Black speaks to convention

Agriculture Secretary John Block said last Thursday that he still opposes the embargo on grain shipments to the Soviet Union, but he said there are fears within the Cabinet that lifting the ban might imperil Poland.

He also had glad tidings for farm researchers but grim words for food-stamp recipients, coyotes and Farmers Home Administration loans.

Although he didn't lump together the last three, Block did insist there are too many of each.

He was equally forbidding about the future of school-lunch subsidies, dairy support programs and the Rural Electrification Adm.

"We don't want to cut from the truly needy, but there are more recipients than there should be," the 46 year old former director of the Illinois Agriculture Department said of food stamps.

Block was in Phoenix to address the National Cattlemen's Association.

"I sold my first 4-H calf, a black white-faced calf, for 35 cents a pound," he said. "That was 30 years ago, and we haven't seen much of an increase in prices since then."

Laughter, then applause, swept the standing room only crowd at Symphony Hall.

Block told of raising hogs in the woods on his Illinois farm for almost 20 years.

"But we have a problem now we never used to have," he said, "The coyotes are eating my pigs, and I don't like it."

John Block

approval. "The federal government is too big," he said. "The private sector should be doing many of the things the government has been doing."

"I'm going to assure you that the U.S. Department of Agriculture is now on the side of agriculture."

The subject of the grain embargo, imposed by President Carter after the Soviet Union invaded Afghanistan, came up at a news conference after Block's speech.

Block said the question of whether to end the embargo was unresolved at a Cabinet meeting Wednesday, although fear was expressed that to drop it would pose "a potential threat to Poland."

His view is that the policy has been a failure.

"The Russians are still in Afghanistan," he said. "Of course, it's no secret that I've opposed the embargo since the day it was instituted."

He would not predict whether the grain shipments might be resumed.

However, he said President Reagan might embargo other exports instead of grain.

Block said Washington's budget slashing will be broad but he will propose "somewhat favorable treatment" for expanded

Cattlemen Choose Officers

Working cattle growers were elected Thursday to head the 45,000 member National Cattlemen's Association for the next two years.

The election wound up the four day convention of the National Cattlemen's Association held in Phoenix last week where a record attendance of 4,500 breeders and feeders were registered.

J. W. Swan, a rancher from Rogers, Idaho, was elected president, and Sam Washburn, a grain and cattle farmer from Fowler, Ind., was named president-elect.

W. J. "Dub" Waldrip of Lubbock, Tex., was elected first vice president.

The election of a president-elect was provided by a by-law

change adopted by the convention to provide continuity of administration. The president elect automatically becomes president a year after being elected.

Swan was first vice president. He succeeds Merlyn Carlson of Lodgepole, Neb., as president.

Winding up business, delegates adopted scores of resolutions, highlighted by a recommendation to change grading to provide leaner beef.

"The resolution on beef grading will enable cattlemen to meet quality grades with less feeding than is done now", Washburn said.

"The heavy marbling and layers of fat do not make the

J.W. Swan

meat tastier, just more expensive and wasteful because the excess fat is trimmed away", he added.

Beef is graded by USDA inspectors at the time of slaughter. Hearings will be held on the proposal to allow leaner beef to be graded "choice".

The advantage to the cattle industry in leaner beef is less time spent fattening cattle in feed pens "in this time of high costs and high interest," Washburn said.

History of Valentines Day

February 14th will soon be here, when we can reach another's heart with a pretty card, a bouquet of flowers or a showy assortment of Valentine candy.

Valentine's Day, according to legend, bears a rich heritage stemming back to the third century. During that time, a young Roman, Valentium, who was sympathetic to the martyr Christians, was condemned to death by Emperor Claudius II.

A waiting execution, Valentium devoted his love to the blind daughter of the jailor and, according to legend, restored her sight. The night before his death,

he wrote a love message to the girl and signed it "From Your Valentine." And the name has come down through the centuries as the word which stands for love among sweethearts.

Does chocolate ease the pain of a broken heart? Researchers think so, according to an article published in Modern Medicine.

Victims of unrequited love often go on a chocolate binge during a state of depression. Since chocolate is high in phenylethylamine, the speculation is that it is an unconscious effort at self-medication.

