Barkley Hopeful of Better OPA Bill

3 Amendments Remove Items From Measure

WASHINGTON—(AP)—Undaunted by open talk of another veto, Democratic leader Barkley pressed the senate today for final action on a new OPA bill even if it means working into the night again.

Cheerful despite rapid setbacks in the form of hands-off amendments, covering meats, milk, butter, salad oils and gasoline, the Kentuckian told reporters he still is hopeful of getting a price control revival measure that the President could sign.

"We got a better bill than either the senate or house passed last time from a conference," Barkley said. "Maybe we can still improve on that this time."

But another administration lieutenant who may not be identified by name told reporters "it appears that only rent control will remain" when congress and the president finish their battle over OPA.

He said a motion in the house to concur in all senate actions might prevail.

Major tests facing the senate today include an attempt by Senator Taft (R-Ohio) to reinsert his price-boosting profit provision which drew chief White House fire in the veto message and several proposals dealing with rent controls that expired along with OPA.

Barkley apparently unworried by the threats of Senator O'Daniel (D-Texas) to try to talk the bill to death or to call up an extraneous amendment to create a permanent fair employment practice commission.

Following up its 49 to 26 vote Tuesday to keep meat free of OPA ceilings under any revival, the chamber voted these additional touch-n-provisions yesterday and last night.

1. Milk and all other dairy products, an amendment sponsored by Senator Wherry (R-Nebr) and approved 51 to 27.

2. Cottonseed, soy beans and their products, by Senator Eastland (D-Miss), 42 to 34.

3. Petroleum and its products as least as supply exceeds domestic demand, by Senator Moore (R-Okla), 40 to 39.

The only administration victory during the two days of OPA mauling came when the chamber rejected an amendment offered by Senator Reed (R-Kan) to exempt grains and their byproducts.

Votes Tabulated With Guards Near

MEXICO CITY—(AP)—Federal troops stood guard today as counting juntas in each of Mexico's 148 congressional districts began the official tabulation of votes cast in last Sunday's presidential election.

Streets leading to each counting place were roped off and the only persons permitted to enter were election officials, a representative of each candidate, newsmen and photographers. After the votes are tabulated the boxes will be sealed and handed over to the army for delivery in September to congress, which will declare the winner.

Unofficial returns compiled by the government party (PRA) indicated a sweeping victory for its candidate, Miguel Aleman, former Foreign Minister Manuel Padilla, candidate of the Mexican democratic party, continued, however, to predict that the final count would show him in the lead.

Also at stake in the election was the composition of both houses of congress, in which the PRA now has heavy majorities. The new president will take office at the end of the year.

'Finders, Keepers' Proves False in Case of Lost \$50

Finders keepers, losers weepers is not always the case. Not where J. L. Cox, 1908 Alcock is concerned at least. Over one week ago he found a pink silk coin purse containing \$50 in front of Woodworth Co. There was no identification in it.

Cox waited for an advertisement to appear in The Pampa News and when none appeared he decided to find the owner himself. Monday he placed an advertisement in The News classified page. The ad read: FOUND: Sum of money. Owner may have by identifying and paying for ad. J. L. Cox, 1908 Alcock.

Mrs. Gene Tucker, 895 S. Barnes, saw the ad Tuesday and called at the Cox residence, where she gave information concerning the coin purse and paid for the ad. The coin container had slipped from her black corset bag as she left the J and 100 store, where she had stopped to have a drink at the soda fountain. She didn't notice that the money had disappeared until she had finished her shopping and returned home.

Reward for the return of the money was the \$10 bill which was in the coin purse with two \$20 bills.

Bumper Grain Harvest Seen For Country

URGE OPA RENEWAL—The "big four" administration leaders in congress are pictured above as they leave the White House after a call on President Truman. They are, left to right, House Democratic Leader John W. McCormack, Mass., Speaker of the House, House Minority Leader Alben Barkley, Ky.; Senate President Kenneth McKellar, Tenn.

WASHINGTON—(AP)—This country is well on the way today toward its sixth consecutive bumper harvest.

In fact, the agriculture department in its latest monthly crop report said the current outlook for total farm production has seldom been surpassed. (See detailed report page 5.)

The report issued yesterday said conditions prevailing July 1 indicated a record corn crop, near-record crops of wheat, oats, potatoes and rice, and large crops of vegetables and most fruits.

The outlook on grains was particularly gratifying to food officials, because supplies have been largely depleted in meeting foreign relief demands and in feeding a near-record livestock population.

If the grain crops turn out as now indicated, the nation will be in a position to carry out its commitment to send 250,000,000 bushels of wheat to shortage areas during the next 12 months and still maintain production of livestock products—meats, milk, eggs and poultry—at levels near those of the past year.

NEED MAXIMUM PRODUCTIVITY—The fact that there will be need for all that can be produced was emphasized anew by Chairman, Chester C. Davis of President Truman's famine emergency committee.

In a statement issued today, Davis said the United States will meet its goal for cereal exports from the 1945 crop. But he emphasized that there should be no slack in the world.

DAUCHAU, Germany—(AP)—Seventy-three Waffen SS veterans, including three generals, were found guilty by an American military court today of the slaughter of 900 American war prisoners and Belgian civilians in the battle of the Bulge.

The president of the court, speaking after an hour's deliberation, announced all 73 defendants were "found guilty of the particulars and charges."

The defendants included Gen. Josef (Sepp) Dietrich, commander of the Sixth Panzer army and survivor of Hitler's original beer hall putsch in nearby Munich; Lt. Gen. Herman Priess, commander of the First SS Panzer Corps; Brig. Gen. Fritz Kraemer, chief of staff of the Sixth Panzer army.

The burden of prosecution evidence was directed against Col. Joachim Peiper, daredevil commander of "Task Force Peiper" whose men participated in the massacre of unarmed American prisoners at Malmeldy.

After a verdict of the stern-faced American officers serving as judges was made known, defense counsel began presenting evidence that might be considered as extenuating when sentence is passed, possibly early next week.

Spectators were generally surprised that all 73 defendants had been convicted as a unit. It was the largest mass conviction handed down since the war.

Work was begun Tuesday on the project, which will require the laying of 16,000 square yards of asphalt. The black-topping project has been let by Hughes-Pitts to J. L. "Ray" Gobler, Amargosa maintenance and repair contractor.

The test is invaluable, both to the city and to the construction company, in that it would reduce the cost of street-surfacing by 75 per cent over the practice of using concrete. Dick Hughes, of the concern, told The News.

The saving in part would be accounted for, due to the fact that in the past it has been the practice to excavate the area to be surfaced and to bring in caliche, which is a good base for surfacing. Caliche in this area will not expand when it gets wet or frozen. The Hughes-Pitts process calls for the mixture of pulverized soil for the kind found in the Carr-Terrace addition—with oil. It is then compacted into place, forming the base, with no capillary action.

Hughes pointed out that the process is adaptable only to the soil found on the streets in the Carr-Terrace addition. That area has been graded down as much as five feet. The process would not work, he

Russia Champions Reunified Germany

PARIS—(AP)—Russia emerged today as the champion of a reunified Germany on the basis of a policy-charting speech yesterday by Soviet Foreign Minister V. M. Molotov.

Addressing his colleagues on the foreign ministers council, Molotov flatly opposed the dismemberment or federalization of Germany or reduction of the reich to an agricultural state.

The speech was the first clear expression of the Kremlin's attitude toward Germany since the end of the war.

Some quarters here were inclined to write off the address as a Russian bid for popularity within the reich, and as a move to strengthen the forces of German communists.

It was generally conceded that Molotov, in the eyes of the average German, now stood for a Germany governed by Germans, and for the return of a decent standard of living.

French official quarters expressed dismay that the Russian policy of unification was in direct conflict with the French proposal to separate the Ruhr, the Saar and the Rhineland from the remainder of the Reich.

But France's foreign minister and president, Georges Bidault, won a counter-victory at home in the conference backyard.

The French cabinet unanimously voted today to uphold his stand on Germany to date, which included a demand for internationalizing the Ruhr and contributed to holding up a unified four-power German policy.

The information ministry said communist ministers voted for the Bidault motion.

It was not immediately clear whether the Russian statement of policy would delay the adjournment.

