AS INFANTS OR ADULTS
We both consider the people as our children, and love them with parental affection. But you love them as infants whom you are afraid to trust without nurses; and I as adults whom I freely leave to self-government.
—Thomas Jefferson

Red Atrocities In Korea

Eighth Army Claims At Least 5,790 UN Soldiers Killed

PUSAN, Korea —(AP)—The head of the U. S. Eighth Army's legal section said today Reds have killed at least 5,790 United Nations soldier-prisoners — about 5,500 of them Americans — and some 250,000 Korean civilians in atrocities since the start of the war.

Col. James M. Hanley of Seattle, chief of the Army's judge advocate section, said in a statement that 200 captured U. S. Marines were killed in a single day — last Dec. 10 — near Sinhung in Northeast Korea.

Sinhung is about 20 miles north of Jungnam. Last December remnants of the U. S. First Marine Division and the U. S. Seventh Infantry Division were pulling back toward Hungnam port in a bitter retreat.

Hanley said the count of military prisoners slain did not include South Korean troops. He gave no estimate of these, but indicated the number was about twice that of other UN soldiers.

Civilian men, women and children were slaughtered, Hanley said, without trial or even a formal death sentence.

He said 700 civilians were driven into the horizontal shaft of a gold mine near Haeju, on Sept. 28, 1950, bound and gagged and dropped down a vertical shaft. They were left to die, he said.

Four hundred more were given the same treatment on Oct. 9, 1950, Hanley said. Three days earlier, he said, still another 400 were buried alive in big holes at Haeju airport.

Hanley said his statement had "nothing to do with the cease-fire negotiations" at Panmunjom.

He accused the Reds of making a sham of the Geneva convention on treatment of prisoners of war.

Weather Is Crazy

(BY THE ASSOCIATED PRESS)

A series of tornadoes and violent electrical and wind storms struck damaging blows across wide areas of the mid-continent yesterday. The twisters killed at least one person and injured seven others. Property damage was expected to run in hundreds of thousands of dollars.

The mid-November storms lashed most of the midwest. Heavy rain hit many areas. Winds of 100 miles an hour whipped across communities in the path of the tornadoes which struck in Illinois, Missouri, Indiana and Kentucky.

Weather bureau forecasters attributed the severe storms to the clash of cold air against the warm southern air which had extended over the midwest the last few days.

The large intense storm centered in Northern Wisconsin last night. It brought showers and thunderstorms from the Southern Great Lakes region southward through the lower Ohio Valley to the middle Mississippi valley. There was heavy rainfall in the northern Great Lakes region which changed to snow over the northern plains states and parts of the north central region. Up to six inches of wet snow covered Southern Minnesota, making traffic hazardous. Many telephone lines snapped. The heavy flakes froze the wires and killed poles.

SEVEN INJURED

The seven persons injured in tornadoes were in the Southeast Missouri - Southern Illinois region. The twister skirted a narrow path through rural areas east of Parma, Mo., injuring one person. It skipped northeast across the Mississippi river and struck the business district of Campbell Hill, Ill., a community of about 800. Six persons were injured, none seriously.

Another twister hit in Central Illinois, in a narrow belt from Mason City, about 30 miles north of Springfield, to Hudson, 12 miles north of Bloomington.

Between 40 and 50 houses were reported damaged in the tornado which swept the Glen Park residential section of Gary, Ind. Fire (See WEATHER, Page 3)

Texas Voters Reject Four State Wide Amendments

Veterans Land Fund Approved

(By the Associated Press)

The proposed amendment to increase the veterans' land fund of the state was the only one with an approving vote in today's tabulation of Tuesday's election in Texas.

It was one of the lightest votes in years.

The four other proposed amendments to the state constitution on the ballot were lagging.

One was close. The 10 a. m. tabulation of the Texas Election Bureau showed 75,897 against the proposal to widen the scope of investment for the University of Texas permanent fund, 73,736 for.

The margin grew against the proposal to increase the present \$38,000,000 ceiling on state spending on public welfare each year to \$42,000,000. The 10 a. m. tabulation showed 88,143 against it, 68,308 for it.

The other proposals lagging were those to allow a statewide pension system for county employees and increase the authorized tax for rural fire prevention districts.

At 10 a. m. the election bureau, an unofficial counting agency, had tabulated some 156,000 votes.

Bureau Chief Robert Johnson predicted the final count would be somewhere between 200,000 and 250,000.

Search For U. S. Plane In Germany

WIESBADEN, Germany — (AP)

Search planes braved ice and fog in the treacherous mountains of Southern France today looking for a U. S. flying boxcar believed down with 36 aboard.

Up to early this afternoon they had found no trace of it.

U. S. aircraft from bases in Germany and England combed the country in a 40-mile corridor between Bordeaux and Dijon, where the plane was last heard from on a flight from Frankfurt to the U. S. supply port at Bordeaux.

U. S. airforce officials said search headquarters have been established at Lyons, France, and that planes will be directed and refueled from there until the plane is found or the search called off.

City Water System Operates Without Any Safety Margin

By HENRY S. GORDAN

(Editor's note: Tomorrow, eligible voters will be asked to vote on four bond issues totaling \$575,000 which will be used for city improvements. This is the last of three articles explaining the issues.)

For more than two years most Pampans have gone about the daily chores of living without realizing the city was operating without the slightest margin of safety in its water supply and distribution system.

Many realized water pressure was low and at times almost non-existent, but they didn't know why.

If some thought the low pressure was a water shortage they were wrong. There was plenty of water in the ground.

If others thought there were not enough wells, they were wrong. Pampa has a sufficient number of wells to meet the immediate need with all working.

If others thought the delivery system was inadequate because present water mains are too small, they would have hit the nail on the head.

Time was, when the present mains were sufficient — even more than sufficient. But those days are gone.

To keep pace with its growth Pampa made only two changes over the years — (1) drilled

additional wells; (2) extended present water lines. The supply and delivery sufficed.

Then Pampa began to grow. Little by little water pressures began to drop until today pressure in the east part of town is at times non-existent, especially during the hours of 5 p. m. and 9 p. m. when water demand is heaviest.

Perhaps a look at the increase of water meters since 1934 will give a more clear picture:

On Jan. 1, 1935 there were 1944 water meters in the city. Nine years later there were 2050 water meters and by Jan. 1, 1948 the number climbed to 2897.

By the end of September, 1951, the count rose to 4937 with prospects of hitting the 5000 mark by July, 1952.

February has always been the minimum water consumption month for Pampa. The February, 1951 consumption of 32,950,000 gallons is practically 50 percent greater than the maximum consumption month of July, 1936 when 22,400,000 gallons of water were used. During July, 1951 the city delivered 91,500,000 gallons of water which was jumped to 17,500,000 gallons in August, the peak month of the year.

Had any one of the city wells broken down because of mechanical difficulty or power failure water would have had to be

See CITY WATER, Page 2

ROGERS INTRODUCED TO API — Rep. Walter Rogers, left, is welcomed as speaker to the second fall meeting of the American Petroleum Institute held last night by local attorney Curtis Douglas. Douglas introduced the congressman who said that the oil industry was in serious danger of losing the depletion allowance unless taxation is curtailed. (News Photo)

High Taxes Threat To Nation's Oil And Gas Industry

Federal taxation at present demanding more than 25 percent of the public income and posing a serious threat to the nation's oil and gas industry, must reach its limit, Rep. Walter Rogers told area oilmen and their guests last night at the second meeting of the American Petroleum Institute.

Rogers, who said it was time the American people were bored with facts, outlined the provisions of the recently approved 91-billion dollar tax bill and pointed out where cuts in federal spending could be made.

Curtis Douglas, Pampa attorney, introduced the speaker to the more than 175 oilmen and their guests attending the session in the Palm room.

As for the nation's taxes, Rogers said 57 billion dollars of the new tax bill is earmarked for military spending. Another seven billion dollars is slated for mutual assistance, more than four billion dollars will go for veterans services; \$1,600,000 is for the atomic energy program and more than 11 billion dollars for domestic expenditures such as food control, health and highways, relief, public health research, farm aid and aid to education.

CONTRIBUTIONS

He said that to meet this huge program, the American people are contributing 29 percent of their income. Economists have predicted that when more than 25 percent of the public income is taken through taxation, that nation is on the way out.

"The United States is testing this theory now," said Rogers. State and local taxes are added to the federal sum to bring the total paid out in taxes to 33-35 percent.

He said the Internal Revenue bureau could not hope to help much for the new tax bill.

Income taxes, boosted from slightly more than one billion dollars in 1940 to around 26 billion dollars in 1950, cannot provide too much of this sum.

To raise this income 10 billion dollars would require taxing 100 percent of the income of all people making over \$4000 a year.

This is where the danger to the oil industry enters, he said. "Oilmen must keep their eyes open or they are going to lose the 27-1-2 percent depletion allowance," Rogers predicted.

RESERVE NEEDS

But they must have it in order to maintain the oil reserves, this industrial nation needs, he said.

"Oilmen will have to drill in (See THREAT, Page 3)

Music Featured On Program At Rotary; Four Are Inducted

A program of dinner music by a former Pampans who turned to higher level music and induction of four new members highlighted today's weekly Rotary meeting in the Palm room, City hall.

Gene Finkbeiner, who studied at the Eastman School of Music and the Norman Conservatory of Music after graduating with honors from Pampa High school in 1928, gave several piano solos including semi-classical and popular numbers.

Prior to the program Fred Neslage, Rotary past president, inducted E. Roy Smith, Pampa Daily News publisher; Don Cain, attorney; Lee Moore, Transmix Concrete; and Joe Sefer, Turkey Creek Sand and Gravel Co. into membership of the Pampa Rotary.

Pampans To Polls For \$575,000 Bond Voting

From 8 a. m. to 7 p. m. tomorrow, property owning city taxpayers will go to the four city polling places to approve or reject a proposed \$575,000 civic bond improvement issue that would extend water and sewer facilities in all sections of town, and improve street and park conditions.

An unfounded rumor said only those holding 1952 poll tax receipts would be eligible to vote in tomorrow's election, city officials reported.

This is entirely wrong, according to state laws.

The 1952 receipts will not be issued until October, 1952, and will be used for voting in 1953.

The poll tax receipts to be used in tomorrow's bond election must be dated 1950. These were issued between October, 1950 and January, 1951.

VOTING PLACES

Voters in Ward 1 will cast their ballots in the city commission room, city hall, where John Bradley will serve as election judge. The Tom Rose Ford Co. will be used by voters in Ward 2 with Mrs. Travis Lively Sr. as election judge.

Ward 3 voters will use Ward's Cabinet shop where Mrs. Tom Lane will be election judge. H. H. Boynton will be election judge in the L. O. F. hall in Ward 4.

FOUR PROPOSITIONS

The ballot being used has four separate proposals in order to give voters an opportunity to ballot separately on water, sewer, street and park propositions instead of being asked to say "yes" or "no" on a package measure.

The water improvement tops the list. It is followed by a sewer system with street improvements coming third, and rest rooms for city parks bringing up the tail end.

Two concerted drives have been in progress since Friday — one, to get out the vote and the other asking voters to okay the issue. Some resistance to the bond issue has cropped up but has shown little, if any strength.

B & PW Club To Sponsor Yule Contest

The Pampa Business and Professional Women's club has accepted an invitation to sponsor the annual Christmas home decorations contest. This is the second year the local Chamber of Commerce has entrusted this matter to the club.

The city will be divided into five districts, as it was last year, with four cash prizes going to each district. Grand prize in this year's contest will be a plaque, according to E. O. Wedgeworth, chamber manager. The plaque has already been ordered, Wedgeworth said.

The five districts will be as follows: District 1 — all houses east of Cuyler and Mary Ellen, north of Foster, north of Georgia and south of Harvester.

District 2 — all houses west of Cuyler and Mary Ellen, east of Hobart, north of Foster and south of Harvester.

District 3 — all houses south of Foster and east of Cuyler and Barnes.

District 4 — all houses west of Cuyler, south of Foster and west of Hobart.

