Good Evening

But the Lord is faithful, who shall establish you, and keep you from evil.—I. Thesalonians 3:3.

FRENCH CLOSE TRAP ON NAZIS

Congress To Develop Own Plans For Post War Economic Program

Freedom From Want Is Basis Of FDR Plan

WASHINGTON, March 11 (AP)—Congress gave clear-cut signs today that it intends to make thorough-going, independent investigations before determining any formula for the settlement of post war economic problems.

Smith Calls War Profiteers, Labor Racketeers Traitors

By BROWNWOOD EMERSON
Branding those who seek profit from the war as traitors, Lieut. Gov. John Lee Smith of Texas declared Americans should deal with such treachery with a firing squad.

"Today we are permitting a repetition of that treason on the home front."
Denouncing both profiteering contractors and racketeering labor unions, the lieutenant governor called the situation "abhorrent."

At Sheppard field, Wichita Falls, when veterans of World War I, many of whom had shed their blood in battle for America, some with fingers missing from machinegun bullets, another with a plate in his head after being struck by shrapnel, were denied employment because they were not union members.

Allies Bomb 5 Jap Ships In Pacific

By The Associated Press
Allied warplanes, striking at Japan's vital supply lines, were officially credited with destructive attacks on five more Japanese merchant ships in the Southwest Pacific, while on the Burma front the RAF continued to punish Japanese invasion forces.

Today's war map pictures the Tunisia round-up: (1) Germans drive against British; (2) U. S. retreat from Pichon under Axis artillery; (3) U. S. retreat from Pichon; (4) French come up from south; (5) Rommel retreats in Mareth line sector; (6) British attack retreating Axis forces. (NEA Telephoto)

250,000 Axis Troops Are Bottled Up

(By The Associated Press)
Secretary of War Stimson said today that fighting French troops had made contact with other French legions in a flanking movement around the southern end of the Mareth line in Tunisia, thereby sealing the trap on 250,000 Axis troops under Field Marshal Erwin Rommel.

Twelve young American Lockheed Lightning fighter pilots shot down 15 enemy planes in dogfights over New Guinea with crash, safe landing of one P-38 the only casualty.

Republicans Mobilize Strength Behind Ruml Pay-as-You-Go Plan

American Aid For Allies Is Growing Larger

WASHINGTON, March 11 (AP)—Overwhelmingly approved by the house, the bill to extend the lend lease program another year reached the senate today along with a report that this help to other nations fighting the Axis now totals \$9,632,000,000.

2,000 German Factories Are Wrecked by RAF

LONDON, March 11 (AP)—The RAF's ceaseless bombing offensive, now showering German Europe with fire and explosives at the rate of more than 10,000 tons a month, has already wrecked more than 2,000 German factories and left more than 1,000,000 Germans homeless.

Americans Lose Over 2,000 Men in Tunisia

WASHINGTON, March 11 (AP)—Allied forces in Tunisia "had much the better of the fighting last week," Secretary of War Stimson reported today. But he added that losses on both sides "have been substantial."

News Forgets Own Birthday

You'd think nobody would forget their birthday but you can blame it on the war and a change in peace-time routine, for that's what happened yesterday.

The Pampa News passed its sixteenth birthday yesterday. In reality, it was its sixteenth since its founding on March 10, 1927 as The Pampa Daily News, for the present name of The Pampa News was not adopted for the daily publication until October 8, 1938, four years ago.

First issue of The Pampa Daily News was published by a staff of 11 men. Today there are 35 persons on the payroll, not including the newsboys.

The Pampa News is the descendant of Pampa's first newspaper, The Crony, published on April 6, 1907 by L. L. Ladd, who later moved to Miami, selling The Crony to Joe M. Smith Sr. in 1908, who renamed the paper The Pampa News and this name was kept until March 10, 1927 when it became The Pampa Daily News.

On March 1, 1926, the paper was purchased by the Nunn-Warren Publishing company. With the issue of November 16, 1926 the paper became a bi-weekly and four months later the Pampa Daily News was born.

R. C. Hollis and associates became the owners on June 1, 1936. Present employe with the longest length of continuous service is Horace McBeir, auditor, who has been employed by the newspaper since September 1, 1935.

There are three employes now working on the paper who were working for The News in 1930, 13 years ago. They are W. S. Fleetwood, R. H. Delhotel, and E. B. Emerson.

Fire Chief Ben White's men looking like they would enjoy a real meal at noon today after making two runs this forenoon, the last to a house 1 mile west of Pampa. The fire was fairly well under control when the firemen arrived and they had little trouble in putting it out. Alarms seem to run in cycles. The present one seems to feature gas stoves too close to walls or curtains. Before that there were numerous grass fires.

"Almost as much aid was provided in the last six months as in the previous 18 months," he said, adding:

"In the last 12 months we shipped to our Allies, under lend lease or in fulfillment of previous direct purchase contracts, 20 out of every 100 bombers we produced, 28 out of every 100 fighter planes, 38 out of every 100 light tanks and 33 out of every 100 medium tanks."

Whether the senate can get around to consideration of the extension bill today was uncertain, but on the basis of the 407 to 6 vote by which it swept through the house yesterday it appeared likely that it would be ready for the President's signature within a week.

He told congress that 60 per cent of the transfers in the last quarter were munitions with a value of \$1,175,000,000, that agricultural products made up 16 per cent, and industrial materials 24 per cent.

Stettinius noted a shifting of lend lease aid from the United Kingdom, which received 68 per cent of all shipments in the first quarter.

Half-Inch Moisture Reported in Pampa
The weatherman forecast a temperature of "near 20" for the Panhandle last night, and the mercury dropped to 23 in Pampa, which is pretty good predicting in any man's country.

A heavy snow started falling at 10 o'clock last night, diminishing later on. A 1/2-inch snowfall and 1/2-inch precipitation was reported, however, bringing the 1943 precipitation total to .08 of an inch. Last week's snow brought no measurable precipitation.

Warmer tonight was the forecast for the Panhandle. Overnight low in Pampa was 22 degrees, 6:30 a. m. today; Wednesday maximum, 37, 4:30 p. m., minimum 25, 8:30 a. m.; temperature early this afternoon, 37, same as Wednesday's maximum.

Leaders of the skip-a-year proposal described as "a great disappointment to the taxpayer," the income tax collection plan approved yesterday by the ways and means committee, making "pay-as-you-go" optional with each taxpayer, without any tax abatement, and imposing a 20 per cent withholding levy on the pay-as-you-go plan.

The committee action, putting aside all long-debated pay-as-you-go proposals, transferred to the house floor the battle over income tax abatement as an element in achieving a current payment basis.

As explained by the members, the compromise approved by the ways and means committee would provide:

1. Persons with taxable income in 1942 would file returns and pay one-fourth of 1942 obligations by June 15.

2. Persons with taxable income in 1943 would file returns and pay one-fourth of 1943 obligations by June 15.

3. Persons with taxable income in 1944 would file returns and pay one-fourth of 1944 obligations by June 15.

4. Persons with taxable income in 1945 would file returns and pay one-fourth of 1945 obligations by June 15.

5. Persons with taxable income in 1946 would file returns and pay one-fourth of 1946 obligations by June 15.

Direct damage to steel works in the Essen and Saar, he declared, had cut 1,250,000 tons from Germany's annual steel-making capacity.

Damage to the Phillips radio works at Eindhoven, Holland, cost the Germans the loss of millions of radio tubes annually, a critical loss in modern warfare, he added.

Promising even greater exertions by the RAF, Sinclair added a statement which seemed an indirect answer to criticism of the United States Army Air force's day bombing policy.

"The Americans are lion-hearted, skillful fighters," he said. "Their methods are a complement to our own. They are precious and welcome allies. The more American bombers come to take part in the air offensive, the better we shall be pleased and the sooner the malignant power of Germany will be broken."

Navy Shoots Down Four Jap Planes
WASHINGTON, March 11 (AP)—American fighter planes slapped back a Japanese aerial attack by 10 dive bombers and 12 fighters in the Solomons, the navy reported today, while in the North Pacific bombers hit hard at Japanese positions on Kiska in the Aleutians.

One Japanese dive bomber and three Zero fighters were shot down by American planes which intercepted the enemy raiders who presumably were enroute to attack Henderson field on Guadalcanal in the Solomons.

Chinese Must Rub for Art

By JOHN SELBY
AP Arts Editor

NEW YORK—When you were very young, perhaps you took the nickel Uncle Albert gave you and covered it with paper, and then blackened the paper with the pencil you stole from your father's desk.

The result was a shaded reproduction of the raised figures on the nickel. Important chiefly because it did not lower the trading value of the coin. But in China similar rubbings come under the heading of art. There is a large collection of them now at the Brooklyn Museum.

The Chinese began making rubbings shortly after Confucius' time because the then emperor had ordered the Confucian texts carved on stone to preserve their purity through the centuries, and stones are unhandy to carry about or study. So a way to reproduce them exactly was worked out.

For tens of centuries, a tough, absorbent white paper has been used. The paper is laid on the stone moistened, and pushed into the crevices with a clear pad or a brush. If they drive to the point where it is almost ready to pull away from the stone.

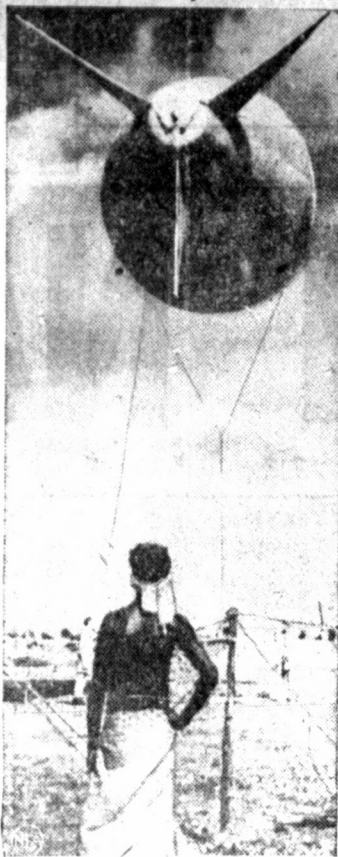

Just before this happens, the artist dips a large round pad into ink which has been ground in water. He pats the paper dextrously with the inked pad, removes it and presses it flat. The design is copied exactly.

The trick is to pat firmly, but evenly—otherwise the ink is too strong in spots and the product valueless.

More than ancient texts and medals are preserved by the rubbings method. Relief from the caves at Lung Men, carved before 534 A.D., are now casualties of war except for the many rubbings that have been made from them. This time, unfortunately, the Japs are not to blame.

It seems that Chinese soldiers quartered in the caves shot the carvings into rubble because they were bored or because they didn't like the effect.

State Officials In Army Would Not Lose Jobs

AUSTIN, March 11 (AP)—Awaiting senate consideration today with a favorable vote from the state affairs committee was a bill providing that absence of state, county and district employees in military service shall not create forfeiture of vacancy of office.

Sponsored by J. Franklin Spears of San Antonio, the measure recognizes a temporary vacancy in such cases and authorizes appointment of a temporary official to serve during the military absence of the regular official.

Spears said the bill would not apply to members of the legislature. Five members of the senate and 13 members of the house are in uniform.