See MOLOTOV, Page 4

Job Openings in Pampa Are Listed

Following an announcement made yesterday of the new regional clearance program of the United States Employment Service offices, L. P. Fort, local manager of the USES, today made known the job openings in this locality.

Fort said the following jobs are available in this region, pharmacists, mintype operators, the setters, sheet metal workers, draftsmen, civil engineers, and stenographers.

Local jobs which need outside help, according to the local employment office, are general machine job mechanics, automobile mechanics, furniture repairmen and upholsterers.

In Dallas, John Lee Smith warned See STAAR POLITICS, Page 4

Positions Known To Be Open Here Under Veterans' Training Program

The veterans' training program which was set up several months ago in order to help people who went away to serve in the armed forces, to rehabilitate themselves in peacetime pursuits has been in operation in Pampa for several months.

In some cases it has worked, and in some it has not, according to reports gathered anonymously and through the employment services.

However, there are still a number of service men and women seeking this on-the-job training.

According to a recent survey, two out of every five returned veterans in Texas are now receiving unemployment compensation or have filed a claim at some time for compensation.

Veterans Administration records show a potential 632,109 returned veterans in Texas as of June, 1946.

The Pampa Daily News is one of the concerns in this area to have been authorized to train people under this program. At this time there are about seven positions at the area which can be filled by people.

O'CONNELL TELLS OF BRIBE—Thomas O'Connell, the Senate War Profits Investigating committee's chief investigator in the "paper empire" case, tells the committee that he was offered a \$10,000 job by persons who wanted the senate inquiry stopped. He said the attempt to get him off the case was made on Dec. 5, 1945, in Chicago.

Derby Races Slated For July 21, 3 P. M.

The Pampa Soap Box Derby races will be run on the Old Miami highway on Sunday, July 21, at 3 p. m. It was decided at a general committee meeting last night. The races, sponsored by Chevrolet, The Pampa Daily News, and the Pampa Lions club, will be free to the public.

The boys' racers, most of which are beginning to take final form, will be inspected for the first time on Thursday afternoon at 2 a. m. week from today at the Junior high school gymnasium by the inspection committee.

If any of the racers are found not to comply with the regulations, there will be sufficient time to make changes before the final inspection Thursday, 9:30 a. m. at the same place.

George Kilpatrick, son of E. C. Kilpatrick, 1005 East Fisher St., is reported to have finished his racer completely. It is ready to be inspected, according to reports received yesterday.

Many of the boys were contacted yesterday afternoon by two of the committee members. Some of the boys lack a good deal of work yet, but it was emphasized by General Chairman Bob Grammer that they still have time to complete them if a handout here following the races.

Some boys had been delayed by failure to find steering cable. The Rock Glycerin company has donated cable for the use of the boys. It is available at the Pampa Daily News office.

A complete list of the boys who qualify for the race and the names of their sponsors will be published within a few days. Some of the boys' parents have not signed the entry blanks. This will be necessary before the boys will be qualified to run in the races.

All racers will be transported to the race track by trucks, to be furnished by Frank Culbertson of the Culbertson Chevrolet company here. The local Chevrolet dealer is co-sponsor with the Chevrolet division of General Motors, Detroit.

The winner of the local race will be taken to Akron in August by the Pampa Daily News, where he will enter in the national races. He will compete with boys from 110 other U. S. cities, for such honors as a four-year college education, and a new Stylenaster automobile. There will be many other honors attached to this contest, such as the varied local prizes to be awarded at a banquet here following the races. The time and place of the banquet have not been established.

Only two other Texas cities have the Derby races this year—Amarillo and Fort Worth. Amarillo race will be run on Sunday, July 28-30.

Crawford Atkinson, chairman of the local highway committee, said this morning that the group will leave from the chamber of commerce office tomorrow afternoon at 3:30.

Atkinson pointed out that the group will join representatives from Texas and Oklahoma towns tomorrow evening for a banquet which will precede the business meeting.

Pampans To Attend Highway 60 Meeting

About three cars of Pampans are expected to attend the sectional meeting of the US highway 60 association set for tomorrow night at Vici, Oklahoma.

Crawford Atkinson, chairman of the local highway committee, said this morning that the group will leave from the chamber of commerce office tomorrow afternoon at 3:30.

Atkinson pointed out that the group will join representatives from Texas and Oklahoma towns tomorrow evening for a banquet which will precede the business meeting.

Bilbo Would Repeal Primary Election Laws

JACKSON, Miss.—(AP)—As a step to prohibit Negroes from voting in the 1947 gubernatorial primary, Sen. Theo G. Bilbo has announced he will go all out in advocating an extraordinary session of the Mississippi legislature x x x.

Bilbo has announced that the reason for the session will be to "repeal all democratic primary election laws x x x."

The senator's headquarters has said that delegations of Bilbo supporters from every county in the state are expected to be on hand for a gigantic "celebration" of his nomination to a third term.

May Inquires for 'A Friend of Mine'

WASHINGTON—(AP)—A new telephone transcription was released at the senate munitions investigation today to have rejected Australia's suggestion depicting Rep. May (D-Ky) as protesting a production cut-back ordered for "a friend of mine."

The transcript was placed before the senate war investigation committee as it sought details from Brig. Gen. Roswell Hardy, wartime chief of the ordnance ammunition division, on the extent of May's activities in behalf of certain munitions makers.

Offered as evidence by Committee Counsel George Meader, it covered a telephone conversation between May and Hardy on May 7, 1945, on a "cutback" in an eight-inch shell contract.

In it, May, chairman of the house military committee, was quoted as saying at the outset that he had just seen "a friend of mine," Henry Garsson, one of the promoters of 19 closely-linked corporations now under investigation.

CHARGES ARE DENIED—He told Hardy that Garsson had informed him of the cutback for the Batavia Metal Products company's order for shell production and said "I am not interested in the company, he is a friend of mine."

The Kentucky congressman, who has denied that he profited in any way from his activities on behalf of Garsson, then was recorded as having told Hardy: "NOT COMPLAINING."

"Let me assure you of one thing Mr. Garsson wasn't complaining, x x x He is mighty appreciative of what your branch has done for him."

Hardy, still in uniform, insisted that army ordnance gave the Garsson interests no better treatment than that accorded others.

He denied, in reply to questions by Meader, that the Batavia Metal Products company had been given preferential treatment.

See WAR PROFITS, Page 4

Desperate Break For Freedom by Convicts Futile

HOUSTON—(AP)—Twenty-four of the 25 convicts who made a desperate break for freedom yesterday at Harlingen, Texas, were back in confinement today. The 25th convict was dead.

Walter Elliott, 24, serving a nine-year term from Cherokee county for robbery by assault, was killed by a single shot from a guard's rifle as he fled in a stolen car.

The car, occupied by four other fugitives, went out of control and the others were captured.

A few minutes before, the fugitives' car crashed through a group of highway laborers, injuring one.

In the convict car, besides Elliott, were Ralph Anglin, serving five years for robbery from Dallas county; Ralph Field, five years for theft from Harris county; Charles Felner, two years for theft from El Paso; and Harry L. Machies, two years from El Paso for burglary.

Capt. W. H. Thomas, the farm's assistant manager, said the break began when 25 convicts in one cell block sawed out bars and opened the front door before being seen.

The fleeing convicts were sighted by J. A. Morgan, farm prison guard, sent a burst of gunfire at the door and drove the rest of the felons back.

Two of the eight who slipped through the door were recaptured under some blankets being aired outside the prison building. They were Kenneth Aughton, 20, serving two years for burglary from Tarrant and Wichita counties, and Joe Atkins, six years for burglary from Harris county.

Allen P. Forbes, serving five years for theft from Dallas and Kaufman counties, was apprehended in the yard.

Meanwhile, the remaining five convicts jumped into a prison guard's car and raced toward Richmond. Close behind them were two guards, one of them Steward Radner.

It was the single shot from Radner's rifle which ended the chase near Richmond.

After the last of the felons was rounded up, Capt. Thomas immediately instituted a probe.

Price of Newsprint Jumped Today With 20 Percent Increase Expected

MONTREAL—(AP)—The price of newsprint began to jump today and may reach a point 20 percent higher than yesterday's rate within the near future.

The Abitibi Power and Paper company, one of Canada's three largest producers, announced that the price of the session will be to "repeal all democratic primary election laws x x x."

