

Young New Zealand Boy, in U. S. to See Texas, Is Seeking Harvest Job

PERRYTON—(AP)—Eighteen-year-old Roy Laake came a long way to work in the harvest fields of the Lone Star State... He left home about six months ago and headed for the United States because "I wanted to see Texas."

RAIN CAUSES HEAVY WHEAT DAMAGE—From six to nine inches of rain have been falling over two square miles of wheat farms between Mount Hope and Haven, Kans., since wheat values at more than a million dollars. Typical of the farmhouses in the flooded area is this one, three miles north of Mount Hope, surrounded by inundated wheat fields.

Rain and Hail Shatter Dreams of Hansford County Wheat Farmers

Rain, the wild joker in the Panhandle wheat farmers' gamble for existence and sometimes fortune, shattered—as it had built—Hansford County farmers' dreams of the heaviest crop in many years, last night.

Iowa, Nebraska Expecting New Floods Today

OMAHA—(AP)—Residents of Iowa and Nebraska primed themselves for new floods today, in the wake of widespread rain.

Local Patrolmen Capture Escapees From Oklahoma

Market Briefs

WALL STREET STOCKS
NEW YORK, June 24—(AP)—One of the sharpest reactions of the past month joined the stock market today as general profit cashing followed widespread union dissension which developed in the wake of the Senate's overruling of the labor bill veto.

Table with columns: Item, Price, Change. Includes Rubber, Steel, Wheat, Corn, Soybeans, etc.

CHICAGO GRAIN
CHICAGO, June 24—(AP)—Corn sold at a record high on the board of trade today, climbing to \$2.01, before profit cashing checked the advance.

NEW YORK STOCKS
NEW YORK, June 24—(AP)—The market opened with a record high and ended up 1/2 to 1/4 off a point, with the S&P 500 index up 1/2 to 1/4 and the Dow Jones industrial average up 1/2 to 1/4.

CHICAGO PRODUCE
CHICAGO, June 24—(AP)—(SUNDAY) Potatoes: Atchafalaya 97, on track WEDV total 1/2, shipments 731; supplies moderate; demand good; market about steady.

NEW ORLEANS SPOT COTTON
NEW ORLEANS, June 24—(AP)—Spot cotton closed steady, \$1.2 a bale lower. Sales 45. Low middling 32.25, middling 37.25, good middling 37.85, receipts 2,187, stock 8,911.

The Tollivers

FATHER waited until Weyman had closed the door. "No, it wasn't his birthday. Louise, you tell them."

"It was his wedding day," I said. "He and Amy were married in Birmingham and are now on their way to New York on their honeymoon."

"Where is Amy? ... Did you have a nice day? ... Did Nelson get off all right? ... Would you like a drink? ... We were asked practically simultaneously, Father said he believed he would like a drink.

"I added: 'Nelson blew us to champagne. The four of us drank two whole bottles of champagne. I'm not sober yet.'"

"How perfect darling of Nelson! Sam, why don't we ever have champagne? You know I'm crazy about it. But I suppose it costs too much."

"Well, champagne usually means a celebration or something," Sam said good-naturedly. "Nelson doesn't have to wait for a special occasion."

"You're wrong there," Father said. "This was an extra-special occasion."

"Sam was mixing Father's drink from a tray Weyman had brought in. He held it up to the light. 'Not his birthday, is it?'"

"No, sir," said Weyman from the door. "His birthday's in July."

ton futures advanced here today on trade buying and shorts covering. Closing prices were 60 cents to 95 cents a bale higher.

WELL-KEYED
At Balpate Inn, Estes Park, Colo., named for Earl Perry Rogers' "Seven Keys to Baldpate," the walls and ceiling are hung with more than 10,000 keys of historical interest, mailed from former guests, from all over the world.

In Hollywood

MRS. TOLLIVER and Annabelle still expected Amy back that evening. Someone had to break the news to them. Father thought it was Sam's business, and Sam said they didn't like him, but they did like Father. So Father and I very reluctantly crossed the street and knocked at Mrs. Tolliver's side door.

"I've news for you, good news," His courage failed him. He added lamely: "Nelson has bought the house from Sam, and you won't have to move."

"Well, this is a surprise," Mrs. Tolliver said, a teacup in one hand, a crumpled newspaper in the other. Tears came to her tired eyes. "This is my home, I have always felt at home here. If Nelson lets us stay on ... You are sure he will?"

"Positive," "Where is Amy? Why didn't Amy tell us herself?" Annabelle asked sharply.

"Well, that's another surprise. Amy is on her way to New York. She and Nelson were married this afternoon. They told us about it just before the ceremony. They thought it was better to do it this way, without any fuss."

"Amy and Nelson! It isn't possible," Annabelle, who had been standing in front of the fireplace, took a plate off the table and deliberately dropped it on the hearthstone. It broke into a hundred pieces.

"There goes my heart," she said. And began to laugh. She laughed and laughed. Then she ran from the room.

LE DE FRANCE BEING RECONVERTED
ST. NAZAIRE—(AP)—The Ile de France, queen of French liners with the passing of the Normandy, is being reconverted for luxury service in the North Atlantic after delivering its last load of soldiers to France's embattled empire.

The artichoke is believed to be a cousin of the thistle family.

There's no "three-cornered stool" in the dairy business today. Families used to "keep a cow" for the babies, but cows bring in BIG money today for many folks in our area. It's truly a "land of milk and money."

We have so much confidence in the dairy industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to home, farm and industry and better living—electrically—to everyone!

Entries in Women's National AAU Track, Field Meet Are Pouring In

SAN ANTONIO—(AP)—Entries in the Women's National AAU Track and Field meet poured in today, with 100 mark today with prospects that 150 feminine athletes seeking to become Babe Didrikson will be ready for the starter's gun Friday night.

There will be two divisions with many entries in the junior class as the senior. The 50-meter dash alone has drawn 33 and 32 contestants respectively.

Tuskegee Institute of Alabama, where Alice Coachman won gold, has the most entries with 17. San Antonio has 12 and the Polish Olympic Women's Club of Cleveland, sparked by veteran Stella Walsh, has 11.

Alice Coachman, defending champion in the 50 and 100-meter dashes and the high jump, now is competing for Albany State College of Georgia.

The junior entries will, of course, be contestants who never have won junior titles, thus there will be no

defending champions in that class, but the senior class, scheduled to be run off Saturday night, has 1946 winners in all events back for another try.

