# Child's World Is Wonderful

Carmelita Plonka

The world that children live i is mighty wonderful . . . filled with little daydreams and hopes and joys that make the older folks sometimes wish they were school-age again. But boys and girls have their ups and downs, too, partic ularly when they are not feeling well. Ten - year - old Carmelita Plonka, the daughter of Mr. and Mrs. A. Plonka of 3202 S. Aberdeen, Chicago, Ill., was not feeling good recently and was just too listless to get the most out of her school days. Fortunately for Carmelita, though, her grandmother suggested that her mother give her HADACOL, because she had heard how much it was helping children deficient in Vitamins B-1, B-2, Iron and Niacin. Now Carmelita feels ine and her mother says she has big appetite. Here is Mrs. Plonka's statement:

"My daughter Carmelita, who is 10 years old and in the fifth grade, nad always been underweight and I had to positively force her to eat. She had no interest in food whatsoever, but I knew that she had to eat. When we were visiting my mother in Missouri over the Christmas holidays she suggested I give Carmelita. HADACOL. I bought a large bottle of it that same day and was amazed at the change in Carmelita. Her appetite picked right up and she now eats three hearty meals a day plus inbetween snacks. I have really praised HADACOL, and highly ecommend it for everyone."

How Labor Union Bosses Help Promote Communism VI

Here is more of an address made by Robert T. LeFevre, extension director of the Wage Earners Committee of the U.S.A., Inc., Church at Los Angeles on a recent Sunday evening. I quote:

"The labor boss now seeks to control our schools through federal stitute a giant, sweeping allinclusive rent control on all our ing to institute new and fabulous controls on agriculture. "The labor boss is seeking to control business and industry. He is seeking to control our government. He already dominates the executive branch and the judicial branch. He has a hold over the bulk of our legislative department.

"There is only one organization in America today potentially capable of opposing the labor boss. It is an organization that is only one year old. It is an organization composed of wage earners-men and women who have to do some-America. It sprang into being as the result of the good old-fashioned virtue of American people to think for themselves in spite of what they are told. It is backed by nobody but the wage earners themselves, but its history in the few short months of its existence has been phenomenal.

"It's first act of aggression against the rising tide of powerful pressure groups and privilege seekers was to run in the Los Angeles newspapers a series of full-page ads attacking the communistsocialist-fascist trends so preeminent in our land, bringing to the attention of the American people the name of the man who is behind all of these trends—the labor boss. The reaction from these ads asset the ensuing radio programs, printed materials and now, a nation-wide magazine, has been unprecedented. People from all walks of life caught the spirit and recognized that here in the Wage Farners Committee was a "right" movement with muscles. Here was a grass-roots organization representing neither management nor moustry, but representing instead the wage earners, the consumers, the people who in time of peace pay with taxes, the people who in time of war pay with lives. Here

materialistic sense, too. As might be expected, the Bible, being a spiritual book and teaching Divine morality, does not justify any "Fatherhood of God and Brotherhood of Man" teaching or attempts by mere humans to pass it off as "Christian."

When certain stubborn, evil people, continually resisting the Holy Spirit of love, brought up this doctrine against Jesus, he told them bluntly, "You are of your father, the Devil, and the lusts of your father you will do. He was a murderer from the beginning and abode not in the truth because there is no truth in him. When he speaks a lie, he speaks of his own: for he is a har and the father of it."

"He was a murderer." Quite so-and many of his children are certainly following his example in murdering truth today, just as they always have. Jesus was not condemning these

people nor being harsh or namecalling. He was simply stating a truth in plain language. These people were already condemned. He was telling them that fact so that they might seek the better way, "the way, the truth and the life." Obviously, if the Devil is a man's

father, then God isn't. So much for God being "the Father of all men." By the same reasoning, it follows that the sons of God and the sons of the Devil are not brothers and never will be brothers. The man who believes and follows the truth is in no spiritual sense a brother of any man who believes and follows falsehood. For any child of God to call a child of Satan his brother is to dishonor God. "What part has light with darkness?" Apostle Paul asks. Can truth and falsehood be reconciled-made one? Let those who preach "the brotherhood of man" answer the Apostle's question.

You will never be able to mix morality and immorality, good with bad, right with wrong, truth with falsehood. This, in substance, is what the "brotherhood of man" trine cultiv seeks to do.