To discover the kind of

center that is hidden inside a piece of boxed chocolate candy, check the shape of the confection, as well as the swirly script which is stroked on top of each piece. For example, a "V" usually signifies a vanilla cream center. Flat topped chocolates with an open "C" often indicate a chocolate butter cream center, while dome shaped chocolates inscribed with a closed "C" reveal a cherry cordial is concealed inside. Square shaped chocolates with a "V" indicate a vanilla caramel center. An "O" stands for orange cream; "P" for pineapple cream; and "R" for raspberry cream.

Coyotes Stun Dragons

A long lost friend, high percentage free throw shooting, returned to the Borden Coyote team Tuesday night as the Coyotes shocked the Dawson Dragons 51-46. Hitting on 19 of 22 free throw attempts, including 8 of 9 in the last quarter, the Coyotes put themselves back in contention for the second half district crown.

10, Jym Rinehart 8, Mike Peterson 6, Junior Benavidez 5, Kevin Telchik 2 and Jeff Martin 2.

Telchik's two free throws with 37 seconds left and McMeans two with 10 seconds left provided the cushion at the end.

Danny Holmes and Jeff Martin subbing for the injured Junior Benavidez, played extremely well under pressure.

Bart McMeans provided the scoring punch with 18 points and Troy King added

The Coyotes are now 1-1 in the second half of district and 5-14 on the season.

Coyotes Wallop Loop

The Borden Coyotes played 13 players and 10 of those scored as the Coyotes beat the Longhorns 62-50. The Coyotes trailed only once, 2-0, in posting their 6th win of the season and running their second half district record to 2-1.

McMeans had 11, Troy King 10, Danny Holmes 8, Jeff Martin 4, Doug Love 3, Keith Martin, Van York, Kevin Telchik, and Mike Peterson 2 each. Jeff Martin was the leading rebounder with 9.

Jym Rinehart led the Coyotes with 18 points, Bart

The Coyotes host the Grady Wildcats Tuesday the 10th.

Coyotes Survive Cougar Scare

In a crucial District 9-A basketball game, all seemed lost: 9 points down, three minutes to go, 3 starters with 4 fouls, an injured ankle, an injured knee, and a case of the flu. But then a press appeared, a trapping zone defense came up, and 2 minutes later a Coyote team

that refused to give up, found themselves ahead by one. All that was left to do was hold on to the ball and hold on they did. Klondike, finally forced to foul, put the wrong person on the line twice, as Talley Griffin connected for 4 of 4 the last minute to put the game out

of reach. Final score? 49-47! Talley Griffin led the exciting victory with 21 points followed by Gena Faught with 14. Jana Edwards had 8 and Gayla Newton had 6. This was Borden's first game of the second half after winning the first half 7-0.

Borden Wins At Sands

Talley Griffin and Gena Faught combined for 37 points in another big win for the Coyotes in district 9A, 59-32. The Coyotes were playing without starter Gayla Newton who was injured in the Klondike game. Borden outscored Sands each of the four

quarters as follows: 17-12, 13-6, 14-6, and 15-8. Talley led all scores with 20 points followed by Gena Faught with 17. Gena McLeroy, Jana Edwards, Joie Brummett, Roxie Wolf each added 9, 6, 3, and 4 points respectively. Season record for the Coyotes is now 23-1.

CODY COOLEY IS SHOWN PUTTING TWO POINTS ON THE SCOREBOARD FOR THE WHITE TEAM DURING THE Pee Wee Tournament Monday afternoon.

JUMP BALL

Pee Wee Tournament

In the first game of the Pee Wee tournament, the red team met the white team in a close hard-fought game.

The white team came up winning with a score of 8 to 5. Scoring was Cody Cooley, 2 points; Amy Lewis, 4 points; and Candy Belew, 2 points. Jim Ridenour and Patrick Herridge made the scores for the red team with 3 points and 2 points respectively. The two teams consisted of third graders.

The second game was another close game keeping fans on the edge of their seats. Scoring by quarters were 5-12, 11-15, 12-15 and 14-17. Leading scorer in the game with 6 points was Maria Yanez who led her red team to a 17-14 win. Also scoring for the reds were Kate Porter, 4 points;

David Holmes, 3 points; Ralynn Key, 2 points; Will Phinazy, 2 points. Kim Turner and Stacy Munoz led scoring for the white team with 4 points each, Chad Vaughn had 2 points; Shelly Lewis, 2 points and Richard Zant, 1 point.