Another increase of about 10 percent will bring the price to around \$80 is looked for in the near future to cover increased labor costs. The \$6.80 increase announced by the Abitibi was said to cover only the company's loss on the change in the value of the Canadian dollar, effected last Friday.

The newsprint industry, for which Montreal is the capital, says it is determined to avoid such a price sky-rocketing as occurred in the early 1920's when a peak of \$120 was reached in the spot market. However, it feels it can no longer delay a substantial increase over the regulated ceilings in effect during the OPA and the end of the 87 cent ceiling which American consumers were permitted to pay. About 77 percent of Canadian production goes to the United States, and the New York price thus becomes in effect the world price. Canadian newsprint, in turn, represents 77 percent of the American supply.

The OPA ceiling dated at a time when the newsprint producers were trying to have the ceiling raised. While they were preparing to raise the price following the end of OPA the Canadian government set the value of the Canadian dollar at par with the American.

The old price of \$67 in New York meant ten percent more in Canadian currency to the producers, or \$73.70. Thus the producers would have had to increase the New York price to this figure just to offset the change in exchange.

The price of Canadian and British newsprint is \$4. (Adv.)

Huge Column of Water Predicted At A-Bomb Blast

ABOARD USS MCKINLEY—(P)—One million tons of water—a column nearly a half mile in diameter and 8,000 to 10,000 feet high—will be blown into the air by the underwater atomic bomb, Vice Adm. W. H. P. Blandy has estimated.

The task force commander said ships within the column area "will get an awful working over" and those near the center are likely to be tossed into the air "in pieces if not together."

Blandy also made these points at a press conference:

There will be high waves, as much as 100 feet, flung out from the column but their height will fall off rapidly and probably will not exceed 10 feet by the time they hit the shore of Bikini island.

Some ships may be captured by the wave. "I think there will be considerable damage from the wave action as well as the shock of the bomb."

Scientists estimated the diameter of the water column from 2,000 to 2,500 feet and figure it will rise in solid form from 3,000 to 10,000 feet; a geyser-like spray may reach 20,000 feet.

Radioactive spray may become part of natural clouds, and contamination may be dropped later in the form of rainfall. For this reason, Eniwetok island, west of Bikini, is to be evacuated.

Radioactive Contamination of the Water Ships Will be Hundreds of Times Greater than in the Previous Blast, Scientists Estimate

Most of the water in the column and spray will fall back into the lagoon, thus further contaminating the target ships.

It is now planned to explode the bomb about 3:30 a. m. Bikini time July 23 (3:30 p. m. CST, July 24).

425 Homes Are Set For Dallas Suburb

DALLAS—(P)—Construction contract for a second group of 425 homes in the \$25,000,000 Wynnewood project, termed the nation's largest integrated home development, has been let to the A. Farnell Blair company of Dallas, Angus G. Wynne, Jr., president of the American Home Realty company, owners and developers of Wynnewood, has announced.

The contract involves approximately \$2,500,000 and will embrace 425 residences in the \$6,500 to \$8,500 price range.

Work will begin immediately and equipment already is being moved to the site, according to David Asch, vice president and manager of the A. Farnell Blair company, who executed the contract with Wynne.

Move To Obtain Charter Blocked

AUSTIN—(P)—An effort by a group of Hidalgo county citrus and vegetable growers and processors to obtain a state charter as a non-profit co-operative marketing association met a new obstacle here yesterday.

The supreme court refused to accept the filing of a mandamus suit to force secretary of state Claude Isbell to grant a charter. A motion for leave to file the mandamus petition was filed in behalf of Olin Akin and others of Hidalgo county.

The motion set forth that Akin and other petitioners are engaged in production of fruits and juices. They had sought to organize as a non-profit co-operative marketing association. Their application for a charter was refused by Isbell, the motion said, on grounds that the legislature did not intend in the co-operative marketing act "to authorize the incorporation of an association with the power either to market or own fruits and vegetables, owned by its members from products grown by them, and also bought by them."

The action of the supreme court in refusing to grant the motion had the effect of upholding the position of the secretary of state.

SOCIETY

Even a Trailer Can Be Made Into a Home

By RUTH MILLETT
NEA Staff Writer

It is hard to discourage youth and love and the need of a young family to be united under a roof of its own.

A few months ago, like so many other educational institutions, a lot of olive-drab trailers, set up on a muddy riverbank, and offered them as homes to veteran students with children. They were a dreary, depressing sight, jammed together to make a crowded little city of their own.

Older folks wondered how a couple with a baby or two could possibly live under such conditions.

"Imagine a wife's being cooped up all day with a small child in one of those ugly things, trying to cook and wash," these elder on-lookers said. "And imagine a man's trying to study at night in a crowded trailer shared with a wife and a couple of kids."

It was several months ago. The trailer town is filled with young couples and their kids now. And the once-deary little community is buzzing with gaiety and life.

The young wives have turned the trailers into homes. And their husbands have helped them, sitting up swings and sandboxes for the kids and fixing up the inside of the trailers to make them liveable. **THEY'RE HAPPY TOGETHER.**

The couples have fun together, and so do the kids. Instead of complaining, they say: "You'd be surprised how comfortable we are."

What the older folks who said, "Imagine having to live like that," forgot is that a young family doesn't need a lot to be happy.

These "youngsters," and their youngsters, need only to be together in a place of their own, with a chance to work toward the time when they can have the kind of home they want.

Letters Marked PERSONAL

To A New Friend:
I had hoped very much that we would be friends, but I was beginning to doubt if we would. Sitting there in your pretty parlor, neither of us could think of much to say and it seemed as if we'd always be strangers.

And then we went out into your kitchen together and you demonstrated your recipe for French fried potatoes, a recipe which called for only one tablespoon of shortening! "Just peel, cut into generous wedges, put in skillet to coat with fat, then pop into oven and bake till a crisp golden brown outside, flaky white inside." When we'd finished following your directions on the potatoes, both time and our tongues were flying.

Maybe the way to a man's heart is through his stomach. I'm certain now the way to friendship between women is routed through the kitchen, trading recipes.

An average of 41 tons of steel is used in the construction of one mile of standard two-lane concrete highway.

Organization of Sorority Planned

At a meeting held in the Pampa Chamber of Commerce office Tuesday evening, Mrs. Maye Halbert of Oklahoma City, Okla., national field secretary for the Epsilon Sigma Alpha Sorority, explained the history, program and purpose of the organization to a group of Pampa women in hope that a chapter might be established in Pampa.

Mrs. Halbert explained that the sorority is an endowed institution with chapters throughout the United States in the District of Columbia, Hawaii and South America. Epsilon Sigma Alpha is the oldest non-academic sorority in existence.

Its founders pioneered the field and incorporated the organization under the laws of the state of Missouri and the federal corporation laws as a non-profit, non-commercial welfare and service corporation to bring to girls and women all over the world the benefits of a program providing many advantages.

Since Epsilon Sigma Alpha may become members by invitation and recommendation only, the member has the opportunity of transferring to any existing chapter.

National headquarters of the sorority are located at Loveland, Colo. There the sorority maintains a large guest ranch in Estes Park at Big Thompson Canyon as an additional service to members and their families. This ranch is called "Round Up Lodge," and there members may vacation in the Colorado Rockies and indulge in many winter and summer sports.

Those who attended the meeting were Mrs. Margaret Peterson, Lucille Foster, Miss Margaret Dial, Mrs. Iris Ragsdale, Miss Beverly Candler, and Mrs. Dorothy Nelson.

Winsome Class Is Feted at Breakfast

LEFORS—(Special)—The Winsome class of the Baptist church was entertained at a breakfast Tuesday morning of this week by Mrs. Max Brown.

The following officers were elected for the coming six months: President, Mrs. Max Brown; vice president, Mrs. O. B. Fanning; secretary, Mrs. V. W. Cochran; Business Readers leader, Mrs. Thavis Williams and social chairman, Mrs. Bob Brown.

Members present for the occasion were: Mrs. O. B. Fanning, Mrs. Dan Green, Jr., Mrs. Bob Brown, Mrs. V. W. Cochran, Mrs. Thavis Williams, Mrs. A. E. Pennington, Mrs. Dan Beltz and the hostess.

