## New Deep Test Is Staked Near Pampa

Another oil venture, "south of the river," was announced today by Gulf Oil Corp. The company is staking a 9500-foot venture just seven miles north of the Roberts-Gray county line and about 14 miles northeast of Pampa.

The test, Gulf No. 1 John Haggard, Tract 2, is in section 5, block 2, of the I&GN survey, 660 feet from the south and west lines of the section.

Company officials said this morning the wildcat would test the Ordovician formation. Geologists estimate the Ordovician will be topped about 9500 feet.

The company holds approximately eight sections in its Haggard and Bell leases which offset a 24-section lease owned by C. H. Clark. It was assembled in a solid block.

### SECOND WILDCAT

This is the second wildcat staked near Pampa. Phillips is currently drilling below 8749 feet on its No. 1 Hobart Ranch venture, six miles northeast of Pampa in Gray county.

Gulf's test will be drilled two miles east and seven miles north of the much-discussed Phillips Jenkie wildcat.

Gulf has done extensive seismicograph shooting during the past two or three years in the vicinity of the new well. One crew moved off the area about 60 days ago.

No contractor has been assigned the drilling contract as yet, Gulf officials said today.

## Absentee Voting Stands At Seven In City Election

Absentee voting in the \$575,000 city bond election rose to seven yesterday afternoon and stood that way shortly before noon today, city hall officials reported. Actually the deadline will be exercised at noon tomorrow, close of business for the city for the week.

To be voted on are four propositions: water, sewer, street and park improvements.

## Lawyer Stricken By Heart Attack

The Pampa attorney was admitted to the hospital suffering from a serious heart ailment on Oct. 15. Hospital officials described his ailment as recurring heart attacks.

Yesterday members of the local Bar Assn. started standing two-hour watches by the 111 lawyer's bedside to serve as male nurses.

## Meteors In Southwest Make History

ALBUQUERQUE — (AP) — An unusual number of unusual meteors flashing through the southwest sky this autumn night has the experts puzzled. In the past 11 days, seven fireballs of exceptional size—and with some other exceptional aspects—have zoomed through the skies over a seven-state area. The incidents, noted by astronomers at New Mexico university said that frequency has never been equalled in history.

"In fact," said Dr. Lincoln La Paz, head of the institute, "there has never been a rate of meteoric fall in history that has been one-fifth as high as the present fall. If that rate should continue, I would suspect the phenomenon is not natural."

The fireballs reported by observers in Arizona, New Mexico, Oklahoma, Texas, Colorado, Utah and Nevada don't behave like ordinary meteorites at all, Dr. La Paz said. They travel in straight lines when they should follow a curved course. Frequently they are silent although their size should make a definite noise. They have a greenish color he said has not been reported outside the Southwest.

One of the most unusual was the one that roared 125 miles in straight line across Arizona Nov. 2. Seen also in New Mexico, Utah, and Nevada, the fireball vanished in a blinding flash somewhere in Northern Arizona. There was no noise.

The most conventional was the one that streaked across Oklahoma City, Okla., last Wednesday, being seen in New Mexico, Texas and Colorado. Although it was of the greenish color, it made a definite noise. Dr. La Paz said he hopes ground parties will recover fragments of it, and noted that pieces are recovered from only about one in 10 large meteorites.

Yesterday's show in Southern Arizona and New Mexico was described as perhaps the oddest of the whole series. Dr. La Paz said two objects, flying parallel, crashed near Cloverdale, N.M., in the southwest corner of the state, sending up a double mushroom of smoke.

## PTA Hears Bond Issues Explained

More than 350 members of the B. M. Baker PTA last night heard City Manager Dick Pepin and former County Judge Sherman White explain the coming \$250,000 civic improvement bond election.

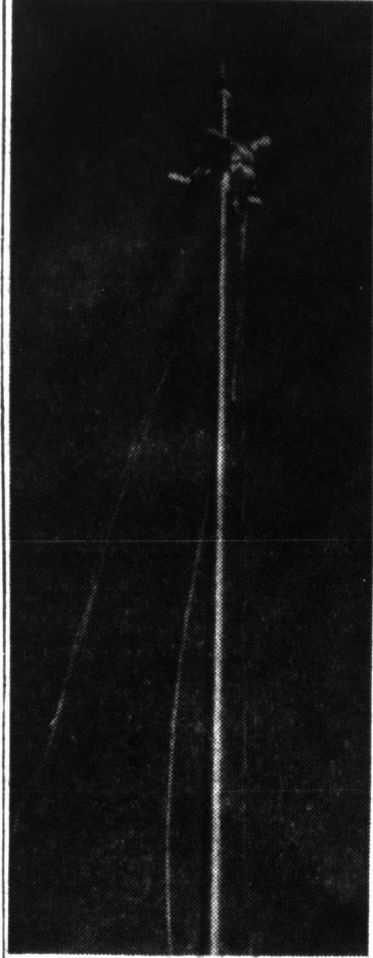

Pepin told the group the city has been working without any margin of safety in water reserves during the past two years. He added that if one well would have failed to operate, or if a major fire had broken out last summer, water would have had to be rationed. He pointed to the present distribution system as the weak link in the water delivery chain. The city manager traced the proposed enlarging of the piping system on a map specially prepared for the water department.

With the aid of several other maps, Pepin detailed the proposed improvements to the city sewer system, the location of proposed bridges and traffic lights and the restrooms in city parks.

Judge White briefed the group on the history of the upcoming bond issue and emphasized that it was on the recommendation of a group of 75 men and women, appointed by the city commission to study present needs of the city, that the bond election be called.

Pepin and Judge White were introduced to the group by City Commissioner "A" Neal. Prior to the bond election talk, the B. M. Baker chorus, made up of school children under direction of Mrs. Faye Gallman, sang several songs. Several association announcements were made by Mrs. Jim Goff, president of the Baker School PTA.

Following the program, doughnuts and coffee were served to the group in the school cafeteria. If it comes from a home, store we have it. Lewis Edwa. Ph. 1312.

## Chamber Officials Confer With Airlines President

Keith Kahle, president of Central Airlines, yesterday conferred with city and chamber of commerce officials in preparing data for application of a permanent certification in Pampa for the airline. Central Airline has been operating on a temporary certificate. Curtis Douglass, local attorney, will be in charge of Pampa's presentation favoring the application at a hearing before the Civil Aeronautics board in Oklahoma City, Dec. 5.

Meeting with Kahle were Dick Pepin, city manager; Farris Oden, chairman of the chamber aviation committee; Hugh Burdette, chamber vice president; W. B. Weathered, postmaster; E. O. Wedgeworth, general manager of the chamber; and Gene Owen, local manager of Central Airline.

## Rancher Suffers Heart Attack

Siler Hopkins, Gray county rancher, was admitted to Worley Hospital early this morning following a heart attack he suffered on the ranch.

The stricken rancher was brought to Worley Hospital where doctors were still working on him at 10:30 a. m.

# Scaled Down Defense Plan In Europe Seen

WASHINGTON — (AP) — Administration officials said today the North Atlantic treaty organization (NATO) most likely will be called on to scale down its Western European defense plan along lines recommended here this week by Gen. Dwight D. Eisenhower.

Because of the financial difficulties of Britain and other Allies, these officials said, it is almost certain that a 12-nation "wise men" group will propose the downward revision during the NATO council meeting opening Nov. 24 at Rome.

The committee headed by Ambassador W. Averell Harriman is due to submit its interim report at this session. Named at the Ottawa meeting in September, and there given the "wise men" designation, it is making a country by country survey of the ability of the NATO Allies to bear the arms burden imposed by the 1950 "middle term" master plan.

This calls for a defense force of more than 90 divisions by mid-1954, which with Air and Naval backing was deemed sufficient by military planners to cope with full-scale invasion of Western Europe. The prospective downward revision means on its face fewer divisions by the target date, but under General (See SEALD - Page 12)

## Fire Today Guts McLean's 'Old Hotel'

Fire that broke out about 9 a. m. today left only a smoking ruin of the "Old Hotel," a landmark that has stood for nearly a half-century at 103 Broadway in McLean.

The blaze, which started from an unknown cause, did an estimated \$15,000 to \$20,000 damage. The loss was only partially covered by insurance, according to reports.

A passerby reported the fire when he saw clouds of smoke issuing from the structure. The McLean Volunteer Fire Dept. was called and the fire was under control in about an hour. Interior of the frame structure was gutted and furnishings were ruined by fire, water and smoke. The walls still stood, but the roof fell in while firemen were fighting the blaze.