The last game was a defensive battle between third graders. The only score came when Rachael Wilson broke loose with a fast break and set up for 2 points taking the only score of the game and a win for the reds.

When questioned about the game, Jim Ridenour, third grader, commented that officials Maxwell and Roemisch were far from fair. He thought high-scorer in the second game should have 'fouled out for carrying the ball.'

Defense Stops Dawson

Borden girls held Dawson to 7 points the last three quarters in route to a 47-13 win. The defense was applied with only seven total team fouls. Talley Griffin led the win with 16 points followed by Jana Edwards with 13. Gena Faught and Gena McLeroy had 6 each with Roxie Wolf adding 4 and Joie Brummett 2. This raised the district mark to 3-0 in the second half of play.

Bench Aids In Loop

Having two starters out and putting in a main substitute would seem to make it tough on a team. But a strong bench came through to pull off a 61-23 win. Talley Griffin led the win with 23 points followed by Gena McLeroy with 8 and Gena Faught with 6. Substitutes contributed the other 24 points with Roxie Wolf taking most of it with 15. Teresa Wimberly had 4 with Lisa Smith and Kay Copeland adding 3 and 2 points respectively. Season record for the Lady Coyotes now stands at 25-1.

Borden Boosters Meet

The Borden Booster Club met for its regular meeting on February 4. After basketball reports from coaches May and Maxwell, a discussion was held concerning a plaque for the Junior High Girls Basketball team that won district this year. The cost will be checked into before a decision is made about the plaque.

Jana Edwards, Gayla

Newton and Junior Benavidez have missed playing time the past week because of illness or injuries. The club expressed its concern and wishes them a speedy recovery.

The Borden Relays are only four weeks away. There are 20 boys teams and 19 girls teams entered to date.

The next meeting date is February 18.

NEW YEAR FACTS & FIGURES

If present population trends continue, U.S. Census Bureau statistics show, America could become the "land of the middle-aged." Our comparatively low birth rate has encouraged experts to predict that 55 percent of the population will be over 35 by the year 2000.

1981 is the first year since 1948 without a new model of the popular MG sports car. It stopped production in late 1980. However, enough were made so that top-down driving enthusiasts can find them at MG dealers for a few more months. And there will be spare parts available for at least 10 years.

Natural springs were considered sacred in ancient Greece and shrines were built around them.

In 1675 engraver Jean Papillon became the first person to print wallpaper in matching, continuous patterns.

Our president started off his term in office with a real piece of luck, the release of the hostages on his first day in office. Perhaps partly as a result of this good fortune he has elected to take the high road, to proclaim that "revenge is not worthy of us". He has nobly rejected the opportunity to use the outbreak of patriotism and public indignation to build his personal popularity, and has chosen rather to play it cool, discrete, magnanimous, and practical. We need Iran's oil.

Those of us walking the low road might argue that it's not revenge that we want, but justice. It's not satisfaction of honor we crave but punishment for the commitment of a criminal act against innocent, defenseless victims. Is kidnapping a crime or isn't it? Is it moral or immoral to know that a crime has been committed, to know the men who did it and to allow them to get away with it? If you are eye-witness to a crime how guilty are you if you refuse to act? What responsibility do you have to protect society or the next victim? What fault is yours when you do nothing?

It's impossible to repay a man for the loss of 444 days out of his productive life or to restore life to eight men who died in the Iranian desert. It's not a matter of getting even, it's a matter of permitting a crime, a deliberate act of taking prisoners and holding them for ransom, to be rewarded.

There are some Americans, believe it or not, who would blame the Shah for all this. Perhaps it is time for us to make announcement to the world that hospitals and physicians in the United States are not required to screen patients for their background of friendly, hostile, civilized or uncivilized behavior. Our medical schools do not teach international politics, but promote rather the Samaritan principle of treating the sick and suffering without regard for tribal differences or political consequences.

