a fuel shortage menacing steel mills and railroads, the government prepared to an exit from the soft coal business at midnight tonight.

Actually the U. S. flag at the mines, symbols of government operation, will not be lowered until Monday noon, but tonight the Miners begin a 10-day vacation with pay granted in their contract with the naval coal mines administration.

The government took over the mines during another strike—on May 21, 1946, after little or no coal had been dug for 59 days.

The present walkout dated only from last Monday when Congress overrode President Truman's veto of the Taft-Hartley or bill. Within a few hours several thousand miners had left the pits; today the number idle, mainly in protest against the new law, had grown to more than a quarter of a million scattered over 22 states.

The return of the nation's 2,500 mines in 22 states will leave still unsolved the problem of what will happen next July 8 when the miners' vacation ends. No wage contract between the mine owners and the AFL-United Mine Workers has been signed; the miners have always maintained "no contract, no work."

Meanwhile, as dwindling stockpiles of coal forced layoffs of steel workers and as coal-carrying railroads began furloughing their train crews, President Truman urged labor and management to comply with the provisions of the much-disputed Taft-Hartley act.

Pledging himself to administer the new law as fairly and efficiently as possible, the President declared: "Insofar as labor and management are concerned there is a vital responsibility upon them to comply with the law in a spirit of tolerance and understanding."

### Maximum Penalty Given Eisler on Contempt Charge

WASHINGTON—AP—Gerhart Eisler, Communist, today drew the maximum federal court penalty of a year in prison and \$1,000 fine for contempt of Congress.

Federal District Court Justice Alton Holtzoff passed the sentence after denying a motion for a new trial and a dramatic personal plea for mercy from Eisler, who has been described in Congress as the "No. 1 Soviet Commissar" in this country.

Eisler was convicted June 10 of contempt in refusing to take an oath for testimony before the House Committee on Un-American Activities last February 6.

The sentence followed by a day of conviction of another Communist, Eugene Dennis, on a similar charge. Lawyers for both indicated they would carry to the Supreme Court a challenge of the constitutionality of the House Committee.

Pending an appeal, Eisler is released on \$20,000 bail. He also is under indictment on a charge of fraud in obtaining a passport. Trial on that indictment is scheduled to begin July 7.

### U. S. Unable to Reach Decision On Chinese Loan

BY DEWITT MACKENZIE  
AP Foreign Affairs Analyst

When I was in China four and a half years ago this column recorded that impartial observers generally believed the terrible civil war between the Communists and Generalissimo Chiang Kai-shek's Nationalist government must run its bloody course—until one side or the other was knocked out.

It seemed clear that the divergence between communism and any other ism—political, economic or religious—was too great to be bridged by negotiation. It was the old story that oil and water don't mix.

That was during the world war. The United States then was giving the Chinese government material aid in the struggle against Japan. Later General George Marshall, aided by other American officials, spent long months trying ineffectually to compose the internal differences which rapidly were wrecking the world's most populous nation—one of the Big Five.

Since then things have raced madly from bad to worse. And now, having explored every visible avenue in an effort to aid our friend, Washington today is facing a dilemma: how to choose either side in the civil war with advice or argument is like hollering down an empty rain-barrel. Loans of money are snow on a hot stove.

What more can America do to save a nation which not only is her friend but whose welfare is vital to world peace and prosperity? Best world of further credits and loans apparently would be the only feasible offering which could be made. But would additional money achieve the desired ends at this juncture?

The position in China is truly catastrophic. Fierce fighting continues between great Communist and Nationalist armies in Manchuria, and the government is hanging on by its fingernails to this richest section of the empire.

The conflict is flaring across Northern China as well. Li Chi-shen, one time chief of staff for Chiang Kai-shek, says he favors a "democratic secession" of South China, and he asserts that this movement already is in progress.

### Teacher of Farming Classes Approved

Appointment of O. J. Dukes as vocational instructor and coordinator for vocational farming classes for veterans, that are being held at the McLean High School, was approved by the County School Board of Commissioners, meeting in the county superintendent's office in the Court House yesterday afternoon.

Dukes is a graduate of West Texas State College, in Canyon. Classes are being held twice weekly, with demonstrations on Saturdays.

### Lions Present Park to City During Banquet

Evidence of six years work by the Pampa Lions Club was illustrated last night in the Lions Club Park deed that was formally presented to Mayor C. A. Huff by Lion Roy A. Webb, at the officers installation banquet.

After planning, buying and constructing the park on the south side of the city, where it is believed to be of benefit to more children, the Lions gave it over to the city for general maintenance.

It was explained that Lion work at the park was by no means finished. That the planting of grass and the construction of several other recreational facilities will be added from time to time.

Installation ceremonies for Clarence Kennedy, recently elected president, and other new officers were conducted by Lion H. H. Smith, of Panhandle. Other officers that were installed include: Frank L. Stallings, re-elected secretary-treasurer; Morrie Enloe, lion tamer; H. P. Dozier, lat twister; and the Rev. Douglas E. Nelson, Joe Schroedel and Charlie Trott, members of board of directors.

Retiring president Jimmy McCune expressed his appreciation to members of the club for their cooperation during his administration.

Ralph Handle, past governor of the Lions District 2-1, Panhandle, was the principal speaker of the evening.

A special award of wrist watch was made to Dr. H. L. Wilder for his many years of untiring work with the Boy Scouts. He has, for many years, been camp physician for the scouts and has contributed in numerous other ways to scout activities.

Yearly perfect attendance awards were presented to 30 Lions.

### 'World on Wheels' Demands Good Roads, Boosts Building

AUSTIN—AP—Demands of a "world on wheels" for farm roads and expensive multi-lane highways are predicted to bring "the most momentous years of history" to the road building industry.

R. J. Potts, president of the Texas Good Roads Association, forecasts the same scene for this year's rodeo and horse show, August 6-9, made so by July 1, rodeo officials announced this morning.

Potts suggested Tom P. Epley of Abilene as president of the Good Roads Association May 23.

### Box Seats on Sale For August Rodeo

All persons who had box seats at last year's Top O' Texas Rodeo and Horse Show that wish to purchase the same seats for this year's rodeo and horse show, August 6-9, made so by July 1, rodeo officials announced this morning.

Those box seats not purchased by July 1, by last year's owners, will go on sale to the general public.

The seats may be obtained at the Chamber of Commerce office.

MOLOTOV ARRIVES IN PARIS—French Foreign Minister Georges Bidault, left, greets Soviet Foreign Minister Vichaslav Molotov as the latter arrived in Paris to attend the three-power conference on the Marshall plan for aid to Europe. Alexander Bogomolov, Russian ambassador to France, is in the center. The ministers open their meeting today.

## Combines Needed in Gray County Harvest

There is an immediate need for at least 150 combines and 150 flat bed trucks to be used in the harvesting of the largest wheat crop in the history of Gray County, announced Ralph Thomas, Gray County agent, this morning.

The total wheat acreage in Gray County is in excess of 125,000 acres and at an average of 40 bushels per acre there is an expected harvest of 5,000,000 bushels. However, Thomas stated, that if the combines are not obtained immediately for the cutting of the wheat there is great danger of losing a large percentage of the crop due to it becoming over-ripe.

"In my office, we have a list of names of farmers who need at a minimum, 65 combines, for wheat that is now ready to be cut," Thomas reported. He stated, that this does not include the needs listed with the two sub-stations located at Laketon and at the junction of Highways 18 and 66.

Five local grain elevators are making arrangements to take care of the bumper crop. However, it is expected that the local elevators will be overflowing by the end of the first week of cutting. In an effort, to meet the expected overflow, through the efforts of the local Chamber of Commerce and the County Agents office, storage space has been obtained at the Pampa Army Air Field from the War Assets Administration.

## Rocket Derails Near Amarillo

AMARILLO—AP—Service was expected to be resumed over the Rock Island lines in this area today after interruption caused by derailment of the Deluge Rocket passenger train 18 miles east of here yesterday in which three persons were injured.

