Still To Go ... \$10,062.19

Gray county's Red Cross War Fund drive was virtually at a standstill today. It was impossible to estimate the status of the drive.

Plains Hereford Breeders to Meet Here on Friday

Hereford breeders of Gray and eight other Panhandle counties are to gather in Pampa Friday night to organize a Hereford breeders association.

The meeting will be held at 8 p. m. in the district court room. Officers will be elected at this session.

A. B. Carruth of Pampa is temporary president of the organization and Glenn Hackney, county farm agent, is temporary secretary.

There is only one other Hereford breeders organization in this section of the state, the Panhandle Hereford Breeders association. Frank Carter of Pampa is a member of the association's 1944 executive board.

The meeting here Friday is a sequel to one held by Hereford breeders here on March 3 at the annual junior livestock show.

Hackney said he expected an attendance of 75 at the meeting Friday night. Invited to attend have been 10 Pampa city leaders, 10 breeders from Roberts, nine each from Wheeler and Hemphill, seven from Lipscomb, five from Carson, four from Ochiltree, three each from Donley and Hutchinson, and 21 from Gray.

Britain Stages Big Maneuvers in Jordan

JERUSALEM, March 14—(AP)—British forces in the Middle East are engaged in the largest maneuvers staged in the area since the war began. Training in mountain warfare is being stressed in the maneuvers in the Jordan valley near the Palestine-Transjordan frontier.

In addition to British troops, thousands of Indian, Greek, Yugoslav and Arab troops are participating.

The announcement follows official hints that action impends in the Balkan area. Prime Minister Churchill on Feb. 22 said it was Britain's intention to "back Marshal Tito of Yugoslavia with all the strength we have."

(The German-controlled Vichy radio said the Turkish-Syrian border had been closed because of maneuvers. There was no official confirmation of this, however.)

ENGINEERS TO MEET

HOUSTON, March 14—(AP)—The March meeting of the Gulf coast section, American Institute of Mining and Metallurgical Engineers, will be held here tonight.

I SAW ...

The entry list in the city election of April 4 as bare as the famed nursery rhyme cupboard. In contrast the school business office was cheered with the filing of a second candidate for school board member, for the April 1 election. The name of W. D. Kelley, one of the present members, has been filed for reelection. M. Viri Ward is the other candidate. Two board members are to be elected.

Allies Plan to Isolate Eire

Security Is Factor, Says Churchill

LONDON, March 14—(AP)—Prime Minister Churchill told common today that Britain and the United States plan "to isolate Southern Ireland from the outer world—a virtual quarantine by methods yet to be disclosed which would seal off that potential spy-post during the 11th hour to the opening of the western front.

Churchill's words clearly implied an extension of restrictions to the border between Northern Ireland and Eire, and perhaps even a semi-blockade of Eire, where President De Valera has refused to close German and Japanese offices.

Restrictions on travel to Eire Churchill said, are "the first step in a policy designed to isolate Great Britain from Southern Ireland, and also to isolate Southern Ireland from the outer world during the critical period now approaching."

"If a catastrophe were to occur to the Allied armies which could be traced to the retention of German and Japanese representatives in Dublin, a gulf would be opened between Great Britain on one hand and Southern Ireland on the other which even generations would not bridge," he told commons.

Churchill declared that the British government had been consulted throughout by the United States on the Washington request that Germany close German and Japanese consulates—and "gave the American approach full support."

BOSTON, March 14—(AP)—Lord Halifax, British ambassador to the United States, today warned the United Nations against an intense German political offensive aimed at the disaster of a compromise peace.

He said that should the military leaders of Germany "accept the unpleasant fact of military failure they will go to the defensive because they see nothing else, but they will strive to make every Allied advance as expensive as possible."

In an address at a Boston Chamber of Commerce luncheon, the British ambassador declared that Germany "will try to make us pay in blood and tears for every mile of ground we gain."

"And with this fierce resistance we get an intense political offensive."

"They will admit they have lost the war," Lord Halifax said, "but will point to the casualties that it is still in the German power to inflict. We must insist on fighting it through to the bloody end. And they will use our peoples what they can expect to gain by that."

PAW Asks Increase In Oil Production

AUSTIN, March 14—(AP)—Texas oil operators who recently complained of inability to meet crude oil allowances can ponder at a statewide production hearing Friday a certification for war to increase April daily production 63,000 barrels over the indicated daily production for March.

The railroad commission yesterday received the PAW certification for 2,043,900 barrels of all petroleum products daily next month, 76,000 over the amended crude rate certification for March.

Deputy Administrator for War Ralph K. Davies directed that 45,000 barrels of the requested crude increase next month should come from fields tributary to the Slaughter terminal of the Stanolind pipeline.

Labor-Management Program Is Urged

BOSTON, March 14—(AP)—A proposal that management and labor agree upon a program of mutual assistance and "hit the sawdust trail together" has been made by Eric A. Johnston, president of the Chamber of Commerce of the United States.

In an address delivered at the Boston University founders' day dinner last night, he said that American labor was on the threshold of the "dog-house" which he declares management had occupied for the last 10 years.

Johnston advised labor to study "management's mistakes" if it would avoid the "public beating" that he said began for management in 1933.

WEATHER FORECAST

Scattered showers, much colder this afternoon, showers tonight changing to snow flurries; temperatures 10 to 16 tonight. Fresh to strong in Pampa. Partly cloudy Wednesday cloudy and much colder. Fresh to strong winds.

Soldier Gets 13 Months Off; Army Forgets Him

ATLANTIC CITY, N. J., March 14—(AP)—Staff Sergeant John B. Zealor says he "sat tight and waited" and caught up on his fishing and hunting when army bookkeeping lost track of him and he got a 13-month furlough, but his aunt up in Connecticut reports he was "bored and broke" long before it ended.

The 22-year-old decorated overseas tail gunner from Roxbury Conn., now is here at the army air force redistribution station No. 1 awaiting a new assignment.

All wasn't rosy during his vacation in Connecticut's fields and streams because he says he hasn't yet received any pay for the 13 months.

Army officers here are unable to say now what will be done about that. Zealor's Miss Alice McGovern, said last night two other gunners in his overseas bomber crew had similar experiences with army bookkeeping, and wrote to him frequently from their homes in New York City and Pennsylvania, swapping stories about their furloughs.

Early this year his buddies informed Zealor that the army had "lost" him upon being returned to active duty the aunt said.

Last August, she related, he spent 10 days in a Torrington, Conn. hospital and his illness was reported.

Navy Adds 12 Ships Day, Needs More Men

WASHINGTON, March 14—(AP)—With nearly a dozen new ships joining the far-ranging United States fleet every day, the navy will need 3,000,000 officers and men by the end of this year or an increase of nearly 500,000 over its present manpower.

The figures were given by Secretary of the Navy Knox and Vice Admiral Randall Jacobs, chief of the bureau of navy personnel, at a news conference today.

Jacobs emphasized that the dozen-ships-a-day figure is based wholly on sea-going vessels and does not include all auxiliaries, although the total covers some of the large landing craft.

The personnel chief estimated that the navy's total strength by the end of 1944 will be 3,000,000 officers and men, while the total for all naval services, including Marines and coast guard, is expected to be approximately 3,700,000.

Jacobs added that the maximum strength of the navy will not be reached until some time in 1945, but said that he believed a "leveling off" in inductions for the navy could be started by the end of this year when the three million mark will be passed.

In disclosing the rate of ship additions, Knox said the number of ships in the fleet has increased from 912 on Jan. 1, 1942 to 4,167 on Jan. 1, 1944.

All these ships, Knox continued, require competent trained personnel and the navy, to meet its needs for enlisted personnel, gradually has been increasing selective service quotas and recruiting young sea-going officers particularly needed for amphibious operations, cargo transports and destroyer escorts.

This is a continuing need, he said of the officer program, adding that it is "exemplified in the scheduled construction of 80,000 landing craft by the end of 1944."

Shore establishments have been "combed," the secretary said, for sea-going officers, capacities of naval reserve midshipmen's schools have been increased, one new midshipmen's school has been opened and the Nov. 1 graduating date of naval reserve corps classes in 27 colleges has been advanced.

He added that the navy plans to continue without change its program of training men in colleges under a program which he said has performed "a vital task" in producing prospective deck officers and specialists for the navy.

"The navy's need for officers, men and Waves is more than a replacement need," he declared. "It is a continuing one that will be met by the navy."

Cutthroat Airline Competition Hit

HOUSTON, March 14—(AP)—To compete successfully for transoceanic trade against government subsidized international air lines of other nations the United States must avoid cutthroat competition between domestic lines seeking overseas outlets, says Col. J. Carroll Cone, vice president of Pan American Airways.

In an address before the aviation and military affairs committees of the chamber of commerce last night, Col. Cone predicted that transoceanic aviation would quadruple within a few years after the war ends.

PAT'S DAY PUPS

Patty and Shelly, prize-winning Boston terriers of Mrs. A. Maul of Clayton, N. J., are all set for St. Patrick's Day with Kelly Green shamrock toppers.

City School Teachers To Get Raises

Effective at the beginning of the 1944-45 session, next September, base pay of teachers in the Pampa Independent School district will be increased \$10 a month.

The pay raise was voted last night at a meeting of the board of education, and followed a discussion started three months ago.

In some cases, the raise will be more than \$10 a month. For example, teachers who have been in the system for two years are granted \$5 a month raise under the regular schedule. This would mean, in this case, that the increase would be \$15 a month.

Altogether, 85 or 90 teachers out of the total personnel of 125 will benefit from the hike in pay and the salary budget will be increased between \$11,800 and \$12,000, it was estimated by Roy McMillen, district business manager.

Teachers in ward and junior high schools have the same base pay but high school teachers receive \$5 a month more.

Increases in pay in the Pampa schools are based on length of time employed, degrees, college work and promotion to department head.

The order passed by the board of education Monday night is in line with a move for higher pay for teachers, long advocated by many Pampans.

Mine Explosion Kills 12 Soldiers

CAMP ROBINSON, Ark., March 14—(AP)—An accidental explosion during a surface mine demonstration took the lives of 12 army enlisted men here yesterday, public relations officers said, and sent 14 others to the base hospital.

Ten soldiers died instantly, two others several hours later. Four of the injured were said to be in a critical condition.

The soldiers, members of the 652nd tank destroyer battalion, were engaged in practice installation and removal of anti-personnel, anti-tank and booby-trap mines, the public relations officer said.

Cause of the explosion was not determined, the announcement added. The blast occurred at 3:30 p. m. two hours after the soldiers had commenced the demonstration. None of the dead was from the Southwest.