Included are Stella Walsh, 200-meter dash and broad jump; Nancy Copperthwaite of New York, 80-meter hurdles; Marion Twining of Philadelphia, baseball throw; Dorothy Dodson of Chicago, javelin, discus and shot, and the Laurel Club 400-meter relay team of Toronto, Canada. There are 25 relay teams entered in both divisions.

There will be two divisions with girls. Texas: German-Athletic Club of Brooklyn; Union High of Lamesa, Texas; Philadelphia Turners; Florioville playgrounds of Chicago; Brookhaven, Miss.; and I. State College of Nashville, Tenn.; Phoenix, Ariz.; Bronte, Texas. High Texas; Ozark Women's Sports Club, St. Louis; Army Air Corps, Columbia, Ohio; Lampasas, Texas, High School; Bracketville, Texas, High School, and Dallas.

Jimmy Boyle Underwent Surgery Following Robinson Fight; Condition Is Still Critical

CLEVELAND—(AP)—Jimmy Boyle of Los Angeles, who was knocked out last night in an attempt to wrest the welterweight championship from Ray (Sugar) Robinson, was operated upon at Charity Hospital early today by Dr. Spencer Braden, noted Cleveland brain specialist.

Hospital attendants said his condition remained critical. They did not disclose what type of operation was performed upon Boyle, but Dr. Braden previously stated that the injury might possibly be a blood clot or the brain.

The stricken fighter was still unconscious and had received the last rites of the Catholic Church.

Boyle was carried from the arena ring on a stretcher and rushed to the hospital after being felled by a left hook in the eighth round of a scheduled 15-round championship bout before 11,275 which paid a gross gate of \$73,340.

After Robinson delivered the blow, Doyle fell flat on his back, unconscious. Referee Jackie Davis started the count but the bell ending the round sounded when Davis' toll reached nine.

Dr. Arthur Hagedorn, Cleveland Boxing Commission physician, and Doyle's handlers were unable to revive him.

It was the second time that Doyle had been carried from the local ring and taken to a hospital. He suffered a brain concussion March 11 a year ago when middleweight Artie Levine came from behind to belt Jimmy to the canvas. On the way down, Doyle struck his head and was out of action for nine months. He started his comeback last December and had won five bouts since that time.

Under rules of the Cleveland Boxing Commission, the fight officially went into the record books as a technical knockout in the eighth round.

Olhaverly Entered in Hollywood Gold Cup

INGLEWOOD, Calif.—(NEA)—Seventy-one horses were nominated for the eighth running of the \$100,000 added Hollywood Gold Cup at Hollywood Park, Calif., today.

Among them are Pan De Azucar's white Olhaverly and Ethel Hill's War Knight, winners of the \$100,000 Santa Anita Handicap in 1946 and '46, respectively, and Fred Astaire's Triplemint and Broilite Farm's Challenge Me, Gold Cup winners the same years. Neil S. McCarthy's Busher, Horse of the Year in '45, has been retired to stud.

Weights are to be announced July 5.

Babe Ruth Is Ordered To Return to Hospital

NEW YORK—(AP)—Babe Ruth is back in the hospital on the advice of his physicians for further treatment and "to take things easy for a few weeks."

"I even get tired taking a walk around the living room," the Babe was quoted by friends as saying as he entered the hospital yesterday. "I can't seem to gain any strength," he said, "so I guess I'll just get some rest here."

Fans Wish Dempsey 'Happy Birthday'

LOS ANGELES—(AP)—Ten thousand light fans sang "Happy Birthday to You" to ex-heavyweight champion Jack Dempsey at the Olympic Auditorium last night.

Dempsey, blushing and obviously flustered at the booming chorus, was presented by Al Jolson.

Jolson announced that it was Jack's 37th birthday. Dempsey retorted that he was only 32.

In reality, it was the old champ's 52nd birthday, and a cake with lighted candles was presented in the ring.

Town Plans Welcome For Parents of Quads

BAKER, Mont.—(AP)—This Southwestern Montana town is preparing a homecoming celebration for Mr. and Mrs. Edward Randash, parents of quadruplets, as soon as the mother and three surviving babies can leave a Miles City hospital.

Donna Mae Randash, smallest of the quads, died Monday night.

Baker and Miles City have been almost as excited as the Randash couple since the quads were born last Saturday. Residents have contributed several thousand dollars—including three \$100 bills—for the Randash family.

Electric irons, washing machines, milk delivery for one year and many other donations have been received by the Baker garageman and beauty operator.

The Fallon County Weekly Times in Baker had to wait until Thursday to report the story, but the newspaper went overboard then. It devoted its front page to pictures and stories of the quads and their parents. The main story started: "Just by doing what comes naturally, Ed Randash of Baker has put Baker and Miles City on the map."

New buildings at Sydney, Australia, are limited to 150 feet in height.

Pampa News, Wednesday, June 25, 1947

Spahn Leads Braves to 9-6 Win Over St. Louis

WINNER—Charles Coe, 23-year-old Oklahoma university junior from Ardmore, Okla., holds his trophy after winning the Trans-Mississippi golf title in Wichita, Kans. (NEA Telephone).

Pitchers Warren Mr. Left and Johnny Sain, Mr. Right of the pennant-starved Boston Braves threatened today to eclipse the modern National League record number of victories hung up by two pitchers of the same club in one season.

With 20 wins already in bag, Spahn and Sain, upon whom Braves followers are depending to bring them their first flag in 33 years, stand a fighting chance to better the mark of 52 garnered by Bucky Walters and Paul Derringer of the 1939 Cincinnati Reds. Walters won 27 and Derringer 25 that pennant winning year.

The modern Major League standard is held by Hal Newhouser and Paul (Dizzy) Trout of the 1944 Detroit Tigers. They copped 56 that year.

Spahn, a 25-year-old sophomore from Buffalo, N. Y., nabbed his 11th triumph against two defeats last night when he pitched the Braves to a 9-6 victory over the climbing Cardinals in St. Louis. He allowed only eight hits, but three of them were home runs to account for five St. Louis runs.

In pitching his ninth complete game of the campaign, Spahn tied his teammate Sain in that department. Only Earl Blackwell (11) of the Reds and Harry Brecheen (11) of the Cards have gone the route more often. It was the lean left-hander's third win in four decisions against the Redbirds and tied him with Blackwell for most wins in the Majors.

Sain, who got off to a below-par start for him by breaking even in his first six decisions, has won his last four games to boast a 9-4 win and lost record.

