### Committee To Vote on Vets' Home Program

**WASHINGTON, Feb. 20.—(AP)—**The question of putting \$1,000,000 in federal funds behind President Truman's program for 2,700,000 new homes came up for a vote today in the housing committee.

**HALT QUESTIONING**  
The committee agreed to interrupt its questioning of Chester Bowles on continuation of price controls and turned its attention to the legislation intended to provide an unprecedented number of new homes for war veterans in the next two years.

It must be decided whether to write into the bill a provision for a \$1,000,000,000 increase in the federal housing administration's authorization to insure housing mortgages, and also whether the government should provide \$500,000,000 for subsidy payments to bring out larger production of scarce building materials.

**FORD INVITED**  
Meanwhile, Chairman Spence (D-Ky) telegraphed Henry Ford 2nd, inviting him to appear personally before the committee to give his side of the Ford Motor company's argument for OPA on automobile price ceilings.

Young Ford came dramatically into the price control picture yesterday when Bowles, newly appointed economic stabilizer, told the banking group the Ford Motor Co. had requested a 55 percent increase in the price of Ford automobiles.

**'OUTRAGEOUS' REQUEST**  
This happened last summer, Bowles said, calling the request "outrageous." Instead Ford got a price increase of about six percent over the 1942 figures at the manufacturer's level.

Carrying his fight for price control extension to the nation in a radio address last night, Bowles lashed out at the "few small but powerful pressure groups" which he said are trying to break down the defenses against higher living costs.

## Tuberculin Tests Will Be Given in All Local Schools

Testing of school children in a county wide search for tuberculosis germs will start Friday at Woodrow Wilson school, with Mrs. Joe Stephens, R. N., in charge of giving the patch tests.

Students have been issued slips for obtaining their parents permission to be tested. Monday students at the junior high school will have the opportunity to find whether they have a positive or negative reaction to the tuberculin test.

Positive tests do not necessarily mean a person has active tuberculosis, although the person should have a chest X-ray immediately to discover the stage and extent of the tuberculosis germs.

Those who have negative reactions to the test should have another test within a year, it is advised by health authorities.

Plans for tuberculin tests for children in Gray county have been in the formative stage for the past weeks, it being difficult to obtain a qualified person, eligible to give the tests.

The program is sponsored by the Gray County Tuberculosis Assn., whose officers are Hueyln Laylock, president; Mrs. H. M. Stokes, vice president; and B. R. Nuckols, treasurer and recording secretary.

**LONDON, Feb. 20.—(AP)—**Pope Pius XII told the assembly of cardinals that "it is the church which rises today in this world like a signal because without God there cannot be among men real unity."

The pope's broadcast from Vatican City was recorded in London by the Associated Press. Speaking in the Vatican's high, frescoed hall of benedictions the pope commented on "this poor world in which hunger is so prevalent."

**SOCIAL EQUILIBRIUM**  
The church contributes to the equilibrium of the social structure of the world. The church forms and creates man.

**FAITH IN THE CHURCH**  
The church looks after those who have been evacuated from homes or who, because of military service, have stayed away from their homes.

The pontiff pleaded: "Let us have faith in the church. If everything around it crumbles, it remains unshaken."

**Aviation Will Be Subject Tonight at Rotary Institute**

Tonight the second of the series of four lectures being sponsored by the Pampa Rotary club in an Institute of International Understanding will be held at the Junior high school auditorium at 7:30 p. m.

The high school band will give a concert at 7:30. The speaker will be on the platform at 8 o'clock.

An informative speaker on the part aviation is playing in world events, Geoffrey F. Morgan of Santa Monica, Calif., will talk on "The Constructive Use of Air Transport."

Morgan is an educator, writer and lecturer. He is a member of the speakers bureau of the Douglas Aircraft company. The subject is a colliary to the theme of all four lectures sponsored by the Rotary club, i. e., "Steps Toward World Stability."

**President Signs Employment Bill**  
WASHINGTON, Feb. 20.—(AP)—President Truman today signed an employment and production bill which congress passed as a compromise for so-called "full employment" legislation.

Aimed at establishing a government policy of promoting employment, production and purchasing power, the President's original measure was toned down sharply on Capitol Hill.

In its final form, it provides a council of three economic advisers as salaries of \$15,000 who will assist and advise the President in the preparation of a periodic "economic report" to the congress.

This report, together with supplements issued as the council may see fit, will be studied by a "joint committee on the economic report." This group, consisting of seven members from each house of congress, will seek methods of implementing the recommendations.

Shamrock Schools Adopt New Plan

SHAMROCK, Feb. 20 (Special)—The Shamrock public school system has begun work on a three-year program, Sol Blonstein, president of the school board, announced this week.

The outline of the program was submitted by Supt. Elmer J. Moore at the regular meeting of the board of trustees held on Wednesday night of last week, and the plan was adopted by a unanimous vote.

"The main objective of education is a continuous development of the child physically, mentally, emotionally and spiritually so that he will be a happy and useful citizen of a cooperative democratic society," Superintendent Moore stated. This objective may be accomplished by a school continuing to improve in its many phases.

"We must continually evaluate our school and improve it as rapidly as possible," he concluded.

Robert Lee, West Texas Town of 1,000, Scheduled to Have General Moving Day

ROBERT LEE, Tex., Feb. 20—(AP)—Moving day for this West Texas town of 1,000 population may not be far off.

Under plans being formulated the present site will become a lake bed. This would come about with the building of the proposed Buffalo dam across the Colorado, one of Texas' biggest rivers, backing up water for 50 miles.

