

AMERICAN FREIGHTER IS LOST—All aboard the American Farmer, 8,000-ton American freighter, shown in 1939 at New York pier, were rescued when it sunk 490 miles west of the English Channel in the Atlantic after colliding with another American vessel, William J. Riddle. The American Farmer was rebuilt in 1945 for the United States War Shipping Administration.

### Budget Deficit To Be Reduced More Than Half

By The Associated Press  
Here are the box-score figures in President Truman's revised budget estimates for fiscal 1947 and comparisons with the 1946 estimates he made in January:  
Expenditures — \$41,500,000 up \$4,500,000,000 from January.  
Receipts — \$39,600,000,000 up \$8,100,000,000.  
Deficit — \$1,900,000,000, down \$2,600,000,000.

WASHINGTON (AP)—President Truman forecast last night that a boom-time flood of tax collections he hadn't counted on before would wash out much of the deficit for the current fiscal year.

**BUSINESS PROSPERITY**  
Thus he pinned his hopes on business prosperity and high level employment — which automatically bring higher tax collections — to better the heavily indebted government's position.

He bolstered those hopes with economy orders to federal agencies that could lighten the strings of the federal purse to the point of affecting veterans and the 48 states.

**JANUARY FORECAST**  
Boosting both revenue and spending estimates above the peacetime record figures he issued seven months ago, the President said it now appears the government will go into the red by \$1,900,000,000 for the fiscal year ending June 30, 1947.

That is less than half the \$4,500,000,000 deficit he forecast last January, due mainly to the sudden raising of receipts estimates by a solid \$8,100,000,000 to an unprecedented peacetime total of \$39,600,000,000.

The jump in the prospective tax take, he added, would balance the fiscal 1947 budget and provided a surplus, too, if congress hadn't voted — with some degree of presidential approval — measures adding \$4,400,000,000 to earlier expenditure estimates.

**LEGISLATION COST**  
The President set out the cost of that legislation, expressed in billions of dollars, as: Terminal leave pay, \$2.4; increased pay for military personnel, \$0.6; Philippine war damage and rehabilitation, \$0.1; Philippine loan, \$0.1; increased veterans pensions and liberalized benefits, \$0.8; housing, excluding defense housing, net of receipts, \$0.2; post office department pay increase, \$0.2.

Of those measures, the President recommended only the two Philippine items. But he did not make a fight on either and the put no blame on congress for upsetting his budget program by passing them.

**PROGRAM EXPANSIONS**  
Still further additions arising from program expansions and from outlays deferred from fiscal 1946 gave a net lift after effects of \$5,500,000,000 to last January spending estimate and sent the revised total to the peacetime record of \$41,500,000,000.

The President's statement indicated he had already headed off or directed cutbacks in spending, mostly by the war and navy departments and the maritime commission. That would have piled at least \$4,200,000,000 more onto the spending total.

And it promised he would keep trying "throughout the fiscal year to reduce expenditures whenever and wherever they can be reduced without harm to our security and the general welfare."

With that in mind, he told reporters at a budget explanatory conference that he is still hopeful that the presently expected deficit can yet be wiped out and the budget balanced in the current fiscal year.

In an immediate follow-up he sent out still further orders to hold down spending of all kinds in this fiscal year and the one starting next July.

The army, specifically directed to cut back its program this year by \$1,000,000,000, carried the big load. See NATION'S BUDGET, Page 4.

### Merchant Cooperation Asked by Committee

R. M. Samples, chairman of the decorating committee of the rodeo and horse show here August 16, 17, 18, stated yesterday that merchants are urged to cooperate with the committee in finishing up solicitation by Tuesday.

The Business and Professional Women's club, sponsoring the decorating for the Top of Texas horse show and rodeo, he said, is hoping to finish solicitation by Tuesday so that the decorations can be put up the last of the week.

The National Flag and Decoration company of Wichita Falls will put up the decorations, it was said.

### Weary Lawmakers End Session, Head Home

WASHINGTON (AP)—Weary members of the adjourned 79th congress streamed homeward yesterday, almost all of them hopeful they will not be called back for a special session but with a few urging another meeting and a somewhat larger number fearing it will come.

One well-placed administrationist who would not permit use of his name, however, said he was sure the President is glad the lawmakers are gone and that the White House had no notion of calling them back unless something of great urgency arises.

Both the senate and house shut up shop Friday night on a sine die basis.

This means the end of the 79th, with no sessions until the 80th begins Jan. 3, unless President Truman, summons the lawmakers back.

House Speaker Rayburn (D-Tex.) told newsmen he had no indication from the White House that the chief executive will do that.

But several other key legislators declared they are afraid he will. In a typical comment to a reporter, Chairman Colmer (D-Miss.) of the house economic policy and planning committee said:

"I'd be willing to bet we'll be back here by November, if not before, although I hope not."  
Mr. Truman said, when he signed the OPA bill, that if economic problems get out of hand he will insist on a special session.

Colmer commented that he thinks some "emergency" is likely to develop which will prompt another meeting before January.

He also stated that many members believe the administration will insist on a special session "if by some chance the republicans should gain control of the house" in the November elections.

Rep. Hays (D-Ark.), a member of the house banking committee, roared he had urged President Truman this week to summon the legislators back.

Hays said that, given a few weeks time, he believes his committee can complete handling of the controversial Wagner-Ellender-Taft federal housing bill.

Another banking committee member, Rep. Paul Brown (D-Ga.), took issue with Hays. Brown said "there is no point coming back and trying to pass this bill in a month's time. It will take many weeks of consideration to get it in proper shape. I was willing to stay and do it, but since we did not, we might as well wait and do it right next year."

Rayburn made a similar comment Friday, although he did not refer to the housing measure by name. The administration has repeatedly requested this measure, which is designed to spur construction of thousands of new homes.

It was also recommended and approved that the unit rule system among the local delegates prevail at the state convention. In other words, the local delegates will agree among themselves as to which measure to vote for or against at the convention.

**Re-Election of 15 Texans Assured**  
W. J. Ball served as chairman of the group that met yesterday in the absence of John W. Andrews, county chairman.

Those selected as delegates were: Noah Kite, H. C. Coffee, W. J. Smith, Leonard Belden, Curtis Douglas, E. L. Green, E. J. Dunigan, L. K. Miller, Walter Dean, Dallas Bowsher, Mel Revis, Walter Rogers, Ben Guill, Mark Vantine, Herbert Willis, R. E. Eagle, Clifford Braly, Derrick Carpenter, W. J. Ball and E. A. Vance.

**SHORT COURSE OFFERED**  
LONGVIEW (AP)—The Texas government institute, a two-day short course for county officials, will be held in Waco Sept. 12 and 13. The course is sponsored by the East Texas chamber of commerce.

**Rodeo Plans Near Completion**  
Amarillo group will average about 350 persons.

The army will also make up a section of the parade in which different types of modern army equipment will be shown. Four hundred horses and riders were in last year's parade. That number will be exceeded, by a possible 100 this year officials said. Army equipment will be displayed on the grounds of Pampa Junior high school.

Float entries are still pouring in from clubs and organizations. Officials say that competition will be keen this year, especially in the civic club contest. Among the entries already are Rotary, Girl Scouts of America, Boy Scouts, Home Demonstration council, Kit Kat Klub and Seven Eleven, Veterans of Foreign Wars, Las Crescas and Sub Deb.

E. O. Wedgworth, chairman of the special attractions committee, has announced the following features: Dandy Fly-Way, educated **See RODEO PLANS, Page 4.**

### 'Loyal Democrats' Over State Hold Rump Sessions

By The Associated Press  
Bolting factions at Hous on, Dallas and Temple held sessions of their own as Texas democrats attended county conventions Saturday to choose delegates from the state convention in San Antonio Sept. 10.

The Harris county democratic convention ended with a split between the faction favoring Beauford Jester for governor and the self-styled "Loyal Democrats" pulling for Homer P. Rainey. Rainey's followers bolted the convention and in a separate meeting decided to send a full organization to the state convention to contest the delegation set up at the regular convention after Sept. 10.

The break came after Col. Ike Ashburn, nominated by a pro-Jester group, took over as temporary chairman of the convention. The only other nominee for the chairmanship, I. Robert Peden, had been backed by pro-Rainey delegates.

Dr. W. M. Brumby, a delegate from precinct 38, led the "Loyal Democrats" out. His estimated 250 persons followed him to the rump convention where Peden was named chairman.

At Dallas, dissatisfied "conservatives" walked out of the convention to hold their own meeting. Roosevelt democrats took the reins at the Bell county convention, named a delegation to the state convention, passed resolutions endorsing President Truman and condemning the Texas Regulars.

Rep. Hays (D-Ark.), a member of the house banking committee, roared he had urged President Truman this week to summon the legislators back.

Hays said that, given a few weeks time, he believes his committee can complete handling of the controversial Wagner-Ellender-Taft federal housing bill.

**Gray Delegates to Demo Convention Are Uninstructed**  
Gray county delegates to the state democratic convention in San Antonio Sept. 20 were selected here yesterday and advised that they were to go uninstructed.

Members of the Gray county democratic executive committee, which met yesterday in the court house, agreed that the likely choice of the county group would be to support the winning gubernatorial candidate Beauford Jester or Homer Rainey.

It was also recommended and approved that the unit rule system among the local delegates prevail at the state convention. In other words, the local delegates will agree among themselves as to which measure to vote for or against at the convention.

**May 'Too Ill' To Vote in Election**  
PEPSTONBURG, Ky.—(AP)—Rep. Andrew J. May (D-Ky) chairman of the house military committee, is back home but a spokesman at the family residence said he was "too ill" to vote yesterday in the Kentucky primary election, but that he is unopposed for re-nomination.

The spokesman added: "He is quite ill. He had no intention of returning here to vote, but only to rest."

**Grave Robbers Are Taken Into Custody**  
ROME—(AP)—The Milan police said yesterday that the men who removed Benito Mussolini's body from its potter's field grave had been arrested. That the weight of evidence against the dictator's remains was still unconvincing, was said.

Four men, police said, admitted taking the body last April, but declared that others had hidden it in a spot unknown to them.

**RAYBURN HEADS HOME**  
BONHAM (AP)—Speaker Sam Rayburn is expected to arrive here next week from Washington for the congressional recess.

### Americans Charge Russians Obtained Secret Documents

FRANKFURT, Germany—(AP)—The U. S. army announced last night that two of the three Russian soldiers recently released by U. S. authorities in Berlin had forced German employes of the army to deliver secret American documents and had engaged in "clandestine activities" in the U. S. sector.

At the same time in Berlin, the three soldiers in question charged that they were "treated like criminals" during their detention in the American zone, and that the Americans attempted to force one of them "to betray his country and become an American citizen."

Brig. Gen. Edwin L. Sibert, chief of U. S. intelligence in Europe, said the two officers, Lt. Sedov and Schulkin, were wearing civilian clothing when they and their driver, Pvt. Kuhnetsov, were arrested in Berlin. Sibert said these were the charges.

"Engaging in clandestine activities in the U. S. sector of Berlin."  
"Forcing German employes of the U. S. army to deliver classified documents and information about the U. S. army and its policies."  
"Possessing inadequate documents authorizing their stay in the U. S. sector of Berlin."

An intelligence officer said he believed the Russians "had tried to get information regarding the disposition of American troops and the organization of units."

It was understood that the Russians had been picked up as a result of a tip from a German fraulein.

The three Russians were released July 17 by U. S. authorities, apparently in exchange for the release of an American couple held in the Russian zone. Warrant Officer and Mrs. Samuel L. Harrison of San Antonio, Texas, who had been detained 15 days by the Russians for unauthorized entry into the sector.

Sibert's statement said that during the trial...

**Chiang Reported To Have Solution For Civil Strife**  
NANKING—(AP)—Government agencies reported yesterday that Generalissimo Chiang Kai-Shek had suddenly found a solution for China's civil strife while government and communist quarters quarreled over the circumstances of Friday's aerial bombing of Yen-an communist headquarters.

The government acknowledged the bombing but said it was directed solely at a grounded government plane which the communists refused to return. The communists admitted the plane was destroyed but said their military headquarters also was attacked.

The nature of Chiang's last-minute formula for peace was not disclosed by the government, a central news agency, which announced it. However, General Marshall special U. S. envoy, flew hurriedly to the communist capital of Kuling to confer with the Generalissimo.

"I know President Chiang has found a ready solution, a political solution at that—not one based on force," the government agency quoted Minister of Information Peng Hsueh-pei as saying at Kuling.

If Chiang had a solution, it was in the nick of time, because the communist reaction to the Yen-an bombing was quick and angry.

"This broadens the scope of the civil war," declared Gen. Chou En-Lai, head of the communist delegation in Nanking. He added that he took a "very serious view" of the attack.

Communist spokesman Kang Ping-Nan told newsmen civil war had reached a new stage because of the attack on Yen-an.

Chou Chou-Joh-Jou, commander of the government air force, announced that the bombing was designed to destroy a government B-24 bomber which made a forced landing at Yen-an July 26.

**Texas Production Of Oil Decreases**  
AUSTIN (AP)—Daily allowable production of oil in Texas declined 129,214 barrels for the week ending Aug. 3, the railroad commission has announced.

The daily allowable for July 27 was 2,414,030 barrels compared with 2,284,816 for this week.

Drilling applications for the week totaled 168 to bring the total for the year thus far to 4,308 compared with 4,093 during the same period in 1945. Oil well completions totaled 117, making the year's total thus far 2,722 compared with 2,380 in the same period last year.

### Chairmanship Of Conference To Be Rotated

PARIS—(AP)—Paul Henri Spaak of Belgium assailed the Big Four yesterday for ignoring the smaller nations in preparing Europe's peace and for asking the smaller powers for recommendations only after severely handicapping them.

The outbreak from the president of the United Nations general assembly highlighted the day's proceedings in the peace conference.

**RULES COMMITTEE**  
In another phase of the battle between the big and small powers, the big four won out by a vote of 12 to 8 when the all-powerful rules committee approved a decision to rotate the conference chairmanship.

Meanwhile, Greece demanded slices of Bulgarian and Albanian territory and served notice on the peace conference that she expects reparations for the "material damage inflicted upon the country" by Italy and other invaders.

**BIG POWERS ATTACKED**  
Spaak in a bitter attack on big powers, said:

"The great powers meet together among themselves. They prepare treaties without consulting us; they attempt to impose upon us; rules of voting which, in practice, prevent us from securing acceptance for our points of view; they place us before the painful dilemma of accepting—sometimes against our own judgment—that they have drawn up or else destroying an agreement that has been achieved only with difficulty, and then, finally, having thus handicapped us, they ask us to make them a few recommendations."

**TOP DECLARATION**  
The Belgian, however hailed as "the most important" declaration of the conference U. S. Secretary of State James F. Byrnes promise "to sustain these recommendations made by a two-thirds majority."

If the other big powers, in addition to their proposal of free and complete discussion, are willing to accept a similar engagement, it seems to me the atmosphere would suddenly clear and that our work here would get under way in happy fashion."

**CHINA FEELS SHE IS WORSE OFF IN PEACE THAN WAR**

San Francisco—(AP)—After almost a year of peace, many Chinese feel they are worse off than during eight years of war.

Quite apart from the posturing and threats of armed political parties, there are rumblings from the broad base of the people.

A Shanghai news item this week is hardly significant. Government troops there are building barricades in and around the city—against a possible uprising from within as well as against possible communist infiltration.

The picture suggested by these street barricades is filled in by a reliable American who recently returned from his second tour of China since V-J Day. He says this:

"Living conditions are no longer better. Inflation is so bad that locally made goods actually are undersold by imported American goods. It was told that the Chinese government takes in about a fifth of the revenue needed to meet expenses. The rest it prints in new currency. Premier T. V. Soong recently disclosed that about 80 per cent of government costs have been going to support the army."

Part of this army has American equipment. Some of its generals think that with this equipment they can settle once and for all the unsettled question of the communists, who also have an army.

This operates against American mediation efforts, also does the communists' knowledge that the longer things are up in the air the more popular unrest they will have to exploit.

## 2-Base Error Costs Dodgers 3-2 Loss; Williams Hits 3-Run Homer, Sox Win

### Cardinals Edge Phils, 3-1, in Abbreviated Tilt

**BROOKLYN**—The Brooklyn Dodgers blew yesterday's game with Cincinnati 3-2 with two out in the ninth inning and saw their National league lead once again cut to a game and a half as the St. Louis Cardinals downed the Philadelphia Phillies.

Ahead 2-1 with nobody on and only one more man to retire, Kirby Higbe walked Berry Zientara. The next batter, Ed Luker, lifted a fly in short right field. Ed Stanky faded back for it, collided with Dixie Walker and the ball bounced out of his glove for a two-base error, scoring Zientara.

Bob Usher then tallied the winning run on Al Lubke's sharp single after Grady Hatton had been intentionally passed.

**Armed Sets New Track Record at Washington Park**  
**CHICAGO**—Armed, the Calumet farm's great handicapper star defeated in his last three Chicago races, bounded back today with a four lengths victory in the \$34,650 Sheridan handicap to set a new mile track records at Washington Park.

The performance of Armed, carrying top weight of 130 pounds, was the greatest of his career in running the mile in 1:35 to clip three-fifths of a second off the old mark established by Gallant Knight in 1927. It was the fastest mile on record since Count Fleet won the Champagne stakes at Belmont in 1942 in 1:34 4/5.

Ridden by N. L. Pierson, 30-year-old San Antonio jockey, Armed became the sixth horse in the history of the American turf to equal or better 1:35 for a mile.

