Democrat Recommends Flynn's Name Be Withdrawn

House Probes Operation Of Lease-Lend

WASHINGTON, Jan. 29 (AP)—A detailed accounting of the billions expended in lease-aid appeared assured today even as congress started machinery to keep the program going another year.

The house foreign affairs committee summoned Lend-Lease Administrator Edward R. Stettinius, Jr., for questioning on operations of the wartime act.

A showdown on labor's strength in the new congress also is impending. Congressional reaction to a bill subjecting labor groups to penalties of the 1943 anti-racketeering act by broadening the definitions of robbery and extortion is expected to indicate whether sharp revision of labor laws is in the offing.

The measure, overwhelmingly approved by the house judiciary committee yesterday, generally was looked upon as a forerunner of even more far-reaching proposals, including one to modify the national labor relations act.

Meanwhile, congress studied two other important developments—a Democratic senator's recommendation that Edward J. Flynn end a bitter senate controversy by requesting withdrawal of his nomination as minister to Australia, and an attempt by some congressmen to force the president to back down on his \$25,000 salary limitation.

With outcome of the senate's vote next week on confirmation of the Flynn nomination regarded as a toss up, Senator Van Nuys (D-Ind.) asserted withdrawal of Flynn's name would be "a very wholesome solution" to the situation.

Van Nuys declared he was unimpressed by Republican charges the former Democratic national committee chairman is unfit for the diplomatic post but added "this is no time to plunge the senate into a controversy when any of a dozen well-qualified men could be confirmed without a dissenting vote."

Congressional opponents of the presidential salary increase sought to attack a repeal to a bill lifting the nation's debt limit from \$125,000,000,000 to \$210,000,000,000. If successful, the maneuver would compel the president to veto the new debt authorization or accept revocation of the salary ceiling.

Pampa Youth Is Missing in Action

Mr. and Mrs. W. L. Carpenter, 403 N. Banks, were informed in a telegram received here today that their son, William Orville Carpenter, 22, U. S. N., was missing in action. No further details were given except that the parents were notified that any later information learned would be transmitted to them at once.

Orville had been in the navy three years. He had attended school here, joined the navy, and was at Pearl Harbor when the sneak Jap attack occurred on December 7, 1941. Last letter the parents had from Orville was received in October, 1942, but he could not, of course, reveal where he was stationed.

Besides Orville, Mr. and Mrs. Carpenter have two other sons in the navy, Chester, 20, who has been in the navy two years, who was last reported at San Francisco when his ship docked there, and Robert, 24, who enlisted December 22, 1942 in the naval reserve and is now at the San Diego naval base.

Another son, Roy, 14, is a student in Pampa Junior High school. In addition to the three brothers, Orville also has a sister, Elizabeth, who resides here.

I HEARD . . .

That City Manager Steve Matthews was looking super-super in his naval officers uniform that he wore when honored with a banquet dinner given by Pampa Rotarians last night at the Pampa Country club. Manager Matthews has been commissioned a lieutenant, junior grade, will leave Pampa next week. Rotarians presented him with a fine fountain pen and pencil set at the dinner last night.

HITLER'S DECADE: TEN YEARS OF TERROR

1933 ADOLF HITLER named German chancellor on Jan. 30; Nazi party gains power. 1933 REICHSTAG burned; 5000 communists arrested; Nazis begin reign of terror. 1934 PRESIDENT HINDENBURG (receiving mock bow) dies; Hitler is Fuehrer.

1935 HENCHMAN Hermann Goering treats Luftwaffe, with dive-bombers like this destined to spread war devastation in Europe. Meanwhile Hitler persecutes Jews, burns books, creates Gestapo, Storm Troopers, concentration camps. Arrests of Pastor Niemoller, right, in 1937-38, symbolize religious oppression. 1936 ROME-BERLIN axis formed as Mussolini seizes with Hitler, the rising dictator in Europe. At Munich beer hall, scene of 1923 putsch, Fuehrer meets annually with cronies like Hess the Parachutist, left, and Goering.

1938 AFTER AUSTRIA grab, Hitler moves in on Czechoslovakia, outwitting appeaser Chamberlain at Munich, above. Year later Germany's Ribbentrop signs Nazi-Rest pact with Stalin. 1939 HITLER'S ARMIES invade Poland, plunging the world into its greatest conflict in history. 1943 AFTER 3 1/2 YEARS of his rise to power, Hitler may attempt to reconcile the fate of these annihilated tens of thousands with his boast last September that the Russians "will never get us out of Stalingrad."

Japs to 'Free' Conquered Areas

By The Associated Press An announcement of the "impending creation of an independent Burma and a reaffirmation of the independence of the Philippines" were high lights of Premier General Hideki Tojo's address to the Japanese parliament, the Berlin radio said today in a broadcast dispatch dated Tokyo. The broadcast was recorded by the Associated Press.

Two Torpedoes Hit British Vessel

WASHINGTON, Jan. 29 (AP)—The navy reported today that a medium sized British merchant vessel was sunk in the South Atlantic off the coast of Africa in mid-October when hit by two torpedoes almost simultaneously. The fate of 35 persons aboard was described as still uncertain while 15 survivors safely reached land, although where was not stated.