The hotel was owned and operated for the past three years by Mr. and Mrs. Leon Waldrop. When the fire broke out, Waldrop was working on a ranch near McLean and Mrs. Waldrop had left for Amarillo. The two story frame hotel was built in 1903.

## Rural Fire District Proposal May Hike Allowable Tax Rate

By HENRY S. GORDON  
The amendment authorizing creation and establishment of rural fire prevention districts is similar to the one passed in the state by a slight margin in 1949. (It was defeated in Gray county 690-273). The only change is a legalized tax rate hike from three cents to 50 cents per \$100 valuation.

Both amendments authorize the legislature to enact laws governing the creation of rural fire prevention districts within the counties of the state.

The amendment does state that the district cannot be created unless authorized at a special election by a vote of the people living within the proposed district.

As the amendment now stands a maximum of three cents per \$100 valuation may be levied. The proposed amendment boosts the allowable tax rate to 50 cents per \$100 valuation. But any rate

boost would first have to be authorized by the voters of the district.

The present amendment does not set out specifically what the function of such a district would be, who would administer it, and how it would operate. If such a district were to be created in Gray county it is uncertain whether it would be provided with fire-fighting equipment and manned by trained personnel or whether it would consist of officials directing removal of fire hazards.

There is no definite statement either of whether a separate taxing agency would be set up within the district or if the burden of assessing and collecting would be placed on the county tax office. The governing body of such a district is also purely to conjecture. Many take for granted that such a district would be self-

## Costly Dock Strike Ends

NEW YORK — (AP) — Striking longshoremen declared an armistice today and agreed to end the port of New York's billion-dollar, 25-day wildcat walkout.

A rebel union faction yielded to a New York state fact-finding board in the early morning hours, and promised to have the 30 miles of docks open later in the day.

The strike was the costliest in the history of the world's biggest port, with pier sealed, biggest port, with piers sprawled along both New York and New Jersey.

At the peak of the walkout, 114 ships were tied up. New York state Industrial Commissioner Edward Corsi, who appointed the three-man inquiry panel, announced shortly before 1 a. m. (CST) that the ports of New York and Boston would be open at 12 p. m. (CST) today.

Eastern was the only other port completely shut down by the strike, with other East Coast ports being affected from time to time.

In New York, an increasing number of dockers had been returning to work on non-military ships in recent days. Corsi's announcement followed a four-hour closed meeting between representatives of rebel longshoremen and the panel.

All the stevedores are members of the AFL International Longshoremen's Assn., whose Atlantic Coast District represents 60,000 dock workers from Maine to Virginia. The dissenting group, led by John Sampson, went on strike three days later.

Fights, aided by motes of strikers, barred entrance to the docks by non-striking ILA members. In many instances, fist fights broke out during the dispute, but no serious incidents occurred. In some instances, workers went to and from the docks aided by police details.

## Czech Envoy Described As Commie Spy

WASHINGTON — (AP) — A Czech diplomat assigned to duty here has been described by Senate internal security investigators as a top Communist spy.

He was named by Senators McCarran (D-Nev.) and O'Connor (D-Md.) last night as Col. Oto Biheler, military and air attache to the Czechoslovakian embassy. The senators said he is now in Czechoslovakia.

McCarran, chairman of the Senate Internal Security committee, said "it is known to our intelligence agents that Biheler for two years has been gathering information on this country's research into bacteriological warfare and atomic weapons and other advanced methods of defense."

KEY FIGURE  
In a separate statement, O'Connor described the Czech as "a key figure in the Communist espionage apparatus in the United States." O'Connor heads a subcommittee which has been probing into the administration of provisions of the internal security law relating to subversive aliens.

That act, passed last year over President Truman's veto, allows the Justice Dept. to bar subversive aliens from this country or deport them even if they have diplomatic status.

SECRET HEARING  
O'Connor said the information he detailed about Biheler's activities was confirmed in a secret hearing over which he presided Wednesday.

At the State Dept., officials said there would be no comment, at least until they had seen the internal reports. No one in authority was available for comment at the Czech embassy.

Both McCarran and O'Connor coupled their discussions of Biheler with new criticism of the State and Justice Depts. over the way the internal security act is being administered. Declaring that the record of Biheler is "typical of hundreds" of cases which have been handled by O'Connor's subcommittee in recent months, McCarran said: "It would seem that the State Dept. does not wish to impede the activities of these people and the Justice Dept. does not recognize the authority Congress has given it."

## Thanksgiving Shoppers Will Find Food Dollar Buys Less

Mr. and Mrs. Pampa will begin shopping for Thanksgiving soon and as they move around the stores they are going to find their food dollar is buying even less than last year.

If they could compare their turkey-day shopping total against that of last year at this time, they would find their dollar would buy about 10 percent less food.

A survey of food prices in local stores yesterday showed that Thanksgiving for the average family here is going to cost approximately eight percent more than in 1950.

The survey included 16 items that might be used in preparing a Thanksgiving meal. It doesn't cover everything since tastes vary considerably, but most families will be buying a majority of these items.

COMPARATIVE YEARS  
Prices compared were those advertised in The News one and two weeks before Thanksgiving in 1939, 1946, 1950 and 1951.

It covered the following: meat dishes of turkey, hen, ham or roast, cranberries, celery, apples, sweet potatoes, Irish potatoes, canned cranberry sauce, canned pumpkin, onions, mince meat, coffee, bread, butter, lettuce, cane sugar, eggs, flour, shortening and powdered sugar. There are many other specialties a housewife might buy such as assorted candied fruits and nuts for fruitcake.

The 1951 total of the 16 items with turkey as the meat dish was \$12.96, compared with 1950's \$11.88, 1946's \$11.36 and 1939's \$4.17, \$4.17.

This doesn't mean that Pampans are going to spend that exact figure for Thanksgiving, it merely shows the comparison of the 16 items in the 4 or 5 years. Many people are going to come close however if their grocery list runs parallel to that of the survey.

TURKEYS UP  
The comparison shows turkey has risen about four cents a pound over last year; a fat hen has gone up about two cents, ham is up three cents, roast beef is up 22 cents.

Cranberries rose 10 cents with celery up a penny, sweet potatoes rose from three pounds for 12 cents to two pounds for 25 cents; Irish potatoes averaged a six-cent increase, onions a and pumpkin were down one and

## Woman Said Dead Still Holds To Life

SAN FRANCISCO — (AP) — A 60-year-old woman clung precariously to life today after having been pronounced dead, then revived at the city morgue.

The apparently lifeless body of Mrs. Theresa Butler was found in the bathtub of her fashionable apartment yesterday noon. A doctor pronounced her dead. Two hours later, an assistant coroner heard a faint gasp as he unloaded her "body" at the city morgue.

Started, James Leonard turned to see Mrs. Butler's jaw drop open, then quiver slightly. She was pushed to a hospital. Again she seemed dead. No pulse, no apparent respiration and no measurable blood pressure.

But, with the administration of oxygen, blood transfusions, drugs and artificial respiration, she began a slow climb back from the edge of the grave.

More startled even than Leonard was Dr. Edward McLain, the 36-year-old physician who had pronounced her dead. "She looked as dead as they come," he reported. "She lay in a tub of cold water. Her flesh was cold and there was no heart sound, no respiration and no reflex of the eye."

Police had listed her as an apparent suicide after finding two empty sleeping pill bottles and notes to her daughter directing cremation and giving instructions for the disposal of her estate.

The daughter, Betty Butler, of nearby San Jose, reported her mother had been despondent over a 30-year illness and the recent death of her husband.

THANKSGIVING GOING TO BE HIGHER — Mrs. Pampa is going to find her food dollar has increased in value about eight percent since last year. The chart above shows the increase at four significant periods. Most noticeable, is the jump from 1950 to 1951 when prices rose 23 percent. However, salaries were much less in 1950 so the increase isn't quite so significant. Between 1946 and 1950, prices moved around considerably, but settled down to about a one-half percent jump by Thanksgiving. The figures are a result of a survey of Pampa food prices taken yesterday on 16 items and compared to prices advertised in The News in other years. (News Photo)

### Newsprint Supply To Remain Scarce

WASHINGTON (AP)—Supplies of newsprint will continue scarce through next year, the National Production authority said yesterday, although it looks for a continued increase in production.

Officials reported to publishers who make up the newsprint industry advisory committee that production this year will approximate 6,600,000 tons in North America compared with 6,200,000 tons last year.

Agency officials also estimated that from 40,000 to 50,000 tons probably will be needed in the first half of next year to make emergency shipments to friendly foreign countries.

### White Selected As Special Judge

Former County Judge Sherman White late this morning was elected special district judge to substitute for 31st District Judge Lewis M. Goodrich who is attending a state convention of district judges.