Spahn's victory enabled the Braves to retain their one game lead over the Brooklyn Dodgers in the torrid National League pennant race. The Dodgers nipped the Pirates 4-2 in their game at Pittsburgh. The New York Giants projected their third place hold against the Cubs by slugging the Bruins 11-0 in a day game in Chicago. The Reds edged up on the fifth place Cardinals by knocking off the Philadelphia Phils 4-2 in a night game at Cincinnati.

In the only American League game last night, the Chicago White Sox made it 10-11 with Washington by blanking the Senators 3-0 and the St. Louis Browns clipped the Athletics in Philadelphia 12-3.

A double by Frank McCormick with the bases loaded which cleared the sacks in the ninth inning actually provided the winning markers for the Braves. The Braves were enjoying a 3-3 edge up to then, but McCormick's blow highlighted the run rally to give Boston a 9-3 lead. The Cards came back with three runs in their half to fall short. Stan Musial, Joe Medwick and Ervin Dusak clubbed the four-baggers for the Cards.

Aided by Pee Wee Reese's eighth home run of the season with one out in the second, Brooklyn's Ralph Branca registered his ninth win against six reverses with a seven hit performance against the cellar-dwelling Pirates. Jackie Robinson stole home for the Brooks in the fifth.

Sent in as a desperation move by Manager Mel Ott, Clarence (Hooks) Ilt, recently acquired Southpaw from the St. Louis Browns, came through with a brilliant two-hit performance against the Pirates.

There are, in our opinion, few people, rabid sport fans or just sane people, who wouldn't really get a lot of pleasure out of seeing these boys at work and hearing the plans they have formulated for their racers.

If the plans amaze you as they did us, you'll be more than a little embarrassed, when you find the detail the boy has gone into in planning his racer, by how little you understand about the goal he's trying to attain.

One youngster went in complete detail to us to relate the fashioning of what he believes is the superior brake. The reason that he believes his brake is the best is simply due to the fact that it stops his racer quickly and, because of clever construction, there is a very little brake surface exposure which would tend to offer air resistance and thereby slow down his car.

The Pampa Soap Box Derby is without question one of the most beneficial youth projects here as are comparable Derby Races throughout the nation. The local running will be held July 20, and if this year's attendance is as it has been in the past, most of Pampa will be on hand to witness the race.

And everybody will probably have a good time, but we are sure that most of you are overlooking something you would also enjoy, if you fall to go out and see some of these boys build their racers. There is probably a boy in your neighborhood building one.

We're willing to bet that you'll enjoy seeing his work and enthusiasm just as much as he'll be proud to have you come by and witness his handiwork.

Platinum is found in iron meteorites, but in very small quantities.

Sports Hang Up 5-1 Victory Over Fort Worth Cats

(By The Associated Press)
Shreveport and Fort Worth are battling second place in the Texas League around like a ping pong ball.

Shreveport traded places with Fort Worth again last night, the third straight that the position has changed hands. And Fort Worth was getting uncomfortably close to fourth place Dallas.

The Sports regained the runner-up spot with a 5-1 decision over Fort Worth. Dallas continued to press forward by blanking Beaumont, 8-0, while the League-leading Houston Buffs bowed again to Oklahoma City, 7-3 in ten innings. Tulsa swept its series with San Antonio, 13-7.

Clarence Gann held Fort Worth to four hits for his ninth victory of the year. The Sports pushed over two runs in the sixth and three more in the seventh. The Cats picked up a run in the final inning.

Al Rosen, the League's leading batter, singled in the tenth inning. Tulsa romped home with Oklahoma City's payoff run on Jess Newman's double. Al Pappi yielded 12 hits to the Indians, but came through with a home run and two singles for three of Houston's nine.

In blanking the Beaumont Exporters Dallas figured in its fourth consecutive shutout game. Three of them have gone on the win side of the Reds' ledger.

An eight-run spree in the last of the third inning sank any hopes San Antonio had of stopping Tulsa.

Thirteen Oiler batters went to the plate this inning and the surge broke a 3-3 deadlock.

The Missions collected four home runs—by Jimmy Grant, Pete Lewis, Tom Jordan and Bill Seinoth.

There is a general switch in playing sites today. Dallas starts a nine-day road trip by stopping off at Fort Worth, Oklahoma City moves over to Tulsa, and Shreveport drops down to San Antonio. The two South Texas nines—Houston and Beaumont get together at the latter's park.

Sports Round-Up

By HUGH FULLERTON, Jr.
DETROIT—(AP)—When a golfer can amaze Bryon "Mr. Golf" Nelson, he really must be good. And that's just what Jim Ferrier did on more than one occasion yesterday.

There is a general switch in playing sites today. Dallas starts a nine-day road trip by stopping off at Fort Worth, Oklahoma City moves over to Tulsa, and Shreveport drops down to San Antonio. The two South Texas nines—Houston and Beaumont get together at the latter's park.

DETROIT—(AP)—Tail stoop-shouldered Jim Ferrier, Australian-born chip and putt master from San Francisco, ruled as the match-king of professional golf today after whipping home-bred Melvin (Chick) Harbert of Northville, Mich., 2 and 1 in the "battle of Plum Hollow" for the American PGA championship.

Ferrier, who hadn't won a major national championship since he left Australia in 1939 after four triumphs in the Australian amateur and two in the Australian Open, zoomed into fourth place in the pro' 1947 money parade by pocketing the \$3,500 top prize here for his first tournament victory of the year.

In running his tournament earnings to \$9,668.16 since the first of the year, the gum-chewing, club-wagging Ferrier played approximately 12 rounds in a week over Plum Hollow Golf Club's long, tricky, 6,922 yard layout at an average of 27 strokes under par for 204 holes.

If anybody ever won a championship with one club Ferrier did it with his putter. He dropped in a 60-foot putt on the 36th green to carry his third round match with Claude Harmon into extra holes, winning on the 37th, and "putted" Harbert right out of the championship in yesterday's final.

Ferrier required just 54 putts for the 35 holes his match with Harbert went dropping six of them at distances ranging from 14 to 35 feet. Chick, meanwhile, missed a total of eight putts of seven feet or less in the final five of them to win and three to tie, and used 62 putts during the day's doings.

"He really murdered me with that 35-footer on the 36th hole," Harbert said after the match. "We were all square at the time and I honestly was looking for him to take three to get in when he slapped it into the back of the cup for a deuce I never could catch him after that."

LEXINGTON, Ky.—The highest thoroughbred stud fee this year was that of imported Challenger II and Mahmoud—\$2500.

Hunters Can Start Oiling Up Their Guns, Conditions Favor Plentiful Duck Crop

By NEA Service
WINNIPEG—(NEA)—Duck hunters can start now oiling up their guns. This year's season should give them some of the best hunting in recent years.