Those hurt were Clemente Salls, Amarillo, Rt. 2, shaken up and bruised; Arthur Sherlee, Little Rock, Ark., second degree burns; and Grazerson Reames, Little Rock, minor injuries. Sherlee and Reames were dining car porters.

A "sun kink" was probably the cause of derailment. One Rock Island official said. He explained that a sun kink is a twist in the rails caused by heat.

Tracks were twisted for 350 feet. However, it was estimated that the tracks would be cleared by morning. Julian Prade, of Dallas, flew over the train, which was en route to Amarillo from Memphis, Tenn., shortly after the derailment. He said the cars "aren't turned over—it looks like they just scooted off the rails."

## Jester Lets Five of Last Seven Bills Die; Salary Hike for County Employees Included

AUSTIN—AP—Gov. Beauford H. Jester last night formally wound up the session of the 50th Legislature, chopping down five of the last seven bills that remained on his desk for action before the midnight deadline on his power to veto.

The measures killed were those which would have: 1. Prohibited fraternities, sororities and secret societies in public High Schools and Junior Highs. 2. Provided mandatory salary raises of 15 percent for officials of 11 counties and permissive salary raises in the same percentage for those of 73 counties. 3. Authorized creation of public hospital districts by county commissioners courts and the levying of a tax to pay for building and maintaining such hospitals. 4. Transferred control of the state school for the deaf at Austin from the board of control that administers all eleemosynary institutions, to a separate board. 5. Set up mechanics for the abolition of the Lamar Junior College district and for transfer of the Junior College property to the Senior College which the Legislature finally failed to establish.

Jester signed the much-contested bill which extends for one and one-quarter years tax remissions to all counties which lost regular remissions when the state failed to levy a general fund ad valorem tax in 1946.

He also signed a bill creating Ellis County Road District Number 15A. His actions—finally wound up five hours before the deadline—brought to 471 the unofficial total of bills finally enacted by the 50th Legislature. The total number of measures introduced was 1,335. Jester vetoed 12 all told.

In killing the secondary school anti-fraternities bill widely advocated by school administrators, Jester said he did so because "it would be a meaningless and unenforceable law." Court decisions have given local authorities full power to do what the bill proposes, he said, adding: "The proper remedy is already at hand. Local officials—backed by popular opinion—can take steps at any time they desire to correct the evils of which the proponents of this bill complain."

Jester said he vetoed the salary raise bill because he objected to the mandatory phase applying to 11 counties. The measure would have permitted salary increases in counties in the 20,000 to less than 60,000 bracket, and would have made such raises mandatory in counties of from 60,000 to 190,000 population.

In his veto proclamation on the hospital district bill, the Governor commented that the measure was introduced as a local bill, but it would have actually affected 68 counties in 25 of the state's 31 senatorial districts.

"The total amount of bonds authorized is 37 percent of the total indebtedness of all the local subdivisions of government," Jester said. "I am sure that it was not the intent of the Legislature to increase the total amount of bonds authorized to 37 percent of the total indebtedness of all the local subdivisions of government."

## Military Status Of Aggeland Will Not Be Changed

COLLEGE STATION—AP—The Board of Directors of Texas A. and M. College yesterday announced it "contemplates no changes in the military status" of the school.

The announcement, in effect, was Olin E. Torgue of Bryan in Washington that the Board intended to change A. and M. from a military college to a civilian-nasis ROTC school.

The Board, at the conclusion, of its meeting here, also announced the dismissal of Dr. F. B. Clark, head of A. and M. Economics Department, who was a chief figure in the recent strife at A. and M.

Clark's dismissal was disclosed after he had appeared before the Board for approximately 20 minutes to explain his conduct in charging the college administration with intimidation of faculty members.

A few months ago Clark appeared before a state legislative committee investigating the A. and M. situation. Afterward the majority of the committee issued a report in which it censured Clark on the grounds that he did not properly substantiate his charges.

The Board yesterday released a memorandum which said, "in view of the action of Dr. F. B. Clark in giving widespread publicity to charges against the administration of the colleges which he later admitted he could not substantiate, the Board of Directors, after hearing Dr. Clark, deems it necessary to terminate his connection with the college immediately."

His successor as head of the economics department can be named by President Gibb Gilchrist, subject to approval of the Board, but SEE PAGE 8 MILITARY

## Meeting of Harvester Band Members Called

The Harvester Band is needed for a public appearance on Tuesday afternoon, July 1. Knox Kinard, superintendent of schools, stated this morning.

Band members who would be available on that date, are being asked to report to Charles Meach at the High School Band Room at 8 p.m., Monday, June 30, Kinard stated.

**KIDNEYS GETTING YOU UP NIGHTS?**  
If you get up nights—frequent desire to pass your water—but have only scanty passages—yes, and have backache due to excess acidity in the urine, be glad you're reading this:  
Three generations ago Dr. Kilmer, a famous doctor, found hundreds of his patients with this trouble. Painstakingly he made a medicine of 16 herbs, roots, vegetables, balsams—Nature's own way to relief. He called it "Swamp-Root" and millions of grateful men and women have taken it—often with amazing results. Swamp-Root goes right to the flow of urine, helping to relieve excess acidity... so the irritated bladder gets a good flushing out, too. Many report getting a good night's sleep after the first few doses. Caution: take as directed.  
For free trial supply, send to Dept. S, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

# The Tollivers

IT was perhaps ten days after Amy's and Nelson's housewarming that I happened one morning to look out of a south window and saw Annabelle Tolliver run down the steps and join Father on his walk downtown. I thought nothing of it until the second or third day when I saw the same thing repeated. The following mornings I watched openly. There was no doubt about it; Annabelle was making a point of sharing Father's morning walk to the office. On rainy days Father picked her up in his car.

It was a small thing, nothing to get excited about, I told myself. Father liked companionship, liked to talk, liked, alas, to be flattered. Then I remembered how Father had fired up an old-fashioned Annabelle the night after Amy's party. Oh, Lord, did I have to go through that again?

The weeks passed slowly. President Wilson went to Paris with his lady, came home, went back. The peace conference dragged on. Nothing much happened in Otego except that everyone was talking about Father and Annabelle and watching me to see how I was taking this latest development. In late February, Flora had her third baby. It was another girl and Flora named it Amy after her mother and sister.

Annabelle continued to walk downtown daily with Father, but Father never mentioned her, never suggested that I invite her to the house. When we met her at the other houses, Father, if anything, avoided her. And yet he smiled at her across the room. I was not very happy.

SUDDENLY it was spring. Father and I went down to New York to the big parade of our returning soldiers.

When the parade was over, Father took me to the Plaza and bought me a gorgeous lunch. It was all I could do to eat it.

Two days later I had a slight headache and went to bed early. Father came in about 9 o'clock and sat on my bed.

"Can you keep a secret?" Father asked.

"I said he knew I could."

"But this is a very special secret," Father persisted. "I'd leave town if it got out. I'm really a swine even to tell you. I think I won't."

"I had to coax and coax."

"Finally Father said: 'I was great, I'm honored last evening. I'm not a young man and not rich and no charmer, heaven knows, but believe it or not, my hand actually was taken in marriage.'"

"Not..."

"We'll mention no names. But I thought you'd like to know. I declined the honor as gently and decently as I could."

"Why?"

"Because the lady in question and you don't get along. I've been fond of you a good many years. At my time of life to know, I have children and grandchildren. No outsider, no matter how glamorous, can take a child's place."

"It's always been hard for me to show emotion. I caught Father's hand and kissed it and tried to tell him brokenly what a wonderful father he had been to me. He said all the right things, and I was very happy."

FINALLY I asked: "What did you say to Ann... to the lady who proposed to you?"

"Oh, something along the lines of what I've just said to you. I had to think quick. It wasn't easy, believe me."

"Was she... terribly hurt and disappointed?"

