NAZI POW'S CLEAR ENGLISH SNOW — German prisoners of war are shown as they worked in bitter cold at Dunford Bridge, Yorkshire, England, to clear a railroad of snow after blitzards isolated this and other villages in the worst winter England has had in years.

British Power Shortage 'Remains Very Critical'

LONDON—P—Prime Minister Attlee informed Parliament today that the power brownout, now enforced throughout the island on a virtual wartime footing, had saved 78,000 tons of coal in three days, but that "the situation remains very critical."

He said the six big power stations of London had only a week's supply of fuel and that the London Gas Company's coal piles had dwindled to stocks that would last nine and a half days.

While he spoke, grimy colliers beat down the east coast from northeast loading ports and scores of trains carried fuel supplies toward stilled industrial centers in battle against the economic crisis which has thrown 5,000,000 or more persons out of work and forced an island-wide power reduction, under wartime penalties of fines and prison for violations.

Truman Offers U. S. Assistance To British Isles

WASHINGTON—(P)—President Truman said today that the United States is ready to do everything within its power to relieve the plight of the British people in their present fuel emergency.

In a statement, Mr. Truman said it may be possible to divert to Great Britain a number of colliers now on the coast of the British Isles now carrying coal to other European countries.

"This government stands ready to do everything within its power to relieve the plight of the British people in their present fuel emergency," the President's statement said.

Although we have received no request from England for aid, I have directed Captain Granville Conway, coordinator of Emergency Export Programs, to determine how well we can divert the coal now being landed at British ports. It would take a minimum of 15 days to ship coal from this country to England. Such shipments might very well arrive too late to help England in the present emergency.

"There are, however, a number of colliers at sea in the vicinity of the British Isles carrying coal to other European countries. It may be possible to divert some of these colliers to English ports."

Mr. Truman said the U. S. representative would in London, and organization sitting in London "has been instructed to support a request for reallocation of the shipments of coal now at sea, if this is in the British interest."

At the same time, the President said he urged Congress to act promptly "to extend the authority of the Maritime Commission to operate the ships which are so vitally needed."

The President said coal thus diverted will be available for the U. S. OFFER Page 3

Jaycees Planning 'All-Local' Carnival

Tentative plans for an "all-local" carnival were made at the Junior Chamber of Commerce meeting yesterday but no definite dates have been set.

The proceeds from the proposed event would go to the Jaycee Community Center fund.

No site has been selected for the forthcoming annual stag dinner. The affair is tentatively scheduled for February 21 and will be given by members of the team that lost in the recent membership contest.

Choir Entertains Borger Students

The Pampa High School A Cappella Choir, under the direction of Mrs. Nellie Schellhaas, entertained Borger High School students and many other Panhandle residents, when they presented a thirty-minute assembly program that was broadcast from the stage of the Borger High School Auditorium, this morning.

Actual length of the assembly program was over an hour, but was only possible to broadcast the half-hour program from 10:30 to 11.

The girls' sextet, Hilda Burden, Barbara Caldwell, Gladys Price, Carol Culbertson, Barbara Walters and Betty Barrett, sang two numbers, "Tomorrow Is Forever" and "I Don't Know Why," that were broadcast.

The Choir sang, "Lost Chord," "Oh Ark's Amoverin'," Chillum, Con on Home," "Madame Jeanette," "School Song," "Gloria," "Patriot," "O Mom of Beauty," and "Holy, Holy, Holy," during the broadcast time.

During the regular assembly program special numbers were presented by the boys quartet, Dick Odum, Donald Pruitt, Jack Williams and Jack McPeak; and the Three Hits and a Miss, quartet, composed of Harold Anderson, Frank Green, Max Hukill and Marjorie Lawrence. Additional choir numbers were also presented.

The choir was to present another assembly program at the Phillips High School this afternoon.

Religion, Too, Is A Business, Hines Tells Group Here

A successful businessman turned into something of an evangelist like L. G. LeTourneau, Harry Hines of Dallas former member of the State Highway Commission told a group assembled at a Layman's League banquet at the First Christian Church here last night.

"God's business is the most important business of all." That was the general theme of a message he delivered before the group of about 150, including visitors from Borger, Miami, Perryton, and Canadian. He is president of the Texas Layman's League, is noted for his messages from coast to coast. He is an oil man.

Interpreting his sincere message with wry jokes and anecdotes, he sought to link Christianity with the social life of our times—deploring what he called "some of the stuff permitted in films, liquor orgies, and lewd literature, both in the library and on the newsstand."

He touched on "man's foremost problem, when he said: 'We must have realized there had to be a change, when God closed an epoch for us a year and a half ago.'"

Citing the lives of great businessmen who have combined religion with their work, he said the "social and economic life must have woven into the spirit of God. That's the way we can survive the horrors that science is bringing forth."

Maybe we should take the men who put their religion into their work, he said, and place them around a table with men from other countries—and say: "Now, here we can't afford another war." Not for monetary standpoint, he explained, but from a human standpoint.

"The man in the church may seem a failure," he continued—"but see RELIGION Page 3

Methodists Plan Ministers' Home

Cash and merchandise contributions with a total value of over \$5,000 have been received by the First Methodist Church here for the construction of a superannuate home for retired former pastors of the local church.

Contributions totaling over \$3,000 were made at a "kick-off" banquet at the church last night, attended by over 250 persons who bought tickets to two dollars each. The money raised at the banquet will go toward the purchase of the lot on North Starweather Street.

Dr. W. M. Pierce, former pastor and more recently superintendent of the Vernon District, has accepted the church's invitation to be the first occupant of the home. Dr. and Mrs. Pierce will move here about June 1.

At the banquet last night, Ed Weiss talked briefly on the history of the First Methodist Church. An architect's drawing of the home was shown by Roy Bourland and Frank Culbertson made a report on the financial status of the project.

'Burn Neighbors,' Says Housewife, 'Don't Burn Trash While My Clothes Are on the Line'

A Pampa housewife, who says she has to launder clothes every day because there is a large family, including a baby, has written The News that she wished neighbors would not burn their trash during the time her washing was on the line; but City Attorney Bob Gordon said that citizens are urged not to burn their trash at all.

"It should be left to the trash trucks, which are not supposed to collect fire-damaged trash or remnants of a smoldering pile. There is no city ordinance against burning trash, he explained, but people who set fires are liable for any damage they may do to neighbors' property. Such is negligence, he added.

The woman, who did not sign the letter, said:

"I live in one of the new sections of town where there are no city trucks at one time or another have been damaged because city workers have violated the rules by picking up 'live' trash. The official said:

DESPERADO SURRENDERS

PARIS, Texas.—P—A youthful desperado who left a trail of burglaries, kidnappings, robberies and auto thefts over Northeast Texas came to the end of a sensational criminal spree today as he surrendered to two state highway patrolmen on a farm where he had been cornered.

U.S. Canada to Trade Military Intelligence

WASHINGTON—(P)—The United States and Canada were disclosed today to have entered a full exchange of military intelligence—information on what other nations are up to.

The provision is one of a series of point-by-point agreements underlying a general accord to extend indefinitely the wartime collaboration of American and Canadian Armed Forces, persons familiar with the year-long negotiations said.

They asserted privately that more than a score of specific understandings were reached before Washington and Ottawa jointly announced the overall agreement late yesterday.

The formal statement made no reference to this background. But the disclosure of a compact for interchange of military intelligence has deep significance for at least two reasons.

1. Canada's geographic position along the polar cap air route over which any attack from Europe or Northern Asia might come.

2. Canada herself is a recent victim of an atom bomb espionage plot involving Soviet Russia.

While remaining officially silent on these points, both governments stressed two others in announcing the plan to continue their six-year collaboration for "the defense of the north half of the Western Hemisphere."

The agreement is not formalized in a treaty; but the decision is "a contribution to the stability of the world and to the establishment of each country's defense as an effective system of world security."

There was, nevertheless, some speculation in diplomatic circles over the timing of the announcement—less than a month before the Big Four Foreign Ministers meeting in Moscow.

The announced agreement embraces a five-point program designed to provide:

1. Interchange of individuals "so as to increase the familiarity of each country's defense establishment with that of the other country."
2. General cooperation and exchange of observers in connection with "exercises and with the development and tests of material of common interest." (Both the United States and Canada have had observers at the Arctic tests conducted by their respective armies.)
3. Encouragement of standardized arms, equipment, organization, training methods and new developments.
4. Exchange of military, naval and air facilities in each country.
5. An underlying principle recognizing the need for cooperative arrangements which will impair the control each nation exerts over its own territory.

Both governments made clear that they are involved in the arrangement.

New Commander British Troops in Palestine Named

JERUSALEM—(P)—Major Gen. G. H. A. MacMillan, who stormed the Philine with the 51st Highland Division, took command of British troops in Palestine and Trans-Jordan today, succeeding Lt. Gen. Sir Evelyn Barker.

The change of command came in the midst of a new outbreak of violence in the Holy Land.

The British Army, battling the elusive Jewish underground, arranged to clamp on the most rigid security measures yet invoked in the Jerusalem area at noon—putting into effect a new cantonment of the city into four heavily secured compounds, where limited restrictions have been in effect for a week.

Last night seven Jews were reported wounded and four kidnapped in skirmishes between Arabs and Jews and between Jewish extremists and moderate elements in other parts of Palestine. Today police reported government fisheries sunk and a police barge damaged by two explosions, apparently of time bombs, as they lay tied up at a jetty in Haifa Harbor.

