'U.S. Will Not Be Dictated To,' Byrnes Declares Before Conference **Conference Votes Down Soviet Move** 

PARIS—P—The peace conference today rebuffed Soviet Russia's efforts to apply the two-thirds rule, after a plain-speaking address in which Secretary of State Byrnes declared the United States would not be dictated to. "We haven't fought to dictate to a free world, or to

have one of our allies dictate to us," Byrnes said. "We are not going to gang up against any nation. We

will make concessions—but we will not make all the concessions. The conference voted down 15 to 6 the Russian move

to require a two-thirds vote for adoption of all conference recommendations. The rules committee had rejected the two-thirds proposal by the same vote, but Russia yesterday reopened the issue before the full conference. Russia still has an ace in

the hole, however. She can refuse to recognize any ac-

JESUS AND HOME RELATION-

Scripture: Exodus 20:12: Matthew 7:9-12: Mark 7:6-13; Luke 2:51-52; Ephesians 6:1-4.
By WILLIAM E. GILROY, D.D.

Unless it be the question of international relations and the maintenance of world peace, there is probably no more important there today than that of home life and family relationships. In a sense, it underlies the metter of personal character for

matter of personal character, for if there be not good parents and good homes, there is little likelihood that there will be a generation of

good individuals.

The question of peace in the present world situation is of primary im-

riages before they are made.

How can there be holy matrimony, if there be no holiness in the parties to a marriage, and in the relationship between them? The church has put its seal on too many marriages that have had no holiness in them; but this does not alter the fact that the church's conception of marriage as holy, and as involving holy relationships, is sound and wise.

The Scripture passages assigned for this lesson are a part of the whole teaching of Jesus as it applies to every relationship in life. If that teaching were enshrined in the hearts of all who enter into marriage and

of all who enter into marriage and one life, there would be few discorces or unhappy marriages.

Such marriages have survived pov Such marriages have survived poverty and misfortunes of almost every kind. Trials mutually borne in the spirit of love and devotion have often served even to bring a married couple closer together.

### Wartime 'Job Vacation' Reckoning Day Is Near

By RUTH MILLETT NEA Staff Writer

Government girls in Washington, D. C., who have been holding jobs under temporary war-service appointments, were recently given a typing and shorthand test by the Civil Service commission. Almost half the girls failed to

pass. The commission said those who flunked the examination would stay on the job until they can be replaced by girls who pass the test. There's a tip in that story for all girls who got their jobs in wartime, although they hadn't sufficient training or ability to qualify, and who have managed to stay on the

payroll ever since. The day of reckoning may not be far off, girls. So if you want to be among to-

morrow's unemployed, you'd better start figuring out how to improve Maybe all you need is to show a

little real interest in the job. Enough interest, that is, to be willing to accept criticism properly, instead of regarding the person who dishes it out as a sour-puss who - if he doesn't like your work-can look for another girl. One of these days he is going to be able to find an-

SERVE THE CUSTOMER

Your interest in the job ought to extend to the customer. Girls who look annoyed when a customer interrupts their "And then he said" conversations are still drawing paychecks. But their time may be running out.

And if you managed to land a job without sufficient preparation for it and haven't learned right along on the job, perhaps you had better continue your training at night.

Girls who can qualify for government jobs will replace those who can't, Uncle Sam says publicly. And your own boss may be saying the same thing privately.

LET'S COMPLETE OUR DUTY OF COOPERATION Within a matter of days now this city will be receiving hundreds of people, guests of the community at one of

the most important events of the year. The Top o' Texas Rodeo, Quarter Horse Show and Fair Assn. has worked diligently in making arrangements for the second annual celebration of this knd. Now it is mostly a matter of course until the "roundup" will have been accomplished.

But it is not entirely a matter of course. This next Monday and Tuesday, a call will go out to the citizens and businessmen of Pampa to take off from their duties for a time to join the caravan of boosters, who will make personal appearances in our neighboring cities, inviting them to attend and participate in our rodeo and quarter horse show. This is a vital phase of the city's effort in behalf of the show. And it behooves all to give of their time, extend the hand of fellowship to our neighbors, making them feel welcome here. They are welcome, we know, but we must truth that no wonder it gets under and the play. prove that they are

There is another matter, too, we would dwell on for a moment. There will be hundreds of visitors, and while local hotels and tourist camps will be able to take care of a large majority of these people, they will not be able to accommodate all of them. This, again, is an instance in which the townspeople can help. They can offer rooms for the night—or maybe two nights. The association and the In Hollywood chamber of commerce are not asking that the people donate their accommodations. Moreover, the citizens who offer their rooms for rent will be cooperating in a citywide gesture of good-will and frendliness.

Both of these matters are somewhat minor, but they would take on a greater prominence if they went unattended by the citizens. Consideration of the hopes for a greater community, a greater Pampa Preferred—that is have to read that line the way it is our objective.

The Potsdam agreement stated: "For the time being no central German government shall be established." This has been a great "out" for the Russians in opposing centralization.

The Potsdam agreement went on to declare that there should be cen tral administrative departments on finance, transport, communicaions. and trade. This has met with opposition from the French, who want to hold off centralization until the western boundaries of Germany have been set.

Slowness in centralizing Germany has been one of the great failures under the Potsdam agreement. The economic consequences of this failure will be reviewed in the next article of this series.

### **Market Briefs**

WALL STREET NEW YORK—(#)—Selected industrials, utilities and rails continued to work upward in today's stock market although light selling interrupted the recovery here and there.

Dealings, relatively cast in the forenoon, tapered after midday. Extreme gains running to a point or more were reduced near the close and scattered losers dotted the ticker tape. Transfers for the full proceedings were in the vicinity of 900,000 shares, with activity of several low-quoted issues accounting for much of the volume.

On the advancing side were U. S. Steel, Goodrich, Woolworth, Montgomery Ward, Johns-Manville, National Power & Light, Santa Fe, Texas Co., Celanese, Columbia Broadcasting (on a lifted quarterly), Schenly, Distillery Corp., National Distillers and Coty International (on the first dividend since 1939.)