Shower Is Given in Wylie Home Recently

Mrs. O. E. Wylie and Mrs. F. H. Daniels entertained a group in the Wylie home at 621 S. Barnes Tuesday evening honoring Mrs. T. J. Nash with a pink and blue shower.

After entertainment, refreshments were served to Mesdames T. G. Thompson, Johnny Moon, Roy Hallman, Robert Futrell, Georgia Barksdale, Jeff Dye, Geraldine Taylor.

Unable to attend but sending gifts were Mesdames F. L. Doggett, Hazel Maloney, C. C. Palmer, Margaret Hill, B. A. Derryberry, J. M. Brannon, Alene Pitchford, June Reed, J. W. Shelton, Wanda Brannon, A. M. Nash, and Nora and Beryl Nash.

Youth Gathering Is Planned by Church

On Friday at 8 p.m. there will be a city wide youth gathering held at the Salvation Army church, 613 East Albert street.

This youth gathering will be conducted by a group of consecrated young people known as youth crusaders. The campaign these young people are on will be purely an evangelistic campaign.

The public is invited to attend.

On Saturday at 8 p.m. and Sunday at 10 a.m., 11 a.m., 7 p.m. and 8 p.m., there will be special services at the Salvation Army conducted by the youth crusaders. There will be open-air services downtown and cottage prayer meetings.

Legal Publication

THE STATE OF TEXAS
To: J. L. Parks and the unknown heirs and legal representatives of J. L. Parks, deceased. Greeting:
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock a.m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 15th day of August, A. D. 1946, at or before 10 o'clock a.m. before the Honorable 31st District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 25th day of June, 1946.
The file number of said suit being No. 8323.

The names of the parties in said suit are: C. A. Hamrick as Plaintiff, and J. L. Parks and the unknown heirs and legal representatives of J. L. Parks, deceased, as Defendants.

The nature of said suit being substantially as follows, to-wit:
Plaintiff alleges that on or about the 1st day of January, 1946, he was lawfully seized and possessed of Lots Nos. 1 and 2, Block 8, of Keisters Addition to the City of Pampa, Gray County, Texas, and defendants unlawfully entered upon said premises, ejected plaintiff therefrom, and withholds such possession to his damage. Plaintiff pleads that Chester Moore and wife conveyed said property to defendant J. L. Parks on May 31, 1923, retaining a vendor's lien and superior legal title to secure the payment of one \$800.00 note; that defendant J. L. Parks abandoned said property, made default in payment of said note; that Chester Moore and wife elected to rescind and did rescind said sale, went into possession of said property and became the fee simple owners thereof. Plaintiff further pleads title under the ten year statute limitation and that he has succeeded to the title of Chester Moore and wife.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unexecuted. Issued this 25th day of June, A. D. 1946.

Given under my hand and seal of said Court, at office in Pampa, Texas, this 25th day of June A. D. 1946.
D.E. PATTERSON, Clerk
District Court Gray County, Texas.

USO Clubs Open to Teen-Age Sub-Debs

Bicycling is a popular feature of the new USO program for teenage inductees. Above, Miss Mary Milly, 17-year-old junior hostess of the Petersburg, Va., USO club, and Pvt. Kenneth Wilson, from nearby Camp Lee, prepare for a ride around the city.

By KAY SHERWOOD
NEA Staff Writer

NEW YORK—(NEA)—Scene of the first light skirmish engaged in by the new younger army and navy is the USO club where "too-old" hostesses who have reached the ripe old age of 20-plus have been called "Mom" and routed by GI juniors.

Supplanting these motherly girls of 20 are hep teen-age hostesses for whom the minimum age limit has been reduced to 16 by USO directive. To keep the military's vast number of new inductees, homesick for high school hangouts, happy, a training program for the younger junior hostess has been inaugurated.

Before she can cut a rug or down a double malted with young Joe, the bobbysoxer must not only tuck in her skirt and swap her dungarees for a skirt but she must attend rules-of-conduct class taught by senior hostesses. She must also have mom's and pop's consent and produce a couple of character references.

Rules of conduct simply repeat the good manners she learned at home. As a hostess, she must take an interest in all the GI guests and refrain from settling for a clubby twosome. She guides her charges to the snack bar refreshments—no liquor is served, but there are stacks of sandwiches and gallons of soda pop.

The senior mentors give her added ammunition with tips to help banish nervous shyness or smooth up personal appearance. By the time she emerges from her cocoon to test her social wings, the high school lassie is a better poised and better groomed young lady. Typical reaction of the junior hostesses is voiced by 16-year-old Edna Shusterman at the New York City USO club, "I

Pythian Sisters Meet in Regular Session

Pythian Sisters met in regular session Monday evening with Mrs. Lucile Weathered, most excellent chief, in charge.

An auditing committee composed of Mrs. Cora Lockhart, Mrs. Elizabeth Doggett and Mrs. Bertie Brown was appointed.

Mrs. Opal Downs was reported ill. After the business session, Mrs. Pearl Barnard was in charge and a patriotic program was rendered.

The organization surprised Mrs. Brown with a shower for her sister, Mrs. Murray Young of Cumby, whose home burned recently.

Attending were Mesdames Sibyl Dudley, Norne Johnson, Bernice Goodlett, Lorraine Payne, Juanita Tinsley, Lucile Wilson, Ina Spink, Brown, Bernard, Weathered, Lockhart, and Doggett.

Gold was discovered near Los Angeles in 1842 by a sheep herder who was trying to dig up a few wild onions for his lunch.

Employes To Choose Bargaining Agent

FORT WORTH—An election among employes of the Hughes Tool Company of Houston to choose a bargaining agent will be held within 30 days after July 9, the regional office of the national labor relations board here has announced.

Petition for the election was filed with the NLRB by the independent metal workers union locals 1 and 2.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Baracetate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day.

U. S. Agriculture Department Makes 1946 Grain Forecast

WASHINGTON—(AP)—The agriculture department has forecast this year's production of corn at a record 3,341,646,000 bushels and wheat at 1,080,992,000 bushels.

The corn estimate was the first for 1946. It compared with 3,018,410,000 harvested last year, and with 2,608,499,000 for the ten-year (1932-44) average. The previous record corn crop was 3,228,361,000 bushels in 1944.

The wheat forecast compared with 1,033,000,000 indicated June 14 a record of 1,123,143,000 last year and with a ten-year average of 843,692,000.

Winter wheat production was indicated at 877,183,000 bushels, compared with 809,067,000 on June 14, with 823,177,000 last year and 618,019,000 for the ten-year average.

Spring wheat production was indicated at 232,929,000 bushels, compared with 224,072,000 on June 14, with 269,866,000 last year and 225,000 for the ten-year average.

CHICKENS — TURKEYS STAY SULPHUROUS COMPOUND

Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory. CRETNEY'S.

forecast at 106,463,000 bushels, compared with 68,042,000 last year and 120,962,000 for the ten-year average.

Peach production was indicated at 62,838,000 bushels, compared with 81,075,000 forecast a month ago, 81,664,000 produced last year and 69,933,000 for the ten-year average.

Production of oranges and tangerines was reported at 105,300,000 boxes, compared with 113,210,000 last season and with 76,505,000 for the ten-year average.

Grapefruit production was reported at 63,300,000 boxes, compared with 52,160,000 in the previous season and with 37,009,000 for the ten-year average.

Lemon production was reported at 15,200,000 boxes compared with 12,550,000 in the previous season and 11,339,000 for the ten-year average.

Production of milk in June was reported at 12,696,000,000 pounds, compared with 12,301,000,000 in May, 12,989,000,000 in June last year and 11,666,000,000 for the ten-year June average.

Egg production in June was reported at 5,912,000,000 compared with 6,216,000,000 in May, 5,304,000,000 in June last year and with 4,246,000,000 for the ten-year June average.

Waco Seeks Air Service to East

WASHINGTON—(AP)—Establishment of direct air service between Waco, Texas, and the East will be brought before the civil aeronautics board, Rep. Poage (D-Texas) said.

Poage said the need for direct air service for Waco with the East was so great that he proposes a change in routes of trans-continental flights of American airlines and an extension of the Pennsylvania Central airlines westward to Waco.

The American airlines proposal would alter the flights which now go from Memphis, Tenn., via Little Rock, Ark., Fort Worth and Dallas, Big Spring and Midland and to go from Memphis to the West via Shreveport, La., Waco, and San Angelo.