District 5 — all houses north of Harvester.

Pampa Honors Its Hospitals, Clinics

Today's Pampa story honors the medical facilities of the north-eastern Panhandle.

And the medical center for the northeastern Panhandle is Pampa where many modern facilities are available for use by the public in combating sickness and disease.

Recently added to facilities in an already fast-growing medical center was the \$1,750,000 Highland General hospital, the remodeling of the Worley hospital and construction of several new clinic buildings and offices.

These, together with aid of competent men and women of the medical profession, are keeping Pampa a healthful place in which to live.

New Car Ceilings To Be Explained

An explanation of the new ceiling price regulation covering sale of new cars will be discussed at 8 p. m. tomorrow in the Palm room, City hall.

F. R. Egrel, office of price stabilization specialist, will explain the regulation as well as others which are pertinent to automobile dealers, including an outline of provisions and procedures required by regulations covering retail prices of automobile parts.

Automobile dealers were reminded they must post ceiling prices for each body type and series of cars, itemized to show basic price, taxes, transportation and other charges in connection with new car sales, by Dec. 10.

The meeting, sponsored jointly by the automobile dealers associations, Pampa Chamber of Commerce and office of OPS, is for new car dealers and used car dealers who sell new cars.

If it comes from a hdw. store we have it. Lewis Hdwe, Ph. 1512

UNRECOGNIZABLE WRECKAGE — Workers found some bodies in this heap of wreckage after the collision Nov. 12 of two Union Pacific streamliners in a snowstorm near Evanston, Wyo. In this spot and others, more than 20 persons died. Ranchers and townspeople joined officers and others in rescue operations. (AP WIRE- PHOTO)

'Loose Spending' Charge Is Made By Tax Group Members

The city commission last night was criticized in what was termed "loose spending" at a meeting of the Gray county tax league.

Frank Carter, speaking against the proposed improvements in the bond election tomorrow, said only one side of the picture has been given, and said without two sides the average citizen is not qualified to know whether or not the bonds are needed.

Expenses for engineering and legal work especially were criticized by Carter.

"In a previous bond issue where the total amount voted for improvements was \$318,685, Frank Carter before the Gray County Taxpayers league last night in the county court room.

"Now, with the present issue totaling \$375,000, nearly twice the previous amount is charged," Carter charged.

"The last bond issue voted by the citizens of Pampa was in 1919 and was for \$550,000, more than \$400,000 in that issue construction was not approved by the committee and much of its original expense was cut. But yet it's listed," he said.

Speaking on the sewer system improvements Carter asked where money previously voted for sewers had gone. "The mayor said the bonds would be banked and cashed only when needed, but as yet they haven't been spent," he said.

He added that advertising on the issue has been one sided. The engineering department and city commission say Pampa has growing pains, he said, but it took technicians to find the pains.

"The pains left to the citizen are in the head, heart and pocketbook."

WATER SUPPLY

Mitchell Hill, local grocery owner, said when companies like Celanese locate here, partly because of a good supply of water, and when City Engineer Ray Evans once said Pampa's water supply comes from underground streams which constantly refill themselves, he can not see why more money for water improvements is necessary.

"I don't object to all the lavish spending. If bonds are kept up to the saturation point as they have been and a disaster hits Pampa, what are we to do when it is necessary to vote bonds?"

He concluded that he wants to see Pampa progress but said no support has been shown in favor of the bonds and the "growing pains" statement.

Early this afternoon City Man-

Light County Vote Defeats All Issues

Gray county voters apparently had little interest in the state's basic laws as less than 15 percent of the 5708 qualified voters turned out yesterday to defeat each of the five proposed constitutional amendments.

Voting was next to negligible over the county with a top count of 811 voters acting on a single amendment. The amendment drawing the most attention was that increasing old age, blind and needy children pensions from \$20 to \$30 per month. It was turned down 526-295.

The vote, defeating the other amendments in Gray county, stood at: county employee pensions, 647-163; investments of permanent university fund, 509-289; rural fire district tax increase, 621-175; and extended veterans land program, 496-295.

THE VOTE

Although routed by the county as a whole, the increased welfare amendment carried in six of the county's 18 voting precincts: LeFors, 20-6; Alanreed, 15-13; City Hall, McLean, 32-16; Kingsmill, 8-3; Carpenters Hall, 17-16; and the Cubine Bldg., McLean, 20-19. However, four of the county boxes unanimously defeated the welfare boost by Farrington, 0-13; Hopkins, 0-14; Phillips Camp, 0-3; and Webb, 0-8.

The boost from \$25,000,000 to \$100,000,000 in bonds for the Veterans Land board carried six of the precincts, but went down to defeat over the county. Precincts favoring the amendment were: LeFors, 19-7; Alanreed, 17-7; City Hall, McLean, 32-15; Kingsmill, 7-4; Carpenters Hall, 20-13; and Cubine Bldg., McLean, 19-17.

Only Phillips Camp defeated (See THXAS, Page 3)

Hughes Lots Not Part Of City - Yet

Annexation of Prairie Village, latest Hughes interests housing development, is not yet a part of the city.

City Manager Dick Pepin this morning, when asked by a reporter reiterated the annexation procedure as carried by yesterday's issue of The Pampa Daily News, saying:

"Before the area can be annexed the city it must first be ordinance in. The ordinance, No. 342, has been introduced and passed on two separate readings. It takes three readings before the ordinance can be called 'passed' and the area becomes a part of Pampa proper. The third reading will not come up until a legal technicality, clearing the title to one acre of the area, has been overcome.

"Hughes' associates hope to have this cleared by next week. In that case the ordinance will be introduced for its third reading and in all probability passed. Only then will it become part of the city."

The Pampa News yesterday reported the ordinance passed its second reading and that it would have to wait title clearing before taking final action which will probably be next week.

Girl Scout Leaders To Meet Thursday

Girl Scout leaders organization will meet at 8:30 a. m. Thursday in the Scout Little House for special instruction.

Special lessons will be available for those interested in lashing, folk songs and dancing, several types of handicraft, cookery and arts and dramatics.

Mrs. W. E. Hinton, president, will lead a discussion of the coming Santa Day parade.

"This comb I got in the News want ads just fits your hair — since I stopped on it."

Mrs. Virginia McDonald, Girl Scout executive, is in Shamrock today to work with Scouting groups there.

Pampans To Attend West Texas C of C

Nine Pampans today are attending a convention in Amarillo of the West Texas Chamber of Commerce.

The convention which began today will continue through Friday. Highlighting the meeting will be an address by R. P. George Mahon, chairman of the house sub-committee on military affairs. R. B. Anderson, president of the state board of education, and E. H. Thornton, Jr., chairman of the Texas State Hwy. Dept., will appear on Friday's program.

Pampa's delegation is headed by Roy S. Bourland, G. S. Vineyard and Charles B. Cook. Others attending are Knox Kinard, superintendent of Pampa schools; E. Roy Smith, Joe Key, J. C. Daniels and Gene Fatheree.

SPENDING

(Continued From Page 1)

cluded in the bond issue, put up for a vote tomorrow.

The city manager said he believed Carter was talking about the \$65,000 voted several years ago for storm sewers in midtown when he asked the league "where that money was spent."

Pepin said the money was put into U. S. government bonds which are drawing more interest than the city is paying on them. Not one cent, Pepin added, can be spent for anything but storm sewers.

"In addition," he concluded, "we will not spend any money for storm sewers unless the citizens want to vote the necessary amount at a later date. The \$65,000 never was sufficient to provide storm sewers for the entire business section of Pampa. Of the amount to be voted on tomorrow, not one penny will go into storm sewers for the midtown area."

Answering Mitchell Hill, local grocer, on why additional funds for water improvements should be voted, Pepin and Evans said jointly:

"It is true that Pampa has an ample supply of underground water. But that water must be brought to the top and delivered. To bring it to the top and distribute it to the public, facilities must be provided. That means wells, pumps and more adequate piping facilities, which we do not have at present."

Approximately nine persons, outside of press and one local government representative, attended the tax league meeting last night.

THREAT

(Continued From Page 1)

34 billion barrels in a decade in order for the United States to keep its reserves on today's level," the Congressman asserted.

He said it would not be possible for them to do this without a foreign legion within the Treasury department wants this allowance cut to 15 percent so that more money can be taken in from the oil industry in taxes.

"Look into the military budget for cuts," said Rogers. "It is no sacred cow."

"The men handling these funds are military men, not businessmen," Rogers said. "They are interested only in building a machine and hot the source of the money."

He said the military budget is seven billion dollars more than the Internal Revenue bureau collected in taxes in 1950.

He explained, however, less than 40 billion dollars is to be spent by the military this year. The remainder is slated for payment of contracts three to four years hence.

The weakness in this practice, he pointed out, is that bureaus make it a point to spend all of their appropriations each year. Then new taxes must be voted to meet these future payments when they come due.

Rogers objected to the method of assisting foreign countries in fighting Communism.

Rather than give the money to the countries, Rogers favors a more indirect method.

This method, framed originally by Bob Fosse of Waco, would set up a foreign legion within the U. S. armed forces. It would be made up of nationals who would be given no United States rights but who would be given the same pay as the American soldier.

DOLLARS HOME
 "From their pay, they could send home dollars which could be used by the people to bolster their economy and thereby strengthen their fight against Communism."

The country which contributed the most soldiers would get the largest number of dollars and would be contributing men to fight the Communists.

Of the other expenditures, Rogers said he approved of some including atomic energy research and development and certain veterans services.

However, there were too many of the other expenditures which were not usable, Rogers said.

He explained this as the reason he voted against the huge tax bill. The good points were outnumbered by the bad ones, he said.

In discussing the Middle East situation, Rogers said the Middle East is the boiling pot of the world today. It has 40 percent of the known oil reserves of the world and that the United States has a great stake there.

He said the United States stands with the British in Egypt has confused the people there. They want to unite with the United States because of the freedoms it maintains, but that they cannot believe the United States does not have imperialistic aims.

"Should the Communists ever get hold of the Middle East with its vast oil reserves, the world would see one of the longest stalemates in the history of the world," said Rogers.

"Dollars alone will not solve this problem," he said, "because you can't buy people's self respect." He said there should be help, but in a method in which the countries foreign would be making active contributions to the fight against world Communism.

CITY WATER

(Continued From Page One)

rationed. Had a fire broken out, city officials would have had to ask everyone to turn off their water so firemen would have sufficient pressure.

During peak periods this summer, overhead storage tanks lost more than 40 feet of water which resulted in a noticeable pressure drop in water mains. By the time water flowed to the east part of town it was only a trickle and in some places only air came out of faucets.

To remedy the situation, establish a margin of safety, and provide for the future, the bond issue has been proposed by the citizens committee.

A 16-inch cast-iron main would be laid from the S. Hobart pump station, through midtown terminating at Browning and Gillespie. There it will tie into a north-south 12-inch main and then be reduced to a 12-inch main as it travels east along Browning to the overhead water tower on Warren. As it goes across town, the 16-inch main will connect with numerous other various sized lines leading to all sections of the city. The 16-inch main will stretch 7300 feet. The new 12-inch feeder line to the water tower will run 2500 feet.

This system has been recommended by the National Board of Fire Underwriters as a safe measure for adequate fire flow.

Low pressures and contamination in dead-end lines must be eliminated. This will be done by installing 1000 feet of 16-inch; 11,000 feet of 8-inch; and 29,000 feet of 6 inch lines in all sections of the city, especially the east, south-east, and rapidly developing south-west sections of Pampa. Along the route of these lines will go 30 plus fire hydrants.

Additional pipe will also have to be obtained for future expansion.

With Pampa's continued growth the issue includes purchase of additional water rights south of town at an estimated \$5000 and another well to provide the much needed margin of safety, at a

the proposed veterans and program unanimously, 2-0.

Lefors was the only precinct to favor broader investment powers for the board of regents in handling the University of Texas and Texas A&M permanent school funds. Voters there passed the amendment 15-10. It was tied, however, in City Hall, McLean, 22-22. Elsewhere it was defeated, especially in Phillips Camp by a 2-0 vote and Webb by a 7-0 ballot.