Meanwhile, the usually well-informed Tel Aviv newspaper Mishmar said a new scheme for Palestine would be put before the British cabinet for early consideration.

The newspaper, desiring to identify its sources, said the plan called for a "Federated States of Palestine" with a setup similar to the Federated Malay States—embracing the Arab and Jewish areas, with independent governments, and a federal area under the British high commissioner.

Jews had criticized Gen. Barker for curfew, searches and other measures ordered for the arrested purpose of curbing the Jewish underground. Last Oct. 22, the British War Office announced that he would be recalled to head the Army's Eastern Command in England and that MacMillan, then in the War Office, would succeed him in Palestine.

Police reported today that a Jew knighted and kidnaped in a light between Arabs and Jews at the Jewish village of Bnei Geulin last night returned six hours later and said of being held in a tent and sometimes beaten until the Arabs finally set him free.

Shortly afterward, police arrested five Arab suspects in connection with the fight evidently resulted from a long standing quarrel over grazing rights around Bnei Geulin.

There was no official comment on the arrest of the Arab suspects, but the police said the arrests were made under moderate and extremist Jewish groups.

HST Holds Fast To Nomination Of Lilienthal

WASHINGTON—(P)—The White House said today that President Truman "hasn't" the faintest intention of withdrawing David E. Lilienthal's nomination for chairman of the Atomic Energy Commission.

Presidential Secretary Charles G. Ross told a news conference the President "is not going to withdraw the nomination" and then added, "He has not the faintest intention of withdrawing the nomination."

In response to a question as to whether the former TVA chairman has asked withdrawal of his nomination, Ross replied with a blunt, "He has not."

Ross spoke after Senator Hatch (D-N.M.), a Lilienthal supporter, had finished a talk with Mr. Truman. He got the impression the President would insist on confirmation of the nominee.

Following the report made at a chamber meeting, Culbertson and the other committee members, Bill Fraker, C. P. Rucker, Jake Garman and DeLoe Vicars, were given a rising vote of "thanks and appreciation, for their tireless work in securing the right-of-way, by members of the outgoing Board of Directors of the Chamber of Commerce.

The board members also gave the committee a vote of confidence in its ability and judgment to complete the still difficult work that remains to be done.

Committee Reports on Highway Project Work

Work on the fencing of the Pampa-Perryton Highway right-of-way and drilling of water wells will get under way in the next few weeks, according to Frank Culbertson, chairman of the Chamber of Commerce Highway Committee.

Following the report made at a chamber meeting, Culbertson and the other committee members, Bill Fraker, C. P. Rucker, Jake Garman and DeLoe Vicars, were given a rising vote of "thanks and appreciation, for their tireless work in securing the right-of-way, by members of the outgoing Board of Directors of the Chamber of Commerce.

The board members also gave the committee a vote of confidence in its ability and judgment to complete the still difficult work that remains to be done.

'New Deal' Offered Local Real Estate Man, But Soundness of Proposition in Balance

A local man had a "new deal" today, but he says he doesn't think he will "bite."

The man is J. Wade Duncan, real estate dealer, and the "deal" is in the form of a letter, purportedly written by an inmate of a prison or near Temple, in Mexico (on the Gulf of Mexico).

The man, who declares he must see the letter, contains the cash and merely "L." says he has \$285,000 in bank bills "inside of a secret place in a trunk that is deposited in a custom-house in North America."

He says he will sign the letter merely "L." fearing that this letter would come directly to your hands and that "for serious reason that you will air mail," (sic), please reply via air letter.

Such letter can be written by you, he declares, "due to the fact that you are in charge of the prison's school."

Duncan's reply, the letter concluded, should be sent to a "person of my entire trust." And he then gives a name and address at Tampa, Tampa.

CHIMPANZEE—Harriet, a chimpanzee, captured near Pampa and is now being held by a woman named Harriet.

U. N. Council Endorses Arms Slashing Plan

LAKE SUCCESS, N. Y.—(P)—The United Nations Security Council was summoned today (2 p. m. CST) to give final approval to proposed arms reduction machinery after the United States had won a preliminary victory in the fight over atomic control procedure.

By a vote of 9 to 0, with Russia and Poland abstaining the Council last night approved a clause which would set up an 11-nation "commission for conventional armaments" to study all phases of arm reduction not already being examined by the Atomic Energy Commission.

The United States over Russia's opposition, has contended from the beginning that atomic controls should be studied separately from general disarmament.

Last night's vote—taken at the end of a seven-hour debate—came as the Council considered clause by clause a draft resolution outlining the entire machinery of arms reduction. This resolution must be voted upon as a whole today, but it was considered unlikely that Russia would invoke the veto.

The resolution, if finally approved, will keep American atomic secrets inviolate from legal international interpenetration for the time being.

It will leave the future of atomic energy on a world scale with the Atomic Energy Commission a subsidiary of the Council, which has before it the so-called Baruch plan providing for release of the secrets only after international controls and inspections have been set up with iron-glad guarantee and punishments for violators.

Soviet Delegate Andrei A. Gromyko fought to the last against the insistence of American Delegate Warren R. Austin that the atomic field must be specifically exempted from the explorations of a general commission committed to the task of reducing, reducing and regulating arms.

At the end Austin, the American newcomer to the council, paced over the floor.

Fiscal Managers Refuse to Yield On Slash Decision

WASHINGTON—(P)—Republican fiscal managers refused to yield today on their decision to slash the 1948 budget by \$8,000,000 despite army-navy protests that cutting their funds will endanger the nation's security.

Secretary of War Patterson declared last night that if the army-navy protests that cutting their funds will endanger the nation's security.

Secretary of War Patterson declared last night that if the army-navy protests that cutting their funds will endanger the nation's security.

Man Sought in Fatal Wounding Of Peace Officer

PAULS VALLEY, Okla.—(P)—The Oklahoma Highway Patrol and peace officers in this area today set up road blocks extending to the Texas border, in a search for G. W. Beasley, 26, identified by Deputy Sheriff Bill Paul as a youth who escaped here yesterday after fatally wounding a deputy sheriff and critically wounding two other men in a gun battle.

The Highway Patrol said Texas officers were watching for Beasley at the Oklahoma-Texas border.

Beasley, a member of the Highway Patrol, was shot while on duty. He was shot in the back by a man who fled in a car. Beasley was taken to the hospital and died shortly after picking up his wounds.

Carpenner said Beasley's wife and two-year-old son, Buddy, were in the car with him and that they remained with Beasley. Although it was reported that Mrs. Beasley was released a short time later, Sheriff Claude Estimey of Garvin County said investigation and search for Mrs. Beasley failed to substantiate the report and that officers believed she still was with Beasley.

Deputy Sheriff Lon Pearson was fatally wounded and another deputy, Bill Paul, and Clarence Mays of Muskogee, Okla., were critically injured when a man identified by Paul as Beasley fired at them as they were taking him to Pauls Valley for questioning in connection with car theft.

Paul, in critical condition with a head wound, signed a statement in which he said, "G. W. Beasley shot at three."

Creeger said Beasley was picked up by Garvin County sheriff's officers after a request by Stephen County authorities to hold him for questioning.

The State Highway Patrol said two airplanes were used in the search for the missing man late yesterday and that they might be used again today.

Stroke Fatal to McLean Resident

MCLEAN—(Special)—Funeral services were to be held at three o'clock this afternoon at the Wheeler Baptist Church for William A. Gilman, 78, who died last night in a Pampa Hospital. Gilman suffered a stroke in McLean Saturday afternoon.

Born October 14, 1868, in Travis County, he was married to Miss Effie Cadeell June 14, 1897, and moved to McLean in 1922. He had been a member of the Baptist Church since 1896 and a member of the McLean Church since 1932.

Besides his wife, he is survived by four daughters, Mrs. Robert Wilbanks, San Angelo, Mrs. O. W. Wallis, Spearman, Mrs. G. R. Hatfield, Amarillo, and Mrs. Alton Rose of New Mexico, and seven sons, Arvin of Waco, John of Stamford, R. A. of Portales, N. Mex., E. J. of Merced, Calif., W. J. of Ft. Worth, Okla., L. of Hobbs, N. Mex., and Roy of Grand Rapids, Mich.

Officiating at the services were the Rev. A. C. Wood, pastor of the Wheeler Baptist Church, assisted by the Rev. W. R. Lawrence, Pastor of the McLean Baptist Church.

Burial was to be held in the Wheeler Cemetery under the direction of Womack Funeral Home of McLean. Pallbearers were Robert Wilbanks, J. W. Wallis, G. R. Hatfield, Alton Rose, J. P. Wallis and Tom Atwood.

Dan Kennedy, 52, Dies at Home Here

Daniel Clayton (Dan) Kennedy, 52, district superintendent and local manager of the Bovaard Supply Company, died at his home, 1113 N. Starweather, at 6:30 yesterday evening as the result of a cerebral hemorrhage.

Mr. Kennedy was stricken in Borger yesterday afternoon and was brought to Pampa and brought to his home here where he died. He was fully conscious all afternoon.

Associated with Bovaard for the past 29 years, Mr. Kennedy had been a store manager—first at Borger, then at Pampa—since 1928.

