## Phillips-Union Negotiations Resumed

### Danciger Plant May Be Reopened

Union and Phillips Petroleum Company negotiations were resumed at 1:30 o'clock this afternoon, following the arrival at Borger from Washington of Robert Woods, union leader, and a union announcement said the talks would "continue until present issues are settled."

This development came in the wake of others in connection with the nine-day-old tie-up of a portion of the Panhandle's major industry.

There was good indication—although there was no official announcement—that the Danciger Refinery here would re-open. The plant, recently purchased by Phillips, has been lighted at night part of this week. Unofficially, it was learned that there are about 80 men at the plant, putting equipment in shape. But there was no official comment, which is understandable in view of the fact that negotiations were resumed today at Borger.

### Three Teen-Age Girls Heard in Juvenile Court

Three teen-age girls were remanded into the custody of their parents yesterday afternoon by Judge Sherman White after one girl admitted stealing articles from several stores and one beauty parlor.

They were the same three girls who ran away from home Friday, May 2, and were apprehended in Borger the following day.

The same day the three left for Borger, a purse, containing several keys, a small amount of money and other valuables, was missed from the Modern Beauty Parlor. The purse was found in the ladies rest room on the second floor of the Court House, but the contents were gone. All three girls were seen in the beauty parlor Friday.

About a week earlier the same girls were seen hanging around the Woolworth 5 and 10-cent store. Here they entered the ladies dressing room and walked away with three dresses, one coat and a pair of shoes. The room is used by clerks to change clothing. One clerk had to purchase a dress before she could go home that day.

On another occasion the girls were seen in Behrman's store going through several coats hanging on sales racks. However, only 75 cents in change was missing after they left.

On Wednesday, Juvenile Officer Paul J. Behrman, of the Junior High School for the three to report to his office. When they reported to him they were taken to the business houses and recognized by managers and employees. Later Hill released them to their parents, and told them to report to the County Judge.

The father of the 14-year-old girl, who admitted she had committed the thefts, agreed to replace all the stolen property. Her two 12-year-old companions went with her on each of the escapades.

In addition to releasing the girls to their parents, Judge White ordered each one to report every Monday, with their parents, to the Juvenile Officer until further notice.

### Attempt to Halt Action Blocked

WASHINGTON—(AP)—The Republican majority on the Senate Finance Committee blocked two Democratic attempts today to postpone action on the \$3,900,000,000 income tax cut bill voted by the House.

Both moves lost by identical votes of 7 to 6 on a straight party division.

Senator George (D-Ga.), senior Democrat on the committee and its former chairman, moved to defer action on the bill until June 15. By that time, he argued, Congress would have a better idea of what reductions can be made in government spending and the two houses might be able to get together on their legislative budget.

Following rejection of that proposal, Senator Byrd (D-Va.) moved to delay action 10 days, meanwhile requesting the conferees on the legislative budget to reach an agreement, if they could not do so, to report their disagreement to the Senate.

Chairman Millikin (R-Colo.) told reporters he believed the morning's action, taken behind closed doors, cleared the way for some definitive votes on the measure itself.

He predicted it will be amended to make the tax cut effective July 1 instead of last January 1.

## Senate Probers May Call for FDR Papers

WASHINGTON—(AP)—Senate investigators on the trail of an Arabian oil deal debated today whether to open up Franklin D. Roosevelt's files with a subpoena or rely on President Truman to obtain the information they want.

The late President's executors made it plain they will not voluntarily permit an unrestricted search of his papers.

Chairman Brewster (R-Me.) told newsmen he will discuss with Burton K. Wheeler, the committee's special counsel, whether to be satisfied with documents which Mr. Truman has told the executors to provide.

As an alternative, Brewster said, the committee could issue a subpoena requiring the Roosevelt estate to give investigators full access to the files. They are packed in 165 cases weighing 40 to 50 tons.

Basil C. Connor, Roosevelt's former law partner and one of the executors, told the committee at a closed session yesterday that he is subpoenaed, "we have to act in accordance with whatever the subpoena requires us to do."

But he added: "We would not voluntarily permit the examination of the papers by anyone, even on the request of the President."

The committee later in the day made public a transcript of testimony at the session.

Earle Koons, attorney for the executors, assured the committee that Mr. Truman has asked for "all letters and documents pertinent to the subject of the inquiry. He said these are now being gathered together and will be sent intact to the White House."

Solon J. Buck, National archivist, disclosed that Mr. Roosevelt made arrangements two years before his death in April, 1945, to have his papers screened.

The idea, Buck said, was to determine "which ones should be withheld from general consultation, mainly from the standpoint of their possible repercussions on individuals and their reputations."

The papers are in the hands of the executors until they can be turned over to the Roosevelt Memorial Library at Hyde Park. The committee will report on the matter to the Senate.

## Local Firemen Win Dual Drill

Pampa firemen last night nosed out Canadian firemen in a pump and hydrant connection drill held in the fire station here. The Pampa men turned in the best time of 18 seconds for the drill.

The contest was held in preparation for the contests to be held at the Panhandle Firemen's Association Convention to be held at Levelland on May 13.

Those present from the Canadian Fire Department were: Fire Chief Preston Hutton, Capt. John Wilkinson, Capt. Carl Zybach, Capt. Lawrence Teague, Lt. Earl Rhea, Lt. Jack Nicks, Dallas Hodges, Allen Thompson, and Clyde Beaty.

A luncheon was held in the Brown Derby Cafe after the drill.

## Margaret Truman to Sing in Amarillo

NEW YORK—(AP)—Three Texas towns are included on the first concert tour of Margaret Truman, daughter of the President, this month.

The itinerary, announced by her teacher, Mrs. Margaret Strickler, yesterday, will begin at Cleveland May 22, Miss Truman will appear in Dallas, May 25; Fort Worth, May 26; Amarillo, May 28; and Oklahoma City, May 30.

Mrs. Strickler said that the President and Mrs. Truman would not attend any of the concerts.

## Paralysis to Spain's Steel Industry Ends

BILBAO, Spain—(AP)—Generalissimo Francisco Franco's government appeared today to have crushed a general strike which virtually immobilized the vital steel industry in this area for eight days—the strongest demonstration by Spanish industrial workers since the civil war.

Most workers returned to their jobs yesterday, penalized by loss of seniority and wage reductions, and informed sources here said they expected the walkout would be ended completely today.

The informants calculated that 30,000 of an estimated 45,000 workers in steel, heavy machinery, shipbuilding, mines and construction work stayed away from their jobs Monday and Tuesday. They attributed the collapse of the demonstration to failure of industrial workers in other sectors of the country to back it up with sympathetic walkouts.

The Civil Government declared, however, that the strike reached its peak Wednesday and placed the number idle on that day at 11,000.

In Madrid, underground Basque sources distributed a manifesto signed by Socialist, Anarchist and Communist and Basque Nationalist Labor Organizations urging the Bilbao strikers to continue "without vacillation."

The manifesto warned against "some leaflets signed by the National Communist Party which we suspect are issued by elements interested in confusing us."

The Bilbao workers first left their jobs on May Day for a one day demonstration in observance of the traditional European Labor Day. The government retaliated with an order firing those who demonstrated and requiring them to apply to Civil Governor Gacarra Riestra for reinstatement within eight days, with loss of seniority rights.

In protest against this order the workers struck in force last Monday.

Except for publication of anti-strike decrees in the Bilbao newspaper, the walkout has not been mentioned in the controlled Spanish press.

The organization of the demonstration and strike was attributed generally here to Basque Nationalists.

