

THE NATURALIST WHO THE OTHER DAY SAID THAT WILD LIFE IS DISAPPEARING SHOULD TRY STAYING OUT AT NIGHT FOR A WHILE.

TAFT ERMS STASSEN PROPOSAL AS 'TRIVIAL'

O'Daniel Calls Dooley Member of the Texas 'New Deal Gang'

Texans Testify at Committee Hearing

WASHINGTON—(L)—Confirmation of the nomination of Joe B. Dooley of Amarillo to be a Federal Judge for northern Texas was urged today before the Senate Judiciary Committee by George S. Wright and Alex F. Weisberg, Dallas lawyers.

They told the committee they had known Dooley many years and considered him well qualified.

His reputation is very, very fine throughout the State, as a lawyer," said Wright. "By my contact with him I am convinced that he has a judicial mind."

Weisberg described Dooley as "one of the outstanding lawyers of West Texas." Asked by Chairman Wiley (R-Wis.) if he believed Dooley would be a "New Deal tool," as contended yesterday by Senator O'Daniel (D-Tex.), Weisberg replied:

"I can't imagine that he would lend himself to any such thing as that."

The witness then observed he personally was not a New Dealer and never had voted for the late Franklin D. Roosevelt.

H. C. Pike, Amarillo lawyer, testified he had known Dooley intimately since they attended law school at the University of Texas and graduated there in 1911.

"He is a man of excellent, high standing character," he added. "He stands high as a lawyer."

During Pike's testimony, O'Daniel asked whether Dooley is a corporation lawyer and one of a type unlikely to keep in mind the interests of the common people.

Pike replied he had known Dooley 40 years and knew of no other lawyer in the Texas Panhandle of higher standing and qualifications than the nominee.

Dooley's nomination was recommended by Senator Connally (D-Tex.).

O'Daniel yesterday lashed "New Dealism" in his fight to block the nomination of Dooley as federal judge of North Texas.

O'Daniel said the Amarillo attorney and former president of the Texas Bar Association, was one of "the New Deal gang" and that anybody who in any way represented New Dealism was "personally objectionable and obnoxious" to him.

The junior senator from Texas also aired the split among Democrats in Texas, as a result of several stories running in Amarillo papers that courts of civil appeals in Austin and El Paso had ruled petitions for candidacy must bear signatures representing 5 percent of the last general election and not the last city election, as all Texas municipalities have been doing.

Here in Pampa, to conform with that ruling, it would be almost impossible since all of the city election boxes take in voters outside of the city limits, Box number 10, in the court house, for one, takes in voters as far north as the county line itself.

Therefore, officials will continue to run the election here as always.

For a while there had been some confusion as to what would be done here and the decision was reached this week to hold the elections the same as ever.

City Manager Garland Franks said this morning that the name of Howard Buckingham will remain on the ballot until he files a request, sworn to before a notary public, for his removal. Franks added that this was the advice given by the city attorney to him and to Buckingham.

O'Daniel elaborated on his own background — from his birth in Ohio to Texas, to his election as Texas Governor and then senator.

He then went into details of a special election in 1941 when Rep. Lyndon B. Johnson opposed him for the Presidency, and the later Morris Sheppard, O'Daniel was a close victor.

O'Daniel read a telegram to the committee which he said the late President Franklin D. Roosevelt had sent to Johnson the day before the election.

He declared "during that campaign the President gave his blessing to one of his stooges on the White House steps," and made it clear he was referring to Johnson and the telegram.

Dooley and Sen. Tom Connally, who recommended his appointment to be federal judge, sat across from O'Daniel during the hearing. Dooley did not testify yesterday, but answered questions from committee members.

WHEREVER THERE'S A DOUGHBOY, YOU'LL FIND MUD—Europe, Asia, the Pacific isles—you can search the whole world over and wherever you find a foot-slogging doughboy, you'll find mud. Soldiers in picture at right can tell you about the particularly gooey kind he and his pals plod through in the Aleutians, where they've been on maneuvers since November.

Procedures for Local Elections To Remain Same

Procedures in the coming special and regular city elections will be the same as always, city officials decided this week.

The decision came as a result of several stories running in Amarillo papers that courts of civil appeals in Austin and El Paso had ruled petitions for candidacy must bear signatures representing 5 percent of the last general election and not the last city election, as all Texas municipalities have been doing.

Here in Pampa, to conform with that ruling, it would be almost impossible since all of the city election boxes take in voters outside of the city limits, Box number 10, in the court house, for one, takes in voters as far north as the county line itself.

Therefore, officials will continue to run the election here as always.

For a while there had been some confusion as to what would be done here and the decision was reached this week to hold the elections the same as ever.

City Manager Garland Franks said this morning that the name of Howard Buckingham will remain on the ballot until he files a request, sworn to before a notary public, for his removal. Franks added that this was the advice given by the city attorney to him and to Buckingham.

Three Teen-Agers Die in Collision

PLAINVIEW—(P)—Three Floydada teen-agers died in the flames which followed an automobile-truck collision five miles south of Tulla last night.

They were identified today as Nita Merle Patterson, 16, daughter of Mr. and Mrs. F. J. Patterson; Glen Carmack, 17, son of Mr. and Mrs. C. B. Carmack; and Kenneth Finley, 18, son of Mr. and Mrs. F. W. Finley, all Floydada residents.

Both boys were well known football players for Floydada High School. Miss Patterson and Carmack were students and Finley had graduated.

The group was enroute to Canyon accompanying another automobile on route to West Texas State College.

Swisher County Deputy Sheriff O. E. Cosby said that the trailer of the oil field truck fell on top of the automobile in such a manner that the three victims could not escape.

Driver of the truck, Robert C. Miller of Odessa, is in the Swisher County Hospital suffering shock and minor burns.

Today's Schedule Of Redeployment

By The Associated Press

Three ships carrying Army personnel from the Orient are scheduled to arrive today at San Francisco.

