THE WAY TO DEAL WITH ENEMIES: Matthew 5:43-46.

Ye have heard that it hath been said, Thou shalt love thy neighbor, and hate thine enemy. But I say unto you, Love your enemies, bless them that curse you, do good to them that hate you, and pray for them, which despitefully use you, and persecute you; That ye may be the children of your Father which is in heaven: for he maketh his sun to rise on the evil and on the good, and sendeth the rain on the just and on the unjust. For if ye love them which love you, what reward have ye? do not even the publicans the same?

The Legislature and Liquor

A state monopoly system on liquor is being urged by the bone drys, and a few wets. Former Senator Tom Love, veteran of prohibition wars, has written many letters to legislators urging the monopoly system. It should be remembered, also, that an amendment is to be voted on next year with a mandatory state monopoly as the issue.

Several facts may be studied with relation to the liquor dispensary proposals. One is that the more populous centers are going to do as they please, regardless of the laws—they have so conducted themselves under prohibition. If there is a state monopoly, they will attempt to establish cocktail bars and to serve hard liquors at eating places. What would the State do if its monopoly were violated? What could it do in the face of public inertia in the jury boxes?

If revenue is to be one of the State's aims, would it make more from a liquor monopoly or through licensing of thousands of dispensers? And what is to be defined as an "open saloon" and prohibited as the constitutional amendment provides?

The issue being quite sharply drawn. Those who wish to profit by sale of liquor, or who think free and easy sales will be preferable to bootlegging, are for ignoring the "open saloon" provision of the amendment, which they maintain was a joker inconsistent with repeal. On the other hand, those who wish to make liquor available to those who wish it but who wish to avoid flaunting it before the public in thousands of places are for the state monopoly. The monopoly is regarded by the drys as the lesser of the two evils. Wets maintain that a monopoly would preserve the features of prohibition which made bootlegging prevalent.

Such is the task which faces legislators in the session now gathering. In the final analysis, meeting the wishes of the smaller communities, where prohibition sentiment is still strong, may determine the result. If this sentiment, aroused somewhat by "jumping the gun" in the cities by liquor dispensers, is outspoken, a liquor monopoly will be instituted. If the small community drys are silent, a rather loose licensing system will likely be set up. Such a system, with the abuses which probably would arise in the coming year, might conceivably result in approval of a mandatory state monopoly by amendment.

And if a monopoly is launched now, will abuses of it defeat the amendment next year? And what will be the effect, on the wetness or dryness of the next legislature and administration, if liquor experiments are unpopular in the smaller communities? Obviously, anything the legislature does now is likely to be undone later.

THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent
 WASHINGTON — Charlie Hilles is an astute politician who sort of represents the Morgan and other Wall Street interests in the Republican party. You will notice that Mr. Hilles has not been heard from publicly in all the recent tom-tomming over who should be the party's nominee to run against Mr. Roosevelt.

Mr. Hilles has been busy, however, and you can't help perking up your ears when some of his friends predict that eventually he will reach into the supreme court of the United States and pull out a candidate who will be either Justice Owen J. Roberts or Justice Harlan F. Stone.

Such move might provide the Grand Old Party with the strongest candidate available. It certainly would increase the prestige and power of Mr. Hilles, who is the national committeeman from New York and usually has influence with other contiguous delegations.

It would put flesh and blood on the Constitution issue which to date is about the strongest one the party has been able to think up. In short, there are many in both parties who think it's a very bright idea.

Justice Stone is the favorite in these preliminary whisperings. He is something of a liberal and didn't concur in the railroad pensions opinion by Justice Roberts, which would make the latter a target for liberals and labor if he were out where they could shoot at him.

Stone is also an old machine ball playmate of Herbert Hoover, which may be an important factor. Roberts was once an attorney for the Pennsylvania railroad.

Uncle Andy Mellon, since the pension decision, has been reported ready to put up large sums to nominate and elect Roberts.

The wealthy friends of Mr. Hilles are ready to put up large gobs of money for anyone they think can beat Roosevelt, but are not anxious to spend a nickel on a losing horse.

Mr. Hilles has very little use for Hoover and the general Wall Street idea seems to be that Hoover could not win.