Several noncontested cases today are up for disposal in 31st District Court, most of them divorce suits.

According to state law, when a county or district judge is absent from the locality in which a case is to be heard, attorneys of that locality may gather and, by voice vote, elect a special judge to substitute for the regular judge.

### Election Issues Are Explained At Lions Club Meeting

Propositions in the Nov. 13 city improvement bond election were explained to Lions club members at a weekly meeting of the local club yesterday.

Speakers were City Manager Dick Pepin and City Engineer Ray Evans, who explained the present situation and proposed improvements to the water and sewer systems and to streets and parks.

Total cost of the proposed improvements as recommended by a citizen's committee is \$575,000 and includes an extension of water mains to be put through the central business district, additional outfall lines in the sewer system, building bridges on Kentucky, Yager and Duncan

### Mahon To Deliver Keynote Address For WTCC Session

AMARILLO — George H. Mahon, the former Mitchell county farm boy who now is one of the most influential members of the U. S. Congress, will deliver the keynote address at the 34th annual convention of the West Texas Chamber of Commerce here Nov. 15.

Mahon is one of eight men who will talk during the convention, which will open the evening of Nov. 14 and end Friday at noon. The others also are authoritative spokesmen in the fields with which they will deal in the addresses:

The others are Guy C. Jackson, Jr., of Anahuac, president of the Texas Water Conservation Assn.; E. H. Thornton, Jr., of Galveston, chairman of the Texas Highway commission; Dr. Humphrey Lee, president of Southern Methodist university; R. B. Anderson of Vernon, chairman of the State Board of Education; Jack D. Neal acting officer in charge of Mexican affairs of the U. S. State Dept.; Frank H. King of Dallas, general executive of The Associated Press, and David Rasco of the Amarillo News-Globe, former war correspondent in Korea.

Mahon is chairman of the

House sub-committee on defense appropriations. That group must initiate the defense appropriations which now are consuming more of the tax dollar than any other type. He has access to some of the nation's top military secrets.

He is the only man who has represented the 19th congressional district of Texas in the lower house. It was created when the state was re-districted following the 1930 census. He defeated several opponents for election in 1934 and began his service in the 74th Congress in 1935. His seat has never been seriously threatened as the biennial elections have come and gone.

His parents moved to the Loraine community from his birthplace, Mahon, La., when he was seven. After finishing high school there he entered Hardin Simmons university where he distinguished himself as a debater and orator. He earned his law degree at the University of Texas and soon was elected county attorney of his home county.

### CIO-AFL Merger Remotely Possible

NEW YORK (AP)—A merger of the CIO and AFL appeared but a remote possibility today as the national CIO convention neared its close.

The final piece of business for the CIO delegates was adoption of a resolution backing up President Philip Murray on this point.

Governor Dan Moody appointed him district attorney of the 32nd judicial district in 1926. He was elected to Congress.

He calls Colorado City home and maintains an office in Lubbock between sessions. He represents the counties of Andrews, Bailey, Borden, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hall, Haskell, Hockley, Howard, Kent, Lamb, Lubbock, Martin, Mitchell, Stonewall, Scurry, Terry and Yoakum.

Murray, unopposed for reelection to a 12th year as CIO president today, has declared the CIO against immediate merger with the AFL but in favor of cooperation between the two big labor groups.

After the AFL made overtures for amalgamation, there were rumors a week ago that the CIO and AFL might in some way overcome the differences which split them 17 years ago.

Talks about a merger broke off in August, 1930.

In the meantime, the AFL pointed out, there have been no direct talks about merger. AFL leaders blamed Murray, who has been ill a large part of the past 12 months.

On the other hand the CIO, in its resolution and in speeches in convention speakers, blamed the AFL for breaking up the united labor policy committee two months ago.

## Clarence Zybach Named Wheeler Co. Conservation Head

WHEELER — (Special) — Clarence Zybach of Briscoe county soil conservation supervisor by county bankers. His name and records have been entered in the State Bank and Trust Co. contest to determine the five district supervisors and finally the state supervisor. Chairman of the Wheeler county bankers committee, Benny Skidmore of Shamrock, worked with County Agent Ray Siegmund and Vocational School Co - ordinator George Gandy to choose the outstanding conservationist of the area.

Zybach started farming on the halves in 1926 with only \$200 capital. He now owns three sections. The three or four cows and a few yearlings he bought as a sideline in 1928 have grown into his major cash crop. More and more of his land is being seeded to legumes and grasses. World War II. He has utilized keling grain through livestock more profitable than bagging certified seed as he did before World War II. He has utilized soil conservation measures both building, such as terraces, grassed water sheds, and ponds, and in soil building seedings, such as legumes and proper grass mixtures.

His record with S. C. D. is outstanding. He has a perfect attendance record for monthly meetings and has served as secretary - treasurer since the district was organized in 1948.

## Pampan Discusses Hwy. 60 Group In Miami Men's Club

MIAMI — (Special) — Members of the Miami Men's Service club were given a first-hand report of the activities of the National Hwy. 60 Assn., in an informal talk, given by Howard Buckingham of Pampa, a national director of the association, Tuesday night. The speaker's main interest was in promoting organization of a Texas Hwy. 60 Assn. which will be discussed at a meeting in Amarillo Nov. 15. Buckingham said that on an average, tourists passing through on Hwy. 60, spend \$7.50 a day before they reach the Oklahoma line, and if they spend the night they spend \$25.00.

In observance of the 1951 National 4-H Club Achievement week, local 4-H club members and their leader, Vic Joyner, were guests of the service club. Four members present, Jimmie Reeves, Terry Gill and John and Doyle Smith, were introduced by

## Frankie, Ava Wed Quietly Amid Furore

PHILADELPHIA — (AP) — Frank Sinatra and Ava Gardner stole away to an undisclosed honeymoon retreat Thursday after a very - shrouded wedding at an exclusive home in West Germantown.

While the couple sipped champagne and feasted on turkey that night, a score of newsmen and photographers tramped the wet pavement outside the home hoping to talk to the bride and groom or to take pictures of them.

But the newlyweds would have none of that. They sneaked in through the back door and three

Jim Reeves, president, and asked to tell of their projects for the year.

Vic Joyner showed two films, one of the Miami 4-H club show held last spring, and one of the District 4-H Club camp held in Palo Duro last summer.

and a half hours later summoned a half-dozen policemen in red cars and a patrol wagon to guard an escape route.

The only information on the wedding itself came from a press agent for Universal studios and from Emmanuel Sacks, vice president of the Radio Corporation of America, who attended the ceremony at the home of Sack's brother, Ernest.

Despite all the secrecy, there was considerable furore about the affair. Frankie threatened to punch a photographer. And there was a wild auto chase in an effort to throw newsmen off the trail.

Neighborhood residents, many of them girls in bobby socks, joined the newsmen in their vain vigil, pleading with the vigilant policemen for "just one peek" at the couple.

The 10-minute ceremony Thursday began at 6:45 with Judge Joseph Sloane officiating. Mannie Sacks gave away the bride. Band leader Axel Stordahl and his wife, June Hutton, were best man and matron of honor.

Thanksgiving Days have been observed in America on various dates ever since November, 1821.

Floyd Travis will crown the queen.

Sixteen entries had been received Tuesday morning for the amateur contest which will be staged immediately after the coronation. Judges from Panhandle will choose the winners and prizes will be awarded in the grade school and high school divisions.

**DISTRICT I-AAAA CONFERENCE GAME.** Kickoff 2 p. m. Saturday, Harvester Park. OFFICIALS — Referee: Joe Holmes; umpire: Cotton Neely; head linesman: George Philbrick; field judge: Clark Jarnigan. TICKETS — Few reserved seat and general admission on sale at Harvester Park. BROADCAST — Radio Station KPND, Pampa; KGNC, Amarillo.

Renewal of one of the oldest and most heated schoolboy rivalries in the state will take place tomorrow afternoon at Harvester Park when the Fighting Pampa Harvesters play host to the Amarillo Golden Sandstons, who appear to be regaining some of the glitter lost the last two seasons.

It will be the twenty-second meeting between the two bitter rivals, of which the Green and Gold has been victorious but five times, twice in the last two seasons. Other victorious years were 1931, '41 and '43. Thus, members of this year's squad have never tested defeat at the hands of the Sandies.

A capacity crowd should be jamming Harvester Park for the contest, which is scheduled to start at 2 o'clock. The game will be broadcast locally by radio station KPND. It may be heard at still available tomorrow, they will be placed on sale at the ticket booth at the park.

