YOU KNOW WHAT YOUR CHANCES ARE — For beef carcasses hang in a cooler at Armour Packing Company plant in Chicago June 12 when normally 300 are racked. Chester Chesney, a beef grader, looks them over. Floor is frost covered. Meanwhile, Armour, Swift and Wilson, three of the largest packers, it was reported that slaughtering was at a minimum and no animals were slaughtered June 11. Some cattle arrived at Union Stock Yards but were reshipped. (AP Wirephoto)

Allied Tank Columns Roam At Will Over Iron Triangle

White Deer Relief Fund Hits \$4708

Recorded contributions for the storm stricken of White Deer from the Pampa area stood at \$4,708 today as additional donors were listed through the local White Deer Disaster Committee. The donors and amounts:

Texas Gas and Power Co.	\$250	
Mr. and Mrs. D. D. Payne,	Miami	25
Pampa News Stand	50	
Your Laundry and Dry Clean-	ers	50
N. A. Cobb	25	
In the meantime, Mrs. Ralph Randal, chairman of the Carson County Chapter, American Red Cross reported an additional \$1,140 contributed by various Panhandle area people and an organization from New Mexico. These were:		
Maggie Weatherly, Panhandle	\$1,000	
Porter Achievement Club, Logan, N. M.	10	
First National Bank, Panhandle	100	
J. W. Hill, Amarillo	25

Miami Bridge Is Washed Out Again

MIAMI (Special) — For the third time since the flash flood, June 5, which took out Red Deer Bridge over FM Highway 282, the temporary crossing of rock, sand and gravel, thrown into bed of the creek by the highway department, has been again washed out, with more than one-half inch rain, Wednesday evening.

Miami business men living across Red Deer have to drive miles to get to their places of business.

Having tried everything else, lay a base of steel wire across the Highway engineers plan to the bed of the stream today. Water was running about three feet high in the ordinarily dry creek at 9 a. m. today.

Let's go Evinruding, Lewis Hardware—adv.

Air Force To Test First Jet That Can Sweep Back Its Wings

NIAGARA FALLS, N. Y. — (AP) — The Bell X-5, first airplane in the world that can sweep back its wings in flight, will be tested soon by the Air Force.

The tests will be made at Edwards Air Force Base, Muroc, Calif., the Air Force said yesterday. No date was announced. The plane is already at Muroc.

The jet-propelled X-5 was built by the Bell Aircraft Corp., makers of the rocket-powered X-1, the first airplane to fly faster than sound.

It was used for tests in the transonic speed range — from about 600 to about 800 miles an hour. The speed of sound is about 760 miles an hour at sea level.

The official announcement made no mention of official speeds.

Unlike the X-1, the X-5 will be capable of sustained flights over longer periods and will take off and land under its own power instead of being launched in the air from a "mother ship."

The first phases of the tests will be conducted by Jean L.

TOKYO (AP) — Allied tank columns roamed at will over the Reds' shattered Iron Triangle in Korea Thursday, but small groups of Chinese bitterly opposed infantry attempts to mop up the area.

A field dispatch said that although the Reds had apparently abandoned serious efforts to defend their former supply center, small forces up to company strength (150 or so each) remained behind to harass the advancing allies.

Despite small local setbacks, however, the allies were able to push ahead in that central sector.

Further east the Communists turned and fought.

UN patrols, under artillery fire, probed the new Red defense line north of Yanggu and Inje on the east central front.

In some sectors the allies were kept busy Thursday beating off a series of North Korean counterattacks. The U. S. Eighth Army reported one advance of a mile.

The picture along the east was in marked contrast to the situation in the West. Giant tanks, literally covered with riflemen, rumbled the length of the triangle Wednesday to Pyongyang. They were almost unopposed.

The two big columns of more than 100 tanks returned at night after sweeping beyond the bomb shattered city.

Tank forces and infantrymen again made "little or no contact" with the Chinese in the triangle area Thursday, the Eighth Army reported.

However, the Fifth Air Force said "a large concentration of enemy troops" poured heavy fire into UN troops in the Pyongyang sector. Jet pilots roared in with fire bombs and blasting machine-guns. The Air Force said they "silenced the enemy."

A reporter for the Army newspaper "Stars and Stripes" said small groups of Chinese left behind as harassing forces made "the going rough" for allies mopping up the area.

Farther west UN patrols fought with small groups of Communist-led one allied officer to comment.

"The Reds haven't left us yet, but they are cringing."

North Koreans faded before most patrols in the Yanggu-Inje sector, AP correspondent George A. McArthur reported. But they dug in to defend key terrain.

Despite heavy losses and wholesale withdrawals reports from the triangle area eastward, McArthur said the Reds apparently are not short of manpower.

"The main Red force is still definitely close in," an allied officer on the east central sector (See ALLIED, Page 2)

WE HEARD...

That Earl Meadows, world champion pole vaulter and Olympic champion in the late 30's, was in Pampa Wednesday to discuss Pampa's summer youth project with director Marvin Bowman. Meadows represents the Texas State Youth Development Council in this area.

Johnson Charges Acheson Vetoed Formosa Mission

Far Eastern Policy Switched After War

WASHINGTON (AP) — Louis Johnson, former secretary of defense, testified today he wanted to send a U. S. military mission to Formosa in December, 1949, but President Truman overruled him because of "political" protests from the State Department.

Testifying at the Senate's MacArthur inquiry, Johnson said it was only after the fighting began in Korea that the State Department shifted its position and "no longer opposed doing things to keep Formosa from falling into unfriendly hands."

Formosa is the big island off the China coast where Chiang Kai-shek's Chinese Nationalists took refuge when driven from the mainland by the Communists.

The question of its importance strategically to the U. S. has figured repeatedly in the hearings by the Senate Armed Services and Foreign Relations Committees on the dismissal of Gen. MacArthur.

Johnson, who left the Truman cabinet last September, said the decision to send the Seventh Fleet to guard Formosa — after the outbreak of the Korean war — was taken after the President and others listened to a "brilliant" memo on the subject by MacArthur.

Johnson told the committee that there had been a difference of opinion between the State and Defense Departments late in 1949 about Formosa.

He said the joint chiefs recommended in December of that year that a military mission be sent to Formosa to aid Chiang Kai-shek's troops there but Secretary of State Acheson objected.

A military mission was actually sent a few months ago.

Johnson also gave the senators their first intimate story of the top-level conferences here at the time the Korean war broke out. He said the decision to intervene militarily in Korea was made at a White House meeting in motion of Acheson.

But he told the senators he would not "indulge in personal attacks or violate any confidences in his testimony."

Leading up to this, he said the American troops in the Far East were not ready for a fight when the war came, and that he had received no intimation of possible trouble in Korea when visiting MacArthur's Tokyo headquarters only days before the North Koreans launched their invasion of South Korea.

The first U. S. action was to direct that American sea and air power go to the aid of the South Koreans.

Johnson related that this decision was taken at a June 26, 1950, White House meeting on motion of Acheson.

He said he himself announced "on" the 27 White House meeting that, unless there were presidential objections, he was placing MacArthur in command in Korea.

It was not until then Johnson said that MacArthur was notified of his command and asked for recommendations. He said the five-star general accepted the (See JOHNSON, Page 2)

MACARTHUR ARRIVES IN TEXAS — The MacArthur family, Arthur behind Mrs. MacArthur, and the General walk from their plane with Governor Allan Shivers, right, shortly after they arrived in Austin, Texas. Austin is the first stop on the General's whirlwind tour of major Texas cities. (NEA-Telephoto)

Huge Houston Through Hears Mac Lash Red Appeasement

HOUSTON (AP) — Gen. Douglas MacArthur brought his anti-administration stand to the South's largest city today after drawing a record crowd at a Houston welcome parade.

His speech tonight 8 P. M. CST in a 70,000-seat football stadium will give the deposed Far Eastern commander an opportunity to develop these arguments he voiced on arriving in Texas yesterday.

U. S. policy makers are guilty of appeasement in Korea — an appeasement that could lead to war with Russia.

2. The administration is guilty of "normal weakness" in talking of a peace settlement.

The biggest crowd ever seen in Houston turned out but cheered only with marked restraint — to see MacArthur's arrival parade late yesterday.

Mayor Oscar Holcombe estimated the crowd at a round 440,000, almost double the previous record 250,000 drawn by President Franklin D. Roosevelt in 1936. Other estimates ran considerably lower.

MacArthur made his appearance accusation from the steps of the state Capitol in Austin. About 20,000 Texans listened as the 71-year-old general declared America's first line of defense is on the Yalu River at the Manchurian border and not the Elbe River in Europe.

The policies of appeasement on which we are now embarked carry within themselves the very incitation to a war against us," he said. "If the Soviet does strike it will be because of the weakness we now display rather than the strength we of right should display."

