## Fifth Army Crosses Volturno on Broad Front

### \$38,000 Budget Is Adopted For Pampa United War Chest Drive

A budget of \$38,000 for the Pampa United War Chest was adopted by the executive committee of that organization at a meeting held Friday.

The campaign is to open on Oct. 25, following an advanced gifts drive opening Oct. 18. In charge of the latter will be R. G. (Dick) Hughes, J. W. Garman, United War Chest chairman, announced Saturday the appointment of Charlie Dunkel as head of the division of urban employe canvassing and of R. T. McNally, a past president of the Pampa chapter of the American Petroleum Institute as head of employe solicitation among oil, gas,

pipeline, and carbon black companies, and machine shops.

Half of the \$38,000 collected will go to the United War Chest, with the balance going to the Boy Scouts, Girl Scouts, Salvation Army, Hi-Y club, American Legion, and administration.

The allocation follows: United War Chest, \$19,000; Boy Scouts, \$5,500; Girl Scouts, \$3,500; Salvation Army, \$5,000; Hi-Y club, \$1,500; American Legion, \$3,500; administration, \$1,350.

Pampa contributions to the United War Chest will benefit the 17

welfare agencies approved by President Roosevelt.

The United War Chest portion of the local campaign, that is, the \$19,000 to be collected as a part of the local drive, will go to these 17 agencies, as a part of the state's participation in the national campaign.

War relief agencies are the United Service Organizations, United Seaman's relief, British War Relief society, United China Relief, Queen Wilhelmina fund, Greek War Relief association, Polish War relief, Russian War relief, United Yugoslav re-

### Floods Fail To Halt Two Allied Armies

ALLIED HEADQUARTERS, Algiers, Oct. 9.—(AP)—American Fifth Army patrols have smashed across the Volturno river, where the Nazis have chosen to fight the first round in the battle for Rome, and clashed in bit-and-run engagements with German troops reinforced by an entire new division, headquarters announced today.

(The Cairo radio said in a broadcast recorded in London late Saturday that Allied forces had crossed the Volturno "on a broad front.") The Germans were retreating to positions along the Carigliano river, some 15 to 20 miles north of the Volturno and 80 to 85 miles from Rome, the broadcast added.

Caserta, strategic rail and highway center 16 miles north of Naples, fell to the Fifth Army as the last enemy resistance on the south side of the Volturno and Calore rivers was wiped out.

Delman Morin, Associated Press correspondent with the Fifth Army, said in a dispatch from the front that Allied troops had reached the Volturno along its whole length from the mountains to the sea—a distance of approximately 30 air-line miles.

The American Fifth Army in the west and the British Eighth Army in the east both advanced two to three miles in spite of heavy rains which caused floods in some areas.

Although the bad weather continued, bomber and fighter squadrons of the Northwest African air forces kept up their hammering of enemy supply lines on both sides of the Italian mainland and teamed up with Middle East air units to smash at Nazi air fields in Greece, Crete and the Dodecanese.

While Lt. Gen. Mark W. Clark's forces were in complete control of the south bank of the Volturno, an officer at headquarters emphasized that reports from the battle area indicated that a major body of the Fifth Army had yet crossed the river.

The patrols which fought their way across the stream ran into brisk small arms and light artillery fire.

The new German division hurled into the battle was the Third Army's 1st, equipped with armor, tanks, and a crack combat unit.

(The Paris radio declared that the Allies now have 20 divisions in action in Italy, including fresh re-

### GERMANS SET UPON FROM THREE SIDES

Allied troops slammed across the Volturno river in Italy. American heavy bombers flew miles into Eastern Germany and occupied Poland to blast the fugitive German fleet's base at Gdynia, Danzig submarine yards and Anklam, while Russia swept the Taman Peninsula free of Germans.

### Planes Flew Close to Red Army Front

LONDON, Oct. 9.—(AP)—A mighty American force of British-based heavy bombers made a record distance flight into Eastern Germany and Poland today for smashing attacks on the fugitive German fleet's base at Gdynia, the submarine yards at Danzig, and a large Focke-Wulf components factory at Anklam in Pomerania.

An undisclosed number of enemy fighter planes were shot down in the flight which involved a round trip of at least 1,800 miles. To reach the former free city of Danzig the bombers had to strike over the world's most heavily defended territory. A returning pilot said he ran into "the damndest fighter opposition" he had encountered in 10 missions.

Explosives dropped by the U. S. bombers fell approximately 450 miles from the active front line in Russia, offering direct support to the Soviet army on the eastern front.

Danzig is approximately 800 miles from London and the former Polish port of Gdynia is 12 miles northwest of Danzig. Anklam is 90 miles north of Berlin. The attack refuted the Germans' claim that their inner industrial empire is safe from aerial attacks.

Effectively splitting the German fighter defenses as the force roared toward its multiple objectives, the big bombers dropped heavy loads on harbor installations and docks at Gdynia, which American army headquarters said now is used extensively by the German navy, and also on submarine slips and the ship building yard at Danzig, which is actively engaged in the construction of U-boats.

The third objective for the precision blow, the Arado Flugzeugwerke at Anklam, formerly was the chief manufacturing plant for the standard training aircraft for the German air force but now is engaged in turning out vital parts for German fighters.

The formations attacking Gdynia and Danzig encountered little enemy opposition over those targets, one group completing its bombing run and returning as far as the North Sea before meeting a small group of Messerschmitt 110's which were beaten off in short order, returning crewmen reported.

But on the Anklam attack the crew reported the formation had rip-roaring air battles with all types of German fighters, estimated to number between 100 and 200, and many of them equipped with four rocket guns—two under each wing.

With the long flight to Poland effectively accomplished, there was the possibility that daylight raids on Berlin soon might occupy the Eighth Air Force since the German capital is considerably closer to

### Senate Reviews Relations With American Allies

WASHINGTON, Oct. 9.—(AP)—The off-the-record report of the war the senate received this week from five of its members has started the ball rolling on what may be far-reaching changes in this nation's dealings with its Allies and the peoples of reconquered lands.

Even military strategy may feel the weight of legislative pressure as a result of the net critical summary of the war's conduct given their colleagues by Senators Russell (D-Cal.), Chandler (D-Tx.), Mead (D-Nv.), Lodge (R-Mass.) and Brewster (R-Me.).

The effect of their serialized version of a 40,000-mile trip to the world's battlefields, delivered in two closed-door sessions, seems likely to be translated into these early results:

1. Strengthened opposition to any declaration of foreign policy that makes specific commitments in advance of a statement of post-war intentions by Britain and Russia.
2. Revision of lend-lease operations to prevent other countries (notably Britain) from obtaining credit for furnishing supplies which originate in the United States. Along with this is promised a check on the charges for the use of other nations as reverse lend-lease.
3. Increased demand by congress that other countries share fully in relief and rehabilitation and that American agencies not promise post-war benefits that the United States may have difficulty delivering.
4. A developing contention that this country must maintain military bases far from this continent for its future security, as well as have military and commercial access to airports we are building everywhere.

Even military leaders cannot disregard wholly the general dissatisfaction with which the view of the slow progress of the war in the Pacific. This does not mean of course, that the high command will adopt the strategy suggested by Chandler of fighting a holding war against the Germans while we turn the full power of our offensive on the Japanese.

Administration leaders are sorry that the trip ever was made because it spells trouble for them and they feel it is likely to have a bad reaction on relations with our Allies.

Many anti-administration members, however, think the critical vein taken by the men who saw behind-the-lines operations everywhere except Russia is going to furnish them with dynamite to blast some agencies for which they have been gunning for a long time.

In between these viewpoints, a large bloc of senators think the trip was worthwhile for the information obtained from it.

### American Planes Land in Sweden

NEW YORK, Oct. 9.—(AP)—A Swedish communique, reported by OWI, said three United States bombers and two German fighters made forced landings in Sweden today after a battle between a large formation of planes of the southern coast, apparently as a result of Allied-American raids into eastern Europe.

### Hull Tried to Head Off War Years Ago

By JAMES D. WHITE

WASHINGTON, Oct. 9.—(AP)—The state department, whose critics have accused it of lacking policy, submitted a mass of papers tonight to show it was on its toes in the past when the war, and tried hard to head it off.

Its evidence is in the form of 274 official speeches, messages and memoranda which provide a background for the white book, "Peace and War, United States Foreign Policy, 1931-41." This book was published in January.

These selected documents set forth that the department was forewarned of the inherent dangers of political systems rising in Germany, Japan and Italy, and that this government sought to promote peace and world order and to meet the world-wide dangers resulting from Axis aggression.

The White book has since sold about 100,000 copies in this country, and some 30,000 copies in the official British edition—the first American document so treated by the British government.

The documents depict as the department phases it, "the slow march of the United States from an attitude of illusory aloofness to a world-wide forces endangering America to a position in the forefront of the United Nations that are making common cause against an attempt to world conquest unparalleled alike in boldness of conception and in brutality of operation."

The full story of "the fateful decade" can not become known for about 15 years, as it is customary procedure to wait that long to publish state department papers in full. The 274 documents represent only a fraction of the thousands of diplomatic papers sifted to provide the evidence for the book's thesis.

There is cited a statement made by Secretary of State Hull on Nov. 2, 1933, to the German ambassador, Hans Luther, that "a general war during the next two to 10 years seemed more probable than peace."

Hull made this statement after

### Press Relation With Churches Is Clarified

This is the fourth of a series of articles which are designed to acquaint our readers with the various functions of the press in a democratic community.

One of the most easily misconstrued relationships in the publishing field is that between the newspaper and the churches in the community. The newspaper man asks himself the question: "What should be my attitude toward the churches?" He endeavors to answer that question so that he will be fair both to the churches and to himself.

Churches sometimes assume the attitude that as they are supported solely by voluntary donations, and as they are a spiritual and moral force in the community any publicity desired should be given without charge by the newspaper. Strangely enough the churches do not expect the same privilege from any other business or profession. It should be remembered at the outset that most publishers are church members, and that as individuals they are decidedly interested in the welfare of the church with which they are affiliated. They give regularly and as generously as their circumstances permit. They attend the various functions designed to raise funds for the continuance of the church's work. As such they must be considered as any other church member who is conscientiously striving to support the church and what it stands for.

While newspapers are more generous with space to churches than to other institutions, this is simply a recognition by the press of the spiritual and moral sphere in the community. However, the church has no legal right to expect the press to give more generously than any individual church member. It is not expected of the man who sells the church fuel, or the public utilities which serve the church. In larger centers it is not expected that the organist should give his services free, or that the caretaker should work without remuneration.

The press, we believe, will always recognize the position and value of the church in the community. It will realize that the community without the church would be like a

### U-Boats Resume Vicious Attacks

WASHINGTON, Oct. 9.—(AP)—President Roosevelt and Prime Minister Churchill reported jointly tonight that the enemy lost more submarines, sunk or damaged, than the Allies lost merchant ships in the resumption of wolf-pack attacks on Atlantic shipping lanes in September.

The joint statement, issued here and in London, confirmed that the Axis had resumed intense undersea warfare in the Atlantic after a four-month lull.

It told specifically of an attack on a west-bound convoy in the North Atlantic Sept. 19. In the four and one-half day running battle, in which at least 15 U-boats participated, three escort ships and a "small number" of merchant ships were sunk.

The prime minister and the president said the enemy will spare no efforts to turn the tide of the U-boat war and utmost exertion and vigilance will be required before its menace is finally repelled.

### Radio Carries Appeal

AUSTIN, Oct. 9.—(AP)—All independent stations in the state, plus 40 radio networks in the state, plus 40 independent stations, will carry the opening appeal in the United War Chest drive in Texas, scheduled for 8:30 p. m. tomorrow.

### Gray Is \$100,619 Over Bond Quota

As the final week for the sale of Series E, F, and G Victory bonds arrived, Gray county boosted its already over-subscribed quota up to \$1,480,819.25, or \$100,619.25 above its original \$1,380,200 quota for the campaign which began on Sept. 8 and extended to Oct. 2.

Sales of Series E, F, and G bonds, however, was extended to Oct. 15.

S. D. Stennis, county bond chairman, reported today that the total number of purchasers had been raised from 3,794 to 3,931; sales, from \$1,446,157.25 to \$1,480,819.25 through the addition of the sale of \$34,662 worth of bonds to 137 buyers since October 2.

He predicted that Gray county would reach a half-million dollars over its quota within the campaign's next Friday. A final report will be submitted Saturday for publication in the Oct. 16 issue of The Pampa News.

### Salvation Army Has Supply of Clothing

The Salvation Army has a large supply of warm clothing and shoes for distribution, Captain Herschel Murphy announced Saturday.

Now that school has started, the Salvation Army is anxious that no child should be without sufficient clothing for the cold days ahead, he said.

Tuesday, from 2 until 4 p. m. the regular hour for clothing distribution and anyone needing any of these articles are urged to be at 831 South Cuyler at that time. As the policy of "first come, first served" is observed, people are urged to be there on time, he said.

### Five Wells Finished

AUSTIN, Oct. 9.—(AP)—The railroad commission reported five regular oil well completions for the week ending today, bringing the year's total to 1,877 compared to 2,850 a year ago. Drilling applications totaled 98 for a 1943 figure of 3,733 against 3,966 in 1942.

#### Militia Removes Parish Officials In Louisiana

POINT-A-LA-HACHE, La., Oct. 9.—(AP)—Governor Sam Jones, invoking martial law, dethroned his bitter political enemy, District Attorney Leander H. Perez, at the Blaquemiere parish courthouse here today and set up a temporary ruler under the command of the state guard, Brig. Gen. Thomas Porter Jones, issued a proclamation of martial law effective at 12:01 a. m. and with the use of about 600 state troopers removed Dr. Ben R. Slater from the sheriff's office and placed there his own appointee, Walter J. Blaize.

The move was carried out with such strength and precision that armed resistance to Blaize, which had existed in the parish for four months was swept aside and the guard was not forced to fire a shot.

The governor's proclamation declared that martial law was invoked "to suppress insurrection and rebellion against law and order in Blaquemiere parish and to install Blaize in office and keep him from being interfered with while lawfully performing" his duties.

The state guard convoy required approximately five hours to negotiate the 40 miles from New Orleans to this little river town by winding levee road.

It was held up twice by obstacles, first near the home of Perez at Braithwaite where a barricade of three trucks had to be moved from

#### All Nazis Flee From Caucasus

LONDON, Oct. 9.—(AP)—Prinier Marshal Joseph Stalin announced tonight that his Red armies drove the last German from the Caucasus today after a great battle in which 20,000 Nazi troops were killed and 3,000 taken prisoner, and he hinted triumphantly that as a result the Crimea, Russia's "Florida," would soon be invaded.

The battle clearing the oil-rich Caucasus, about one-half of which the Germans at one time occupied, lasted for "many days," said Moscow's communique, and the Soviets captured great quantities of war material.

The Russians also won additional ground in their battle to broaden their three bridgeheads on the Middle Dnieper, advanced to a town 25 miles southeast of Vitebsk in White Russia, and swept further toward the Latvian border in the fighting near Nevel.

#### Boost in Wheat Production Is Asked in Texas

COLLEGE STATION, Oct. 9.—(AP)—Texas farmers will hold the home front with the largest production of food and feed in the state's history if goals recommended by state leaders in agriculture are realized.

After a three-day conference at Texas A & M College of agencies working with agriculture, a goals committee today brought in recommendations for production increases in several agricultural crops over 1943.

A 2 1/2 per cent increase in the production of milk was sought without increasing the number of cows. Culling and higher production per cow were suggested as means of obtaining the increased production. The egg production goal was raised 3 per cent; hens and pullets, 16 and chickens, 7 per cent.

Fall and spring pig farrowing and beef cattle goals were set below those of 1943, but sheep and lambs were raised 2 1/2 per cent. Cattle and calves, all ages, were practically unchanged.

Feed, the determining factor in livestock and poultry production, was given the heaviest increase. Corn acreage was upped 3 1/5 per cent; oats, 15 1/5; barley, 100; all sorghums, 17, and tame hay, 14.

The committee recommended, with reservations, an increase of 1,250,000 acres in wheat.

#### State Seeks Dismissal of Habeas Corpus Sought by Union Leader

AUSTIN, Oct. 9.—(AP)—Dismissal of an application for a writ of Habeas corpus filed in behalf of R. J. Thomas, president of the United Automobile Workers (UAW), was sought by Attorney General Gerald C. Mann in Texas supreme court today.

Mann contended the labor leader already had an "adequate remedy" in an appeal from a district court's temporary injunction restraining Thomas from violating the state's labor union regulation law.

The habeas corpus hearing and consideration of the attorney general's formal motion for dismissal have both been set for Oct. 20.

Thomas came to Texas in September and solicited union memberships at a meeting in Pelly without having first obtained an organizer's card as required by the new

#### Two Accused Texas Slayers Escape

STEAMBOAT SPRINGS, Colo., Oct. 9.—(AP)—Colorado deer hunters were warned by Sheriff Ernest Todd tonight to be on guard against two well-known Texas brothers who fled yesterday from the Routt county jail, where they were awaiting trial in the torture-slaying of a sheepherder.

The state's big game season opened today with hundreds of hunters going into mountainous northwestern Colorado where the fugitives, O. B. Throneberry, 28, and Randal, 26, were last reported seen driving the sheriff's maroon-colored, police-radio-equipped sedan.

"Both are desperate and highly dangerous. I'm afraid somebody's going to get killed before this is all over," the sheriff opined.

#### Graduate of First Pampa Field Class Held by Germany

It took a post card from Germany to reveal that graduates of Pampa Field are hitting the enemy in block-buster raids on Germany.

According to a message received by Miss Ann McKee of Greenview, Texas, Lt. Albert H. Leonard, first gradating class to receive wings and commissions at PAAF, is now a prisoner of war in Germany.

The card received from Lt. Leonard, who flew a Flying Fortress on a raid over the reich, read as follows: "All we do is to KP, sleep and wait. Due to Red Cross packages, we have plenty to eat."

Lt. Leonard is the son of Mr. and Mrs. Henry Leonard of Steamboat Springs, Colo. He was a member of aviation cadet class 45-B, which graduated here last February.

An interesting coincidence occurred when Lt. Leonard was taken prisoner in Germany, presumably after falling out of his crippled B-17 during a raid on Hitler's homeland. At the enemy prison camp in which he was interned he met Lt. Russell E. Maxwell, of Columbia, Mo., who trained with Leonard during their basic flight days at Majors Field, Texas.