Along with the new president we have a brand new ambassador to the United Nations. We might ask her to try one more time to see what that worthy organization can come up with. The Iranian government was responsible for the protection of embassy personnel under the ancient custom and principle of diplomatic immunity and the mutual sanctity of embassy grounds and property. There has been a clearcut and indisputable violation of international law, so for the heck of it, let's just ask the members of the General Assembly of the United Nations what they intend to do about it. If the answer is still "Nothing", then the next question is: "What good are you, then, if you won't take action in a case like this? Why don't you close up your useless offices, turn in your worthless diplomatic passports and go home?" There are too many useless, parasitical, ungrateful house guests here already.

By Bruce T. Pearson

School Board Election

Incumbent Jack McPhaul has filed for one of the open spots on the school board as of press time on Tuesday. McPhaul has served one term, April 1978 to 1981. The vacancies on the school board were created for the expired terms of Jack McPhaul and Brent Murphy. Each man has served one three-year term. The deadline for filing for a place on the ballot is March 4, 1981. The election will take place on April 4, 1981.

The oldest letter is "O" unchanged in shape since its adoption into the Phoenician alphabet C. 1300 B.C..

Borden County Cancer Society Meets

The Borden County Cancer Society met at The Borden County School on February 3 to make plans for the 1981 Cancer Crusade. Members attending were Gae Ludecke, Fran Bennett, James McLeroy, Melba Rinehart, Barbara and Shorty Farmer, Sue Smith and Dorothy Browne. Ms. Delia Presley, District Executive Director of the American Cancer Society was present at the meeting.

Ms. Presley presented awards to Sue Smith for her service as President of the Borden County Cancer Society in 1979. Mr. E. L. Farmer was presented an award for the good job he did as president in 1980. Awards were also presented to Frances Bennett, Secretary and Memorial Chairman for 1980 and Norman Sneed, Treasurer, 1980.

Officers were elected for 1981. E. L. Farmer was again elected to serve as President. Vice President is again Gloria Griffin and Dorothy Dennis was re-elected as Historian. Dorothy Browne was elected to serve as Secretary-Treasurer and Memorial Chairman. Memorials may be given to her and proper cards will be sent.

Committees were selected for the Cancer Dance and Benefit.

South Plains Science Fair

The South Plains Science Council will be sponsoring their Annual Regional Science Fair on March 27-28, 1981, at the Lamesa Middle School Gym, Lamesa, Texas. The Regional Science Fair is open to all students from grades 4 and up who received a first or second place award at their respective local science fair.

The Regional Science Fair involves all school districts in the following 20-county area: Bailey, Borden, Cochran, Cottle, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Kent, King, Lamb, Lubbock, Lynn, Motley, Terry, and Yoakum.

The two winners of the Regional Science Fair will advance to the International Science Fair to be held in Milwaukee, Wisconsin, May 11-16, 1981.

The Awards Dinner for the Fair will be held at Noon, March 28, at the Lamesa High School Student Center.

Sue Smith receives award from Ms. Delia Presley for services as President of the Borden County Cancer Society in 1979.

1980 Borden County Cancer Society President, E. L. Farmer receives award from Ms. Delia Presley.

Needlework Exhibit

The Scurry County Museum located on the Western Texas College Campus is holding a needlework exhibit February 12 and 13. The exhibit is co-sponsored by The Needlepoint, owned by Dorothy Dennis. Mrs. Dennis urges all needlework advocates to bring their

most interesting work for display. You may contact her by calling 573-3377.

The exhibits will be interesting to everyone interested in any type of needle art and will be on display thru March 14.

The museum is open to the public and admission is free of charge.

GOLDEN ANNIVERSARY- Mr. and Mrs. Panch McDonald celebrated their golden wedding anniversary Feb. 7 with a reception from 3 to 5 p.m. in the Christian Student Center at Western Texas College. Hosting the reception were their children, Johnny and Jo, Don and Barbara and their granddaughters, Joni and Jani. The couple was married Feb. 7, 1931.

Bad Year Forecast For Cattle Industry

This year is "not going to be good" for the cattle grower, a industry analyst said in Phoenix last week.

The outlook is for an average price of 67 cents a pound for beef this year, according to Dr. C. Robert Saathoff, vice president of commodity research for Bache Halsey Stuart Shields Inc.

Saathoff spoke at a cattle forecast seminar Thursday during the annual convention of the National Cattlemen's Association at the Phoenix Civic Plaza.