Welfare Association Supports New Projects

AUSTIN—(AP)—Four projects which will receive full support of the Texas social welfare association have been announced by Herman Jones, the group's legislative committee chairman.

The projects, selected from resolutions submitted by association members, are:

1. Elimination of the \$25,000,000 ceiling on public assistance programs.
2. A separate appropriation for the administration of public welfare.
3. Establishment of an adequate prison system.
4. Establishment of a graduate school of social work in connection with the University of Texas.

Mr. and Mrs. Floyd Arthur and Bobbie and Johnny returned last week from a visit with relatives in Arkansas and Missouri. Visiting in the Arthur home this week were Mr. and Mrs. J. B. Scott of Santa Anna, Tex.

New USES System Proves Worthwhile

AUSTIN—(AP)—A new program of the United States employment service for channeling jobless skilled workers to localities needing their services has resulted in 303 placements during the past two weeks, USES Director C. E. Belk has announced.

Belk said the regional clearance plan has two purposes. To help employers find special types of workers not available at close range and to locate jobs or workers in line with their abilities.

Texas Group Favors Entrance of Jews

HOUSTON—(AP)—A public protest meeting sponsored by the American Palestine Christian conference, the American Jewish conference and the emergency Palestine council adopted a resolution here last night urging immediate entrance of 100,000 Jews into Palestine.

Copies of the resolution went to President Harry Truman, Texas senators and congressmen, the state department, the senate foreign affairs committee, and representatives of the British consulate and embassy.

Amber Isn't Out — Just Delayed

By BOB THOMAS

HOLLYWOOD—(AP)—Don't count Peggy Cummins out of "Forever Amber" yet.

The pixie-like little blonde starred in the bedroom drama until it was suspended. Defying superstition, she took the "F. A." script out of its folder and replaced it with "The Late George Apley." But the substitution is only temporary.

"The picture will be started again in September," she said, "and as far as I know, I am going to play Amber." This despite the fact that Gene Tierney, Vivien Leigh, Susan Hayward, Lana Turner and others have been rumored for the role.

The actress was far from shy or sad about the disrupted film. She was bubbling over with enthusiasm for her new role and described her difficulties with a Bavarian accent. It seems her English and Irish keep creeping in.

Peggy is certainly the popular favorite on her home lot. Although she has been there only a short while, she seemed to know every one from the company cops to top producers. As we crossed a studio street, George Jessel leaned out of a passing car and shouted "Hiya, Honey!"

Yes, Peggy's career is far from a standstill.

Association President WAXAHACHIE—(AP)—J. C. (Pat) Patterson of Waco was elected president of the Texas Pecan Growers association here yesterday. Brownwood was picked as the 1947 convention city.

Nijinsky made his first public appearance at the age of three, in a dance number his father had composed for him.

Largest Bomber Is Near Test Flight

WASHINGTON—(AP)—Final tests preliminary to actual flight have started on the world's largest land-based bomber, the XB-36, at the Fort Worth, Texas, plant of the Consolidated Vultee corporation.

The army air forces has announced that engine tests have been completed and taxiing tests have started. The six-engine experimental craft, expected to have a range of 10,000 miles, is due to make its maiden flight this summer.

A companion bomber, the XB-35 "Flying Wing," already has made test flights.

The che is a Chinese musical instrument with 25 strings.

U. S. Must Maintain Army of 800,000 Men for Next 20 Years—Eisenhower

WASHINGTON (AP)—Gen. Dwight D. Eisenhower believes the United States must maintain an army of approximately 800,000 men for the next 15 to 20 years, compared with 188,000 in 1939.

He expressed that belief to the House Military committee as he pleaded for prompt approval of legislation permitting a doubling of the officer personnel of the regular army—from 25,000 to 50,000. The committee approved the bill, already passed by the senate.

"I can see no possibility in the next 15 to 20 years" of the army's going below 800,000 men, the chief of staff told the committee.

That figure, he explained, would result from a gradual tapering off from the 1,070,000 officers and men expected to be in uniform on July 1, 1947.

Half of the 800,000, he estimated, would be in the air forces. To direct such an army, Eisenhower estimated, will require 80,000 officers, of whom 50,000 would be regular officers and the others temporary officers on active duty. Of the 50,000 regulars, 27,500 would be assigned to the air forces, 11,000 to ground forces and 11,500 to the service forces.

Many of the new officers, Eisenhower said, would be products of the ROTC and officer candidate schools. He asserted his belief that every opportunity should be given to men to rise from the ranks and become officers. Only in that way, he declared, can the army be truly democratic.

The general said he does not believe the West Point military Academy should be enlarged to provide

Leaves From a Correspondent's Life Notebook

(This is the last of six columns written for Hal Boyle by representative Germans. Today a former prisoner of war gives the outlook of Wehrmacht veterans returning from Allied prison camps.)

FRANKFURT, Germany—(AP)—I do not believe you can teach the German people democracy while they have empty stomachs, nor the "four freedoms" while they are not free.

I left Germany four years ago for Africa to serve as a frontline cameraman with Rommel as he pushed from Tobruk toward the Nile.

Two months ago I returned to my homeland from the P. W. camps of the United States. I was a graduate of a special course in democracy for selected prisoners. I was among the first to be released after three years behind barbed wire.

I am shocked and depressed at the sight of Germany. It is not so much the difference in the cities. They were alive in the summer of 1942. They are in ruins today.

It is the difference in the face of the Germans—all Germans, men, wives and children.

The younger generation mostly has been killed in action. The older

generation, after two lost wars, is too weak to rebuild. Crippled former soldiers are at every street corner, restaurant and railway station. Widows are numbered in the millions.

The people starve inside the new boundaries, workers have not the strength to work efficiently. Coal production declines, factory production declines, the living standard declines. The black market and inflation grow. It is a road to chaos.

There are four big political parties and some smaller ones in Germany now. At the last election June 30th in the American zone, German interest was less than before. That means—you hear it on every side—the people already have lost confidence in their new leaders.

You hear many say, "Hal that rascal was a minister for this or that in the years before 1933 and he was a complete failure. Now he is ruling again. I am not interested in supporting these political gangsters."

When I came back, I encountered the German bureaucrat. Whatever German government office I go to, must wait—and wait. The German personnel are unable to organize their work and perform it in the right manner.

It is typical that if I need something, for example a furnished room in the basement of a bombed-out house, I talk it over with an expert and not with an ignorant man.

Again and again I regard with admiration the U. S. military government here which since more than a year has been "trying to get the car out of the mud."

Yet I can not buy a hat because hats do not come from the factories in the Soviet zone. I can not buy a shirt because textiles do not come from the French zone.

Nobody knows how long Germany will be occupied. The Germans wait for any change, but they have not the energy to create a change.

If they hear of something they do not understand, they say, "Oh, that's propaganda. We have had enough of that in 13 years."

Texas Today

By JACK RUTLEDGE
Jackrabbits have jumped into the news recently. Several ill-advised persons in nearby states have rashly claimed their jackrabbits are larger than Texas jackrabbits.

Any red-blooded Texan would immediately deny such claims, whether there were facts to substantiate the denials or not. Fortunately, proof is available. (It says here)

Take, for example, Mrs. Otis Allen of El Paso. She says Texas jackrabbits are so large they are often mistaken for antelope and each year her grandfather kills two of them to feed 150 guests at an annual barbecue. The rabbits are killed with .30-30 rifles.

The hides are often used to cover canoes. One hide will cover a canoe capable of holding five persons.

Further, she says the reason there are so few trees in the Panhandle is because jackrabbits, who are vegetarians, eat them up.

Then there's the Sweetwater chamber of commerce. It proposes to solve the meat shortage by substituting jackrabbit meat for beef and pork.

L. A. Wilke, manager of the organization, says solemnly but with tongue in cheek that they plan to keep the city's three meat packing plants working full time on jackrabbits.

It will be a two-fold benefit, too, he said. Ranchmen have complained that the rabbits are chasing their stock. One man who had 30 Buffalo said jackrabbits chased the Buffalo 20 miles away from his ranch.

Even government trappers are peeved. Wilke says the jackrabbits have chased away all the wolves in the area and the trappers are out of jobs.

Wilke goes further. In fact, he goes almost too far. He says Sweetwater proposes a hot tamale factory, to augment the meat packing plants.