County to Repay Fire Departments

Pampa fire department got a break yesterday from the county commission when the group wrote an order authorizing payment of \$50 to all cities in Gray with a fire department for each run to fires outside the city limits, plus \$5 per mile. A \$100 maximum was set for each such run.

The Pampa fire department has consistently answered calls outside the city limits, although legally it was not bound to do so.

Action of the commissioners will help the city fire department to reduce its expenses and at the same time, give official sanction to the department's response to calls to put out fires outside the city limits.

U. S. Congressmen Invited to Commons

LONDON, March 14—(AP)—The house of commons, by formal motion, today invited the U. S. congress to send a delegation to visit parliament. Members hailed the action as without precedent in parliament's history.

Maj. Albert N. Braithwaite, who initiated the motion, said "hitherto there seems to have been an indefinite something which kept the two legislatures at arm's length."

The United States and said the proposed visit had been discussed with Speaker Sam Rayburn.

Preliminary plans call for inclusion of congressmen from both major parties, plus representatives of independent parties. Some women members will be included, it was indicated here.

Germans Rush Every Available Ship From Rumania's Black Sea

LONDON, March 14. (AP)—Every available ship in Rumania's Black sea ports has been rushed northward, apparently to Odessa, an Istanbul dispatch said today. This appeared to foreshadow complete collapse of the Germans' broken southern flank in Russia in a vast scale 1944 Dunkerque which would pull the battle line back into obviously unharmed Rumania.

The Istanbul dispatch, based on information from Sofia, suggested the Germans were preparing to evacuate Odessa by sea.

Following up Premier Stalin's announcement last night of the capture of Kherson, 90 miles east of Odessa, the German high command's communique said today that base had been evacuated "in the course of planned disengagement movements after the destruction of all military installations."

The communique also said that both sides had thrown new reserves into the bitter struggle on the southern sector of the eastern front.

Moscow announced 75,000 Nazis had been killed and captured in 10 days of the broad Soviet offensive in lower Russia. Kherson fell to Gen. Rodion K. Malinovsky's third Ukrainian army, made up of Stalingrad veterans, after crossing the lower reaches of the Dnieper.

If it were true that the Nazis had given up all hope of other than a seaborne retreat from their last stand in the Ukraine, this would explain their terrific resistance in the outskirts of Tarnopol in pre-war Poland, where a sea-saw fight raged into the sixth day. There the Nazis were making a grim attempt to hold an inland anchor of the front shattered by the combined Red army offensives.

The Russians were pounding within 45 miles of the Dniester river from the northeast. They already had cut the Odessa-Lwow trunk line and left the whole German south flank army with only a cross-border threadwork of single-track spur lines west into Rumania.

These lines would be neither adequate for the supply of 200,000 fighting men—nor for their retreat. The peril to Odessa—last hope of a seaborne escape—was being edged with Col. Gen. Fedor Tolbukhin driving upon Nikolaevo from captured Kherson and Malinovsky flanking Nikolaevo in his onslaught from the northeast.

Both these forces likely were another week at least for the ground to harden sufficiently to permit large scale operations.

Allied planes flew 1,000 sorties yesterday, heading for the beachhead area as well as shipping off the Dalmatian coast. Coastal aircraft pounded docks at Santo Stefano and rail targets at Marina di Pisa and Montalto di Castro. Three enemy planes were destroyed for a loss of six Allied craft.

The German raided the beachhead four times Sunday and once Sunday night, dropping anti-personnel bombs. No damage was reported.

Fighter-bombers blasted road and rail traffic south of Rome and gun positions and supply dumps in the beachhead area as well as shipping off the Dalmatian coast. Coastal aircraft pounded docks at Santo Stefano and rail targets at Marina di Pisa and Montalto di Castro. Forty-five enemy planes were active in the battle area yesterday.

Returning fliers said two bridges on the west coast, line west of Sarzana had been cut in the attack. Hits were scored on the station, warehouses and tracks and three trains were left burning at Viareggio.

Northern Burma Drive Is Opened By Mountbatten

(By The Associated Press)
Japanese hopelessly trapped on Bougainville island in the Solomons have been repulsed bloodily in a four-day suicidal attack on the Allied positions at Empress Augusta bay but are reported regrouping for another assault.

And a new smash against the Japanese in northern Burma was announced by Southeast Asia Allied headquarters today. British forces breached enemy defenses on the upper Chindwin river, thus adding a new spearhead in the drive to clear northern Burma and permit the opening of a land supply route to China.

From the South Pacific, AP Correspondent Vern Haugland reported that at the height of the Bougainville battle, more than 500 Nipponese hurled themselves in a frenzied death plunge at the barbed wire barricades at the north end of the Allied lines. A few got through but were wiped out later.

Headquarters estimated at least 1,000 Japanese have been killed and many more wounded in the battle which began last Wednesday. American casualties have been light.

Haugland said the Japanese, out-flanked by Allied amphibious operations and faced with ultimate starvation and annihilation, attacked without hope of victory, but spurred by the sacrificial purpose of killing as many Americans as they could before they perished.

Soft Ground Still Stalls Italian War

ALLIED HEADQUARTERS, Naples, March 14—(AP)—The weather has improved in Italy but the ground remains extremely soft, holding both the Allied and German armies mudbound except for patrol operations which yesterday included sharp clashes near Minturno and Cassino on the main Fifth Army front, headquarters announced today.

The Germans smashed a machine-gun position and repelled a German attempt to cross the Moleta river, and fighting lasted until the Germans withdrew. Allied raiders probed the German lines around Clistera and Littoria in the beachhead area below Rome and American troops seized 13 prisoners and dispersed the remains of a German patrol. The British smashed a machine-gun position and repelled a German attempt to cross the Moleta river, and fighting lasted until the Germans withdrew.

Artillery, mortars and small arms broke up other attacks during the night.

It was estimated that it will take another week at least for the ground to harden sufficiently to permit large scale operations.

Allied planes flew 1,000 sorties yesterday, heading for the beachhead area as well as shipping off the Dalmatian coast. Coastal aircraft pounded docks at Santo Stefano and rail targets at Marina di Pisa and Montalto di Castro. Three enemy planes were destroyed for a loss of six Allied craft.

Maggie's Drawers

Walter Winchell, H. V. Kaltenborn Welcome Probes

NEW YORK, March 14.—(AP)—H. V. Kaltenborn, a founder and former president of the Association of Radio News Analysts, said he believed association members could stand comparison with Dies "on accuracy, judgment, taste or sensationalism."

"But I disagree with Mr. Dies that the essence of an unfair personal attack on the air should be given a chance to reply," Kaltenborn added.

"The difficulty lies in deciding what is unfair and in establishing what constitutes a fair chance to reply. If Mr. Dies attacks a commentator on the house floor, a fair chance to reply might involve giving the commentator the privileges of the house floor, the publicity of the Congressional Record, and the use of the radio or in the newspapers."

"Such a demand, he said, 'might be no more unreasonable than the demand of Mr. Dies to intrude upon a commentator's regular broadcast.'"

Kaltenborn said he welcomed "the Winchell-Dies battle" in calling attention to the "knotty problem" of free speech on the air.

In Miami Beach, Fla., Walter Winchell said that he had "been asking various members of the congress to be investigated for many years."

"They keep saying no," Winchell declared. "I would be very happy to tell these men to their faces things I have not been allowed to tell on the radio or in the newspapers."

"Dies is the kind of man who does not like any kind of criticism. Some time ago he asked Drew Pearson to please ask Winchell to let him know when I told Pearson to let him go to hell I expected him to use the Congressional Record to even matters."

In Washington, Rep. Hoffman (R-Mich) loses a 10,000-word blast against the Roosevelt administration in the house Monday, and called for inquiry into "the activities of the Communists who openly advocate the overthrow of the government by force; who hold policy-making positions in the federal government."

Hoffman claimed the floor to object to some federal bureau of investigation procedure, asserting his address was prompted by the case of a 17-year-old Hartford, Mich., resident who he said was investigated by the FBI because the youth had challenged a statement by President Roosevelt as untrue. He displayed a letter from FBI Director J. Edgar Hoover describing the inquiry and stating the complaints against the youth were unfounded.

"The Michigan representative told the house that instead of seeking to intimidate, to deny to a young man the right of free speech" the FBI should "round up and expose the Walter Winchells who do so much to stir up insanity, to spread dissension, create class and racial hatred the purpose of which is to destroy the people's confidence in government."

"Why not," he said, "bring to light and expose the activities of the Communists who openly advocate the overthrow of the government by force; who hold policy-making positions in the federal government and who, by infiltration into labor unions interfere with war production and transportation?"

Hoffman referred to Vice President Wallace as having been "selected by Eleanor Roosevelt and the President as the president's running mate" in 1940 and asserted both Mr. Roosevelt and Mr. Wallace were engaged in "making America over."

Outside the government, the Michigan representative accused the CIO leadership of being Communist inspired and working "to overthrow the government by force" and bitterly attacked radio commentators Winchell and Pearson, accusing them

ALLIED PRISONERS ARE MARCHED THROUGH ROME

American and British prisoners, captured in the Anzio-Nettuno beachhead sector, are marched through Rome, according to the German caption accompanying this picture radioed from Stockholm. (NEA Radiophoto.)

of helping to foster a "smear campaign" against congress.

The CIO's political action committee, he declared, is using "millions of dollars to besmirch, to defeat every member of house or senate who ventures to oppose its will."

He suggested the presidential veto of the recent tax bill, which was overridden by congress, might have been inspired by the CIO, because he said, the CIO objected to a proviso requiring unions to file financial accounts.

BUY BONDS Condition of Ranges, Pastures Is Better

AUSTIN, March 14.—(AP)—As a result of favorable moisture conditions and warmer temperatures, ranges and pastures are greening up rapidly throughout a large part of Texas, reports the United States department of agriculture.

The state average range feed condition stands at 80 per cent of normal, an increase of 7 points over February.

Condition of cattle was reported as 76 per cent of normal as of March 1, a 3-point over February. Despite widespread shrinkage during the fall and winter due mainly to severe weather in the Panhandle and stock water shortages, losses were not as heavy as expected. Demand and price have picked up, although trading remains somewhat limited and scattered.

BUY BONDS Fort Sill Officers Win Liquor Case

WASHINGTON, March 14.—(AP)—The supreme court has ruled that Oklahoma officials have no right to seize alcoholic beverages transported from outside the state and consigned to the Fort Sill military reservation in Oklahoma.

Justice Black delivered the 7-2 decision, Justices Frankfurter and Roberts dissenting. Involving seizure by Oklahoma City and county officials of 225 cases of wine and liquor which the Yellow Transit Co., was transporting from East St. Louis, Ill., to the F. A. S. Officers' club at Fort Sill.