## Ignis! Help! Ignis!

By HAYSEED  
Fire! Did I scare you? Well, if I didn't I should have because a fire is a dangerous thing—in fact, they are so dangerous that if we didn't have fires, I wouldn't be writing this story. And I must say a story like this is dangerous. Some people pronounce this hot word "fire," while others pronounce it "fayr," but no matter how you pronounce the word it is plenty hot. If you do not believe me, one way to find out is to read an evil life (Get it?)  
Now for a few ways to prevent fires. The cardinal principle of fire prevention is to be sure and not get too hot and bothered. This will cause spontaneous combustion and most likely some one will get hurt. Take it from me and my cauliflower ears. Next you must remember to always squelch the fire you see in her eyes or again for you will because you must remember the old adage "An act of fire is a bad deed." (This applies to red-heads especially.)  
Gasoline is dangerous. Just ask the FBI. A thing you might well keep in mind is that it is rationed, and that if someone might get the hot-foot.  
And last, but not least, I must say **BE PREVENTED!** To save the poor public from writing and reading stories like this!

(Hayseed's Editor's note: For those ignorant students who are bound to be among the many (?) readers, the word "Ignis" is a Latin word meaning "Fire." This the Hayseed story series one must be of the highest mentality, meaning you, moron!)  
(Editor's Second Note: This must be a handover from the Fire Prevention Week theme writing.)

## Homemaking Rooms Undergo Facelifting

Third year home making girls, under the direction of Mrs. Leslie Hart, are working on ideas to improve the combination living room and dining room.

Each girl has a chance to arrange the furniture as she likes. The best arrangement will be used when plans are completed for the rearrangement of the room. Mrs. Hart said plans made by the girls include the addition of several new pieces of furniture. The living room suite and occasional chair, which are now in use, will be re-upholstered by the girls. Money being earned for these purposes was earned last year by first year home making girls keeping a record of several items.

"I am pleased with the interest shown by the girls," Mrs. Hart said. "They will take better care of the room and enjoy it more because they are doing the work. Although there is much room for improvement, we hope to be successful in our final arrangements," said Mrs. Hart.

BUY VICTORY STAMPS  
UNAFRAID!  
"If you eat another piece of cake, You'll surely burst!" said mother.  
"Then pass the cake and clear the way," Responded little brother.

COURTING AID!  
Would Pampa High students like an up-to-date list of all the students in school along with their addresses and telephone numbers? The Pampa Hi-Y club plans such a student directory for the 1943-44 term. If the Student Council approves, the school published a directory two years ago which was very popular with students, and the Hi-Y members believe such a booklet would again be valuable.  
The directory could be anything from a mimeographed and stapled folder to a commercially printed booklet with advertising, such as Highland Park, Dallas, prints. But whichever you prefer, let the Hi-Y member know about it this week. F. F.

HONESTY IS BEST POLICY  
You have often heard that "honesty is the best policy," and no matter how often you have heard that proverb it is still true in more than one respect. It has been reported that in our school there has been a slight case of dishonesty in respects to shall we say "borrowing money?" There have been other cases too, and there must be some way to stop this. The only way I know of is to appeal to the student or student's themselves to have enough pride and wisdom to stop this. It may be that they didn't have before, but what good will it do them in the end? This may lead to higher and more dangerous crimes, even if you don't think so, so please students, don't be dishonest.—J. L. W.

BARBARISM OR WHAT?  
Are the young people really turning barbarian? Are the standards of young people breaking down? Will the adult of tomorrow consist mainly of rowdies and tomboys?  
These are questions that seem to be puzzling our parents and grandparents of today. "Where are your manners?" is the cry let out by the older generation.  
Some people believe the war is causing the nerves of the young people to be edgy, therefore the educators of America are imploring the parents and public schools to give the younger generation more and better training in the old-fashioned way. (And I do mean old-fashioned.) "Politeness, respect for elders, cultured speech, and personal cleanliness should be stressed," say the educators.  
An ideal example of the young people of today occurs when our 3-30 bell rings—the time our school lets out. It means an invasion of wild Indians—and it sounds like herds of cattle.  
All of the above are complaints made by the older generation. However, I imagine that if we looked back over their school years and over their youth, we would find the same problems occurring. Perhaps, they were not as candid and honest as we are today. And for the matters of those times were probably more forced and artificial than ours of today.  
Even though some of these facts may be true, it is still necessary for you to Mind Your Manners!—H. A.

## Wolverines Down Harvesters 21-0 At Lawton Friday

Too much age and experience made the difference Friday night in Lawton when the Harvesters bowed before the Wolverines 21-0. The score doesn't indicate the battle the Pampa team put up for the Green and Gold was fighting every step of the way. The largest crowd in Lawton history witnessed the game, and the huge stone and concrete stadium was particularly filled.  
The Harvesters succeeded in getting down on the Lawton two-yard line twice during the game, but both times he ball went over to the Wolverines on downs. One field goal attempt by the Harvesters also failed.

Jimmy Berry, former Harvester

30 Girls Respond To Worker's Plea For Senior Scouts

Between thirty and forty girls responded to Miss Ida Mae McClure's call in the work at a recent camp held by Dr. D. F. Osborne, principal, to meet with Miss Ida Mae McClure, state representative in Girl Scouting from the Dallas area and Mrs. Bruce Pratt, city council for intermediate scouts.  
Miss McClure said that steps were being made through the local council to select leaders for the girls.  
Among some of the eleven war service programs the girls can choose between for their service are: vocational guidance groups, wings, farm aid, outdoor aid, hospital aid, marines, rangers, recreation aid, canteen work, and child care.

Assembly Song Books Are Being Printed By Student Council

In addition to the 500 assembly song books of Pampa High school, compiled and published last year by the Student Council, 400 are now being printed so as to accommodate the increase in enrollment. Jerry Kerbow, president of the council said Wednesday.  
Song books for each student in every home room will be issued to the home room president, at the first meeting of the Student Council. Jerry said. These song books are used for group singing during assemblies. Patriotic, as well as popular songs are to be found in its content. Songs in the book were selected last year by Miss Helen Martin, executive supervisor who is now a WAC.

Semesters Will Have Two Terms With Nine Weeks In Each

Two semesters consisting of nine weeks in each of two terms will make up this school year. Dr. D. F. Osborne, principal said Friday.  
Each semester will have two terms instead of three. The first nine weeks of the first term will end November 12, giving 45 school days. The first term of the second year will end January 28, giving 46 school days. The first term of the second semester will end March 31, giving 45 school days. The second term will end May 31, giving 41 school days.  
The main object of this new arrangement, Dr. Osborne said, was to give the teacher a better opportunity to know the pupils.

Albert Einstein was to make a lecture in a small town. The place buzzed excitedly in anticipation, but few knew what he was important for.  
"Don't tell me don't know about Einstein!" said one guy to a small group clustered around the town hall. "He's the guy that invented Relativity."  
"I will endeavor to explain it to you," said the expert. "Now, if you sit on a hot stove for a minute, it seems like an hour—but if a beautiful blonde is sitting on your lap, it seems like a minute."

## Boys Outnumber Girls In Elections For Student Council Representatives

### Sagebrush By The Sage

#### SPORTS SHOTS

By FRANK FRIAUF  
Seven Harvesters first-stringers but with no improvement shown in the Weatherford game were still very much in the running as the effect of Coach Odus Coffey's talk before the student body Wednesday. Most serious of the team's injuries, Dick Manry's knee sprain and Jerry Kerbow's knocked-down shoulder, both occurring in the Weatherford game. The chest injury suffered by Reginald Bridges is just about well, and he may see action soon.  
Lawton used the T-formation, employing a lot of deception and speed. Moraz, triple-threat halfback for Lawton, was the big gun in the Lawton backfield. Warren and Jones also showed up well.  
L. J. Haller, star quarterback on the great Harvester team of 1941, was seen in Pampa High halls last week. Jake has just graduated as a star in the San Pedro Naval base on Friday. Haller is remembered by the seniors as the fellow who did all the "coffin-corner punting in the third quarter of the Amarillo game in 1941.

## Colds, Sore Throats Cause Absenteeism

An average of between 30 and 40 students were absent each day last week, Aubrey Steele, assistant principal, said Wednesday.  
Most of these absentees, being excused, were caused by colds and sore throats, said Mr. Steele. Records and files in the office were completed Thursday, therefore a more careful check on students who are absent from now on will be made.  
A number of boys that work in the evenings have failed to get permission from the office, Mr. Steele said. It is important that all boys leaving school before 3:30 get permission so as to prevent their being counted absent.

Pampa Y Clubs Will Give Devotional At District Conference

Tri-Hi-Y met Monday afternoon in the auditorium to complete plans for the devotional to be given at the Amarillo conference with the president, Faye Morehead, presiding.  
For the Tri-Hi-Y and Hi-Y conference to be held in Amarillo October 30, Faye Morehead was chosen to read the scriptures. The Hi-Y chose Frank Friauf to give a talk and James Wanner to give the prayer. Pampa's Tri-Hi-Y and Hi-Y have a fifteen minute part on the conference program in Amarillo.

## Mad Musicals Make Melodies

Lower classmen pinched themselves to determine whether the assembly program Wednesday was a recording from a Radio City school talent going wild.  
Larry Fuller's announcements brought to the platform well-known entertainers from Bobby Davis in a Hawaiian grass skirt as Hula Lane to Eugene Lively as Clyde McCoy doing hot music with his trumpet.  
Other performers included John Robert Lane at the piano with St. Louis Blues; a black face quartet of Jack Dunham, Louie Allen, Merle McCracken, and Kenneth Grantham; Earl O'Brien as Glenn Miller and Roy Cone as his "Band," and Neva Lou Woodhouse impersonating Joan Leslie with a lapping number.

BUY VICTORY STAMPS  
The Voice! doing commercials insisting on "Doing it now" even to burning the city (for it was Fire Prevention week) was kept a secret to the new-comers, but oldtimers knew James Wanner.  
The new Student Council president, Jerry Kerbow, opened the program amid wild applause. He read the seating arrangement for the on the main floor and freshman in four classes. Upper classmen will sit in the balcony.

## John Harnley Proves Boots Are Dangerous

Boots can prove to be dangerous things, even when you're not on a floor. This was proved in Mr. John H. Harnley's fifth hour physics class.  
The adhesive force of Mr. Harnley's rubber-heeled boots was not enough to keep him upright on the floor of Pampa High school. Consequently, the physics class had some fun last Wednesday.  
While leaning against the desk Mr. Harnley's boot heels slipped, causing Mr. Harnley to do a short acrobatic dance in order to regain his balance. Thus, Mr. Harnley proved practical the theory of adhesion.

## Save Manpower For Warpower

The tremendous loss incurred by fire in previous years has been reason enough for extensive fire prevention and advertising. Today, with shortages in time, manpower, and materials, America cannot afford to neglect such home arrangements to you the importance of extra care in preventing fire.  
Fire losses whether caused by sabotage, carelessness, enemy attack or lack of knowledge all add the same. Each home fire has a simple and very real cause—most of them caused by some one's carelessness for common causes of fire such as stove connections, worn or electric cords, rubbish in basements and attics, improperly installed wiring, and leaky gas pipes.

BUY VICTORY STAMPS  
Follow these rules:  
1. Be sure stoves and furnaces are clean and in good repair.  
2. Have chimneys and flues cleaned annually. Protect woodwork and other inflammable parts near furnace or stove insulations.  
3. Place ashes in metal containers; dump them where they cannot set fire to anything.  
4. Clean all rubbish from cellars and attics to avoid spontaneous combustion.

Woman Is Declared Innocent By Class

"Innocent" was the verdict returned by the jury in that trial held in room 102 the sixth period last week. Judge Dick McCune was presiding.  
The sophomore English class of Miss A. L. Jones was studying "Bred in the Bone," and decided to add flavor to their study and have a trial. The trial was to decide whether the woman in the story was guilty of the death of her husband.  
The prosecuting attorney was Ronald Lewter. The defendant was Doris Shackelford, who gave a very heart rendering plea in her defense. The class was the jury and the verdict returned determined the defendant innocent.

## Write Him Often, But—There's An Art

Because a large number of high school girls write to soldiers and sailors in our armed forces it is necessary that you know what to write.

A sailor, being asked what kind of a letter he likes to receive responded "Brother, all Ah evah wants is a letter. (You can tell he was from Carroll.) Men in the armed forces repeatedly tell you that they had rather get bad news than no news at all.

Recently an OWI bulletin said that most boys in armed services like to get letters from their loved ones, telling, first, that all is well at home; second that the folks are proud of them—without laying it on too thickly—and third, chatty details of things close to the person's peevish way of life. And they like answers to direct questions they have written home.

If any of you students have brothers or close friends in the armed forces, you are aware of the fact that mail means everything to the boys. The right kind of letter can do more good for a sailor than any other thing can do. These boys carry your letters around with them—save them in their "ditty" bags, pull them out at a mass table. Their faces light up when letters come, and drop when they don't.

In letters from girl friends and sweethearts, these boys want what every lover since the world began wants—that is, to be the only object of the girl's affection, that she misses him and will wait for him for ever. There is a difference of opinion on love letters as such, some boys saying they don't trust girls who "give out alot of love." But they are no representative of the one who has left behind his sweetheart, fiancée, or wife.

My love has flew:  
Him did me dirt.  
Me did not know  
Him was a flirt.  
So to all love  
Let me forbid  
Lest you get done  
Like I been did.  
—The Westerner World

If rain can make you low and blue  
With thoughts and dreams about  
him.  
I find it's very often true  
You're better off without him.  
—The Lass-O

Will power is the ability to eat one  
salted peanut.

Hit Songs of the Week  
Sunday, Monday, or Always  
Won't you tell me when we will  
meet again,  
Sunday, Monday, or always?  
If you're satisfied, I'll be at your side  
Sunday, Monday, or always.  
No need to tell me now what makes  
the world go around,  
When at the sight of you my heart  
begins to pound and pound,  
And what am I to do—can't I be  
Sunday, Monday, or always?

Put your arms around me, honey  
hold me tight,  
Huddle up and cuddle up with all  
your might,  
Oh, babe, under the sky,  
Your that little idolize.  
When they look at me, my heart  
begins to float.  
Then it starts a-rookin' like a  
motor boat.  
Oh! Oh! I never knew any girl like  
you!

The Old-Fashioned Lovers  
They strolled into the garden  
It was a happy land  
Walking close together he held her  
like a little child.  
Holding her little shawl  
They didn't seem in haste.  
They walked along in silence  
His arm about her—um-  
brella.  
His arm about her umbrella  
Underneath the sky,  
They talked about the future.  
He gazed into her—lunch-  
basket.  
Gazing into her lunchbasket,  
Nothing seemed a-miss,  
Until he lost his self-control  
And stole a little—hand-  
kerchief.

Having stole her little handkerchief  
They forgot about alarms  
When suddenly he turned to her  
And drew her in his—note-  
book.  
For having drawn her in his note-  
book  
She thought he was a thug.  
Until he changed her mind by giv-  
ing her  
A great big—juicy apple.  
She pondered of the apple  
And he thought about his life.  
He turned to her in silence and  
said  
"Will you be my—chauffer?"  
She accepted this position and  
"There's nothing left to tell—  
Except—she went to heaven!"  
And he went to—see her  
someday.

The prosecuting attorney was Ronald Lewter. The defendant was Doris Shackelford, who gave a very heart rendering plea in her defense. The class was the jury and the verdict returned determined the defendant innocent.

### NEWS OF OUR MEN—WOMEN IN UNIFORM

Berton and LeFors Doucette, sons of Mr. and Mrs. A. H. Doucette, of Pampa, have each received promotions. Second Lieut. Berton Doucette has been advanced to the rank of first lieutenant in the army air corps, as of September 1. He is at a South Pacific station.

His brother, LeFors, was promoted on October 1 from yeoman second

class to yeoman first class at Portsmouth, Va., where he is stationed.

Both Yeoman Doucette and Lieutenant Doucette have been in the armed forces since January, 1942. LeFors joined the navy January 28 four days after his brother entered the army. Lieutenant Doucette has been overseas since Christmas, 1942.

George B. Cree, Jr., son of City Commissioner and Mrs. George B. Cree, 1100 Mary Ellen, was commissioned a second lieutenant October 1, at Ellington Field, Houston. Another Top O' Texan commissioned as second lieutenant in the army

air forces was Joseph H. Bryne, Route 1, Mobeetie, at Moore Field, Mission. Sidney E. Mayfield Jr., of Shamrock received the rank of flight officer at Lubbock Field.

Pvt. Joe R. Blackwood, 20, a 1942 graduate of Pampa High school, is a paratrooper now stationed in North Africa. He was employed by Culberson Chevrolet company here before enlisting at Evansville, Ind.

Pvt. James Fullbright, son of Earney Fullbright, Box 304, McLean, recently made one of the highest scores in his company on the 30 calibre rifle to earn an expert medal at Ft. Knox, Ky., armored replacement training center.

S/Sgt. Clifford D. Stephens, son of Mr. and Mrs. O. E. Stephens of Pampa, is completing combat training at Geiger Field, Spokane, Wash. He has been trained as an aerial engineer on a Flying Fortress.

Sergeant Stephens is married. His wife is the former Miss Minnie Smith of Pampa.

A Pampian who learned to fly at Pampa's municipal field is now training aviation cadets at Curtis Field, Brady. He is D. R. (Doc) Weaver, civilian primary flight instructor for the army, who has been flying two years and who learned aviation at Pampa's municipal airport. He was manager of White's Auto stores here for eight years. Weaver began his work as instructor at Curtis a month ago. He has a wife and one child, Willie Mae, a son, 3 years old. They are making their home in Brady but will come back to Pampa when the war is over.

Three brothers of Minnie B. Williams, 902 E. Browning, Pampa, are in the armed forces. Above, left to right, Jeff C. Freeman, 21, seaman second class, former Magnolia Petroleum company employee, now in the Southwest Pacific, and Daniel Freeman, also seaman second class, now in the North Atlantic. Lower, Lieut. T. Elton Freeman, 22, Salinas, Calif., army air forces, former Danciger employe.