RAF Continues Raids on Akyab

NEW DELHI, Jan. 29 (AP)—RAF fliers are continuing their pounding of Akyab island, the British disclosed today, with two night raids and a series of day raids noted in a communique on action in western Burma. Bombers attacked objectives on the island Wednesday night, bombers and fighters swept over the area yesterday and again last night. The Akyab zone was raided, the British reported.

Five Jap Warships Damaged in Pacific

WASHINGTON, Jan. 29 (AP)—In two furious days of fighting in the Solomon islands, the navy reported today, American forces damaged two Japanese cargo ships, two destroyers and a tanker, destroyed 10 enemy planes and killed 26 Japanese troops in operations which resulted in the capture of an enemy command post.

Three Men Shot In Wisconsin Break

WAUPUN, Wis., Jan. 29 (AP)—Three men were shot and wounded, one possibly fatally, in an attempted break from the Wisconsin state prison today. A fourth man succeeded in getting over the west wall but was captured in a Waupun garage a short time later.

Reds Buckle Vaunted Nazi Defense Line

By The Associated Press Russia's triumphant armies, crashing into the middle of the German front between Moscow and Kostov, reported today they had buckled the Nazi defense-in-depth system for a gain of 12 1/2 miles, killed 3,000 Axis troops, captured 6,000 prisoners, and advanced within 75 miles of the key German base at Kursk.

The thrust represented a total advance of 45 miles from Voronezh which the Russians announced they had recaptured two days ago. Hitler's high command again painted a gloomy picture of the vast struggle, noting that German troops at Stalingrad were suffering "the greatest privations" and reporting a battle "full of vicissitude" in the Voronezh sector.

Nevertheless, the Nazi command asserted that the Germans "repulsed all mass attacks of the Soviets . . . and carried through their movements as planned." Military analysts interpreted the movements-as-planned phrase as indicating that the Germans were attempting a methodical withdrawal—perhaps a retreat to the 1942 Nazi summer line.

The Red armies were exploiting the same divide-and-annihilate tactics used by Hitler in his first devastating sweep into the U.S.S.R. 19 months ago.

Soviet dispatches said the Russians were steadily closing a newly captured Kalinitotskaya, only 18 miles northeast of the key rail hub at Tikhoretz, with Red army columns apparently driving at a rapid clip toward the Sea of Azov down the Stalingrad-Novorossiisk rail line from Salisk.

Far to the north, in the Voronezh sector, the plight of the Nazi invasion armies appeared to be growing darker by the hour, with thousands of Germans, including three generals, surrendering or falling captive as the Russians stormed toward Kursk.

Bedraggled survivors of the German siege army at Stalingrad were also reported surrendering in groups, bitterly reviling their officers for fleeing by plane and leaving them amid exhortations to "die gloriously for the Fatherland."

Tomorrow on the 10th anniversary of his rise to power, Hitler may attempt to reconcile the fate of these annihilated tens of thousands with his boast last September that the Russians "will never get us out of Stalingrad."

Roosevelt, Vargas Confer In Brazil

WASHINGTON, Jan. 29 (AP)—Piling precedent on precedent, President Roosevelt is taking advantage of his historic trip to North Africa by stopping off enroute home and conferring with the heads of Allied Nations in both hemispheres. The latest of these meetings came yesterday, when Mr. Roosevelt saw President Getulio Vargas of Brazil at Natal, main South American terminus of the airline service to Africa.

There he reviewed American Negro troops and inspected a plantation turning out war-vital rubber. News of his Liberian visit was contained in a dispatch from Monrovia, released through the White House, which told for the first time of Mr. Roosevelt's travels after the President, Winston Churchill, and the American and British high commands charted their 1943 war plans in a ten-day conference at Casablanca, Morocco.

Giraud Reveals French Not Yet Entirely United

ALLIED HEADQUARTERS IN NORTH AFRICA, Jan. 29 (AP)—General Henri Honoré Giraud declared today that there were no prospects of any single united French movement at the present time and that he only agreement between himself and General Charles de Gaulle would be one "of liaison on military, economic and financial matters."

Giraud, high commissioner for French North and West Africa, told a press conference that he had not taken up "the question of politics" with the leader of the Fighting French when the two were brought together during the Roosevelt-Churchill conference at Casablanca. "There is no question of a single united French movement throughout the world at the present time," he said.

"We are establishing a permanent liaison on crucial economic and military questions," Giraud told the conference he was willing to give the Jews in North Africa back their property and allow Jewish children in the schools, but added that "these moves must be made gradually."

Before the conference the general issued a long statement, much of it repeating material previously covered but saying in addition that the discussion with de Gaulle at Casablanca was a preliminary step to others which would be taken.

Man Injured In Gas Explosion

A 24-year-old man, M. J. King, suffered severe burns on face, arms, and back at 4:47 a. m. today when the cabin he occupied at Davis Tourist court, 624 S. Cuyler, was blown to pieces in a gas explosion. He was taken to a local hospital. His condition was reported by Fire Chief Ben White as improved early this afternoon.

The explosion occurred when King, becoming cold, awakened and started to light the gas stove in his cabin. Chief White said it was believed that gas from a jet that had been left open was ignited by the match, causing the explosion which demolished the dwelling place.

Two fire trucks answered the call, but it was not necessary to string any hose to put out the fire and only the booster was used. None of the other buildings at the court were damaged, the fire chief added.