An original recipe worked out by Wilke calls for a 50-50 brand of tamale meat—one jackrabbit and one horse, mixed.

These stories probably won't end the Texas-Arizona, Wyoming jackrabbit controversy, but they'll at least provide Texans with a bit more arguing material.

Study of Japan's Constitution Set
TOKYO—(AP)—Point-by-point consideration of Japan's proposed new constitution will begin in the diet (parliament) tomorrow with some official misgivings over its anti-war clauses but full evidence it will be approved without substantial changes.

Greenville Scores Win Over Henderson

(By The Associated Press) Henderson and Greenville furnished the fireworks in the East Texas league last night with a 15-inning battle which ended with a 8-7 win for Greenville.

Greenville's pitcher Henderson 18-16 but chalked up four errors to Henderson's one in the process.

Second place Tyler took a 11-9 defeat at the hands of Sherman.

Paris, third ranking team, got trounced 11-7 by Lufkin, the cellar club.

O'Daniel Favored OPA Amendments

WASHINGTON—(AP)—Sen. W. Lee O'Daniel (D-Texas) voted in favor of all three amendments to the OPA extension bill acted on yesterday by the senate.

Sen. Tom Connally, who is in Paris, was listed as not voting on the rejected amendment which would have forbidden price ceilings on grain and the approved amendment exempting cottonseed, soybeans and their products from price control.

On the approved exemption of petroleum and its products from price control, a pair was announced with Connally for and McKellar against.

Cardinals To Open Famous Stretch Drive

(By The Associated Press) The St. Louis Cardinals, owners of more pennants and first club in the National league during the past 20 years, appear ready to start another of their famous stretch drives as the second half of the major league season begins today.

The par-husting Babe was the favorite from the start to win this 16th annual western classic but her initial victories went almost unnoticed as more colorful competitors like 12-year-old Marlene Bauer of Long Beach, Calif., caught the fans' fancy.

The Babe, with never a bad moment, advanced without fanfare to the quarterfinals yesterday by a smooth 7 and 5 conquest of Mrs. Sam O'Neal of Odessa, Texas.

On the other side of the Denver country club course, a horde of spectators were following Marlene, who had qualified with a fine 79 and then eliminated Mrs. E. N. Hyman of Denver, former Colorado women's champion, 2 and 1.

The pace finally got too hot, though, and the tournament baby took a sound spanking from a more seasoned campaigner, Kansas champion Marilyn Smith of Wichita, 5 and 4.

At the same time, another first round sensation, WAC Capt. Pat Grant of Cushing, Okla., who had set an official record of 32 for the course's first nine yesterday, was ousted by Betty Haemerle, sturdily-constructed St. Louis city girl.

Miss Haemerle drew a tough quarterfinal foe in Polly Riley of Port Worth, Texas. Miss Riley, who tied Miss Zaharias for medalist honors, advanced almost as easily as the babe by swamping Kay Pearson of Houston, Texas, 6 and 4.

The fourth quarterfinal match will pit Margaret Gauthier of Memphis against Dot Kieley of Los Angeles.

Gene Towry, Dallas, meets James Ryan, San Antonio. Joe Conrad, San Antonio, plays Palmer Lawrence, Arlington.

Yesterday Towry downed medalist Chester Hansen in six extra holes, then defeated Bobby Maxwell, Abilene, 7 and 6.

Ryan took Gurvis Miller, Beaumont, 2 and 1, and Carl Gustafson J. Austin, 3 and 2. Conrad defeated Gurvis McGraw, Abilene, one up in 19 holes and Buddy Weaver, Houston, 3 and 2. Lawrence, upset Jimmy Thomas, Dallas, 2 and 1, and Joe Cupit, Greggton, by the same score.

The championship flight will be played Friday, a 36-hole battle for the title undefended this year by Herbert Reid Jr., Lockhart.

Dukes Win From Oilers 3-1 To Get Clean Sweep of Series

Babe Zaharias Is Creeping up in Women's Tourney

(By BEN FUNK) DENVER—(AP)—Babe Didrikson Zaharias, ruler of the Rocky Mountain Women's links, moved consistently along today toward the finals of the women's Trans-Mississippi golf tournament while early round satellites fell swiftly aside.

The par-husting Babe was the favorite from the start to win this 16th annual western classic but her initial victories went almost unnoticed as more colorful competitors like 12-year-old Marlene Bauer of Long Beach, Calif., caught the fans' fancy.

The Babe, with never a bad moment, advanced without fanfare to the quarterfinals yesterday by a smooth 7 and 5 conquest of Mrs. Sam O'Neal of Odessa, Texas.

On the other side of the Denver country club course, a horde of spectators were following Marlene, who had qualified with a fine 79 and then eliminated Mrs. E. N. Hyman of Denver, former Colorado women's champion, 2 and 1.

The pace finally got too hot, though, and the tournament baby took a sound spanking from a more seasoned campaigner, Kansas champion Marilyn Smith of Wichita, 5 and 4.

At the same time, another first round sensation, WAC Capt. Pat Grant of Cushing, Okla., who had set an official record of 32 for the course's first nine yesterday, was ousted by Betty Haemerle, sturdily-constructed St. Louis city girl.

Miss Haemerle drew a tough quarterfinal foe in Polly Riley of Port Worth, Texas. Miss Riley, who tied Miss Zaharias for medalist honors, advanced almost as easily as the babe by swamping Kay Pearson of Houston, Texas, 6 and 4.

The fourth quarterfinal match will pit Margaret Gauthier of Memphis against Dot Kieley of Los Angeles.

Gene Towry, Dallas, meets James Ryan, San Antonio. Joe Conrad, San Antonio, plays Palmer Lawrence, Arlington.

Yesterday Towry downed medalist Chester Hansen in six extra holes, then defeated Bobby Maxwell, Abilene, 7 and 6.

Ryan took Gurvis Miller, Beaumont, 2 and 1, and Carl Gustafson J. Austin, 3 and 2. Conrad defeated Gurvis McGraw, Abilene, one up in 19 holes and Buddy Weaver, Houston, 3 and 2. Lawrence, upset Jimmy Thomas, Dallas, 2 and 1, and Joe Cupit, Greggton, by the same score.

The championship flight will be played Friday, a 36-hole battle for the title undefended this year by Herbert Reid Jr., Lockhart.

Cats Win Double Bill From Tulsa Oilers, 3-2, 2-0

(By The Associated Press) Top teams of the Texas league were back in winning strides last night.

The Fort Worth Cats, best in the circuit, stepped out to defeat the Tulsa Oilers in both games of a twilight doubleheader, 3-2 and 2-0.

The San Antonio Missions took a hard fought 11-inning battle from Houston, 2-1.

The Dallas Rebels took the Oklahoma City Indians, 8-4.

Beaumont beat the Shreveport Sports, 8-4.

Fort Worth won the first of the header with three unearned runs and three hits in the seventh and final inning. In the second game John Van Cuyk pitched his fifth shutout and 10th victory of the season. Tulsa's Felix Penso allowed only one earned run.

San Antonio's win was the seventh consecutive victory. Charles "Chili" Wagener of the Missions came in to finish after Sigmund Jakucki and Houston's Russ Beers battled on even terms for eight innings.

In the Dallas win a homer by Gene Markland in the third and Clint Conaser's 10th home run of the season in the seventh added much to the victory margin. After the third inning it was Dallas' game all the way.

The Beaumont Exporters won the opening game of a series last night much to the generosity of Shreveport's first three pitchers, William Reeder, Bill Jeffcoat and Earl Dot-hager, who were liberal with bases on balls.

Today's schedule: Oklahoma City at Fort Worth. Tulsa at Dallas. Houston at San Antonio. Beaumont at Shreveport. (All night games).

Wards Takes Over Industrial League Top Spot With Win

Montgomery Ward blasted Baash-Ross 21-7 in the only game played in the Industrial softball league last night. The game was played at the Phillips diamond, south of the city.

Gene Horton set the toolmakers down with eight hits while the Wards line was collecting 17 off Wards' track.

In tonight's games, McWilliams meets Alpac and Phillips battles Ekelly Schafer. The game between Leders and Skelly Kingsmill last night was rained out.