FAVOR PENSIONS
 Lefors was the only precinct to favor pensions for county appointive officers and employees, carrying it 16 - 9. Three precincts showed the amendment no mercy and slapped it down unanimously: Farrington, 19-0; Phillips Camp, 3-0; and Webb, 7-0.

Only proposal to be defeated by all precincts was the boost from three to 50 cents tax rate maximum for rural fire prevention districts — of which there are none in the Panhandle. This amendment when first put to the voters in 1949, was carried over the state but defeated in Gray county, 593 to 371. At that time the county also said 'no' to the proposed county pension system, 731-244.

Election judges reported slow voting throughout the day, with poll closing time showing the largest voting activity.

Former Draft Board Head Dies in Marlin

MARLIN — (AP) — Col. George H. Carter, 76, in charge of Texas draft boards in World War I, died yesterday.

Funeral services were held today (10:30 a.m.) at the home of Col. Carter was on the adjutant general's staff during the first world war. He also was former president of the Falls County Bar Assn. and a director of the Texas Bar Assn.

cost of \$25,000. Total water improvements are estimated at \$223,000.

Ten inches of snow equals in water content one inch of rain.

Parade Is Planned For Opening Of Christmas Season

Pampa Boy Scouts will carry 100 torches to illuminate streets during the annual Santa Day parade, Nov. 30, Paul Beisenherz, Boy Scout executive, said today.

Bands from the Top of Texas area have been invited to participate in the parade which will be from 6:30 p.m. in front of Sunshine Dairy Foods on W. Foster.

Santa Claus and his live rein-

deer will return to Pampa for the second year in succession. Ten thousand sacks of candy will be distributed following the parade.

All local organizations have been requested to place an entry in the parade. Stores will remain open until 7 p.m. for convenience of out-of-town shoppers. New decorations will be hung by the Pampa Jaycees.

BRADLEY IN LONDON
 LONDON — (AP) — Gen. Omar Bradley, chairman of the U. S. Joint Chiefs of staff, arrived by plane today for talks with British military leaders on Atlantic defense.

Lubbock-Odesa Clash Tops Schoolboy Card For Weekend

By HAROLD V. RATLIFF
Associated Press Sports Editor

Two divisions clear the decks for state playoffs and the other two go through the district semi-final round this weekend in Texas schoolboy football.

More than 30 districts in classes AA and A will decide champions. Thirty-three already have done so.

Only one title is yet known in Classes AAAA and AAA but all except five of the 16 districts are expected to crown kings by the weekend. These two divisions have still another week to go.

Ysleta has nailed down the title of District 2 in Class AAAA and awaits its foe from District 1 where Lubbock's Westerners, leading with an undefeated record, meet the last obstacle in their path to the title.

It's Lubbock vs Odesa at Odesa Friday — and that will tell the story of whether Lubbock, generally rated No. 1 in the state, moves into the championship fight or there's a three-way tie in District 1 with the committee having to name the district's representative.

This is one of three big games in the upper brackets of schoolboy football. Fully as important is that matching Port Arthur with Baytown in District 8 of Class AAAA. Here, too, is one of the state championship favorites getting together.

The other top game is in District 5 of Class AAA where undefeated, untied Palestine marches against mighty Temple. Temple, loser only in Baytown during the season, has long been ranked No. 1 in Class AAA.

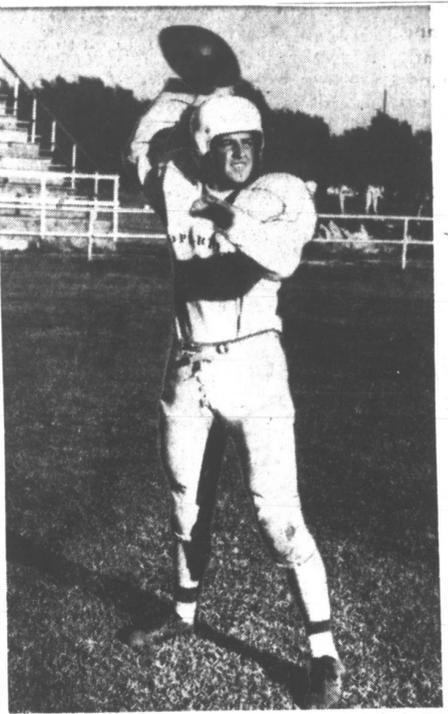

In Class AA the headline matches Lamarque and La Porte for the District 27 championship. It also brings undefeated, untied teams together and is one of three games in that category in the state.

In Class A there are two such contests — Iraan and Wink clashing for the District 5 title and Eden and Eldorado battling for the crown in District 6.

All along the line the unbeaten teams face foes who could knock them from their moorings. Brownfield, one of the title fa-

vorites in Class AA runs into a tough one in Littlefield. And, of course, Wink has been the pick for the Class A state title ever since the season opened. But Iraan could stop the Wildcats before they even get started in the title drive.

Nineteen district champions are known in Class AA and 14 in Class A. All the others must be certified by Saturday and the last one is bound to be in District 12 of Class A where Whitener and Itasca play. These two teams, which tied 7-7 last week, get together at Hillsboro Saturday night to decide it. All other district champions are due to be determined by Friday night.

TAKES OVER — Sid Mills, senior Harvester quarterback, has taken over the first string signal calling duties in the absence of DeWey Cudney, out with influenza. Mills directed the Harvesters in the second half Saturday against the Sandies.

Celler Says Revision Due

NEW YORK — (AP) — If Rep. Celler (D-NY) chairman of the House sub-committee investigating baseball has his way, baseball's controversial reserve clause will be thoroughly revised.

Celler branded the reserve clause "obnoxious" last night while appearing on ABC-TV's program, "on trial."

he congressman added, however, that the clause "is so imbedded in the fabric of baseball it would be necessary to keep it, but it must be amended. Here are certain abuses which must be obliterated."

"It would be ludicrous for Congress to write a code," he said, "but we are not going to give baseball a blank check. We are trying to find a middle ground."

The reserve clause, challenged as a possible violation of anti-trust laws, binds a player to a club for life unless he is sold or traded.

Baseball, in order to be subject to the anti-trust laws, must first be found "to be interstate commerce," Celler said he was "quite certain" that the supreme court would so declare.

The congressman cited Ned Garver, 20-game winner of the last place St. Louis Browns as a victim of the reserve clause. Celler claimed that Garver drew \$18,000 last year.

"He's an ace," Celler pointed out. "He won 20 games with a poor ball club and a bad infield and outfield behind him."

"If I were an owner and I had an opportunity of getting Garver I'd give him \$90,000 to \$100,000 a year."

DRINKING PAYS OFF

COLUMBUS, O. — (AP) — State Liquor Director William Bryant predicts the department's net profit will hit an all-time high of \$20 million this year.

Ohioans buy liquor through a system of state liquor stores. Bryant says 1951 sales should run between \$170 million and \$175 million. The previous record profit was \$16,938,484 in 1947 on total sales of \$137,528,157.

PAGE 4 PAMPA NEWS, WEDN'DAY, NOV. 14, 1951

Guerillas Battle Bullpups Tomorrow

The Pampa Guerillas still ably see J. N. Wright at the quarterback post, and Bobby Wilhelm, Jimmie Keel and Jean Martindale filling out the backfield. Richard Radcliff is also certain to see plenty of work in the backfield.

The probable starting line will have Bill Phippen at center, Eugene Bealy and Dwayne Green at guards, Bob Prigmore and Ronnie Elliott at tackles and James Phippen and Travis Taylor at the ends.

The Guerillas have one more game remaining on their schedule after Borger. They entertain the Plainview Bulldogs next Wednesday afternoon at Harvester Park.

Schreiner Tops Pioneer Leaders

(By the Associated Press)

With three of the five Pioneer Conference teams finishing their season this week, Schreiner Institute of Kerrville dominates the league's individual performances.

Schreiner leads in total offense with 2,532 yards in eight games. It also leads in passing with 1,184 yards.

Arlington State college leads in running with 1,755 yards in eight games.

In the individual figures, Durwood Watkins, Schreiner halfback, leads in kickoff returns, 11 for 213, an average of 19.3 yards per return.

Douglas Cameron of San Angelo has run 96 times for 658 yards, an average of 6.9 yards.

Bobby Bomer of Schreiner still leads the passing department with 66 completions out of 120 attempts for 1,024 yards, an average of 17 yards per completion. Second best passer is Tommy Hudspeth of Tarleton State who has completed 55 of 146 attempts for 692 yards.

The leading pass receiver, James Bracewell, Schreiner, has caught 26 for 597 yards, an average of 19.5. The leading punter, Roger Douglas, Schreiner, with 37 for 1,491 yards, has an average of 40.3 until this week. Bud Hamrick, Ranger, has been the leader but his average fell after he was injured.

Maryland Back Gets Star Nod

NEW YORK — Ed Modzelewski, Maryland fullback, is this week's back of the week in the Associated Press poll of sports writers and broadcasters.

Known as the "Mighty Mo," the 210-pound fullback, earned the nod for his feats against Navy. Maryland gained only 138 yards by rushing a nod. Modzelewski gained 127 of them. Two of his plunges went for touchdowns.

Modzelewski proved so pesky in the first half that Navy pulled its secondary closer and closer to the line. This opened the way for Maryland passing that broke the game wide open for a 40-21 Maryland triumph.

The Maryland workhorse was not the only back to gain praise. Another fullback, Bob Mathias, whose 96-yard touchdown run sparked Stanford to its upset win over Southern California, was a high on the list. So was Dick Panin's 88-yard TD run on Michigan State's first play from scrimmage, a play that sparked MSC to a 35-0 conquest of Notre Dame.

Jerry Coody, Baylor halfback, ran back a punt to set up the tying touchdown against Texas, then later scored the winning touchdown himself as Baylor beat Texas for the first time in 12 years.

Others praised included: Bill Burkhalter, Rice; Tony Scardino, Missouri; and Hugh McElhenny, Washington.

code restricting financial aid died from lack of member support.

OTHER CONFERENCES

Here was the situation in other conferences:

Southeastern — Members known to favor spring practice and continuance of bowls, but these items placed on the agenda for the December conference meeting.

Eastern — Its some 90 members, including the strict Ivy League and many less strict independents, not committed to any course of action. Most of the Ivy schools said they planned to continue spring practice.

Southwest — Question of eliminating spring training and bowl games listed for discussion at meeting Dec. 7-8. Most members reportedly are ready to follow any national trend but they are known to favor bowl games.

Big Seven — Situation same as in the Southwest.

Big Ten — Committed to a three-year contract with Rose Bowl. Question of spring drills to come up at December meeting. Kenneth (Tug) Wilson says he doesn't know members' attitude.

Football so far has not been drawn into anything similar to the basketball scandals but the sport has become so high commercialized that more than 30 colleges have been forced in the last year to drop it from their program. A recent effort to regulate athletics through a sanity

Bulldogs Seek 2nd Win Over Pampa

The Borger Bulldogs will be fighting to break into the win column for the second time in 18 meetings Friday afternoon when they play host to the Fighting Pampa Harvesters at Bulldog Stadium. Kickoff time is 2:30.

Only once in the history of the long rivalry has Borger emerged on the top-heavy side of the score. They did, however, gain a semblance of a victory when they tied the Harvesters, 14-14, in 1948, and gained the win by virtue of one first down more than Pampa.

The lone win was registered back on Oct. 18, 1946. And it could well be a reminder to the Fighting Harvesters who will take the field Friday. The team that took the field that day for the Green and Gold was rated as one of the better clubs to represent the school, many of the boys going on to play college ball, all the way up to as high as the Southwest Conference.

THAT SQUAD

On that squad were names like Boyles, Speer, Laffoon, Mayes, Wilson, Russell, Thornborrow, Bain, Scheig, Griffin and Anderson. When they walked off the field they were losers 24-7.