Robert Lee, the county seat of Coke county, would be inundated to a depth of about 12 feet, but enough water to irrigate 58,000 acres of fertile but thirsty land would be impounded.

L. T. Youngblood, Bronte banker, farmer and president of the sponsoring Upper Colorado river authority, estimated the dam and irrigation system will cost \$20,000,000. He predicted that the project would bring 10,000 additional people into the four-county area.

He pointed out that a large section of West Texas would benefit from increased feed production. This, he said, would be a large factor in the agricultural economy of the district.

Packed up into an area of scenic hills, the lake also would be ideal for a major recreational center, serving thousands of square miles in which surface water of any kind is a rarity. Robert Lee would move, court-house and all, to an elevation north of the proposed lake, the second wholesale move in the town's 57-year history.

NO. 3—WHO CAN USE FORM W-2: WHAT, WHY AND HOW OF INCOME TAX EXPLAINED

By JAMES MARLOW WASHINGTON, Feb. 20—(AP)—Who can use Form W-2, the withholding receipt, in filing his 1945 income tax return? If you can't you must use Form 1040, as a short-form or long-form return, depending upon your individual case.

Form W-2—The receipt given a worker by his boss—shows how much tax regularly was withheld from his wages or salary in 1945. You can use it: 1. If your income was less than \$5,000 and practically all of it was in wages or salary from which the tax regularly was withheld.

2. If—besides your wages or salary—you had income not over \$100 from interest or dividends or other wages not subject to withholding, provided that extra income did not bring the total income to \$5,000.

You can't use Form W-2 for reporting income from rents, professional fees, business, partnerships, estates, trusts, or annuities. Can husbands and wives make a combined return on Form W-2? Yes, if that combined income was less than \$5,000 and fits the requirements listed above.

Examples: 1. Your salary was \$3,000. Your wife's salary was \$1,800. Total: \$4,800. Tax regularly was withheld from both salaries. You—or your wife—additionally had \$100 income from interest or dividends. You could use Form W-2 singly or jointly. 2. Your salary was \$3,000. Your wife did not work but had \$101 income from interest or dividends. You could not make a combined return.

on Form W-2 because her income from dividends or interest was more than \$100. In this case you could use Form W-2. Your wife could use the 1040 short-form. Or the pair of you could make a joint return on the 1040 short-form since your total income was under \$5,000.

Support the combined salaries of yourself and wife—each subject to regular withholding in 1945—was \$5,000 or over but individually less than \$5,000.

You could file separately on Form W-2. Or you could file jointly on the 1040 long form. You could not file jointly on the 1040 short-form which is for total income less than \$5,000.

In the nine community property states—Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Oklahoma, Texas and Washington—husbands and wives cannot file separately on Form W-2.

There's a place on Form W-2 for listing your exemptions but not for listing allowable deductions. That's because everyone using Form W-2 automatically is given a 10 per cent deduction for such things.

If your deductions are more than 10 per cent don't use Form W-2. Use the 1040 long-form. There you'll have to itemize your deductions, and figure out your own tax. But you can claim whatever your deductions are.

You can't use the 1040 short-form and claim deductions of more than 10 per cent. People using the 1040 short-form—like the people using Form W-2—get an automatic 10 per cent allowance for deductions.

### Girls Give Mother Daughter Banquet

MIAMI, Feb. 20 (Special)—The Mother-Daughter banquet given by the F. H. A. girls Saturday evening at six o'clock climaxed the social activities of the Home Economic department this year.

The banquet hall was beautifully decorated, to resemble "Indian spring time." The color scheme was red and yellow and Indian symbols were used for decorations. Also an attractive arrangement of cut flowers added color. Center pieces were miniature tepees and camp fires, and candle light furnished illumination. The place cards were hand decorated with "peace pipe" designs, and the program and menu cards were decorated with "Indian Squaws."

The banquet was given under the direction of Miss Carrie Jo Heare, sponsor of the Home Economic department. Miss Ollie Lynn Allen was master of ceremonies and presented the honored guests with red carnation corsages. Mrs. Ollie Dunivan gave the invocation.

The following program was presented: welcome, Rosemary Cowan; response, Mrs. Ross Cowan; piano solo, Myrtle Holcomb; vocal trio, "Indian Love Call," Joan Maulsby, Doris Dunivan and Betty Williamson. A talk "The Meaning of F. H. A.," Donnie Lee Kitchens; piano solo, Sue Holcomb; vocal solo, Peggy Ramsay; piano solo, Jo Gill.

Farmers would only have to keep their products on the farm for three days, and the (price) problem would be settled.—Henry H. Rathbun, president Dairyman's League Co-operative Association.

### Council of Club Members Asked To Assist in County Hospital Project

The Council of Clubs met Tuesday afternoon in the city club rooms to hear W. B. Weathered, president of the chamber of commerce and member of the hospital project committee, review the activity of the committee and chamber toward the project. A number of the club representatives present took petitions asking the commissioners court to call an election to authorize a bond issue of not more than \$550,000 for the project.

Mr. Weathered explained that the action of the chamber of commerce had been brought about by the many requests from citizens of Gray county and the county medical association for new hospital facilities. The chamber had, therefore, set up a committee headed by Reno Stinson, to study the proposal, he said.

The project, as it is now drawn up, calls for a building with a 100 bed minimum and 25 rooms for nurses quarters. Mr. Weathered also described the methods to be used for financing the hospital with a bond issue.

Nearly fifty representatives of the various women's clubs and their guests, members of the P.-T. A. city council, were present. Mrs. Roy Chisum, president of the council of clubs, conducted the special meeting.