**PEP RALLY**  
A large pep rally and bonfire tonight at the high school will start the festive activities for this afternoon a mass assembly was held in the high school. The bonfire tonight will start at 7 o'clock.

The game tomorrow is a "must" for both clubs. Neither can afford another loss and still hope to gain a share of the district crown. Both own identical district records of two wins and one loss, and both suffered that defeat at the hands of the Lubbock Westerners. For the Harvesters, the game means a chance to still gain an opportunity to represent the district on down the state. The Sandies hope of doing that are all but lost.

Physically, both clubs should be at full strength. The Harvesters went through rough bouts this week, attempting to bounce back from their 33-7 pasting by Lubbock last week.

The island of Bahrain, about 3,000 square miles in area, lies in the Persian Gulf close to the coast of Saudi Arabia.

Many of the glazed tiles used for paving floors in France's Renaissance palaces were the work of a potter, Massot Abaqueques, of Rouen.

**Waterfowl Looks Good This Year**  
AUSTIN — The executive secretary of the Game and Fish Commission credited "the honor and sportsmanship of Texans" for implementing the promising 1951 waterfowl season.

And as the scatter gunners open the annual hunt for ducks and geese at noon today, he appealed to all Texans "to join the vast personal conservation movement."

"Wildlife men everywhere attribute the rally of the waterfowl flocks to the growing conservation movement, of course, along with a sympathetic judge by nature."

"It is my own observation that no state may claim a greater sensitivity toward this personal obligation than Texas. For one thing, appreciate the tremendous pressure on wildlife."

"This mass support of such agencies as Ducks Unlimited and of the state game program, plus a zealous adherence to the sportsmen's code, means better hunting for all."

The executive secretary went on to point out that the Game Department is "the mere agency for administering wildlife affairs," adding that "the success of this program pretty well depends on hunters' attitudes."

"This is plainly indicated in the matter of law enforcement," he explained. "Sportsmen everywhere realize that game laws must be observed because game laws cannot be enforced completely regardless of how many wardens are assigned to the job."

The executive secretary expressed the belief that the comparatively generous 50-day season and the prevailing bag limits would further stimulate sportsmen's cooperation.

**LEADING RUSHER** on the Harvester football team is right half-back Billy Davis. A senior, Davis will be making his final appearance at Harvester Park when he and his mates face the Amarillo Sandies. Game time is 2 p. m.

## District Championships On Line All Over State Tonight

(By The Associated Press)  
District championships go on the line from Panhandle to Gulf tonight throughout the far-flung divisions of Texas schoolboy football.

Five titles already have been determined and the bulk of the 75 remaining to be decided will be known this week-end.

The feature game of the state sends Texas to Waco in district 5 of the Class AAAA division. Texas can sew up the championship with a victory or tie. However, a defeat for Texas could throw the race into a mess.

In class AAA Grand Prairie plays at Paris in the game destined to determine the District 3 championship.

**Last Night**  
A smattering of games was played in the two divisions last night. El Paso High whipped Albuquerque, N. M., 47-19 in an inter-sectional clash. Fort Worth Tech and North 51-0 (Fort Worth) fought to a scoreless tie in a District 3 conference game in Class AAAA. Forest (Dallas) licked Crozier Tech (Dallas) 19-7 in a District 4 conference test. San Jacinto (Houston) beat off Davis (Houston) 21-14 in a District 7 conference game.

Only one game was played in Class AAA. Edison (San Antonio) ruined the chances of Harlandale (San Antonio) in the District 6 race by administering a 2-6 whipping.

Class AA already has three district champions — Tahoka, District 6; Huntsville, District 20; and Cameron, District 23.

Tonight these titles go on the line: District 4, Quanah vs Electric; District 10, Ranger can win it by beating Dalhart; District 11, Arlington can take it by beating Birdville; District 12, Olney can win it by beating Grockboro; District 13, Pleasant Grove can win it by beating Hillcrest; District 14, Perryell can win it by beating Willis Point; District 15, Pittsburg can sew it up by beating Wimsboro; District 16, Atlanta can win it by beating Hooks; District 19, Ennis can win it by beating Athens; District 21, Lavaca can win it by beating McGregor; District 24, Pittsburg can sew it up by beating Wimsboro; District 25, Brenham can win it by beating Dalhart.

**IRISH RECORD**  
Shamrock slugged Childress, 6-0, took Lefors 26-0, McLean 51-6, tied Wellington, 19-19, stopped Memphis, 7-0, tied Phillips, 13-13, slipped by Perryton, 7-6, and clobbered Dalhart, 39-7. Should the Irish whip Dumas and then Phillips lost either to Dalhart or Dumas, the Irish would be District I-AA titlists; otherwise, if Phillips also wins the rest, it would be a tie and have to be decided by a flip.

If Dumas beat Shamrock and Phillips, it would have a clear title. If they should tie, what happens then is anybody's guess, since penetrations do not decide ties in I-AA.

Dalhart, perhaps eliminated, still has an outside chance. Should the Wolves whip Phillips and Perryton, both tough, they would have a 3-1 record, but the Irish would have to lose to Dumas and Phillips would have to fall also. That could produce a Dalhart-Dumas tie.

**SPORTS MIRROR**  
(By The Associated Press)  
Today a year ago — Bill Cherry, football coach at the University of Texas, announced he would resign from the post at the season's end due to business reasons.

Five years ago — Army and Notre Dame fought to a scoreless tie in their annual grid classic before 74,000 at Yankee Stadium, the game halting Army's streak of 25 consecutive victories.

Ten years ago — The Chicago Bears walloped the Cleveland Browns by a score of 31-13.

Twenty years ago — Tulane, vying for the Southern Conference championship, hoisted a 7-0 record going into its game with Georgia.

# Longhorns Battle Bears Tomorrow In 'Must' Game; Arkansas Meets Owls

**By HAROLD V. RATLIFF**  
Associated Press Sports Editor  
Texas lashes at Baylor tomorrow in a game that can set the stage for a smashing showdown in the Southwest Conference football race.

The headliner of an all-conference schedule Texas can make next week's battle with Texas Christian the all-important one if it knocks down the desperate Golden Bears.

Texas Christian is the most interested sideline spectator in the territory. The Horned Frogs don't play but they're hoping Baylor plays this one to the hilt and wins it. It would remove what appears to be the greatest obstacle in the path of the Frogs in their march toward a title and the Cotton Bowl.

**MUST WIN**  
Defeat for Texas would mean virtual elimination from the race. Defeat for Baylor would mean dashing any hope of even sharing the title.

Should Arkansas, the upsetter of the season, kick Rice, TCU could start counting the money in the Cotton Bowl. Rice would also be out of the race.

Texas and Baylor clash in an afternoon game at Austin. Rice and Arkansas get together at Houston at night.

Everybody seems to be expecting Texas to beat Baylor, including Texas Christian. And Bill Henderson, Baylor scout, has tabbed Texas as the best team in the conference. The record wouldn't indicate that Texas is better than Baylor except that records mean little when blood rivals like the Bears and Longhorns get together.

The Rice-Arkansas game should be a thriller and the Razorbacks are even money to clip the Owls' feathers.

**NOTHING UP**  
Southern Methodist and Texas A&M play at College Station with nothing much up for grabs. A&M has a seven-point favorite to win but there's nothing guaranteed.

Our average last week was nothing to brag about but it was consistent — half of the predictions. Can't do the same this week since there are only three there they'll either be a majority, minority or washout. Here goes:

Texas-Baylor — Texas is the most consistent team in the conference; a vote for the Longhorns.

Texas A&M-Southern Methodist — It doesn't matter too much and A&M is the favorite but we'll take Southern Methodist in a "team with the ball last wins" game.

Arkansas-Rice — Every time we pick Arkansas to win it loses; every time we pick Arkansas to lose it wins — we're going to be smart and pick Arkansas to lose every time. We're bound to hit one some day. So it's Rice by a touchdown.

**Leading Raiders Take Week Off**  
LUBBOCK — Over the 500 mark for the first time since the season's opener, Texas Tech's Red Raiders take a rest this week-end.

Texas Tech, now leading the Border Conference with three victories and no defeats, next meets Tulsa University of the Missouri Valley Conference in Tulsa, Nov. 17. For the season, Tech has won four, lost three.

Latest victim was Texas Western's Miners. The Red Raiders found an aroused opponent celebrating Homecoming but managed to take a 27-7 triumph in El Paso Saturday night.

After the Tulsa game, Tech meets New Mexico University in Albuquerque Nov. 24 and concludes its schedule against Hardin-Simmons University in Lubbock Dec. 1.