"It is a weakness which has caused many free nations to succumb to and embrace the false tenets of Communist propaganda. It is a weakness which has caused our own policy makers, after committing America's sons to battle, to leave them to the continuous slaughter of an indecisive campaign by imposing arbitrary restraints upon the support we might otherwise provide them through maximum employment of our scientific superiority, which alone offers hopes of an early victory.

"It is a weakness which now causes those in authority to strongly hint at a settlement of the Korean conflict under conditions (See HOUSTON, Page 2)

Despite Heat, Tired Uniform, MacArthur Brisk And Untiring

HOUSTON (AP) — Gen. MacArthur hasn't had that old sweat-stained hat cleaned, in case you've wondered.

It was battered and soiled — and jammed down to the top of his ears — when he stepped from his chartered plane yesterday.

His uniform looked tired. But not the general. Whatever he did — shaking hands, walking, waving to history's biggest crowd here — he did briskly.

The hot, humid parade through the streets of the South's biggest city left the local brass-bats — the mayor, city councilmen and others — wrung out.

The general stepped energetically from his big blue convertible. "How do you do," he said to those of the crowding hundreds who could shake his hand. "I'm so glad to see you."

When he arrived at the airport, it was the same. A smile that didn't tire, obvious pleasure in seeing Rainbow Division men he commanded in World War I.

"Oh, wait a minute," he said when he had walked half the way down the wooden platform drawn up alongside the big plane. Not until then did he notice the grinning, proud men he commanded in World War I.

He did a quick about-face and shook hands with each of the Rainbow veterans. Snatches of conversation could be heard as he went down the line. "It's been a long time — yes, more than 30 years — it was long ago."

One man cried. Virgil Brady, now a Houston garage owner, was a sergeant-chauffeur for MacArthur in World War I. The general was then a colonel.

"Hello, there, Brady," called MacArthur. "Years came to Brady's eyes. 'Why, you haven't changed a bit,' the general cajoled. 'Do you remember when you staled that old French plane?'"

Downtown during the parade the general waved when the crowd broke into sporadic cheering. Mostly the people just looked. They came to see MacArthur, and they were seeing him.

Mrs. J. D. Brock Dies Wednesday; Mother Of Pampans

Mrs. J. D. Brock, mother of two Pampans, died in a Hereford hospital Wednesday after an extended illness.

Mrs. Brock, 65, lived in McLean 20 years before moving to Hereford two years ago. She was born in South Carolina and came to the Panhandle in 1947, moving to McLean in 1928.

Mrs. Brock is survived by her husband, five daughters and three sons; Mrs. Earl Lane, south of Pampa; Mrs. A. R. Clawson, McLean; Mrs. C. E. Hood, Jr., Fort Worth; Mrs. C. M. Plumlee, Tulsa; Mrs. W. W. Nelson, Dimmitt; E. Brock, Dimmitt; C. J. Brock, Pampa; and James Brock Hereford.

Funeral services were to be conducted today at 4 p. m. in the First Baptist Church of McLean. Interment will be in Hillcrest Cemetery, McLean.

Second Bond Election For Airport Asked

The chamber of commerce board of directors this morning accepted its airport committee's recommendation to petition the county commissioners court to call a special airport bond election on the same day a similar election is called for repair of roads and bridges in the county that were destroyed by recent rains.

The airport bond election would be for improvement of the northwest field at a cost of \$152,700 and the improvement of the McLean airstrip at a cost of \$15,000.

Petitions to be distributed for signing by qualified voters were prepared late yesterday and given to supporters of the bond issue today following the board meeting.

A steering committee of 11 members was appointed — this morning by Charles Cook, presiding in the absence of Gene Fatheree, president of the chamber. Appointed to the committee were: W. A. Noland, City Commissioner; W. B. "A" Neel, Robert Kealey, near White Deer; Ralph Juillard, Farris Odien, Hugh Burdette, Eddie Dunigan, M. K. Brown, Mayor C. A. Huff, and County Judge Bruce Parker.

The Pampa Flying Booster (See AIRPORT, Page 2)

Number, Scale Of Atomic Tests To Be Boosted As Scientists Rapidly Improve Nuclear Arms

WASHINGTON (AP) — American scientists are improving atomic weapons so rapidly it will be necessary to increase the number and frequency of full-scale field tests like the series recently held at Eniwetok.

This word came out of a news conference yesterday by civilian and military scientists of the Atomic Energy Commission (AEC) and the Defense Department. The conference was called to tell the public something of what was done at the Eniwetok experiments in April and May.

The good progress indicated for standard nuclear fission weapons also appears to extend, in some measure, to the quest for the even mightier weapon, a hydrogen bomb. Dr. Alvin C. Graves, director of the test division of the Los Alamos, N. M., laboratories where bombs are made, said cautiously that "we have gained new information and understanding of the basic phenomena underlying thermonuclear reactions" and that "much useful information was secured."

But the weapons were careful not to specify precisely what new information had been gleaned from the atomic tests toward a better understanding of a hydrogen bomb which probably would have to be "triggered" by the multi-million degree heat of a nuclear fission bomb.

In fact, they counseled against "interpretations which go beyond the actual words of the commission's releases." Dr. Graves remarked: "As to progress toward the eventual development of thermonuclear weapons, you know that experiments were carried out which contributed to thermonuclear research."

Former AEC Chairman David E. Lilienthal in a broadcast from New York, later said he was "shocked" at what he called "the helpful tips" given the Russians in the report. He said he referred particularly to disclosure of "our priority on weapons."

Talking about the Eniwetok tests in general, Lt. Gen. Elwood R. Quesada, commander of the joint task force which conducted them, said they were "successful in every respect."

And of the hydrogen bomb aspect, Dr. Graves commented that "most of the experimental projects designed to give specific (See NUMBER, Page 2)

Turbulent Weather Strikes Texas As Tornado Hits Plains

(By The Associated Press)

Turbulent weather came back last night to plague the hail-battered high plains area of West Texas.

A small twister, boiling clouds of black dust, fierce winds, hail and rain struck in the area around Lubbock.

The twister hit in a rural section around Dougherty, some 12 miles southwest of Floydada. Reports of another tornado at Silverton were not confirmed.

There were no injuries or damage reported, but cotton crops may have been hit hard.

The tornado that hit in a plowed field "looked like a centipede dropping from the sky, with thousands of legs twisting up into the main funnel," said Houston Steen, editor of the Floyd County Hesperian.

J. J. Hinsley said when the funnel hit ground "a tremendous column of dust swept into the air."

Some five inches of rain near Abernathy created a flash flood, "the worst kind of storm of that kind I've ever seen," said Vic Lamb, editor of the Hale Center American.

Police Comb City To Notify Woman Brother Is Killed

City police today were searching Pampa for a Mrs. McKenzie to notify her that her brother, Thomas J. Wallace, 72, was killed yesterday in an accident at or near Weatherford, Texas.

The only information available to police was contained in a telegram from the White Funeral Home, Weatherford, where the body was taken.

The telegram gave no details of the accident. The funeral home said they had no further information on the dead man's sister other than her last name is McKenzie and that she lives in Pampa. Several people by that name were contacted by police but were the wrong persons.

Chief of Police John Wilkinson asked any person with information on the situation to contact him as soon as possible.

'Emphatically No' Is General's Reply To President Query

AUSTIN (AP) — "Emphatically no," was Gen. MacArthur's answer when asked if he would run for President.

"Would you run for President?" the war hero was queried by a Dallas News reporter yesterday.

"No," MacArthur said. "The reporter was not sure he heard right, so he asked the general to repeat his answer to the question."

"The answer was emphatically no," MacArthur said.

When asked if his Texas trip was linked with political ambitions, MacArthur gave this explanation of his Texas tour:

"When I first came back to the United States, I went to my own ancestral home and then to Mrs. MacArthur's. And then I came to where I was a boy — Texas."

Senate Probe Reveals Dope As Easy To Buy As Soft Drink

WASHINGTON (AP) — Senate crime investigators today made public testimony describing drug addicts' parties in the nation's capital and relating that "dope" could be bought here "as easy as a soft drink."

The testimony was taken from inmates of the house of correction for men and the reformatory for women, both at Jessup, Md.

Most of the witnesses said narcotics are cheaper in Washington than in Baltimore, but readily available to adults and teenagers in both cities.

Names of the witnesses, questioned at the two institutions May 29 and June 7, were withheld.

A 23-year-old Washington woman told of earning money through prostitution to buy dope. The report quoted her as saying she "went 'as girls do' on the street to get needed funds."

"She said that quite a few of the girls she knew had to do that to take care of their habit," the report added.

A Baltimore woman, 30 years old, the report said, "told of peddling dope to minors,

Senate Probe Reveals Dope As Easy To Buy As Soft Drink

going to heroin parties in Baltimore and Washington at which as many as 30 or 40 people were present and using drugs.