Axis Report New Allied Drive Begins

LONDON, Jan. 29 (AP)—The harbor and railway yards of Sfax, a supply port vital for regrouping of Axis forces in Tunisia, were officially declared today to have been hard hit by the 12th U. S. air force's greatest raid of the war while British Eighth army artillerymen duelled with Marshal Rommel's rear guard in the Zuara area 35 miles east of the Tunisian frontier.

The Axis betrayed jitters by radio suggestions that the British Fifth army already had started a big move in the Tunisian theater, these following unconfirmed reports that the American ground forces there had launched or were preparing an offensive.

The broadcasts had no confirmation and today's communique from Allied headquarters in North Africa said "there is no change in the ground situation."

U. S. heavy and medium bombers, escorted by P-38 Lightning fighters, struck Sfax in four waves yesterday, blasted the rail lines and harbor facilities heavily, left many fires burning and shot down six Axis planes which attempted to intervene.

A 12th air force spokesman said the number of planes used was the largest it had ever sent against a single target. The Italian high command acknowledged that damage was heavy.

Axis troops and vehicles were bombed and shot up in a series of other raids from the Pont Du Fahs area to the Ousseltia valley and three enemy bombers were reported shot from a small formation which attacked Algiers last night. From all the operations, two Allied aircraft were reported missing.

Warning Issued On Leaking Gas

Cold weather has brought danger of explosions and asphyxiation by gas escaping from leaky hose connections.

J. W. Garman, manager of the Texas Gas and Power Corp., said today that at least a half dozen narrow escapes from tragedy because of loose hose connections on small gas heaters have been reported to his office within the past two weeks.

Mr. Garman said, "to be particularly careful about these hose connections which many times are knocked loose by playing children. Housewives should make it a habit to make periodical checks to determine that all hose connections in the house are secure."

Rubber hose connections should not be used in a basement under any circumstances, Mr. Garman stated. "Hot water heaters usually are in the basement and if there is a gas leak from improper hose connections there is bound to be an explosion from the fire under the hot water heater if the situation is not discovered in time," he said.

Trust United States

SAN ANTONIO, Jan. 29 (AP)—Complete confidence in the power and purposes of the United States was expressed here by a group of prominent Latin-American newspapermen and diplomats at a meeting of Pan-American roundtable last night.

Victory for the United Nations in Europe for 1943 was freely predicted by the visitors who are touring this country as guests of the office of coordination of Inter-American affairs.

"No longer have Spanish Americans any doubt concerning the sincerity of the good neighbor policy of your government," said Jose "Pereyra" Gonzalez, a member of the "arty and city editor of 'El Dia,' leading newspaper of Montevideo.

### Today on the Home Front

By JAMES MARLOW AND GEORGE ZIELKE  
WASHINGTON, Jan. 29 (AP)—OPA has decided on what's par for your pantry.

Par is five cans or bottles of rationed items per person, not counting cans containing less than eight ounces, like small cans of baby foods.

Any amount over that total calls for a penalty.

In making your declaration to the rationing board, you won't have to count your stock of frozen or dried fruits and vegetables (but remember that these will take ration stamps when you buy them later).

In view of the latest announcement, this looks like a good time to review the main points of this rationing program:

1. Foods to be rationed: All canned or bottled fruits, vegetables, soups and juices and baby foods; frozen fruits and vegetables; dried fruits.
2. Your share: Remains to be determined. Each item will be assigned a point-value—scarce goods will be worth more points than others, and the points may be changed from time to time. Your ration will be fixed in total points per rationing period (which may be a month or some other length of time).

The ration stamps will bear point

### You Help State And County With Poll Tax Paying

"You don't buy the right to vote when you pay your poll tax, you give it to the public schools, 50 cents to the state general fund, and 25 cents to the county jury fund."

That was the statement made today by F. E. Leech, county tax assessor collector, as he explained the deadlines his office would follow for Gray county voters in payment of the poll tax.

January 31 is the official deadline, but this comes on Sunday. To better serve the public, Mr. Leech's office at the court house will remain open until midnight tomorrow.

Then, if you have not paid your \$1.75 poll tax by that time, you can still obtain a receipt Monday, and the office will remain open as late as applicants appear.

However, it is advised that you get your poll tax receipt tomorrow, as it is more convenient for all concerned, rather than waiting for Monday, the deadline here.

"You should look on the poll tax as a contribution," Mr. Leech said. "The public schools certainly need the money since their revenue from the gasoline tax has been curtailed."

"If you are hailed into court you want the benefit of trial by jury and money to run the state government is necessary."

Up to noon today, 1,039 poll tax receipts had been issued for 1943 in Gray county, or only a fifth of the total number of eligible voters in Gray.

totals (8, 5, 2 and 1) and letters (A, B, C, and so on) which will indicate the period in which they may be used. If A, B and C stamps are made valid for the first period, for example, your point total for that period would be 48. (This figure has been mentioned frequently, but OPA hasn't announced its decision.)

3. How to get your ration book: At a time yet to be announced, you or some member of your family must take your No. 1 ration book to your rationing board's office. The rationing clerk will pencil an "A" across stamp No. 19 to indicate that the holder has received book No. 1. (You'll get back book No. 1 for sugar and coffee.) You must declare how many cans and bottles of rationed items you have—on a family basis.

4. Penalties: Before the clerk gives you book No. 2, he is instructed to tear out one 8-point stamp for every can in excess of the allowable total. If there are four persons in your family, for instance, and you have 24 cans, that would be four over the limit, and the clerk would take one 8-point stamp out of each of the family's four books.