If Tech gets no help from New Mexico, the game with Hardin-Simmons should determine the Border Conference championship. The Cowboys are favored in their remaining games. Although New Mexico is now a member of the Mountain States Conference, games with the Lobos count for or against BC members.

Coach DeWitt Weaver, in his first year at the head of Tech's new coaching regime, is agreeably surprised with the showing of his freshman-situated squad. Besides downing West Texas State, Arizona, and Texas Western in conference play, the Red Raiders blasted Texas Christian, Southwest Conference leader, 35-18.

Tech's losses have been to Texas A&M, Houston, and Baylor.

**Tyler, Kilgore Set For Battle**  
(By The Associated Press)  
Tyler and Kilgore have set the stage for the battle of the year in Texas Junior College football. They are the last undefeated, united teams in junior college ranks and they meet next week in the Big Six Conference and a probable spot in the little Rose Bowl in California.

Last night both won their games handily. Tyler laced Wharton of the South Texas Conference 48-14. Kilgore whipped Paris 34-7 in a Big Six Conference game.

# Collegians Battling For Big Bowl Bids In Saturday Tilts

**By WILL GRIMSLEY**  
NEW YORK — (AP) — Major bowl scouts will have their binoculars trained on half a dozen stadia tomorrow but they'll painstakingly avoid one of the big football battles of the day.

That's the clash at East Lansing, Mich., between unbeaten, ranked Michigan State, fifth nationally, and once-defeated Notre Dame, bounding back toward its former heights.

Neither is bowl fodder. As a member of the Big Ten not yet able to partake of the Western Conference's Rose Bowl gravy, Michigan State is ineligible. The Fighting Irish simply shun post-season activity.

But elsewhere you'll find the pieces gradually falling into place in the giant ig-saw puzzle that makes up the Jan. 1 bowl program.

**BOWL SELECTIONS**  
Feature games in this respect are at Los Angeles, where all-winning Stanford tackles once-defeated Southern California, for the almost certain Rose Bowl plum, and at Austin, Tex., where Texas and Baylor vie to keep their post-season aspirations alive.

As of this moment, the major bowl games stack up like this: Rose Bowl — Illinois (6-0) vs. Stanford (7-0) or Southern California (7-1).

Sugar Bowl — Maryland (6-0) vs. Tennessee (6-0).

Cotton Bowl — Texas Christian (5-2) or Texas (6-1) vs. Tennessee or Georgia Tech (6-0-1).

Orange Bowl — Georgia Tech vs. one of the top Southwest teams (TCU, Baylor or Texas).

A crowd of 90,000 is expected to turn out at Los Angeles to witness the battle of the western titans. If Stanford prevails, it must yet take the measure of Oregon State and California for a perfect league mark. Southern Cal, whose only blot is a 27-17 defeat handed its third stringers by Camp Pendleton, has UCLA and Notre Dame remaining.

Illinois, ranked second behind Tennessee nationally, can wrap up the other Rose Bowl berth by conquering Iowa this week and then subduing Ohio State and Northwestern. That's a considerable order but Illinois has proved itself a considerable football team.

**SOUTHWEST**  
The Southwest, which provides the most team in the Cotton Bowl, is in its usual stew, with no team dominant. TCU leads the league with a perfect record and after a rest this week takes on Texas, Rice and SMU in that order.

That puts a lot of significance on the game tomorrow between TCU and Baylor at Austin. The Longhorns, beaten only by Arkansas, are a slight favorite over the Baylor Bears, tied by Texas A&M and beaten last week by Texas Christian.

The other bowl aspirants have a fairly easy week of it. Top-ranked Tennessee is a strong choice over Washington & Lee at Knoxville and Maryland, No. 3, is favored to add to the woes of winless, down-trodden Duke at Baltimore.

Georgia Tech, tied by Duke last week, entertains Virginia Military Institute, no pushover but figured no match for the fast, offensive-minded Engineers.

Princeton and its tailback wizard, Dick Kazmier, are expected to have a breeze at Harvard and extend football's longest current winning streak to 20 games. The Tigers are fourth ranked nationally.

Wisconsin, still in the running for Western Conference and Rose Bowl honors in case Illinois is should stub a toe, risks its No. 9 national ranking against Pennsylvania in one of the top inter-sectional frays.

**Millionth Refugee Comes To Texas**  
NEW YORK — (AP) — The one-millionth refugee to be resettled in a global migration program will arrive in New York Nov. 12 on his way to Texas.

He is Alexander Ranezay of Czechoslovakia. He and his wife and their two daughters, Lydia, 21, and Erika, 10, will live in Midland, where they have been offered housing and employment by William Y. Penn, petroleum engineer.

Ranezay will be a gardener and handyman.

Plans call for them to go to Washington on Nov. 13 and then leave by plane Friday, Nov. 16, for Texas.

## Pirates Face Canadian For District I-A Grid Crown

The Lefors Pirates and the Canadian Wildcats meet tonight then were upset in conference play by the Clarendon Bronchos.

That defeat was rectified when the Bronchos uncovered an ineligible player and forfeited four victories, giving the Pirates a clean slate and putting them right back in the middle of the race.

The game shapes up into a battle of whether the Wildcats can stop the powerful Pirate club ball and whether or not the Bucs can hold the hard-running Tommy Schaefer.

In other district affairs the White Deer Bucks host the Clarendon Bronchos and the McLean Tigers face the Wheeler Mustangs. Panhandle draws a week of rest.

# WARREN'S ARMUP

By Warren Davis - News Sports Editor

**ALL-SET FOR TOMORROW?** Hope that the Harvesters are, because they will have their hands plenty full with an Amarillo Sandstorm that is quite a bit remodeled from the ones that they have presented the past two years. Amarillo, the most improved club in the district, is coming along fast after just barely squeaking out last quarter wins over Childress and Plainview early in the season. They rebounded well from their severe pasting by Lubbock to down three more foes prior to tomorrow's game.

I have never had the unfortunate opportunity of seeing the Sandstorm beat the Harvesters in football. I hope that tomorrow isn't the day. None of the Harvesters have played on a team beaten by the Sandies. They don't want to break their record either.

Good luck. A big pep rally and bonfire has been scheduled for 7 o'clock tonight at the high school. It is open to the public and anyone who goes up there for it will enjoy themselves and really get into the spirit of the big weekend.

I hate to miss it, but I've been invited to Miami for their football banquet there tonight. Looking forward to having a fine time there through the courtesy of the Mothers' Club, which is putting on the affair.

Want to get back to the rowdyism of the Reaper-Bogor Foodie game in Borger last Tuesday afternoon. I had several calls and talked with many others about Borger football. Nobody could say anything good.

A local sports official said that he had talked with one of the men who worked the Bulldog - Sandie game several weeks ago, which was a form of hand-to-hand combat at Amarillo rather than football. The fellow who worked the game said that he was willing to go along if the other officials would, and recommended that both Amarillo and Borger be suspended from the Interscholastic League for a year as a result of their actions in that melee. That would be an awful blot on the records of both schools. Nothing will be done about that game.

If the officials did make the report as it should be made, they would be pointing a finger at themselves for a poor job of officiating, letting the game get out of hand.

Football tonight on KPND at 8:05 will be the broadcast of the Pampa Guerrilla - Amarillo Yanyan White team game. The Whites won the last time, 13-8.

**Abilene Offers Football Weekend** ABILENE - (P) - Dallas had its college football double - header last year when Texas played Oklahoma in the afternoon and Southern Methodist engaged Oklahoma A&M at night.

Abilene has a college double-header coming up this weekend and will have three college games in two nights and one day.

Friday night Hardin - Simmons plays Texas Western in the Border Conference.

Saturday afternoon Abilene Christian and Austin College get together and Saturday night McMurry plays Howard Payne, both games in the Texas Conference.

It just so happens that all three of Abilene's colleges will be playing at home this week.

**Sports Round-Up** By HUGH FULLERTON, JR. NEW YORK - (P) - Dick McCann, the Washington Redskins' general manager and tub-thumper, argues that only two football players ever drew crowds by themselves - Red Grange and Sammy Baugh. . . Dick can quote figures to show how attendance falls off at Redskins games when Sammy isn't playing and he claims in all other cases the fans turn out to see the team as a whole, including the individual star. . . In Texas they'd probably add Doak Walker to the list, but that's about as far as you can go. . . After his recent visit here, Notre Dame athletic director Moore Krause left more than a hint that the Irish will put up a heck of a battle if the NCAA tries to control football television after this season. . . Guys on the baseball beat are mentioning Johnny Mize as a possible manager of the Yanks' Binghamton, N.Y. farm next summer. Bill Skiff, Bingo's 1951 manager, is slated to return to scouting. . . Horton Nesrta, Rice safety man, is the smallest Southwest Conference football regular. Listed at 147 pounds, he actually weighed 139 after one tough game this season.