"Addicts at a party," the report quoted her, "would not dance but would listen to music classical and 'pop'."

The woman, the report said, has been an addict since the age of 13 but wants to lose the habit because you lose everything — your pride, respect and everything else when you use dope."

The report that "dope" was as easy to buy as a soft drink in Washington came from a former musician with a well-known band. He told of becoming an addict at the age of 17 as a high school student.

"More than 100 boys he knew in high school were smoking 'reefers' (marijuana) the committee summary said.

Release of the report coincided with a demand by Fairfax County supervisors in nearby Virginia for a state law providing mandatory life imprisonment without parole for persons convicted of peddling dope to minors,

Oilers Visit Rotary Club

Members of the Pampa Rotary Club yesterday got an opportunity to fire several questions and a few ribs at the fifth place Pampa Oilers as they played out to them during the club's weekly meeting in the Palm Room, city hall.

During the off hand discussion it was learned the club travels an average 9,600 miles per season during its road games.

Grover Seitz, manager of the club, introduced each of the players and their positions. Warren Hesse, business manager of the club, served as master of ceremonies for the informal program. Ray Evans, past president of Rotary, conducted the meeting in the absence of Fred Neslage, club president.

AIRPORT

(Continued from Page 1)

Assn. will also name a representative to the committee within the next few days.

This afternoon a group from the chamber of commerce was meeting with the county commissioners at a special meeting to discuss the two bond elections.

The special election for replacing of roads and bridges is estimated to run to approximately \$150,000 or \$175,000.

ALLIED

(Continued from Page 1)

said. "They apparently have plenty of men. Not enough for a sustained offensive, but they may attack anyway."

The Eighth Army reported the Reds threw a series of probing attacks at the UN lines in the area northwest of Yangju.

The allied line was under artillery fire all day. An intensive barrage fell north of Yangju. Patrols moving out well ahead of the lines were hit by heavy mortar fire.

Through most of the eastern area the Reds have been fighting small delaying actions to cover the retreat of their comrades. Reds have been reported streaming north to escape being cut off by the fall of the wanted "Iron Triangle" and scrambling out of the triangle itself.

The UN tank columns found the triangle virtually deserted Wednesday as they rumbled to its northern apex at Pyonngkang.

JOHNSON

(Continued from Page 1)

command but sent back no immediate recommendations.

Three days later, Johnson continued, MacArthur told him and the joint chiefs of staff in a message that "all would be abortive, that nothing would be accomplished, unless ground troops were used" in Korea.

Within 24 hours after MacArthur's recommendations were received, Johnson said, the decision was made to use American divisions in Japan.

The former cabinet member had testified previously that these divisions were trained and equipped only for occupation duty and were not ready for a fight.

He said that because the Defense Department had not been told that it had any responsibility in Korea, where American activities were under State Department direction.

Johnson said he and Secretary Acheson met President Truman at the airport on the latter's return from Missouri on Sunday, June 25, the day the North Koreans attacked. Only the day before (correct), Johnson and Gen. Omar Bradley, chairman of the joint chiefs of staff, had arrived back from a visit to Tokyo.

Johnson said President Truman had a conference on the situation on the night of his return from Missouri but no action was taken.

HOUSTON

tions short of the objectives our soldiers were led to believe were theirs to attain and for which so many yielded their lives."

The general has three more Texas speeches to make — at the joint chiefs of staff, San Antonio and Dallas tomorrow, and at Fort Worth Saturday. Then his chartered Constellation will take him back to New York City. On MacArthur's schedule today was a visit to a veterans hospital and a drive to nearby Galveston.

Firemen's Faces Get Firetruck Red

GETTYSBURG, Pa. — (AP) — The faces of Gettysburg's volunteer firemen were the color of their trucks today—all because of the trucks.

A group of volunteers was touring Adams County last night collecting funds to aid the company's operations. A short circuit in the truck's wiring started a small blaze while on the road.

The truck was stripped of firefighting equipment because the men were preparing to install a high-pressure booster line. They called Gettysburg for help and a second truck arrived and put out the blaze.

But in doing so the second truck's battery went dead and both trucks had to be towed back to the company's quarters.

The event is one of many television programs sponsored here this week by Smith, Kline & French Laboratories, Philadelphia.

Kansas has consistently been the U. S. state which grows the most wheat.

TV Star Gets A Young Start

ATLANTIC CITY, N. J. — (AP) — A baby one second old is scheduled to become a television star today.

The show will be the first telecast in history of a normal birth, to be shown to the American Medical Assn. convention.

The color telecast, over a closed circuit, is scheduled for 10:25-11 a.m. (EST) this morning.

Dr. John C. Ullery, obstetrician of Pennsylvania hospital, Philadelphia, will be ready to deliver the baby.

Since nature has such a commanding say in the timing of births, he will be ready to deliver the baby of any one of five or six women whose babies are expected this morning.

Airline Wins Safety Award

PORT WORTH — Keith Kahle, president, Central Airlines announced today that Central was named one of the winners of the National Safety Council's 1950 aviation safety awards in recognition of Central Airlines' contribution to safe air transportation.

The annual awards go only to domestic, territorial and overseas air carriers which fly scheduled passenger runs, the awarding committee pointed out. Those members of the Council's award advisory committee who helped in the selection of Central Airlines for the honor are Lt. Gen. James H. (Jimmy) Doolittle and Harry F. Guggenheim. Central Airlines' award was based on a perfect safety record for the year 1950 on the basis of official records of the Civil Aeronautics Board, at Washington (D.C.).

U. S. Could Install Love Department

By HAL BOYLE
NEW YORK — (AP) — Should the American government have a Department of Romance? Do we need a U. S. Bureau of Love? There are millions of single people living in this country, and what is Congress doing about getting them together? Nothing. It doesn't even pay a bounty to people who want to get married. Yet if government is going to enter every other branch of human activity, shouldn't it do something about love? Isn't love the biggest welfare project of all?

The suggestion for a Federal Matrimonial Bureau comes from a reader, George Durst of Jamaica, N. Y. He believes it might be one of the few branches of government able to pay its own way.

"For a reasonable fee of \$5.50, including the romance tax," Durst wrote, "it could register all sincere, marriage-minded men and women and publish their descriptions in a monthly federal matrimonial bulletin."

Durst says the U. S. government printing office already sells bulletins "on such vital topics as the love life of polar bears." And if it is willing to help single polar bears he feels it should extend the same courtesy to single people, particularly wealthy spinsters.

"Such a plan would inspire the older girls — mature women — to realize that they can't take it with them, so why let the income tax man grab it?" Durst added.

"Many of these mature women can't afford to own a husband to day, and use him as a practical income tax deduction as well as a utility mascot around the house."

His idea has much to recommend it, and certainly sounds like a real bonanza to the Treasury.

Naturally, however, a U. S. Bureau of Love wouldn't merely halt at printing an index of matrimonial prospects. It would have to do the job right. It would have to arrange gay little parties at which the wife-seekers and the husband-hunters could be properly introduced to each other in an informal atmosphere.

And you know how government bureaus tend to grow. Soon it would be having branch offices in night clubs and restaurants. And who would want to work for the state department then, if he could wangle a post in the Bureau of Love and spend his work-

ing hours having cocktails with shy taxpayers seeking matchood? Congress, however, probably never will create a federal matrimonial bureau. You can blame your congressman today for every single thing wrong with your life except a bad marriage. You could hold him responsible for that, too, if the government entered the wedding business.

That is one field the wise politician will want to stay out of. It is unlikely that we will have bureaucratic love or romance in red tape in our time.

We'll deal Your way on a New Willys Station Wagon

Top Trade-in Allowance!
We will give top allowance on your old car. If it is of average value, it should make down payment!

Quick Delivery!
Willys has stepped up production of America's most popular station wagon — we can give you prompt delivery!

Police Seek Vampire But Only Find TV Fan

LOS ANGELES — (AP) — Police looked for a vampire but found a 10-year-old boy who bit a baby because he had to leave a television program to watch the child.

Dennis Eugene Hunter, seven months, was found with what looked like adult human bites over him. The bites were not serious.

Capt. William Barron said a neighbor boy became enraged when he had to interrupt the TV show every ten minutes to look at the child. A psychiatric examination is slated for the boy.

Weekdays 9-5:30
Saturday 9-8

**Retail Service
Deadline Set**

Businesses offering retail services to the public must file a list of ceiling prices before June 15, according to an announcement today from the Lubbock Office of Price Stabilization.

On the same date, lists of ceiling prices must be posted where customers can plainly see them. Retail services are listed under Regulation 34 and applies to all barbers, dry cleaners, laundries, washateria, shoe repair shops, beauty shops, service stations and parking lots.