Besides Mr. Weathered, Joe Key and Carl Benefield, members of the hospital committee and Frank Smith vice-president, and "Red" Wedge-worth, manager, from the chamber of commerce were present. W. R. Nuckols, principal at B. M. Baker, and H. A. Yoder, principal at Woodrow Wilson, represented the schools.

### American Oratory Is Sorority Topic

"Modern American Oratory" was the subject of a general discussion at the Monday evening meeting of Beta Sigma Phi. On account of the bad weather the group met in the Calk conference room in the Culbertson Chevrolet building.

Final plans were made for the Beta Sigma Phi formal dance to be held Friday, March 1, at the country club.

Mrs. Robert Carter and Miss Evelyn Morehead were co-hostesses. Members present were: Mrs. C. W. Henry, Mrs. James Poole, Mrs. D. R. Weston, Mrs. John Rankin, Mrs. E. O. Stroup, Mrs. E. E. Shelhamer, Mrs. John Plaster, Mrs. I. R. Lister, Mrs. Cleo Whiteside, Miss Ruth Stapleton, Miss Léora Kinard, Miss LaNelle Scheinagen, Miss Virginia Vaughan, Miss Dona Pursley, Miss Lee Sullivan, and Miss June Hodges.

The power of nylon stockings is an almost incredible thing. In Detroit a housewife who had ignored a new maid's stealing money from her three times in a row, hauled her into court when she walked off with pair of nylon stockings.

In Salt Lake City a basketball fan unable to buy with more money a ticket to the Utah-Brigham Young game, advertised: "Will exchange four pairs of 51-gauge nylons for four tickets to the Utah-B. Y. U. basketball game."

And the offer of a pair or two of nylons for information about an available house or apartment is no rarity among newspaper "Wanted" advertisements.

### Church Women Name Chairmen

Year books for the Pampa Council of church women were distributed during the executive board meeting in the Methodist church parlors Monday afternoon.

Area chairmen, announced by the president, Mrs. Walter Parviance, were Mrs. F. Taylor, Christian personal life; Mrs. Joe Key, Christian community life; and Mrs. H. H. Hahn, Christian world. Committee chairmen for the coming year are: Mrs. D. V. Burton, program; Mrs. H. H. Boynton, membership; Mrs. John McFall, literature; Mrs. George Friant, finance; Mrs. F. H. Gilchrist, projects; Mrs. W. R. Campbell, lepers; Mrs. John McFall, telephone; Mrs. R. H. Nensiel, year book; Mrs. W. S. Dixon, publicity; and Mrs. Horace McBe, historian.

Cooperating with the national council of church women, the local council reported that 521 diapers and 225 baby garments and blankets were sent to European countries during the past month.

The local church women have also sent \$71.22 to the American Mission for lepers. Funds are being raised in the various Pampa churches in the \$50,000 drive in the Southwestern United States for lepers in the Belgian Congo.

Plans were discussed for the observance of the world day of prayer March 8. Service is to be held at the First Methodist church.

### Miami Club Studies Bible Literature

MIAMI, Feb. 20 (Special)—The Home Progress club met in the home of Mrs. C. T. Locke Thursday afternoon with Mrs. E. C. Meador, co-hostess.

Mrs. Locke gave a program on "Master Pieces of Literature in the Bible," discussing phases of poetry, drama, short story, and love story. As special features, Mrs. Mathers and Mrs. Locke played several piano numbers and Mrs. W. C. Scott sang a special number.

Mrs. Ewel Webster and Mrs. Jim Saul were guests. Members present were: Mrs. C. Carr, John Webster, E. C. Meador, C. T. Locke, B. Mathers, W. C. Scott, and Ross Cowan.

### Braised Short Ribs Delight the Men

Here they are—generous chunks of flavorful beef, braised until they are oh! so tender. Serve them with Lyonnaise potatoes (with onion, you know), green beans, and corn breadsticks—for a real man's meal.

### Serve Short Ribs For a Pioneer Meal

Have you ever thought what a grand opportunity February offers for a pioneer party? What we have in mind is one of those gay, informal, frolicsome parties! There might be folk songs, old-time games or dances, perhaps you'll ask the guests to wear pioneer costumes. And the food will be pioneer style, of course.

Even if you don't make it a party—the family can have a lot of fun by themselves. The table can be decked out in a red-checked tablecloth, and there might be log cabin place cards at each place, or a miniature split-rail fence made of Italian breadsticks running down the middle of the table!

**Braised Short Ribs of Beef**  
3 pounds beef short ribs  
1 clove  
Drippings, if needed  
1 1/2 teaspoons salt  
1/2 cup water or tomato juice  
Cut meat into individual servings. Rub with cut clove of garlic. Brown on all sides, slowly, either in its own fat or in drippings. Season with salt and pepper. Add water, cover tightly, and simmer—or cook in slow oven (300 degrees F.) until tender, about 2 1/2 hours. Make gravy with drippings and liquid in pan, and serve separately. Serves 6.

**Simple and Hearty**  
The meal should be simple, but hearty. Why not have short ribs? They're such good, substantial fare; and so thrifty, as well. Braise them to luscious tenderness, and serve them with lyonnaise potatoes and rich, brown gravy. We'll guarantee the men will give this meal three lusty cheers!

Green beans and hot cornbread sticks go mighty well with this main dish combination, and the best salad to serve is a well-seasoned cole slaw. The dessert could be cherry cream pie; or, if you want to "go pioneer" in a big way, try a vinegar pie!

