

PRICE AND RENT CONTROLS DUMPED

Degnan Kidnapper-Slayer Believed Found

CHICAGO—(AP)—Investigators said they ran into a stone wall of "shammed delirium" yesterday in renewed efforts to question a University of Chicago student who State's Attorney William J. Tuohy said he believed was "the man" in the Suzanne Degnan kidnap-killing.

Tuohy added, however, that "as matters stand now, I have not yet deduced sufficient evidence to prove him guilty beyond all reasonable doubt."

The youth husky, 17 year old William Heirens, lay strapped to a bed in the Bridewell hospital. He responded to questions about the case with blank stares or unintelligible mutterings.

Tuohy said he was satisfied on the basis of the investigation thus far that Heirens is "the man" and added his investigation had produced these findings:

1. That "nine points of similarity" had been established between the print of Heirens' left little finger and a fingerprint on the \$20,000 Degnan ransom note and that venereal fingerprint experts were convinced "on this basis that the same man made the two prints."

2. That X-ray examinations showed Heirens did not suffer a skull fracture when a policeman struck him on the head with a flower pot when he was captured.

3. That police had established Heirens' fingerprints corresponded with those found last Oct. 5 in the south side apartment of Lt. Evelyn Peterson, 25-year-old army nurse who was bound and assaulted by an intruder, and that Heirens has been "definitely linked" with several Chicago burglaries, some in the neighborhood of the Degnan home.

4. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

5. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

6. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

7. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

8. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

9. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

10. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

11. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

12. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

13. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

14. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

15. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

16. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

17. That a medical kit containing surgical instruments, including a detachable surgical knife and a dental chair, were found in his dormitory room and that a two-bladed fisherman's knife was also found.

Compromise on Trieste Taken Under Question

PARIS—(AP)—The four-power foreign ministers last night postponed a decision on a general European peace conference and pondered a new compromise proposal on the disputed port of Trieste which French sources said might break the conference deadlock, but which American quarters declared could not be seriously considered.

The compromise Trieste plan, submitted by French foreign minister Georges Bidault, calls for establishing Trieste as an autonomous region under international guidance for 10 years, French sources said. At the end of that time the Big Four would re-examine the problem, making a new decision if deemed wise or referring the matter to the United Nations. Both Italy and Yugoslavia have demanded Trieste outright.

French informants said that Soviet Foreign Minister V. M. Molotov accepted the Bidault proposal "in principle" as a "basis for discussion" with certain reservations. These were that the autonomous regime should be permanent instead of for only 10 years and that other interests, such as Czechoslovakia, be represented on the governing council.

American officials at the meeting, however, described the plan as too complicated and added that it would solve nothing.

The ministers reach no agreement on U. S. Secretary of State James F. Byrnes' demands to call the 21-nation peace party, and postponed action over the weekend in effect, signified when he listed the reasons for calling a general peace conference soon, and then called for a vote on holding a conference.

Both Bidault and British Foreign Secretary Ernest Bevin voted affirmatively. Molotov voted no.

Byrnes, it was said, then remarked that the world now knows where the veto stands.

The new law does not change the existing requirement for 18-year-olds to register; it simply prohibits their actual induction.

Major provisions of the new law, which replaces a stop-gap bill expiring at midnight August 1, include:

1. Limit of compulsory service: 18 months for men inducted after October 1, 1946; men inducted prior to October 1 may obtain their release upon request upon completion of 18 months of service.

2. Statutory exemptions: All fathers, unless they volunteer. Fathers now in service may obtain their discharge upon request after August 1, 1946.

3. Reinduction: No man shall be inducted if he already has served in the armed forces at home or abroad for at least six months since September 16, 1940.

4. Size of the armed forces: By July 1, 1947—army, 1,010,000; navy, 558,000; marine corps, 108,000.

5. Expiration date of the new law: March 31, 1947.

6. In fact, the army already has announced it will levy no draft quotas for July and August.

7. The new law does not change the existing requirement for 18-year-olds to register; it simply prohibits their actual induction.

8. Major provisions of the new law, which replaces a stop-gap bill expiring at midnight August 1, include:

9. Limit of compulsory service: 18 months for men inducted after October 1, 1946; men inducted prior to October 1 may obtain their release upon request upon completion of 18 months of service.

Command Performance Is Given by Sally Rand for Municipal Court

SAN FRANCISCO—(AP)—Sally Rand twirled her fans and juggled a giant size rubber bubble yesterday in a command performance for the municipal court, which sat in extraordinary session at a night club ringside table to view the evidence.

Daniel B. Shoemaker, sole judge and jury to determine whether Sally is guilty of indecent exposure and assorted related offenses, wore a quizzical look at close of the show and said he'd reserve his decision. The trial will continue in its customary setting Monday.

It was pretty early for Sally and her cast of a dozen girls and her orchestra. But she smiled her brightest and circled graciously among newspapermen eating breakfast "on the house" at tables about the bar. There was plenty of bacon and butter.

Prologue to Sally's entrance was an innocuous little number with nine girls in white chiffon angel garb doing a sort of Grecian high-school pageant dance. Then came the fanfare, the announcer's clarion "Miss Sally Rand!" and the dancer appeared at top of the horseshoe.

See SALLY RAND, Page 7

Today's Atomic Test Might Prove 'Fizzle'

KWAJALEIN—(AP)—A warning to the public that the atomic bomb to be dropped at Bikini lagoon might be a "fizzle" was voiced by an eminent scientist yesterday as military men, scientists and other observers scanned the skies over the Marshalls for some hint of Monday's weather.

The warning came from Dr. Karl Compton, chairman of the joint chiefs of staff evaluation board.

"My scientific colleagues," he told a press conference, "say that even if we had a number of bombs, alike physically, each would vary from a fizzle to maximum efficiency."

"There is a certain probability—"

SAN ANTONIO—(AP)—Radio reports from Bikini said last night the atomic bomb drop scheduled for today had been advanced one hour to 3:30 p. m. CST.

Whether the bomb, now hidden behind a canvas-covered area on this island, will provide a magnificent explosion or a smoky fizzle will be known at 9:30 Monday morning (4:30 p. m. Sunday, CST) if the weather is favorable. Vice Adm. W. H. O. Blundy will rule on the question of weather, announcing at Bikini Sunday morning whether the test can go ahead on schedule or must be postponed.

"Broadcasts from Bikini heard in San Francisco said Blundy announced the weather favorable and that the bomb will be dropped on schedule."

With receipt of the starting signal the non-target fleet was to begin evacuating the lagoon. Then at dawn Monday, the air force will swing into action.

Bradley Dewey, president of the American Chemical Society and a member of the evacuation board, observed that "a dud probably would produce a whacking good explosion." Dewey said, "but perhaps it would not mushroom. There would be some activity."

See ATOMIC TEST, Page 7

U. S. and China Deplore Use of Power of Veto

NEW YORK—(AP)—The United States and China joined last night in deploring irresponsible use of the veto power in the United Nations and Dr. Quo Tai-chi, Chinese delegate to the security council, predicted the weapon would be abandoned.

United States, Great Britain, China, Russia and France hold the power to veto, which has been exercised five times by Russia including three "blocks" at this week's bitter session on the Spanish case. France has vetoed once, also on the issue of Franco.

Dr. Quo, declaring that he expected public opinion to force a change in the rule if the veto is "frequently or lightly used," said in remarks prepared for the University of the air (NBC):

"I believe the time will come when all the nations will feel that it is no longer necessary to retain the veto."

"China has never stood strongly for the veto. It can be used to such an extent as to paralyze the security council, and render the organization of the United Nations ineffective. I hope this won't be the case."

He termed abandonment of the veto "inevitable if the United Nations succeeds in its purpose."

Hershel Johnson, U. S. delegate, disagreed on the prediction that the veto would be killed, but declared:

"The veto power was accepted by the United Nations at San Francisco with the clear understanding that it would be used only sparingly. It should certainly not be used lightly or irresponsibly to prevent peaceful settlement of disputes that have been agreed to by the majority."

Dr. Herbert V. Evans, Australian delegate, already has said that he will ask a full airing of the veto question before the general assembly here this fall and even indicated he might make an outright demand for its elimination. Cuba also announced that it will call for killing the veto.

Scouts' Camping Season Nears End

The fourth and last week of camp at Camp Ki-O-wah near Lake Marvin, will start July 1, and end the 8th.

Twelve troops have made reservations for the camp. Troop 16, 26, and 30 from Pampa will attend this camp. Up to now 102 scouts from these troops have made reservations along with 12 leaders.

The camp will be under the direction of Dr. W. H. O. Blundy and Thomas C. Cochran of Berger field executives for the Adobe Valley Council. This last week will be devoted primarily to swimming, boating, archery, marksmanship, leathercraft, metal work, etc.

Mart Bushell, national director of camping of the Boy Scouts of America, will be a guest at the camp on July 3-4. Bushell will be camping through here on his way to the west coast and will stop off at only two places, Pampa and Roswell, N. M. This is the first time in the history of this council that a national director has attended or visited a camp.

See ATOMIC TEST, Page 7

All-Time Record For Building Set

By The Associated Press
Texas was setting all-time record for building homes, stores, civic buildings, factories and other structures as 1946, the first postwar year, turned the half-way mark.

Despite strikes, shortages and restrictions, construction continued in Texas at a dizzy pace never before witnessed.

A paralyzing construction strike has building in Houston at a temporary standstill, but the city still leads all Texas in building and has gained a national reputation as one of the nation's fastest growing cities.

Truman Declares Fight 'Not Over'

WASHINGTON—(AP)—Price and rent controls came to a halt at midnight Sunday, but President Truman told the people last night that the fight for them "is not over."

The chief executive, in a broadcast over all networks, appealed straight to the people to make known to congress their own determination "to retain price controls and so prevent inflation."

And during the lapse in control, he said he knew the country could depend upon the patriotism and good sense of its citizens. He added:

"Therefore, I call upon every business man, every producer and every landlord to adhere to existing regulations even though for a short period they may not have the effect of law. It would be contrary to their own interests to embark upon a reckless period of inflation. It is to their own interest to exercise self-restraint until some action can be obtained from the congress."

"STAY AT STATION"
The OPA to stay at his battle station. The fight is not over.

Whether price controls which come off at least for the time being at midnight today can be re-imposed is not clear.

See OPA DEAD, Page 6

Rise in Prices, Rents Are Seen For Texas Area

DALLAS—(AP)—W. O. Orth, regional OPA director here, said yesterday that it is quite possible there will be rises in prices of commodities and rents following the expiration of controls.

He said there is every reason to believe that manufacturers have held back large stocks of supplies while awaiting lifting of price controls. He mentioned specifically lumber and cattle.

Earlier, Orth had issued instructions to his district directors, advising all OPA employees to report for duty as usual Monday despite the presidential veto being upheld by the house of representatives.

The President will take action under his emergency wartime powers to maintain price and rent controls and prevent inflation, another Dallas OPA official said.

The official, who asked not to be quoted by name, said OPA for weeks has been working out a "strategy" to be used in case the bill was so devaluated it could not be looked on as a guarantee against inflation. The "strategy," he said, calls for the President setting up an agency, possibly with the old OPA machinery, to continue strict controls.

A manager of large Dallas grocery store said that OPA abolition will take away little more money from the public's pocket because competition immediately will be set in to hold prices down. He predicted a public flurry of buying, precipitated by fear that food prices will soar.

A local meat packer shouted "hooray" when told of the veto.

"I'll have a chance to go out and compete on an open basis for livestock that black marketers have been getting up until now," he said.

Meanwhile, some landlords here have indicated they will raise rents from 20 to 100 per cent.

Get that soft curly permanent from Mr. Yates today. Avoid the last minute rush. We close July 21, open Sep. 3. Adv.

2 Persons Killed In Swift British Raid on Palestine

JERUSALEM—(AP)—More than 1,000 Jews were detained and questioned in and near Jerusalem alone as British troops struck at daybreak yesterday in widespread raids "to end the state of anarchy" in Palestine.

Although most of those questioned were released, scores of Jews were held, including leaders of the Jewish Agency. Fifty or more persons were arrested in Tel Aviv, including Moshe Shertok, head of the agency's political department, and Dr. Bernard Joseph, member of the agency's executive committee.

Although the number of casualties was not determined, the death of one British soldier and one Jew were reported officially.

An official statement said a cache of arms, including 20 rifles and 30,000 bullets, was found at Yagur, the statement said.

British officials accused the Jewish agency of complicity in recent disorders and killings.

The troops struck in Jerusalem, seizing Jewish agency headquarters buildings in Tel Aviv and in at least seven other settlements. Planes circled overhead in Jerusalem.

And seized more than a thousand documents in Tel Aviv. Glass littered the streets and walls of buildings were destroyed by explosives used to open strong boxes. The damaged buildings included two or three Jewish banks and the Jewish agency's sub-headquarters.

In London the political department of the Jewish agency said the British action was a "clear act of aggression" designed to destroy "both the achievements and aspiration of the Jews" will continue to struggle.