Standings: W L Pct. TEAM: Wards 2 0 1.000. Stanohnd 1 0 1.000. Heiskell 1 0 1.000. Baash-Ross 1 1 .500. McWilliams 0 1 .000. Alpac 0 1 .000. Schafer 0 1 .000. Phillips 0 1 .000. Kingsmill 0 0 .000. Leders 0 0 .000.

Burnett's Bowlers Leading Mixed League

The Burnett's Cabinet shop bowling team forged ahead in the mixed league Tuesday as they won three games, while the Heskey-Chambers group dropped three.

The K. C. Waffle House team also gained three places as they swept their three games. They are now in third place.

The Heskey team bowled high three games with 2375 with K. C. Waffle House close behind with 2320 and Rutherford's trailing with 2285.

The K. C. kegiers captured team high singles with 843 while Heskey had 833 and Rutherford's bowled 798.

Standings: W L Pct. Team: Burnett's 12 6. Heskey-Chambers 10 8. K. C. Waffle House 10 8. Rutherford's 9 9. Peg's Cab 8 10. City Drug 8 10. Bentley's 8 10. Leder's 7 10.

War is due to the over-congestion of the world population. To control over-population we must control natural increase by limiting birth-rate.

Dr. Djamil Pasha Tutnji, Trans-Jordan observer at International Health Conference.

Champions of Every Calibre Ready To Tee-off in Tourney

(By BEN FUNK) KANSAS CITY—(AP)—Champions of practically every major golf classic in the world were among the 165 players scheduled to tee-off in the four-day \$20,000 Kansas City Invitational tournament today.

The tournament, Kansas City's first major golf affair in eight years, was set for the 6,592-yard par-72 Hillcrest country club course.

Regarded as the men to beat for the \$2,500 jackpot were, as usual, shot master Byron Nelson, Toledo, Ohio, PGA champion, and the ban-tamweight ex-Dallas caddie, Ben Hogan, Hershey, Pa., champion money-maker of the year.

NEW YORK—(AP)—Carolyn A., two-year-old filly of Ben Whitaker, Garden, Texas, won the Demoiselle stakes yesterday at the Jamaica track, with Eddie Arcadio riding.

The race paid \$33,550 for the Texas horse and owner. The filly paid \$11.00, \$6.40, and \$5.10 at the board.

The peak wartime year for exports of iron and steel from the United States was 1945.

Sidney Hillman, Labor Leader

Someone quipped once that Sidney Hillman, who grew up in the garment industry and came to dominate its workers in labor union activities, knows how to cut a pattern. Someone said he knew the all-importance of having a pattern.

Hillman, it goes without emphasis, was one of the most controversial figures of our times. He was probably one of the most intellectual of all the labor leaders. He died yesterday at his New York home, heart failure victim.

President of the Amalgamated Clothing Workers of America, he is best known for his work with the CIO and its child, the Political Action Committee. The Clothing Workers was formed because its members had split with the A. F. of L. clothing organization when the latter professed the infiltration of communist elements.

Hillman, the man who has grown quite wealthy denouncing capitalism and management, was born in Lithuania, which has always been a satellite state of Russia. Although he was barred from Russia, he has followed the line of the communists. He has denied that, saying he is hated by and hates the communists. But the record casts a little more light on this controversy, affording the reader the opportunity to make up his own mind.

At the 1922 convention (in Chicago) of the Amalgamated Clothing Workers union, the delegates opened their session with singing of the communist "Internationale." After a few preliminaries, the official minutes show, Hillman made the address of welcome.

The same class theme sounded in his address as it has in the Political Action committee of our times: "The attack of the employers is to destroy the American standard of living, to destroy the freedom of labor and the liberties that labor enjoys, to bring about unrestricted autocracy as far as labor is concerned."

After his speech, Hillman continued to "run the show," introducing subsequent speakers. When Joseph Schlossberg, identified by Hillman as "my comrade," Schlossberg was then secretary-treasurer of Amalgamated and introduced the minutes of the convention record that there was "prolonged applause, the Amalgamated band playing the 'Russian Hymn.'"

Hillman introduced M. J. Olsin as "comrade" and one "whom I personally consider my old friend of the organization." It is legend that Olsin was among the most militant of Russian communists who ever marched in the picket lines of Union Square in New York. He was the author of the communist plan to take over the United States by revolution, seizure of the president and the Capitol.

William Z. Foster, at the time an undercover agent of Moscow in the communist labor movement, and now head of the communist party in the United States, was presented by Hillman as "Brother Foster."

In Hollywood

By ERSKINE JOHNSON
 NEA Staff Correspondent

HOLLYWOOD—(NEA)—"Trouble with movie-makers," Jack Haley was telling us, "is that they spend all their time worrying about what shows on the screen. Nobody seems concerned about the conditions under which a guy has to watch them."

"And what do you suggest?" we asked.

"Why, the Haley Matched Set for Movie-makers," said Jack. "This is the atomic age and it is time somebody dropped an atomic bomb in the logic section."

Jack brought forth what looked like a pair of stults.

"Haleycopters?" he said.

"Haleycopters?" we asked in amazement.

"Yep," said Jack, "just the thing for getting to your seat. The guys who built the movie seats were careful to make certain that your stomach always bumped into the heads of the people in the next row."

"But the Haleycopter gives you enough altitude to spoil these seat-makers' fun," we said.

(Note to Mrs. Johnson: That item of \$7.95 on the weekly budget is for a set of Haleycopters which we bought.)

AN ARMREST ALL ONE'S OWN

"Did you ever wrestle for an armrest with the person sitting next to you?" Haley asked us.

We confessed we almost missed Gregory Peck's big scene with the razor during a tussle over the armrest with a theater neighbor.

"It's happened to you for the last time," said Haley. "From now on you'll carry the Haley Extra-Armrest. It attaches to the backrest, and is for your sole use."

(Note to Mrs. Johnson: That item of \$11.50 for an extra armrest.)

Haley's voice grew loud, and a sympathetic note crept into it.

"Candy-wrappers—crunchers!" he whispered. "What's your opinion of them?"

"Candy-wrappers—crunchers!" we replied.

(Note to Mrs. Johnson: The check for \$3.25 made out to Jack Haley is for right- and left-ear muffs. One is worn on the ear nearest the sweet-fleets.)

COOPER-CIRCUMVENTION

Next was the Haley Counter-punch for Coopers.

Gracie Reports

By GRACIE ALLEN

CHICAGO—My it's good to be back in one of my favorite cities again. My plane came into Chicago under a very low ceiling, and judging from the OPA rental situation, a lot of Chicagoans would like to do the same.

I looked in at the famous pump room, and saw many of the same faces that greeted me when I covered national political conventions back in 1944. Making the rounds of the heads, before the 1948 conventions.

I ran across a wonderful scoop here. My informant tells me the Chicago river has been running the wrong way for years, draining out of Lake Michigan instead of into it. Goodness, a few years ago when a man ran the wrong way in a Rose Bowl football game, it was all over the papers. It seems to me that a river doing the same thing is much more newsworthy.

I don't believe justice is being done. The men who beat me and almost killed me got fined \$50.

—William Pond of New York Lichfield prisoner-witness.

NATIONAL WHIRLIGIG

news behind the news

WASHINGTON
 By RAY TUCKER

Common Ground

What Is Too Far? What Is Abuse?

Many people who have not thought through to the end results of collective bargaining or the common practices of labor unions would leave the impression that labor unions that try to set prices are good for the working men as a whole. They invariably contend that the only trouble with them is that they have been known to abuse their power or to have gone too far.

But none of these people can tell definitely what they mean by "abuse of power" or "going too far." They can set down no impersonal universal eternal rule by which to measure what is abuse of power or how far is too far.

The decision, unless reversed at future sessions, will exert far greater influence on our system of government and elections than the Jackson-Black explosion. It has the effect of partially disenfranchising millions of voters in states which refuse to redraw the lines of congressional districts on the basis of population shifts and increases.

Oddly enough, it was the two supposed nonpolitical appointees who revealed most vividly that the juries render their verdicts with a deep consciousness of their practical political effect. Justice Frankfurter wrote the amazing opinion, and Justice Rutledge's separate concurring statement might have been framed by a political boss.

LOPSIDED—The controversy hinged on the failure of the Illinois legislature to reshape its congressional and state legislative districts since 1901, forty-five years ago. Since then, the population had increased sixty percent, and the system of political representation has become ludicrously lopsided.