The Basque Government in exile in Paris estimated the number of strikers at 50,000 and charged last night that Spanish police had arrested 6,000 of them. It said Spanish orders were so full that Francisco's men were using a bull ring as a jail.

## Pair Use Fists, Gun On Dallas Trainman

DALLAS—(AP)—People who fret when delayed at railroad crossings by long trains or halted trains had a pair of champions today who were willing to use fists or guns to express their pique.

Three people waited in a car while a switch engine moved cars back and forth at a Dallas crossing this morning. The switchmen broke the train to allow the automobile to pass, but just then another train lurched up again blocking the crossing.

The driver climbed out of his car and took up the issue with his fists against the noogie of one of the switchmen.

A woman in the car had her say also—with three shots from a pistol. The shots broke up the fight. The switchmen dodged behind their engine. The automobile driver ran back to his car.

By that time the crossing was clear and the car sped away.

## Willie Francis Dies in Chair; Second Attempt

ST MARTINVILLE, La.—(AP)—The state of Louisiana succeeded today in its second attempt to execute Willie Francis.

The 18-year-old Negro, convicted in a holdup killing, died calmly in St. Martin Parish Jail here today in the state's portable electric chair—the same chair from which he walked away on May 3, 1946, after a loose connection had caused the deadly current to be diverted from his body and into the ground.

Willie, who had practiced walking the short last mile so that he could "die like a man," settled himself smiling widely into the chair at 12:02 p.m. Central Standard Time. The switch was thrown at 12:03. He was pronounced dead at 12:10, after receiving two shocks, one of half a minute and one of 15 seconds.

This ended a year-long battle over the state's legal and moral right to execute a prisoner after a first attempt had failed. The fight was taken vainly on Willie's behalf twice to the United States Supreme Court, three times to the Louisiana Supreme Court and three times to the State pardon board.

On one occasion the nation's highest court ruled against Francis only by a five-to-four vote.

With Willie there died an old legend of uncertain origin but widespread belief that a condemned man's life would be spared if an accident stopped his execution.

Francis was convicted of murder in the killing of Andrew Thomas, white druggist of St. Martinville, during a bidup that netted about four dollars and a watch.

## Separate Sessions Held in St. Louis

NEW YORK—(AP)—Groups of Long Distance Telephone employees returning to work following settlement of the long lines phase of the nationwide strike refused today to cross picket lines of other unions still on strike.

Admitting there was "nothing resembling a general back-to-work movement" here, an American Telephone and Telegraph Company spokesman said the same condition existed throughout the eastern part of the nation and that it was "reasonable to assume" the same situation existed in the central and western parts.

The workers were members of the American Union of Telephone Workers, whose 20,000 members from coast to coast were slated to begin returning to work at 6 a. m. in the various time zones across the country but remained "pledged to honor the picket lines of any affiliated union."

This policy was stated by the AT&T executive board, which last night approved a wage agreement calling for weekly increases generally ranging from 82 to 84. The agreement had been reached in Washington, D. C., earlier in the day by union negotiators and representatives of the American Telephone and Telegraph Co., parent organization of the Bell System.

In Washington, officials of the National Federation of Telephone Workers, which called in April 7 strikes estimated that about 25,000 of the 87,000 members of NFWW who valued an anti-union contract. A list of 300,000 names, just affiliated with the NFWW, are said to have joined the strike here returning to work under wage agreements.

Most of the workers still on strike being the remaining employees of the AT&T from negotiations with the unions. Bell System companies are expected to terminate NFWW efforts to bring a national settlement.

ST LOUIS—(AP)—Spain's meeting with Southwestern Bell Telephone Company and the Southwestern Telephone Workers Union were held today in an effort to speed up settlement of the 33-day-old telephone strike in the company's six-state area.

William F. White, regional director of the U. S. Conciliation Service at Kansas City, joined Federal Conciliator A. E. Johnson in conducting the negotiations.

George C. Graybill, vice-president of Southwestern Bell, largest operating subsidiary of the nationwide Bell System, repeated the company's intention to make a cash offer before the end of the week, and said:

"Our proposal is being worked on diligently. We cannot make a definite statement as to when the proposal will be submitted but our commitment to make it by the end of the week will be met."

Meanwhile, the union, which has announced it would stand by its demand for a \$5 average weekly wage increase, said employees of the American Telephone and Telegraph Company who ratified a strike settlement last night were refusing to cross ST&W picket lines until an agreement was reached in the Southwestern Bell dispute.

Francis was convicted of murder in the killing of Andrew Thomas, white druggist of St. Martinville, during a bidup that netted about four dollars and a watch.

On one occasion the nation's highest court ruled against Francis only by a five-to-four vote.

With Willie there died an old legend of uncertain origin but widespread belief that a condemned man's life would be spared if an accident stopped his execution.

## Worley Makes Appeal For Tornado Funds

WASHINGTON—(AP)—An appeal to a House Appropriations Subcommittee to approve legislation to provide Federal funds for the rehabilitation of tornado-stricken areas was made yesterday by Rep. Worley (D-Texas).

Worley said that approximately \$2,000,000 is needed to rebuild public buildings destroyed in the Oklahoma and Oklahoma Territory areas.

The committee has under consideration a bill by Worley to provide \$2,000,000 for relief in the two Texas areas and in Woodward, Okla. A separate bill by Rep. Rye (R-Okla.) covering the Woodward damage also is pending.

 The Pampa Daily News said that 30 percent of the Akron tire-makers' supply of channel black had been cut off by the strike. He said that if the strike continues for any appreciable time, half of the Akron rubber industry would be forced to shut down.  
 About three weeks' supply of carbon black is on hand, he said. For every 100 pounds of rubber about 50 pounds of channel black is used in the mixing process.  
 Another result, if the strike continues, he said, would be the closing down of furnace black plants

which produce 7,500,000 pounds of furnace black a month, black that is also used in compounding rubber.  
 The strike, he said, would also shut down some butadiene plants, one of which has capacity of 56,000 tons a year. Butadiene is one of the two principal chemicals used in making synthetic rubber, still being used in large quantities by the rubber industry.  
 Any announcement relative to the strike will come from a 12-man committee, which, apparently, is headed by the Washington headquarters representative, Woods.  
 Joe Rigdon, business manager of Local 351 at Borger, had been handling press statements up until two days ago, when it was announced that thereafter the committee would make the announcements.

### Texans Are Being Held in Louisiana

NEW IBERIA, La.—(AP)—A group of Louisiana police officers were to leave for Idaho today to take custody of two Texas brothers held there in connection with a series of Southwest Louisiana robberies.  
 Police Sergeant W. L. Johnson said the pair were Fred Louder, 24, and Joseph Louder, 25, of Houston, charged here in connection with the robbery of a pool room of about \$1,200 several weeks ago.  
 Johnson said Police Chief Andrew Vator, New Iberia, and the Sheriff of Iberia and Vermilion Parishes would leave today for Twin Falls, Idaho, along with a state police officer.

 Why, over in Austria, they're even planning to ration vacations! Austrians would get a ration book good for three weeks at a government-designated resort, and black-market vacationing would be punished. I'd stay home under these conditions. I couldn't have a very good time with government men snooping around to see that I had a good time, and suppose you lost your ration book on vacation and rested up in jail while the Austrian OPA investigated your status?  
 Also, I don't like the idea of characters stepping out of dark alleys and saying, huskily, "How'd you like a vacation at Scheitzer's Dodge Ranch without any ration points?"  
 If we adopted the Austrian system I'm afraid no one would get a vacation except several hundred thousand government investigators who would be occupying all the resort rooms to see that the law was enforced.