Hilles has shown a lack of enthusiasm also for Col. Frank Knox of Chicago, and Bob Lucas, a Knox man, recently blasted Hilles as the dominating force on the national committee who would put the indelible stamp of Wall Street on the party ticket platform, and convention if other Republicans didn't band together and stop him.

Mr. Hilles is understood to be subsidizing certain Republican stalking horses in the country who think they are candidates, but will be told differently by Mr. Hilles later on. Of course either Stone or Roberts—neither of whom may want the honor—would automatically disqualify himself if he concurred in any decision against the AAA.

You probably won't get a clear line on what Mr. Hilles is up to until the winter league session, at which the committee will pick a convention city and discuss candidates behind closed doors.

By that time the supreme court, including Stone and Roberts, may have spoken its piece as to the AAA.

PAMPAN OKAYS PARDON POLICY OF 'GOVERNOR'

Allred Adopts Role When Forced Into High Office

No, the governor of Texas, James V. Allred was not in town yesterday. A rumor that he was, spread rapidly over town in the morning.

But his brother, Raymond Allred, formerly district attorney of the 31st district, was here. He told how the rumor originated.

Raymond, in town on business, was standing on Crozier. A rather elderly gentleman approached him. "Aren't you Mr. Allred?"

And before Raymond could answer the man said, "Sure, you're the governor." Raymond protested, "That's all right," the man said, "I know you don't want it known. You have to keep your identity concealed. But stay in there old boy; I'm sure for you, and I sure like your pardon policy."

"Thank you," began Raymond, "but—"

"You keep on like you've begun and you'll make the best governor Texas ever had, but watch that Jim Ferguson crowd! They're sure trying to get something on you!"

Raymond watching "old" declared Raymond thinking he might as well act like the governor since he couldn't convince the man he wasn't.

"Now that pardon policy of yours—just what is it?" the man asked.

"Why, I believe in keeping in the pen all who deserve it, and letting out those who should be let out," answered Raymond with oratorical emphasis.

"That's fine my boy; you stay right in there." And he left.

Raymond visited many former acquaintances while here.

MARKET BRIEFS

NEW YORK, Sept. 14. (AP)—The stock market today plodded along dully in the short session, with a little mild profit-taking leaving the general run of prices slightly lower at the finish.

Some of Friday's enthusiasm for the non-ferrous metal shares carried over into today's dealings, and a few specialties were well taken. A more cautious tone of brokerage advices in regard to the near term market movement, however, appeared to be reflected in a reluctance to reach very much for the recent favorites in the bluechip group.

The Associated Press average of 60 stocks was 2 of a point lower at 50.2, with the industrials, rails and utilities sharing about equally in the decline. Some of the individual falls showed a little better undertone than the list as a whole.

Turnover in the stock exchange was only 632,130 shares, or at an hourly rate moderately under the previous full session.

CHICAGO GRAIN

CHICAGO, Sept. 14. (AP)—Notwithstanding seven successive days of advancing prices for Argentine wheat, the Chicago wheat market today ruled a little easier most of the time.

Domestic arrivals of wheat were big, and this led to hedging pressure that, taking the day as a whole proved to be more than a counterbalance for news of precarious crop conditions in Argentina.

Chicago closing quotations for wheat were unsettled at the same yesterday's finish to 1/4 cent lower range, 93 3/4, corn 1/4 off, Dec. 56 1/2-77, oats unchanged to 1/4 down, and provisions unchanged to a rise of 7 cents.

From the outset, Chicago wheat prices fluctuated nervously within a narrow range.

Favorable weather for new corn crop had a bearish effect on the

READY MADE WIFE

BY CORALIE STANTON

Chapter 47 ACCIDENT

Rex Moore came into the little salon. In his grey eyes was a glint of satisfaction. He ordered food and a bottle of champagne. With the quick response of the French to all culinary emergencies it was soon brought. Hot soup and cold chicken.

Gladys took some soup and a glass of wine and almost immediately afterwards fell asleep on the couch.

Rex Moore and Laurie said very little. Rex gave that young cur a sound thrashing," he said. "I don't think he'll forget it."

"How did you come to meet

Gladys?" she asked.

"I followed you, Laurie. As soon as the car turned the corner, I got out. I couldn't let you go off like that, alone. I saw you go into this hotel. They told me at the office that you had called on Mr. Dallas."

"I—well, I guessed something was up. So I walked up and down outside, and then came across this poor child."