British Middle East headquarters was directing the military measures.

The soldiers searched also for missing British officers believed held by a Jewish underground group in Tel Aviv.

Britain cracked down after Palestine, long the disputed land of the Jews and Arabs, had seethed in growing tension for many weeks while both factions awaited acceptance or rejection of the British-American committee's recommendations for admission of 100,000 Jews into Palestine.

An official statement issued eight hours after the launching of the British action was a "clear act of aggression" designed to destroy "both the achievements and aspiration of the Jews" will continue to struggle.

Pampa Is Awarded Permanent Rank

Another Pampa man, 1st Lt. Lynn E. Blackwell, 319 Warren, has been nominated by President Truman for permanent commission as first lieutenant in the regular army air corps.

Blackwell has served in the air corps for 12 years. He joined in November, 1940. He received training at Goodfield Field in San Angelo and received advanced training at Kelly Field in San Antonio. He served in China 18 months. At the present time Blackwell is stationed at Randolph Field, San Antonio.

Simmons To Head White Deer Lodge

WHITE DEER, (Special)—William W. Simmons, one of the Pampa's foremost Masonic leaders, has been installed as the new head of the White Deer Lodge No. 1188 A. F. & A. M., Friday.

Simmons is commander of the Pampa Commandery No. 97 and since the reorganization of the Pampa Chapter in 1934, Simmons has filled each office of this work. He holds life memberships in the Pampa Chapter and Council.

Other officers elected to serve the White Deer Lodge are W. H. Price, senior warden; J. E. Meaker, junior warden; J. C. Freeman, treasurer; J. L. Darnell, secretary and J. F. Weatherall, senior deacon.

Bert Casleberry, junior deacon; J. P. McBride, chaplain; Ralph Wrinkle, senior steward and Oscar Taylor, tyler.

Combines Sufficient For Wheat in Texas

Texas needs no more combines for wheat and small grain harvest, according to an announcement by J. B. Kidd, farm labor field assistant at Plainview.

Kidd said that more tractor drivers will be needed in most of the Pampa and the surrounding fields and that those needing labor should contact the Amarillo county agent's office, where a surplus of men is reported.

Combines which have supplied the needs in Texas counties will be moved north for further harvest, Kidd pointed out.

Deadline for filing July 2 is the last day for candidates to file their first expense account, it was announced Saturday by Charlie Thut, county clerk.

Play safe! Drive your car to McWilliams Motor Co. for complete check up before you start on your trip.

Wholesale gas and oil for wheat harvest. 114 E. Francis. Pampa Lubricating Co. Phone 272. (Adv.)

Story of Red Cross in Italy Told By National Field Representative

Remember the clothing you sent to Italy during the war years? Remember the packages you wondered if those packages would ever reach those people so far away? More often you doubted the necessity of sending them and toyed with the idea that the Italians didn't appreciate the Red Cross clothing and relief service.

In Pampa Friday was a woman who told a story that would do any Pampa Red Cross worker proud. She was Miss Doris Mae Waring, home service field representative for the American National Red Cross, who served 15 months in Italy—right in the heart of the provinces where clothing from local chapter was distributed.

Mrs. John McBride, war bride from Livorno, Italy, arrived in Pampa the first part of June. Miss Waring, upon learning of her residence here, visited Mrs. McBride and found that they had mutual friends in Italy. Mr. McBride, son of Mrs. W. H. McBride, 603 E. Foster, was stationed five months in the same Italian province as was Miss Waring.

Miss Waring saw the recipients

NEAR COMPLETION—Jim Bill Windsor, enthusiastic participant in preparations for the Pampa Soap Box Derby to be run here in about three weeks, poses here for the camera. He stands beside his racer, which will be seen in the races here. The vehicle is almost finished. In fact, all its lacks is a thin sheet of covering of some sort, and that is probably on by this time. Jim Bill's entry in the Lions Club-Pampa Daily News event is sponsored by the Sportsman Shop, located on West Foster street. All the approximately 30 boys will have sponsors in the races. The winner will get a trophy, a Bulova watch, other prizes, and a free trip to the national finals at Akron, O., in August.

Negro Barely Escapes Mob For Stabbing

TYLER—(AP)—Possible mob action against a 27-year-old Negro, held in connection with the fatal stabbing of a Tyler police officer, was averted early yesterday, police reported.

A crowd which started forming in front of the railroad station was dispersed by city officers. The Negro, wounded in a gunfight when he was captured Friday night near Corsicana, Texas, was brought to a hospital here yesterday.

The crowd gathered again in front of a sub fire station near the outskirts of the town. Over half a dozen cars arrived at the hospital after the suspect was brought there.

"All it lacked of being a mob," said one veteran officer who asked that his name not be used, "was a ring leader."

Nearly 50 city, county and state police threw up a guard around the hospital.

The Negro is suffering from three bullet wounds incurred Friday night when he was taken at his father's home at Drane, Texas, seven miles from Corsicana. He was also wounded once during the fight here Friday when M. J. Baile, Tyler police officer, was fatally stabbed while attempting to force a Negro to sit in the back of a bus.

CORSICANA—(AP)—A 27-year-old Negro, sought in one of the region's greatest manhunts, was shot three times and captured near here Friday night in a bedroom apartment.

The Negro was wanted for the fatal stabbing of M. J. Baile, Tyler, Texas, policeman, who was attacked when he attempted to make a Negro passenger move to the rear of the vehicle or get off.

Thirteen officers surrounded the house, which belonged to the Negro's father at Drane, Texas, seven miles west of here. Some of the officers entered the house, and R. T. Bailey, state liquor control board agent who participated in the capture, said the Negro fired at the officers.

The Negro then was shot twice in the chest and once in the neck, Bailey said.

The liquor control officer said the Negro, wounded in the abdomen in the bus incident, had been brought to a Corsicana hospital and was released Friday afternoon. The Negro told Corsicana hospital attendants he had accidentally shot himself, Bailey said.

The Negro was in bed, Bailey related, when officers arrived. Besides the pistol with which he shot at the officers, a loaded rifle and loaded shotguns were in the room.

Officers from Tyler and three from Corsicana participated in the capture. Officers who went to the house included Deputy Sheriff Bill Lee and City Officer Jack Floyd of Corsicana and District Attorney Groven Beard of Tyler.

The suspect was taken to a Corsicana hospital for first aid and then was taken to Tyler, Bailey said.

The agent said a Negro taxi driver, who took the suspect to Corsicana after the bus fight and later tipped officers as to the suspect's location, was left in the jail at Corsicana.

Small Baby Found In Theater Locker

NEW YORK—(AP)—From the darkened, empty lounge of the Palace Theater on Broadway at 2 a. m. yesterday came a tiny wail that sent night building superintendent Joseph McGovern speeding to a small anteroom filled with lockers.

Unable to open the locker from where the cries came, he summoned Patrolman Donald Fraser, who went to work on it with a heavy chisel.

Inside was a blue-eyed baby boy, about two weeks old, plus a paper bag filled with diapers.

A penciled note said:

"Please

"Won't you give me a home or place me in one?"

"I am a good baby. I don't cry very much. I'm very tiny but I will make it up to you when I grow up."

There was no signature.

12-Year-Old Girl Is Found Murdered

LONDON—(AP)—Scotland yard added a fifth name yesterday to the list of female murder victims in Britain during the past two weeks.

A post-mortem examination disclosed that Muriel Joan Drinkwater, 12, whose body was discovered on a lonely Welsh road Friday night had been shot to death.

Three of four earlier slayings remained unsolved. In the fourth, a 30-year-old laborer was under arrest charged with murder.

There were 8,259,000 horses on farms in the United States at the beginning of 1946.

Cattle Raisers Ask For Livestock Feed

FORT WORTH—(AP)—Directors of the Texas and Southwestern Cattle Raisers association, meeting here Friday, wired the secretary of agriculture and the Texas delegation in congress asking them to attempt to move some of the soybeans, meal and cake from the north to Texas and New Mexico for livestock feed.

They also urged that an effort be made to import cottonseed meal and cake from Mexico and South America.

Pete Stumberg of Sanderson, president of the Texas sheep and goat raisers association, said his group would cooperate in obtaining more protein feeds for the southwest.

The directors voted to hold the next quarterly meeting in Brady.

McLean Editor for Highway Park

McLEAN—T. A. Landers, editor and publisher, suggests in this week's edition of his McLean News that a roadside park, commemorating the men of World War II, be established on the south side of the McClellan creek bridge on the McLean-Pampa highway. This should be done, he stated, when a new bridge, now planned, goes in at that point.

He said: "The News (McLean) editor is co-chairman of the roadside beautification in Gray county, and would appreciate hearing from anyone interested in such a project, either as just a pretty roadside park, or the memorial proposition.

In Ethiopia, it is possible in a single day to travel from a region of oppressive heat to one of intense cold.

Quarantined Bulls To Be Killed and Burned

EL PASO—(AP)—Robert Schneider of Chihuahua City, Mexico, said Friday arrangements are being made to kill and burn 327 Brahma bulls in Mexico.

In a telephone conversation from Mexico City, the cattleman told H. C. Cline of the El Paso union stockyards that the bulls, importation of which resulted in the United States closing its border to Mexican cattle, will be destroyed Monday. They will be killed on Sacrificios island in Vera Cruz harbor, where they have been kept in quarantine since their shipment from Brazil. U. S. officials feared they had hoof and mouth disease.

Clye said the bulls were worth \$5,000 each.

The bald eagle is protected from all hunters and collectors throughout the United States.

School Situation Is 'Deplorable'

AUSTIN—(AP)—School trustees, boards of education members and designers are largely responsible for unsafe and unsanitary Texas schools, charges Arnold Wittman, director of the school plant division of the state department of education.

Not a dozen out of the thousands of schools he has visited and inspected in Texas, said Wittman, comply with all standards of safety and sanitation. He described the situation as "deplorable and pitiful" in a talk yesterday before the wind-up session of the three-day school plant conference at the University of Texas.

Wittman placed most of the blame on "trustees who are representing their districts and designers who are responsible for advising them."

Wittman said that in one school building he inspected he found the

toller room, located under two classrooms, crammed full of storage and rubbish and a pan of gasoline sitting on top of the boiler because the custodian said he had no other place to put it.

He deplored the practice he ascribed to some school architects of cutting down and economizing on the mechanical features of a new school building that make for safety and sanitation in favor of expensive outside finish or design.

He emphasized that good, safe, economical maintenance depends on well-planned construction design.

Hillsboro Is Named Scout Headquarters

HILLSBORO—(AP)—Hillsboro has been designated headquarters of the 10-county North Central Texas Girl Scout council. It was announced here. Counties in the council area are Bell, Limestone, Falls, Ellis, Navarro, Freestone, Bosque, Johnson, McLennan and Hill.

Beryllium To Be Dumped in Ocean

WILMINGTON, Del.—(AP)—An army tug was loaded yesterday with a one-ton iron box of fine dust, potentially far more deadly than dynamite, to be dumped in the Atlantic "in a day or two" for safety's sake.

The dust is radio-active beryllium, which was used for four years in atomic bomb work by the Bio-Chemical Foundation, Newark, Del. Scientists experimented with it to develop means to reduce hazards in working with atomic power.

Dr. Ellice McDonald, director of the foundation, estimated the beryllium would remain radioactive for 1,000 years. The box is "too hot" to have around, he said. If the beryllium should leak out, it would spread cancer of the lungs.

The foundation decided the safest disposal would be to dump the box

intact into the sea. If the box breaks or deteriorates under water, Mr. McDonald said, a lot of fish will die but no humans will be in danger.

200 Huts Destroyed By Fire in Mexico

FUEBLA, Mexico—(AP)—A second large fire late Friday destroyed 200 workers' huts in a labor camp 25 miles from here while an ineffectual bucket brigade with little water tried to save household goods.

The night before, fire wiped out the suburban Atencingo Sugar refinery owned by William Oscar Jenkins, 72, formerly of Los Angeles and rated as one of Mexico's richest men.

Jenkins valued the plant at 20,000,000 pesos (\$4,000,000) and said no insurance was carried.

The country's dairy herds total 28,000,000 cows.

PAMPA, TEXAS

Special Session May Be Called

MARSHALL—(P)—State Representative Isom P. Hydrick of Harrison county said here yesterday he thought Gov. Coke Stevenson would call a special session of the legislature, probably the first Tuesday in September.

Hydrick said he had talked with the governor recently relative to the session and Stevenson told him he was "working toward that end."

Four and possibly five topics will be submitted to the session, Hydrick predicted. He listed these as additional funds for the state highway patrol, redistricting, increased old age pension grants, and a negro university. He said increased teachers' salaries was the tentative fifth subject.

Conference on Canal Program Ends Friday

AMARILLO—(P)—A two-day preliminary conference on the \$67,000,000 gravity canal program in the Lower Rio Grande Valley ended here Friday but no specific findings were announced. Another meeting will be held at McAllen July 22.