There are 24 such 8-point blue-colored stamps in each book.

### U. S. PLANES

Continued from Page 1

Well-placed observers said it was not yet apparent that the fifth American army's operations in the Gafsa-Makrassy area of central Tunisia were of sufficient weight to indicate an attempt to cut ahead of Rommel and block his retreat.

Axis broadcasts suggested that the Allied plan was to sandwich Rommel between the Americans and the British Eighth army if he attempted to hold the Mareth line or the narrow passage between the Chott Durdait marsh and the sea.

One broadcast declared that Lieut. Gen. Dwight D. Eisenhower, Allied commander in chief, had already sent the British into an attack in the region of Bou Arada and Medjes-EI-Bab.

The German news agency DNB, however, was quoted as saying that Axis successes against the French in the central sector were "greater than at first thought."

The possibility that the Allies had launched a determined effort to drive a wedge between Rommel and Col. Gen. von Arnim's forces to the north was given color, however, by a combination of reports from various sources indicating that something big was brewing.

Among these reports was a 48-hour conference at Lieut. Gen. Dwight D. Eisenhower's headquarters bringing together Gen. George C. Marshall, U. S. army chief of staff, and Gen. Sir Harold Alexander, British middle east commander, along with other high American and British officers.

committee opened hearings on the bill to raise a debt limitation, expectation was that it would be reported without difficulty barring controversy over unrelated amendments.

Extension of lend-lease until July, 1945 appeared thus far to have little opposition but demands for an explanation of where and why the money was spent appeared certain to bring a congressional examination.

The labor measure reported by the house judiciary committee defines extension of the obtaining of property from another, with his consent, induced by wrongful use of actual or threatened force, violence or fear, or under color of official right. Robbery is described as the unlawful acquisition of property through "actual or threatened force, or violence, or fear of injury, immediate or future x x x."

To furnish the public with a complete picture of the labor situation including such problems as "absenteeism and unauthorized slowdowns and strikes, Rep. Ramspeck (D-Ga.), the majority whip, suggested to Chairman Norton (D-N. J.) that the labor committee hold a series of hearings.

The inquiry, he added, should cover present and potential manpower needs to determine whether the 40-hour standard work week should be raised.

Meanwhile, a substantial segment of lawmakers appeared to be leaning toward a compromise pay-as-you-earn plan which would cancel part of 1942 personal income taxes and put most of Uncle Sam's 40,000,000 individual income tax payers on a current basis quickly.

The treasury was ready to protest vigorously against cancelling all 1942 personal income taxes, as proposed in the plan advanced by Beardley Ruml, New York banker, but a high official indicated the money-handling department might be willing to erase last year's obligations for the lower income brackets—probably the normal six per cent tax and the first surtax bracket of 13 per cent, a 19 per cent total.

Allows a bit of time to freshen up, the President was escorted to the officers' mess hall where President Edwin Barclay of Liberia, Clarence L. Simpson, Liberian secretary of state, and Frederick P. Hibbard, American charge d' affaires, were waiting to greet him.

After lunch, the two chief executives got into a bouncing jeep and rode to a parade ground where the 41st engineers and part of a defense detachment commanded by Col. A. A. Kirchoff were drawn up at attention.

After a band rendered full honors and played the national anthem of the United States and that of the Republic founded in 1822 by Negroes set free in the United States, the two Presidents rode up and down the lines of troops, inspecting them carefully.

George Seybold, general manager of the Firestone Rubber company's 69,000-acre plantation, took charge of the party after the troop review.

On the way to the plantation the chief executive drove through African villages and saw the circular, straw-thatched huts of the natives. At the plantation, the President saw not only thousands of acres of new rubber shoots but also mature growths where tapping was under way and latex was running into cups.

An American-sponsored project, it is supplying many pounds of rubber to this country every year and is boosting its output steadily.

With the chief executive were three officials who accompanied him to the Casablanca conference: Harry L. Hopkins, chairman of the British-American munitions assignment board; Rear Admiral Ross T. McIntire, surgeon general of the navy and White House physician, and Capt. John L. McCrea, the President's naval aide.

When he met the presidents of Brazil and Liberia, Mr. Roosevelt added to the list of precedents set on his trip to Africa. Never before in wartime had an American president greeted the chief executive of a foreign state in the latter's homeland.

### THE OLD JUDGE SAYS...

"Had any news from George and his family since they moved away, Judge?"  
"Yes, I had a letter from him day before yesterday. He's in Kentucky... the family's fine and they all like it there. George says he has a fine job in a beverage distillery. He brought out an interesting point in his letter I hadn't thought of before. He said that while the beverage distillers are working 24 hours a day, 7 days a week turning

out war alcohol for the government for ammunition, tires, medical supplies and chemicals, they still are able to account for nearly a billion and a half dollars in taxes each year. That's on account of the fact the beverage distillers, though working 100% for the government, are still able to supply the public with beverages from the reserve stocks made during peacetime."  
"Quite an unusual case, isn't it, Jim?"

### Officers Elected By Twentieth Century Forum

Officers for the ensuing year were elected at a meeting of the Twentieth Century Forum club in the home of Mrs. C. N. Barrett Tuesday afternoon.