"Thank God, you were there!" she said aloud.

And then, in an immense revulsion of feeling, she spoke soundlessly to her inmost heart.

A shock awaited him when he reached the Chelsea flat. He found a message to say that Mrs. Steele had been in a motor accident and was seriously injured. They had rung up from a nursing home to say that Mrs. Steele was asking for him. She wanted to see him very urgently.

He drove immediately to the address, and saw from the face of the woman who received him that Wanda must be very ill indeed.

"There is no hope," the matron said. "She is barely conscious. A spinal injury. If she lived, she would be a cripple."

In silence he stole into the room, and looked down with sad, self-reproachful eyes at the grey face on the pillows.

He thought she was unconscious, and did not speak.

"She is slipping away," the matron whispered. "Say something to her. She wanted so much to see you."

"Wanda!" he said gently. "Wanda, dear, I am here!"

It took a perceptible time, but his voice reached her and brought her back literally for a few seconds from the other side.

She opened her eyes; she tried to move.

"Rex, darling!" It was a thread of a voice, wandering, uncertain. It barely seemed to come from the woman on the bed.

He tried to stammer out conventional sayings about getting better; but his voice broke.

Then a smile flickered over her face. Her lips moved. He bent down, and that whisper, hovering between two worlds, came to his ears.

"I want you to be happy. I want you to have—to have—"

But it was too much. She was already too far away.

The other lips dropped apart. The matron motioned him away and bent over the bed.

Wanda Steele, who had saved his life, who had given him back his eyesight, who had loved him with a strong woman's tenacious passion, was no more.

He gave her his last homage and his first true caress, as he bent reverently and kissed her forehead.

Albery had returned to London on the same day as Laurie.

When she was called into his room on the following morning, she found him his usual suave, impassive self. But there was something in his manner that warned her. He spoke smoothly, but she seemed to see the whip in his hand.

"I got your message in Berlin," he said. "I am sorry about your sister. How is she?"

"She is getting on all right, thank you."

OLD GRIEVANCES IN GAS MARKETING HAVE LED TO RESUMING OF STRIPPING

Ruling by Federal Court Is Awaited Anxiously While "Popping" Goes Ahead.

Panhandle gas development has lately repeated itself during the last week.

Texoma Gas company went into federal court at San Antonio early Monday and obtained an injunction

"How did you go to Paris?" she was startled, but her instinct was always to tell the truth, and she answered frankly:

"Rex Moore took me by air."

"You had given me your word of honor not to see him again."

"I couldn't help myself. I had to get there as quickly as possible. It was very urgent."

"You did not tell anybody that you were going to Paris. My people here thought you were at home."

"I wired Mr. Mortimer from Paris. He had asked us to dine with him."

"That's how I found out you were in Paris. Mortimer told me, Laurie, you're not telling me the truth. That's not only unkind, but untrue."

"I am telling you the truth," she felt a furious resentment against him. It was a foretaste of what was to come. She had sold herself to this man with the unreadable Oriental face, and always the whip in his hand. She could not call her soul her own. She was a slave. "Are you going to get together with Moore every time my back is turned?" he asked in that silky voice that stabbed like a stiletto. "Do you want to call our burga i off?"

"No—no!" she said. What was there behind his eyes that gave his words such a sinister meaning? On the face of it, he was in the right. She had given him her word and broken it. And she could not explain. She felt actually that she would rather die than explain. But her bargain—that was another matter. That meant Rex Moore's career, which was his life.

"I have settled my business," he went on, and now he was the smiling, ardent-eyed lover on the point of achieving his desire. "So there is nothing to wait for. I am going to take a holiday, entirely away from business. I have a place in France, not far from Paris. We will go over and be married there, and then we will tour through Spain for our honeymoon."

"And when I have to come back here, you will stay in some quiet little place and I will come over every week-end. Mortimer is going to work things when he gets back to Australia. I can trust him. He will handle it so that we can announce that you have divorced Rex Moore down there, where you were married."

"So you see, it's all fixed up. Get ready to leave London in the middle of next week. Don't bother about anything in the way of clothes. You can do your shopping in Paris. I shall have to go over a few days before to arrange about the wedding. Laurie! Laurie! My lovely girl!"