At the conference were Charles Segar, area planning engineer; his assistant, John Thompson, and Wesley R. Nelson, regional director for the bureau of reclamation.

Repayment plans by potential water users to finance construction of the irrigation system was among the important questions on the discussion agenda. Final cost to users will be available after final engineering plans are completed, Nelson said.

May Farm Income Below '45 Average

AUSTIN—(P)—The farm cash income in Texas for May 1946 was nearly 14 per cent below that reported for May last year.

The bureau of business research reported a drop of 8.6 per cent in farm cash for May compared with income for April.

The five months of 1946 showed a cash income for farm products of \$328,849,000 compared with \$381,435,000 for the same period last year.

The Elack or Grand Prairies area is the only one which reported an increase from April to May this year. This district comprises 21 counties and include the cities of Dallas, Fort Worth and Waco.

In early England coins sometimes were cut in halves or quarters to make change.

Louisiana Legislators Rest Before Fight

BATON ROUGE, La.—(P)—Members of the Louisiana legislature took time off for a rest yesterday amid predictions by sponsors of the welfare appropriations that a stiff fight would be carried to the floor of both houses to restore at least a part of the funds trimmed by the senate appropriations committee.

The committee voted a \$2,200,000 cut in house-approved welfare appropriations after a stormy discussion in which some members said they would like to see the welfare fund abolished entirely.

Efforts were made by the committee, which worked into the holiday, to push through the remaining items in the appropriations bill, mostly non-controversial and try to get the measure to the senate floor early next week.

AP Ends Listing of Returning Servicemen

NEW YORK—(P)—The Associated Press ended yesterday its daily listing of service personnel returning from the European and Pacific theaters—greatest mass distribution of names ever undertaken by a press

association.

More than 2,000,000 names were dispatched by commercial telegraph facilities and by mail to more than 400 newspapers and radio stations since the service was started last July 20.

Despite the magnitude of the task—brought to a close now that the redeployment of wartime units virtually is completed—the service was

Army Begins Check Of Returned Jewels

FRANKFURT, Germany—(P)—In the deep vaults of the heavily-guarded Frankfurt reichbank, U. S. army authorities yesterday began

checking of the recovered \$1,500,000. These family jewels against the inventory of their German dual-owners.

The bulk of the jewels—recovered in the United States after their theft from Stately Kronberg castle near Frankfurt—arrived safely by troop train from Bremerhaven early today.

Vets Exploited Charges Legion

CHICAGO—(AP)—The national employment committee of the American Legion said yesterday government and industry are "taking war veterans for a sleigh ride."

It called attention to a recent U. S. supreme court decision which it said held that a veteran was not entitled to a full year's reemployment unless he had sufficient seniority and urged the Legion to seek immediate remedial legislation.

In his report to the national executive committee of the Legion, Lawrence J. Fenlon, chairman of the employment committee, asserted:

Veterans are being "exploited by unprincipled employers under the 'on the job training program.' Industry is failing to employ disabled veterans.

Community interest in veterans welfare is lagging.

Lack of housing for veterans is "a national disgrace."

Veterans are denied schooling due to lack of facilities.

Government agencies are not meeting their responsibilities to veterans because of "lack of competent and adequate personnel and absence of coordination."

Street Cars, Buses May Strike Monday

SAN FRANCISCO—(AP)—Street cars and buses may strike Monday, according to reports from San Francisco.

The city's street car and bus lines are expected to stop running Sunday a minute after midnight unless eleven-hour efforts to avert a carmen's strike prove successful.

A HISSING AND BY-WORD

(The Chicago Tribune)

The British government stands to clear a quarter of a billion dollars from the sale of the forced labor of German prisoners of war. The Labor government pays most of the prisoners a dime a day and a few of them 20 cents a day, but collects normal wages for each man from the employers to whom the slaves are assigned. This helps the chancellor of the exchequer with his budget and relieves the British taxpayers substantially.

It may be assumed that employers likewise find slave labor profitable because otherwise they would not make use of it. It remained for Mr. Arthur Veysey of the Tribune's London bureau to discover that free British workmen are also making a very nice thing of the system. He found that the British workmen in a gypsum mine were eager to have a German or two in each small working party because it meant more money in the pay envelope for everybody except, of course, the prisoner slaves.

In short, slavery has corrupted the morals of everybody in England from the government down. That is, of course, characteristic of slavery wherever it exists. Our government bears some of the responsibility because more than a hundred thousand of the victims were captured by Americans and are in England, thanks to a lend-lease arrangement.

Perhaps the most incredible aspect of the whole nasty business is the failure of the churches here, and especially in England, to make an effective protest. Were they sincere in their insistence throughout the war years on the dignity of the individual? Surely they cannot believe that Hitler was wrong in enslaving Germans, but that others may do so without offense. And surely the churchmen of England cannot allow this kind of thing to go on much longer without becoming themselves a hissing and a by-word.

NEW EDUCATION: director at the First Methodist church is Harry Kelley, who will direct the musical program of the church and will work with the young people. The new director taught in Pampa High school at one time and was recently discharged from the armed forces.

Sale of Autos Has Risen 130 Percent

AUSTIN—(AP)—An increase of 130 per cent in sales of motor vehicle dealers in May 1946, over the same month last year was reported by the bureau of business research.

An over-all increase of 31 per cent was reported for independent retail stores in Texas. The greatest increases were in the sales of durable goods.

Furniture and household sales increased more than 55 per cent. Lumber, building materials, and hardware sales were 41 per cent over sales last year but 2 per cent below figures for April.

All Texas cities for which separate tabulations were made showed increased sales. Austin led with nearly 76 per cent increase. Houston sales increased 32 per cent; Dallas, 31.4 per cent; Fort Worth 25 per cent; and San Antonio 24 per cent. Temple was low with an increase of 5 per cent.

Merchant Seamen Still Fuming Over Wages

WASHINGTON—(AP)—A new labor storm brewer on the nation's waterfronts today because ship operators gave a higher wage boost to AFL seamen than to CIO sailors.

The CIO-dominated committee for maritime unity already has announced that it will "press forward for the same wages" Larry Lundberg, president of the AFL sailors union of the Pacific, negotiated with west coast shippers.

Lundberg won a \$22.50 monthly pay boost for able-bodied seamen. Joseph Curran, whose CIO National Maritime union is a CMU member, had less than two weeks earlier settled for a \$17.50 increase for that type of deck worker. Both the AFL and CIO won the same reductions in working hours.

Temporary Council Will Govern India

NEW DELHI—(AP)—The British announced last night an eight-member executive council which will administer a temporary government for India pending the election of a constituent assembly.

Appointment of the temporary government was made necessary by refusal of the All-Indian congress party to approve a British cabinet mission plan for an interim government by India's parties.

Market Briefs

WALL STREET
NEW YORK—(AP)—The stock market exhibited considerable irregularity this week, enjoyed a substantial rally Thursday and showed a net loss for June, the first average setback for this month since 1929.

Dealings, on the whole, were slack throughout the latest 5-day stretch. Tuesday's volume dwindled to 88,000 shares, smallest for a full session since March 12. The week's largest aggregate of 1,200,000 shares was achieved on the Thursday revival.

For the entire week transfers totaled 5,102,340 shares compared with 5,244,230 the week before and 11,224,160 in the like 1945 period. June transactions of 21,716,872 shares were the lowest since August, 1945. For six months the total was 124,320,160 shares, against 200,704,729 in the first half of 1945.

The Associated Press 60-stock composite was up 4 of a point at 79.2 for five sessions and for June was down 2.2 points. For the first half of 1946 a net advance of 4 full points was retained.

Rail bonds skinned close to the 1945 low before slim demand lifted the average price late in this week's market.

FORT WORTH GRAIN
FORT WORTH—(AP)—Wheat No. 1 hard 1.96 1/2 @ 12.04 1/2. Oats No. 3 Red 91 1/4-5 1/4. Sorghums No. 2 Yellow Milo per 100 pounds 2.81-01.

CHICAGO GRAIN
CHICAGO—(AP)—Oats futures jumped about 2 cents in late trading today following announcement that President Truman had vetoed the OPA extension bill. The August delivery moved up to its ceiling. Trading was active as "shorts" endeavored to cover their commitments.

The advance met resistance at the close and final prices showed widely split quotations. Deferred oats contracts were 3 1/4-1 1/2 higher. July was unchanged at 28 cents. Bids on corn were \$1.46 1/2.

HOLIDAY CLOSINGS
NEW YORK—(AP)—All leading commodity and security exchanges, with the exception of grain markets, were closed today as the New York, New Orleans and Chicago cotton exchanges inaugurated a Saturday recess for the summer.

Major domestic security and commodity exchanges will also suspend operations on Thursday, July 4, in observance of Independence day. The New York wool exchange will carry the holiday through the weekend by closing on Friday, July 5.

OPA Dead

(Continued From Page 1)
 stored is an open question. Congress, however, appeared bent on reaching some decision early Monday.

RESTRICTIONS END
 A temporary end of restrictions was assured when Mr. Truman sent to the house a sharply-worded veto of an OPA extension bill he said would lead "to disaster," the house followed up by sustaining the veto and the senate and house both quit until Monday without acting on a temporary extension.

Mr. Truman said in his address to the people that he had wanted to sign a price control bill but

came to the conclusions that the compromise measure congress sent him was "no price control bill at all."

RESOLUTION REQUESTED
 He repeated to congress the request he previously had made directly that it "immediately pass a resolution continuing present price and rent controls until the congress can pass a workable bill."

Under the bill congress proposed, he said, price increase would have followed price increase, so that the measure "had no stopping place in it." The increases, the President said, would have been passed right down the line and "you, the consumer, would pay it all."

To a large extent the chief executive went over with the people the same ground he covered in listing for congress his objections to its extension legislation.

AMENDMENTS BLASTED
 Again, as in his veto message, he struck particularly at amendments which he said would have boosted manufacturers' prices and would have pyramided these by general mark-ups to wholesalers and retailers.

Manufacturers, Mr. Truman declared, would receive a "bonanza" under the manufacturers' increase provided in an amendment by Senator Taft (R-Ohio).

The President said it was a "cruel

jest to say that this amendment would aid production.

As he had told congress he told the people it would "wholly destroy our program of wage stabilization," starting a spiral of inflation and a "race between rising wages and rising prices."

The President picked up some of the actual language of his veto message and interspersed new material.

At one point he commented on the way goods are being withheld from the market in the belief price bids soon may be lifted.

"Incidentally," he said, "I have asked the attorney general to make an investigation of some of the factors involved in our present shortages to determine whether anyone is criminally responsible for them and to place the responsibility where it belongs."

The withholding of goods from the consumer, the chief executive contended, would be multiplied thousands of times under the Taft amendment.

Declaring he was only calling a spade a spade, Mr. Truman said:

"I must now rely upon the American people and upon a patriotic and cooperative congress to protect us all from the great pressures now upon us, leading us to disastrous inflation unless we have the means to resist them."

The chief executive said he was faced with two alternatives after he came to the conclusion the vetoed bill would offer no protection against rising prices.

He said he could sign it, in answer to the plea that it might be better than nothing.

Or he said he could disapprove the bill and call on congress to give the people "a real, workable, price control law."

Had he taken the first course, he said, "the mad chase to inflation would soon have been under way." He added that he could not allow this to happen, so he took the second alternative, realizing all the dangers which would come with it.

To his fellow citizens, the President said in conclusion that "we as a nation have it within our hands" to make the post-war period an era of the greatest opportunity and prosperity in the nation's history.

"But if short-sightedness and impatience, if partisanship and greed, are allowed to triumph over the efforts to maintain economic stability," he said, "this grand opportunity will have been sacrificed."

"That must not happen."

"With your help and understanding it will not happen."

The President's veto of congress' version of price control extension was upheld by the house on a vote of 142 to sustain him and 173 to override, 38 short of the necessary two-thirds to pass it over his head.

Mr. Truman said the answer to the situation now is for congress immediately to "pass a resolution continuing present price and rent controls until the congressman pass a workable bill."

The senate quit in the midst of frantic efforts by the leadership in

Award for Best Car Upholstery

THE DISTINCTIVE PEN AND PENCIL set shown above, awarded by the Collins and Aikman Corp., is going to each one of the 111 newspapers in as many American cities, and they will be given to each boy whose racer in the Soap Box Derby is adjudged the best upholstered. A set will be awarded to the winner in that contest when the races are run here July 20-21. There will be other prizes, and the winner of the race will get a free trip—at the expense of The Pampa Daily News—to the national finals at Akron, Ohio, August 18.

tricked him out of a revolution that would have made Almazan Mexico's president.

Elliott and his wife were in Fort Worth en route by plane to New York from Beaumont, Texas. With them was the actress' six-year-old son, William W. Crawford, III, who had been visiting her parents in Fort Worth.

Father Warned As To Rationing

FORT WORTH—(AP)—Elliott Roosevelt, second son of the late president, asserted here Friday that the nation is suffering inflation and faces near starvation because the government dropped his father's advice.