### Presbyterians To Hear Trinity University Head

Presbyterians of Pampa, Canadian, McLean, Borger, White Deer and other surrounding towns, will be in Pampa tonight to hear Dr. Monroe G. Everett, president of Trinity university, San Antonio.

The meeting, to be held at 6:30 in the Palm room of the City hall, is one of a series being conducted by Dr. Everett to show plans for the expansion of Trinity.

In addition to an address, Dr. Everett will show films of the new expansion program, to cost over \$5,000,000.

Trinity university is supported by the Presbyterian churches of the state.

Arch Underwood, Lubbock, is chairman of a committee which will raise over \$1,500,000 in the first part of a long-range program which calls for \$3,000,000 in buildings and the same amount for an endowment.

Six million dollars is required to erect buildings on the newly-acquired campus site, adjacent to beautiful Braekenridge park and the Alamo in San Antonio.

Dr. Douglas Nelson, pastor of the First Presbyterian church here, has

urged all those interested in higher education to attend tonight's meeting. Admission will be 50 cents. A dinner will be served.

Those who plan to attend should call the church office, telephone 331, before the meeting.

INTERDEPENDENCE
Returning veterans have pretty well solved the manpower problem in the rubber industry, we gather from a statement by the B. F. Goodrich company. The company has re-employed more than 2,800 of its own ex-servicemen, and has hired 6,300 other veterans for the first time.
This is pleasant news at a time when public attention is directed toward strikes, curtailed production, and the various plights of the homecoming veteran. It helps explain why, in spite of strikes, unemployment is far below V.J day estimates for this period, and why business generally is in better shape than it would seem to have any right to be.

Values Should Constantly And Rapidly Change
Most all laws passed in the past half century have aimed one way or another at interfering with free market values. Values or price under a free economy are a guide as to what the consumer wants the producer to produce. If these values are artificially interfered with, the producer is fooled and cheated so that he does not get full value for his labor.

Pope Pius XII on Labor Peace
The wire carried the quotation from Pope Pius XII's message that should have the attention of every Christian and every loyal American. He reiterates the fact that this column has repeatedly put forth that the belief is false that "almost, by law of nature" capital and labor are forced to battle implacably.

Frontiers Not Limited
The explanation of why we have so much unemployment usually given by those people who have not studied economic history is that our frontiers are more and more limited; that we have exhausted the frontiers of the West. As a matter of fact, however, our real frontiers are unlimited. They are unlimited because man's ingenuity is constantly discovering how better to harness and use the forces of nature.

By RAY TUCKER
MIXED—Although the retiring and resigning Harold L. Ickes delivered his principal blast against President Truman over the Pauley appointment, the Old Curmudgeon's principal cabinet foe is Robert E. Hannegan, postmaster general and chairman of the democratic national committee.

THREAT—The statesmen and military experts, still refuse to face the threat the atom bomb holds for their services and for civilization itself. It begins to look as if the May-July trials in the Marshall Islands will be no more decisive than pre-war maneuvers in Louisiana and North Carolina, when commercial trucks were employed to simulate tanks.

PREJUDICED—The rules and regulations for the forthcoming test have been rigged against a true trial of the atom bomb. They were drawn by army-navy-air-forces members of the joint chiefs of staff after a backstage quarrel in which the navy and air demanded supreme control.

LIABILITIES—The senate banking and currency committee has reported favorably on the Allen appointment to the RFC, and the full senate will probably abide by that approval. Confirmation of the Allen nomination will probably provide partial solace for a turndown of the Pauley and possibly the Vardaman nominations.

Dear Editor:
I'm an ex-armored infantryman and since I was discharged I've been working here in Pampa and plan to make my home here.

I always take the Pampa News but I can't understand your column called "Common Ground," by R. C. Hoiles. Its whole viewpoint as I understand it is for lower wages.

Signs of the times:
For better or for worse (it depends on the point of view) highway signs are back in force.

It's like old times to see those Burna Shade rhyming series signs. They're everywhere now — usually six in a row spaced about 50 yards apart, new and shiny. One near Harlingen read "Life With Father is More Pleasant—Since—He Got—This Birthday Present." The present, of course, is the shaving cream.

But the wistful little series near Temple was our favorite. "Some People—Go By Air—We Wish—We Could Put—These Signs Up There."

Stores, service stations (one near Corpus Christi is named the "Fresh Start" service station, probably owned by a veteran), roadside stands, all are touching up their old signs, too.

Political action against reaction is the challenge of our time—Commerce Secretary Henry A. Wallace.

More persons aged 17 are arrested than in any other age group.—U. S. Attorney General Tom C. Clark.

He shuffled some more papers and then looked around the semicircle. He might have been a teacher explaining the quantum theorem. "We are trying to trace our movements last evening and as soon as we can do that, we will be in a better position to find the person or persons responsible for her death. Now you can help us greatly by all trying to recall anything that would give us a lead as to where she might have been."

She came and laid her cheek on my hair. "Sorry, Nana. I'll take over now."

I knew I could depend on her, so I left and went to Miss Jenny's room. She was very white, but she and Betsy were sitting there, knitting very steadily. I thought of the knitting women of France and shuddered. The law was crying "Murder." Did that mean that someone of us... I brushed the thought angrily aside. There was some logical explanation of Phillipa's death. Or did it lie in something supernatural, as Dru had said? Had we all, having Phillipa, wished her out of our lives, combined in a force that had swept her illogically toward the cliff's edge and death? "Something has to be done about Phillipa." That does?