Mr. Kennedy was born in Sistersville, W. Va., Nov. 23, 1894. He left Sapulpa, Okla., in 1925 and moved to Borger in 1926, when he became store manager. He was transferred to Pampa in 1934 as manager and superintendent of the district made up of the Texas and Oklahoma Panhandles and Western Kansas.

He was a member of the Holy Souls Catholic Church, the Knights of Columbus, the American Legion and was an officer in the local unit of the Texas State Guard. He was also an active member of the Panhandle Producers and Royalty Owners' Association.

Survivors are his wife, Mrs. Estel Kennedy; one daughter, Zita Ann, Pampa High School student; a son, Richard A.; his father, J. A. Keene.

At the end Austin, the American newcomer to the council, paced over the floor.

Fiscal Managers Refuse to Yield On Slash Decision

WASHINGTON—(P)—Republican fiscal managers refused to yield today on their decision to slash the 1948 budget by \$8,000,000 despite army-navy protests that cutting their funds will endanger the nation's security.

Secretary of War Patterson declared last night that if the army-navy protests that cutting their funds will endanger the nation's security.

Secretary of War Patterson declared last night that if the army-navy protests that cutting their funds will endanger the nation's security.

Man Sought in Fatal Wounding Of Peace Officer

PAULS VALLEY, Okla.—(P)—The Oklahoma Highway Patrol and peace officers in this area today set up road blocks extending to the Texas border, in a search for G. W. Beasley, 26, identified by Deputy Sheriff Bill Paul as a youth who escaped here yesterday after fatally wounding a deputy sheriff and critically wounding two other men in a gun battle.

The Highway Patrol said Texas officers were watching for Beasley at the Oklahoma-Texas border.

Beasley, a member of the Highway Patrol, was shot while on duty. He was shot in the back by a man who fled in a car. Beasley was taken to the hospital and died shortly after picking up his wounds.

Carpenner said Beasley's wife and two-year-old son, Buddy, were in the car with him and that they remained with Beasley. Although it was reported that Mrs. Beasley was released a short time later, Sheriff Claude Estimey of Garvin County said investigation and search for Mrs. Beasley failed to substantiate the report and that officers believed she still was with Beasley.

Deputy Sheriff Lon Pearson was fatally wounded and another deputy, Bill Paul, and Clarence Mays of Muskogee, Okla., were critically injured when a man identified by Paul as Beasley fired at them as they were taking him to Pauls Valley for questioning in connection with car theft.

Paul, in critical condition with a head wound, signed a statement in which he said, "G. W. Beasley shot at three."

Creeger said Beasley was picked up by Garvin County sheriff's officers after a request by Stephen County authorities to hold him for questioning.

The State Highway Patrol said two airplanes were used in the search for the missing man late yesterday and that they might be used again today.

Stroke Fatal to McLean Resident

Intoxication, Traffic Cases Heard in Court

Corporation Court Judge Clifford Braly this morning fined one man \$15 on intoxication charges and continued the case of another for further investigation. The second man was placed under \$50 bond. One man on traffic violation to appear in court today had three charges against him: driving without license, driving without headlights, and driving without taillight. He was fined \$5 for driving without license and excused on the remaining two charges. The man fined \$15 was released only yesterday noon from the county jail on charges of theft.

Canadian Briefs

CANADIAN—(Special)—The Canadian Independent Schools have been accepted for renewal in the Southern Association of Secondary Schools and Colleges, according to Deane Fletcher, superintendent of schools. Deane Fletcher, supt. of schools, announced that a one day drive for the March of Dimes in the Canadian schools netted better than \$85.00. Tom Abraham, local chairman for the March of Dimes campaign, stated that the grand total to date, just under \$900, was not up to the usual liberal support of this cause in Canadian. The Rev. and Mrs. Troy Plunk are attending a ministerial meeting in Fort Worth this week.

McLean Group Plans For City Hospital

McLEAN—(Special)—P. A. Pierson was selected president of the McLean Hospital project at a recent meeting here, in which prospects for obtaining needed surplus property were discussed. Other officers elected included Bill Stubbs, vice president; Frank Wilson, secretary; and Clifford Allison, treasurer. Serving on the board of directors in addition to the officers, are O. G. Stokley, C. J. Magee, H. W. Brooks, Guy Hibler and J. D. Coleman. The group plans to find a suitable location for the hospital, which will be a community project.

Today's Schedule Of Redeployment

By the Associated Press Two ships bringing service personnel from Bremerhaven are due to arrive today (Thurs.) in New York. They are the Marine Angel, with 66 troops, and the Admiral Coontz with 1,205 troops and 91 war bride's children. The Admiral W. B. Sims is due today at San Francisco with 618 Army personnel and 70 civilians from Korea and Japan.

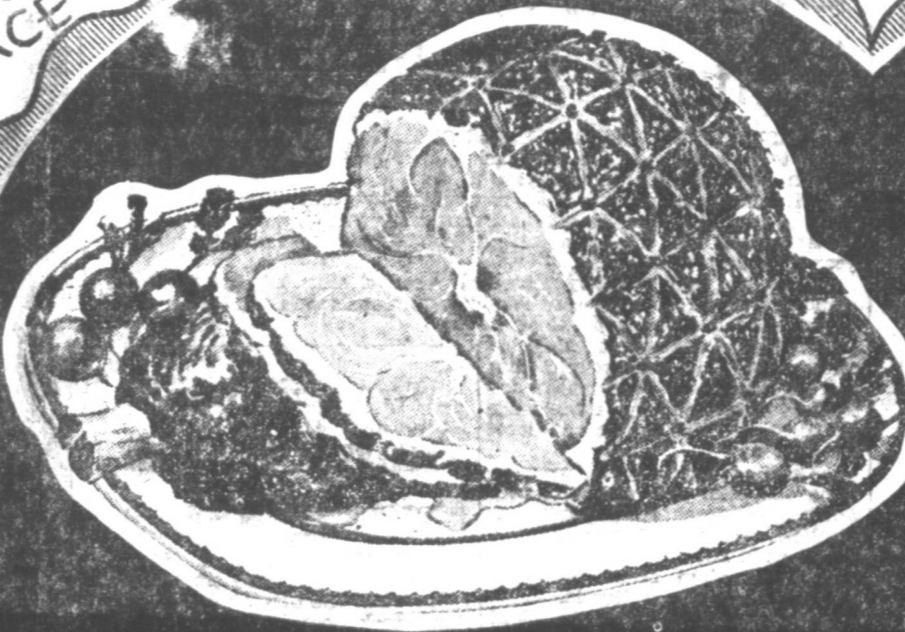

Republicans

(Continued From Page 1) spending estimate be pared to \$31,000,000. Rep. Engel (R-Mich), chairman of the House Military Appropriations Subcommittee, said he is confident a billion or more dollars can be trimmed from the War Department's budget without impairing the army's fighting qualities. Republican leaders gave no details of how they planned to distribute the \$6,000,000,000 cut among the various government departments. Rep. Cannon (D-Mo), a member of the budget subcommittee, said he was "astounded" at this. Rep. Mahon (D-Texas) another member, declared: "They are going to have to tell us. They can't keep such a thing a secret. They know they are vulnerable and can't defend their position."

Fugitive

(Continued from Page 1)
 officers participating in the hunt. Capt. G. W. Bushy of the Texas Highway Patrol was directing the search.
 State Highway Patrolman Lewis Rigler reported that bloodhounds started on the trail north of Monks-town at 5 a. m. The officer said that at first the trail appeared cold, but later it was picked up at a campfire believed to have been

set by the fugitive.
 An early morning ground fog aided the fugitive.
 Rigler said officers in on the hunt had alerted the entire Northeast Texas countryside.
 He said the search in the Monks-town district had kept most of the country folk up all night, with lights burning and shotguns ready. Highways were blocked, and motorists were warned not to pick up hitchhikers. The Texas-Oklahoma border was sealed off at bridges

and fords.
 Rigler said the man—now believed to be unarmed—would have to swim the river if he escaped into Oklahoma.
 The officer said that, as far as he knew, no one knows the identity of the fugitive. He said fingerprints were being sought on the various stolen cars and the two guns the man dropped in Greenville.
 The elusive desperado was routed from his car near here last night

by two State Highway Patrolmen an died on foot into nearby wooded, creek bottoms.
 Patrolmen Ross Kemp and W. A. Bealy, both of Paris, spotted his car as he drove through Monks-town early last night and gave chase. A few hours earlier Oklahoma officers had turned him back with gunfire when he tried to cross a Red River bridge near Telephone, Texas.
 The fugitive abandoned his car about two miles from Monks-town and fled on foot. Bealy said he chased the youth, firing as he ran, but the suspect outdistanced him.
 The officers said the bandit did not return their fire and that they believed he was unarmed. On at least two occasions he had flourished pistols. Guns have been found in two of the cars he has abandoned.
 In the car he abandoned near here — he traveled in five stolen cars and wrecked three of them — he was found the remains of a lunch of cheese, bologna and bread. Later Charles Edwards, 19, a storekeeper near Monks-town, identified the car as belonging to a man to whom he sold the food and some gasoline. He said the man paid him in cash.
 The tornado-like appearance of the blond youth in Henrietta, Mount Pleasant, Talco, Paris, Greenville and Commerce have been less peaceful. Police list his crime berries, car thefts and burglaries.
 Preston D. Hale, 39, veteran Dallas police officer and former Army Air Force lieutenant colonel, was killed yesterday when his plane crashed while he was taking part in the manhunt.