The majority opinion stated that with "certain minor exceptions not here material Oklahoma ceded to the United States in 1913 whatever authority it ever could have exercised in the reservation."

The Oklahoma supreme court has recognized that the general power to govern the Fort Sill area is Oklahoma's, not the United States, not in Oklahoma.

BUY BONDS Entries Must Be Made March 15

AUSTIN, March 14.—(AP)—Deadline for entries in conference meets for the University of Texas Inter-scholastic league is March 15, Roy Bedchek, director of the university league, said today.

All schools in conference A and B must notify league headquarters here by Wednesday if they plan to participate in the conference meets scheduled this month and the weekend of April 1.

"The entries entries in all activities in the league program—both athletic and literary," Bedchek emphasized.

Charles Carroll of Carrollton, Md., was the last of the signers of the Declaration of Independence to die, succumbing in 1832.

Senate to Probe Oil Resources

WASHINGTON, March 14.—(AP)—The senate has established an 11-member committee with a \$25,000 fund to investigate the nation's petroleum sources and the production and consumption of oil in relation to national security.

Vice president Wallace was directed to appoint three members of the committee, two from the foreign relations, interstate commerce, commerce and public lands committees.

Before the senate acted, Majority Leader Barkley (Ky) won approval of a motion striking out of the resolution a clause which cited a recent declaration of petroleum Administrator Ickes that the United States is not now in a position to "oil another war."

Barkley said he thought this particular "whore" superfluous. He drew out of a proposal by Senators Brewster (R-Me) and Moore (R-Okla) to investigate advisability of liquidating the government's Petroleum Reserves Corp.

Subsequently the resolution was broadened to provide for an inquiry into Ickes' plans to build a 1,250-mile pipeline from the Persian Gulf area to the Mediterranean as well as the whole post-war oil policy.

Reports that Chairman Connally (R-Texas) of the foreign relations committee would be included in the investigating committee gave rise to belief that he would head the group.

Other members already decided on were Senators Maloney (R-Conn); O'Mahoney (D-Wyo); Johnson (D-Colo); Hatch (D-NM); Brewster (R-Me); Moore (R-Okla); and Vandenberg (R-Mich).

Stripper Oil Wells To Get Premiums

WASHINGTON, March 14.—(AP)—Rep. Gavin (R-Pa) says final drafting of a plan for premium payments to stimulate production of stripper oil wells would be completed within the next few days for presentation to Fred M. Vinson, economic stabilization director, for his approval.

Gavin said Summer Pike, OPA deputy administrator for oil, was of the opinion that the premium plan would be adopted and put into effect in the near future.

Under the plan, a premium of 30 per cent of the prevailing market price would be paid on oil from stripper wells producing five barrels or less per day. Oil from wells producing six barrels or less would receive a 20 per cent premium and oil from wells producing seven barrels or less a 10 per cent premium.

Payments would be made by the refineries or pipelines purchasing the oil, and they in turn would be reimbursed by the Reconstruction Finance Corp.

Gavin said the OPA was of the opinion the RFC would approve the plan and that no legislation would be necessary to provide funds.

TODAY on the HOME FRONT

WASHINGTON — Draft boards were told to be lenient about granting occupational deferments to Pearl Harbor fathers.

Lawrence Appler, executive director of the manpower commission, says it's really at the bottom of that barrel it has been reported scraping for so long.

So that leniency may be revoked, Appler says, "it is essential that the commission be put strictly on the basis of essentiality and irreplaceability."

Local boards have deferred nearly 5,000,000 men as "necessary" in war production, agriculture or other civilian activities.

President Roosevelt has directed attention specifically to those men under 26 who are thus deferred as "necessary."

As of Feb. 1, there were 910,000 non-fathers (by the Pearl Harbor standard) in occupationally deferred classes—562,800 of them in agriculture.

Now let's see what's needed:

On Feb. 1 (the date taken in the latest selective service report) there were 600,000 in the armed forces. The July 1 goal is 1,300,000. That means 700,000 more. But an additional 500,000 will be needed, it's estimated, to replace casualties and discharged.

Total need, then: 1,200,000 more men.

From Feb. 1 through July 1, selective service expects to get: 430,000 out of men presently in 1-A. 250,000 by reclassifying 3-A's into 1-A. 320,000 teen-agers (17-year old enlistments, 18-year old selectees).

Total, roughly 1,000,000 (these are all rounded estimates). That leaves 200,000 to be sought elsewhere.

Although a certain number will be reclassified out of 4-F (as, for instance, Screen Actor Mickey Rooney was), selective service says "no appreciable number" can be so obtained under existing standards—and there's no indication the standards will be changed again.

So attention focuses first on the 910,000 non-fathers under 26 holding occupational deferments.

Perhaps 500,000 of these, selective services estimates, could pass the physical examination. If the needed 200,000 men were taken from this group, that would mean 2 out of every 5 physically qualified non-fathers in these deferred classes.

Why not take them?

Every motion toward those deferred as farmers brings renewed warnings from farm officials who point to the 1944 food goals—biggest ever.

Every cancellation of deferment in war production produces claims that war production is being sacrificed.

There the matters rest, although there's been talk that the manpower bosses are casting eyes at class 2-A, "necessary in civilian activity."

BUY BONDS Blood Donations Are Not Exempt

NEWARK, N. J., March 14.—(AP)—Uncle Sam has officially advised a certain young man that income tax deductions are based on cash contributions, not donations of blood.

The taxpayer sought advice at the district internal revenue office here on the fair price of a pint of blood so he could deduct the amount from his taxable income.

Uncle Sam, in the person of an internal revenue agent, set him straight.

WAKE-UP AMERICA

A GREAT JUDGE SPEAKS
 The other day I quoted from a recent address by Justice Maxey of the Pennsylvania Supreme Court. It is so good that I continue the quotation:

"For 150 years the American people under a government thus limited in its powers attained the highest known degree of well-being, led the van of human progress, and added lustrous pages to the history of the world. All this was accomplished without turning the government into a huge welfare institution, or without making Uncle Sam the National Overseer of the Improvident. . . ."

"The republics which failed during the present century did so because some of their officials were too cowardly to preserve order. If the German government of 20 years ago had done its duty, Adolf Hitler would have been executed for a then lawless defiance of authority. . . . The first duty of government is to govern, i. e., to maintain law and order at all hazards and regardless of expense. . . ."

"It has been well said that some men when weighed in a critical hour are found too light. When Calvin Coolidge, governor of Massachusetts, was weighed in a critical hour during the Boston police strike, he was not found too light. He courageously declared that 'there is no right to strike against the public safety by anybody, anywhere, anytime.' No chief executive of any nation or any state who is worthy of his high post and who measures up to his responsibilities will tolerate the existence in his jurisdiction of any organization which sets itself up as superior to its sovereignty and as scornful of its laws. Obedience to authority is the first duty of the citizen as well as of the soldier, and every true man in authority will exact that obedience. . . ."

"The third 'indispensable' to equilibrium between liberty and government is an independent judiciary. . . . Servile judges mean an enslaved people. . . ."

"All history proves that liberty endures only under law. . . ."

"The most audacious and dangerous attempt ever made in this country to destroy the independence of the judiciary was made seven years ago when the Chief Executive of this Republic proposed so to pack the Supreme Court of the United States as to make it the implement of his will. Those Senators who had the patriotism and courage to reject that proposal should be forever honored. . . ."

"Senator Bailey of North Carolina said, 'I am appalled when I consider what labor and struggle were required to repel an attack that in any other period would have at once disgraced those who made it.' . . ."

"If some Homeric bard would weave into an Iliad all the meaningful utterances of American courts for the first one hundred and fifty years of our history, halting both the tyrannical aggressions by governments on individual liberty and the attempted federal usurpations of power, he would write the epic of this great constitutional Republic. . . ."

Judge Maxey's last paragraph should be read in the light of our present Supreme Court which (with one slight exception) has protested not a single usurpation of power by a federal government which is moving toward the same total control over wages, hours, working conditions, prices,

SQUADRON CHATTER

It's been a busy week at Pampa Field with everyone daubing their clothing with a black goo the supply boys call "stenciling paste." It seems so many clothes have been lost at laundries and so forth for lack of proper identification that a system of markings had to be instituted. All the boys hands look like carbon black workers at the end of a particularly hard day—Members of the 44th orderly room are considering an en masse report for sick call. S-Sgt. Hope is suffering from angry corns that have been aggravated by his new G. I. shoes, size 15 1-2 AAA. First Sgt. Pike has been laid low by an attack of sinus. Capt. Humphries got too eager during a volley ball game and dislocated a shoulder and S-Sgt. Lively is seeing green spots from smoking too many black cigars. Pvt. Joe Krupa and Cpl. LeRoy Morgan of the 454th each gave a pint of blood this last week to a patient of the Worley Hospital. Neither one seems the worse for his experience—Pvt. Russell Nardo and S-Sgt. Cliff Thompson of the 454th are the proud papas of 7 lb boys. Pvt. Nardo's offspring was born in Wheeler, his home town and Sgt. Thompson's progeny squatted his first command at the Pampa hospital. S-Sgt. Don Dyer of the 1101st tried to run his car right through the front door of the field post office Tuesday; it looked that way at least. It required the efforts of quite a few G. I.'s to lift the auto from its predicament—Speaking of autos, has anyone seen the week belonging to Oklahoma Cpl. Wayne Pledger C. Q. of the 1101st? He fondly calls it a refugee from the "Crapes of Wrath." It is rumored he has been trying to requisition some blind flying equipment so he'll be able to fly the beam between the field and town—Sgt. J. G. Wolfe added to the field's prestige this week by becoming the father of a 7 1-2 lb. boy at the Pampa hospital. That makes three boys all weighing 7 lbs. born to wives of servicemen stationed at Pampa field.

The 194th guard squadron lost its adjutant, Lt. James Ross, this last week. The boys are wondering who will take his place—The Guard Sq. C. O. will now be addressed as "captain"; the promotion came on his birthday too. Maybe the war department didn't plan it that way but it still makes a darn nice birthday present, eh, Captain.

What squadron commander loses more sleep than a little walking the floor with his four months old daughter? Clues; he would like to settle in the Panhandle after the war, raise a couple of acres of alfalfa and if possible, import some Louisiana swamp land to grow flowers in—G. A. B.

PROBLEMS COME HOME
CHAH—Robert L. Forrest, assistant district director of the office of defense transportation, went to Lincoln to discuss with selective service officials the drafting of irreplaceable employees in the trucking industry.