"I don't think so. There wasn't any love's young dream to squelch, remember. As a matter of fact she didn't pretend to be bowled over by my many charms. Her proposal was more or less along business lines. She pointed out, very reasonably and unemotionally, that you would soon be leaving me for a younger and handsomer man and that I inevitably would be desperately lonely. She said that she was lonely too, a drag on her mother and sisters, and she thought that we might join forces to our mutual advantage."

"And you said what?"

"That I was immensely flattered, that she had paid me the greatest compliment I had ever had, that I was greatly touched and would never cease to be grateful. Then I reminded her that unhappily she and you had never hit it off very well. I said that I was too old and set in my ways to root you out of my life, that it wouldn't be fair to her to ask her to take second place, that I was at the age to look forward to grandchildren—a lot along that line. We were walking home from downtown. When I was in full flow she said I needn't go on. I stood there with my mouth open, blushing like a fool, and then she laughed and said we'd both forget it and began talking about something else, as cool as you please. But her eyes when she said good-bye still haunt me. The girl's desperately unhappy. I feel like a heel."

"Do you think you could have made her happy by marrying her?" I asked.

"I doubt it—not for long, certainly. It would have given her a certain joyous satisfaction to hit out at Amy, hit out at you, at the town. But I imagine in a few months..."

He broke off and then said we'd better not talk about it any more, that it had been a trying and unpleasant experience, that he'd prefer to forget it, and he kissed me good night.

I said: "There's always something doing in the Tolliver family! I wonder what it will be next."

Father said: "The Tolliver family? Who's been talking about the Tollivers?" He left me before I could reply.

**SUNDAY SCHOOL LESSON**  
OUR HERITAGE FROM ANCIENT ISRAEL  
Scripture: Psalm 119:105; Isaiah 2: 2-4; Micah 6: 1-8  
By WILLIAM E. GILROY, D. D.  
The great heritage from the story of ancient Israel is the lesson of the downfall of nations and peoples, or the triumph of nations and peoples. In the history of the Jewish people from the time of their return from the bondage in Egypt to the establishment and downfall of their kingdom in Palestine, we can see the laws and forces, that wreck mighty nations, "righteousness exalts a nation, and the death of Scripture applies to nations, as it does to individuals. 'Make sure your sin will find you out.'"  
But our heritage from ancient Israel is very much more than the law, the example and warning. Out of the life of Israel, despite wars, peril, suffering, waste and destruction, has come the richest literature that the world has known—the Scriptures upon which our Lord was crucified, and which, He said, He had come to fulfill.  
It is the spiritual miracle of history that out of times of ruthless war, and the most cruel and full of danger, dreams of peace, recorded in such passages as Isaiah 2 and 55. The times were cruel and full of danger, the people were evil-minded set up altars of idolatry. There were false prophets as well as the nation, suffering, irrepressible prophets of the Lord.  
Some kings themselves were false prophets, doing evil in the sight of the Lord. But there were gentle souls, being led through green meadows and side still waters, singing the songs of hope and faith.  
In days of darkness there were not wanting those who found the word of God a light unto their path (Psalm 119:105). And in evil days there were courageous rebukers of iniquity, and prophets like Micah, who in clear, simple terms the eternal realities of true religion, the substance of what God requires of man, and what man needs for happy, prosperous life among his fellows (Micah 6: 1-3).  
And in these days of the 20th century, when millions have been destroyed and other millions have been suffering from ruthlessness, let us not forget that it is to Jews that we owe that heritage. What return is the world making to them for all they have given to the world?

**Women in the Church**  
By MARY FOWLER  
Mrs. George Cowan and Miss Eunice Pike, American missionaries serving among the mountain communities of Oaxaca State, Mexico, have long been concerned over the fact that some 60,000 people speaking the Mazateco Indian dialect have been without a Bible or any portion of it in their language. But before they could do anything about it they had to reduce the language to written form and teach some of their leaders to read. Now they have translated the Gospel of Mark into Mazateco, and the American Bible Society has printed book in parallel columns, with Spanish translations; and they are working on the translations of the entire New Testament.

The Navajo Indian of Arizona and New Mexico is now faced with a great increase in numbers and with a depletion of the soil on the

# Panhandle News

PANHANDLE (Special)—Mrs. Judson Skaggs and Mrs. Richard Orr were shopping in Amarillo on Wednesday.

Mrs. Jack Hartsel and daughter, of Amarillo are visiting her parents, Mr. and Mrs. L. H. Skaggs, brother, Judson, and sister, Mrs. Ernest McCafferty and their families.

Mr. and Mrs. Leon Landon and sons of Abilene have returned to their home after visiting Mrs. Landon's father, W. M. Hall, Alameda; Mr. Landon's parents, Mr and Mrs. D. C. Landon, Panhandle, and brother, Harris and family of Amarillo.

Mrs. Asbury A. Callaghan has returned from a visit with her daughter, Mrs. Howard Anderson and Mr. Anderson of Corpus Christi. En route she visited friends in Austin and Temple.

Shirley Tate, Grace and Inez Meaker are attending the state Rainbow Assembly in Dallas. They accompanied the girls from Amarillo in a chartered bus.

Mr. and Mrs. George Crossman, Mr. and Mrs. J. E. Weatherly and Mr. and Mrs. Jack Griffith were recent visitors in Borger, with Mrs. W. L. Boyles of Pampa, who is a patient in North Plains Hospital.

Mr. and Mrs. Earl Miller and children of Los Angeles have returned to their home after a visit in the home of his uncle, W. R. Cain and Mrs. Cain. They were en route home after a trip to the east coast and a family reunion in Marlow, Okla.

Mr. and Mrs. B. F. Urbanczyk are the parents of a daughter, born on June 21 in St. Anthony's Hospital in Amarillo. Mr. and Mrs. G. O. Pruitt, Panhandle and Mr. and Mrs. Ben Urbanczyk, White Deer are the grand parents. She weighed 7 lbs. 4 oz. and has been named Karen Ann.

James Cummings is a medical patient in Northwest Texas Hospital, Amarillo.

Pampa Boy Helps Erect First Cabin at Camp

PLAINVIEW, (Special)—With the college president rolling up his sleeves and going to work, a Wayland College cabin has been constructed in the past few days at the Baptist encampment in the Palo Duro Canyon near Wayside. It is the first housing shelter to be erected on the grounds.

The idea, proposed by Dr. Bill Marshall, college president, was put into action Saturday when a crew of Wayland boys and two truck loads of material were sent up to the canyon to start work on the building so that it might be completed in time for the boys' and girls' encampments this week.

Among those pressed into service on the rush job were Wayne White, Wayland student from Pampa; Rev. Manfred Ronchi, pastor of the Via Teatro Valle Baptist Church of Rome, Italy, who arrived Monday to speak at the camp; Dr. Eugene Cotton, head of the Wayland Bible department, and "Salim" Sam Allen, newly-elected truck coach.

The cabin, which is 14 by 16 feet, will be used as Wayland headquarters at the camp, and as a house for guest speakers.

Market Briefs

WALL STREET STOCKS—NEW YORK, June 26.—Quiet strength of oil, a number of which touched highs for the year, together with climbing indications of special stocks, partly offset labor pessimism today and enabled most leaders to extend their recovery.

Prices moved upward on moderate activity after an irregular first hour. Some fractions advanced, but most were well distributed by midday. Dealings were slow and irregular. Special stocks, partly offset labor pessimism today and enabled most leaders to extend their recovery.

On the offside at the last were American Telephone, Chrysler, Republic Steel, Douglas Aircraft, Kampen, Air Reduction and Philip Morris.

At peaks for 1947 were Seaboard Oil, Texas Pacific Coal & Oil, Texas Gas, Standard Oil of Indiana, Standard Oil of Cal. and Ohio Oil. Better performers included U. S. Industrial Chemicals (on a lifted quarterly), Schenley, Amsec, Wire, Bethlehem, Goodyear, Smelting, Anaconda, Dow Chemical, Du Pont, Gulf Mobile & Ohio, Santa Fe and Union Pacific.