His voice changed to passionate excitement. He took her in his arms. She was caught in the merciless spokes of the wheel of life. She was helpless. She could only submit.

Next week she would be Mark Albery's wife. And life would be over for her.

"I am getting on all right, thank you."

staying enforcement of House Bill 266, the conservation and proration measure. Texoma is being widely blamed for resuming the tactics which caused legislators to pass the famous "sour gas" law, which was more sweet than sour. Texoma was a leader in the fight to stop stripping under that law.

The gas legislation passed by the last session of the legislature was double-purposed: To stop stripping (as wasteful) and to provide for proration of gas consumption and the market. Unwillingness to share the gas market—explained by the gas companies as "uneconomic"—on the part of purchasers is reviving the conditions out of which the stripping permits grew. But until the three-judge federal court rules on the temporary injunctions and the constitutionality of new legislation, now new laws are expected to be proposed.

The Cargray corporation obtained an injunction in the Sherman federal court under which it resumed operation of its stripping plant west of Pampa Monday at 4:30 p. m. Railroad Commission figures here show it to be "popping off" a daily average of 280,000 cubic feet of gas.

The American Natural Gasoline company, operating a stripping plant in Wheeler county, began operations Thursday at 6 p. m. A commission test at noon Friday showed it to be popping off 159,600 cubic feet of gas daily.

It is understood that Smith Bros. of Wheeler county, operators of a combustion plant converted to use casinghead gas from oil wells, may resume stripping if their competitors continue to do so.

Operators of stripping plants are pointing out that they did not seek relief by injunction until gas pipeline companies went into federal court to avoid obeying commission orders based on the new gas proration law.

It is expected that the attorney general's department will press for enforcement of the new legislation at once.

Club to Assist In Beautification Along Highways

Beautified county highways and city streets is a main project of the Garden club and the county beautification committee this year, so Centennial committees in this part of the state next year may find attractive roads.

Gasoline stations are points of particular interest in the beautification program. The Garden club offers cooperation to any station owner who is willing to improve the grounds about his place.

The club will have seeds and plants to give for this purpose. They may be secured by calling Mrs. Hagan or Mrs. Glen Pool, president.

Petunia seeds are available now, and since the petunia has been adopted as the county flower for centennial year, every station owner, as well as every home owner, is urged to plant a bed of this flower.

Petunia seeds should be planted now, so the plants may start growing this fall for early bloom next year.

An example of gasoline station beautification in a short time has been seen at the Charles Burton station just off South Cuyler on the Mo-bette highway.

Grass, flowers, and shrubs have all been planted this year, and have made it one of the beauty spots of that part of Pampa.

Goals for P-TA Units Attained By Many Groups

By MRS. J. M. CRAIN, Amarillo Texas Congress of Parents and Teachers State Publicity Director

Units of the Texas congress of Parents and Teachers are becoming more goal conscious each year. This statement is quite obvious from the fact that 194 parent-teacher associations scattered among fifteen districts in the state attained the goals of standard and superior rating at the end of the scholastic year, according to Mrs. John M. Pouts, Dallas, state chairman of standards for the Texas congress.

These statistics show that more than eight per cent of the local units throughout the state realize how important it is to have definite objectives and to meet such necessary requirements for this outstanding rating.

As the success of the program of the congress depends largely upon the effective work of the local units, the congress offers definite requirements, which are based upon the principles and fundamental conception of the purpose for which the parent-teacher association exists, to help strengthen and develop the work of the units.

"Certain benefits and ideals that will be attained where associations meet the goals of a standard or a superior association," states Mrs. Pouts, "are: A community living the principles of the parent-teacher movement as an opportunity is given to every adult to recognize his school and community responsibility through membership and financial aid in active, interested participating membership; a cooperative and well organized association with plan of work carried out by active standing committees; the membership enrollment according to the state plan of apportionment of dues and an approved budget for the local unit; an informed membership by officers and chairmen using the congress publications stressing particularly the contents of the local unit package in preparation for the regular work of the association; and earnest participation in the study groups aids in the child from infancy to maturity; better understanding of the needs of the local school and community that should demand the best thought as well as the immediate action of the adults of the locality."