**SOUP'S ON** Irvin (Soup) Campbell, veteran New Hampshire sports writer, was covering a game in which his son, Bernard, played for the New Hampshire U. Freshmen against Boston U. . . When the regular P.A. announcer failed to show up, Campbell took over the microphone. . . He gave a fine factual report until late in the game when, with the score tied, B.U. completed a pass in the territory patrolled by his son. . . Then, in tones that forecast a trip to the woodshed when Sonny reached home, "Soup" roared: "The player who failed to cover that pass was Campbell."

**SPORTS BEFORE YOUR EYES** Matchmaker Larry Atkins would like to pit Roland LaStarza against Harry Matthews in the feature fight of the Cleveland Christmas fund card but so far hasn't had an okay from Jack Hurley, Matthews' manager. . . South Carolina's Steve Wadiak already has broken Charlie Justice's four-year Southern Conference rushing record with a total of 2,647 yards. He has three games to go. . . The newly-organized Eastern Wheelchair Basketball Association plans a ten-game schedule for each of six teams this winter.

**BOYS ALL BROTHERS** After busting two pairs of specs in one exhibition game at Kokomo, Ind., recently, George Mikan, the big Minneapolis basketball player, is thinking seriously of trying contact lenses again. . . But we always heard basketball was a "no contact" game. . . Princeton, N.J., High school has a 13-game football winning streak. The copy cats! . . . After the Yanks' Bob Celeri threw 42 passes last Sunday, a giant defensive lineman complained: "When they put that guy back five yards and he fades ten more, chasing him is just like taking 42 wind sprints."

## Reminders To Duck Hunters Plenty Of Texans Operating In Professional Grid Ranks

AUSTIN - (P) - Wishing Texas sportsmen "good hunting" during the waterfowl season opening today, the director of law enforcement for the Game and Fish Commission listed some reminders for successful shooting.

They are: Daily shooting hours on ducks and geese are from one-half hour before sunup to one hour before sundown. Bag limits are five a day and ten in possession for ducks and five a day and five in possession for geese. The goose bag may not include more than either two Canada geese (or its subspecies, Hutchins or cackling geese) or two white-fronted, or one of each.

All waterfowl hunters over 16 years of age must have the Federal stamp costing \$2. Shotguns may not be larger than ten gauge; rifles may not be used to shoot waterfowl. Waterfowl may not be shot on any State or Federal refuge or preserve. Also they may not be shot on any public road or highway.

Waterfowl may not be taken from any power driven boat, or from a boat under tow or sail. The director of law enforcement suggested hunters keep these added hunting dates in mind:

Mourning dove, south zone, November 15; general state open season on deer and turkey, November 16, with many local laws taking precedence over the main statute; deer season West of the Pecos, November 20 to 25 inclusive, with one deer limit; general state open season on quail December 1, with many county regulations prevailing.

**Middlecoff Tops North-Southers** PINEHURST, N.C. - (P) - Despite a costly lapse that cost him a stroke which might loom large by payoff time Sunday, Cary Middlecoff, the golfing dentist from Memphis, Tenn., was top man by one stroke going into today's third round of the North and South Golf tournament.

Middlecoff came up with his second one-under par 71 yesterday for a 142 and a stroke edge over three rivals-Dick Chapman, the British Amateur champion from Pinhurst; Jimmy Adams, Scotch member of the British Ryder Cup team, and Tommy Bolt, Durham, N.C., professional.

Although Middlecoff had his work cut out for him, with four challengers two shots away at 144 and four more at 145, his task was made easier by the troubles of Sam Snead and Julius Boros.

Snead, the White Sulphur Springs, W.Va., slugger, who captained the U.S. Ryder Cup team in its rout of the British here earlier this week and was favored to win his third North and South in a row, withdrew after skying to 78, the same score posted by Boros, of Southern Pines, N.C., the first day leader with 68. Neither could buy a birdie.

Smartest of our game birds, yet you never hear their staunchest admirer claim that either could identify a man by scent. No one ever heard a shooting man say that a quail smelled him, or that a woodcock or any other species of game bird had that power right over the blind into them.

Of course, a duck must have some use for those olfactory nerves. Howe thinks they can smell water and possibly food. I might go along with that.

Can wild ducks identify danger by scent? I don't believe they can, yet I have met many men who insist that certain species of ducks can smell a man and when they get the scent are smart enough to get away from him. Some of these men were highly educated fellows and others were wise in the ways of ducks even if their schooling had been neglected.

All big game hunters know that if they want their game it must not get the man scent. This ability to smell man and recognize him by that scent has not been given to game birds. At least, that is my opinion and it is shared by Ray Holland, famous outdoor writer.

A hunter once told him: "Never give a pintail a chance to smell you, or you'll never have a chance to kill him." Another said: "Pintails can't smell you, or none of the rest of them, but a black mallard can smell you."

Not once, but dozens of times I have had singles and pairs split from a flock when I was calling and light in the decoys. Warnings by ducks in, if I have paid little attention to them and kept on calling at the birds in the air. Those birds on the water didn't smell the man in the blind, and that goes for pintails and blacks and greenheads.

And geese. Can a goose smell you? I have had them walk into the decoys with the wind blowing straight from the blind to the flock.

Ruffed grouse and pheasants are credited with being the smartest of our game birds, yet you never hear their staunchest admirer claim that either could identify a man by scent. No one ever heard a shooting man say that a quail smelled him, or that a woodcock or any other species of game bird had that power right over the blind into them.

**CHRISTIAN SCIENCE**  
The birthright of the man of God's creating is perfection and he experiences harmony, health, and happiness, affirmed the Lesson - Sermon entitled "Adam and Fallen Man" to be read in all Christian Science churches on Sunday, November 11.

The Golden Text is from Ephesians (5:3,10): "Ye were sometimes darkness, but now are ye light in the Lord: walk as children of light: . . . proving what is acceptable unto the Lord."

This verse from Romans will be among the selections read from the Bible (2:2): "The law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death." Mary Baker Eddy follows this theme on page 473 of "Science and Health with Key to the Scriptures." "Christ is the ideal Truth, that comes to heal sickness and sin through Christian Science, and attributes all power to God." And on another page she continues, "God will heal the sick through man, whenever man is governed by God. Truth casts out error now as surely as it did nineteen centuries ago."

For years women have been told that they must ALWAYS do certain things in order to hold a husband's love.

That they should ALWAYS meet a home-coming husband wearing a fresh dress, with shining hair and lipstick just applied, etc.

That they should ALWAYS greet a home-coming husband with a smile and kiss.

That they should ALWAYS get up and cook a hot breakfast for their husbands and send them off to work in a cheerful frame of mind.

That they should ALWAYS make themselves companionable by learning to do the things their husbands enjoy doing.

And so on and on.

That is all good advice - except for one thing. It doesn't allow for a change of pace.

## Seventh-Day Adventist Church Plans Launching Of Annual Week Of Prayer

Seventh-day Adventist church members of Pampa are joining their fellow members throughout North America this Sabbath November 10 in launching simultaneously the annual week of prayer and a stepped-up program of lay evangelism.

Local members plan to visit homes in the city Saturday afternoon to offer assistance in systematic study of the Bible through correspondence courses or in home classes. They will also offer the services of their welfare organization to families in need. Under the leadership of Eulalia Nichols, missionary leader of the local congregation, every able member will participate in the undertaking in the hope of visiting at least 500 homes.

The week of prayer program will feature sermons prepared by denominational leaders, beginning at the 11 o'clock service Saturday morning and continuing each day during the week at 7:30 p.m. Next week will also mark the evangelistic projects by Adventist laymen throughout North America. Church leaders have set Sunday, November 11, as the day for launching public meetings, Bible study classes, literature distribution, medical missionary centers and story telling hours in a concerted layman's advance. Locally, special emphasis is being given to the Bible study classes, literature distribution and welfare work.

Keynote of the week's activities is the church's belief in the nearness of Christ's return and the end of the world, explained by the local pastor. "In the light of fulfilling signs that 'The great day of the Lord is near, it is near and hasteth greatly' (Zeph. 1:14), it is the solemn victory over sin and power to call upon the Lord for personal victory over sin and power for witnessing," he said.

## Mrs. J. R. Roper Has Family Reunion

WHEELER (Special) - Mrs. J. B. Roper entertained eight of her nine children and their families at a reunion at her home Sunday. One son, Ernest Roper, and his family of Henderson were unable to attend.