Authority for this information is Bert W. Cartwright, Chief Naturalist for Ducks Unlimited, a non-profit, non-political organization of conservationists and sportsmen.

Cartwright and his assistants have just finished an extensive survey of Canadian duck breeding grounds. They traveled by air, boat, automobile, and, when nothing else would get them into the breeding grounds, by foot. They covered, in all, thousands of miles of waterfowl breeding areas in Alberta, Saskatchewan and Manitoba in Canada, where most of the ducks fly for annual nesting.

On the basis of this, Cartwright predicts that there is a fine hunting season ahead. He says as many, or more, ducks returned to the breeding grounds this year. Water conditions were excellent, and bigger and better than average broods can be expected.

Recent heavy rains removed danger of droughts for the present. Cartwright found. Winter estimates of duck prospects had been a little pessimistic but the situation is changed now.

BREEDING INCREASED
"In Southern Alberta and Southern Saskatchewan the duck breeding population is greatly increased over last year," Cartwright says. "In Central Alberta the breeding stock is variable, but about the same as last year."

"In Southern Manitoba the numbers of these breeders is low but in

Pintails shortly out of nest in the Brooks, Alberta, area.

the balance of that province they are about the same as a year ago. The duck population is thin in the giant Athabasca Delta to the north in Alberta but natives say this is not unusual for this time of year.

"The population of ducks is moderately down in the Central Lakes area. In the region of The Pas in Central Manitoba, where the spring flight was about the same as last year, the breeding population is down. Whereas birds have been

reported fewer in the northlands a potentially satisfactory production in those areas has been indicated by the heavy migration of birds through the Prince Albert area, gateway to the North. There are more ducks on the prairies than last year and prospects of a heavy duck crop are good. In fact, as many or more ducks than last year have returned to breeding areas."

Hunting dates haven't been set yet.

Ferrier Is Match King After Victory In American PGA Championship Play

DETROIT—(AP)—Tail stoop-shouldered Jim Ferrier, Australian-born chip and putt master from San Francisco, ruled as the match-king of professional golf today after whipping home-bred Melvin (Chick) Harbert of Northville, Mich., 2 and 1 in the "battle of Plum Hollow" for the American PGA championship.

Ferrier, who hadn't won a major national championship since he left Australia in 1939 after four triumphs in the Australian amateur and two in the Australian Open, zoomed into fourth place in the pro' 1947 money parade by pocketing the \$3,500 top prize here for his first tournament victory of the year.

In running his tournament earnings to \$9,668.16 since the first of the year, the gum-chewing, club-wagging Ferrier played approximately 12 rounds in a week over Plum Hollow Golf Club's long, tricky, 6,922 yard layout at an average of 27 strokes under par for 204 holes.

If anybody ever won a championship with one club Ferrier did it with his putter. He dropped in a 60-foot putt on the 36th green to carry his third round match with Claude Harmon into extra holes, winning on the 37th, and "putted" Harbert right out of the championship in yesterday's final.

Ferrier required just 54 putts for the 35 holes his match with Harbert went dropping six of them at distances ranging from 14 to 35 feet. Chick, meanwhile, missed a total of eight putts of seven feet or less in the final five of them to win and three to tie, and used 62 putts during the day's doings.

Panhandle News

PANHANDLE—(Special)—Mrs. Earl Cox returned Sunday morning from Wichita, Kan., where she visited her sister-in-law, Mrs. Tom Henry and family.

Miss Julia Ingram spent the weekend in Elk City, Okla.

Mr. and Mrs. A. J. Weiser visited Mrs. W. L. Boyles of Pampa, who is a surgical patient in North Plains Hospital in Borger, on Saturday evening.

Miss Mary June Held of Amarillo spent the weekend in the home of her parents, Mr. and Mrs. L. E. Held.

Mr. and Mrs. Harold Biggs and children, Jean and Jerry of Borger, spent the weekend visiting their parents, Mr. and Mrs. L. H. O'Neal and Mr. and Mrs. V. D. Biggs. They report, Jimmy Biggs, who is hospitalized in Borger for injuries in a motorcycle accident to be improving slowly.

Mr. and Mrs. George Taylor of Pampa were Sunday visitors in the home of her sisters, Mrs. Opal Cleek and Mrs. Nina Garhart.

Mr. and Mrs. Sally Bell of Borger were visitors over the weekend in the home of her parents, Mr. and Mrs. G. O. Pruitt.

Mr. and Mrs. Homer Hedrick of Amarillo visited on Sunday with Mrs. Hedrick's parents, Mr. and Mrs. E. B. Porterfield.

Rev. E. D. Landreth, district superintendent of the Amarillo district of the Methodist church, preached to the local congregation on Sunday morning.

Mr. and Mrs. O. E. Grimes, Mr. and Mrs. O. C. Brannum, Joy and Patsy; Mr. and Mrs. Groves Burton, Earl and Billie Grace and Mrs. Opal Cleek were among the guests at the Hearse-Patton wedding in Canyon, recently.

Mrs. T. H. McKenzie is confined to her home by illness.

Guests in the home of Mr. and Mrs. Floy Ketchum on Sunday

Kansas to accompany his family home.

Biddy Mae Wigham, who has worked on the West Coast for the past year is visiting her parents, Mr. and Mrs. Jack Wigham and brother, Billy. Another guest in the Wigham home is Mrs. Wigham's mother, Mrs. C. E. Terry of Wellington.

Universal Training Hearings to Continue

WASHINGTON—(AP)—The House Armed Services Committee decided today to continue hearings on universal training legislation.

Despite the committee's action, however, there is an understanding among members that no bill will be approved this year.

The committee has held three hearings and has questioned mem-

bers of the President's special commission that recommended a universal training for American youths. It will hear other members Friday before recessing until July 7.

If Stomach Gas or Sour Food Taste Robs You of Sleep

Here's How You May Help, Whether You Eat 500 Pounds or 2000 Pounds of Food In a Year

You can't feel cheerful, be happy and sleep well if your stomach is always upset. As age advances the "old stomach" needs more help. The reason is this: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, uneasy, fretful, nervous condition, loss of appetite, overweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains very special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

Major League

(Continued from page 4)

shutout triumph against the Cubs. Ott made the nomination because he didn't want to overwork Dave Koslo, his only available starting pitcher. Koslo pitched four innings of relief ball last Sunday and was slated to go yesterday but Ott changed his mind the last minute and selected Iott who had arrived just before game time.