When he returned home, Forrest, 36 and the father of two children, received a letter from his draft board ordering him to report for a pre-induction physical examination.

WORDS FAILED HIM—Susy Pessuto, an Italian girl, tries to understand Pvt. Arthur Voskian, of New York City, as he resorts to the universal sign language at an American Red Cross dance-party somewhere in Italy.

Mason Girl Raises Champion Hereford

FORT WORTH, March 14—(AP)—Surprise, a 980-pound Hereford steer exhibited by Miss Marilyn Gail Kothmann, 16-year-old 4-H club girl from Mason county, was adjudged grand champion of the 1944 Fort Worth Fat Stock Show and Rodeo.

Reserve champion honors went to Mischief, Hereford steer showed by George Lee of Pecos county, now serving in the navy, and exhibited by Bryant Mills, which was grand champion Saturday of the boys' baby show.

These two also had matched points against the champions in the shorthorn and Aberdeen-Angus breeds in the open exhibits. Oklahoma A. & M. college had the champions in the latter two classes.

Surprise already had been adjudged champion in the open class for Herefords after winning in its own class of steers weighing from 900-1,025 pounds. The steer was ruled winner over the champion Hereford steer over 1,150 pounds entered by Miss June Thompson, Newport, Neb.; the champion in the 1,025-1,150 class shown by Hardy Lee Richards, Vera, Texas; and the champion under 900 pounds entered by Oliver Grote, Mason, Tex.

Surprise is a grandson of WEHR Royal 85th, reserve grand champion bull in the 1936 Centennial fat stock show here, and reserve champion that year in the Denver, Kansas City and Chicago shows. The steer was fed under the supervision of Frank Newsom, Mason county agent.

Allies Aiming To Exterminate Nazi Fighters

BY GLADWIN HILL
LONDON, March 14—(AP)—The bombardment of all other strategic targets in Germany by the United States air force has been relegated to a back seat in favor of an all-out campaign to exterminate the German air force. It was learned that the U. S. strategic air force is so eager to do so—and so sure it can—that it swung into a deliberate campaign last week to target the German air force head-on and left off its tactics of trying to avoid the German fighters and splitting them up by diversionary attacks. This new extermination campaign is two-edged. When the weather is good the impact is primarily on the Germans' ground resources such as their airplane factories. When the weather is bad the aim is to make attacks through the overhead so destructive that the German air force will be compelled to send up fighters to oppose the Fortresses and Liberators—which can shoot them down.

The suggestion made in London last week that the German people be given a warning when big air attacks are coming did not meet with the heels from the U. S. strategic air force headquarters that might have been expected. As a matter of fact in the recent American daylight attacks everything was done except to give a formal notice in an effort to stir up aerial opposition.

The big bomber armadas, which probably could be detected by the German apparatus on the French coast while they still were forming up in the air over England, were driven straight into Germany in a single force.

It is unlikely any regular system of warning the German people will ever be taken under serious consideration, since the consistent stand of Allied air leaders has been that the German people were so thoroughly mobilized into the war effort that it is hard to distinguish between the importance of the contribution of those in uniform and those not in uniform.

Germans Discover Paris 'Bluebird'

LONDON, March 14—(AP)—Four charred bodies were discovered by police in a "red hot furnace" of a Paris villa, the German news agency DNB has announced, and subsequent investigation uncovered a "Bluebird" mystery thriller in which eight to 25 women were butchered.

"Vile smelling smoke still was rising from the chimney" when the police broke in the broadcast asserted, and heads, arms, legs and other organs of the women were found scattered around the furnace room. The courtyard dump also was said to have contained a dozen human limbs.

"DF Plot" is a suspect in the case, the broadcast said, adding that the killer apparently lured the victims into the rented villa, killed them, cut them to pieces and burned the torsos.

Women Technicians In Radio Wanted

Women of Wheeler, Mobeette, McLean, Twitty and Shamrock who are radio technicians or who have toyed with radio as a hobby are urgently needed for service with the Army Air Forces as members of the Women's Army Corps. Lt. Evan K. Shelby, recruiting officer of Pampa Field, temporarily stationed at Shamrock, announced today.

"Women who have any radio experience whatsoever, even if they just fiddled around with it for fun, are invited to visit the army recruiting station at the Johnson Hotel in Shamrock or speak to members of the recruiting team for information as to how they can become, as Air Wacs, part of the greatest fighting team in history—the Army Air Forces," Lt. Shelby said.

"It's surprising how many American women possess better than average knowledge of radio mechanics. We need such women in our ranks."

Qualified women are already serving at air fields throughout the country and overseas as control tower operators, telegraphists, radio mechanics and operators.

BUY BONDS
Market Briefs
WALL STREET
NEW YORK, March 13—(AP)—Investment buying power continued to swing stocks upward today in one of the liveliest sessions of the past several months and the market, on balance, touched another peak since last July.

Phonographs and blue chips were the front-runners. Low-priced stocks, particularly Packard Motor, turned over in blocks of 1,000 to 10,000 shares without much change. Rails, motors, steels and specialties were prominent on the sprint.

Non-clothing gains ranged from fractions to a point or more. Transfers were around 1,000,000 shares.

FORT WORTH GRAIN
FORT WORTH, March 13—(AP)—Wheat No. 1 hard 1.71 1/2; No. 2 1.68 1/2; No. 3 1.65 1/2; No. 4 1.62 1/2; No. 5 1.59 1/2; No. 6 1.56 1/2; No. 7 1.53 1/2; No. 8 1.50 1/2; No. 9 1.47 1/2; No. 10 1.44 1/2; No. 11 1.41 1/2; No. 12 1.38 1/2; No. 13 1.35 1/2; No. 14 1.32 1/2; No. 15 1.29 1/2; No. 16 1.26 1/2; No. 17 1.23 1/2; No. 18 1.20 1/2; No. 19 1.17 1/2; No. 20 1.14 1/2; No. 21 1.11 1/2; No. 22 1.08 1/2; No. 23 1.05 1/2; No. 24 1.02 1/2; No. 25 1.00 1/2.

CHICAGO GRAIN
CHICAGO, March 13—(AP)—Trade in rye futures featured the grain market today, prices moving upward. Rye, which was weak with wheat in earlier trade, strengthened in afternoon of a trade report that said Senator McCarran (D-Nev.), head of the senate subcommittee investigating the alcohol situation, predicted that the War Production Board would sanction distillation of some liquor shortly after the committee filed its report. Nothing was said as to when the report would be ready.

Steering near the close, wheat finished unchanged to 1/4 higher than the previous close, May \$1.71 1/2; July \$1.68 1/2; Oct 1.65 1/2; Dec 1.62 1/2. Corn was up 1/4 to 1 cent, May \$1.29 1/2; Dec 1.26 1/2. Barley showed gains of 1/4 to 1/2, May \$1.26.

CHICAGO GRAIN TABLE
CHICAGO, March 13—(AP)—Wheat: May 1.71 1/2; July 1.71 1/2; Oct 1.68 1/2; Dec 1.65 1/2. Corn: May 1.29 1/2; Dec 1.26 1/2. Soy: May 1.66 1/2; Dec 1.63 1/2. Rye: May 1.66 1/2; Dec 1.63 1/2.

FORT WORTH LIVESTOCK
FORT WORTH, March 13—(AP)—Cattle 2,200; calves 700; early sales about steady on practically all classes; some later transactions ruled weak to 25c lower; good and choice fed steers and yearlings 13.75-15.00; most beef cows 8.50-10.50 with old head to 11.00 and better; good and choice 1.00-1.25; 1.50-1.75; medium and good stocker calves and yearlings 11.00-13.50 and a few stocker cows sold downward from 9.50.

Hogs 8,700; steady to mostly 10 cents below Friday's average; good and choice 20-23.00 lb butcher hogs 13.50-15.50; good and choice 100-150 lb hinds 10.00-13.25; packing sows 11.00-15; stocker pigs 4.00-5.00.

KANSAS CITY LIVESTOCK
KANSAS CITY, March 13—(AP)—(WFA)—Cattle 2,200; calves 700; early sales about steady on practically all classes; some later transactions ruled weak to 25c lower; good and choice fed steers and yearlings 13.75-15.00; most beef cows 8.50-10.50 with old head to 11.00 and better; good and choice 1.00-1.25; 1.50-1.75; medium and good stocker calves and yearlings 11.00-13.50 and a few stocker cows sold downward from 9.50.

HELP YOUR COMMUNITY DRIVES .. and You Help America

In Colonial days when a family faced misfortune, kindly neighbors set up a melting pot before the door. The community was quick to contribute, because lean and perilous years taught our forefathers that only by helping one another could all survive and earn security in a land of growing opportunities.

Today, when this hard-won security is in jeopardy, our country and many of its citizens need a helping hand. The Red Cross, the War Chest, the scrap and salvage drives and other calls on each community are realistic reminders of the pioneer spirit that bound our nation together... that gave us the highest standard of living the world has ever known. When we help our neighbors we help our country.

In every community, Budweiser is known as the Perfect Host to a host of friends. To serve your neighbors beer is simple hospitality, but to serve them Budweiser is a gracious compliment... and, it makes your simple wartime meals taste better.

Budweiser ANHEUSER-BUSCH • • • ST. LOUIS

In addition to supplying the armed forces with glider and bomber fuselage frames, wing parts, gun turret parts and foodstuffs, Anheuser-Busch produces materials which go into the manufacture of Rubber • Aluminum • Munitions • Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper Soap and textiles—to name a few.

MONTGOMERY WARD

Save Money, Time, Trouble...

WITH Resintone THE WALL PAINT ANYONE CAN APPLY!

One gallon of Resintone covers the walls of an average-size room

2.69 Gallon (79c a Quart)

Resintone SAVES MONEY!

Resintone "thins" with water! 1/2 gal. of water plus 1 gal. of Resintone gives you 1 1/2 gals. of ready-to-use paint. No oil or turpentine to buy... Resintone's thinner is free! Resintone's hiding power is so great that a lump of black coal can be painted a smooth even white with a single coat!

Resintone SAVES TIME!

Anyone can apply Resintone quickly and successfully, because it spreads so easily! Resintone dries in 40 minutes, without unpleasant odor. There's no need to be deprived of the use of a room! You can paint your room in the morning, and be all moved back in a bright, "new" room that same afternoon!

Resintone SAVES TROUBLE!

Redecorating with Resintone eliminates "after-painting mess", since Resintone rinses-off readily from hands, brush, roller or floor! However, after a week, a Resintoned wall can be washed with mild soap and water! Try it on one room now... you'll soon want Resintone for every room in your home!