In putting over this substitution and getting the house to accept the compromise, the bill's backers were equally smart. In the house were some 84 votes opposed to any kind of full employment bill. If they had been stirred up, opposition might have grown and the bill might have been killed.

That's boiling a 100-word sentence down to 20 words to get at the guts of it. But ask yourself what the difference between "maximum" employment and "full employment" Tweedledum and Tweedledee.

Opponents of the original bill also objected to the declaration that the federal government's responsibility to provide such volume of expenditure as may be needed to assure full employment. So that was cut out. Put in its place was this statement that "It is the con-

strab pulled his head, "We got to find the keys yet. Probably in the rock garden somewhere. We'll have to make a more thorough search there yet."

Betsy spoke quietly, "Where are the keys?"

"Strab pulled his head, "We got to find the keys yet. Probably in the rock garden somewhere. We'll have to make a more thorough search there yet."

Betsy said hoarsely, "It isn't true. Who said that?" She sounded breathless and frightened, and I, who was sitting next to her, put my hand over hers and squeezed it, and Fletcher, opposite her, shook his head.

Zern locked at her and wrinkled his forehead again. "No? Is this? And there was Miss Betsy with the heavy poker in her hand, screaming at Mrs. Fletcher to get out. I was that surprised!"

Zern raised her chin and met Betsy's eyes levelly. "That," she said, "is quite true."

AT that point the man at the telephone called Straub, and Dru took advantage of the interruption to say in a cool, even voice, "I think you can leave Mr. Fletcher Wilson out of your calculations, Mr. Zern. He was with me last night."

Zern said, "Is this a confession, Miss Ellis?"

Dru can hold her head up as proudly as Betsy, with just a hint of arrogance and a bit of contempt for creatures like Zern. "Of what?" she asked.

But Zern had the last word, "Murder—yes an indiscretion."

"Dru, Dru," I thought I can appreciate your wanting to shield Fitch, but you aren't making things any better." But Zern wasn't flustered Dru. "Neither," she answered Zern, in such a tone that he began to look uncomfortable, and then relieved when Straub interrupted from the doorway of the morning-room, "You'll have to lay that hold-up theory of yours on the table, chief. He smiled broadly at all of us. "The car's been found."

Straub's voice had the triumphant note in it that comes only when you have proved yourself to be right. "With an empty gas tank, but with the windows closed and the whole car locked."

Jeffrey spoke quietly, "Where are the keys?"

"Straub pulled his head, "We got to find the keys yet. Probably in the rock garden somewhere. We'll have to make a more thorough search there yet."

Betsy's fingers closed convulsively around mine.

# Hirohito Tells American Newsmen, 'MacArthur Is a Very Great Man'

TOKYO, Feb. 20.—(AP)—Emperor Hirohito told three American newspaper executives in a rare interview this week that the speed of his nation's recovery depends on the cooperation of the United States.

In an atmosphere of unusual informality, the emperor received Robert McLean, president of the Philadelphia Evening Bulletin and of the Associated Press; Norman Chandler, president and publisher of the Los Angeles Times; and Benjamin

McKelway, editor of the Washington Star. Over tea, they discussed a wide range of subjects non-political, with the emperor observing at one point: "MacArthur is a very great man. American troops are conducting themselves 'cooperatively'."

Japan also "is very anxious to cooperate," said the emperor. He gravely requested his visitors to report fully their impressions of Japan as "a contribution to international understanding."

"I hope you will report conditions in Japan as you find them because I believe such a report will contribute to international understanding and to the peace of the world," the emperor said.

Chandler said the reception chamber is a large room on the third floor of the stone residence ministry. It was decorated in imperial maroon and gold. One wall was flanked by a gilded screen. The floor was covered with a thick maroon carpet.

The publishers wore dark business suits, an unusual procedure in a court accustomed to formal diplomatic dress or uniforms.

The newspapermen entered the audience chamber with Itano Goto, chief of the protocol section of the imperial household ministry and who served as interpreter. Hirohito and three major court officials entered from another doorway.

The emperor walked up to his visitors and shook hands with each, saying through the interpreter: "I am so happy to have you here today."

The guests were seated at individual continental small tea tables. Their chairs were upholstered with maroon damask. English tea, with sugar and cream, and cakes were served by formally-dressed attendants.

Hirohito wore rimless spectacles. The newspapermen said he smiled frequently during the conversation, which ranged from hobbies to tragedies of the war.

In response to a question, the emperor said Japan "should become a peaceful and democratic nation."

Hirohito told the executives that he was a subscriber to the army newspaper, Stars and Stripes, but that his "English is not good enough for me to read it."

He said 12-year-old Crown Prince Akihito is studying English. The chubby heir to the throne is in good health, he added.

Hirohito mentioned also that his own principal interest is biology—a hobby for which he maintains a modern laboratory within the palace. He expressed hope that conditions would permit him to return to this summer palace at Hayama, where he could collect seashells in connection with the study.

The emperor and McLean then chatted on the latter's hobby—hunting. "It was very informal throughout," McLean commented.

The interview lasted for 30 minutes. Court officials observed that audiences usually last only a few minutes. Only rarely are foreigners invited to tea. Informality also is an exception.

# Racial Disturbances Reported in Texas

AUSTIN, Feb. 20.—(AP)—Nearly 1,000 racial disturbances in Texas "every one loaded with dynamite and bearing the potentialities of a major riot" have been reported by Homer Garrison, director of the state department of public safety.

In a tabulation yesterday, Garrison said 46 police departments, representing 1,873,000 inhabitants, reported 147 racial disturbances in 1944. By 1945 this had jumped to 924, an increase of 530 per cent.