Efforts on her part to arouse him failed and she called neighbors to help. Police and Dr. Malcom Brown were summoned.

Foul play was suspected when Dr. Brown discovered Hewlitt had suffered a broken jaw. This was cleared when Miss Brown told police Hewlitt had been in a fight on Monday in front of Sweet Dick's Cafe. She added that he had not gone to a doctor for any treatment and had eaten practically nothing since then. She said the only treatment he had received was when he asked her to rub kerosene on his swollen jaw to ease the pain. Hewlitt had apparently gone to bed for a nap as he was found lying in his underwear.

**THE STORY:** Sophie exerts a promise from Vicky to take care of the old man should she (Sophie) die before they do. Vicky decides she'd better marry before then, as it might be difficult to find a husband who is willing to accept four old men along with his bride.

XX

IN August the nights began to grow cold and by the middle of the month it was impossible to stay in swimming for more than a few minutes. Sally came home for a week-end and spent Saturday afternoon seeing about having his boat put up for the winter. He said he expected to get orders soon and couldn't take a chance on having to go away suddenly and leave her unprovided for. On Saturday night he took Vicky dancing in Portland with some friends and told her she was getting too thin and ought not to work so hard. On Sunday morning he came out on the veranda of his mother's house and whistled for her with two fingers in his mouth.

Vicky, who was watching him from the window of her bedroom, pretended not to hear. He whistled twice more, then started across the lawn in the direction of Gray Shingles. Vicky went hastily downstairs to sit on the porch with a magazine.

"Didn't you hear me?" Sally demanded, appearing at the foot of the front steps.

"Oh, hello, Sally!" She laid down the magazine and uncrossed her legs, sitting upright. "Hear what?"

"I whistled for you."

"Oh, was that what it was! I heard something, but I thought it was a sea gull calling to his mate."

"It was me. Come on over."

"Why don't you stay here? Come up, sit down."

He put one foot on the second step but came no nearer. "No, I want you to come over. This may

be my last week-end up here and I sort of think I ought to stay with the family. Let's go and see Uncle Adam. We can play a game of tennis later, maybe."

"All right," Vicky said brightly, trying to look as if nothing could please her better than half an hour with old Adam Bagot, except possibly a game of tennis, which she played very badly and did not much like.

UNCLE ADAM was sitting on his porch doing a crossword puzzle. He rose with grave courtesy when Sally and Victoria came upon him, offering the one comfortable chair to the lady. He was a thin, desiccated old gentleman with sunken eyes and the bones prominent in his face and hands.

"I am honored," he said, with a bow. "I had been hoping Miss Jenkins would come to see me again, but apparently she thinks she needs an escort. I have seen no one for several days except Ethel Codman, a woman created to make bachelors reconciled to solitude."

Sally sat on the railing, there being only two chairs on the tiny porch. "Aunt Ethel is Mother's younger sister," he explained to Victoria.

"She is the silliest woman in Boston," said Adam Bagot. "It's a great mistake to have a guest room. If you can't see enough of any person in the course of an eight-hour day, then you might as well live together and be done with it."

"You'd hate to live with anyone, and you know it," said Sally. "Entirely depends," answered the old gentleman.

Vicky wondered if he had never, in 30-odd years on the planet, found any kindred soul with whom he wanted to live. The thought of all that time alone was appalling. She cast back in her mind for a clue Sally had given

her to a long-dead romance in the life of Adam Bagot, but could remember nothing specific.

"Perhaps you would like to see my cottage?" said Mr. Bagot. "I don't believe you have been inside."

HE rose to escort her through the tiny house, which had been intended as a gardener's cottage. It was crammed with books and maps and Chinese treasures dating back to the days of clipper ships. On a wall of the dining room was a large map on which he had followed the course of the war with pins.

Adam Bagot led the way back to his infinitesimal porch. "I'm sorry you couldn't see Goose Neck as it used to be, Miss Jenkins," he said. "It is quite spoiled now. These automobiles! Why, a trip to the village in the old days used to be a day's outing and we went into Portland only once a season to shop." He went on describing the happy inconveniences of Victorian life and the disadvantages of modern conveniences, his thin old voice going relentlessly along, brooking no interruption.

He's as dry as a bone in the Smithsonian Institution, thought Vicky. Not at all entertaining, like Granny's old men. Vicky was no more a respecter of persons than a mosquito, being used to the comings and goings of the great. Even she, however, in spite of his dryness, was impressed by Adam Bagot's appearance, antiquity and eccentric mode of life.

When they left she promised to come back and see him, and whispered to Sally as they went into the garden, "I suppose if your name is Adam Bagot it would be awfully hard to find somebody to live with! Just anybody wouldn't do."

He laughed. "No, there's something more to Uncle Adam's loneliness than just wanting to be exclusive. I never did know quite what it was. He's so unconscionably old, I doubt if even Mother knows. Anyway, you must have made a great hit with him, because he never asks anyone to call. Aunt Ethel has been trying to get inside his house for 20 years!"

**The Battle Between Communism, Western Democracy Intensifies**

By DEWITT MACKENZIE AP Foreign Affairs Analyst

France's political crisis, in which Socialist Premier Paul Ramadier has made the sensational move of ousting the five Communist members of his coalition cabinet, could be the opening gun in the main engagement which has been boiling up between Communism and the more conservative elements in Western Europe.

It is significant that simultaneously the battle in the Western Hemisphere also has intensified. Brazil has outlawed the Communist Party and is taking drastic measures to enforce the edict. The Red line already has overrun virtually all of Eastern Europe and the Balkans. The question of whether it can drive its way through to the English Channel will be decided in France. Upon this decision also hangs the fate of numerous other European democracies.

Italy, which long has been struggling with a similar political crisis, is watching developments in France with tense anxiety. In both these strategically important countries the situations have been largely affected by grave economic conditions. Communism thrives on bad times in which despairing people clutch at straws to save themselves.

What has happened in France during the past few days is this: The Ramadier government has adopted a wage-price freeze pro-

**Amarilloan Held In Army Theft**

WASHINGTON—(AP)—One Texan is among four men held by the FBI in connection with alleged thefts of \$20,000 in surplus Army weapons. The FBI listed the Texan as Edward Browder, Jr., of Amarillo, a pilot of Pan American Transport, Inc., a private Air Cargo Company. The State Department said yesterday that "there was an alleged connection between these arrests and Venezuela." A department official said Venezuela had been receiving almost daily reports on developments in the case. The spokesman did not elaborate on the alleged connection.

## Baptists Against Federal Aid for Church Schools

ST. LOUIS, Mo.—The Southern Baptist Convention, protesting what it described as a "threat to the future of all public schools," went on record today against acceptance of Federal aid by church-sponsored schools.

The convention, attended by 7,000 persons from 18 states and the District of Columbia, adopted unanimously a resolution turning all Baptists against Federal aid for church-sponsored schools.

Dr. J. M. Dawson of Washington, executive secretary of the Joint Conference Committee of American Baptists, spoke vigorously in favor of the resolution, declaring that there was a "deplorable drift toward union of the church and state, resulting in dangerous encroachment on the constitution. . . . We protest appropriation of tax funds to sectarian purposes."

The Baptist also voted to send a message to President Truman "to express our appreciation for the great service he is rendering."

Also adopted by the convention yesterday was a resolution deploring the recent Supreme Court decision which upheld 3 to 4 a New Jersey case for use of Federal funds to help pay the cost of transporting children to and from Parochial schools.