He said his father warned a scarcity would result if rationing were removed.

Roosevelt, here with his wife, Faye Emerson of the movies, also declared, "if my father had lived, this whole atomic bomb problem wouldn't exist. He believed in the United Nations. My father favored the veto plan, also."

Elliott said he had written a book to be published this fall revealing talks he had with his father and disclosing what his father's postwar plan would have been.

He also denied a recent charge made by Juan A. Almazan, defeated 1940 candidate for the presidency of Mexico, that the late president

TEXAS QUEEN—Blonde Dorothy Ann Lewis of Ft. Worth, has been selected to represent Texas as State Cotton Queen in the Cotton States Jubilee fashion show at Philadelphia on July 16, opening day of the Lions International convention. Miss Lewis is a student at Texas Christian university where she is majoring in music.

both houses to get action on a temporary measure.

Senator Wherry (R-Neb), backed by Senator O'Daniel (D-Tex) and others, had just turned down a plea for unanimous agreement even to permit introduction of the extension bill yesterday.

Wherry said he could not consent because even that much of a concession "might hold out hope to the President" for eventual passage.

He stuck to that position in the face of an acknowledgment by Senator Barkley (D-Ky), the majority leader, that "it is not humanly possible that this bill could be enacted between now and Sunday midnight, and OPA will lapse anyway."

Employees of Rail Express Walk Out
 NEW YORK—(AP)—A railway express (clerk in the New York metropolitan area, caused by a walkout of some 10,000 union employees seeking changes in working conditions, yesterday threatened serious difficulties for the garment, fishing and floral trades.

There was little to indicate an immediate change in the situation.

Upward Trend of U. S.

Traffic Deaths Ends

CHICAGO—(AP)—A sharp drop in traffic accident deaths last month from the record year of 1941 has raised some hope that the expected upsurge in the summer highway toll will not reach advance estimates, the national safety council reported yesterday.

May deaths totaled 2,410, 36 per cent higher than in May, 1945, but 21 per cent below the same month in 1941. The May toll brought deaths for the first five months this year to 13,240, an increase of 43 per cent over the same period last year.

The May drop from 1941 marked the first major break in the upward trend of the traffic toll, which has been running neck and neck with that record-setting year.

Alabama Is Seeking Fishing Agreement

MONTGOMERY, Ala.—(AP)—Alabama is seeking an agreement with Louisiana to get around a Louisiana legislative act which levies a heavy license against out of state fishermen.

State Conservation Director Ben Morgan said yesterday that Alabama's Governor Chauncey Sparks is trying to contact Louisiana's governor and arrange a "reciprocal pact."

American Legion To Open Remodeled Hall

Open house with special music and award of a new automobile will be held at the Legion-V. F. W. building, 123 West Foster street, Monday evening at 8 o'clock.

The building was closed several weeks ago for extensive remodeling, which included removal of the wood and metal awning, alteration of the entrance, installation of a new office, kitchen and rest rooms. The main assembly hall has been enlarged and redecorated to provide suitable space for the American Legion, Veterans of Foreign Wars, Disabled American Veterans, the Teen Center, and other functions.

Atomic Bomb Will Be Dropped Today

ABOARD FLAGSHIP MT. McKinley, Sunday—(AP)—Vice Adm. W. H. P. Blandy, chief of the crossroads task force, today officially designated tomorrow (Sunday in the United States) as the day for the atomic bomb drop.

Termination of Food Board Is Announced

WASHINGTON—(AP)—A joint statement by the United States, Great Britain and Canada yesterday announced termination of their combined food board, effective Monday.

Its work will be continued by the international emergency food council of 19 nations which was established June 20.

Until the council was formed, it had been planned to continue the three-nation board to December 31.

Red Cross

(Continued From Page 1)

tral heating in Italy," Miss Waring asserted. She said the only heat most homes have is a "bed warmer." She explained that a basket with coals and ashes was suspended from a frame structure and placed in the bed with the bedding covering it. "And that is all the heat most of us had," she affirmed.

"This heating system is one of the reasons the Italians need clothing so badly. And, remembering that Italy had been at war since 1939, Miss Waring said very little clothing has been manufactured.

Among her many experiences, Miss Waring related the story of the marriage of a British couple in the Church of England in Venice, at which she was bridesmaid. The couple had tried five unsuccessful times to be married, but with both in the service, a date never could be set.

Ultimately, the couple were married and when they left for their brief honeymoon in Northern Italy, they were given the typical American send-off. The jeep in which they traveled was decorated with all the grandeur of tin cans and "just married" signs. "We even threw a little rice after them," Miss Waring said.

Although Miss Waring was in Italy 15 months, she said she never ceased to marvel at the way the American GIs took over the old world. "I'll never forget the GIs, in ultra-modern amphibians, going down the historic Grand Canal of Venice.

Miss Waring arrived back in the United States November 1. She was born in Michigan and explained that this is her first trip to Pampa. Her only statement directly to the local office was, "If only the women of Pampa could have seen how readily the children in the mountain regions of Italy need snow suits and warm clothing, they would be proud to have a part in that distribution."

Sally Rand
(Continued From Page 1)

stairway, also in white chiffon drapery.

She danced in the drapes, waving the mammoth ostrich fans and then minus the drapes. It was all done in dim lavender light, with more fan than Sally visible most of the time, except for a statue-like pose at the finale.

Officer John Hoomey, who testified in detail about nudity yesterday, said she fudged a little, and omitted the part where she usually stands with her back uncovered to the audience.

"Well," said Officer Toomey, somewhat gloomily regarding the applauding press tables. "It's all in the way you look at it. I don't say it's suggestive. It's just the nudity."

Roosevelt To Be News Commentator

LOS ANGELES—(AP)—Col. James Roosevelt, eldest son of the late President announced yesterday he will begin a 15-minute daily radio broadcast at 5:45 PST July 1 as a news commentator over station K.L.A.C. He said the programs will be sponsored by a Pacific coast chain of household appliance stores.

Two Killed

(Continued From Page 1)

according to plan" and that little resistance was encountered thus far.

Sir John Shaw, chief secretary of the Palestine government, said the drive was intended "to end the state of anarchy existing in Palestine and to enable law-abiding citizens to pursue their normal avocations without fear of being kidnapped, murdered or blown up."

He announced that a "rudimentary form" of censorship would be imposed on all press dispatches for the first 24 hours "to insure that the essentials of honesty are complied with."

Sir John declared "I hope it won't be necessary to interfere with correspondents' telegrams, but while the news is sketchy, we wish to guard against incomplete and inaccurate reports."

Degnan Case

(Continued From Page 1)

found between his mattress and the side of the bed.

Even when Tuohy stood over his hospital bed and said: "We have compared your fingerprints with the Degnan note," Heirnes remained impassive and silent.

"The prints are pretty much alike," Tuohy said, but received no reply.

"We are convinced the fingerprint on the note is yours."

The youth stared at him blankly.

Then on a sudden inspiration, chief of detectives Walker Storms, who had accompanied Tuohy to the hospital, spoke to the youth in German.

Heirnes blinked and looked up. "I don't know what they're holding me for," he said.

John Masefield, before he became poet laureate of England, worked in New York City in a bakery, livery stable and finally in a carpet factory in Yonkers.

Small Boy Hanged In Game of Cowboy

GALVESTON—(AP)—What was apparently a harmless game of cowboy ended in death here Friday for M. W. Willoughby, 6.

The boy had tied one end of a rope to a porch screen and the other around the neck. He stumbled as he ran about the yard and the rope pulled taut. Justice of the Peace James L. McKenna returned an inquest verdict that the lad died of strangulation and a broken neck.

He was the son of Mr. and Mrs. E. Willoughby.

Benefiel To Leave For Hollywood Soon

Mr. and Mrs. Carl Benefiel will leave next week for Hollywood, Calif., where Benefiel will manage three theaters there. He will be associated with the Western-Amusement Co.

Benefiel recently resigned as manager of the Pampa branch of Griffith Amusement Co. He had been with the Griffith Co., for about 20 years.

Atomic Test

(Continued From Page 1)

interior of that great, colorful plume.

The object, is to learn the effects of radiation. Mice were chosen because they are physiologically similar to humans.

All the target ships anchored in Bikini lagoon were in position as the test deadline neared. From the U. S. S. Par-amint, Associated Press Correspondent Paul Kern Lee radioed that ten congressmen visited three of the vessels today.

There was one light touch as all hands awaited Blandy's decision on the weather. Scientists and engineers christened the atomic bomb "Gilda" and three painters decorated the missile with a likeness of Actress Rita Hayworth.

HUMIDITY TOO HIGH

NEW YORK—(AP)—Several motorists and pedestrians thought the humidity was a bit too high—so they called a cop.

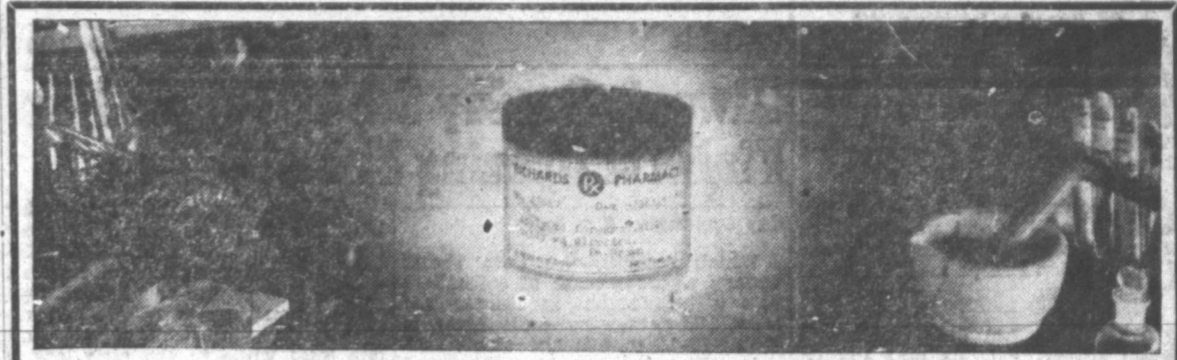

Off to court went a Bronx man who'd converted an open fire plug into a heavy-artillery squirt gun by cupping his hands over the opening and was spraying passing cars and people. The fine—\$3.

Toscanini Declines To Conduct Concert

LONDON—(AP)—Orchestra Conductor Arturo Toscanini yesterday telephoned his regrets to London that he would not conduct a symphony concert by Milan's la Scala scheduled for Sunday in Paris.

orchestra at Covent Garden Wednesday and voiced disappointment with Britain's role at the foreign ministers' conference in handling over north Italian communes to France.

Toscanini canceled yesterday a symphony concert by La Scala's orchestra scheduled for Sunday in Paris.

A QUARTER'S WORTH OF ARSENIC

Stop in at any pharmacy and ask for a quarter's worth of arsenic, oxalic acid, bichloride of mercury, or some other violent poison for household use.

The pharmacist will ask what you plan to use the poison for, how you intend to use it, and whether you know how deadly it is. Even though he is legally permitted to sell poisonous substances, he will not do so unless he is convinced that it is in the public interest, and the facts in each case are weighed individually.

If he is satisfied that you live in the neighborhood, that you want the poison for a legitimate purpose that could not be satisfied by a less dangerous substance, that you are fully aware of its lethal character, and that you know how to use it properly and safely, he will get out his Poison Register. In this book he will enter the date, the hour, your name and address, the name and amount of the poison purchased, and a statement of the purpose for which it is to be used. He will then ask you to sign the register to verify the information he has recorded.

Then, and only then, will he sell you the poisonous substance you desire.

Thus does the pharmacist surround the sale of poisons with every possible precaution against misuse due to ignorance. He makes sure that you are under no misapprehension as to the dangers in their use before he sells them.

Hubbers Edge Oilers 2-1 to Even Series

Scott's Scrap Book

By FRANK STALLINGS
(Substituting for Scott Rafferty)
Scott was finally persuaded to take off for a couple of weeks after arguing against it heatedly. It was possibly by some mistake, but I am to substitute for him in his absence these two weeks.

This column will be used to put in little items of old news and to bring up to date some of the sports happenings in Pampa and surrounding territory.

The three team golf match between Huber, Phillips and Pampa country clubs will be started this morning at 10:30 with 25 or 30 players from each club entering. The match will be played three points to the team. All participants are to be at the Pampa Country club at 10:30.

Shamrock is having a big Jaycee softball tournament in which 12 teams have entered. It is to be a six day affair and the games are being played under the lights, starting at 8 p. m. Games were played Wednesday, Thursday, Friday and the finals are scheduled for this afternoon.

Frank Leder has agreed to make out the schedule for the proposed City League. He has asked me to announce that there will be a meeting of all the captains or sponsors of the teams in order that they may be registered. All teams must be represented at this meeting Friday evening at 8 p. m.

Which reminds me that Frank Leder's vigorous team of softballers won a tournament in Borger last week. They outscored an Amarillo squad 15-14 to win the championship. The tourney was sponsored by the Frank Phillips Men's club of Borger.