Oscar Watts, Jr., of Panhandle has been promoted from captain to major in the air corps; the war department announced Saturday in an Associated Press dispatch from Washington.

Gunner Joe Dunwoody, Jr., 20, nephew of Guy Dunwoody, 600 Roberta, Pampa, has been missing in action since Sept. 11 of this year, according to information received here by his uncle.

Dunwoody, who was in a bomber crew in the Asiatic theater, enlisted in the army air forces at Santa Barbara, Calif., two years ago, after graduating from Panhandle High school. He has been overseas six months. Gunner Dunwoody had frequently visited his uncle here.

The missing airman is a son of Mrs. Gertrude Dunwoody of Los Angeles, Calif.

**Texas Firm Asks Aerial Ambulances**

WASHINGTON, Oct. 9—(AP)—Of course the stork has long been at it, but nobody until now has seriously proposed delivering babies by air.

An ambulance firm in Texas, with an eye to post-war business, wants to be able to do a rush job for expectant mothers, with regular service to hospitals by helicopters.

Aerial funeral processions also are planned by Shannon's, of Port Worth, which filed an application with the civil aeronautics board for permission to send its whirling-bladed ambulances and hearses anywhere in the nation.

On funerals it would take the mourners along too, possibly in a procession of helicopters. And it would have its own maintenance, repair and overhaul shops.

**More Pipelines Are Expected**

NEW YORK, Oct. 9—(AP)—Further development of cross-country pipelines for transportation of oil and its products is foreseen by Mining and Metallurgy, magazine of the American Institute of Mining and Metallurgical Engineers, as a result of the success of the government-controlled "Big Inch" project.

### Army Currency Used Overseas Is Challenged

WASHINGTON, Oct. 9—(AP)—Issuance of Allied military money in North Africa, Sicily and Italy was challenged today by Senator Clark (D-Mo.) as "additional appropriations for the army without any action by congress."

Clark, questioning the legality of using currency that bears no promise of repayment, told this writer: "The best construction that can be put on it is that it is an additional appropriation for the army without any action by congress."

He said it appeared the army was using the cash to buy supplies and that natives were accepting it readily.

Senator Lodge (R-Mass.), one of five members who made an inspection tour of war zones, sounded a warning note about the currency in a senate speech earlier in the week. He said he hoped it bore no promise of future payment that could not be fulfilled by the United States.

This provoked sharp questioning of Treasury Secretary Morgenthau when he outlined a proposal for the establishment of an international bank for post-war stabilization of the world's currencies.

Morgenthau reportedly told senators that discussions were progressing on the establishment of an international bank with \$10,000,000,000 capital, of which the United States would furnish \$3,500,000,000 and Great Britain \$1,000,000,000. Other countries would subscribe proportionate amounts.

Senators appeared much more interested, however, in the issuance of what one of them described privately as "shin plasters" by the Allied governments to pay for supplies purchased in liberated countries. American troops also were said to have been paid with the currency in some areas, with the privilege of exchanging it for United States money.

**Individual Bond Sales Go Over**

WASHINGTON, Oct. 9—(AP)—Secretary Morgenthau said the \$5,000,000,000 Third War Loan goal for bond sales to individuals "is definitely in the bag—and more."

The treasury head expressed a hope that the Third War Loan which already has raised nearly \$18,000,000,000— together with the \$3,000,000,000 financing program opened to the banks this week— would take care of the treasury's needs for the rest of the year. He indicated another large-scale financial drive might be held in January.

### Civilians to Get Additional Butter

WASHINGTON, Oct. 9—(AP)—Military and other governmental purchasing agencies have arranged to get out and stay out of the butter market until next March to permit the entire production to move into civilian consumption channels.

This action, said war food administration officials who disclosed it today, should help relieve shortages which have developed in some areas, particularly those far distant from major producing areas, by making from 10 to 30 per cent more butter available for civilians than the average consumed by them during the past seven months.

They make no prediction, however, as to possible changes in the ration point value for butter, which now is 16 pounds a pound compared with 8 points last summer.

The notice of the government decision to remain out of the market until production begins to increase next spring has been sent to congressmen who have inquired about recent butter shortages and the sharp advance in the ration value.

Stocks now held by the government total about 200,000,000 pounds. WPA officials estimate production of creamery butter will average between 110,000,000 and 130,000,000 pounds a month during the next five months, all of which, under present plans, will be available for civilians. Civilian consumption during the past seven months has averaged only 100,000,000 pounds.

**Vegetable Price Ceilings Planned**

WASHINGTON, Oct. 9—(AP)—A maximum ceiling program intended to roll back consumer prices on 13 winter vegetables probably will be announced next week.

Originally scheduled for presentation this week, certain details of the program have not been completed.

The list will include such essential items as tomatoes, peas, snap beans, spinach and beets.

**Expecting a Baby?**

Mother's Friend helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exclusively prepared emollient, is useful in all conditions where a bland, anodyne massage medium in skin lubrication is desired. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy. It helps keep the skin soft and pliable... thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the numb, tingling or burning sensations of the skin... for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use.

**Mother's Friend**

Highly praised by users, many doctors and nurses. Just ask any druggist for Mother's Friend—the skin lubricant. Try it tonight.

The time required to build B-24 Liberators has been reduced from an average of 100,000 to 30,000 man hours.

**October is ANTHONY MONTH**

A Demonstration of SUPERIOR SERVICE LOWER PRICES BETTER STOCKS

Warmth isn't measured by the pound! If you believe that the heavier a coat is the warmer it is, you'll be amazed when you see the "Air-Tex" Fleece Overcoats at Anthony's. They're feather light in weight.

**"Air-Tex" Fleece Overcoat**

Bought Your War Bond Today?

EXCLUSIVELY AT ANTHONY'S

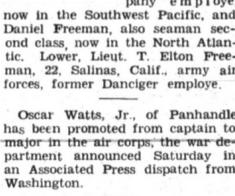

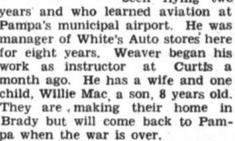

**25<sup>65</sup>**

A "lot of overcoat"—You'll want this coat this year especially, because it's the right coat for the duration! It's built to "take it!" It's tough—yet it'll keep you warm without being bulky or burdensome. The secret is scientific construction, an all-wool fleece fabric. You'll marvel how it keeps you warm on the coldest day and is still surprisingly light in weight. It can take snow, sleet or hail—season after season—and still keep looking fresh and smart. Colors are oxford, heather brown, cocoa, R.A.F. blue and navy. Sizes 36 to 46.

**USE OUR EASY LAYAWAY PLAN**

A small payment reserves your coat 'till called for.

**Anthony's**

**YOU CAN'T TOP TEXANS**

In the Army... 39 Generals  
In the Navy... 12 Admirals  
In the Marines... 2 Generals

**AND TEXANS make the best WAC's in the world!**

Here is a message for those women who do not yet know how best to serve their nation and their TEXAS:

Get under the TEXAS flag, put on a TEXAS armband, step into the WAC in your own state company and show the world again that nothing tops the TEXANS.

If you happen to be a woman from another state:

The Governor of TEXAS will present you with honorary TEXAS citizenship if you volunteer into the TEXAS WAC Company to replace a man to replace a TEXAS hero.

**GIVE THE WAC SERIOUS CONSIDERATION...** go to the WAC Recruiting Office, basement Post Office Bldg., Pampa... or call 2280.

Mr. Morris Goldfine, manager of ZALE'S says: "I understand there is a real need for WACs at our own Pampa Army Air Field. If right here at home we see the need for WACs, then surely we can understand why the nation as a whole needs more than half a million. My hat is off to any girl volunteering for the WAC."

**Have you any questions on SYNTHETIC RUBBER TIRES?**

We have the answers. See us today for the plain facts on this vital subject... when you may expect to obtain them... how much they will cost... how America is making synthetic rubber... how industry is building that synthetic rubber into tires... how these new tires stand up in use.

**Expecting a Baby?**

Keeping The Faith

Once more, and increasingly day by day, the quasi-political strategy followed by the Allies in the Mediterranean is paying dividends in American and English lives. Some of the more impatient, who want no truck with expediency, insist upon denouncing our willingness to deal with Darlan in North Africa and with Badoglio in Italy. Their arguments will carry decreasing weight as the relatives and friends of fighting men discover the very practical results that have been obtained from the policy we are following.

We took Marshal Badoglio at his face value as a non-fascist and, at this time at least, an anti-fascist. He could not deliver Italy to us on a silver platter because the Nazis had too many troops present. But he appears to be doing everything in his power to make good on his commitments to us.

Not only have the Italians stopped fighting against us, but to a greater extent than we had the right to expect they are trying to fight on our side. In continental Italy they are just about as powerless to help us as they had been to harm us; but against the Nazis, as previously against us, they do possess a considerable nuisance value.

In Sardinia, where they were not outnumbered, they took the initiative and drove the Germans out, giving us, without the expenditure of a single American or English life, the use of several valuable airfields and some very fair harbors.

If the die-hard haters had had their way Italy would still have been obliged to surrender unconditionally, but we certainly would not have had the active military collaboration that we now are receiving.

About Badoglio, even more than Darlan, we must keep in mind that nationalism is very deeply entrenched in Europe, and we must remember that military men are bred from adolescence in the tradition of obedience to their superiors.

When Mussolini imposed his will upon a weak king, Badoglio went along. There is no evidence that he ever liked the situation. There is much evidence that he did not. But he was loyal to his country and his king.

Now that circumstances have given him opportunity to work and fight against Fascism, he is keeping the faith.

Surplus Income

The Northwestern National Life Insurance Company has made a survey to determine how war wage increases are being spent, and comes up with the finding: Largely on women.

The big increases in spending, says the company, show up in quantity and quality of women's and misses' garments, in jewelry, in furs, in admissions to amusements, in playing cards, in cigarettes. Some of these are exclusively for women; others, the company says, like amusements and playing cards and even cigarettes, are in considerable part for women.

Meanwhile, a roving reporter finds the jeweler in Eagle Grove, Ia., population 4000, selling two dozen \$50 and \$75 watches by noon of the day they arrived; the music store at Ames sold out of pianos, some priced up to \$665.

There is no necessary conflict between the two reports.

Camp Fire Girls

The Camp Fire Girls are driving for 700,000 members, double their present number. They offer the powerful argument of the endorsement by head G-man John Edgar Hoover, who emphasizes the function of the organization as a preventer of juvenile delinquency.

Arrests of girls under 21 have arisen 55 per cent since we went to war. Mr. Hoover points out, and adds: "A wholesome recreational program is most important in the normal development of every girl. The volunteer leaders of Camp Fire groups could make no richer contribution to the America of tomorrow."

The Nation's Press

KANGAROO COURT UNRATONED (El Paso Post-Herald)

The Office of Price Administration, with its army of professors and amateur administrators, is working like the busy bee to change not only the economic laws governing human conduct, but also the laws of nature.

Quite recently, in defiance of geography, it arbitrarily ruled that New Mexico is not a Mountain State, but belongs instead to the tier of Gulf Coast states with their flat coastal plains.

And another manifestation of OPA's ignorance of, or contempt for the laws and immutable facts of nature was provided in 34th District Court yesterday when worthy and respected citizens were halted into court—one of them on a stretcher, suffering from a broken back—that the OPA really had indicted a law of nature rather than the filling station operators.

This well-known law is that liquids expand when heated and contract when cooled. Every filling station man knows that in winter he will lose a small amount of gasoline on deliveries, compared to his receipts from the tank wagons.

But apparently, the OPA didn't know this, and its snoopers, finding shortages ranging from one-third of one per cent upward in an eight month period, hailed the El Pasoans into a so-called court.

The zealous Acting Commissioner, Israel Tremaine, after satisfying himself that none of the El Pasoans were former felons, upbraided them and found it very clear to convict most of them of something.

Using the six million words of OPA regulations, issued by and administered by bureaucrats without benefit of grand jury, petit jury or the rules of evidence safeguarding the citizen in the courts of the land, it is not difficult to obtain a "conviction" of this nature.

The spirit and methods of this "court" and its arbitrary pseudo-judge were those of a kangaroo court. The burden of proof against Timmy and in some instances utterly ridiculous charges rested wholly on the assumptions. The "court" applied new and un-American weapon—"sanctions"—

Common Ground

By R. O. HOLLES  
"I speak the non-war primer. I give the sign of democracy by God! I will accept nothing which cannot have their counterpart on the same terms." —WALT WHITMAN

TWO MAIN CAUSES OF UNEMPLOYMENT

Since we had more unemployment prior to the war than any time in our history and since there is great danger of unemployment at the end of the war, there is nothing more important than that people come to learn the main causes of unemployment.

All employment is nothing but an exchange of labor. The only reason people do not employ each other is that they do not think it is to their advantage. They feel, in other words, that they are not getting equal or full value for their labor. So anything that tends to cause a belief that there is a lack of parity in rewards for labor is bound to result in unemployment.

**Banks One Cause**  
The two main causes for the rewards for labor becoming out of balance are banks and labor unions. The banks, by issuing long-time synthetic credit, cause the price of present labor to go up as compared to the reward for labor in past years. When current rewards for labor go up high enough, those who have their savings in the form of credits refuse to exchange their orders for wealth or credit for the product of present labor. This causes unemployment. The unemployment continues until the adjustment is made. That is until such time as current labor reduces their demands for their rewards to a point where the owners of orders for wealth or credits or money believe there is a fair exchange.

History is evidence that unemployment on a grand scale always follows expansion of bank credit to such a point as to increase current wage above wages of former years. This banking cause of unemployment is nothing new. It has been with us for ages. As the late Ogden Mills said we have never had a sound banking system. We should continue to strive for a banking system that does not expand its credits to such an extent as to cause a rise in money prices.

Of course, the bankers will run the kind of a bank the people want them to run. The problem becomes dangerous when the people, through their government, not only have laws that permit the bankers to unduly expand bank credit but demand that the banks create this credit to pay for government costs that should be paid for by taxation. The thing that needs most to be corrected is the understanding of the people as to the real function of banks. Demand deposit banks should never loan capital loans to business or make loans for deficit financing to governments. For the banks to loan large sums to the government is bound eventually to lead to either complete regimentation, to complete government control of all industry, or to wild inflation.

So it is the banks that misuse bank credit that interfere with workers of former years who have credit employing current labor. Thus the bank's misuse of bank credit is one of the primary causes of unemployment.

**Labor Unions**  
On the other hand, the labor unions that know no law by which wages are to be arrived at except by intimidation and force throw out of balance the rewards for current labor. They often make it so that one laborer with equal ability in production receives one or two or three times as much for his service as another laborer is able to receive. And the more labor unions push up their reward artificially, the lower they make the reward for all other laborers. This so disheartens and discourages those who have to work two or three hours to get one hour of union labor that they demand admission into these artificially high-wage jobs. This compels artificially high-wage jobs to lay off part of their men. It makes unemployment. It is simply mathematical that labor unions and banks are the primary causes of unemployment.

These are the main causes of unemployment. But any law that puts a tariff on and later takes it off, any minimum wage law that makes wages higher than the worker can produce will also cause unemployment.

We can have full employment for everyone who wants to work as soon as we return more nearly to a competitive system in labor and sound banking practices and repeal all minimum wage laws.

Closing business houses as though these inanimate objects had committed some crime—adding to the dislocation and shortages already existing in an overburdened community.

The procedure was a satire on the Bill of Rights and many spectators found it difficult to restrain their indignation that such a travesty would be tolerated in America.

One of the charges against a filling station owner was that in selling several thousand gallons of gasoline monthly over the entire rationing period, he had come into possession of one ration stamp improperly received.

A CARLOAD OF CARROTS

(The Chicago Tribune)

A reader sends us the following story clipped from the Jackson, Tenn., Sun:

"Notice of the shipment of a carload of carrots from Stockton, Calif., has been received by Kit Parker, superintendent of schools for Madison county. The assignment was made by the food distribution agency."

"Mr. Parker said he has not yet fully determined disposition of the carrots after they arrived here, but that they will probably be used in soup mixtures for the county's school lunch program."

"A carload of lima beans was received recently from the New England states for use by the county schools, but the beans were spoiled and had to be destroyed. A carload of Irish potatoes was on the railroad track this morning, Mr. Parker said, awaiting some disposition."

"It has been indicated that a carload of sweet potatoes will also be shipped from California to this county."

The reader, who is a resident of Jackson, adds that it is a farming community where sweet potatoes are one of the principal crops. He points out that the carload of carrots had to be serviced with 20,000 pounds of ice by the California shipper and topped with another 5000 pounds of ice when it reached Tennessee, indicating that most of the 30,000 pounds of carrots it contained will spoil before the county school system can use them up.

He calls these shipments an example of how the government is trying to "save" the railroads from freight traffic congestion, and writes that "we do not need rationing points as much as rational thinking."

The planners just can't seem to abandon their give away theories even tho' the country has to suffer hardship to permit them to have their fun.

No typographical error, it seems, is a local press allusion to Mussolini as Bonito—defined by Webster as "a rather poor fish."—Detroit News

Pop Tent

The National Whirligig

News Behind The News

By ALBERT LEMAN

It is imperative for F. D. R. to hold the big city electorate in order to win. That is one reason for his determination to keep down the cost of living—even if through food subsidies he should antagonize some of the farm block spokesmen.

Checkers uncovered that the chief fear of urbanites is the soaring of household expenses. Unlike country people who can raise a few beans and apples on the side to eke out their table supplies, tenement dwellers are compelled to buy every item of sustenance. They can't even go hunting or fishing—or gleaming. The OPA posts ceilings but unscrupulous merchants continue to disregard them. If the customer kicks, the next time the housewife goes to the butcher he can tell her his cupboard is bare.

Mr. Roosevelt is shrewdly exploiting himself as the champion who fights to keep a full market basket within reach. Republicans can fulminate against Federal encroachments on the competitive system and often serious national debt. But the President is aware that there are stacks of votes, especially from Metropolitan households, to come as a result of the simple "food price" issue.

**SUSPICION**—Criticism of the United States and British currency plans emanates from Germany. The Axis-controlled Frankfurter Zeitung and other publications contain broadsheets of abuse charging that the Bank for International Settlements is staged or definite treaties in these matters.