Dr. J. M. Dawson of Washington, executive secretary of the Joint Conference Committee of American Baptists, spoke vigorously in favor of the resolution, declaring that there was a "deplorable drift toward union of the church and state, resulting in dangerous encroachment on the constitution. . . . **In Hollywood**  
By ERSKINE JOHNSON  
NEA Staff Correspondent  
(Johnson on KPND Monday thru Friday, 2 P. M.)

HOLLYWOOD—Sol W. Zrel just produced his 100th motion picture, "Second Chance." That's a Hollywood record. At the same time Sol celebrated his 30th year in the movie capital. That's a record, too, in a town where fame is so fleeting.

And what he remembered most vividly was the difference in costs of moviemaking 30-years-ago and the five million dollar budgets of today.

In 1917, Sol, then head of Fox, produced a film titled "Feud," with an unknown cowboy named Tom Mix. The picture cost \$16,000. President William Fox in New York wired Sol in Hollywood.

"This is entirely too much money to be spending on a cowboy. Stop making these pictures." But Sol completed the picture and Mix wound up getting a salary of \$10,000 a week.

In 1927, Winnie Sheehan and Frank Borzage made the Academy Award winning picture, "Bad Girl," with Jimmy Dunn and Sally Ellers. Total cost for script, talent, and production was \$300,000. Ten years made that make a difference.

**RETROSPECT PIONEER**

Sol is credited with being the first producer to make a picture telling the story in retrospect.

"That," he laughs, "was an accident." Here's what really happened:

In 1920, a fellow named Lynn Reynolds made a film for Sol titled, "Broadway Roundup." When it was completed, Reynolds asked

### Police Seek Young Girl Wanted Here

A 16-year-old girl, affected with four-plus syphilis, is on the loose in Pampa and was being sought by City Police yesterday after she had walked out of the Court House when told by Judge White to report to Juvenile Officer Paul Hill.

girl left, but did not go to Hill. Police were notified to pick her up on sight. The teen-age girl was apprehended at 3 a. m. January 6 on the Borger Highway where she was attempting to thumb a ride. She was given a health examination which showed her case. Taken before the County Judge, she was remanded into the custody of her parents and ordered to undergo medical treatment. In addition Judge White directed her to remain home, several miles south of town, and not to enter the city unless accompanied by her parents—until she was no longer communicable.

home after which she left. She was next accounted for when she appeared in the judge's office yesterday morning. No one was able to say why the girl came into the judge's office. Both City Police and Sheriff's Department attaches said they had not arrested the girl and reiterated Hill's belief she came in on her own for some reason known only to her. Both departments were given a full description of the girl.

### Crow Proves to Be Very Brainsy Fellow

By ARTHUR EDSON  
WASHINGTON—(AP)—Don't laugh at the crow, friend. He may be smarter than you are.

The Smithsonian Institution announced today that Dr. Alfred Otto Gross has just completed a study of this noisy bird. His conclusion: The crow is a very brainsy fellow. Let us assume that when you were young, you were captured by some crows. Could you ever learn to talk and act like a crow? Probably not. But a crow, when captured as a pet, learns to act mightily like a human, says Dr. Gross.

"Pet crows," he says, "are known to possess unusual ability to imitate the sounds of the human voice. They readily master such simple words as 'mama,' 'papa,' 'hello,' 'howdydo.'"

"Human laughter is often imitated to perfection. Like the parrot, has a complete set of voice muscles. Okay. But does that make him a smarty-pants? "Henry Ward Beecher," notes Dr. Gross, apparently with approval, "said that if men could be feathered and provided with wings, very few would be clever enough to be crows." Yet crows, despite their brainsiness, have their troubles.

They are destructive, which makes farmers mad. They hang together, which makes them easy mark. Dynamite killed off 328,000 crows near Rockford, Ill. And in one swoop 26,000 were killed by bombing a roost near Dempsey, Okla.

Oklahoma, by the way, once tried to get rid of the crow by eating him. Recipes were printed in the papers. Restaurants were urged to serve same. The campaign fizzled out, and I think I know why. I sampled some, and can pass along this verdict: The crow may be smart, but he'll never replace fried chicken.

Michelangelo was essentially a sculptor and painted only occasionally.

Man Hails Wrong Cab—Expensive

A middle-aged man, feeling slightly in his cups, wanted to cross the street last night and waved his arm to stop an oncoming car. Much to his surprise, the car obligingly came to a full stop, opening the back door and bade him enter.

The enebriate discovered he had hailed a passing police car. This morning he left \$10 with Judge Clifford Braly—a rather expensive taxi ride.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE BLOOMINGTON, Ind. — (AP)—A world-renowned scientist—Indiana University students call him "Mister Mutation"—believes the medical profession is permanently damaging the American life stream

through the unwise use of X-rays. "There is no dosage of X-rays so low as to be without risk of producing harmful mutations." Dr. Herman Joseph Muller, Nobel prize winning geneticist told me in an interview. Mutations are inheritable changes in physical characteristics caused by changes in the genes, the infinitesimal keystones of heredity that keep us in the image of our ancestors. Dr. Muller, a small balding man of middle age, is the first man in history to show that these changes in the pattern of heredity can be artificially induced. He did it 21

years ago by subjecting fruit flies to changes in temperature and radiation. He thereby produced fruit fly offspring with such new inheritable characteristics as three wings, a changed eye color, or a shortened life expectancy. He proved that such mutations are recessive and mostly deleterious—that for every such change which improved the fruit fly, breed there were hundreds that hurt it. His experiments also indicated that any artificially induced change was permanent, dying out only when the line of descent died out. It is for this reason that Dr. Muller urged a more careful use by the medical profession of X-rays. "Mutations happen naturally all the time," he said, "but a heavy dosage of X-rays may speed up the rate of million fold in a given period." He was particularly critical of the use of X-rays to produce fertility

Referendum Election May Be Sought by Waco City Employees WACO—(AP)—A referendum election of city officials to be sought if wage increase requests are not met. Representatives of the city employees' union said yesterday. The union is asking increases ranging from \$10 to \$20 a month. H. R. Mueller, of the American Federation of Labor, said he would return to Waco to aid in preparing a referendum petition if the pay boosters are not forthcoming. A special meeting of aldermen is expected to be called to pass on the request, which would cost around \$27,920 annually. The union represents employees in the police, fire and water departments. It contends that present city salaries are below prevalent wage levels in Waco.

# Pampans Take 2nd Straight from Blue Sox

## Oilers Get 14 Base Hits to Back Al Johnston's Hurling

ABLENE—The heavy artillery of the Pampa Oilers was unrelenting here last night when they pounded Abilene's Babe Dean for 14 base knocks to back up a four hit pitching performance by Al Johnston as the Pampans won easily from the Sox, 9-1.

The Oilers found the going tough in the first three frames as they were held to one hit but cut loose in the fourth and continued their hitting ways from there on, scoring in every frame except the eighth.

The visitors took a 2-0 lead in the fourth on Bailey's double, a single by Fortin scoring Bailey and after Fortin took second on the throw in. Manager Grover Seitz then allowed a single to left to send Fortin across.

The Oilers added another run in the fifth on successive doubles by Bailey and Fortin. Then in the sixth the Pampans put the game on ice with a three run spurt. Johnston walked to start the sixth inning rally, followed by Bailey and O'Connell. Bailey and Fortin sending the Oilers out in front, 6-0.

The Pampans picked up an earned run in the seventh when Howard Reynolds fumbled Oley's grounder allowing Smith to tally. In the bottom half of the seventh the Sox got their only run when Ed Bauer sent one out of the park for the Sox's first homer here this year.