Mrs. E. C. Sidwell was elected president; Mrs. Frank Carter, vice president; Mrs. Bill Anderson, secretary; Mrs. Carl Pierat, treasurer; Mrs. Curtis Douglas, parliamentarian; Mrs. Gene Fatheree, council of club representative; and Mrs. Clifford Braly, reporter.

Mrs. Ed Dunigan was leader for the first part of the program reviewing the book, "The Days of Ofelia." Mrs. Frank Perry talked on the war in Middle Asia showing maps and explaining the place of these countries in the global war.

Refreshments were served to Mrs. Bill Anderson, Mrs. C. N. Barrett, Mrs. Clifford Braly, Mrs. Frank Carter, Mrs. Curtis Douglas, Mrs. Ed Dunigan, Mrs. Gene Fatheree, Mrs. W. T. Fraser, Mrs. George Pflauf, Mrs. Frank Perry, Mrs. Carl Pierat, Mrs. Bruce Pratt, Mrs. E. C. Sidwell and Mrs. Arthur Teed.

### Glorifying Yourself

By ALICIA HART  
Nea Service Staff Writer

How to wear slacks unselfishly is getting to be quite a problem, as the number of women in men's jobs increases.

There are several solutions. Don't wear slacks when you'll be with

people (especially men) who don't like them, when the necessity for wearing them is not obvious. For example, don't wear slacks when you go walking the dog on a Sunday morning in a neighborhood where most people are dressed for church.

Second, choose the slacks carefully. New cuts, not too long in the crotch, are becoming to women with average figures. Slacks that hug you tight around the hips and below the hips will not look pretty. The garment should fit smoothly but not too snugly, and it should hang from your waistline just as truly as your skirt does. That waistline-hang is perhaps the most important item.

And, lastly, if you have a derriere that calls for slimming—sit with legs outstretched, feet together, hands on floor in back of you, and raise the torso high off the floor and drop to the floor. Do this exercise vigorously, dropping first on one side, then on the other. Don't get so enthusiastic, however, that you bruise your tissue.

Now sit straight, tummy in, legs straight forward.

Lift the legs from the hips and push forward without bending the knees.

These routines practiced persistently, will slim you down.

**Woman Mistakes RAF Officers For Drivers of Buses**

ELLINGTON FIELD, Jan. 29.—"Excuse me, sir," the woman said, as she stepped up to the two young chaps in blue uniforms, "but can you please tell me when the next bus leaves for Beaumont?"

Before they had a chance to explain that they didn't drive a bus and didn't know anything about bus schedules, the lady realized her mistake. These young fellows in the natty blue uniforms, light blue shirts and black ties were wearing the insignia of the Royal Air Force. Both were flying officers, with hundreds of hours in the air.

"I'm sorry, sir," the woman explained.

"Oh, that's quite all right," one of the chaps said. "We're always being mistaken for bus drivers or police officers. Can we be of any help to you? I believe the information window is right over there."

### MODERN MENUS

By MRS. GAYNOR MADDOX  
Nea Service Staff Writer

Because there are vast supplies of wheat on hand, we have no fear of a shortage. Use good bread three times a day in your menus, either with butter or fortified margarine, or as one of the ingredients in your cooked dishes. Use whole-wheat or some other whole grain bread often, and at all other times use an enriched bread.

**Lamb Shortcake (Serves 5)**

Four tablespoons fat drippings, 1 minced onion, 4 tablespoons flour, 1-1/2 teaspoons salt, 1/2 cup lamb broth (from stewed lamb shank), 1/2 cup tomato juice, 1/2 cups diced cooked lamb (from 2-pound shank of lamb), 1/2 cups cooked vegetables (peas, carrots, celery, beans), 10 slices enriched bread, 2 tablespoons fortified margarine.

Melt dripping in saucepan; add onion and cook together for one minute. Add flour and salt and blend. Stir in lamb broth and tomato juice and continue cooking, stirring constantly, until the sauce thickens. Add meat and vegetables and heat together. Toast enriched bread; spread with margarine. Allow 2 slices for each serving and put together with filling, shortcake fashion.

A 2-pound shank of lamb can be stewed with vegetables (onion, celery tops, parley, carrots, barley, etc.), the broth used for sauce and for soup and the meat taken from bones and diced... makes 1 1/2 cups. Cooked veal, pork or ham can be substituted for lamb, if desired.

**Grilled Cheese and Baconette (Makes 6 sandwiches)**

Six slices enriched white bread, 6 slices processed cheese, 1 teaspoon prepared mustard, 1 tomato (optional), salt and pepper, 1 cup large enriched bread crumbs (2 slices), 1 tablespoon melted bacon fat.

Toast enriched white bread on one side only. Cover untoasted side with cheese slice, and spread lightly with mustard. Cover with a slice of tomato if desired; season with salt and pepper. Blend crumbs and melted fat together and sprinkle lightly over top of each sandwich. Heat sandwich slowly in broiler to melt cheese and brown crumb topping.

### Delay in Draft Rulings Expected

WASHINGTON, Jan. 29.—(AP)—Although February 1 has been set as the deadline for selective service registrants to carry their draft classification cards as well as their registration certificates, there were indications today of a two-week postponement.

Informed sources, declining to be named, said the postponement would give draft boards more time to make up lists of delinquents eligible for prosecution and also give these men more time to communicate with their boards and get their papers in order.

### District of Columbia Board Lacks Members

WASHINGTON, Jan. 29.—(AP)—The government of the district of Columbia, a half-hodge-podge that represents city, state and federal form of rule under one bracket, is in a stew.

