

AN EXPERT SAYS A STOCKING TIED UNDER THE CHIN WILL IMPROVE LINES OF THE FACE. DON'T, HOWEVER, TRY A SOCK ON THE JAW.

EISLER FAILS TO TESTIFY, CITED FOR CONTEMPT

DOG DAY IN THE NEWS—Sonny Wells, left, 21-year-old ex-GI, gets an affectionate kiss from the dog he rescued from the face of Stone Mountain, Ga. Sonny, repaying a debt to dogdom owed since an old hound saved him from drowning, nearly lost his life when he slipped on the smooth face of the mountain. At right, Patsy Ruth Ferguson, 16, is shown with her seeing-eye dog, "Lucky," which Los Angeles, Calif., school authorities say she must give up or attend classes. "Lucky" was described as a potential hazard to other students.

U.S. Delegation to U.N. Reorganized

NEW YORK (AP)—Warren R. Austin, United States representative to the United Nations, is reorganizing the large U. S. delegation into a closely-knit, highly-centralized organization with the blessing of President Truman and Secretary of State Marshall, it was reported today.

It is said Austin's aim is to put the United States delegation, scattered over Manhattan under different chieftains, under one roof, literally as well as figuratively.

Contract Let for Addition to Local Telephone Office

A contract has been let to an Amarillo firm for the construction of an addition to the present telephone building at Ballard and Francis Streets, L. H. (Jack) Johnson, local office manager, Southwestern Bell Telephone Company, said today.

The addition, 44 by 37 feet, will be built to the rear of the present building it was said. It will be of brick and the work is to begin just as soon as necessary materials can be obtained. The project should be completed by late this summer, it was said.

Three other minor additions and alterations will be made, the manager stated. A room 10 by 22 feet will be built on the north side of the building, and a penthouse, 14 feet by 18, will be built on top of the building to house a ventilating system.

The entrance to the company office, he said, is to be changed from the Ballard side to the Francis Street side.

This addition is scheduled in order to give space for the installation of more operating room equipment.

"This," he said, "will consist initially of three positions of switchboard, which should enable the company to furnish service to all of those who are now on the waiting list who can be connected to the central office."

Johnson said that more than 600 persons are now on the waiting list for phones in Pampa. At this time last year, he said, there were 400 names on the list. The figures have developed, he explained, despite the fact that 828 telephones have been added to the system during the past year.

Pampa now has 4,656 telephones.

Plans Complete for 'Snow White' Staging

Plans are complete for the stage enactment Saturday night, at 7:30, of "Snow White and the Seven Dwarfs." The performance will be at Junior High School Auditorium.

The play, to be presented by a company touring the Southwest, is sponsored by the Epsilon Sigma Alpha Sorority.

A spokesman for the local group said today: "This is a story especially for children, with beautiful settings making it comparable with the most modern stage productions."

The company could be engaged for one night only, and that being Saturday night, it was said.

"I feel like a social outcast—everybody else in the club has a lovely new spring hat with flowers on it!"

Texas Today

Doggone: or doggy tales.
Old Ted is just a bird dog, but he's not an ordinary canine. He's in the movies.
Ted brings money from people in Carlton. Then he goes to his master's store and buys something to eat. If he wants candy, he goes to the candy counter. If he wants meat, he goes to the meat counter.
He's 11 years old, and his owner, Neal Clark, says old Ted has been doing his own shopping for years.
It began when he was taught to bring in the wood. Clark gave him a penny. One time, old Ted brought a penny back to Clark, and Clark rewarded him with a bit of candy.
Since then, old Ted has known that money will get a guy what he wants. People of Carlton like to give him coins to see what he'll do with them.
His fame spread, and recently a newsreel cameraman went to Carlton to record a day of Ted's life.

Butch, a mascot at Biggs Field at El Paso, likes nothing better than flying. He has more than 200 hours in the air to his credit. His owner is T. S. R. D. Burt. Burt says Butch held the rank of Staff Sergeant, complete with dog tags, class "A" pass and personal file when they were stationed at Lawton Field, Okla.
Butch particularly enjoys aerial stunts with El Paso Field Photographers.

Buster of Jacksonville is the second generation of sturdy news-hounds. His owners are Mr. and Mrs. A. M. Earle. They live on a farm a quarter of a mile off the highway.
Each morning Buster trots down to the filling station to pick up the morning newspaper and takes it home. His father before him carried the one-customer route for seven years until he was killed by a car.

At Big Spring a friendly three-legged dog known as Poochie is the town character. Poochie is a terrier, and since 1939 has been wandering around the business district making friends.
Poochie watches traffic and listens for the signals to change before crossing a busy street. He has been adopted by several owners, but always returns to the streets. Recently, however, he's taken up with Gene Heaton, theater owner. He chases a car now and then, but as a rule he's a very reserved and dignified animal.

And George E. Vance of Weslaco, back from a trip during which he saw many catches like Helter Skelter, Sheller and Hodge Podge Lodge, wonders why there isn't a Rin Tin Tin?

How To Hold FALSE TEETH
More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping and wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your teeth. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooney, pasty taste or feeling. Does not sour. Checks "pink spots" (denture breath). Get FASTEETH today at any drug store. (Adv.)