The top price here was 65 cents this week according to the Arizona Livestock Reporting Service. Saathoff said the dour outlook applies to all meat.

"We can't get a strong demand for meat when personal income is going down," he said. "Half of the country's population lives in the Northeast and Midwest. The income there is usually 2 to 3 percent above the average, and that is where industry has been hurt worst."

"Real personal income will be flat or going down." He predicted the slaughter of hogs will be down 5 percent, but poultry will be up 2 percent. Beef slaughter will be up 5 percent to 36 million head this year, he said.

The crop will be 47 million head, an increase of 3.8 percent from 1990, he said.

Saathoff said his estimate of 67 cents a pound for beef was based on good weather.

"If there is a drought," he said, "the price can go down

to 65 cents. Cattle will come off the pasture early.

"Pasture conditions are very poor now. On Aug. 1, the Agriculture Department rated them as 60 percent of normal. This is the lowest in four years.

"Rainfall this spring is going to be a very important factor," he said.

Saathoff said cattlemen lost \$71.19 a head on calves fed to a choice grade and marketed in December. He said they are losing more on those marketed now. Yearlings in the same period produced a loss of only \$17.59 a head, his figures showed.

"Cattlemen should market yearlings and keep their costs hedged," he said. "It looks like we could have a 68-69 cent level in June and July.

"Feeder prices will be under tremendous pressure by fall. There are 7 percent more of them out there."

Although the market analysis was pessimistic and this was the general feeling of cattlemen attending the convention, there was an air of optimism when the new administration in Washington was discussed.

Recycling & Updating your Wardrobe!

There are many ways to update & revitalize your wardrobe for spring without spending a whole lot of money! Recycling with accessories is one way, use scarves; pins or a new belt to give that outfit a new look. Recycling by Wardrobe interweaving is another great idea, who knows, you might could even look in your own closet and find a new spring wardrobe by just remixing and matching what you've got! Another way to recycle is to take an old garment and by doing some simple alterations, bring it up to date for this fashion season.

Attend the **SPRING UPDATING & RECYCLING CLINIC** on FEB. 19th from 6:30 to 7:30 p.m. in the Exhibit Building. Bring a garment from you closet that you would like to update & recycle! Ask yourself these questions to see if it is really worth it:

Is the fabric worth using? Check to see that it is not worn or discolored. Hold it up to the light and look through it for "thin" areas.

If only part of the fabric will be used, can it be combined successfully with another fabric?

Thank You

We would like to thank everyone for their concern, their prayers, and their thoughtfulness after the loss of my brother.

The Ed Rinehart family

Silver polish is said to take crayon marks off linoleum or vinyl tile.

Do you have the time to spend on planning and making a recycled garment?

Do you have the sewing skill and imagination to do a good job? If not, can you get help?

Will the fabric be suitable for the new garment? Consider this carefully when making children's clothing from adult garments.

Does the present design of the garment lend itself to being cut into a new design?

Will the new garment fit into your wardrobe? If you will need special accessories you should consider the cost as part of the new garment.

Can the garment be recycled without looking made-over or homemade?

Have you priced the trims and notions that will be needed for the project? Think twice if they will cost more than purchasing a new garment.

What's Hap-nin

We are sorry to hear Bethe Jones has been hospitalized in Lubbock, we wish her a speedy recovery.

Vaughnie Voss is recovering in Cogdell Memorial Hospital from injuries he recieved in a car accident. Vaughnie is Terry Voss's brother.

Houston Bishop remains in the Cogdell Memorial Hospital, he enjoys hearing from all his Borden County friends.

The Heart Benefit Show is only two weeks, lets be getting all those talents polished and ready to go.

Thank You

I would like to express my sincere gratitude to the York family of Borden County for their help and hospitality to my parents. May God bless and keep you always.

In Christian love, David Smith

University Day

A taste of college life, including both the academic and recreational sides of campus living, will be offered high school senior and other prospective college students Feb. 27 during University Day at Texas Tech University.