The team that takes the field Friday for the Green and Gold will also be rated as one of the best — if not the best — to ever represent the school. But they might well think about that 1946 team.

The complete breakdown of the year-by-year scores between the two schools since the series began in 1932 is like this:

Pampa	Year	Borger
10	1932	0
25	1933	0
33	1934	7
27	1935	0
13	1936	6
NO	1937	GAME
7	1938	6
21	1939	0
18	1940	18
46	1941	6
7	1942	6
NO	1943	GAME
39	1944	7
33	1945	3
7	1946	34
21	1947	12
14	1948	14
14	1949	7
71	1950	6
?	1951	?

In the lengthy series the Harvesters have amassed a total of 433 points to 135 for the Red and White. Four times the Bulldogs have been blanked and never have the Harvesters been held scoreless.

TWO ILL

The severe 71-6 lacing handed the Bulldogs last year was asked for all during the game, and it left a bitter taste in the mouths of the returning Bulldogs. They will be attempting to avenge that loss. But the Harvesters can also think about avenging that 1946 game.

Yesterday afternoon the Green and Golders went through a defensive workout to cope with the split T as run by Coach Guy Gardner's Red and White griders.

The work-out saw two regulars among the missing, both confined to their homes with flu. They were halfback Billy Davis and quarterback DeWey Cudney. Both were expected to be ready by Friday, however, though they

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK — (AP) — They're putting on a world championship fight in Los Angeles tonight at seven p.m. (local time) so that eastern fans can see it on the video screens at their usual hours. Next thing you may see the wrestler mix-up in a morning soap opera. They're both good, clean fun. . . The Amateur Athletic Union will consider a proposal to permit physical education teachers who aren't athletic coaches to compete as amateurs. . . Good idea, but it doesn't go far enough. . . We never could see why teaching, say, football or golf for extra playing it for money should make a guy a professional swimmer or javelin-thrower. . . Dickie Davis, the 140-pound Wake Forest quarterback, passed so effectively against Boston College that Wake's Texas Tech manager Lou Budreau commented: "He looks more like a baseball pitcher than a football thrower." . . Maybe Lou could use somebody who looks like a pitcher.

SLIGHT CASE OF CONFUSION

Texas Tech plays Tulsa in football next Saturday. . . Buddy Brothers, Tulsa coach, is a Tech graduate. DeWitt Weaver, Tech boss, was Buddy's assistant. . . Darrell Royal, Jack's successor, and Wade Walker and Bobby Goad, also assisting at Tech, all were Mitchell's college teammates at Oklahoma U. . . Royal and Walker both were on the North Carolina State staff last fall. . . And two of Tulsa's first string players were coached in junior college by Tech's Wyatt Posey. . . If those guys all jump up to watch some exciting play, they'll have a heck of a time finding the right places on the benches again.

SHORTS AND SHELLS

Looks like Princeton has an other Dick Kazmaier coming up in Dick Frye, 160-pound freshman tailback. . . In the last three games Frye has scored four touchdowns, passed for four more and gained most of the team's yardage. . . Maybe it's just an act to steam up his Giants, but Steve Owen seems to have worked up a real peeve against the Cleveland Browns. . . His big complaint is that the Giants had to practice on a field outside the Cleveland Stadium where Brownie players could, and did, drive up to take a look. Four rival coaches are on record as saying that Georgia's Harry Babcock is the best offensive back they have seen this season. . . Alabama's Red Drew makes it stronger: "Babcock is the fastest, most elusive end to cover I have seen since Don Hutson."

END OF THE LINE

Fort Dix, N.J., expects to have a heck of a basketball team this winter with such stars as Zeke Simicola and Harry Cooley of Michigan. Frank Mulzoff, St. John's; Joe Dolhoff, NYU; Vince Leddy, Georgetown and Carl Meinhold, Long Island. . . J. Laird Holmes, State College, Pa., real estate man, saw Penn State play at home 'er the 250th time last Saturday. He hasn't missed a

Suggests Report Cards For Schools

EL PASO — (AP) — Report cards grading football teams on conduct are being recommended for the Border Conference.

Coach Mike Brumlow of the Texas Western Miners made the suggestion to sports editors Chuck Whitlock of the El Paso Times and Collier Paris of the Abilene Reporter News.

They were discussing the wave of roughness which has included a number of big-time games. Brumlow said the Border Conference is no worse and no better than other leagues from the standpoint of sportsmanship.

Then he went on to outline his idea for a board of review and a grading system for football teams in the eight-member conference. It is composed of Arizona, Tempe and Flagstaff, Hardin Simmons, West Texas State, Texas Western, Texas Tech and New Mexico A&M.

The board of review would be made up of the top three or five football officials of the loop. They might be determined by the conference coaches.

Following each game, they would review moving pictures of the play, watching for rule violations.

Violations would be assigned point values according to physical danger, like: slugging 25 points, roughing the kicker 25, clipping 20, holding 15, and on down to offense 5.

Totalling the penalty points, the board would then grade each team on sportsmanship or sportsmanliness.

Whitlock said the system would have this result:

"The schools that top the list would be under pressure to better their rating. The college president would inform the coach that the grade was bringing too much bad publicity and had to be changed."

"The only positive way to do that is to teach his players not to commit the fouls. Thus, football, through pressure, could be returned to the type of competitive sportsmanliness it is supposed to be."

WRITING JOB

PT. MADISON, Ia. — (AP) — Take it from a pair of pen and pencil writing twins: the first seven million words are the hardest.

Each day each sister writes more than 7,000 words and figures to test writing equipment manufactured by the W. A. Sheaffer Pen Co.

The Williams sisters were troubled with writers' cramp during the first few months they worked. But six months and seven million words later, they reported they were no longer bothered by arm or hand cramps.

game since the start in 1887. . . Naturally a real estate man would be in on the ground floor. . . Televisioners who were amazed at Michigan State's many offensive formations last week, haven't seen everything yet. . . End Coach Earle Edwards claims: "If a couple of backs forget where they're going, we have a new play."

Lefors Gunners Holding Shoot

The Lefors Gun club will hold a shoot this coming weekend all day Saturday and Sunday at the range two miles west of Lefors. Turkeys, ham and bacon will be given as prizes.

Hot coffee will be served on the grounds.

Hearing This Afternoon On Eligibility Of 'Cat Players

McLEAN — The District 1-A executive committee was scheduled to meet here this afternoon to decide the fate of the Canadian Wildcats, some of the few remaining undefeated Class A schools in the state.

Charges have been brought against the Canadian school that they have used two ineligible players this season, boys not listed on an eligibility form submitted to the league office.

The two boys, both third stringers, are Oria Cornutt, a sophomore end, and Don Brown, senior tackle. Lefora claims that both played in games against McLean and Clarendon without officially being a member of the Wildcat team through absence of their names on the roster.

If the claim is upheld, it would virtually hand the Pirates the District 1-A crown by virtue of their having lost only one game, that to the Wildcats last weekend at Canadian, 19-7. Only one game remains on each team's schedule. The Wildcats face Wheeler and Lefora battles McLean.

ADMIT NAMES MISSING

Neither of the boys whose eligibility is challenged played against the Pirates last Friday, nor have

they played more than a total of five minutes all year long.

Coach Dee Henry of Canadian admitted that the names were inadvertently left off the list. Principal H. W. Truitt of Canadian High school said that Cornutt's name was unintentionally omitted from the Texas Interscholastic League report this fall when the Canadian roster was filed. He also said that at the time the roster was filed it didn't look like Brown would be kept on the team. Truitt said that the only reason the boys were put in the lineup was to help hold down the scores against White Deer (32-13), Clarendon (31-7) and McLean (58-6).

Superintendent R. C. Wilson of Lefora High school said he checked the records of the games Canadian played against McLean and Clarendon. "Mr. Cummings (McLean superintendent) and I found the boys have played two conference games," Wilson said. "One was against McLean and the other against Clarendon. The White Deer report was on file at the time we checked them."

Wilson explained that it is just like a man getting into the Army. He isn't actually in until he has sworn in. A boy may be eligible

until his name is filed with the Interscholastic League.

The meeting was to begin at 2:30 this afternoon in the office of Superintendent Cummings, head of District 1-A.

Tulsa National Offensive Leader

NEW YORK — (AP) — Tulsa's Hurricanes have stormed to the top of the nation's major football teams in total offense with an average of 485.9 yards per game.

The Oklahomans, who netted 705 yards against Kansas State on Saturday, dislodged Holy Cross as the yardage leader. The Crusaders fell to third place behind Arizona State (75 m p e), which has scored to the runner-up position with a mark of 445.1 yards.

Tulsa's potent ground-gaining attack also moved them to the top of the ladder in rushing. The Hurricanes have crunched along the ground to the tune of 265.3 yards per game, according to the figures released by the NCAA statistical bureau.

Arizona State bolted into second place in running figures with an average of 349.1, followed by the College of Pacific, last week's pacesetter, with 343.8.

Loyola of Los Angeles, which takes to the air lanes almost exclusively, heads the passing parade for the seventh straight week. With Don Klosterman doing most of the tossing, Loyola has compiled a gaudy average of 212 yards a game. Oklahoma A & M maintains its runner-up spot with a 169.3-yard average.

Princeton boasts the most accurate passing attack having completed 62.2 percent of its aeri-als. Kentucky has thrown the most touchdown passes, 16. Tulsa has averaged 39.4 points per game to set the scoring pace.

In individual statistics, Princeton's Dick Kazmaier appears a cinch to sweep past Johnny Bright of Drake and capture the total offense title. Kazmaier, two games remaining, is only 83 yards behind Bright, who has finished his collegiate football career. Bright totaled 1,553 yards in nine games, while Kazmaier has accounted for 1,470 in seven.

KAZMAIER CINCH

PHILADELPHIA — (AP) — Slingin' Sammy Baugh, the old pro, became the No. 2 passer in the National Football league today, official statistics disclosed, but Norm Van Brocklin — Los Angeles' second string quarterback — continues to pace the

Baugh, playing his 15th season for the Washington Redskins, became the leading contender for the crown he's won six times. A week ago Baugh was far down in the standings because of insufficient passing attempts. Now he's No. 2 with 34 successful aeri-als in 78 tries for a total gain of 641 yards.

Van Brocklin, understudy for flashy Bob Waterfield, continues to shine, connecting 63 times in 127 attempts for 1,192 yards. He's averaged 9.39 yards per heave — tops in the league — with Baugh second with 8.22.

Green Bay's Bobby Thomason has the best completion average, 60.1, hitting strikes 92 times on 153 attempts but his average gain was only 6.39 yards putting him 14th in the standings.

Cleveland's Otto Graham, with an 8.19 yard gain per try, is the third best passer followed by Detroit's Bobby Layne and Jim Hardy of the Chicago Cardinals.

OTHER LEADERS

Eddie Price of the New York Giants, the leader since the season's start, lost a little ground as the NFL's No. 1 ball carrier. Price has gained 474 yards on 134 attempts, an average of 3.5 per carry, but Los Angeles' Dan Towler picked up four more yards Sunday to make his figures: 447 yards on 58 tries for a 7.7 yard average.

Elroy Hirsch, also of the Rams, leads in two departments — pass catching and scoring. Crazy-Legs, a great end, has caught 40 aeri-als for a gain of 961 yards, only 250 yards away from the record set by Tom Fears. And Hirsch, averaging 137 yards a game, has more contests left.

Hirsch has tallied 66 points, catching 11 TD passes, to lead Philadelphia's Bob Walston by two points.

The No. 2 pass catcher is Fran Polifoot of the Cards who's caught 36 for 518 yards.

Horace Gillom, Cleveland, is still the league's best punter, averaging 45.6 yards a boot. And Buddy Young of the New York Yanks tops the punt and kickoff return experts.

SPORTS MIRROR

(By the Associated Press)

Today a year ago — Ohio State was voted the nation's top football team in the weekly AP poll.

Five years ago — Ted Williams of the Boston Red Sox was named the most valuable player in the American League.

Ten years ago — Gus Leavich defended his light-heavyweight title by outpointing and Mauriello in a 15-round bout in New York.