Railway bonds edged forward.

Escapes Believed Linked in Robberies—WACO.—Three escapees from the Gatesville training school are believed to be linked to an armed robbery here Wednesday night, according to Deputy Sheriff Raymond Barber.

A motorist, A. C. Come of Mart, was robbed of \$20 at pistol by two youths, Barber said, both of whom were disguised by Halloween masks. He said the robbery occurred after his truck ran out of gasoline four miles from here on the Dallas highway.

Earlier, state police broadcast that three youths, one 16 and the other 15, escaped from the Gatesville school.

Sheriff Joe White of Coryell County said a building near Gatesville was entered after the escape and two .22 caliber rifles stolen.

Freedom cannot be apportioned on a class basis, Mayor William O'Dwyer of New York.

OUR BOARDING HOUSE... with... MAJOR HOOPLE

Owner Saves Business By Breaking In Store

CANADIAN.—(Special)—The second forcible entry occurred in Canadian Tuesday morning when Ed Lemley, owner of the Firestone Store, was unable to open for business because a night latch which operates only from the inside was inadvertently tripped at closing time the night before.

With potential customers waiting, Lemley borrowed a saw with which he let himself in through the back door by sawing out a bar. Once inside, he was able to manipulate the locks and open his front door.

A few days earlier burglars had gained entrance to the City Drug Store by breaking out the front door glass, and made off with nearly \$100 in cash. Nothing else was molested.

It is thought that the break-in occurred during a noisy thunderstorm. Officers investigating the case stated that there was a striking similarity in methods as those reported in another recent burglary in this area, and they believe that when one of the burglaries is solved, both will be.

If America should experience a slump now the effect would be disastrous upon every country, House Speaker Joseph W. Martin, Jr. (R) of Massachusetts.

Rotary Convention Report Presented

CANADIAN.—(Special)—A very interesting report of the 38th convention of Rotary International was heard at the last regular meeting of the year of the Canadian Rotary Club at its luncheon hour Tuesday. Denise D. Fletcher, superintendent of schools and newly elected president of the Canadian Rotary Club, was the lone delegate to the conference from Canada.

Rotarian Fletcher reported that the convention was the largest in Rotary history with better than 15,000 in attendance. He gave a detailed talk on each plenary session, and recounted the highlights of what took place.

Mr. and Mrs. Fletcher returned by way of Yosemite National Park, King's Canyon and Sequoia National Park, motoring some 4,000 miles in their two weeks. He took movies of the entire trip, which will be presented to the club at a later date.

The basic problem of international understanding is cultural and ideological, although political and economic conflicts loom large and daily occupy front-page attention.

Dr. Arthur G. Coons, president, Occidental College.

UNION-AGERS NOTE No party's more fun than an informal supper where everybody helps. Keep the group small, and do some of the preparation ahead of time. Hamburger patties can be shaped and ready to cook. Stack them with wax paper between and store them in the refrigerator.

WHEN your digestive system does not function well, waste accumulates and gas is created... you feel depressed and irritable. If your distress is extreme or long-lasting consult your doctor. But often all you need is to stimulate sluggish intestinal muscles. And that's just what the new improved ADLERKA, the Tone-Up laxative, does. It relieves gas pressure and moves waste gently through the digestive canal. Because it is a scientific blend of effective ingredients it works quickly and pleasantly. Try ADLERKA today and learn why over 20,000,000 bottles have been sold. Caution: use only as directed.

## Sports Round-Up

**By HUGH FULLETON, Jr.**  
**KALAMAZOO**—(P)—Best suggestion this department has heard about making college baseball's first world series a success is to charge the professional scouts 20 bucks apiece for tickets and let the public in free. There's no doubt that the scouts will be here in force although there will be plenty of cash customers to see California and Yale battle it out today.

**FAIR EXCHANGE**  
**J. B. McHale**, an old Albin, Mich. boy who has coached at the U. of Arizona for 33 years, tells this one about his ball team's annual tour of Mexico. Seems that one year McHale was highly impressed with the work of a Mexican umpire. Next spring the team visited the town and McHale cornered the local ump with the aid of an interpreter. Bought him a few cervezas—that's Mexican for beer—and complimented him on his work on the field. The ump listened happily, turned to the coach and said "generally I butcher the visiting team. This time I'll butcher the home team instead."

**END OF THE LINE**  
 Another McHale yarn concerns Abelardo Rodriguez, an infielder who was so tough and pugnacious that the fans at Nogales, Sonora, put him on a train headed south with the word "you're a good ball player but you make too much trouble."  
 Next time McHale heard of him, he was a general who later became president of Mexico and he was now governor of the state of Sonora. Oklahoma's fearful Bruce Drake may lose a basketball game next winter—figures that the NCAA will have to come to a sectional qualifying system for its golf tournament. After watching nearly 300 boys trying to make the bracket of 64 at Ann Arbor this week, Bruce remarked "why should you limit a

(By The Associated Press)  
 Jackie Robinson, the Brooklyn first baseman, has come through under extreme pressure to become an important factor in the Dodgers' rise to the National League lead.

Battling 302 after last night's 3-6 thrilling win over Boston, Robinson rates with the best rookies of the season.

Through the west, it was Robinson's batting that started the Brooklyn club on a victory string that now measures eight out of nine. In Pittsburgh he stole home to win the game. Fritze Ostermueler with a tie-breaking run.

After Boston fighting despondently to hold first place, rallied for five runs to tie the Dodgers, 6-6, at Ebbets Field last night. Robinson's victory string that now measures eight out of nine.

Dodger pitching continued to wobble in the important game with the Braves. Even Joe Hatten, who never has lost to Boston, faded. Not even fireman Hugh Casey could stop the Boston club in the five-run eighth and manager Burt Shotton had to call on Ralph Branca.

Billy Southworth threw 18 Braves into the fray with the loss finally being charged to the New York Giants who, like the Phillies, were idle.

Chicago lost ground in the race for Pittsburgh Ernie Bonham's 8-0 shutout victory. It was the started Johnson while Ralph Branca accepted his 10th win for 1 1/3 innings of work.

The Dodger win gave them a half game lead over the Braves and a full game over the New York Giants who, like the Phillies, were idle.

Chicago lost ground in the race for Pittsburgh Ernie Bonham's 8-0 shutout victory. It was the started Johnson while Ralph Branca accepted his 10th win for 1 1/3 innings of work.

Cincinnati's Ewell Blackwell who is setting the league on its ear with his sidearm slants, dumped St. Louis' Harry Egan 6-2 for his 12th victory. The loss dropped the Red Birds below the 500 mark again, actually a fraction of a point behind Cincinnati in what amounted to a virtual tie.

Connie Mack's Philadelphia Athletics continued to trot on the toes of the mighty in the American League, halting the New York Yankees' win streak at six with a 4-2 decision. Rookie Joe Coleman, whose only previous win was a shutout of the Yanks on Decoration Day, obliged with a seven-hit effort despite Joe DiMaggio's ninth homer.

# Women's Track, Field Meet Gets Under Way Tonite

**SAN ANTONIO**—(P)—The women of America track and field, all with their eyes on the Olympic games, battle time today in the first round of the National AAU meet.

Starting at 7:30 o'clock (EST) they will compete in the junior division. Tomorrow night, they return to Alamogordo Stadium for the Senior Class which will be run off at the same time as the National AAU meet.

A total of 120 entries, twice as many as competed in the Nationals at Buffalo last year, will be in action in both divisions. Only a few of the Senior entries, Stella Walsh, Alice Cochman and Dorothy Dodson will pass up the Junior Class.