They are the Army Transport Admiral C. F. Hughes, from Shanghai, Manila and Okinawa, with 2,013 Army personnel and 154 civilians; the Alken Victory, from Korea, with 523 Army troops and 54 civilians; and the Marine Panther, from Yokohama, with 456 troops and eight civilians.

The Goucher Victory, due at Seattle with 297 troops from Yokohama, is the only other troopship due at a United States port today.

Compromise Formula For Palestine Is Seen

LONDON—(P)—Informed sources said today the British Cabinet was considering a compromise Palestine formula which would allow 100,000 Jews from European displaced persons camps to enter immediately a semi-autonomous Jewish province in the Holy Land.

This plan was attributed to Foreign Secretary Ernest Bevin and Colonial Secretary Arthur Creech Jones.

There was no immediate indication from Ten Downing Street whether the Cabinet had accepted it.

President Truman told Jewish leaders in Washington last July the U. S. Government was willing to assume technical and financial responsibility for the transportation of 100,000 immigrants from Europe to Palestine.

A foreign spokesman said today no British approaches had been made to the State Department on a Palestine settlement.

Government sources said after the cabinet meeting it was almost certain the new British proposals for Palestine would be conveyed to Arab and Jewish leaders in London over the weekend. They added it was likely that Arab delegates to the official Palestine conference would meet Bevin and Creech Jones once again Monday and because of their "uncompromising opposition" to further Jewish immigration, the talks probably would dissolve immediately.

Qualified informants said Bevin was alarmed at the possibility of an Arab outbreak if the Palestine Arabs should be dissatisfied with a partition of the Holy Land into Arab and Jewish provinces, the most likely plan under consideration.

Bevin and the colonial secretary apparently led the opposing cabinet factions. They met with Jewish agency leaders last night but the agency's political chief said after the two-hour meeting that "we were allowed to see none of the features of the British government's newest unborn child—the new Palestine plan."

Jewish and government sources both said the chief discounted the possibility of an Arab outbreak in the event of partition.

Rotarians Sponsor Canadian Scouts

CANADIAN—(Special)—The Canadian Rotary Club has taken over the sponsorship of Boy Scout activities in Canadian, following a meeting of club officials yesterday afternoon.

Named to represent the club in its transactions with the Adobe Walls Council was E. L. Crowell, Rotary president.

The organization has assumed the sponsorship of Troop 71, which was formerly sponsored by the First Presbyterian Church. Twenty-five boys are now enrolled and there are said to be several more on a waiting list.

Chairman of the Troop Committee will be W. L. Job and Father John Walsh will serve as Scoutmaster with N. W. Trueblood as secretary-treasurer. Other members of the committee are J. Bruce Waterfield, Oliver Hodges, B. M. Bryant and Tom Abraham.

Benefit Entertainment Feature Planned In Interest of Victims of World War

An entertainment feature is planned for Tuesday night at the Legion-VFW Hall here, all the funds from which will go to a national fund to establish a home for women and children of veterans of foreign wars.

Members of the local VFW Auxiliary have laid plans for a bingo party, to be open to anyone who wishes to pay for admission, and all the proceeds will go to the fund.

The women have promised homemade pie and coffee to be served as refreshments.

Truman Renews Plea for Control In Rubber Field

WASHINGTON—(P)—President Truman today renewed his plea to Congress for authority to continue rubber controls in order to assure synthetic production sufficient to meet any emergency.

The President declared in a message to Congress that natural rubber production will increase by late 1947 or early 1948 to the point "where it will be possible to satisfy world needs largely from natural rubber."

Meanwhile, he said, "It is imperative that the Congress extend authority to continue controls over rubber under the second War Powers Act, as I requested in my previous message."

He asked Congress to adopt a resolution also making it a national policy "to maintain a synthetic rubber industry in the United States adequate to the minimum needs of national security."

"With our adequate world supply of natural rubber, and a free choice of materials by industry, the use of synthetic rubber in the United States might fall substantially below the permanent production goals considered to be minimum for the needs of national security," the President's message said.

"This would prove even more likely if at some time in 1948 the world supply of natural rubber should begin to exceed the total world demand for all rubber."

Over 25,000 Acres of Forests Are Burned

LUFKIN—(P)—Officials of the Forest Protective Division of the Texas Forest Service today estimated 25,000 acres of timberland in 31 East Texas counties have been burned over since Feb. 1.

More than 300 fires have been reported this month, according to W. B. Hartman, chief of the Lufkin division.

Yesterday, 29 fires in the East Texas area burned over 17,000 acres, he said. All fires are under control, with the exception of four in San Augustine County, Hartman reported. These fires are burning on several thousands of acres.

Teen-Agers Warned On Driving Violations

City Police last night arrested four men and one woman on charges of running through a red light and another teen-ager for driving without a license.

This morning in corporation court three of the men charged with intoxication had fines of \$10, \$15, and \$25 levied upon them.

Another man was accused and along with the woman, both teen-agers' cases were continued with one being warned to obtain an operator's license. Of the two overtime parking ticket charges handed before the judge, one was fined \$1 and the other excused.

Benefit Entertainment Feature Planned In Interest of Victims of World War

An entertainment feature is planned for Tuesday night at the Legion-VFW Hall here, all the funds from which will go to a national fund to establish a home for women and children of veterans of foreign wars.

Members of the local VFW Auxiliary have laid plans for a bingo party, to be open to anyone who wishes to pay for admission, and all the proceeds will go to the fund.

The women have promised homemade pie and coffee to be served as refreshments.

'Majority' Vote Is Plan in Question

WASHINGTON—(P)—Chairman Taft (R-Ohio) of the Senate Labor Committee today termed "trivial" a proposal by Harold E. Stassen for a secret majority vote of workers as the last step before a strike.

Stassen, an announced candidate for the Republican Presidential nomination in 1948, testified before the committee headed by Taft, who has been prominently mentioned for the nomination.

In his testimony, Stassen suggested as part of a program for peace settlement of industrial disputes that no strike or lockout could take place unless a majority of employes so voted.