Twenty years ago — Tennessee remained unbeaten by defeating Georgia 20-7.

BIG TURNIP
DRUMHELLER, Alta. — (AP) — Mrs. Eric Holmes cast a heavy vote in the competition for giant turnips in this region. She harvested a turnip weighing 19 3/4 pounds from her garden.

Lewis Paces Reaper Scoring With Total Of 177 Points

With their season at an end, and the junior high school championship already sacked up, the Reapers put their Blue and White football equipment away and waited for the rest of the league to finish its seasons. Bad weather and a late schedule left three games still to be played this weekend.

The terrific Reaper offense completely dominated the district play. Coaches Marvin Bowman and Wayne Tripp had their youngsters operating the T formation with machine-like precision to leave more than one club stunned.

Leading the touchdown parade was 160-pound Harold "Greaser" Lewis, who tallied 177 points for the year. Here's the way the Reaper scoring went:

Player	TD	EP	Pts.
Harold Lewis	27	15	177
Bill Fullenwider	5	1	31
Kenneth Hinkle	4	40	24
Johnny Morse	2	0	12
E. J. McIvain	1	0	6
Totals	39	16	250

A huge rebuilding job is in store for the Reaper coaches next year. Of the 58 boys who originally came out for junior high school football, only 13 will return. The rest will pass on into high school.

The remaining games on the

Temple Wildcats Top Class AAA

DALLAS — (AP) — The Temple Wildcats for the seventh straight week remained atop the Dallas Morning News poll of Class AAA football teams.

Brownsville, which earlier had dropped out of the top ten, returned to take eighth place following its 62-12 victory over Edinburg.

Vernon, eight last week faded out after being held to a 6-6 tie by Plainview.

The top 10: 1. Temple 2. Breckenridge 3. Palestine 4. Grand Prairie 5. Midland 6. Longview 7. Gladewater 8. Brownsville 9. Stephenville 10. Conroe.

IT'S GOOD BUSINESS TO PLAN YOUR FUTURE!

PAMPA IS YOUR HOME. You are a part of its future, you should help plan it. **YOUR CITY GOVERNMENT** has served you well. For 1951-52 the rate is \$1.75 per \$100.00 valuation — the same as it was in 1947. Compare your city tax receipts for the past five years with the increase in your federal taxes — or your grocery bill — or the cost of housing. Good government has contributed to the growth of Pampa.

PROPOSED IMPROVEMENTS FOR PAMPA!

Thursday, November 15, you will be given an opportunity to approve a bond issue that is essential to the continued growth and welfare of Pampa. It provides for:

1. Increased water supply (potential of present wells is 5,400,000 gallons per day. Peak load last summer was 4,729,000 gallons. Failure of only one well would have made it impossible to provide water for all users and would present a serious fire hazard).
2. Provide for new water users (since 1947 the number of water meters has increased 43%).
3. Install larger water mains — (Present mains will not carry sufficient water to meet demands of summer months.)
4. Provide for health and sanitation by installation of new sewer lines and extension of lateral lines.
5. Provide bridges, culverts, and signal lights for better handling of traffic and less congested travel.
6. Modern facilities for city parks.

WHERE WILL IMPROVEMENTS BE MADE?

Last bond issue voted in Pampa was in 1947 to develop a new waterfield and extend water and sewer lines. As a result of this program the following lines were laid:

Ward Number	Water Lines (lin. feet)	Sewer Lines (lin. feet)
Ward 1	23,128	23,687
Ward 2	14,891	5,427
Ward 3	6,194	12,406
Ward 4	12,905	33,127

As figures show the funds were used to provide service throughout the city where there was a need.

This program is a recommendation from the citizens committee of seventy men and women appointed from all sections of the city. The needs of each section are provided for and funds earmarked for these specific purposes . . . If you have lived in Pampa for more than six months, have rendered city property for taxes, and have a poll tax for 1950, you are an eligible voter.

BE SURE TO VOTE!

Signed: Pampa Citizens Committee by Sherman White, Chairman.

and, thanks for such refreshment

Ice-cold Coca-Cola won't make your Thanksgiving Day — or any other day, of course — but it sure helps. It brings you the best of what everybody must have — refreshment and hospitality... for sure.

Coy Presidential Candidates Often Change Minds Later

WASHINGTON — (AP) — Gen. Dwight D. Eisenhower's past refusal to become a Presidential candidate is getting scholarly attention. Already he has been mentioned in at least one political textbook.

In 1948, you will recall, Eisenhower said no. Then, when the talk of his running continued, he said no and I really mean it.

Wilfred E. Binkley of Ohio Northern university and Malcolm C.

Woods of Johns Hopkins have written "A Grammar of American Politics." And in it, they comment on Eisenhower and the 1948 campaign.

Then, as now, Eisenhower was winning a lot of those elections in the public opinion polls.

But in January 1948, Ike said: "I will not accept nomination for and could not accept nomination to high political office."

Still the Eisenhower talk went on. It persisted up to and during the Republican convention, and seemed to be getting in high gear by the time the Democrats met.

SPOKE UP AGAIN

Eisenhower spoke up again. This time he said:

"No matter under what terms, conditions or premises a proposal might be couched, I would refuse the nomination."

The only other similar refusal the professors mention is the famed reply by another West Point man who also was a military hero.

In 1884 Gen. William Tecumseh Sherman said:

"I will not accept if nominated and will not serve if elected."

The writers observe:

"It infrequently happens in American politics that any person who has been prominently mentioned for the Presidential nomination has an overwhelming desire to avoid that honor being bestowed upon him."

In other words, some candidates may be coy, but nearly all of them are willing.

So far Eisenhower hasn't been as positive as he was in 1948.

Obviously his backers hope that, even though Ike's refusal made political history, he may now be willing, too.

Robert W. Orr Is Winner In News' Football Contest

Robert W. Orr, Route 2, Pampa, won The Pampa Daily News football contest this week by predicting winners on 13 of the sixteen gridiron clashes making up the contest.

Second-place winner, with four misses, T. N. Watson who lives at 1219 E. Francis.

Harold Shillings, 408 N. Wells, won third place with five misses. Orr gets \$10 as first; Watson wins \$5 and Shillings takes \$2.50.

Had the tie-breaker game between Pampa and Amarillo been needed to decide the winner of the contest, Shillings would have been in good standing. He predicted Pampa would win with a 26-12 score. Final on the game was 26-14.

All winners missed the Stanford-Southern California game and Texas A&M vs Southern Methodist tilt. Two guessed wrong on the Virginia and North Carolina outcome.

Other games missed by the winners were Oregon State vs UCLA, Rice vs Arkansas and LSU vs Vanderbilt.

Area Students In Hardin-Simmons U.

ABLENE — Four students from Pampa, two from Lefors, and one from Skellytown are among those who are enrolled this fall at Hardin-Simmons university. They are James Arnold Claunch, freshman; JoAnn Delephene Hash, freshman; Robert Earl McDonald, sophomore; Rosemary Prigmore, freshman; James Doyle Guthrie, senior; Joy Browning, freshman and Joan Estes, freshman.

Claunch is the son of Mr. and Mrs. John S. Claunch. Miss Hash is the daughter of Mr. and Mrs. W. B. Hash. She is a member of the Hardin-Simmons Cowgirl band.

McDonald, son of Mr. and Mrs. William Paul McDonald, is a member of the Cowboy band and the Alpha Phi Omega, ex-Boy Scouts service organization.

Miss Prigmore is the daughter of Mr. and Mrs. A. L. Prigmore.

Guthrie, of Lefors, is the son of Mr. and Mrs. J. V. Guthrie. Miss Browning, daughter of Mr. Fred H. Browning of Lefors, is a member of the Life Service band, a Christian volunteer service organization of H-SU, and the Young Woman's Auxiliary, a mission organization.

Miss Estes, daughter of Mr. and Mrs. W. C. Estes of Skellytown, is a student of nursing at Hardin-Simmons.

Red Demonstration Staged In Iran

TEHRAN, Iran — (AP) — Six thousand pro-Communist youths stood two hours in a driving rainstorm here Friday shouting "death to British and American imperialists" and other anti-Western slogans.

The demonstrators were observing what they called "International Democratic Youth day." It was the third Red demonstration in restive Tehran in two weeks.

About one thousand police and steel-helmeted soldiers sat silently in covered trucks, but there were no incidents.

The boys and girls hoisted banners urging Iran to sell out to "democratic countries" and demanding that women be given the right to vote. Posters also called for the reopening of Communist agitation.

Scissors were invented by an ancient shepherd to make wool-clipping an easier job.

The guitar, one of the oldest musical instruments, goes back to 550 B.C.

McDonald, son of Mr. and Mrs. William Paul McDonald, is a member of the Cowboy band and the Alpha Phi Omega, ex-Boy Scouts service organization.

Miss Prigmore is the daughter of Mr. and Mrs. A. L. Prigmore.

Guthrie, of Lefors, is the son of Mr. and Mrs. J. V. Guthrie. Miss Browning, daughter of Mr. Fred H. Browning of Lefors, is a member of the Life Service band, a Christian volunteer service organization of H-SU, and the Young Woman's Auxiliary, a mission organization.

Miss Estes, daughter of Mr. and Mrs. W. C. Estes of Skellytown, is a student of nursing at Hardin-Simmons.

JACOBY ON CANASTA

Compromise On House Rules

By OSWALD JACOBY
 Written for NEA Service

I've just received a plaintive letter from a Midwestern reader. "What is your opinion," he asks, "of people who insist on loading the game with house rules?"

"Rhubarb number one is on playing for the hand and not for the game. They keep a regular game score, but also have a separate side bet on each hand. This style of play puts all the emphasis on winning the hand, and it spoils your concentration on what is best for the game score of 5000 points."

"Rhubarb number two deals with this nonsense of making two canastas before you are allowed to meld out. Heaven help you if the opponents get control of the discard pile. You never get two canastas, and the opponents have a field day."

"This is the same gang that won't allow me to put a deuce on a completed natural canasta—when a play like that will enable me to start the next hand with a meld of 90 points instead of 120 points."

"Should I exercise patience and keep trying to convert this gang into honest-to-goodness Canasta players? Or should I join a bridge club and save a disposition that is rapidly going to the dogs?"

This is a very difficult problem. There are official rules for Canasta, but people are entitled to make up their own rules if they wish to do so. House rules don't have to be good, logical or wise. They just have to please the players.

When the players can't agree

on which rules to follow, you have a problem in human relations rather than a problem in card games. I would suggest a certain amount of horse trading. Accept the least objectionable of the various house rules in return for scrapping the worst of them. Or, perhaps, play one game of official Canasta in exchange for one game of hot-rodd Canasta.

Another solution is to try Samba. People don't seem to invent as many rules for Samba as they do for Canasta.

If you do decide to join a bridge club, maybe you can find three kindred souls who would like to play some honest-to-goodness Canasta once in a while. It may be the best way to save your sanity and your disposition.

WAKE UP YOUR LIVER BILE!

Without Calomel—And You'll Jump Out of Bed in the Morning Ravin' to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in your stomach. You get constipated. You feel sour and sunk.

It takes those mild, gentle Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 87¢ at any drugstore.

What's Cookin' In Gray County HD Club Work

By HELEN DUNLAP
Gray County Home Demonstration Agent

About 700 representatives, from all over the United States and Puerto Rico, attended the 1951 convention of county home demonstration agents, held in Fort Worth last week. This is the first time the convention has been held in any city other than Chicago, Texas, with 147, and Oklahoma, with 57, led with the largest delegations. Utah, which has no state organization, had one county home demonstration agent present. Puerto Rico and Germany were each represented with one agent.

The theme of the convention was "Broader Horizons for Home Demonstration Work." This theme was made real by the various demonstrations and talks given during the meeting. Miss Mena Hogan, Consultant Office of Foreign Agricultural Relations, United States, gave a program showing the economic conditions of homes and of agriculture in 11 European and middle east countries. She had just returned from a visit to those countries, and illustrated by the use of colored slides. Although it was contrary to the religious beliefs of some of the people to have their pictures taken, some consented to do so for Miss Hogan.