LIMITED QUANTITY

Quicksilver, or mercury, occurs in nature in a free state, but only in very small quantities. Commercial mercury is obtained chiefly from cinnabar ore, the sulphide of quicksilver.

**"Old at 40, 50, 60?"
—Man, You're Crazy**

Forget your age! Thousands are peppy at 70. Try "peppy pills" with Oxytocin. Contains tonic for your rundown feeling. It's solely to body's lack of iron which many men and women call "old." Try Oxytocin. Tonic tablets for pep, vim, vigor, younger feeling. Also very day get "peppy" at "peppy" price, only 49¢.

**Ex-Pampan
Succumbs**

Charles H. Hammett, a resident of Pampa from September, 1942 to April, 1948, died in Cisco at 7:40 p. m. Tuesday, June 12, it was learned here today.

Mr. Hammett, an employe of Humble Pipe Line Co., had been ill for several months. He is survived by his wife and two sons, Harold and John Harvey. While in Pampa, he was active in the First Baptist Church and U. S. Masonic Lodge, being a member of the Chapter, Council and Commandery.

Funeral services were to be conducted from the First Baptist Church, Cisco, by Rev. Ralph Wootton, pastor, at 3 p. m. today.

Interment will be in Oakwood Cemetery, Cisco.

With long storage, gasoline is likely to change because it is made of several constituents, some of which are more volatile than others and may evaporate

*If sweet soft drinks
leave you thirsty...then*
**Switch to Squirt
NEVER AN
AFTER-THIRST**

*Fresh, clean taste as you drink Squirt...fresh, clean taste
after you drink Squirt...never an after-thirst!*

That's why millions say—you taste Squirt and the first thing you know you love it...Never an after-thirst!

If sweet soft drinks leave you reaching for a water-chaser then... Switch to Squirt, the one soft drink that can say and prove: Never an after-thirst!

When you serve mixed drinks, and when you drink, be smooth about it... Switch to Squirt, the smooth mixer.

Roberts Rifle Team Champs

Breaking a three-year record for their opponents in Randall County, the Roberts County Rifle Team won the District I 4-H target shooting contest held Tuesday at Pan Tech Farms. Randall County, however, had high point man. Scoring 382, Roberts outshot the four other teams by seven points. Second place was won by Wheeler with 375 points, Randall, 355, Potter, 316 and Hutchinson, 233. Bernard Grabber of Canyon was the high point man in the Randall County group, shooting the highest score of the entire contest. The winning team will go to College Station June 25 to compete against other top teams in the state at the State 4-H Club Roundup. Members of the Roberts County team included Frank Parker, Charles Clark, Donald Jenkins

Shamrock Teacher Has Busy Summer

SHAMROCK — (Special) — Miss Helen Borth, vocational homemaking instructor at Shamrock high school, will have a busy summer in addition to her work with 67 summer students. She will attend a workshop at Texas State College for Women, Denton, in July, for 10 days beginning July 9. It will be concerned with the work of FHA chapters. She will go to Dallas for the state teacher training conference for homemaking teachers, slated for July 30 - August 3. Meanwhile summer homemaking students will continue their projects, which Miss Borth will check on her return. The average American uses about 350 pounds of paper a year, northern Europeans about 116 pounds and Asiatics about two and four tenths pounds.

My... that's awfully high. We could have WALKED here cheaper than that!

Samnorwood Bible School Is Opened

SHAMROCK — (Special) — Vacation Bible school is in full swing at the Samnorwood Baptist church just south of the Shamrock area. School opened Monday, June 11, and will close Friday, Sessions last from 8:30 - 1:15 a.m. Instructors are: Mrs. Orville Cunningham, ceramics; Mrs. Lillie Bradley, junior superintendent and copper tooling; Mrs. L. W. Laycock, beginners; Mrs. Lula Glover, intermediate; Mrs.

W. C. Stockett, director of activities; Mrs. Cordia Cunningham, pianist and activities; Rev. Stockett, pastor, secretary and instructor in open-saw carpentry. About 18,000 species of plants are native to the United States and Canada. Of New York State's total area of 49,976 square miles, inland waters account for 1350 square miles. In addition, 3140 square miles of water in Lakes Ontario and Erie are included within the state's boundaries, as well as 8000 lakes and ponds.

Dry Cleaning, Too, Has Gone Modern!

Thirty years ago there were four fabrics: wool, cotton, linen, silk. Today there are dozens—and a modern cleaner must know how to care for all of them. That is why our staff must constantly study fabrics and their care—in books, pamphlets, government reports and laboratory refresher courses.

Sixty-Seven Irish Students In Summer Homemaking Class

SHAMROCK — (Special) — Sixty seven students are taking summer homemaking courses here, reports Miss Helen Borth, vocational homemaking. They are not meeting in formal classes, but doing the work in their homes. Miss Borth will do a lot of field work this summer, as she did during the 1950 session.

Many projects are under consideration, including such things as canning, upholstering, interior and exterior home improvement, frozen foods, food buying and preparation, and poultry raising. Girls in the program are in all parts of the 108-square mile Shamrock school district. Miss Borth also works with the mothers of the girls involved. Regular homemaking classes will be resumed in the fall. Crafts work is also one of the features of the summer program, including leathercraft, tray-making (aluminum), ceramics, and textile painting. One of the important units is on selection, care, production and renovation of garments. Furniture for the homemaking department is being redone by Miss Borth and the girls at stated times. The cabinets are being painted and other furniture put in to shape, under Miss Borth's direct supervision.

JACOBY ON BRIDGE

By OSWALD JACOBY
Written for NEA Service
"It must be somebody's birthday today," announced Generous George, "so I'll make you a present of this trick." It was an unusual trick to give away, but our hero certainly didn't lose anything by it. The bidding had been tentative but reasonable enough. Playing for a game with four trumps in your own hand and three in the dummy is sound enough if you're a good player. West opened the king of clubs and then shifted to the nine of spades. Dummy played the deuce of spades, and Generous George made his little speech and played the six of spades. The defenders were surprised, but not grateful to be given this trump trick. West led his remaining trump (as good as any lead at this point), and dummy won with the ace. Declarer next entered his hand with the queen of diamonds to ruff his remaining club with dummy's last trump. Now George could get to his hand with the ace of hearts to draw trumps with the king and queen. That made it possible for him to run the rest of the diamonds without interruption. He scored with five diamonds, a heart, three top trumps, and one club ruff. What would the result have been if George had not been so generous at the second trick? He'd have lost his game contract.

For example, suppose the first round of trumps is taken by dummy's ace. South gets to his hand with the queen of diamonds to ruff a club and then draw two rounds of trumps with the king and queen. He must then run the diamonds, whereupon East carefully ruffs on the fourth round of the suit. East then leads back a club, and South can win only nine tricks. The point is that South should expect to lose one trump trick and can afford to give it up only on the first round of the suit. That leaves him in position to ruff a club and still draw all the trumps.

CARD SENSE
Q—The bidding has been: North—1 Heart, 1 No-trump; East—Pass, Pass; South—1 Spade, 2; West—Pass.
You, South, hold: Spades A-Q-9-8-3, Hearts 7-4, Diamonds J-10-6, Clubs 5-3-2. What do you do?
A—Pass. Your partner has a minimum opening bid, and your hand is less than average in strength. Game is out of the question and one no-trump is as good a spot as any to stop.

TODAY'S QUESTION
The bidding has been: North—1 Heart, 1 No-trump; East—Pass, Pass; South—1 Spade, 2; West—Pass.
You, South, hold: Spades A-Q-9-8-3, Hearts J-5-3-2, Diamonds J-10-6, Clubs 4. What do you do?

Headhunters Gird For Tribal War

MANILA — (AP) — Pagan headhunters are girding for a tribal war in the heart of the upper Agusan River Valley in Mindanao, the Philippines news service has reported.

The mayor of Cabadbaran was quoted as saying: "This tribal trouble arose from the lingering death of a Magahat tribesman residing in the territory of the Malinao clan. The Mahahata suspect witchcraft as the cause of death."

The Magahats have collected rifles and homemade shotguns to add to their knives and spears. Their custom is to wipe out an entire clan when witchcraft is suspected. The mayor asked for constabulary troops.

Blessed Relief from Cramp Pains

Scores of happy girls and women are finding that when they take Cardol each month they get blessed relief they never knew before, from functional periodic pains. That's because unlike pain-killing drugs, pills and tablets, Cardol helps correct painful contractions of the organ muscles and thus helps Nature resume a more normal rhythm. In this way it actually aids in overcoming a frequent cause of painful cramps. If your pains are due to simple functional disturbances—don't wait—ask for a bottle of Cardol. You'll know the day you first tried this tested relief.