Motor Route Through Africa Being Marked

KHARTOUM—(AP)—Five thousand gasoline drums spaced about building will cost more than \$15,000, and an "all out" drive for additional funds is to get under way in the near future.

300 yards apart will mark the route for an expected "mass migration" of Britons down Africa between Shellal and Wadi Halfa and Berba and Abu Hamed, according to plans of the Sudan government.

The Public Works Department plans to compete the route marking before the majority of truck-borne families reach Shellal from Cairo.

The Sudan government will require all persons motoring through the Sudan to sign agreements to report to all administrative officers throughout the route, to keep to the routes and to travel only in convoys.

BRAZIL'S DEFICIT RIO DE JANEIRO—(AP)—Brazil closed 1946 with a deficit of almost one hundred million dollars, according to treasury figures. This is said to be the largest ever recorded in the national finances.

Miami Woman, Small Daughters Leave to Make Home in China

MIAMI—(Special)—Mrs. Julian O. Hodges and her two small daughters, Sara Lou, 4½, and Julie Ann, 3, left Miami by Santa Fe Tuesday to join their husband and father, 1st Lt. J. O. Hodges, in China, Korea. They will sail from Seattle Friday, Feb. 7, touching the Alaskan waters, and expect to be on board ship over a month before reaching their destination. They expect to remain in Korea at least a year, where Lt. Hodges is a pilot for the American Military government. He has been located there for several months. Mrs. Hodges took a supply of clothing to last a year and a number of electrical household appliances. She and the children had a number of vaccinations before leaving and will receive more on board ship. Before her marriage, Mrs. Hodges was Miss Ruthelle Wade, of Miami.

Paving of Miami Streets Discussed

MIAMI—(Special) — The Men's Service Club held its regular monthly meeting with 68 in attendance. The new president, R. J. Bean, presided over the business session, at which time plans were discussed about paving some of the streets in Miami, and Mr. Hazie of Lubbock, discussed costs.

Wayne Maddox presented to the club the idea of sponsoring the boys who are feeding calves to be sold in the fat stock show at Pampa this month and of the good it would do to back these boys and the county agent in their work.

Judge Clark of Shamrock was the speaker of the evening, speaking on good citizenship.

Out of town visitors were Jack Montgomery, Bill Walker and Judge Clark of Shamrock, Mr. Hazie from Lubbock, Geo. F. Ashburn, formerly of Lubbock, now of Miami, and R. F. Sawyer, of Pampa.

Jack Montgomery, formerly of Miami, introduced Judge Clark.

Another matter coming before the club was that of lighting the streets in Miami, but no definite action was had at this meeting.

Although J. O. Duniven, local manager of the light plant, presented some interesting figures for consideration.

A "tin" can is actually 98 1-2 percent steel, which provides its defiability. The tin coating provides insulation and protection against corrosion.

Bible Studies Are Conducted at Church

CANADIAN—(Special) Rev. Guy N. Woods of Nashville, Tenn., is conducting a series of Bible studies at the Church of Christ. The studies began Monday and will end tonight.

The ladies have a class each morning at 9:30, and a general class is held each evening at 7:15. Sixteen ladies attended the first morning class and 31 persons were present the first evening.

One member of the study group stated the purpose of the course is as expressed in 2 Timothy 2-15, which is, substantially to teach trustworthy persons who are capable of teaching others.

Dye Traces Water 40 Miles Underground

RAWLINS, Wyo.—(AP)—Green water has appeared in the taps of Rawlins homes, to the great delight of Ben G. Davis, city pipeline superintendent.

Dye was dropped into a test well 40 miles south of here and reached Rawlins two months later, having traveled an underground water course.

Davis explained that the water's arrival proved the existence of a subterranean trough atop the Continental Divide, and opened the way for valuable supplementation of the city's water supply.

Denmark had the highest export per capita of any country in the world in 1939.

John McCarty Speaks At Rotary on Old West

John McCarty, author of the book, "In Old Tascosa" and assistant publisher of the Amarillo News Globe, spoke at the history and present make up of the West and the Texas Panhandle during the weekly meeting of the Pampa Rotary Club in the Palm Room, City Hall.

McCarty referred numerous times to the contributions in literature and song made by the West and also to the men who made history. It was announced that the Canadian Rotary will visit its Institute of International Understanding on February 17.

L. N. Atchinson announced the opening of the Boy Scout drive for raising funds and said the initial drive would start on February 7. Gray County will be expected to raise \$5,000 in two weeks toward the Boy Scout program.

Lawrence Baines, the club's new Junior Rotarian, was introduced to the club as well as 14 guests and 16 visiting Rotarians and two new members.

The Rev. E. A. Norris had charge of the program and Virgil Mott led the club singing. Irvin Cole, president of Rotary, presided.

License Suspended, Fine Paid on Charge

Travis W. Baker, Laketon, was fined \$50 and court costs and had his driver's license suspended for six months in County Court this morning after entering a plea of "guilty" to charges of "driving while intoxicated."

Baker was arrested by Constable Jack Sullivan, McLean, yesterday, while driving on Highway 66 in McLean.

Ambassador

(Continued from Page 1) of North Carolina in 1928.