Power Halt

(Continued from Page 1)
 intersections were ordered extinguished.
 It remained uncertain whether it would be necessary to restore warning labor controls in order to re-cruise from the five to six million temporarily thrown out of work by the industrial shutdown, enough laborers to unload coal cars and ships.
 The spirit which carried Britain through the dark days of the Blitz was reflected in a fuel and power communique entitled "The battle of the power stations." It announced that the power embargo, effective since Monday in 38 of the 64 English and Welsh counties, had resulted in saving some coal but that the five-hour daily blackout was being extended to the whole island and its 49,000,000 people, effective today.
 Industries outside the 38-county area were not affected by the new ban. The former cut shut down everything but projects essential to health and welfare in those 38 counties.
 Northern Ireland was excluded from the embargo on power, but Sir Holland Nugent, Northern Ireland's Minister of Commerce, appealed for drastic volunteer reductions and warned that the "position is critical."
 Eric, too, was facing power cuts. Sean Lemass, minister of industry and commerce, told the Dial last night that Erie may have a "first

class coal crisis" if bad weather continues to keep dwindling peat supplies from drying.
 An announcement from 10 Downing Street last night after the first meeting of the "Coal Cabinet" headed by Atlee said the "situation remains critical" and that coal savings in the first three days of the embargo were "sufficient to bring stocks up to the safety margin."
 More coal began to reach London and other power stations yesterday as nearly 100,000 troops, German prisoners and Polish resettlement campmen aided road gangs in clearing deep drifts across the rail lines of northern England.
 Railroads canceled some express trains to provide locomotives for coal trains. Schools were closed in some parts of the country for lack of fuel.
 An RAF bomber dropped food to the Staffordshire Village of Langner, cut off for more than a week, but cancelled other drops to additional isolated villages because of bad weather.

U. S. Offer

(Continued from Page 1)
 verted to England would be replaced for other countries as rapidly as shipping schedules can be adjusted.
 He said the country has done "a remarkable job" in stepping up export shipments of coal, increasing these from 1.8 million tons in December to 2.5 million tons in January with prospects for 2.9 million this month.

U. N. Council

(Continued from Page 1)
 Gromyko clasped his hand and said:
 "You're all right!"
 Gromyko smiled. He had voted neither for nor against the vital "paragraph 3" of the "conventional" arms reduction resolution and was expected to follow suit, withholding the veto, when the proposal as a

Lincoln-Will Rogers Discussed at Meeting Of El Progreso Club

Mrs. Jeannette Hutchinson was hostess to the El Progreso Club Tuesday afternoon at her home, 1136 N. Starkweather, at which time an interesting program on Abraham Lincoln and Will Rogers was presented. The vice president, Mrs. Knox Kinard, called the meeting to order and roll call was answered with "Incidents in the Life of Abraham Lincoln." Mrs. B. E. Finley, program leader for the afternoon, called on Mrs. W. R. Ewing for a discussion of "Will Rogers as Abraham Lincoln Philosophers." Mrs. Ewing brought out the points of similarity, also the differences, between the two men. She likewise discussed the influence which contributed to the individual philosophy of each. Will Rogers, declared Mrs. Ewing, was called the apostle of love and conceded to be the greatest ambassador of goodwill the United States has ever had; while the whole world decreed that Abraham Lincoln is one of the immortals who belongs to the ages. Mrs. Finley presided over the program with an interesting account of the many memorials to Will Rogers which have been given and constructed at many different places throughout the nation. The hostess served refreshments to those mentioned and Mesdames D. V. Burton, E. L. Ledrick, P. C. Ledrick, B. A. Norris, Dave Pope, George Walsland, John Andrews, and Glen Cannon, who was welcomed as a new member.

Hopkins H D Club Sees Demonstration On Textile Painting

Mrs. R. W. Orr was hostess Tuesday afternoon in the Community Hall when the Hopkins Home Demonstration Club held its regular meeting. Textile painting was demonstrated by Mrs. Vern Savage who also showed the members how to make a two-piece bathroom set, and Miss Ann Hastings gave a demonstration on selecting wall paper. Mrs. R. A. Irwin was in charge of the business meeting and roll call was answered with "Improvements I Would Like to Make." Plans were made to serve coffee and doughnuts to members of the Community First Aid Class Feb. 21 at the Community Hall. Mrs. Joe Stone was appointed assistant recreation leader. Mrs. P. H. Rice was in charge of a "Hunting Hearts" game with the prize going to Mrs. Joe Stone. Mrs. Savage gave a demonstration on textile painting and showed how to make a two-piece bathroom set, regulation size, out of quilted mattress or table padding. Mrs. Savage said her color scheme was taken from the wall paper which she had color quilt binding. This material, she said, is easily laundered. Miss Hastings, home demonstration agent, told how to select wall paper. She said that there were aids in wall paper just as there are in clothing and we should use care in selecting paper and furnishings to suit our own personality. She also gave information on the type and use of insulation. Refreshments of congealed fruit salad, angel food cake and coffee were served to Mrs. W. L. Baba and Miss Hastings and the following members: Mesdames Homer Seawright, Irwin, Rice, W. E. Meiton, C. H. Brickley, Stone, Cliff Horn, George Reeve and Savage.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly you may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugstore and ask for four ounces of liquid lactate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose

Civic Culture Club Continues its Study Of Latin America

The Civic Culture Club continued its study of "The Latin American Republic" at its meeting Tuesday afternoon in the home of Mrs. Lloyd Rinehart, 1317 N. Starkweather. Mrs. F. M. Sweazy, president, presided over the business session. Mrs. Willie White gave a report from the Council of Clubs. No action was taken on the report at the time. Roll call was answered with current events on South America. Mrs. Katie Vincent, program leader, gave an interesting talk which dealt chiefly with the Amazon Basin. She stated that climatic conditions and lack of transportation have been a tremendous drawback to the development of the Basin. However, she said, an American company made much progress in developing rubber plantation there during the war. The Indians in the region, Mrs. Vincent continued, have long used herbs for medicine which our scientists are beginning to recognize and use for the benefit of the civilized world. Delicious refreshments of pineapple upside-down cake with whipped cream and coffee were served to Mesdames Vincent, Sweazy, White, Kenneth Meyers, Emmett Osborne, H. W. Waters, Irvin Cole, Emmett Gee, E. A. Shackleton, J. B. Townsend, Claude Lard, and John Brandon.

Shower Honoring Mrs. Nace Lofton

LEFORS—(Special)—A post-nuptial shower honoring Mrs. Nace Lofton, nee Helen Cox, was given Saturday afternoon in the home of Vesta James. Various games, planned and directed by the hostesses, Lena Hatfield, JoAnn Johnson, Angie Davis, Betty Scott, Patsy McIntyre and Vesta James, were played by the guests and honoree. Those present were: Misses Eddie Quarles, Marguerite Crawford, Dolores Herring, Jean Rath, Billie Wall, Mary Jo Wau, Jeanne Staley, Bobbie Jean Hedrick, Wanda Turnbo, Barbara McCullick, Patsy Johnson, Judy Johnston, LeVaughn Mullins, Ruby Wall, Rachel McCool, Connie Garber, Christine Guthrie and Mrs. W. E. James. Those sending gifts were: Misses Retha Little, Jimmie Davis, Rita Jo Cullison, Lora Rippy, June Bull, Dorothy Howard, Louise Keeton, Joyce Rickman, Mr. and Mrs. C. B. McIntyre, Mr. and Mrs. Vern Ferguson, Rev. and Mrs. Newton Daniel and Mrs. Martha Aldridge.

Pennington-Morris Wedding Tomorrow

SHAMROCK—(Special)—Mr. and Mrs. Jess Pennington are announcing the engagement and approaching marriage of their daughter, Miss Wanda Pennington, and John Morris, Amarillo, son of Mr. and Mrs. M. M. Morris, Canyon. The wedding is scheduled to take place Feb. 14, at the First Baptist Church of Amarillo.

Cutwork!

By MRS. ANNE CABOT
Design you ever saw! The bold, handsome cutwork design is charming on a white luncheon cloth when embroidered in white or pale green—on a pink linen set, do the cutwork embroidery in either white or deep rose. Explicit instructions on how to do cutwork are given in the pattern, too! To obtain complete transfer designs for the Grape and Leaf Luncheon Set (Pattern No. 5398) stitch details, send 15 cents in coin plus 1 cent postage, your name, address and the pattern number to Anne Cabot, Pampa Daily News, 1150 Ave. Americas, New York 19, N. Y.

bulky fat and help remain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloot, disappears—how much better you feel. More alive, youthful appearing and active.

Varietas Study Club Planning Party for

Husbands Saturday

Plans were completed for the annual husband's party and dinner at the meeting of the Varietas Study Club Tuesday afternoon when members were entertained by Mrs. J. E. Kirchman in her home. The party will be held Saturday night in the City Club Rooms. Mrs. Sherman White was program leader and gave a very interesting talk on "Texas Women of Achievement." She paid tribute in verse to the pioneer women of the State and gave some interesting highlights in the lives of some noted present-day women, including Mrs. Ovela Culp Hobby, commander of the Women's Army Corps during the war, Dr. Minnie L. Masset, surgeon and medical advisor at Southern Methodist University, and Judge Sarah T. Hughes, of the 14th Judicial Court at Dallas. The hostess served refreshments to the following members: Mesdames White, J. G. Cargile, H. P. Doster, Dow King, R. W. Lane, Horace McBe, Luther Pierson, Ralph Thomas, C. Q. Williams, J. C. McWilliams, and J. C. Vollmert. Asbestos was known more than 2,000 years ago, the Romans mining it from the Italian Alps. Fine asbestos fibers have a flexibility and strength comparable to that of silk.