The 27-year-old native of Foster Grove, Mo., who in four games this season was clipped for 15 hits and walked 14 in only nine innings on the mound for the Browns, fanned eight and walked five while his new mates backed him with a 13-hit attack. That included homers by Walker Cooper and Willard Marshall. The four-baggers were the 13th of the season for both Cooper and Marshall and matched their highest previous output for a single Major League season.

The big three of the Giants—

Johnny Mize, Cooper and Marshall batted in eight runs and collected eight hits. Mize drove home two to increase his league leading total to 51; Marshall knocked in four to pull within one run of Mize and Cooper sent in two men to boost his output to 49, one behind Marshall.

Rookie Kent Peterson held the Phils to one hit in 8 1/3 innings, then fanned and needed help from Harry Gumbert to stem the Philadelphia. With two runs in and two men on base with one out, Gumbert came in, walked the first batter to load the bases, then retired the next two men to save the victory for Peterson. The Reds got seven hits off Ken Heintzelman but lunched four in the second to score all their runs. Peterson, himself drove in two runs with a single. The White Sox not only ended Walter Masterson's streak of 34 shutout innings by scoring two in the first frame, but behind Ed Lopat blanked the Nats with seven hits.

A double by Floyd Baker and a triple by Dave Philley gave goodbye to Masterson's scoreless skein.

Helped by a grand slam run by Junior Stephens, Ellis Kinder registered his fifth triumph without a defeat this season when he pitched the Browns to a 12-3 win over the A's. After yielding three runs in the first inning, Kinder shut the door on the Mackmen. Stephens batted in six runs with the homer and two singles.

Rain washed out the scheduled night games between Detroit and the Red Sox at Boston and Cleveland and the Yankees at New York.

Man Faces Second Trial for Murder

BROWNWOOD—(AP)—The second trial of Alvin H. Kennedy, charged with murder in the death of his brother-in-law, Rice Willey, was resumed here today after the state opened its case with testimony of three witnesses yesterday.

John Winstead, Waldrup store and postoffice operator, testified that Kennedy came into his store the day Willey was shot to death and said "I got Willey; call the law."

The shooting occurred Oct. 16, 1945, on a rural road in Waldrup community, near the Colorado river, where both men lived. Kennedy, 43-year-old stockman, pleaded self-defense. An appeals court reversed a life sentence assessed Kennedy in the first trial.

Decrease Is Noted In Building Permits

ANSTIN—(AP)—A 4 percent drop in building permits for May compared with April was reported today by the University of Texas Bureau of Business Research.

The May total, of \$20,415,931 was still 4 percent above that for the same month in 1946.

The bureau set back its seasonally adjusted index 20 percent to 288.9, a reverse to the usually expected April-to-May gain in permits.

Houston was first in the dollar-value of permits, with a total of \$5,249,821. Dallas dropped to second with \$3,143,356; Fort Worth had \$2,300,083; Austin, \$1,413,750; Lubbock, \$1,154,487; and El Paso, \$1,070,850.

Greatest percent gains for the month were in Brownwood, Coleman, El Paso, Seguin, and Texas City.

Man Faces Second Trial for Murder

The other two state witnesses who testified were Moe Myrick, Brady city marshal, and Joe Hays, Waldrup farmer.

Myrick testified that he went with the county judge to the scene of the shooting. Myrick identified seven photos of an automobile he said Willey was driving when he was killed.

Hays told the jury he saw Kennedy stooping besides his pickup truck parked at a gate leading to land leased by Kennedy. Hays told the court he drove on to his home and later heard a shot and then a crash. Hays said ten minutes after that he was called to the scene and saw Willey's body lying by the side of the car.

NOT AN INSPIRING EXAMPLE

With the exception of the United States, the major nations of the world have been overrun and subjugated by ruthless, oppressive political forces.

One of the danger signals of politics running amuck appears when government begins to enter business in tax-free, unregulated competition with private citizens, as it has in this country with the electric industry. Those who profess to see no danger to the long range freedom of the people in this movement, like to point to the post office, which is a government business of long standing. Admittedly, government in the postal business has not led to dictatorship, but neither is it an example to inspire confidence in the purity of political motives. According to a recent news report, the Republicans want to investigate nearly 800 "broken down hacks" of the Democratic party who have been appointed postmasters by the President. The Democrats call it a "fishing expedition" to force the President to dole out some of the jobs to Republicans. At any rate, the job of postmaster is a recognized political plum, having very little to do with individual competence.

Is this the way we want to fill the executive positions of the nation's leading electric companies? A tax-free socialized electric industry operated in the manner of the post office department would mean thousands of additional office-holders owing allegiance to the party in power. Instead of working up through the ranks on merit, as most top utility men now do, the president of the local electric company would be drawn from the ranks of obedient party followers.

If the utility industry should ever become firmly established on a par with the post office department, socialization of other basic industries would logically follow, as in England. Hundreds of thousands would be added to the public payroll. It is impossible to conceive of such political expansion continuing for long without something serious happening to the freedom of the people.

NATIONAL WHIRLIGIG

WASHINGTON

By KAY TUCKER. REALITY Our military experts, including Secretary of State Marshall, discern a far more threatening aspect to Russia's swift acquisition of territory in Western Europe, the Danubian Basin, the Balkans and the Middle East than do the general public or even our smarter diplomats. They recognize that consolidation of this advance area will make Moscow invulnerable to attack, even by a force equipped with atom bombs.

While nobody talks publicly of a Russo-America conflict within any reasonable period it is the permanent duty and assignment of G.H.Q. to anticipate and to prepare for difficulties with any nation. At the moment the only comparable power is the Soviet.

For the first time in history, there is no combination of countries to day which can match or even approach the military strength of the U. S. or the USSR. That is a reality which must govern all War College thinking on this subject.

WAR In the event of a war waged on the conventional basis, such as even the recent struggle Moscow could and would be able to seize from the Baltic to the Black Sea almost overnight. She could probably overrun and occupy all of Europe within three weeks.

QUICKIES

By Ken Reynolds

"He's been watching us ever since he answered our News Want Ad and bought an interest in the business!"

NEWS NOTEBOOK

by Peter Edson

WASHINGTON—(NEA)— Prices of new house construction have now gone so high it costs from five to ten cents to get one brick laid. Masonry contractors reporting to their trade association headquarters in Washington figure it this way: Scale for journeyman bricklayers in metropolitan centers varies from \$18 to \$20 a day. But in many areas there is scarcity of bricklayers, so the going rate runs as high as \$26 a day. Helpers are getting as much as \$14 a day. That's \$40 for a two-man team. Before the war any bricklayer who couldn't handle 1200 to 2000 bricks was considered a sissy. But today under the slow-down and take-it-easy practices, average production runs from 400 to 800 a day. That's five to ten cents a brick. Contractors now figure seven cents a brick in making estimates for bids.