In politics for almost 40 years, Gardner was born at Shelby, N. C., the youngest of a family of 13 children. His country doctor father, Oliver Harry Gardner, was an anti-secessionist in the Civil War.

While his father lost every thing he had during the war, his son, Max Gardner, is reported to have made more than a million dollars, chiefly in the textile business.

Falling to get an appointment to West Point, Gardner studied at the University of North Carolina where he developed talent for public speaking, football and baseball. He was graduated in law at the age of 25, and practiced in Shelby from 1897 until elected governor.

Gardner is a long-time friend of former Secretary of State Byrnes. He frequently worked as a Carolina lawyer with Byrnes whose home town, Spartanburg, was only about 46 miles from his own.

Josephus Daniels, former ambassador to Mexico, was the first to place Gardner in politics when he made him state organizer of the Young Men's Democratic Club in 1908.

Wilkinson

(Continued from Page 1) one once said of her, and it pleased her.

The only other woman who ever served as Cabinet Minister was Miss Margaret Bondfield, who was Minister of Labor in 1939.

Before entering the Cabinet, Miss Wilkinson had served as a parliamentary secretary, first to the Ministry of Pensions and later to the Ministry of Home Security, and was a delegate to the San Francisco Conference of the United Nations.

She served as a delegate to the first United Nations Assembly in London in January, 1946.

She had been a Parliamentary figure—an explosive one—since 1924, except for a defeat in the National government landslide of 1931. She spoke at terrific speed and had no particular cares about whom she picked for a foe in a verbal row.

She had many of them with Lady Astor and several Prime Ministers. In 1937 she shook her fiery red hair and loosed her oratory at a sidown strike in Detroit and on the same trip she took an interested look at Nebraska's uncameral Legislature when in its first session.

Miss Wilkinson's principal fight was on behalf of the British worker, but she also carried her fight to France, Germany, Spain and India. Her fierceness in debate, coupled with her hair and sometimes Leftist views, won her the nickname of "Red Ellen," but the workers called her "Our Ellen."

She wrote several books, including "During the War" and "The Women's Fight." She was the Privy Council for a time and headed the Women's Fire Guards. She was twice bombed out of her home.

Miss Wilkinson never disclosed her age, but Debrett's Peerage, a leading biographical authority, gave it as 55.

Tradition

(Continued from Page 1) Constitution, the President's term would be four years. They put no limit on the number of terms.

Starting in 1903, more than 150 resolutions and proposals to limit the terms have been offered in Congress.

The Senate four times approved the idea: in 1824, 1826, 1913, 1926. But the House didn't approve at the same time. So nothing happened.

In 1875 the House approved a resolution of its own (the Senate didn't go along). Now the House again may okay another plan to limit presidents to two terms.

But before that can be part of the Constitution, the Senate also must approve. So must 36 state legislatures. That's not easily done.

Jefferson thought a President should be limited to two terms. He said he didn't want to see any man, through constant re-election, grow old and stupid in the job or try to get the job for life.

President Andrew Jackson repeatedly asked Congress to start the ball rolling to limit the presidency to one term of four or six years.

Presidents Andrew Johnson and Rutherford B. Hayes also wanted such a limit.

But Presidents James Buchanan and Ulysses S. Grant thought as Washington did:

"That some time it might be disastrous to have a limit on presidential terms."

During the war she served on the War Relocation Authority, a leading biographical authority, gave it as 55.

4-H Club Calf Show To Be Held Feb. 26

DALHART.—(AP)—The Annual Panhandle 4-H Club Calf Show, sponsored by the Dalhart Chamber of Commerce, will be held Feb. 26.

The All-Panhandle Poultry Show, with a special 4-H Club division, usually held jointly with the calf show, has been cancelled this year because of lack of facilities.

Dallam County Agent Marvin Simms, who has been named superintendent, said the calf show is open to any bona fide 4-H entry from the Panhandle Country of Texas, New Mexico, Colorado, Oklahoma and Kansas.

Contempt

(Continued from Page 1) from the committee hearing room by Justice Department agents. They said they were taking him back to Ellis Island.

He was arrested last week on charges of violating immigration laws.

Eisler says he is Austrian-born and describes himself as an anti-fascist.

When told to take the witness chair, he first declared:

"No, I am not going to take the stand."

Thomas snapped:

"Remember you are here as the guest of the country."

The forefinger of his right hand drumming emphasis on the table, Eisler shouted angrily:

"I am anti-fascist. I am not a guest of the country."

Eisler protested that he had been arrested on the committee's orders and, continuing to rap on the table, declared: "Now I have my will."

U.S. Government Party to Suit

DETROIT.—(AP)—The United States Government today became a party to the M. Clemens Pottery Co. suit, which opened the door to nearly \$4,000,000 in potential claims.

Federal Judge Frank A. Picard said he will sign an order granting the Attorney General's petition to intervene.

The court renewed an invitation to the National CIO also to become a party to the suit. However, he said, he has received no word from that organization and that his offer will not remain open indefinitely.

The government's intervention came over the objection of Edward Lamb, attorney for the pottery workers who began the suit in 1941.

The company made no objection to the government's intervention but reserved the right to oppose similar petitions from any other organization, including the CIO.

