SANTA BARBARA, Calif.—(AP)—Black bears fought a losing battle with millions here.

A black bear had the upper hand locally for the last time in 1873 when one treed a man, his wife and child for three hours.

Since then the bears have been slowly outnumbered by the millions and pushed back into the hills where all they get is peanuts from the tourists.

An unofficial census once estimated that 100 millionaires lived here, making it a sort of game refuge for the wealthy. One hired a musician full time who did nothing but lull him with tunes on a \$10,000 violin.

Santa Barbara, among other things, is also one of the few places in Southern California where a man can retire and still keep the respect of his old neighbors.

The chief attraction is the balmy climate of this coastal shieland between the sea and the Santa Ynez foothills, a strip which the local population likes to refer to as "The American Riviera." They like also to call their sixteen-square-mile city "the Athens of America."

"They want to keep the atmosphere that sets it apart from almost every other city in the land—an air of "douce far niente" or "delightful idleness." This is its chief charm.

The people here want no great hatching factories that pattern American cities with soot and crime-breeding slums. They prefer that Santa Barbara remain medium-sized (about 50,000) and beautiful rather than grow big and perhaps ugly.

Of course, this requires moneyed people with imported wealth—and they live here on estates of palatial grandeur. But there are also thousands of retired people of modest means, and many artists, writers and musicians. One rich lady has a tree camp for hoboes on her estate.

The tourist industry is the biggest single source of revenue within the city and in pre-war years some 500,000 visitors spent \$10,000,000 annually. But, culture-conscious Santa Barbara has allowed no hunky-tonk commercialism of its three miles of city owned beaches.

MAN WANTS PANTS

RICHMOND, Ind.—(AP)—Firemen jerked the blazing trousers from 67-year-old John Wadsworth and rushed him to a hospital for treatment of minor burns.

Wadsworth pleaded with the firemen to recover his trousers and look in one of the pockets.

The found \$1,234, Wadsworth's savings.

Car.'t Break His Good Habits!

Bert Childers was saying, it's funny how so many of our wartime habits stick with us.

Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was scarce as hen's teeth. And as a war-worker, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

Same way with Bert's wife. She not only has no trouble saving soap suds, and waste paper. She's learned from wartime necessity to save every single thing that might possibly be used again.

From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

BY JACK RUTLEDGE
Associated Press Staff
Quoth the Raven, "Scram!"
And the cats and dogs at the
T. J. Edwards home at Welch, Texas,
near Lamesa, usually scam.
The Raven Edgar Allen Poe wrote
about was a polite, gentlemanly

owl compared with Jim. Jim has
no manners. People who know Jim
say that if he happened to go to
someone's door at midnight like
Poe's Raven, he wouldn't bother to
rap gently or otherwise. He'd prob-
ably just barge right in.
But the big black bird is a real
member of the Edwards household,
and they love his eccentric ways. He
was found a year ago by the Ed-
wards' children, and has been with
them since.

Strangers usually are upset when
they drive up. Jim greets them in
none too cordial a manner, and
then proceeds to climb on the car
and peck away at the chromium
plating, the windshield wiper, the
license plate.

He wrangles with the Edwards
family, too, and makes life miser-
able for the other pets. The family
cat, for example, is about to starve
because Jim persists in stealing all
the food, chasing the cat away
with his belligerency. Edwards says
the cat hasn't had a square meal
in months.

Edwards is a house painter by
trade. He likes to putter around
home. Jim makes his homework
difficult because every time Edwards
puts down a wrench or a bolt,
Jim picks it up and carries it
across the yard. Most of Edwards'
time is spent in chasing Jim.

He follows the children to school,
and generally has trouble with the
teacher.

The first time the family left
Jim at home alone, Jim followed
them 15 miles. Just how the bird
managed to trail them, and then
find them in the middle of a town
of 10,000 persons, still puzzles the
Edwards. But one thing they know
— that took a lot of affection and
determination.

**Invitation to Stalin
Might Be Mistaken As
Rush to Appeasement**

By DEWITT MCKENZIE
AP Foreign Affairs Analyst
Former Vice President Henry A.
Wallace's proposal that President
Truman invite Premier Stalin to a
Berlin conference, as a "first step"
to guarantee world peace, has en-
countered cautious silence of opin-
ion over most of the globe, a not-
able exception being the emphatic
approval voiced by the Soviet-
licensed newspaper "Nacht Express"
in Berlin.

Not so long ago such a move by
the President might have been
banned as a grand idea. It isn't far
back that this column was point-
ing out the profit which might
be gained if the big got together for
heart-to-heart talks across the
table to try to solve the diffi-
culties between Rus- DEWITT MCKENZIE
sic and the western allies. I still
think that would be a splendid
move.

But the situation recently has
developed such ugly angles that
any suggestion of Mr. Truman tak-
ing the initiative in inviting the
Generalissimo to a two-man party
certainly would call for much burn-
ing of the midnight oil before it
was adopted. There has been the
Red coup in Hungary, resulting in
the overthrow of the democratic
government and the substitution of
Communist regime. There have been
other developments in numerous
countries, including the United
States, indicating that aggressive
Communism is on the march.

John Foster Dulles, State Depart-
ment adviser, in a speech yesterday
at Northwestern University declared
that the Russian policy of setting
up "police states" may "lead to
widespread violence and even war."
He said there is no reason to be-
lieve "that the effort of Soviet lead-
ers to impose widely their systems
of government will stop of their own
accord." And the U. S. Army is
having printed for distribution to
troops a pamphlet, which says the
Communist Party in America is an
agent of Russia and that Commu-
nism is a danger to democracy.