In the ninth, Berryman walked and went to third on Smith's single and scored as the Sox tried for a double play on Oley's grounder which saw Smith forced out at second and the throw to first too late to catch Oley. O'Connell then drove Oley with a double and the scoring was over. In twirling four hit balls, Johnston gave up six bases on balls and struck out nine. The game was witnessed by some 1200 fans.

## Texas Loop Clubs Will Be Whittled Down Tomorrow

By WILBUR MARTIN  
AP Staff Writer

Today can mean the difference between country boy and city slicker.

Texas League players have a last chance tonight to convince managers should stick around. Tomorrow the teams have to be down to 19 players. Most of them are over-stuffed.

Only two teams got a chance to play yesterday and the results didn't do much to help either rookie or old-timer. Dallas blanked Shreveport, 2-0, and Houston outlasted Tulsa in a wild 11-9 affair.

Also playing against his former mates Elliott batted out two doubles and two singles, and drove in four runs yesterday to lead the Braves to a 12-5 win over the Bucys in Boston. The Braves now have a record of 11 wins against six defeats, the same as Chicago's Brooklyn, with 10 victories and five defeats, is even in games won and lost, but still retains the top post by percentage points.

The Cubs swept a double header from the Phils in Philadelphia, each by one-run margins. After winning the opener 2-1 behind the nine-hit pitching of Hank Wyse, the Bruins staged a six-run eighth inning rally in the nightcap to overcome an early Philadelphia lead and went on to win 8-7. Andy Pafko's two-run homer, his third of the season, climaxed the rally.

Harry (The Cat) Brecheen, hero of the 1946 world series, pitched the Boston Red Sox moved with the Dodgers in the first night game of the season at Ebbets Field to enable St. Louis to take the rubber game of the three-game series.

The White Sox relinquished the league lead to the idle Detroit Tigers by 12 percentage points.

The Philadelphia Athletics handed the St. Louis Browns their sixth straight defeat 5-3 under the lights at St. Louis to bury the Browns deeper into the American League cellar. Henry Majeskie, who won Thursday's game with a home run, drove in two runs to help Phil Marchildon gain his second mound win. Ace Relief Pitcher Ken Trinkle won his third straight game with the help of Rookie Bobby Thomson as the New York Giants came up with three runs in the eighth inning to subdue Cincinnati at the Polo grounds 7-4.

Cold weather halted the New York Yankees and Cleveland Indians as well as Washington and Detroit.

## Elliott's Heavy Hitting Against Former Mates Leads Braves to Win

By JOE REICHLER  
AP Sports Writer

Billy Southworth, manager of the Boston Braves, tried seven ex-members of the world champion St. Louis Cardinals in his lineup last year and wound up in fourth place.

This year Elliott branched out a bit, and the spark in his quest for a Beantown flag comes from the seventh place Pittsburgh Pirates of 1944—Bob Elliott.

Also playing against his former mates Elliott batted out two doubles and two singles, and drove in four runs yesterday to lead the Braves to a 12-5 win over the Bucys in Boston. ## Junior Hi Intramural Track and Field Meet Will Be Held Tuesday

Over 500 boys and girls will go to Harvester Park next Tuesday afternoon to participate in the Junior High School Intramural Track and Field Meet. Preliminary rounds were completed this week.

The competition will consist of students from eight hmcrooms in each of the 6th, 7th and 8th grades. There will be eleven events in all with a student allowed to enter a total of five events, only three of which may be running events.

All events except the jumping and the 400-yard relay will be run on the football field. Each entrant will wear gym clothes for participation and he must also wear a placard showing the hmcroom he represents.

The following events scheduled at the designated times:

1:00—Boys 100-yard dash; potato race for boys and girls; high jump (for boys).

1:30—Three legged race for both boys and girls. One team from each hmcroom may be entered.

2:00—50-yard dash for both boys and girls. Races will start on the north goal line and end on the 50 yard marker.

2:30—Boys broad jump will be held in the field west of bleachers; girls softball throw. Eight entries from each hmcroom will be allowed three throws.

2:45—Sack race for both boys and girls. Race will cover 30 yards. Begins on north 20 yard line.

3:00—Girls 110-yd. relay. One team from each hmcroom is allowed to participate. Begins on north-end zone line and is finished on south goal line; boys 440-yard relay. One team from each hmcroom. Events will be held west of bleachers.

Chinning the bar (boys) will be held in the gymnasium.

## Assault Out to Boost His Win Record Today in Dixie Handicap

By JOHN CHANDLER  
BALTIMORE—(AP)—The colt which may surpass Whirlaway's all-time cash collecting record before many months are gone—King Ranch's Assault—will go after another bundle of the folding green today in the mile and three sixteenths Dixie Handicap, and there will be few in the Pimlico crowd who would bet he couldn't do it.

Only seven were named to go in the 43rd running of this \$30,000 added Preakness-Eve fixture, and one of these is a stablemate of the Texan speedster owned by Robert J. Kieberg, Jr.—Flash Burn, victor in the Gittings Handicap here last week.

On the strength of Assault's "Horse of the Year" honors, earned by sweeping the turf's triple crown (Derby-Preakness-Belmont) among other major races, the Lone Star State's pride picked up \$424,195—largest sum ever gathered by a thoroughbred in any one session.

Assault now has banked \$473,770, and if he sticks his nose out front this afternoon he will pass Calumet Farm's Armed, and move into third in the dollar duel. If seven start in the Dixie, the race will gross \$35,750 with \$24,700 to the winner.

Victory for Assault would boost his total to \$498,470, compared with \$427,775 for Armed, which was unable to recover sufficiently from a winter injury to be ready for the Dixie. It also would move Assault right up behind the second money grabber, Mrs. Ethel D. Jacob's Sty-mie, which has won \$518,285. Whirlaway, also from Warren Wrigth's Calumet Farm, has a total of \$561,161.

## Preakness Brings Fans to Baltimore

BALTIMORE—(AP)—The viewers-with-alarm have been having a high old time of it here lately telling how racing is positively on its last legs and what a great game it was. So the Derby went out last week and broke all betting and crowd records, and how the Preakness is cutting up the same kind of cake.

With 24 hours still to go before "Maryland, My Maryland" brings out the ten-for-sure gee-gees—if it's a fast track and 12 maybe—for the romp for the black-eyed Susans at 3:10 p. m. (CST) tomorrow, the center of Baltimore was so jammed you might just as well call it sardineville instead.

## IT'S STILL PROPAGANDA

The Russian radio broadcasts 4 1/2 hours a day to North America in English and Yiddish, a report from Washington states. We'll hazard a guess that this is news to about 97.4 percent of Americans—the other 2.6 being government employees who listen as part of their job, and Communists and their friends who listen to be convinced of what they already believe.

Otherwise, we fear that Radio Moscow is bumping up against an iron curtain over here. It's not that Americans mean to be discourteous. The exploited serfs of a decadent, imperialistic government would just rather listen to Bob Hope and Fibber McGee.

If we did happen to hear one of the Soviet broadcasts, however, we fear that we would either be unimpressed or unbelieving. For we certainly would be told that the American government is undemocratic, expansionist, and reactionary. The Russian government would certainly be pictured as a spotless, misunderstood champion of democracy and freedom. Perhaps it's narrow-minded of us, but we would be inclined to say, "Nuts."

By the same token, we're pretty sure our State Department's "Voice of America" broadcasts don't have many Russian listeners. The Soviet Union has less than one radio receiver for every 1000 people. Those who do hear the broadcasts probably say, "Nuts," too. If they don't there's always Ilya Ehrenburg to review the broadcasts in Pravda and say it for them.