Murder, Suicide Is Verdict in Shooting

MADILL, OKLA.—(AP)—Sheriff Joe Everett declared Wednesday there was "no need for a coroner's inquest" in the schoolroom shooting of Mrs. Jessie Laird, 40, and her estranged husband, Ellis Laird, 62, and issued a verdict of murder and suicide in the case.

Mrs. Laird, a teacher at the Camrose Elementary School here, was shot to death in her classroom in the presence of several of her first grade pupils.

Sheriff Everett said Laird shot her, shot himself. He died about 30 minutes later. Mrs. Laird died instantly of a bullet wound in the right breast.

New Treatment for Tuberculosis Found

HOUSTON.—(AP)—Two scientists of the Baylor College of Medicine have announced the development of a drug they hope may prove effective in the treatment of tuberculosis.

Dr. Kenneth L. Burdon, 51, head of the department of bacteriology and immunology, said he and Dr. Edwin A. Johnson, assistant professor of bacteriology and immunology, had developed the drug, which they call eumycin over a period of nearly two years.

He said the drug was derived from harmless bacteria taken from soil and has been used only on rats and guinea pigs thus far.

"It is hoped that the use of drugs such as eumycin and streptomycin and others which may be discovered, combine with early diagnosis will virtually conquer this disease," Dr. Burdon said.

"We plan an intensive program to test this drug and we expect within six or eight months to know how safe and effective it will be."

Mr. Truman said he wants only elective officers eligible to fill a White House vacancy.

Republicans who asked not to be quoted by name said there are so many Republicans in Congress aiming for the 1948 nomination that Martin might get the inside track if by a stroke of fate he succeeded President Truman.

Gardner met his only political defeat when he lost the Democratic nomination for governor in 1920.

As depression governor of his state he cut more than ten million dollars from legislative appropriations but never managed to balance the budget. His slogan was "reorganization, retrenchment and consolidation."

Gardner came in for criticism from both labor and management for his stand on strikes during his years in the governorship. The one attacked his methods of enforcing order; the other his insistence on arbitration.

Members of the Roosevelt administration praised him, however, for his general labor policies and he was called in also to help in the banking crisis of the 30's.

In North Carolina, Gardner sponsored a live-at-home movement designed to encourage tenants and small farm owners to grow more of their own needs rather than risk all on such cash crops as cotton and tobacco.

SUCCESS STORY TWIN FALLS, Idaho.—(AP)—Manager A. J. Meeks of the Twin Falls office of the Idaho State Employment Service thought the man asking for construction workers appeared familiar.

"Haven't we met before?" Meeks asked.

"Yes," was the reply. "I was in here about a year ago to apply for a job and you got me one at the construction company. Now I own it and I'm looking for more help."

Exquisite Doily

By Mrs. ANNE CABOT
Here is a doily which really will be fun to make as the closely crocheted center "swirl" is always a fascinating design—the openwork of the surrounding section and the heavier fan-shaped sections around the edge provide a nice contrast of delicacy and strength. Make the 12-inch doily in either white or ecru thread.
To obtain complete crocheting instructions, actual size detail of stitches used in the Swirled Doily (Pattern No. 5396) send 15 cents in COIN plus 1 cent postage. YOUR NAME, ADDRESS and the PATERN NUMBER to Anne Cabot, The Pampa News, 1150 Ave. Americas, New York 19, N. Y.

Central Baptist Church Wins Two Banners at Associational Meeting

Central Baptist Church won the attendance and efficiency banners when the Baptist Associational Training Union, composed of all the Baptist Churches in the Palo Duro Association, met at the First Baptist Church in Claude at 2:30 Sunday afternoon, Feb. 2. Out of the 500 attending the conference were present from the local church.
The theme of the conference was the "Book of Books" and the program was opened with a song and praise service led by R. E. Gattin of the Pierce Street Baptist Church, Amarillo. After a few brief announcements the congregation was divided for the different programs which lasted 45 minutes, after which it reassembled for song service and for awarding of the banners. The local church won the attendance banner for having accomplished the greatest work for the last quarter.
Rev. Jack Sismore, Line Avenue Baptist Church, Amarillo, rendered a special song entitled "The Wayfaring Pilgrim."

Beware Coughs That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
CREOMULSION for Coughs, Chest Colds, Bronchitis

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all, and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcetrone (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonful twice a day. That's all there is to it.
If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

Take Look at What John Adams Started!

WASHINGTON—(AP)—One hundred and forty-seven years ago President John Adams—a stiff-minded man from New England—moved to the nation's new capital here, bringing along 131 federal employees. That's all there were.

But to some contemporary citizens, opposed to the growth of bureaucracy, even that number seemed like unnecessary padding of the government payroll. They thought the United States could run its affairs on a smaller budget.

At that time the treasury employed sixty-nine people, the State Department seven (they were shoe-horned in with the Treasury office), the navy fifteen and the army—which hadn't yet thought up the Pentagon Building—eighteen. ... I don't know what the remaining 22 of the original 131 did, unless they sharpened quill pens.

The 22 senators and 115 congressmen complained bitterly about the housing shortage in a metropolitan area containing 14,000 overcrowded souls.

The railroads of the day—state-coaches—also had trouble with their schedules. It took one Treasury clerk six days to bring his wife and nine children from Philadelphia, the former capital. Present day government workers marvel less at this than how the forgotten clerk ever managed to have a brood of nine or a federal salary.