Also winning favorable votes at the committee's public hearing yesterday were bills:

- Repealing the state tax on ores, by Harold Beck of Texarkana and A. M. Aiken, Jr. of Paris.
- Requiring office rent contracts of state agencies to be approved by the board of control, by R. C. Lanning of Jackboro.
- Authorizing creation of the office of county purchasing agent for Jefferson county, by Allan Shivers of Port Arthur.
- Repealing the employment agency law, by Rep. Harvey J. Shell of Gregory.
- Sent to the floor with favorable reports by the committee on criminal jurisprudence were bills:
- Directing the habeas corpus writs after indictment and conviction must be heard by the court of criminal appeals, by R. A. Weinert of Seguin.
- Permitting release from confinement of venereally-diseased persons upon their written pledge to take treatment from a physician or clinic, by Houghton Brockwell of Austin.
- Permitting auxiliary police of civilian defense organizations to carry arms when on active duty, by William E. Stone of Galveston.
- Authorizing a peace officer to arrest without warrant an offender when the offense is committed in his presence or within his view, by Grady Hazewood of Amarillo.
- Providing for payment of all persons summoned by the court as jurors, regardless of whether they are sworn in as jurors, by J. Alton York of Bryan.
- Rogers' bill authorizing commissioners' courts in counties with army or navy bases to create a military zone adjacent to the camps and to establish traffic regulations was sent to a subcommittee for further study.

Pampans Buy Show Livestock

Pampa and White Deer were represented in six of the sales yesterday at the Panhandle Hereford Breeders' Association Victory sale at Amarillo.

Combs-Worley of Pampa consigned Mesquite Mischieff 13 to Hugh Harrell, Claude, for \$310 and C. W. Cactus Domino 106 to J. P. Aiken, White Deer, \$410.

H. H. Fish of Paducah, Advent Mischieff 2 to Emmett LeFors, Pampa, \$425; E. B. Meyer, Amarillo, Domino Prince Standard to Buel Gray, White Deer, \$400; W. A. Sparlin, Reddell, Okla., Young Prince Domino 1 to Emmett LeFors, Pampa, \$1925; Combs-Worley, Pampa, C. W. Fiesta Heiress 7 to Albert Jones, Dumas, \$385.

The show will close today with the youth of the Panhandle placing before bidders the best calves, pigs, and lambs in the area.

Top animal of the Herford sale was Doctor Domino 16, coming 2-year-old son of Domino Lead E-162, consigned by John R. Black of Granbury and sold to J. S. Bridwell of Wichita Falls for \$2,100, nearly double the price brought up by the top bull in last year's show.

Italians Hiring Maids Are to Be Taxed

By The Associated Press

The German radio, in a Rome dispatch, reported Wednesday the announcement of "a bunch of new taxes" under which the Italians will be charged for their domestic servants, pianos and billiard tables.

The tax for anyone employing one maid will be 25 lire annually. For the second maid the tax is 200 lire and for the third 300.

The lira no longer is quoted on the foreign exchange market but before the war it was valued at about 192 cents.

A groom will cost his employer a tax of 300 lire a year; a second room 500 lire; and a third groom 800.

Ownership of a piano will mean a tax of 50 lire a year while the billiard levy is 250.

The broadcast was recorded by the Associated Press.

OVI Wins Right To Handle Foreign News

WASHINGTON, March 11 (AP)—President Roosevelt resolved in favor of the office of war information an undercover dispute between that civilian agency and the office of strategic services over which should control the propaganda offensive abroad.

By executive order, he gave Elmer Davis' office responsibility for the planning, development and execution of "all phases of the federal program of radio, press, publication and related foreign propaganda activities, involving the dissemination of information."

White House Secretary Stephen Early said the office of strategic services, headed by Col. William J. Wild Bill Donovan, would continue to handle military matters in cooperation with the army and navy. This office is a military operation, under the joint chiefs of staff.

The dispute has been in White House hands for months.

Okay, Yahagi, We'll Take You up on That

By The Associated Press

There can be no mention and no compromise in the greater East Asia war," Maj. Gen. Nakao Yahagi, chief of the Japanese army's press section, declared in a Tokyo broadcast recorded Wednesday by the Associated Press.

General Yahagi spoke at Hibuya public hall in Tokyo on the 38th Japanese army day commemorating the battle of Mukden in the Russo-Japanese war.

"We have no other choice but to stake the life of our nation for all time to come and to battle for final victory," Yahagi said.

Car Runs Over Bing Crosby's Left Leg

HOLLYWOOD, March 11 (AP)—Hurrying to catch the last Los Angeles-bound train from Phoenix, Ariz., Tuesday night, crooner Bing Crosby leaped from an auto, slipped and fell and one wheel passed over his left leg.

But Bing made the train even if his companions, Johnny Burke and Jim Van Heusen, had to carry him on, and his personal physician, Dr. Arnold Stevens met him in Los Angeles this morning and arranged for "X-rays."

Bing's business manager-brother, Larry, said injuries apparently consist of contusions and lacerations, but the actor will have to stay in bed for at least a week.

FDR Cheerful, Confident Say New Lawmakers

(President Roosevelt played host to the new congressmen last night at the White House. It was a social affair, but there were political aspects too. For The Associated Press and The Pampa News two freshmen congressmen—one a Democrat, one a Republican—here report on the festivities. The Democrat is James William Fulbright, former president of the University of Arkansas. The Republican is Harris Ellsworth, publisher of the Roseburg, Ore., News-Review, and former manager of the Oregon Newspaper Publishers Association.)

A DEMOCRAT REPORTS BY JAMES WILLIAM FULBRIGHT Democrat, Arkansas

So long as human relations are the essence of government, Franklin D. Roosevelt will do all right. At his informal reception to the new congressmen it was difficult for the most prejudiced to resist the influence of his enthusiasm, his confidence, and his essential humanity. To those who were already favorably disposed, he was quite up to the highest expectations. It is always impressive to enter the White House from the east wing down the interminable corridors. Arriving a little late as chance would have it, I accompanied the exalted Mrs. Luce down the receiving line. She is quite human at an informal party. In the magnificent state dining room, the President conversed with all the new congressmen in a thoroughly informal and intimate manner. He discussed freely his trip to Africa, the strategy in the Pacific and the progress of the war in general. His evident optimism, without making any predictions, was heartening to everyone. He was in a rare good humor, which in itself was encouraging to perceive.

Rayburn Introduces Members Speaker Sam Rayburn directed the proceedings, tactfully and easily presenting the representatives to the President. Throughout the evening I could not help but think that here we have the true symbol of our democracy. The chief executive of the most powerful nation in the world joking and talking to the newest representatives of the people, many of whom, only six months ago, were on farms, in law offices, or small business throughout this land. In spite of all the differences of opinion one may hear any day on Capitol Hill, one came away from this gathering with a feeling that there is a fundamental unity in this great democracy; that in the crisis now facing the world, free men will prevail over the slaves of Hitler.

A REPUBLICAN REPORTS BY HARRIS ELLSWORTH Republican, Oregon

Since the President sent out the invitations to the new members of congress to visit with him at the White House, there has been considerable speculation in the cloak rooms as to what sort of a party it would be. Conjecture ran all the way from the idea that political heat would be turned on to the belief that it would be a brief word with the President in a reception line—that the tired executive would then retire, and the members would talk among themselves over punch and cookies until signalled to leave. The only single clue that appeared in response to a letter accepting the invitation, that the occasion would be social. That was correct. All other guesses were entirely wrong. We gathered in the great east room at the White House. Speaker Sam Rayburn acted as M. C. (In this instance the letters meaning "master of ceremonies.") In single file we were ushered through a hall to the state dining room. The President greeted each of us with a friendly comment or question. Conversation Friendly Shortly a small group gathered around the President. Seated up close, the conversation was free and friendly—it was an intimate and social affair. Everyone had a chance to get in at close range, ask questions and generally engage in the conversation. Some congressman was always ready with a light for the President's cigarette. It was that sort of an informal affair. I think the one thing that impressed everyone—the one thing mentioned most in the crowd as we

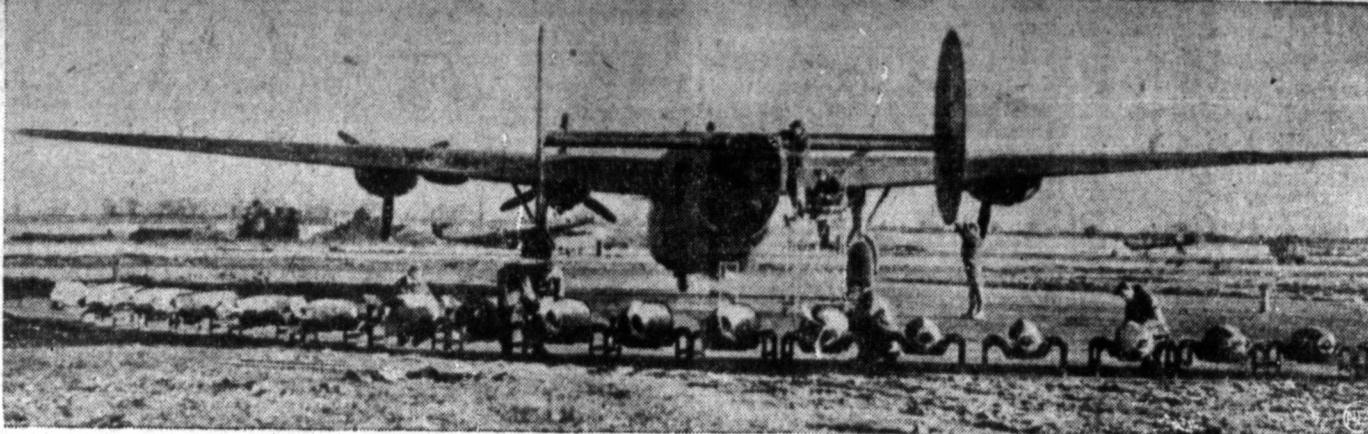

filled out—was the relaxed good health—and good humor of the President. Take my word for it he is anything but a tired old man. No recent photograph of him tells the truth as I saw it. President Roosevelt does not appear tired. His coloring is good and he appears to be in excellent health. He obviously enjoyed the gathering. He talked freely and seemed willing to talk on any subject and to welcome any sort of question. We don't, I am told, ever directly quote the President but I may say that he talked with us, not only about the war—on all fronts—but about building a system of highways after the war—and a score of other things. Strangely enough, no one asked him about the fourth term. I guess he just did not think of it—I know I didn't.

FDR Sure of Self

If there was any deep political implication in the meeting I missed it. It seemed just like mighty good common sense to me—the idea of the chief executive of our country gathering new members of congress around him to get acquainted with them and for informal discussion. I do not think he charmed any followers away from the opposition—nor do I believe he had any particular intention along that line. He is very sure of himself—is certain he is right and obviously is not worried or really concerned about what the other fellow thinks. In bidding us good night—and he stayed until we left the room—the President joshed a bit about doing all of the talking—said he likes to talk—and I believe him. Nothing quite like this has ever been done before, I am told. Now have the new members in this congress from both sides of the aisle met "socially" before. I approve heartily of both breaches of precedent—if that is what to call it. The whole thing was a bit symbolic of what we need in government to finish off this war job—more unity and less politics. A good time was had by all.

Florida Citrus Losses Light

WASHINGTON, March 11 (AP)—The loss to Florida citrus growers from mid-February freezes now is proving light, the agriculture department commented in a report disclosing that orange production in the 1942-43 season, exclusive of Florida tangerines, totaled 78,126,000 boxes, five percent less than last season. Production of Texas oranges was estimated at 2,900,000 boxes compared with 2,850,000 last season, the report, released yesterday, disclosed. California production was estimated at 42,186,000 boxes compared with 41,532,000; the Florida crop was estimated at 32,000,000 boxes compared with 27,200,000 and the Arizona crop at 700,000 boxes compared with 600,000.