The house committee, which jointly with a senate group handles "DC" affairs, hasn't been able to function because the majority party, the Democrats, can't find enough members of the house willing to serve.

In this dilemma, the committee is unable to act on bills that would increase the pay of district policemen, firemen and school teachers, and to fix the status of auxiliary policemen.

## Chinaberries Turned Into War Bonds

COLLEGE STATION, Jan. 29 (AP)—Chinaberries used to clutter up the yard around Evelyn Wieland's home near Fluvignin, Travis county. Now they are swelling her war bond purchases and building a savings account for a college education.

The Chinaberries are boiled, dyed, and strung on length strands. After this 17-year-old Travis county 4-H club girl had sold \$50 worth of the three-strand beads to individual purchasers, her craft came to the attention of a buyer in an Austin department store. Since then, Evelyn has been selling her "satinette beads" almost exclusively to the store, usually two dozen pairs per week. Proceeds from the beads total \$254.50 since she began her sales last March.

Evelyn's earnings have enabled her to buy eight \$25 war bonds and start a bank account for college expenses. She will graduate from the Fluvignin high school this spring, and plans to enter the University of Texas. The Austin department store has promised her employment during her college career.

## Steel Holding Up Ship Construction

WASHINGTON, Jan. 29 (AP)—Rear Admiral Emory S. Land, chairman of the Maritime commission, told an executive session of the senate military affairs committee Thursday that steel was the biggest "bottle-neck" against a merchant ship construction program of 20,000,000 deadweight tons this year.

He told the committee that the 300,000 additional workers needed to reach such a goal could be found among women, men above the draft age and men with minor incapacities exempting them from armed force duty. He said he was opposed to compulsory manpower distribution unless it was absolutely necessary.

## Fire Equipment Sent with Skids

SAN ANTONIO, Jan. 29 (AP)—Fire Chief Claude Hart took a look at the first assignment of auxiliary fire fighting equipment for San Antonio from the office of civilian defense today and then wondered just how things were going to work out.

In the first place the equipment, which consists of 19 water pumps, each weighing 1300 pounds, is mounted on skids.

"I wonder if they think this is the north pole where we can slide stuff along on the ice," the fire chief said. "You know you can't drag 1300 pound pumps on San Antonio streets at a fast clip."

Hart said he could probably mount the equipment on trailers if he could get the trailers. But, he said, he understood the OGD tried to get priorities for wheels and couldn't.

"I could mount them on trucks, but where are you going to buy 19 trucks — and with what?" the chief asked.

Even if he could get the pumps to a fire, Hart explained his troubles would not be over.

"There was no hose coming with the pumps, and we can't buy any more," he declared.

"And even if we got the pumps to a fire and had the hose, I wouldn't have enough men to operate them," he added.

## Transport Command Has Good Record

WASHINGTON, Jan. 29 (AP)—Assistant Secretary of War Robert A. Lovett today branded as "vicious

reckless and completely untrue," a rumor that "50 per cent of personnel in army planes en route to our fronts are killed in transit."

In a letter to Rep. Brooks (D-La.), read on the floor of the house,

Lovett said that during 1942, 99.7 per cent of all aircraft accepted for domestic ferrying and foreign flight delivery by the air transport command were delivered to their destinations.

# The President's... Birthday Ball

Express your birthday greetings to President Roosevelt in the way he'll most appreciate... attend one of the dances tonight. In this way you will do your share to stamp out infantile paralysis.

Up on Capitol Hill, Washington, D. C. there lives a man who has risen through his own efforts to a position of great and significant importance—a position he fills well... the presidency of these United States. We deem it a privilege to greet this man on his birthday... January 30th... to wish him well, to wish him the fulfillment of his deepest desire, for Victory and the welfare of the country.

## Sumrall to Speak On Foreign Missions At Morning Service

General theme of the service at 11 o'clock Sunday at the Central Baptist church will be foreign missions. The sermon text of Rev. Sumrall, the pastor, will be, "Go Ye Therefore." The service will be a song-sermon which will consist of various thoughts of the sermon climaxed with appropriate musical numbers both special and by the choir. The final "Lottie Moon Offering" will be taken at the close of this service.

At eight o'clock Sunday evening the sermon subject will be "The Disaster That Japan Forgot." This sermon will not only warn of the danger of forgetting, but that "sin is a reproach to any people. It reveals the deep secret of national as well as individual happiness and shows the folly of selfishness. We insist that every one who possibly can attend church somewhere Sunday."

## "Love" to Be Topic Of Lesson-Sermon

"Love" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday.

The Golden Text is: "Keep yourselves in the love of God, looking for the mercy of our Lord Jesus Christ unto eternal life." (Jude 1:21).

Among the citations which comprise the lesson-sermon is the following from the Bible: "The Lord hath appeared of old unto me, saying, Yes, I have loved thee with an everlasting love: therefore with loving kindness have I drawn thee." (Jeremiah 31:3).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Divine Love is infinite. Therefore all that really exists is in and of God, and manifests His love." (page 340).

DANCE TONIGHT SO OTHERS MAY WALK

On January 30th, 1943, President Roosevelt will observe his 61st birthday. As always his birth date is dedicated to support of the Warm Springs Foundation; where those crippled by infantile paralysis may find new hope, new strength, and often complete cure.