PAMPA NEWS, THURSDAY, JUNE 14, 1951 PAGE 11

Patsy Lynn McMeans Becomes Bride Of Billie D. Popham In Canadian Rites

CANADIAN — (Special) — Miss Patsy Lynn McMeans, daughter of Mrs. Paul E. McMeans, became the bride of Billie Dean Popham, son of Mr. and Mrs. Lee Popham, at 8 o'clock Thursday evening, June 7, in the First Baptist Church of Canadian.

The double-ring ceremony was read by the Rev. Taft Holloway, pastor, before an arch of white satin entwined with fernery and flanked with large baskets of yellow gladioli. Tapers in seven-branch candelabra lighted the church.

A prelude of organ music was played by Miss Norma Bernson while the guests assembled. Miss Bernson also accompanied Mrs. Herschel Fielder as she sang "O Promise Me" and "No Greater Love," and played the traditional wedding marches for professional and recreational.

The bride was given in marriage by her brother-in-law, Jake Ramp. Attending her as maid of honor was her sister, Miss Nona Frances McMeans, and Misses Peggy Ramp and Norene Trueblood were bridesmaids.

The bride chose white Chantilly lace over satin for her wedding gown. It was styled with a fitted bodice, ballerina-length skirt and bolero jacket. A fingertip-length veil of nylon was attached to a headpiece of satin and veiling, caught on each side with lilies of the valley. She wore lace mitts and carried a bridal bouquet of cymbidium orchids outlined in white maline, tied with satin streamers and maline bows.

Identical attendants wore identical gowns in pastel shades of embroidered organdy and carried colonial bouquets of yellow daisies. The maid of honor wore orchid, Miss Ramp was in yellow and Miss Trueblood wore pink. Matching caplets of organdy completed the costumes.

Misses Norma Wheeler and Patsy Cook lighted the candles. They wore ballerina-length dresses of white organdy.

The bridegroom was attended by Bill Farnsworth as best man, with Bill Morris and Glen Bill Walker as groomsmen. Ushers were John Ramp, W. H. Bryant and Arden Ransom.

Mrs. McMeans chose a figured Bemberg dress with white accessories. Mrs. Popham was dressed in navy blue crepe with matching yellow roses.

Immediately following the ceremony the bride party went to the home of the bride, where a reception was given by Mrs. Jake Ramp. Close friends and relatives of the couple were present.

A cut-work cloth covered the table, which was centered with an arrangement of shasta daisies backed by yellow candles in crystal holders, carrying out the bride's colors of yellow and white. At one end of the table, Mrs. A. L. Howard of Amarillo, sister of the bridegroom, presided over the punch bowl, and Mrs. C. A. Studer served cake at the other end. The cake was decorated with flowers and festoons and the top tier was upheld with five cups. Topping the cake was a miniature bridal couple standing under an arch of orange blossoms and a wedding bell.

Also assisting the hostess were Miss Lola Studer and several other members of the wedding party.

For the trip to Carlsbad, N.M., Mrs. Popham wore a gray linen suit with navy accessories and a corsage of orchids.

Out-of-town guests included Mr. and Mrs. E. E. Popham of Shamrock, Mr. and Mrs. A. L. Howard of Amarillo and Mrs. Beulah Taggart of Rotan.

Mrs. Popham was a member of the 1951 graduating class of the Canadian High School. She was active in athletics, a member of the Future Home Makers of America, serving as area reporter for the past year; a member of the high school band for four years, and was carnival queen candidate in her junior year.

Mr. Popham attended the Canadian schools and lettered in both football and track. Since his graduation he has been associated with his father in ranching and farming.

Acrobatic Acts In Spring Cleaning Circs Often Fatal

This young woman tackles her spring clean-up safely and sanely, using common sense to prevent avoidable accidents. Indoor and outdoor tools, which could become trip-up traps if left lying carelessly about, are put out of harm's way at the end, or interruption, of each job (left). Scientific weight-lifting (center) aids her in avoiding a sprained back, and a step-ladder (right), used for reaching high places, prevents the falls that often result from make-shift methods.

By ANNE LARSEN
NEA Staff Writer

NEW YORK — (NEA) Unless you bring forth your common sense and caution along with your dustpan, broom and squeegee, your spring clean-up this year may well result in unpleasantness or even tragedy, warns the National Safety Council.

It's the little things you do, out of absent-mindedness, casual carelessness or short-cutting, that are likely to change the steady whir of your scrub mop or the quiet hum of your vacuum into the blaring wail of an ambulance siren.

To ready your home and grounds safely and sanely for summer, heed these reminders worked out by the Council. If these methods seem a bit slow or troublesome to you, remember they are based upon statistics showing what happened to hundreds of homemakers last year who tried the quick and easy ways.

Stifle your Alley Oop instincts when it's time to take down your draperies or to store your blankets on the top shelf of the closet. Clambering about on window sills or climbing upon stack-of-up boxes in an effort to reach high places is a dangerous practice. It's easier to drag up a chair than to fetch the step-ladder; but the gamble you're taking too often pays off in favor of injury or death.

Make sure, when purchasing a ladder or step-stool, that it's sturdy, well-built one with no tendency to tip. Keep it always in good condition.

Your out-of-doors ladder, too, needs frequent inspection. Remind your husband to test the rungs for rot or rusted-out nails before he puts his full weight upon them. Even if repairs or replacement cause delay, don't fret. Leaves in the rain gutter or peeling paint are far

KITCHEN MEMO BY JEAN CLARKE

UNFLAVORED gelatin is a protein food, a body builder. Simple to use, one envelope is all that's needed to fill two cups or one pint of liquid. With canned mixed vegetable juices, a basic salad can be made with just two ingredients. Or, this recipe can be doubled, poured into 1 qt. ring mold, center filled with seafood or chicken. For Molded Vegetable Juice Salad soften 1 env. unflavored gelatin in 1/2 cup cold canned mixed vegetable juices. Add 1 1/2 cups hot canned mixed vegetable juices. Stir until gelatin dissolves. Pour into individual molds. Chill in gas refrigerator until firm. Unmold on salad greens, serve with dressing. Yields 4 servings.

Diapers now come in colors, of all things. The pastel shades will not fade out when dried in your gas dryer. But if you're not the lucky owner of this wonderful automatic servant, don't dry colored diapers in direct sunlight.

Whipped cream holds up longer if confectioners' sugar is used for sweetening instead of granulated sugar.

Up to 20 gals. of hot water in 40 minutes are needed to wash and rinse one load in an automatic washer. A whole week's average family wash—three loads, uses up 60 gals. of hot, hot water in two hours. An automatic gas water heater refills as fast as it flows out of the tap—especially important on washdays.

For a quick peel: Hold peaches or tomatoes over the gas flame of your range a moment or two. The heat loosens the skin.

less serious than peeling off dollars for medical care. Avoid playing Samson during spring cleaning, too. Don't attempt to handle objects beyond your strength. Many a sprained back has been suffered by a housewife too impatient to wait

Lively Spring Garden Casserole

By GAYNOR MADDOX
NEA Staff Writer

For a one-dish meal or for a super vegetable dish for Sunday, here's an economical and flavorful casserole. It combines several colorful vegetables with protein-rich foods from the dairy farm—evaporated milk and cheese.

Spring Garden Casserole (Serves 4)
Two cups cooked, diced onion, celery, peas, mushrooms and corn (mixed), 1-4 cup chopped parsley, 2 cups evaporated milk, 1 cup vegetable liquid, 2 beef bouillon cubes, 3 eggs, beaten, salt and pepper, 1-2 cup buttered crumbs, 1-4 cup grated Cheddar cheese.

Reserve 1 cup of liquid vegetables were cooked in. Put mixed vegetables and parsley in a buttered baking dish. Scald evaporated milk and vegetable liquid, add bouillon cubes and dissolve. Add beaten eggs and season with salt and pepper. Pour onto vegetables. Place in a pan of cold water with water reaching to the level of the custard. Bake in a moderate oven (375 degrees F.) for 20 minutes. Mix buttered crumbs and cheese and sprinkle over top of casserole. Continue baking about 20 minutes, or until a knife inserted in the center comes out clean.

Speaking of spring meals, how would your family like this rhubarb treat?

Rhubarb Popover Pudding
One pound rhubarb, 1-2 cup honey, 1 cup flour, 1-2 teaspoon salt, 1 teaspoon allspice, 2 eggs, 1-2 cup evaporated milk, 1-2 cup water, 1 tablespoon melted butter.

Grease an 8x8x2 pan with butter. Add sliced rhubarb and cover with honey. Sift flour. Beat eggs till light and thick. Add flour, seasonings and evaporated milk. Continue to beat until all flour is moistened. Gradually add water and melted butter, beating until the mixture is free from lumps. Beat for 2 minutes. Pour the batter over the rhubarb, and bake in a hot oven (425 degrees F.) for 40 to 45 minutes. Serve immediately. May be topped with whipped cream.