Cover-Up Skirt

BEVERLY LLOYD: Quick-change artist.

This long, apron-like skirt was dreamed up in Hollywood to solve the problem of a palama-clad actress who had one minute to dress for unexpected guests.

Miss Evelyn Malatek Transferred to Tokyo

TOKYO—Miss Evelyn Malatek, daughter of Mr. and Mrs. Gilbert Smar, 625 N. Naida, Pampa, Texas, has been transferred from Fifth Air Force Headquarters, Nogoya, where she was on duty in the Adjutant General's Office, to Supreme Command of Allied Powers, General Headquarters, in Tokyo. She is now associated with the Executive Division of Civil Property. This department disposes of all lost land, property, etc., that was stolen by the Japanese government in the Pacific theatre during the war. This section is also in complete charge of reparations. Miss Malatek is very interested in the work that she is doing now. Four nights each week she attends Tokyo Army University where she is studying Japanese, International Politics, Foreign Relations, and Psychology of Adjustment. Miss Malatek is billeted at the Old Kaijo Hotel and has visited the Chinese Mission, Philippine Embassy, and the American Consulate in Yokohama. Her contract with the War Department expires Dec. 27, 1947 and as yet she has not voiced her intentions as to whether she will extend it and continue to languish in the royalty that the Japanese shower upon the American personnel now living in the Far East. Her favorite hobby, at the present, is listening to the War Crimes Trials, and she has made many friends among the defense attorneys.

WE, THE WOMEN

Divorce, Made Painless, is Popular

By RUTH MILLETT
NEA Staff Writer
A screen star interviewed in New York told the reporter about the painless divorce she recently got in Mexico. Since the proceedings were conducted in a language she didn't understand, she didn't even have to concentrate on what was going on! She said, "I'll be a couple of times, and that snapped her marriage ties—after which the mayor of the town kissed her hand and sent her forth a free woman. Divorce isn't quite that simple in our country yet—but it has been made painless enough so that last year one-third as many persons as were married decided to try divorce. Not all of them were able to go to Reno and combine a divorce with a vacation. But even so, the divorce was probably pretty painless. The divorcing partners didn't need to worry that their divorced status would make them less socially acceptable. IMPERSONAL MISFORTUNE They didn't need to fear that having one marriage failure charged against them would tag them as poor marital risks. Marriage experts may so regard them, but most people today look on a divorce as an unfortunate experience rather than as a personal failure. Our making divorce painless may be broad-minded. But can we really expect to make it painless without also making it popular? BEVERLY LLOYD: Quick-change artist. This long, apron-like skirt was dreamed up in Hollywood to solve the problem of a palama-clad actress who had one minute to dress for unexpected guests. Fine asbestos fibers have a flexibility and strength comparable to that of silk.

Tired, "All-In"—Listless Feeling Brought To Halt

As Vibrant Energy is Released To Every Muscle, Fibre, Cell

Do you get up in the morning still tired, fed-down-and-out all day? Have you checked-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wears down the red-blood-cells. Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no resistance to infection and disease. To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients. Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloats and give off that sour food taste. Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Beware Coughs That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly eases the cough or you are to have your money back. CREOMULSION for Coughs, Chest Colds, Bronchitis.

NO BETTER ASPIRIN FOR RELIEF OF PAIN

St. Joseph ASPIRIN 10¢

Advertisement for Ideal Food Stores featuring various food products and prices. Includes sections for 'Shop and Save', 'Drink Juices', 'Meat', 'SEED POTATOES', 'CAMPBELL'S TOMATO SOUP', and 'SUPREME CRACKERS'. Prices range from 15¢ to \$1.59.

How Never To Be Tired Heard by Twentieth Century Club Tuesday

Mrs. Lloyd Hicks reviewed Marie Benson Ray's book "How Never to Be Tired" at the meeting of the Twentieth Century Club Tuesday afternoon in the home of Mrs. Raymond Harrah, 621 N. Frost.

The aim of the book, said Mrs. Hicks, is to show each of us how we may have a limitless amount of energy so that we may do all the wonderful things we would like to do. We can do this, she said, by re-educating our emotions so that we can marshal the full force of our subconscious behind our conscious aims. It takes courage and determination to succeed at this or any other venture she added.

Mrs. Paul Kasishke, president of the club, presided over the business meeting at which it was voted that the club take on a project to assist in doing some particular thing for the hospitals. Mrs. Kasishke reminded the members that the Federation is still stressing spiritual evidence and urged them to keep in mind the cancer drive in March. She announced that the Spring convention would be held March 13-14.

Fifteen members enjoyed refreshments and the social hour.

Rejoice at Warm Coats Received From Pampa

Following are two letters received by Rosemary Sheehan, 217 N. Houston, and Mary Elizabeth Windsor, 409 N. Warren, members of Girl Scout Troop 11, Mrs. W. B. Franklin, leader.

Dear Little Rosemary: Last Friday week, when my mother went to the rectory, she got from the parson a coat for my little sister, Baerbel. At home we found your kindly lines in the pocket of the coat. My sister is six years old and doesn't go to school, so she can't write the letter and I will do it for her. I am 11 years old and have learned English for one year. My cousin translated this letter.

We all rejoiced very much at the warm coat my sister got. That is the only warm thing she is possessing. My parents and my sister are sending many thanks to you.

Now, Dear Rosemary, I hope we will stay in connection together. So I am sending many greetings to you from my sister and my parents, and I am wishing a happy New Year.

Your friend, Fritz Kunze, 23 Bremen-Blumenthal Ronnebeckerstrasse 16 British Zone, Germany

Mary Elizabeth Warren: Will hereby thank you so much for that overcoat we received from you that fit the youngest girl exactly, and she is very thankful to you. Her name is Odram Bygstad. With all the best wishes from the father and mother, Olaf and Margrette Bygstad Bergan, Norway

Rev. H. Clyde Smith To Open Revival Tomorrow Night

Rev. H. Clyde Smith, pastor of the First Methodist Church, will open the revival meeting at the First Methodist Church, Rev. Orady M. Adcock, pastor, tomorrow evening at 7:30. This subject will be "The Kingdom of Heaven."

Services will be held each evening at 7:30 through Feb. 23 and each morning at 10:30 beginning Saturday morning.

Flaudie Gallman will be in charge of the music.

Feb. 21 is 'World Day of Prayer' in Over 40 Countries

In more than forty countries of the world Friday, Feb. 21, will be observed as "World Day of Prayer," with special services in churches. The United Council of Church Women, the Foreign Missions Conference of North America, and the National Christian Councils in other lands promote the observance, which has long been carried on by Christian women and their organizations.

This year the offerings of the day will be used for the training of Christian women in the colleges of the Orient, and for Christian work among overseas students now studying in the United States. "Make Level in the Desert, a Highway for Our God" is the title of the special program for the day.

Girl Scout Council Meets at Panhandle

PANHANDLE—(Special)—The Panhandle Girl Scout Council met recently in the Girl Scout Room at the Grade School for their quarterly meeting with Mrs. Judson Skaggs, president, presiding.

Rev. Herbert Brown, Finance chairman, discussed plans for raising \$500 needed by the girls in their work. The by-laws and constitution were read and adopted for another year. Miss Norma Ewing, Girl Scout executive, presented each council member with a Girl Scout pin.

Mrs. E. E. Ewing, registrar, gave the following report: Brownies, Troop 4, 18 members, leaders, Mrs. All Pemberton and Mrs. Clarence Williams; committee members, Mesdames Ernest Roselius, Paul Callihan, Guy Grupp, Cecil Walker, and Don Eckman; Troop 8, 17 members, leaders, Mrs. I. W. Hanson and Mrs. Elton Vance; committee members, Mesdames Judson Skaggs, Earl Williams, C. E. Lyles, Dee Cummings and Miss Mary Edgington; Troop 11, 11 members, leaders Mrs. A. J. Weiser and Mrs. and Russ, committee members, Mesdames Ralph Radel, Elton Vance, Emory Green, W. A. Grant and J. D. Elder; Girl Scouts, Troop 1, leaders Mrs. Ivo Pullen and Mrs. G. L. Tackitt, 13 members, committee members, Kellus Turner, Mesdames Joe Rore, R. C. Forsythe, and H. C. DiBermer; Troop 3, 12 members, leaders, Mrs. L. B. Weatherly and Mrs. D. M. Smith, committee members, Mesdames Olin Thorp, O. W. Robinson, Clarence Williams. Thirty-two Girl Scouts were reported as being without a leader.

Business Meeting Held by Sub Debs

The Sub Debs held a short business meeting in the home of Donna Beagle Tuesday evening. The "best pledge" among the new pledges was chosen and her identity will not be revealed until the presentation dance Feb. 14.