"It is only because of quick, decisive and impartial action by local officers that gang fights and minor riots have not developed into something much worse," said Garrison.

He characterized as "a significant and dangerous trend" the fact that those cities reporting an increase in arrests also reported an increase in the carrying of concealed weapons.

# Leaves From a Correspondent's Life Notebook

By HAL BOYLE  
NEW DELHI, Feb. 20.—(AP)—You don't have to seek entertainment in India. It comes to you door.

Particularly is this true in Bombay, where every hotel window opening on the street is a box seat to a series of centuries old Indian vaudeville acts in which the animals usually do all the work and the Fakirs collect all the rupees.

So far nobody has come around who can do the Indian rope trick, and I haven't met anyone out here who has ever seen it performed. It is just a legend—like Santa Claus and Paul Bunyan and the five-cent beer.

One of the dreariest acts consists of a team made up of a small boy who sings "Pistol Packing Mamma" and an old woman who plucks an accompaniment on a battered guitar.

Your sympathy for this couple is tempered by the knowledge that in this country nice old beggar ladies have a habit of renting their friends' children, because people are more inclined to be charitable to youngsters. Beggary is an organized racket here, as it is in China.

Bearded Yogis in turbans roam every street and ambush you on corners to let you know what the stars have in store for you in return for a piece of paper money—say five-annas.

The most common of all Indian streets acts are the "battles" between a snake and a mongoose. The snake has no chance.

The Indian entrepreneur builds up his audience by fishing a large snake out of a basket and hanging it at the tired little mongoose he has let out of a gurny sack. The mongoose only looks bored. He knows he doesn't have to go to work on the big snake unless there is a large crowd around that will throw out several rupees.

The day I watched from my hotel window, the snake chafner turned the snake loose and it writhed sleepily away. The mongoose was doing too. But his boss gave him a "the show must go on" glance and the mongoose yawned and with a bored expression, leaped after the snake.

In two leaps he had caught it behind the head, then crunched and killed it. He let it lay and trotted droopily back to his gurny sack.

Bystanders tossed a total of six annas to the pavement—about 12 cents. The snake chafner dropped the dead reptile back into the basket, picked up the coins and strolled off satisfied with his profit.

# Western Union Grants Retroactive Pay Raise

DALLAS, Feb. 20.—(AP)—Western Union Telegraph company employees in the southwest will receive \$5,000,000 in retroactive pay, Charles Giltner, general vice president of the telegraph workers labor union (AFL), said.

The payments are to be paid under a ruling of the national war labor board providing for a retroactive increase of 10 cents an hour for each hour worked between Nov. 10, 1943, and Dec. 29, 1945, date of the ruling.

The southwest area included employees in California, Arizona, Texas, Oklahoma, Arkansas, Louisiana and New Mexico.

Marvel Eugene Rake, P.I.C. box 1452, was honorably discharged from the navy Feb. 9 at the navy separation center at Norman, Okla. After serving three months overseas, his last station was on the USS Sabalo (SS 302), and Portsmouth, N. H.

## Return of 4 Lettermen Brightens Texas Aggie Baseball Prospects

COLLEGE STATION, Texas, Feb. 20.—(AP)—Return of four lettermen from last Aggie teams, among them are three pitchers—Henry Lindsey, Johnny Shufford and Hub Moon—have brightened prospects in baseball at Texas A. and M.

The Aggies, who won only one game last season, will have nine lettermen of the 1945 squad to go with Lindsey, Shufford, Moon and W. B. Bradley, a third baseman here but first-baseman while in the service. Moon also is a first baseman.

Practice starts March 1 and Coach Ed Dimmitt will be assisted by Botchy-Koeh. The latter, however, won't be able to give time to baseball until March 15 when winter football training is over.

Some 75 candidates are expected to turn out March 1.

Among those Dimmitt listed as possible candidates are: Lindsey, Shufford, Moon, Elmer Purdie, Charles Smith and Jim Love, all former lettermen, with Purdie also able to double as catcher. Earl Beesley, squadman pitcher from 1944, also is back and a good prospect.

Catching prospects include: R. E. Prince, letterman center fielder last year; Ed Arnold, Burley Hartley and Bob Tullis, who did some squad duty in 1941 and 1942. Bradley is booked for first base with Moon on hand if needed. At second Dimmitt probably will make his selection from among Tex Thornton, Maurice Van Winkle and Albert Rettig, who had some squad experience.

Shortstop candidates include: Cliff Lindoff and Ray Newsum, a squadman. Rettig also can play this position. Both Rettig and Newsum went to the service before the season had advanced far enough for them to be lettermen but both undoubtedly would have lettered.

Third base candidates include Julian Prasley and Burton French, freshmen. Prasley has played with the El Toro Marines the past three seasons. Both Floyd DeLafoose and Mason Matthews, lettermen who played third last year, have been moved to the outfield in Dimmitt's plans.

There is a sizeable crop of outfield prospects in addition to lettermen Matthews, DeLafoose, Hub Ellis, Jim Winkler and Billy Strange. Prince, Love and Smith also played considerable outfield last year. Newcomers include: Peck Voss and Mac McDonald, both of whom have good sandlot reputations.

## Martin Has Seat Picked for 1948 Olympic Games

By WHITNEY MARTIN  
NEW YORK, Feb. 20.—(AP)—We have our seat selected for the 1948 Olympic games in London are held at the White City stadium.

It is called White City, possibly because it is neither white nor a city. It is a vast, greyish layout in the outskirts of London which is quite popular with dog racing addicts and would be even more popular if they let their fans place a small bet on the rabbit.

