Senators Face A Vote Today On Draft Plan

WASHINGTON Senate faced a decision today on the politically touchy issue of drafting 18-year-olds to help expand the nation's fighting forces. Members agreed to start vot-

ing shortly after 2 p. m. (EST) on a proposal by Senator Morse (R-Ore.) to prohibit induction of young men until they are 18 1-2 years old. The present minimum induction age is 19.

Under debate in the Senate is bill that would lower this to 18 years and set in motion a permanent Universal Military Training and Service (UMTS)

Chinese Putting Up **Bitter Resistance**

TOKYO -(AP)- U.S. and French troops launched a new attack today on bitterly resisting Reds in a mountain stronghold in east-central Korea.

American marines continued their drive among precipitous peaks toward Hongchon, a key road town believed to be Communist central front headquarters.

Chinese and North Koreans fought stubbornly to stem the grinding allied northward drive while they built up on the central and western fronts for a possible 300,000-man

counterassault on the allies. On the eastern flank, the U.S. Seventh Division and the U.S. Second Division and its French elements hurled three spearheads against an estimated 6,000 Reds on a

Quality Service Station Bids Fair To Get Choice Chunk Of Petrol Patrons

When the men behind the venture known as Quality Service Station, two blocks east of Cuyler on Frederic, launched their new service station there weren't too many of the local gentry who paid much attention to the enterprise. The search for everlasting youth appeals to everyone. No one wants think they can postpone the progress of the years. For example, one of my readers recently asked whether

there was any value in taking male sex hormones which were advertised for men over 35. There isn't any good reason for

taking these hormones in the hope that they will delay signs of the passing of time. It is true that the male sex glands produce hormones which are absorbed into the system and probably have much to do with vigor during the peak years of life. However, the hormone produc-

tion keeps up for many years and the source of lessened energy as early as 35 years of age should be sought elsewhere. Even at 45 or 50 years of age there is great doubt that injections or tablets of male sex hormone will have any real effect on the energy. Actually scientific opinion is

greatly divided on whether there is any period in the life of men in which the manufacture of hormones is decreased enough to lead to a change of life similar to that which occurs in women. Many men, for example, never

do have any symptoms at allwhich can be considered as reflecting a lessened functioning of the sex glands. A few develop feelings of tension or other vague disturbances which are sometimes thought to be caused by decreased hormone production, but such signs can come from a lot of other things too. So far as sexual powers are concerned changes are more often due to mental causes than to any lessened hormone produc-

No, the male hormone does not provide the key to everlasting youth. In later years some doctors advise testosterone, which is one of these hormones, but too much cannot be expected even then. There are many differences between youth and age, but the state of mind seems to be as important, if not more so, than the

Pelley Again BY DAVID BAXTER

Now that William Dudley Pelley is out of the federal jug on parole, as might be expected, he seems to have refurned to the same old stand, catering to a lot of head-feelers, vegetable - juice fanatics and spiritual abortionists. By the terms of his probation he can't

go in for political writing these days. I wonder just what authority a probation board has to set conditions whereby a man can't say what he pleases politically. Anyway, since he can't talk politics, Pelley is trying his hand at mysticism again. See 2 Peter 2:22, the Bible. Several people have sent me

copies of the fellow's latest publications, called "Soulcraft" and 'Valor." I notice that, for once in his life, he isn't regaling us going to ride to Washington, set up his "government" and save the country. Not a word about the Jews, either. That's funny: the Jews used to be Pelley's biggest stock in trade. Not that he had anything against them. I doubt if he was even an honest anti-Semite. He knew that a lot of WASHINGTON - The Fulbright facturers, whose own resources other people hated the Jews-and capitalized on it. One book he published years ago purported to be a letter writ-