The largest congressional district has 914,000 voters, while the smallest has only 112,000. This means that a voter in the less populated areas has nine times as much voice and influence in choosing national legislators as the citizens in the swollen districts.

The Illinois supreme court, whose members are nominated by the republican and democratic machines, has refused to intervene time and again.

The appeal to the U. S. supreme court by three Illinoisans, who demanded a revision to give them a greater voice in the electoral system, affects similar conditions in almost every other state. There is hardly a commonwealth in which the same disparity does not exist, although not so flagrantly as in Ed Kelly's bailiwick.

RIGHT—Plaintiffs based their case on the Constitution's declaration that M. C.s shall be chosen by the people of the several states. They argued that this provision was not designed to permit some voters to have nine times as much influence as others. They also complained they were denied their constitutional right of equal protection under the laws.

As a commentary on the Frankfurter Rutledge-Roed-Burton majority opinion, it should be noted that the supreme court has frequently set aside state laws regulating the size of congressional districts.

It has denounced arrangements which permit unequal representation, whether the unbalanced districting resulted from natural forces or, as often happens, from politico-economic conspiracies.

MISINTERPRETED—In denying the appeal, Justice Frankfurter took the view that the supreme court could not set aside any districting plan, even though Congress obviously intended that the legislatures should establish an equitable and democratic arrangement when it delegated that authority to the states.

Many lawyers believe that the plaintiff's professor, in stating the nature of the appeal, misrepresented or misinterpreted it. The plaintiffs simply asked that the 45-year-old system of representation be declared void, and the Congress be authorized to modernize its electoral grouping.

Mr. Frankfurter held that the litigants wanted the court to "reconstruct the electoral process of Illinois and insisted that such action was beyond its authority.

WONDERED—Mr. Frankfurter's final objection, however, is the one which interests both lawyers and politicians. He pointed out that, if the supreme court granted the petition, and if the Illinois legislature refused to redistrict, congressmen would be elected on a state-wide basis. He wondered whether the house would let them take their seats if their credentials were given them as members-at-large.

The fact is that on many occasions the house has recognized men who ran in this manner, including at large M. C.s from Illinois. Politically, of course, this kind of free-for-all selection would damage the democratic chances in Ed Kelly's state. Normal republican majorities down the state might offset the huge democratic vote which Mr. Kelly's ward heels deliver to his nominees on election day.

PILATE—Justice Rutledge took a Pontius Pilate position. In a negative way he showed that political considerations always weigh on the jurist's minds.

The Iowa conceded that the appellants had a strong case, but added that the court ought not to act because the suit involved political matters.

Speaking for Justices Murphy and Douglas, Mr. Black declared it was the duty of the court to intervene to protect the liberties of the citizens of Illinois, who are also citizens of the United States. He argued that under the Frankfurter reasoning, Illinois could allow a full vote to one man and only half a vote to another—or the lawmakers at Springfield could give twenty-three congressmen to one small county and none to all the rest.

The moral seems to be, according to lawyers, that if your case involves politics, don't seek relief from the supreme court.

Broadloom means any carpet wider than 27 inches, the width of the original loom, and does not refer to a solid color.

Irrespective of what is finally done or left undone about OPA, we are going to have inflation anyway.

—Tye Taylor, general counsel National Association of Retail Grocers.

Peter Edson's Column: AN ARKANSAS TRAVELER MAKES GOOD

WASHINGTON—(NEA)—The personality of Dr. John R. Steelman, new assistant president and therefore ranking bureaucrat of the land, is something special.

He is six feet tall, weighs over 200 pounds. In the last few years he has become a little paunchy. He is graying, though only 46. The "labor-management battles" he has been through would make anyone gray-headed.

But he is also polishly pink-cheeked, with big blue eyes that sparkle behind rimless spectacles. And he is full of vim, vigor, and vitality. Words pour out of his mouth in torrents. He waggles his head around on a universal-joint ball-neck.

He juts out his chin and points his lips and squints his eyes to emphasize every word he speaks. He never says anything quietly or without a great deal of positiveness. He cusses freely.

Though he has been a member of the Washington chair-borne army of officials for all but one of the last 12 years, he never sits still a second. He is so completely full of nervous energy that you imagine his dining room radio-touted "energy-quick" cereal for breakfast, dextrose for lunch, and a double order of broiled hormones and spinach for dinner, with a flagon of cod liver oil to wash it down.

As a matter of fact, sandwiches at all odd and lawful hours are his principal item of diet. The way he mistreats his big carcass is a caution. It is not vitamins, but Arkansas, that carries him through. He was just naturally born healthy; to farmer-stock parents, in the little town of Thornton, Ark., which isn't on most maps.

HE IS GOOD-NATURED EXCEPT WHEN HE'S ANGRY

There's nothing hubbly about him, however, no Bob Burns drawl and no bazooka, except for his laugh, which is frequent and infectious. He is good humor personified, except when he turns on his mad and lets go with the cuss words to drive home an argument.

He got through high school in time to be drafted into the army for the last two months of World War I, and came out a corporal. In the next 10 years he went to four colleges, acquiring six degrees.

During summer vacations he worked as a logger and sawmill-hand in Arkansas cypress swamps, and as a "blanket-stiff" following the wheat harvest in the northwest. That, apparently, gave him the

physique that enables him to take such punishment today.

Doc was "discovered" and brought into government service by Frances Perkins, when she was secretary of labor. She had gone to Alabama college in Montealeo, Ala., to make a speech. Steelman had been a professor of economics and sociology there for six years. Madam Perkins interested him in the conciliation service, brought him to Washington in 1934. Three years later he became the service's director.

Though he has the professional background and is familiarly called Doc, nobody ever thinks of him as one of the new deal professors and brain trusters. For one thing, he's too big and healthy, and the Harry Hopkins type, emaciated intellectual.

He plays a little golf now, but he isn't too good at it. Once in a while he commends for a tremendous wallop, however, and gets a bigger kick out of that than out of a low score. He is always late for his golf dates, because there's invariably one more thing he wants to clean up at the office before he leaves.

HE "EXERCISES" BY FIDGETING IN THE OFFICE

As a matter of fact, the man doesn't need exercise. Even when he's talking on the telephone he swings around in his chair and fidgets.

MACKENZIE'S Column

By DEWITT MACKENZIE
 AF Foreign Affairs Analyst

Come the 28th of this month and twenty-one Allied nations will assemble in the old Luxembourg palace in Paris to lay down peace terms for the Axis countries of Italy, Hungary, Romania, Bulgaria and Finland. Many believe that the world will assemble unless it is blocked by some great power with a penchant for throwing monkey-wrenches into the machinery.

Employment of the term "peace treaty" of course connotes that war has been finished, and the corollary to this is that tranquility once there has settled over the land. The present situation, however, strikes me as providing an exception to the general rule.

It's true that the sound of guns and exploding bombs is still, and isn't likely to be heard again in a major way for a long time. But just as surely as the sun will rise tomorrow the world is facing an unprecedented period of political turmoil with neither you nor I will live to see completed. Europe is the center of the upheaval now—but it will spread.

The fixing of peace terms for Italy and the other four states naturally will be a step forward. It will help steady the morale of the defeated peoples and give them hope at a moment when it is badly needed. Beyond that, however, the treaties aren't likely to alter the present situation vastly.

That is to say, we are going to see a continuation of Russia's drive to extend her zone of influence, with England fighting to salvage what she can from the dominant position which she held before the war. We will see things as they turn out. That will be a battle to a finish—polico-economic rather than military—but none-the-less deadly.

Today's Schedule Of Redeployment

(By The Associated Press)

Nearly 2,800 service personnel are due to embark from three transports today at New York and San Francisco.

Ships arriving:

At New York—Stevens victory from Le Havre, army transport Acadia from Balboa, Canal Zone.

At San Francisco—Dane from Kwajalein.

Aaron Burr and Alexander Hamilton fought their famous duel near Weehawken, N. J.

We must in the true interest of the patriotic working American men and women take wise and just steps to stop the monopolistic practices of labor leaders which interfere with the guaranteed rights of our free people.

—Sen. Albert W. Hawkes (R) of New Jersey.

As usual Levine's are first with the lowest prices. Remember we will gladly cash your pay roll check. Visit Levine's first.