The worst misadventures of these government pioneers have their counterparts today in the daily tangles of a cast army of modern federal employees to build a future life in still-cramped but ever-growing Washington.

For a forecast major post-war population drop in the Capital has alerted to municipalize.

Since 1800 the population of metropolitan Washington has grown from 14,000 to approximately 1,300,000, spurred by the development of

THE STORY: Cassie and Parker are married. Shortly afterward, his father dies and Parker takes his place at the bank. Cassie resents the big house on the hill, spending lavishly. Parker moves the Fletcher family into better surroundings, pays for Leni's expensive lessons. Cassie thinks of Mike now only occasionally. She is going to have a baby.

PARKER hated the bank. His father, he told Cassie helplessly, had been astute about money matters, but he himself was nothing but a bungler.

Cassie wasn't surprised when he came home after the July business meeting of the board of directors of the bank, to say that he was out of it. He retained his interests; but he refused to tie himself to that "infernal desk job," as he put it.

What he really wanted to do now was to get the Hamilton Machine works going again. He'd urged his father to do something about the abandoned plant when the war was on, but his father hadn't been interested. "But do you know anything about machinery?" Cassie had asked absently.

"Of course not, but with the boom that's coming and the desperate need for machinery it'll be a cinch to clean up a fortune!" Cassie listened with happy abstraction and utter incomprehension to all his talk about the machine works. She had plenty of interests of her own. And anyway—they had a fortune.

She shopped for the coming baby, and took up knitting, and discussed the marketing and household affairs with Mrs. Ames, the housekeeper.

Sid came to the house on the hill to stay for days at a time. And Leni was in and out, happy as a lark to be practically one of the household on the hill, and enchanted with the clothes Parker insisted Cassie buy for her.

For hours on end Leni would occupy herself with playing the

records from Parker's complete record library, on the luxurious combination radio phonograph. In the evenings sometimes Parker would play the big grand piano in the corner of the living room.

Parker played quite well, with a certain lilt that was different, and very attractive. When Leni was there she'd sing, leaning over the piano, smiling at Parker. They laughed a great deal together.

Parker even wanted to send Sid away to a military school in the fall.

THE Mortonville Herald carried a big spread on the proposed re-opening of the Hamilton Machine Works. Parker went about with blueprints under his arm and a briefcase stuffed full of important papers, and he lunched with engineers from New York, and hired a manager from Indianapolis to get things organized.

Over their meals he talked excitedly about the new machinery that was arriving and what was ordered. And still he found time to be tender with Cassie and to make her happy. He brought her flowers, orchids, and long-stemmed roses, and violets. He bought bracelets, and other expensive doo-dads.

Cassie had used to think, when she had a melancholy broody look, that his brown eyes were like a spaniel's. Either he had changed, or she had been mistaken. His brown eyes had a sparkle now, and there was certainly nothing broody about him. He was as excited as a child about the Machine Works, and the coming baby, and her.

"Do you remember once, Cassie," he asked her one night as they sat on the terrace after dinner, "Do you remember once when we were talking and I said it wasn't nice to have no purpose in life, nothing to look forward to—just nothing?"

Cassie yawned. She was always

sleepy it seemed. "I think so." It was nearly dark, and the fireflies were already swimming below them in the garden. Parker knocked out his pipe on the brick floor of the terrace. He came over and sat on the arm of her chair, that man's here again. "I'm speaking of George Sanders, one of the most noted detractors of womankind since Bluebeard, though less violent. This time he makes the startling comment: 'Women are right.'"

"We men could utilize time to better advantage if we would take a few pointers from the ladies," said Sanders, who is currently bicycling between "The Ghost and Mrs. Muir" and "Forever Amber."

With a malevolent gleam in his eye, the actor outlined his thesis: When a man picks up his date, he already had a shower, shave, hair comb, clothes change, and is otherwise presentable.

"The girl, on the contrary, has a greater sense of the infanity of time. Although apparently groomed for the occasion, she primes, combs, powders, lipstick and adjusts her skirt.

When the young lady goes through the great American gesture of yawning her girldle down, the man's said

"If the girl raises her skirts and crosses her legs—a gesture frequently employed to attract other men—I think we gentlemen could similarly hike our trousers and cross our knees. Perhaps—girls nearby may be intrigued by the sight of our limbs—who knows?" Other suggestions:

When the girl brings out a compact and starts putting on a new face, the man should plug in an electric razor and give himself a quick shave.

When the girl starts removing bobby pins and re-adjusting her hair—do, the man should whip out a pocket-size bottle of hair tonic and groom his locks.

"Women are right to utilize every bit of public time. If we men did likewise, we could use the dressing time for a catnap and thus be in better humor and physical condition for the evening."

"My prime interest in pointing this out," added Sanders, putting a yawn, "is to win more sleeping time for males."

Backache, Leg Pains May Be Danger Sign Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg

pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg

pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Love Has Two Faces

By Irene Lonnen Ernhart Copyright, 1947. NEA SERVICE, INC.

THE STORY: Cassie and Parker are married. Shortly afterward, his father dies and Parker takes his place at the bank. Cassie resents the big house on the hill, spending lavishly. Parker moves the Fletcher family into better surroundings, pays for Leni's expensive lessons. Cassie thinks of Mike now only occasionally. She is going to have a baby.