"As a solution to the labor problem," Taft commented, "I think it is trivial."

Senator Ball (R-Minn.), whom Stassen appointed to the Senate when he was governor of Minnesota, also criticized the vote proposal, terming it "extremely drastic—further than I would go."

Stassen cautioned Congress against "going too far" in restricting unions.

He called for a compulsory "cooling off" period before strikes and lockouts and creation of an independent office of Federal Labor Conciliator.

The one-time Minnesota Governor declared new national labor legislation is needed because union leaders have "abused" their power.

But he added in his prepared testimony that there is "some danger" that Stassen's legislation would weaken labor that the result would be injurious not only to labor but to our free economy as a whole.

Stassen's legislation was directed at bills introduced by Senator Ball (R-Minn.), the man he named to the Senate in 1940.

The former Governor hit out specifically at provisions of those measures which would outlaw industry-wide bargaining, permit employers to obtain injunctions to stop strikes, and forbid maintenance of membership clauses in contracts.

These require that workers remain members of their union for the life of the contract.

Stassen, who announced his candidacy for the Republican presidential nomination last December, proposed that the U. S. Conciliation Board be separated from the Labor Department and that the President appoint the chief of the new office.

This would make for "an atmosphere of neutrality," Stassen said.

He also advocated a national quinquennial election to decide whether to accept or strike.

No strike could take place unless a majority of the workers so voted by secret ballot.

As the Senate group turned to Stassen, the House Labor Committee assembled to question Rep. Francis Case (R-S.D.), who sponsored last year's case bill and now has expanded it in a new version.

Case's preliminary statement was filed with the committee and made public yesterday, but his oral testimony was delayed when Republican members of the committee were called to the House floor to take part in the debate over limiting presidential terms to two.

Office Limitation Bill to Senate

WASHINGTON—(P)—The proposed two-term limit on the presidency headed for the Senate today by virtue of a revived Republican-Southern Democrat coalition in the House.

While Republican leaders hailed the House action as a victory in the first test of their 1947 legislative program, one Democratic leader told reporters privately:

"They can't call this a victory for their program. They would have been beaten badly if it hadn't been for the Southern Democrats."

The limitation, in the form of a Constitutional Amendment, went through the House yesterday by a 285 to 121 vote—14 more than the necessary two-thirds majority.

If approved by two-thirds of the Senate and later by three-fourths of the states, it will prohibit more than two full or partial terms for any President.

Although all of the 238 Republicans present voted for the limitation, they were 33 short of the 271 needed for a two-thirds count. But they were joined by 47 Democrats, including 47 from Southern or border states.

The party is to get under way at 7:30. The national announcement relative to the campaign states: "It is hoped that more than \$150,000 will be raised this year, and that even greater totals will be amassed in the following years."

Truman's Hat Tossed in Ring By Hannegan

WASHINGTON—(P)—A broadside of Lincoln Day addresses seemed likely today to provide the Republican reply to a declaration by Democratic Chairman Robert E. Hannegan that his party is ready to call on President Truman to seek re-election.

Hannegan's statement, made at a New York dinner for postal supervisors, was said by White House Secretary Charles O. Ross to have been made without Mr. Truman's knowledge.

But there seemed little doubt the postmaster general and national chairman spoke the wishes of the party's high command when he asserted after praising the President's handling of foreign and domestic problems:

"We have gone far and fast but the task of leading us to peace and plenty is not accomplished in a day nor a year. Until that work is done, we are ready to call upon our President again as the man who has proved himself fit for the job. America will give him the support and loyalty that he deserves of us through the years to come."

Hannegan later replied "Yes" to a question whether it was his intention to throw Mr. Truman's hat into the 1948 Presidential ring.

Mr. Truman will get an opportunity to voice his thoughts on the matter when he speaks at a Jefferson Day dinner here April 5. His address will be broadcast to similar Democratic party affairs throughout the nation.

Most Republicans have thought for some time that President Truman is certain to be the choice of the Democrats in the party's 1948 convention. Accordingly, their strategy has been to try to outshine his administration with their own handling of Congress and gubernatorial offices.

Carroll Reece, Republican national chairman, brushed aside Hannegan's remarks with the comment that "it is again the voice of Hannegan but the hand of Pendergast."

The Pendergast organization in Kansas City which gave Mr. Truman his start in politics was made a prime campaign issue by the Republicans last fall.

Oklahoman Figures In Coastal Slaying

OKLAHOMA CITY—(P)—Oklahoma County officials said yesterday that there were no reported burglaries in the areas of Oklahoma City to which Robert Ray Ivey, 57, had admitted.

Ivey, whom California officers said gave Denison, Texas, as a former home, sought to prove that he was in Oklahoma at the time he is alleged to have slaying in Los Angeles, it was said.

Deputy Sheriff Frank Lynch said that there were no reported burglaries between the date of Aug. 2 and Aug. 12, the time when Ivey in a letter to the sheriff's office said they were accomplished.

FLUSH OUT KIDNEYS THIS DOCTOR'S WAY

Backache, loss of the old pep, getting up nights, and headache are often caused by nothing more than improper kidney action due to excess acid in the urine. The kidneys are one of Nature's ways of removing impurities from the blood. And when these impurities back up, trouble may start.

So if you have these troubles, give your kidneys and bladder a good flushing out by taking Dr. Kilmor's Swamp-Root. It works on the kidneys to flush them out... increasing the flow of urine to help relieve that excess acidity and ease that burning sensation when you pass water... helps that bladder irritation that makes you get up nights.

Made of 16 herbs, roots, vegetables, and balsams, Swamp-Root is absolutely non-habit forming. Millions have taken it for 3 generations... often with wonderful results. Caution: take as directed.