Berlin praises the impartiality of the B. I. S. and, to support its stand, refers to Thomas H. McKittrick, president of the establishment and a citizen of Milton, Massachusetts, Wall Street believes that its defense by the enemy will put a damper on any thought of reviving the reparations era in Basle. In fact the Nazi bluff raises the suspicion that the B. I. S. is not quite so harmless as its friends believe.

**PEACE**—Herbert Hoover has not been recalled to Washington to contribute his services in the present crisis. But the former President's advice has been acted on by the administration in at least four major issues—although without credit to the distinguished author.

The California and former Ambassador Hugh Gibson were the first to propose a "cooling off period" before a formal "Verailles conference" is staged or definite treaties negotiated. Publicly, and even more forcefully in their private remarks, F. D. R. and Prime Minister

Churchill subscribe to this principle. The Palo Alto man insisted that the food problem should be turned over to a single administrator instead of being handled by several squabbling and conflicting agencies. That job is now managed by Marvin Jones.

Denunciations were heaped on the "great engineer" when he argued that the Army's maximum quota had been set so high that it would rob industry and agriculture of man power. Lieutenant General Joseph T. McNarney recently testified that the original estimate had been reported by Bernard M. Baruch's labor report further substantiated Mr. Hoover's criticism.

London and Washington now base their permanent peace structure on control of war-making resources which, as revealed by the writer on September 17, the erstwhile Chief Executive helped to originate before his 1932 defeat.

**MURDER**—Stockholm has just administered another slap in the face to Germany by halting transit of fuel oil over its rails to Finland and Norway, compelling the Nazis to supply their northern garrisons by sea. The ban follows closely that imposed on the transport of Axis troops across King Gustav's land.

Scandinavian journalists in the U. S. A. are certain that both actions stem chiefly from the courage of the "little people." Their richer countrymen are willing to trade with the Axis, but the government was afraid to rock the neutrality boat.

But the railway unions objected violently to the traffic. Other labor organizations and newspapers took up the hue and cry. One journal imposed on the transportation of Axis troops by the firing squads."

When a cabinet minister expressed sympathy for the victims, the Trade Union Congress said the time for pity was past and voted resolutely blaming the whole Swastika regime. The murder by the Gestapo of Hansteen and Wickstrom, two Norwegian trade unionists, shocked every teller.

The eyes of other groups were opened as members of the brotherhoods were abused. The restrictions on teachers enraged Swedish educators; brutalities inflicted on the clergy horrified Stockholm ecclesiastics. Growing antagonism against Berlin gave Premier Hansteen the public backing he needed for rebuffing Hitler.

**NATIVE**—Now that the Axis has been swept from Africa, our troops are engaged there in a daily battle with nature. An Illinois Signal Corps officer, dispatched by Washington on a forty-day inspection tour of the Dark Continent, found terminated telegraph poles so prevalent

Around Hollywood

By ERSKINE JOHNSON

When actor scenarist Norman Krassman sold a film story titled "Practically Yours" to Paramount studio the other day, the big bosses asked if he has any preference about who should produce it.

Krassman said he did. "Let that real estate man produce it," he said. The big bosses, puzzled, asked for an explanation. Krassman explained that Harry Tugend got the job.

After 15 years, the newspaper office boy and the real estate man had gotten together in Hollywood. It's quite a story.

Fifteen years ago Harry Tugend was a New York real estate man who went to Europe on his honeymoon. One day in Paris he wrote a letter to a friend on the old New York World. It was an amusing letter and the friend passed it around the editorial room for all to read.

The office boy, Norman Krassman, read the letter and was impressed. He dropped Tugend a note saying: "Some people in the newspaper business should be in the real estate business, and vice versa."

Tugend was also impressed. Even if the compliment did come from an office boy. For years he wrote a secret ambition to write. But he was always too busy selling real estate.

When he returned to New York from his honeymoon, he looked up his office boy and they became friends. Later, Krassman quit a job on a Broadway theatrical trade paper to become a Hollywood press agent, he talked the editor into hiring the real estate man.

**CHANGE OF CAREERS**  
So the real estate man became a Broadway theatrical reporter and the newspaper office boy went to Hollywood as a press agent.

While writing reviews and Broadway chat Tugend started contacting tags to the New Yorker, writing backlots for new shows and reviews. The star of one of the reviews was Fred Allen, who liked him that they inspired soldier profanity.

The only defense against the bugs is the use of steel or concrete towers or a metal skirt covering the bottom of each pile.

Desert dust also forms a problem. It not only raises hoot with motor vehicle and airplane carburetors but sits into the utmost crevices of typewriters and clogs them almost beyond use. Since Army operations depend so much on paper work, this handicap is not only exasperating but often serious.

But Cairo he learned that the price of wood is one dollar and twenty-five cents a board foot, which accounts for the housing of many of our troops in structures of native brick. But in Accra, British Gold Coast colony, mahogany is so plentiful that the boys use it for kitchen cupboard shelves.

**RUBBLE**—Scientists judge that the application of modern tilling methods and chemistry may reinstate self-maintenance on the Continent in a shorter time than was expected at first. If they are correct, the drain on American larders will end sooner.

Rehabilitation officials have received an appraisal made by Sir John Orr, British nutrition authority, that the world supply of provisions must be augmented two hundred per cent to support its population in health. An initial step take in that direction is the conservation in all free areas on grains, vegetables and other produce high in calories.

Crops will have to be forced if an adequate global harvest is to be approached. Agriculturalists hope that the adoption of synthetic nitrogen in the form of free ammonia, which urea will make great quantities of fertilizer available. Certain gaseous substances, by-products of new motor fuels, have great possibilities.

Ethylene and propylene speed the growth of potatoes. The Russians treat trees with butylene fumes so that apples, pears and plums can be raised in formerly unsuitable climates.

Artificial ammonia can be dropped into irrigation ditches that water orchards, increasing the yield. When the rubble is cleared and the land mines removed, nature and science will work overtime to refill Europe's conucopia.

Today's War Analysis

By DEWITT MACKENZIE

The warning by Senator Chandler (D-Ky.)—just back from the five senator inspection trip to the war theaters—that the Japanese may move their seat of empire to the Asiatic mainland will strike many observers as a rather startling conclusion.

This column long ago called attention to the possibility that the sender by Japan proper wouldn't by any means necessarily guarantee the capitulation of the Japanese militarists and their great armies on the continent. My point was that the Japanese generals in command of the armies occupying China, being in control of a vast new empire, might decide to ignore orders from the home government and carry on.

However, that's different from the idea of transferring the Jap seat of empire to the Asiatic mainland, because the person of the Mikado from Tokyo to the continent would represent a veritable cataclysm in the history of Nippon—a loss of face which would almost call for national han-shi.

Still, it is denied that cataclysms have happened in this war, and might happen again.

The senator says he has good reason to believe that some of Japan's heavy industry already has been moved to the Asiatic mainland, besides the concentration of industry in Manchukuo. That's a true bill.

Moreover, during a decade of control in Manchukuo the Japs have developed both resources and manufacturing. The picture in China is not clear, but the invaders have made some progress there. In any event, the ten per cent of China which they have overrun (apart from Manchukuo, Outer Mongolia and Tibet proper) represents the country's richest territory, both in natural resources and industrially.

Allied strategy apparently depends heavily on bombing of the Japanese mainland to reduce Nippon to submission. If we had suitable air bases from which we could reach Tokyo, Osaka and other cities, we should be about the job right now. The rub is we haven't the bases, and Tokyo therefore is comparatively safe for the moment.

The impending Allied offensive against the Japanese is calculated to produce the necessary bases in due course. That's one of the reasons material and hired him to help write a radio program he was just starting.

For five years the former real estate man helped Allen write the radio show and become one of the nation's favorite comedians.

Meanwhile, in Hollywood, the former office boy became one of the screen's foremost scenarists.

Five years ago Fred Allen came to Hollywood to make his screen debut. Harry Tugend came with him to help write his material, and also to become one of the screen's top scenarists. The real estate man and the office boy renewed their friendship. But although now in the same business, they never worked together.

Then Paramount studio gave Tugend a writer-producer contract. And Krassman became a captain in the army, sold Fred a story about the return of a soldier hero, "Practically Yours," and said, "Let that real estate man produce it."

**SUCCESSFULLY**  
How Harry Tugend became a scenarist, after selling real estate and writing comedy for Fred Allen, is another story. And just as good.

"I was working at 20th Century-Fox with Fred," he said, "when the studio decided I was just the man to write a Shanghai picture. I talked it over with Allen, and although he never could understand the similarity between himself and Shirley, he agreed to my remaining in Hollywood."

Three Shirley Temple pictures later, Tugend was elevated to actor and during the last five years, he has written more than 30 important pictures.

He's thankful, though, for one thing. He can still out-talk any Los Angeles real estate man. And that's something.

**WARTIME HEALTH: Injections Best Treatment For Varicose Vein**  
By DR. THOMAS D. MASTERS  
Written for The News

In wartime, when the full effort of each person is necessary, preventable disability must be avoided. Much can be done to prevent disability due to varicose veins. This condition is more common in women than in men, frequently follows pregnancy, and is aggravated by standing, so many of the new workers in industry may be expected to develop varicose veins.

Varicose veins are dilated, elongated veins, usually of the legs. The exact cause of varicose veins is unknown. Many have noticed that they are more frequent in some families than in others; and therefore assume that the tendency, at least, is inherited. They are also more common among the obese than those of normal weight. The fact that varicose veins often begin after pregnancy has led to the assumption that increased pressure on the veins in the pelvis may be a factor in their causation.

These veins are first recognized because they are plainly visible, as dilated, tortuous vessels under the skin. Frequently they are associated with a sense of heaviness in the legs and an increased tendency to fatigue. Occasionally, there is sharp pain; more commonly, the discomfort is described as a burning sensation or a dull ache. The discomfort is present during standing or walking, and is relieved by lying down.

Itching and sometimes even an eruption of the skin of the legs may develop, because of stagnation of the blood and a resulting impaired circulation. For the same reason, the skin over a varicose vein is sometimes so malnourished as to break down and form an ulcer. Occasionally, the vein ruptures, and this break is followed by hemorrhage.

The blood from the leg is carried back to the body through two groups of veins. One group lies deep in the tissues, and is surrounded by muscle; the other is situated just beneath the skin. Both groups of veins are supplied with valves which normally prevent the blood from moving away from the heart. It is the superficial group of veins, lacking the support of surrounding muscle, that dilate, and along with this enlargement the valves no longer close and check the backward flow of blood.

In the standing or sitting position, the force of gravity pulls the blood down into the dilated vessels, where it stagnates. This stagnant blood impairs the normal flow of the circulating blood through the legs, and results in a diminished supply of nutrition to the tissue.

**TREAT DURING PREGNANCY.**  
Varicose veins developing during pregnancy should be treated prophylactically by rest with the legs elevated during part of the day, and by supporting the veins with elastic bandages or stockings for sitting or standing.

The modern treatment by injection, or injection and ligation, is highly successful in competent hands. (Continued on Page 5)

Peter Edson's Column: ABOUT SWEET MUSIC AND SOUR TEMPERS

By JAMES THRASHER Staff Correspondent

A clash of musical and bureaucratic temperament broke out here the other night between a noted European opera and orchestra conductor, who comes to Washington weekly to rehearse a government workers' symphony orchestra, and his brother, the orchestra's founder and manager and a government employe himself.

An awed and innocent bystander was a young woman who had volunteered her services as assistant manager. She stood about uncomfortably as the argument, which began after rehearsal, continued on into the night.

Finally, the verbal barrage approached its climax with the conductor declaring, "Very well, I shall have nothing more to do with this organization."

"YOU will have nothing more to do with this organization?" his brother repeated, with towering scorn. "It is I who will have nothing more to do with it!"

By this time the assistant manager had caught the spirit of the thing, and turned on a little temperamental herself.

"All right," she said, "if that's the way it's going to be, I certainly shall have nothing more to do with it. Here is the key to your rehearsal room."

And with a grand gesture she flung the key on the table and flounced out.

# Lanier on Mound For Cards as World Series Moves To St. Louis

## Wolverines Blank Harvesters 21-0

Inexperience and lack of speed on the defense, brought defeat to the Pampa Harvesters in their first away-from-home game Friday night at Roosevelt stadium. Lawton, Okla., where the Lawton High school Wolverines blanked the Harvesters 21-0.

Pampans who saw the game know that the Harvesters put up the best brand of football they have shown also season, despite the zero on the Pampa end of the score.

Average age of the Lawton Wolverines was 16. Meraz, left halfback, is the oldest man on the team. He is 20 years old.

The Lawton line was new but the backfield has been working together for two years.

Scene of the game, Roosevelt stadium, is a stone and concrete structure that was filled to its 6,000 seat capacity Friday night, with many soldiers from nearby Ft. Sill among the spectators.

Statistics of the game prove that the Harvesters gave the Oklahomans a run for their money. First downs were even at 11. Lawton gained 154 yards rushing, only a little more than Pampa's 124.

The game was fast with Pampa fighting every foot of the way. Lawton, with three easy wins so far this season, met its first real opposition from the Harvesters.

Older than the Harvesters, longer trained to work as a team, the Lawton gridsters capitalized on the passing of Jones and Kenyon, quarterback and right end respectively, the Jones-Meraz (left halfback) pass combination, and plunging by Warren, right half, to score their first touchdown, early in the second quarter. Jones threw the touchdown and Meraz converted.

Later in the same quarter, Warren, Lawton right halfback scored Lawton's second touchdown, taking it over from the 1 1/2-yard line, Jones kicked the extra point.

With the score 14 to 0 against them at the start of the third quarter, the Harvesters came back fighting, but the rattle-dazzle of the T-formation, as the play entered the danger zone, was too much for them.

Moving like lightning, the Lawton team dispersed like a bombshell, behind clever deception, and Jones scooted over for another touchdown and also kicked the extra point.

In the final period, the Harvesters took to the air in a desperate attempt to score, after Berry had gained 17 yards, Washington 4 and Sheehan, 3, on a spinner. A long pass from Sheehan to Washington, 25 yards, was incomplete, as was a pass from Sheehan to Randall Clay. Runs by Berry and Sheehan consistently added up first downs until the Harvesters had the ball only 2 feet from Lawton's goal line, but could not add the scoring punch.

Lawton punted out of danger. Berry gained 2 yards, then Sheehan went through the center for a first down. Washington gained 4 yards but had a Lawton tackler on top of him for every yard he gained.

A Pampa pass was incomplete. When the ball went over to Lawton, Warren took it over for a first down for Lawton. Bridges, right half for Pampa, was seriously hurt in the closing minutes of the game as four Lawton players hit him, hurting his chest.

He was given treatment by a doctor after the game at the Cameron college dormitory, where the team was lodged.

## Yankees Will Also Put In Port Hurler

By JUDSON BAILEY  
ST. LOUIS, Oct. 9—(AP)—Two southpaws, Max Lanier and Marius Russo, were named today to the pitching assignments for the St. Louis Cardinals and New York Yankees tomorrow when the World Series is resumed at Sportsman's park.

Russo's selection by Manager Joe McCarthy surprised many of the observers who expect to be in the crowd of 34,000 at the fourth installment of baseball's annual classic.

Oklahoma had just scored a touchdown and Bob Brumley had kicked the extra point to put the Sooners ahead. The clock showed less than a minute to go in the second period when the Longhorns took the kickoff and Lee came skipping back to the Texas 37-yard line.

The tow-headed, 160-pound fullback faced deep. From the sidelines sprang Ralph Ellsworth, a Texas sprinter recruited in the manpower emergency to fill in the Texas backfield. Thirty yards from the Oklahoma goal line Ellsworth turned and took the throw. In came two Oklahoma backs. They both

grabbed at the flying Longhorn. They got their arms around him but kicked off. Ellsworth ran like a scared rabbit straight for the goal posts.

Texas scored early in the first period on a great 37-yard run by Ralph Park, chunky tailback. Lee missed the goal but Texas led 6-0.

Back came Oklahoma to roll to the Longhorn one-yard line just as the period ended. Derald Lebow headed the surge with his passing. But on the five-yard line the going got rough. Lebow made two at tackle and Brumley hit the same place twice but made only one yard each time. Brumley's next plunge met a mass of Longhorns and the ball went over.

But the Sooner kept hammering away. Finally Lee got off a short punt that carried only to the Longhorn 18. A penalty and an eight-yard run by Lebow carried to the Texas five and Lebow crunched over left tackle for a touchdown. Brumley added the point.

Then followed the pass play from Lee to Ellsworth that won the game.

McCarthy, reticent as ever, gave no explanation of his reason for choosing Russo, but it appeared that Spud Chandler needed another day of rest.

Russo, despite his record, has convinced McCarthy he has recovered from his arm ailment, which was caused by a sinus condition.

There was no similar question about the Cardinals opening with Lanier tomorrow, but some doubts about his effectiveness came up when word got around that the stocky southpaw was suffering from a cold.

However, Lanier said he felt fine and was ready to go.

At the park today Southworth sent his squad through an intensive workout which included everything in baseball.

Afterwards the Cardinals held a lengthy meeting in their clubhouse. The Yankees whipped through a routine hitting and field drill, dressed and returned to their hotel without any more ado than would occur at a spring training workout.

Both teams appeared confident, but the Cardinals must win tomorrow to keep from falling almost hopelessly behind.

Sportsman's park which will hold only half the crowd that packed Yankee stadium for each of the three previous games this week, has been sold out except for 6,800 unreserved seats and 3,000 standing room tickets which will be placed on sale when the gates open at 7 o'clock tomorrow morning.

The fifth game will be played Monday with Chandler due to draw Mort Cooper as his pitching opponent and if additional contests are necessary the sixth will be played Tuesday and the seventh Thursday.

## Pukka Gin Wins Champagne Stakes

NEW YORK, Oct. 9—(AP)—Lieut. Col. C. V. Whitney's Pukka Gin, a \$1640 for \$2 shot, scrambled the puzzle of the nation's top two year olds still further today when it won the 73rd running of the Champagne stakes at Belmont Park.

The Whitney entry won by a length from Mrs. Dodge Sloane's long shot, Pressure, in defeating a field that included John Marsch's Occupy, Warren Wright's Pensive and other title aspirants. Pensive finished third, while Occupy was eased up last of the dozen starters. The time was 1:38 1-5.