Programs related to clothing and dress were presented by Mrs. Louise Huston, Home Economist with the Vogue Pattern Company and Miss Iris Davenport, editor, Women's Department, Southern Agriculturist. They emphasized the fact that distinction in dress is the result of careful planning and much forethought.

"Modern Ironing Techniques - An Aid to Health" was demonstrated by Miss Mary Riedel, Home Economist, Proctor Electric Company. She showed a series of methods to use in preventing fatigue in doing the job.

Miss Florence L. Hall, Field Agent, Northwestern Region, Extension Service, United States Department of Agriculture, reminded the women that American youth should be taught that politics is government, and having a part in government is the American Way. "Take the world as you find it, but don't leave it that way," Miss Hall said.

A report was given on the progress now being made on establishing a national 4-H club center near the nation's capital. E. W. Aiton, executive director, Extension Service, Washington, said transactions between the foundation and Chevy Chase Junior College for a former girls school near Washington, are being made for the purchase of the 12 acre campus. He stated there would be lodging, dining and conference facilities. It will be operated the year round on a non profit basis.

Miss Martha M. Kelly, Home Economist with General Foods Corporation, in just 15 minutes time, showed ways to apply cake icings and decorations for certain occasions.

Sunday, a committee of 3 county home demonstration agents, composed of Clara Pratt, Lubbock, Corinne I. Stinson, Dalhart; and Helen Dunlap, Pampa, presented an illustrated program on Texas activities and places of interest. They used colored slides, made by county agricultural and home demonstration agents over the state, as well as those of certain commercial companies. They showed various industries; the Big Bend National Park; and the Palo Duro Canyon.

Tuesday was election day at the convention. Mrs. Carmen Johnson, Fort Collins, Colorado, was named president. Miss Helen Clark, Danbury, Connecticut, was elected vice president; Miss Virginia Van Landingham, Tarboro, North Carolina, second vice president; Miss Helen Hackman, Pittsfield, Illinois, third vice president; Miss Lihah Hambree, La Grange, Kentucky, secretary; and Mrs. Mary Bullis, Allegan, Michigan, treasurer.

At the last general session on Wednesday morning, the Grace

Open House Held In White Deer

WHITE DEER (Special) — Mrs. Jo HySmith and Mrs. Hope Rusk held open house, Sunday afternoon from 2:30 till 6 o'clock, at their new home which has just been completed, replacing the house which was demolished by the tornado of June 6.

Approximately 70 people called during the afternoon. Mrs. Rusk and Mrs. HySmith received the guests; Mrs. Kenneth Bruton and Mrs. Charles Milligan were at the register; and Mrs. John Baird, O'Keefe, Glenn, Pat and Jan, conducted Glenn, PPat, and Jan, conducted the guests through the house. Miss Claudia Everly, Mrs. C. P. Hussey, and Mrs. O'Keefe, assisted by Mrs. Albert Matheon and Mrs. Ollie Bray, served coffee and cookies.

Fryinger Fellowship award was made by the National Home Demonstration Agent Association president, Mrs. Mary Switzer, to Mrs. Louise Craig, Pulaaki, Kentucky. This is the first year the award has been made. An application from 25 states was received by the selection committee.

The annual recognition luncheon, sponsored by the Spool Cotton Co. Wednesday noon, was given in honor of 58 county home demonstration agents from the various states. Those being honored had been selected by committees upon their achievements over 10 or more years of service. Texas was honored by having 4 receive recognition. Mr. M. L. Wilson, director of Extension Service of the United States, presented each one with a certificate of award. During the program, The Simplicity Eastern Co. presented a style show, using home demonstration agents as models.

All the visitors will remember Texas for its changeable weather. From Sunday and Monday's balmy weather, the wind suddenly turned to the north just before the Friendship party Monday night. The party was being held under a big tent on the Norwood Stock Farms, about 6 miles from Fort Worth. Fifteen buses took the delegates to the tent, where they all received an initiation to a "Texas Norther."

They were guests of the Corn Products Refining Co. for a chuck wagon supper. Musicians from WBAP entertained with many recent numbers throughout the meal.

Four boys and an adult from an Indian school in Oklahoma entertained with different types of war dances. Their closing number was an impressive prayer, in the form of a chant, for all the American boys in Korea. All the agents and the state leader from Kentucky square danced with one of their members calling. The last number was folk dancing by 5 Tarrant County 4-H boys and girls, costumed in yellow and green.

Another highlight of the entertainment was a rodeo Wednesday night at the Circle R Ranch, with Sears-Roebuck Foundation as the host. Following a fish fry, cow boys entertained with cattle roping and bull dogging. Between acts, a clown entertained.

Mrs. Mary Switzer, the national president, was quite in evidence at the rodeo in her boots and Stetson hat presented her by the Texas Association. Although she is from Buffalo, New York, Mrs. Switzer looked the part of a cow girl. She said she would be the envy of all the boys on her street at home.

Much of the success of the convention rested in the hands of the Texas officials and their committees. The state president, Beatrice Elliott, Angleton, was much in evidence during the meeting. Mrs. Gayle R. Wilson, Fort Worth, was responsible for many of the pre-convention arrangements, and Charlotte M. Tompkins, Panhandle, was chairman of registration.

The 28 Texas hostesses, in their western costumes, were busy helping others and doing errands. Lou Ella Patterson, Canyon, was chairman of that committee.

Southard - Wilson Wedding Scheduled For December

Mr. and Mrs. E. W. Southard, 1325 Williston, announce the engagement and approaching marriage of their daughter, Barbara Vern, to Pfc. Richard A. Wilson, son of Mrs. Henry C. Link, 1704 Hamilton. The wedding has been set for mid-December.

Messiah Singers Have First Meeting

A group of enthusiastic singers met here Monday night to plan the city's annual "Messiah" which is to be directed by Mrs. May Foreman Carr.

Many musicians who were a part of the first Messiah presented here 12 years ago were present for the meeting along with many newcomers to Pampa who have participated in the "Messiah" in other cities.

The group agreed to assist with the mammoth chorals to be presented in Amarillo December 9. They will also assist the Herford and Berger choruses in their annual Christmas programs.

The local musicians will meet in the First Methodist church,

Local Boy Working For Medicine Degree

NORMAN, Okla. — Robert Cecil Troop, Pampa, is one of eight graduate students at the University of Oklahoma school of medicine working toward the degree of doctor of philosophy in medical sciences.

Troop, son of Mr. and Mrs. A. C. Troop, Pampa, is working in the department of physiology at 7:30 p.m. Mondays for rehearsals.

Pampa Women Attending TFWC Annual Convention In Denton

Three local women are attending the Texas Federation of Women's clubs convention in Denton this week. Mrs. Raymond Harrah, state communications chairman, was accompanied by Mrs. J. W. Garman, Jr., representing the Twentieth Century club; and Mrs. Knox Kinard, representing El Progresso.

Miss Carol Lane, nationally known travel authority and lecturer, will address members of the Texas Federation of Women's clubs convention Thursday.

At the convention Miss Lane will demonstrate a "10-in" wrinkle-proof outfit consisting of one basic dress whose unusual accessories transform it into distinctly different costumes for sports, afternoon or evening occasions.

For the mother of inquisitive children, Miss Lane has prepared a plan for converting the family car into a college-on-wheels headed for adventures in learning. Miss Lane recently acquired two junior-high school students on an educational tour and will relate how both she and the students brought the school books alive on the trip. Demonstration of a "travel laundry," tips on budgeting, advice on where low-cost fun can be had, and helpful hints on how to avoid mechanical difficulties en route, are also included in the travel expert's talk.

Born in Larned, Kan., Miss Lane started traveling at the age of two, accompanying her extraordinary father on his rounds. A former newspaper woman, fashion expert and celebrity co-ordinator for a major radio program, Miss Lane is now well known as the author of the syndicated column "Tips on Touring" and of such helpful booklets as "Touring Can Be Child's Play" and "Travel A La Car."

Wives of Elk club members will meet at 8 p.m. in the club room for bridge and canasta.

Troop 23, Girl Scout Little House; Troop 35, Woodrow Wilson School; Troop 40, Horace Mann School; Troop 24, Horace Mann School; Troop 26, First Christian Church.

The general planning committee of the First Methodist church will meet at 7:30 p.m. in the pastor's study. Farris Oden is chairman.

THURSDAY
Mrs. Ben Ogden, 1608 Christine, will be hostess to the local writer's club at 7:30 p.m.

Mrs. J. W. Garman, Jr., 1125 Charles, will be hostess to the League of Women Voters unit at 9:30 a. m. Another unit will meet at 9:30 a. m. in the home of Mrs. F. M. Culbertson, 2005 Charles.

First Methodist Sanctuary singers will have their annual Thanksgiving dinner and fellowship at 7 p.m. The WSCS will be hostesses.

Mrs. Tom Cottor, 513 Lowry, will be hostess to the Police Auxiliary at 7:30 p.m.

By mail, \$7.50 per year in retail trading zone; \$12.00 per year outside retail trading zone. Single copy 5 cents. No mail order accepted in localities served by carrier delivery.

No Edge To Truman Talk

As everybody who can read or hear probably knows by now, Mr. Truman made what is called "bid for peace" in a recent radio speech. Whatever the effects of that speech might have been in the way of letting the world know that the administration is dedicated body and soul to world peace were belied up by at least two things.

In the first place, press agents for the New Deal, along with some others, had been making air waves and newspapers with advance propaganda for several days before the speech was delivered. This advance balldoo did much to make the talk sound like an auctioneer's chant. The advance boys pounded away at the content that the principal idea of Mr. Truman was to beat the Russians to the punch in the UN bout in Paris. In other words, the speech was to be the main spring of political strategy to be followed by Britain, France and the United States in the Paris sessions. The press agents made it clear that propaganda purposes, rather than any genuine aims of accomplishing something, were at the bottom of the whole business.

In our opinion, that cheapened the speech and did a lot to ruin any beneficial effects it might have had. Then there's the crux of the speech itself. This is the argument that the "bid for peace" toward financial ruin in an international arms race and that the way to block this ruin is for everybody to get out of the race and to put some UN cops on the track to see that no sneak racing goes on.

That's the first thing the press agents were drumming in this armament race? The United States! Not only are we spending vast sums to build up our military strength, but we're spending billions upon billions to build up the military and industrial strength of every nation that says it will be friendly to us if we give it everything it wants.

For the United States to continue along that road can mean only one thing — financial collapse.

Russia can sit back and laugh as we go on plunging deeper and deeper into debt to supply western European countries with goods and war gear. And while she's laughing she goes right ahead stuffing those countries not with guns, ammunition and machinery, but with propaganda for Communism. There's no comparison between the costs of our method and the costs of the Russian method.

What's worse, there seems to be no comparison between the results obtained. Some of the nations we're playing with American munitions, machinery, money and grub are already so steep in Socialism or Communism that they could and probably will become outright enemies any day. The only thing that's keeping them from doing that now, in some cases, at least, is the steady flow of multi-billion dollar handouts from this country.

When the arms race and the insane siphoning of our wealth into the sewers of Europe, plus the administration's squandering of billions of dollars annually for things having nothing to do with government functions, finally results in financial collapse for us, the wobbly western Europeans undoubtedly will decide it's time to have no more truck with Uncle Sam.

If that time comes, as we believe it surely will, Russia will get the benefit of all the stuff we've dumped into Europe, including our munitions. We think that's part of the Stalin's game, this thing of letting us bust ourselves to build up western Europe so that later on he can step in and take over by the propaganda process and the infiltration of more key Reds into the governments of Europe.

"We'll show the world we're for peace," sounds good. But where does it get us? We told the Chinese that the United States told them that he was for peace, too, but that peace is impossible so long as the Kopalists have power. And he followed thru by making a lot of phony promises, including some mush about land reform and huge piles of Grade A rice for every Chinese family. Bingo! The Chinese went Communist.