There are at least two more teams that are anxious to start the league this year. They are the McWilliams team and Alpaico Construction Co. team. These two played a practice tilt Friday night, and the McWilliams bunch whipped Alpaico 24-13.

Shamrock's Tennis tournament is getting under way as play has started. Twenty-six players are now entered, but 30 are wanted.

The Pampa Junior Oilers, sponsored by the American Legion, are a group of hustling boys who are looking for some competition. If there is anyone who wishes to challenge them it would be appreciated.

DODGERS 12, BRAVES 3
BROOKLYN.—The Brooklyn Dodgers concentrated most of their scoring in two big innings, a five-run fifth and a six-run sixth to whip the Boston Braves today for the third straight time, 12-3. Kirby Higbe gave up seven hits to register his eighth triumph without a setback.

PHILADELPHIA 10, PHILLIES 8
PHILADELPHIA.—Scoring three runs in the eighth inning, the New York Giants came from behind to defeat the Philadelphia Phillies 10-8 in a slugfest marked by 28 hits, 16 by the losers.

INDIANS 2, WHITE SOX 0
CHICAGO.—Bob Feller won his 13th game of the season today when the Cleveland Indians beat the Chicago White Sox, 2 to 0, before 9,630 fans. Gene Woodling's triple in the eighth with two on base supplied the margin of victory.

YANKEES 0, ATHLETICS 2
NEW YORK.—Russ Christopher and Jesse Flores combined their pitching talents today to shut out the New York Yankees 2-0 and hand veteran Charley (Red) Ruffing his first defeat of the season after five straight victories. George McQuinn accounted for the first Yankee run when he smashed his third homer of the season.

DALLASITE LEADS IN CANADIAN OPEN
MONTREAL.—(P)—Harry Todd of Dallas, Texas, blazed around the Beaconsfield club course in a six-under-par 66 yesterday to hold a slim one-stroke lead at the 54-hole mark of the Canadian open golf championship.

The lanky Texan clipped one stroke from par on the first nine with a 35, then on the steam in the stretch with a sizzling five under par 31 for a 66 and a total of 207.

Pressing Todd closely at 208 was a trio headed by Lloyd Mangrum, U. S. open champion from Chicago, who also turned in a 35-31-66 today. George Fazio of Los Angeles and Gordon Brydson of Toronto each turned in third round 70s to match Mangrum's 208.

Another pair of ranking U. S. pros, E. J. (Dutch) Harrison of Little Rock, Ark., and big Vic Ghezzi of Knoxville, Tenn., were right up in the running with 209s. Harrison, lead at the halfway mark, skidded to an even par 72, not impressive in this field of par-busters. Ghezzi, co-runnerup to Mangrum in the U. S. open, breezed around the course in a snappy 69.

The third 69 of the day was turned in by Skip Alexander of Lexington, N. C., who was three strokes off the pace with 210. He was tied with Bobby Burns of Burlington, Ont., who fired a 69.

HOPES OF WINNING DAVIS CUP BRIGHT
SOUTH ORANGE, N. J.—(P)—Uncle Sam's hopes of wresting the Davis cup from Australia seemed brighter yesterday when Frank Parker and Billy Talbert turned in easy victories over their singles rivals to give the United States a 2-0 lead over Mexico in the five-match North American zone cup tennis series.

Birk accounted for Rolando Vega by scores of 6-0, 6-0, 6-2, while Talbert defeated Rolando's brother, Armando, the Mexican singles champion, 6-1, 6-2, 6-1.

Kiwanis Sunday School League Near Finish of Opening Half of Season

With the exception of two junior boys' games to be played Tuesday evening, the first half of the Kiwanis club Sunday School Softball league is over. In the Senior boys competition the First Methodists copped first place with six wins and one loss; while in the girls league the First Baptist came out with eight wins and no losses. In the unfinished junior boys league the Methodist boys again hold the lead with six wins and no losses.

The games to be played Tuesday will be the First Presbyterian against the Harrah Methodist and the First Methodist will tackle the Calvary Baptist.

The second place winners will also be in the runoffs to be played at the end of the second half of play. So far the teams eligible to play in the runoffs are: senior boys, First Methodist and Central Baptist; girls, First Baptist and First Methodist and Central Baptist; and junior boys, First Methodist and First Baptist.

The second period of play will begin sometime next week when the new schedules are worked out and the new playing diamonds are completed west of the high school.

White Is Loser In Pitchers' Duel With Lee Forrest

LUBBOCK.—(Special)—The Lubbock Oilers swamped the Oilers 10-2 last night to capture two of the three games in the current series. Heinz, the Lubbock pitcher allowed only 5 hits and 2 runs. Otey the Oiler second baseman, got two of the hits.

LUBBOCK.—(Special)—Featured by a brilliant mound duel between Lubbock's Lee Forrest and the Oilers' Foster White, the Oilers edged the Pampa team 2-1 Friday night to even the score in the second of the three game series.

Pampa took the lead in the third inning when Al Johnston opened with a triple and scored on Zigelman's single. Johnston's was the first hit off Forrest. The other three were scattered one coming in every other inning.

The Lubbock scores came in the fatal eighth when Watkins hit a single, Al Carr bunted and got on safely then Gen Hodge blasted a double to score the two on base.

The Oilers were without the services of Tony Range, regular third baseman who is in Illinois visiting his wife who is sick. Jack Riley went to third and Al Johnston batted right field.

The Oilers will open a six game series of home games here today beginning at 2:30. The Abilene Blue Sox will play three games here then the Lamesa Lobos will be here for a game Wednesday night and a double header the 4th of July.

Dallasite Leads In Canadian Open
MONTREAL.—(P)—Harry Todd of Dallas, Texas, blazed around the Beaconsfield club course in a six-under-par 66 yesterday to hold a slim one-stroke lead at the 54-hole mark of the Canadian open golf championship.

The lanky Texan clipped one stroke from par on the first nine with a 35, then on the steam in the stretch with a sizzling five under par 31 for a 66 and a total of 207.

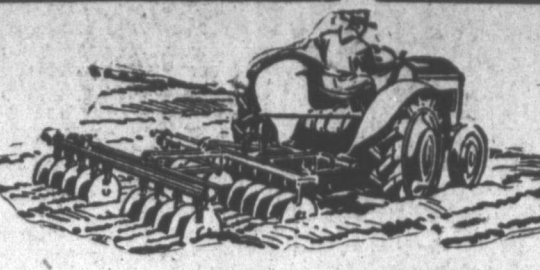

Pressing Todd closely at 208 was a trio headed by Lloyd Mangrum, U. S. open champion from Chicago, who also turned in a 35-31-66 today. George Fazio of Los Angeles and Gordon Brydson of Toronto each turned in third round 70s to match Mangrum's 208.

Another pair of ranking U. S. pros, E. J. (Dutch) Harrison of Little Rock, Ark., and big Vic Ghezzi of Knoxville, Tenn., were right up in the running with 209s. Harrison, lead at the halfway mark, skidded to an even par 72, not impressive in this field of par-busters. Ghezzi, co-runnerup to Mangrum in the U. S. open, breezed around the course in a snappy 69.

The third 69 of the day was turned in by Skip Alexander of Lexington, N. C., who was three strokes off the pace with 210. He was tied with Bobby Burns of Burlington, Ont., who fired a 69.

Hopes of Winning Davis Cup Bright
SOUTH ORANGE, N. J.—(P)—Uncle Sam's hopes of wresting the Davis cup from Australia seemed brighter yesterday when Frank Parker and Billy Talbert turned in easy victories over their singles rivals to give the United States a 2-0 lead over Mexico in the five-match North American zone cup tennis series.

Birk accounted for Rolando Vega by scores of 6-0, 6-0, 6-2, while Talbert defeated Rolando's brother, Armando, the Mexican singles champion, 6-1, 6-2, 6-1.

Candidates Go Drumming In Big Population Centers

By DAVE CHEAVENS
The most talked of political event of the past week was Gov. Coke's prediction that Beauvoir H. Jester and Grover Sellers would be the run-off pair. This caused some other candidates to give off steam and other signs of resentment.

Although Stevenson told reporters at a mid-week press conference that he did not want anybody to get the idea that he was promoting anybody's candidacy, some of the candidates took it that way anyhow. Jerry Sadler called it "1948 senatorial swapping," a "twin endorsement," that the voters will repudiate. John Lee Smith commented that the governor "loves his twin appointees." He said Stevenson saw that Sellers and Jester were slipping badly and that the governor wanted to bolster them. Caso March brushed the predictions aside with the comment that Jester and Sellers were merely stooges of the governor and that it was only natural that Stevenson would favor them. First to comment were Jester and Sellers. Sellers said the governor was at least half right, and Jester said that the governor's political predictions usually were good. Dr. Homer P. Rainey, whom Stevenson put in third place, had nothing to add to his previous prediction that

WHERE DID THE BUTTER GO?

... Americans are using it in other forms

Knowing that American dairymen are producing more milk than at any time in history, it is hard for many people to understand why they cannot get butter. The real facts are that, for the most part, they are getting that butter in other forms. Americans consumed 16 billion pounds more milk as milk and cream in 1945, than in the five previous years. That is enough to make six pounds of butter a year for every man, woman, and child in the United States. Manufacture of other milk products for American fighters and Lend Lease increased enormously. American food habits are improving rapidly, points out the National Dairy Council, and there is a heavy demand for milk and milk products. This is creating a situation which makes it difficult for production to catch up with demand.

NEWS OF OUR MEN—WOMEN IN UNIFORM

Ten Panhandle men were given honorable discharges at the naval separation center at Norman, Okla. during the latter part of June. Wesley Newton Daniel, CM 3/c, of Lefors, was discharged June 9. Daniel served in the Pacific theater for 20 months and 24 days, and was last stationed in Japan. Also discharged were: S1/c Chaxton Dale Butler, 15 months in the Pacific; AMM 3/c Homer C. Dunn, Lefors; S3/c Owen Carter, 906 E. Murphy street, Pampa 10 months overseas; Kenneth Lee Elshelmer, SSM (L) 2/c, 1845 Duncan, 22 1/2 months overseas; and PM3/c Carl Melvin McAndrews of Borger, S1/2 Billy Gene Morgan, Clarendon; Ships Cook 3/c J. C. Tobins, Delwin; and Fireman 1/c James Harold Collum, Hereford.

The war department personnel separation center at Camp Chaffee, Ark., announces the discharge of two Panhandle men, T/4 Arthur L. Langhry of Canadian, and T/5 Paul W. Brown of Pampa.

The separation center at Fort Sam Houston, announces the discharge on June 27 of Sgt. Melvin V. Watkins of Box 1844, Pampa.

The banana plant grows to a height of 30 feet. There are about 60,000 retail druggists in the United States.

Criminals on their way to be hanged in early England were presented with a glass of ale along the way.

Mass Starvation Has Been Averted

OTTAWA—(AP)—Herbert Hoover, in a "final report" on his famine mission to 38 nations, declared Friday night that the gap between available cereal supplies and minimum needs has been closed and that, except for China, mass starvation in the world apparently has been averted. Speaking at the invitation of the Canadian government, the former U. S. President said: "It is at least reassuring that if we have continued cooperative action on the various nations, mass starvation will be prevented, with one exception, that exception is China where transportation to the interior and inadequate organization has rendered relief only partially successful." "In other famine areas there will be suffering," he said, "many of the old people and the weaker children will fall by the wayside. Nevertheless, the great majority of the endangered will be saved."

The first Michigan state fish hatchery was built in 1873. Colombia is the only South American country with both a Pacific and a Caribbean coast.

ket, a survey revealed. The wheat continues to grade No. 1 white, altogether, and the test likewise remains around 61. This gives the county the best overall quality for its wheat in recent years. The market price last Wednesday was \$1.70.

Palo Duro post of the American Legion will hold a celebration on the Fourth of July at Buffalo stadium of West Texas State college, beginning at 8 p.m. The program is to be varied, including sports, music, stunts, and ending with a huge, complete display of fireworks.

Funds raised by this celebration will be used to enlarge and remodel the Legion home, made necessary by the increase in membership of World War II veterans.

An old time fiddling contest will be held on the afternoon of July 4 at five o'clock in the main street section of Clarendon. This old time music is still appreciated by young

and old, and this section of the country has some of the best talent to be found in the State of Texas. Petitions for the signature of tax payers in Spearman are asking the city officials to call an election to vote \$40,000 in revenue bonds for improvement of water works and sewerage of that city. The improvements would include a new water well, installation of larger water mains in some sections of the city, and sewerage coverage in the part of the city not now serviced by this public utility.

In talks before the Lions and Rotary clubs, Mayor W. E. Dameron of Hereford, outlined plans of the present city administration for the growth and improvement of Hereford, and made a powerful appeal for public support in carrying out the program.

Pointing out that city revenues, cut to the bone during the depression years, are now far too small to support the growth and progress demanded by the city, Dameron stated flatly that taxes must go up if Hereford is to keep pace.