Twenty eight plates were present. They were Mr. and Mrs. Gordon Roper, Johnnie Beth and Mary Nell of Dallas, Mr. and Mrs. Luther Parks, Richard and Garland of Wheeler, Mr. and Mrs. Buddy Errington, Kenneth and Billy Ray of Kelton, Mr. and Mrs. Vernon Lammus and Gregory of Hollywood, California, Mr. and Mrs. C. The Carpet Baggers Are Here Again. The term carpetbagger is one synonymous with the Reconstruction period following the Civil War. In the minds of most Americans the carpetbaggers are long dead and only their misdeeds live on.

But this isn't quite the whole truth, for the carpetbaggers are back. This time, however, they're imposing on the whole of the nation, not just the South. Nobody can deny that they've become more and more devious in their trade; more subtle, more cunning and better equipped. Their costumes are now those of the public official, the "common man's servant," the "people's employee."

It isn't by any means a slow process by which the carpetbaggers are accomplishing their apparent ends. They're banking on your nerves if you want to weigh their competence in the trade they are playing. You've got to hand it to them—they're good. They know what they are doing and what we are doing. Which is damn little.

The Doctor Says

By EDWARD P. JODRAN, M. D. Written for NEA

There are probably more tonsillectomies performed in the United States than any other single operation. The first question to-day raises a problem which comes up frequently in connection with this operation.

Q—"Our son has what the doctor says is tuberculosis. The doctor wants the boy to have his lung collapsed, and says it will take one treatment a week for at least three months. What is your opinion?"

A—"The collapse treatment for tuberculosis of the lung is a thoroughly accepted method for suitably selected patients. What it does essentially is to allow the lung to rest, and this, in turn, permits the tubercles to heal. Frequently this treatment is started at a sanatorium and then continued after the patient is up and able to get about."

Baxter's Views

DAVID BAXTER

STEPS TO PEACE. I am in receipt of a new booklet put out by the American Friends Service Committee, some of the activities and individuals of which I have strongly opposed.

There were about 30 in attendance, and I judge two-thirds of these were ministers from San Diego to Los Angeles and surrounding towns. It was a two-day conference.

There were four or five laymen at this conference who really could defend themselves in their position that the government should be limited to only doing what each and every individual has a moral right to do.

Interestingly enough, each (conference) has had a character of its own. At Riverside we looked horns with the problem of compulsory military service. At an earlier conference this subject didn't even arise. Instead, the problem of compulsory military service held the center of the stage.

Personally, I can't conceive of a Kirby Park or St. John Hall writing such a thing into the Friends' booklet. Whoever wrote it certainly hit the nail on the head with a sledgehammer. I don't see how it is possible to reconcile such a statement with collectivism in any form and in practice this is about the farthest step one could take away from Communism.

Enumerating the foundation beliefs of the American people as being love of freedom, the booklet emphasizes freedom of thought, worship, conviction and speech, whether alone or in association with others.

The book goes on to discuss our steps toward universal war instead of peace particularly because, under the Truman doctrine, military aid is given to countries in which we know what its outcome invariably is—or you should know after the last two disastrous wars, along with the present Korean police action.

Under the heading of "Psychology of Coercion" Dr. Watts explained that coercion gives rise to escapism and/or antagonism; does not enlist the higher faculties in cooperation. He said that man is made for liberty; self-controlled, governed by ideas, not freedom for developing his abilities.

Then Dr. Watts explained that non-coercive methods were the most effective. He explained results in Jesus and His disciples by their methods had conquered the Roman Empire.

Under the heading of "General Conclusions" Dr. Watts made these observations: Coercion, private or governmental, destroys, impedes, restricts, prevents, persuades, lures, leads, inspires. All individual and social progress above the brute level corresponds to the degree, or extent, of liberty in ancient China, ancient Greece and Rome, medieval Venice and Florence, modern Europe, Britain, United States, Private and governmental coercion and intervention have been greater than one is likely to realize unless he knows intimately the facts of law and custom.

Q—"I suffer an injury years ago which left me with a weakness in the lower back referred to by my physician as a chronic lumbosacral sprain. This seems to be getting worse, and any form of lifting or pushing makes the whole region of my lower back sore. I have been wearing a girdle with metal stays which helps the back some. Do you think an operation would be helpful?"

A—"One does not lightly decide to operate in a condition of this sort. It is almost always wise to try conservative measures such as rest, and this, in turn, permits the tubercles to heal. Frequently this treatment is started at a sanatorium and then continued after the patient is up and able to get about."

NOTE ON QUESTIONS. Dr. Jordan is unable to answer directly individual questions from the readers. However, once a week, in this "Q & A" column he will answer the most interesting and the most frequently asked questions received during the week.

A Spiritual Mobilization Conference Encouraging

I was fortunate enough to be invited to participate in a conference at the Mission Inn at Riverside, Calif., sponsored by Spiritual Mobilization. The conference was for the purpose of discussing the means to advance the material and spiritual well being of mankind.

There was no stenographic report made of the meeting. The purpose of not recording the meeting was so that participants would feel free to express themselves. One cannot assist in straightening out another person's errors unless the individual's errors are known.

Five of these conferences have now been held in different parts of the country under the sponsorship of Spiritual Mobilization. The Regional Conference Director in commenting on the Riverside conference made this observation:

Interestingly enough, each (conference) has had a character of its own. At Riverside we looked horns with the problem of compulsory military service. At an earlier conference this subject didn't even arise. Instead, the problem of compulsory military service held the center of the stage.

Questions From Readers Are Columnists' Responsibility

By HENRY McEMORE

One of the great responsibilities of columnists is that people ask them questions.

When I came back from fishing in Florida, 50 percent of my letters were from inquirers who liked me for my praise of the infantry. 30 percent were from men who were coerced to work for too small a wage if we were labor unions or governments to enforce a minimum wage.

I don't take back one word that I've said about the infantry, so that settles that. Let us now consider the problems that readers have asked me to solve.

Question: I have been married 13 years to a man who insists on eating with his feet. His hope is to travel with a circus or a carnival. It is very embarrassing when we have dinner guests. Should I leave him, or allow him to work out his own destiny?

Answer: You are a very lucky woman. I'll bet you that you can't name a woman friend who has a husband who eats with his feet. Stick by him till he goes for lemon meringue pie barefooted.

Question: My wife eats olives in bed and throws the pits at me. Is this a part of married life, or should I throw the pits back at her? She is 5 feet 6, weighs 183, and I'm scared of her. Would it do me any good to assert my manhood when I know I'm going to get whipped?

Answer: Buy her stuffed olives with no pits. A pimento or two in your face won't hurt you. If you fight her, you're a sucker. Once you yell, "Uncle," to a woman you might as well plan to do all the cooking and dishwashing for the rest of your life.

Question: I have a cat that barks. Is a barking cat worth more than a meowing cat? Friends have told me I have a rare possession.

Answer: Your cat probably has nothing more than a sore throat. I suggest that you have your cat gargle with warm, salt water and go to bed for three days of complete rest. See that your cat stays in bed and doesn't get up to take cat naps in the living room.

Question: I suppose you have to be constantly on the alert to prevent the escape of lunatics? Answer:—Yes, nearly all of them are just crazy to get out.

Hardly any woman reaches the age of 20 without having been asked to marry, at least twice—once by her father, once by her mother.

Prospective Purchaser—I'm afraid your make of car does not suit us. My fiancée cannot reach the brakes and the steering wheel at the same time.

Salesman—But, sir, the car is perfect. Why not try a new girl?

our social, political and economic structures. We have deluded ourselves that the United States is too strong and too rich to become a victim of revolutionary socialism, but let's face the fact that we are falling prey to an insidious, encroaching socialism. If the trend is to be reversed, we must oust the demagogic leadership from the nation's capital which professes destructive panaceas to the all too many of our people who are willing to exchange their liberties for alleged security.

The "Fence"

By WHITNEY BOLTON

It begins to look as though a promise I made myself last May, in connection with the American National Theater and Academy, will have to have an Indian sign put on it and set back in storage to cool. I promised not to carp, but the boys and girls who operate ANTA are playing petty-cape again.

ANTA, as you probably know, has a Congressional charter and in the very nature of its title should be a theater organization of dignity, national scope and general access to the people. Up to now it has been a feebly managed Manhattan local to which most professional actors have little or no access and student actors practically none at all.

Three or four columns detailing the frailties and mismanagements of ANTA coincided with a flurry of changes last spring. I say coincided because I have no ego-bellef that these columns had anything to do with the changes. One of the really good changes made was persuading a recalcitrant, honest theatrical producer named Robert Whitehead to head up the working department of ANTA which will drop up once more in today's report.