Armed's performance was only three-fifths of a second slower than the world record set by Equinox, 128 pounds up, at Arlington in 1922. Coupled with Pot o' Luck, which finished sixth, Armed paid \$3.20, \$2.40 and \$2.20. Brookfield returned \$3.40 and \$3.00 for place. Challenge Me paid \$4.20 for show.

Closing with a burst of speed in the stretch, Armed finished four lengths in advance of Brookfield. Brolite farm's Challenge Me was a close third. Then followed Air Sailer, Sirius, Pot o' Luck, Equifox, Sandslinger, Felicie and Sir Bim.

**POLES STUDY**  
**WASKAW**—Poland's universities were hard hit by the war and many buildings were destroyed, there are more students today than before 1939. Total enrollment in 48,277, of which 39,467 are in state universities and 8,810 in private institutions.

## Tony Range Leads Oiler Hitters With .337 Mark

Tony Range, whose consistently brilliant play at third base has made the Oiler infielder one of the best in the league, has taken over the team batting leadership through Friday's games.

Hitting .324 when the league averages were compiled Tuesday, Range has brought that figure up to .337 to forge ahead of Virgil Richardson, who is second with .327.

Jack Riley leads the Oilers in home runs with 13, while Richardson is far ahead in doubles with 29.

Biggest rise in individual averages since July 7, mid-season, is that of Catcher Al Zigelman. The Oiler receiver was hitting a mediocre .244 at that time and has brought it up to .280 since.

Ed Leiker of Pampa is still the only league hurler with a no-hit contest to his credit. The big righthander hurled a 12-0 dream game over Lamesa July 4.

Lamesa's Bill Scopetone continued to lead league hitters through July 30, with a neat .388 average, followed by Borger's Vurdon Gilchrist with .369 while Albuquerque's 18-year-old first sacker, Gordon Goldsberry, was third with .359.

Big Joe Bauman, Amarillo first baseman, increased his home run total to 31 while Gordon Nell, defending champion, was close behind with 28.

Bill Evans of Amarillo notched his 20th victory last week to lead in that department but saw a serious challenger in his 233 strikeout mark in Pampa's Bill Garland, who had 210.

The pitching department, Bill Garland and Warren Hacker continue to be the standouts. Hacker leads in percentage with 13 wins and four losses while Garland has won the most—16—and struck out more—210.

## League Leaders Triumph, 21-13

For something unusual, the girls game was the closest in the Kiwanis softball league. First Baptist beat First Methodist 21-13. Two games were rained out, the last boys senior and fast girls game.

Both junior boys games were played with the First Methodists and First Baptist coming out on top. Me-hodist won their game over First Christian 17-4 and First Baptist ran over the Presbyterians 19-1. Central Baptist senior boys won over First Baptist 22-3.

**BRAZIL MAY BREAK CED LINGUISTIC TIE**  
**RIO DE JANEIRO**—Brazilian "on may speak Brazilian." An amendment proposed for the new constitution, which is expected to be promulgated in early September, would provide that all reference to the national language read "the Brazilian language" instead of the Portuguese language. The amendment has the signatures of 246 of the 328 members of the assembly.

John Van Cuyk of Fort Worth continued as strike-out king with 141 in 22 games.

Lastly, we want to compliment the fans for their exceptionally good conduct during the wedding ceremonies. It was just as if the wedding was being held in a church. We were happy about it and we know that Warren and Olinda were.

## Mitchell Holds Batting Margin

**DALLAS**—Dale Mitchell of Oklahoma City lost a point to Henry Schenz, Tulsa's handy man, in the Texas league batting race last week but still boasted a three-point margin through games of July 31.

Mitchell had batted 245 in 252 times at the plate compared to 342 for Schenz in 386 tries.

Clarence (Hook) Lott, the San Antonio left-hander with the strike-out string, continued to pace the pitchers in winning percentage with .889 on eight wins against one loss. But the real leader was Eddie Chandler of Fort Worth with 15 victories against four defeats.

Hank Oena of Dallas had the most wins with 17 but had dropped eight decisions.

## Grove Sets Sens Down With Lone Hit, Chisox Win

**DETROIT**—Ted Williams' 29th home run which accounted for three runs in the first inning helped Dave "Boo" Ferriss of the Boston Red Sox to his 18th victory of the year today as he set down the Detroit Tigers for the sixth time this season, 5 to 3.

Ferris held sluggers Hank Greenberg and Dick Wakefield without a hit in four trips each. Ferris struck out only one while Freddy Hutchinson, Detroit hurler, was fanning six and walking two.

Johnny Pesky led the Boston hitters with three hits in five trips to the plate. Williams' homer was his only hit.

**Grid, Cage Mentors Begin Arriving for '46 Coaching School**  
**CORPUS CHRISTI**—Ray Eliot, coach of the University of Illinois, and Frank Kimbrough, coach at Baylor university, have arrived here for the Texas Coaching school—first of the instructors to appear on the scene.

Eliot is one of the head instructors. D. X. Bible, University of Texas coach, is the other. The coaching school opens Monday.

More than a dozen schoolboy mentors had checked in yesterday. Members of the all-star high school basketball and football squads will appear in games Thursday and Friday nights respectively, also began arriving today.

Activities for the players starts tomorrow afternoon when they meet at Buccaneer stadium to receive uniforms.

Virtually all reserved seat tickets for Friday's football game already have been sold.

Randall Clay, Pampa's great schoolboy athlete, will be one of the high school stars participating in the all-star game Friday.

Clay is attending the school along with Coach Otis Coffey of the Pampa Harvesters.

**WISDOM VANISHES**  
**LONDON**—An original copy of "The Seven Pillars of Wisdom" by T. E. Lawrence, worth \$1,800, was in a car stolen here.

The swivel chair was invented four centuries ago.

## Range Poles 4 Hits To Lead 13-Blow Attack

By SCOTT RAFFERTY  
 The Pampa Oilers defeated Borger 3 to 1 here last night to sweep the 3-game series.

Four years ago—shortly after the mid-season mark—Joe Isaacs left the disbanded West Texas-New Mexico league with a half-season pitching record of 8 wins and 3 losses and a batting average of .365 in 63 games in the outfield for the Pampa Oilers.

Friday, Isaacs celebrated his return to the Oilers by pitching the locals to a 13-4 win over the Borger Gassers, limiting the Carbon capital nine to seven hits and showing no ill effects of his long west coast sojourn.

The quiet, but friendly Oklahoma pitcher pitched steady ball the entire game and collected a single and scored two runs himself in three times at bat. Isaacs struck out three and walked only two, showing good control all the way.

Meanwhile, the Oilers were rallying behind Isaacs with 13 base knocks off Tom West and Bob Churchman led by the spirited Tony Range leading Oiler hitter, with four hits in five times at the plate, including a homer, his ninth, a double and two singles. Range was trying for his third "eve" game of the season. He has hit a single, double, triple and home run in two previous contests.

Virgil Richardson, too, added a four-bagger to Isaacs' cause, while Gordon Nell, league old-timer, hit one for the Gassers.

Rain almost caused a 30-minute delay in the game in the ninth after two were out. Umpires Smith and Ramsey called a halt and the rules say the halt could not last less than 30 minutes. Play was resumed, however, when the shower slackened off.

Jack Riley, Oiler center gardner, was not in action Friday. Riley had gone to Sayre, Okla., in his home, where his wife is expecting a baby.

Pampa drew first blood in the game when, in the initial frame, R. C. Otey singled and stole second, Earl Harriman flied out, and Range doubled to score Otey.

Nell's homer in the second tied up the ball game but the Oilers went ahead in the fourth when, with two men out, Grover Seitz walked and stole second and scored on Al Johnston's single. Zigelman then singled and Johnston scored on an error by Vurdon Gilchrist, Borger second sacker.

Isaacs hit a ball into the ground to the right of the plate and was literally shoved out when West, Borger hurler, fielded it and "tagged" him, by means of throwing a body block into Isaacs that would have been a football coach's dream.

West was actually rezzed by the card and the card and received a chorus of razzberries every time he came to the plate.

Range's homer over the left field fence accounted for a fourth Oiler run in the fifth frame.

Larry Gilchrist led off the sixth with a double, went to third on Vurdon Gilchrist's fly to right and scored when Cox grounded out second to first.

Isaacs led off in the seventh with a single and Otey added another. Harriman grounded out and Isaacs and Otey scored on Range's single. Richardson then parked one over the fence near the centerfield territory to give Pampa an 8-2 lead.

Rookie Bob Churchman took over the mound duties for Borger in the eighth and Pampa blasted him for five more runs.

Johnston walked, Zigelman reached first when Nell led a grounder get away from him, Isaacs was safe on a fielder's choice and Johnston scored on the pitcher's wild throw. Otey flied out to right and Zigelman scored on Harriman's single. Range singled to load the bases and Joe Fortin blasted a clinching triple that scored Isaacs, Harriman and Range. Fortin tripled Thursday night.

## Top Pros Enter Dallas Open

**DALLAS**—Sammy Sneed, the defending champion; Harold (Jug) McSpaden, the 1945 runner up, and 23 other top professionals have filed acceptances to compete in the \$10,000 Dallas open golf tournament Sept. 26-29, Ben Lee Boynton, tournament chairman announced yesterday.

This year's 72-hole test will be over the long, narrow fairways of Brook Hollow Country club.

Except for 15 places being held open for amateurs of this section who will have to qualify by their scoring in a 36-hole test round at the Dallas Country club Sept. 24, all entries this year will be by invitation.

Boynton expects to have acceptances from practically all of the others to whom he has extended invitations several weeks in advance of the tournament, including such stars as Byron Nelson and Ben Hogan.

An infantry division can shoot 640 tons of ammunition in a single day.

## Historian Equals Man o' War's Mark

**INGLEWOOD, Calif.**—Historian tied Man O' War's world record for the mile and five-eighths today as he won the \$50,000 Sunset handicap, closing day feature of the Hollywood park meeting. The big five year old gelding traveled the distance in 2:40.4 to win going away from Paperboy and Triplecate.

BULLETIN  
**BOSTON**—Warren Spahn, slight left hander discharged from the army less than two months ago, won his fourth game last night as the Boston Braves defeated the Chicago Cubs 3-1 before 24,535 paid fans.

NATION'S BUDGET

(Continued From Page 1)
in those orders. The navy drew a \$650,000,000 curtailment and the maritime commission shipbuilding program one of \$60,000,000 or an even 50 per cent, for a total of \$1,710,000,000. Mr. Truman's budget was based on the lower spending figures for those branches.

In addition he instructed various departments to put specified ceilings on construction activities, without specifying what savings those ceilings would affect.

The veteran administrator was told to "review and tighten certain standards for (pension and benefit) payments in order to protect the rights of deserving veterans and the national pocketbook."

Agencies having charge of public works or loans or grants-in-aid that provide federal money to states to help in such matters as highway building were told to "take all measures to secure the postponement of public works at the present time."

On holding down veterans-benefits costs, the President made this further comment in his statement: "I believe that tightening of standards for veterans' programs, especially for readjustment allowances and on-the-job training, can bring considerable economies."

Linked with the efforts to cut

Summer Swallow

Molding the figure to slim-hipped perfection is this man-tailored "swallow-tailed" black suit of gabardine with ton-length jacket trimmed by blonde beauty Vera Holly, songstress on Mutual's "Married For Life." With the suit Vera wears a pink and white silk print blouse and carries one of the new pink plastic bags with plastic trimmed black suede gloves to match. The suit, a Louise Barnes Gallagher design, can be worn year-round and on cool summer days.

Mrs. Lillie Mae Ulrich Dies Following Stroke

Mrs. Lillie Mae Ulrich, 39, died at 6 p.m. Friday in a local hospital about two hours after she suffered a stroke while shopping downtown. An ambulance was summoned to the scene of the attack and she was carried to the hospital immediately. She is survived by her husband, W. J. Ulrich; son, Charlie J. Aker of Pampa; daughter, Alice Jean Ulrich of Pampa.

Services will be held at 2 p.m. Monday from the chapel of Duendel-Carmichael Funeral home by the Rev. H. H. Woods. Burial will be in Fairview cemetery.

State Convention

(Continued From Page 1)
Sandreford told the regular convention that "I admit in the past we went too far to the right, but now you're about to go too far to the left."

Approximately 1,200 persons were present for the opening of the Dallas county convention at the Fair park race track. The conservatives, their final attempts at compromise shouted down by the liberals, marched out of the convention and held a rump convention, attended by approximately 600. The conservatives were led by J. Hart Willis. They held their meeting in a rooming house, thunderously endorsed Jester, and named their own delegates. The regular convention had previously refused to select two sets of delegates, one to represent Jester and the other to represent Rainey. As a result, two delegations, each claiming to represent Dallas county, will apply to be seated at the September convention in San Antonio.

As the rump section of the convention left, the liberals, led by Tom McCullough, settled down to a speedy business session and adopted a list of more than 200 delegates to the state convention. Before the split, the convention was noisy and demonstrative and sparked, threatening and name-calling.

TRUMAN HOME

(Continued From Page 1)
inking of what they said.

In a few minutes the line had formed and the President found himself shaking hands with scores of men, women and children. He knew most of them, called most of the men by their first names.

He had just come over from Grandview where he had a 15-minute visit with his mother, Mrs. Martha E. Truman, aged 93, immediately after he and Mrs. Truman landed at the Grandview airport following a flight from Washington in the presidential plane, the "Sacred Cow."

After a lawn reception, arranged by Mayor Roger T. Sermon and attended by old friends like Tom Evans, Kansas City radio and drug store operator, Fred Canfield, the U. S. marshal and others, the President went inside for lunch.

Despite the terrific heat, the President stood by Mayor Sermon's side for a handshaking procession that lasted fully 20 minutes.

Most of the folks greeted him with a "Welcome, Mr. President." One woman whispered a plea in his ear. "Write me a letter about it," he told her, "and I'll see what I can do."

A 14-foot mammoth tusk was discovered in Siberia.

Picture Pals

During the making of the movie "Swell Guy," actor Sonny Tufts, left above, became chummy with 9-year-old Donald Devlin, second from right. Tufts offered to set up a \$10,000 trust fund for the boy, who is appearing in the movie with him, if Mr. and Mrs. John Devlin, above, the boy's parents, would let Tufts adopt him. The Devlins refused, but the group became close friends.

McNeill Wins First Match of Eastern Grass Court Tourney

SOUTH ORANGE, N. J.—FIFTH-seeded Don McNeill of Orange N. J., 1940 national singles champion, disposed of Ray Armstrong 6-0, 6-2 yesterday in the opening session of the Eastern Grass Court tennis championships.

Alan Watson of Short Hills, N. J., was the only player to gain the third round. He reached there by defeating Owen Loui of Honolulu, 6-4, 6-3.

Two members of the Philippine Davis Cup team were defeated in the first round. Caesar Carmona of Manila lost to Bruce Thomas of West Palm Beach, Fla., 6-4, 8-5, and Raymundo Deyro of Manila was eliminated by Charles Masterson of Brooklyn, 6-2, 7-5.

In women singles Sylvia Knowles, Newport, R. I., defeated Rose-Mary Buck, Dallas, 6-3, 6-3.

PETTENGILL

"The Gentleman from Indiana" INSIDE YOUR CONGRESS

SCARECROW: New York State has rent control by state law. New Jersey and Massachusetts have similar controls. So has the District of Columbia. Los Angeles is the first city to control rents by city ordinance. Most of these jurisdictions continue the old O.P.A. ceilings but New Jersey allows for 15% increase.

The O.P.A. mess will pay dividends if it reminds the American people that they are not completely helpless unless the Great White Father on the Potomac tucks them into bed at night. They can look after themselves by state and local action. Admittedly this is easier to do in the case of rents than in commodities in commerce.

But nationwide freezing of prices and wages prevents the flexibility of business operations which have proved so beneficial in the growth of the nation.

War spending and the post-war boom of a people starved for goods obscures the damage of non-wide controls. But as the boom levels off, the deadening effects of a politically frozen business structure will become apparent in the next depression.

And it is politics, not economics which Washington deals in. It is plain now that the O.P.A. vetoes activity for party advantage. The "Taft" amendment had nothing to do with it. As early as June 8th the strategy was outlined. The Administration would oppose all amendments; it would offer no assistance to the Congressional Committees in trying to iron out the kinks and knots; it would step up the flow of propaganda with the aid of the various P.A.C. groups, organized labor and the Communists; and then just before the law expired on June 30th, the new bill would be vetoed in the expectation that in the short time left, Congress would continue the old law for another whole year.

All this worked out exactly as planned except that Congress refused to be trampled over at the last moment by the thundering herd of job-hungry Democrats who packed the galleries of the House and Senate, hoping the Congressmen who wanted to get the bureaucrats off our necks.

But the point is that the plan was made before the Taft amendment was ever in the bill! It wasn't in the bill when the Administration supporters on the Senate Committee wrote their minority report that the new bill was the "death sentence" of price control! It was later written into the bill on the floor of the Senate and the bill as amended was passed with the aid of 37 Senate Democrats.

So what did the "Taft" amendment have to do with the veto? Nothing. The bill was going to be vetoed anyway.

The "Taft" amendment was a scarecrow to hang up before the people to influence the Congressional election this fall and in the hope of killing off Taft as Mr. Truman's opponent in 1948.

It is a pretty sordid deal for a President of the United States to engage in. But that's what we can expect when government undertakes to run the business affairs of the people, to fix prices, rents, wages, hours, interest, etc. You get political answers to economic questions. A smelly illustration in the deficits of the subway owned by the City of New York. Not having the political courage to charge the users of the subway enough to keep them going, the city government levies a special tax on hotel room rents to make up the loss. Many, perhaps a majority of renters, are out of town residents who seldom use the subway, but more important, do not vote in New York City. This is nothing but legal burglary, but it is what you get when politicians in government run business.