With this (and much more) as
background, it's easy to see that
an invitation from President Tru-
man now might be mistaken as a
rush to appeasement. Should such
an erroneous impression be created,
the repercussions both at home and
abroad might be serious.

However, without attempting to
read Mr. Truman's mind one ven-
tures the view that he would be
delighted if Premier Stalin should
feel able to accept invitations al-
ready extended to him to visit
Washington.

**Desperate Mother Is
Granted Relief Money**

HOUSTON—(AP)—A grant of \$53
has been approved by the State
Department of Public Welfare for
Mrs. Mildred Tucker, 27-year-old
mother who offered to sell one of
her eyes to aid in the support of her
three children.

The first check will be sent from
the State Relief Office July 1,
officials said.

Tuesday her father, M. L. Part-
ridge, Fort Worth roofing company
employee, sent her \$10. He told her
he would come to Houston to make
further arrangements for the sup-
port of the three youngsters, aged
five years, three years and three
months.

Mrs. Tucker says she fears her
husband, a Fort Worth bakery em-
ployee, may be a victim of amnesia,
since he disappeared last December.
His car was found later abandoned
in West Texas.

**Association Seeks
Early Construction
Of Canadian Bridge**

Among the resolutions adopted by
the U. S. 60 National Highway
Association Convention at Enid,
Okla., on June 3, the following are
those resolutions that will effect
travel over the highway in this
area:

"We respectfully recommend the
early construction of a new ade-
quate bridge over the Canadian
River at Canadian Texas."

"The convention further expres-

ses its appreciation to the State of
Texas and D. C. Greer, its able
Chief engineer, for one of the finest
roads in the United States and
urges the early construction of an
adequate bridge at Canadian, all
that remains to be done on U. S.
60 in Texas."

"We also recommend paving Mar-

ket Street (4 lanes) in Enid, Okla.,
from the point where U. S. 60 enters
the City of Enid at the west limits
thereof, to the foot of the Univer-
sity Hill directly east, with grade
separation at the Rock Island de-

pot, upon some 7 or 8 Rock Island
railroad tracks."

The most effective treatment for
lice has been found to be oil, which
clogs their pores and causes
them to suffocate.

WE, THE WOMEN

Seek Husband's Advice Before Buying

By RUTH MILLETT
NEA Staff Writer

When Papa buys a new suit Mama usually goes along. She figures she is better able than he to judge just what looks good on him. But when Mama goes to make an important purchase for herself, she goes alone or takes another woman with her.

Result: Both Mama and Papa are pleased with Papa's suit, but all too often not even Mama is pleased with her purchase. Then why don't women take their husbands with them when they make their more important clothes selections?

A husband is a fine clothes critic. He doesn't have his head full of pre-conceived ideas planted there by fashion magazines interested in plugging the current "promotions." He doesn't give a hoot whether a suit has "the new sleeves" or the "fashionable silhouette." All he knows is whether what the little woman tries on is becoming or not.

Without wasting words he says "That's swell" or "That's terrible." And his judgment is almost always right. He may not know clothes, but he knows when a woman looks well in what she is wearing.

ASKING ADVICE FIRST
But instead of using their husband's clothes criticism constructively—by asking their advice before they buy—most women buy their clothes first and then say "How do you like it?"

Then their feelings are hurt if

The Tollivers

© BY MATEL HOWE FARNHAM. By MATEL HOWE FARNHAM
DISTRIBUTED BY NEA SERVICE, INC.

THE STORY: Flora's baby, Gloria Louise, is born in December. Flora devotes all her attention to the child and Sam starts to get tired of playing second fiddle. Mrs. Tolliver pushes the wedding plans. Flora and Sam are finally married in February.

XIX
FLORA was always a devoted daughter and sister. All Mrs. Tolliver's financial problems would have been solved overnight if Flora could have coaxed or persuaded Sam to move across the street and live with the Tollivers, turning his share of the Forbes mansion, which he and Nelson owned jointly, over to Nelson. Flora did make one or two timid attempts on her honeymoon to put the idea over, but got nowhere.

"Give up my own house, the house built by my grandfather?" Sam exclaimed. "You aren't serious, are you?"
"But it's also Nelson's house."
"You mean you don't want Nelson to live with us?"

"Oh, I wouldn't turn dear kind Nelson out of his own home for anything in the world. I just thought if we had to live with someone, it might as well be Mama."

But Sam, as Flora afterward told me, said with great finality that her plan was all nonsense and that he had already engaged a perfectly reliable middle-aged woman to help Weyman with the housework and to look after Gloria Louise when he and Flora wanted to step out.

It was Annabelle who made it quite a grievance that Flora was not consulted when Sam made his plans for their future.
"I'd prefer a hovel to that great gloomy barn of a house," Annabelle said. "In a hovel Flora could at least choose her own furniture."

Couldn't Flora see that it was sour grapes that inspired Annabelle's taunts? Annabelle would have given her eyeteeth to be mistress of the Forbes mansion.

WHEN Annabelle made her jealousy of Flora evident, I believe I realized for the first time how much Annabelle had changed in the last few years. She was still lovely, but there were now bitter little lines about her mouth, and her voice was often fretful and complaining. She was sarcastic where she had once been good-natured. She still went about with this boy or that, still held her head high and laughed and flattered where she thought it would do the most good. But she worked too hard, made it too plain that she desperately wanted to make a good marriage. Whether she had then given up all hopes of marrying Nelson I did not know. She was always charming to him, and he still seemed to like her.

The truth was, as I know now, that Annabelle's disappointment had hardened into bitter self-pity. Annabelle had long been aware that she had to prepare to earn her own living, and some months before, she had enrolled in a business college. All the same she counted, or at least half counted, on Sam.