Florida's tangerine crop was placed at 4,500,000 compared with 2,100,000. The largest crop of grapefruit on record was estimated at 46,659,000 boxes. Seasons estimates and last season's totals by states showed: Florida 25,000,000 and 19,200,000; Texas 16,000,000 and 14,900,000; Arizona 2,415,000 and 3,450,000; California 2,844,000 and 3,144,000. The department estimated the California lime crop at 13,300,000 boxes compared with 11,753,000 last season, and the Florida crop at 175,000 compared with 150,000.

If You're 45, Chances Of Passing Army's Physical 3 Out of 20

WASHINGTON, March 11 (AP)—If you're a male American, age 45, there are only three chances out of 20 that you can pass an army physical. At 36 years, the chance is six out of 20; at 21, it's 14 in 20, and at 18 and 19 years, 15 out of 20. The senate found the figures in publication of testimony on the first deficiency bill of the session, a \$6,280,000,000 measure which includes \$3,182,000 for the high school victory corps. Speaking in favor of the appropriation to give American youths pre-induction training, physical and mental, Col. Leonard G. Rountree, director of medical services for the selective service system, disputed the theory "that we have the healthiest and most rugged youth in the world."

What's Doing In The Legislature

AUSTIN, March 11 (AP)—The senate Wednesday elected Fred Mauritz of Ganado as president pro tempore ad interim to serve during the absence of Vernon Lennens, the regular president pro temp who is a lieutenant in the army. Creation of a Texas package store board with authority to establish state package stores to retail distilled liquors in unbroken and sealed containers was proposed in a bill submitted to the senate by Ben Rainey of San Augustine. An anti-stream pollution bill prohibiting dumping of salt water and oil from evaporating pits, dikes, levees or other sources into lakes, streams or reservoirs was introduced in the senate by George Moffett of Chillicothe.

U. S. Survivors Land

LONDON, March 11 (AP)—Sixty-six survivors of a torpedoed United States freighter have landed at a British port, the United States Shipping board announced today. Nine of the crew are missing.

Hardwood Newsprint

In Australia, hardwood is being used for newsprint for the first time in paper-making history. About 29,000 tons of newspaper is being manufactured annually from a variety of eucalyptus.

Lucky Germans— War Prisoners!

CAIRO—The cleanest, best-organized and most comfortable of prisoners of war camps are those occupied by German and Italian prisoners in the Mid-East. This is the observation of Frederick F. Driftmier of Shenandoah, Ia., International Y. M. C. A. secretary for prisoners of war and the only American working with captured enemy soldiers in the Mid-Eastern area. "They are so good that the prisoners are dumfounded when they first come in," the tall, youthful social service worker reported, just before he left for the United States on sick leave. "Imagine, first, a collection of tents spread over an area as big as a city. Look for barbed wire fences surrounding them. Then picture everything else as you would find it in any model army camp in America.

"Look for hospitals, libraries, community kitchens, bakeries, laundries, canteens, schools, chapels, barber shops, shoe repair shops, watchmakers and so forth down the list. There'll be landscaping, too, and sculpturing, and flower and vegetable gardens flourishing in dirt carried in by hand. "But above all, look for a big postoffice—big enough to handle thousands of parcels a week." All of these things can be found in the British prison camps, Driftmier said, notwithstanding that they serve principally as transit centers where men are imprisoned only for a few months pending movements to South Africa, Canada, Australia, and elsewhere. He said the postoffices were "particularly important." Since only German officers and employed prisoners receive money because of a reciprocal agreement, they must get all of their "extras"—tobacco, chocolate and so forth—in parcels from home cleared through neutral countries. The Italians have an arrangement under which their men are paid, and can buy everything they need in the camp canteens. "Of course those who work get extra money—and the prisoners will fight for the privilege of working. The jobs cover everything from velvet cleaning to running a newspaper, and they even have been allowed to build their own camp. This happened when the British were capturing more men than they had camps for. So they simply turned the wire and tools over to the prisoners and told them to build a prison around themselves. "For the most part, these men are given jobs comparable to those they held before the war. In one camp, an Italian Davis cup tennis player is going to teach tennis. In another, a champion weight lifter is running a gymnastic contest."

168 Texas Counties Produce Oil or Gas

DALLAS, March 11 (AP)—Petroleum or gas is produced in 168 of Texas' counties and the remaining 68 are being leased or explored, the Mid-Continent Oil and Gas associations points out in a report titled "important facts about Texas oil."

The association says that more than 46,000,000 acres of Texas farm and Ranch lands are under lease for oil and gas exploration and production, and describes this as an area equivalent to the combined land area of Massachusetts, Connecticut, New Hampshire, Vermont, Rhode Island, Delaware, New Jersey, Maryland, the District of Columbia, and half of Maine.

Thumbs Made To Order

By H. W. BLAKESLEE AP Science Editor NEW YORK—The American Journal of Surgery tells of a woman milliner who has a new thumb, including bone, all built by plastic surgery. She had lost about half her left thumb due to an infection. She was unable to thread a needle. The joint remained, and a stump of bone extending a little beyond it. Reconstruction of this stump into a full-size thumb is described by Maxwell Maltz, M.D., of New York City, who was assisted by R. Preston, M.D., in the bone part of the work. The rebuilding was in several stages. First a roll of flesh was transferred from her abdomen, trunk handle fashion, to form a new thumb end. In a few weeks this flesh knitted to the stump and took the contours of a thumb. The end, however, was left open. Next a piece of bone 2 1/2 inches long was taken from her leg. One end of this bone was sharpened like a lead pencil point, so that it could be inserted in the bone stump. There is united with the old bone and in a few weeks became a living

part of the thumb. The end of the thumb was closed and shaped. In this stage the milliner had a perfectly useful thumb for threading needles again, but no thumb-nail. An artificial thumb nail was added. The nail is realistic in shape and takes rouge like her other nails. BUY VICTORY STAMPS

Bombardier Schools Turn out Officers

MIDLAND, March 11 (AP)—More aerial warriors were added to U. S. forces today with the simultaneous graduation of bombardiers at three schools of the West Texas bombardier triangle. Commissions and silver bombardier wings were awarded by commanders of the schools at Big Spring, Midland, and San Angelo. Many of the graduating "Hell From Heaven Men" will be assigned to navigation schools, where they will receive complete training as aerial navigators. Others will join pilots, navigators and gunners for schooling as aerial fighting teams, gaining the experience to fit them for actual combat. Some selected for specialized qualifications, will remain at the bombardier schools as instructors. These newly commissioned bombardier officers have completed 12 weeks of schooling, covering the entire field of aerial bombardment. Texans commissioned second lieutenants and graduated as bombardiers in the bombardier triangle included: Amarillo—Maxine B. Montgomery, graduated from San Angelo school.

Bible Comes Up to Date

AP Features
NEW YORK—The Bible has been brought up to date. For the first time in 192 years, a revised, modernized New Testament and Commentary has been published for Catholics.
 Issued by the Catholic Biblical Association, the work is translated from the Latin Vulgate source. "Every effort has been made to translate the full meaning of the New Testament in the terms of today in hope that Scripture-reading will become a habit for Christians," says the Rev. John E. Steinmueller, one of the many contributors and translators.
Verb Forms Changed
 Here are a few of the hundreds of instances of change:
 Verb forms such as "hath," "runneth," and "doth," are largely eliminated. So is the use of "ye" in the plural, but "thee" and "thou" are retained because of the advantage over "you" in denoting singular.
 "Corn" becomes "grain." (Corn is maize to Americans.)
 "Script" becomes "wallet"; the man "ill of palsy" is a "paralytic"; Jonah was in the "fish's" belly, instead of "whale"; "bread" and "meat" in the sense of a meal are simply "food."
 The familiar verse in three Gospels: "Suffer the little children to come unto me and forbid them not" is now "Let the little children come unto me and do not hinder them."
Commentary Explains Text
 The translation began in 1936. Cloistered monasteries, schools, prelates and priests all over the United States gave of their best minds. The translators and editors kept notes, which became the Commentary—a guide and explanation of the text.
 The Commentary and notes in the Testament give something of the pattern of the Gospel: Matthew, who wrote for the Jews and presumed his readers were versed in the Old Testament; Mark, who wrote for the Romans under Peter's influence; Luke, the learned physician who used exact medical terms, who was close to both Mother Mary and Paul, and who wrote the "universal" Gospel; and John, the inspired theologian.

Reduction in Hog Prices Forecast
 WASHINGTON, March 11 (AP)—The government was reported today to be preparing to force a reduction in live hog prices and to allow a slight increase in corn prices in an effort to pry loose some of the feed grain needed by livestock producers.
 Authoritative sources that cannot be quoted said economic stabilization Director James F. Byrnes and price Administrator Prentiss Brown had decided to impose ceilings on hogs around \$14.50 per hundred pounds, Chicago basis, or about \$1.50 below recent top prices, and to increase corn ceiling prices from \$1 to \$1.08 a bushel, Chicago basis.

Union Now For Churches

AP Features
"We simply must have church union."
 "Across the shape of things to come is written three decisive words: 'Cooperate or perish!'"
 "This new and somewhat desperate plea to the whole Christian world is sounded by Dr. E. Stanley Jones, the noted Methodist missionary to India, author and former bishop, in an article for the official Methodist organ, The Christian Advocate.
 Dr. Jones' discussion of a "Church Federal Union" is complete with blue-print. Denominations would be under one church, "The Church of Christ in America," as the states are under federal government.
 "I am not interested in one church absorbing the rest," Dr. Jones writes. "In the first place it would not happen... if it did happen it would impoverish the expression of Christianity."
 There would be the Lutheran branch, the Baptist branch, etc., of the one church. Each branch would recognize the others, and "all confess that Jesus is the Christ, the Son of the Living God."
 Delegates from branches would make up the sovereign general assembly, which could represent both branches and membership. Doc-

Alsatian Youths Attack Germans

LONDON, March 11 (AP)—B. S. Townroe, of the United Associations of Great Britain and France, told an audience at Eton college today that a group of Alsatian youths, ordered to join the German army, attacked Nazi frontier guards with bombs and pistols recently and that at least 100 escaped into Switzerland.
 "Three of the youths were killed and 12 were captured and later executed, Townroe said."

Sweden Loses 166 Ships in War

STOCKHOLM (AP)—Since the outbreak of the war until the end of 1942, Sweden's merchant marine lost a total of 166 vessels, of 447,365 gross tons, including 10 fishing boats.

Swedish Yachts Attack Germans

STOCKHOLM (AP)—Swedish yachts, ordered to join the German army, attacked Nazi frontier guards with bombs and pistols recently and that at least 100 escaped into Switzerland.

This Old Treatment Often Brings Happy Relief
 When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatism, leg pain, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passage with smarting and burning sensation shows there is something wrong with your kidneys or bladder.
 Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Women to Pray For World Unity

That there may be true union of spirit and purpose, and that men may keep their belief that mankind may come to peace, be the prayer offered by women of the world when they observe the first Friday of Lent this week with a world day of prayer.

The theme, taken from the intercessory prayer of Christ for his people, as recorded in the gospel of St. John, is "That They All May Be One, Even as We Are One."

While some groups in Pampa will meet in their respective churches, the central meeting place for Pampa women will be at the First Christian church from 2:30 to 4:30. The altar society at Holy Souls church will meet from 2:30 to 3:30, and prayers will be offered at the evening services. The Pampa Council of Churchwomen has arranged tomorrow's program.