HELPING CO'S LONDON—(AP)—A ban on the upgrading and promotion of conscientious objectors in the civil service has been lifted.

PEACE PARLEY

(Continued From Page 1) circumstances," Spaak said. The Greek demands were presented by Constantine Tsaldaris, prime minister and chief of the Greek delegation. They came less than 24 hours after Ethiopia asked the 21-nation peace-drafting body to award her Italy's East African colonies of Eritrea and Somaliland.

Tsaldaris also called upon the conference to ratify the decision of the four-power foreign ministers council restoring the formerly Italian-owned Dodecanese islands to Greece.

The new territorial claims against Hitler's former southeast European empire highlighted yesterday's activities which included these developments:

1. A British spokesman, declaring that a united front was expected by the big four on all matters of agreement in the five treaty drafts, expressed the opinion there would be no reopening of the Trieste settlement despite outspoken criticism by the Yugoslav peace delegation.

2. Britain announced she would join the United States in unqualified support of the Greek portions of all texts of treaties, but made it clear she would maintain freedom of press for her own views on those sections on which no agreement was reached.

3. In an effort to determine future British policy regarding disputed sections of the five treaty drafts, Prime Minister Atlee prepared to fly today to London for talks with his acting foreign secretary, Ernest Bevin.

4. The Canadian delegation disclosed it would "closely question" the award of \$1,000,000,000 in reparations to Russia and would ask for a complete review of the situation. Australia previously had indicated she would make a similar move.

WHY BLACK MARKET IN MEAT TURNED BEARISH PHILLIPSBURG, Colo.—(AP)—A wily, 300-pound brown bear was captured and executed after he had cut local meat supplies by killing several steers on the Jester ranch and the manner of his capture is one for the tall tales department. John Hart, assistant director of the State Game and Fish Department, said the marauder not only was so smart that he evaded traps set in the ordinary way but on some occasions he even seemed to have sprung the traps deliberately by shoving steers into them. Finally, all the cattle were removed from the ranch, the traps were smeared with honey and Bruin's sweettooth betrayed him.

OUT AGAIN, IN AGAIN —MA WEN-LIN AGAIN SHANGHAI—(AP)—Ma Wen-lin was about to get out of prison on bond.

Family and friends, gathered at the prison gates to welcome him, set off thousands of firecrackers. Aroused by the uproar, prison officials changed their minds and vanked Ma back into his cell for "further questioning" about charges of collaboration just as he was about to enter a waiting automobile.

ONE TROOPSHIP TODAY By The Associated Press The Maritime Victory, docking at New York from Bremerhaven with 1,317 servicemen aboard, is the only troopship scheduled to arrive today (Sunday) in the United States.

"Jeepable" is a new word used on U. S. Army maps for terrain too rough for vehicles other than jeeps.

Plunkett's Stage Show To Open Here

Tomorrow night through Wednesday night, the Veterans of Foreign Wars will sponsor Plunkett's Stage Show, which located on South Ward street, south of Van-tine's.

The show features the Plunkett brothers and sisters, with Captain Plunkett and his trained animals as the main feature and every performance being different.

There will be about 1,000 comfortable seats, for which the admission will be adults 49 cents, children 20 cents, and a slight extra charge will be made for reserved seats. Starting time each evening will be eight o'clock.

Grizzly bears range the Cordillera highland from Alaska to Mexico.

RODEO PLANS

(Continued From Page 1) stallion, presented by Bud Thies of Dallas; the Childress mounted quad-rill; "Pancho," the cowboy monkey; Louis Blair and his clown mule, "Gunpowder."

"The sponsors contest is drawing entries from farther distances than any other year," W. B. Weathered, chairman of the contest, said Saturday. Entries will be accepted until 12 noon, August 16. The Pampa sponsor has not been announced.

Rodeo dances will be held Friday and Saturday nights at 10 o'clock in the Junior High school gym. Joe Fischer, who is in charge of the arrangements, announced, Rip Ramsey and his Texas Wanderers will furnish music for the dances which follow the rodeo performances.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing. How quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Barcontrate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose

bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

### Radio Station to Go in at Borger

The federal communications commission has authorized the proposed operation of a radio station at Borger, under application by Dick Hughes of Pampa, as was announced today at Washington.

It was learned here yesterday that Wayne Phelps, former manager of the Pampa Daily News station, KPDN, and now an employee of the Hughes Pitt, Inc., will be manager of the new station, to be established at Borger.

Herman Krieger, who was also formerly connected with the local station will be chief engineer.

The assigned frequency for the new station, call letter of which have not been announced, will be 1490 kilocycles, with 250 watts in power and unlimited broadcasting time.

At the same time, the commission announced the authorized operation of these new standard stations:

Alco, Tex., Broadcasting company, 1070 kilocycles, 1 kilowatt power, daytime.

### Free for Asthma During Summer

If you suffer with those terrible attacks of Asthma when it is hot and sultry; if heat, dust and general mugginess make you wheeze and choke as if each gasp for breath was the very last; if restful sleep is impossible because of the struggle to breathe; if you feel the disease is slowly wearing your life away, don't fail to send at once to the Frontier Asthma Co. for a free trial of a remarkable method. No matter where you live or whether you have any faith in any remedy under the Sun, send for this free trial. If you have suffered for a lifetime and tried everything you could learn of without relief; even if you are utterly discouraged, do not abandon hope but send today for this free trial. It will cost you nothing. Address:

Frontier Asthma Co.  
175 W. Frontier Bldg.  
462 Niagara St. Buffalo, N. Y.

Corpus Christi Broadcasting Co., Corpus Christi, Tex., 1230 kilocycles, 250 watts power, unlimited time.

### WCTU Attempts to Close Ohio Bars

COLUMBUS, O.—(AP)—While the State Department of Liquor control toyed gingerly Saturday with a legal potato heated up by the Women's Christian Temperance Union, hundreds of Ohio bars faced possible enforced closing during the summer's state and county fairs.

Pointing to a long-forgotten 58-year-old Ohio code section which makes the sale of liquor within a two-mile radius of any Ohio state or county agricultural fair illegal, the WCTU demanded strict enforcement.

There appeared little legal doubt as to the current validity of the law but the question of its enforcement posed a problem for officials.

If and when enforcement is accomplished, only 3.2 beer may be sold by bars within the vicinity of the fairgrounds throughout the state.

In the state capital, that legal line extends within two blocks of the city's principal downtown intersection. In Dayton, most of the downtown section would be within the forbidden territory. Similar situations prevailed in many other cities and towns.

### COURTROOM SPITONS WIN JUDGES' DECISION

ST. LOUIS, Mo.—(AP)—Their sympathy aroused for tobacco chewing jurors and lawyers who looked vainly for the container that wasn't there, two federal district judges here have ordered the return of cuspidors to their courtrooms.

Judges Rube M. Hulen and Richard M. Duncan overruled and edict from the Federal Building Administration in Washington which caused removal of the cuspidors seven months ago.

Judge George H. Moore, however, dissented from the majority opinion and held that sand urns in the corridors outside his court must serve the purpose.

### Ah, to Be a Penguin—Now That Summer's Here

A pampered bird is the penguin. He demands—and gets—relief from the hot weather. He can afford to—it cost Philadelphia a neat sum of money to buy these birds and have them shipped up from the Antarctic.

### Ceramics Building at University Planned

AUSTIN—(AP)—F. K. Pence, chairman of the University of Texas ceramics department, is helping to push a campaign for \$150,000 with which to build a ceramics building at the university.

He points to establishment of nine new potteries in the state in the past year as evidence of increasing interest in the ceramics industry.

The university board of regents has appropriated \$150,000 for the university building, and Pence says he is confident that the other \$150,000 will be contributed by business men and industrialists of Texas.

### Navy Landing Craft Are Safe in Jamaica

NEW ORLEANS—(AP)—Three navy landing craft were safe in the harbor of Kingston, Jamaica, Saturday, their temporary disappearance explained at least in part by communications trouble, Navy spokesmen said.

The three vessels with about 155 men aboard left Panama July 24 for New Orleans.

When they had not been heard from Friday an intensive air and sea search began.

Friday night Eighth Naval district headquarters received a message relayed through the United States Consul general in Kingston and the Navy department in Washington saying the vessels and all on board were safe.

### Bermuda Citizens May Buy Autos Now

HAMILTON, Bermuda—(AP)—The Legislative council Friday authorized the general use of automobiles on this island for the first time since they were banned in 1908 at the request of American residents following a bus disaster. Use of vehicles by American forces was allowed during the recent World War II.

Under the new law, each family may own and operate one private car, limited to eight to 10 horsepower. The law also authorizes small trucks, vans and taxicabs. The speed limit is 20 miles per hour.

There are about 2,000 kinds of plants which yield fibers useful to man.

### Want a Nice Kitty?

Mrs. Clare Newberry of New York City wants to find a home for that pretty kitty she's holding. But there's a joker—the animal is an ocelot from Venezuela and will grow into a big cat with vicious claws.

### Film Double

In the filming of the dramatic story of the atomic bomb, a movie to be called "The Beginning or the End," Godfrey Tearle, above, is to play the role of the late President Franklin D. Roosevelt. New York born, he achieved his greatest success on the English stage.

### Amarillo Teacher Joins WTSC Staff

CANYON—Mrs. Ocee Warden, teacher in the primary grades in the Amarillo Public schools and twice a graduate of West Texas State college, has been elected to a position in the Demonstration school of West Texas State.

Mrs. Warden, who first came to Canyon from Gainesville, received her Master's degree in 1945. Immediately previous to that time, she had been supervising principal in the Friona Public schools and last year she was on the Amarillo staff.

### Pampan Writes from Puerto Rico Field

Staff Sgt. Clarence E. Shillings writes to the Pampa Daily News from Borinquen field, Puerto Rico, where he is stationed with the air force.

He says: "Having the hometown paper is just like having a piece of Pampa right here in Puerto Rico. My wife and I can keep up with all the things which are taking place at home, and we do appreciate being able to do so."

### Service Company Is Now Observing 22nd Anniversary

In this, its 22nd year, the Southwestern Public Service company is in the midst of the greatest expansion program in its history.

In the Panhandle area along about 12 million dollars have been invested in the future. Additions are being made to existing plants and a new power plant is being built, according to Joe Key, manager of the local service.

New power lines are going up, Key said, in order to bring more reliable electrical power to industry and cheaper electricity into homes where electrical living will bring comfort and ease.

Plans for development in this territory began long before V-J Day. The plans include new generating capacity in six power plants, besides a complete new plan and miles of new transmission lines.

The 22nd anniversary is being observed during August, Key pointed out.

Mary Lathrop, of Denver, Colo., has entertained and dined more than 3000 servicemen.

**WATERBORNE**  
HONOLULU, Hawaii—(AP)—William M. Okamoto, Hawaii war veteran, has developed an amphibious lunch wagon—a surplus amphibious quarter-ton jeep—for use along one of Honolulu's canals where fishing boats and yachts tie up.

### Key Crop Prices Make Spectacular Advance

AUSTIN—(AP)—Prices by Texas farmers for certain key crops advanced spectacularly during the month that ended July 15, the United States department of agriculture reported Saturday.

Most pronounced advances listed were for meat animals, feed grains, and cotton, with dairy and poultry products also showing sharp advances.

Corn averaged \$1.74 per bushel, an advance of 21 cents over the mid-June price. Beef cattle at \$14.80 per hundred were selling at an all-time high, and \$1.70 a hundred above the mid-June figure.

### Navy Airship L-22 Is Placed on Sale

The navy airship L-22, used during the war as a training ship for "Lighter-than-Air" crews, has been declared surplus and is offered for sale for \$7,500, War Assets administration has announced.

First chance to buy the L-22, which is inflated and ready to fly, will go to priority holders and if it is not taken, it will be offered for sale to the general public.

Located at Naval Air Station, Moffett Field, California, the L-22 may be inspected at any time. The sale however, must be made through the Office of Aircraft Disposal, WAA, 425 Second St., N. W., Washington, D. C.

The number of mules on farms in the United States totaled 3,196,000 on January 1, 1946.

## Mexico's Oil Policy Will Continue Same

MEXICO CITY—(AP)—The ministry of national economy announced yesterday that Mexico's oil policy remained unchanged, and that foreigners could only participate in search of new petroleum deposits under special circumstances.

In a clarification of its recent call for bids on exploration of a 75,000-acre area in Sinaloa state, the ministry said that those eligible for consideration were:

- (1) Individual Mexican citizens.
- (2) Corporation composed exclusively of Mexican stockholders; and
- (3) Semi-official corporations in which the federal government holds a majority capital interest.

## Bargain Day in a Junk Yard

Radio equipment that cost the taxpayers thousands of dollars went on sale in Atlanta, Ga., recently at 20 cents per pound, after the Army had discarded the material as "junk." Photo above shows scene in junk yard where several hundred Atlanteans went radio-bargain-hunting.

In no cases will bids of corporations issuing bearer stock be considered.

Restrictions apparently limited participation by foreigners in development of Mexico's oil resources to direct cooperation with the federal government.

The ministry pointed out that the call for bids was in strict accordance with the petroleum law, and consequently no change in oil policy was implied. The government oil monopoly stems by a law had first option on the new area, and turned it down.

In the past year, pemex has been employing U. S. specialists to explore for oil.

The call for bids was published in the official Gazette July 31. The government will contract for a 30-year period, taking 12 1/2 per cent of any commercial production in royalties.

Scientists used to say the earth was gradually cooling. Now they don't know whether it is cooling off or getting hotter.

Before 1920, carrots were seldom eaten in the United States, but by 1941, 18,000,000 bushels were produced annually.

## Advices GOP

Clarence Budington Kelland, noted author, has been appointed campaign consultant to the National Republican Congressional Committee. He served as the committee's executive director during the 1942 congressional campaign.

## NEWS OF OUR MEN AND WOMEN IN UNIFORM

A release from the Fleet Home Town News center of the U. S. navy states that Midshipman J. T. Baker, of 908 North Gray is aboard the USS North Carolina, a battleship, for the first summer peacetime cruise since the end of the war.

This cruise is outstanding in that it is the first time in peacetime history that the midshipmen from Annapolis and the cadets from West Point will work on combined operations. The Carolina will visit Newport, R. I.; Guantanamo Bay, Cuba; Norfolk, Va.; New York, N. Y. The cruise will end August 15.

The army service forces personnel separation center at Fort Sam Houston, has announced that T/4 Chester G. Adams of 933 East Fisher avenue received his honorable discharge at that time.

Pfc. James G. Le Gray of 421 South Russell street, Pampa, was discharged from the U. S. army at Fort Sam Houston on August 1.

## Distance Best Defense Against Bomb Is Report

WASHINGTON—(AP)—President Truman's atomic bomb evaluators said Friday that a combination of the Bikini underwater explosion with the overhead burst first tested might "effectively dispose of a fleet for many months."

"We are convinced," the evaluation commission added in a report on the offensive results of the second, underwater test, that "distance is the best defense."

The commission was headed by Senator Hatch (D-N.M.). It declared that future war employing atomic bombs may well destroy nations and change present standards

of civilization.

"To us who have witnessed the devastating effects of these tests," the commission added, "it is evident that if there is to be any security or safety in the world, war must be eliminated as a means of settling differences among nations."

A second report, made public simultaneously by the White House, by the joint chief of staff evaluation board, declared it is not too soon to point out the necessity for immediate and intensive research into several problems posed by the atomic bomb, adding:

"The poisoning of large volumes of water presents such a problem. Study must be given to procedure for protecting not only ships but also the populations of cities against radiological effects as were demonstrated in Bikini lagoon."

Wyoming will start re-establishment of its national guard about July 1, 1946.

## Sobs and Shrieks Of Soap Opera Are Heading Out West

By HOWARD C. HEYN  
HOLLYWOOD—(AP)—The sobs and shrieks of the radio soap opera and mystery thrillers are a rising western chorus these days.

Daytime serials have joined the migration of shows from eastern outlets, a movement for which network and agency sources have several explanations.

They say, first, that the Hollywood film colony offers a wealth of character talent for roles in radio dramas, and second, that players hitherto confining their activities to radio find added opportunities in the movie capital.

Latest of the continuity programs to join the parade away from Chicago, where most of them once originated, to stations in Hollywood and New York is NBC's "Masquerade," one of four serials for which Irma Phillips is writing supervisor.

Miss Phillips herself has moved to Hollywood, and it is considered only a matter of time until her other three shows follow her here.

The transfer of "Portia Faces Life" from New York to Hollywood likewise is being considered.

Two character actors well known to the screen, Herbert Rawlinson and Francis X. Bushman, have leading roles in "Masquerade." Also in the cast is Nancy aGtes, who has done screen parts at RKO.

Martha Wentworth, who has appeared in many radio dramas, has a screen part in "The Stranger," William Gargan, veteran film character actor, is the private sleuth in the radio mystery series, "I Deal In Crime." He formerly had a similar role in radio's "Murder Will Out."

Outstanding examples of the radio-screen combination are Nige Bruce and Basil Rathbone, with their Dr. Watson and Sherlock Holmes characterizations.

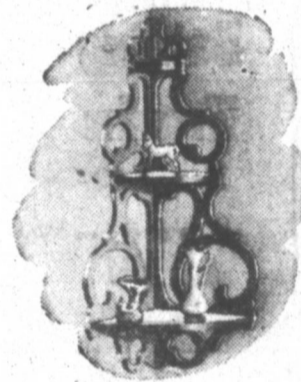

The citrus industry of Arizona and California uses 200,000,000 board feet of lumber annually for boxes.