It was not beyond the bounds of possibility that Sam might be moved to make her and her mother an adequate allowance.
Instead, when Sam came home from his honeymoon, he said it was high time that Annabelle went to work. He sent word by Flora that he would get her a job. Annabelle's bitterness was immediately concentrated on Sam.

This was hardly fair. Sam soon had troubles of his own.
It was one of Sam's inducements—I won't say bribes—to obtain Flora's consent to an early marriage that she should buy her trousseau in New York, and he would pay for it. Flora brought home a trunkful of new, very beautiful, and extremely expensive clothes, many of them French

models. More and more kept coming. And there were linens, lace, exquisitely embroidered towels and napkins and sheets—hundreds and hundreds of dollars' worth. Sam, who should have known better, had fatuously allowed Flora to open accounts all over New York, and Flora had leaped to it. Sam, however, seemed as happy and content as any bridegroom could be. He was pathetically proud of Flora, her beauty and her new clothes, proud to take her about, to accept the invitations that were now showered on the bridal pair.

Flora was too good-natured to cherish resentment, to hold aloof from proffered kindness because of remembered slights. Otsego gave Sam and Flora a week to settle down; after that I almost never looked out of my south window without seeing a car or carriage standing before the Forbes' front door or perhaps two to four matrons in white gloves and their best-plumed hats, with cardcases in their hands, coming up the street on foot.

After the formal calls came the equally formal dinners and card parties or receptions. The card parties or receptions were strictly feminine, and the ages usually were mixed. But a danger lurked in a problem. Should Sam's middle-aged friends or young people of Flora's age be invited to do honor to the bridal pair? As the hostesses were usually middle-aged themselves, they nearly always invited their own contemporaries and one young couple as a sop for Flora.

Otsego was, I thought, a little disappointed that Flora behaved so well and that no fireworks or even a quarrel followed on the heels of the honeymoon. For the moment Otsego was almost bored with the Tollivers. I actually went to an evening party where they were never mentioned once.
Otsego was far too pessimistic. There were fireworks aplenty when the bills finally came in.

State Needs Driver License Examiners

AUSTIN—(AP)—The Texas Department of Public Safety was on a "manhunt" today for 30 new driver license examiners.
Director Homer Garrison said competitive examinations will be held to fill the positions at various points in Texas "sometime in July." The positions will be filled Sept. 1.
Ten of the new examiners will fill existing vacancies and 20 will be additional personnel authorized by recent legislation.
Applicants must have at least a high school education or its equivalent, not less than 21 or more than 35 years old, be not less than five feet eight inches in height, weight not less than two or more than three pounds for each inch of height and have a reputation for character and conduct that will stand intensive investigation.
Salaries range from \$100 a month with room and board during the four-week training period in Austin to \$208 after training and probation have been completed.
Applicants should write Col. Garrison at Post Office box 1164 in Austin, requesting application forms.

Which Twin has the Toni?

(and which has the beauty shop permanent? See answer below)

The Toni twin—winsome Ella Wigren of Chicago, exclaimed "My Toni Home Permanent looked soft and lovely from the start! No wonder Lila says after this we'll be Toni twins."

Yes, you can give yourself a lovely **TONI Home Permanent** for your date tonight

Beautiful, deep, graceful waves—so smooth, so natural-looking. A Toni is truly lovely. And look how easy it is to give yourself a Toni Permanent—at home.

1. Roll your hair up on curlers (new Toni plastic curlers make it easier than ever). Dab on Toni Creme Lotion as you go.

2. Tie a turban round your head and do whatever you like for 2 to 3 hours.

3. Saturate each curl with Toni Neutralizer and rinse.

Your wave is in—just the way you like it. Not too loose... not too tight—but just right.

And it's frizz-free from the start. For Toni Creme Lotion coaxes the hair into soft, graceful, easy-to-manage waves. Toni works like a charm on any hair that will take a permanent—even gray, dyed, bleached or baby-fine hair. And the wave is guaranteed to last just as long as a \$15 beauty-shop permanent—or your money back. That's why—every hour of the day another thousand women use Toni. Take a tip from them and get a Toni Home Permanent Kit today.

Ella, the twin with the Toni is on the right above. Did you guess right?

Ewell Blackwell Termed Top Pitcher of National League

(By The Associated Press)
Ewell Blackwell's no-hitter against the Boston Braves has established the lanky Cincinnati side-arm artist as the No. 1 pitcher in the National League.

Half way to his announced goal of 20 wins in his second major league season, the rangy righthander from San Dimas, Calif., has etched his name on the honor roll along with the other pitching greats.

Most of the righthanded hitters in the league would name "Blacky" as their toughest problem because his sinking side-wheel delivery is on top of them before they know what is coming. Yet, last night, Boston's Billy Southworth threw a heavily lefthanded batting order against him and the results were the same.

Of Blackwell's 10 wins, the last eight have been racked up in succession. He is the only pitcher in the Majors to have defeated every other club in the league at least once.

The loss dropped Boston out of the National League lead, permitting the New York Giants to squeeze out front by a margin of six percentage points on their afternoon, 12-5 romp over Pittsburgh.

Those St. Louis Cardinals continued their headlong dash toward the first division, pulling to within one game of the coveted 500 circuit by a 5-2 edge over Philadelphia, their seventh straight win.

Greenville Majors Plan to Continue Leading Big State

(By The Associated Press)
The Greenville Majors are leading the Big State League and the way they're going it looks like they plan to stay up there.

Last night they clouted Waco 11-1 while Wichita Falls was edging into second place by nosing out Texarkana 7-6. So today, the Majors boast a two-game lead over the Spudders.

Sherman licked hapless Austin in a double-header, 5-2 and 6-5, and Gainsville won over Paris 5-3.