There will be two dances in Pampa tonight - - - to do honor to our President by providing for the continued functioning of the Foundation.

That all the world is at war to make liberty sound and secure can only emphasize the fact that each child who is to grow up to enjoy the freedom for which we fight, must too be sound and sure of the capacity to invigorate that freedom, and perpetuate it, through his or her own understanding and strength. Plan to attend one of these dances tonight as your personal greeting to our President and for the sake of our youth.

# Rate of Texas League Now Resists with Fans

## Majors Will Back Their Three Clubs

**By HAROLD V. RATLIFF**  
**DALLAS, Jan. 29 (AP)—**Chances of the Texas league operating this season brightened perceptibly today with word from three major league clubs that they would see that franchises they control in this loop were sufficiently backed to carry on.  
 The next thing President J. Alvin Gardner would like to know is: Does the public want baseball this year?  
 Gardner brought news of the major league attitude after conferring with William O. DeWitt, general manager of the Browns, and Sam Breadon, owner of the Cardinals, in St. Louis, and Jim Gallagher, general manager of the Cubs, in Chicago. San Antonio is operated by the Browns, Tulsa by the Cubs, Houston by the Cards.  
 In making his report Gardner said he favored operation of the league even if it had to cut to six clubs but he pointedly asked if the people wanted baseball and he urged the sports editors in each Texas league city to sound out the public along this line.  
 "Messrs DeWitt, Breadon and Gallagher said they didn't want to do anything that would hurt interest in baseball in Texas and were willing to operate this year even if it meant a financial loss," Gardner declared.  
 Crux of the situation is that any club not operating will lose all its players because they will become free agents by March 1. This includes players in the armed forces or in defense industries.  
 "Take Shreveport," explained Gardner. "President Bonneau Peters says he has \$50,000 worth of ball players he has developed and brought up from leagues of lower classification."  
 "Then, there's Fort Worth where Rogers Hornsby has almost an entire club ready to go and with players worth \$20,000 or \$40,000. Other clubs also have valuable men on their rosters."  
 "Personally, I would favor operating to protect our investments even if we did have to take a loss."

## John Briggs Rites Held at Canadian

**Social To The NEWS.**  
**CANADIAN, Jan. 29**—Funeral services were held in the Methodist church Wednesday afternoon for John Briggs, 58, who died Monday following a stroke last week.  
 The deceased had been in ill health for some time.  
 John Briggs was born in Schuyler county, Missouri, in 1885. He came to Hemphill county in 1902 and worked on several ranches including the Isaacs Bros., and B. Hopkins.  
 He was married in 1916 and had resided in Canadian about 30 years. He was a carpenter, employed on many houses in Canadian, the more recent ones being those now owned by Russell Carver and John Waters. For the past 11 years, he had been employed by the Canadian light plant.  
 City employees were pallbearers; the service conducted by Rev. T. C. Willett, pastor; three musical numbers by a ladies' quartet, Mmes. John Payne, R. N. Matthews, Grace Spiller, and Edna Fisher, with Mrs. Charles Teas at the piano. Arrangements had been in charge of the Stickley Mortuary.  
 The deceased is survived by his widow and one daughter, Miss Mozelle Briggs both of Canadian, and five brothers, Will and Tom of Missouri, Earl of Cheyenne, Okla., and Frank and Bob of Canadian. Interment was in the Canadian cemetery.

**NEW YORK, Jan. 29 (AP)—**Those who saw William Papaleo running away from old Chalky Wright wondered how the Hartford Italian ever won 53 straight professional fights.  
 Young Papaleo, who is Willie Pep, is perhaps the first boxer in history to win a world championship by doing precisely nothing. The answer is that Wright did less.  
 Pep returns to Madison Square garden on Friday night to attempt to demonstrate in a 10-round match with Albert Stolz that with which he built his almost incredible streak.  
 Pep compiled practically all of his skin in Hartford, where he "finally" drew gates as high as \$25,000, and New York skeptics ask: "Who'd he ever lick?"

SERIAL STORY

I AM A MURDERER

BY MORRIS MARKEY

THE CHASE BEGINS CHAPTER XXIII

So you understand, now, my reasons. You understand the one thing that dominated every moment of my life from that time on.

Something of childish imagination must have fixed itself into the pattern of my obsession from the very beginning, because two things were settled forever in my mind from that beginning: I must kill Norman Tinker publicly, not secretly.

From a very early time, too, it was established in my mind that this enterprise must be my own private undertaking.

He was a leather-faced Italian in the California wine country, and we sat together at the edge of a bridge over a dry riverbed, and he listened.

At the last, he said, "There would be no evidence against that man. They would not arrest him, no matter how you talk. You go out and attend to that thing yourself, like the men have always done in my old country, far back there across the ocean."

Let me confess, in behalf of complete honesty, that the idea of rescuing my infant sister played scant part in my unceasing dreams.

Her plight was altogether overshadowed by the drowning cries of my father, the look upon my mother's face as she paddled desperately away downstream—and the mask of evil which was my memory of Norman Tinker.

HOW I survived those earliest years, along the dock fronts of San Francisco and San Pedro, in the hot little villages of the San Bernardino Valley and the slum streets of Los Angeles, is of no great moment here.

to say. And I learned the meaning of work. I learned the value of money.