PARKER hated the bank. His father, he told Cassie helplessly, had been astute about money matters, but he himself was nothing but a bungler.

Cassie wasn't surprised when he came home after the July business meeting of the board of directors of the bank, to say that he was out of it. He retained his interests; but he refused to tie himself to that "infernal desk job," as he put it.

What he really wanted to do now was to get the Hamilton Machine works going again. He'd urged his father to do something about the abandoned plant when the war was on, but his father hadn't been interested. "But do you know anything about machinery?" Cassie had asked absently.

"Of course not, but with the boom that's coming and the desperate need for machinery it'll be a cinch to clean up a fortune!" Cassie listened with happy abstraction and utter incomprehension to all his talk about the machine works. She had plenty of interests of her own. And anyway—they had a fortune.

She shopped for the coming baby, and took up knitting, and discussed the marketing

Leaves From a Correspondent's Life Note Book

By HAL BOYLES
WASHINGTON—(AP)—Well, I've finally met the man my mother wanted me to be—the President of the United States.
And I want to say right out that he is welcome to the job, and the four-engine airplane that goes with it.
I will even go Henry Clay one better and say, "I'd rather be wrong than President."
Harry Truman is a prisoner of the Secret Service and the American people. He has no more freedom than a queen bee in a honey hive, and he has no more real privacy than Irvin S. Cobb's celebrated goldfish in a \$75,000-a-year glass bowl.

I was one of a half dozen or so palpitating people who met the President the other day after a news conference which had all the earmarks of a radio quiz program. You enter the west wing of the White House and a Presidential aide groups the newcomers together in an ante chamber off the lobby. You feel exactly like John Wilkes Booth as a couple of husky Secret Service men move around watchfully, occasionally shooting keen glances at you. It gives you a strange feeling of guilt.
At the conference hour the door to the executive office opened and the White House correspondents trooped in on the double quick. As soon as they were grouped around the President's desk where he sat with his advisers, we followed in.
Mr. Truman stood and read a brief news announcement and then asked if there were any questions. The atmosphere was pleasant and easy.
The questions were popped up quickly and Mr. Truman batted back the answers with hair trigger readiness, so swiftly it was hard to take full notes.
He is completely self-assured now. He spoke with prompt decisiveness smiling almost continuously and exchanging banter with the newsmen. When the senior Press Association man present signalled the end of the conference, with the traditional "Thank you, Mr. President," half a dozen newsmen wheeled for the door on the deadrun, bowling me against the wall like an overweight tennis ball.
Tony Vaccaro, the Associated Press White House correspondent, then led me up and introduced me to the President and Charlie Ross, his press secretary.
I mentioned that my father years ago ran a meat store in Independence, Mo., the President didn't remember him. The Trumans traded at another shop.
We chatted a moment or two more—White House etiquette forbids me to disclose all the state secrets I learned—and then the man behind me, anxious to meet the President, too, put his elbow through three of my ribs, and my rendezvous with history was over.
I paused at the door to look back. Two big Secret Service men immediately flanked me. I looked down and realized I had violated the injunction given me by a friendly reporter: "Don't put your hands in your pockets—the Secret Service boys don't like it."
So I jerked out my hands, turned them over nervously to show they were empty, and walked out with the Secret Service still giving me the fish eye.

From where I sit ... by Joe Marsh

Lem's Dogs vs Thad's Chickens

Running a newspaper, you get to know a lot about human nature. Thad Phipps was in the other day, all burned up. Wanted me to run an item on how Lem Martin's dog had raided his chickens again, and ought to be put away by law. I told him: "Lem was in on Saturday. Said you shouldn't be allowed to keep those chickens so close to his house—and in a residential zone, at that."
 Thad shuts up right pronto then. And that very evening I see him making his peace with Lem at Andy Botkin's Garden Tavern—over a friendly glass of beer.
 From where I sit, anyone can find something in his neighbor to complain about. (Some folks may even disagree with Thad's right to enjoy that glass of beer with Lem!) But where would we be if everybody tried to have a law passed against everything they disagreed with? We wouldn't have many neighbors left!

Rocky Takes Witness Stand Today, Expected To Tell All About Offer

By SID FEDER
NEW YORK (AP)—Rocky Graziano was expected to tell from the witness stand today his own story of a \$100,000 offer to throw a fight. The knockout specialist from New York's East side is one of five witnesses his attorney planned to call today in the State Athletic Commission's hearing to determine whether Graziano violated its rules when he failed to report the bribe offer. The Commission has power to impose lifetime banishment from the New York ring.

No doubt Rocky will be asked to explain formally whether he thought the whole fix attempt was a joke, whether, as the district attorney contends, he knew the would-be fixers by name but refused to identify them for fear of possible gangster reprisal. But "I never asked Graziano repeatedly has asserted he was not afraid; that he did not know the men by name but might have picked them out if the district attorney had given him the opportunity, as he offered, before the case became public.

The district attorney has countered by claiming Graziano was selling an untruth about not knowing the men, but at yesterday's session Assistant District Attorney Alfred Scott admitted this contention was just his "belief" and that he was not infallible. Scott also admitted he did not contact police to try to find the attempted fixer and that he never asked Graziano for a description of the men.