New Mexico Democratic Sen. Dennis Chavez, who is a great supporter of Puerto Rico and collects part of his campaign funds there has finally got some patronage for his trouble. President Truman has named the senator's brother, David Chavez, Jr., to the \$15,000-a-year job as federal district judge for the island. Previously, brother David was a \$6000-a-year judge in New Mexico. Senator Chavez had backed losing candidates for Puerto Rico governorship and supreme court appointments. Puerto Rican politicians charge the senator then held up the nomination of Mariano Villarronga to be commissioner of education, pending the naming of Chavez's brother to the judgeship.

WHITE BILL AND RADIO LABEL. Radio station operators who are also newspaper publishers are trying to talk broadcasters into opposing libel provisions in the new Federal Communications bill introduced by Sen. Wallace H. White, Jr., of Maine. Under present law the station owner as well as the announcer or speaker who commits the libel are equally responsible. Under the White bill only the person who speaks the libel into the microphone is liable. Station owners and managers could not be sued. They think this is a protection. But newspaper publishers who have had experience keeping libelous material out of their columns know it wouldn't work that way. Because of their responsibility, they can now keep cranks off the air and out of print. Under the White bill any crank could demand time on the air and say what he pleased by assuming responsibility. Libel might multiply.

Big Four ratification of Hungarian peace treaty—already approved by U. S. and Great Britain—will have an effect in getting Russian troops out of Hungary, says former Ambassador Aladar Secezy-Massak. Russia will demand her troops be permitted to stay in Hungary till Austrian treaty is ratified, since Hungary is one line of communication between Russia and Russian camp in Austria. Austrian treaty is a long way off.

CIO-Political Action Committee now claims complete divorce from what used to be the National Citizens' PAC and is now known as PCA—Progressive Citizens of America. CIO-PAC under Jack Kroll will concentrate on building up local and precinct organizations. Currently it's out for \$1 member-

Texas Today

By JACK RUTLEDGE Associated Press Staff

Scattered over Texas there are approximately 4,000 towns and villages. The Texas Almanac lists about 3,700 of them. Any fool can see that the hardy pioneer Texans had a job on their hands, finding names to go around.

Some of the names are odd. Names such as Bigfoot, Yelena, Wizard Wells, Skidmore, Nix. There is even a town called Rutledge, in Williamson County, which goes to show.

For the benefit of historians and the gentlemen who work up the \$63 questions on this program, we're going to devote a couple of columns to explaining where some Texas towns got their names.

The explanations, incidentally, come from editors of Texas Associated Press papers and if they're wrong, call your local editor and give him a piece of your mind.

Lord—A woman passenger on a train riding east hours across an endless treeless prairie in West Texas, looked out the window and saw a scrawny bit of foliage. "Lord, a tree!" she said, and the little community that grew up there was named Lord.

Beaumont (in Jefferson County)—Named for a man named Jefferson Beaumont. The city took his last name, the county his first.

Scrappin' Valley (Cahill County)—Name means just what it says and adds the editor of the Beaumont Journal, this has been going on for years.

Bellevue—Believed named by Russian railroad workers who saw some resemblance to their native land in the flat West Texas terrain.

Notrees—Named for obvious reasons, no trees. Near Odessa.

Port Arthur—Named for financier Arthur Stilwell who dreamed of a Gulf port city connected by rail to midwest. He built railroad, then founded, settled and named Port Arthur.

Nederland—Eight miles north of Fort Arthur, settled by Dutch at turn of century. Name is equivalent to the Netherlands.

Brady—Just a mistake. A man named Peter Brady, early day surveyor, came to a stream he thought was Colorado River. When error discovered, the creek was called Brady's Creek, later Brady Creek, and when town built nearby, it was called Brady. (Odd names of nearby towns: Grit, Nine, Calf Creek, Lost Creek, Mercury, Nine, Placid.)

Truman Nominates Admiral A. G. Noble

WASHINGTON—(P)— President Truman today nominated Rear Admiral Albert G. Noble to be chief of the Navy's Bureau of Ordnance for four years.

Noble's appointment is subject to confirmation by the Senate. He would succeed Vice Admiral George F. Hussey, Jr., of Brookline, Mass., who is retiring this fall.

Noble, a native of Preston, Texas, makes his home officially at Ardmore, Okla. He formerly was assistant chief of naval operations for ordnance.

Admiral Noble will have all the labor and the agriculture of this far-flung area.

ATOM Against such a setup, not even the atom bomb would prove as effective as generally believed. There is also the consideration that, even in sheer desperation, the American people would be loath to let loose this weapon.

With the Red forces spread throughout Europe, we would drop nuclear missiles over friendly nations, especially as they resented the destruction which our mass air raids caused only a few years ago.

Drenching Russia would prove a formidable and tedious task, and might be largely an atomic war against women and children, for their fighting men would not be home on the day or night of the atom's arrival.

Thus, within a short time, the conflict would follow the pattern of the final stages of World War II, with no assurance that future Pattons could first land on a fortified Europe and, secondly, drive the enemy back to his homeland.

FACTORS These are the practical, technical and strategic factors which our topnotch military students advance: (1) to discuss the American people and Congressmen of the idea that Russia would be a "pushover," even in her present weakened state; (2) to emphasize the need for establishment of permanent peace under the aegis of the United Nations; and (3) the awful necessity of setting up an international system of fighting men would not be home on the day or night of the atom's arrival.

RELIEF IS A SHIPPING PROBLEM Problem of whether to ship European relief supplies as grain or as milled flour has kicked up fuss in industry and government. European countries mill their wheat to get 85 percent extraction. U. S. mills make white flour and get only 72 percent extraction. The remaining 22 percent is fed to livestock. The charge is made that shipping white flour to Europe cheats Europeans out of millions of tons of food. Also that it prevents European flour mills from getting reestablished. Also that shipping flour instead of grain costs U. S. taxpayers more in footing relief bills. Answer given is that relief is a shipping problem. Flour is a shipping problem. Flour is a shipping problem. Flour is a shipping problem.

House Appropriations Committee Killed Federal Communications Commission request for \$275,000 to investigate Western Union, with a view to improving U. S. telegraph service. Committee decided FCC already knew enough about the company. And though, as one congressman remarked in closed hearings, "The telegram is rapidly becoming a thing of the past, it is still a means of communication, Congress decided to let Western Union complete its modernization program before doing any investigating."