RESINTONE IS SOLD ONLY AT

Montgomery Ward

217-19 N. Cuyler Phone 801

EASY TO APPLY!
Brush it on, or roll it on with the applicator. (Simple as rolling a carpet sweeper.) Resintone Roller Applicator is... 89c

ONE COAT COVERS!
Covers plaster, wallboard, painted walls, brick, cement, tile, wood, even polished wallpaper! No sizing or priming needed!

11 LOVELY COLORS!
Choice of 10 soft, glasslike pastel colors, or white! Get your free copy of the Resintone Color-Folder, at Montgomery Ward.

GAY TRIMZ BORDERS!
Colorful, gummed, easy-to-apply "wall-paper" borders! A variety of 12-foot rolls... priced at low as 15c a roll!

It's Auto License Time

It's here again, Mr. and Mrs. Motorist—that time when you must pay tribute to the state by buying new license plates.

Repeat Performance

The English naturally are not telling where all the bombs of recent German air raids are falling. But it would appear that their main efforts are directed at London, as they were in the 1940-41 attacks.

Three years ago the Nazis tried to knock Britain out of the war by terror raids. They failed. English and American flyers have also failed to knock out Germany by almost leveling Hamburg and Berlin and Leipzig.

Meanwhile, Marshal Goering, the old terror specialist, appears to be concentrating on his previous misconception.

The Nation's Press

THE LEND-LEASE ENIGMA (The Wall Street Journal) This newspaper's Washington Bureau advises us that a "bloc of high Administration officials has outlined a bargain it would like to make with the beneficiaries of lend-lease aid."

So far as the exclusion of money from consideration is concerned this newspaper is in whole accord with the decision. Our experience with the war debts of World War I settled that question once and for all. As to the other means under suggestion it will express no opinion at this stage of the matter.

Either the general principle of repayment is included in the general agreement under which lend-lease is operating or it is not. If it is not, the time to agree upon clearly stated terms is now. This is one of the post-war matters that cannot wait for post-war so far as principle is concerned.

THE CONSUMER PAYS

We wish to pursue further the thought that corporation taxes are paid by the consumers of the corporation products, not by the corporation or its stockholders.

Of course, it would not. It is fantastic to suppose that it would have forced a reduction in the price of steel to the point where earnings would have been just about what they were with the taxes. The consumers of steel have ways of knowing what the costs of making steel are and they would have refused to pay a price allowing such profits.

The significant figure in U.S. Steel's taxes is not the tax per share of stock. That means nothing. The significant figure is the tax per unit of production.

Common Ground

By R. C. BOILES "I speak the pass-word personal, I give the sign of democracy. By God I will accept nothing which all cannot have their counterpart of in the same terms."

Manifesto On Liberty

I have just received some of the literature of The Society of Individualists organized in London in 1942. The address of the Society is 154 Fleet Street, London, E.C.4.

"What follows is not a rigid creed, but a broad statement of beliefs, within which there may be many minor differences of view."

"1. State and Individual We reject the notion, common to all totalitarian systems, whether Communist, Fascist, or National-Socialist (Nazi), that the State is the ultimate and monopolistic super-entity, the sole source of authority and morality."

"2. Government. "State interference with the liberty of the subject should be reduced to a minimum. It is difficult, in complex modern societies, and in a world ravaged by war, to define that minimum with precision; but it is clear that of late years it has been vastly exceeding the minimum."

"(a) Our constitutional system needs a return to Parliamentary responsibility. There must be a reversion to the original principles of executive powers at the expense of the legislature and the judiciary."

"(b) The Rule of Law must be reasserted and jealously safeguarded. By the Rule of Law we understand the ancient constitutional principles that the administration of justice is the function of the Courts of Justice, and no secret administrative tribunals that there is only one system of justice applicable to all citizens."

"(c) If bureaucracy is to be retrained, decentralized, and administrative powers must be encouraged. The successful operation of democracy depends upon the highest possible degree of responsibility and intelligence in the electorate, so that intellectually influences, whether by written, spoken or broadcast word, may be seen in their true light and resisted accordingly. To this end the educational system should aim at true mental discipline, independence of judgment, and the awakening of interest, curiosity and enterprise."

"(d) The successful operation of democracy depends upon the highest possible degree of responsibility and intelligence in the electorate, so that intellectually influences, whether by written, spoken or broadcast word, may be seen in their true light and resisted accordingly. To this end the educational system should aim at true mental discipline, independence of judgment, and the awakening of interest, curiosity and enterprise."

taxes—averaged \$9.30 per ton of finished steel. The gross revenue equaled \$80 per ton. Taxes were about 12 per cent of the price of the steel.

Either the general principle of repayment is included in the general agreement under which lend-lease is operating or it is not. If it is not, the time to agree upon clearly stated terms is now. This is one of the post-war matters that cannot wait for post-war so far as principle is concerned.

STILL MOONSHINE

The treasury alcohol tax unit reports that the south leads the nation in the production of moonshine, mountain dew, white mule, or whatever you call it. It has, we suppose, been ever thus, and probably will ever thus continue.

Part of the south's predominance in the illicit liquor business is attributed to serfdom commercialism of course, but there still lingers that old feeling that the man who raises the corn has the right to peddle same in either dry or liquid measure. For the benefit of the inexperienced and uninitiated, incidentally, we may prefer a word of caution. Before trying to quaff moonshine, it is advisable to drop a large nail into same. If the nail disappears within 30 seconds, to the accompaniment of a gurgling bubbling and chemical mists, you should not touch the stuff. It is in need of a little more aging.

Around Hollywood

By ERSKINE JOHNSON It all started so innocently. Why, we didn't know a little dressing room like that could hold so many people—so-racy people.

Chic Johnson was alone, half asleep, on a couch in his dressing room when we knocked on the door. "Come in," he yelled. There was a slight delay. Chic said, "I'm filming of the new Olsen and Johnson comedy, 'The Ghost Catchers.'"

Ole Olsen, fanning a stack of sheets stuck his head in the door. "Ah," he said, "a customer. Wanna buy a ticket to the ice hockey game tonight at the Westwood Bowl?"

"It's tomorrow night," interrupted Eddie Johnson. "I've got to go to the picture."

"Wait until you see this picture," Chic Johnson said. "For the first time Olsen and Johnson have a story. Not just a lot of funny procs. It's whimsy—not whimsy. You see there's a house haunted by a ghost who tap dances every time he hears the tune of 'Swanee River.' This ghost also is quite a ladies' man."

"The dressing room door opened again. 'Hello,' said Walter Catlett. Walter is also in the picture. He was wearing a dressing gown over a pair of pajamas. 'Mind if I change?' he asked. No one seemed to mind so Walter started dressing. Walter suddenly took out his upper denture and held it close to his eyes. 'Look,' said Catlett. 'They're identical. Can you imagine that. Identical dentures. It's amazing. Why, I remember, 'Pardon us,' said a pair of wardrobe men, carrying in a turban about the size of a barrage balloon. 'Will you try this on for size, Mr. Johnson?' Chic tried on the turban and it plopped down over his ears and nose. 'Gosh,' said one of the wardrobe fellows, 'we measured wrong.'"

"Ole explained the turban was for a magician act in which Chic pulls two rabbits out of a hat. In a minute there are 200 little rabbits running around and Olsen screams. 'How many times have I told you to pull TWO rabbits out of a hat.' A very funny gag, he said.

"You know," said Chic, "it makes us mad when we go to those Hollywood night clubs and see gals stealing all our gags. Why, there's even a stage show in town using all our material."

"Yeah," said Ole. "The other night we were in the audience and I sent the comedian a note: 'Am OUR show?' Sure am enjoying OUR show!"

"It's murder," screamed Johnson. "but we're lucky. As fast as they steal 'em we can dig up new ones."

OFFICE CAT

Employer (Interviewing applicant for job)—Know anything about electricity? Applicant—Yes sir! Employer—What's an armature? Applicant—A chap who boxes for nothing."

Maybe you can't make a silk purse out of a sow's ear, but a silk stocking certainly improves a calf.

Peter Edson's Column: USE OF THOSE WAR PLANTS IN PEACETIME

By PETER EDSON Pampa News Washington Correspondent More and more, opinion in Washington leans to the idea that ways must be found to keep in post-war operation a large part of the government-built war plants—or face the prospect of vast unemployment.

Before the war, the American industrial plant was valued at approximately \$10 billion dollars. One-half of that has been converted to war production, the other half still functioning on civilian production.

LOCK UP, SELL, LEASE TRADE Lock them up the day the war ends and throw the key away, so that they won't be placed in competition with private industry. This idea is modified to the extent of keeping the plants in a stand-by

SIDE GLANCES

"Willie says those radio thrillers are too tame, so he's writing a horror story in which the population of Europe and Asia is wiped out by a death ray"

The National Whirligig News Behind The News

LOST—Rival aviation bigwigs are grousing privately at the preferred position which has apparently been granted to certain transportation interests and their financial backers in the Administration's handling of current and postwar problems in this important field.

SCARE—President Roosevelt could not withdraw from the fourth-term race now even if he should suddenly decide that 1944 looks like a Republican year from the White House down to the courthouse.

FRIENDS—Edward R. Stettinius Jr., Under Secretary of State and the active administrator of that department, is a brother-in-law of Juan T. Trippe, head of Pan American and an influential figure in Capital circles. Incidentally, Mr. Morgan is regarded as protégé of former Ambassador Joseph C. Grew, who will head the American delegation to the forthcoming international conference on the subject of air routes.

CRASH LANDING II It was Monk Hunter who broke the news that plans for the trans-Atlantic flight, at least the broad outline of them, had become public property. He read portions of the magazine article, which revealed that a chain of air bases—Labrador, Greenland, and Iceland—was being perfected for one purpose: to fly fighters as well as bombers to England.

MAYBE IT'S HERE: Leaves From The Editor's Notebook

The mapmakers of the country are expecting busy times come Victory Day and the turbulent months thereafter. Today's boundary lines will be as out-of-date as last year's baseball scores, and the maps will be nothing, if not quaint. With few exceptions, they can't tear 'em up and start from scratch.

Unless geography classes in the public schools are suspended (cheers from the children) until the cartographers come forth with the new stream-lined globe, we suggest that they be the first to get the inside dope on how the European and Pacific boundaries are to be redrawn.

At the expense of a good bit of space paper, one of our congressmen has determined that, in the course of 150 years, enough of these documents have been preserved in the nation's capital to make a pile as big as the Washington monument.

There is some talk of taking part of our 138,000,000-bushel potato surplus to make alcoholic beverages. Apart from its bearing on the liquor shortage, this possibility should interest all persons sensitive to the precise employment of our language.