Moose are found principally in Minnesota and Maine, but some are found in Idaho, Montana, and Washington.

## Atomic Hair-Do

Close resemblance of the Bikini underwater atom bomb's water-splout to the back of a woman's head may give hairdressers an idea for the "atomic hair-do." Billowing smoke-cloud looks like a coiffure featuring up-swept mass of ringlets and curls.

## Nurse Pioneers South American Health Frontier

Come September, Nurse Sara Wagner will be headed toward South America on a job no one has tried before.

She is the directress of nurses of the Standard Oil Co. (New Jersey), a newly created position which will place her in charge of the nursing service in 12 base hospitals as well as a number of field hospitals, our patient clinics and first aid stations which the company maintains in its oil field areas in South America.

Her job will be to raise the nursing standards in those places, confer with nurses, arrange classes to train nurses' aids and orderlies, find out their problems and in general to act as the nurses' representative on the company's medical administrative staff. She will be in charge of about 100 nurses and 140 nurses' aids. Part of her work will be in the field, the rest in the company's New York headquarters where she already has served a number of years.

"Standard Oil chooses the location that seems best for a town in relation to its fields," Miss Wagner said. "Then it clears the jungle and builds the town. The medical department is in charge of the sewage system, the water supply, the food and everything pertaining to health. Besides this we are responsible for the health of the workers. We long since have passed the place where medical care meant simply first aid. Now it is not only a matter of preventive medicine but of constructive medicine—that is, the improvement of general health. I shall be working in Venezuela, Colombia, Argentina, Brazil, Ecuador, Peru and Arabia (an island off the Venezuelan coast)."

Miss Wagner is not nearly so vocal about herself. She said the prospect of talking on that subject gave her the jitters for an entire week-end.

She was born in Montgomery, Pa., the daughter of a mechanic, trained at Presbyterian hospital in Philadelphia and then remained to serve on its nursing staff and teach nursing arts.

In 1941 she came to the medical department of Standard Oil, and eventually became its head nurse. Then she served in the U. S. army's domestic nursing service from April to December, 1945. For the last 12 years she has been working nights and at summer school to get a B.S. degree, cramming classes and study into every spare moment, and has just won her degree. But you can't make Sara Wagner dramatize that.

All that she has to say on the subject is: "I should have had more gumption and given up work for a year."

Sara Wagner is a good looking girl. Very fair skin. Very blue eyes. Light brown hair curled in a crisp efficient coiffure. She also has a nice figure, but she doesn't dress it in New York clothes. She goes back to Philadelphia to shop. She remembers some helpful sales-girls there.

"Gee darn, I believe in doing one's duty," she says.

A tailored bridal ensemble in shimmering white satin includes long pajamas with a soft-shirt top, elegantly designed mid-thigh length shorts with a brief bra, and a finger-tip length, long-sleeved coat that can double as a pajama-top nightgown. They're sold separately, but the entire set won't strain the most practical budget.

## Miss Margarette Sullins Marries James G. Ott in Holy Souls Church

Miss Margarette Sullins, daughter of Mr. and Mrs. L. H. Sullins, 603 N. West, became the bride of James G. Ott in a double ring ceremony July 26 at 8 a. m. in the Holy Souls Catholic church.

Rev. William J. Stack read the wedding mass. Mrs. Lynn Boyd sang "Ava Maria," "Panis Angelicus" and "On This Day, Oh Beautiful Mother." She was accompanied at the organ by Miss Joan Sawyer, who played traditional wedding marches.

The couple were attended by Mr. and Mrs. Dick Sullins. Bill Haley and Jack Jones served as ushers.

The bride, who was given in marriage by her father, wore a white embroidered taffeta gown, fashioned with a fitted bodice and sweetheart neck. She wore a fingertip veil of imported English Heathcote illusion and her only jewelry was a small gold cross the bridegroom had carried with him while in service. She carried a bouquet of white geraniums and stephanotis, tied with satin streamers, on a white prayer book.

The matron-of-honor wore a gown of aqua embroidered taffeta, fashioned after the bride's dress, with aqua shoulder-length veil. She carried a colonial bouquet of gladioli. Sonda Sullins, niece of the bride, wore a white gown, fashioned with a fitted bodice and sweetheart neck. She wore a fingertip veil of imported English Heathcote illusion and her only jewelry was a small gold cross the bridegroom had carried with him while in service. She carried a bouquet of white geraniums and stephanotis, tied with satin streamers, on a white prayer book.

## Engagement of Miss Keck And Eugene French Told

Mr. L. E. Keck, 413 N. Rose, announces the engagement and approaching marriage of his daughter, Marilyn, to Eugene French, son of Mr. and Mrs. George R. French, Tulsa, Okla., formerly of Pampa. The date for the wedding has been set for August 18 in the Presbyterian church.

## Social Calendar

**MONDAY**  
American Legion auxiliary will meet on the lawn of the L. K. Stout residence, 719 N. Somerville.

## Common Sense on Messy Handbag Is Sad Satchel

**By HOWARD W. BLAKESLEE**  
Associated Press Science Reporter  
NEW YORK—Where a woman should and should not place her perfume, and why, is told by Ralph Blenfang, professor of pharmacy, University of Oklahoma, in a book entitled "The Subtle Sense" (University of Oklahoma Press).

The book deals with odors, what makes them, and how they may be used. The first place not to put perfume, says this advisor, is on the dress. Not that the scent will hurt the clothing. But the perfume by capillary attraction diffuses into the cloth.

As a result the perfume is exposed to air on both sides, and the alcohol portion of the liquid is quickly dissipated. That leaves the fragrant substances. Their differing degrees of volatility, some evaporating faster than others. Finally the least volatile alone remain, and often no longer have a pleasing fragrance.

The collar. What has been said about the dress applies equally well to collars, says Professor Blenfang. Wrist. This, he says, is personal in a way, but gets pretty close to the hands. Forearms and arms also are open to the same objections as wrists.

Palms. "This is," says Prof. Blenfang, "a favorite place with some women; why, it is hard to understand. If the wearer is at dinner, every mouthful of food has perfume as a prologue. Every scent has its place, and food in close association with perfume seems difficult to take. In addition, suppose the lady dances with or is introduced to someone with whom she shakes hands. Few men desire to draw back a perfumed hand. If she were both introduced to a man and danced with him, she would have his right hand and his left hand really fixed, wouldn't she?"

In the hair, this says the writer, is a whole lot like putting perfume on the dress. The extreme capillary attraction effect, spreads the perfume and exposes it to air, leaving the successively dying components of concentrated scents. Furthermore, the hair, newly washed or not, has its own definite odor, that may or may not blend well with the perfume used.

On furs, this is held to be a cross between applying perfume to the clothing and to the hair. Since furs are not frequently cleaned, the residues of the dead perfumes would really mount up.

The best places for scents are behind the ears and on the shoulders, provided shoulders are decollete. These places, says Professor Blenfang, are utterly personal. The capillary effect is not so great. Exposure to the air on one side only. Blending with personal fragrance is effected immediately. There is also an advantage in the humidity the skin supplies; the perfume, and finally, once spent, this scent easily washes off.

Newest and loveliest of postwar fabrics is nylon taffeta, and the adaptable material is being fashioned into everything from bouffant evening frocks to sleek, swelle swim suits.

## Messy Handbag Is Sad Satchel

**By ALICIA HART**  
NEA Staff Writer  
Your purse isn't a "sad satchel," is it? That's a title of derision, man-conferred upon a woman's untidy pocketbook.

To make sure that yours isn't, check on the following: Is the lining of your purse stained with lipstick or make-up? At the bottom, do loose make-up items hobnob with tobacco particles? Does a fresh-folded handkerchief travel side by side with soiled or crumpled tissues?

Does it harbor a disorganized clutter of nondescript articles, such as keys, a dog-eared address book, unpaid bills, scraps of paper and unanswered letters?

What saves a purse from being a sad satchel is a daily check-up on its contents to see that only what's needed is in there and that what's there is herded into its proper pocket and case.

That kind of bag is never the object of wicked verbal sallies from bus drivers, street car motormen or taxi drivers.

On furs, this is held to be a cross between applying perfume to the clothing and to the hair. Since furs are not frequently cleaned, the residues of the dead perfumes would really mount up.

The best places for scents are behind the ears and on the shoulders, provided shoulders are decollete. These places, says Professor Blenfang, are utterly personal. The capillary effect is not so great. Exposure to the air on one side only. Blending with personal fragrance is effected immediately. ## Miss Jo Ann Riddle Becomes Bride of Winford R. Vaughan

Miss Jo Ann Riddle, daughter of Mrs. Idotha Riddle, 308-A West Easton Place, Tulsa, Okla., became the bride of Winford R. Vaughan, S-1-c, son of Mr. and Mrs. L. C. Vaughan, 309 N. Banks, at 7:45 p. m. July 25 in the parsonage of the First Baptist church in McLean. Rev. W. L. Lawrence read the single ring ceremony.

Miss Frances Mathieu and Jake Halter attended the couple.

The bride wore a street-length powder blue crepe dress with fitted bodice and cap sleeves. She carried a white Bibl topped with gardenias with white streamers.

An informal party followed the ceremony in the home of Bill Coy Sleehan.

The bride graduated from Tulsa Central high school, Tulsa, Okla., where she was a member of Kappa Delta Pi social club, and attended Tulsa university for one year, where she was a member of Phi Mu sorority.

The groom graduated from Pampa high school where he was active in football and sports. He was president of Seven-Eleven club. He entered service in February, 1946 for two years and is now stationed at Tatooch Island, Wash.

Mrs. Vaughan expects to join the groom sometime in the near future. At present she is employed by the Tulsa World.

## Teen Talk AP NEWSFEATURES DEAR JUDY

The newest wrinkle the Cuddle-Cooos have for cutting up is the "bikenic." Everybody bikes out to a picnic grounds—either the beach, lake or park—and has a roasting good time.

A fire is perf, particularly at the shore where it is likely to be cooler than anywhere else. The kids broil corn, hamburgers, hotdogs and sometimes even steaks—if they can get 'em.

Saw the new ice show at the Rockefeller Center Theater and really enjoyed. The star of "Ice Time," Joan Hydoff, 18, of Cincinnati, was a beauty contest winner and this is her first Broadway show. Can you imagine being a star of your first show? The amazing thing about Joan is she is doing it in her spare time. She skates to work her way through college, as she wants to be a brain surgeon. She already has finished three years of pre-medical school at Columbia University, where she returns in the fall.

Heps of the Horizon Club of Staten Island, N. Y., senior branch of the Camp Fire Girls, have set up a project to help girls develop charm. There is a "Blueprint for Beauty" prize project which puts emphasis on shining up the surface; what to wear, how to make the most of one's looks, the whys and wherefores of etiquette, what makes one liked by both girls and boys.

By the bye, what do you think makes one girl more popular with the boys than another? Most of the kids think that to be appealing to boys today, a girl must be able to talk about the same sort of things they do—baseball, football, basketball, etc. You've got to know the last time Keller hit a homer, who beat Nelson in the golf tourney and who won the Kentucky Derby.

Of course every once in a while a girl with dreamy eyes who gurgles instead of talks will be able to snare the boys away even if she thinks the Boston Red Sox is a Sinatra fan club.

Scatter Chatter: Perry Como's new picture is "If I'm Lucky." . . . Jo Stafford won the Billboard poll of college students as the leading female singer (she beat Dinah Shore) . . . Rosemary Rice has taken over the Kathy Cameron role on the serial "When a Girl Marries." . . . 15-year-old Anne Francis, who had the role before, has a featured role in "Summer Holiday" which stars Mickey Rooney, Lucky Lane.

Lots of people in New York, instead of having their usual birthday anniversary and other celebrations, send packages of food to people overseas in the names of the people they would have invited to the party. I just received a letter from cinn Delafeld saying she had sent a package in my name to Euguette Grossard, 13-year-old Paris girl. Isn't that a terribly swell idea?

Bye, Slave.

**VOCABULARY FOR SQUARES**  
Cuddle-Cooos Romanticists  
Bikenic Bikie Picnic Party

Bare midriff evening gowns continue to set a high-fashion mark for all ages. Designed for the sophisticated, a brief twist of a bra with a swag covering one shoulder is worn above a beautifully simple skirt, Grecian-draped on a sparkling waistband. The junior miss is included in the style trend with a formal cotton frock in a diagonal plaid whose demure bodice buttons in points onto a swirling skirt.

Jack and I didn't have much of a celebration for our first wedding anniversary. I had tonsillitis and the base doctor gave me strict orders to stay in bed and take my medicine. It was hard to follow those orders because the sun was shining for the first time in days and I was dying to get outdoors.

Nita.

## Scotland Girl Is Bride of Texan

SHAMROCK—(Special)—A wedding of interest to this section is that of Miss Helen Robertson, who arrived by plane from Glasgow, Scotland, to become the bride of T-Sgt. James K. Pitcock, Thursday morning.

The wedding took place at the home of Mr. and Mrs. J. R. Brown, grandparents of the bridegroom.

Vows were exchanged in an impressive double ring service with Rev. Edw. C. Derr, pastor of the First Baptist church officiating.

Miss June Pitcock, of Long Beach, Calif., sister of the bridegroom, was maid of honor. She wore a dress of white crepe over black, with a corsage of pink carnations.

M-Sgt. Jack Pitcock, brother of the bridegroom, was best man.

The bride was attired in a beige suit accented with blue accessories. She wore a shoulder corsage of red rose buds and tuberose.

Mrs. Brown wore a white mesh dress with a corsage of pink carnations.

Immediately following the wedding, a reception was held in the Brown home. Gladioli and sweet peas were used on the dining table which was laid with a lace cloth. The wedding cake, topped by the traditional bride and bridegroom, was cut by the couple.

Mrs. Eileen Hughes of Los Angeles and Mrs. A. M. Hillburn had charge of the guest register. Mrs. Garland Abernathy presided at the punch bowl, assisted in the dining room by Miss June Pitcock.

Mrs. Pitcock is the daughter of Mr. and Mrs. Adam Robertson, Kellvindle Bldgs., Glasgow, Scotland. She received her education in Maryhill public school, and North Kellvindle H. G. school. She has served four years in the auxiliary territorial service.

The bridegroom is the son of Mrs. Mary Pitcock of Long Beach, Calif. He served five-and-one-half years with the U. S. army air forces with 26 months of overseas service in England. Pitcock has re-enlisted in the army air corps.

For traveling the bride chose a tan suit with brown accessories, and following a trip to California, where they will visit his mother, T-Sgt. and Mrs. Pitcock will be stationed at the Army Air Field, Garden City, Kansas.

## Miss Frieda Hise Honored at Party

SHAMROCK (Special) — Miss Frieda Hise was complimented with a breakfast-bridge by her sister, Mrs. J. W. Blake, Jr., Wednesday morning.

Shall pink gladioli in attractive arrangements make lovely decorations.

Following the breakfast, bridge provided entertainment, with high score prize being awarded to Mrs. Cabot Brannon, and low prize going to Mrs. Baxter Purcell. Both prizes were presented to the honoree, who is the bride elect of Mr. Curtis E. Jorstad of Kenyon, Minn.

Guests included Miss Mary Elizabeth Pendleton, Miss Joyce Sullivan of Oklahoma City, the honoree and Miss Betty Hise.

Mesdames Wayne Fox, Scott McCull, Byron DeMoss, Robert A. Sturdevant of San Antonio, Toby Purcell, Walker Pendleton, Jr., Baxter Purcell, Robert Grady, Bob Purcell, Harry Clay, H. K. Johnston of Pampa, E. W. Poole and Cabot Brannon.

It is common knowledge that seven members of the 12-man House Rules Committee wield what amounts to dictatorial power over the entire House.—Sen. Wayne Morse (R) of Oregon.

## Dittmeyer, Peacock United in Single Ring Ceremony Recently

Miss Juanita Dittmeyer, daughter of Mr. and Mrs. Frank Dittmeyer, and O. E. Peacock, son of Oscar Peacock and Mrs. Leona Wade of Oakland, Calif., were married at 6 p. m. July 27.

Rev. Russell G. West officiated at the single ring ceremony which was held in his home.

Mrs. Paul Dalton attended her sister as matron-of-honor. She wore a white dress with a corsage of pink carnations with white accessories.

Robert Cecil Dittmeyer, brother of the bride, was best man.

The bride wore an aqua crepe dress with white accessories and a corsage of white roses. For something borrowed she carried a white handkerchief trimmed in blue lace. The something old was the bracelet which she wore.

The bride's mother wore a light blue crepe dress with black accessories and a corsage of pink carnations.

A reception followed the ceremony at the home of the bride's parents. Cake and punch was served. The lace-covered table was decorated with pink and white gladioli.

The bride attended Pampa high school. The groom attended school in Terrell, Okla.

## Letters Marked PERSONAL

Could This Letter Have Been Addressed to You?

**A HUSBAND TO HIS WIFE:**  
I'd gotten so I winced every time I read the words "juvenile delinquency." I was that worried about our little girl. Every night when I'd come home from work, you'd tell me all the naughty, wild things she'd done all day.

And then your mother came to look after us while you went on the trip. The second night she was there she chuckled. "She is getting to use her head. When she bought the dime peanuts instead of the nickel variety, I told her she wasn't proving me she did. She's making them 'last,' still has half a bag left. I think you ought to congratulate her!"

I felt like a new man. For the first time in months, I heard a good report on Sis, was asked to praise her instead of scold. You have a wonderful mother!