A 17-girl squad from Tuskegee Institute of Alabama is the top favorite to win the team title in both divisions with San Antonio recreation department furnishing the chief competition, Lillie Purifoy, who set a new world's record of 73 seconds for the 50-yard indoor hurdles at Philadelphia in January, heads the Tuskegee squad. She won the national AAU 80-meter hurdles in 1945 but was defeated last year by O'Connell's sportswoman of New York, who also is an entry here, Elaine Bradford. Tuskegee shot put and discus star, is another leading entry.

All of the 1946 champions will be in the senior division including the fabulous Walsh, who holds the world's records for 220 yards and for 60 and 220 meters. Miss Walsh has been an outstanding star in women's track for 15 1/2 years.

Art Pohl, director of the meet, anticipates a crowd of 6,000 tonight with probably 8,000 tomorrow night. The Army Air Forces will feature some of the top men of the nation, including Max Minor of West Point, sprinter; Don Walling, former West Point track star, in the hurdles; Major George Salisbury, who has tossed the javelin in 218 feet this year; George Hofmann, who has vaulted 13 feet 6 inches, and Ira O'Neil, who has shot 48 feet. There will be more than 250 in the AAU meet which holds its preliminaries tonight.

**Carbon Company Club Ekes Out 4-3 Victory Over Junior Oilers**  
 Playing in the absence of some of their most valuable players, the Jr. Oilers lost a practice tilt yesterday afternoon to the Carbon Challengers as Carbon hurler Jack Plummer limited the youngsters to only three safeties for 3 runs against 4 for his team.

Charles Gist, Malcolm Fagan, and Charlie Laford did mound duties for the losers allowing the Carbon club 4 hits for the same number of runs. The contest was only a 5-inning affair and the Challengers were never in trouble after the first inning as they crossed home plate 3 times on 2 hits and the only Jr. Oilier error of the game.

The Jr. Oilers came back strong in the same inning to tally twice on 3 safeties and 2 Carbon errors. The winners continued scoring as Richer Plummer collected a double and on an overthrow to second came all the way home.

The remainder of the game went scoreless until the last half of the fifth inning where the Jr. Oilers threatened to rally as Hernandez, leadoff man, drew a walk and as Derrell Davis got a hard hit double, to bring Hernandez home and the Jr. Oilers within one run of the winners. But Davis was then thrown out stealing third, which put out the fire.

The Jr. Oilers are scheduled to practice this evening at 5 on the diamond just north of Oiler Park. They are scheduled to play 2 league games in Oiler Park Sunday afternoon at 2, against Shamrock and Wellington. If the locals should win these they will have a first place in this district and will meet the winner of the Amarillo, Borger, and Dalhart district.

Jr. Oilers . . . . . 200 01 341  
 Carbon-Chal . . . . . 310 00 432

Despite the Yanks' defeat, they held their 2 1/2 game lead because Washington thumped the Boston Red Sox, 7-3, hopping on reliever Earl Johnson in a four-run seventh inning. Bob Newsom, who gave way to Tom Ferrick in the eighth due to a twisted ankle, was credited with his fourth success.

Al Gettel hurled his second complete game in a Cleveland uniform, a four-hitter against Chicago, 5-1, the result enabled the Tribe to chance places with the White Sox in the standings, shifting from sixth to fourth. Gettel had a two-hit shutout until the eighth in downing Frank Parish.

**Match Play Under Way in WT Meet**  
**ODESSA, Texas**—(P)—Match play started today in the West Texas Golf & Country Club with defending champion Doug Jones vs. Ray Stoker, meeting J. M. Smith of Odessa in the opening round.

Jones did not have to qualify yesterday as Billy Maxwell of Abilene and Morris Norton of Wichita Falls tied for medalist honors with a fine 69 apiece.

In the opening round Maxwell played Ralph Neal of Sweetwater, who shot a 72, and Norton engaged Gervis McGraw of Abilene, who qualified with a 76—the same score as posted by Smith, Jones' first round opponent.

In other first round matches Bobby Davidson, Odessa, played Bill Landreth, Fort Worth; Ted Roden, Odessa, clashed with Obie Bristow, Big Spring; Rufus King, Wichita Falls, played Vann Ligon, Odessa; Bob Farmer, Odessa, vs. Ray Stoker, Odessa; Buddy Schultz, Wichita Falls, vs. Bill Stanton, San Angelo; Gene Mills, Wichita Falls, vs. Gene Ald Waters, San Angelo; M. O. Boring, Odessa, vs. Dan Harden, El Paso; Bill Roden, Odessa, vs. Jack Vaughn, Lamesa; Don Cherry, Wichita Falls, vs. J. L. Hall, San Angelo; Bob Lee, Odessa, vs. Dr. W. A. Schaal, Tahoka; Bill McElhannon, Odessa, vs. James Lytle, Kermit; Chick Trout, Sr., Lubbock, vs. A. G. Barnard, Lamesa.

The fresh produce that comes to New York City constitutes nearly 12 percent of the total commercial production of fresh fruits and vegetables in the United States.

# Gassers Wallop Oilers Behind Fries' Hurling

**BORGER**—The Borger Gassers walloped the Pampa Oilers last night in Huber Park 16-9 to increase their slight margin in their fourth-place position.

Pampa went ahead in the top of the second inning with one run but the Gassers quickly overtook them in their half of the same inning when they chased two tallies across.

Clayton Fries went all the way for the triumphant Borger night to be credited with the win. The starting Pampa twirler, Payte, was charged with the loss after he was chased to the showers in the fifth stanza.

Carrying the heavy bat for the Gassers was manager Gordon Nell as he cracked out two homers and a triple in four official trips to the plate. Shortstop O'Connell led the Pampa hitting attack as he hit two doubles and a single in four times at bat.

A Pampa rally in the eighth inning fell short when Notte, Oley, O'Connell, and Bailey doubled and Range singled accounting for five runs. This spree made the score 14-9 and then Borger brought two more runs across in their half of the same innings when Clayton Fries homered with one man on base.

**MOSLEM LEADER**  
 India has more followers of Mohammed than Turkey ever ruled. It ranks as the leading Moslem nation, with some 77,000,000 devotees.

# William and Mary Net Stars Grab Team Cup for Second Straight Year

**LOS ANGELES**—(P)—The William and Mary college net squad sewed up the team trophy for the second successive year and today its star player, Gardner Larned, was favored to win the national collegiate singles tennis crown.

The 23-year-old Chicago lad, who lost out for the title in the 1946 final against the Falkenberg of the University of Southern California, faced another USC aspirant in today's semi-finals—Straight Clark of Pasadena, lone unseeded player and last westerner left in the tournament.

In the lower bracket semi-final, Fred Kovaleski of W. & M. and Vic Seixas of North Carolina promised a tight duel, with the latter a slight favorite to win and end the match in the first set.

The Williamsburg, Va. squad clinched team honors yesterday when the two singles players reached their semi-finals and the duo of Kovaleski and Seixas advanced to their way into the same round of the doubles. This gave W & M eight points, more than enough to win the team trophy.

In today's doubles, Kovaleski and Atwater faced Sam Maly and Bob Curtis of Rice, and Harry Likas and Harry Roche of the University of San Francisco were opposed by the strong UCLA team of Herbie Flannery and Gene Garrett.

Larned, seeded No. two in the NCAA tournament behind Jack Tuero of Tulane, reached today's match by defeating Jim Evert of Tulane 6-3, 7-5. Clark ran into stout opposition before disposing of Richard Savitt of Cornell, 8-6, 3-6, 6-4.

Kovaleski, whose home is in Detroit and who at times has played the best tennis of the W & M team, eliminated George Dringler of college of Pacific, 6-1, 6-1.

Seixas, of Philadelphia, rated 16th among the nation's singles players, downed Bernard Barten of W & M after a lively tussle, 9-7, 6-3.

In doubles, Likas and Roche scored a surprise in upsetting the 1946 runners-up, Larned and Barten, 6-3, 6-3. Flam and Garrett won from Clarence Mabry King, Odessa, vs. Texas, 7-5, 6-3; Maly and Curtis advanced over the Notre Dame brother team of Jim and Gerald Evert, 3-6, 7-5, 6-4, and Kovaleski and Atwater won from Tuero and Wade Herren of Tulane, 6-4, 4-6, 6-3.