The white-and-black-tied boys and girls of ANTA gave a dinner party in New York the other night in honor of that eminent trans-Atlantic party giver, Miss Elsa Maxwell. Most of the persons who paid \$25 a plate for this picnic in a lush Manhattan hotel did so with some mystification which did not evaporate during the evening.

They left as they had entered—bewildered. Even though an ANTA executive explained with someunction that this costly Jeeva was bringing in 30 cents on "the dollar" for ANTA and that more such shing spreads were on the agenda. A clutch of felicitous and sometimes emotional speakers paid oratorical homage to Miss Maxwell and spoke in hushed voices of her "great services" to ANTA.

In the end, a plaque was shown her and it was explained that this plaque would be put on the wall of the ANTA Playhouse in signal of these services. For all of the proximity engravings, not one speaker ever said what those services were and I, for one, as a theatrical reporter, am unaware of them. Gilbert Miller, a distinguished producer of plays, explained how he once was in a gondola in Venice when a strong Italian swim-up with a parchment inviting him to a Marvell party.

And Gilbert said that if the gondola had not been slowed down he never would have been able to "go to Elsa's party." I don't think the connection between that and ANTA is clear. Mrs. Clara Booth Luce explained how she once gave a small pink pig to Miss Maxwell, but the tie between that deed and ANTA also escaped me.

This kind of thing went on through the evening until that lovely wit, Rube Goldberg, got up. Mr. Goldberg made no pretensions about ANTA, he simply asked Miss Maxwell, as one asks a doctor at a dinner table for a diagnosis on the cuff, what time he ought to get to parties. He said he either arrived so early that his hostess was still taking a bath or so late that his hostess was too busy to know he had arrived. Similarly unable to pin poses on Miss Maxwell was Miss Hart, the playwright. Mr. Hart confessed that he knew all sorts of things about Miss Maxwell, but nothing pertinent. "You are unique," Mr. Hart said in conclusion, "but I couldn't possibly tell you why." That's the fix I'm in today. Miss Maxwell is getting an ANTA plaque in the ANTA theater, but I could not possibly tell you why.

During all of this, the 10 most celebrated downagers in New York sat and beamed, their (lax) firmness on high. All I could think of was—if each of these took a fork

Fair Enough..... Pessimism Hard To Conquer

By WESTBROOK PEGLER

S. CARONIA — I have been trying to rid my mind of pre-conceived angles and slants on the story of Great Britain in a political convolution which certainly is dangerous to my own country. I try to conquer my pessimism but I can't persuade myself that the harm can be repaired or that Britain's downward course toward the doom of the continental countries on both sides of the Iron Curtain can be reversed.

History cannot be re-wound like a reel of movies and the saying that history repeats itself is not true here.

When did history give us the precedent for this descent from the Christian civilization of the Western world toward something worse than any of the alien Eastern military and religious invasions that were either repelled or finally thrown out? When did a strong, enlightened mass of civilized Western peoples hurl themselves into the abyss, like stampeding animals, as the peoples of the West have been doing in response to an irresistible lunacy ever since 1914?

The British, especially the English, seem to me to have less excuse than any of the others and their guilt therefore seems to me to be the worse. As the British manual workers, the element who may be described as wearing overalls, seem to me to be the guiltiest because it was they who permitted a very small element of supercilious Socialists to seduce them into Socialism by means of a political party using the endearing title of Labor. The English had the best civil discipline in the world and their manual workers were the most intelligent in matters of politics. They should have been able to perceive that labor and Socialism are not synonymous, that labor is a force, a human power, whereas Socialism is a political system. They are no more to be compared than electricity and religion. But they let themselves be persuaded by the patronizing plotter, such as the un-masculine G. Bernard Shaw, was not really Socialism at all but a program which they, the workers, had evolved by and for themselves and that they, the workers, were demanding this on their own votes. This was not the case at all and they cannot say they were not warned for they had many, many warnings and they ignored even their own great leader, the "radical" Lloyd George, who finally gave up with the despondent remark:

and pried one diamond out of her tiara, ANTA would have money enough for the next 10 years. The diamonds were that size.

About Mr. Whitehead? Oh, well, it goes this way: The one man not called on to speak, the one man who sat and stared at the tablecloth on the dais, was the one man there who knew what the theater is for, is about and what it can do. The executive producer-director of ANTA was not even referred to during the evening. But Miss Elizabeth Taylor, of the films, was. She took a bow.

Without our knowledge or, certainly, with the knowledge of only a handful of American citizens, these officious little Hitler of ours have been sending "ambassadors" to the unions of other countries who pretend to speak for American "labor" whereas they represent in a limited field fewer than one-fourth of our workers, and only one-tenth of our people. In international affairs they have no authority to "represent" any of us.

Last year, 10 British unioners, representing a minority of the British people but official protectors of the Labor party, came to our country on an official tour which the poverty-stricken average Englishman never again can enjoy. This was a futile phase of the underhanded work of the Economic Cooperation administration under Paul Hoffman, who has become a bureaucratic fat cat and is overdue for a skinning. They sneak up on us, these fellows. We associated Hoffman with Studebaker and thought he was one of us. But now we discover something of a new Leon Henderson, a new Harry Hopkins up to funny business that bodes no good. The 10 Britishers reported back that the American unions are all prepared to become active partners of "planning agencies" of our government under a regime of "planned economy." This was the camouflage word that the British Marxists used to disguise their Socialism.

Some Englishmen will say that it is none of my business what their unions do. I wish they were right. But all Americans should know what ruin they have wrought and put ourselves on guard against a conspiracy between them and our own socialistic union racketeers to do the same to us.

Wife (trying on hate)—Do you like this turned down, dear? Husband—How much is it? Wife—Eleven dollars. Husband—Yes, turn it down. Fred—What is this kleptomaniac that I read so much about in the papers? Is it catching? Ned—No, it's taking.

IT TAKES **GOD** EVERYTIME

A robust man you are today, Full of vigor, vitality and vim; But through some common stroke of fate, Now, you must only depend on Him. Yes, when your stretcher rolls into your ward, The great physicians will do their best; Their skills and tools will work in rhyme, But remember friend, "It Takes God Every Time."

When Jesus was upon the earth the ancients believed 'demons' and 'unclean spirits' caused our ills. Today we name the causes 'germs' and 'microbes' and 'bacilli'. The ancients and we both believe that only a Great Power for good can make men well and drive out these evil things. Our hats are off to the physicians, surgeons, nurses and all the wonderful healing fraternity. They have done much. They are God's assistants. But they would be the first to join with the Psalmist of old that it is God "who healeth all my diseases."

The Son of God was the normal individual. His thoughts and feelings led to beautiful living. We must spend time in His company and 'catch' from Him the strength we need. We may find Him in the little church on the corner. Have you tried? Though we have many ills of body, unrighteousness is our greatest sickness. God now has millions of highly trained helpers and they are at work in hospital rooms and elsewhere all over the world, but "It Takes God Every Time."

**YOU IN THE CHURCH**  
Character is a by-product of the church. It is here that young and old alike are sheltered with benevolence that ferriety and influence for a better citizenship and a stronger democracy. In the church the ministerial and molding religious character. Statesmen today declare that the church alone can furnish leadership to handle with our children in these perilous times. Then we on Sunday, "You in the Church and the Church in you" GOES and a daily BIBLE READER.

operating with an elective district commission which would assess and levy the tax and collect it at no expense to taxpayers in the county living outside the district.

Arguing for the amendment, supporters claim present agreements between county commissioners' courts and municipalities with organized fire departments are unsatisfactory because most city fire departments are too unorganized to furnish both city and rural protection.

Supporters also contend that lower fire insurance rates would result for rural people living in areas that have sufficient fire protection.

As to increased fire protection, those against the proposal cite present authority of the county commissioners to purchase fire fighting equipment for county areas outside corporate city limits.

Although the authority for establishment of rural fire districts has been in effect for two years there has never been any agitation on the part of Gray county rural residents for creation of such a district here.

Eisenhower's recommendations, a force ready for action in the meantime.

In the light of inflationary troubles of France, Italy, and neighboring nations, and Prime Minister Winston Churchill's warning that Britain faces the threat of national bankruptcy, American authorities are convinced a realistic shakedown is inescapable. Involved in this is the proposal pressed by Eisenhower for a speedup of arms deliveries aimed at assuring an integrated fighting force-in-being of up to 30 divisions some time next year.

All the original and revised planning reportedly is based on the expectation that West Germany soon will be able and willing to start making a contribution.

Officials who have a direct role in top level arms planning indicated to a reporter that there is less worry in the administration over the risk of trimming the long range defense program than over the current economic troubles of the NATO Allies.