A full day of activities has been planned for sudents to receive academic counseling, to visit various departments, to tour the Texas Tech campus and to sample the recreational and entertainment opportunities open to Texas

Mrs. Billy Townsend was honored with a baby shower Saturday, Feb. 7 in the fellowship hall of Fluvanna Baptist Church. Hostesses were: June Mebane, Margret Drum, Becky Beaver, Valarie Drum, Gwen Herring, Carolyn Stansell, Pearl Reeder, Cleon Fulford, Ethel Boulware, Sally Martin, Wanda Stansell, Jacqueline Wills, Olene Cunningham, Shirley Gregory, Marge Toombs and Manie Lemons.

There will be a organizational meeting of Extension Homemakers Thursday 2:00 p.m. at the Fluvanna Community Center. All interested ladies are invited to attend. Saundra Evans will postess the meeting and LaRhea Pepper will present the program.

The program will be Closet Organization and a door prize will be given.

Tech students.

All activities are free and students need not register in advance.

More than 1,500 students are expected to participate in the program. Registration will begin at 8:45 a.m. in the University Center Courtyard. The program begins at 9:30 a.m. in the University Center Theater. Texas Tech President Lauro F. Cavazos will welcome students.

College advisement sessions begin at 10:10 a.m. and 11 a.m. to acquaint students with career choices, possible majors and academic prerequisites for each college. The afternoon program will include campus tours and opportunities to meet with representatives of various academic departments. Activities will end with a two-hour swimming and dance party, beginning at 8:30 p.m. at the Texas Tech pool.

Additional information is available from the Texas Tech Office of New Student Relations, Room 146, West Hall, 806-742-1480.

Handicapped students needing special services or accomodations should contact Trudy S. Puttet, assistant to the dean of students, P.O. Box 4259, West Hall, Texas Tech University, Lubbock, Texas 79409, 806-742-2192.

Tree Offer Still Stands

Landowners planning to put out trees for shelterbelts, windbreaks, or wildlife cover can still get seedlings from the Texas Forest Service in Lubbock.

"We still have over 21,000 trees available at the West Texas Nursery and persons wanting hardwoods such as honeylocust, mulberry, native-plum, and Russian olive should get an application filled out and returned to the Texas Forest Service as quickly as possible," said Denise Word, nursery specialist.

"We also have over 2,500 red cedar conifers for sale which are good for yearround wind protection and wildlife cover," Word continued.

The hardwoods are priced at \$20 per 100 trees and must be ordered in multiples of 50 or more of any one species. The hardwood seedlings will be shipped starting in mid-February and are of the bare-root stock.

The redcedar seedlings are priced at \$1.00 each and must be ordered in lots of at least 30 trees or more. Due to the fragil styrofoam containers, the redcedars cannot be shipped and the orders must be picked up at locations listed on the back of the application forms.

These seedlings can be ordered by getting an application form from the West Texas Nursery, Texas Forest Service, Rt. 3 Box 216, Lubbock, TX 79401 or call 806-746-5801.

For those of you already on the list of persons to receive these seedlings, the forestry personnel suggest you pick out an area for the trees before you get them in the mail or pick them up. Weed control and water are probably the two most important ingredients for a successful tree planting in West Texas.

VALENTINES

Con't from P. 1

The shapes of chocolate confections are also indicators of the contents. Creams are usually round, caramels are square or oblong, and nougats are oblong.

A chemical, phenylethylamine, present in chocolate, as well as in the human brain, is directly related to the emotional ups and downs of being in love, the article indicates.

FARM DISASTER LOANS STILL AVAILABLE

The filing deadline for obtaining disaster loan assistance from the U.S. Small Business Administration has been extended for sixty (60) days. The filing deadline affects those who experienced drought damages to farms, ranches and related enterprises in Texas.

The new filing deadline is April 13, 1981, for physical drought losses, crop losses, pasture damages, loss of livestock, etc. For economic injury losses, the new deadline will be July 13, 1981. This extension will allow farmers more time to calculate losses due to a late harvest season.

The interest rates on SBA physical loss disaster loans are either 5 percent or 8 1-4 percent, depending upon the borrower's financial ability. The lower rate will apply to those who could not borrow from commercial, private or non-federal sources. The interest rate on Economic Injury Loans is 8 1-4 percent. Loan maturities are established by a Loan Officers in accordance with the applicant's ability to repay the loan.