★ THOUGHTS

Comfort ye, comfort ye my people, saith your God.—Isaiah 40:1.

The drying up a single tree has more of honest fame, than shedding seas of gore.—Lord Byron.

Mrs. Josephine Eshom to remodel building located at 219 W. Brown St.
The Central Baptist Church to move building from 300 E. Francis St. to 511 E. Browning St.

Volunteer Firemen at Canadian Commended

CANADIAN (Special)—Canadian Volunteer Fire Department last week was commended by C. A. Studer for the fire protection they gave last week relative to a grass fire in a vacant lot adjoining Studer's Bakery and Market.

An alarm that fire threatened that establishment was turned in Wednesday afternoon and firemen answered immediately. Firemen had the situation well in hand, but instead of extinguishing the fire, they stood by and let the fire hazard eliminate itself by burning off the entire lot.

Fire Chief Preston Hutton immediately received a letter of commendation from Studer and a check for \$5 for the organization to "use as you see fit."

It has turned all America into a weeping wall for the ladies—but some of the tears are crocodile.

My wife has been in despair for weeks. So has every other woman we've met. The girls don't give a hangnail now about any other problem.

I didn't know what the trouble was at first. After Frances had been moping for several days, I said: "I forgot just what I did, but I know it was all my fault, and I apologize."

"You didn't do anything," she said, then added with wifely caution—"at least any more than usual."

"Then why are you going around looking like a moose at an Elks' convention?"

"Haven't you heard the news?" That is the way wives always answer a question—by giving you one right back.

"You mean the Balkans, taxes or the labor bill fuss?" I asked.

She looked at me like I was a fugitive from a kindergarten dunce cap.

"I mean the news about women's clothes," she said wifely. "You call yourself a newspaperman! Don't you know practically every woman in this country is worrying about skirts being longer this fall?"

"So what?" I parried. "They're always going up or down like a theater curtain. What if they get lower than the Pittsburgh Pirates? All you have to do is unroll 'em a few inches and baste in a few hem—or whatever you do with hems."

"Listen, Rover Boy," she said, "and I'll tell you a few facts about women's clothes."

Well, it seems that dresses are basically different from men's pants. Men's pants are built in one general shape that is good no matter what altitude you wear the cuff. But women's dresses must be shaped in various ways, depending on how far the knees are to be above or below sea-level.

In recent years skirts have been pretty high—from 12 to 16 inches—and the dresses have been designed roughly to make the girls look like a geometry triangle standing on one leg.

You know—padded shoulders, slim waists and halfback hips.

But the changes soon coming will make milady—there's fancy fashion term fresh out of "Godey's Lady's Book"—look more like an underslung salt shaker.

"And they will reach to within eight inches of the ground," Frances mourned.

I said it was about time anyway for lot of knotty knees to go back in hiding.

"You don't understand," said Frances. "Eighty-five percent of the women don't want to wear dresses that long, no matter what their knees and legs are like. It just means they will have to throw away all their old dresses. They'll have to buy new slips, too, the old ones will be too short. There is no possible way to fix up your old things when the style changes that radically."

"Why," I said, waking to the real peril, "that will mean practically a new wardrobe for every woman in the country."

"Yes," said Frances, complacently. "Isn't it terrible?"

Western Mardi Gras Scheduled at Memphis

MEMPHIS, Texas—Plans are well under way to stage the first West Texas Cotton, Chemurgic and Ceramic Carnival here Oct. 3-4, James P. Smith, president of the Memphis Chamber of Commerce, has announced.

Taking the theme of natural resources and their relation to industry, more than 47 West Texas counties are being invited to participate in the two-day "Western Mardi Gras."

Governor Jester will head a host of state officials to the commemorative events, and a score of national and state officials of the Cotton and Chemurgic Councils have pledged attendance.

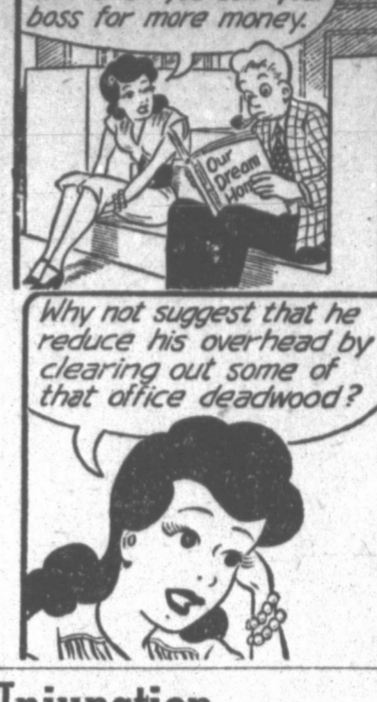

Exhibits will be shown on all phases of cotton and its products; the Chemurgic exhibits alone will tax the display space capacity, according to officials. Every type of clay to be found in West Texas will be shown along with the products they make.

Street shows, athletic events, street dances, in fact every form of amusement and entertainment will be presented free in an "around-the-clock" schedule.

The parade to be covered by news reel cameramen, press photographers and correspondents, will be staged Saturday morning, Oct. 4, and will afford an opportunity for each riding club, each community and individuals to march. Fronts depicting the natural resources of the area will compete for cash awards.

The West Texas Queen of Cotton will be crowned in Memphis to climax the attractions. She will be awarded an all-expense-paid trip to her choice of three glamorous cities and will also be feted by both state and national cotton agencies.

Canadian Delegation Visits Camp Ki-O-Wah

CANADIAN (Special)—A group of Canadian citizens representing the Canadian Chamber of Commerce and the Rotary Club paid a surprise visit to Camp Ki-O-Wah, at Lak, Marlin, Friday night, and served ice cream and cookies to the more than one hundred Boy Scouts encamped there. It was the last night in camp for that group of Scouts, and the visitors were privileged to witness the Campfire in vespertine service.

Large Development Area Changes Hands

EDINBURGH—(AP)—The Rio Development Company, headed by Lloyd M. Bentsen, of Mission, has sold 1,000 acres of Hidalgo County land to Leo F. Corrigan, Dallas developer, at an indicated price of \$200,000, according to records on file today with the county clerk.

Revenue stamps attached to the deed indicated the figure involved in the transaction.

The tract is located in the San Salvador Del Tulo grant north of here.

Denison Voters Reject Proposals

DENISON—(AP)—Denison voters yesterday rejected almost two to one proposed amendments to the city's charter.

The amendments, first attempted on the 40-year-old charter, included a tax increase of 40 1/2 cents and changes in city government to include a five-man council serving without pay.