Members present were Patsy Brannon, Carol Sloan, Margie Sloan, Lela Ward, Junice Ann Fahle, Patsy Miller, Anita Lane, Betty Joyce Scott, Carol Culbertson, Betty Barrett, June Myatt, Barbara Carlson, Felores Burnum, Ida Ruth Taylor, Johnny Sue Hart, Ottolene Patton, Mary Jean Patton, Patsy Pierson, Avis Kelly, Barbara Ward, Joan Stroup, Margie Dixon, Dorothy Dixon, Mardella Roberts, Doris Wilson, and Mrs. R. D. Mills, the sponsor.

The next meeting will be held Tuesday evening, Feb. 18, at 7 o'clock in the home of Patsy Pierson, 1121 Mary Ellen, with Patsy Brannon as hostess.

Iowa is the leading pop-corn producing state, with Indiana second.

Local Rotarians Hear Boys' Ranch Program

Three directors and three boys from Boys' Ranch, Amarillo, entertained members of the Pampa Rotary Club yesterday during the weekly meeting held in the Palm Room.

Main address by Pinky Vineyard on the program was an explanation of the work done for the boys at the ranch. He cited several instances where the boys themselves tended to their own disciplinary methods and described the types of homes and conditions under which some of the boys were taken to the ranch. One of the youngsters on the program, 9 years old, does not even know when his mother died and is unable to tell the whereabouts of his father.

Another boy on the program had at one time attempted to murder his own mother, while the third was taken from a home that was broken, and the directors of the ranch finally found the mother living under another name although legally married. Each of the boys had a part in the program, one of them being an excellent piano player, while the other served as master of ceremonies. The entire program was in charge of Irving "Suede" Tolzen, a director of the ranch and a past president of the Amarillo Rotary Club.

Seven new members were introduced into the club. A total of 11 guests, five of them visiting Rotarians, attended the meeting. De- Lea Vicars led the singing, accompanied by the club's pianist, and Irving Cole had charge of the meeting.

It was announced that Rotary would hold its next meeting on Monday instead of Wednesday.

To Sponsor Plans For Tennis Courts

McLEAN—(Special)—The Garden Club is sponsoring plans for the construction of two concrete tennis courts in the West Smith Park. The City Council plans to help

Pampa Girl on OCV Musical Program

Miss Wanda Lou Gordon, daughter of Mr. and Mrs. B. G. Gordon, 429 Hill, will participate in a musical program presented for the Tuesday Club in Frederick, Okla., next Tuesday afternoon by the Fine Arts students at Oklahoma College for Women.

Miss Gordon will accompany Miss Blanche Gawronska, vocalist, New York City, who will present several vocal solos.

Bluebonnet Study Club Met Thursday

MOBETTIE—(Special)—The Bluebonnet Study Club met Thursday afternoon in the home of Mrs. Van Zandt for an interesting program on International Affairs.

Mrs. Mary E. Carmichael presided over the meeting in the absence of the president, Mesdames Ann Trimble, E. E. Johnston, and Willard Godwin led in the program discussion.

Delicious refreshments carried out in the Valentine and patriotic motifs were served by the hostess and her young son to Mesdames Carmichael, Trimble, Johnston, Scitner, Willis, Dunn, Flanagan, Boswell, Martin, Caldwell, Matthews, and Salley.

pay for the courts and make other improvements in the park such as rebuilding fireplaces, erecting extra lights, installing drinking fountains and building two rest rooms.

Mrs. B. W. Rose To Be Hostess at Party For Martha Class

Mrs. B. W. Rose, 1209 Mary Ellen, will be hostess at a Valentine party tomorrow afternoon at 2:30 for members of the Martha Class of the First Baptist Church.

Mrs. L. B. Haggard is chairman of the social committee which will have charge of the entertainment and program, assisted by Mesdames Roy Holt, Roy Chisum, Clyde Batson, and Orval Batson. Mrs. Tom Duval will bring the devotional.

Six Teams Open Tonight in District 2-A North Section Cage Tournament

CANADIAN—(Special)—Six teams open play here tonight in the District 2-A North Section basketball tournament, a round robin affair to continue through Saturday night.

The winning teams from the North Section and the South Section will play in the regional tournament, the site to be decided on at a meeting to be held in Amarillo.

The Canadian athletic department has recently installed a new Medart Automatic scoreboard and timer.

The tourney schedule (first game at 7, second at 8 and third at 9 at night, 1, 2 and 3 in afternoon):

Thursday night—White Deer vs Canadian; Phillips vs Lefors; Perryton vs Panhandle.

Friday afternoon—White Deer vs Phillips; Perryton vs Canadian; Panhandle vs Lefors.

Friday night—White Deer vs Perryton; Panhandle vs Phillips; Lefors vs Canadian.

Saturday afternoon—White Deer vs Panhandle; Lefors vs Perryton; Canadian vs Phillips.

Saturday night—White Deer vs Lefors; Canadian vs Panhandle; Phillips vs Perryton.

The team with the best win-loss percentage wins the tourney.

Trippi Is Signed By Atlanta Team

ATLANTA—(AP)—The Atlanta Crackers, Southern Association baseball team, have Charlie Trippi's name on a 1947 contract and Club president Earl Mann said today the University of Georgia athlete would play center field "until it is proven he definitely isn't ready for AA league competition."

Trippi, all American football halfback and a hard hitting diamond star at Georgia, signed the agreement here yesterday. He is under contract to the Chicago Cardinals of the National Football League.

SNEAD WILL RETURN

VIRGINIA BEACH, Va.—(AP)—The twentieth annual Virginia State Open Golf tournament will be played over the difficult layout of the Cavalier Country Club April 19 and 20. Slammin' Sammy Snead already has said he would return to defend the title he won here last year after a bitter 18-hole playoff match with Chandler Harper of Portsmouth, Va. Harper also will return.

During World War II, the average U. S. service man made five railway trips before going overseas.

Crisler Turns Down Offer at California

Navy Ousts West Virginia Cagers From 'Unbeatens'

ANNAPOLIS, Md.—(AP)—Navy's thrilling 57-35 basketball victory over West Virginia, which toppled the Mountaineers from their perch among the unbeaten, left Duquesne University the lone unvanquished college quietest today.

West Virginia came to Annapolis boasting a record of 12 straight wins and was the slight pre-game favorite to hand the Tars their second defeat of the season yesterday.

The towering Mountaineers had a four-inch average height advantage over Navy but appeared a trifle jittery to the 5,000 fans who packed Dahlgren Hall—perhaps because it was the Middies who severed their long winning string last year.

Navy, paced by Captain Ken Shugart, the team's brilliant but diminutive forward, held the lead most of the first half. When that period ended, the Middies were on the long end of a 30-28 score.

It was made known that California Crisler had been conspicuously successful at Ann Arbor, where he has a lifetime job, but there seemed no doubt he was tempted to come west.

Due to Hamilton's earnest scouting, California will not have to start from scratch again. Hamilton remarked that "we have other contacts in mind," and that there might be an announcement "perhaps within a week."

Before Crisler became the leading "probable choice" for the California post, Homer Norton, head coach at Texas A. and M. had been mentioned prominently in connection with the vacancy.

Moncrief Signs With Green Bay Packers

COLLEGE STATION—(AP)—Monte Moncrief, tackle and co-captain of the Texas A. & M. football team for the past three years, has signed a contract to play professional football with the Green Bay Packers.

Moncrief in announcing his plans said he plans to remain in school through the summer term and return in the spring of 1948 to complete work on a veterinary medicine degree. After graduation he plans to practice at Green Bay.

Clarke Named Head Of Semi-Pro League

WICHITA—(AP)—The National Baseball Congress today named Fred C. Clarke, former manager of the Pittsburgh Pirates, as president of non-professional baseball's National Association of Leagues.

Administration Is In Need of Workers

In order that services rendered by the Veterans Administration in West Texas may be expedited, Walter R. Byrd, VA regional personnel officer at Lubbock, has issued a call for tabulating machine operators.

International business machines are being installed in the regional office in an effort to conserve time and to improve service to veterans and to improve service to veterans in this area. Machine operators are seriously needed, Byrd said.

Salaries range from \$1,954 to \$2,844 annually.

Those who have had experience with IBM equipment are to complete Form 57, application for Federal employment, and forward it to Personnel Officer, Veterans Administration Regional Office, Lubbock. Form 57 can be obtained at any first-class postoffice, officials said.

LEADS SWITCH HITTERS

CHICAGO—(AP)—Dave Philley, promising young Chicago White Sox rookie, paced 17 American League switch hitters—players who bat either right or left—with a mark of 353 in 17 games.

Fox, Lesnevich Battle Feb. 28

NEW YORK—(AP)—Billy Fox is no cream-puff punter. The 21-year-old Philadelphia Negro who has won all of his 43 professional fights by knockouts is going to win the light-heavyweight title by knocking out champion Gus Lesnevich within two rounds in their title bout at Madison Square Garden on Feb. 28.

That's straight from Frank "Blinky" Palermo Billy's manager. Blinky doubtless is biased, but he doesn't think his prediction of a two-round knockout is a rash statement.

"Sure, I could be wrong," said Palermo, "but it's my opinion Fox will win by a KO within two rounds. I think Gus' style is made to order for Billy. Once Gus gets into trouble Billy won't let him get away. Other champion Joe Louis, Billy is the greatest finisher around."

McNeely Adds 64 Points to Keep Scoring Leadership

NEW YORK—(AP)—Jim Lacy, of Baltimore Loyola, lost ground last week in his attempt to catch up with Cliff McNeely, of Texas Wesleyan, in the National Collegiate Basketball individual high scoring race.