RIVER RACING THRILLS SEEN IN NEW MOVIE

ONE OF ROGERS' LAST PICTURES COMES TO PAMPA

Out of romantic pages of American history, Fox Film plucked one of the most exciting and colorful phases of Mississippi river life to furnish a thrilling climax for Will Rogers' new picture, "Steamboat Round the Bend," now at La Nora theater.

Once a year the fastest packets of the Mississippi and Ohio rivers would line up amid a great celebration and stage a steamboat race from Natchez to New Orleans, the gala event of the year. Crowds would line the shore, river craft would drift up and down stream cheering their favorites and all work was forgotten in the excitement and anticipation of a thrilling race.

In the film, as in the old days, Rogers and Irvin S. Cobb, rival steamboat pilots, employ every possible means of winning the race. Old furniture, wax statues, fire-water medicine and most anything that would burn are used as fuel to turn the tide of victory.

The bitter rivalry of Rogers and Cobb, masters of "The Clarence Queen" and "The Pride of Paducah," reaches a thrilling climax when their packets fight it out for the supremacy of the Mississippi.

The race, however, is merely a highlight to the dramatic climax, since Rogers' sole purpose in entering the race is to save the life of a boy, who through a misunderstanding is held by the law for murder.

In support of Rogers and Cobb, the large cast of players includes Anne Shirley, Eugene Palette, John McGuire, Burton Churchill, and Stepin Fetchit.

SHIRLEY MADE REAL COLONEL IN 4 STATES

GOVERNOR OF IDAHO IS AMONG THOSE TO HONOR HER

Col Shirley Temple is at the Rex theater. She's "the little colonel" of four states!

Idaho's governor, and the most important American Legion post in the United States, independently conferred on the 5-year old star this signal honor. Kentucky and New Jersey followed suit.

Thus Shirley, whose meteoric rise to screen fame within six months, forms one of the most amazing chapters in the book of entertainment history, becomes the world's youngest military officer.

It is the reward for her superbly natural gifts, her wonderful personality, the dash and sparkle that make her the envy of seasoned trouper, and the idol of young and old.

First to honor the marvelous Shirley was Gov. C. Ben Ross of Idaho. After seeing this 5-year-old bundle of curls and personality in four Fox attractions, he lost his heart to her, and instantly made her his aide-de-camp. The necessary papers were drawn, and the commission sent to Shirley.

Soon after, the American Legion, post 48, Hollywood, Calif., made Shirley an honorary colonel with appropriate ceremonies. Little Shirley marched into the auditorium of the post's clubhouse. Preceding her was the post's championship band, and on either side, the officers who were to conduct the ceremonies.

Shirley, in the presence of an audience of 1,000 Legionnaires, received the commission that permits her to wear the shoulder straps with the outspread eagle.

On receiving her commission, Shirley was presented by Post Commander Louis Sanepe with the overseas cap emblematic of the Legion membership and with a medal.

This event, which took place in the presence of the proud parents, Mr. and Mrs. George F. Temple, occurred, strangely enough, precisely at the time that Shirley was engaged in making a picture called "The Little Colonel."

LAWSON PLAYS UNBEATABLE GOLF TO WIN AMATEUR TITLE TWICE IN ROW

WALTER EMERY GIVES CHAMP GREAT BATTLE

CALIFORNIAN SHATTERS PAR IN REMARKABLE LINKS DUEL

THE COUNTRY CLUB, CLEVELAND, Sept. 14. (AP)—The big "little man" with the "paralyzing punch" scored today his thirty-first consecutive knockout in national championship competition and stands supreme for the second successive year as the world's greatest amateur golfer.

William Lawson Little Jr. withstood Walter Emery to capture his second American amateur title. He won by 4 and 2 with a finish that had old man par reeling on the ropes.

The champion lost the first three holes to his surprisingly cool and calculating opponent, a freshman in U. S. amateur title play.

He was hard pressed to finish all even at the end of the first 18 hole round. He was unable throughout most of the second round to shake off a youthful challenger, who simply refused to admit he could be licked until the champion landed the final "crusher."

The climax to perhaps the greatest sub par scoring streak ever witnessed in a national amateur championship came at the 312 yard 16th hole—the 34th and last of the match. The end was in sight, as Little had won two straight holes after having his margin cut to one hole, with five to go.

With two legendary wood wedges, Little reached the green, 12 feet from the cup, and sank his putt for an eagle three.