As the years moved on, I learned not only the value of money, but how to make it, and I made a considerable amount of it. How, and where, are likewise of no great moment. It is enough to say, again, that I found my fortunes as honestly as most fortunes are found.

When I grew old enough to pay my own way for food and lodgings and even for transportation, I went back to the Settlement. It had changed vastly, for there was a great working mine upstream now—our mine—and I saw no familiar faces.

When I asked, in the office which was built in that far valley, who owned the mine and where that owner might be found, I was told that the owner was a great corporation—that a man named Tinker, or something like that, had sold the fabulous thing years before.

I did visit that president. He knew nothing of Norman Tinker, and cared nothing. I did not speak of my own special interests in the circumstances, and I went back to Southern California.

At that point I settled upon the method of my hunt for Norman Tinker. I assumed that he would change his name, for he knew that I had been left alive, and yet he could not possibly know what course I might follow to bring him to book—what men in authority might even listen to me, and themselves start in search of him.

Therefore it would be futile to search for Norman Tinker as Norman Tinker—the four syllables of a name. And it would be equally futile to prowling the land—hoping for some glimpse of that unforgettable face on a street corner, or in a cafe or hotel, or on a train or in a shop.

I had one assumption, then, to begin with: Norman Tinker would change his name. And I had other assumptions, equally convincing to me, at any rate.

Norman Tinker had, for all his life, a passion for mining and the

byways of mining. He was rich now, from the disposal of the lands which my father had found. But he was not the man to take his wealth and either run away or undertake new passions in the business of life.

SO I would search out all the names in the written lore of mining, and watch most particularly for new names. And I would find, by the grace of the destiny of retribution, where each name sprung from.

I ordered, by subscription, every special journal that concerned itself with the mining of metals, the finding and the digging of metals, the promoting of companies which developed the treasures of the earth, and the companies which smelted away the dross to find the virgin element.

I catalogued, laboriously, every name that was printed in those journals. I made my own small newspaper—again, as a long lost relative or an attorney at law who needed information as of birthplace, and parentage, and education, in order to settle an estate.

When a name appeared which could not be docketed singly in my catalogue—when all inquiries failed to satisfy me—I simply paid a visit to that name. Generally in the guise of a newspaper reporter, or a research man for an institute or university.

Many a solid success in the business of mining must have wended a little at the searching, hungry glances he received from his visitor when I was upon such a mission.

Presently, all of the fixtures of the mining trade were snugly placed in my files. It had been a prodigious labor, because I naturally could not delegate even the simplest duties to even the simplest and most innocent clerk.

At last, it became necessary only to seize upon the new names that were set up from time to time, and quickly run them down.

Pay-As-You-Go Tax Plan Gets Favor Of Texans

WASHINGTON, Jan. 29 (AP)—The pay-as-you-go tax proposal meets with the approval of Texas members of congress, as a whole, and they will support legislation to that effect when it comes up in the house.

A check with the Texas delegation also disclosed today considerable support for the proposal that income taxes on 1942 income be partially or entirely cancelled.

Senator Connally, veteran Texas legislator and a member of the tax-levying finance committee, gave a qualified endorsement to the tax proposal. He doesn't want to deprive the treasury of the revenue due on last year's war-boomed national income.

Senator O'Daniel, Texas' junior senator, also declined comment pending action by the finance committee.

Speaker Rayburn, because of his position, declined to comment on the proposal until the attitude of the house ways and means committee on the proposal was announced.

"I'm for the pay-as-you-go plan," he declared with emphasis. "But I'm sure the people can't pay both the 1942 and 1943 taxes at the same time. Cancellation or deferment of the 1942 taxes will have to be worked out. I don't see that there would be much difference—putting payment of the 1942 taxes at the tail end, because we're going to have heavy taxes from now on."

Speaking of the necessity for a pay-as-you-go plan, West pointed out that unless such a tax collection program was adopted the government would continually lose a great amount of revenue from individuals who spend their income as fast as they made it.

The pay-as-you-go plan is the best so far worked out for capturing a lot of revenue in taxes that otherwise would escape, commented Representative Richard Kleberg of Corpus Christi. He admitted that the collection on 1942 income was a difficult problem, but that some arrangement for deferring payment would be helpful.

Representative Lyndon B. Johnson of Johnson City and Austin only favored the pay-as-you-go plan, but had some other views on taxation.

"We should tax more and borrow less," he contended. "We must collect taxes at the source, not induce the hope that we can collect it at some tax-paying time next spring following the year in which the income has been received, after the money has been spent."

Our entire tax program is in need of complete overhauling."

Wheat Farmers Get Payments

WASHINGTON, Jan. 29 (AP)—Northern and western corn and wheat farmers will get a lion's share of \$595,500,000 in benefit payments to be distributed among growers for complying with last year's federal crop control program.

Southern cotton farmers will get the smallest amount since the supreme court invalidated the first agricultural adjustment act and processing taxes in 1936.

These facts were disclosed today in a preliminary report of the agriculture department on 1942 farm subsidies.

Payments to wheat farmers will total about \$133,477,000. Until the 1942 crop year, cotton payments exceeded those for any other commodity. They will amount to about \$78,833,000 compared with \$184,897,000 for the 1941 crop and a peak of \$285,595,000 for the 1938 crop.

The decline in cotton payments is explained in the improved price position of this crop. One type of payments—called parity payments—are distributed among only those major crops which averaged less than the parity price at the market place during the crop marketing year.