To Visit in Person . . .

Miss Margaret Deane, representative of the Educational Department of the Primrose House Products, will be at the Harvester Drug Thursday and Friday, June 14 and 15. You are cordially invited to come in and meet Miss Deane, who will review the Primrose House Products—especially Deep Pore Cleansing, The Cosmic Beauty Masque, etc.

Jo Anne Bennett, Thomas D. Brown Wed In Alabama

Miss Jo Anne Bennett and Thomas D. Brown exchanged wedding vows in a double-ring ceremony read at Enterprise, Ala., in the home of the Rev. J. Strozier, Baptist minister, who officiated.

Mrs. Brown, a graduate of Pampa High School, is the daughter of Mrs. H. A. Morris, 1182 Terrace, Pampa and Ken Bennett of Gladewater. Mr. Brown is the son of Mr. and Mrs. Milton Brown of Spearman. He is a graduate of Pampa High School and was employed by the Cahol Co., before entering the U.S. Army in February. He is stationed at Camp Rucker, Ala.

Immediately following the ceremony the couple left for a short honeymoon trip to Panama City and other points in Florida.

What The Numbers Really Disclose

Do American casualty figures in Korea reflect the current end of fighting? The answer is no, they do not.

The casualties shown for any week in the weekly summaries lag from about 10 to 26 days behind occurrence because the names of casualties are often lagging getting here from the fighting fronts.

Units in combat also send to higher headquarters secret daily "flash" casualty reports. These are transmitted with top priority to the Pentagon building.

Except in rare instances, these reports are not made public because the information would be of value to the enemy.

Because the total was so low, a recent flash report of United Nations casualties for five days at Communist attack was released soon after it reached Washington.

Now, before we consider specific examples of this rejection of freedom, I would like to make two points. First, I am not talking about "someone else" who is not with us today.

Second point is that I am quite sure that I do not know the answers to the weighty problems which we face.

Another point is that I am not a student, not as a teacher, and I come here, in all humility, to present for your consideration the results of my study of freedom.

Probably the most clear-cut example of our lack of faith in individual freedom is found in the compulsory social security pension system established by Federal Government which has spread so rapidly over our country.

Better Jobs

By R. C. HOILES... In Search of Freedom... I am indebted to a friend of mine for having asked Ben Moreell, chairman of the board and president of Jones & Laughlin Steel Corporation, to send me a copy of a speech he made before the United States Chamber of Commerce on May 2 at their annual meeting.

"The theme of this meeting is 'Freedom'. And I have been asked to study the problem of 'preserving our freedom'.

"I doubt that any right-thinking American opposes the basic principle, refer to as 'the police and defense powers of government'.

"The founding fathers established a form of limited government with divided governmental powers designed to protect the smallest possible minority from a person or a group of persons.

"The casualties shown for any week in the weekly summaries lag from about 10 to 26 days behind occurrence because the names of casualties are often lagging getting here from the fighting fronts.

Units in combat also send to higher headquarters secret daily "flash" casualty reports. These are transmitted with top priority to the Pentagon building.

Except in rare instances, these reports are not made public because the information would be of value to the enemy.

Because the total was so low, a recent flash report of United Nations casualties for five days at Communist attack was released soon after it reached Washington.

Now, before we consider specific examples of this rejection of freedom, I would like to make two points. First, I am not talking about "someone else" who is not with us today.

Second point is that I am quite sure that I do not know the answers to the weighty problems which we face.

Another point is that I am not a student, not as a teacher, and I come here, in all humility, to present for your consideration the results of my study of freedom.

Probably the most clear-cut example of our lack of faith in individual freedom is found in the compulsory social security pension system established by Federal Government which has spread so rapidly over our country.

The Big Lie

By DAVID BAXTER

PART FOUR... Having promised you a statement by John F. Wahl, an active backer of Dr. William Frederick Koch's treatment, here it is.

May 19, 1951... Collier's says that my father, the late Dr. Albert L. Wahl, died of leukemia, and infers, therefore, that the Koch treatment has no therapeutic value.

Collier's also says that my father, the late Rev. A. C. Wahl, who was much interested in the work of Dr. Koch, died of cancer, and infers, therefore, that the Koch treatment has no therapeutic value.

Collier's also says that my father, the late Rev. A. C. Wahl, who was much interested in the work of Dr. Koch, died of cancer, and infers, therefore, that the Koch treatment has no therapeutic value.

Collier's also says that my father, the late Rev. A. C. Wahl, who was much interested in the work of Dr. Koch, died of cancer, and infers, therefore, that the Koch treatment has no therapeutic value.

The Flag Staff

By DAVID BAXTER

The staff that bears the Stars and Stripes Will not take root on foreign land. When planted on a distant shore, 'Tis but to pin the greedy hand.

For, when at last oppressed are free, And tyrants crushed, return no more, Our flag again is homeward borne; It can't take root on foreign shore.

WASHINGTON... WAHINGTON (NEA) — A new carrier in foreign intelligence work is now being organized by the U. S. Central Intelligence Agency.

The other 40 percent will have M.A. or Ph.D. degrees. Eighty percent will be men, 20 percent women. Starting pay will run as high as \$4600 a year for qualified Ph.D.'s.

It will be nice work if you can get it. But getting it will be extremely difficult and keeping it will be downright tough.

Back of this idea is a story. When Lt. Gen. Walter B. Smith, now a director of CIA, came home from France after World War I, he thought he might like to get into intelligence work.

General Smith, who was then Second Lieutenant Smith, had to answer that he had only his Army pay, \$141 a month. He didn't get the job.

National Whirligig

By RAY TUCKER

WASHINGTON — Despite the usual and untrustworthy denials from high official sources, the Korean war may soon be terminated by a more or less permanent cease-fire agreement between the Truman administration and Mao Tse-tung's Communist regime in China.

There may also result a five-and-let-live arrangement between Washington and Peking that may weaken Russia's influence in the Far East.

Mao is reported to be disgusted with the tragic outcome of his intervention in Korea, where his finest legions have been mauled by United States-United Nations forces.

GAME — He is described by neutral diplomats as a disingenuous diplomatist in contact with him as disgusted with Stalin's failure to keep his promises of vast military aid.

He suspects that the Kremlin aims to see him so weakened by the current war that he will be an easy pushover for Red invaders.

It is the same play Stalin pulled on Hitler — first, the 1939 alliance that provoked war, and then Germany's destruction.

In short, Mao begins to realize that Moscow is using him as a pawn in its game to make China a puppet.

He is supposed to be in the mood to strike a bargain with the western powers, provided they do not make it too difficult.

General Smith has called in as his director of training Col. Matthew Baird, who is now at the 13th Air Force Service Command, Colonel Baird is a graduate of Princeton and Oxford.

PROBLEM — The parallel today is almost perfect. Mao's given him greater respect for the western world's growing strength, especially American land, sea and air power.

He has had scant help from Russia in repelling foreign pressure, both military and economic, as he failed to obtain support from Chiang in 1937.

Therefore, according to neutral diplomats like Nehru and others, Washington hears he may be willing to make the best of a bad bargain and situation.

Some of these men may ultimately be assigned to the Office of National Education, or O.N.E. — now under Dr. William Langer, Harvard and Columbia historian.

Every director of a division in CIA will each year be expected to designate a percent of his staff for this general career corps.

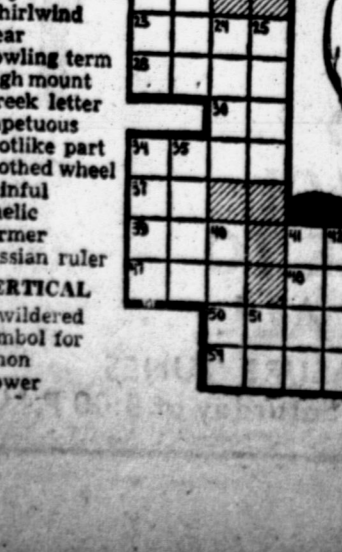

It is from this system that General Smith hopes to give the United States a professional intelligence career service, for the first time in its history.

Bums Find Selves Strong Road Club

(By The Associated Press) Home may be a man's castle but the Brooklyn Dodgers are finding the road more fruitful than their Ebbets Field citadel. The Dodgers, sprinting six games in front of the pack, are terrors on foreign soil. They have won 15 games and lost only five away from home for a terrific .750 pace. At home they have won 18 and dropped 13.

The Dodgers are unbeaten as Boston, Cincinnati, New York and Pittsburgh. They have lost only one game in St. Louis and two each at Philadelphia and Chicago.

The league leaders currently on their second tour of the west, made it two straight over the St. Louis Cardinals last night, 7-4.

The Cards, in years gone by, were one of the Dodgers' toughest foes. This year the Brooks have beaten the Cards in seven out of nine clashes, four of the victories coming in Brooklyn.