A modern theater, for which movie fans of Miami have been awaiting so long, was completed last week and will be opened to the public within a few days. The new theater is owned and operated by J. E. Shewmaker. The theater, which has a seating capacity of about 200, is completely air conditioned for your comfort, thereby making it a desirable place to spend many of the forthcoming hot summer evenings.

It has been reported that 81 cars of wheat have been shipped out of Groom up to last Tuesday noon. Farmers having storage space are

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose

bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

Mainly About Pampa and Her Neighbor Towns

Duane Hogsett, student of Pampa university, is home for the summer. He is the son of Mr. and Mrs. Frank Hogsett, 710 Finley. Hogsett, second semester sophomore, is a chemical engineer major.

Panhandle Field Wells Are Tested

The local office of the Texas Railroad commission tested five oil and gas wells in the Panhandle field last week. Gray county had two, Hutchinson, Potter, and Hansford, came up with one each.

In Gray county the Johnson Oil & Gas Co., Lovett No. 2 tested 115 barrels in a 24 hour test, and the Kimberlin & Howse, Bowers No. 3 tested 45 barrels.

In Hutchinson county, the Gulf Oil Corp., C. L. Dial, et al No. 89 tested 21 barrels. This was a retest by the commission.

The Canadian River Gas Co., in Potter county, Masterson No. B-8 tested 82,000 million cubic feet of gas.

And in Hansford county, the Phillips Petroleum, Light No. 1, tested 12,300 million cubic feet of gas.

Counsel Hopes To Prove Bormann Dead

NUERNBERG—(AP)—Counsel for Martin Bormann told the war crimes tribunal yesterday he had hoped to prove beyond doubt that Hitler's last deputy was dead, but for lack of witnesses he was unable to do so.

The prolific East Texas oil field was discovered in 1930.

News of Interest To Oil Men

Six Wells Completed During Week In Panhandle Field; One in Gray

ANDREW M. HOWSLEY, of Albany, above, has been appointed general counsel for the Texas Mid-Continent Oil and Gas Association, according to an announcement from the association headquarters in Dallas by Fred W. Shield, president.

Eight New Wells Planned in Field

Eight notices of intention to drill were filed last week with the local office of the Texas Railroad commission.

In Hutchinson county, the J. M. Huber Corp., Burch-Weatherly No. 7, A&B survey, 1210 feet from north and 990 feet from the west lines of section 24, block Y, A&B survey.

In Hutchinson county, the J. M. Huber Corp., Burch-Weatherly No. 8, A&B survey, 2220 feet from north and 990 feet from the west lines of section 24, block 44, H&TC survey.

Moore county had only one, the Shamrock Oil and Gas Corp., Mc-Deane No. 2, H&TC survey, located 680 feet from the south and east lines of section 325, block 44, five miles northwest of Dumas.

Carson county had two for the week, the Cities Service Gas Co., H. T. Deahl No. 2, A&B survey, located 2569 feet from the north and 2569 feet from the west lines of section 18, block "S"; 22 miles southwest of Borger. Also, the W. D. Kelley, J. H. Urbanczyk No. 1, H&GN survey, located 990 feet from the south and 330 feet from the east lines of NE/4 section 25, block 4; 14 miles northwest of White Deer.

In Potter county, the Canadian River Gas Co., Bivins Estate No. 32, D&P survey, located 2640 feet from the north and east lines of section 22, block 018; 19 miles south of Dumas.

The Humble Oil and Refg. Co., Bateman Trust No. 23, J. B. Rector survey, located 5831 feet from the north and 361 from the west lines of section 117, block "A"; 6 miles east of Guthrie, was filed from King county.

Wheeler county came in with only one, the Smith Bros. Refg. Co., Inc., Sitter "C" No. C-1, H&GN survey, located 990 feet from the south and east lines of section 28 block 24; 14 miles northeast of Wheeler.

La Guardia Asked To Plead for UNRRA
BERLIN—(AP)—Marshall MacDuffie, chief of the UNRRA mission to the Soviet Ukraine, said yesterday he had urged UNRRA Director Fiorello La Guardia to plead against congressional action threatening to cut off funds for "this extremely necessary work" in Russia.

Progress Reports Made on 7 Wells in Panhandle Field

range 16E was drilled to total depth of 2760 feet, treated with 14,000 gallons of acid, and produced 21.1 million cubic feet of gas, at a rock pressure of 376 pounds and lime pay at 2669-2760 feet.

Skelly Oil Co., Henry C. Hitch No. 1, located at section 18, township 2N, range 16E, was drilled to a total depth of 2769 feet, treated with 12,000 gallons of acid and produced 22.8 million cubic feet of gas. Rock pressure was 415 pounds and lime pay was at 2670-2769 feet.

Barnhart Field Hearing Is Set

AUSTIN—(AP)—The Railroad commission announced yesterday that a hearing has been set for August 21 to determine the highest productive capacity of the Barnhart field in Reagan county and the Todd deep field in Crockett county.

It also announced that a hearing has been set for September 10 to determine the highest productive capacity of the Anton field in Lamb county and the Bateman ranch field in King county.

Politicians To Have Support of Negroes

CINCINNATI—(AP)—The national association for the advancement of colored people plans "a program in support of our political friends." Its board of directors Friday night recommended to the annual NAACP convention the appointment of a six-member committee—three to be named by the board and three by the convention—to formulate a policy of political action.

Committee Okays Oil Leasing Bill

WASHINGTON—(AP)—The house public lands committee approved yesterday an oil leasing bill intended to encourage exploration for new oil-producing areas.

The house version comprises several points of dispute between the interior department and the bill as passed by the senate. The three major changes provide:

1. Only wells successfully drilled beyond what the department believes to be the limits of proven fields would be eligible for a 12 1/2 per cent royalty on production.

2. The special royalty would be available to a "discovery" wells drilled under a UNI agreement only if the agreement were approved by the department before the discovery was made.

3. All successful "wildcat" drillers would be eligible for the low royalty.

Owners of wells on proven oil fields in the public domain pay a "stepped rate" of royalty on production, ranging from 12 1/2 to 25 per cent. Rep. Barrett (R-Wyo.), explained to a reporter. The lower figure is offered as an incentive to test drilling in unproven fields, he said.

British Action Is 'Act of Aggression'

LONDON—(AP)—The Jewish agency for Palestine said Britain's action against Jewish leaders in Palestine yesterday was a "clear act of aggression" against the entire Jewish people.

Seizure of the agency Jerusalem headquarters and the arrest of its leaders, the statement said, were designed to "destroy both the achievements and aspirations of the Jewish people."

Investigation of Drive Is Ordered

WASHINGTON—(AP)—A senate committee formally ordered a "thorough investigation" on the Montana primary election campaign yesterday on a complaint from Sen. Wheeler, who is seeking democratic renomination there.

A decision on the question of looking into Senator Bilbo's campaign in Mississippi was deferred until Monday. Meanwhile the National Negro council asked President Truman to send United States troops to "protect the polls" in Mississippi's primaries Tuesday as a guarantee of the Negro's right to vote.

In a message to the President, council director Edgar C. Brown protested the action of chairman Green (D-RI), in postponing a senate elections committee inquiry into charges that Senator Bilbo had appealed for "violence" to prevent Negroes from voting.

Brown termed the delay "inexcusable" and a "cruel slapdown of the Negro." He said there was precedent for sending troops in General MacArthur's use of them in the Japanese elections April 10.

The senate special committee to investigate campaign expenditures said it will send investigators to Montana to look into what Senator Bridges (NH), called "matters of a rather grave nature."

Neither he nor Senator Edwin Johnson (D-Colo.), the acting chairman, would elaborate, beyond saying they involved "circulation of scurrilous material and copulation of funds for that circulation."

Temple Celebrates Its 65th Birthday

TEMPLE—(AP)—Temple yesterday was celebrating its 65th birthday. Political speeches, club meetings, band concerts, old fiddlers' contests, street dances and jitterbug competition were attracting central Texans to the celebration.

The Central Texas Pioneers club was to hold an afternoon meeting, after which a birthday and political meeting was scheduled at a downtown city park.

W. R. Brown was to speak on "65 Years Young," and District Attorney James K. Everts was to preside as district and county candidates made 5-minute talks.

Last night, C. I. Mitchell, Jr., was master of ceremonies at a street dance and program including old-time square dancing, jitterbug contests, and an old fiddlers' contest.

Modern oil wells sometimes extend as far as three miles below the earth's surface.

Industry Open to Communists Who Would Play Americans for Suckers

NEW YORK—Playing Americans for suckers is an undeclared war to wreck and capture the U. S. government, American communist leaders have an open road through industry for their campaign, Factory Management and Maintenance warns.

"Communist leaders believe they now have enough members—50,000 select saboteurs who can seize and hold every key post in government—enough, under a dictatorship of

party heads, to run the U. S., just as a handful of them now run a union made up of thousands of good Americans," says the national industrial magazine in a revelation of information from sources close to communist party leaders.

"Told they'll be rescued from profit-hoarded oppressors and never asking if they'll have any right to call the new communists cockeyed fascists, thousands of Americans are willing to yield their liberty to a little group aiming to put a dictator in the White House. Playing politics on secondarily, communists are on the way toward achieving their revolution by driving hard through members in unions.

"Industrial management must do something about this in cooperation with labor," the publication states. "Denouncing a communist is practically useless. The fallacies of communism must be shown through some kind of national educational campaign. It may not convert communists, but it should dry up their source of sympathizers. Four basic steps management can take are:

1. "If employee made demands that are communistic or unsound economically, show what is fundamentally wrong with them through logical answers.

2. "Don't advertise communism by labeling attacks as 'led by communists' unless it is a fact, and can be proved.

3. "Especially when economic objections are involved, avoid labeling labor's attempts to gain economic advancement as communistic. The progress labor has made under capitalism is one of the system's strongest points and selling arguments. Labeling natural objectives of labor as communistic means throwing

away capitalism's strongest argument.

4. "Work with regular labor leaders to combat communism in your plant. Labor's best brains are opposed to communism; enlist their support, not only as a powerful ally, but to make communists see that they're working against a united front, one which they won't split easily."

Worry Over False Symptoms Causes Organic Ailments

MINNEAPOLIS.—Worry over false heart symptoms is driving thousands of persons into nervous troubles and even actual organic ailments, when prompt and thorough medical examination would prove such worries to be groundless in two cases out of three, says a report from Northwestern National Life Insurance Company.

Another sizable group of persons actually have some form of heart impairment without realizing it; the layman usually guesses wrong when he attempts to judge the condition of his own heart, the insurance doctors state.

Anyone who suspects the soundness of his heart should seek a thorough medical examination immediately, and be utterly careful of himself until he secures it, because his suspicions might be correct. However, approximately two-thirds of the persons who come to heart specialists in such fear, find that they have been deceived by false symptoms mistakenly associated with heart impairments, the report states.

Because nearly everyone knows of somebody who has "dropped dead" of heart disease, any symptoms which seem to be connected with the heart bring up the specter of sudden death; the result is a paralyzing fear or a violent worry which is highly injurious to the nervous system, to the digestive organs, and potentially to the heart itself.

Chest pains, either dull or of the sharp stabbing variety, are often the result of digestive disturbances, nervousness, or a rheumatic condition of the spine, rather than of a heart condition, the insurance doctors say. A prompt medical examination should be undergone, however, as the symptoms may indicate some condition which calls for treatment or a change in personal habits.

"Fluttering" heart sensations or skipped beats often alarm people, but these are commonly the result of over-use of alcohol, tobacco, coffee or caffeinated drinks, or of emotional tension, fatigue, or indigestion, particularly in the younger age groups. Here too, a change in personal habits, as advised by a physician, may be all that is necessary for relief.

Air hunger, or difficulty in securing a satisfying breath, is a common result of anxiety, or emotional stress; it is often confused with the genuine shortness of breath associated with heart conditions. The widespread habit of air-swallowing or aerophagia, sooner or later results in pseudo-heart symptoms; the addict's stomach becomes so distended with air that the resulting pressure on the diaphragm disturbs the action of the heart; a few hearty belches, however, and the "heart disease" vanishes.

All of the above symptoms are aggravated by anxiety and worry, so tend to get steadily worse. In a vicious circle, as the worrier fears for his heart, the warning states. Common sense moderation in eating, a reduction or elimination of the use of alcohol and tobacco, a gradual easing up on strenuous physical exertion and high-pressure business activity after age 40, plus

635,013,559,600-to-1 Shot Wins

The odds against it were about 635,013,559,600 to 1, say the experts, but a perfect bridge hand was dealt at St. John, N. B., recently. William E. McKenney, national authority and NEA Service bridge editor, declared that in his 20 years' association with the game, he had never before known a perfect hand verified, as was this one, by several witnesses. Pictured above are the hands and the four-some that played them. Left to right are Mrs. J. Reginald Freeman, Mrs. Joseph A. Gray, Mrs. Carl A. Robbins and Mrs. James T. Turnbull. Mrs. Freeman, the dealer, opened with a grand slam in clubs. Mrs. Gray bid a grand slam in hearts. Mrs. Robbins ended it all with a seven-spade bid, she and her partner collecting 1660 points. Mrs. Turnbull held 13 diamonds, but didn't get a chance to bid. The prize—a pair of nylons.

an annual medical examination provide the best program to avoid worry about your heart, the report advises.