William Boyd Dies In Local Hospital

William Lindsey Boyd, 54, a resident of the Pampa area for 20 years, died at 12:10 a. m. today in a local hospital.

He had resided on a farm 14 miles southeast of White Deer and was a member of the Calvary Baptist church at Pampa.

Funeral arrangements are pending the arrival of relatives. Survivors are the widow and three sons, Jimmy, Clyde, and Deano, all of White Deer; a brother, C. D. of Fautala, Calif.; and three sisters, Mrs. Ruth Walker, San Bernardino, Calif., Mrs. Mittle Capehart, Riverside, Calif., and Mrs. Emily Nelson, Cheyenne, Okla.

Arrangements are by Dienkel-Garmichael Funeral home.

News Moves Quickly To RAF in India

WASHINGTON (AP)—Members of the Royal Air Force stationed in India need not be left long in doubt about the welfare of their wives and families in Great Britain, according to a report received by the Office of War Information.

A branch of the Welfare Directorate at the Air Ministry investigates any case on request of members of the RAF. News of dangerously sick parents or children, for example, and even business difficulties are dealt with and reports are flashed back to India. The policy is not merely humanitarian, for the welfare authorities know that a worried airman is not an efficient fighter.

Glorifying Yourself

By ALICIA HART
NEA Service Staff Writer

The necessities of wartime living, speed, practicality, efficiency, are leading many women back to school to learn about beauty, as well as about machines and mathematics.

Fifth avenue salons are doing a large new war business in teaching women how to take care of themselves at home. Basic, professional, solid knowledge of personal grooming and health simply is a "must" nowadays.

A leading expert has three "efficiency plan" courses. They are scaled to three budget levels, but each provides basic training in healthful, proper enhancement, chiefly by means of care of the figure, the complexion, and the hair.

Similar courses are offered in a number of cities and I would advise the woman who sincerely wants to be practical about beauty to take one. From here to victory, you will find professional training in beauty technique among the most down-to-earth economies in any woman's book. And if you are beyond reach of such training, then it is in order to teach yourself some basic methods.

The same house now will help you with home beauty training by giving instruction blueprints with the facial care kit which is part of the equipment for two of the three salon courses. These are available at toilet counters, as well as in salons.

Treatment of various types of skin is described. Exercises are provided for general pep-up purposes, for reducing and for maintaining, or achieving, the foot and leg strength which, the expert says, is essential to "a patriot's walk."

You might like to try a home exercise program with one of the general conditioners used in the courses. Stand erect with hands clasped high overhead, abdomen pulled in, spine erect. Count one and bend the body slowly from waist to right side. Count two and roll forward. Count three and bend to left side. Count four and stretch up straight. Relax, alternate, and repeat four times.

Leg muscles which protest against your shift from high to low heels will respond to an exercise called "triangle walk." Stand erect, bend forward and place hands on ankles. Keep your head close to your knees, and keep knees straight. Walk out on hands, right, then left, then back to first bending position. Stand erect again. Repeat 10 times.

Civic Culture Club Has Tea Honoring 'Service' Mothers

A tea honoring members and guests of the Civic Culture club who have sons in the armed forces and Gold Star mothers of the last war was given by other members of the club Tuesday afternoon in the club rooms.

"Texas Day," dedicated to those who have given their lives and to those who are now fighting for democracy's victory, was the subject of the program.

Each member answered the roll call by presenting her guest and telling some fact about her guest's sons in service. Mrs. Alice Crossman, presented by Mrs. Katie Vincent, represented the Gold Star mothers of the last war.

Mrs. J. B. Townsend led the group in singing "Texas, Our Texas," after which Mrs. W. L. Parker read several verses from the Bible, while Mrs. G. R. Rhodes played "Faith of Our Fathers" on the piano.

Mrs. D. A. Caldwell then called the name and branch of service of each club member's son. After Mrs. E. A. Shackleton read an appropriate poem, Mrs. A. Norris sang "Brazil's Polka Song (Gulon)," accompanied by Mrs. Rhodes.

Mrs. L. J. McCarty spoke on "What Is This Freedom for Which Men Fight and Die?" and Mrs. Parker spoke on "They Will Come Back," written by Mrs. Eddie Rick-emberger.

The program closed with the singing of "Onward Christian Soldiers."

Following the program, Mrs. Rhodes and Mrs. Norris poured tea at a table centered with red and white carnations and graduated white tapers in blue holders.

The following club members and their guests were present: Mrs. A. D. Hills and guest, Mrs. Roy Dawson; Mrs. John I. Howard,

B&PW Club Hears 'Democracy' Talk

At the business meeting of the Business and Professional Women's club Tuesday night in the city club rooms, Lt. W. H. Evans, commander of the 1103rd squadron at the AAFAPS gave a talk on "Democracy in Action," bringing a clear understanding of how this is put into practice in the army.

A board meeting followed the program and the club voted \$25 to be given the Red Cross.

Those present were Vera Lord, Lillian McNutt, Ida Mae Jones, Muriel Kitchens, Madge Rusk, Madeline Johnston, Mildred Overall, Evora Crawford, Laura Belle Corneilus, Mabel Gee, Gypsy Coates, Frances Craver, Rowena Hughes, Lt. W. H. Evans.

War Profiteers, Union Racketeers Called Traitors

(Continued From Page 1)

secretary of the union before he could be hired.

The secretary said the fee was \$50 and suggested that the veteran pay down his \$10, then have the balance deducted from his wages. This was done and the man thought he was a union member, only to learn later that it was simply a racket, that the \$50 was simply an "application fee." The man was told he was discharged because he was not a member of the union. Smith told the audience that "job selling" traffic by a carpenter union at Sheppard field totaled \$80,000.

He labeled it "mass disloyalty" that there had been 250 strikes in this nation since December 7, 1940, and said it was a "sorry and sordid deal that men would strike who were working only eight hours a day for \$8 to \$12 a day, while MacArthur's men were dying at Bataan.

Strikes occurring since the Japanese attack on Pearl harbor has cost this nation 1,000,000 work days, the equivalent of two full divisions of 15,000 men each.

If Soldiers Struck

"I have been in North Africa, at Oran, a filthy hell-hole. What would you think of General Eisenhower's men if they were to refuse to fight because conditions were not to their liking? The soldier has just as much right to refuse to fight as a worker to strike.

"That sort of principle would destroy any nation. We have too many men who are afraid of the political deal that men would strike who were working only eight hours a day for \$8 to \$12 a day, while MacArthur's men were dying at Bataan.

Speaking for himself the Texas state official declared that if the men in the armed forces could sacrifice their lives they certainly could sacrifice their political future, if that was needed to end treason on the home front.

The speaker was introduced by Mayor Fred Thompson. Other parts of the program included the singing of "God Bless America" and "The Eyes of Texas," led by Lieb Langston with John Robert Lane as pianist.

Carl Benefiel, chamber of commerce president, was master of ceremonies.

Cadets Introduced

Attention of the audience was directed by Dan E. Williams, chairman of the army hospital committee, to the need of registering rooms now for the parents who will come here for the graduation of their cadet sons from Pampa air base.

The committee chairman introduced 10 cadets from the field; David F. Eaton Jr., assistant county farm agent, introduced winners in the fifth annual junior livestock show, and Howard White, high school agriculture teacher, introduced agriculture students. Others introduced were officers from the air base.

Lieutenant Governor Smith looked at a typical Texas cattleman, with his black cowboy boots, brown double-breasted suit, spotted white shirt, and scarlet-orange-green striped tie.

Ranger With Smith

Mayor Thompson, County Judge Sherman White, and President Benefiel went to Amarillo yesterday forenoon and brought the state official here. He spoke in Amarillo last night at the annual banquet of the Amarillo Chamber of Commerce.

Accompanying the lieutenant governor here was Capt. Royal G. Phillips, intelligence division, Texas Rangers, who was among those introduced at the luncheon.

Others introduced were Dub Howsley, Shamrock, Texas comptroller's department; Major J. D. Hower, Capt. P. A. Mascioli, Capt. Talmadge Bergens, Texas Rangers, who was among those introduced at the luncheon.

Aviation Cadets Harold W. Carter; How, wing commander; Robert J. Boyd, Rutherford, N. J.; Harry A. Bell, Grove City, Pa.; Arthur Barker, Lockney; Sidney Bohgn, Brooklyn, N. Y.; Arthur E. Bennett, Shelburne, Vt.; Arthur E. Austin, Eaglerock, Calif.; Clayton A. Billee, Tony, Wis.; Alex Boshian, Colchester, Conn.; F. C. Ausband, Winston-Salem, N. C.; all of Class 43-C, Pampa Field.

Tom Cox, chairman of the agriculture committee, chamber of commerce; David F. Eaton, Jr., assistant county farm agent; Hood Wills, high school agriculture teacher; and the following 4-H and FFA winners in the livestock show:

Vernon and Johnny Baggerman, Grandview; John Spearman, Farmington; Jack Dunham, Glenn McConnell, Archie Maness, Jim and Merle McCracken, C. W. Osborne, all of Pampa.

Others introduced included Lieut. Roy Hastings, U. S. N., naval flier, who saw service in the Pacific, and who was a guest of Fred Shryock; and Pvt. Jack Back, Camp Shelby, Miss., here on furlough, a former member of the Pampa Lions club.

Sniped at Washington

Traitors are not new to America, he emphasized, citing General Washington was "sniped at" by native-born Pennsylvanians and New Yorkers, who sold goods to the American army at double prices until the gold was gone, then dealt with the British, while Washington's men suffered at Valley Forge.

Washington turned the tables on these Tories, however, for when he took Philadelphia, he turned his men on those who had looted them, put the Tories in open barges, and sent them out of the country.

In the War Between the States, a rich manufacturing class sprang up in the North with \$15 gains sold to the Union army for \$60, \$1.50 bayonets for \$6, shoddy uniforms, worth \$6, sold for \$20.

Likewise, the Mexican war produced its profiteers, he said.

Perpetual Battlefield

"Do you call selling jobs justice and freedom for all?" he asked, in commenting on the oath of allegiance to the flag in conjunction with labor racketeering practices.

Outlining world history in general, he described Europe as a place where for 2,000 years its story had been written in the "red characters of human blood."

Yes, in America, the German, French, Swiss, English, Scot, Welch, Irish, and all the rest could live at peace with one another, though they fought in Europe.

Explanation of this, he defined as due to America "magnifying the value of the common man" because here men were "uncontrolled and unfettered," because, as one German who became an American stated, "Germany gave me nothing, America gave me everything."

"Tyranny is the cause of war," Smith stated, and he added that "so long as men were enslaved" wars would continue.

Liberty Not Eternal

"Because men have died at Valley Forge, Monmouth, Yorktown, in the Mexican and World 2 wars, and in the War Between the States, was no reason," he argued, that our liberty was guaranteed, today.

In another part of his speech the lieutenant governor debunked the claims of patriotism by a union that bragged on how much money it had in Victory bonds. He also terms a banker as "near-sighted in soul" who failed to see that his "security" for his bonds was the blood of Americans dying for him.

"Bond buyers are making an investment that they're not giving anything," he said.

Concluding his speech, the speaker cited a poignant story of World War 1 days, of a Swedish boy from Minnesota who occupied the same barracks as Smith at Fort Logan.

One day the Minnesotan showed the Texan pictures of his "two sweethearts," his mother and the girl with whom, after the war, the Minnesotan said, like the song "we'd build a little nest somewhere out in the west."