In completing his second straight "little slam" triumph this year and last in the amateur championships of both Great Britain and the United States—Little also established a scoring record that ranks with the most remarkable in golfing annals.

The Californian was five under par against Emery today for 36 holes. For eight successive victories during the match, in his dynamic march through the biggest field ever gathered for the American championship, he was exactly 19 shots under par.

The champion met his severest tests over the 36 hole route against Johnny Goodman in yesterday's semi-finals and in today's final match.

Little's own courage under fire undoubtedly won their appreciation but the bold challenge of the one to five shot from Oklahoma gained the sentimental backing of those who always are eager to be on the ground floor if a champion and favorite is to be knocked off.

To young Emery's everlasting credit, it can be set forth that he gave everything he had, that he did not "crack" under pressure, and that he kept the match from being anything like a soft touch for the champion at any stage.

Unabashed, the Oklahoman traded shot for shot with Little, frequently holding his own in length and power. He fought back repeatedly, after having his lead wiped out, but he couldn't keep it up indefinitely. When he yielded, finally, he needed to have no regrets. He was beaten by unbeatable golf.

Oklahoma City And Tulsans to Play Again Today

OKLAHOMA CITY, Sept. 14. (AP)—Oklahoma City's Indians and the Tulsa Oilers enjoyed a breathing spell today before the crucial Shaughnessy series playoff game here tomorrow which may decide the qualifiers for the finals.

Oklahoma City has won two games and Tulsa one of the scheduled three-out-of-five series. A victory tomorrow for the Indians would give them the right to meet the winner of the Galveston-Beaumont series in the finals.

Either John Niggeling or Charley Moncrief may be the pitcher for Oklahoma City, and Art Jones, right hander, was expected to be Tulsa's choice.

SAN ANTONIO, Sept. 14. (AP)—Ross (Pep) Youngs — undoubtedly doing all the right fielding up there for the beloved John J. McGraw—gets one more share of earthly glory here tomorrow.

Not a man under 40 will take the field in the memorial game. It's not the first time the Bombers and the Grizzlies have tangled. They have been practicing. Their reward for base-hits has been a cup of beer from a keg at first base. There have been few two-base hits. The kegs are located at the first and third sacks.

The prize this time will be the \$100 contribution in admission tickets for a suitable marker for the boy who grew up on San Antonio's sandlots.

He was graduated from the old Main avenue high school and West Texas Military academy and started his professional career at Austin. Then followed a stretch with the Sherman, Texas, club and John McGraw heard of him. He joined the Giants in spring training and "fought" the ball around third base.

CUBS LEADING CARDINALS BY A FULL GAME

EXTRA-INNING VICTORY PUTS GIANTS IN A FAVORED SPOT

ST. LOUIS, Sept. 14 (AP)—The never-give-up spirit of the Cubs, plus another big array of hits, carried them through to their second extra-inning victory over the Cardinals today, 5 to 4 and cost St. Louis the National league lead.

The Giant triumph, giving them a 2-1 edge in their series here, left a clear field for the conquering Chicago Cubs. By beating Brooklyn for their eleventh straight triumph while the Cards were losing, the Cubs took a full-game lead over the Cards. The Giants remained 3 1/2 games away from first place and 2 1/2 games behind St. Louis but in a better strategic position as Chicago has played more games than either of the other pennant contenders.

The teams wind up the series here tomorrow, with Carl Hubbell and Dizzy Dean scheduled to face each other.

The windup of today's game bore a striking similarity to yesterday's. In the ninth inning, the Cards' pitcher cracked a double that relieved game after a big array of pinch hitters and runners had failed to come through.

With two out in the eleventh inning, Cloyd Castleman, the Giants' first-year fliker who was belted out yesterday, hit a two bagger. He scored the winning run when Joe Moore singled, then with the aid of a snappy double play held the Cards in check through the last half of the eleventh.

Pewees to Play Last Game Today Against Hoover

The Pewees, baseball team of boys from 12 to 16 years of age, will play their final game of the season this afternoon at Magnolia park with the Hoover boys' team furnishing the opposition. Manager Kiser will be back in the lineup for the Pewees.

The game will start at 2:30 o'clock. The Pampa boys have not practiced since they defeated the Canadian team at Road Runner park several weeks ago, and as a result the Hoover nine may be much harder to beat than the last time the two teams met.