Texas Today

By JACK RUTLEDGE AP Staff Writer

West Texas sweltered in unseasonable June warmth for days. So did other parts of Texas, but this story deals with West Texas so don't try to horn in.

At Lubbock, a big wrestling show was planned at Jumbo Webster Softball park. But it had to be called off—because of the cold! Promoter Eled Allen decided when the freak northern struck that the best way to cool for comfort in the outdoor arena, and postponed his match a week.

The Central Power and Light company announced a cut in power rates. And then strange things happened. The night the reduction was announced in Edinburg, power failed for several minutes. The next day, when the announcement was made in McAllen, the lights went off for two minutes.

The failure was blamed, however, not on humiliation of kilowatts at finding themselves decreased in value, but on the weather. Rains fell in the valley, causing shorts.

But weather whims are ignored by the Texas A. and M. college extension service, which sends out its regular bulletin saying the camping and picnic season is here.

Recommended for a picnic lunch is one main dish, possibly containing protein and starchy food, a crisp or chewy vegetable, one starchy food and a fruit. Put like that it sounds

almost unappetizing, but boiled down to simple language it probably could mean veenies, buns and bananas.

An old custom went by the boards in San Antonio this Juneteenth. In the past, police released Negroes held on minor charges so they could celebrate their annual emancipation day.

But this year, a judge in corporation court fined two men for intoxication and disturbing the peace, and when they couldn't pay their fines, they were ordered jailed.

Police problems: Deputy Sheriff H. C. Blakemore of Victoria parked his car and went into a cafe.

When he came out he found a man sitting in the front seat, listening to the radio. Blakemore asked him what he was doing.

"I'm looking for the key," the man said.

"I have it in my pocket," the deputy said grimly, and gave the man a ride—to the police station.

Horse thieves are on the loose in Corpus Christi. Kenneth Dixon reported to police that two bay mares, a sorrel mare branded with a running W upside down, and a sorrel horse had been stolen.

But times have changed. Instead of an old wild west manhunt thundering around brandishing lynchings ropes, the police took out calmly in radio patrol cars.

In San Angelo, Mayor Will R. Edge got a parking ticket. The San Angelo Standard-Times, which plays no favorites, promptly reported the news.

And over in Abilene a nonchalant prisoner walked out of his cell

and calmly called a taxi. Jailer Earl Nunn nabbed him before the taxi arrived put him back where he came from.

Tomatoes may be an expensive item on your budget, but over in Jacksonville, where they grow so many of them, police complain growers are dumping them wholesale in the city limits. "It's a violation of the law," city officials warned, and Judge B. J. Albritton said he would fine culprits a minimum of \$10 per dump from now on.

People are nice. Back in 1882, when El Paso was a sprawling, bustling frontier town where a man's reputation was measured by the speed with which he would draw his sixgun, and more than half the town's business establishments were saloons, three women arrived to open a hospital.

They rented rooms, and launched the hotel idea. Their early experiences were hard and bitter, but the work started by these sisters of charity of St. Vincent De Paul bore fruit.

The hospital still operates, larger and modernly equipped, and is an important part of El Paso's life today. The three Catholic nuns—Sister Stella, Sister Francis and Sister Colores—are well-remembered, and many El Paso girls are named for them.

At Taylor, a tornado wrecked the farms of Louis Hanzelka and Julius Cepcar. A few days later, eight volunteers showed up and by nightfall had plowed and replanted the two farms.

The volunteers furnished their own tractors. At Italy, all members of the Lions club agreed to not eat any food containing wheat until the world food situation was better.

But an ex-GI airman named Jim Walls is helping humanity in a more down-to-earth manner.

He has opened a place of business which specializes in curing hangovers.

The treatment was discovered by airmen during the war, when inhalation of oxygen cured headaches caused by overdrinking.

Wall, in his place called the Aetox Co., treats patients ten to 15 minutes, getting them to breathe pure oxygen.

A Dallas physician said the same results could be obtained by running round the block a few times—if the hangover victim had the strength of inclination. The oxygen, the doctor said, oxidizes or burns off the excess alcohol in the system, thus providing relief.

Triggering an earthquake by an atom bomb explosion is a most unlikely event. Destruction of our cities by atom bombs is a rather likely consequence of the discovery of atomic energy. It must be prevented by making national cooperation replace international rivalry, particularly in this important field.—Dr. David R. Inglis, Johns Hopkins U. physicist.

Oil and gasoline are combinations are hydrogen and carbon atoms, called hydrocarbons.

WORRY AND INDIFFERENCE

★ Overanxiety, particularly about health, is a disease in itself. Physicians call it hypochondria. Those who "enjoy" ill health only make themselves and those about them miserable.

Opposed to chronic worry is complete indifference, to the point of disregard of common-sense health rules and contempt for medical care.

Between these two absurd extremes lies the sane middle road. Petty, transient discomforts need not cause grave concern and frequent trips to the doctor. When symptoms persist or recur with annoying frequency, it is then time to seek professional assistance. Indifference under these circumstances only invites more serious trouble.

Visit our modern prescription department. We are prescription specialists.

New Philippine Republic Keeps Date With Destiny

By AL VALENCIA
 MANILA—(AP)—The Philippine islands are keeping a date with destiny on the spot where, 73 years ago, intrepid Spaniards killed Dr. Jose Rizal, patriot and scholar, who foresaw the independence of the Archipelago.

The descendants of the conquistadores killed the man, but not the idea. For, at the foot of a shell-scarred monument to the man, a solemn government by liberty-loving Americans and Filipinos will be fulfilled July 4.

The Philippine commonwealth will become the republic of the Philippines. Old Glory will be replaced by the Philippine flag and Manuel A. Roxas will take the oath as president of the new nation.

Thus will end officially nearly 48 years of American administration. Manila is rushing final preparations for the event. President Roxas had the new congress appropriate \$200,000 for transportation of official guests and asked another \$250,000 for their housing and entertainment.

J. A. Krug, secretary of the interior, the President Truman's personal representative, will give an address and read the proclamation of independence.

Chief Justice Manuel V. Moran of the Philippines will administer the oath to Vice President Elpidio Quirino and then to Roxas. A treaty of general relations between the United States and the Republic of the Philippines will be signed.

President Roxas and other Filipino leaders see in independence an opportunity to make the republic an outstanding exponent of democracy.

eratic government in the Orient and, as such, to exert a strong influence in the affairs of the Far East.

For 200 years, prior to the Spanish-American war, the islands were non-too-happy colony of Spain. Open revolt first broke out in the middle of the 19th century and came to a climax with the slaying of Rizal December 30, 1896.

U. S. troops occupied Manila Aug. 13, 1898 and proceeded almost immediately to organize a government broadly based on the American system. Within a month public schools had been re-opened.

Commenting on this, former President Sergio Osmeña said in 1925: "The Filipinos will never forget the inspiring spectacle of American soldiers leaving their guns and, as emissaries of peace and good will with book in hand, repairing to the public schools to teach Filipino children the principles of citizenship."

Legal Position of Labor Unimpaired By Recent Strikes

NEW YORK—Organized labor is emerging from the crisis of the coal and rail strikes without the fundamental impairment of its legal position which appeared likely only two weeks ago. But Truman, Whitney, Johnston and Lewis among them have put labor one step further on the road toward regulation. Business Week points out in its current issue:

"Basically, the new restriction on labor is that it must not pull a strike so big as to be equivalent to a general strike in shutting down the economy," says the publication.

"The wartime practice of plant seizure, strengthened by the Connally-Smith act and by congressional version of Truman legislation, provides a mechanism for dealing with such strikes. This mechanism may prove more effective for not being so harsh as to risk a revulsion of public feeling."

"Faced with such a strike, the President seizes the affected industry. With criminal penalties and court orders, he can force the labor leadership to order the men back to work. He can prevent use of the union organization to aid strikers. The strikers themselves, if they stay out, risk the loss of their Wagner act reemployment rights unless the government chooses to take them back."

"True, the new legislation will expire by mid-1947 at the latest. But it establishes a precedent which will be revived whenever the need arises."

"From now on, the big unions in the basic industries like rails, coal and steel must revise their practice of seeking an industry-wide shutdown. They must either rely on political influence to achieve their aims or else substitute a piece-meal attack on an industry—the technique used by the auto unions."

About 25 per cent of the world's known oil reserves are controlled by British-Dutch interests.

Texan Convicted And Is Fined for Hitting Prisoner

BAD NAUHEIM, Germany—(AP)—Pfc. Thomas E. Warren, 216 S. Seventh street, Plainview, Texas, was convicted by a court martial last week of striking a Lichfield, England, guardhouse prisoner with his first and was fined \$100.

Warren, 23, a combat veteran who fought in Africa and Sicily, and was wounded at Omaha beach on D-Day, was the sixth former Lichfield guard convicted of striking soldier prisoners. One officer has been convicted of authorizing such punishment.

Warren's sentence was the heaviest yet given to any enlisted man since the Lichfield trials were transferred here two months ago, although two enlisted guards previously convicted in London were given jail terms of six months and three years.

The officer convicted here was fined \$250, and the three other enlisted guards fined \$60 or \$80 each. Warren was convicted of hitting only one prisoner and acquitted of 14 other charges, although he admitted on the witness stand that he struck two prisoners with his fists and "poked" another with his billy club.

His defense was that Lichfield officers ordered guards to strike prisoners.

"We were ordered that any prisoner who gave us any trouble or backtalk was to be beaten to the floor," he said.

"They told us to be as rough as possible and beat repeaters to get them out of the guardhouse and into the front lines where they were needed. I thought it was my duty as a soldier to obey those orders and that if I didn't I would be thrown into the guardhouse with them."

The prosecutor, Capt. Carl E. Whitney, White Plains, N. Y., insisted that soldiers are not required to obey illegal orders, and that Warren "had ample opportunity to question the legality of these orders which he carried out over a period of several months."

The soldier whom Warren was convicted of striking was Pvt. Fred C. Moore of New Haven, Conn. Warren said Moore refused to give any information about an attempted break by Lichfield prisoners after first admitting he knew about it "so I worked him over for about 15 minutes."

Warren's sentence was the heaviest yet given to any enlisted man since the Lichfield trials were transferred here two months ago, although two enlisted guards previously convicted in London were given jail terms of six months and three years.

The officer convicted here was fined \$250, and the three other enlisted guards fined \$60 or \$80 each. Warren was convicted of hitting only one prisoner and acquitted of 14 other charges, although he admitted on the witness stand that he struck two prisoners with his fists and "poked" another with his billy club.

EVANSTON, Ill.—(AP)—Policeman Henry Rumsfield, was without his motorcycle today because he parked it behind an automobile while writing out a ticket for a motorist who drove through a stop sign.

After getting the ticket the motorist started the car but it was in reverse and it backed over Rumsfield's motorcycle, wrecking it. The driver pleaded that the gear shifter stuck.

Rumsfield couldn't find any violation in his book to cover faulty gear shifters, so the motorist was released, but told to appear in court Monday.

PAMPA Business News...

Air Condition Units Sold at Pampa Supply

Air-conditioning units are becoming more important in the home and office, the management of the Pampa Supply company, 216 North Cuyler, thinks. This fact is pretty well borne out by anyone who wishes to investigate.

At any rate more and more units are being sold by Pampa Supply. That is one of the most important items right now at Pampa Supply, it was learned yesterday.

A crew from the concern, expert in the trade, will install the unit. The Pampa Supply company, telephone 501, was established here in January, 1945, by the present owners and operators, H. G. Keys and Neil Garrett. Mr. Keys was for a number of years manager of Penney's store here in Pampa.

Paints, glass, wall-paper, picture framing materials, plumbing materials—these are some of the products offered to the public at Pampa Supply.

Mr. Keys told The News yesterday that, within a short time, the concern plans to erect a new warehouse here. He said he could not say at this time the size of the warehouse, nor designate its location. New lines of merchandise will be added once it is finished, he added.

A new line of merchandise to be added "very soon," he said, will be all-steel kitchen units.

Another new feature service added at Pampa Supply is the rental of such short-time needs such as floor-sanders and polishers.

Mr. Keys said his business was like all others—it has been hit by the war, but that progress is being made, in that more and more goods are being bought for the general public. A number of trips has been

Smallpox Reached Lowest Ebb in U. S. During '45

NEW YORK, N. Y. — Smallpox reached its lowest ebb in the United States in 1945 according to statisticians of the Metropolitan Life Insurance company. Last year only 346 cases were reported in the entire country, and 13 States and the District of Columbia were completely free of the disease. In Canada only five cases were reported, the statisticians say.