It is adaptable to almost any sports activity, however, and we saw a track and field meet there that was run off with the precision of our better American meets.

The seat we have chosen is in the glassed-in section high up in the main grandstand. Here you can sit in plush comfort, partaking of food and liquids served to lined tables by tuxelod waiters and gaze with transcending tolerance at the people below.

As we recall there were some 70,000 spectators at the track meet last summer, the lure being chiefly the presence of Gunder Haegg and Arne Anderson, the Swedish stars who look enough alike to be kintfolk, and run the same way. We do not know the exact capacity of the stadium, but it is our impression there was enough wasted space to provide for many thousands more spectators with a little revamping. Stadium revamping, that is.

One thing the visiting athletes at London will find to their pleasure will be probably the most courteous, sportsmanlike and orderly crowds in the world, a crowd which recognizes the good, clean effort without regard to race or creed.

To us, the crowd attending the track meet presented a most amazing picture, compared with our pushing, jostling, often discourteous American crowds. Maybe it was the result of a patient developed through the lean and harried war years, but whatever the cause the Britons showed a lamlike docility.

Hours before the meet was scheduled to start the lines at the ticket windows started forming. Soon they were stretching more than half a mile, six and eight deep. The fans came from all walks of life, as the cobbler or iron puddler is as likely to be a track fan as the graduate of Eton or Oxford.

It would take two or three regiments of cops to handle such a gathering in this country, yet we did not see more than a half dozen bobbies along that long line of patient Brits. A courteous "lively now" or a crisp "one side please," and the crowd obeyed without question. It was a remarkable demonstration of crowd control.

We have the idea White City or the Wembley stadium or some other plant now in operation will be the scene of the games, as it will take the Britons a long time to rebuild their bomb-torn city, and all construction for several years probably will be confined to necessary building.

We do not know whether or not it has been repaired by now, but last summer the famed center court at Wimbledon was not available for use because a wayward German bomb had crashed through the roof of the stands. Everything considered, it was a remarkable demonstration of material was needed to rebuild devastated homes.

And we think we have it tough.

WACO, Texas, Feb. 20.—(AP)—Golden Bears, who couldn't win a game last year, today held their second Southwest conference basketball championship. They won their only other conference title in 1932.

Baylor clinched the title last night by defeating Texas A. and M. in a closely fought game 44 to 41 to end the season with eleven victories and one defeat—that at the hands of Arkansas.

The Razorbacks, in second place with eight wins and two losses, still have to meet the Aggies in two games.

Behind at the half 20 to 17 in last night's game, the Bears came back in the second half with a fine passing and floor game to take a six point lead. The Aggies tied the score, but with 50 seconds to go Baylor forged ahead 42 to 41. Two free throws boosted their score to 44.

Baylor goes to Buffalo, N. Y., Saturday to play Canisius in the first game of an eastern tour.

## Tully Will Guide East Texas Five

COMMERCE, Feb. 20.—(AP)—Darrell Tully, one of the greatest all-around athletes in East Texas state college history, has been advanced to head basketball and assistant football coach to fill a vacancy created when Dennis Vinzant went to Tulane university as assistant grid coach under Henry Frka.

Tully, who won three letters in football, two in basketball and two in track with East Texas state, also starred in professional football with the Detroit Lions in 1939. He returned to Commerce in 1940 to serve as assistant coach. In 1942 he entered the navy and was the leading scorer of the Georgia pre-flight team, generally rated top service outfit of the nation that year. He came back to East Texas in 1945 to teach in the training school connected with the college.

### Hitler Personally Viewed Invasions

NUERNBERG, Feb. 20.—(AP)—Adolf Hitler drove to Prague by fast automobile on the first day of the invasion of Czechoslovakia, personally stole a half-dozen fine tapestries and left with them in his possession at daybreak the following morning, Soviet Prosecutor L. R. Sheynin told the international military tribunal today.

German troops were barely across the border before convoys of looted equipment were on the way back to the reich, he said, adding that new street cars and trams were lifted bodily off their tracks or taken from the factories and sent into Germany.

River vessels, he said, were seized and divided equally between the Germans and the Hungarians.

Within hours after the arrival of Nazi troops more than \$25,000,000 in gold was confiscated, Sheynin told the court.

Sheynin also asserted that German nationals were settled on the farms of Czechs or Jews who had fled before the invading armies and that all cattle and farm equipment were confiscated from Czech estates.

### Pauley Case

(Continued from page one)

been leading the fight against confirmation of the former democratic national committee treasurer, said the one-time undersecretary of the interior would be called to the stand during the day.

This seemed to indicate that Pauley's opponents thought the witness would substantiate the testimony of his former boss. Ickes said that Pauley approached him in 1944 with the suggestion that \$300,000 in democratic campaign funds could be raised from oil men if the government would not press its claim to ownership of tidelands oil areas.

Some Pauley backers, however, said they had heard that Fortas might not agree with the Ickes version. Fortas himself has kept his own counsel.

Despite a variety of testimony about the activities of Pauley and other California oil men, several senators said the nomination is likely to stand or fall on Ickes' charges and others of similar nature that may be made.

### Wag-Price

include automobiles, refrigerators, washing machines and radios.

If and when these industries apply for higher prices to offset new wage increases, OPA expects to be able to give them an answer quickly.

In the case of industries where complete cost information is not readily available, the agency plans to grant interim price increases pending further surveys.