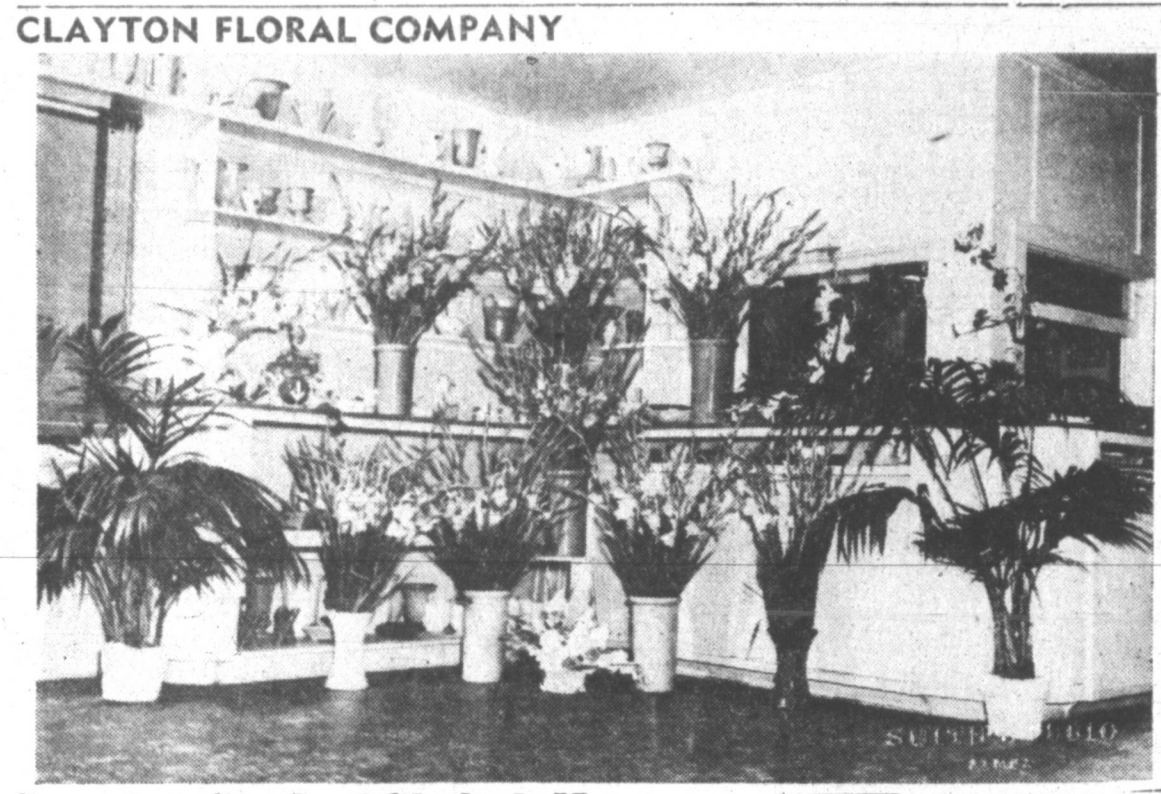

For free trial supply, send to Dept. Y, Kilmor & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

Flowers speak a language all their own. Whatever the occasion, beautify it with flowers from Clayton's. We deliver.

PAMPA Business News...

CLAYTON FLORAL COMPANY

Complete Stock of Gladioli Now Available at Clayton Floral Shop

A wide variety of fresh-cut flowers are always available at the Clayton Floral Company, which is located at 410 East Foster. Where quality and prices are just a part of the business.

The Clayton Floral Company, owned by Tom Clayton and managed by Roy Kay, is not a new firm to Pampa or Pampans. Clayton began business here in 1931. The firm's years of service to Pampa and vicinity are an endorsement for its honesty and dependability.

At the present time, the floral shop is specializing in a wide selection of Gladioli. The picture above is a pictorial example of the loveliness of some of these flowers.

For many years the Clayton Floral firm and many other firms in this section of the state had a great

City Electric Co. Will Check Wiring Free of Charge

If you have been having any kind of trouble with the electrical wiring in your home or business, or if you just want the wiring checked for safety's sake, the City Electric Company, which is located at 920 Alcock Street, makes a standing offer to do this work for you free of charge. Remember, it doesn't pay to be in doubt. A large percentage of fires that occur are directly attributed to defective wiring.

T. M. Brooks, owner and operator of the City Electric Company, has been in business for many years. His firm began business here two years ago and has grown daily until he now has one of the most progressive shops in town.

The firm is equipped and ready to do all types of industrial and home wiring on short notice. Latest example of a local job completed is the wiring at the new Hearst's Creamery.

At the shop you will find a complete stock of electrical appliances and supplies. All of this merchandise is of high quality and is reasonably priced.

All work done by, and all merchandise sold at the City Electric Company is guaranteed to be satisfactory to you or your money will be refunded. For prompt service call 27 during the day, or after 6 or holidays call 228-J.

YELLOW CABS AND THEIR DRIVERS

Yellow Cabs Offer Prompt, Courteous Service, Always

The Yellow Cabs (pictured above) travel Pampa and vicinity daily, transporting Pampans and visitors to and from various sections of the city. These cabs are kept in good running condition at all times. They are kept clean and are heated in cold weather to add to your comfort.

The drivers (pictured above) are not only capable drivers, they are also sane drivers. They will take you to the place you want to go promptly. They will not run red lights, speed, drive recklessly, or drive their cab in any other manner that is dangerous to you or the welfare of the general public.

E. E. Smith, owner and operator of the Yellow Cab Company, has built his firm's business on his policy of courtesy, honesty and safety.

The next time you want a cab and want reliable, prompt, courteous service, that you will want to enjoy daily, call 51 or 536.

If you are in town and the Yellow Cab Stand located at 111 North Somerville is handy, you'll find a cab waiting to take you to your destination.

New Sno-White Washateria Offers Novel Accomodations With Service

Highlighting Pampa's new industries this week is the most modern "help-yourself" laundry in the state. As many will doubtless say, "the whole state" is taking in a lot of fondness for the building of the Sno-White Washateria, located on Swimming Pool Road, marks the beginning of a new phase of public laundry service, that will eventually spread across the entire country.