The steady decline of the disease is strikingly brought out by the statisticians by contrasting 1945's 346 cases with the 48,920 cases reported in the United States as recently as 1930.

The smallpox-free States last year, all located on the Atlantic seaboard were Connecticut, Delaware, Florida, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia, and the District of Columbia. Top honors went to Rhode Island, which has not had a case since 1928. The poorest records were made by Indiana, with 50 cases; Arkansas, 31; and Mississippi, 25.

"As long as reservoirs of infection are permitted to remain," say the statisticians, "they will continue to be potential foci of smallpox epidemics, not only for the local residents, but because of modern transportation facilities for the people of other States as well." The statisticians also warn against the threat of infection imported from abroad by troops returning from the Orient.

To this cause is attributed recent outbreaks of virulent smallpox in Seattle and San Francisco, which were rapidly brought under control by strict quarantine measures and by mass vaccination programs.

Motor Supply Offers Huge Parts Stock

One of the Panhandle's finest and largest stocks of wholesale and retail automotive replacement parts, accessories and equipment is stocked by the Motor Supply Co., Inc., located in Pampa at 314 W. Foster.

The firm has stores in Pampa and Amarillo in the Texas Panhandle and in Clovis, New Mexico and maintains wholesale distribution routes over a wide area.

Incorporated Feb. 1, 1946 by Carl J. King, Clyde Bassett and Russell Jarrett, the Motor Supply company, is Panhandle headquarters for practically all famous names in automotive equipment.

Included among these are A-C products, Auto-Lite, Cates, Thermoid, McQuay-Norris, Blackhawk, Bear, Aro, Curtis, Black and Decker and many other familiar to men in the automotive industry.

The firm first began business here in February, 1944, with Clyde Bassett as manager. With King and Jarrett, Bassett assumed ownership at the time of the incorporation and the firm has since then expanded its area supplied with almost every conceivable type of auto replacement parts and equipment.

The formation of the corporation brought us better buying power at greater savings to the customers," Bassett said.

Included among the items stocked by the firm are a complete line of jacks for autos, trucks and farm and oilfield equipment.

The corporation employs nearly 50 persons with seven men operating wholesale delivery routes from Shattuck, Okla., to Carlsbad, New Mexico.

Included among the employees are several veterans receiving training under the GI bill of rights.

"These boys are giving us far better than satisfactory service," Bassett said. "The mastery of the parts business requires much hard work and study and these boys are doing a fine job. We are receiving a carload of auto hoists (lifts), that sell for \$29.95."

Information on all types of auto parts, drop by the Motor Supply Co., Inc., or telephone 570.

COMPLETE LINE OF AUTOMOTIVE PARTS OFFERED

Above is shown an interior scene of the Motor Supply Company, Inc., which is located at 314 West Foster st. The firm is reputed to have one of the most complete

stocks of wholesale and retail stocks of automotive parts in the Panhandle. The concern was incorporated on Jan. 1, 1946, by Carl J. King, Clyde Bassett, and Rus-

sell Jarrett. The firm first began business here in 1944, but it has been in operation at other places in this area adjacent states for a number of years.

William S. Hart's Son Disinherited

LOS ANGELES.—William S. Hart, retired cowboy actor who died last Sunday, disinherited his only child, William S. Hart, Jr., 24, government employe, in a will that bequeathed most of the estimated \$1,000,000 estate to the county of Los Angeles.

Attorney Burton Pitts, who represented the son last week when he was named co-guardian of his father's person but denied guardianship rights to his estate, told reporters that he "imagines Hart, Jr. will contest the will."

Pampa's 24-hour cafe, THE K C WAFFLE HOUSE, 108 West Foster, renders the community a useful purpose in being "always ready to serve you" day or night. It is also rumored that the steaks served there are really good.

"There is NOTHING too big for us to move," stated J. D. Wright, Sr., of the firm of J. D. Wright and Son, 119 South Starkweather. . . . certainly this seems to be the case because some of the recent jobs handled are so immense they almost defy belief—but the fact remains that anyone who has a real big, mean job of moving can get fixed up quickly by calling 788.

Friendship, Courtesy Mark Rex Coffee Shop, Where Motto of 'Good Coffee Is Our Hobby' Still Stands

Public opinion molds the success of a business institution and there are many factors that enter into the formation of this opinion.

Perhaps the most important of these is courtesy and good old Texas friendship and it is these two things that make up largely for the success of the Rex Coffee shop, 318 1/2 West Foster.

Besides good food, delicious coffee and quick service, Mr. and Mrs. R. D. Tyler, "Irene and Doyle," want their customers to feel at ease, whether they are eating a delicious steak, a tempting sandwich, a noon lunch that tastes just like home cooking, or just dawdling over a cup of their famous coffee.

Many folks in the downtown area just automatically go to the Rex when they want a cup of coffee. They know they're always welcome and that they'll always get the best coffee in town.

Since purchasing the coffee shop 18 months ago Doyle and Irene have done their best to serve both their old customers and the many new ones with delicious lunches, steaks, breakfasts, sandwiches, cold drinks and coffee.

For the many working men who patronize the cafe each morning, they prepare delicious lunches to go, including sandwiches, fruit cake or pastries and will fill thermos bottles for those who wish to take coffee or milk.

Although the shortage of meat is growing worse, the Rex still serves delicious breakfasts with ham, bacon or sausage, all being prepared with fresh eggs and the best meats obtainable. Breakfast is served at any hour of the day, from the time the cafe opens at 6 in the morning until closing time at 9 o'clock in the evening.

Delicious steaks of four varieties—T-bone, plain, hamburger and chicken fried—are served the way you want them with hot fried potatoes and lettuce and tomatoes.

Included among the sandwiches served are hamburgers, cheeseburgers, roast beef and pork, cheese, eggs and others when more varieties are available.

Whether its for steaks, lunches, breakfast or coffee, stop by the Rex cafe, where good coffee is a hobby.

DAVIS ELECTRIC COMPANY, 119 West Foster, is doing repair replacement work over a wide area and hopes, in the near future to get materials enough to engage in both large and small electrical contracts for residence and business buildings.

THE REX COFFEE SHOP (next to the Rex Theatre) is getting to be quite a gathering place for her business neighbors (especially members of the Pampa News staff) and is earning a favorable reputation for the excellent coffee and other drinks served as well as sandwiches, lunches and just lots of "good to eat" things.

PEG'S CABS will "get you there and bring you back" in a hurry so let the old man have the car and do your shopping by cab—phone 94 and "count the minutes."

THE CITY CAB COMPANY, phone 441 is putting on new cabs just as rapidly as these units can be bought—in fact everything possible is being done to constantly improve the service.

YOUR LAUNDRY AND DRY CLEANERS is no further from you than your telephone (the number is 675)—you can call these folks and your laundry will be picked up, finished like you wish, and returned to you—it will pay you to investigate the different services offered by this modern laundry.

Much Ado About Suckers
A newcomer has stepped into the spotlight recently occupied by Messrs. Lewis, Petrillo, Curran, Bridges and others suspected of having an undue personal influence over the public work and what is its none other than Uncle Mike Jacobs, the New York boxing promoter.

So the suckers who paid \$10 a ticket had reason to suspect that they might not get their money's worth. There was ample information at hand to protect them from exploitation. No dire threat or physical violence was employed to get them to the ticket window.

Under The Rug—

Peter Edson's Column: POTPOURRI OF NEWS ABOUT TEXAS

Common Ground
By R. C. HOLES

'Both Sides' Debate
The question of how best to present the advantages of free enterprise over a planned economy is a difficult one to solve. I had always figured that a debate with each side having 50 per cent of the time was one of the best methods of showing the advantages of freedom over coercion.

MULTILINGUAL CONTROLS
(The Wall Street Journal)
A news dispatch from Washington in yesterday's issue of this newspaper reported that although the Civilian Production Administration is committed to removing controls over the production of goods, it has imposed seven new controls in the last three months.

NATIONAL WHIRLIGIG

news behind the news

WASHINGTON (NEA) — Dr. John R. Steelman, newly designated to succeed John Snyder as director of the Office of War Mobilization and Reconversion, admits that all he knows about the job is that it's one of the toughest in the government.

WASHINGTON (NEA) — The future supply, quality and price of several basic peace-time commodities—automobile tires, sugar and natural gas for heating homes or operating industries—will depend on the outcome of quiet talks now under way among diplomats, economists and engineers at Washington and London.

WASHINGTON (NEA) — The production and distribution of these products were violently affected by wartime gyrations and dislocations. Vast new sources of supply and methods of processing that compete with the present reservoir were built or developed here and abroad.

WASHINGTON (NEA) — The beneficiaries from the evolution—or overnight revolution—of world commerce are now wrangling with the losers for retention of their new and rich trade.

WASHINGTON (NEA) — It is the task of the economic peacemakers to renegotiate agreements on the basis of the war's distortions and the postwar desire for restoration of a balance that will benefit both producers and consumers.

WASHINGTON (NEA) — How they solve this question will have a far-reaching and everyday effect on the cost and comfort of the American standard of living.

WASHINGTON (NEA) — RUBBER—Here is a quick review of the wartime changes affecting these commodities and the present-day status of the arguments over their respective places in the national economy.

WASHINGTON (NEA) — RUBBER: When Japanese victories on land and sea blocked the lanes to the rich producing areas in Malaya and the Dutch East Indies, the United States was forced to create an entirely new synthetic industry.

WASHINGTON (NEA) — The twenty-five plants in this country can now turn out about 900,000 tons a year, or equal to foreseeable annual consumption, at a present cost of 18 cents a pound.

WASHINGTON (NEA) — BALANCE—But natural rubber is far more desirable for many products, especially tires and personal articles. The synthetic may eventually become equally efficient for all heavy-duty purposes—truck tires, for example—but it has not reached that state at the present moment.

WASHINGTON (NEA) — The immediate idea of balance, therefore, appears to be to purchase about 300,000 or 400,000 tons of the natural and obtain the balance of 600,000 or 500,000 from our war-built plant.

WASHINGTON (NEA) — ARRANGEMENTS—The Anglo-French-Dutch producers have insisted on payment of more than the present figure of 20.25 cents a pound at the point of delivery, which means about 22.5 cents in the United States.

WASHINGTON (NEA) — In similar prewar discussions the three foreign nations were in a position to enforce their own arrangements in price and quantity. Even in the early days of the war, London preferred a profit to building a stockpile in the U. S.

WASHINGTON (NEA) — Now, however, we have the vast going into the Army. Sally said nothing and Norma went on, a note of triumph in her voice, and Sally wanted to warn her to speak more softly but knew it would be misunderstood.

WASHINGTON (NEA) — "He's going to be married before he goes. I told you she was out to land him and I was right. I hear she's announcing it tonight. Pretty cute, isn't he? I feel that way about the other girls, though she had it coming to her for being such a sap. Don't you agree? But of course you—being you—wouldn't. Lucky I didn't fall for his line—like you know—"

WASHINGTON (NEA) — "What's all the row about?" Margaret Adams came into the hall from her own room. "Why, what's the matter, Sally? You look—you look queer. Anything happen?"

WASHINGTON (NEA) — "Nothing," the girl replied dully. "Only Holden just told me about Doctor Hallock leaving an approaching marriage. She intimated also that Hallock is in wmg with Sunderlin—because of one of the nurses."

Leaves From a Correspondent's Life Notebook

By HAL BOYLE
BERLIN—(AP)—The American army is doing what German troops couldn't do in two World Wars—breaking up "the rock of the Marne."

On Aug. 1 it will deactivate the famous Third infantry division, an outfit that fought farther, won more medals and suffered more casualties than perhaps any other United States unit in history.

Without this basic training and tradition, the tradition of the long road from Casablanca to Berchtesgaden, a bitter road marked by such bloody sieges as Sicily, Volturno, Anzio, Mignano, the Vosges, the Colmar Pocket and Neumagen.

By the grace of His Imperial Majesty, John L. Lewis, the United States of America has received a reprieve for two weeks from its sentence to the gas chamber of industrial suffocation.

ALLY—Natural gas: The output of this cheap fuel expanded tremendously under war's demands. Now the producers want the right to furnish it to many southern, Middle Western and eastern areas hitherto supplied by public utilities, the coal operators and other sources.

For once, the coal operators, U. S. Steel and the railroads have an ally in John Lewis, president of the United Mine Workers, and in the Hillman-Murray leadership of the C. I. O.

Nothing formal. You know I'm getting through here this summer—August—? He sounded fustier, "What's that getting through here?" she stammered.

"I expect to go into the Army. When I leave I should like to feel you—you don't hate me—that I—that you are my friend..."

"Please don't!" the girl cried trying desperately to keep back the tears of shame. Oh, why had she ever restored to such subtlety? And why couldn't people let her alone? "You don't understand—you can't know—"

LEVINE'S TWO BIG FLOORS ARE STOCKED WITH CLEARANCE BARGAINS!