## Consumer Enlightened During OPA Holiday

**By RUTH MILLETT**  
NEA Staff Writer

The OPA regulations were off long enough for us to find out something about those with whom we do business.

The sheep were separated from the goats in short order.

Here was a fellow who was content to make a fair profit, and who fixed his prices accordingly.

And there was one who was out to gouge the public, and whose prices hence soared to the inflationary plane.

Here was a landlord who increased his rents either not at all or only to the extent that his conscience considered fair.

And there was a landlord who saw his chance to eject tenants no longer protected by the law, and who did it either by serving quick eviction notices or by increasing rents beyond the occupant's ability to pay.

No wonder the customer is smiling today. His protection is back. And he can really appreciate it, after having had a taste of what can happen when the sky's the limit on scarce goods.

**PROFITEERS ARE UNMASKED**  
Today's customer knows, too, who his friends are in the business world.

They are not the ones who begged, "Just take off the ceilings and give us a chance," and who then responded with price-gouging.

They are the ones who retained a ceiling on their own consciences after the ceilings were removed from their marketable goods.

## Cordial Letters Seal Friendship

The apology "I never write letters" is an admission of indifference to old friends or the new ones a woman might make.

The note of acceptance of congratulations, the "gesture" letter or the one carrying thanks or praise or condolence to a friend is not only an expression of good manners, it is a token of thoughtfulness and a "bargain in charm."

No woman can excuse herself out of letter writing because she's busy. There's always time to write letters. But if letter-writing has to be squeezed in, there is a time-saver in having ready at hand the right kind of note paper, a pen that works, an inkwell that's filled. Many a letter goes unanswered and many a spontaneous desire to write an unexpected note is stymied because the mood is lost during a chase from room to room to slush down the needed writing materials.

**MEETINGS PLANNED**  
Los Cresces club will have a regular business meeting in the home of Miss Jodelle Elliot Tuesday evening. All members are urged to be present.

American Legion auxiliary will meet on the lawn of the L. K. Stout residence Monday evening. The Stout residence is 719 N. Somerville.

There were pawnshops in China 3,000 years ago.

Ants swell with their antennae.

Miss Onna Belle Moran was hostess to the personnel of Franklin's with a dinner at the Terrace Grill recently. Arrangements of mixed cut flowers decorated the table.

One guest, Joe Johnson, and the following employees attended: Berta Osborne, Patsy Hithcock, Maxine Lane, Patty Sue Horton, Sue Byrd, Mildred Gray, Peggy Derryberry, Cecelia Edwards and Douie Tabor.

(Editor's Note: Here's another letter from Nita Polasek, who's sharing the occupation of Germany with her soldier-husband—and sharing her adventures with you in letters made available through NEA Service, which appear each week on the woman's page.)

**DEAR SIS:**  
Jack and I got back from a wet, tiring but rather exciting week-end. Saturday morning seven of

## Mainly About Pampa and Her Neighbor Towns

Mr. and Mrs. O. M. Stevens have been visiting in Oklahoma City, Okla. Mrs. Mae Antler returned to Pampa with her for a visit here.

Entertained at Showers

The bride was complimented with two pre-nuptial showers recently. Mrs. H. B. Carlson, Mrs. W. J. Halley, Mrs. R. J. Kiser and Mrs. A. D. McNamara were hostesses at a coffee in the McNamara home 1008 N. Somerville.

The guests were served from a table decorated in silver and white. Those registering or sending gifts were Mesdames A. B. Zahn, O. M. Elymiller, H. C. Duesterhaus, W. H. Waddell, J. P. Brown, Mickey Conley, D. J. Gribbon, Roy McKernan, W. G. Cunningham, Jeanne Bisset, George Bunch, L. W. Burrow, Lynn Boyd, J. F. Schwind, Clayton Hus-

ted, Dick Sullins, the honoree, her mother and the hostesses.

The bride was honored with a kitchen shower in the M. F. Roche home, 1201 Mary Ellen, Mrs. Lewis Jones, Mrs. A. R. Sawyer, Mrs. D. C.

Kennedy and Mrs. Roche were hostesses.

The entertaining rooms were decorated with white daisies and the serving table carried out the wedding motif. It was centered with a figurine of a ballet dancer with blue streamers attached to miniature house hold appliances. Cornucopias of miniature kitchen utensils were given the guests.

Attending of sending gifts were Mesdames C. A. Huff, S. E. Johnson, B. S. Via, C. W. Lawrence, Wilson Halcher, Wayne Kelley, Dick Sullins, E. B. Palmer, V. R. Strickey, Alva Duenkel, Clyde Oswalt, Ora Davis, Phyllis Alberts, Ralph Chisum, Ora Duenkel, L. E. Davis, Ina Eas Paulk, L. H. Sullins, Misses Zita Kennedy and Elizabeth Reynolds, the honoree and the hostesses.

Cryolite was discovered by the Danes in 1794.

The Philippine Islands are composed of ten large and 970 small islands.

## Marriage

Continued From Page 9

nosegays of cut flowers tied with blue streamers. The table was centered with two wedding cakes, on a mirror reflector circled by wreaths of flowers.

Mrs. Wayne Kelley and Mrs. Herchel Wilkerson, sisters of the bride, presided at the serving table. Miss Zita Kennedy registered the guests in the bride's book.

A wedding breakfast was served the bridal party following the reception. The couple left for Glendale, Calif., after the breakfast. They will make their home there.

The bride attended school in Pampa and the American School of Ballet in New York City, N. Y., and also studied ballet in Hollywood.

The groom attended school in Lincoln, Neb., and Glendale. He served 13 months in the marines in the South-Pacific theatre.

## Constellation To Return to Service

WASHINGTON — (AP) — International airline operators looked forward eagerly yesterday to return to Lockheed Constellation to regular service after changes agreed upon by the manufacturers, users and the civil aeronautics administration.

The "Comme" with an official capacity of 51 passengers and a cruising speed of 271 miles an hour, was grounded by CAA order on July 11 pending investigation of a training flight accident near Reading, Pa., in which five men were killed.

The CAA summarized the changes in an announcement late after a long conference with airline and manufacturing representatives.

The alterations relate primarily to the electrical system, which caused the Reading fire. However, as a further safety measure the airlines will be required to change the engines over to the system by which fuel is injected directly into the cylinders and mixed with air there instead of being mixed in a carburetor.

The fuel injection system, widely accepted in German aviation, is regarded as more economical and

safer than the carburetor method. Engine fires have been a problem with the carburetor system.

Paper Production Up To 104.7 Percent

NEW YORK — (AP) — Production of paper in United States mills for the week ended July 27 was at the rate of 104.7 percent of capacity, the American Paper and Pulp Association reported Saturday, compared with 102.8 percent in the preceding week and 93.4 a year ago.

Guadalupe Peak, which rears to an altitude of 8751 feet, is the highest point in Texas.

### 4-H Club Boys Encampment To Open Tomorrow

Tomorrow will mark the opening of the annual 4-H club encampment for boys in this district who qualify for the three-day outing. Over 300 boys are expected to attend, according to Knox Farr, district agent, who is in charge of the camp.

The encampment will be held at Lake McClellan. Twenty-six Gray county boys have been invited and are expected. Vic Joyner, 4-H advisor, said Saturday.

The first meal will be served tomorrow evening at 7 o'clock and will be followed by movies, softball games, horseshoe and washer tournaments and rifle shooting. The boys will also have swimming and boating events during the encampment.

Demonstrations on the rifle range will be given by a representative of the Remington Arms company. E. J. Pope, United States department of agriculture, will give trick demonstrations in marksmanship.

Fred Dines, Texokan Mills, will give instruction on grain and wheat, and on Tuesday Quentin Williams, soil conservation service, will instruct the group on a variety of grasses.

Ralph Thomas, Gray county agent, and Joyner will be on hand when registration starts tomorrow at 5 p. m. The following Pampa boys will attend the camp: Manning Chance, Stan Ryan, John Lloyd Carruth, John Hutsell, Herman Watkins, John Sporman, Clifford Scheffer, Robert Sailor and Leroy Kretzemeier.

### Albania Application Showdown Is Opposed

NEW YORK—(AP)—Several delegations to the United Nations Security Council indicated Saturday they would oppose a showdown on Albania's application for U. N. membership until after the membership committee has discussed all applications before it.

These delegations included the United States and Great Britain, who took the position that the committee should divide its work into two phases—discussion and voting. Russia's attitude could not be learned immediately, but some of the delegates expressed belief she might insist on disposing of the Albanian case before turning to the others.

### New Journalism Instructor Named

CANYON — Miss Dorinda Bond, who for five years has been teacher of journalism in the Amarillo high school, will become a member of the staff of West Texas State college with the opening of the fall session.

Miss Bond is a graduate of Mary-Hardin Baylor college, has done extensive work at North Texas State college, teaching classes in journalism, and supervising the Prairie and Le Mirage, the college annual.

The duties of Miss Bond will include general news service for the college, teaching classes in journalism, and supervising the Prairie and Le Mirage, the college annual.

### Chinese Arrested on Charge of Smuggling

SHANGHAI—(AP)—Chinese naval officers who sailed back from the United States with a fleet of eight gift warships smuggled in so much contraband it appreciably ticked the economy of Nanking, dispatches from that port-capital reported Saturday.

The fleet's commander, Lin Tsun, was reported dismissed and two of his top officers arrested on smuggling charges.

Most every other officer of the fleet, the dispatches said, participated in the smuggling of four automobiles and sizeable quantities of watches, fountain pens, cosmetics and cigarettes.

Each officer had at least 15 cases of goods.

Cigarette prices in the capital dropped sharply after the fleet put in last week.

The fleet, given China as a nucleus of a modern navy, consisted of two destroyer-escorts, four mine-sweepers and two submarines.

### Self-Proclaimed Executioner Held

WASHINGTON—(AP)—The Secret Service reported Saturday that "an alleged self-proclaimed executioner" is being held for grand jury action on charges of threatening the life of President Truman.

This statement was in a report on the service's activities during the fiscal year which ended June 30. It did not give names, places or dates in the case.

However, the service described the arrest and confinement of the accused as the "most significant" of its activities in protecting the President.

In the same report, the secret service predicted that mail thieves would try to make capital out of the 15,000,000 checks and 12,000,000 bonds to be sent to veterans for G. I. terminal leave pay.

The service further reported "a moderate upturn in seizures of bogus bills and coins, the first increase in several years."

It attributed the increase "principally to the importation, by returning service men and travelers, or in currency shipments, of a trickle of bogus bills of foreign origin."

### Jackson Co. Election Campaign Getting Hot

KANSAS CITY—(AP)—The Jackson county election campaign which President Truman spotlighted by his avowed hope of purging Rep. Roger C. Slaughter gained momentum Saturday as the President's home folks quietly awaited the chief executive's arrival.

From Slaughter, representative of the Fifth Congressional district which adjoins the President's home district, came a statement of doubt that Mr. Truman's visit would have "any effect" on voting in the "who's right and who's wrong" primary campaign.

And from Enos A. Axtell, 36-year-old World War veteran who was publicly given the Presidential stamp of approval, came a defense of Mr. Truman's action in calling for Slaughter's defeat—and a promise from Axtell that he would vote for an FEPC bill.

### Twitty Baptist Church in Revival

SHAMROCK—(Special)—Rev. Buren Hiedon, pastor of the Moberly Baptist church will be in charge of a revival beginning at

the Twitty Baptist church today and continuing through Sunday, August 18.

Services will be conducted twice daily, at 10 a. m. and 8 p. m. and the singing of gospel songs will precede each sermon.

### West Texas State Official Is Dead

CANYON — Travis Shaw, for many years business manager of West Texas State college, died at Audubon Camp, Ward, Colorado, Wednesday morning. Mr. and Mrs. Shaw had spent their summers in Estes Park for a number of years.

Funeral services were held in Canyon Friday afternoon at the Presbyterian church.

### Churches To Have Voice in Affairs

LONDON—(AP)—Dr. Frederick Nolde of Philadelphia said yesterday the world's Protestants must "take in terms understandable to those who run the world" in laying out a Christian stand on problems of peace.

Dr. Nolde, dean of the graduate school of the Mount Airy Lutheran Theological seminary, declared that "it is imperative that the churches of the world seek in every legitimate way to bring moral pressure to bear" on the leaders of the world.

"If it is appropriate for labor and business to put pressure on the United Nations organization," he said, "it is necessary for the churches to do the same thing."

Dr. Nolde is attending preliminary meetings planning a program for the church leaders' international conference on world order which opens tomorrow at Cambridge. He is one of a dozen American delegates to the conference, which is sponsored by the World Council of Churches.

"The church should buttress physical organizations for peace with spiritual foundations," Dr. Nolde told a reporter.

"Unless we get down to brass tacks and face realities we can only continue to offer vague platitudes which mean nothing."

"Christians are a minority in the world. If they do not become organized their voices will not be heard in the councils of the world and they will have no effect."

### Higher Ceiling on Cottonseed Asked

WASHINGTON—(AP)—Three Southern senators have asked the OPA to increase the ceiling price on cottonseed and its products.

The price of cottonseed at the oil mills, they continued, should be \$70 a ton, compared to the \$53 a ton which they state has been paid since 1943.

They claimed government support prices have been increased on competing oil seeds while cottonseed which they described as "the most important single source of vegetable oil," had received no incentive payments despite increased production costs.

They suggested an increase of "several cents" in first cut linters of 2/10 of a cent a pound in second cut linters and a "few cents" a pound for oil.

Their recommended increase would bring the by products prices to 15 cents a pound for oil, \$60 a ton for meal, \$13 a ton for hulls, 10 cents a pound for first cut linters and 4 cents a pound for second cut linters.

### Father Runs Over Two-Year-Old Girl

ASHLAND, Pa.—(AP)—A few hours after birth of a girl to Mr. and Mrs. George R. Hartz, their two-year old daughter, Shirley Ruth was killed Friday as she tripped and fell beneath her father's automobile being backed into the yard of their home near here.

### Toastmasters Will Hold Meet August 13

Quentin Williams, secretary of the Pampa Toastmasters club, announced yesterday that local Toastmasters and their wives are invited to attend a ladies' night banquet, given by the Berger Toastmasters at the Black hotel, Berger on August 15.

Amarillo Toastmasters and wives are also to be present. Williams said he would like to know by Aug. 10 how many members of the local organization plan to make the trip.

He called attention also to an error in the program sent out to members for the next local program. It will be held on Aug. 13, instead of Aug. 6, as stated on the program.

### Rocky Romance Road

CHATTANOOGA, Tenn. — This was one of those whirlwind weddings.

With a 48-hour pass, Ralph D. Ross of Chattanooga's navy recruiting office went to Chicago recently to be married to Miss Genevieve Hertaud, only to find the church where the wedding was to be performed had been damaged by a storm and the organ put out of commission.

The ceremony was delayed until another organ could be found. Then the bride and groom rushed to the train, but found they had shown up at the wrong terminal. They were late returning to Chattanooga but even at that they had nine hours to spare before Ross' pass expired.

Men of learning knew that the earth was round many centuries before Columbus was born.

# Daughter Of Mine

By R. Louise Emery

Copyright, 1946, NEA SERVICE, INC.

THE STORY: Cecily's wedding is over at last. But never will I forget the exact thing I did to her. And Della, Cecily's mother, will never forgive me. I had adored Cecily since she was a baby—kept on adoring her even after I married Robert and my daughter Corinna was born. Long ago, too, I knew that Della was raising Cecily to be an insupportable snob, and that she was jealous of my love for her.

When Cecily was ten and Corinna eight, Della's husband, Thomas, suffered a bad attack. He was sent to the Mayo clinic and Della accompanied him. Cecily was left to stay with us for six blessed weeks.

IN spite of Della's admonitions I turned Cecily loose with Corinna on the playground and she came in at supper time, hair wild, knees skinned, skirt torn.

Robert, can I counteract in a few days what Della has done to her? "I don't know," Robert said. "I can tell you better after I've tried to counteract what Della has done to Carl—through Cecily."

"What does she call them?" "She says they're riff-raff. And she called Carl a nigger. She said she won't play with niggers. Carl cried. Mama, I like Cecily when she's alone, but I don't like her on the playground."

It was impossible, of course, for Cecily to attend private day school. After two weeks I took her back to the Hillside school in which she had formerly been enrolled and where Stevie Ralston was an Eighth Grade student.

"I'll speak to her," I promised, but I found little response in Cecily later.

THREE years later Cecily entered a high school and almost immediately joined a sorority, although the school banned secret organizations.

"I don't dare," I said. "Della never will let me have her again if I do anything as drastic as that."

It seemed that we had passed a milestone on the road to normal childhood for Cecily.

"I don't dare," I said. "Della never will let me have her again if I do anything as drastic as that."

It seemed that we had passed a milestone on the road to normal childhood for Cecily.

"I don't dare," I said. "Della never will let me have her again if I do anything as drastic as that."

OUR BOARDING HOUSE WITH MAJOR HOOPLE

'Carrots All Winter' by Following Agent's Hints on Fall Gardening

Hints on fall gardening were presented Saturday by Miss Ann Hastings, Gray county home demonstration agent, who ascertained that a row of carrots planted now will supply the family all winter.

Carrots planted now can be covered and dug as needed, according to Miss Hastings. Carrots in the spring planting will not be small and fresh as ones which mature about frost time.

In preparing soil for fall garden vegetables, all refuse from the spring plantings should be removed from the ground along with weeds and grass which have grown up during summer months. Miss Hastings pointed out that if these grasses were plowed under, it would not decompose but would mold, heat and dry the soil.

Soil should be broken four or five inches before planting. If well rotted barnyard fertilizer is available it should be scattered evenly over the entire garden and plowed or spaded into the soil.