SCARE—President Roosevelt could not withdraw from the fourth-term race now even if he should suddenly decide that 1944 looks like a Republican year from the White House down to the courthouse.

War Today

By DEWITT MacKENZIE "Suggests analysis of recent developments in Burma" wires a Southern newspaper publisher who breathes the adventurous spirit of a Marco Polo.

This really is a continuation of our column's previous story of a road, rather two roads—the Ledo and the Burma road, which was China's lifeline to the outside world before the Japanese overran Burma. When the invaders cut the latter road they left the Chinese end of it up in the air, so to speak.

As the result of that catastrophe American transport planes under our Lt. Gen. "Uncle Joe" Stilwell took over the job of supplying the hard-hit Chinese. Meanwhile American engineers drove a new highway northeastward through the Indian territory west of Burma to the town of Ledo which is just across the narrow northern tip of Burma from the severed end of the Burma road in Chinese territory.

Completion of the Ledo road was achieved some time ago and the problem became how to join it to the Burma highway.

Six months ago Uncle Joe set his fighting jaw and made himself a new strategy for outwitting the enemy from Northern Burma. We are seeing the results of this plan now. Working from Ledo, Stilwell sent specially trained Chinese troops into the Hukawng valley and they pushed southward towards the Japanese base of Maingkaung.

Simultaneously youthful Maj. Gen. Frank Merrill, with seasoned jungle fighters fresh from the Pacific as they are today on a menu. Time alone can tell what effect his might have upon judicial or police procedure in determining the various states and flavors of intoxication. Meanwhile, here's spuds in your eye.

In a judgment worthy of Solomon, a Memphis judge has reconciled, at least for his own community, the growing independence of war-working womanhood with the ancient doctrine of male supremacy.

He has ruled that women may wear slacks, but they are not to appear in public in men's trousers. So Memphis needs no longer wonder who wears the pants in its household. The answer is: Mama and Papa.

Shipping losses were up in March, 1942, and P-38 fighter planes were not getting to England in sufficient quantity. It was decided to fly them across the Atlantic via Labrador, Greenland and Iceland—a daring and novel project. Bombers had been flown over but never fighters. This is the story of how it was done.

CRASH LANDING II It was Monk Hunter who broke the news that plans for the trans-Atlantic flight, at least the broad outline of them, had become public property. He read portions of the magazine article, which revealed that a chain of air bases—Labrador, Greenland, and Iceland—was being perfected for one purpose: to fly fighters as well as bombers to England.

sific warfare, drove across mountains and through the terrible jungles, and came at the enemy in the Maingkaung region from the south. This created the trap which killed 2,000 Japanese and surrounded maybe 2,000.

American and Chinese forces are continuing to smash southward in the Hukawng valley. That word "smash" is an euphemism, by the way, for Associated Press dispatch yesterday said they "advanced two miles in 24 hours." That's how hard the going is in this fever-ridden, snake-infested jungle country. This Stilwell expedition undoubtedly is headed ultimately for the Japanese super base of Myitkina, south of the Hukawng valley.

Today a fresh development is reported. British troops have crossed from Assam into Burma west of Myitkina, presumably with the idea of hitting that base from the south while Stilwell smashes at it from the north.

The objectives of these epic operations really are threefold. They are (1) to permit of the joining of the Ledo and Burma roads; (2) to create new Allied air bases; and (3) to keep the Japanese from crossing into the Chinese province of Yunnan and attacking Chiang from the rear.

Stilwell's campaign is a gallant effort, but we shouldn't expect miracles. Also we should remember that this is only spade-work for the final big drive.

Mrs. James W. Love

Anna Belle Lard Becomes Bride Of James W. Love at Pampa Field

In a double ring ceremony read March 12, 9 a. m., Miss Anna Belle Lard, daughter of Mr. and Mrs. Claude A. Lard, 228 W. Craven, became the bride of Pfc. James W. Love, son of Mrs. J. B. Love of Vernon.

Following the ceremony a reception was held in the enlisted men's service club at the Pampa field. A three-tiered bride's cake trimmed with the bride's colors, topped with a miniature bride and bridegroom centered the table.

The bride's chosen colors of orchid and white carried out chapel decorations in a large basket of flowers backed with cathedral candelabra. Candles were lighted by Sgt. George Jacks and Sgt. John Parson, ushers.

The bride was given in marriage by her father wearing a white coat dress fashioned with three-quarter length sleeves and a low round yoke of white net. With this she wore accessories of black patent.

The bride's mother wore a navy-blue wool suit with white and navy accessories. Her corsage was of pink gladioli tied with orchid and white satin ribbon.

BUY BONDS Announcement The Winsome class of the First Baptist church will meet in their class room for their weekly class meeting at 2 o'clock Thursday.

'A Tree Grows In Brooklyn' Given In Review Thursday

Special To The NEWS. MIAMI, March 14—Mrs. R. B. Dial was hostess Thursday afternoon to members of the Home Progress club and four guests, Mrs. C. F. Pursley, Pampa; Mrs. Iva Pursley, Mrs. Ewell Webster and Mrs. Leo Paris, of Miami.

After roll call the special prayer for peace was given by Mrs. E. Lee Stanford.

Mrs. Glynn Dodson was guest speaker and was presented by Mrs. R. B. Mathers. Mrs. Dodson reviewed "A Tree Grows in Brooklyn," by Betty Smith. The program was concluded by Mrs. E. Lee Stanford who sang two numbers.

The Saint Patrick motif was carried out in a dainty refreshment course, which consisted of angel food cake, ice cream, green minis. Mrs. John Webster will be hostess Thursday, March 23.

BUY BONDS THE Home Nurse By MARY BEARD Written for NEA Service Whether it's rheumatism, joint, a strained muscle or a toothache, the application of dry heat usually gives relief. There are two conditions, however, in which the home nurse should never apply heat without a doctor's advice.

When electricity is available, an electric pad is convenient for applying dry heat. Such equipment is now likely to be rather old and worn, so be very careful to see that the insulation of the wire is in perfect condition before you use it. Be sure, also, that there is no possibility of the pad coming in contact with moisture, else a short circuit may occur.

CHECK DEGREE OF HEAT Although many electric pads are equipped with automatic devices to adjust the heat, they should be watched carefully to see that they do not get too hot. An electric pad should never be left on all night while the patient sleeps, unless there is someone to watch it closely. Always wrap any heating appliance with a towel or piece of flannel before placing it against the skin.

Chemical heating pads which heat quickly and retain heat well are on the market. But they, too, may become too hot and burn the patient severely, so they require the same precaution of wrapping and watching.

Annual Rush Tea Is Held Sunday

Sigma Delta Suq Deb club members held their annual rush tea Sunday afternoon in the city club rooms.

In the receiving line were the following club members: Mary Jo Gallemore, president; Frances Crocker vice-president; Pat Lively, Mildred Overstreet and Joye Hale. Miss Evelyn Kidwell presided at the register.

Club colors of blue and gold were carried out in the table decorations with punch being served from a bowl encircled with palm leaves and yellow flowers. The cake, decorated with blue and gold, was served by Dorothy Culbertson. Mary Jo Gallemore presided at the punch bowl.

A short program was given by the members and guests. Barbara Johnson sang, "My Heart Tells Me," after which Barbara, Dorothy Ann and Sue Johnson sang, "Hawaiian War Chant." Sharilyn Rose Pocock played several piano selections, including "Shoo Shoo Baby." Sue Johnson sang "Jenny" and the program was concluded when Anna Lois Alford and Pat Lively sang the club song.

Members present were: Pat Lively Evelyn Kidwell, Frances Crocker Helen Marlin, Mary Jo Gallemore Anna Lois Alford, Sylie Johnson Betty Lou Schukley, Phyllis Parker Sharilyn Pocock, Duane Vieux, Dorothy Culbertson, Joye Hale, Mildred Overstreet, Geraldine Gebbert, Dorothy Anne Johnson and Barbara Johnson.

Guests attending were: Bertie McDowell, Gwen Weston, Carol Perkins, Frances Gilbert, Joanne Thompson, Mary Myrtal, Barbara Norris, Anne Kiefer, Mildred Groves, Carol Keyes, Martha Sue Sheely, Joan Hawkins, Vernell Byrum, Fussy Pierson, Marjorie Sloan Polly Ward.

BUY BONDS A hot water bottle properly filled and checked is an entirely satisfactory heating device. A good substitute for an electric pad or a bottle is a small bag of salt or sand heated in the oven. It heats slowly but retains heat well. One bag can be heating while another is in use.

Give Grooming This Thorough Brush Routine

Brushes used all the way through a grooming routine are what turn a girl out looking as fresh as rain. Got an old mascara brush, for instance, that can be salvaged from a box of used-up paste? Clean it, and use it to drag powder out of your hairline, after you put on make-up. Also use it to soften out gooseberry prickles from too-starched eye-lashes. Don't forget, too, that this brush will snudge-soften the sharp crayon line of brows, after you make your mark with your pencil.

A complexion brush—some are outright baby brushes swiped by grown-ups—is nice for sweeping a face clean of excess powder. If you'll use gentle, one-way strokes, your skin will not only look more meticulously made up but people will think it has more texture.

A clothes brush, dampened ever so slightly from the palm of a wet hand, can be whisked over a dark suit to pick up lint, to erase smudges, to lift pressed-down nap and to freshen up fabric. The same brush can also be used on crumpled-up gloves to make them look more spick and span. A felt hat can be made to look almost like new, given the same kind of treatment. A whisk broom will make short shrift of dust that collects on a fabric hat or the flowers that trim it.

And, finally, a shoe brush whipped over the surfaces and around the soles of your slippers will keep them and your looking flower-fresh from the tip of your toes to the top of your head.

Pull the Trigger on Lazy "Innards"

WHEN CONSTIPATION makes you feel punk as the Dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine to quickly pull the trigger on lazy "innards" and help you feel bright and chipper again.

94—Money to Loan

ST. LOUIS, March 14—(P)—Southwestern Bell Telephone Co. has reported its operating revenues in 1943 amounted to \$137,850,065, a gain of \$18,235,294 over the previous year, but greater expenses and higher taxes held its net income to \$15,712,355, an increase of only \$1,285,388 over 1942.

The company's annual report said that this year is costing Finland in meeting an unprecedented demand for telephone service, despite inability to expand facilities, shortages of materials and loss of experienced employees.

A total of \$1,871,000 long-distance calls originated from Southwestern telephones during the year, an increase of 22 per cent. The company serves Missouri, Arkansas, Kansas, Oklahoma, Texas and a portion of Illinois adjacent to St. Louis.