Jeddie Phipps pitched a seven-inning shutout at Gainsville, with Bobby Brack leading a 14-hit onslaught.

Al McCarty slammed a homer in the seventh to top off a big Wichita Falls inning as the Spudders tallied five times for victory over Texarkana.

Gene Hodges lofted a homer with a runner on base in the last of the ninth to give Gainsville a thrilling win over Paris, Red Peppers.

Al Leedy pitched Sherman to the decision on the first game and the twins spiked the pan with the winning run in the ninth inning of the game as Sherman swept the double bill with Austin. Ray Taylor singled in the deciding run of the afternoon.

Three Clubs Arrive at Denver for Western College Baseball Series

(By The Associated Press)
The California Golden Bears, champions of the Pacific Coast, and the Oklahoma Sooners, conquerors of the Big Six—Missouri Valley territory, arrived yesterday but found Denver's Western League Park too sloppy for use.

The spectacular Layne, who hasn't been beaten in the tough Southwest conference in three seasons, is scheduled to start on the mound for the national college title.

California and Texas were solid favorites to win tomorrow's first-round game in the western phase of the National Collegiate Athletic Association's first national championship baseball playoffs.

DENVER (AP)—Three of the four Western teams entered in college baseball's first "World Series" were in town today, hopeful that the skies over "High and Dry" Colorado would stop dripping long enough for a pre-tournament workout.

Houston Widens Texas League Lead With 8-1 Win Over Rebs

(By The Associated Press)
Houston, currently holding down top position in the Texas baseball league, is playing like a leader now. The Buffaloes swamped Dallas 8-1 on the Rebels' home field last night to take the series and place another prop under their peak position in the circuit.

Dallas was never in the ball game. The Buffs grabbed a two-run lead in the third and went right on to build it into a smashing victory over their Texas cousins.

The Buffs clouted 13 hits off Southpaw Quentin Alhier while Al Pappal's knuckleball offerings stymied the Rebs. As a result of the loss, Dallas ropped to eight games behind the pacemakers.

In other contests, Oklahoma City downed Beaumont 5-2. Fort Worth squeezed out a 2-1 win over San Antonio and Shreveport blasted Tulsa 6-1.

In scuffling Beaumont, the rejuvenated tribe of Indians netted its fourth win in five starts. Oklahoma City came from behind in the fourth when Beams Marionetti hit a double with the bases loaded.

A sparkling pitching duel between Willard Ramsdell of Fort Worth and John Miller of San Antonio marked a close win for the Cats at Fort Worth.

At Tulsa, the Shreveport Sports ended the Oilers' six-game winning streak by taking the final game of the series, 6-1. Ralph Hammer, hurl-

National Soaring Meet Is Set to Open July 4

WICHITA FALLS (AP)— Entries will be sent to the 14th Annual National Soaring Meeting opening here July 4, by both France and England.

Charles King, co-director of the soaring meet, said he received a letter from the British Embassy, saying that Great Britain would send five pilots, including a woman, Naomi Allen.

Another letter, received from Col. William L. Bryton, air attaché of the French Embassy in Washington, said France was entering four glider pilots and four sailplanes.

Approximately 100 entries in all are expected by tournament officials.

First stretch of concrete highway in the United States was laid at Bellfontaine, Ohio, in 1893.

Slugging, Versatile Young Thomson Gives Giants Fresh Slant On Life

By NED MILLS
NEA Staff Correspondent
NEW YORK—It's easy to remember when the Giants, resting in an uncomfortable fifth place, started the winning streak in St. Louis that swept them to first place while on the road.

That was when Bobby Thomson was moved from second base to catcher field. Catcher Walker Cooper says he never saw recruit who was a better judge of a fly ball.

Thomson swats a long ball to all fields. He is the nervous type at bat—up on his toes. His heels are not planted in the dirt until he swings. He throws and runs like blazes.

Although Thomson manufactured 23 home runs for Jersey City last season, he would have been returned to the Little Giants for another year of seasoning had not Whitey Lockman broke his arm in a spring exhibition game.

Now there is little doubt that Thomson is up to stay.

The New York club's front office didn't know it had Thomson until Charley Graham, the old catcher who is one of the owners of the San Francisco club, attempted to make a deal for him. Thomson worked out with the Seals and played semi-professionally in the Bay Area while serving in the Army Air Force, with which he put in a two-year hitch. When Graham said he could not land the boy, he told Giant officials they had quite a haul.

The six-foot two-inch Thomson is a native of Glasgow, but was reared on Staten Island after being brought to this country by his parents when he was two. The Polo Grounders signed him while he was starting for Staten Island's Curtis High. He is also a superlative soccer player. That was born in him.

Following graduation, and when only 18, Thomson was shipped to Bristol of the Appalachian League, then to Rocky Mount of the Bi-State. He batted .347 for service teams.

Batting third, Thomson leads off for the Giants' Peaseone Foursome, those following him being Mize, Marshall, and Walker Cooper.

Mel Ott still seems to have Thomson in mind for second base, but the Scotman is a running kid who belongs in the outfield. With Whitey Lockman's return in July, he should be shifted to left field.

At 23 and single, the handsome Thomson is the darling of the club.

On the breezy side and light-hearted in the clubhouse, but spirited and very serious on the field, it was Bobby Thomson more than any other single factor that put the breath of life back into the Giants.

CHICAGO GRAIN
CHICAGO, June 18—(AP)—All grains scored substantial gains in an active market on the hour of trade today. Heavy rains overnight in parts of the Midwest created aggressive buying of corn and oats. Good cash demand for the yellow grain and a forecast of further rains within the next 24 hours added to the buying enthusiasm. In the spot market corn sold up to 2 1/2 cents higher.