Mrs. Hastings said carrot seed should be planted one inch deep, firming the soil down around the seed by tamping with a hoe or walking on the row. Seed boards laid on the row will aid in getting the seed up.

To control disease, Miss Hastings suggests putting the seed in a tight container, such as a fruit jar with a screw cap, and soaking thoroughly with disinfecting material until all seeds are coated. They are then ready to plant.

Varieties especially adapted to this climate and soil are Red Core Chantenay and Denver's Half Long. "In your fall garden program," Miss Hastings said, "do not forget turnips for greens now and turnips later. Radishes and lettuce are always good, too."

THE ONLY OKLAHOMA cowgirl suonor entry to date for the Top sponsor entry to date for the Top of Texas Rodeo, Inc., is Miss Helen Woodard, pictured above. Miss Woodard will represent the Y Circle ranch of Woodward, Oklahoma, and will ride her favorite mount.

Mrs. Willie Nae Waters Dies in Hospital Here

Funeral services will be held at 10 a. m. Monday from the First Methodist church for Mrs. Willie Nae Waters, 52, who died at midnight Friday in a local hospital following a long illness.

A resident of Pampa since 1934, Mrs. Waters moved here from Amarillo. She was born Dec. 9, 1894, at Langerfeld, Texas. The family residence is 1224 Christine St., Pampa.

She is survived by her husband, W. D. Waters; daughter, Mrs. Lois Boles of Fort Worth; sons, Allen Wise of Pampa and James Robert Wise of Fort Worth; five sisters and three brothers.

Acting as pallbearers will be Walter Eaugherly, Harold Wright, Joe Shelton, Rayburn Thompson, Clyde Bassett and Travis Lively.

Services will be conducted by the Rev. E. B. Bowen and burial will be in Fairview cemetery under the direction of Duenkel-Carmichael Funeral home.

ACC Will Re-Consider Recently Adopted Law

VIENNA—(AP)—The Allied Control Council, after rejecting a Russian demand for annulment of a recently adopted Austrian law nationalizing 81 key industries — including some claimed by Russia as reparations, decided Friday night to consider the matter again next Friday.

The Russians presented their demand at the first special meeting in the council's history, contending that the law, unannouncedly adopted by the Austrian parliament a week ago despite Soviet warnings, was illegal under the new control agreement. American and British representatives declined to act pending further study.

Blind Vet Given \$2,000 for Home

HOUSTON—(AP)—The Carpenters Union local here Friday night contributed \$1,305.82 to a fund for a home for James T. Sanders, blind veteran of World War II, whose desperate situation has aroused the sympathy of hundreds of persons.

Sanders needs a home for his family of three, and a shop where he can begin working at his new cabinet-making trade, learned in army hospitals.

The Disabled American veterans also started a home-building fund this week when threats of eviction from his rented house brought Sanders' plight before the public. The two funds now total more than \$2,000.

George Marquette, independent contractor, and other persons have offered to supply labor on the construction of the house and shop. Marquette said he would direct the project and furnish a crew of workers.

Sanders is a member of the Carpenters union having been in the trade for 15 years before he entered the army.

National forests of the United States provide a living for nearly 1,000,000 persons.

**In Hollywood**

By ERSKINE JOHNSON  
NEA Staff Correspondent  
HOLLYWOOD—(NEA)—Charles Boyer was showing us the scar he got in the Enterprise studio makeup department, and we discovered that even scars are auctioned in Hollywood. Because Hollywood,

you see, insists on "romantic" scars. "These were the sixth one I tried on. We liked the best," Charles Boyer said. "Et looks romantic."

We thought Charles's scar, about four inches long on his left temple, looked very romantic.

Boyer wears the scar as a memento in his role of Ravie in "Arch of Triumph." Director Lewis Milestone and producer Charles Einfeldt watched while Charles tried on different scars—short ones, long ones, straight ones, and jagged ones.

"It must be a romantic scar," Charles Einfeldt said.

"Definitely," director Lewis Milestone said.

Finally they found the right one as usual—producer Loew said, "Including Ingrid Bergman," director Einfeldt said.

Ingrid is he Joan Madou, would-

**Panhandle Briefs**

Purchase of one building to be used as a nurses quarters, has been authorized by the War Assets Administration following a telephone conversation with officials at the Herford prisoner of war camp.

Approval of bids by the Herford Independent School district on five buildings at the POW camp was believed following a telephone conversation with officials at the Dallas office last week.

The Lions club of Groom is sponsoring a softball league for Groom, with a committee of four to handle the organization.

It has been planned to have two games on Tuesday and two games on Friday afternoons of each week. The first game will begin at six o'clock, with the second game beginning immediately after the first ends.

Although many towns in the Panhandle have been having an acute water shortage, while Deer has plenty of the life-giving liquid fall from the skies.

According to the Carson County News-Review, the county still has a fair chance of getting a good drought crop, provided this prolonged they have been fortunate in receiving a number of showers in the months of June and July.

President J. A. Hill announced last week that five additions have been made to the faculty of West Texas State Teachers college, and these additions are: Miss Donald Bond, journalism department; Dr. Donald Cragg, education department; and Dr. Noble Armstrong, back arts department, and Miss Noabelle Welsh, assistant in business administration.

Dr. Hill states that for the present he will not name men to fill the positions of dean of the college nor dean of the graduate school. Temporary shifts are being made to take care of these positions, but the title is not being conferred on any member of the faculty for the present.

With its most critical water shortage in history facing Wellington, city officials have issued an urgent appeal that users conserve water to the greatest extent possible, or it may become necessary to limit its use to drinking purposes only.

In an attempt to give citizens a chance to water lawns and gardens, handbills were passed out giving them a chance to water every two days every week. However, this plan did not work as well as was expected, and now officials are again asking citizens to cooperate with the city.

According to Mayor Pink Sullivan, the situation is awfully bad, gone dry and one of the new wells is falling.

The McLean Lions club will not

posed to be a very good singer. And, she don't have to be good. And, she laughed that's good for me."

**MILESTONE AMAZES INGRID**  
Director Lewis Milestone works. He is getting most of the scenes in one take, while other directors have had several after one scene in "Spellbound." Alfred Hitchcock made 42 takes.

After this picture, Ingrid goes to Broadway to star in the story of Oct. 1. "A Girl of Lorraine."

Charles Boyer was in a gay mood, too—both he and Ingrid are enthused about the roles and party.

Although a story of illicit love, office romances, "The Girl of Lorraine" got used to it," director Milestone chuckled, "after reading it for the third time."

Elmer Fadget, commander of the 4th Cavalry, is being asked to register their blood type. Anyone else that is sure of their blood type is asked to also.

Kil Carson Post, American Legion, and Howard Beddingfield, commander of the James Mecaskey Post, Veterans of Foreign Wars, are asking this of the veterans in order that this information will be available in an emergency.

"Maverick Town," by John L. McCarty, ex-student of West Texas State college, who is an assistant publisher of the Amarillo Globe-News, is now on sale in book stores.

McCarty's book drew out of an interest which has been his for at least twenty years, and the detailed study of the study having been directed by Dr. Lina Barlow.

"Maverick Town" promises to be extremely popular with all who are interested in the pioneer days of the Southwest.

One of the largest and best rodeos ever held in Roberts county, the auspices of the Miami Rostlers club, with a record-breaking attendance of rodeo fans on hand to witness the closely-contested events, including bull riding, bronco riding, bull riding, ribbon roping, and the girl's barrel race.

Prizes were won by: Tintin R. Hecks, Canadian, ribbon roping; Bud Derrick, Canadian, bronco riding; Okla., bull riding; Akridge, Beaver, bull riding; and girl's barrel race, Alice Cockrell, Pampa, won first place.

A new variety of black-eyed peas, Early Ramshorn, is being introduced to Knox county by 45 4-H club boys who have demonstrated in nine communities. One hundred pounds of the new variety were planted.

The new variety, which has been experimented with for quite some time at College Station, will produce 4,692 pounds per acre as compared with 1,868 pounds per acre of the common variety, according to the county agent.

About 15 scouts from Perryton left yesterday morning for a week's outing at a scout camp in the Gila canyon about 25 miles north of Las Vegas, N. M.

The troop is sponsored by the

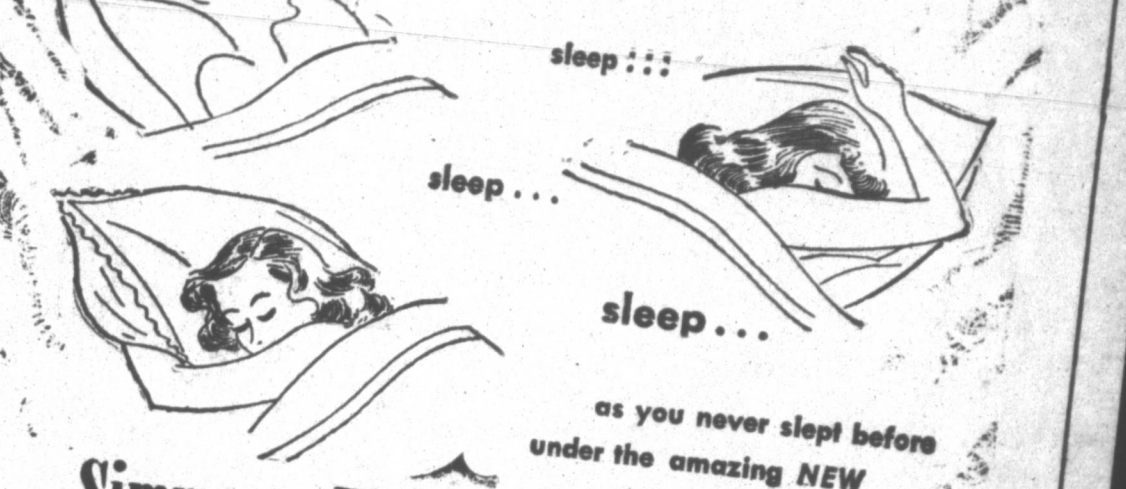

Pierce Johnson Post of the American Legion, who arranged for transportation and expenses of the trip, furnished cooking utensils, an ice storage chest, which will make the trip more comfortable, and a success.

This limitation is primarily due to the extremely low valuations in Hemphill county. In fact, according to C. S. Smith, bond expert, Hemphill county has one of the lowest valuations in this part of the country.

Action to be taken will be decided upon by the hospital committee of the chamber of commerce, in a general meeting August 12.

Neither the sun nor the moon sets in the summer at the North Pole.

**PLACE YOUR ORDER INSURE EARLY DELIVERY**

**Simmons Electronic Blanket!**

Here's a marvel of comfort only this astonishing electronic age could produce... an electronic, not merely electric blanket! A blanket that at any time can't get too cool—or too warm! Never a cold or damp spot to disturb your slumber. No more oppressive weight to make up on the bed, just one to store and launder. Fully automatic... safe... matchlessly comfortable.

Choose the warmth you want... blanket will maintain this temperature, regardless of weather, all night long.

Electronic Control provides comfort and safety found in no other electric blanket.

Five beautiful colors: Red, Blue, Green, Yellow, White.

Laundry-tended and approved by American Institute of Laundering.

PAMPA, TEXAS

**To Those Who Have Been So Patiently Waiting For New International Farm Equipment and Motor Trucks:**

In order to clear our records of old orders for machines which are no longer wanted by our customers, it is necessary, that effective August 15, 1946, all our customers' orders be cancelled.

We are making every effort to contact all of those who still wish to take delivery of equipment they have ordered. We will be pleased to accept new orders from any of our customers for any goods they might desire in our line. We have worked out a basis of taking orders for goods, which are not now available whereby each customer can be delivered the machine he wants in his turn as the machines become available.

In the future we will be unable to accept verbal orders for goods because we are now being requested by our suppliers to place only firm orders. This means that when we order a machine for delivery to you, we must take it from the factory whenever it becomes available.

There has been a great deal of confusion and misunderstanding concerning orders. In the past many customers had orders placed for the same machine with several dealers, and neither the customer nor the dealer ever knew where they stood. We are hopeful that our plan will eliminate confusion with our customers, and that we may be able to serve you better in the future.

We are being called upon by our suppliers to back up our estimate of need by showing our bonafide orders from our customers. Factories do not place much confidence in long lists of names or verbal orders.

Therefore it is imperative that we clear up our files and take new orders, so that we may have a reasonable chance of securing machines in the coming months. Machines and motor trucks have been extremely scarce during the past several months. Production has been lower than during the war times. The prospects for new equipment are brighter than they have been during the past year, and unless unforeseen labor and materials trouble develops in the factories, we should be getting reasonable quantities of goods by the early part of 1947.

We will be pleased to discuss your needs at any time, and to serve you in anyway we can. Come in and let us show you our plan.

Sincerely yours,  
**TULL-WEISS EQUIPMENT COMPANY**

### Leaves From a Correspondent's Life Notebook

By HAL BOYLE  
**BAMBERG, Germany**—A black-haired German girl stood silently before the roomful of American soldiers. The young soldiers neither giggled nor called crude jokes at her. They looked critically at the shadows on her nude body, they made painstaking marks on the papers before them.  
 The Bamberg art school was in session.  
 An hour earlier the young soldiers had been patrolling the highways or working in the headquarters of the constabulary, the American army's new mobile police force for Germany. The art school is one of several educational and cultural diversions created to give them something to do in their spare time besides chase frauleins.  
 "It's on a part-time strictly volunteer basis," said Major A. S. Williams, information and education

### Suits of Distinction

For years we have been making suits for women who want the best in fit, tailoring and detail. Let us make your winter suit now.

BoB Clements

officer for the constabulary. "About 140 soldiers are taking courses in drawing, painting, photography, sculpturing and woodcarving."  
 The staff of German teachers is directed by a former sergeant, William Tardiff, 28, himself a prize-winning art student from Boston, Mass. Tardiff has a small studio off the main classroom.  
 "The art school provides a place where soldiers can come when they're tired of going to the movies or drinking beer," he said. "None of the men ever had art instruction before. Redeployment has made it hard for many students to finish their courses but they keep studying until the time comes for them to leave.  
 "They are surprisingly serious. I thought they might be a little self-conscious, but they look on the girls as just a problem in drawing. "We have had some cases of dating between students and models—but what they do after hours isn't my business."  
 Tardiff said the soldier students prefer portrait work first, then life classes, landscapes and still life compositions.  
 "They like to paint anything but military subjects," he said. "They don't put their soldier life into their art."  
 "So far we haven't discovered any Rembrandts in the constabulary, but a number have real talent. Some plan to go to art schools in America later under the G. I. Bill of Rights."

### Poll Tax Payment Could Come Later

AUSTIN—(AP)—The date for registration and payment of poll tax could be moved to a later time by constitutional amendment, Gov. Coke R. Stevenson said Friday.  
 He recalled that he had advocated such action be taken two years ago.  
 The latest date for payment of the poll tax in order to vote is now Jan. 31 of each year.  
 Stevenson said the date for such payment could be set for any time, June 1, for instance, when political interest is high and more people want to vote.  
 He said the purpose of the poll tax is to maintain a system of registration of voters, not place a restriction on voting.  
 The use of the poll tax system does not lend itself to the building up of political machines such as exist in some states where there is no poll tax, the governor commented.

### Still No Unity, Says Senator

WASHINGTON—(AP)—Senator Hill (D-Ala) declared Friday there is "no unity of command at Pearl Harbor" but "the same organization for defense that obtained on

Sunday, Dec. 7, 1941," when the Japanese took the island bastion by surprise.  
 "We are right back where we started," he declared in a speech prepared for senate delivery.  
 "General Hull commands the Hawaiian department—the army—he does not command the navy."  
 "Admiral Hall commands the 14th naval district—the navy—

he does not command the army."  
 Hill spoke in favor of armed forces unification, an issue now admittedly dead for this session of congress.  
 As a member of the military committee and ardent advocate of unification, Hill said he decided to lay the case for the legislation—which never reached the senate floor—before his colleagues as a

result of an anti-unification speech delivered in the chamber last week by Senator Hart (R-Conn), a retired admiral.  
 Hill said that naval officers are toasting the failure of congress to act on the legislation "exactly as they would toast a navy football victory over the army."  
 "The difference between the navy's unselfish devotion to duty

in the war and the present selfish attitude of those in high authority in the navy toward the President and the best interests of the national defense is appalling," he asserted.  
 Hill said Hart tried to make the senate believe that "his whole scheme of unification is a vast army plot to 'silk the navy' cooked up by ex-West Point cadet generals bearing an army-navy football

grudge," against ex-Middy admirals.

**BURIAL INSURANCE**  
Duenkel-Carmichael

otically cooperated in sponsoring an advertisement urging army enlistments.  
The next day his best man quit, and re-listed.

A Texarkana woman was walking down town when the supporter which had been holding up her nylons gave way. Was she embarrassed?  
She walked into the bank, got the key to her safety deposit box, went into the secluded booth and repaired her supporter in privacy.

J. H. Shivers sold papers on a Houston corner for 14 years.  
"I feel this corner is my home," he said recently. "I guess I'll die here."

Two days later he did. Sitting in his chair, chatting amiably with friends, he slumped over and died.

If you've lasted this long, maybe you can stand a bit of poetry, by Wick Fowler, Dallas News war correspondent:

"Little Pig 311 went off to Bikini. While meat at home was scarcer than plenty.  
Why didn't they bomb a case of Spam  
And save us folks that hunk of ham?"

**Stunt Man Sued**

Joel Thorne, millionaire auto racer, movie stunt man and owner of the car that won the 1946 Indianapolis 500-mile race, is being sued for separate maintenance in Los Angeles court by his wife, Mrs. Johnnie Eager Thorne. She named four women as correspondents, including one named "Dizzy."