In the other feature, Townsend B. Martin's Bollingbroke, proved the stoutest of the half-dozen marathoners in the two miles and a quarter grind of the fourth New York handicap. The \$450 choice, winner by a length and a half over William Dupont, Jr.'s, Fairy Manhurst, took down a purse of \$19,400 through the victory. William Woodward's filly, Vagrancy, was third. The time was 3:32 1-5.

## Duke Scores Navy But Middies Win

BALTIMORE STADIUM, Oct. 9 (AP)—In a bitterly contested, rough and tumble battle navy's Middies barely managed to drop Duke's Blue Devils from the undefeated class tonight, 14 to 13, as Bob Gantt, an expert place kicker, missed the tying point with two minutes left to play after the Durham eleven had rallied to push over a final touchdown.

## Steers Dream Plays Beat Sooners 13-7

DALLAS, Oct. 9—(AP)—The wildest two minutes in Texas-Oklahoma football history produced a 63-yard pass play, thirteen points and a bushel of thrills for 15,000 fans today as Texas came from behind to beat the Sooners 13-7.

It was Bobby Coy Lee, spindleshanked Texas fullback, who got in the deciding punch to bring Texas its fourth straight triumph in the 43-year-old gridiron classic.

Oklahoma had just scored a touchdown and Bob Brumley had kicked the extra point to put the Sooners ahead. The clock showed less than a minute to go in the second period when the Longhorns took the kickoff and Lee came skipping back to the Texas 37-yard line.

The tow-headed, 160-pound fullback faced deep. From the sidelines sprang Ralph Ellsworth, a Texas sprinter recruited in the manpower emergency to fill in the Texas backfield. Thirty yards from the Oklahoma goal line Ellsworth turned and took the throw. In came two Oklahoma backs. They both

grabbed at the flying Longhorn. They got their arms around him but kicked off. Ellsworth ran like a scared rabbit straight for the goal posts.

Texas scored early in the first period on a great 37-yard run by Ralph Park, chunky tailback. Lee missed the goal but Texas led 6-0.

Back came Oklahoma to roll to the Longhorn one-yard line just as the period ended. Derald Lebow headed the surge with his passing. But on the five-yard line the going got rough. Lebow made two at tackle and Brumley hit the same place twice but made only one yard each time. Brumley's next plunge met a mass of Longhorns and the ball went over.

But the Sooner kept hammering away. Finally Lee got off a short punt that carried only to the Longhorn 18. A penalty and an eight-yard run by Lebow carried to the Texas five and Lebow crunched over left tackle for a touchdown. Brumley added the point.

Then followed the pass play from Lee to Ellsworth that won the game.

## Golden Glow Salad

12 canned apricot halves  
4 slices  
1/2 cup cottage cheese  
1/2 cup chopped Walnut kernels  
Salad dressing  
12 Walnut halves

Arrange three apricot halves out side up on each of 4 individual plates of lettuce. Combine cheese and chopped walnut kernels, and dip in hot sauce. Sprinkle with salad dressing and walnut halves. Serves 4.

## Walnut Stuffed Oranges

4 Valencia oranges  
18 pitted dates  
2 tablespoons coconut  
1 cup chopped Walnut kernels  
6 marshmallows  
6 Walnut halves

Four boiling water over the Valencia oranges. Allow to stand for 10 minutes, turning frequently; then drain. Cut slice from top of oranges and scoop out pulp. Chop the dates and mix with the orange pulp; add coconut and walnut kernels. Refill oranges with mixture and top each with a marshmallow. Bake in a moderate oven (350° F.) until oranges are thoroughly heated and ingredients blended, about 20 minutes. Decorate each with a walnut half. Serves 6.

## Rice and Walnut Loaf

(A Real Meat Saver)  
1 egg  
1/2 cup milk  
1 cup soft bread crumbs  
1/2 cup chili sauce  
1 cup cooked rice  
1 cup chopped Walnut kernels  
1/2 teaspoon sage  
1/2 teaspoon salt  
1/2 teaspoon pepper  
2 cups tomato sauce

Beat egg, and add all remaining ingredients except tomato sauce. Blend thoroughly and put in a greased loaf pan. Bake in a moderate oven (375° F.) for 45 minutes. Serve with a well-seasoned tomato sauce. Serves 6.

## Walnut Sticks

1 cup brown sugar  
1/2 cup sifted all-purpose flour  
1/2 teaspoon salt  
1/2 teaspoon vanilla extract  
2 eggs, well beaten  
1 cup chopped Walnut kernels

Add sugar, flour, salt, and vanilla extract to the eggs and mix well. Add walnut kernels. Spread in greased shallow baking pan 7 x 13 1/2" and bake in moderate oven (375° F.) for 20-25 minutes. While still warm, cut into strips 4 x 1" and remove from pan. Makes 24 bars.

## Bucks Nose Out Hereford, 14-13

ANN ARBOR, Oct. 9—(AP)—Roaring to the heights reached by any of Notre Dame's greatest teams, the fighting Irish today battered Michigan's touted Wolverines, 35-12, for their worst defeat in six years before a record crowd of 86,000 at the vast Michigan stadium.

History was dramatically repeated as Creighton Miller streaked to two of five Irish touchdowns to match the performance of his father, the immortal Harry (Red) Miller, in Notre Dame's only other win over Michigan in 11 games. That was 34 years ago in 1909 when the fighting Irish last invaded Ann Arbor.

Frank Leahy's "T" formation, sparked by Angelo Bertelli, Miller and stabbing Jim Melio, slashed the Wolverines to ribbons with the Irish scoring in all but an error-shortened fourth period. The closing quarter went seven minutes by agreement of the coaches after the time clock went away in a 23-minute third quarter.

The Irish tallied once in the opening period and twice each in the

second and third quarters, with Bertelli converting after all five scores to extend his place-kicking record to 14 out of 15.

Michigan's first touchdown came in the second period, the handiwork of big Bill Daley, who was a gallant figure even in the Wolverine's rout. The second Michigan score came on the last play of the game, a 13-yard pass from Elroy Hirsch to Capt. Paul White. Tackle Mervin Pregulman, with a previous record of 12 conversions in 13 tries, missed both point attempts.

Bertelli, the Irish sling-shot, made good on five of eight passes, covering 70 yards for a touchdown and another 31 yards to set up another score.

## Get Real Menu Magic . . . with California ENGLISH\*

Many a fine cook's reputation is based on a trick of Kitchen Magic—the little flick of the wrist that empties a cup of Walnut Kernels into some simple recipe! What Menu Magic those golden kernels work. . . How they add eye-appeal, flavor and food value to even your old favorite recipes. . . How they transform ordinary dishes into extraordinary treats! Orange County Walnuts rank with the finest grown in the World . . . they are noted for their "paper" shells and plump, crisp kernels inside! Why not try some tomorrow?

\*Why are walnuts called English walnuts? There is no apparent basis for this name, for England has never produced enough walnuts for her own needs, and walnuts originated in Persia. English ships first carried walnuts in world commerce, so that buyers, apparently believed they came from England and called them "English" walnuts. So far as the United States is concerned, "California" walnuts is a much more appropriate name, for 95% of the walnuts in the shell eaten here are grown in California.

Is it any wonder that walnuts from such beautiful and well-kept Orange County groves are some of the finest in the world? The beautiful white-barked trees are planted far apart to assure full nutritive benefits from both sun and soil.

## Irish Cut Michigan To Pieces 35 to 12

ANN ARBOR, Oct. 9—(AP)—Roaring to the heights reached by any of Notre Dame's greatest teams, the fighting Irish today battered Michigan's touted Wolverines, 35-12, for their worst defeat in six years before a record crowd of 86,000 at the vast Michigan stadium.

History was dramatically repeated as Creighton Miller streaked to two of five Irish touchdowns to match the performance of his father, the immortal Harry (Red) Miller, in Notre Dame's only other win over Michigan in 11 games. United Czechoslovak relief, War Prisoners aid, U. S. Committee for the Care of European Children, French Relief fund, Norwegian relief, Belgian War Relief society, Refugee Relief trustees, and Friends of Luxembourg.

At the executive committee meeting here Friday, by-laws and constitution for the Pampa United War Chest, drafted by S. D. Stennis and Arthur M. Teed, were approved.

Harlan Yoder, representing the Gray County Tuberculosis association, appeared before the committee to ask their judgment as to whether the association's annual Christmas seal sale should be conducted, as part of the Pampa United War Chest.

The committee ruled that the association should continue its seal sale as in the past, by direct mail, and that the association would not be included in the one big drive.

Attending the committee meeting were Chairman Garman, Frank Smith, W. B. Weathered, Jim Collins, Arthur Teed, A. J. Beagle, F. J. Dunnigan Jr., J. E. Murfee Jr., Jack Hanna, Garnet Reeves, Ted DeWeese, S. D. Stennis, and Roy Bourland.

Collins represents the Boy Scouts; Beagle, the Girl Scouts; Teed, Salvation Army; Bourland, American Legion.

HULL (Continued from Page 1)

word from American emissaries in Japan and Germany as to what was brewing in those countries.

Ambassador Joseph C. Grew in Tokyo had said in a message on Aug. 13, 1933 that the Japanese military machine "has been built for war, feels prepared for war and would welcome war. It has never yet been beaten and possesses unlimited self confidence. I am not an alarmist but I believe that we should have our eyes open to all possible future contingencies."

Meanwhile in June George E. Messersmith, consul general at Berlin, had reported:

"I think the department must be exceedingly careful in its dealings with Germany as long as the present government is in power as it has no spokesman who can really be depended upon, and those who hold the highest positions are capable of actions which really outlaw them from ordinary intercourse."

Later, on Nov. 23, 1933, Messersmith reiterated:

"Hitler and his associates really and sincerely want peace for the moment, but only to have a chance to get ready to use force if it is found essential. They are preparing their way so carefully that there is not in my mind any question but that the German people will be with them when they want to use force and when they feel that they have the necessary means to carry through their objects."

As early as May 15, 1933, Secretary Hull had proposed to the senate foreign relations committee legislation which would authorize American cooperation in an arms

## FLOODS

(Continued from page 1)

embargo against aggressor nations, the record shows.

From the fall of 1934, Ambassador Brackenridge Long reported from Rome on the danger of Italian aggression in Ethiopia.

After Munich, Hull advocated acquiring stockpiles of strategic materials in case of an emergency.

American diplomatic efforts to keep Italy out of the war and later to prevent the French fleet from falling into German hands are also recounted.

The record shows that early in 1941 Under-Secretary of State Summer Welles informed the Soviet ambassador in Washington of reports that Hitler was planning to attack the Soviet Union.

The painful negotiations with Japan are lengthily documented for 1941.

Beginning with a warning from Ambassador Grew in Tokyo in January, 1941, that Japan might strike suddenly and with every possible element of surprise, the records drag their slow way through months of conferences in Washington and numerous messages back and forth between the two governments.

The tragic climax comes on Dec. 7, 1941, when Japanese Ambassador Kichisaburo Nomura and Special Envoy Saburo Jurosu handed Secretary Hull Japan's memorandum that the Japanese government considered it impossible to reach an agreement through further negotiations—one hour after Japanese planes had attacked Pearl Harbor.

BUY VICTORY STAMPS

## PRESS

(Continued from Page 1)

ridderless ship, not knowing whence the tide of events and fortune might lead it. The press will continue to give service to the church as one important institution to another, but the church must also realize that to continue its service, not only to the church but to the community, the newspaper must have an income and that income can only come from the space it sells in its columns.

This same reasoning must apply to charitable organizations in the community. To them the publisher and the men and women who work for the publisher give generously of their private means and of their time and talent. They too must prosper if they are to continue the support of the church, and all kindred organizations seeking to carry out an uplifting work in the community.

## Change in Pension Distribution Due

CORSICANA, Oct. 9—(AP)—A change in distribution of old age assistance was indicated today by John Winters, newly appointed executive director of the state welfare department, who said "we are revising our policies in an attempt to get old age assistance to those who need it worst."

"There are many persons who qualify for assistance under the letter of the law but who do not need help as badly as others. It is our intention to see that the money goes where it is needed most," the executive director said.

The executive director, appointed by the state welfare board to replace J. S. Murchison, former Corsicana mayor, attended the closing sessions today of a conference of field workers and supervisors from areas 13 and 14, comprising six counties.

## FLOODS

(Continued from page 1)

Field Marshal Erwin Rommel presumably is organizing his defenses for northern Italy.

This second line, which undoubtedly will be much tougher to crack than the Volturno-Ternoli line, may be based on the natural barrier of a mountain line, more than 30 miles wide and 6,000 feet high stretching from the Ligurian sea to the Adriatic.

Three days of heavy fighting on the Adriatic front subsided somewhat after Gen. Sir Bernard L. Montgomery's Eighth Army forces knocked out half of 30 German tanks which attempted to break the British hold of Ternoli.

(A Paris broadcast said that a "considerable American naval force" had bombarded German positions in the vicinity of Vasto, 15 miles north of Ternoli, and that violent fighting was in progress in the Ternoli sector.)

Allied medium bombers and fighters supporting the Eighth Army along the Adriatic destroyed 20 enemy motor vehicles and damaged a bridge at Palag, 12 miles west of Ternoli, yesterday. RAF bombers struck at road junctions and bridges at Isernia and Formia, northeast and north of Naples, last night.

Heavy and medium bombers of the Northwest African air forces battered enemy airdromes at Eleveis, near Athens in Greece, and Heraklion in Crete yesterday after Liberator had pounded the air field at Kastell in Crete and Maritza in Rhodes the previous day.

The RAP also hit Heraklion Thursday and Calato in Rhodes last night, losing one plane in these and other attacks.

The raids on Crete and Rhodes were the first to be made on these German-held islands by Northwest African air force units.

American Mitchells and Lightnings based in Italy carried out yesterday's raid on Eleveis, destroying many enemy planes parked on the air field. Twenty enemy fighters got into the air to challenge the attackers. The bombers downed three of them and the fighters accounted for two others.

Four-engine Liberators hit gasoline and ammunition dumps and destroyed runways in the attack on Heraklion.

The total score against the enemy for the past 24 hours was seven planes shot down against no losses for the Allied air forces.

Air force headquarters announced meanwhile that up to Oct. 1 the Axis had lost more than 6,000 planes in the campaign that started in North Africa last Nov. 11.

(Continued from Page 1)

while bound for evacuation of troops from that island.

Neither was there any report of expected American landings on Kolombangara but South Pacific reports indicated some survivors of the repeatedly bombed enemy troops there had escaped by small craft during the past fortnight.

(A Japanese imperial headquarters communique said the evacuation of both Kolombangara and Vella Lavella has been completed.)

Belated reports from the South Pacific described a heavy raid a few hours prior to the navy battle by American Liberators and Lightnings on the Japanese airdrome of Kahili on Bougainville.

## Reublicans Fight Federal Spending

WASHINGTON, Oct. 9—(AP)—House Republicans will vote today to cut \$10,500,000 from the federal budget.

"We are not going to let them strangle the public with new taxes without any effort to cut down expenses within the government," declared House Minority Leader (R-Mass.).

"We're going to insist on more government economy," Martin said. "That seems to be a thing they're trying to overlook entirely."

Chairman Cannon (D-Mo.) of the house appropriations committee, observed, however, that new taxes are inescapable as the only means of financing the government's huge war-time budget.

## TWA Inaugurates Cargo Service

KANSAS CITY, Oct. 9—(AP)—A daily round trip air-cargo service to expedite air mail and vital express between here and Los Angeles will be established Monday by Transcontinental & Western Air, Inc.

V. P. Conroy, traffic vice president, said the recent release of a plane to TWA by the army enabled it to establish the service.

The westbound cargo plane will leave here at 1:15 a. m. (CWT) and arrive at Los Angeles at 9:15 a. m. (PWT). On the return flight it will leave for Los Angeles at 11:15 p. m. (PWT) and arrive here at 10:47 a. m. (CWT). Stops will be made at Wichita, Amarillo and Albuquerque, N. M., on both flights.

## Government Paper Use Is Attacked

WASHINGTON, Oct. 9—(AP)—A house subcommittee, checking into dwindling supplies of newsprint, asked today why the government agencies tonight: Why do you need so much paper for official reports, magazines and other publications?

Chairman Boren (D-Okla.) said the committee had sent letters to the heads of several departments asking them to justify their paper consumption. The action has prompted some reduction in paper use already, he said.

of New Ireland, a Liberator Friday morning spotted a convoy of three transports, escorted by destroyers, moving north. The big bomber attacked through an intense barrage thrown up by the enemy vessels and scored damaging hits on a 10,000-ton transport.

The badly battered enemy air force returned to the attack in both New Guinea and the Solomons.

Friday, 11 Japanese medium bombers with 18 Zeros, raided Allied positions around Finschhafen, the New Guinea air base on the Huon peninsula captured recently by Australians. The new raiders failed to cause any damage.

Yella Lavella in the Solomons Friday, patrolling Corsairs of the United States navy broke up a formation of 15 Zeros, downing one enemy fighter in a brief battle.

On New Guinea, where Australians have reached a point 45 miles southwest of their objective of Madang, today's communique said "our forces continued the advance and now are entering the foothills of the Uria river valley."

## BOMBS

(Continued from Page 1)

Britain than the targets hit today.

A classic remark by returning crewmen, most of whom were aware that the raid took them within fairly close range of the battling Russian armies, came from Lt. Joe W. Kane of Lynbrook, L. I., N. Y. "I was surprised that the Russian fighter support didn't show up."

"Boomerang Boys," was one of the famous hitting targets in Poland and explained his remark this way: "We usually have fighter support. We went so far I thought Russian fighters might be at Danzig to support us. We looked for them, but they weren't there."

Describing the fighter opposition on the Anklam attack, Colonel Burns said, the Germans picked them out over Denmark and stayed all the way until the Americans had started their bombing run.

The group that hit the Danzig submarine yards declared that the Germans have thrown an entire division against the patriots in heights commanding the port of Piume, Yugoslav sources said today.

There was bitter fighting in these renewed drives to seize the two seaports, and in the interior of Italian Trieste, while to the south the Germans have thrown an entire division against the patriots in heights commanding the port of Piume, Yugoslav sources said today.

The Danzig raid involved a flight of approximately 1,800 miles.

The former free city had been raided twice by the RAF and three times by the Russians. The RAF first hit the city in November, 1940, and several quarters of Lancasters raided the submarine yards in July, 1942.