Lacy, runnerup by 29 points at the previous week, tallied 46 points, but McNeely rimmed 64 for a gain of 18 points.

The top scorers as reported to the Associated Press:

NAME	SCHOOL	FG	FT	TP
McNeely, Wesleyan	168	173	509	
Lacy, Loyola	172	118	462	
Parham, Wesleyan	183	45	411	
Wilson, Anderson	149	84	382	

RENEW OLD REGETTA

SEATTLE—(AP)—The always powerful U. of Washington crew will row against California on Lake Washington, in Seattle, on May 24, in the first renewal of the tradition regatta since before the war.

Debate Over Buffalo Hunt Grows; Hunters Cautioned

Carver Plays Borger Cage Teams Tonight

RAWLINS, WYO.—(AP)—Lester Bagley, State Game and Fish Commissioner, joined the debate over Wyoming's first one-shot buffalo hunt today with an assertion that the animals to be slain have been running wild on the range and are "not tame."

Bagley was interviewed as archers from seven states assembled here for the hunt amid angry charges and heated denials by press and radio that the bow and arrow killings will be "nothing short of murder."

Columnist Lee Casey of the Denver Rocky Mountain News described the event, in which three bulls are to be slain, as "slaughter of a cruelty almost inconceivable."

About 50 bowmen, some champions of the sport, arrived here from Colorado, California, Montana, Oregon, Washington, Wisconsin and Wyoming to participate in the hunt, which will start at 10 a. m. tomorrow in a valley on the Bolton ranch southwest of here.

Cowboys will maneuver three bulls from Bolton's buffalo herd into position and the hunters lined up at a distance of 75 yards, will fire one arrow each until the animals are brought down. If a bull breaks, the archers may fire at will he is slain.

The meat of the three bulls will be divided among the hunters and the heads and hides will be auctioned, with proceeds going to the Salt Lake City Shrine Hospital.

Carver Plays Borger Cage Teams Tonight

With four straight victories behind them, the Carver High boys and girls basketball team will meet Booker T. Washington High of Borger in a doubleheader here tonight, with the girls game due to start at 7:45 at the Junior High Gym.

The Carver teams hold victories over Borger, Childress, Salton and Amarillo.

In their last outing, the boys won from Patton High of Amarillo, 40-34, while the girls won 53-8.

Former Houma Player Is First To Appeal Suspension by Minor Prexy

PASCAGOULA, Miss.—(AP)—Leonard Pecou, former Houma, La., baseball player has become the first of five Evangeline League players declared ineligible by Judge W. G. Bramham to appeal Bramham's decision to a higher authority.

Pecou, who prior to entering professional baseball was employed in a New Orleans horse racing hand-book establishment, said he had written Chairman Clarence H. Rowland of the Minor League Executive Committee protesting his being placed on the ineligible list.

"It will fight to the last ditch the charge of throwing any game," Pecou wrote the committee chairman.

Fulks To Try for 1,000th Point in Pro Cage Battle

PHILADELPHIA.—(AP)—Jumpin' Joe Fulks, the soft-spoken Kentuckian with the touch of magic, goes after his 1,000th point tonight. The 6 foot 5 forward for the Philadelphia Warriors of the Basketball Association of America has tossed 495 points through the hoops in 41 games and needs to score only 15 tonight to become the first player in modern pro history to amass a point number 1,000.

The 24-year-old sharpshooter has been averaging 24 points a game all season and not since early last November has he been held under 16 points.

The Warriors will be playing the Cleveland Rebels and it is expected that Coach Roy Clifford will assign Ed Sadowski, former Seton Hall star, and Bob Faught, rangy former Notre Dame ace, to guard Fulks.

Sadowski incidentally was ousted from the last Cleveland game here for taking a poke at Fulks and his loss possibly cost the Rebels the game. Fulks made 28 points that night.

"Jumpin' Joe played college ball at Murray State Teachers in Kentucky.

Arena officials are making plans for the 1,000th point. The game will be halted momentarily at that juncture and the basketball will be taken out of play and kept as a trophy.

20 Knockouts Mark State Gloves Meet

FORT WORTH.—(AP)—Golden gloves packed plenty of dynamite in their fists last night as they opened the Texas Golden Gloves State Tournament with twenty knockouts. Seven of them were of the technical variety.

The crowd of 4,847 paid fans was the largest ever to see the fights in the eleven years they have been held here.

The first round continues tonight with a brand new set of fighters squaring off in 30 bouts.

Two 1946 champions won their fights last night. Charles Simmons of Dallas, last year's heavyweight champion, stopped Par Farrell of Austin in the second round.

Middleweight Champion Herbert May of Houston, the only other defending champion, won his first start in a slow, cautious battle with Joe Cummings of John Tarleton.

In one of the quickest of the knockouts Sgt. Tom Proctor, 230-pound Port Bliss soldier, stopped Robert Ellis of San Angelo in 40 seconds. Proctor lost to Simmons in the heavyweight final last year.

In another heavyweight fight J. D. Kirkpatrick of Petersburg dropped Kenneth Jones of West Texas State for the count in the third.

Some of the best fights of the night were in the flyweight and lightweight classes. Five of the

Jefferson Captures North Section Title

SAN ANTONIO.—(AP)—Thomas Jefferson High School squeezed out a 31-28 victory last night over Brackenridge to win the Northern division basketball championship of district 15-AA.

The game was the second and deciding game of a round-robin made necessary when Jefferson, Brackenridge and Austin, Texas, High School ended in a three-way tie for the title. Earlier this week Jefferson defeated Austin.

The Jeffersonians now play Corpus Christi in a three-game series next week for the district title.

From where I sit... by Joe Marsh

That Ring Around the Bathtub

Job Crowell blew his top the other day. Seems that for weeks he's been trying to get his youngsters to scrub out the bathtub after using it. And this night he sees two rings around it—one where young Sonny left off, and another about Pinky's level.

He raves and rants—and takes it out on the missus for her lack of discipline. And later that evening he sees her quietly polishing the hardwood table that's right by his chair. She's removing the rings he's left there with his evening glass of beer!

From now on, Job's careful to put his glass down on the table cover—like the missus does. And I hear he's a little more forgiving about rings around the bathtub. Just keeps on patiently reminding.

From where I sit, there are little annoyances in every family—conflicting habits and opinions in every community. A little patience—a little more "forgive and let live" is the only antidote.

Joe Marsh

Rocky May Abandon Fight for License

NEW YORK—(AP)—It was the general view in boxing circles today that Rocky Graziano may abandon a court fight over revocation of his

boxing license by the State Athletic Commission in the belief a contest would only further antagonize the commission. In line with his belief, Rocky's manager, Irving Cohen, feels that after a period of some 90 days, Rocky could apply for a new license and it might be granted.

Admiral Byrd Returns to His First Two Little America Camps

By ALTON L. BLAKESLEE
LITTLE AMERICA — (Delayed) — Admiral Richard E. Byrd slid down a snowy chute, the chute into the crystal caverns of his first two Little America camps Monday—and found a forgotten and favorite cornucopia pipe.

He promptly lighted up some old tobacco in the pipe and called it "good." It was a real Polar homecoming for the veteran explorer who led expeditions in 1928 and 1933 to this site where a moving glacier is slowly crushing buildings of Little America one and two out of existence.

On his rediscovery trip, Byrd personally led a little group which included his own son, Richard E. Byrd, Jr., who had dreamed for years for such a day as this. Byrd's first two Little Americas sit one atop the other, six miles to the south of Little America III, the site of his 1939-1941 expedition.

Only the radio towers stand above the snow to mark the 1928 camp and the original buildings are buried under crushing ice and snow. His 1933-1935 camp was built on top of the old site and today we found part of it still intact.

As he puffed his pipe beside the stove where he spent many winter hours more than 12 years ago, Byrd recalled that it was to the 12 by 12 room that he returned, weak and ill, from a long, lonely vigil 20 miles farther south.

During his 1934 expedition he became ill while alone in a weather observation outpost and for days lacked strength to crank a hand generator for his radio. "I was bad off then," he said. "Worse than I thought. It was really a rescue party which brought me back here—though I didn't think of it as a rescue, quite, at the time."

Beside him were three veterans of the 1934 winter—Dr. Paul Siple, Eric, Pa., Lieut. Comdr. Fred-Dustin and Amory H. Walte, who led the rescue party to Byrd's advanced outpost and brought him back.

We made the 18-mile round trip on jouncing amphibious weasels driven by Gunners Mate Third Class Louis Just, of Salina, Kan., and Fireman First Class Jack R. Starr, Houston, Tex.

The radio towers of 1928 which originally were 70 feet above the surface struck out of the snow only about 20 feet. Atop one of them still spun a three-bladed windmill generator without a single squeak.

"Someday all of this will break off. Someday maybe a whaling ship will see this windmill floating atop an iceberg," the Admiral said. "You know, I'd like to see the American flag raised there."

Sports Bribe bill in Texas Legislature

AUSTIN—(AP)—A sports bribe bill by Rep. William Jameson of El Paso today was in a sub-committee of the House Committee on Criminal Jurisprudence for further study.

Rep. William R. Stump of Georgetown said he believed the penalty was too strong.

Rep. Sidney McClain of Sherman argued for a stiffer penalty.

The measure asks a two to five year jail sentence for bribery or attempted bribery of an athlete or official at a sports event.

Jameson said his bill was "suggested by recent events in New York State."