How much Russian pressure of a gentle and sneaking sort would it take to make a Communist country out of France? Not much.

Baxter's Views

DAVID BAXTER

MISQUOTING LINCOLN

Mrs. G. N. Eklund is a difficult person to put anything over on. For example she has sent me a copy of the Crusade for Freedom's latest pamphlet, in which Dwight Eisenhower and Joseph Grew give the Crusade a "thorough" and "honest" appraisal. The Crusade's propaganda writers are in their well-camouflaged attempts to sell the world government idea to Americans, can be seen in this Crusade pamphlet on Radio Free Europe and Asia.

"Like the 'V' for Victory, the World Freedom Bell has become the symbol of resistance to world tyranny," says the booklet. "To the enslaved people of the world, HOPE—inscribed on its rim are Abraham Lincoln's words: 'That This World, Under God, Shall Have A New Birth Of Freedom.'"

Pretty clever, eh? People who have never read Lincoln's address and the Emancipation Proclamation will readily believe that the martyred President really said that.

The truth is, however, that Lincoln said: "That this Nation, under God, shall have a new birth of freedom—this Nation, not World. Truth never has meant very much to the world government people, anyway, if a lie will serve just as well to get people thinking in world instead of American politics and terms."

One of our New Mexico readers wonders why I am such a "fascist" or "nationalist" and uphold such a "reactionary" plan as capitalism. I am not against anyone trying to do so. I am not against anyone trying to do so. I am not against anyone trying to do so.

That's the trouble with the collectivists, however. They are unwilling to try socialism on a strictly voluntary basis but insist that everyone else be forced into the scheme, too. They say their idea won't work if it must compete with a capitalist society and that the thing must be ALL socialism or NO socialism. The very admission that a capitalist society can't work in competition with capitalism in the same world seems to me a confession of socialism's inferiority because if it were better than capitalism, it would not only be able to successfully compete but would be so much better that capitalism would die a natural death, with people deserting the capitalist society for the socialist one.

Russian socialism is not working and never has worked. Even Lenin had to declare a "retreat" and permit some capitalism in Russia. Stalin couldn't get socialism to work so he slyly switched over to state capitalism. Capitalism implies private ownership of property. Anyone who owns anything is a capitalist. It's not the simple switched ownership from private individuals to ownership of everything by the state, or state capitalism. Russians do not share this view. They have had so. All they share is common slavery under the master state.

Socialism can't tolerate individual liberty because it must be a controlled society. A society of free, independent individuals is exactly opposite.

A "planned economy" won't work to begin with because one can't drought or natural disaster can throw the whole thing out of killer. To plan an economy means that everyone must fit into the plan. Thus, there can be no independent individuals. Those who are not in the plan must become the society's dictators. In Russia 4 million Communist Party members dictate to 175 million non-Communist citizens.

I doubt if capitalism could be called a "plan" because it is not a planned economy. You can't have dictatorial planners and free enterprise at one and the same time. You can't have free enterprise if someone else is planning it for you and forcing you to conform to his dictums.

Socialism has not worked in England and it is not working right here in America where we have it in practice, whether we call it socialism or not.

True capitalism implies LACK of a planned economy and society. Every individual does his own planning and running his affairs to suit himself, the only limit being that he must not interfere with the other fellow's right to do the same. Thus, we can successfully work in VOLUNTARY cooperation with another but NEVER on a compulsory, forced basis whereby we have no freedom.

Better Jobs

By R. C. HOILES

"Why Taxes Won't Stop Inflation"

I want to continue quoting from Dr. V. Orval Watt's article on "Why Taxes Won't Stop Inflation". Under the sub-heading of "Forces Behind Government Extravagance" Dr. Watts draws these conclusions:

"Everyone may agree that total government spending and the increase of currency should stop. But individuals and groups acquire vested interests in the spending and credit expansion. They become more and more dependent on them for income and employment. They persuade themselves and others that any cut in the handouts to them would ruin them and hurt business in general, whereas an increase would be correspondingly good for everybody. The very fact that the policy has raised prices is used by each group as an argument for one more increase for itself.

"What may we expect of political leaders under these conditions? Will they neglect the chance to profit from directing government spending where it will help keep them in office, enhance their prestige, and benefit them in other ways?"

"You doubtless know of some of the graft brought to light by congressional committees—in connection with RFC loans, the sale of Federal jobs, the granting of patents, and the awarding of government contracts. But you may not know that a person who has left the government service has a right, recognized in law, to receive Federal aid to education. Soon after leaving the government, he is offered a lucrative career in the peddling of government favors are attracting into American politics ambitious adventurers who may attain the highest levels in government service. They seek power, which gives them control over government money. In order to get it they clamor and buy their way into the confidence of voters and bureaucrats, all the way up the political ladder. They campaign for new government activities and more government spending. For a time they are able to administer the new agencies. In return, they get prestige and generous expense accounts for travel and fine living at government expense. When they retire from the service, they are eligible for high positions in business or for fat retainers and fees for using their influence with government."

"These political adventurers are not merely the lowest five percent of the world we live in. We always say the good things too late. He was born with a wooden spoon, if any, in his mouth. There just wasn't much money in the family. There are lots of families and higher income. He moved from his native Colorado to a place called Everett, Washington. It's about 25 miles or so north of Seattle. A pleasant little city, given to lumber, king paper mills, fine rug jobs in those days and maybe it's a longer and more rugged one today. I don't know. Artificial Rainfall Meeting Scheduled

WACO — (AP) — Representatives of four central Texas counties meet here today to discuss a plan for increasing rainfall through artificial methods.

McLennan, Navarro, Bosque, and Comanche counties have subscribed a total of \$24,000 for a contract with the Water Resources Development Corp.

Ford Hubbard, a representative of the firm, said the first attempt at increasing rain may begin this week.

DOBBIN DISAPPEARING

WASHINGTON — (AP) — Dobbin's popularity definitely appears to be waning — even in Minnesota's Otter Tail County.

Otter Tail's horse population was the heaviest of any county in the United States in the 1945 census of agriculture. The Census Bureau reported here that between 1945 and 1950, the county's horse inventory dropped from 19,399 to 10,709. Meanwhile, tractors increased from 3,939 to 6,184.

Peace Is Not Simple; And The Solution Will Not Come Soon

WASHINGTON — (AP) — This is where we came in, not once but many times.

The United States denounces Russia in the United Nations; Russia denounces the "U.S. in the same place."

The U.S. offers a peace plan which the Russians spit on; the Russians offer a peace plan which we spurn.

And it's while both sides are talking peace, suggesting how it can be brought about, that they denounce each other hardest.

And the net result is more bitterness between the two than there was before, if that's possible.

Which seems to add up to this: peace is no nearer than it was more than a year ago when the Korean war started; and the arms race continues.

All this happens in the United Nations where the nations are supposed to work together but there the United States and Russia work against each other.

When Secretary of State Acheson made his pitch for peace in the UN in Paris last week he at the same time took the skin off the Russian and their foreign minister, Andrei Vishinsky.

Vishinsky in turn heaped scorn on the U.S., telling the delegates that during the night he almost died laughing when he thought of the American peace proposal.

This makes a pretty spectacle for the people of the world who in the end, if there is a war, will have to live it.

In the space of a piece like this there's no room to examine in detail the plans offered by either side.

But one point in the American plan — mentioned by President Truman in his nationwide broadcast can illustrate how tough it would be to work out a peace plan and how long it would take.

After the armaments of all the nations were known, through the investigations of UN inspection teams, and after the nations agreed to cut down on their arms, Mr. Truman said:

"As the facts are revealed, progress can be made toward working out by mutual agreement the exact amounts and kinds of armaments and armed forces which each country will finally be permitted to have."

"It might be possible, for example, to agree that each country would have armed forces proportionate to its population, with a ceiling beyond which no country could go. Furthermore, each country might be limited to using more than a fixed

Man Collects Bomb Material As Hobby

OAKLAND — (AP) — A reclusive man who collected atomic and other defense data as a hobby faced vagrancy charge Tuesday—nothing more serious.

The FBI accepted Otto Frederick Maynard's story that he is just a shy amateur photographer beating high rent by living in a cardboard shack under the strategic San Francisco-Oakland Bay bridge.

Oakland police, investigating a tip, found the photographs of such things as Naval installations, rail yards and the cyclotron at the University of California. Maynard said he took the pictures because they were easily photographed.

As for literature on the A-bomb, it was all on what to do in case

HANDY LOCATION

WOOSTER, O. — (AP) — Mrs. Robert Ebert lives opposite the Wooster College golf course, a handy location for her hobby.

She collects lost golf balls, now has 1,449 of them. She found most of them in the off-course rough. One day she found 14.

She says she plays a little golf herself but always keeps her eye on the ball. Chances are if she lost one she'd find it herself.

Taft's Book To Be Published Thursday

WASHINGTON — (AP) — Senator Taft (R-Ohio) has written a book, to be published Thursday, with the aim of describing what he calls "serious dangers from the foreign policies of the present administration." Its title: "A Foreign Policy for Americans."

A statement backing his bid for the Republican Presidential nomination quoted Taft as saying: "We are embarked on a voyage at this moment in which a continued failure of understanding and judgment may wreck the greatest adventure in freedom the human race has ever known."

Taft said he regards the danger from present foreign policy as greater than ever "from the constant increase in the activity, he spending power of the federal government."

BOYS SHOOT SHARK

CORNER BROOK, Md. — (AP) — Harold Heath and Albert Layden went hunting for rabbits but came back with a 6-foot ground shark. The boys were pushing their boat off to return when they spotted the shark's fin, and Heath killed it with his rifle.

HANNIGAN MADE A TERRIFIC RUN FROM HIS OWN THIRTY-TWO AND WENT OVER STANDING UP!!

HE DID IT! HOKE DID IT! THEY MISSED THE KICK! WHO CARES! WE'LL MAKE THE NEXT ONE!

IN THE LAST QUARTER THE TEAM'S GOT THE OLD SPIRIT, JAN! THEY CAN'T GET THROUGH OUR LINE!

YAY!

Blondie

POP, GUESS WHAT? ELVIRA VAN SWOOG HAS INVITED ME TO HER SWANKY PARTY TONIGHT!

THAT'S FINE, SON. I'LL NEED FIVE DOLLARS.

FIVE DOLLARS? I'LL HAVE TO HAVE A HAIRCUT, A MANICURE, A SHINE AND MONEY FOR A TIP.

YOU CAN FORGET THE TIP, SON—THIS IS ON THE HOUSE.

Alley Oop

I STILL CAN'T BELIEVE FOZZY KICKED TH' BUCKET IN THAT FIRE, 'EMBE HE WENT BACK TO OUR FORTY-FOUR HOUSE AFTER OUR ATTACK ON OL' NERO FOLDED!

OH, HO! THEY GOT TH' PLACE STAKED OUT! NOW WHY IS HE IN THERE, OR ARE THEY WAITIN' FOR HIM TO SHOW UP??

COULD BE THEY'RE WAITIN' FOR A COLONEL, TOO! 'S TOO BAD BOYS, BUT 'T' COLONEL GOT WENT THAT-AWAY!

TUP, DIDDY, UM-TIM, DEE, DEE, DUM!

WELL, POOGH, YOU'RE UP ON YOUR FEET AGAIN. TAKE IT EASY, NOW, I CAN'T LEAVE THIS WHEEL WHILE WE'RE UNDERWAY.

I'LL PULL OVER AND TIE UP AT THIS DOCK, THEN I'LL BE WITH YOU.

YOUR EYES ARE CLEAR...WE JUST GOT THAT POISON IN TIME, YOU GUARD THE HOUSE BOAT AND I'LL GO ASHORE AND GET YOU A FEW PILLS.

I'LL JUST TAKE A PEEK AND SEE IF THERE'S ANYTHING IN THE PAPERS ABOUT ME.

Bo

OSZARK RETURNED TH' KICK OF ALMOST TO MIDFIELD! AFTER A FIELD GOAL BY THE VULTURES... 27-82-51... OUR HIDE-OUT PLAN!