Export horses bought wheat, which also was aided again by yesterday's announcement of new government loan prices.

Wheat closed 3 1/2 to 4 cents higher, July 22 1/4-1 1/2; corn was 4 1/2-5 1/4 higher, July 31 1/2-1 3/4; soybeans were 2 1/2-3 1/4 higher, July 24 1/2-3.

NEW ORLEANS FUTURES
NEW ORLEANS, June 18—(AP)—Cotton futures advanced here today on trade buying and heavy covering. Closing prices were very steady, 81.85 to 82.10 a bale higher. The main reasons for the demand were favorable textile reports, and claims that boll weevil infestation was heavy in Mississippi and South Carolina.

WALL STREET
NEW YORK, June 18—(AP)—Stocks enjoyed their best opening of the week in today's market although many advances were reduced or eliminated before the close.

Rubbers, farm implements and some motors and steels were in moderate demand before noon, and the improvement was extended later to embrace many of the rails. Subsequent profit-taking left quotations well mixed. Dealings quickened on the rise with transfers totaling in the neighborhood of 900,000 shares.

A sizeable share of the day's volume was announced for by Packard Motor car, which appeared frequently on the tape with one block of 25,100 shares changing hands at a new 1947 low of 5. American Telephone also touched a new low of 42 1/2.

Prominent gainers were Goodrich, Goodyear, U. S. Rubber, J. I. Case, International Harvester, J. I. Case, Dome Mines, Mc Intyre Porcupine, Shell Union Oil Santa Fe Southern Railway, Illinois Central, General Motors, Montgomery Ward, Armour, Pepsi-Cola, Douglas Aircraft, Union Carbide and Allied Chemical.

McClellan Boat Club Elects New Officers

BY HUGH FULLERTON JR.
ETHEL, Pa.—Although Jimmy Damart and Claude Harmon are better than fair heads at crooning little Clarence Doser, who took the applause from them in the PGA Tournament yesterday, doesn't even sing in the shower. "I have no aspirations in that line," he insisted when the boys asked him about his musical accomplishments. . . Damart and Harmon, who had 69's to Doser's 67 on the links, tuned up their pipes as well as their strokes for the tourney Jimmy, who according, took part in Bing Crosby's radio show and Claude, who used to sing with Bob Crosby's band, grabbed the mike at a local night spot Tuesday evening. . . P. S. Any of the pros will moan, musically or otherwise, when they get a bad break or two that costs them some tournament cash.

DIVOT DIGGING
 Plum Hollow, in case you don't know, is the name of the ritzy golf club where they're playing the PGA Tournament. . . Bobby Locke, who nearly got into a jam for cleaning his ball on the green during the open golf qualifying rounds, still rolls it absent in his hand when he has occasion to pick it up on the green.

CLEANING THE CUFF
 The Lynchburg, Va., Junior Chamber of Commerce is protesting to Sam Brandon because the latter place Cardinal farm club there "is not aiding the growth and development of our city." That ain't half what Sam hears in St. Louis. Loyalty note: The Green Day Packers recently received this letter from a fan: "Me and my friends want to see the Packers play in Milwaukee. There are 18 of us. Here is my check. It's up to you which game we see."

Big Spring, Midland Locked in Flag Race
 By The Associated Press
 The Jacksonville Jax took over leadership in the Lone Star League today as a result of a thrilling 11-10 victory over Longview. Corney Bean singled with the bases full in the ninth to bring the Jax victory while Longview fell down to second place—seven percentage points behind Jacksonville. There were no other changes in the standings last night as Taylor clipped Marshall 9-4, lowly Bryan downed Kilgore 6-0 behind Paul Cook's four-hit pitching and Lufkin edged Henderson 2-0.

man Coops of Austin, Tex. and Mrs. Rena Parsons and his daughter, Patricia, 14, of Mexico City. Coops and Parks were en route to Mexico City. The Parsons were bound for Laredo, Tex.

The hymn, From Greenland's Icy Mountains," was written in 15 minutes by Bishop Heber.

Good News For Folks Who Suffer From
 ✓ STOMACH GAS
 ✓ SOUR FOOD TASTE
 ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.
 Evertime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles, else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.
 To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is a little or nearly due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.
 Also, SSS Tonic helps build-up non-organic, weak, watery blood in additional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.
 Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health!

In Hollywood

By ERSKINE JOHNSON
 NEA Staff Correspondent
 (Johnson on KPBN Monday thru Friday, 2 p.m.)

HOLLYWOOD—I don't mind going out with Hollywood glamor girls socially, but I've never met one yet I'd consider marrying.

Turhan Bey speaking girls. Yes, the same Turhan Bey who has had romantic interludes with Lana Turner, Yvonne DeCarlo, and quite a few other movie queens.

"Just beautiful friendships, nothing more," he told me on the set of the Eagle-Lion movie, "Out of the Blue."

Then he cracked out with some opinions that will probably have him diving off the Santa Monica pier, with the glamor galls in hot pursuit.

"You just can't tell whether a Hollywood actress means what she's saying. After all, actresses get paid for parading their emotions. After a while they become accustomed to emoting all the time and probably can't help themselves."

Like, he said, the first time he fell in love with a Hollywood star. She was beautiful in a slinky black evening gown," Turhan said. "The night was balmy and the stars were twinkling overhead. I told her that I loved her, and she turned toward me and said, 'I love you, too, darling.'"

OLD SCRIPT TALK
 "Then she started talking about love and emotions. Her choice of words was beautiful and I listened, entranced. All of a sudden it hit me. I'd heard those words before—

in her last picture, complete with gestures.

"Even then I wouldn't have minded so much," Turhan said, "but she upstaged me."