Farmers, ranchers and other businesses may inquire about the SBA farm disaster loan program from either the Austin Farm Disaster Branch Office at 720 Texas Avenue, Lubbock, Texas, 806-762-7481. The SBA also maintains a toll free number 1-800-252-9726 for your information.

EMERGENCY FEED PROGRAM (EFP)

Be sure to update animal unit numbers as soon as

significant changes occur.

Check your receipts closely before submitting them to the county office for payment. Be sure they:

Bear the name and address of the seller;

Show your name as Purchaser;

Show the date of delivery;

Show the kind of feed;

Show the number of pounds purchased;

Total cost of feed and;

Bear signature of the seller;

If hay is purchased, be sure the receipt states kind of hay and weight per bale in addition to the above.

1981 FARM PROGRAM

Wheat, Corn, Grain sorghum and Cotton farms are not required to plant within their Normal Crop Acreage (NCA) for 1981. Producers may plant any acreage desired and participate in all crop programs.

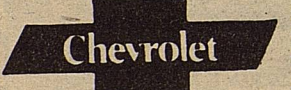

A report of planted crop acreages MUST be reported, as in the past, for individual farms to be eligible for program benefits.

Final Certification dates will be announced at a later date.

HOLIDAY

This office will be closed on Monday February 16, 1981, in observance of George Washington's Birthday.

Eligibility for participation in all programs administered by ASCS is established under law without regard to race, color, religion, sex, or national origin.

Your County Agent Says by Alan Day

4-HER'S PLACE AT FT WORTH SHOW

Six Borden County 4-Her's recently exhibited at the Southwestern Exposition and Fat Stock Show in Ft. Worth. Eight market barrows and 2 market lambs were taken for competition in the Junior Show.

Brice Key, son of Mr. and Mrs. Roland Key, stood in the top 20 of 46 in his light weight crossbred class. Ralynn Key showed a heavyweight Duroc barrow and place 11th out of 68.

Jim and Julie Ridenour, son and daughter of Mr. and Mrs. Fred Ridenour took two heavyweight Hampshire barrows but did not place with them.

Kristi Stone, daughter of Mr. and Mrs. Jerry Stone, exhibited a light weight Duroc and a heavyweight Spotted barrow placing 6th out of 27 and 8th of 26. She also showed a heavyweight medium wool market lamb that stood in the top 20 of the class. The class had 162 lambs in it.

Cody Stone also showed 2 market barrows placing 6th out of 25 in the middle weight spotted class and 8th out of 34 in the light weight Hampshire class. Cody also showed a Finewool cross lamb but did not place.

These 4-Her's should be commended for an excellent job of representing Borden County.

4-HER'S HEAD TO SAN ANTONIO

Borden County 4-H will be well represented by 5 4-H youth at the San Antonio Livestock Show Feb. 11-15. There will be ten market lambs going to the show.

Becky and Tammy Miller, daughters of Mr. and Mrs. Ralph Miller, are taking 4 lambs. They will show 2 southdowns, 1 finewool and 1 medium wool.

Michael Murphy, son of Mr. and Mrs. Brent Murphy, has entered 2 market lambs and will show 1 medium wool and 1 finewool cross at the show.

Kim and Ty Wills, daughter and son of Mr. and Mrs. Don Wills of Fluvanna, will take 4 market lambs consisting of 2 medium wools and 2 crosses.

The lamb show of San Antonio is on Saturday, February 14 and Sunday February 15 and it will begin at 8:00 a.m. on both days.

NEW TELEPHONE SYSTEM GIVES AG MARKET OUTLOOK

Insights into the economics of various agricultural commodities will now be available 24 hours a day, seven days a week, by calling 713-845-6437.

The new system is called Telephone Outlook and Market Information

(TOMI) and designed by marketing specialists with the Texas Agricultural Extension Service, Texas A & M University System. Different tapes on agricultural commodities will be available by calling the TOMI number.

Marketing specialists will time the tape topics to coincide with the release of government or trade information. Each will run about three minutes.