That dream never came true.

He buried the Minnesotan in his bloody blanket in a grave along the Meuse in France. The Minnesotan "gave everything he had that other men might see their dreams come true."

Former WTSC Student

In the introductory part of his speech the state official mentioned his years as a student at West Texas State College, Canyon, extended greetings from Grady Hazelwood, senator from this district in the state legislature, and from Gov. Coke Stevenson.

He said both he and the governor came from "towns too small for a railroad," one on a goat trail (Junction, Coke's home town), the other a cattle trail (Throckmorton, Smith's home).

defenses and advanced, capturing a number of populated places."

A Russian shock troops were reported within 13 miles of Vyazma at the nearest point, and a communiqué said more than 20 towns fell to Soviet forces operating in the vicinity. In addition, "several dozen" villages were engulfed in the Bely sector, 70 miles northwest of Vyazma.

On the flaming Kharkov front, 400 miles below Moscow, Red army headquarters said the Germans were continuing to throw great masses of reserves into their comeback offensive against the "Soviet Pittsburgh," but so far the battle appeared to be indecisive.

Hitler's high command said the Germans had driven closer to Kharkov and "the battle is still being waged at the northern and western edges of the city."

Berlin claimed two days ago that Nazi shock troops were only 12 miles from the big Ukraine steel center, whose recapture by the Nazis would threaten the middle of a 400-mile front in southern Russia.

The Soviet command said a "ferocious engagement" was developing south of Kharkov, and declared that in one phase of the struggle the Russians encircled a battalion of tank-led Nazi automatic riflemen, destroying 15 tanks and "wiped out 400 Hitlerites."

On the Tunisian front, Gen. Sir Bernard L. Montgomery's promise to give the Axis "every bloody nose" was marked by exploratory thrusts against the 60-mile long Mareth line in southern Tunisia as the British Eighth army prepared for a climactic assault.

Rain and sandstorms prevented large-scale operations, but Montgomery's big guns—the weapons that broke up six Axis attacks with the loss of 52 tanks—were reported raining havoc on the Mareth line defense works.

Some 130 miles to the northwest, Fighting French troops stormed and captured the mining center of Me-taoul, 25 miles southwest of Gafsa, an Algiers broadcast said.

In the north, Lieut. Gen. K. A. N. Anderson's British First army was reported continuing its patrol activity in the Sedjanne sector, 35 miles west of Axis-held Bizerte naval base, where the Germans have been attempting to widen their narrow defense corridor.

Allied observers said the Axis was now on the down grade in Tunisia, following a series of costly offensive jobs, and declared that with the Royal navy controlling the sea and Allied planes clearly superior in the skies, Rommel and his estimated 250,000 troops had little chance of a "Dunkergue escape" from the North African trap.

"Second, that for great numbers whose work is interrupted (either by temporary or permanent disability), the social insurances must carry much of the load of providing adequate income.

"Third, that where the insurances or work policies fail to take care of services essential to the health, education and welfare of the population not available, public provision should be made for the development of such services."

Appalachian Team With Player-Coach Reaches Quarter-Final Game

North Texas Wins Over Nebraska

By NOBB GARRETT
 KANSAS CITY, March 11 (AP)—Coaches at the National Intercollegiate basketball tournament are applying the old hex to the Appalachian State team of Boone, N. C.

Appalachian is the team that has player-coach, a nice kid named Belus Smawley.

"Why, if Appalachian wins it may give our schools the wrong idea," the coaches' spokesman quipped.

"They'll think we're unnecessary. The next thing you know they'll fire us and use the team captain, or that freshman from Sour Springs as coach. We've got to get Appalachian eliminated or lose our jobs."

Schaefer goes into the third round a double threat.

Tourney officials can't recall another player-coach in college basketball.

Won 17 of 21
 Appalachian won 17 out of 21 games during the season and today was in the quarter-finals of the tournament after beating Simpson college, Indianapolis, Ia., 48 to 31, and Kansas Wesleyan 54 to 40.

The additional worries of the position haven't effected Smawley's play, either. During the regular season he averaged 16 points per game. Against Simpson he led the team with 14 points and last night was rather busy with 12 field goals against Kansas Wesleyan.

The player-coach situation is an ideal one for the grandstand while Belus admits he's been enjoined to "take yourself out, coach, you stink."

Coach Wilbur Stalcup of Maryville, Mo., Teachers has a chance to try his system on Appalachian tonight.

Brothers Set Record
 Maryville gained its quarterfinal berth with a 61 to 24 shellacking of Eastern Oregon College of Education, LaGrande.

Hamline University's two All-Americans, Johnny Morlander and 6-foot-7-inch Howie Schultz were held in check by East Central Oklahoma State of Ada, but the St. Paul team managed to win, 41 to 39.

The crowd of 4,000 was amazed as East Central forged into a 38 to 22 lead in the second half. Courageously, Hamline rallied and battled its way to a 40-35 lead with two minutes to play. With the seconds ticking away, East Central came back on goals by Cal Benson and Cal Saphaw.

The clincher came when Rollie Seltz converted on a charity toss and Hamline controlled the ball the remaining five seconds. Morlander, whose 29 points in the first round is the best individual performance to date, was held to nine points. East Central's Buddy York took scoring honors with 18.

Although York, Nebr., college lost to North Texas State of Denton, 51-49, the Kaeding brothers wrote their name into tournament history. The two exhibited some of the most amazing scoring in the six-year span of the tourney.

Wayne registered 27 against the Texans and Jim chipped in with 11. Those 38 points gave the brothers a record of 78 in two tournament games.

At one time York had a 44-35 lead in the second half, but North Texas refused to accept defeat. With the score tied at 49-all and only 15 seconds remaining, Howard Shannon scored a long field goal to send the Nebraskans to the sidelines.

Today's quarterfinal pairings: 7:45—North Texas State, Denton, vs. Hamline University, St. Paul.

De Oro Recalls How Balklines Failed To Stop Elder Schaefer; Ran Record 3,000

By ROBERT MELLACE
 NEA Service Staff Correspondent
 NEW YORK, March 11—One former champion who considers present wearers of crowns worthy by all standards is Alfredo De Oro, Cuban-born pocket and three-cushion wizard, who reigned from the 1890's to 1920's.

De Oro, unusual in major tournaments in that he was a brilliant left-hand player, takes the incredible Willie Hoke and Welker Cochran and Young Jake Schaefer and the other balkline and three-cushion sharks of the day, but his favorite subject is Old Jake Schaefer.

De Oro, now 81 and a snooker player by choice, was in full possession of, or shared, 29 championships from 1887 until 1919, including the pocket billiard and three-cushion simultaneously in 1908.

Alfredo rates Gottlieb Wahlstrom, a Swede who died in 1882, the greatest cue player and pool player of all time. The reason for Wahlstrom's comparative anonymity, according to the octogenarian, was his practice of winning and losing at will with large bets on, or against, himself.

Son of a Cuban jurist, De Oro arrived in New York at the age of 11, nurtured aspirations to become a great doctor, but the vocation of the cue had a stronger appeal. He has lived by it since.

Schaefer's Greatest Feat
 De Oro relates how balklines put in to stop Old Jake Schaefer just didn't work. The original Schaefer made new games simple as quickly as the opposition could think of them. Jake, Jr., son of Old Jake and contemporary great, has higher billiard runs, but is not the man playing straight billiards. That is, for every billiard balkline, Schaefer would subtract one from his total. McCleery made 15 and Schaefer promptly gathered in 3,000 in one run, a record that still stands.

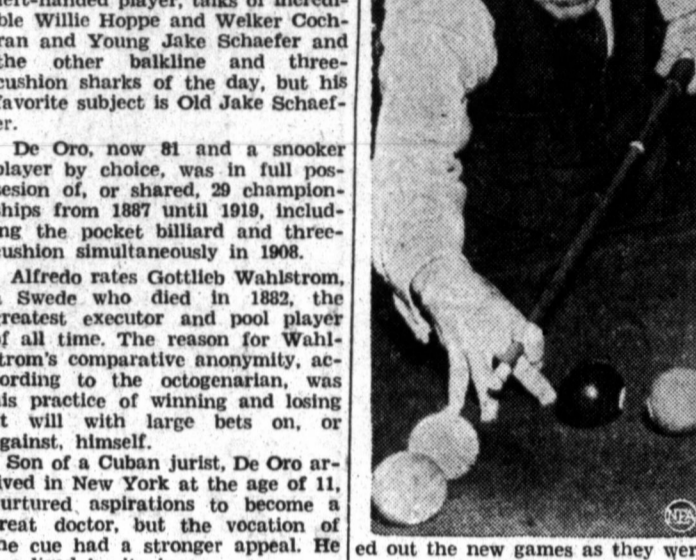

Old Jake, De Oro says, was not great for what he did, but the manner in which he thought and figured.

Fortresses, Liberators Meet Tonight

Flying Fortress will try to upset the league-pacing Liberators apiece in one of two games to be played tonight at Pampa field.

The opener will bring out the Havocs against the Mustangs.

A previously unlisted double-header was played at the field Tuesday night when the Marauders edged out the Helldivers 36 to 34 and the Thunderbolts also had a narrow squeak in whipping the Pampa Independent basketeers by a three-point margin. The Thunderbolts won, 42 to 39.

ed out the new games as they were contrived to stop him.

De Oro's thrill came in St. Louis in 1904, when he met Frank Keough, who challenged Alfredo while he was ill and in a nervous condition. Rather than forfeit his world pocket billiard title and \$1,000, De Oro played. With 72 to go, and his opponent needing nine balls, he fought his way back and won, with Keough still five behind.

De Oro's Biggest Thrill
 De Oro makes a daily pilgrimage to the late Jack Doyle's old place on Broadway, spins yarns and gets out his old cue for snooker.

It's a beautiful stick, given to him in 1884 and he's used it ever since.

Alfredo De Oro fondles the ivory war club, tells you that more money has been wagered on it than any other cue, and goes back to his snooker game with the remark that he would do it all over again if he were young, had a new cue, and the old boys to beat.

Hank Lieber Quits Giants

NEW YORK, March 11 (AP)—The first base woes of the New York Giants are getting all tangled up again like the second act of a musical comedy.

As a matter of fact the Giants have been having trouble at first base almost annually since sweet William Terry punched out on the time clock in 1936, but right now the club is confronted with an absolute void at the position.

Johnny Mize, the big St. Louis clouter whom the Giants obtained last winter from the Cardinals, recently was classified 1-A and yesterday Hank Lieber, whom Manager Mel Ott was counting upon as a fill-in first, notified the Giants he had retired to chicken farming.

The irony of the situation is that the Giants got both Mize and Lieber a year ago principally to protect themselves against the drafting of Babe Young, their regular first baseman in 1941.

Young remained with the club all through the 1942 season, finally finishing in centerfield, but has since been called to service.

Babe Didrikson Wins Golf Meet

LOS ANGELES, March 11 (AP)—Mrs. Babe Didrikson Zaharias has added the Los Angeles midwinter golf tournament championship to her long list of athletic achievements.

She scored a double eagle yesterday in defeating Miss Clara Callender, California women's champion, in the tournament finals.

Spokane People Favor Baseball

SPOKANE, Wash., March 11 (AP)—Soldiers, sailors and civilians, answering the Spokane Athletic Round table's survey on the question, are giving continuance of major league baseball near-unanimous approval.