**GIFT TO BRITAIN**  
WELLINGTON, New Zealand, Feb. 20.—(AP)—The New Zealand government has offered 18,000 tons of food valued at 1,000,000 pounds (\$4,000,000), as a gift to Britain, Acting Prime Minister Walter Nash announced today.

### Work on Sewer Line Under Way

A shipment of 18-inch vitrified tile sewer pipe has been received here and actual work on the construction of a new sewer line will begin in a few days, City Engineer George Thompson said today.

The Alfred-Erik construction company, Houston, which holds the contract for the construction of the main outfall line, has moved most of its equipment here and workmen are unloading the shipment of pipe.

The main outfall line will start at the disposal plant near the city dump grounds, and proceed westward to a manhole near the swimming pool.

A junction on the 18-inch line will be made northwest of the pool. This line, to be of 12-inch pipe, will be laid in a general southeast direction to a point near the packing plant and will continue southwest to a corner of the Wilcox addition.

The line will continue up Malone street. The old line which is being replaced, lies in the alley near Malone street but the new main could not be laid there because of the danger of cave-ins.

Thompson estimated the total length of the main outfall line at approximately six miles. It will take a slightly more than three months to complete the work, he said.

More shipments of the pipe are expected soon.

**Cowboy Governor Of Louisiana Back In Hollywood**  
By BOB THOMAS  
HOLLYWOOD, Feb. 20.—(AP)—The governor of Louisiana today was back in the town he left two years ago as a rootin', tootin' cowboy in horse operas.

Jimie Davis arrived in Hollywood last night and he brought with him assurance of a genuine gubernatorial reception. Accompanying him was a ten man band which gave forth with the governor's most famous tune, "You Are My Sunshine." The vernor, dressed in a brown pin-striped suit and alligator boots, joined in.

At his hotel the governor told me he would do more than absorb the legendary sunshine in his short visit. Together with his band he will record two tunes, his first since assuming office. Also he will do a guest appearance with Frank Sinatra on Wednesday night.

But most important, Gov. Davis will talk some picture deals. "I might be able to do a picture during a summer vacation," he said.

But the pressures of his office would probably prevent that until his terms is up in two years.

Why a nice, healthy guy like Charles "Buddy" Rogers would want to become a movie producer, I don't know. But he tells me he is intent on doing it and has not developed any ulcers as yet.

Buddy has an outfit called Comet Productions and he intends to make six medium-budget pictures a year he has planned the product analytically.

Buddy says he has no ambition to return to the sound stages as an actor. It's too bad, because he could still flutter hearts.

Katherine Hepburn doesn't have to worry about a supply of stand-ins. Adelyn and Patricia Doyle have left her to get married, but she will have their sister, Katherine, for "You Were There." And if Katherine marries, there's always Bernadette and Mimi Doyle.

**LICENSES ISSUED**  
Marriage licenses were issued yesterday to George W. D. Jones and Bettie Lee Davis, and to C. O. Stevens and Bonnie Jean Roberts.

Sugar cane is the chief industry of the Hawaiian islands.

is directed by the Russian government.

Whether any scientific secrets leading up to the development of the atomic bomb had leaked out of this country.

What his position is on the opinion expressed by Joseph E. Davies, former U. S. ambassador to Russia, that the Soviet Union has "every moral right" to seek atomic bomb secrets through military espionage so long as she is barred from such information by her former fighting allies.

For most of these answers, Byrnes referred his questioners to the FBI, which had nothing to say.

But he did say flatly, on top of the statement that the U. S. retains sole knowledge of the atom bomb know-how, that he had no knowledge about.

Any investigation or activity of a spy ring in the United States similar to that reported in Canada.

Any American involved in the Canadian spy ring.

A columnist's report that a foreign agent had been permitted to slip out of this country with a suitcase full of atomic bomb secrets.

Any disagreement between the state department, the FBI and the war department on the arrest of foreign spies.

tor Co., in a telegram to Rep. Brent Spence (D-Ky) chairman of the house banking and currency committee today asserted that his company had applied for no price relief on any of its cars since OPA price ceilings were established.

Commenting on a statement by Chester Bowles, economic stabilizer, that Ford had sought a 55 percent increase in the price of Ford automobiles, young Ford said:

"In making public our estimate last summer that motor cars would cost 55 percent more to make during the first postwar year than they cost in 1941, the price of Ford automobiles failed to make clear that these estimates were submitted to OPA before OPA had announced any price regulations on new cars—more than a month before OPA had given us the basis on which price ceilings were to be calculated."

"What Mr. Bowles had to say on this point and the manner in which he chose to say it left the impression that we had secretly applied for a 55 percent increase in existing price ceilings. Actually, we have applied for no price relief on any of our cars since OPA ceilings were established."

The "Rascals," all three of them, members of the popular trio from the Senior high school, will be featured in several numbers.

Joan Coonrod will strut on "Going Harlem on the Bason Street Blues." It will be a two-act show of the 1917 variety lasting about one hour and 20 minutes.

Tickets are going rapidly. Plenty of good seats on reserve may still be obtained.

### Premier of Greece, Cabinet May Resign

ATHENS, Feb. 20.—(AP)—The newspaper Vima, which normally reflects the views of the government, said today that Premier Themistocles Sophoulis and his cabinet would resign and perhaps abstain from the March 31 elections unless order is restored in Greece.

### U. S. Army Strength Will Be Reduced

NEW DELHI, Feb. 20.—(AP)—American army strength in the India-Burma theater will be reduced to 19,000 officers and men by March 1, a headquarters spokesman said today.

During March, he said, approximately 5,500 men will leave for home aboard troop ships.