All this is too bad. But in the present state of affairs it can't be helped. It isn't entirely a matter of truth or untruth. Official American and Russian opinion can differ so widely and sincerely on the same issue as to give the impression of falsehood on the other side.

It is perfectly natural, then, for the average American to sprinkle salt heavily on any Russian broadcast before sampling it—if indeed he ever gets close enough to sample. And the average Russian is bound to approach an American broadcast with skepticism and suspicion. In a society as insulated as his, where thought is so severely directed and doubt so thoroughly squelched, it could not be otherwise.

So it seems that as far as broadcasts to Russia are concerned, all the current grief over a possible end of the State Department broadcasts is so much wasted weeping. However carefully and objectively the scripts were prepared, there isn't much chance that any Russians have been weaned away from the official Soviet line. And little good it would have done them or us if it had been.

Russians live under a dictatorship. They think and do, politically, what they are told to. Any change must come from the Kremlin. And before that there must be a better understanding between Moscow and Washington. Until then, any American broadcasts to the Russian people, and vice versa, will be received as unfriendly propaganda and treated accordingly.

## Texas Today

**By JACK RUTLEDGE**  
**AP Staff Writer**

An active, vigorous woman progressively paces the streets of Brownsville, many of the things she sees—the new buildings, the new industries, the new parks—make her proud.

Sometimes she finds something she doesn't like. She'll write a letter to the paper about it. Recently, she neglected a monument honoring the hero for whom Brownsville is named displeased her.

The Herald prints her letters. She is Mrs. Jesse O. Wheeler—and the Herald's masthead still says "Established as a daily newspaper July 4, 1892, by Jesse O. Wheeler."

She no longer owns the paper. She hasn't for years. But, as one of Texas' first career women, she helped build it.

Her husband, the founder of the Herald, was born in Victoria. She was Miss Frances Wheeler, the daughter of a prominent Victoria physician. They moved to Brownsville when it was a rough frontier town—far unlike old, dignified and safe Victoria.

She was barely out of her teens at the time. She knew nothing about newspapers. But labor was scarce, and she helped her husband. She wrote many of those early editorials—and they were widely quoted. She learned to love the profession.

In 1908 Wheeler died. In those days, few women worked. But Mrs. Wheeler decided to carry on. She stayed, not as a figurehead but as the editor and publisher. She ran the works.

During her regime the Herald became a member of the Associated Press. It was costly, and rather daring for a small paper. For many years Mrs. Wheeler was the only woman in Texas who held a membership in the Associated Press.

Earlier, she had brought to first leased wire telegraph news to the Valley. She installed the first typesetting machine South of Houston. In 1919 she brought the first press to South Texas that used newspaper rolls. It was an old duplex flatbed, and a plant in New York State still uses it.

She continued to modernize, improve the paper, write editorials that were so good in 1914 a New York publisher, the late Jason Rogers, listed the Herald as one of the 400 most influential papers in the United States.

The Herald's Valley leadership was challenged several times. She met and defeated the challengers. The paper grew and prospered.

Mrs. Wheeler bowed out of the paper in 1928, mainly because of her health. She sold the Herald to the late J. M. Smith, and immediately satisfied a life-long desire to travel.

She traveled extensively but always came home—to her paper. She had to see—and help—it grow.

The Herald after changing hands several times, today is owned by Leo F. Owens. Mrs. Jesse O. Wheeler

news behind the news

**WASHINGTON**  
**By RAY TUCKER**

**PRESTIGE**—The two projects which may inoculate the American controlled portion of Germany against Communism and enhance our permanent prestige among this stricken people are the United States Constabulary and the movement for instruction of younger boys and girls in western ways. Both undertakings were fathered by an Army officer possessed of unusual vision and humanitarianism.

It is General Joseph T. McNarney, who is not so well known as he should be, because he shuns the limelight. A brilliant air officer, he was picked by Secretary George C. Marshall as Deputy Chief of Staff when the former became head of our military establishment in September of 1939.

**TOP**—After heading up our command in Italy toward the end of the war, General McNarney became virtual Governor-General of part of the broken, bankrupt nation once known as Germany. He has now returned to this country as American member of the Joint Military Staff of the United Nations, which will handle the extremely difficult problem of organizing an international police force.

Incidentally, it was General McNarney who was delegated by then Chief of Staff Marshall to blueprint an entirely new system of military training, operations and organization soon after this country was drawn into World War II. In view of the success of our armies under this revision he is regarded as one of the handful of top military men who led the Allies to victory.

**DIFFERENT**—It is a literal fact that no American Army officer ever faced such a novel and difficult task as General McNarney did when he took over as military and civilian administrator of Germany.

Our occupation experiences in the past had dealt mainly with backward peoples like the Filipinos, for our stay in Germany after World War I was relatively short. Moreover, the Reich was then a going concern. Today it is a shambles from every aspect.

General Douglas MacArthur's problem is not comparable. Save for Hiroshima and Nagasaki, Japan was not an utterly shattered country. It has a comparatively small and homogeneous population, as well as a tight, enclosed economy. Nor was it a pawn among four different-occupying powers.

General McNarney, in short, had to be the head political ruler, military commander, food controller, sanitation director, street cleaner, building expediter, railroad and utilities commissioner, editor, school-teacher and general poobah for a bitter, despairing people. There are many prescriptions in the military manual, but there were no precedents or regulations for his assignment.

**PURPOSE**—The United States Constabulary has received hardly any notice over here but it was highly praised by Secretary Marshall on his post-Moscow inspection of our Army of Occupation. General McNarney compares it to the Canadian Mounted and our finest state police units. It got its original six-months training from a former head of the Rhode Island state police.

General McNarney had a two-fold purpose in setting up this unit. For one thing, with vivid and realistic recollections of the Gestapo under Hitler, the regular German police were in utter disgrace. General McNarney sought to restore confidence in the peacetime forces of law and order.

Even more important, he wanted the German people to know that the United States, as symbolized by his command, was interested in their welfare. Their deepest dread is that we will withdraw, and that the Russians will fill the vacuum.

In short, by creating this well-trained, helpful, omnipresent constabulary, General McNarney implemented the promises vouchsafed in former Sec. E. A. Tamm's famous Stuttgart speech and in Secretary Marshall's recent utterances.

The U. S. C. was organized in January of 1946, but it did not go into active service until it had received a six-month course of training, instruction and indoctrination.

**SCREENED**—The McNarney force the frail little woman who helped found the Herald gets her name in the paper more frequently than the publisher.

**Community Planners Might Get Planning Ideas From 'Napoleon'**

If the city and county planners run out of ideas of how to juggle with other people's business and plan their lives, they might read the strip "Napoleon." In the strip some busybodies have persuaded the city officials to make it illegal for any non-pedigreed dog to be kept in the district. Napoleon and his owner are having a lot of trouble.

Most of the planning will lead to loss of freedom and human initiative and eventually loss of our American way of life. This strip points out the absurdities of planning.

This comic strip runs in all the newspapers associated with the line, not even during the Santa Ana Register because the Los Angeles Times has this territory tied up. It thoroughly fits in with the idea of a definite plan as adopted by the board. Bittelman is a member of the executive committee of the Communist Party, USA, and one of the editors of the magazine formerly called "The Communist."

So it was interesting last week to observe that Russia's Gromyko confirmed the Freiheit plan by rising to the floor of the UN special assembly to back up the demand for an open discussion of Hassam Pasha's proposal for immediate independence for Palestine. The Soviets are out in the open with their bid for Arab friendship.