Scott's testimony was that Graziano, recalling a \$100,000 bribe offer before his 1945 fight with the late Al Davis, told Scott, "I was somewhat poor then, so I told the guy 'I'll see it in my hands' and concerning a fix attempt before Graziano's scheduled Dec. 27 bout with Rubin Shank, which never materialized, Scott testified Rocky told him he said to the man, "I'll see ya," both times the man approached him. But "I never asked Graziano directly whether he had agreed to the fix," Scott admitted.

Besides Rocky, his attorney has subpoenaed as witnesses Graziano's co-managers, Irving Cohen and Al Healy; his trainer, Whitney Bimstein, and State Athletic Commission Physician Dr. S. Sym Newman. When Graziano's complaint of a sore back forced cancellations of the Shank fight, Dr. Newman examined him as a sacro-iliac condition. Scott testified that he never told him he did not have a sore back, but used "a kink in his back as an excuse to pull out of the Shank match."

Carver Cagers Meet Amarillo Here Friday
Carver High's unbeaten cage team, both boys and girls, will meet Patten High of Amarillo in two games tomorrow night at the Junior High Gymnasium. The girls game will start at eight o'clock. Carver will be a slight favorite on the basis of comparative scores. The Pampanos routed Berger, 44-4, while Amarillo rapped the same team, 33-4.

Bixler Will Succeed Andy Kerr at Colgate
HAMILTON, N. Y.—(AP)—Paul O. Bixler, head football coach at Ohio State University, was appointed today to succeed Andy Kerr, veteran head gridiron mentor at Colgate University.

Kerr, tutor of Red Raider grid squads for the last 18 years, retires next June 30.
It is estimated that one-third of Florida's income is derived directly or indirectly from tourist trade.

Texas Open Starts In Santone Friday

SAN ANTONIO (AP)—Golf's money men moved onto Brackenridge Park's rugged, 6,400 yards today in the final warmup round before the twenty-first Texas Open—but even today they were playing for cash.
It was the 18-hole pro-amateur, with \$75 in prize money for the top professionals. The field was limited to 100 pros and amateurs.

Ben Hogan, the Texas Mite who whammed golf's big-time circuit for \$42,556 in 1946 and currently is leading the 1947 parade with \$6,233.33, was the favorite as usual. Hogan couldn't pull an upset if he wanted to. He's always tabbed as the man to beat.

All of the top professionals except semi-retired Byron Nelson and Slammin' Sammy Snead were here for a Texas Open that offers \$10,000 for the first time. Although it is the oldest tournament along the winter circuit, it never before has posted so much money. Last year the take was \$7,500.

Hogan is defending champion. He shot a 20-under-par 264 last year to grab top money, and if he comes through this time, as expected, will become the second man in history to take the Texas Open title twice in a row. Bill Mehlhorn turned the title in 1928 and 1929.

The field will be held to 140 as the links masters enter the first 18-hole round tomorrow. Another 18 holes will be played Saturday and Sunday the low 60 scorers will enter the final 36 for the big money.

National Open Champion Lloyd Mangrum; Herman Keiser, masters champion; Jimmy Demaret, who won the Tucson Open last Monday, and Amateur Frank Stranahan of Toledo field which also includes five former Texas Open winners—Horgan, Sammy Byrd, Johnny Revolta, Lawson Little and E. J. (Dutch) Harrison.

One hundred and eighty players about qualifying scores yesterday to determine 30 places in the open field with Paul Weiler, San Antonio professional, leading the way with a two-under-par 69. Ninety entries were qualified automatically.

Reapers Come From Behind To Triumph Over Sam Houston
Coming from behind in the final period, the Pampa Junior High Reapers took a 37-33 victory from the Sam Houston Rangers of Amarillo in a Panhandle Junior High League conference game here yesterday.

The victory, Pampa's fourth conference triumph in six starts, sent the Reapers into a tie for first place in the loop.
Sam Houston led at the end of each of the first three periods, holding a 16-10 halftime margin, but the Reapers began hitting the bucket with increasing accuracy in the last half and finally pulled ahead.
Bob Garner of Sam Houston copped high-point honors for the game with 16 points. He was trailed by John Friant of Pampa and Gilbert Ford of Sam Houston with 10 each.

Stratton to Play For Sherman of Big State Loop

SHERMAN, TEX. (AP)—Gangling Monty Stratton, hailed for his courage and toasted for his ability, will return to the Sherman twins of the Big State League and his boss, Art Willingham thinks he will win his many or more games than last season.

Stratton is the fellow who would n't let an artificial leg keep him out of baseball and who hung up 18 wins while losing eight for Sherman in the circuit that last year was known as the East Texas League. It is now a class B loop, having been raised a notch.

Monty will report March 12 for spring training but will be keeping an eye cocked on Hollywood where he will go to serve as technical advisor on a film of his life.
"Monty isn't certain when the call for Hollywood will come through," said Willingham, owner of the local club, "and consequently he will be on hand for our opening drills."