Below 50 Degrees FOODS ARE SAFE

After exhaustive tests extending over several years, the United States Department of Agriculture recommends that unsealed foods held for human consumption be stored at a temperature below 50 degrees Fahrenheit.

A few simple summertime observations convince you of the wisdom back of this recommendation. It is common knowledge that tainted, moulded or spoiled foods do cause certain severe discomforts, and not infrequently, serious illness especially among children during the hot summer months.

Your Electric Refrigerator Dealer can positively guarantee that his refrigerator will constantly hold a uniform temperature below 50 degrees Fahrenheit, no matter how hot the weather. It is important that you be assured on this point.

"Milk, fresh meat, poultry, fish, and many fruits and vegetables should be kept at a temperature of 50 degrees Fahrenheit, or preferably lower, to check the growth of microbes that cause souring and decay." U. S. Department of Agriculture—Bureau of Home Economics.

PAMPANS URGED TO HELP CLUBS FINANCE MEET

Ball Proceeds Will Be Used At Music Convention

An appeal to Pampans to support the Pioneer ball and square dance at the high school gymnasium Tuesday evening by buying tickets was made by Mrs. J. M. Dodson, finance chairman, yesterday.

All of the proceeds will be used to help finance the convention of the seventh district music clubs here in October. The three local music clubs, the Treble Clef, the Philharmonic Choral, and the Junior Treble Clef, will be hosts to several hundred out-of-town women from all over the Panhandle at that time.

Delegates to the October convention will come from music clubs in such towns as Canyon, Dalhart, Hereford, Amarillo. The seventh district includes counties from the Oklahoma line on the north to Lubbock on the south.

"Pampa has never failed to entertain a convention as well as any other city in the Panhandle. Pampa was selected as the convention city by delegates of all the clubs at the last convention," Mrs. Dodson said.

"They wanted to come to Pampa. We knew the clubs had no money, but we could not refuse the delegates' request to come to Pampa this fall. We believed that Pampa citizens would come through and help the clubs entertain the delegates, and we still believe they will," Mrs. Dodson pointed out.

DANCE

are coming from Dalhart, Miami, McBeets, McLean, Clarendon, Panhandle and other towns in this section. The old-timers are expecting a full house.

The name of J. P. Garland was added to the list of callers yesterday. Mr. Garland's name was entered by a friend who described him as one of the best callers in the Panhandle. Mr. Garland lives at Borger.

Mountain music will be plentiful. A corps of more than a half-dozen fiddlers and their accompanists will furnish the music. They will be seated on a platform in the middle of the dance floor. Two premier fiddlers from Borger, Arthur Cox and Eck Robertson, are expected.

Many ladies, unable to obtain old-time costumes, are having new ones made. Scores have obtained dresses that were worn 50 years ago. It was emphasized that the wearing of costumes would be optional and not compulsory. Mrs. A. H. Doucette, chairman of the costume committee, will give advice in regard to the making of costumes. All who have attractive old garments were urged either to wear them or lend them to somebody else; provided they did not mind lending them. Prizes will be given to the woman wearing the most attractive costume. Also to the best caller, dancers, fiddlers.

Tickets can be obtained from Mrs. David Dodge, Mrs. Herman Jones, Miss Clotilde McCallister or any member of the Philharmonic or Treble Clef clubs at 40 cents each. The pasteborders are also on sale at the Harvester Drug, Pampa Drug and Fatheree No. 4.

LEGISLATURE

(Continued From Page 1)

Representative George Moffett of Chillicothe, a dry leader, was reported preparing another state monopoly bill, around which advocates of stringent regulation were expected to rally.

Governor Alfred said his first message probably would submit only liquor regulation, but the subject of fixing remuneration for county officers might follow in "a day or two." He wished to study further the problem of old-age pensions.

"There have been many requests for local bills," Governor Alfred said, "but I have promised to submit none. I will try to hold the work to the people's business and prevent clogging the calendars.

"I am still opposed to a general sales tax for old-age pensions, the general deficit or any other purpose. There are many other ways for raising the money."

Senator T. J. Holbrook of Galveston said Governor Alfred had promised the late Senator Arthur P. Duggan of Littlefield to submit the important omnibus delinquent tax bill passed by the senate in the last regular session too late for house action.