**'Nursemaid' Kennedy Learned How, When**

KANSAS CITY—(AP)—John Kennedy, farm credit administration official, was learning today how—and when to pin diapers on three-month-old Suzanne Johnson as he prepared to leave by plane with the baby on a good Samaritan flight to Pittsburgh.

"Nurse" Kennedy volunteered to take the chubby, former incubator baby to Pittsburgh relatives for the baby's father, Lloyd M. Johnson, an FCA personnel worker. The baby's mother is dead.

After "Johnson gave me three dozen diapers and said 'That ought to be enough to last the trip,'" Kennedy went to visit Suzanne at General hospital and got some professional advice on "When do I change 'em?"

That was easy, he learned—"just plan on a change about every 15 minutes."  
Kennedy practiced frantically and at the last report still lacked the professional touch and was praying for a "good-natured hostess on the plane."

**FREE WEDDING**

JEROME, Idaho—(AP)—The Northside Rodeo association yesterday offered a free wedding to the Jerome county couple who will volunteer to be married while astride merry-go-round horses at a wild west show here.  
A ring and wedding cake are included in the offer.

Bees keep the air circulating inside the hive by vibrating their wings in a fan-like motion.

**Texans Deplore Tideland Veto**

AUSTIN—(AP)—Gov. Coke R. Stevenson said Friday that President Truman's veto of the tideland title bill was a great mistake.  
The bill would give states clear title to tideland areas.

"I think it (the veto) is a mistake, of course," the governor said. "So far as it affects Texas, I always have thought we had a much stronger claim than any other state."

Stevenson's statement was based on his belief that Texas retained full claim to its public domain when it joined the union.

The governor said he thought the oil coming from Texas tidelands was much more important to the school children of Texas than to the navy.  
"The state's permanent school fund is to some extent dependent

**Europe's Starving to Get 'Dynamic Kernels'**

ADRIAN, Mich.—(AP)—A six-year project in "dynamic kernels" inspired by Biblical verse has reached ultimate fruition here with the final harvest of 63,650 bushels of wheat from the original planting of a single cubic inch.

Europe's starving millions were the destined beneficiaries of some 6,650 bushels of grain representing a ten per cent tithe from the final harvest.

In ceremonies at the Lenawee county fairgrounds yesterday some 10,000 persons watched as the 276 farmers who participated in the last planting hauled the tithe before the grandstand, piling the sacked wheat into a long high wall.

Each year since the original planting in 1940 one-tenth of the harvest had been tithed to the church and the remainder had been replanted. The first seeding in

**Dr. George Snell Dentist**

Office over 1st National Bank  
Phone 1482 for appointment

Involved only 360 kernels but the sixth covered 2,606 acres.  
Instigator of the project was the Rev. Clifton Robinson of the Cleveland Bible college, who preached a sermon in the nearby Tecumseh church six years ago. His inspiration came from three Bible verses—John 12:24, Malachi 3:10 and Leviticus 25:3.  
Now the war is over, we still have to face the task of saving us from ourselves in a world of sick at heart with disillusionment.—Bernard Idings Bell of Chicago, Episcopal Canon.

**BERRY PHARMACY**

**JUST RIGHT for a score of farm uses**

Here is one of the countless variations of the "Quonset 24". Three sections are used as an implement shed; the fourth section, enclosed and fitted with walk-door and window in side panel, makes an ideal workshop.

This simple adaptation, with the entire front unenclosed, is used as a loading barn for livestock.

This sturdy, attractive roadside stand—a four-section "Quonset 24"—furnishes a fitting display for farm produce.

**THE STRAN-STEEL "Quonset 24"**  
Designed on a new principle and built with new materials, the "Quonset 24" is a really modern farm building, better for scores of uses. It is 24 feet wide, with the length extendable in sections of 12 feet... 24'x24', 24'x36', 24'x48', and so on.  
"Quonsets" are the only buildings that combine all-steel construction with great flexibility. Each 12-foot section can be individually equipped as desired. It may be partitioned or not; the front may be enclosed, left open or fitted with roller doors; extra sections may be added whenever required. Additional windows and walk-doors, insulation and other equipment are easily installed. This wide utility is due to a unique, fast construction method, which employs Stran-Steel nailable framing members and sheet steel covering that is nailed directly to them.  
Inexpensive to build, easy to erect and maintain, fire-safe, the "Quonset 24" is a sound building investment. Write us for full details.

"Quonset" buildings are products of Great Lakes Steel Corporation, a unit of National Steel Corporation

BY CARRIER in Fanpa 50c per week. Paid in advance (all offices) \$1.00 per 8 months, \$4.00 per six months, \$12.00 per year. Price per single copy 5 cents. No mail orders accepted in localities served by carrier delivery.

## JUST WHAT IS MURRAY GETTING AT?

Our contention of the past that the CIO executives are seeking more and more to become the guardians of the public welfare continues to be borne out in acts. As soon as price controls were lifted, they sprang into action, on the apparent assumption that nobody would ever think of refusing to buy steak and butter at 95 cents a pound without work stoppages, mass meetings, parades and picket lines.

Inasmuch as the CIO has taken this stand of paternity over the common welfare, and since it has considerable votes behind its influence in Washington, it might be well for the people at large to determine just what is the ultimate aim of this organization.

A few days ago, Philip Murray, CIO president, detailed to a congressional committee some proposals for a "progressive labor policy for the future." Among the points stipulated were mentioned passage of "adequate price control legislation," adoption of the minimum wage bill, and expanded social security legislation.

It will be noted that he refers to "future" price controls. Most of those who favored price controls for the war period generally assumed that controls would be lifted after the war.

The trend in prices during the time when OPA was legally dead did not prove those right who had thought the whole price structure would get out of hand.

In this statement about future controls, Mr. Murray seems to infer that there should be continued controls. If he did not mean that, he certainly should come out and say so.

We are wondering now just how much influence the CIO and Philip Murray have with the Truman administration. There is a nice bunch of votes tied up in the CIO organization. If the Truman administration continues to listen to the CIO and its leader, the people should certainly know what to do as elections roll around in their communities.

Permanent price and profit fixing by government would be revolutionary in this country, and should be very unpopular—not to say dangerous—to those who believe in the American system.

## News Clearing House

"It is for each of us to utter that which he sincerely believes to be true, and add his unit of influence to all other units of influence, and let the results work themselves out." —Spencer. Contributors are urged to confine their articles to 500 words.

### REWARD FOR SERVICE

Down in Georgia a young Negro just discharged from the United States army after five years in service, including overseas service in North Africa and Australia, has been given his reward—death at the hands of a mob of self-appointed executioners of the law—as they saw it. His mother had just received his service discharge button.

His crime—he happened to be in a car with his brother-in-law, who was out on bail as a result of a stabbing, but not seriously injuring his former employer, a young white man, during an argument.

The wives of the two men, who were sisters, also were given the same "roadside justice." All were so riddled with bullets as to be almost unrecognizable. The hands of the two men were even bound behind their backs.

Hitler and Mussolini are dead, but their spirits still march on whenever and wherever such outrages against law and order are possible.

## MACKENZIE'S Column

By DEWITT MACKENZIE

### AP Foreign Affairs Analyst

Russia's rejection of America's complaint that Soviet occupation policies are ruining Hungary's economy emphasizes a situation which is of vast importance to the rehabilitation and politico-economic re-orientation of continental Europe.

What has happened is this: The U. S. state department in a recent note to Moscow raised the point of a possible reconsideration of the Soviet claim for \$1,000,000,000 reparations from war-shattered Hungary. Washington pointed out that the Russians were taking at least four-fifths of the present Hungarian production in heavy industry, and were requisitioning much food as well.

The note also suggested that a Russian-American-British joint commission work out a plan to help Hungary out of her economic chaos. The Danubian country has been suffering from one of the most fantastic inflations of the world known. At the time the American note was sent, the United States dollar was worth one hundred quadrillion Hungarian pengos, whereas the pengo in June of 1939 before the war was rated at 29. Moscow rejected the American points regarding the economic position "completely worthless." It turned down the idea of a joint commission as "inacceptable."

Why shouldn't Russia welcome Uncle Sam's suggestion? Well, the answer would seem to be—and it's worth logging for future reference—that Hungary is a key position in the Soviet's new zone of influence in Eastern, Southeastern and Central Europe. That zone is rapidly being made all-right, and as the signs read Moscow has no intention of surrendering any advantage in a Hungary which is of vast strategic importance politically, economically and militarily.

Conservative estimates indicate that there are five vocationally disabled civilians for every member of our armed forces who was disabled in combat in the years between Pearl Harbor and V-J Day—Michael J. Shortley, director of Vocational Rehabilitation.

## Nation's Press

### THE NEW DEAL COURT

(The Chicago Tribune)

Dean Wilbur Katz of the University of Chicago law school, speaking before the Chicago Bar Association the other day, discussed the Jackson-Black controversy. Dean Katz can be described as pro-Black. "He has brought to the court," said the dean, "unique powers of simple, direct, common sense analysis and clear, forthright statement."

Mr. Katz took as his text an editorial published in "a Chicago newspaper" which had called for the resignation of both Jackson and Black. This was not our editorial. It is not our purpose here to defend it or its conclusions, but rather to examine the argument which led Dean Katz to say, "Nothing in the present discussion justifies a call for Mr. Justice Black's resignation."

It is not unusual, said the dean, for a supreme court justice to sit in a case in which a former partner appears as counsel. This may be true, but to say it is to answer only a part of Mr. Jackson's charge. Mr. Black was accused of something more than that. He sat in a case which involved the interpretation of a law in the enactment of which he played a leading role.

The decision turned largely on the question of congressional intent. It is a striking fact that both the majority and minority opinions question the members of the court in the senate between Mr. Black and Mr. Walsh in which the point at issue was discussed, with Mr. Walsh asking questions about what the bill meant and Mr. Black answering them.

In this sense Mr. Black sat as judge not in his former partner's case but in his own case. The point can be made that as judge in the "wheat" case he rejected the interpretation of the bill he had placed upon it when he was its spokesman in the senate, but the fact remains that in considering the question Mr. Black's position was necessarily ambiguous. He was not just another senator when this bill was being passed; he was its sponsor.

The relation of Mr. Black to this case has its counterpart in the relation of the members of the New Deal court generally to much of the litigation before them. Almost all the judges were New Deal stalwarts who were appointed to the bench by Mr. Roosevelt with that qualification uppermost in his mind.

In this sense "the former partner" of most of the judges is the New Deal. The fact that there is a distinct line of cleavage in the court these days means merely that there is a division among the judges as to details of New Deal dogma, but all of them are indocrinated with it in one form or another.

That is why the court in recent years has upset more well established precedents than any court before it. That is why lawyers are finding it more difficult than it ever has been to advise their clients regarding rights that have long been recognized as valid, but now are built on sand.

These judges are accustomed to thinking in political terms. We have said that the New Deal is their "former partner." Perhaps it would be more correct to say that the partnership has not been dissolved.

WATER TRUCKS DALLAS—(AP)—Dallas county water trucks have been pressed into service to supply the nearby communities of Pleasant Grove and Pleasant Mound with water since the depletion of private wells, Commissioner Frank Buck said.

The word salad got its name from the Latin "sal," meaning salt.

## Peter Edson's Column: CONGRESS HAS MOVED FAR TO THE RIGHT

### NATIONAL WHIRLIGIG

news behind the news

### Common Ground

By R. C. HOILES

#### OPA Disfranchises The Consumers

Very few people realize that under a free economy the consumer is the boss. Every time he buys a pair of shoes, a suit, a car, a house, or a refrigerator, he is exercising his power. Every time he does not buy, he votes disapproval. Every time he refuses to pay an increased price he is telling the producer that his price is too high. When he buys more and more of the same article, he says, "You are doing a fine job; I like it; I want more of it produced."

In this way the man or firm engaged in business knows what other people want produced. In this way the people are constantly voting, constantly informing the producers what is most needed, what the buyer will give his money—his energy to get.

But under price ceilings a large part of this authority of the consumer is taken from him. He has no way of telling the producer that he is doing a good job of that he wants more produced. Of course he can stand in line to buy a product and indirectly inform the producer that he wants more, but he cannot tell the producer how much more because he cannot tell him in prices how much he appreciates the service.

It is folly to talk about political freedom, or to talk about the state being the servant of the citizens, when the state is the master of the citizens in an economic way via the OPA as to what they dare say for a thing.

This idea that we can keep price ceilings on for a while until such time as the supply meets the demand is a wild delusion. If that were true, why did the government permit increases in thousands of articles. If they are going to permit increases in order to stimulate greater production, why have any price ceilings at all?

Any price ceilings at all prevent some of the higher-cost producers from producing. They delay the time when supply catches up with demand. Yes, price control—the OPA—is a great disfranchiser, a great enabler of human beings.

#### Natural That They Protect Hoodlums

The Chicago Tribune recites the failure of efforts to oust two racketeers, I. A. O. union business agents from control of the Chicago local of the Bridge and Structural Iron Workers union. The paper explains that these efforts have been said the dean, "unique powers of simple, direct, common sense analysis and clear, forthright statement."

"The international officers' stubborn refusal to oust the two plunderers is not unexpected," Time and again criminals have been sheltered by their union associates and have only been removed by being sent to the penitentiary."

But the paper does not seem to understand why it is that organized labor is the only group in civilized society which, when their leaders are exposed as racketeers, does not oust them from leadership. It explains that if a business or professional man is exposed as a crook, he is dropped in a hurry by his organization, and even politicians are generally quick to disown a man who brings scandal on his party. But the unions rally around a racketeer as if he were a martyr.

The reason they do is easy to understand. Their primary purpose is to exploit other workers and protect their own workers from competition. No man can be projected from competition without depriving another man of his natural rights.

It is only natural then for men who are organized for that purpose to defend their fellow crooks and exploiters, especially their leaders. There is always honor even among thieves.

The fact that they do not expect these racketeers when their rackets are exposed ought to be proof of the strong feeling that the whole thing is unethical, immoral, un-Christian and un-American.

Yes, there is a very good reason why labor unions do not expel the crooks from their ranks: their organizations do when crooks are exposed.

#### A LESSON FROM WHEAT

"Truth" London, England

Bulk buying perils are well illustrated by the Anglo-Canadian wheat negotiation. With great pessimism Canadian farmers have been selling their wheat to Britain at a maximum price of \$1.55 a bushel, estimated at between 70 and 80 cents a bushel below world prices. This policy has cost the Canadians some 50,000,000 pounds. They are willing to sell their crops at the present price for the next five years, but though the British Government is willing to buy Canadian wheat at the present uneconomic price for two years, it wants freedom to revise the price at the end of that period, when it expects that wheat will fall in price and that a general fall in prices will occur.

It has not escaped the notice of Canadian wheat growers that the British Government has guaranteed home farmers \$2 a bushel for next year's crop, or that it is paying more to other countries.

#### A BARE TALE

ALBUQUERQUE, N. M.—(AP)—A bear weighing more than 200 pounds was in a trap which Iva Young had set as a government trapper. Because he wasn't a stick-killing bear, the law required Mrs. Young to free him, but it wasn't as easy as it sounds.

She edged her truck near the trapped animal. The bruin scrambled himself to the rear axle with the trap chain.

Gingerly, Mrs. Young tied him with a rope, then cautiously sprang the trap, and from a distance loosened the rope.

## THE RIGHT

WASHINGTON—(NEA)—Congress is on its way home. If the congressmen don't come back before next January, it will be too soon.

The lawmakers have had a tough seven months' grind. They're tired and jittery. So is everybody else. There's an election only three months away.

The election, no doubt, has been responsible for many of the things this Congress has done and failed to do in the last few weeks. But it isn't the only factor involved.

Trying to make a pattern out of what Congress does and doesn't do is an intriguing pastime for political dopesters. Today an analyst to that end reveals no regular pattern but a few motives stand out.

That this Congress in its last few weeks has gone decidedly conservative is generally admitted. It has taken up a position far to the right of the middle of the road, as compared with its course six months ago.

RUSSIA HAS DRIVEN CONGRESS TO THE RIGHT Many individual congressmen feel that this is merely a reflection of the spirit of the country. One sharp observer in Congress expresses it by saying—though not for attribution

—that "the biggest domestic issue in the United States today is Soviet Russia."

This came out clearly in discussion of the atomic energy bill in the House. Congressmen were rabid in wanting the military to retain control of bomb production and keep the secret of it.

The principal argument used in pushing over the British loan was that if Britain were not aided in peace, it would be necessary to fight communism.

Yes—there is an inconsistency in the pattern—Congress refused to pass a strong draft act which the White House and the State and War departments insisted was necessary to back up U. S. commitments abroad.

A two-billion-dollar terminal leave pay bill is passed, however, because there are GI votes in it for campaigning congressmen.

By and large, anything that smells of communism or socialism or New-Dealism or progressivism is suspect.

The House Civil Service committee probes the loyalty of government employees.

In considering the reorganization of Congress through a reduction in the number of its standing committees, the House Un-American Affairs committee must be made a permanent, standing committee.

Increased social-security payments and increased social-security coverage, easily obtainable at present high-income levels, are put off again CONTROLS AND REGULATIONS ARE NOW UNPOPULAR

The science-research bill, born of war necessity and passed by the Senate, is sidetracked in the House for a more conservative bill.

The Wagner-Blair-Taft permanent-housing bill is likewise stopped in the House.

The fate of price control is settled only after a bitter and unnecessary long legislative battle. Economic controls are unpopular in the present drift of things.