If their strategy succeeds in capturing the East or even the Middle East, the British Lion will be a shorn lamb and we will face the most serious threat of our history. It was this picture which Arab spokesman Hassam Pasha spotlighted before the special assembly when he warned briefly that a continuation of the present policy in Palestine will stir the Moslem world.

## STIR THE MOSLEMS?

**By Upton Close**

The dangerous impasse over the Palestine question has been brought into sharp focus by recent deliberations in the United Nations special assembly. It becomes clearer than ever before that this issue may very well bring on the long prophesied war of the East and West.

Though America is sympathetic to both the Jews, who need a homeland, and the Palestine Arabs, who are in process of being overrun or pushed out of their homeland, we nevertheless cannot escape being drawn into this fight, because we house the largest Jewish community in the world, the community which is one side of the Palestine issue.

Arab-nation spokesman Mahmoud Hassan Pasha told the UN special assembly last week that "the British mandate over Palestine is as bad as the League of Nations which granted it." He demanded independence for Palestine.

Why was he insistent on Palestine independence right now?

Because at present there are only about 650,000 Jews in the mandated Holy Land, as compared with nearly 2,000,000 Arabs. Immediate independence would give the Arabs majority and therefore the strength to regulate immigration into their own country. In a few years he refugees may hold the majority.

Hassam Pasha denied heatedly that his many millions of fellow Arabs, in Palestine and throughout the Arab states, were anti-Jewish, but what he meant was the Arabs simply want to preserve their way of life against any influx of other peoples who threaten to dominate. He hinted that a Jew might not

continue to be anti-Jewish.

**Spreading Hatred**

Various groups of American Jews have their own separate programs for Palestine. The program of the Freiheit Association, largest Communist group in American Jewry, is of special interest because it is lined up with the Soviets, who receive additional light on their program last week.

The Freiheit Association made their program reasonably clear in a report accepted by them in November, 1945, entitled "Report to the first yearly conference of the national board of directors of the Morning Freiheit Association." Robert H. Williams, a former major in Army Anti-Defamation League, and its Use in the World Communist Offensive" which I published recently.

According to the expose, the Freiheit plan is to retain strong Jewish communities in all the principal nations for whatever use the Reds can make of them, but also to encourage certain Jewish refugees from Eastern Europe to filter into Palestine. It is directed for the conspiratorial mind of the average American to believe such a plot exists. It involves the continued pressuring of Britain by increased infiltration of Jews into Palestine, while the Communists work for communists-Arab "unity."

Their ace card is the fanning of anti-British, anti-US feeling in the Middle East. Arabs already hold Britain and America responsible for the growing Jewish community in Palestine. Their hatred is rising. The Soviets and their Freiheit agents—past masters at spreading hatred appear willing to sacrifice,

## Repentance a Condition of Entrance into "The Church of Christ"

**1—WHAT IS REPENTANCE?**  
Repentance is the regretting of sin; (whether evil done, or good left undone) to the extent of quitting evil and the doing of good. It is a change of will, conduct, life and character. Jesus said: "A man had two sons; and he came to the first and said, Son go work today in my vineyard. And he answered and said, I will not; but afterward he repented himself and went." Mt. 21:28, 29. John the baptizer told the hypocritical Pharisees and Sadducees to BRING FORTH FRUITS WORTHY OF REPENTANCE. Mt. 3:7-12.

**2—IS REPENTANCE NECESSARY TO SALVATION?**  
Yes! Perhaps one of the hardest things for people to do is to repent. Some are stubborn, others do not know they are in sin, still others are careless and thoughtless, while all too many try to justify themselves by the mistakes of others. Jeremiah said, "I hearkened and heard, but they spake not aright; NO MAN REPENTED HIM OF HIS WICKEDNESS, SAYING, WHAT HAVE I DONE? Everyone turned to his course, as the horse rusheth into battle." Jer. 8:6. Since man first sinned, God has granted him the privilege to repent. People cannot hope to be saved unless they repent of their sins. Jesus said, "Except ye repent, ye shall all in like manner perish." Lk. 13:3.

**3—GOD THROUGH ALL AGES HAS PLEADED FOR MAN TO REPENT:**  
1—Through different prophets God plead for Israel to turn from her sins. Isaiah said, "Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto Jehovah, and he will have mercy upon him; and to our God, for he will abundantly pardon." Isa. 55:7; Ezek. 18:23-32; 33:11-22. 2—John the Baptist warned the people of his day to repent and bring forth fruits worthy of repentance. Mt. 3:1-12. 3—Jesus said, "Nay, but, except ye repent, ye shall all in like manner perish." 4—Peter said, to those on pentecost who asked what to do to be saved, "Repent, ye, and be baptized everyone of you in the name of Jesus Christ unto (for) the remission of your sins; and ye shall receive the gift of the Holy Spirit." Acts 2:38. Here God makes repentance a condition of salvation, or forgiveness of sins, and a condition of entrance into the Church. Acts 2:41-47. 5—God makes repentance a condition of forgiveness to all who sin who are members of the church. Simon the sorcerer repented of his alien sins and was baptized for the remission of them, then he sinned as a Christian and Peter said to him, "Repent therefore of this thy wickedness, and pray the Lord, if perhaps the thought of thy heart shall be forgiven thee." Acts 8:13-24. 6—Paul shows that God commands all men everywhere to repent. Acts 17:30. No one can expect to be saved without they repent of their sins.

**4—WHAT CAUSES PEOPLE TO REPENT,**  
1—Godly sorrow leads people to repent. 2—John's preaching caused the people of Nineveh to repent. Jon. 3:1-10. 3—Nathan's preaching caused David to repent. 2 Sam. 12:1-15. 4—Peter's preaching caused some on pentecost to repent. 5—Gospel preaching today will cause people to repent; or it will cause their hearts to become harder. It is a dangerous thing to continue in sin after one has been shown that he is in sin.

**5—GOD HAS TWO MAJOR MOTIVES TO LEAD MEN TO REPENT:**  
1—The fear of judgment. Acts 17:30. 31. "All who know God's word understand that they will be punished forever if they continue in sin till death. Mt. 25:31-46; Rev. 20:11-15. 2—The goodness of God. Rom. 2:4. God's goodness is shown in so many ways that all should see it and be led to love God so much that they would repent of all sins.

**6—WHY SHOULD WE REPENT?**  
1—We have a warning bell from hell to repent. Lk. 16:27-30. 2—Heaven will rejoice if we repent. Lk. 15:1-7. 3—Angels of God will rejoice if we repent. Lk. 15:10-10. 4—God grants us the privilege of repenting and we must or perish. Acts 11:18.

**7—WHAT TO DO AFTER REPENTING?**  
1—If you are not a Christian you must confess Christ before men and be baptized for the remission of sins. Acts 2:38; 8:37. 2—If we err after becoming a Christian we must confess sins and pray to God for forgiveness. Acts 8:22; 1 Jo. 1:9.  
Next Week: "Baptism for the Remission of Sins, a Condition of Entrance into 'The Church of Christ.'" Go to the Church of Christ Sunday.

## OUT OUR WAY

THE "SECOND" HELPING

BY J. R. WILLIAMS  
Pampa News, Friday, May 9, 1947

Could any morally sane, spiritually intelligent being rejoice in the image of his deity? The answer is no. It is not in spite of that contrast, and the glory of the divine nature, but because the people often turned from the God of their fathers to worship graven images and to practice abominations. This is not true of a few, "They are made of gold and silver and the great prophet, The Lord permitted Elijah in his mood of desecration following his great victory against the prophets of Baal, the sun and the moon, the moon, who had not bowed the knee to Baal. Why were the people drawn to idols? It was their religious heritages, which they had inherited from their fathers, which were the cause of their turning to false gods and false ways to deity. It was the line of least resistance.