Senator Claude Westerfield proposed a severance tax of 10 cents a barrel on oil at the well on all oil produced in Texas, estimating it would raise enough revenue to pay old-age pensions and "pull the state out of the red." He said Texas produced 500,000,000 barrels annually of which only 13 per cent was refined, used and taxed in this state.

Westerfield also suggested a severance tax of five cents per 1,000 cubic feet of natural gas at the well. He declared the big gas companies paid the state \$120,000 taxes last year whereas they should pay between \$15,000,000 and \$20,000,000 annually.

TAX RATE

on intangible values is lowering the assessed values by nearly a million dollars, because of a court fight on such assessments. This fight is general over the state, and Gray county will share the common result, whatever it may be.

Mr. and Mrs. J. E. Murfee and daughter, Miss Jean, have returned from California after a stay of several weeks.

LOCAL JAYCEES ON COMMITTEES AT TYLER MEET

Pampans To Fill Important Posts At Convention

Pampa's Junior chamber of commerce, one of the most active in the entire state, will be represented on the most important committees of the annual convention of the Texas Junior chamber of commerce at Tyler next Friday and Saturday.

The Borger chamber will also be well represented. The Junior chambers of the two towns have worked in close cooperation this year in their activities, and this cooperation will likely be continued at the convention.

A delegation from the local chamber will leave for the convention at Tyler next Thursday.

Jim Collins, state vice-president for the Panhandle division, will be toastmaster at a breakfast Saturday morning honoring officers and directors of local organizations.

President H. L. Polley of the local body is a member of the activities report committee which conduct the activities contest. One of the Pampa delegates will represent Pampa in this contest. The three major activities of the local body this year were the Pre-Centennial, the Jaycee baseball tournament and the Santa day parade.

Each speaker will be allotted four minutes in which to tell of his club's project or projects.

Members of other important committees are as follows: legislative, William T. Fraser, Pampa; Monte Welford, Borger; resolutions, Archer Fullington; highway, Gilmore N. Nunn, C. W. Byrns, Borger; constitution and by-laws, W. T. Fraser, McLean; and Mr. Wolford of Borger are state directors of the organization.

U. S. Senator Tom Connally and Governor James V. Allred will be principal speakers at the convention.

maneuver involving band music, speaking choruses, individual speakers and singing.

These utterances were characteristic of the whole party convention. All the Nazi demonstrations were accompanied by a distinctly religious or at least mystical flavor and many foreign visitors agreed that no one could understand the third reich unless he senses the reverent attitude which Hitler's disciples have concerning their master and teacher.

Discussing wage and price problems, Hitler had explained that as far as he was personally concerned he would only be too happy if he could raise wages and permit producers to raise prices, but economic facts would prevent betterment of these conditions for some time to come.

ITALY

(Continued from page 1)

ation is being given to the possibility of Italy's withdrawal from the League of Nations in case her membership interferes with her objectives.

The cabinet communique, issued after a session with Premier Mussolini, who holds eight portfolios, presiding, announced:

1. Intensification of east African preparations.

2. Reinforcement of Italian defenses in Libya.

3. The adequacy of Italy's military forces "to respond to any menace whatsoever."

4. "Furnishing of war materials proceeds with intensified but regular rhythm."

5. Speeches at Geneva of Sir Samuel Hoare and Premier Pierre Laval were received "with the greatest calm."

6. Italy intends to fortify her friendship with France and her European collaboration.

7. The possibility of Italy leaving the League was examined.

8. The east African controversy admits no compromise.

9. The conflict has been made the rallying point of "anti-fascist forces."

The announcement that Mussolini had informed the cabinet Italy was prepared to meet "any menace from whatsoever direction it may come" was regarded by political circles as a definite challenge to Great Britain and the League of Nations.

LONDON, Sept. 14.—Upward of a hundred British warships—about the third biggest navy afloat if compared with the entire fleet strength of the United States and Japan, were believed by diplomats to be concentrated tonight in the serene waters of the Mediterranean.

Their officers, bent over navigators' charts, awaited developments in the Italo-Ethiopian crisis.

Dangerously near, it appeared from reports, were about 250 units of the lighter Italian navy, ready to lend their force to the declaration of the Italian cabinet, that it was prepared to meet any resistance that might be offered from whatever direction to Il Duce's moves.