Recently Stratton was selected as the "Most courageous athlete of 1946" by the Philadelphia Sports Writers.
The former White Sox pitching star lost his leg when a pistol was accidentally discharged while he was target shooting on his mother's farm near Greenville, Texas, in the fall of 1938. It ended his Big

Froggies Expected To Set New Loss Record Before End of Week

FORT WORTH (AP)—Texas Christian's hapless Horned Frogs are expected to tie a Southwest Conference basketball record tomorrow night—for losses.
Not only that they may be able to beat the record by the end of the week; in fact, they're expected to.

The Purple has gone through 17 straight games without a sign of a victory and loser of only one decision all season—that to high-ranking Oklahoma A. & M.
Taylor set the record for defeats in 1945 when the Bears dropped 17 consecutive games.

The Frogs play Rice here Saturday night. Rice doesn't have a very impressive record this season but the Owls have won five games out of sixteen.
League career but he continued to pitch baseball in semi-pro ranks. Last year he was signed by Sherman after he had shown great hurling ability in the Houston Post semi-pro tournament.

Stratton is handicapped only in his running. He has to hit the ball a long way to reach first base. However, he turned in a creditable job of fielding last season even on bunt balls, and his pitching was A-1. He started 27 games.

Quail Trials Enter Final Round Today
SHUQUALAK, Miss.—(AP)—The two remaining finalists were called out today in the National Field Trial Club's free-for-all quail championship.
Paired in the final brace were Agrippa, entry of Dr. G. E. Fisher of Birmingham, Ala., and Cross Creek, owned by George Suttie of Newport News, Va.

Still a favorite with the gallery as the trials entered their final day was Texas Boy, entry of D. B. McDaniel of Houston, Texas.

Canadian Loses All Three Games Tuesday

CANADIAN (Special)—Canadian High School basketball teams took a triple beating in their last home games of the season Tuesday night at the High School Gym.
The Perryton Rangers defeated the Wildcat first stringers, 32-29 in the main event.

In the other two games, the Perryton reserves rapped the Wildcat second-stringers, 44-32, and the Allison High girls team won over the Canadian girls, 26-23.

Match Play Opens In Two-Ball Meet
ORLANDO, Fla.—(AP)—Thirty-two teams in the championship flight began match play today in quest of top honors in the sixth annual Florida mixed two-ball open golf tournament.
Mrs. Mildred (Babe) Zaharis of Denver, Colo., and Gerald Walker of Orlando who paced the qualifying round yesterday with a one-over-par 73, were matched against Lou Bongard of Rollins College and Pete Dye of Orlando, who made the top flight with an 81.

One of Buddha's wishes was that no images of him be made after his death. This wish has been disregarded, especially by the Burmese, who have erected a reclining statue 80 feet long and 41 feet high at Pegu.

Which brings to mind the case of Rocky Graziano and the much publicized and much laughed about bribe offer, which is currently being investigated by that august group known as the New York State Athletic Commission.
The commission, which in effect has set itself up as a ruling body of all boxing, does not consult the National Boxing Association on such problems. The New Yorkers have set themselves on a little pedestal above all others and consider their word law, for the selfish reason that they know their city is the focal point of boxing in America—that is, it is where all championship bouts of importance take place, although boxing is a nationwide—even universal—sport.
Instead of working with other groups, the New York commission actually seems to work against all others, tending toward a policy of "if you rule New York, you rule the world."
It is having its effect on sports in general. A very bad effect.

Since when do chosen groups such as the association have the right to control the policies of a school that is supported by tax-payers as a whole? If the school was an endowed institution, depending on its alumni and friends for support, it would be a different matter. Such alumni who do contribute financial support to a private institution have some justification in such matters.
We are not arguing for or against Mr. Norton. That is not our purpose. We only state again that pressure groups of "Old Grads" should have nothing more to say about the school's policies than any other tax-payers who DID NOT attend the school

On The Sports Beam
By SCOTT RAFFERTY
If the alumni of Texas A and M are any example, ex-student associations of tax-supported schools are fast becoming pressure groups which, by some method, force administrative heads to do their bidding. At least, that's the way it appears on the basis of publicized facts of the Homer Norton case.
Last week, the executive board of the Texas A and M Ex-Student Association passed a resolution demanding Norton's suspension as football coach at A and M, a resolution which was handed to Gilchrist, head of the school.
Frankly, if we were in Mr. Gilchrist's position, we would have politely thrown the resolution out the window and told the ex-students that Texas A and M was a school for the people of Texas, not an institution to satisfy the whims and fancies of critical minority groups such as the association.
Since when do chosen groups such as the association have the right to control the policies of a school that is supported by tax-payers as a whole? If the school was an endowed institution, depending on its alumni and friends for support, it would be a different matter. NOTICE HOW THIS PAPERS BEEN SPELLING REAL ESTATE IN MY AD LATELY?

I guess if I said anything they'd never notice the "DIFFERENCE." Last Sunday they even said I'd been in the Panhandle 14 years.

Who wants to buy a section of short grass land, with running water on it, surface rights only for 10.00 an acre.

Need a good six room home worth the money. This is really a dandy, and it's on the pavement pretty close in.

Do you want to go in the laundry business cheap... I'll sell you all the equipment, including 14 newly rebuilt Maytags.

A lady called me up and said she had been trying for quite a while to sell her house, but wasn't doing any good.