# Fort Worth Cats Scratch Rebs 7-3 To Hold 2nd Place

(By The Associated Press)  
 Fort Worth, pushing another step ahead of its second-place rival, Shreveport, is eyeing the big boy at the top of the Texas League today—Houston.

Before last night's games, the Texas Cats and the Louisiana Sports had swapped the runner spot on less than four times straight.

The Cats, who grabbed the position Wednesday night by downing Dallas, handed the Rebels a second cuffing last night to eke ahead, Shreveport, able only to split a doubleheader with the loop's cellar club, San Antonio, stayed in third place.

The results:  
 Shreveport beat San Antonio 7-3 but the Missions took the second title, 6-5.  
 Houston won over Beaumont 3-0, lost the night cap 6-3.

Tulsa took a 1-0 win from Oklahoma City.  
 And Fort Worth swamped Dallas 7-3.

San Antonio's cellar dwellers provided probably the best thrill of the night. The Alamo City club was trailing 2-3 in the eighth inning of the second game when Charley Johnson stepped up to the plate to swat a homer with two on and in-possession for the home town team.

Grant's homer was followed by another circuit clout by Marc Carrulla. It was relief pitcher John Miller's second victory in two days.

Shreveport's win in the opening game was largely the result of the heavy batting of Chet Hajuk and Nick Gregory. Each got three in four with Hajuk driving in four runs with a pair of homers and a single.

In the other doubleheader, Houston took the seven-inning opener by clearing Beers his twelfth victory on the mound. Beaumont came back with surprising batting strength to win the second match. Its run in the second stanza of the night, broke a string of 29 scoreless innings for the Exporters. It also was their fourth tally in 52 frames.

At Tulsa, the Oilers were out-hit but not out-scored by the Oklahoma City Indians. The game marked the thirteenth win in 15 games, the fifth consecutive victory and the second straight shutout for Tulsa. Ralph McCabe hurled crack-jack ball for the Indians but he lacked support from his mates.

And, oh yes, Speedy Jack Cassini was at it again—stealing his 31st base to keep his loop leading in that department.

At Fort Worth, an unearned run was accepted by the Cats in the seventh for a 3-3 tie. A four-run burst in the eighth settled the matter, and Fort Worth downed Dallas for the second night in a row.

Tonight's schedules is the same as yesterday's.

# BATTING LEADERS

**AMERICAN LEAGUE**  
 Batting—Boudreau, Cleveland, .348; Kell, Detroit, .329.  
 Home runs—Celler, New York, 13; Williams, Boston, 12.  
 Home runs—St. Louis, 5-0, 1.000; Hader, Cleveland, 4-0 1.000.

**NATIONAL LEAGUE**  
 Batting—Harris, Cincinnati, .345; Walker, Philadelphia, .343.  
 Home runs—Mize, New York, 15; Cooper and Marshall, New York, and Kinder, Pittsburgh, 14.  
 Pitching—Munser, St. Louis, 6-1 .807; and Blackwell, Cincinnati, 12-2 .807.

Sig Borgia, referee in the Basketball Association of America, is umpiring in the Class B New England baseball league.

# Central Baptist Boys Upset First Baptist Seniors 16-6

Upsetting the first slot First Baptists, the Central Baptist Senior Boys had a hard hitting contest last night by the top heavy score of 16-6. It was the second defeat of the season for the First Baptists and both of them have come at the hands of the hard hitting boys from the Central Baptist. Ronnie Maxwell was the winning hurler as Emmett Riggs could do nothing with the winners from the very start and was in trouble throughout most of the 7 innings.

In the Jr. Boys league, the fans witnessed a little closer contest as the Presbyterians had to come from behind and score 3 runs in the last frame to take a hard earned 9-8 victory from the First Christians.

The Christians put up a game battle all the way but could do no better than 8 plate crossings against the hurling of Carl Kennedy and Earl Stevenson.

In another close Jr. Boys game, Ronald Beard led the First Methodists to a close 9-8 victory over the Nazarenes. Beard's hurling baffled the Nazarenes as he blanked them in the 7 innings while his teammates had a good night at the plate, scoring in every inning except one.

In the Jr. Girls league, the First Christians completely overpowered the First Baptist, as they scored heavily in every frame to win 36-7. Clara Washington was the winning pitcher and Betty Kiff pitched for the Baptists.

Still in the Jr. Girls league, the Central Baptist Girls had a big first 3 innings as they defeated the Presbyterians 16-10. Patsy Young was on the mound throughout the 5 innings for the winners as Jan Sanders hurled for the opposition.

**WIMBLEDON TENNIS**  
**LONDON**—(P)—Play in the Wimbledon Tennis championships started an hour and 15 late today because of a 40-minute electrical storm followed by heavy rains.

The first match to get under way involved Geoff Brown of Australia and Pierre Pelizza of France.

# "You've Never Had It So Good"

An important job awaits you in JAPAN All Expenses Paid and \$90 Per Month

"You've never had it so good," says a sign erected over a clubhouse entrance by Regular Army men in Japan. It refers to the interesting life they enjoy while taking part in one of the most successful occupations jobs in history.

Now that summer has come to Japan, famous resort hotels beckon enlisted men on leave to the scenic mountains or the seashore. There, they find swimming pools, hot springs, horse-back riding, skiing, bus tours. Various recreation clubs offer well-stocked book shelves for leisure reading. American refreshments often are available in evenings and on week-ends. Both American and Japanese entertainers appear in theaters and clubs. Movies are shown almost every night.

You can be part of this picture, if you measure up to the Army's high standards. Good food, lodging, medical and dental care, clothing, transportation and many other expenses are paid by the Army. For further details, visit your Army Recruiting Station at

## HIGH PRICE TAGS

The argument over the causes and cures of commodity price inflation has degenerated into a buck-passing contest. Labor blames capital and capital blames labor. Various segments of business blame other segments of business. Government officials attack industry, and industry counterattacks in turn. And a good many consumers seem to feel everyone save themselves is at fault.

Th truth is that the guilt must be shared by all elements in the American economy. And the cure if there is to be one, can be achieved only by unified attack on the fundamental forces that push prices up—and the value of the dollar down.

First of all, prodigal government is a very strong inflationary influence. The terrible burden of debt the country now has makes this danger infinitely greater than it ever was before. We must put our fiscal house in order.

The productivity of labor is all important. A basic reason for high prices is that output per man in producing industry has gone down—while wages have gone up. This philosophy of more money for less work is one of the best friends inflation has.

The attempt of some businesses to earn excessive profits comes in to the same category. It is an inexcusable form of consumer exploitation. Fortunately, it is gradually being corrected as competition becomes more intense.

The type of prodigal buyer who will pay anything for what he wants made the black market in the past—and is a dangerous influence still. However, the easy money seems to be running out, which is a blessing to the country.

These factors contribute to the high price tags you see on goods in stores. They indicate why efforts of retailers to reduce prices cannot produce much in the way of results under present conditions. Reform must begin at the source—and until that happens the price problem will loom large in American life, so don't blame the retailer!

## In Hollywood

By ESKINE JOHNSON  
NEA Staff Correspondent

**HOLLYWOOD**—(NEA)—So you'll soon be building and then decorating that postwar dream home. Well, you'll probably do something wrong and spoil everything. People always do, according to Hollywood's art directors.

So today we're going to let some of Hollywood's top art directors give you some tips to really make it the home beautiful, and not a mess.

Homes, says Stanley Rogers of M-G-M haven't kept up with the scientific progress of the world. "Homes," he says, "are too drab; we need more imaginative use of color. We need to let our imaginations create house plans which are adopted to our particular needs and interests, not in accordance with the house of neighbor Jones or neighbor Smith.