Turhan looked gloomy. "But you know what will probably happen. I'll meet a girl, an actress, a truly great actress. She'll convince me that all she wants out of life is to be happily married. So I'll propose and she'll accept. And as I turn to kiss her after the marriage ceremony, I'll find that she upstaged me so that the audience can only see the back of my neck."

Humphrey Bogart's former wife, Mayo Methot, will try matrimony again. It's reported, with a wealthy gent from Portland, Ore. Bogie is probably much relieved. Until recently, Mayo was going places with a fellow who moored his yacht near Bogart's at Newport Beach. Mayo and Lauren Bacall would sit on deck and glare at each other.

NO FOOT APPEAL
 Don Ameche had to walk down a long flight of stairs in pajamas, bathrobe, and bare feet for a scene in "Sleep My Love." After one rehearsal, Director Douglas Sirk ordered Don to put on socks and slippers. Said the director, "I'm sorry, Don, but your bare feet just don't have sex appeal."

Now that her romance with Mike Todd has cracked up, Joan Blondell will take her two children to England. Says Joan: "For a bicycle vacation." No truth to those separation rumors for the Ray Millands. Mrs. M. goes to England to join Ray this month with 7-year-old Danny tagging along.

Reason "Nightmare Alley" is keeping its terrific punch ending, as in the novel, is because Ty Power wanted it that way. The Johnston Office, however, now is reconsidering its original approval.

Films are meant for entertainment. If anyone has a "message" for the public, let him call Western Union.—Mervyn LeRoy, film director.

Penney's is an Old Hand at Saving You Money

We run our stores the way a thrifty housekeeper runs her home. We don't sell on credit. We don't deliver. Cash-and-carry saves a lot of money—for YOU. We buy carefully, with a sharp eye for quality (nothing's a bargain if it isn't good as

well as cheap).

Yes, we're old hands at saving you money. Our customers know it—and trust us. And we wouldn't sell out that confidence for anything in the world.

SENSATIONAL SHOE VALUES

NOW WHEN YOU NEED THEM

PLAY SHOES

We've sliced down the price of these shoes just at the time you need them most—NOW, not at the end of the season! These are smart, sturdy playshoes with quality all the way through! They're made from lustrous, long-wearing wool-and-rayon gabardine, backed with two layers of strong fabric to give them body and strength; and lined with smooth rayon! The platforms are cushiony cork-and-rubber. The soles are durable noelite—look twice as neat, wear twice as long as ordinary leather soles. Heel-hugging sling pumps or pretty draped vamp sandals, each in brilliant sun colors.

SAVINGS FOR MEN & BOYS

Men's Khaki Pants and Shirts

We slashed the price for two reasons, and two reasons only—no flaps on the shirt pockets, no cuffs on the pants. IN EVERY OTHER WAY they equal or surpass any work outfit in America selling at over a dollar more! Take another look at this Penney price—are two little flaps and two purely decorative cuffs, worth the difference? where can you find such big, big features as Sanforized Army-type twill... JERSEY JUSTICE—NEW STYLE
We should like to cite, as a minor triumph of justice a recent decision of the New Jersey Supreme Court which wrote a happy ending, so far as the public is concerned, to the sad story of Susan Bowers.

Susan Bowers—that isn't her real name, but it's the only one we know—was arrested last fall in New Jersey. Her offense was trying to hitch a ride in a small corner of our happy land (to wit, Hackensack) where ride-thumbing makes one a "disorderly person."

Susan, pretty and 20, pleaded guilty but refused to tell the police much about herself. For the double crime of hitch-hiking and reticence she received a six-month sentence. The Civil Liberties Union got her case reopened after the New York and New Jersey papers had raised a howl. Again she was found guilty, but this time she was freed after two days.

Some months later Susan Bowers turned in Arizona. There she received more enlightened treatment. She was sent to a state hospital where the doctors said she was suffering from a psychosis. But her parents finally were located and Susan went back to them in her Montana home town.

We hope that Susan is better and that whatever was troubling her has been erased from her mind. And we are grateful to the New Jersey justices for deciding, in this day when psychiatry is on the march, that keeping one's own counsel or indulging in harmless unconventionalities of behavior is not an affront to society that merits a jail sentence.

Part of the Supreme Court's opinion seems to us worth quoting: "It is not an offense to have a dirty face or to wear blue overalls or to ride by gratuitous rides from Bangor, Me., to Florida, or to sleep in a truck or to pick potatoes in one or another part of the country, or with \$14 in pocket to be temporarily out of employment on the way from completion of one job to the search for another."

This wise decision should bring joy and comfort to Jersey's happy residents and to travelers passing through. On the first count most small boys are spared any more serious penalty than their mothers' displeasure. On the second, blue-jeaned bobby soxers are absolved of blame.

The third finding makes it all right to hitch-hike—if you don't get left in Hackensack. The call of the open road is legitimized in the fourth, so long as the truck driver doesn't mind. On the fifth count, the established practice of itinerant farm work gets judicial approval. And on the last, the justices found that the misfortune of being down on one's luck doesn't necessarily constitute vagrancy.

The court also gave the pleasant reassurance that, in the U. S. temporary unemployment and a total capital of \$14 do not lessen the dignity of the individual or destroy his equal rights before the law.

Gracie Reports

By GRACIE ALLEN
Well, I see that a doctor from a medical college in Brooklyn says that a man is really a man when he reaches 24 years of age and has hair in his ears.
F. M. George's pronunciation of "plaster" always thought that in Brooklyn, a man wasn't really a man until he'd bitten his first fry. It was also my impression that hair on the chest was the mark of masculinity, but I suppose this new hair-in-the-ears theory is more in keeping with modern trends of living—everything is going up.