By making use of outmoded equipment the company was able to show a net gain of 117,109 telephones, bringing the total in use to 1,985,026, but there still were 80,091 unfilled applications on file at the end of the year.

New multi-channel carrier cables were put into service between Dallas and San Antonio last fall, the report said, and helped to relieve long-distance congestion between military centers in Texas. These underground cables, the first of their type to be installed by the company, permit 12 conversations to be carried over one pair of wires in each direction.

Card, Pirate Red Players Join Holdouts

By TED MEIER
NEW YORK, March 14—Star catcher Walker Cooper, of the St. Louis Cardinals; Vince DiMaggio slugging outfielder of the Pittsburgh Pirates; and Gene Walker, outfielder of the Cincinnati Reds, are the latest additions to the 1944 ranks of baseball holdouts.

Generally from office men dislike the word holdout, but players unassigned at the start of spring training are regarded by the fans in that category. Warren Giles, general manager of the Reds, expressed the front office view of asserting "there are no holdouts among the Reds). Some are just late in reporting."

Cooper, in company with first sacker Johnny Hopp, discussed terms with President Sam Breadon of the Cards yesterday, but the two did not sign contracts. Breadon asserted afterward "I don't expect any trouble. We didn't discuss terms seriously."

No comment was forthcoming from the Pirates on DiMaggio except that the hardhitting outfielder was unassigned. Walker, however, announced in Orlando, Fla. he wants more money from the Reds.

That puts Walker in the company of such other stars as shortstop Billy Jurges, of the New York Giants; Ron Northey, outfielder of the Philadelphia Phillies; outfielder Luis Olmo of the Brooklyn Dodgers; and pitcher Luke Hamlin, of the Philadelphia Athletics, all of whom have asserted they want a salary hike.

Then there's pitcher Bobo Newson, traded to the A's by Washington, who has announced he is satisfied with Connie Mack's terms, but for some unexplained reason has not yet put his "John Hancock" on a contract.

Other diamond developments yesterday included:

ATLANTIC CITY—Yanks bought catcher Joe Glenn from Kansas City but learned pitcher Marvin Breuer has decided to remain in his war plant job.

BLOOMINGTON, Ind.—Eleven players missing as Reds worked out **MUNICE, Ind.**—Pittsburgh Pirates informed pitcher who was induced into army at Charlotte, N. C. Pitcher Wally Hebert and catcher Frank Camelli detained by winter jobs and will arrive at camp late.

FRENCH LICK, Ind.—Manager Jimmy Wilson, of Cubs, delighted that playing field in excellent condition.

EVANSVILLE, Ind.—Detroit Tigers announced Elow (Cris) Hogsett, who pitched for them decade ago, will try out for pitching berth.

The chief, a southpaw, was with Minneapolis recently. Pitcher Henshaw sent word he intends to remain at his Chicago war job.

LAFAYETTE, Ind.—Outfielder Roy Cullenbine, of Cleveland, contract, the 21st Indian to sign.

CHICAGO—Infielder Grey Clarke, up from Milwaukee, and Bob Miskel, pitcher, from St. Paul, signed White Sox contracts after being at French Lick camp Thursday. Outfielder Myril Hoag also signed bringing total satisfied players up to 29.

LAKEWOOD, N. J.—Manager Mel Ott announced he has been reclassified I-A. Thirteen players still unassigned, including Jurges.

COLLEGE PARK—Washington Senators took it easy in first workout. Pitcher Alex Carrasquel reported from Venezuela and brought along a countryman, pitcher Juan Hernandez.

BOSTON—Veteran pitcher Jim Tobin signed with Braves and will report to Wallingford, Conn., camp soon.

San Antonio Sprinter Can't Run At Drake
SAN ANTONIO, March 14—Charlie Parker, Jefferson (San Antonio) high school's state sprint champion, will be unable to compete in the Drake relay, April 29, where meet officials expressed willingness to arrange a special 100-yard dash for the nationally-known speedster, local school officials announced Monday. The Drake meet comes only a week before the Texas interscholastic championships. School officials pointed out, and the trip to Des Moines might be trying for Parker, pace setter of a Jefferson team which expects to make a strong bid for the Texas track title.

Punch Drunk

Like multiple vision of punchy fighter, four combatants seem to weave about ring in battle royal in Golden Gloves tournament of amateur champions in Chicago. But this time it is photographer rather than boxer who is seeing double. The boys are Mert Hickrick, left, of Minneapolis and Ed Horton of New Orleans.

Giants' Manager Classified As I-A

LAKEWOOD, N. J., March 14—Manager Mel Ott began his second season as manager of the New York Giants Monday by telling his players that he had been reclassified I-A in the draft.

Ott is one of three big league pilots eligible for the draft. Lou Boudreau, boss of the Cleveland Indians, recently was placed in the I-A group and Joe Cronin, head of the Boston Red Sox players, won't be 35 until Oct. 12.

Ott gave no indication when he met with the press that he would be called. He spent the off-season working in a New Orleans shipyard.

Chihuahua Cagers Win Sixth Title

CHIHUAHUA, Mexico, March 14—Los Dorados of Chihuahua won their sixth consecutive national basketball championship last night, and a tour of Latin America, by defeating Mexico City, 66 to 44.

Los Dorados, who recently returned from a tour of Western United States, will leave early in April to play in Panama, Peru, Chile, Uruguay, Brazil, Cuba and perhaps other countries.

Dallas Fighter Loses To Floridan

HOT SPRINGS, Ark., March 14—A Tampa, Fla., boxer, Buddy Scott, 183, last night won a 10-round referee's decision from J. D. Turner, 215, of Dallas. Both are claimants to the Southern heavyweight title.

Turner was given the first three rounds by Referee Harry Foley, who awarded the last seven to Scott. The Tampa boxer used a rather like left to good advantage and although there were no knockdowns, Turner sagged in his knees momentarily in the ninth after a hard left to his liver.

String Section Damaged

KANSAS CITY—David Van Vactor, assistant conductor of the Kansas City philharmonic orchestra, brought his baton down with a flourish. It struck a valuable Gagliano violin in the hands of Miss Dorothy Averell, assistant concertmaster, knocking the instrument to the floor. It was so badly damaged repairs can't be made before the end of the season.

From bull ring to racetrack is unusual jump made by Teodoro Espel, 19-year-old apprentice who rode first winner at Hipodromo de las Americas. Young Espel was an apprentice matador when runners came to Mexico City.

Sports Roundup

By HUGH FULLERTON, JR.
NEW YORK, March 14—Now that spring training is under way, major league managers are predicting this will be a "pitchers' year."—what pitchers?—a very rough survey of the red and green books shows that the reasonably good bowlers still are outnumbered by the fair-to-middling hitters—we don't look for much change in the normal balance except in the cases of such clubs as the Yankees and Senators, who still have enough good pitchers to put one on the hill every day after watching Gil Dodds bust the indoor mile record Saturday, this dept. is convinced the fabulous four-minute mile will be attained only when someone turns up who can run four 60-second quarters—Gil's limit is three and he was able to make record time only when he slowed down a bit in the third.

Observation Post

Jimmy Conzelmann once tried to sign Robert E. Hannegan, chairman of the National Democratic committee, for his Detroit Panthers when Jimmy coached the first National Football league team in Detroit. Hannegan, in Conzelmann's opinion, was a terrific blocking back and kicker—well, blocking and kicking come in pretty handy in politics, too.

BUY BONDS

One-Minute Sports Page

The Carta Blanca Baseball club of Metamoros, Mexico, bills itself as "the team of the great surprises."—sounds like the Dodgers.—Promoter Joe Lynch estimated that he lost \$2,600 on last week's Juan Zurita-Sammy Angoit lightweight (NBA) title fight after paying Sammy \$17,500 and Juan \$5,100. The magazine "All America" basketball team (just out) lists Otto Graham, Don Grate, George Mikko, Leo Klier and Alvin Payne. But the Great Lakes sailors, who played most of the teams, omitted all but Klier from their all-oppoents' team.

Dartmouth Coach Wants Dodds To Vie For New Record

HANOVER, N. H., March 14—Harry Hillman, veteran track coach, was plotting another attack on the American mile record today after being assured by his Dartmouth college superiors that his famous over-sized board, running track would be rebuilt.

Hillman plans to have Gil Dodds, the Boston divinity student who lowered the indoor mile record a tenth-second to 4:07.3 in New York last Saturday, go after Glenn Cunningham's unrecognized 4:04.4 indoor mark, made on Dartmouth's lightning-fast boards four years ago, here shortly after April.

Studer Retained As Secretary Of New Rodeo Loop

FORT WORTH, March 14—The National Rodeo association, formerly the Southwest Rodeo association, Monday raised Floyd B. Rigdon, publisher of the Carlisbad, N. M., Daily Current, to the presidency and voted to incorporate the organization as a non-profit institution under the laws of Texas.

Rigdon, formerly first vice-president, succeeds Scott D. Hamilton, manager of the Little Rock, Ark., chamber of commerce and formerly secretary of the Arkansas-Oklahoma rodeo at Fort Smith, Ark.

Ralph E. Wolf of Waco, was raised from second vice-president to first vice-president, Roy F. Evans of Dodge City, Kan., was made second vice-president, and C. A. Studer of Canadian, was retained as secretary-treasurer.

To be away goes L. Lou Brooks of Pittsburg, Okla., who was named all-around cowboy by the NRA on the basis of winnings during the 1943 season. He also draws bareback bronc riding awards.

Amye Gambill of Wilson, Okla., takes the calf roping award, Andy Curtis of El Reno, Okla., the saddle bronc award, and Jones of Wichita Falls, the steer wrestling prize, Fuzzy Garner of Canute, Okla., the bull riding prize, and Everett Shaw of Stowwaka, Okla., an award for single steer roping. Twenty-fifth place, a consolation award, goes to Dee Burk of Comanche, Okla., now a soldier, at Fort Sill.

Incorporation of the association was moved by desire to "carry on the tradition of the West" and to preserve cowboy spirit and to help to formulate standard rodeo rules.

Strikes In Spare

Last of a series
By JIMMY SMITH
 King of the Tenpins
 Every bowler wants to make strikes, but spars are important, also. Remember, you can't make 'em.

A general rule to follow in making spars is "start the ball from the side of the alley opposite from the pins. Making a center pin spare, start ball from center of alley.

All games have their rules of etiquette. Bowling is no exception. Always remain back of foul line. Do not step in front of bowler on adjoining alley at any time. Use only width of your own alley in delivering your ball or in making your "body english" after releasing ball.

Do not loiter at foul line after making your shot. Don't talk to a bowler addressing his pins. Use good sportsmanship at all times.