February is the first month the tapes will be available. The schedule is as follows: Feb. 1-4, "Hog Outlook," Dr. Ernest Davis; Feb. 5-9, "Cattle Inventory and Outlook," Dr. Edward Uvacek, Jr.; Feb. 10-11, "Sheep and Lamb Inventory and Outlook," Dr. Davis; Feb. 12-13, "Grain Situation," Dr. Roland D. Smith; Feb. 14-16, "Cattle on Feed Analysis," Uvacek; Feb. 17-18, "General Agricultural Outlook," Dr. Carl Anderson.

Also, Feb. 19-20, "Soybean Situation," Johnny Feagan; Feb. 21-23, "Livestock Slaughter Analysis," Uvacek; Feb. 24-26, "The New Administration and You," Dr. Ronald Knutson; and Feb. 27-March 2, "A Look Ahead in Marketing," Dr. William Black.

Tape changes are made at 5 p.m. on the last day of that particular subject.

Subsequent schedules will be available in advance from our office. These tapes may be of some value to Borden County producers. If you need more information, call my office 856-4201.

NOTICE School Board Election

The Board of Trustees of the Borden County Independent School District called a School Board Election for April 4, 1981 for the purpose of electing two board members. The terms of Jack McPhaul and Brent Murphy expire in April.

Any persons wishing to file for a place on the ballot may pick up an application to have their names placed on the ballot in the office of the school Superintendent. The deadline for filing is March 4, 1981. The election will take place on Saturday, April 4, 1981. Absentee voting will begin on March 16, 1981 and end on March 31, 1981.

The average 100-watt light-bulb will give about 750 hours of light.

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS
142 RUSSELL OFFICE BUILDING
WASHINGTON, D.C. 20510

During the past few decades, we Americans have witnessed the steady, painful growth of our federal government. It has curtailed our freedoms, wreaked havoc on our economy and changed many aspects of the way we conduct our lives both at work and at home.

President Reagan has gotten off to a fast start, and I applaud his moves to show that he is serious in his efforts to put government in its place.

Within minutes of taking the oath of office, he has imposed a tough federal hiring freeze.

He has ordered cuts in government spending on travel and ended the constant round of office redecorating that always seems to be underway in Washington.

And he has vowed to attack federal red tape by naming Vice President George Bush to head a task force to study ways we can thin out federal regulations on businesses and individuals.

This new hiring freeze shows promise of being more effective than those imposed in the past, which often fell victim to the momentum that has built up within the federal bureaucracy. The new Administration's hiring freeze could reduce the number of federal workers by 6 percent a year.

And the President's efforts to trim government spending on travel and the use of outside consultants could create an additional savings to the taxpayers of up to \$300 million in this year alone.

Along with the growth of the federal bureaucracy has come a corresponding growth in federal regulations and the President made the dramatic decision to halt action on all pending federal regulations for 60 days.

There is a clear and urgent need for such a move, especially in light of bushels of last-minute regulations promulgated in the last days before the arrival of a new Administration.

This freeze on implementing new regulations will allow the Administration to take a careful look at what needs to be trimmed.

I also believe we can expect a rejection of past attempts at regulatory reform through the addition of even more paperwork that accompanies the establishment of agencies created to review other agencies.

And I expect a new approach to be taken in analyzing new regulations. I hope that the current system will be replaced by one that will limit new regulations on those where benefits exceed the costs. At the very least agencies should be able to prove a reasonable relationship between the costs they impose and the benefits they anticipate.

BLOCK

Con't from P. 1 agricultural research and for efforts to export more farm products.

In an address written for the cattle growers, the secretary touched on what he called a "stifling" tax structure.

"Estate taxes, for example, endanger the existence of family ranches and farms," he said, "because they make it difficult for families to pass their enterprises to future generations."

"If we want to maintain the kind of family owned agricultural enterprise that has made our country a model for so many others, we need to find ways for taxes to encourage, rather than inhibit, productivity."

E.M.S. Meeting

The Borden County EMT's attended a third teleconference on Monday, February 2, 1981, at 7:30 p.m. at the Cogdell Memorial Hospital in Snyder, Texas. The teleconference, entitled "Changes in Basic Life Support" was presented by Harry Hollander, Coordinator for Educational Development, Bexar County Hospital District, San Antonio, Texas.

Those EMT's in attendance were Gerald Boyd, Dorothy Browne, Steve Hillhouse, Nelva Jones, Carol Lewis, Buster Taylor, and Lisa Ludecke.