To give you an idea of the novelty of this new and hitherto untried service let me describe a few of the conveniences offered. Number one attraction to the ladies who enjoy having as many comforts as possible, while they are waiting on that machine full of clothes to be cleaned, is the comfortably furnished living room where the patrons sit down, have a coke and read a magazine. There is also a record player to furnish some music.

On the south side of this recently completed building, enclosed by a web fence, a play yard for the children is being constructed. The sure will simply help the child to be entertained while the mother does the family wash. It will also keep mother from worrying for fear that Junior is out playing in the street.

The laundry itself is completely outfitted with the most modern facilities that are available on the market today. They are kept spotlessly clean and in perfect order at all times. Rugs, machines and water outlets are conveniently located to save the customer many steps during the course of a wash day. Plenty of soft, hot water is available at all times.

If for no other reason than curiosity you should drive out on Swimming Pool Road and see this new Sno-White Washateria. It is Pampa's newest progressive business. The telephone is 2550. Machine and laundry rates are reasonable.

Cleaning, repairing, rearing. Cars, trucks, tractors and industrial units.

Confused Birth Dates Don't Bother The Bambino on 52-53 Anniversary

Texans Rate 1-2 As 'Open' Starts

SAN ANTONIO—(AP)—A bulky Texas open field wouldn't be surprised if Texans finish one-two in the \$10,000 event which started today over tough, picturesque Brackenridge Park course.

Favorite is the little man with the mighty swat, Iacobe Ben Hogan who gets his mail at Hershey, Pa., but who still calls Fort Worth home. Rated most likely to beat out bantam Ben is the fairways' glamor boy—singing, smiling, wise-cracking Jimmy Demaret, Houston's pride. Hogan always is a favorite. More than \$40,000 from last year's national trek and better than \$6,000 this year show why little Ben can be picked every time. And if there were any doubts of Hogan being on his game for this one they were dispelled yesterday as we Ben ripped Brackenridge's par 36-35—71 with a rollicking 65 to tie for first money with Hertz's prize.

Demaret, who won the Tucson Open last week-end, has been die-hard in practice rounds all week and yesterday he checked in with a 63 in the pro-amateur.

The pro-amateur was an indication of what a heating par is in for in the 72-hole open. A dozen shooters were as much as three-under. Harry Todd of Dallas and Jimmy Dike, San Antonio amateur, had the best ball—61—for first place in the pro-amateur team competition.

Pro Cagers Set New Mark in 109-85 Win

NEW YORK—(AP)—The Chicago Stags were holders of a new Basketball Association of America scoring record today following their 109-85 victory over the Pittsburgh Ironmen at the Chicago stadium last night.

The second place team in the Western division, with seven players scoring in double figures, and two others just falling under, by one, went into a halftime 56-39 lead and continued to pile up points as the game progressed. The previous league record was set by the Washington Capitols on Feb. 2 when they trounced the Cleveland Rebels 107-81.

Telephone facilities installed in the U. S. War Department's Pentagon Building in Washington would serve a city of 125,000 people.

Of the 18,000 modern residents of Greenland, only 600 are of European origin; the remainder being Eskimos.

Louis, Godoy Meet In Mexico Tonight

MEXICO CITY—(AP)—Heavyweight Joe Louis and Chilean Arturo Godoy, twice a contender for the world title, meet for the third time in a ten-round, 9-decision bout tonight inaugurating tour.

The scene is the new 60,000-seat building and promoter Gene Lucas has high hopes of a sell-out that might result in a gate of \$400,000. Both were pronounced in "good shape." Louis has been in training here for more than three days, while Godoy arrived only three days ago.

Godoy says the mile and a half doesn't bother him, but Louis admits it affects him "just a little."

Louis has impressed Mexicans as a fine fighting machine, supremely confident and thoroughly relaxed, while Godoy seems to be more nervous type.

Louis said in typical Louis fashion "I fight like always," while Godoy declared "If I don't win I'll give him plenty of trouble." In their two previous meetings, both title bouts in 1940, Louis won a decision in 15 rounds and later scored an eight-round knockout victory.

President Muguel Aleman, a strong proponent of sports, has given audiences to both fighters. The champion's take for the exhibition is \$50,000 and 40 percent of the profits, while Godoy gets a flat \$10,500 and expenses. The government will receive 15 percent of the gross in taxes.

Godoy will be fighting at what he calls "my best weight"—200 pounds. Louis will enter the ring at about 212, four pounds over his best.

Oranges were originally a pear-shaped fruit about the size of a cherry.

Harvesters Play Conference Tilts Tonight, Saturday

Although they are almost certainly out of the District 1-AA basketball title picture, Pampa's Harvesters play conference tilts tonight and tomorrow night of which at least one is due to have an all-important bearing on the overall picture.

Seeking their eleventh win of the season and their third conference victory, the Harvesters play Lubbock tonight and go on to Brownfield for a game with the winless Cubs tomorrow night.

Lubbock and Plainview, each with four wins and two setbacks in the conference, are the only two teams rated a chance of stopping the rush of the defending champion Amarillo Sandies toward their third consecutive loop title.

Amarillo plays Brownfield tonight and a certain series of wins and losses in conference play could virtually set up the title.

Plainview plays at Borger and should Borger topple Plainview,

Alabama, Miami Will Meet on Grid in '47

MIAMI, FLA.—(AP)—The University of Alabama will play the University of Miami in the Orange Bowl Stadium next Nov. 23, it was announced today as coach Jack

Harding sought a football team to fill the last remaining open date on the Hurricanes' 1947 schedule. The schedule includes: Sept. 26—Baylor University here; Oct. 10—Texas Christian at Miami.

More than 1,900,000,000 pounds of corn syrup were used in the United States in 1945.

Amarillo, Carver Will Clash Here Tonight

Carver High's unbeaten basketball team will meet the Patten High cagers of Amarillo tonight at eight o'clock at the Junior High Gymnasium.

The girls teams of the two schools will play first.