Ross to Join in Chicago Meeting

CHICAGO, March 11 (AP)—Barney Ross, who on two occasions brought back world boxing titles to Chicago, comes home again today bearing another title—corporal in the United States marines after heroic action at Guadalcanal.

Corporal Ross will be met at the municipal airport by a group of officials headed by Mayor Edward Kelly and by his mother, Mrs. Sarah Rasofsky. After a 12-hour stopover Ross will leave for New York where he will participate in a Red Cross benefit rally at Madison Square Garden Monday. There he also will receive the Edward J. Neill Memorial award for having contributed the most to boxing in 1942 although his fighting was restricted to action with the marines.

Dons Anxious To Avenge Opponents

SAN FRANCISCO, March 11 (AP)—Bill Teleman, end; Danny Fisk, center; and Dante Benedetti, guard, were foes of the University of San Francisco Dons football team of 1938.

Bill died in air action in North Africa. Danny was killed in a training crash in the United States. Dante is missing in the Pacific.

"Last week we sent 35 Dons to Lincoln, Nebr., to join Bill's gang—the army air force," said Editor Bob Fiorand of the U. S. F. Foghorn.

"They're g'm . . . set on avenging Bill and Danny and Dante."

Sports Roundup

By HUGH FULLERTON, JR.
 NEW YORK, March 11 (AP)—Note of pessimism: Gus Dorais, new coach of the Detroit Lions, has sent out a circular letter to college grid coaches saying: "If your school is quitting football, please advise any of your assistant coaches who is in good condition and wants to play pro football to contact the Detroit office."

Dutch Warmerdam, who won't have much use for a vaulting pole in the navy, is presenting the old one with which he cleared 15 feet or more 25 times, to his old high school coach, Henry T. Anderson. . . . And did you know that Warmerdam has been coaching football at Piedmont, Calif., High for the past two years? . . . Dodger Les Webber claims the guys are so thick around his southern California home that he can go out without one bird dog and get the limit in two hours.

A GYM DANDY YARN
 This isn't exactly a sport story, but athletic Director R. F. Hastie of Alpena, Mich., claims it happened in his office by the school gymnasium. . . . When ration books were being given out in the gym, his office was occupied by this state tuberculosis X-ray machine. . . . Two women entered the wrong door and asked, "Is this where we go?" . . . Each was given a sheet, directed to a side room to change their clothes, and as they came out robed to take their places before the X-ray machine, one remarked: "Isn't it awful what we have to do to get ration books?"

ONE-MINUTE SPORTS PAGE
 North Carolina colleges are scheduling basketball doubleheaders for next year and George Washington already has been booked into several of them. . . . Writing to trainer Roscoe Goose from somewhere in Australia, Corp. Bob Freeman reports the Aussies have "another 'Phar Lap' in a horse named Auction which recently packed 184 pounds to a track record. . . . Jimmy Bivins, the Cleveland heavyweight, is a pretty good pianist, machinist and cartoonist in his spare time and claims he'd like to play a piano for the fight mob after playing a glove solo on Tami Mauriello.

TODAY'S GUEST STAR
 Art Cohn, Oakland (Calif.) Tribune, "Lena Neve may be the dumb cat some of us insist he is but he was smart enough to buy a six-acre ranch at Encino for cash the other day, which is more than us wise guys are doing. . . . He's calling it El Cosmic rancho."

SPRING TRAINING NOTE
 If the Cubs and White Sox expect to get any good out of their Indiana exercises, they'll have to learn to it more than a French lick.

Ortiz Pastes Lou Salica

OAKLAND, Calif., March 11 (AP)—There's no disputing Manuel Ortiz' clear title to the world bantamweight championship—not after the pasting he gave challenger Lou Salica last night.

The shifty, hard-socking little Mexican from El Centro, Calif., cleared up the 118-pound title question by stopping the ex-champ from Brooklyn in the 11th round of a 15-rounder that was Ortiz' fight from the start.

Ortiz won the title from Salica in Hollywood last August, and only the New York State Athletic commission refused to recognize him as champion because the fight went only 12 rounds instead of 15. Ortiz had been accepted by the National Boxing Association and the 47 states it controls.

Blind Man Enters Wrestling Tourney

PHILADELPHIA, March 11 (AP)—The University of Pennsylvania's sightless Samson—a blind man who'd rather wrestle than eat—enters the tournament of champions tomorrow—for the first big test of his so-far sensational career.

Blind Fred Barkovitch, undefeated in 55 consecutive scholastic and intercollegiate bouts, moves into the two-day, 39th annual Eastern Intercollegiate wrestling tourney, to grapple with the best men from nine big-time colleges and try to prove that ex-star Bob Allman, now a Philadelphia lawyer, isn't the only Penn man who can grapple and win in the Eastern without the help of vision.

All Officers Hurt, Bul Plane Returns

SOMEWHERE IN NEW GUINEA, March 9 (Delayed) (AP)—The crew of a U. S. Army Flying Fortress on reconnaissance shot down four Japanese Zero fighters south of Gasmata, enemy base on New Britain island, and returned home yesterday afternoon for a safe landing despite the fact that all of its four officers had been wounded.

A fifth Japanese fighter was reported probably destroyed out of a flight of nine which ambushed the American plane from a cloud formation.

The wounded pilot, whose name was withheld with those of other wounded officers by army regulations, had to be held flat on his back after being struck in the arm, thigh, and back and the plane was landed by a co-pilot who had been struck in the chin and neck.

The navigator and bombardier, both officers, were wounded also, but all the enlisted men, who actually accounted for the heavy toll of Japanese planes, escaped unscathed.

Market Briefs

WALL STREET
NEW YORK, March 10 (AP)—Stocks today extended Tuesday's downward curve but the market received good support at the lower levels and volume tended to diminish on the decline.
 Leaders registered losses ranging from fractions to around a point.
 The German gains in the Ukraine possibly made for some selling but the predominant idea in speculative circles was that the market, in view of its recent rise, might be in the way of a substantial corrective reaction.
 Johnsonville, Harvestor and Caterpillar Tractor were down about a point each at the worst and Eastman Kodak dipped 2 or so. Lesser declines were shown by U. S. Steel Bethlehem, General Motors, Chrysler, Philip Morris, American Telephone, Standard Oil (N.J.), Santa Fe, Pennsylvania, Great Northern and Baltimore & Ohio.
 Bell Iron Works and N. Y. Shipbuilding rose to new highs for the year along with Texas & Pacific Railway, Texas Co. and Savage Arms likewise improved.

New Tricks in Making Ice Cream

HERE'S a recipe for homemade ice cream in keeping with the times! It doesn't require the whipping cream ordinarily used, and the sugar content is cut almost to nothing by substituting glassed light syrup. The finished product is an unusual flavor combination and quite as tasty as any refrigerator ice cream you've ever made.

A cup of ordinary cream may be whipped easily if a tablespoon of lemon juice is added. Although the addition of lemon juice naturally produces a slightly acid flavor, it is not noticeable in the finished ice cream.

To make one refrigerator tray of Ice Cream: soak 1 teaspoon gelatin in 1 cup milk for five minutes. Scald mixture over low heat. Stir until gelatin is dissolved. Remove from heat and add 1-4 cup sugar, 3 tablespoons glassed syrup (red label) and 1-8 teaspoon salt. Blend well, chill until mixture is slightly thickened. Add 1 tablespoon lemon juice to 1 cup ordinary cream and whip until stiff. Fold chilled milk mixture into whipped cream. Add 1-2 teaspoon vanilla extract and mix well. Turn into freezing tray of refrigerator and freeze. Stir thoroughly as soon as mixture appears to be slightly frozen around edges of tray and again as soon as entire surface has begun to freeze over. Serve in sherbet glass, decorating with cherry if desired.

Prisoners' Knives To Stab Japs

HOUSTON (AP)—Prisoners in the Harris County jail are helping Texas soldiers and marines come out on top in hand-to-hand scraps with the Japs.

A score of illegal "frog-stickers" and one hand-made dirk taken from the prisoners have found their way into a box of knives contributed by Sheriff Neal Polk to the "Save a Life With a Knife" drive.

The knives will go to Texas soldiers and marines in the South Pacific where jungles are so dense rifles and bayonets are virtually useless in hand-to-hand combat.

GROOMING

Boys, do you wish to make a hit with that blonde, red head, or brunette girl friend of yours?

If so you will want to be careful of your appearance. Carelessness might get by when you are out of sight but when you arrive disheveled, it looks as if you do not care what impression you make.

Soiled shirts, mussed suits, and crumpled hats are three situations to avoid.

Girls like well-groomed boys.

Patsy Ruth Dixon.

ASSEMBLY MANNERS

Arrive in assembly quietly and casually. Take the last empty seat in the row assigned you. Avoid trying to exchange confidences with your next neighbor, and above all, do not try to speak with friends across the way.

Always pay attention even when the speaker fails to get his words across. Cooperate with the yell and song leaders. Join in the school spirit.

If there is a guest speaker any discourtesy reflects on the entire school. Courteous attention is due him even if you find him uninteresting or hard to hear. Remember, when the speaker leaves, he carries with him an impression of the school which is determined by the conduct of the pupils.

About the best way to expose your lack of training is to boo, whistle, or stamp your feet.

If you have not been taught manners anywhere, try imitating students who have.

Frances White

THREE CHALLENGES

Courteous Trustworthy Dependable

If you can pass these three tests, you may look for a courtesy card when your homeroom teacher gets down to your name.

What a privilege to own a Courtesy Card! No special card is necessary to enter the library. No excuse is exacted from the attendance office. Your word is enough.

The girls are in the lead for Courtesy Cards after more than 200 cards have been presented. The boys offered a challenge. They are trying hard to keep the ranks swelling with the names of boys.

Girls, you must shine.

Kathryn Rose

W. A. O. B. CLUB SEEKS MEMBERS

Tear them up! Nobody objects. It is all in a day's work.

Books cost our library and the school nothing. The publishing companies give the books to us free. Miss Ila Pool just writes the houses that publish and bind books, presents them a list she would like to see mutilated, and they mail them to us without cost to anyone.

Of course, some little amount of work is lost on a book when you decide to whittle on it. Miss Pool spends hours getting the books classified and the cards made, but she doesn't mind. She has to spend her time some way. The girls and boys who check them out do so just to take up time.

It is permissible to fold the pages or draw pictures on the margins. Miss Pool really invites you to the library to cut out anything you find. The pictures in the World Books add greatly to one's grades in history or English units.

Of course there is the little item of trying to replace the books. A lost page in a book is like an empty room in a house—not much use floating about and difficult to keep in the right place, if you were kind enough to leave it whole. (The simile is somewhat mixed and confused, but you get the idea. I've just learned about the mthis year. I'm not very good yet.)

WHEN IT RAINS IT POURS

By JACKIE RAINS

I put my trust and faith in you, I thought I could rely, But now I'm disillusioned; I wish that I might die.

I made you my ideal, you see, And so I copied you, I should have copied someone else, For NOW I'm flunking, too.

Libby Ann Sturgeon likes to stop in to buy groceries at the Ideal. The fact that Jerry Nash works there has no connection with that preference for grocery stores.

D. E. Jameson is still wondering what he has done to make Orma Jean McCarty so angry with him. Now that Don Rowe is off girls for the present, Mildred Groves decided that Milton Lawrence is more her type.

After being "steadies" for a long time, Charlie Beard and Wanda Sue Campbell have come the parting of the way, Charlie now is quite interested in Doris Flood.