I have always suspected that Pelley wrote that letter himself publishers (Pelley and Co.) had a footnote that the original "Pilate" letter was in "the Vatican archives." But there is no such letter in the Vatican archives. It

was a hoax, pure and simple. This job of ghost-writing stuff to get people sore at someone else is old business, but it pays off handsomely in books sold. It is about on a par with another of Pelley's best-sellers which he claimed was a statement by Benjamin Franklin in which Franklin ambasted the Jews and demanded their exclusion. Pelley in this case claimed to have gotten the Franklin statement from the papers of one Charles Pinckney, who lived during Franklin's time. The real Pinckney papers are in the Franklin Institute, Philadelphia, and there is no such paper as Pelley represented there. Just another hoax that has been taken up and reprinted and circulated by about every dishonest person in the country. I am not defending "the Jews" en masse any more

HOW TO CREATE AN EMERGENCY

(The Wall Street Journal) A little more than two months ago as President Truman prepared to declare a state of emergency we vigorously opposed such a step. We think the time has come to review what has grown out of that declaration.

We now have price and wage controls. We have ever-increasing regulations on the use of materials for industrial production.

And what else has happened? We have suffered a productiondestroying railroad strike, ended only by a drastic Army order. The nation lives in fear that any day

'sick" workers may again prevent the transportation wheels from turning.

Last Friday many thousands of workers didn't show up at woolen and worsted mills. They want pay increases which can't be granted under the wage control regulation and even if they could the mill men ask: How can we pay such wages without raising prices which with tall yarns about how he's | are frozen? So orders for Army uniforms and blankets go unfilled, as do those for civilian goods.

How many more such strikes may come in the weeks ahead, we couldn't guess. But meat packer employees are threatening. And the giant United Auto Workers-C. I. O. has warned that strikes will happen if wage control efforts get in the way of contracted-for pay increases.

The whole wage control mechanism, in fact, was short-circuited when three labor union leaders quit as members of the Wage Stabilization Board. They didn't like the terms for thawing the wage

But that is not all. In their abortive effort to hold down prices, the controllers left free (at the farm level) the biggest segment of any family's expensethe cost of food. And why? Farm voters must not be annoyed.

There's no way to measure how much confusion and waste manhours have been caused by Washington's attempts to control our economy. Two carpet makers have halted sales until they can get official approval of higher prices. Imports of some goods have been halted. And faced with a "state of emergency," price and wage controls that wouldn't control and endless materials regulations the whole country has been whipped into a frenzy of buying. Manufacturer inventories have climbed. Retailer inventories are up. Consumer buying has soared. What else was to be expected? Two months ago there was no

national emergency. But since then, as all this experience shows. we have had a lesson in how to synthesize one.

groes or anyone else en masse, but I am against any man who goes in for deliberate fibbing to make money out of it.

I felt sorry for Pelley when, already convicted, he was tried with some of us in the Sedition Case. He wasn't guilty that time but Prosecutor Rogge, knowing Pelley's background, evidently thought it would be clever to smear other defendants by mixing Pelley's name with theirs in the trial. However, that's another issue. I have no sympathy whatever for him in his present nearblasphemous religious venture which, as usual, he is trying to put over in the name of Jesus. He invariably used Jesus' Name to garnish his "Silver Shirt" outfit, too, when he was trying to lead it into an American dictatorship.

Vegetable Compound wonderful to relieve distress of 'change of life'"

"Any woman between the ages of 38 and 52 should be interested in my experience. I was going through functional change of life and found myself terribly embarrassed from hot flushes, and I felt so nervous, easily upset because of this.

"What really shocked me was when I overheard my husband explaining my shortcomings behind my back. He said, 'Don't mind Louise—she's going through change of life.' That made up my mind. I had heard how effective Lydia Pinkham's Vegetable Compound was for relieving such symptoms, and I decided then and there to try it. Thank heavens I did. "I find Pinkham's Compound sim-

ply marvelous to relieve embarrassing symptoms due to this cause. In fact I now take Lydia Pinkham's Compound regularly to help build up resistance against hot flushes, tense emotions, flighty, nervous, tired feelings-due to this cause I wish anyone when troubled this way would try this great medicine." P.S. Pinkham's Compound tastes swell in a little fruit juice or plain water A wonder jully effective medicine made especially for women.