It was the way to idolatry and immorality, but the altars and the moral degradations are the same. The gods of the past and the gods of today reflect the moral, social, and religious life of our time, reveals how much of our life is still pagan. And it is true, as it was of old, that the gods of the past and the gods of today can destroy us as surely as they destroy of old, unless we good that is in us prevails over evil.

**Mother's Day Will Be Observed Sunday**  
Mother's Day will be observed in all Texas Baptist churches Sunday by special collections to provide charity care of the needy sick. Every Baptist member is being asked to make a contribution to the sick poor in honor or in memory of his or her own mother. Sunday school classes, Women's Missionary Union, Brotherhood groups and church congregations will participate.

The Mother's Day Fund will be used solely for giving free hospitalization in the five Baptist hospitals of Texas to critically ill patients in need of hospital therapy but unable to pay for such treatment. The five hospitals are Hendrick Memorial Hospital, Abilene; Baylor University Hospital, Dallas; Valley Baptist Hospital, Harlingen; Memorial Hospital, Houston; and Hillcrest Memorial Hospital, Waco.

Mother's Day will be observed in most Protestant churches Sunday with special services. "Flowers for mother," etc. There is, however, a growing tendency to change the day to "Parents' Day," largely at the instigation of the church women themselves. Many feel that the day as now observed has been commercialized, that sermons concerning mother lean too much to the sentimental and that anyway the family task is one for father as well as for mother.

Sooner or later all Nordic races will reach maturity and conclude that way is characteristic of childish minds.—Henry A. Wallace.

**Christian Science Services Sunday**  
"Adam and Fallen Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 11.

The Golden Text is: "As by one man's disobedience, many were made sinners; so by the obedience of one shall many be made righteous" (Romans 5:19). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And the Lord God called unto Adam, and said unto him, Where art thou?" (Genesis 3:9). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Above error's awful din, blackness, and chaos, the voice of Truth still calls: 'Adam, where art thou? Consciousness, where art thou? Art thou dwelling in the belief that mind is in matter, and that evil is mind, or art thou in the living faith that there is and can be but one God, and keeping His commandments?' (page 307).

**4 BILLIONS FOR Less!**

Putting a Government Bureau in the position of being "Health Care"—through any system—invariably works out the same. In America it would be "billions of dollars a year, for less health."

No such system covers all the people. Many indigent and a vast portion of the population secure medical service outside such plans. Billions of dollars a year would be spent for bureaucratic red tape, supervisors, clerical staff, inadequate and lowered quality medical care, hospital care and medical preparation.

That is the invariable experience of State Medicine, "Social Security Health Plans" or Compulsory Health Insurance.

Let's keep our America free from spending "Billions and Billions for less and less health."

**WALL STREET STOCKS**  
NEW YORK, May 8.—Selected stocks moved by earnings prospects, held the buying edge in today's stock market but many leaders elsewhere continued to seek-looming territory on another one of his slow sessions of the past year.

A number of sizable blocks dropped volume although the ticker tape frequently halted. Morning gains for favorites ranging to around 2 points were reduced and declines of as much as 1 point were noted in the close. Transfers were in the neighborhood of 650,000 shares.

Standard Oil touched a peak for 1947, as did Texas Co. Advances were retained by Midcontinent Petroleum, Lion Oil and Amerasia Petroleum.

Scoville was up 1/4 on a 10,000-share block, later extended this to 1 and then backed away.

Ion Fracition, 2 were General Motors, which started on a 1,700-share trade-off by Chrysler, U. S. Steel, Bethlehem, Glenn Martin (at a new year's low) American Telephone, American Woolen (with layoffs growing in this industry), Dow Chemical, Du Pont, Eastman Kodak, and Santa Fe. New lows were posted for Central and Pennsylvania Railroad. Bonds retreated. Commodities subsided after a forenoon bounce. Cotton, toward the finish, was up 5 cents to close at \$1.20 a bale.

**Junior Rotarians Presented Awards**

Eight Junior Rotarians yesterday were given special awards by the Pampa Rotary Club at their weekly meeting held in the Palm Room, City Hall.

In line with the special program former Mayor Fred Thompson, also a former district governor of the Kiwanis Clubs, spoke on "Fellowship." Thompson centered his remarks around the importance of

learning to live with each other as better neighbors.

Prior to Thompson's address, Ben Gull presented the eight high school seniors with mechanical pencils bearing the Rotary seal. Frank Wilson, principal of the high school and a Kiwanian, was also presented with a similar gift. The boys winning the recognition and the month they were Junior Rotarians are: Billy Bain, September; Bill Speer, October; Harold Anderson, November; Orin Allen, December; John Spearman, January; Lawrence Bains, February; Robert Salor, March; Warren Jones, April; and Danny Williams, May.

Club singing was under the direction of DeLea Vicars. Irvin Cole had charge of the meeting.

**WORN OUT FROM GETTING UP NIGHTS?**

If you get up nights—have frequent desire to pass your water—yes, and have backache, due to excess acidity in the urine, be glad you're reading this.

Three generations ago Dr. Kilmer, a famous doctor, found hundreds of his patients with this trouble. So he made a medicine of 16 herbs, roots, vegetables, balsams. He called it "Swamp-Root."

Millions of men and women have taken it—often with amazing results.

Swamp-Root goes right to work to flush out kidneys... increases flow of urine, helping relieve excess acidity... soothes the irritated bladder gets a good flushing out, too. Many report getting a good night's sleep after the first few doses. Caution: take as directed.

For free trial supply, send to Dept. R, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your drugstore.

**THE STATE OF TEXAS**

TO: James P. Porter, Murray Freundlich and wife, Minnie Freundlich and J. H. Austin and wife, Effie Austin, and their heirs, their heirs, and legal representatives of each of the defendants above named.

GREETING:

You are commanded to appear and answer the plaintiff's first amended petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 26th day of May, A. D. 1947, at or before 10 o'clock A. M. before the Honorable District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 6th day of January, 1947. Said plaintiff's first amended petition was filed on the 8th day of April, 1947. The file number of said suit being No. 538.

The names of the parties in said suit are: Pearl Eisenman and husband, Paul Eisenman as Plaintiff, and James W. Porter and Archie Porter, Murray Freundlich and wife, Minnie Freundlich and J. H. Austin and wife, Effie Austin as Defendants.

The nature of said suit being substantially as follows, to wit:

Plaintiffs sue in trespass to try title, alleging that on the 10th day of September, 1922, they were and still are the owners in fee simple of the following described real estate and premises situated in Gray County, Texas: All of Lots Nos. 4, 5 and 6 in Block No. 1, of the City of Pampa, Texas, according to the map or plat of said addition of record in the office of the County Clerk of said County.

On such day also they were in possession of such premises; and afterward, on the 10th day of September, 1922, the Defendants, and each of them, unlawfully entered upon and dispossessed Plaintiff of such premises, and withheld from them the possession thereof.

Plaintiffs plead that their title has fully matured under the three (3) five (5) and ten (10) year Statutes of Limitation.

Plaintiffs sue for title and possession of the above described premises, root of suit, and general and special relief, if this Citation is not returned within 60 days after the date of its issuance, it shall be returned unreserved.

Witness my hand and seal of said Court, at Pampa, Texas, this 8th day of April, A. D. 1947.

JOE PATTERSON,  
Clerk District Court, Gray County, Texas.

Lois Stewart Deputy,