## Press to Conduct Executive Session

WASHINGTON, Oct. 9—(AP)—This note appeared mysteriously today on the bulletin board of the senate press gallery:

"Members of the senate press gallery will conduct an executive session behind closed doors on Oct. 10. All doors will be locked and guarded. Senators will not be admitted and will be limited to only such information as they can obtain from the customary leaks. However, senators are requested to check with censorship before using any of the information so obtained, as national security may be involved in some of the material."

## Redskins Set for Season

CHICAGO, Oct. 9—(AP)—The Washington Redskins, favored to repeat as champions of the eastern section of the National football league despite an exhibition record of only one win in four games, open their league season tomorrow at home against Coach Pete Cawthon's Brooklyn Dodgers.

## Chinese Republic Is 32 Years Old

WASHINGTON, Oct. 9—(AP)—The Chinese republic is 32 years old tomorrow and congress seems ready to help celebrate the anniversary—although a little belatedly—by brushing off the welcome mat to greet 105 Chinese immigrants yearly.

The date is the anniversary of the day when Sun Yat-Sen, began the revolution which overthrew the ancient Manchu dynasty and established the Chinese republic.

House leaders say they are eager to honor the milestone by knocking down the 61-year old bars against Chinese immigration quotas and make Chinese eligible for citizenship.

A bill to this end is on the house calendar and may come up next week after the house votes on the pending soldiers' dependency bill. If passed, it still must, with senate approval to become effective.

AUTUMN CHECK-UP

It seems about this time of year the better farmer stops, to check results and see if his have been successful crops.

So I inspect my own small place, To see what's happened there; And find the season's given me Success beyond compare

For I see five new cardinals, Who've grown up since the spring; One soft-gray half-grown mocking-bird Is trying hard to sing;

Six lovely bluebird children fly Near eight finch babies—gold ones; And four young snuff-brown thrashers dig, In fallen leaves, like old ones.

The above verse was written by Lyla Myers of Little Rock, Ark., who has written many beautiful things about this-and-that and other. She sent copies to the News especially for publication, and during the year we hope to receive more of them.

Signs of the times—Phillips University at Enid, Okla., has an enrollment of 284 women and 190 men. . . This majority of the fairer sex should be advantageous to the male element on the campus. . . Pampans who are registered there for this year are Mrs. Shirley Mary Norris and Leonard Brummett.

EXPECTANT—First they said all pre-Pearl Harbor fathers would have to get into the service. Then out came some big-wig stating that it was all a mistake. The idea has been kicked around the nation so much that all of the fathers have become expectant.

To obtain success you must keep your eye upon your goal and not on the troubles in the way between you and your goal.

How's this for an over-developed sense of humor—A friend of mine was once dating a soldier who at every opportunity hinted that he would like very much to have a certain pair of gloves which were on display in a local store window. The girl completely ignored all the soldier had to say about the gloves . . . until Christmas . . . then she sent the lad a book for a present with a card inside . . . "Merry Christmas, and sit on your hands."

Fall brings all sorts of things—football, fresh spicy air, long walks, golden colors, campfires, colds, coryzas, sunsets, and a million other things. . . Because it is to many the best season of the year we like to stay outside a great deal and enjoy ourselves before old winter sneaks in on us. The other day I saw two Pampans enjoying themselves—they were riding their bikes and getting plenty of exercise along with their sunshine and fresh air. No sissy stuff with them either—they believe in riding at least 10 miles before they stop to rest.

One of the soldiers stationed at the Pampa Air base who had been gone for several weeks on a furlough to his home up in one of the northern states returned to Pampa with a big, broad smile. He had no particular reason to smile—but there was something good about getting back "home" to Texas.

I asked him what he did at home during his furlough and after 10 seconds of re-orientation he named off the following things—"I slept late in the morning, ate my rations and my families rations of good home cooked food, told stories to my family and friends about 'army-life,' dated all my best girls, got buttons sewed on my clothes that the laundries tore off . . . and just amused myself in general."

Ed Bishop in the Dalhart, Texas seems to agree with us about wedding stories. . . A few weeks ago one of Pampa's male contenders bowed his head off about the way these stories are written up . . . ending his contentions with "The bridegroom is lucky if he rates mention in the last paragraph in 6-point type."

Quoting from Bishop's "Ed Aches"—"It isn't necessary to go into lengthy discussion of how lovely the bride looked in such and such dress or gown . . . she's very pretty at any time. Right at the last of all wedding stories the bridegroom is mentioned, very briefly. . . I've often wondered if these wedding couldn't be performed just as easily as far as the public is concerned if the bridegroom were not present!"

If you were among the on-lookers Thursday afternoon when school girls were running around this corner and that with a bucket of water and an eye-dropper putting out people's cigarettes, or if you were one of the victims who had to sign your name on an egg, or if you saw these girls rolling eggs down the block with the end of their nose, you probably thought they were going off the deep end mentally—if you haven't already consulted your doctor—don't do so immediately, because you aren't crazy at all—you're not seeing things—all this actually happened.

It seems as though some of the sororities are initiating their pledges, and this was their way of testing their sportsmanship—or something!

A very personable girl around town is Mary Margaret Gribbon—she bubbles over with personality, and has an especially nice smile for everyone she meets.

Very soon all you working gals will have an opportunity to work with the Red Cross. Night classes will be underway and going in full swing before long. Surgical dressings will be made by persons who attend these classes . . . so we who have not done our part because of "working all day," will have no excuse now . . . and now we can fashion gauze and cotton into merciful packs for our fighting men.

Today's favorite gag: Landlord to Cadet Wife: "Do you have any children?" Cadet Wife: "No." Landlord: "Any piano, radio or phonograph?" Cadet Wife: "No Sir."

Landlord: "Do you have a cat, dog or parrot?" Cadet Wife: "No, but my fountain pen scratches sometimes."

Thursday's edition of The News carried a short story on page five with the caption "Roosevelt Has To Be Spelled Out." To quote the story as sent by AP from Dallas: "Mrs. Louise Armstrong of American Airline reservations office here answered a phone call from Ft. Worth. 'This is Lt. Col. Elliott Roosevelt. . .'"

"Will you please spell that name?" Miss Armstrong asked. "Miss Armstrong is a former music teacher in Pampa's Woodrow Wilson school and has been employed with the American Airlines since her resignation here last year. She is the daughter of Major Wright Armstrong of Dallas.

Her former pupils in Woodrow Wilson spied the article and now the story is making the rounds. Naive to say the least, isn't she???

Your crowning glory is one of your best assets, so you owe it to yourself to keep your hair beautifully lustrous at all times. Frequent shampoos are absolutely necessary, particularly if your hair is oily, if you live in a sooty city or work in a dusty area. The scalp has to be kept clean if hair tissues are to be healthy.

Since hair is an indication of health, diet and exercise are prime factors in keeping your tresses looking alive. Before your shampoo, brush your hair briskly with a good quality stiff bristled brush. Whatever shampoo is used should be of the rich lathering type and one that will bring out the hidden highlights. Perfect for the girl in service and for easy packing are the new envelope shampoos. There is a natural shampoo for every color hair: a henna shampoo for brunettes and camomile for blondes—all delicately scented with lavender. To make sure that all traces of soap are removed, rinses are supplied with the henna and camomile shampoos.

A soft towel is best for drying the hair. When it is half-dry, massage your scalp with your fingertips. Then apply a solidified brillianine. Apply this lightly on a brush or with the fingertips to add luster and keep loose ends in place.

Experiment with your hair style occasionally. While it may be true that you look well in the one you have had for years, very often a new hairdo will help give you a new lease on life.

Mrs. Glen Hardin Swartz

## Miss Marguerite Hutchinson Becomes The Bride of Glen Hardin Swartz, October 7

In a double ring ceremony read October 7, Miss Marguerite Hutchinson, daughter of Mr. and Mrs. W. A. Hutchinson, became the bride of Glen Hardin Swartz, son of Mr. and Mrs. A. E. Swartz of Rancorgua, Okla., S. A.

Vows were read in the home of the bride by the Rev. E. B. Bowen, minister, First Methodist church. Miss Catharine Scheihagen sang "Sweethearts," "Because," "Always," and "At Dawning" before and after the ceremony, accompanied at the piano by Mrs. Chester Thompson.

An improvised altar was surrounded with baskets of gladioli and cathedral tapers. Billy Hutchinson served as candlelighter. Miss Catharine McKenney attended Miss Hutchinson as maid of honor wearing a yellow taffeta dress fashioned as the brides, and a corsage of yellow gladioli.

Joe Tooley served as best man. The bride who was given in marriage by her father, wore a white crepe wedding gown with pointed sleeves and a white finger tip illusion veil. She carried a white Bible topped with white roses and lily buds. For something old she wore a locket belonging to her mother. The bride's mother wore a dress of black velvet with a corsage of white gardenias.

A reception followed the ceremony in the home of the bride where the serving table was centered with a bouquet of white carnations and gladioli and a three tiered wedding cake. After the bride and bridegroom ate the first piece of cake, guests were served.

Following the reception Mr. and Mrs. Swartz left for Pennsylvania. The bride traveled in a commando brown wool suit with cocoa brown accessories.

After October 15 they will be at home at 1112 Muldowney Ave., Pittsburg, Pa.

The bride is a graduate of Oklahoma College where she was a member of the honorary societies, including Kappa Kappa Phi, Phi Sigma and Kappa Phi. She taught Sciences one year in the McLean High school. For the past year she has been employed as laboratory technician for Cabot Companies.

The bridegroom is a graduate of Carnegie Tech, Pittsburgh Engineering school. He is employed by Pennsylvania Industrial Engineers.

Several pre-nuptial courtesies were extended to the bride. A breakfast and kitchen shower was given Tuesday morning in the home of Mrs. Allan Say with Mrs. W. L. Parker and Mrs. W. J. McKeel as co-hostesses.

Breakfast was served from a table covered with a yellow linen cloth which a centerpiece of yellow marigolds with white tapers was placed, carrying out the yellow and white color scheme chosen by the bride.

A corsage of yellow chrysanthemums was presented to the honored guest. Two readings were given by Mrs. W. L. Parker after which gifts were presented to the honoree.

Guests were: Mmes. C. L. Hunter, Orville Garrison, C. E. Davis, L. E. Cavender, H. C. Chandler, W. A. Hutchinson and the honoree and hostesses.

Membership Drive Is Launched By Horace Mann P. T. A.

The executive committee and room representatives of the Horace Mann Parent-Teacher association held a joint meeting Thursday afternoon at 2:30 when plans were made for an intensive membership drive to be launched immediately. A prize will be given to the room having the greatest percentage of parents belonging to the association.

Those attending were: Mmes. John McFall, W. O. Prewitt, B. A. Sumner, Erwin Pursley, Vernon Lawrenson, D. B. Schiffman, F. H. Shinton, A. Hefflin, Thomas Clayton, Leonard Kaps, W. E. Smith, Earl Isley, Ray Shepherd, W. R. Cook, R. W. Pollard, George Neef, Rudy Kimbell, M. F. Sherrod, J. H. Wigginton, C. B. Timmons, Roy W. Williams, D. E. Roundtree and Miss Josephine Thomas.

Following an introduction of the teachers a coffee for all new members of the association will be held. Special musical numbers will be given during the program.

The executive board will meet at 1:30 for a business meeting in the office of H. A. Yoder.

Cellophane first was produced at Buffalo, N. Y., in 1924.

## Jarvis-Conlin Vows Are Said

Mr. and Mrs. C. L. Jarvis are announcing the marriage of their daughter, Dorothy, to Lt. John T. Conlin, son of John F. Conlin of Madison, Wis.

The marriage was solemnized in the University Tower at Austin, September 21.

The bride wore a suit of R. A. F. blue with brown accessories. Her corsage was of gardenias.

Those attending the ceremony were: John F. Conlin, father of the bridegroom and Tom Conlin, brother of the bridegroom, both of Madison, Wis.; Mrs. C. L. Jarvis, mother of the bride and Hazel Jarvis, sister of the bride, both of Pampa.

Mrs. Conlin graduated from Pampa High school and attended the University of Texas where she will receive her B. S. degree next spring.

Lt. Conlin studied law at Wisconsin State university for two years. He is a First Lieutenant, Engineers, stationed at Boston, Mass., where they will make their home.

## Ogden-Martin Marriage Told

Mrs. Ralph Ogden announced the marriage of her daughter, Mary Sue, to Flight Officer Donald D. Martin, at a tea in her home Wednesday evening.

The marriage took place at Louisville, Ky., October 2.

Entertaining rooms were decorated throughout with a patriotic color scheme and arrangements of cut flowers. Punch was served by Mary Joyce McDaniel, cousin of the bride, who wore a pink floor-length dress.

The serving table was covered with a lace cloth centered with cut flowers which served as a background for a miniature bride and groom. Candles were placed on either side of the arrangement.

Miss Catharine Scheihagen presented each guest with a miniature flag with an attached scroll on which the marriage date was written.

Mrs. Ogden presided at the bride's book which was a gift from Mr. and Mrs. W. T. Braley.

Guests registering were: Mmes. G. Carruth, A. C. Houchin, A. Carpenter, W. C. Breining, Joe K. Clarke, V. H. Hall, S. Barhan, Jack Hamlin, W. M. Straefer, O. J. Carpenter, John Carpenter, George Williston, W. R. Combs, George Dever, W. T. Braley, H. C. Little, H. E. Barrett.

Mmes. R. H. Barron, Ray Carruth, C. E. Vincent, Marvin Schofield, C. B. Cope, Linda, Gas Bralley and Mrs. W. T. Braley.

Mrs. Martin is a graduate of LeFors High school and attended Draughans Business college at Lubbock where she was employed until her marriage.

## Workers Needed At Red Cross Night Classes

Mrs. C. P. Buckler, Red Cross surgical dressing chairman, announced yesterday that night classes would be held on each Tuesday and Thursday night at 7:30.

These classes are being organized so that persons who work during the day will have the opportunity of attending night classes and folding bandages.

Mrs. Buckler said Saturday that there has been an increase in the number of workers who have at hand surgical dressings classes, but Gray county was still behind with their quota, and more workers were needed.

A definite statement from the national office regarding the requirements for surgical dressings has been made. They are: hair covering, no nail polish, fresh white or colored uniform, necessity for adhering strictly to specifications in making dressing.

The Red Cross surgical dressing room is located on the first floor of the City Hall. "Workers are needed," said Mrs. Buckler. "We hope that every person will feel it their duty and responsibility to attend these classes as often as possible, especially those women who have not found time to give to Red Cross work before because of their jobs. We find that working girls make the best Red Cross workers, and we hope to have a full attendance on these nights," she said.

## Viernes Club Meets With Mrs. Hukill

The Viernes club met with Mrs. F. A. Hukill Friday afternoon at 3 o'clock when birthday gifts were presented to Mrs. W. E. Abernathy. Refreshments were served to Mmes. Charles Miller, Burdette Keim, Lee Roy McBride, Bill Money, Homer Doggett and Mrs. F. A. Hukill.

Miss Lily Ann Patusek of Wichita Falls, Texas, was a special guest.

Members of the club were: Mrs. F. A. Hukill, Mrs. W. E. Abernathy, Mrs. Charles Miller, Burdette Keim, Lee Roy McBride, Bill Money, Homer Doggett and Mrs. F. A. Hukill.

Additional Society on Page 9

## MAYOR'S PROCLAMATION

WHEREAS: The week of Oct. 10-17 will be observed by the business and professional women throughout the nation as their anniversary week to be known as National Business Women's Week; and

WHEREAS: The women of Pampa and Gray county in common with women everywhere in the United States now are playing a vitally important part in the conduct of the war to a successful conclusion and victory for the United Nations; and

WHEREAS: Our Democratic way of life depends greatly upon the job done by women on their home front as well as in the armed services through their countless contributions to the war effort; and

WHEREAS: The theme for National Business Women's Week in 1943 is "Living on the Home Front" and a definite part of the program this year is "Winning the War and the Peace," and

WHEREAS: The Week will emphasize that the war and the peace must be won on the home front before they can be won on the battlefronts in the world at large; and

WHEREAS: It is the opinion of a united nation that the business and professional women of this country be encouraged to exert their every effort in this worthwhile and vital direction,

NOW, THEREFORE, I, H. C. Wilson, acting mayor in the absence of Fred Thompson, Mayor of Pampa, do hereby set aside and proclaim the week of Oct. 10-17, 1943, Business Women's Week in the City of Pampa, and urge that it be fittingly observed.

(SIGNED) This 7th, day of October, 1943.  
H. C. WILSON,  
Acting Mayor of Pampa, Texas.

## HISTORY OF THE WEEK

National Business Women's Week has been a national institution for several years. The first observance was held in 1928, when Emma Dot Partridge was Executive Secretary of The National Federation of Business Women's Clubs, Inc., then with 874 clubs and 50,000 members. The idea was hers, and the purpose was to review, dramatize and inspire the contribution of business and professional women to the economic, social and political life of the country.

Down through the years the focus has changed as the world has changed. Today the Federation has about 1700 clubs, and 73,000 members organized in every state in the nation, the District of Columbia, Alaska and Hawaii. The purpose of National Business Women's Week in 1943 is to emphasize the leadership of women in business and the professions in solving the problems of "Living on the Home Front." The new complex, that only trained minds and far-sighted orderly procedures can solve them. This is the main realm in which trained women can help win the war.

Ever since its origin, National Business Women's Week has been heralded by the chief executive of the United States, the governors of the states, the mayors of cities, and the county judges in county areas. Presidents Coolidge, Hoover and Roosevelt have each issued public endorsements of the week.

The National Federation of Business and Professional Women's Clubs, Inc., is 24 years old, and National Business Women's Week will be 16 years old when it is observed from Oct. 10-16, 1943. The week has become absorbed into the federation's fiber and is looked upon as one of the outstanding publicity events of the year. It is a stimulus to program interpretation; and to membership stabilization and gains. Coming, as it does, in October, it is the springboard for launching the club's work for the winter.

The local Business and Professional Women's club was organized in 1929 by the Amarillo club. The first meeting to formulate the organization was held in the home of Mrs. Pearl Mitchell and Lillian Jordan.

## Mrs. Roy Bourland Reviews Book At Recent Club Meeting

Members of the Twentieth Century Forum met September 28 in the home of Mrs. Gene Fatheree for a breakfast and regular meeting.