A vote of 2,000 was cast, a substantial total for city elections here.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
SAN FRANCISCO—(AP)—The ladies are in a dither. It isn't that prices are going up—it's that skirts are coming down.

The outbreak of a third world war would hardly stir such tumult in the feminine breast that, come fall, the style world has decreed longer dresses.

It has turned all America into a weeping wall for the ladies—but some of the tears are crocodile.

My wife has been in despair for weeks. So has every other woman we've met. The girls don't give a hangnail now about any other problem.

I didn't know what the trouble was at first. After Frances had been moping for several days, I said: "I forgot just what I did, but I know it was all my fault, and I apologize."

"You didn't do anything," she said, then added with wifely caution—"at least any more than usual."

"Then why are you going around looking like a moose at an Elks' convention?"

"Haven't you heard the news?" That is the way wives always answer a question—by giving you one right back.

"You mean the Balkans, taxes or the labor bill fuss?" I asked.

She looked at me like I was a fugitive from a kindergarten dunce cap.

"I mean the news about women's clothes," she said wifely. "You call yourself a newspaperman! Don't you know practically every woman in this country is worrying about skirts being longer this fall?"

"So what?" I parried. "They're always going up or down like a theater curtain. What if they get lower than the Pittsburgh Pirates? All you have to do is unroll 'em a few inches and baste in a few hem—or whatever you do with hems."

"Listen, Rover Boy," she said, "and I'll tell you a few facts about women's clothes."

Well, it seems that dresses are basically different from men's pants. Men's pants are built in one general shape that is good no matter what altitude you wear the cuff. But women's dresses must be shaped in various ways, depending on how far the knees are to be above or below sea-level.

In recent years skirts have been pretty high—from 12 to 16 inches—and the dresses have been designed roughly to make the girls look like a geometry triangle standing on one leg.

You know—padded shoulders, slim waists and halfback hips.

But the changes soon coming will make milady—there's fancy fashion term fresh out of "Godey's Lady's Book"—look more like an underslung salt shaker.

"And they will reach to within eight inches of the ground," Frances mourned.

I said it was about time anyway for lot of knotty knees to go back in hiding.

"You don't understand," said Frances. "Eighty-five percent of the women don't want to wear dresses that long, no matter what their knees and legs are like. It just means they will have to throw away all their old dresses. They'll have to buy new slips, too, the old ones will be too short. There is no possible way to fix up your old things when the style changes that radically."

"Why," I said, waking to the real peril, "that will mean practically a new wardrobe for every woman in the country."

"Yes," said Frances, complacently. "Isn't it terrible?"

Coal Miners

(Continued From Page 1)
Company, a livestock handling firm, was virtually inoperative by a strike of 425 CIO United Packinghouse Workers. A company official said "resentment of Congress overriding the labor bill veto may have been a factor," but a CIO leader denied the charge and said the walkout involved wages, house and working conditions.

In Kearney N. J., a threatened work stoppage by 4,000 CIO Marine and Shipbuilding Workers, was averted after an agreement had been reached to continue contract negotiations.

In St. Louis Mayor Aloys P. Kaufman called a meeting of members of the boards of directors of the Public Service Company and the Union Executive Board with a demand that some agreement be reached to end the city's two weeks old transportation strike. The walkout has cost St. Louis business an estimated \$15,000,000.

NO GENERAL NAME
The Tunguses of Siberia have no general name for the reindeer, although they have specific names for "tame reindeer," "wild reindeer," "young reindeer," etc.

Injunction

(Continued From Page 1)
government can act quickly and without outside aid.

That is because (A) the government still is in control of the mines and (B) the Supreme Court left the way open for another Federal injunction against Lewis and the union if a strike occurs while the government contract is in effect.

That pact was made by Lewis and Secretary of the Interior Krug, ending the 59-day strike of the spring, 1946. Lewis and the operators have been at odds ever since. The government has been unable to give up the pits without danger of another strike.

Rep. Howard Smith (D-Va.), one of the sponsors of the Smith-Cornally War Labor Disputes act which gave President Truman his power to seize the mines, introduced legislation yesterday to extend that authority beyond June 30.

He said the Taft-Hartley bill could stop a coal strike only for a short time.

But Speaker Martin (R-Mass.) told reporters he saw no signs the House would go along with Smith.

And Rep. Landis (R-Ind.), second to the Labor Committee chairman, said that the group certainly would not be inclined to adopt plant seizure now and thereby "admit that our labor law is no good."

However, Senator Taft (R-Ohio), co-sponsor of the new act, and several other proponents have acknowledged uncertainty whether the statute will be able to stave off a July coal shutdown.

The House Labor Committee considered the advisability of continuing the seizure power while it was working on the new law.

But the committee felt that seizure authority gave the government too much of an opening for interference with private business in peacetime.

This week's mine shutdowns, coupled with the ten-day vacation in the coal fields, will bite into bituminous stocks which the Bureau of Mines said represented only a 33-day supply on May 1, the last date for which figures were available.

Marshall Plan

(Continued From Page 1)
tions of American dollar aid, Pravda declared:

"If the authors of this plan listened to the counsels of some excessively meddlesome American reactionaries and put forward for European countries conditions copied from the Greek-Turkish model, then it stands to reason that the putting forward of these conditions would deliberately aim at eventual failure of the program planned."

"Such aid would mean in fact, interference in the internal affairs of European states and an infringement of their sovereignty, with which not a single European nation which respects itself could agree."

Instrumental Trio Entertains Jaycees

An instrumental trio consisting of Bill Smith, on bass, Gene Lively, on trumpet, and Tommy Atkins, on guitar, entertained members of the Junior Chamber of Commerce at their weekly luncheon yesterday held in the Palm Room in the City Hall.

A report on the Nation Junior Chamber of Commerce held at Long Beach, Calif. June 11-14, was given by Jim Arndt, Arndt and Don Foster were delegates to the convention from the local chapter.

Jack Nimmo, president, was in charge of the meeting.

AUSTIN GOLF TOURNEY

AUSTIN—(AP)—Prices totalling \$800 will be offered in the first annual Austin Golf Association Invitation Tournament to be held here July 2 through 6. Tournament Chairman Mac DeGeurin has announced.

All amateur Texas golfers are invited to compete.

Transit Application Is Being Opposed

WESLACO—(AP)—A Railroad Commission hearing here on an application of the Valley Transit Co. to start new motor bus routes from Donna to Harlingen and from San Benito to Brownsville, was expected to continue through today. The application is being opposed by the Union Bus Lines.