Duke Snider was the big gun for the Dodgers last night. He pounded out four hits, a home run, a double and two singles and drove in three runs to spearhead the Dodgers' 11-3 hit attack.

Snider broke up the game with a three-run homer in the eighth inning.

Errors also helped Robin Roberts and the Philadelphia Phillies beat the Chicago Cubs, 5-0. The Cubs made four errors, which figured in three of the Phillies' runs. Roberts blanked the Cubs on four hits, two of them extra base smashes, for his seventh victory.

American League action was a restricted to one game in which the Boston Red Sox defeated the Detroit Tigers, 2-0, behind the five-hit pitching of Bill Wright, who went the distance for the first time this year.

The Red Sox nipped veteran Dizzy Trout for only six hits. They scored in the second on Vern Stephens' triple and a fly ball. Ted Williams doubled Don DiMaggio home from second base in the eighth inning with the other run.

The league-leading Chicago White Sox and Washington Senators were rained out along with the St. Louis Browns and New York Yankees, the Cleveland Indians and Philadelphia Athletics and the Boston Braves and Pittsburgh Pirates.

From defending champion Ben Hogan down, the array of 134 professionals and 28 amateurs complained that this par-70, 6,827-yard layout is strictly a series of snares and deceptions.

The 75-hole medal play test will hiked \$15,000 prize list cells for 18 holes today and tomorrow with the 80 low scorers coming to grips in Saturday's closing 36-holes.

Oilers Sweep Pair From Gold Sox Behind 4-Hit Efforts B Mac Hyde, Al Kavanagh, 6-2, 10-5

Sports Round-Up

By HUGH FULLERTON, JR. BIRMINGHAM, Mich. — (AP) — Gene Sarazen hasn't missed playing in an Open golf championship since 1920. Today he starts his 28th consecutive Open, so when Gene talks about it, you listen. "They talk about tough courses," sputtered the stocky, knicker-wearing little veteran, "but when they start betting on the winning score, the figure is 285 or 286. I think it will take 285 to win here and the fellow who beats Ben Hogan will win it. Of course, some guy from Waahoo Bend may score a 65 tomorrow. The first round of the Open always is the easiest." After a couple of days of listening to moans about the traps at Oakland Hills, naturally you asked about some of the other difficult courses where the Open has been played. "Well, Merion was tough last year," said Gene, "but it's an older course and this one has been modernized. The toughest one for me was Oakmont in 1925. Why, they were wondering there whether anybody would break 500. (Sam Parks did with 299). But that course has been modernized and made easier."

CHEERING SECTION
Sarazen tried a couple of practice putts, then went on: "I was out there yesterday with a couple of fellows who were complaining about the traps. I told them: 'I'm trying to hit into those traps. You can get home from them with an iron and you can't from the rough.'" Chris Brinke, who's responsible for the modernization of Oakland Hills, came along in time to hear this. "You can from the traps on the right, but not on the left. No hooker is going to win this tournament," he interjected. "And we cut some of the rough on the 18th today." The 15th is a dogleg hole with a trap in the middle of the fairway and deep rough to plague the golfer who tries a shortcut. Gene grinned: "That will be good if I need to finish in 4-4-3-4 to win."

Said Brinke: "If you need 4-4-3-4 to win, I'll be out there with a mower myself, and I'll be trying to push that trap back with a stick."

Dutch Harrison was telling a friend about a supposedly soft match which had backfired. "We went out in a Cadillac and came back in a model T," said Dutch. "And before we were through I was checking freight trains."

ferred indoors to Madison Square Garden and he held Friday night. Tire squealing on an automobile is a warning of lack of brake equalization.

Finish Road Trip Tonight

AMARILLO — (AP) — Mack Hyde and Al Kavanagh both new four-hitters and Pampa defeated Amarillo in both ends of last night's cold, windy double-header here, 6-2 and 10-5. The losses were the fifth and sixth in a row for the Gold Sox, who have had only 15 hits in their last four starts.

The Sox suffered additional bad luck when, in the third inning of the second game, Gil Castillo's bad-hop grounder struck infielder Jimmy Dean, the Amarillo club's leading hitter, in the face, knocking him out. Stitches were necessary to close a wound at the bridge of his nose and it is uncertain whether he will be fit to play tonight.

Tonight the two clubs meet again in the final game of the series and of the current over road trip. Either righthander Red Dial or lefty Bill Kimball will draw the starting assignment, with Kimball the probable selection.

Tomorrow night the Oilers return home to open against the Borger Gasers in the first game of a six-game home stand. It will be a special night, with Mack Hyde, the Oilers' big righthander, receiving a trophy from the league for his selection as player of the week.

The Gold Sox losers were Joe Pate and Larry Mann. Pate pitched good ball after a bad first inning during which the Oilers batted around and scored three times on Francis Rice's infield hit, a base on balls to Dick Woldt, Virgil Richardson's homer over the rightfield wall, singles by Joe Fortin and Bill Whitehorn and Nelson Davis' double.

Pate fanned the next two Oilers and held them to one infield hit, a base on balls to Dick Woldt, Virgil Richardson's homer over the rightfield wall, singles by Joe Fortin and Bill Whitehorn and Nelson Davis' double.

The Sox gained one in the sixth on a Pampa error and three bases on balls. Howard's 12th homer of the season followed a windblown scratch by Frank Murray for the other two in the seventh.

Only two of the Pampa runs off Mann were earned, technically, but they amassed 14 hits. Bill Whitehorn's single, followed a walk and two errors for two runs in the first inning. Castillo's single, a sacrifice and a single by Rice picked up another in the second.

Another pair of errors and singles by Fortin, Castillo and Rice scored three in the third. Phillips' scratch double in the wind, Fortin's single and a fly meant one in the fourth. Two more errors, another walk and single by Castillo, Rice and Fortin added the last three.

The Sox defense was, of course, crippled badly by the revision made necessary when Dean left the game, Doc Fletcher and Pat McLaughlin, pitchers, taking turns in right field.

PAMPA NEWS, THURSDAY, JUNE 14, 1951 PAGE 13

Aggies Eliminated In First Game By Little Giant Killer

OMAHA — (AP) — Springfield College, the NCAA baseball tournament's first giant killer, will try it again tonight against the hard-hitting Sooners from Oklahoma.

The Massachusetts team, with Bill Norberg pitching a three-hitter, played the sharpest baseball of opening day to beat Texas A&M 5 to 1.

Also matched tonight in the winners' bracket are Southern California and Utah. USC beat Princeton 4-1 yesterday and Utah took Tennessee 7-1.

The two teams beaten today in the losers' bracket will be the first eliminated from the five-day double elimination tourney.

The Texas Aggies, coming from the district that produced last year's NCAA champ, Texas, were rated as tourney favorites along with USC.

Against Springfield, they put up strong pitching but didn't shine in the field. Hurler Pat Hubert gave Springfield just five hits.

But the Maroons didn't need hits to produce runs. Twice Springfield runners streaked from third to steal home.

Haney's Magic Almost Does Job
ALBUQUERQUE — (AP) — all of Manager Jay Haney's magic failed to stop the Dukes last night. Bill Kimball ended an eight-all deadlock in the last of the eleventh with a base-jammed single to give Albuquerque a 9-8 verdict over Lamesa.

The two clubs wind up the series tonight with Steve Lagomasino slated to face the mound in Duke's end his fifth win and hit the road Friday with an opener in Lamesa.

Haney outdid Chicago's Paul Richards in dividing his mound assignment between righthander Jim Reynolds and southpaw Ed Hicks. When the Dukes batted faced them. When Al Maul and Hersh Martin strode to the plate to hit from the left side, Reynolds abandoned his duties for the first base chores, and Hicks came over from the initial sack to twirl.

Melton In Great "Iron Man" Chore

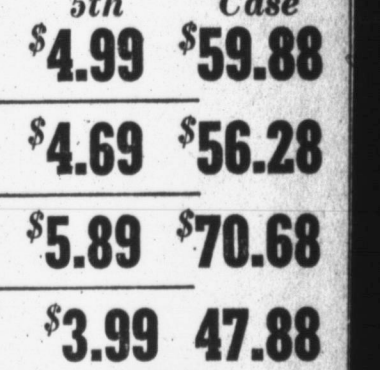

CLOVIS — (AP) — Big Jim Melton pulled off an impressive iron man stunt here last night, hurling the league leading Abilene Blue Sox to a doubleheader triumph over the Clovis Pioneers.

He checked the Pioneers on six hits for a 6-3 victory in the opener and then, picking up strength as the evening progressed, stopped the locals 2-1 in extra innings in the nightcap.

Doubles by Ralph Rahmes and Art Bowland broke up a tight and rookie Dwight Stoddard in the eighth frame of the second tussle.