Mrs. Bill Anderson and Mrs. Clifford Braly acted as hostesses.

Mrs. Frank Carter, outgoing president, presented the gavel to Mrs. E. C. Sidwell, new president, and other officers were introduced.

New and old business was discussed and it was decided that the club would give \$24 to the girl scouts as the club's summer project.

After the business meeting Mrs. Charles Ashby introduced Mrs. Roy Bourland who reviewed "Thirty Seconds Over Tokyo."

The second regular club meeting will be held October 12 at 2 o'clock in the Red Cross rooms. At 4 o'clock the members will meet in the home of Mrs. E. J. Dunigan, Jr., for a business meeting.

## Council Of Clubs Meets To Organize Year Of Activity

The Council of Clubs held a regular meeting Thursday at 9:30 a. m. in the City club room when roll call was answered by each committee.

Mrs. Frank Culberson reported that workers in the council were needed to attend Red Cross classes and to do volunteer work. She asked club members to volunteer their services.

Mr. Fred DeCaster of the United States War Fund Campaign, of Amarillo spoke to the club. He explained the need of help from club women during the campaign.

Mrs. Ruth Jordan was elected treasurer, followed by a short talk by Mrs. N. L. Nichols who reported the need of leaders in Pampa's Girl Scout organization.

Plans were made to send old furniture to the McLean Internment camp. Mrs. W. E. Campbell will be in charge of this collection. She asked those persons having a contribution to telephone her so that arrangements could be made for transportation.

Mrs. Frank Tuttle, USO chairman, asked for volunteer workers at the USO center, followed by an outline of the work and requirements of cadet nurses given by Mrs. Roy McKernan.

"Girls taking this course pledge themselves for three years of service. Two years of high school education is required, and girls may be either single or married. Nurses' pay is \$15.00 per week and military service is not required. At this time there is a need for 28 Cadet nurses at the St. Anthony hospital in Amarillo," Mrs. McKernan stated.

In closing the meeting an announcement was made advising all clubs to mail a list of their club members, including name, address and telephone number to Mrs. G. R. Rhodes.

## Skellytown P.T.A. Has First Meeting

The Skellytown Parent Teacher's Association held the first meeting of the year Tuesday evening at 8 o'clock in the gymnasium of the school.

The Hospitality committee conducted games during the afternoon and refreshments were served at the closing hour of the meeting.

Baroque balloons date back to Napoleon, who used them for artillery and tactical observation at the turn of the 19th century.

There are some 10,000 parts in an airplane motor.

# V Notes RED CROSS VOLUNTEERS

Maternity and infant care under the program developed by the United States Children's Bureau is available in 41 states and 3 territories. Mrs. M. F. Roche, home service chairman, stated today. The only states that have not submitted plans for the program are Pennsylvania, Louisiana, Colorado, North Dakota, Oregon and Texas. Oklahoma, which had this program, withdrew in July. It may be some time before the program is effective throughout each state.

This program provides free medical, hospital and nursing care at the time of delivery, and includes post-partum care for the mother and free medical care for the infant during the first year of life. Wives of all service men below the rank of commissioned officers are eligible for this care in states where plans

## DR. L. J. ZACHRY OPTOMETRIST

First National Bank Bldg.  
For Appointment Phone 269

have been submitted to the United States Children's Bureau. Home service workers gave these hours of work during September: Mrs. Clifford Braly, 53; Mrs. E. J. Kenney, 21; Mrs. W. A. Rankin, 13 1/2; Mrs. M. F. Roche, 22; Mrs. L. K. Stout, 31; Mrs. E. W. Voss, 38.

Home nursing or nutrition courses will be arranged, and instructors will be provided when as many as 30 women desire to take such courses; according to the local Red Cross office.

Mrs. W. G. Kinzer, knitting chairman, expresses appreciation for the increased interest which is being shown in the knitting department. More women have been coming in to check out yarn the past week, and it is hoped that this will continue. Need for these knitted articles is still great.

Mrs. L. J. McCarty is starting a Junior first aid course for her Girl Scout troop. Mrs. O. V. Hoy is one of the leaders of this group which is made up of members of Troop 22, and part of Troop 4 of which Mrs. Lawrence West is leader. This course is timely, for it is in the fall of the year that a check is made of accidents, and it is well to emphasize first aid and safety measures.

The North Plains Camp and Hospital Council will meet in Amarillo at 1:30 Wednesday, Oct. 13, at the

Amarillo Army Air Field. Organizations desiring to have representatives attend should call the local Red Cross office in order that transportation can be arranged.

The monthly meeting of the board of directors of the Pampa chapter of the Red Cross will be held at 7:30 p. m., Tuesday in the City Hall. Monday and Tuesday, Oct. 11 and 12, a National Junior Red Cross representative will be in Pampa to consult with Junior Red Cross leaders. The consultant is Mrs. Alice Moore, and she is ready to assist in solving Junior Red Cross problems.

Going back to school means more to Junior Red Cross members in Pampa than just taking up books and going by a regular schedule, according to H. A. Yoder, local chairman of the American Junior Red Cross of Pampa.

Mr. Yoder states that the young people of this city, who are members of the Junior Red Cross, will be more active than ever in their Red Cross work in the schools. They hope to surpass their record of 3,566 comfort and recreational articles made for men in the armed forces last year. These articles include such things as games, writing boards, utility bags, afghans and many others made by members of the organization in the local schools. The local figure is a part of the national total of more than 9,000,000 articles made by members of Junior Red Cross throughout the country.

According to Mr. Yoder, production is only one of the activities of the members of America's largest youth organization. He pointed to the 92 first aid, home nursing and water safety certificates earned by our boys and girls.

Throughout the nation more than 17,000,000 boys and girls of school ages take an active part in all Red Cross activities. He expressed pride that so many of our local young people are contributing their part toward the national war effort through the Junior Red Cross.

WASHINGTON, D. C.—First shipment from an American west coast port of relief supplies via Russian ships to the port of Vladivostok for American military and civilian prisoners of war held in the Far East will be moving soon, the American Red Cross announced today.

The USSR has allocated 1,500 tons of shipping space each month to the American Red Cross on its ships moving from west coast ports to Vladivostok. The relief supplies will be reshipped from Vladivostok for distribution in all Far Eastern points where American civilians and military men and women are held in prison camps.

One thousand women volunteers are engaged in packing centers in St. Louis and Chicago turning out a quota of 100,000 prisoners of war food parcels, which with \$250,000 worth of medicines, a large quantity of military and civilian clothing and comfort articles will be sent on the first shipments.

These relief shipments supplement a cargo of \$1,500,000 worth of food parcels, medicines, clothing and comfort articles now en route via the Atlantic to the Far East on the diplomatic exchange ship, Gripsholm.

RIGHT: Almost a miniature of the sombrero worn by the typical Mexican or "charro" is this hat of pink trimmed with chevrons and fuchsia ribbon faced in and out of the "deep-dish" brim, which is bound with fuchsia velvet. At the back is a half-snood made of stiff fuchsia veiling, with small bows of chartreuse and fuchsia velvet ribbon.

## B. P. W.

(Continued from Page 7)

was elected temporary chairman. The second meeting was held in the Schneider Hotel and Grace Pool was elected president.

Past presidents are: Grace Pool, 1929-30; Pearl Mitchell, 1930-31; Nina McSkimming, 1931-32; Clara Lee Shumaker, 1932-33; Mary Lou Downs, 1933-34; Lillian Jordan, 1934-35; Gladys Robinson, 1935-36; Mabel Gee, 1936-37; Mildred Overall, 1937-38; Christine Cecil, 1938-39; Vera Lard, 1939-40; Ruth Walstad, 1940-41; Audrey Fowler, 1941-42; Lillian McNeill, 1942-43; Maurine Jones, 1943-44.

Board members this year are: Maurine Jones, president; Madge Rusk, vice-president; Ruth Sewell, parliamentarian; Vera Lard, recording secretary; Mary Wilson, correspondence secretary; Laura Bell Cornelius, treasurer.

Committee chairmen are: education, Mildred Overall; membership, Mildred Lafferty; radio chairman, Ida Hughes; publicity, Jessye Stroup; publications, Elma Vanderberg; international relations, Julia Kelly; legislation, Tommy Stone; health, Ann Chapman; public affairs, Gladys Robinson; social, Lillian Jordan; program, Ruth Walstad.

This year because of the war, most of the social affairs have been discontinued, and only civic enterprises have been carried through. During the coming week a series of articles will appear daily introducing Business and Professional Women of Pampa.

## The Social Calendar

Wilco club will honor the 43K class of Pampa Air Field cadets with a dance at the Post Recreation hall.

## Lounge Room Opened

### For 454th Squadron

A new lounge room has been opened for use by members of Pampa Field's 454th base headquarters and air base squadron.

According to Capt. Francis W. Humphreys, squadron commander, the new "off hours hang-out" will be used by the 454th's enlisted men for quiet relaxation in the evenings and for visiting with wives, parents and families. There will be no games of any type in the new day room.

Located at one end of the squadron area, the lounge-writing room is attractively furnished and modern.

Misses Lillian Mullinax and Minnie Allen and one visitor, Mrs. Annette Parks.

## Prop Wash

### By FLORENCE SHULMAN

Welcome wives of class 43-K! By this time most of you have found a place and are getting acquainted with Pampans and the good old "Victory Bus Line."

A regular meeting of the Cadets Wives club was held Tuesday at 2:30 at the USO. Class of 43-K did not have a large representation, but we hope to see more of them turn out for the next meeting. This is your first and Mrs. Tabor and other sponsors have put a great deal of their time and hard work into making it a good club. It is hoped that you new girls will attend meetings so that the club can continue to be successful.

Mary Kinsey was elected president of Class 43-J—congratulations are in order and along with them go our very best wishes.

Due to the graduation of class of 43-I Prop Wash did not appear in last Sunday's edition of The Pampa News, but we hope to have ourselves represented from this Sunday on. Graduation morning dawned cold and gray, but one would never have guessed it by looking at the Cadet wives. . . . they looked plenty sunny! Speaking of sunny people, that Georgia peach, Harriet Peoples, formerly your Prop Wash reporter, looked stunning in a black crepe dress with bracelet-length sleeves and elbow-length gloves she wore a tiny black hat perched on the back of her head. . . . Jane Reeves looked lovely with a hugh orchid on her shoulder—lucky gal! Many of the girls looked very smart in their suits and topees.

Graduation ended with the fellows throwing their white gloves into the air and rushing out to get into their barracks and into their officers' uniforms. Everyone was most happy indeed!

A lovely farewell breakfast was given for the graduating class by 43-J at the home of Mrs. Paul Tabor, Wednesday, September 25, at 9:30. We were happy to see so many visiting mothers of class 43-I in attendance. Mrs. Fred C. McGowan of Cape Girardeau, Mo.; Mrs. Thomas Moriarty of St. Louis, Mo.; Mrs. Vreeland vonGal of Brewster, N. Y.; Mrs. H. W. Plate of Bennett, Iowa; Mrs. E. F. Cooper of Philadelphia, Penn. Other guests were Miss Lorene McClintock, Mrs. Julia Papan and Mrs. Doc Schwartz.

Doris Lynns and Florence Schulman were hostesses at the breakfast, serving sweet rolls and coffee. We find that we have new brides in our midst! Mr. and Mrs. Ruben D. Dallman were married September 18, at the First Methodist church in Pampa. Mrs. Dallman is the former Miss Sarah Jane Burk of Kansas City, Mo. . . . Another wedding that took place in Pampa at the Holy Souls church was that of Miss Pat Shone and Richard Farver, both of Liverpool, Ohio. Mrs. Farver's maid of honor was Dorothy Mathers who became the bride of Bill Moriarty on October 5.

Several Cadet wives had birthdays this week—they were Doris Lyons, October 5; Fran Rogers, October 4.

## Methodist Women

### Have Silver Tea

### In Purviance Home

Members of the W. S. C. S. of the First Methodist church were entertained at an informal tea in the home of Mrs. W. Purviance with the circle chairmen, Mrs. Sherman White, Mrs. J. E. Ward, Mrs. Robert Elkins, Mrs. Carlton Nance, Mrs. Kermit Lawson and the vice-president of the Wesleyan Service Guild, Mrs. Rachel Jones.

### Ranges Aided By Rains Last Week

AUSTIN, Oct. 9.—(P)—Range conditions, the outlook for commercial vegetable production and late crops were greatly improved by the rains which ended last week, the United States department of agriculture's weekly survey showed today.

Moisture deficiencies in South Texas were completely relieved; the drought in Central North Texas and in much of the Edwards Plateau was materially relieved; a few counties in the cross timbers and northwest low rolling plains received varying rainfall; showers on the High Plains benefited range grass and wheat seedling, but were generally insufficient for more than temporary growth.

The week was generally unfavorable for cotton harvest, due to rains, showers, and misty weather over much of the state. Harvest was completed in the extreme South and almost complete in the South Central counties. The peak of harvest was well passed in central, northern and eastern counties. Most of the crop was ready for pickers in the later northwestern areas, but weather and lack of pickers was delaying harvest.

Wheat seeding in the northwest continued, but progress was slow. Harvesting of spring-sown crops made relatively slow progress in most areas. Harvesting of sorghums for bundle feed and grain

### U. S. Guns Are Declared Best

DAYTON, O., Oct. 9.—(AP)—Armament engineers at Wright Field today described the .50 caliber machine gun on American fighting planes as "the finest arm of its kind in the world."

Army air force material command technicians credited multiple high firing rate cannon and machine gun installations with bringing "increasing superiority in the air."

The .50 caliber gun, said one armament expert, "is capable of firing at the rate of 850 shots per minute and weighs approximately 65 pounds. The projectile, leaving the muzzle at a speed of over 3,000 feet per second, is capable of penetrating any and all parts of an airplane, including the engine."

In one test, armament laboratory officers disclosed, the .50 caliber gun was fired at an obsolete bomber fuselage and the shell penetrated the bomber's skin, smashed through some ammunition boxes, a longeron, three-fourths of an inch of hard pine and then through armor plate 7/16 of an inch thick.

The gun is small enough to fit easily into all modern fighter and bombing planes, one expert asserted, adding: "The over-all size and weight of the complete round, notwithstanding the tremendous striking power of the bullet, is small enough that quantities in excess of 1,000 rounds per gun are carried in some planes."

BUY VICTORY STAMPS

### AL JOHNSON ILL

NEW YORK, Oct. 9.—(AP)—The condition of Al Johnson, stage and screen star who has been seriously ill of pneumonia the past several days, was reported "just fair" by his nurses today.

BUY VICTORY STAMPS

If pure and clean, ice is more transparent than water.

### Texaco Employees In Service Get Bonds

The Texas Company will play Santa Claus this year to the tune of a \$50 war bond for each of its approximately 4,500 employees in military service, it was announced here last night by D. J. Gribbon, district superintendent.

The bonds were purchased during the closing days of the Third War Loan drive. Within a few days each Texaco employee on military leave of absence from the company will receive a letter from Texaco's president, W. S. S. Rodgers, reading in part as follows: "We are very proud of the Texaco men and women who are serving in the armed forces and earnestly hope for their early return. Meanwhile, you may be assured that we at home will continue to work toward the victorious peace which is our common goal. The company is deeply appreciative of what you are doing in your country's service."

### Woman, Nephew Drown in River

HOUSTON, Oct. 9.—(AP)—Mrs. Evelyn Tatum, 25, and her three-year-old nephew, Donald Lee Galoway, were drowned when a 14-foot fishing boat in which they were riding crashed into a log last night on the San Jacinto river near Highlands.

Four-year-old Kenneth Abner Tatum, son of the drowned woman, was rescued and revived, but he remained in a serious condition.

## Bing Crosby, Lamour Head Cast of 'Dixie'

By BROWNWOOD EMERSON

Like Ol' Man River, the minstrel show rolls on forever and Paramount and Bing Crosby give it an extra shove in the latest movie on the troubador theme.

It is significant that Bing, the symbol of the minstrel in this super-speeding age, should have been selected to play the rôle of Dan Emmet, the banjo plunker who wrote "Dixie," and the man who was the original Tin-Pan alley of his day.

There's a plot, of course, but filmicals are no more concerned about plot than the OPA is about whether you get a 1944 automobile, so we needn't go into that.

Technicolor, Bing, plus Dorothy Lamour who deserts the South Seas, her usual movie locale, plus Marjorie Reynolds, Bing's cream-in-coffee in "Holiday Inn," plus six old hits and six new songs, all written by Johnny Burke and James Van Heusen, including "Sunday, Monday, or Always," "She's From Missouri," and "Laughing Tony," all add up to an eye and ear treat—even if the model of a plot is the little man who wasn't there.

It's at the LaNora four days, starting today. "Appointment in Berlin," a typical espionage yarn that brings in the R. A. F. and a beautiful Nazi—if any Nazi can be called that. The cutlines tell the story.

George Sanders and Marguerite Chapman are enemies in Columbia's "Appointment in Berlin," but they fall head over heels in love when each keeps his appointment with destiny in the Nazi capital. Directed by Alfred E. Green, the exciting spy thriller, which is opening today at the Rex Theatre, tells the sensational story of an RAF ace who becomes the "Voice of Truth" on the German radio. Other members of the cast include Gale Sondergaard, Onslow Stevens, Alan Napier and H. P. Sanders.

### Floyd County Gets Wildcat

A wildcat in Floyd county featured all news in the Panhandle for the week ending Oct. 7, date of the latest report of the Texas Railroad commission.

Pure Oil has filed an intention to drill its Bernard-Martin 1, 1,980 feet from the east and 1,980 feet from the north lines of Section 7, Block T, 1/2-mile southeast of Floydada. The location is in the B. & S. F. survey.

Hutchinson was the location for three and Gray of one of the other intentions to drill filed. In Hutchinson: Hedgecock - Whittenberg, J. A. Whittenberg 1, 330 feet from the north and 330 feet from the east lines of Section 12, Block X02, H. & C. B. survey, 3 miles south of Stinnett.

Phillips Petroleum company's Albert 1, 1,985.8 feet from the south and 659.2 feet from the west line of Section 20, Block M-16, A. B. & M. survey, 7 miles northwest of Pringle.