Eunice Davis and James Bossay . . . Glamour girl Joyce Cloud again swears off all boys. . . Rather drastic statement . . . Anita Lane turning crimson every time Bobby Jack Davis looks her direction . . . Girls in homeroom 118 are just "that way" about tall and handsome Jackie Jones, Marjorie Lawrence whispers that Sammy (Sambo) Haynes is her one and only, which is definitely . . . K. with Sammy . . . J. W. Winborne is still wondering why he has received a courtesy card . . . Secret: the faculty does not know how to spell your name yet, take Beverly "Butch" Burba girls because her soldier boy is going overseas . . . what happened to the sailor and the marine . . . Doris Jean Howell can think of nothing but Bobby Marsdan, Gee, must be nearly sprung . . . Don Warren and Pat King seen double dating with Joan Holden and Vernell Bynum, Senior High glamour girls.

Miss Virginia Line and Mrs. Rex Rose are the most beautiful teachers in Junior High according to a poll taken by this reporter.

Recovering from D. B. Jameson, Orma Jean McCarty is reported to be "that way" about Junior Coffee.

Randall Clay so long now a lone wolf has fallen hard for Beverly Cander.

What would you think if— Jake Wilborne beat Don Humphreys in a game of pool? Kenneth Beezley made the honor roll? Billy Washington should lose his "permanent"? Mr. Morgan smiled out of turn? Mr. Hightower and Mr. Savage exchanged "wigs"? Tracy Cary became a "mere shadow" of himself? Donald Rowe should date Armilda Cargill? Colleen Voyles should be unknown in Junior High? Eunice Davis had no boy friend? Dick McCune failed his science course? Ronad Rice had a girl friend in Hoover?

Betty Schulke had raven locks and turned out to be the silent type? Mr. Gallman was in attendance at a recent basketball game at night wearing his Texas Home Defense uniform. Pretty dashing figure, teacher. This is just another example of how the school teachers of the United States are doing their bit toward winning the war.

Because of the changing about of sponsors in the school sheet, an issue was missing which might have acknowledged the performance of the cast "Atta Boy, Walt," and the coach, Mrs. Rex Rose.

Orchids and roses to Mrs. Rose and east for their four-star production of the school play which ranks along with his of former years such as "Professor, How Could You?" and "June Mad."

Especially outstanding were Pat King and Jimmie McTaggart in their portrayals of the average American boy, and to Sharilyn Pocock for her rendition of little sister, Randall Clay's ability for "staying in character" throughout the tense scene when he had the young people at the point of his gun deserves mention.

The one-act play which will be presented next month will likely draw from this cast for some of the parts.

Teachers Wink, Smile To See Kids Cram

If signs of interest in subject matter have any bearing on six-weeks grades, more A's should have appeared on the cards Wednesday. Some boys were noted stumbling up the stairs en route to science test getting the last chapter read. It did not seem out of place to note students diligently pursuing the details on transportation or brushing up on the facts supposed to be memorized on the British Isles as they ambled over to the cafeteria.

On the way to assembly two boys were talking about the math test which had just been finished. One boy was trying to put the other wise on the problems to expect. A few late units came breezing in time to register D or F, but "in" all the same.

Miss Ollie Crossman, registrar, unlike her name is a patient office girl who has more contacts with the student body than any other person throughout the day.

When Miss Marguerite Jones left the office last fall to accept a position with the Cabot offices, Miss Crossman came from the bookroom to the principal's office with a variety of duties.

Permanent record cards must be filed in each semester. She makes appointments for the principal. She keeps the books on the money handled by Junior High. She does the stenographic work for the principal. She trains office helpers to take care of the telephone and to do errands about the building in the absence of public address system. She takes care of supplies and distributes mail, materials, and bulletins into the teachers' boxes. She is on the job from 8:30 in the morning until the afternoon. Each day is a new problem.

Lubbock, like Pampa, has instituted the victory corps, so states the Lubbock WESTERNER. More than 70 students have enrolled in this organization.

Below is a sprinkling from the several "Texas papers received in the Junior High REAPER office:

LUBBOCK Today's thought: Compliments are like perfumes—to be inhaled but not swallowed.

Lubbock's song of the week in the last issue was "Every Night About This Time."

The words follow: Oh, how I miss you I go into an old rendezvous Every night about this time. Every night about this time. The gang keeps on asking why you're not around. And I keep pretending that you're just out of town. Every night about this time. Memories haunt me Wondering who is dancing with you. Every night about this time. And whenever they croon our favorite tune A tear falls with every rhyme. Oh, I miss you every night about this time.

AMARILLO The victory command has been organized for the purpose of providing entertainment for Amarillo High school students every Friday and Saturday nights.

The Amarillo High school held a victory concert recently, netting \$540 in bonds and stamps.

SAN ANGELO San Angelo High school had the same trouble Pampa Junior High had last week when their sponsor left for the army. Mr. William Eilers, Jr., left "The Campus Corral" about the same time Mr. Joe Chrysler left Pampa Junior High Reaper for a war job in Arkansas.

Many See Air Base Third New Set of Courtesy Cards Are Presented in Last Assembly

Despite the wind and low temperature hundreds visited the Pampa Air Base Sunday. This was Open House for the Army Air Forces Advanced Flying School 12 miles east on the Mobeetie highway near Laketon.

Aviation cadets who have already completed 27 weeks of intensive flying training receive their final advanced training in twin engine military aircraft at the place. Hundreds of ground men take care of the repair and maintenance of the twin-engine medium bombers.

Upon completion of their nine weeks' training here, they receive the coveted silver wings and are assigned to a tactical unit preparatory to the job they are all itching to do—defeating the enemy.

As visitors were guided from one part of the base to another, the boys taking care of ground operations continued with their work. A few restrictions were printed and handed out to the visitors to keep them in line with the regulations.

1. No cameras allowed.
2. Speed limits 20 miles per hour.
3. Park your car as indicated by guides.
4. Follow traffic pattern as indicated.
5. No smoking on the "Line."
6. Enter only buildings marked "Open for Inspection."
7. No civilian purchases permitted at the post exchange.
8. Do not enter aircraft.
9. You do not have to stay with your guide.

For the past several weeks certain groups have been invited out to the Air Base, certain civic groups, clubs, churches, and scout. Sunday was invitation day for everybody. It was estimated that more than 5,000 persons looked through the hangars, saw the hospital, the recreation hall, church, barracks for the ground force, and other buildings. Many of these were boys and girls still in school.

Crossman Never Cross But Patient With All

Miss Ollie Crossman, registrar, unlike her name is a patient office girl who has more contacts with the student body than any other person throughout the day.

When Miss Marguerite Jones left the office last fall to accept a position with the Cabot offices, Miss Crossman came from the bookroom to the principal's office with a variety of duties.

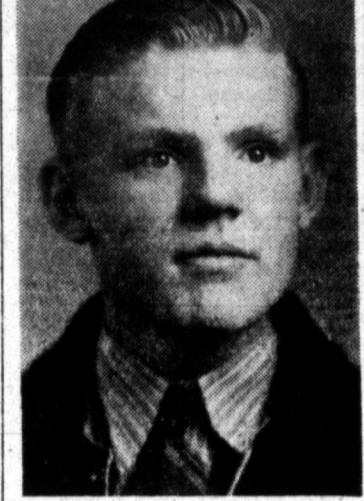

Permanent record cards must be filed in each semester. She makes appointments for the principal. She keeps the books on the money handled by Junior High. She does the stenographic work for the principal. She trains office helpers to take care of the telephone and to do errands about the building in the absence of public address system. She takes care of supplies and distributes mail, materials, and bulletins into the teachers' boxes. She is on the job from 8:30 in the morning until the afternoon. Each day is a new problem.

Miss Crossman is a graduate of Pampa Senior High, receiving her diploma in 1938.

Skating Is Program For Freshman Party

Freshmen students and sponsors met Monday night in the Junior High gym for an hour and a half of skating and fun. This was the first all-freshman get-together for the year.

The principal, Mr. Winston Savage, and girls' counselor, Mrs. Dan Busch, planned the party and arranged for the night. Miss Nadine Wilson, director of physical education, as usual was in attendance and issued the skates.

Mrs. Busch stated that money received from pop and drinks would be turned back to the physical education department for buying more skates. Miss Wilson charged the usual nickel for using the skates.

Winford Vaughan was master of ceremonies, kept the skaters in line, and directed the doubles skating. Jimmie Terrell, a student president, had charge of the door which was open only to freshmen.

Mr. C. T. Hightower, a ninth grade homeroom teacher, came dressed in overalls and brought his pillow.

New Personnel All Women But One

Every month the personnel sees a change in both teachers and students. Miss LaNelle Schelhaegen is due to leave for Eighth grade music next Monday when Mrs. Fay O'Grady's resignation takes effect.

Mrs. Bruce Walters, the substitute who has taught everything this year from music to math to physical education, is now taking Mrs. James Roberts' place, teaching girls' P. E.

For three weeks Mrs. Erma Liles has been teaching in the school taking the music position vacated by Miss Janelle Ketchum who joined the WAACS.

Mr. Robert Carter, Ensign, has been in Pampa on a 10-day furlough after completing officer training in the Navy. He has had the physical education classes left without a teacher when Mr. Joe Chrysler left last week for a civil service position with the War Department.

Mrs. John Hutchens has been visiting her husband who is in Camp Lowry near Denver. Teachers with his resignation are substituting for her Eighth grade math.

Wondering Pup Looks As Family Fights Fire

Clang! Clang! The fire truck went screaming down the street and turned down the alley and finally stopped behind our house.

Scared beyond words, I ran out to the back yard to see what was happening. It was the dog house on fire.

One of the chemical sets put out the blaze. The fireman turned and asked, "Where is the dog?" There he sat off at one side watching all the people running this way and that.

The Grass Is Up!

By CANTRELL NASH (Cantrell had his inspiration for these lines from reading "Wagons Westward" by Sperry.)

"The grass is up!" is the magic cry. Oldtimers are often saying goodbye. They are headed west for gold. Many a night they will sleep in the cold.

These people are rough and too tough to die, "But the grass is up!" that is their cry. They can fight it out and they are willing, too. They may stand off Indians with just a few.

They cross the plains and river after river, When the water was so cold they'll surely shiver. But the country of gold they'll surely reach. Before they view the sea and the western beach. If they find the gold, they'll all be rich.

Although some had said, "There ain't no such thing as a free lunch." When the oldtimers hit pay and find the gold, They will say, "It was worth sleeping in the cold."

Vital Rationing Information

During the last week in March both the March and April stamps in war ration book two may be used in obtaining rationed food.

The A, B, and C stamps in the book may be used through March 31 and the D, E and F stamps will become valid March 25 under the seven-day overlap provision designed to aid consumers who run out of ration stamps for processed foods before the close of the first ration period, said the county rationing office.

The plan will aid persons who have a few low point stamps left during the last week of March, OPA officials said. Such stamps might not be sufficient to buy some of the foods they might want to purchase, but could be used along with stamps for the second ration period.

Stamps for the second ration period are to be valid through April 30.

Remember that Stamp 11 in War Ration Book 1, good for 3 pounds of sugar, will expire at midnight March 15 was also given by the county office today.

Stamp 25 in the book will be good for 1 pound of coffee until midnight March 21.

Other dates in the rationing program include:

- March 21—Coupon 4 in "A" mileage ration book expires.
- March 25—D, E and F blue stamps in War Ration Book 2 become valid for purchase of foods under the point rationing program.
- March 31—A, B and C blue stamps in War Ration Book 2 expire; last date for fire inspections for "A" mileage ration book holders.