Keep in mind bowling is just a game, that misses are as much part of it as strikes and spares. Control your temper and you'll control your game—and get the most out of it.

Magnesium Reported Ample For Civilians

WASHINGTON, March 14—The senate's Truman committee has released a report charging "extraneous and inefficiencies" in a giant \$133,000,000 government-financed magnesium project at Las Vegas, Nev., but reported production of that metal has reached a point where the use of civilian goods manufacture should now be permitted.

The report urged the war production board to cancel its order limiting the use of magnesium to war and essential civilian items. Such a step, the committee said, would lay the foundation for a new postwar industry through development of new uses for the metal and protest the government's \$560,000,000 wartime investment in the magnesium plants.

Further research should be undertaken, the committee said, to develop magnesium for such uses as the making of photographic plates, automotive parts, portable tools, conveyors, vacuum cleaners, typewriters and business machines. Magnesium is a metal one-third lighter than aluminum.

In charging waste and inefficiencies in the construction and early operation of the Nevada development, described as the world's largest, the committee said its actual cost as of last Nov. 30 was in excess of \$129,000,000, and that its final estimated cost of \$133,000,000 was almost double original estimates.

Fortress Sirafes Nazi Army Camp

A U. S. BOMBER BASE IN ENGLAND, March 14—Sgt. Gunners Frank E. Baugh of Marshall, Tex., and Mathew S. Braniff of New Orleans were members of the crew of the Flying Fortress "Snafu" which last week had its entire nose and part of a wing shot away during a battle with Nazi fighters on one of the attacks against Berlin.

The bombardier of the plane, piloted by Lt. Leo Sullivan of Corning, Ohio, was killed when a shell exploded in the nose of the craft. One engine was knocked out and the right wing was chewed and twisted. But Sullivan kept control and dived down to evade his attackers.

Then started a desperate journey all the way from Berlin to Britain on three engines with the plane hugging the ground.

As the "Snafu" skinned over a bombed-out German airfield Baugh and Braniff emptied their guns into a few buildings which were still standing.

The bomber buzzed low over another Nazi camp where surprised soldiers went scattering for cover.

"There must have been at least 50 and they started shooting at us, but their tracer were under and behind us," Sullivan said. "We were only 25 feet off the ground and shooting back."

Close Study Of Labor Relations Advocated Now

DETROIT, March 14—(AP)—Asserting that he favors a minimum of governmental interference in the problems of labor relations, William H. Davis, chairman of the national war labor board, said Monday he believed management and labor advantageously could begin now a careful study of the scope of collective bargaining in its non-wage aspects.

Addressing a meeting of the Economic Club of Detroit, he said: "There is no doubt in my mind that one of the greatest impediments to collective bargaining between management and workers is fear in the minds and hearts of both sides."

Davis offered eight general suggestions to help "speedy victory in the war and at the same time build up sound industrial relations for the postwar period." He summarized them as follows:

1. Live up to your contracts and make them work.
2. Install arbitration as the final stage in your contract's grievance procedure.
3. If you already have grievance machinery, see you utilize it in all disputes.
4. If your contract is about to terminate, extend it until you have negotiated a new one, or until the regional board has rendered its decision.
5. Employers should not cause dissension in their plants by challenging the right of a duly certified union to represent their employees in collective bargaining.
6. The same holds for unions and their striking activities, of course. Let's leave the raising of the navy's task forces, which seem to be quite expert at it.
7. When negotiating new contracts, or revising old contracts, make sincere effort to negotiate a settlement.
8. Above all, employers should impress upon their foremen, superintendents and other supervisors that you don't build tanks or guns or anything else by fomenting quarrels with your employees; that the way to better labor relations is to treat the employees like human beings. And, of course, that goes for the employees' side, too. Large leaders must not poll politics by manufacturing grievances in the plants.

"With a few noisy exceptions leaders of industry and labor during the war have settled their differences at the conference table or through the WLB. Let us hope they will substitute the conference table for the picket line or lockout after the war," Davis concluded.

More than one-half of the entire war production for the army in 1944 will be aircraft and air equipment.

Final Liquor Vote Returns Still Out

Three days after the election was held the county commissioners today still didn't have the official returns on the special election held Saturday in commissioners precinct 1, comprised of LeFors, Laketon and Farrington, when voters of that precinct cast their ballots on whether or not they favored sale of intoxicating liquors in the precinct.

Both LeFors and Farrington have turned in their vote, but Laketon's count was still missing this morning.

While LeFors voted 229 "wet" to "dry," the Farrington vote was two to one for the "drys," at 11 to six.

The Farrington vote was exactly one-half the number of poll tax receipt holders in that vicinity.

'INVALIDED' JEEPS SERVE ON HOME FRONT

JeePs judged unfit for further military service and released by the Army are doing right well on the home front, where the demand exceeds the supply. Some of their versatile activities, snapped on the Lake Geneva, Wis., farm of Marion Isbell, Cigars restaurateur, are shown above. At top, jeep "rides herd" on his dairy cows. Center, left: Because of its power and good traction the jeep is used to haul ice cakes cut from Lake Geneva onto the truck-loading platform. Center, right: The jeep pulls the feed rack right up to the cattle's feeding bins. Bottom: Its facility for short turns and ease on rough terrain makes jeep a handy helmsman for the lumberman.

SOLDIER

(Continued from Page 1)

to army authorities at that time.

But army life didn't catch up with Zealor, he says, until early last month when his mother, Mrs. Katherine Zealor, of Bridgewater, Conn., received a communication from the war department saying her son's whereabouts were not known. She telegraphed the department that he was home. He soon was ordered to report here.

Zealor, who says he stayed home and took it easy because "I didn't know what to do," related yesterday that he went into the air forces in January, 1942, and was sent overseas six months later. After 26 combat missions in the African theatre of war, he was awarded the Distinguished Flying Cross, Silver Star and Air Medal.

He returned to this county Jan. 10, 1943, and reported at Morrison Field, West Palm Beach, Fla. There he was given a furlough and told to await orders.

NAVY

(Continued from Page 1)

met only when the expansion of the fleet has been accomplished.

Discussing the war against Japan, Knox reported that carrier-borne aircraft are destroying enemy planes at a rate of better than 13 to 1 in the current Central Pacific offensive. He said that more than 600 Japanese planes had been destroyed in major actions since last November, against American navy plane losses of only 45.

"Several factors have contributed to the high Jap losses," he explained. "One is the fact that the enemy is being caught repeatedly with large numbers of his aircraft on the ground—253 of the more than 600 Jap planes destroyed, or nearly 40 per cent, were pinned down and bombed or strafed before they had a chance to get in the air and fight."

RED CROSS

(Continued from Page 1)

Red Cross. In proportion to some wages this amount is indeed a generous amount to give and it may be said that those individuals are whole-heartedly supporting their Red Cross," Mr. Henshaw continued.

"Still, there are more cases wherein the individual is drawing a high salary because of wartime wages, spending more money for luxuries and yet they are making small donations to their Red Cross," Mr. Henshaw said.

"During the drive it is well to remember that this is a drive for destiny and blood. In this month you are hand-in-hand with fighting men. The difference is that these Americans are fighting and dying; you are only watching, working, giving."

The Red Cross asks your help so that it can give it back to you through serving your soldier. You can give comfort to men in battle and heart to men behind barbed wires or army prison camps by giving to the Red Cross, so give and give generously," Henshaw concluded.

Colonel Assists Marine Private

CAPE GLOUCESTER, New Britain (Delayed)—(AP)—Wounded Marine Pfc. John L. English of Port Arthur, Texas, was helped to a bomb crater by an older Marine he didn't know who adjusted a tourniquet around English's upper arm, gave him a cigarette, flagged a jeep to send him back to the hospital.

"Thanks, pal," said Pfc. English. "You're welcome, son," replied the older Marine Col. John Taylor sent the older of Richmond Va., as he went back to direct the battle.

GERMANS

(Continued from Page 1)

within 75 miles of Odessa today—and unchecked.

Moscow told this tale: 75,000 Germans killed or captured in the Ukraine in 10 days; 350,000 slain and 40,000 captured during the sustained winter offensive. Some 230 settlements were taken yesterday. The capture of Skalat widened the deep central salient in old Poland, increased the threat to Rumania, 45 to 50 miles from Russian guns.

All along a 500-mile front, the Germans appeared in swift retreat toward the Dniester river where they may try a determined stand on the old Rumanian border. The mud of the Ukraine was so thick and clinging that thousands of their guns, tanks and trucks had to be left behind.

As Russian armies neared Rumania, Prince Stirbey, a former premier, was reported en route to Cairo with peace bids which were said to have full approval of the Antonescu government. Vichy said the Turkish-Syrian frontier was closed "because large scale military maneuvers are under way."

BUY BONDS
BURMA

(Continued from page 1)

Admiralty group under control occupied two small islands 1,000 yards off the coast of Manus island, largest in the Admiralties. Minor resistance was overcome.

Wewak, New Guinea, was pounded from the air for the second straight day with a 112-ton assault Sunday, and Rabaul, New Britain, had Allied planes overhead for six hours during a 117-ton strike.

Wake island, enemy-held U. S. possession in the mid-Pacific, was raided for the 15th time when army and navy heavy bombers poured 50 tons of explosives on the tiny island's defenses Saturday.

Other planes hit Nauru island southwest of the Gilbert group and three un-designated atolls in the Marshalls.

The new Allied success in north Burma puts the British troops about 100 miles west of Japan's Irrawaddy valley defense line, toward which Lt. Gen. Joseph W. Stilwell's forces are driving from the Hukawng valley.

A headquarters communiqué revealed Stilwell was visited recently at his advanced headquarters by Lord Louis Mountbatten, Allied commander in Southeast Asia.

The first cross-continental flight was made in 1911 by Calbraith P. Rogers, who flew from New York to Pasadena, Calif. in 59 days.

No. 1 Caribeaity

SOFT GROUND

(Continued from Page 1)

at Frankfurt and other places in western Germany.

It was the second bombardment of Le Mans—115 miles southwest of Paris and on the shortest rail route between the north and west coasts—in six nights. Two bombers were lost during the night.

The precision blow by moonlight was another explosive punch in the new Allied day-and-night campaign against Nazi transportation facilities all over France, hitting at the vital arteries of quick movement of troops and supplies to the Germans' "invasion wall."

The Germans, their "blitz" revival at least temporarily subsiding to sneak raids, for the second successive night sent a small force over the south coast of England, dropping a few bombs harmlessly and setting off sirens in one London area.

The RAF night fighters also laid mines in enemy waters. One plane was lost on intruder patrols over the continent.