Shamrock's McDowell 4, 1,980 feet from the east and 660 feet from the north lines of Section 13, Block 1, P. D. survey, 9 miles west of Pringle.

The Gray county intention is Texas' W. Brandt, 9, 330 feet from the west and 821 feet from the south lines of Section 55, Block B-2, H. & G. N. survey, 3 1/2 miles southwest of LePors.

Oil wells tested: Magnolia's Fee 244, 7, 75 barrels; Skelly's Schaefer Ranch 168, 260 barrels, both in Carson. Clayton-Dwyer's Taylor 10, 67; Humble's Combs-Worley 6, 86; Texas' W. Benedict 7, 274; same company's William Jackson 6, 295 barrels; all in Gray county.

### Axis Losses 6,000 Planes in Year

ALLIED HEADQUARTERS, Algiers, Oct. 9.—(AP)—The campaign that began in North Africa last Nov. 11 has cost the Axis more than 6,000 planes up to Oct. 1. Allied airforce headquarters said today.

Of that number, 3,411 were destroyed in the aid. Nearly 2,600, mostly wrecked by bombing, were found on captured Axis airfields. The number of enemy planes counted on fields occupied on the Italian mainland has mounted to 880. More than 600 were found in Tunisia, and more than 1,100 in Sicily.

The total does not include planes destroyed by bombings in fields still held by the Germans.

ARCHBISHOP RETURNS LONDON, Oct. 9.—(AP)—The Archbishop of York returned to England today following his visit to Moscow where he conferred with Russian churchmen.

### Party Big-Wigs Vie in New York State Election

NEW YORK, Oct. 9.—(P)—A former corporal and a retired lieutenant general have squared off against each other in New York state's wartime election with the leaders of both major parties serving as the big guns behind the lines of their respective candidates.

Behind William N. Haskell, the 65-year-old general and Democratic nominee for lieutenant governor, is President Roosevelt. Backing Joe E. Hanley, 67-year-old former corporal and Republican candidate, are Wendell L. Willkie, 1940 Republican presidential nominee, and Governor Thomas E. Dewey.

Mr. Roosevelt announced he would vote for Haskell on Nov. 2. Dewey and Willkie will not only vote for Hanley, they will campaign for him.

The outcome of the election necessitated by the death of Lieut. Gov. Thomas W. Wallace may affect Dewey's availability as a potential Republican presidential candidate '44. Should Haskell win, he would automatically succeed to the governorship in the event that Dewey ran for the presidency and was elected.

Dewey, first Republican governor in 20 years, has said he will serve out his term ending Dec. 31, 1946, but his name continues to figure in presidential speculation.

The availability of Dewey, with a Democratic lieutenant governor, has been mentioned on Hanley's campaign tour.

"Dewey has said he is not a candidate (for president)," Hanley said in reply to a questioner. "He meant that statement. If such a thing does happen, however, it is very vital that you have a Republican to go in there (the governorship) instead of a Democrat."

Dewey will speak for Hanley Oct. 20. Willkie will address a rally at Syracuse the following week.

### Office Workers Help War Plant

DALLAS, Oct. 9.—(P)—Four hours work in a war plant after a long day at the office is wearing, a group of young Dallas business men admitted, but three weeks of the experiment have convinced them that their plan to help out Dallas' labor-short employers will help win the war.

More than 100 members of the Junior Chamber of Commerce have agreed to work from four to 20 hours in local war plants at the end of their regular working day, according to Lynn Crossley, chamber president.

### Beer Explosion Upsets City Hall

TERRRELL, Oct. 9.—(P)—City hall occupants were kept guessing for a spell one day this week after hearing a loud explosion in the jail, located in the building. Cause: High powered home brew, confiscated by police and stored in the jail for safekeeping.

## HOW TO HELP PROTECT EYES AND GET MORE FROM YOUR LIGHTING!

1. SET A GOOD EXAMPLE FOR THE CHILDREN! Our eyes get worse as we get older... not better. Whether you're reading a bedtime story or a report from the office, make sure your lamp has the right size bulb. You can't go to work tomorrow fresh for any important job... unless you protect your eyes tonight!

2. KEEP BULBS AND SHADES CLEAN! Scientists say you can get from 25 to 30% more light from a reading lamp just by keeping shades, bulbs and reflectors free from dust! Wipe bulbs with a damp cloth. If shades are dark inside, clean them or replace with white-lined shades that reflect light instead of absorbing it.

For the second time, the management is running this message to lose customers. Yes, we are willing to lose customers... but we are not willing TO LOSE THE WAR.

The nation needs more than half a million WACs... that means our nation needs plenty of TEXAS women, in the WAC.

### U. S. Navy Sinks Four Jap Ships Without Firing Single Shot in Solomons Incident

SAN FRANCISCO, Oct. 8.—(P)—The story of a strange sea victory in which four ships of a Japanese task force were sunk without a shot having been fired, and while U. S. vessels were many miles away, was told by seamen here today.

The navy confirmed the bare details.

Heroes of the victory were three old-type, four-stack destroyers, veterans of World War I, no longer fit to engage in fast-striking, hard-hitting modern war, and converted to minelayers.

During the summer the navy had reason to believe the Japanese would try to reinforce holdings in the Solomon Islands. Minelayers were given charts of waters through which enemy convoys might pass. Mines were laid and the destroyers went about their business.

Then a Japanese task force ventured into the area. An explosion tore one ship apart and it sank. Japanese escort ships swarmed around, concluding a submarine had attacked. Another explosion sent a second ship to the bottom, and as the enemy ships tried evasion tactics, others were blown up.

Aerial reconnaissance the next day disclosed that four Japanese ships had been sunk, and that prob-

### Ivan Sees Moscow Version of Aggies Against Longhorns

By EDDY GILMORE

MOSCOW, Oct. 8.—(P)—Moscow's football season—American style—opened Thursday in what certainly was one of the most colorful settings in the long history of the sport.

The game, which attracted a crowd of astonished if not appreciative Muscovites, was organized by Americans living here when they received a bar from the army at Cairo. The field was an open park between the Moscow river and the Volga canal.

There was no college band, but Tschalkowsky's music floated over the field from a nearby loud speaker.

The Russians play football, but the soccer type, and it amazed them to see the ball thrown.

"Why do they throw it with their hands if it's called football?" asked one.

The game ended when virtually every exhausted player agreed to call it quits, and then Dr. Horn Waldron of South Orange, N. J., organized a baseball game which was just as amazing to the onlookers.

To paraphrase an old sports bro-mide, as the shadows of the Kremlin lengthened across the playing field the game ended—when someone knocked the ball into the Volga canal.

Someone won the football game 18 to 6. Nobody knows the score of the baseball game.

### ON THE HOME FRONT

By JAMES MARLOW AND GEORGE ZIELKE

WASHINGTON.—Much the fault which Senator Lodge, (R-Mass.) found with the war news sent to troops overseas probably lies right at the source: where it is being made.

The senator came back from a two-month tour of world battle areas with a statement that our fighting men are mad because of the "false optimism of the news" sent them.

He said he is talking with government agencies to find the reason.

This was the kind of thing he said was happening:

Troops who have suffered heavy casualties with friends shot down and the battle in bitter progress are told their losses were light while the enemy's were heavy and that the enemy is being mopped up.

Particularly he recalled that this was so in news sent to troops on New Georgia in the South Pacific although he said "ride with the wind 15 minutes and you'll hear the same thing."

He mentioned that troops on New Georgia get their news in two ways: by short-wave radio from San Francisco and on mimeographed sheets prepared on the island.

The army special service division's information branch sends out by wire 2,000 words of news daily to the South Pacific stations where it is mimeographed by the army. The troops also broadcast to the South Pacific five minutes of news six times a day from San Francisco.

Very little news of action abroad is given out by the army or navy in Washington, both branches of the service leaving that up to the theater commanders.

Quite often the officers on the scene have good reason for not wanting to divulge all details of a battle. Or perhaps an engagement which seemed gigantic to a battalion may in the view of the commanding general have been a minor engagement. For instance:

Suppose Company A has lost 90 per cent of its men in a fight with Japs. If four divisions were engaged in that same fight and only Company A had losses while known losses to the enemy were heavy, reports that the American losses were minor might well be true.

But suppose American casualties were just as heavy as the Japanese. It might not be wise for the commanding general to let out that news at once. It would give the enemy valuable military information.

There are probably other ramifi-

### FUNNY BUSINESS

### Errand for Q-74

By Malcolm Taylor

THE STORY: Capt. Raymond Imhof, Q-74, U. S. Army Intelligence, has been assigned to follow a lead on the trail of Enzeli, Q-10, leading to certain important information which Enzeli has been unable to bring out of Germany. The plane from which Imhof was to parachute into enemy territory crashed down. He discovers the pilot is a girl. They make their way toward Coblenz.

ALL CLEAR

CHAPTER XI

IMHOF grew aware of a change in the night, which had been tugging at his absorption for some time. He listened and realized. The silence! Complete and undisturbed. The darkness was no longer alive with the throbbing drone of engines. The raid was over, the last bomber gone.

A yoo-hoo sounded from the smithy and Imhof hastened back. Pat had done a good job on the trousers.

"You look as if you'd been dug out of bomb ruins," Imhof approved.

"Pat smiled, a little wanly. "I'm sinking into the ground, the way I feel. I'll have to be dug out if I don't get something to eat soon."

"Why didn't you say so before?" Imhof fished in his pockets and produced a waterproof packet.

He unwound the oiled silk and brought forth his emergency rations, two bars of chocolate and some concentrated food tablets. The chocolate was soft from the warmth of his body and stuck merrily to the waxed paper, but it tasted like manna to Pat.

Imhof rolled what was left in the oiled silk and restored the package to his pocket, glanced at his watch and frowned.

"Coblenz?" Pat inquired, a sparkle in her eye betraying the casualness of her tone.

"Pretty soon," said Imhof. "We want to be right on the edge of the town when the all-clear sounds. That won't be for a bit yet, though. Now we'd better settle what we're to do in Coblenz. Other than for you, of course. Right off. There may be anti-looting patrols out and we'll be looting, so we'll have to look sharp. Then we must get rid of this uniform. After that we'll have to hang around unobtrusively till we can get out of the town."

"When you change your clothes," he continued, "you must change your whole personality, Pat. From then on you're my sister—no, half-sister. Won't hurt to confuse the Nazis a little. You're a bad case of blitz-shock, don't know who or where you are. You don't remember your name or address—well, maybe your first name you do," Imhof amended. "You act all dazed. When anybody speaks to you, you don't seem to know it, or even hear them, and you don't answer, of course. Perhaps you'd better play being actually deaf and dumb. What do you think? Can you do it?"

"I suppose so, if I have to," Pat said slowly. "I don't know how good an actress I am." She looked at him with a puzzled air, blinking a little, as she often did when mystified. "I don't quite see the point, though."

"You're stalling," he explained, "covering up, so people won't know you don't speak German." Pat threw back her head and laughed merrily.

"But I do speak it!" she gurgled.

"You do!" Imhof shouted joyfully. This was a windfall! "Why didn't you say so?" he expostulated.

"But you never asked me," she pointed out.

Imhof sobered. Her German had to be really good or it would be of little or no use to meet the demands of the situation.

"Let's see," he said in German. (To Be Continued)

Characters and situations are fictitious. Any resemblance to actual persons or happenings is coincidental.

**2,850,000-Bale Crop Due in Texas**

AUSTIN, Oct. 9—(AP)—The United States department of agriculture today forecast a 1943 Texas cotton crop of 2,850,000 bales of 500 pounds gross weight compared with 3,038,000 bales produced in 1942.

The 10-year (1932-1941) average production is 3,419,000 bales.

The indicated yield per acre of 173 pounds, compares with 182 pounds realized in 1942, 165 pounds in 1941, and 160 pounds the average 10-year period.

Conditions affecting the Texas crop were varied during September. Cotton in the northwest districts deteriorated further under drought conditions, although spot rains were received that benefited a few favored localities. Over the balance of the state the crop was too far advanced to be helped by rainfall, and picking made rapid progress under favorable harvest conditions. By the end of the month picking was almost completed in the southern half of the state, and stalks were being plowed under. In some counties frequent rains delayed remnant harvest.

On Oct. 1 the peak of harvest was well passed in central, northern and

eastern counties. Most of the crop was ready for pickers in the later northern areas, but damp, misty weather and lack of pickers was causing some delay. Harvest was expected to become general in these later areas with clear, dry weather and the in-movement of pickers.

**Tax Reports Are Filed Too Soon**

DALLAS, Oct. 9—(AP)—Taxpayers shouldn't be too eager to file amended declarations of estimated income and victory tax.

Assistant S. L. Mayo, assistant collector of internal revenue, said some taxpayers already had filed amended declarations on Sept. 15 returns and may be jeopardizing their right to file an amended declaration Dec. 15 as provided by law since the law provided for filing only one amended declaration.

**Armour Returns To Buenos Aires**

MIAMI, Fla., Oct. 9—(AP)—Norman Armour, United States ambassador to Argentina, left for Buenos Aires today by Pan-American Clipper. He was accompanied by his wife.

He had been in the United States for several weeks during a period when relations between the two countries have been strained because of Argentina's refusal to take a stand against the Axis.

**Two Gray County Boys Get Scouting's Highest Awards**

Richard McCune, 16, member of Troop 14, Pampa, received the Eagle Scout badge, highest scouting award, presented by the Rev. Robert Boshen, district advancement chairman, at the court of honor held in Pampa Sept. 27.

Holder of 22 merit badges and the Eagle Scout badge, highest scouting honor, is Ernest H. West, 18, member of Troop 70, Kellerville. He received his Eagle Scout badge at a court of honor in Kellerville Sept. 23.

Scout McCune is the son of Scoutmaster and Mrs. James A. McCune, 811 N. Frost. His connection with scouting dates back to December, 1937, when he joined Cub Scout Pack 124 at New Dorp, N. Y. He was then 9 years old. In 1939, he came to Pampa, joined Pack 14, then in June, 1940, at the age of 12, became a member of Troop 14.

His further record in scouting: June 9, 1940, passed tenderfoot tests; July 22, 1940, second class; Feb. 17, 1941, first class; Nov. 17, 1941, star; July 20, 1942, life. He was a senior patrol leader in 1942 and holds 21 merit badges. For the past three summers Scout McCune has attended Camp Ki-o-wah, near Canadian.

Scout West is the son of Mr. and Mrs. C. E. West of Kellerville. He passed his tenderfoot tests in November, 1937, when 12 years old, and joined Troop 70, that month. On March 21, 1938, he became a second class scout; June 27, 1939, first class; April 8, 1940, star; Feb. 11, 1941, life scout. He attended Camp Ki-o-wah, near Canadian, the summers of 1939, 1941 and 1942.

**Rocket Guns Used On German Planes**

LONDON, Oct. 9—(AP)—"Rocket planes" which pilots said yesterday were used by the Germans attempting to break up a Thunderbolt screen protecting American heavy bombers in the big Bremen raid were German fighters equipped with rocket guns under each wing.

First reports so described the planes as to indicate they might have been rocket-propelled, bomb-carrying aircraft, but later intelligence reports showed the planes were using the same type rocket guns they used against the Americans on Aug. 17 during the Regensburg-Schweinfurt raid and on several occasions since.

On the Bremen raid the Germans succeeded in downing only three of the American fighters.

The American people are not being adequately informed about the war. If there is any complacency or letdown in the war effort... it is not due to any lack of patriotism or desire for easy victory, but rather to the absence of full, necessary understanding.

—OWI Newspaper Advisory Committee.

**Wacs Wanted For Texas Casualties**

A Texas woman to enlist in the Women's Army Corps for each Texan killed, wounded, or captured is the state goal in the current Wac recruiting campaign. Up to Sep. 1 of this year, Texas casualties totaled 3,294.

Texas women enlisting in the Wacs will assemble at Austin on Oct. 15 and Gov. Coke R. Stevenson, from the steps of the capitol, will present the new recruits with a Texas flag to be carried to their training center. Each recruit will wear a distinctive Texas shoulder insignia.

**Bradley Opposes Oil Price Raise**

WASHINGTON, Oct. 9—(AP)—Rep. Bradley (D-Pa.) feels that present crude oil prices are "ample to take care of any increase in the cost of labor and administrative overhead" and that there is no justification for any price increase.

He said he included those opinions in a letter to Economic Stabilization Director Fred M. Vinson and declared that a price increase was demanded by the "oil bloc" in congress.

**West Coast Dimout Restrictions Relaxed**

SAN FRANCISCO, Oct. 9—(AP)—A radical relaxation of West Coast dimout restrictions, permitting virtually normal use of automobile headlights, the return of night time sports and liberalizing home illumination was announced by the army today.

A public proclamation issued today by Lieut. Gen. Delos C. Emmons, commanding general of the western defense command, modified virtually all of the restrictions on lighting under which Pacific Coast residents have been living for a year. The required shielding of street lights remained unchanged through the dimout area. The order

is effective at midnight (PWT) tonight.

It permits full automobile headlights in all areas except those visible from the sea where motorists may operate with a decreased beam of full candlepower. Under the original dimout, only parking lights were permitted in some places.

The proclamation points out that current military developments permit the relaxing of restrictions but cautions that "it is expected that" attacks by Japanese submarines on coastal shipping and American shores themselves "may be resumed."

—BUY VICTORY STAMPS—

This is no longer a war of defense—if it ever was such a war—nor is it any more a war resistance against aggressors. This war is a struggle between two ways of thought.

—Secretary of the Treasury Henry Morgenthau.

**Food for Naples Arrives in Italy**

NAPLES, Oct. 9—(AP)—The first Allied food shipments for the relief of the almost destitute inhabitants of Naples have arrived here, AMG officials disclosed today. Distribution is expected to begin immediately.

Army tank trucks, meanwhile, have increased the transport of water to a point where the greater part of the city's million inhabitants can be supplied. Work is progressing toward the repair of the main aqueduct which supplies water and electric power to the city's industries and it is expected that it will be placed in operation within a week.

**Americas to Study Free Entry Rule**

MEXICO CITY, Oct. 9—(AP)—Persons born in the Western Hemisphere may enter American countries without the necessity of a visa if a proposal now being studied by Mexico's interior ministry is adopted by affected nations.

The proposal will be one of the resolutions presented at the Inter-American demographic congress which will convene here Oct. 12.