The Carver team—both boys and girls—have won over Slaton, Childress and Borger this year.

The first American corn starch factories began operation more than a century ago.

New York Group Decides on Fate Of Rocky Today

NEW YORK—(AP)—Rocky Graziano, still insisting he cannot name the men who allegedly offered him \$100,000 to throw a fight, learns today the New York State Athletic Commission adjourned until today.

After hearing Rocky tell under oath yesterday his own story of the circumstances surrounding cancellation of his scheduled Dec. 27 bout with Cowboy Ruben Shank, the Commission adjourned until today.

Graziano is charged with violating a Commission rule that any bribe offer must be reported immediately. But the boys along the fight front were freely predicting that Graziano's scheduled middleweight title fight with Champion Tony Zale would not go on as scheduled March 21. They expect a drastic penalty.

There appeared to be five possible decisions by the Commission: To revoke Graziano's boxing license, suspend him, fine him, reprimand him or exonerate him.

Rocky was on the stand for almost two hours explaining his version of the attempted fix.

Existing he considered the whole thing "as a joke," the middleweight contender said he didn't take the bribe offers seriously.

"If I ever thought anybody really wanted to give me money to throw a fight," the tousie-haired slugger boasted, "I'd knock his brains out."

Anderson Requests Amateur Standing

STOCKHOLM—(AP)—Arne Anderson, former holder of the world mile record, has appealed to the Swedish Athletic Association for reinstatement as an amateur. He and Gunder Hagg were declared professionals last March on charges of accepting money in excess of their expenses.

Texan Dies in Train Wreck in Oklahoma

SHERMAN—(AP)—Frank Murley, 51, Sherman railroad engineer for the Frisco Railroad, was reported killed instantly early today when his locomotive overturned and pinned him beneath it near Scullin, Okla.

Merritt Watson, Sherman brakeman, and James Potts, Sherman fireman, were reported injured and in an Ada, Okla., hospital. Watson had a broken foot and Potts was burned.

Uninjured were O. L. Saylor, brakeman, Sherman, and J. A. Caloun, conductor, of Denison. The accident occurred at 4:30 a. m. today. The freight train was southbound from Tulsa. Early reports from Ada said the locomotive and 45 cars were derailed. Scullin is between 50 and 75 miles north of Sherman.

Pampa News

Year's most consistent newspaper

Published daily except Saturday by The Pampa News, 225 W. Foster Ave., Pampa, Texas, Phone 466—All departments, MEMBER OF THE ASSOCIATED PRESS (Full-Linked Wire). The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or other wire credited to this paper and also the regular news published here-in. Entered as second-class matter at the post office at Pampa, Texas, under the act of March 3rd, 1879.

SUBSCRIPTION RATES
BY CARRIER in Pampa 50¢ per week. Paid in advance (not offset) \$2.00 per month, \$4.00 per six months, \$12.00 per year. Price per single copy 7¢. No mail orders accepted in localities served by carrier delivery.

HOW TO HELP TITO SOVIETIZE US

We are indebted to Eric Pridonoff, writing in the American Mercury, for a picture of how Marshal Tito of Yugoslavia has exploited the generosity of the American people to strengthen his tyranny of Soviet control.

Pridonoff starts his story by saying that Tito has built up and equipped an army of 600,000, plus a huge and efficient secret police, with the purpose of maintaining in Yugoslavia a government closely patterned after that of Soviet Russia. The question is: where did Tito get the necessary materials?

The answer is that he got the materials from the United States through the UNRRA.

For this generosity Marshal Tito has to say: "Of course we have received some help from UNRRA. But the principal and most substantial aid came from our great ally, the Soviet Union."

Pridonoff goes on to say, "neither I nor my colleagues in the American embassy could find any evidence of that 'substantial aid'. What we did find was an army of Russian spies, political commissars and soldiers who were living off the ravaged land and shipping to Russia much of the wealth of the country."

"When Belgrade was liberated from the Nazis," Pridonoff continued, "The German armies had no time to destroy large stock piles of food, including 50,000 carloads of wheat and more than 2000 carloads of sugar. The Russians seized these vast stocks and left the citizens none at all. Later they generously returned 10 percent of the wheat. This was given tremendous publicity to show that the Soviet army was kind and generous."

"Moreover, the Tito regime entered into secret trade agreements with the USSR, whereby the past two years a large supply of Yugoslav's sugar, wine, pork, glass, hemp, leather and other products have been sold to Russia at prices at which the workers and peasants claim were below the cost of production. In return, we discovered, the Soviet Union supplied Yugoslavia with matches, laundry soap, chemicals and military equipment some of it lend lease material sent by the United States to Russia."

"This is the 'substantial aid' given to the Yugoslavs by the Soviet Union, for which the people are told by Tito to be so thankful."

While all this has been going on there has been a pious campaign conducted through the Communist-controlled campaign conducted through the Communistist system that won two World Wars and provided, and is providing the necessities of life for those nations which have turned their backs on the system they take such pleasure in decrying.

We have been given here in America a plan and a system that not only adds to the general welfare of all of us but recognizes the rights of each of us. Under this system we have grown great and powerful—powerful to the point that we are considered by other nations as the world leader. It certainly seems the height, of folly to continue to spend American dollars earned under the Capitalist system to feed the hungry of Europe and at the same time provide ammunition for propaganda by those who would Sovietize the world.

MACKENZIE'S Column

By J. M. ROBERTS, JR.
AP Foreign Affairs Analyst
(Subbing for MacKenzie)

With several countries insisting that they cannot move toward disarmament until they know what is being done toward collective security through the United Nations Military Committee, that group, and particularly its Russian members, are taking a lambasting for inactivity.

Sir Alexander Cadogan, British delegate, is demanding a report "showing exactly how and why" the committee has been obstructed. Sir Alexander is believed to be acting under instructions from foreign Secretary Bevin, who is reported much discouraged over progress toward a U. N. military force. The inference is that some delegation within the committee is recalcitrant and, since one of the Western powers asks the question, that delegation must be the Russians.