(First Game)
Abilene 050 010 0-4
Clovis 000 300 0-3
Melton and Bowland; Carr and Melton and Bowland; Carr and Melton and Bowland; Stoddard, rego and Calo.

KIDNEYS MUST REMOVE EXCESS WASTE

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When it is impaired, such as by stress and strain, causes this important function to slow down, many folks suffer nagging backaches—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys. If these conditions bother you, try Doan's Pills—a mild diuretic. Used successfully by millions for over 40 years. It's amazing how many times Doan's give happy relief from these discomforts—helps the 15 million of kidney tubes and filters flush out waste. Get Doan's Pills today!

Open Starts On Toughest Course

BIRMINGHAM, Mich. — (AP) — Golf's greatest show, the U. S. Open, today began its 51st annual performance with a field of 162 shooters feeling their way over cunningly-trapped Oakland Hills Country Club course.

From defending champion Ben Hogan down, the array of 134 professionals and 28 amateurs complained that this par-70, 6,827-yard layout is strictly a series of snares and deceptions.

The 75-hole medal play test will hiked \$15,000 prize list cells for 18 holes today and tomorrow with the 80 low scorers coming to grips in Saturday's closing 36-holes.

McLEMORE

(Continued from Page 13)
 The sweetest, cutest animals I ever saw were the bulls in the annual livestock show in Buenos Aires, how bald I am getting, and how wrong Tallulah (Dahlberg) Bankhead was in thinking she was the only one to have the right to the name of Tallulah (a lovely falls in Georgia was called that long before any of the Bankheads of Alabama were born), and what it meant to me the first time I crossed the ocean and stood on foreign soil.
 More: what I thought the first day I did KP in the army, what it meant to have to say "Sir" to officers I knew couldn't carry even my shoes on a dark night, my troubles with a fiancée that smoked, my conviction that Bill Dickey was the best catcher baseball ever knew, the griefs of spring housecleaning, and a talk with Nehru in New Delhi.
 Still more: Toots Shor, the view from the Semiramis Hotel in Cairo, the belief that this country could use more men like Rickenbacker, the tortures of getting a suit tailored, coming close to getting thrown out of the press box at Epsom Downs for putting my nose to a plate glass window and looking at George Y. my first burlesque show, President Truman, the income tax, Sonja's skating in the 1932 Olympic games at Lake Placid, Jesse Owens running the 100 and the 220 at Berlin, the tortures of being a redhead and trying to get a suntan, the Morris Palm Bank, Fuji's beauty television, and the satisfaction of betting on the Yankees in a World Series, the sweetness and kindness of Denmark's people, a handshake with F.D.R., the view of Hong Kong from the ship that night, the view of San Francisco from any place, Bob Hope, and the belief that shower curtain rods should be abolished because women wash and hang stockings and slips and girdles on them.
 Now I have to write about something I haven't written about.
 I am going to try, but I am not sure that I'll be able to.
 Boy babies born this year in the United States can expect to live 66 years on the average; girls, 71 years.

ORDINANCE NO. 333
 AN ORDINANCE AMENDING ORDINANCE NO. 267 AND 298 PASSED AND APPROVED BY THE CITY OF PAMPA, TEXAS ON THE THIRTY DAY OF APRIL, 1946 AND ON MARCH 31, 1949, RESPECTIVELY; REPEALING CERTAIN PORTIONS THEREOF AND DECLARING AN EMERGENCY;
 BE IT ORDAINED BY THE CITY OF PAMPA, TEXAS:

SECTION I
 That Section No. XXIII of Ordinance No. 298 passed and approved on the 21st day of March, 1949 be repealed and that the following be passed and substituted therefor so that hereinafter said Section will read as follows, to-wit:

SECTION XXIII
 That a parking meter zone is hereby designated and established in the city of Pampa, Texas. Said parking meter zone shall embrace the following streets located in the City of Pampa, Texas and such streets shall be properly marked and proper parking meters shall be installed thereon, to-wit:

ZONE A
 South Side of Francis Street from Russell Street to the Cuyler Ballard Alley
 Kingsmill Street from Russell Street to Ballard Street
 North Side of Kingsmill Street from Somerville to Somerville - Gray Alley
 West Side of Somerville from Kingsmill to a point 100 feet North of Kingsmill Street
 Foster Street from Russell Street to Ballard Street, excepting the South Side of Foster Street from Ballard Street to the Ballard - Cuyler Alley
 North Side of Atchison Street from Cuyler Street to the Cuyler-Ballard Alley
 Cuyler Street from Atchison Street to Francis Street

ZONE B
 North Side of Foster Street from Kingsmill Street to Russell Street
 South Side of Foster Street from Russell Street to Francis Street
 Somerville Street to Kingsmill Street
 North Side of Foster Street from Frost Street to Russell Street
 North Side of Atchison Street from Russell Street to the Russell Cuyler Alley
 Frost Street from Foster Street to Kingsmill Street
 Russell Street from Foster Street to Kingsmill Street
 East Side of Russell Street from Kingsmill Street to Francis Street
 West Side of Ballard Street from Foster Street to Kingsmill Street
 Ballard Street from Kingsmill Street to Francis Street

In Zone A said meters shall be mechanically constructed so that it will allow twelve (12) minutes parking time; 2c will allow twenty-four (24) minutes parking time; 3c (pennies) will allow thirty-six (36) minutes parking time; 4c (pennies) will allow forty-eight (48) minutes parking time and 5c (pennies) or one five cent coin will allow sixty (60) minutes parking time.

In Zone B said meters shall be mechanically constructed so that one cent will allow twelve minutes parking time; two cents will allow twenty four minutes parking time; three cents will allow thirty-six minutes parking time; four cents will allow forty-eight minutes parking time; five cents or one nickel or five cents coin will allow sixty minutes; six cents will allow seventy-two minutes; seven cents will allow eighty-four minutes parking time; eight cents will allow ninety-six minutes parking time; nine cents will allow one hundred eight minutes parking time and ten cents or two five cent coins will allow one hundred twenty minutes parking time.

SECTION II
 No vehicles shall remain parked upon any portion of the hereinafter described streets for a longer continued period than 15 minutes between the hours of 9 A.M. and 6 P.M. on any day except Sundays and holidays, said streets being described as follows, to-wit:
 On the South side of East Foster Street from Ballard Street to the alley between Ballard and Cuyler Streets.
 On the West side of South Ballard Street from the corner of Ballard and Foster Street south to the south boundary line of Lot 18, Block 5 of the Original Town of Pampa, if produced East. Said streets being in front of and along the side of the United States Post Office.

SECTION III
 The fact that Ordinances No. 267 and 298 are already operative and that the meters have been removed from certain sections covered thereby for the reason that the same are no longer necessary to properly control traffic and have been placed in other areas where it is necessary to control traffic and this ordinance needs to be immediately enforced in such areas, and that the public welfare needs be promptly protected, an emergency is hereby declared to exist and the rule requiring ordinance be read on three separate days is hereby suspended and this ordinance shall take effect from and after its passage, approval and printing of the same.

PASSED AND APPROVED, this 12th day of June, 1951.
 ATTEST:
 W. EDWIN S. VICARS
 City Secretary

Armed Forces Show Slated

Letters went out to local industrialists recently from the Pampa Chamber of Commerce reminding local manufacturers of the small business exhibit sponsored by the Air Force, Army and Navy June 26 through June 30.
 The clinic will be held in Fort Worth at the Will Rogers Memorial Coliseum and prime contractors of the South, Southwest, Midwest and Rocky Mountain area will display products that they are now making for the armed forces.

\$500 Fire In Drug Store

WHITE DEER — (Special) — A fire that could have spread to three business buildings was extinguished here Monday night after about \$500 damage was done to the White Deer Drug store.
 The blaze started in the lunch counter grill and was discovered about 10 p.m. by Franklin Hussey, a passerby.
 Hussey forced his way into the drug store and called the fire department. Firemen said if the fire hadn't been discovered when it was, it would have spread to the post office and Williams Food store in a short time.
 Owner of the drug store is Harry Edenborough. The lunch counter is leased by Mrs. T. F. Oullene.

Superintendent To Meeting In Austin

SHAMROCK — (Special) Supt. Elmer J. Moore went to Austin this week for a week-long session under the direction of the Texas Department of Public Safety.
 Moore will also work with the Texas Education agency in the interpretation of new legislation relating to transportation of pupils in busses.
 He returns Saturday.

Wheat is grown in each of the 48 states of the United States.

Major subcontractors will exhibit their products for the benefit of smaller businesses willing to undertake subcontract manufacturing.
 Military officials point out that the exhibit will permit engineering and contracting representatives of the prime contractors to get together with small manufacturers, discuss actual products and explain blueprints and specifications.
 It is not known at present whether any Pampa industrialists plan to attend the six-day clinic.