AIR WAVES TUMULT by Peter Edson

WASHINGTON—(NEA) — Another grand row of "freedom of the air" is now shaping up in Congress over Maine Republican Sen. Wallace H. White's new bill to amend the 20-year-old Federal Communications act, under which broadcasting is licensed and regulated.
The act was last amended in 1934. In the seven intervening years there have been a number of industry attempts to amend it some more and curb what have been branded as the "dictatorial" powers of the Federal Communications Commission.
Last attempt was made in 1943 when Senators White and Burton K. Wheeler collaborated to rewrite the law. That ended in stalemate when the Senate Interstate Commerce Committee, after lengthy hearings failed to bring FCC's then stormy-petrel chairman James Lawrence Fly into any kind of agreement with the National Association of Broadcasters, the radio station operators' trade organization.
NAB finally decided to sign off and wait for more favorable atmospheric conditions in Congress. That came this year. Fly had long since flown. He was succeeded by Paul Porter, and Porter was succeeded by 35-year-old Charles R. Denny. Relations between the industry and the FCC are probably better than they have ever been before. Also, the Republicans have taken over Congress.

Compulsory Military Training
If compulsory military training is not in harmony with God's laws then it is not preparation. If compulsory military training is to be the whole doctrine of the Declaration of Independence is absolutely wrong. Then the whole idea of the American way of life has been wrong all these years. Then the Ten Commandments and the Sermon on the Mount have been wrong.

SHOCKED—In view of this background, Ohio's Republican representation in the House was shocked and chagrined when they recently received a letter urging them to support Mr. Bricker's anti-Red record. It carried the signature of John W. Galbraith, chairman of the Veterans Committee Against Communism.

QUITTING—Senator Arthur H. Canadian Receives First 1947 Wheat

CANADIAN—(Special)—The first load of 1947 wheat was brought to Fraser Grain Company elevator here Monday by Elmer Keahy of the M K Community of Canadian. Keahy received \$1.81 plus a 25 cents per bushel premium for the first load. The wheat tested 61.8 and was said to be "really turning out good," but Keahy would not hazard a guess as to the yield per acre as he had harvested only two loads.

D. L. (Bud) Hardin also delivered one load to Fraser Grain Company Monday from his home place

Wheat to Be Ready Next Week

With continued warm dry weather, there should be a large acreage of wheat ready for harvest by the middle of next week, according to County Agent Ralph Thomas. There may be a small acreage of early varieties of wheat ripe enough to cut by Saturday of this week. There is a considerable acreage of wheat that is still green, which will take two full weeks to be ripe enough for harvest, Thomas pointed out.

"Yes, Gray County is going to make a lot of wheat this year, in spite of the green bugs, hail and red rust," Thomas said. "With the Government Price Support, we should produce between three and four million dollars worth of wheat this year. I am thinking very little of 40-bushel wheat. There will be some 30-bushel wheat and a lot of wheat yielding 15 to 25 bushels per acre," he said.

Thomas thinks there will be more custom combines in the county than in previous years, but the demand is going to be greater than ever before. Farmers are anxious to get their wheat harvested as soon as possible, and they are wanting to hire combines this year, even though they have machines of their own. The fact that all of the wheat is not ripening at once should ease the combine situation.

From the number of combines near Gem, Hardin's wheat tested 60.9 and he also declined to guess as to the yield per acre.

As I See It--

By SAM LEWIS VEITCH
Senator Harry Eld is a Democrat from Virginia, but he is strictly on the Republican side of the aisle when it comes to government spending. And he says that he's been around Washington for four years now, but never has he seen such a pressure campaign put on by the over 1100 government agencies to keep their budgets.

Byrd says that all the devices known are in use by the agencies to keep the cuts from taking place. "Raid" programs are presented, wholesale use of the franking privilege to put their point across, and wholesale firing of employees—by some agencies are only part of the campaign," he said. And he blames Mr. Truman for part of the pressure, because of his insistence on sticking with his original budget figure of thirty-seven and a half billion dollars. He pointed out the green light to the bureaucrats for a campaign against any cut at all, the Senator said.

Meanwhile, the President's comments on the farm program, which were endorsed by House cuts in the Agriculture Department budget, have kicked up a few reactions among Democrats and Republicans alike. Senator Guy Cordon, of Oregon, a Republican, said that he didn't think the President was very consistent with his thoughts along the reclamation lines. He pointed out that Mr. Truman had frozen funds for the same work, which were voted by the last Congress, and said that he couldn't see much difference between the two actions. He assured that the Senate would take a better look at the problem before making up its mind on the question.

Awards for Improving Job Methods On Farms To Be Given 4-H's

4-H Club members in Texas again have an opportunity this year to win special recognition for developing methods that will simplify their farm and home jobs. Recognition in the form of merit awards will be given on county, state and national levels in the 4-H Better Methods Electric Activity, the National Committee on Boys and Girls Club Work has announced.

Members need not have electricity on their farms to take part in this activity, which may be applied to all types of 4-H Club work.

Last year county winners were named in Bowie, Camp, Clay, Eastland, Fort, Bend, Frio, Grayson, Hale, Harrison, Harris, Jones, Lavaca, Llano, Montgomery, Moore, Sabine, Somervell, Taylor, Wood, Potter and Waller counties. Each county winner receives a gold-filled medal of honor.

State and national winners in 1946 was Harold Rampey, 16, of Lakeview, who received a trip to the National 4-H Club Congress in Chicago, and a \$200.00 college scholarship, provided by Westinghouse Educational Foundation. Among his work simplification accomplishments was the farm was the studying the job of unloading threshed sorghum into a granary. He proposed using a grain elevator powered with an electric motor. He recommended providing electricity on the farm and installing an electrically powered feed-grinder, electric brooder and other labor-saving farm and home appliances and machines.