There you have the theme song of this post-war reaction which has now set in. Controls are unpopular. Quit issuing regulations. Quit passing laws. Get Congress home. Let things alone for a while. Stop stirring up the animals. Everybody, including Congress, is war-weary.

Today's lack of interest in new movements, today's lack of purpose in Congress, today's conservatism, symptomatic of general public reaction. That does not indicate that there will be a record vote in the November elections. From the present looks of things, whatever changes are made will be changes toward the right.

If that is the wrong way to go in these times, the country will have to learn if the hard way—by experience.

## Gracie Reports

By GRACIE ALLEN

Well, the Los Angeles chamber of commerce certainly is slipping. The newspapers reported that Los Angeles had passed Detroit and was now America's fourth largest city, and I expected the chamber of commerce to follow that up by warning New York that it had better take in New Jersey if it wanted to stay in first place. But no, it announced that the papers were wrong and Detroit still led Los Angeles by 9,125 people.

In the good old days, we'd have gotten the names of those surplus Detroiters and sent each of them a railroad ticket to California, a lease on a Spanish bungalow, and an autographed picture of Shirley Temple. Overnight, we'd have shot into fourth place.

Maybe it's right to avoid trickery and be known as the city of the angels, but we'd get ahead faster if we were the city with the angels.

### Report Shows Deapest Hole Is Located in Texas

A report from Frank B. Taylor, editor of the Independent Monthly, states that the deepest man-made hole in the world is located in Brazos county, Texas. The drill reached 16,655 feet, but the hole was finally abandoned when no commercial production was obtained.

But the public and those in the industry have frequently speculated as to just how deep it might be possible to drill a well. No one can give a decisive answer to this question, but the trend of drilling has

been toward greater depths ever since Drake drilled the world's first oil well in Pennsylvania to 69 1/2 feet. By 1920, a 3,000 foot well was considered "deep", but in the early 30's the drill had made 10,000 feet of obtainable depth, and now the drill has taken an even greater bite into the earth's crust.

In all discussion about depth of drilling for oil, two factors are usually ignored, yet these factors will determine to a great extent the ultimate depth of oil well drilling. Oil and gas are only found in the sediments of the earth, never in the complex structure of granite or igneous rocks, commonly referred to by geologists as "basement" rock, which is believed impenetrable. There is, consequently, no reason to drill further than to the top of this rock, whether it is 100 or 10,000 feet beneath the earth's surface.

**Well Will Produce 35 to 40 Bbls. Oil**  
SHAMROCK—(Special)—The Texas company No. 3, Myrtle S. Bills is a producer. The well, eight miles east of Shamrock and about three-quarters of a mile south of Highway 66, will make between 35 and 40 barrels, oilmen estimate.

Pay was struck at 2,100 feet last Friday, and the well was bottomed at 2,110 feet. The well was "shot" Saturday and while the hole was being cleaned out Sunday afternoon, the oil shot 70 or 80 feet into the air. The well was swabbed the first part of this week, tubing and rods are being run today and the oiler should be pumping Friday or Saturday.

The Texas company well is important due to the fact that it extends the Osborne field about one and one-half miles to the northeast. The well was drilled by Colvin and Colvin, contractors of Alma, Okla.

Each adult inhales a gallon of air per minute, and consumes 30 ounces of oxygen daily.

### Gray County Has One Completion During Past Week

Gray county completed one well during the last week, there being 10 completions for the week in the Texas Panhandle field.

**Gray County**  
The Sun Oil Co., No. 12, Combs-Worley, located in section 35, block 3, I&GN survey, was drilled to a total depth of 3105 feet, lime pay granite wash at 2900-3070 feet, IP was 423 barrels.

**Carson County**  
The J. M. Huber Corp. No. 1, C. F. Moore, located in section 8, block 5, H&GN survey, was drilled to a total depth of 3095 feet, plugged back to 3078, treated with 12,000 gallons of acid, and produced 3.5 MCF of gas with rock pressure being 332 pounds and lime pay at 2951-3078 feet.

**Hutchinson County**  
Allen & Adams, No. 4 G. H. Jasper, Oil, located at section 23, block M-23, TC RR survey, was drilled to a total depth of 3140 feet, shot with 610 quarts at 3042-3140 feet, and produced 19 barrels of oil. Lime pay was 3050-3140 feet.

**The Gulf Oil Corp.**, No. 127, Dial, located at section 90, block 2, G&S survey, was drilled to a total depth of 3090 feet, treated with 4,000 gallons of acid and produced 34 barrels of oil.

**Hermann Bros.**, No. 10, Lucas, oil located in section 21, block A, D&S survey, was drilled to a total depth of 3291 feet, plugged back to 3287 feet, and treated with 3,000 gallons of acid. The well produced 402 barrels of oil, with lime pay being at 3276-3297 feet.

**The Hermann Bros.**, No. 12, Lucas, located in section 21, block A, D&S survey, was drilled to a total depth of 3297 feet, treated with 3,000 gallons of acid and after acidizing produced 380 barrels of oil. Lime pay was at 3280-3297 feet.

**Wheeler County**  
Roy Barker, No. 3, Evans, located in section 51, block 24, H&GN survey, was drilled to a total depth of 2442 feet and produced 366 barrels of oil with a lime pay of 2255-2442 feet.

**Smith Bros. Refg. Co.**, No. 1, Ida A. Gardner, located in section 34, block 23, H&GN survey, was drilled to a total depth of 2410 feet, shot with 75 quarts of nitro at 2385-2410 feet, and produced 2.2 MCF of gas. Rock pressure was 425 pounds and lime pay was at 2245-2410 feet.

**Tuel Production Co.**, No. 1, Stewart "L5", located in section 73, block 13, H&GN survey, was drilled to a total depth of 2225 feet in Q wash from 2177-2225 feet. It was shot with 45 quarts at 2155-2200 feet, and after the shot produced 20 barrels of oil.

**The Republic Natural Gas Co.**, No. 1, Powell, Gas, located in section 25, township 6 north, range 15 east, was drilled to a total depth of 2901 feet, treated with 12,000 gallons of acid and after acidizing, produced 27.4 MCF of gas. Rock pressure was 385 pounds, and lime pay at 2720-2901 feet.

**SHORT SUMMER**  
ENTERPRISE, Ore.—(AP)—Fishing in Prospect lake in the mountains here is a little slow this season. Anglers returning from the lake say two feet of ice still covers it, and snow is due at the end of the month.

Mars has an atmosphere, but it does not contain enough oxygen to allow man to breathe. Meteorites are usually so small that they are burned up long before they reach the ground.

### News of Interest To Oil Men

#### Eleven Wells Are Started in Field

There were eleven commencement this week, with five of them coming from Gray county. The A. T. Paxton No. 4 Chapman "B," located 330 feet from the south and east lines of the northwest quarter of section 49, block A-9, H&GN survey.

The Danciger Oil & Refg. Co. No. 38, Powell-Beck, located 330 west and 990 south of the southeast quarter of section 28, block E-2, H&GN survey. The Johnson Oil & Gas Co., No. 4, Lovett, located 990 feet north and 990 feet from the east lines of the northwest quarter of section 57, block B-2, H&GN survey.

The Phillips Pet. Co., No. 14, Annie, located 991 feet from the east and 1322 feet from the south lines of section 188 block B-2 H&GN survey. The Cities Service Gas Co. No. 1, Weinheimer, located 2490 feet from the south and west of section 190 block B-2, H&GN survey.

In Collingsworth county, the Smith Bros. Refg. Co., No. 1, H. E. Franks, located 330 feet from the north and west lines of the southeast quarter of section 19, block 23, H&GN survey.

The J. M. Huber Corp., No. 6, Lucas in Hutchinson county, is located 330 feet from the south and 2970 feet from the east lines of section 21, block A, D&S survey. In Pottawatomie county, the Canadian River Gas Co., No. 10, Masterson "B," is located 1321 feet from the north and 2480 feet from the west lines of section 96, block O-18, D&S survey.

In Texas county, Oklahoma, the Skelley Oil Co., No. 1, Roy G. Keller, located 100 feet from the north-west of the center of section 6, township 2 north, range 15 east. The Republic Natural Gas Co., No. 2, Cities Service, located 1505 feet from the center of section 3, township 4 north, range 13 east.

Also, in Texas county, the Republic Natural Gas Co., No. 1, Darrin, located 1505 feet from the north and 90 from the west of the center of section 17, township 6 north, and range 17 east.

**Transwestern-Sunray Oil Companies Merge**  
TULSA—(Special)—Merger of Transwestern and Sunray oil companies into one corporation became effective Friday following approval of stockholders of both companies on July 19 and completion of final arrangements this week.

A. A. Seigelson, president of Transwestern, and C. V. Urschel, a member of the Transwestern board, have been named to the board of directors of Sunray. Other adjustments of executive personnel will be announced later, according to C. H. Wright, Sunray president.

As a result of the merger, Sunray's daily oil production of about 22,000 barrels will be increased to about 35,000 barrels, and the company's crude oil reserves will be more than doubled.

Transwestern's production, having a daily net allowable of about 12,000 barrels, is obtained from 299 wells in Texas, 245 in Kansas, 98 in Oklahoma, and one in Illinois. Non-producing leases aggregating approximately 316,000 acres are located as follows: Alabama, 12,050; Florida, 20,870; Illinois, 1,850; Kansas, 108,400; Louisiana, 1,750; Mississippi, 59,850; Nebraska, 1,100; Oklahoma, 2,625; and Texas, 107,300.

Most of the records and some of the personnel in Transwestern's main offices in San Antonio, will be transferred to Sunray headquarters in Tulsa. There will be a combination of some of the field offices and adjustments of personnel in a few areas where both companies have operations and such instances employees to be effected have already been notified.

The number of hairs on an adult's head usually ranges from 129,000 to 150,000.

**AMARILLO MINISTER Urges Man to Give Up**  
AMARILLO—(AP)—An Amarillo minister Friday night persuaded Frank W. James, 22, wanted in Fort Worth on charges of armed robbery, to surrender to the Potter county sheriff.

Last Sunday James disarmed two Fort Worth officers transporting him to Fort Worth and escaped in a commandeered car. He took with him the officers' two pistols and a sub-machine gun.

Thursday the Rev. E. F. Cook, pastor of the Glenwood Baptist church here, heard a rumor as to the whereabouts of James. He drove more than 100 miles to the hiding place about 12 miles from Childress, Texas.

After 25 minutes of pleading to "give yourself up before someone gets hurt," James agreed to return to Amarillo with the Rev. Cook and surrender.

The minister and James made the agreement that the Potter county sheriff would personally deliver James to the Tarrant county sheriff.

**Proper Highway Connection Planned**  
AUSTIN—(AP)—The state highway commission has announced a plan for the city of San Antonio looking forward to proper connections to the urban expressways now being developed in the city for the routing of the interstate highway leading into San Antonio from Austin.

The project calls for improvement as follows: Construction of an interstate highway beginning on the present U. S. highway 81 at the Guadalupe-Bexar county line and extending along the present route to one-half mile north of the Southern Pacific railroad thence along the old Seguin road to a junction with the route designated as the urban expressway route near New Braunfels avenue. Improvement of the present route of U. S. 81 from Fratt to Alamo Heights. Construction of Loop 13 from Fratt westerly 3 miles to a junction with the military road.

**Former Detective Is Santone's New Chief**  
SAN ANTONIO—(AP)—Bruce Weatherly, former deputy chief of detectives in San Antonio's new police chief. His appointment came suddenly after Fire and Police Commissioner P. L. Anderson asked for and received the resignation of Chief Aubrey Hopkins Thursday.

Hopkins had no comment to make. Weatherly joined the police force in 1941. He is a graduate of the National Police academy operated by the FBI.

The South American "automobile bug" carries a white light in front and a red one behind.

### Gray County Well Tests 16,000 MCF

The office of the Texas Railroad commission tested seven wells during the past week, four of them oil wells. They also reclassified one gas well to sweet and seven gas wells to sour.

**Hutchinson County**  
The Continental Oil Co., J. A. Whittenburg No. 7, produced 45 barrels of oil in a test.

Gulf Oil Corp. had two tests run, the Dial No. 127, produced 34 barrels in the test by the railroad commission, and the Whittenburg B, No. 1, tested 18 barrels in a re-test.

Also in Hutchinson county, the Texas company, No. 428, R. L. Pond, tested 45 barrels.

**Gas Wells Tested**  
**Pottawatomie County**  
The Canadian river, No. A-31, Bivins tested 6,400 MCF of gas in a new test.

**Gray County**  
The Kewanee Oil Co., No. 5, McCornell, was the highest producer with 16,000 MCF of gas in a new test.

The Phillips Petroleum Co. in Moore county, No. 1 James tested 2,500 MCF of gas, when it was reclassified to sweet.

The seven wells reclassified to sour were all from Hutchinson county.

The T. M. Deal Oil Co. No. 1 Sanford tested 41,000 MCF of gas. The Grenwald Co., No. 2 Johnson-Sanford was tested at 30,000 MCF of gas.

The J. M. Huber, No. A-2 Penny, tested 16,000 MCF of gas, and the J. M. Huber, No. B-1, Sanford, tested 10,200 MCF of gas.

The Phillips Pet. Co., No. 1, Rudy tested the largest amount for the week, with 132,000 MCF of gas, while the Phillips, No. B-1-C, Sanford, tested only 6,000 MCF of gas.

**Scouts Report on Progress of Wells**  
In Gray county, the Wilcox Oil and Gas Co. No. 54, Combs-Worley, is drilling below 2960 feet. They had a show of oil at 2892 feet, and had 150 feet of oil in the hole at 2921.

In Carson county, the Cities Service Gas Co., No. 2, Deahl, located in section 18, block 5, H&GN survey, set 7 inch casing at 2915 feet with 1,000 sacks of cement. The first show of gas was at 2922 with increases at 2940-2955, and from 2960 to 2975. They are now drilling below 2993 feet.

In Hutchinson county, the Tex-well Oil Co., No. 1 Logan, located in section 6, block 24, TC RR survey, set 10 3/4 inch casing at 592 feet, with 250 sacks of cement, and are now drilling below 2745 feet.

The Smith Bros. Refg. Co., No. 3, Brule, located in section 38, block 24, H&GN survey in Wheeler county cemented 5 1/2 inch casing at 2101 feet, and are waiting for cement to set at 2401.

In Texas county, Okla., the Phillips Pet. Co. No. 1, Hogle, located in section 29, township 1 north, range 15 east, was drilled to a total depth of 2886 feet, plugged back to 2869 feet. They perforated the casing at 2802-2867 feet and re-perforated the casing at 2724-2764 feet. The well was treated with 23,000 gallons of acid at five stages, and produced 3 MCF of gas.

**War Crimes Trial May End by Aug. 15**  
NUERNBERG, Germany—(AP)—A member of the Allied prosecution staff said Friday the war crimes trials against 22 ranking Germans might end by Aug. 15 and that a verdict was possible on Sept. 2.

The case against the individuals, including Hermann Goering, Joachim von Ribbentrop, Rudolf Hess and Field Marshal Wilhelm Keitel, had been completed. The international military tribunal now is hearing prosecution summaries against seven Nazi organizations.

The prosecutor said the cases against the organizations should be finished Aug. 14. Each defendant will be allowed a short final statement. He estimated that, after Aug. 15, the eight judges of four nations would retire for two weeks to write their verdict.

The moon's diameter is 2,160 miles.

### Don't Mind Charge, 'Get My Name Right'

NEW YORK—(AP)—A 29-year-old Dallas Negro, who faces a grand larceny charge in connection with theft of an automobile, Friday seemed more worried about his name than a possible life sentence as a fourth offender.

He addressed the magistrate's court: "I see by the court papers they call me Robert Williams. That isn't my name. It's R. period B. period Williams."

"Well," said Magistrate Joseph B. Glebocki, "the R must stand for something. It doesn't stand for anything."

### That's all there is. I want it R. period B. period on the records.

Assistant District Attorney Arnold Bauman finally gave in—but insisted the point was academic. Williams has admitted three previous felony convictions.

**UP IN THE AIR**  
CHICAGO—(AP)—An aerial photographer planned to fly over Zoetro nature park in Roseland, Ind., today to take pictures of the members of the American Sunbathing association.

Alois S. Knapp, president of the association, said that so many planes have been flying at low altitudes over the camp that "We'd like to know how we look from the air." The association, which Knapp said has 5,000 members, opened a three-day convention today.

**That Aging Look of Dry Skin Needs**  
  
**Gourielli ACTIVE OZONE CREAM**  
Neglect a dry skin, and you invite that "years older" look. You tempt lines, and later wrinkles, and you encourage a noticeable scuffing of cuticle that simply won't take a smooth make-up. This dryness needs Active Ozone Cream, with its balance of moisture, oil and nascent oxygen, because this skin type, so fine and fragile, with proper care can be so beautiful.  
Notice the exhilarating tingling as this cream starts to lubricate and soften that dry surface...to relieve that tense pull of dry skin...to awaken a flower dewiness to make others say, "How well you look!"  
ACTIVE OZONE CREAM, 2.00 and 1.25

**THE CATHARTIC HABIT**

★ Too many people are influenced by stories concerning "intestinal cleanliness" or "stimulating the flow of bile." Many cases of simple constipation do not require a laxative at all, but only a minor change in diet and habit. The habitual use of cathartics is dangerous. Such misuse is often followed by chronic ill health. Strong laxatives are particularly dangerous when taken to relieve abdominal distress. The source of the pain should always be accurately determined by your physician. The safe procedure is to consult him. If a laxative is needed, he will prescribe a safe preparation with proper instructions for dosage. Then bring your prescription to us for expert compounding.