Rogers' advice: "A feeling of spaciousness can be achieved by building a house of one or two large rooms instead of five, six or seven tiny ones."

Common errors of home decoration, says Jerry Pycha, are "the improper use of figured patterns in draperies, wallpapers and carpeting which unbalance the size of the room. All figures and patterns should be more or less in proportion to the size of the room. Lamps are overabundant; there are usually too much furniture, which is also too large."

**OPPOSE TOO MUCH COLOR**  
Art director Rudi Wold is opposed to too much color in a room in furniture or in wall-paper. He says, "The walls should have an interior created in color to warm it."

**So They Say**  
We are determined that surverve propaganda, government pressure or political censorship will never undermine a free screen.—Eric Johnston, President of Association of Motion Picture Producers.

**★ THOUGHTS**  
Ask, and it shall be given unto you; seek, and ye shall find; knock, and it shall be opened unto you.—Matthews 7:7.  
They never sought in vain that sought the Lord aright.—Robert Burns.

## OIL TO RUSSIA

by Upton Close

A few miles from where I am writing this article four tankers flying the hammer and sickle are filling their maws with American oil and high test aviation gasoline. Six more Red-banner tankers are on their way across the Pacific to get their fill. (Remember when we filled Japanese tankers?—But at least we were not short ourselves then!)

The fuel for Russian airplanes, yet Secretary of Interior Krug has told us twice within the month that our own oil stocks are so low some of us may have to go without heat in our homes next winter and some factories may have to shut down. West coast stocks are so low that at least two oil companies, Shell and General Petroleum, have issued restrictive orders limiting our own ships to "absolute minimum needs."

The foreign tankers were made in America and loaned to the Soviets, who for a year have ignored our requests to return them to us. Strikes by Communist-dominated unions, the Harry Bridges group, have tied up all but six American ships in the great San Pedro harbor, but no difficulty is experienced in getting the Communist vessels loaded and serviced.

The business of building up a threatening foreign war machine with American resources is becoming familiar. We helped the Third Reich with U. S. billions on loan, then later at huge expense battered down the German war machine. We helped the Japanese army and navy smash their way into all, then smothered them with our military might. We now continue to fatten the Red army which we raised to power with twelve billions in lend-lease.

What is wrong in—or with—Washington? Our foreign relations are as befuddled as the domestic

Stanley Felsher of Warner Bros. "The average person," he says, "strives for a formal and symmetrical arrangement of furniture which is not suited to rooms today." He adds: "Oil paint with a shiny surface should never be used in a room."

**SUNLIGHT PLAYS A PART**  
The room color, advises Rudolph Sternad of Columbia, should be planned in relation to the amount of sunlight. He says:

"Rooms with full sunlight can use strong color, light or dark. Rooms with reflected sunlight should use sunlight illusion colors as yellow. The rooms should be planned to harmonize in color to the amount of light that comes from one room to another will not clash.

Perry Ferguson of the Goldwyn studio gives a simple trick to make any room look larger: "Just paint the ceiling a dark color and paint the walls an off-white.

"A mistake that often is made," he adds, "is the mis-use of Venetian blinds. Many people err, for instance, in using Venetian blinds when their homes or apartments are done in Early American motif."

"one should always remember that walls are a background only for the finished room," warns George Van Marter. "When a room has a large amount of architectural detail, wood paneling, bay windows, shelves, etc., there are enough light and shade movements to the eye, so that the walls should be painted a neutral color and should not have great contrasts or busy patterns in wall-paper. On the other hand, when a room is simple, then the walls should have an interior created in color to warm it."

**RECORDS** Labor leaders doubt whether they could swing a majority of their membership to a Republican presidential nominee, although that upset is not beyond possibility.

**PROTEST** Labor's defection and disillusionment over Mr. Truman will hurt him negatively rather than positively. The workmen, according to their representatives, will not vote for or against him.

**AIM** Labor's principal political aim next year will be to potshot for the election of Senator McNamara, a labor sympathizer, and soften the Labor Management Relations Act of 1947.

**As much as \$250,000,000** of this paper money. The New Hampshire senator previously had indicated that as much as \$900,000,000 of bogus marks may have been manufactured by Stalin's agents.

**Of the same brand of logic** is the statement made by Secretary of War Patterson that we are not losing any money by redeeming the marks from the Reds because we turn round and spend them back with the German people for goods. Is it possible that the Secretary of War of the greatest nation in history does not understand that we have then to redeem the marks again? Peterson-Patterson logic, indeed!

**An assistant federal district attorney** has told me that Henry Morgenthau, Jr., in giving away our money dies, violated at least two sections of the United States Code, both of which violations are criminal offenses carrying long prison terms and heavy fines. One violation was the act of possessing money of the Soviet Union.

**Morgenthau had no more authority** to turn over the dies to his Communist friends than has any other American citizen. The least the government might do would be to stop redeeming the Soviet-made marks and prosecute the criminal, demanding reparations to the extent of the Morgenthau fortune.

**What is wrong in—or with—Washington?** Our foreign relations are as befuddled as the domestic

of course my wife isn't home—that's the parrot we got with a News Want Ad that you hear!

# NATIONAL WHIRLIGIG

**HARTLEY-TAFT** Enactment of the Hartley-Taft labor law over President Truman's stinging but futile veto will intensify rather than lessen or prevent political activity on the part of the nation's 15,000,000 unionized men and women.

**PARADOXICAL** Organized labor, under the program tentatively formulated by its leaders here, would become the most cohesive and financially political force in the United States. They would be outnumbered by the veterans and their families, but there is not the same unanimity among the ex-G.I.s and doughboys that the untried statute has engendered among the nation's working people.

**WOETHLESS** The bulk of the so-called labor vote will not flock to a third party organized and headed by Henry A. Wallace, although reportedly his passion for publicity and political preferment.

**VESTED INTERESTS** If you were to combine the populations of Nevada, Wyoming, Idaho and Utah, you would still not have as many people as own the American Telephone and Telegraph Company. A city composed of the 700,000 AT&T stockholders would be the tenth largest in the country.

**WERE ALL DEPENDENT** We think of General Motors, biggest automobile manufacturer, as having a lot of employees. Yet, except for a brief period at the peak of armament work during the war, General Motors stockholders have outnumbered employees by 17 years.

### Gracie Reports

By GRACIE ALLEN

Well, I see where they have been experimenting at a Chicago zoo with one-way glass which enables visitors to look at the animals without the animals being able to see them. It seems that a lot of zoo inmates are shy and become embarrassed when they find strangers giving them the once over — except the monkeys, which zoo officials say seem to get a lot of pleasure from observing people.

I can well believe this and I have a pretty good idea of what the monkeys are thinking, too!

It seems to me this one-way glass would be a blessing in our own homes. Imagine being able to see bill collectors and book salesmen approaching without their being able to see that you're home!

George asked how much this kind of glass would cost and then asked when my mother was planning to pay her next visit. I wonder if the questions had any connection?

### Texas Today

By JACK RUTLEDGE  
Associated Press Staff

What is to become of feminine vanity if men no longer may gaze at an attractive woman, the Denton Record Chronicle wants to know.

It all came up when two men were fined \$38 for violating a newly discovered city ordinance against mashing.

The anti-wolf ordinance, says city attorney T. B. Davis, is perfectly valid and may be prosecuted when a young woman or woman allege embarrassment as the result of attentions by an unknown man or men.

Davis said these unwanted attentions can be whistling, talking, attempting to make a pick-up, or simply the manner in which a young man may look at a woman.

But, says assistant building inspector J. M. Smith of Dallas, one can be too good. He was referring to grammar.

"To whom do you wish to speak?" he asked a man calling the office by phone.

"I must have the wrong number," said the caller. "I wanted the building inspector's office."

He hung up.

Even truth in reporting sometimes causes kickbacks.