Six state winners are selected for national honors, each receiving a \$200.00 college scholarship.

The activity is conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

Spring and Summer Best for Cattle on Irrigated Pastures
LUBBOCK—Late fall or winter is the best time to buy cattle to be placed on irrigated grass-legume pastures in the spring and summer, according to W. L. Stangel, Texas Technological College dean of agriculture.

These animals may be wintered on small grain pastures and in dry lot or sorghum fodder or silage. When irrigated pastures are ready for grazing, cattle are available which, because of inexpensive gains during the winter, will cost less per hundredweight than if bought at the beginning of spring grazing, he said.

Citing as an example results of an experiment conducted with 12 stocker steer calves at Tech from Nov. 27, 1946, until last April 30, Dean Stangel said the calves averaged 6 1/2 lbs. gain of 1.3 pounds per head at a feed cost of only seven cents per pound of gain. With this economy of gain, the steers went on irrigated grass-legume pastures May 1 at a cost of only \$19.45 per hundredweight, instead of the nineteen or twenty dollars per hundredweight which stocker steers of equal weight and quality would have cost had purchase been delayed until the

Farmers Given Wheat Support

WASHINGTON—(AP)—The Agriculture Department has announced it will support prices of wheat at a national average of \$1.80 a bushel during the rest of June.

This average is between 10 and 15 cents below current market prices.

Levels at which the Department will support wheat for the period beginning July 1 until the 1949 crop becomes available will be announced early next month.

The Department is required by law to support prices at not less than 90 percent of the parity price of the grain at the beginning of the marketing year July 1. Inasmuch as the July 1 parity can not be determined until after that date, the Department announced an interim support program for wheat which is being harvested this morning in the Southwest.

Prices will be supported by means of loans on wheat and by government purchase agreements.

The interim loan rates at principal markets include:

Number one hard winter wheat \$2.25 at Kansas City and Omaha \$2.05 at Galveston, \$2.05 at Chicago and St. Louis.

Number one red winter, \$2.05 at Chicago and St. Louis, \$2.16 at Philadelphia and Baltimore, and \$2.07 at Louisville.

Rates at country storage points will be less than the rates at nearest major markets by the amount of transportation and handling charges.

Loans will be made available by the Commodity Credit Corporation through Dec. 31, 1947 and will mature on April 30, 1948, or earlier on Department demand.

Purchase agreements will be offered through December 31, 1947 and will provide for purchases of whatever quantities of eligible wheat a producer may elect to deliver to the government during the 60 day period immediately following the maturity date of 1947 wheat loans. Purchase prices will be the same as the corresponding loan rates.

In most years heretofore, only loans have been available to the wheat growers. This year's support program, including purchase agreements as well as loans, is designed to simplify the program for farmers, officials said, and to reduce administrative expenses.

Only wheat grading No. 3 or better or No. 4 or No. 5 having one of test rate only, will be eligible for loan or purchase.

Fertilizer Research For Irrigation Crops Conducted at Lubbock
LUBBOCK—Research to provide more information on desirable fertilizers for growing crops under irrigation is being conducted at Texas Technological College by Earl Burnett, graduate student.

Burnett, working under supervision of Dr. A. W. Young, plant industry department head, will study fertilizer efficiency on plots of selected popular crops and will also run a series of tests to determine variations of organic matter contents in soils of different fertility levels. The plant industry department has received hundreds of requests for information on fertilizers in recent months, Dr. Young commented.

Another research project, started a number of years ago on range improvement is being continued this year by Jud Morrow under Dr. Young's direction. Special emphasis is placed on eradication of yucca and mesquite, and it is hoped that more work will be possible in the next few months on poisoning these plants with 2-4-D compounds, Dr. Young said. Preliminary experiments last year indicated that the chemical compound appears to have good possibilities, he said.

4-H's Adopt New Slogan to Improve Rural Life in U. S.
"Improve Rural Life by Making Home Surroundings More Comfortable, Convenient and Attractive."

That's the slogan of rural youth leaders in the 1947 National 4-H Home Grounds Beautification awards program. The activity is conducted under the direction of the Extension Service in Texas and 41 other states. Its purpose is to encourage 4-H's to make and keep home surroundings attractive by correctly planting and caring for lawns, flowers, shrubs and trees; removing unsightly objects from yards, and painting buildings and fences.

As incentives for superior home-landscaping records, merit awards are donated by Mrs. Charles R. Walgreen, Chicago, for the tenth consecutive year. Awards comprise silver medals, shrub watches and Chicago 4-H Club Congress trips, on county, state and national levels, respectively.

Last year, county winners were named in Castro, Comal, Fort Bend, Frio, Grimes, Hall, Hardeman, Harris, Howard, Jones, Moore, Nolan, Somervell, Wood, Cameron, Camp and Sabine counties.

The state winner in 1946 was Floyd Thomas Terrell of Plainview. County extension agents will provide information and suggestions for carrying on the activity and helping 4-H members in reaching its objectives.

NEW BARNYARD METHOD OF FORECASTING FUTURE
DALLAS—(AP)—Mrs. G. B. Powers' version of "The Egg and I" is a barnyard method of forecasting the future.

The 65-year-old Dallas widow says she even forecast the Japanese sneak attack on Pearl Harbor—by studying markings on hen eggs. No fancy crystal balls or prophetic playing cards for her.

She says she needs just one hen egg.

Right now she is exhibiting an egg laid on Friday, June 13. She points to a vague, white outline of a Disney-type eagle on the brown shell.

What does that mean?
Well, predicts Mrs. Powers, that's a sure sign that the United States is on the verge of World War III. American boys, she avers, are go-