June 15—Shoe Stamp 17 expires.

Cosden Fined On Charges Of Hot Oil Sale

WACO, March 11 (AP)—Cosden Petroleum corporation was fined \$4,500 and two employees, R. W. Thompson and H. L. Weeks, were fined \$500 each when Judge Charles A. Boynton of federal district court Wednesday found them guilty of charges of violating the Connally hot oil act.

The corporation pleaded nolo contendere to 14 counts of the indictment. Thompson and Weeks pleaded nolo contendere to seven counts.

The government dismissed charges against R. T. Tollet, president of the corporation, who pleaded guilty to seven counts of the indictment.

The government dismissed the 15th count of the indictment, alleging conspiracy to violate the act, to which all defendants pleaded guilty.

The corporation has until April 1 to pay the \$4,500 fine. Thompson, who is pipeline production superintendent, and Weeks, district production superintendent, of the Penwell field, Ecklar county, must pay \$250 by April 1 and the balance by the third Monday in November.

No notice of appeal was given following the hearing on written stipulation.

The indictment charges 18,850 barrels of oil were produced in excess of the amount permitted by the railroad commission.

District Attorney Ben Foster, who represented the government, was assisted by J. W. Steele, chairman of the federal tender board and director of the petroleum conservation division, interior department; John F. Tomlin and Nelson Puett, senior examiners of the federal tender board.

Serial Story Glider Girl

By OREN ARNOLD Copyright, 1943 NEA Service, Inc.

THE STORY: Worried, Pat Friday voices her fear that complications will arise because of her substitution for Loraine Stuart on the transcontinental glider flight. Capt. Jimmy Carr refuses to regard the situation as serious, telling Pat that he will permit nothing to spoil the thrill of his trip. Soaring over Cleveland, now, Jimmy tells Pat he is not sorry that Loraine didn't accompany him. Pat, who has not dared to voice her love for Jimmy, cannot still her heart, which tells her that perhaps she still has a chance in competition with Loraine.

GUN PLAY

CHAPTER X

CAPT. JAMES CARR took their Victory sailplane down to Cleveland's airport like some gigantic condor settling to a leisurely perch.

"Oooooo-o-o-o, Jimmy!" Pat sounded off in a little-girl scare. "Stop it," he ordered. "N ooing. No apologizing or anything of the sort. Just put on a lot of smiling dignity and bluff right through."

"Yes, Jimmy. I—I'll try."

Smiling dignity. That's what he wanted and Pat knew it was right. Knew, too, that Loraine Stuart would have done it with naturalness and poise. "I'll probably stutter or say the wrong things," she predicted, nervously.

"You won't," said he. "You have what it takes, Pat. Remember that source mind!"

"But I—Jimmy I—"

There was no more time. The crowd was on them, the reporters and the photographers and the officials and the mass of John Public himself. For almost 50 minutes life was a veritable whirl around pretty Patricia Friday. She seemed to be shaking a million questions, hearing a million questions. She remembered to keep a happy smile, but that detail wasn't hard because this was all so exhilarating. Jimmy was making a short talk at a microphone. Then she herself had to speak there—and to her dying day she'd never know what she said! Smiling dignity. She hoped, for Jimmy's sake, that she had managed it.

When she became wholly rational again, she was 3000 feet up, sitting comfortably behind Captain Carr and streaming westward, by Chicago. Jimmy was singing, basso-baritone.

"Heigh ho, heigh ho, A sailing, a sailing I'll go! High in the air With a lady so fair— A sailing, a sailing I'll go-o-o-o-o!"

He broke into his ditty. "How'm I doing, Pat?"

"Swell!"

"Swell!" She repeated, louder. "You sure are talkative! Me, I'm having a time. And say, the mob down there liked you, Private Pat. Thanks plenty!"

"I'm glad, Jim."

"I'll be worse in Chicago. Or better. Depending on your point of view."

"I love it, personally. I love everything about gliding and soaring. I intend to make it a career. But—but I'm out of place here and I know it. You're sweet to try to smooth it over, and all; telling me nice things."

"You're not out of place. There had to be a woman passenger."

"But I'm not the right woman. Loraine will be furious, Jim. And I don't blame her. With me, having to use her name, and—"

Captain Carr laughed. "Guess you're right. She can throw a mad when she wants to."

Now what did he mean by that, Pat wondered. Sitting there in the sailplane behind him, she studied his handsome back, the tilt of his head, the crinkle of his hair. He went bareheaded as much as Army style let him; he was like her brother in the Navy, or like a college boy, virile, and devilish, and gentle withal. In his words he admitted his fiancée ought to be here with him, but in his tone he implied that life was grand as is.

"Jimmy," she called.

"Hup?"

"I—I'll do better in Chicago. I mean, I will. I won't have stage fright so. I have my speech all planned in my mind, and I'll try not to let you down in the slightest. I'll try to be a real lady."

He laughed loud. "Imagine you, being a lady!"

"But Jimmy!"

"That'll take 22 more years, Private Pat! And at least 22 more pounds on you. But listen—the lady passenger we needed didn't have to be a dowager with a long-gone, nor even a somebody with Eleanor Roosevelt poise. Why bells-to-betsy, Pat, you did swell!"

She loved him for that. For that and—and—well she just loved him. It made her miserable even as it exalted her.

Fliers Fight To Fight Japs

By THOBURN WIANZ
AP Features

AT A UNITED STATES HEAVY BOMBER BASE SOMEWHERE IN INDIA—The morale at this United States heavy bomber base is so high that the men fight for a chance to go on combat missions, says Capt. William H. Hood, 43-year-old chaplain from Charlotte, N. C.

"They would rather miss a meal than miss a mission," Hood declares. "If their name is not in the list of those assigned to go out, they beg me to go to bat for them."

Double Check

Hood says the commanding officer here found it necessary to lay down rules against the men accompanying the missions without definite orders. Medical officers have doubled physical checkups because many fliers neglected to report ailments that would prevent them from getting another crack at the Japanese.

Hood probably knows more about the young Americans out here than any one else. They talk to him freely about everything.

Fliers' Confidant

Chiefly responsible for the high morale, he says, are excellent food, regular mail from home, and high caliber officers.

The chaplain rarely misses a chance to say a few words to the men before they take off on missions. He also has a habit of writing a line of scripture on the bombs.

The line is always the same: "Whatever a man soweth, that shall he also reap."

Army Clothes Will Save Skin From Skin-Blistering Gases

KANSAS CITY, March 11 (AP)—Uncle Sam is clothing his fighters against skin-blistering gases the enemy might sow.

The army's chemical warfare service is treating soldiers' garments from head to foot to neutralize those gases before they come into contact with the body.

How the chemical is prepared and where uniforms are treated with it, of course, are tightly guarded military secrets.

It is no longer an experiment, however. The army, profiting by experience in the last war, has been developing this counter-acting chemical for 10 years and more than a year ago set about fortifying its forces with these gas-resisting garments just in case.

Through research the army found several chemicals equal to the task. None were perfect. In the laboratory and by actual test in the field, the chemical warfare service washed out the flaws.

Today, the army is confident it has a solution both effective against all the known blistering gases and at the same time the least harmful to materials of any with which it has worked.

Insurance Decision Returned by Court

AUSTIN, March 11 (AP)—The supreme court held Wednesday that only one-half of the proceeds collected under terms of an insurance policy, less the \$40,000 exemption, is subject to the state inheritance tax, when premiums were paid from community property.

It affirmed the finding of the court of civil appeals in the case of W. T. Blackman, tax-assessor-collector of Jefferson county, versus Mrs. Adolph S. Hansen, who paid \$1,732.39 inheritance taxes under protest. Testimony showed that Hansen left \$110,441.17 in insurance policies when he died in 1940.

Mrs. Hansen was originally denied recovery of the taxes paid under protest by a trial court, which was reversed by the court of civil appeals.

The supreme court noted that premiums on the policies were paid by community property, and that one-half of the proceeds of the policy legally belong therefore to the wife.

Izzard Speaks At Canadian On Post-War World

Special to The News.

CANADIAN, March 11—Wes Izzard of the Amarillo News-Globe and radio station KGNC, addressed an audience in the Canadian High school auditorium Monday night. Izzard's address on "Youth in a Post-War World" was sponsored by the local parent-teacher association.

The speaker stated that a majority of the people seemed unaware of the great changes which will follow the close of the present world conflict, that the children of today will grow up in a different home and business life from that of previous times. He expressed belief that everyone should realize that many changes will occur and try to figure methods of meeting the business situation as it will be then.

Izzard discussed changes in commerce and transportation which may obtain in another decade. He believes that by 10 years after the close of the present war there will be a direct airline from Dallas, Texas, to London, England, via Chicago and Newfoundland, a trip which may then be made in as many hours as now required to journey by train from El Paso to San Antonio.

Speaking of a score of second grade children who comprise the rhythm band and had entertained by a number just preceding his address, he said that when these children grew up, they would go to Rio de Janeiro and Bombay to make a start in life with as little thought of distance from home as now to Kansas City or New York.

The speaker had gained the attention of the children in the opening remarks of his address by saying that however unexpected post-war changes would be for the adults these second graders, familiar with the exploits of Buck Rogers, Superman and Tarzan, would feel no surprise—that it was possible they might live to see accomplishments equal to those of the heroes of the comic strips.

Mrs. Arthur Webb, president of the local P. T. A., presided. Grace Thompson and Mrs. June Bell had charge of the rhythm band. Mrs. O. F. Ethelridge, program chairman, presented C. A. Studer who, in turn, introduced the speaker for the evening.

Students Will Take Army Examinations On Friday, April 2

WASHINGTON, March 11 (AP)—High school and college students who have applied for the army's specialized training program will be given examinations to check their qualifications on Friday, April 2.

Results of the exams, to be taken at the schools, will not necessarily determine participation in the program, but will be considered along with subsequent army tests, the War department said in announcing the plans.

Students under 18 who make "outstanding scores" will be invited to join the army enlisted reserve corps, but will not be called to active duty until end of the school term which is current on their 18th birthday, the announcement added.

Today on the Home Front

BY JAMES MARLOW AND GEORGE ZIELKE

WASHINGTON, March 11 (AP)—"Make it as easy as possible, so long as the objective is obtained." That, say men around the Office of Price Administration, seems to sum up the new OPA policy in full swing under Prentiss M. Brown.

Brown has been very definite about it in public pronouncements. "The time has come," he says, "to stop all unnecessary inconvenience of the public."

In putting pleasure driving on the honor system, he declared: "This action is in line with my general ideas on enforcement of all OPA regulations. Positive enforcement measures must be used with criminals but they are not necessary with the general public. Instead, I expect to secure voluntary compliance by the public through understanding of the need for regulation."

This doesn't mean, OPA men say, that "the sky's the limit." They say they're still keeping an eye out for flagrant violators.

Here's the recent OPA record:

1. Honor system: The big item is the ban on pleasure driving. Brown said he believed the public understood, put drivers on their honor.

The honor system also is being applied to purchase dried beans, peas and lentils (the first two are rationed) for seed purposes.

2. The red tape question: Involved procedure was eliminated in sale of automobile tire recaps made of reclaimed rubber. OPA also is studying the "paper work" required of businesses, with a view to simplification.

3. Prices: Effective April 15, the prices of women's rayon hosiery have been ordered reduced by from 5 to 40 cents a pair. Brown said he told senators yesterday that he intended to reduce price ceilings on items whose unit cost of production had declined.

4. Getting views on those outside