But that isn't the complete truth. The Russians did delay, their "statement of principles" which the committee had asked of all members. When they did present it, they were criticised for "not saying anything."

An investigation has failed to reveal where any of the others "said anything" either, when they reported in April, but the Russians got the blame and has "clung to them."

Since September, however, the committee's stalling has been unanimous. The truth is that, lacking directives from the Security Council, the military men have no means of knowing where they are going or what they're supposed to do when they get there.

There's a situation in the U. N. which produces stalling in the whole security field for the time being.

The Security Council, of course, no change in making peace, but by enforcing whatever peace is handed to it by the Foreign Ministers Council, which is itself a long way from the end of its job. The Military Committee, on the other hand, with recommending to the Security Council the force it will need to police whatever peace is finally agreed upon. To expect it to act at this point is like asking a military staff to prepare for war in a country of which it has never heard, of which no maps are available.

The committee has been working, but in an elaborate series of secrecy, but some of its activities are known, even though one delegation (the Russian) once quit speaking to another for a week because of a relatively minor leak. No general agreements have been reached, not even on the procedural methods the committee will use when it does get down to work.

Everything said in committee

FEBRUARY MOLASSES by Peter Edson

WASHINGTON (NEA)—Secretary of Agriculture Clinton Anderson and Reconstruction Director Philip Fleming are stuck with the sticky sugar of February molasses that ever refused to pour.

The government got into this mess through recent orders decontrolling the sale of blackstrap molasses in the United States, while still retaining control over molasses imports.

For the poor ultimate consumer the interest in this is that it may become more profitable for the Cuban sugar producers to make molasses than to go on making sugar. All that would do is cut down the already short U. S. sugar supply.

The story may be a little involved, but it's a perfect example of what happens when government upsets established trade practices with controls, then decontrols too fast.

Blackstrap molasses, for the uninitiated is the stuff left over after all the extractable sugar has been taken out of cane juice. It is glue-thick, sticky-sweet, brownish-black, hard to handle. But it has its uses.

CHANCE OF A LIFETIME

Because sugar and many molasses products were so tied up in the war effort, they were under strict government import, price, rationing and allocation controls. Annually, the government bought between 300 million and 400 million gallons of molasses at around 14 cents a gallon, and sold it at 19 cents. The difference was supposed to cover cost

of shipping and handling. Actually, the government has lost a number of millions of dollars on the deal.

Just fall a few smart guys figured out a way to make a killing in this business. There are three processes for taking blackstrap molasses, cleaning it up and converting it into edible syrups. These syrups can't be made into sugar, but they can be used as sugar substitutes by the soft-drink bottlers, confectioners and food processors who need lots of sweetener.

By a quirk in the law and government regulations, these syrups were not subject to price control or rationing. Eighteen-cent blackstrap therefore could be converted into syrups that suddenly became worth up to two dollars a gallon because sugar itself was in short supply and under rationing. This was better than making the stuff into eating sugar. This was important spending sugar.

The syrup-makers hatched up a plot to get the Department of Agriculture to give them a big allocation of blackstrap. They wanted it, of course, for the purely altruistic purposes of receiving the sugar shortage.

The boys in Agriculture liked the taste of this candy bait, and asked the Civilian Production Administration for a 30-million-gallon allocation of blackstrap for conversion into syrup. CPA refused to bite. What the syrup-makers wanted was an allocation of a

few hundred thousand gallons. Agriculture was leeked.

Then Lawrence Myers and his associates in the sugar division of Agriculture suggested that the way to beat this rap was to take all controls off blackstrap and see what would happen.

There followed a six-week battle behind the bureau. The molasses alcohol people and the molasses stockholders yelled murder. Taking controls off molasses might put them out of business, because it would "shoot up" the price of their raw material. Plants built to handle molasses can't use corn or potatoes or crude oil as a substitute.

But to all pleas from the molasses industry government policy makers turned a stone ear. At the end of January Presidential Assistant John R. Steelman okayed the orders to remove controls on domestic distribution, though retaining controls on imports.

Future sales, after five cargoes in February are disposed of, will be to the highest bidder. There is every prospect the syrup-makers will get most of it.

What this means is that blackstrap prices may jump from 18 to as much as 30 cents a gallon. Strange enough, any profits the government makes on this rise in price must be paid to the Cuban and other producers, after U. S. government losses are absorbed.

NATIONAL WHIRLIGIG

Common Ground

By R. C. HOILES

"Private Educational Institutions About The Same As Public"

I have a letter from a confused president of a college that contends that because private educational institutions teach about the same thing as public educational institutions that therefore the private institutions are about as much to blame for our confusion as the public ones.

What this college president does not seem to see is that the private institutions teach by example man's rights in property. They teach by example individualism rather than collectivism. They teach by example voluntary agreements instead of coercive agreements. They teach by example that no man is going enough to govern another without his consent.

Private institutions are voluntarily supported. No man is obliged to help support them against his will. Every man has all of his energies left to combat them if he thinks they are anti-social or morally delinquent.

On the other hand, the state institutions, the state colleges and the local public schools teach by example that men need not respect the individual rights of another. They teach by example that there is no law superior to the will of the majority or the state. They teach by example that the end justifies the means. They teach by example that men have a right to use coercion and force to get what they want from another rather than get it by love and persuasion.

So even if state educational institutions do use the same text books and are about equally confused in what they teach by word of mouth and what they suggest reading, yet the difference in their teaching by example is as the difference between night and day and that between wickedness and virtue.

Since we are imitative animals and largely learn from imitating the acts of others, the influence of compulsory state supported educational institutions is infinitely more harmful and more destructive and more anti-American and anti-Christian than the privately supported schools and colleges can be.

Evidently the president of the college doesn't realize the influence on the modern mind by "imitating what other people do."

meetings must be translated in all four languages including English, French, Russian and Chinese. This drags out sessions interminably.

So They Say

Im am in favor of keeping the United States a little higher than the rest of the world so that we can help pull the others up. You can't do that if you stand on the same level as the other people of the world.