Remember the runaway boxcar from Plainview? The one that was blown 37 miles down the track by a storm? The unusual incident was duly reported by H. S. Hilburn of the Plainview Herald, but a lot of people didn't believe it.

Just a Texas tall tale, was the general attitude. A Woolworth official in Denver even wrote:

"Why don't you put a saddle on the thing?"

You may not believe this one either: A Dallas hen laid an egg with a Buffalo nickel in the middle of it. Mrs. A. A. Gray bought the egg from a neighbor, paid four cents for it, figures she got her money's worth.

### PRISCILLA'S POP

### Legal Records

**Marriage Licenses**  
County Clerk Charlie Thut yesterday granted marriage licenses to the following couples:  
James Vernon Barker and Patsey Rayona Egelson.  
Walter Wendell Simms and Nina Lea McVey.

**Realty Transfers**  
Minnie Walker to F. W. Hanson and wife, Fay Hanson; All of lots numbered 51, 52, and 53 situated in Block 21 of the Wilcox addition of the city of Pampa.

**Building Permits**  
John E. Hill was given a permit to remodel the inside and part of the outside of the City Drug Store and replace old sidewalk at 300 W. Foster St.

Charles B. Cook was issued a permit to construct an additional room to the building situated at 1301 Christine St.

A pound of English walnuts in the shell yields a little more than a cup and a half of halved meats.

### Varied Cases Heard In 31st District Court

District Judge Lewis M. Goodrich this morning in 31st District Court approved one agreed judgment, granted one divorce, continued another and approved one removal of disabilities. One Royalty suit was dismissed.

The agreed judgment was approved in favor of J. E. Yoder, plaintiff, against the Texas Indemnity Company, defendant. Yoder was awarded a settlement of \$300.

The petition of C. R. Howard, Jr., for removal of legal disabilities was granted by the Court.

On grounds of cruelty, the Court granted a divorce to Thomas W. Barnes from his wife, Ruby M. Barnes. The plaintiff's petition stated that they were married in October, 1933, and separated in April of 1947.

The divorce suit of Eddie Maude Shannon versus W. B. Shannon was continued for further hearing.

A royalty suit against the Phillips Petroleum Company was dismissed following its settlement out of Court. W. S. Willis and wife, Mary B. Willis, were the plaintiffs.

### Legislature

(Continued From Page 1)

intent of the Legislature to permit any such huge increase in the indebtedness of local government.

Previous legislation provided for development and administration of a hospital planning and construction program in Texas to afford adequate hospital and public health centers, the message added.

Jester said the plan for taking the state deaf school from under the jurisdiction of the board of control "would be an undesirable backward step" to old system under which all eleemosynary institutions were operated by separate boards.

He said if there were any conditions at the deaf school that needed correcting, the board of control could be depended upon "to take such action . . . as may be indicated."

Jester signed the tax remission bill extension, saying that all of the districts were not in need of such funds to meet their obligations, but they were included in the same bill with districts which did need such remissions.

"This is a very unfortunate situation," he said, "but there seems to be nothing to do but approve the measure as written."

Seven other measures finally passed by the 50th Legislature, that never reached the Governor's desk, died automatically at midnight.

They were the so-called "one shot" appropriations measure totaling around four and a half million dollars, red-tagged by the comptroller because no funds were in hand or in sight to pay for them.

Attorney General Frier Daniel ruled that unless the comptroller found the money to pay for them before midnight, the measures were dead. The comptroller did not find the money.

### Tourney Favorites Live Up to Notices

ANN ARBOR, Mich.—(AP)—Pre-tournament favorites lived up to their advance notices today as 32 survivors of first round match play resumed their bid for the National Collegiate Athletic Association Golf Championship here.

Virtually all the top ranking entries were still in the running as the second and third rounds got underway today.

Binghamton beat Scranton in an Eastern League ball game in May, 1945, 11 to 4, yet got only one hit.

### AT PRE-WAR PRICE WEST BEND Luxe aluminum GENUINE WATERLESS COOKWARE

**COOK'S RAPIDLY SAVES VITAMINS**

Triple-thick West Bend De Luxe aluminum cooks rapidly and evenly with little or no water over LOW fuel. Retains more of the delicious flavors and original vitamins in every food you prepare.

### Leaves From a Correspondent's Life Note Book

By HAL BOYLE

MARE ISLAND, Calif.—(AP)—It pays to rebuild war-damaged veterans—to make part-men whole again.

The Navy has figures to prove it, based on 2,000 amputees who have passed through its rehabilitation centers at the Mare Island Navy yard here for veterans who lost arms and legs in combat.

"We have found that 90 percent of the men trained here to use artificial arms and legs are employed and have made a readjustment to civilian life," said Commander Thomas J. Carty of Milwaukee, Wis., officer in charge of the amputee center.

"About five percent are having difficulties and require further hospital treatment. The remaining five percent are failures—men who simply have given up."

Carty said that each failure would represent a lifetime cost to the government of \$70,000 to \$100,000.

"So it has proved well worth while to the taxpayer," he said, "to spend the few thousand dollars necessary to rehabilitate the average amputee and restore him to a productive place in civilian life."

"Aside from the financial aspect, of course, this training gives him back his life—his self-respect. And our boys are doing well in every walk of life."

A former Marine Major who lost a leg in air combat is running an air line in Southern California. A lesser Marine Sergeant is studying agriculture in a Texas college. A Marine Private who lost a leg above the knee is a bulldozer. They are typical of the amputee school graduates who are making good.

### Military

(Continued From Page 1)

no announcement was made in that direction.

The Board said that most freshmen entering A. and M. next year will be quartered at the college annex at Bryan Air Field.

Treatment of freshmen was one of the controversial subjects involved in the recent legislative investigation and hearing practices were bitterly criticized by a majority of the state investigating committee. Normally freshmen are quartered among upper classmen, which provides more housing opportunities, however, the Board, in its announcement, did not mention housing.

Another action of the directors was to authorize college authorities to sign a contract for acquisition of the 15,000-acre Bluebonnet Ordnance plant at McGregor for use as an experimental tract. The area is being produced through the War Assets Administration as surplus property.

The next Board meeting will be in Lufkin in August.

### Chinese Loan

(Continued From Page 1)

ress. Marshal Li had a falling out with the Nationalist government and then made his peace with the Communists.

But that's only part of the story. Famine has been taking a toll of millions in various parts of the country. The black marketeers are perched like carrion crows on the back of the stricken nation, and a crazy inflation has carried the national currency to the staggering figure of 33,000 Chinese dollars (yuan) to the American dollar, whereas the yuan normally is about fifty cents in U. S. money.

What Washington now has to decide is would it do any good to dump more millions of dollars or

either aid into such a morass which instantly swallows everything that touches it. That's a tough question to answer.

The Export-Import Bank in Washington has a loan of \$500,000, 600 conditionally earmarked for China, but the time limit on that will expire June 30 unless the United States government implements the loan. Secretary of State Marshall expressed the view Wednesday that the end of the month probably would be allowed to pass without action.

### CIQ Meeting

(Continued From Page 1)

despite the enactment of the Taft-Hartley law over his veto, he will do all in his power to make sure the act is well and faithfully administered.

In that connection, Murray was expected to recommend to the 49 union heads here represented on his executive board that they seek immediate meetings with management representatives in their industries to discuss common obligations and problems under the law.

Mr. Truman put it this way: "Industrial strife at this critical time can result only in economic dislocation injurious to all of us. If it should reach serious proportions it would threaten the stability of our economy and endanger the peace of the world."

"We cannot afford such a result."

### Truman

(Continued From Page 1)

fair play. Neither management nor labor will achieve any long-range benefit by seeking to use the provision of this act to gain unfair advantages or to sustain arbitrary attitudes.

"It is in the interest of both to maintain steady production at fair wages while the effect of this new act is being tested by experience. Industrial strife at this critical time can result only in economic dislocation injurious to all of us. It should reach serious proportions. It would threaten the stability of our economy and endanger the peace of the world."