Rips Big Three

International diplomatic circles are a-buzz over blistering charges against the late President Roosevelt, Winston Churchill and Marshal Stalin in "Defeat in Victory," new book by Jan Ciechanowski, above, wartime Polish ambassador to the U. S.

Most bitter among many accusations is charge that Britain and the U. S., to appease Stalin, deliberately double-crossed Poland in secret deal for partition of that country.

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

What Causes Juvenile Delinquency? One Mother Thinks It Can Be Wrong Friends

"One of the best ways you can protect your child against juvenile delinquency is to teach him to make the right kind of friends," says Mrs. Sidonie M. Gruenberg, Director of the Child Study Association of America, in the February issue of True Confessions magazine. Mrs. Gruenberg has not only had vast experience in child guidance, but has raised four children of her own.

She says, "It is a person's ability to get along with his associates that determines his success and happiness in life. It is the kind of friends he chooses that often determine whether he will make a good or a bad citizen. And this is something that should start while he is still in the cradle."

Mrs. Gruenberg points out that every mother must realize how important it is for her child to develop the ability to get along well with other children early in life. Every mother knows that at school and at play, it is almost more important than any specific skill which she can teach her child.

"Studies that have been made of children—in school, on playgrounds, in clubs—show that in practically every group, there will be one or two children whom nearly everybody likes or admires; and there will be one or a few whom nobody notices, and these children seem to make no friends. They are not called on to join in anything if they should have special abilities—in a ball game, for example—nobody will ever find out, because they are not asked to share. The misfit is the potential delinquent."

"What makes children turn in one direction or the other, or are they just born that way? No, they are not born that way. They learn from experience how to get along with other children and with grown-ups, too. By the time children come to school, they show a definite pattern of behavior. You can steer them into the right direction, away from the wrong kind of friends who might lead them into trouble."

"Unless you get your child to accept everybody as a person to treat recently and with common respect, your boy or girl will grow up in a world in which he will find few of the right kind of friends. Your child will get along well only with the kind of people that you have allowed, or perhaps compelled, him to associate with. Your own kind of people, or his kind of people, are easy to get along with, but they are small fractions of the population with whom your child will have to have all sorts of dealings as he grows older. Help him early in life to make the right kind of friends and he won't seek the wrong kind."

REWARDS BASED ON Achievement

RARELY are competent, dependable Doctors, bricklayers or salesmen produced on a foundation of "subsidized security" or "paid idleness." Human nature is just not built that way. Man must strive for his rewards.

The Doctor's rewards and clientele are based on the confidence of patients, built up through years of achievement. He has to study hard, work hard, render service—in order to build and retain a practice.

A great deal of the response to treatment depends on confidence in the Doctor. Not only is there physical reaction to this feeling of confidence, in the method of treatment, but belief in the Doctor causes us to follow instructions more carefully.

In our present free economy, as his rewards are based on his personal achievement, the Doctor must render the highest type of service, of which he is capable. The vast majority of American Doctors prefer it that way.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK—(AP)—If I came home and told my wife I had just murdered a man she would reply: "It won't talk to you until you take that cigar out of your mouth."

The things she hates most in the world are cigars and toothpicks. When I try to tease her by telling her that in China the high class ladies and gents think nothing of picking their teeth in public—she holds her left palm under her nose to protect innocent bystanders from ricochet—she counters wittily: "That probably explains the shape China's in."

"I don't go in for toothpicks, but I never turned a man in to the police for giving me a cigar."

I learned to smoke in Germany. I tried cigars but didn't like them. Next I experimented with Belgian clay pipe. This I gave up as inefficient; if a man really wants to drink nicotine he can do it quicker through a straw.

When the GI's overran a German liquor and tobacco supply dump and some correspondents brought back a lot of cigar boxes, using them as wedges to keep a jeepload of Cognac bottles from breaking. "We tried the cigars after the Cognac. They were ersatz and about as far from Havana as a cigar can get. Probably made from the same woodpulp that produced the Wehrmacht's sausages."

But wartime teaches you to latch on to everything free, and the pine-flavored cheroots were there for nothing in unlimited quantities.

I came home a confirmed cigar addict—only to find Frances had given up smoking. That's marriage—seaw, better-later. Five years ago I used to smooch when she lit a cigar—she never learned to inhale—and now she sprints for the other room when I start de-cellophaneing a cigar. I can't inhale, yet either. Makes me cough if I do.

I've found cigars good for a lot of things besides smoking. If a

strange big dog comes growling at me I blow a double mouthful of smoke at him. He runs away.

Some people have quit inviting us to their homes. They're choosy people. I don't like choosy people. I'd rather stay home and smell up my own apartment.

Other advantages:

(1) If a long-winded bore corners me I light up the foulest cigar in my armory. When his eyes begin to water, he gives up and goes back to the martini table.

(2) As long as I am pouring out clouds of cigar smoke when my boss passes the desk he thinks I am working. At least I think he is thinking I am thinking. I am probably only sending up smoke signals for a thought—any thought.

DINOSAUR LONGEVITY

Man speculates as to what weaknesses in the make-up of dinosaurs led to their disappearance after 140,000,000 years of supremacy on earth, yet man has reigned only a few thousand years.

Full Assortment of Battery Cables

Replace worn battery cables promptly to avoid low batteries, damage to regulator, dim lights, hard starting.

northernmost outpost.
He drove home this week from Alaska over the Alcan. Highway with two other Texans. They left during the record cold wave that tumbled temperatures to 83 degrees below zero at a place called Snag in the Yukon territory.
Hal said apologetically he was 90 miles away from Snag at the time. It was only 69.9 below zero where he was at Northway.
The two other Texans who drove with him were Tex Murrah of Camden and Lynn B. Boon ("I cropped the E during the depression to save money on ink") of Linden.
He says this about the terrific cold: You don't feel it unless there is a wind blowing. He had expected a lot of moisture and dampness, but said snow is dry as a bone when it gets very cold. There is not only no moisture in the snow, but none in the air. Your scalp itches and your nose runs dry.
There is so much electricity in the air that you can shuffle your feet, point at a wall with your finger, and throw a spark a foot long.

Appendicitis Is Becoming Minor Cause of Death

NEW YORK, N.Y.—Appendicitis, which about fifteen years ago was responsible for the loss of 18,000 lives yearly in the United States, is rapidly becoming a very minor cause of death, the statisticians of the Metropolitan Life Insurance Company report. Among the company's million of Industrial policyholders the death rate from the disease has decreased more than one half in the last five years, and almost three quarters in the past decade.
Marked advances in medical and surgical treatment and, in very recent years, the use of the sulfa drugs and penicillin have been important factors in reducing the appendicitis death rate, according to the statisticians. They point out, however, that much of the success undoubtedly has been due to the nationwide educational program in which people were urged not to delay seeking medical advice and warned not to use laxatives in case of abdominal pain.
The wholehearted cooperation of American pharmacists and manufacturers of pharmaceutical products in this campaign received special commendation from the statisticians.
"As recently as the early '30's the death rate was mounting," the statisticians note, "even though hospital facilities were growing and

improving, and medical and surgical aids were making marked advances. Now there is good reason to believe that within the next few years medical science and public health administration will gain another victory by reducing appendicitis mortality to near the vanishing point."

LEFORS NEWS

LEFORS—(Special) — Mrs. Tom Florence and Mrs. Truman Guthrie were Pampa shoppers Friday.
Miss Ruby Fulcher of Amarillo spent the weekend with her parents, Mr. and Mrs. W. D. Fulcher.
Mr. and Mrs. Harold Call were visitors in the home of Mrs. Bessie Call on Tuesday.

BALKS—Gerhard Eisler, alleged representative in the United States of the Communist International, picks up his papers and prepares to leave the House Un-American Activities committee in Washington after he refused to be sworn in when called as a witness. He was promptly cited for contempt of Congress.

Dogs won't let you pet them during cold weather, because of the electric shock.

The biggest danger is from fire. If a fire breaks out, you're gone. No water to put it out. Just before he left his unit lost a \$200,000 building and its materials.

You have about three hours of daylight. To keep warm you hang around the kitchen fire. You eat sweets and greasy foods, because your body craves them. You really don't mind the cold so much because you're dress for it.

About Alaska: No one has trouble getting work, at good wages. It's so democratic up there a waitress is as good as the colonel's lady. Prices are high—40 cents for a peanut butter sandwich.

The Alcan Highway is very dangerous, but a heavy tourist flow is expected this summer. The best time of year to drive it is winter. In spring the thraws make it bad; in summer there are mosquitoes over an inch long that literally eat you up.

A major headache at his air base was a herd of 50 buffalo that had to be shooed off runways when planes landed.

The drive home was a long, dangerous, hard trip, but Hal said he knew he was back in Texas when he stopped at a service station in El Paso and the attendant, after filling the tank with gas, said: "Mister, you want me to check them tahrns?"

POINTS FOR PIGEONS
CHICAGO — (AP) — Pigeons flying around Chicago's Loop—and there are thousands—are steering clear of the Northwestern Railroad station when they want to take a rest.
On the station's ledges and window sills workmen are installing devices known as "pigeon repellants." They consist of upright U-shaped wire prongs which are fastened two inches apart on a wire frame.
Chief Engineer E. C. Vandenburg said the devices cannot injure the pigeons. But, he added, they can prevent the birds from sitting in comfort on the ledges and sills.