If America were to die, it would not be by murder from without but by suicide through racial, religious and class hatreds and bigotry.—Federal Judge James P. McGranery of Philadelphia.

If we are thinking in terms of (atomic) industrial power beyond a few experimental plants, it will take at least five years and probably more to do the atomic engineering.—Rear Adm. William S. Parsons, navy director of atomic defense.

QUICKIES By Ken Reynolds

"How do you know your wife knows you hired a secretary with a News Want Ad?"

Then this same columnist went on to tell how many millions of dollars there were in circulation now in ratio to our national income. Then he contended the fact of the largeness of the ratio of money in circulation to the national income was what persuaded Mariner S. Eccles, chairman of the Federal Reserve Board, to relax restrictions over credit purchases. This is pure nonsense. It should cause him to contract credit rather than to expand it.

And the same columnist didn't even take into consideration the growth of bank deposits. The more the Federal Reserve System relaxes restrictions over credit, the more bank deposits will have. The more money and bank credit we will have in proportion to production.

No, Eccles' thinking about relaxing restrictions over credit to keep up the boom due to increases in credit and money. The "ins" are thinking about extending credit so they can claim prosperity. They never think of the end results of an expanded credit.

So the first time you see the phrase money in circulation, remember that it is only a small factor in determining the price of things. The main factor in high prices is the amount of bank credit and not the amount of money in circulation as the existing bureaucrats in the government seem to think.

In Hollywood

By ESKINE JOHNSON
NEA Staff Correspondent
(Johnson on KPDM Monday Through Friday, 3 p.m.)

HOLLYWOOD — You can win money betting that M-G-M will never again cast Keenan Wynn as Van Johnson's best friend. Despite his outward calmness, Keenan is plenty mad over Evie's Mexican divorce and marriage to Van. He didn't think they would go through with it. And despite what you may have read elsewhere, the two Wynn children, Ned and Tracy, aged 5 and 3, are still living with Keenan. There may be legal fireworks over their custody.

Start screaming ladies. That nasty man with the list of the 10 worst-dressed female stars in Hollywood—and why—is here again.

Remember him?—fashion designer Ray Driscoll. Ray proved he was the bravest man in the world last year, when he gave us his idea of the 10 worst-dressed glamor girls of the screen. Having suffered no dire effects, he's back now with his 1947 list.

Driscoll's "diary" to the federal government, he may be indicted under the National Defense Act.

But Henry will never have to face a grand jury. He has been so frightened that Washington expects him to surrender his papers.

FRIGHTENED

The great fear is that the naive and effervescent Morgenthau will blurt out the whole story. And there is this consideration, too. Despite talk and hope of permanent world peace, the time may come when the U. S. may have to resort to these same devious methods again.

Indeed, it is estimated that the former Secretary of the Treasury can be sued for at least \$200,000 for repayment of the costs which compilation of these private memoirs imposed on the American taxpayers.

FORGIVEN—The White House and the Treasury have no objection to Mr. Morgenthau's revelations on any "personal" recollections which he may have kept at the close of his official days.

But they do object to publication of financial, commercial and trade negotiations which the U. S. arranged for the aid of our Allies before and after the United States was dragged into the last World War by the Pearl Harbor attack.

FDR admitted he cut diplomatic and financial corners to bolster Great Britain and France long before the war. Morgenthau's revelations conflict with the official record. He manipulated financial and trade agreements in favor of the anti-axis powers, without any authority from Congress.

He figured, correctly, that the U. S. would eventually become involved in the global conflict, and that all his extra-curricular commitments would be forgiven.

In short, FDR exceeded his presidential and congressional authority time and again for what he thought was the greater good. In most of these instances, he took Mr. Morgenthau into his confidence.

Naturally, Morgenthau does not want that story told in full before 1948, and he has no faith in grim, humorless Morgenthau's revelations.

DOLLARS—The most serious objection to publication of the "Morgenthau Diary," however, is that it may reveal national defense secrets. The United States used money as

list.

Ray describes himself as "the bad-boy designer" of the international set. He formerly designed for the Duchess of Kent and Magda Lapasset in prewar Europe. Now he does clothes in Hollywood for such names as Carmen Miranda, Mrs. Joe E. Lewis, and June Haver.

His worst-dressed list, last year caused a near-riot over the cocktail tables of Hollywood and in the fashion salons. In fact, we suspect certain Hollywood ladies are still looking for him with well-sharpened hat-pins.

But Ray says he can take it. So here is his 1947 list of the 10 worst-dressed feminine stars and why:

1. Judy Garland—because she still dresses like a tired clubwoman.
2. Greer Garson—her clothes suggest a Kewpie-doll complex.
3. Deanna Durbin—her clothes look like the first grab in a grab-bag.
4. Jane Russell—she doesn't realize that it's her better to conceal.
5. Diana Lynn—she's grown up, but she dresses like a teen-ager in distress.
6. Joan Fontaine—she aspires doggedly, rather than beautifully, to the mode.
7. Jeanne Crain—she dresses so badly you'd think she did it on purpose.
8. Dinah Shore—she tries to dress

Four Texans Huft in Coast Train Wreck

FRESNO, Calif.—(AP)—At least four Texans were injured in the wreck of the streamlined train San Joaquin Limited at Kingsbury near here yesterday.

They were Helen Wright, 26, Somerset, Texas, ankle-injured; Barbara Wright, 9, daughter of Helen Wright, cut leg; Alberta Mangelsdorf, 33, Dallas, shoulder injury, and Patricia Mangelsdorf, 25, Dallas, sprained neck and abrasions.

★ THOUGHTS

Again, the kingdom of heaven is the unto treasure hid in a field; the which when a man hath found, he hideth and for joy thereof searcheth and telleth all that he hath, and buyeth that field.—Matthew 13:11.

Take all the pleasures of all the spheres.
And multiply each through endless years.
One minute of Heaven is worth them all.—Thomas More.