AS THE BALL IS SWAPPED A WILD-CAT END THROWS A WEAK BLOCK AND COLLAPSES!

...WHILE OSZARK IKE DASHES TO THE FAR SIDELINE!

AN END SWEEP? NO! HE'S FADING TO PASS!

Ozark Ike

SHH! A PERSIAN. ANY REQUESTS, SIR? MMM, I'M CATCHING ON. PEOPLE WHO WANT TO SEE ZAZAROF STAY AT THIS HOTEL, AND NERI IS THE GO-BETWEEN.

NERI WHISPERS A FEW WORDS, SOON THE PERSIAN YAWNS, LOOKS AT HIS WATCH.

BUT INSTEAD, HE STROLLS OUT OF THE HOTEL... BUT FOLLOWS.

WHAT'S GOT T'BE DID IS GOTTA BE DID!

Buzz Sawyer

YOUR FELLOW BEING IS ONLY STUNNED! IF YOU WISH, NO UNWARRANTEDNESS TO YOURSELVES, STAND AS YOU ARE!

UING FULLER

UING FULLER

Wash Tubbs

THAT NIGHT AS WASH TAKES HIS TURN AT THE WHEEL—

NEVER MIND, TUBBS, I CAN DO IT BLINDFOLDED!

HOLY SMOKE, WE NEARLY RUN DOWN SOMETHIN' ON OUR PORT SIDE!

IT'S A BARGE... LOOKS LIKE THEY'RE EMPTY'N BARKELS! ANOY, THERE!

Boots

WHAT'S GOT T'BE DID IS GOTTA BE DID!

ONLY... AW-W-W... POPO IS SO CUTE... HONEST. POPO...

IT AIN'T NO BUSINESS OF MINE, BUT WHAT YOU SEE IN THAT DORY PROJECT ESCAPES ME: OF ALL TH' OVER-SIZED, TREE-RIPENED TOMATOES!

LIKEWISE!

Mickey Finn

Y-YOU CAN'T WAKE HIM U-UP? NO! GET ANOTHER GLASS OF WATER, I'M CALLING THE DOCTOR!

IT'S MRS. MESSULLAN, DOCTOR! SHE CAN'T AROUSE HER HUSBAND!

A-AND HE MUST'VE TAKEN TOO MANY, LISTEN TO ME! EVERYTHING TO— HERE'S WHAT I WANT YOU TO DO!

—AND TRY TO KEEP CALM! I'LL BE RIGHT OVER!

Mutt & Jeff

THE OLD LADY WHO LIVED IN A SHOE COULDA TAKEN IN BOARDERS IN ONE OF HER... WHAT SIZE, PLEASE? THREE AND A HALF!

ONCE MORE—PUSH!

THEY MUST BE TOO BIG—THEY FEEL COMFORTABLE!

WELL, YOU SEE, ALL OUR SHOES ARE BIGGER ON THE INSIDE THAN THE OUTSIDE!

Penny

FATHER, DO YOU BELIEVE A PERSON'S WHOLE LIFE SHOULD BE ALL PLANNED OUT?

HOW IS IT OBVIOUS THAT YOU DO?

WELL, PRINCESS, YOU'VE BEEN PLANNING MINE FOR FIFTEEN YEARS.

IT'S OBVIOUS THAT I DO.

Freckles

WELL, GOOD NIGHT, HILDA—SEE YOU IN ZOOLOG BEFORE YOU LEAVE, LARD!

JUST A MINUTE BEFORE YOU LEAVE, LARD!

HUH... SOMETHING NEW!

YES! DADDY BOUGHT A GUEST BOOK AND WANTS YOU TO SIGN IT!

Donald Duck

WE WANT TO BUY A SIX-FOOT LADDER!

HERE'S ONE—HARD WOOD AND COSTS \$10!

HMM—HOW ABOUT THIS ALUMINUM JOB?

(YEAH, NOT BAD!) COSTS MORE THOUGH!

HOLY COW! I'VE BEEN TAKEN!

OKAY, WE'LL TAKE THE WOOD ONE!

I SAY TAKE THE ALUMINUM ONE... WE'VE FORGOTTEN!

TWO BUCKS MORE REMEMBER! LET'S TAKE A VOTE!

What Better Way To Find A Buyer Than Through A News Want Ad?

The Pampa Daily News

Classified ads are accepted until 9 a.m. for week day publication on same day. Mainly about people ads until 10 a.m. Deadline for Sunday paper—classified ads 12 noon. Saturday, mainly about people & p. m. Saturday.

PAMPA

Hospital and Medical Center Of North Eastern Panhandle

In recent years the people of the North Eastern Panhandle have been looking to Pampa for Medical and Hospital care. The open last year of the new \$1,750,000 Highland General Hospital, the construction of several new clinic buildings and offices — added to the other fine facilities offered, have made Pampa a haven for those seeking the most modern in medical care.

Nowhere in this area is found more modern hospital and clinical facilities, better equipped or better staffed.

Pampa's many fine physicians, surgeons, dentists and orthodontist offer specialised care found in no other city in the North Eastern Panhandle.

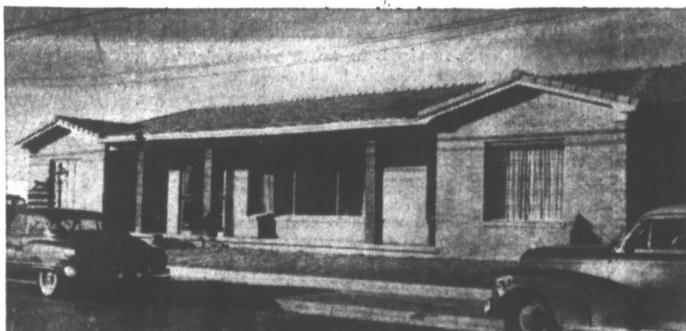

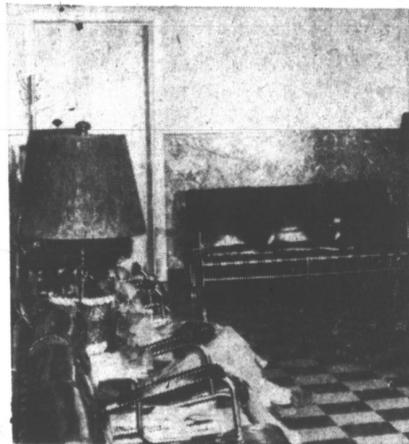

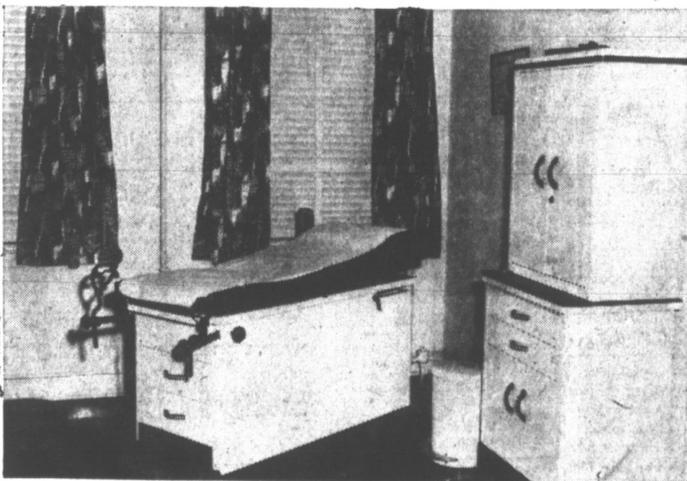

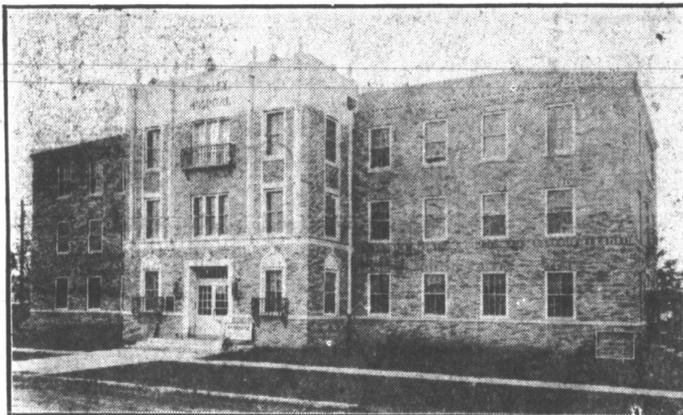

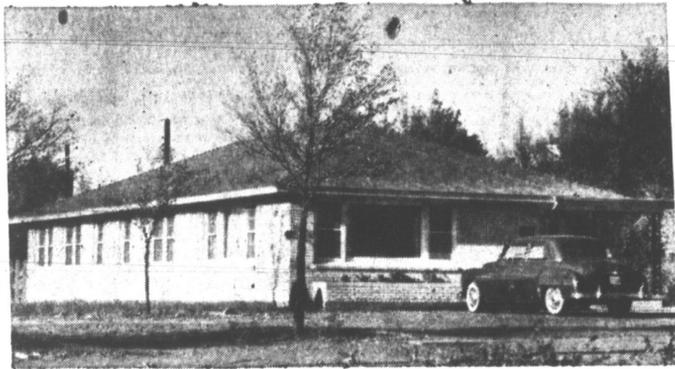

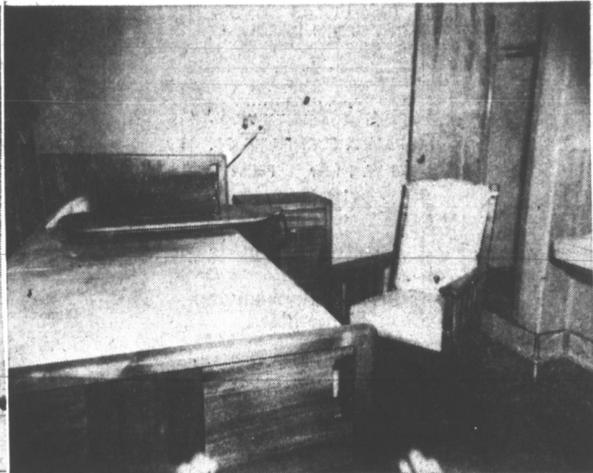

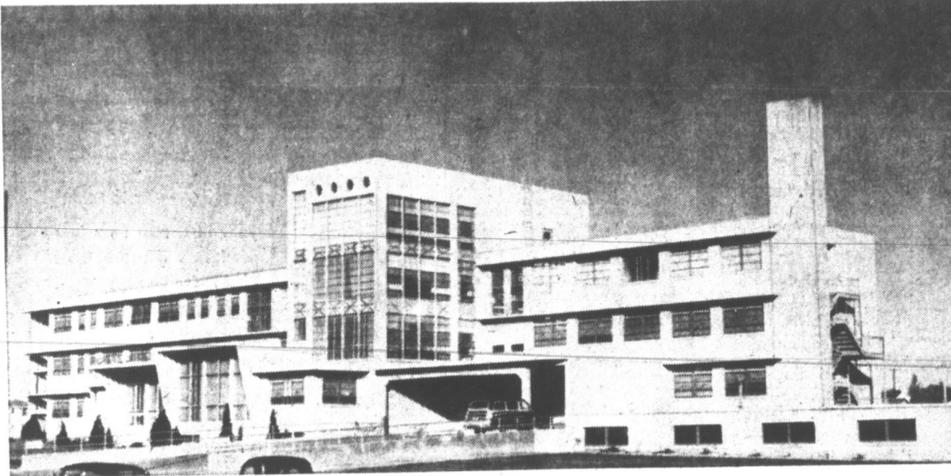

Pampa and its area is a healthful place and its people cherish good health. With the aid of its many fine doctors they continually work toward the goal of keeping Pampa the Medical Center for this fast growing area of Texas.

This is just another example of what can be accomplished in America where free enterprise is allowed to work out its own destiny.

In the interest of building PAMPA, the following individuals, business, industrial and professional firms join in presenting this series of informative pages designed to show why PAMPA is a better town.
